Specially priced this week

**From \$1.75 to \$4.50**

IT WILL BE WORTH YOUR WHILE TO GIVE US A CALL - COME SOON.

**A. D. FARRAH AND COMPANY.**

## No Effort Being Made to Find Missing Man

Apparently very little effort has so far been made to ascertain the whereabouts of Mr. Clarence Wright, who some two weeks ago left a lumber drive on the Miramichi to return to his home in Newcastle. The men with whom he was working with, organized a searching party but were unable to obtain any trace of him. Naturally these men were obliged to return to their work, which required their immediate attention, and consequently were unable to devote the necessary time for a thorough search. This search was made we are given to understand that nothing further has been done to ascertain his whereabouts. It is feared the worst has happened to the unfortunate man, who was a returned man and was severely wounded and gassed. Our citizens should look into this matter and at once organize a posse to go in search of the missing man whether he be dead or alive. The mackinaw coat which the missing man wore has been found in the woods, and if this clue were acted upon immediately by a good large searching party the mystery might soon be cleaned up.

## The Lounsbury Co. Holds Conference

A very interesting and instructive conference was held at the Head Office of The Lounsbury Co. on Monday evening, May 3rd. Refreshments were served by seven of the lady members of the staff and twenty five men of the Newcastle Staff sat down to lunch, also R. S. Curll, Manager of the Chatham Branch and J. H. Dunlop, Manager of Bathurst Branch, were present and gave interesting addresses, as shown on the program given below.

C. C. Hayward, General Manager of the Company presided and explained the object of the gathering and gave an instructive address on Efficiency. Following his remarks, addresses were given by members of the Staff, interspersed by musical numbers from some of those present.

**Program**  
The past and the future—F. E. Locke.  
The need of Greater Efficiency—S. V. Sisson.  
Salesmanship—A. A. MacTavish.  
Duet—C. R. and F. E. Locke.  
The possibilities of the Music Trade—W. R. McKinnon.  
What can we do to meet mail order competition—John Aylward, Blackville Branch.

What can we do to improve our store delivery—William Gifford.  
What can we do to improve our method of handling merchandise—John Fallon and Claude Jardine.

Instrumental Solo—W. A. Jessamin.  
Furniture and carpet business—R. S. Curll, Manager Chatham Branch.

What can we do to improve our service to automobile owners—W. H. Sharpe and Lawrence Parks.  
Music—By Male Quartette—W. R. Melanson, G. W. Gunning, Q. Campbell, F. E. Locke.

The future of the tractor business—Walter McEwen.  
How can the shop give the car owner the most value—Alfred Marr and C. Carroll.

Our organization and how to improve it—J. H. Dunlop, Manager Bathurst Branch.

The young man's opportunity—Responded to by—J. R. Wood, C. Pearson, A. MacMurray, C. R. Locke.

The Ladies—Responded to by—P. Ray, E. Petrie, John Fallon, W. A. Jessamin.

The future of the automobile business—C. B. Betts, Doaktown Branch.  
Music—By male quartette—W. R. Melanson, G. W. Gunning, Q. Campbell, F. E. Locke.

## Price Revision For Victory Bonds

Montreal, May 5—The Victory Loan Special Committee have made the following announcement of revision of prevailing prices for Victory Bonds to meet existing market conditions:

Maturity	Net price to seller	Net price to buyer
1923	98	99
1924	98	99
1927	98 1/2	99 1/2
1929	98 1/2	99 1/2
1937	100	101
1944	97	98
1924	98	99

## TWO KILLED WHEN C.N.R. ENGINE WENT INTO NASHWAAK RIVER

Driver Frank Gillis of Newcastle, and Brakeman John Estabrooks, of Fredericton, Lost Their Lives, and Fireman Clifford Hughes was Severely Scalded—Death of Estabrooks Awful Feature of the Tragedy—Both Married Men with Families—Rising Water in the Nashwaak Washed Away Part of Embankment at Approach to Bridge.

