A PERFECT TEA

MONSOON TEA
THE FINEST TEA IN THE WORLD
FROM THE TEA PLANT TO THE TEA CUP
IN ITS NATIVE PURITY.

"Monsoon" Tea is put up by the Indian Tea growers as a sample of the best qualities of Indian Teas. Therefore they use the greatest care in the selection of the Tea and its blend, that is why they put it up themselves and sell it only in the original packages, thereby securing its purity and excellence. Put up in 1/2 lb., 1 lb., and 5 lb. packages, and never sold in bulk.

ALL GOOD GROCERS KEEP IT.
If your grocer does not keep it, tell him to write to

Harriston.

A monster demonstration was held here Friday. The town was gaily decorated with evergreens and flags, and the Twelfth of July was celebrated in the usual loyal manner by marching and speech-making. Special trains brought in large crowds. By noon upwards of 8,000 people had assembled from neighboring towns and country to do honor to the memory of King William and the Boyne. Light showers interfered slightly with the program, but all seemed to enjoy themselves. Everything passed off quietly and in good order. A baseball match in the morning between Cargill and Harriston resulted in favor of Harriston—score 14 to 1. In the afternoon Arthur and Harriston played ball and Harriston won—score 25 to 14.

Belmore.

Mrs. Kay of Detroit is visiting friends in town.

A large number of the friends from here attended the celebration in Harriston, July 12th.

Mr. and Mrs. Jno. S. Hall and Mary A. Hall of Windsor, are renewing acquaintances in around town.

Mr. R. Harkness, returned missionary from Japan will occupy the Methodist pulpit next Sabbath morning.

Is it not too bad such a respectable town as Wrexeter should have such loyal British subjects as some of its prominent business men and one of its professional men as to send up to the station a crowd of boys, who knew no better, with tin pans and sticks to meet those who are indeed loyal, but yet it is all that is expected from them. We pity boys who have such men to instruct them.

Lakelet.

John Bell is building a fine brick residence.

The framers are about through with Mr. Hubbard's barn. Mr. Nelson is having a foundation placed under his barn.

There are a great many sick in this vicinity. We trust, however, that they may soon be restored to their usual health.

Mr. Dulmage sold his summer's supply of butter to a Montreal firm the other day at 12c. There were about 40 tubs, and were shipped from Mildmay station.

Our townsman, George Horton, is doing a big business. He is away nearly every day, and comes home with a stock of hides, rags, etc. He is peddling for Mr. Hillhouse, of Clifford.

Nearly every one in the burg and vicinity was at Harriston on Friday. This lodge went out, the first time in some years, and made a respectable addition to the procession. They arrived home in good time that evening.

For nearly a week a Mr. McEwan of Palmerston, was in the burg trying to start a lodge of the C. O. F. Though there were many who thought it right, yet the poor prospects for a good crop seems to frighten the boys and the project had to be cancelled for the present.

There is a young man supplying the pulpit here for 4 or 5 weeks in the absence of Mr. Harvey, the recently appointed pastor, who has gone across the Atlantic for the good of his health. The young man is a good speaker and the people are very favorably impressed with him.

Everything looks fine and progressive this Tuesday morning. The rain which was looked for so long came yesterday evening, and now oats and the root crop will in all probability be good. As for hay it is very little use a general yield being 4 or 5 loads off 10 acres. However if there is plenty of straw, people can make out.

Huntingfield.

The showers of the past few days have done a power of good, still the spring crops will be light and short. Your reporter was in error last week

in reference to Robert Harkness. He was laboring in Japan instead of China.

Robert Pomeroy started for Manitoba Tuesday. He thinks he can push his fortune in the west. We wish him success.

The party who stole the whip from McIntosh's sheds last Wednesday evening had better return same, as they are well known here.

There is quite an amusing story going the rounds about one of our farmers, who was cutting his hay but could not find the swath only by hunting up the tracks of the mower wheels.

The farmers around here are having lots of fun gathering the hay crop. Some say that they cannot find it after its cut, while others are putting two on the rake to make it pick the hay up.

Christian Endeavor.

