The copy filmed here has been reproduced thanks to the generosity of:

Vancouver City Archives

The images appearing here are the best quality possible considering the condition and legibility of the original copy and in keeping with the filming contract specifications.

Original copies in printed paper covers are filmed beginning with the front cover and ending on the last page with a printed or illustrated impression, or the back cover when appropriate. All other original copies are filmed beginning on the first page with a printed or illustrated impression, and ending on the last page with a printed or illustrated impression.

The last recorded frame on each microfiche shell contain the symbol → (meaning "CONTINUED"), or the symbol ▽ (meaning "END"), whichever applies.

Maps, plates, charts, etc., may be filmed at different reduction ratios. Those too large to be entirely included in one exposure are filmed beginning in the upper left hand corner, left to right and top to bottom, as many frames as required. The following diagrams illustrate the method:

L'exemplaire filmé fut reproduit grâce à la générosité de:

Vancouver City Archives

Les images suivantes ont été reproduites avec le plus grand soin, compte tenu de la condition et de la netteté de l'exemplaire filmé, et en conformité avec les conditions du contrat de télécopie.

Les exemplaires originaux dont la couverture en papier est imprimée sont filmés en commençant par le premier pied et en terminant soit par la dernière page qui comporte une empreinte d'impression ou d'illustration, soit par le second pied, selon le cas. Tous les autres exemplaires originaux sont filmés en commençant par la première page qui comporte une empreinte d'impression ou d'illustration et en terminant par la dernière page qui comporte une telle empreinte.

Un des symboles suivants apparaîtra sur la dernière image de chaque microfiche, selon le cas: le symbole → signifie "À SUIVRE", le symbole ▽ signifie "FIN".

Les cartes, planches, tableaux, etc., peuvent être filmés à des taux de réduction différents. Lorsque le document est trop grand pour être reproduit en un seul cliché, il est filmé à partir de l'angle supérieur gauche, de gauche à droite, et de haut en bas, en prenant le nombre d'images nécessaire. Les diagrammes suivants illustrent la méthode.

WINCH BUILDING

The Winch Building

LOCATION

THE WINCH BUILDING of Class "A" Steel Cage Construction is situated at the North East corner of Hastings and Howe Streets, Vancouver, British Columbia, adjoining the new Federal Post Office Building.

The Building has an area of 12,480 square feet, a frontage of 120 feet on Howe Street and 104 feet on Hastings Street, the main business thoroughfare of the City of Vancouver.

The location of an office or place of business is the main consideration which should govern its selection and the position of the Winch Building on Hastings Street possesses an advantage which is of the greatest value in this respect.

CONSTRUCTION AND FOUNDATIONS.

The Foundations of the Winch Building are the best and strongest known to modern construction. 312 tons of steel grillage beams, imbedded in massive piers of granite and rich concrete form the footings for perfectly braced, riveted and fire-proofed structural steel. The floors are of solid (reinforced under the latest improved system) concrete.

These facts afford the maximum of security at the minimum of insurance, both of amount and rate.

OFFICES

One Hundred and Thirty Modern Offices are contained in the building. These offices vary in size, and as the building has a splendid frontage on three streets, all the offices are exceptionally sunny and well-lighted.

Tenants will be supplied with every modern convenience. Every office is heated with steam, and equipped with both hot and cold water, electric light and gas. The offices contain fire and burglar proof vaults. Cleaning will be done by the latest improved process, and a Janitor's service provided. Two Otis Fensom Electric Elevators of the most modern type, running 350 feet per minute will furnish efficient service. The electric wiring has been installed under the latest and most modern method of installation.

The Main Corridor is lined with Italian Marble and has a barrelled vaulted ceiling in modelled plaster. The floor is laid in rich Ceramic Mosaic Tiling. The upper corridors are floored and lined with tiles.

SPECIAL ACCOMMODATIONS

Lawyers will find the Winch Building a most desirable location for their offices. It is convenient and attractive for clients. Its location is easily fixed in the minds of the people, and it is within easy reach of the new Court House and Public Offices. The situation of the building is particularly adapted to the use of Artists and Architects, to whom light conditions are of paramount importance.

SUMMARY

A Summary of points in favor of the Winch Building

It is an entirely new building of class "A" steel cage construction, affording the greatest possible security against all hazards at the minimum rate of insurance.

It is ideally situated for the convenience of the greatest number of people, being on the main artery of the City and accessible by direct car service to all sections.

It is Up-to-date in every respect from basement to roof. It is absolutely fire proof and is fitted with every modern improvement and convenience.

So many hours a day are spent by a business man in his office that it is essential to his safety, health and comfort to select a perfectly equipped modern building, with light and sunny exposures.