The most serious train wreck which ever occurred in the province took place Monday morning at about 6.45 o'clock when the C. N. R. freight train from Fredericton to Newcastle went over the bridge which spans the Nashwaak River about a mile above Marysville. The train, which left about five o'clock Monday morning in charge of Conductor Walter Long, the other members of the crew being Frank Gillis, driver; Clifford Hughes, fireman; and John Estabrooks and Nehemiah Osborne brakemen. Of these, Frank Gillis and John Estabrooks are dead, and Clifford Hughes is severely scalded. The gloomed train reached Marysville about 5.30 and the accident occurred about a quarter to six. Previous to this train a light engine, which has been on the run between Cross Creek and Stanley and has been undergoing repairs in shops at South Devon had passed over the bridge without any accident and it is thought by railway men that the jarring of the first one might have caused the cave in which resulted in the derailment of the heavier train. There were sixteen cars in all and of these, two besides the engine, were derailed and thrown over the embankment, and into the river.

Resident's Tried to Stop Train  
Sunday night the water in the river rose over three feet and Monday morning it was noticed that the embankment at the northern end of the bridge had caved in. Some of the residents, as this was seen rushed out to flag the oncoming freight, but they were unaware of the more serious breaking away at the other end of the bridge. It is not known whether the driver of the freight train attempted to pull up his train or not, but at any rate it would have been impossible for him to have seen the danger signal until he was almost at the point of danger on account of a sharp curve at the approach to the bridge.

Hughes Jumped from Train  
The engine rolled completely over and the front part of it rested on the concrete abutment built around the first pier. Thus the cab, was thrown into the water and it was in this that the two men were imprisoned and met their death. It is the custom for one of the brakemen to ride in the engine, and for this reason Estabrooks was there. Hughes the fireman, who is badly scalded about the arms, neck and face, says that he does not know how he escaped but when he was first seen he was soaking wet. The theory is that he jumped, being on the left side of the cab, just as the engine left the rails.

An Awful Feature  
John Estabrook's death was the most awful feature of the tragedy. He was imprisoned in the overturned engine, his foot being caught in the fire box and only his head protruding above the water. He implored all who approached to get a saw or any thing and cut off his leg and free him and the agonies he suffered must have been beyond all human imagination. Three doctors were present soon after the accident and their unanimous opinion was that cutting off the imprisoned member would result in immediate death. In this position, then, the unfortunate man was compelled to remain and after three hours and forty five minutes died from the shock and the icy water. He was conscious till the last and conversed with those about him. After life left him he was cut loose from the wreck and the body was taken to his home. The sympathy of the community goes out to his wife and child, who reside in Fredericton.

Gillis Was Drowned  
Frank Gillis, the other man killed is a resident of Newcastle and was on this run as a spare man. The regular driver, a man by name of Scott Cowperthwaite, was the regular driver on this train, but a few days ago had the misfortune to crack several ribs, and Gillis, much against his will was put in charge of the engine and brought the train down on Saturday. He was returning with it at the time of his death. He is survived by a wife and three children who reside in Newcastle. He, like Estabrooks, was imprisoned in the cab, but it was not until after several hours searching that his body was located. It was then some time before it could be freed and it was finally brought to the surface about noon. The clothes of the dead man had been caught in some way, and although there was a burn on the side of his face it is thought that death resulted from drowning.

Crane Could Not be Used  
Besides the engine, two cars loaded with pulp-wood went over, and were completely wrecked. A wrecking crane was rushed to the scene of the accident and for a time it was thought that the engine might be raised and Estabrooks liberated. The trouble was that the line was torn away and the rescuers could not get close enough to the engine. Could a crane have been brought from the other side something might have been done.

Transfer Around Break  
The train from Newcastle, bearing among other passengers the "Bring Up Father" Company arrived shortly after 12 o'clock and it was necessary for the passengers to transfer around.

Inquest at Marysville  
An inquest was held into the deaths of Estabrooks and Gillis last night at Marysville Town Hall. The Town Marshal of Marysville was the constable in charge. Dr. B. M. Mullin of Devon is the coroner.