The Christian Endeavor society met on Tuesday night in the Presbyterian church, the vice-president, Chas. Hooy in the chair. The topic for the evening was "A Clean Life," Ps. 119:9-16. The leader for the evening was Mrs. Teskey. A carefully prepared paper on the topic was read very effectively. The pastors of both congregations were present and each gave short addresses on the topic which must have been very helpful to all present. A large number of the members took part in the meeting. Certainly the hour spent together was both pleasant and profitable. The subject was such a practical one and the teaching of the scripture read, was so very full of helpful instruction as to the means by which a clean life may be attained that the wayfaring man, though a fool, may not err therein. The leading thought in the lesson was, a clean heart was necessary in order to have a clean life. The fountain must be pure before the stream can be clean. The cleansing comes only in one way. The blood of Jesus Christ, God's son, cleanseth us from all sin. When we are led by the holy spirit to yield our hearts to God, he takes away from us the hard stony heart and puts within us the new heart and the right spirit. He gives us his word to teach us the way wherein we should walk. He gives us his Spirit to open our hearts to understand the teaching of his word and to impart to us the grace and strength we need in order to lead clean lives.

The topic for next week will be, "Our Christian journey—helps and hindrances, Matt. 7:13-14; John 14:1-6. Mrs. Moyer to lead.

—Prof. Ritchie, of Elora, was in town Monday posting up bills for the grand gala day in Palmerston on the 1st of August. The professor graced our sanctum for a few moments giving us some friendly advice.

—During the cold spell last May one of the slant eyed heathen Chinese who are beginning to infest Owen Sound met an Irish washer woman with whom he had a slight passing acquaintance, but who has no love for the "pig-tailed varmint." Shrugging his shoulders the almond eyed son of the Orient said "belly cold." Quick as flash the native wit of the Irishwoman came to the surface and enabled her to give the Chinese a cut on the style of his dress, and her reply was:—"Well, put your shirt inside of your pants, ye heathen blackguard, and mebbe your belly wouldn't be so cow'id.—Chatsworth News.

—The severe drouth which has been in progress here for the past two months has been broken. Friday last it rained nearly all day and again on Monday we had another excellent shower. The effect of the rain is plainly visible upon the meadows and spring crops. Nature is beginning to assert its rights and soon the pastures will wear the emerald garb instead of the burnt up appearance they had previous to Friday. Monday's shower appeared to be a general one and did more good than can easily be imagined.

—One of the foulest crimes that has ever been perpetrated in Toronto has just been brought to light by Detective Cuddy of Toronto and Detective Gevers of Philadelphia. On Oct. 18, 1894, two little girls named Etta and Nellie Ptezel were foully murdered by one H. H. Holmes to hide his other crimes, that of killing the father and brother of the girls for the purpose of defrauding insurance societies. There is no punishment too good for this fiend. The above is not a full list of his crimes as several of his associates have mysteriously disappeared.

Walkerton and Kinardine lacrosse clubs will cross sticks for a silver trophy. The 18th and 32nd Batt. bands will furnish the music for the day. There are also a host of other attractions too numerous to mention. The days proceedings will be brought to a close by a grand display of fireworks. Special trains and special rates have been secured. For further particulars consult the numerous posters in town.

—The Inspector of the Underwriters' Association visited Mildmay on Saturday, and ordered the fire alarm to be sounded. The firemen were taken by surprise but got together by degrees, and in due course got their engine pulled down to the river. Then the discovery was made that the coal had been left behind, and one of the men had to hunt up a wheelbarrow and go back to the fire hall for a supply. But they managed to get steam up in forty minutes, which, all things considered was not so bad. When the inspector makes his next visit he ought to send an advance agent, so as to have everything ready on his arrival.—Telescope. Bro. Robb your informant is away out in his report of above visit. Our firemen were promptly on hand when the alarm rang and lost no time getting to the river, and water was coursing through the hose inside of fifteen minutes, which is less than the forty minutes referred to above. In reference to the coal being forgotten, this mistake was noticed before the engine was quarter way to the pond. A man was dispatched for same and had the cart there almost as soon as the engine was.

Live Stock Markets.