SEE THE MILLINERY PARLORS AT THE I.O.D.E. RUMMAGE SALE  
"A Kentucky Belle" In St. James' Hall  
A southern comedy in three acts will be presented by the Junior Women's Club of St. James Church Friday afternoon and evening, May 14th in St. James' Hall. Matinee in afternoon at 3.30 p. m. evening performance at 8.15 p. m. admission Adults 50 cents Children 25 cents.

The scene is set in Southern Kentucky and the play is interesting throughout, Miss Mariah Douglas a southern aristocrat wishes her niece, Isabel to marry Col. Wm MacMillan also an aristocrat, but old, stupid and deaf. Isabel being in love with an ordinary telegraph lineman puts off the colonel, who on five occasions came with the purpose of proposing.  
At last Isabel consents to taking a chance on marriage. Should Kentucky Belle, her race-track horse, lose a certain race, she will marry the lineman. "Kentucky Belle" wins, whereupon the Colonel transfers his affection to the aunt Mariah Douglas, and the lineman turns out to belong to one of New York's best families and son of a multi-millionaire.

Both Isabel and Mariah are happy as ensemble sing My old Kentucky Home.  
Barber's Barrel For Falls' Trip  
London May 3—Charles George Stephens, the Bristol barber, who, as previously cabled to The Mail and Empire, intends to "leap" Niagara Falls with a handmade barrel, will sail for America this week. Stephens' special barrel into which he will be strapped, is fitted with special appliances to enable him to make the dangerous descent over the Falls. The barrel is six feet, two inches high, its diameter at the top and bottom is 26 inches, and in the middle, 22 inches. A 100-pound weight fixed in the bottom is expected to keep it upright in the water.

**DANCES KILL MODESTY, DOCTOR TELLS Y. W. C. A.**  
 Newark, N. J.,—“Dances of today are the East African sex dances, the dances of cannibals that tend to kill all modesty in girls,” Dr. Margaret Sullivan of Jersey City told a gathering of prominent women at the Y. W. C. A.  
 She said: “The girls of today do up their faces like circus clowns. You cannot expect your little girl in her teens,” she warned, “to go out to an evening party clad as the young girl of today is too often clad

and throw her into the arms of a dancing partner and expect her to come back the same girl. You have deprived her of her greatest defense—her modesty.”

The Demand Is Still For  
**APROL**  
 The Sweetest Oil from Apricots

**Sugar To Jump To Thirty Cents**

Sugar which some years ago was obtainable at five cents a pound is likely to go to 30 cents or more, according to some local merchants. Over fifty thousand tons of raw sugar are now on their way to Canadian ports but it is not expected that this will reduce prices. The Government Merchant Marine ships have been used to bring raw sugar to Canada, and it was reported a short time ago that the action of the Government fleet would have a tendency to hold down prices. Prices are still lagging behind American prices, but the margin is not expected to continue.

Of the sugar coming to St. John, some 10,000 tons are in connection with contracts made by the Atlantic Sugar Refinery to be refined for the Czarnikow-Glonda Company of New York, and delivered to the Fox-Muller Brokerage Company of Chicago. This sugar has already been sold in the Western States and export permits for it have been granted. Canadian refineries could do a large export business in sugar if it were not for the embargo on exports.

In regard to the general situation a local merchant said there was no prospect of lower prices for sugar until the beet root production of Germany, France and Austria returned to something like normal. In spite of the fact that the British government acquired considerable quantities of raw sugar at colonial and low prices sugar in England is now selling at 25 to 27 cents, with the probability of the price going up to 35 cents in the near future.

Before the war the sugar production was about 16,000,000 tons. Cuba producing about 4,000,000. The best sugar industry was practically extinguished in Europe during the war. Now the Cuba sugar planters who were held down to low prices before the war and during the war are taking advantage of the situation to charge the maximum price obtainable. The initial boost to prices was given last year by Attorney General Palmer, when he allowed the Louisiana planters a price of 17 cents. This angered the Cuban planters, who have since been boobying the prices of their crop all along the line.

**An Experimental Forest**

Canadians have now been familiar for a long time with the words “experimental farm,” and while the heading of this paragraph may seem a little new, a moment's reflection will show that the good work which our experimental farms have done for agriculture, our experimental forests are likely to do for forestry and lumbering. The people of this country now realize that a large proportion of Canada is admirably suited to growing of timber, but is not suited to the growing of ordinary field crops. Rough, hilly land, sandy plains and ridges, and ridges strewn with boulders are types of soil better suited to growing trees than to growing anything else. At the same time the increasing price of lumber all over the world proves to Canadians that the forests growing on these non-arable lands will continue to form one of Canada's greatest resources. In the Upper Ottawa country and in many other parts of Canada there are districts from which a crop of timber has been taken by the lumbermen, but which have not been occupied since that time by settlers. These districts are now being covered again have a new growth of timber, but in many cases it is not as good timber as years ago. It is here that the knowledge and skill of the forest engineer comes in. He can by weeding out the inferior trees give the better species like pine and spruce a chance to develop and to cover the country. Details of such work have been reduced to a system in Europe, as many Canadians learned when they served in the trenches in France, but experience in regard to European forests cannot be taken as a guide in a country like Canada, where many conditions are different. To study this problem of how to reproduce good forests as quickly as possible on cut-over or burned-over lands, the Dominion Government, at the request of the Honorary Advisory Council for Scientific and Industrial Research, instructed the Forestry Branch of the Department of the Interior to establish an experimental forest on part of the military reservation at Petawawa. The tract is an ideal one as it presents conditions as they appear over a large part of Ontario and Quebec. Three working seasons have now been spent on the experimental forest at Petawawa and already much information has been gained as to the rapidity of tree growth. With these studies continued and extended, Canadians will in years to come know as much about their forests and how to handle them as the French know about theirs.

**VALUATION LIST OPEN**  
 The Valuation List for the Town of Newcastle for 1920 is open for inspection at the Town Clerk's office. Now is the time for all citizens to look into their valuation and if unsatisfactory, make their complaints to the Board of Assessors. If this were done, the Petition Committee of the Town Council would not be pestered to death with petitioners seeking rebates through out the year.

**The Standard Razor**  
**The Big Fellow**

**The "Big Fellow"**

**THIS is the NEW Gillette Safety Razor—bigger and weightier in the handle and the head, as the picture shows, but it takes the same good Gillette Blade that has made the Gillette Safety Razor Known the World Over.**

No advance in the price—\$5.00.

Men who like something with more heft to the handle than the Standard Gillette, will now enjoy Gillette shaving with its perfect edges and freedom from Stropping and Honing.

This is the handsome case of polished Gum Wood—mitre-cornered—and very compact.

Dealers will be glad to let you see the Gillette "Big Fellow".

Everywhere, now, you find cars compared with the Gray-Dort for value.

Because the Gray-Dort has become the standard—a new and higher standard—giving more for the money than ever was given before—and setting new standards of strength and quality for light cars.

**Here's What You Get in the Gray-Dort at \$1465 (plus taxes) Compare it with Other Cars.**

The Gray-Dort Motor is big, and finely built, like a watch. 40 pound crankshaft; non-warping, quiet valves; light, three-ringed pistons; Carter carburetor, Connecticut ignition; Westinghouse starting and lighting; cellular radiator and big water jackets.

The leadership of the Gray-Dort motor is paralleled by the leadership of the Gray-Dort chassis. Here is a strong, solid frame of heavy channel steel; a big, husky rear axle, designed and built exclusively for us here in Chatham; Chatham-built springs; full cantilever in the rear; big brakes, with Thermoid lining; a new steering gear, 50% bigger and stronger than has been used for light cars; a big gas-tank in the rear, with vacuum feed system.

Nothing can take away your pride in the smooth, flowing lines of your Gray-Dort. No other car can equal the wonderful Gray-Dort finish, which we have spent 60 years in developing.