Toronto, July 12.—There were 64 cars of fresh arrivals came in this morning, and all told about 75 loads of stuff were on sale including 1,000 sheep and lambs, over 800 hogs, and about 50 calves. There was little quotable change in the market, and what with the partial holiday, depressing cables from abroad, general poor quality of the stuff, and absence of some of the regular buyers, trade dragged considerably, and the market was scarcely worth reporting.

Export cattle—There was very little buying before noon, as prices could not be arranged; 4 to 4½ was offered, with 4½ as an outside figure. In face of the prospective condition of the British markets and the secondary quality of much of the export cattle here, the prices tendered were all shippers could safely give. Later on many deals were effected at figures which neither buyers nor sellers seemed able to remember; but it was admitted it would be uncommon good cattle that went over 4½ per lb. Several loads were unsold.

Butchers' cattle—Prices to-day were firm for good cattle, and 4 to 4½ was freely paid for choice picked lots. For good cattle 4 was the best price, and several loads of grassers sold at from 8 to 8½. A couple of fine steers, weighing 1,050 lbs, were reported as sold at \$1 60 per cwt; then again, a lot of 9 steers weighing close on 1,050 lbs, sold at \$2 80 per cwt; a lot of 10 averaging 950 lbs, sold at \$3 60 per cwt; 20 averaging 960 lbs, sold at 3c and 7¢ back; a load averaging 900 lbs, sold at \$2 70 per cwt; and a lot of poor stuff sold at 2c. Plenty were unsold.

Milkers—There were very few in; no demand; selling slowly at from \$22 to \$40 each.

Stockers—None here and none were wanted.

Sheep and lambs — Lambs were scarce and firmer at from \$2 50 to \$3.50 each; and all wanted. Sheep steady at from 3 to 3½ per lb.

Calves—Prices steady for choice veal, which is wanted at from \$4 50 to \$7 each. Common veals are scarcely saleable.

Hogs—Prices to-day were firmer, and \$4 75 to \$4 80 was paid for choice, with 10c more offered next week; thick, fat and light, weighed off cars, fetch \$4 50 per cwt; but stores are still not wanted at 4c. Mr. Harris is prepared to take up to 3,000 next week, "at right prices for the right kind."

East Buffalo, July 12.—There were 65 head of cattle on sale; the market ruled with a good demand, and all were sold at full strong opening price of the week. Hogs—On sale, 3,750 head; the market ruled with a good demand, and prices were about 5 to 10c higher; mixed packers brought \$5 35 to \$5 40; mediums, heavy and choice Yorkers, \$5 30 to \$5.45; pigs \$5.30 to \$5.35; roughs, \$4.50 to \$4.90. Sheep and lambs—Receipts, 4,250 head; the market ruled active and higher, there being a good outside order demand; best wethers brought \$4.25 to \$4.75; fair to good mixed sheep, \$2.75 to \$3.50; common to fair, \$2.25 to \$3.50; top yearlings, \$3.75 to \$4.35; fair to good, \$3.25 to \$3.50; spring lambs, \$3.50 to \$5.85.

Let the eating of tomatoes and salt to excess be continued for several days and the tomato gormandizer will find liquor offensive, undrinkable or if drunk, ungrateful to the stomach—so much that it will be thrown up. This is the cheapest gold cure we have known of, and it is said to be effective."

Big Profits ON Small Investments

Returning prosperity will make many rich, but nowhere can they make so much within a short time as by successful speculation in Grain, Provisions and Stock.

\$10.00 FOR EACH DOLLAR INVESTED can be made by our Systematic Plan of Speculation.

originated by us. All successful speculators operate on a regular system.

It is a well known fact that there are thousands of men in all parts of the United States, who by a systematic trading through Chicago brokers, make large amounts every year, ranging from a few thousand dollars for the man who invests a hundred or two hundred dollars up to \$50,000 or more by those who invest a few thousand.

It is also a fact that those who make the largest profits from comparatively small investments on this plan are persons who live away from Chicago and invest through brokers who thoroughly understand systematic trading.

Our plan does not risk the whole amount invested on any trade, but covers both sides, so that whether the market rises or falls it brings a steady profit that piles up enormously in a short time.

WRITE FOR CONVINCING PROOFS, also our Manual on successful speculation and our Daily Market Report, full of money making pointers. ALL FREE. Our Manual explains margin trading fully. Highest references in regard to our standing and success.