And there is the smart, new top; hand-tailored in our own shops; French-pleated upholstery; a new hood, with many long, narrow louvers; snug side-curtains, which open with the doors; a shorter, smarter cowl which gives more room in the driving compartment; seats tilted at the most comfortable angle; increased leg-room in the rear; lamps raised to give size to the front of the car.

Once you know the Gray-Dort; you will be too critical to accept any other light car. There will be thousands who will agree with you—probably several thousand more purchasers than there will be Gray-Dorts. We urge you to see the Gray-Dort dealer now.

**Prices**  
 The Gray-Dort 5-passenger car; finished in Gray-Dort green and black and with standard equipment is \$1465 f.o.b. Chatham. War tax extra.  
 The roomy 2-passenger roadster is the same price.

**The Gray-Dort Special**  
 For the man who wishes something a little extra in his car, we have built the Gray-Dort Special. Maroon body, with brown raynite top. Plate glass rear window. Gypsy curtains. Kookie tax wheels. Motorometer. Tilting steering wheel. Real leather upholstery. Mahogany instrument board. Just the touches which lift this car above the ordinary. \$150 extra on the standard.

**And the Ace!**  
 The Gray-Dort Ace—the most beautiful light car of to-day. Sapper green body with handsome California top to match. Trouble lamp and bull-eye flashlight. Electric cigar lighter. Rear-view mirror. Plate glass windows. Oversize grooved-tread tires. This is the de luxe car for the man who does not wish to pile up a tremendous operating cost. \$255 extra on the standard.

THE REAL PLACE OF MUSIC IN EDUCATION

What is the real place of music in education? If we consider that music is only a refined, pleasing diversion, or an elegant accomplishment, its place in education can at best be only a very subordinate one. But if we take the view that art is the expression of what we may call the inner nature, that nature which as aspirations and ideals, reaches out to something beyond the material needs of this world, we must claim for our art of music a

very high position in the scheme of education. For true education is the drawing out of all that is good in the child, the cultivation of all parts of his nature. And if we confine our work to one side of nature only, and not to the whole, we run the risk of starving what may after all be the most important part. For it is the feeling side of our nature that in the main supplies the motive power for action.

We often use our reason to provide arguments for what we wish while we try to persuade ourselves that we are moved solely by unprejudiced reason. And it is the feeling side of our nature that causes all our noblest, most self-sacrificing deeds. Pure reason could never dictate an act of self-abnegation.

If music is, as we believe it to be, the art which more than any other gives expression to the feelings side of our nature, it follows that it is of the highest importance to use it as a means of education. Great works of music must be ennobling to those who can assimilate their meaning. And the study of music when properly conducted, gives the student the power to enter into and appreciate the meaning of what the great composers have written. But this power of appreciation can only be gained by the development of the natural instinct. As a musician

has said in dealing with the question of style in musical art: "It is not attained by scientific methods but by the development of a favourable artistic instinct."

General McLean Says He Was Misquoted

What General H. H. McLean, M. P. for Royal, N. B., said at the sitting of the parliamentary committee on pensions is causing a great deal of controversy in Ottawa. A further protest was made by the veterans women's league against the alleged remarks of the general.

General McLean has also issued a statement as to the exact words he used and denying he said that most private soldiers married servant girls. Mr. C. Grant McNeil, Dominion secretary of the G. W. V. A., who was present when General McLean made his statement, is prepared to sign an affidavit that General McLean said: "It is not a fact, anyway, that the majority of private soldiers' widows are from the servant class."

To the best of my recollection, those are the exact words he used, said Mr. McNeil. "I remember them distinctly because when they were uttered I asked him if that was a fair thing to say, and subsequently expressed a protest against the apparent meaning of the statement.

"No explanation was given at the time, and I see no necessity of any deletion or correction of the records. Mr. McNeil is also supported by Mr. F. A. Walpole, of the staff of the G. W. V. A. Dominion command, who was present.

General H. H. McLean, M. P., is to be invited to meet the veterans women's Association of Ottawa, and to repeat the alleged remarks he made at a recent meeting of the special parliamentary committee on pensions regarding the wives of private soldiers being mostly of the servant class before marriage, who should not be encouraged in idleness, but to work where possible.

This decision was reached at a large meeting of the Veterans Women's Association held in the G. W. V. A. Club annex.

School Standing Harkin's Academy

The Harkin's Academy school standing for the month of April is as follows:

Grade 8—Miss Benson; 1, Margaret McCurdy; 2, William Campbell; 3, Constance Hayward.

Grade 7—Miss Campbell; 1, Anna Palmer; 2, Katie Mutch; 3, Olive London and Delbert White.

Grade 6—Miss McCoombs; 1, Margaret Stables; 2, Irene Hill; 3, Margaret Clarke and Elizabeth Hill.

Grade 5—Miss Dunnett; 1, Donald Putnam; 2, Geraldine McMichael; 3, Nina White.

Grade 4—Miss Urquhart; 1, Willie Maltby; 2, Clare Corbett; 3, Jack Allan and Jessie Masson.

To Acquire Dominion Pulp Co

It is reported here on good authority that the Fraser Companies Limited will shortly acquire the Dominion Pulp Company, Limited of Chatham. Negotiations between the parties which have been going on for some time will practically close this week and the transfer of the property will take place at once.

Controlled in England  
The Dominion Pulp Company is now composed of English capital. Their property consists of a modern pulp mill and daily capacity of fifty tons and three hundred square miles of timberlands, partly leasehold.

There is sufficient raw material on hand to keep the mill running at full capacity for a number of years. It is estimated that the amount involved in transaction will be close to a million dollars. The Fraser Companies Limited buy and operate eleven sawmills

**OBITUARY**

**MRS. ANNE WARWICK**  
The death of Mrs. Annie Warwick occurred at the home of her daughter Mrs. Harry Hanson, in St. Stephen on March 31st.

Deceased was formerly Anne Bate man of Nelson and was in her 78th year.

She leaves to mourn one daughter Mrs. Harry Hanson of St. Stephen and two sisters Mrs. Maurice-Tulip of Derby and Miss Sophia of Erma, Alberta. The funeral was held in St. Stephen on April 2nd.

**MRS. THOS. PLEADWELL**

The sudden death of Mrs. Thos. T. Pleadwell occurred at her home in Upper Nelson on Tuesday afternoon.

She was the youngest daughter of Mr. James Clarke, of Chelmsford. Deceased is survived by her husband, an adopted son, Stephen; her father, Mr. James Clarke; two sisters, Mrs. George McGregor, of Chelmsford, and Mrs. George T. Bethune of Newcastle, and three brothers, Ernest William and Everett, all residing at Chelmsford.

**Needs Half-Million To Carry on Work**

**Salvation Army will have the Goodwill and Admiration of All**

The Salvation Army appeals for half a million dollars to enable it to carry on and to extend its work. In this it will have the goodwill and admiration of all who care for arduous work zealously undertaken, whatever their rank or their race. China, India, Africa, America, England and Central Europe will hope for the success of this Appeal as strongly as will Canada. That is a great hold on mankind for any movement to have secured in half a century. It is the more remarkable when it is remembered how dark in the material sense, were the Army's early days—how the discredited and the crude simplicity of its appeals and its methods, and how the hooligan element in the slums where it worked even organized counterforces to wreck its Meetings. Its triumph has been based on qualities that must always command the admiration of mankind—a tremendous zeal, an unquestioned sincerity, and an infinite charity which takes no account of race, creed, social standing, or moral failings. These are the principles that have inspired the Army's work. In latter years it has stood for much more than a crudely emotional appeal to the sinner to be a "better man." It has gathered round itself a vast plan of social reform in which Hospitals, Dispensaries, Day-schools, and Leper Settlements have their part. It is for the extension of this work that the Army makes this large claim on the support of the nations. We believe that it is amply justified.

**PERSONALS**

Mrs. T. A. Clarke is visiting relatives in Jacquet River.

Miss Peterson of Millerton was a visitor to town last week.

Miss Hedge Morris is visiting friends in Antigonish, N. S.

Mrs. Peter Dunn and Mrs. Wm. Copp spent Thursday in Chatham.

Mrs. Robert Underhill of Blackville is visiting her parents Mr. and Mrs. James Stewart.

Montreal Gazette: Mrs. W. A. Hickson and Miss Hickson, who have spent the past four months in Bermuda, are at present the guests of Mrs. Cecil Riopel, St. Matthew St. on their way home to Newcastle, N. B.

R. W. McLellan of Fredericton left Thursday evening for Quebec, whence he will sail on the Victorian for Liverpool en route to Ireland. He will be absent about six weeks on business largely for the Cherry Moore estate.

THE SEASON'S OPPORTUNITY, IN EVERYTHING AT THE RUMMAGE SALE

**Rod And Gun**

The leaping brook trout painted in natural colors on the cover of the May issue of **ROD AND GUN IN CANADA** will quicken the pulse of every nature lover. This issue of Canada's leading sportsman's monthy contains the first installment of Harry M. Wood's thrilling story of adventure entitled "The Silver King." "The Kanana's Lakes" is the title of an interesting fishing story from the Elbow River valley; it has seven clear cut photos to illustrate it. Bonnydale Dale tells in his own gripping manner the story of the wild cat, its range and habits throughout Canada. S. C. Cain humorously relates the story of four fishermen on a week end trip to Lake George after bass. The Guns and Ammunition and Fishing Notes Departments are up to their usual high standard in this number. A valuable addition to the fishermen's equipment is the new fishing season ticket for the Dominion. **ROD AND GUN IN CANADA** is published monthly by W. J. CAYLOR LIMITED, 250 King St. W., Toronto, Ont.

Don't miss it. It's the only one of its kind. **ROD AND GUN IN CANADA** is the only one of its kind. **ROD AND GUN IN CANADA** is the only one of its kind.

**Early Symptoms Bloodlessness**

**Shown by Pallor of the Face and Lips How to Obtain New Blood**

Anaemia, or lack of blood is so gradual in its approach that it is often well developed before the patient is sufficiently alarmed to consult a doctor or take proper treatment to restore the blood to a healthy condition.

The earliest symptom of anaemia is loss of color, especially in the lips, gums and membranes lining the eyelids. Then comes shortness of breath on slight exertion, such as going up stairs, palpitation of the heart, increased pallor of the face and lips. If this condition of the blood is not corrected it will proceed rapidly until a complete breakdown in health follows, when there may be disorders of the stomach, headaches and back aches, dizziness and fainting spells.

The most effective and prompt way to increase and enrich the blood at a time like this is through the fair use of Dr. Williams' Pink Pills. These pills have restored to good health thousands of weak, anaemic people among them Miss Mae Johnston, of Port Arthur, Ont., who says:—"Between the ages of sixteen and eighteen I worked in a telephone office, and it was very trying to the nerves and health. I became bloodless, and so pale that friends often said I looked consumptive. One night I had to be taken home from the office, and a doctor was called in who told me I must not go back for a time. Sometimes I would faint, and to walk up stairs would leave me utterly breathless. As I did not appear to be getting any better one of my girl friends, whose mother had used Dr. Williams' Pink Pills with great benefit, advised me to try these. I took the pills very faithfully for some time, with the result that they restored me to good health, and now when anyone tells me they feel weak or rundown I always recommend Dr. Williams' Pink Pills, as I feel so thankful for the help they gave me"

If you have any of the symptoms described by Miss Johnston try building up the blood with Dr. Williams' Pink Pills. Eat nourishing food, exercise a little in the open air daily and watch the color return to cheeks and lips. You can run no risk in giving Dr. Williams' Pink Pills a trial as they can not injure the most delicate system. You can get these pills through any dealer in medicine, or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

BEAT H. C. OF L. BY GOING TO THE RUMMAGE SALE MAY 15

**National Division S. of T. Meets in Moncton**

The seventy-sixth annual session of the National Division, Sons of Temperance, of North America, will be held with Moncton division in July. A public meeting will be held on the opening evening. On the programme will be a civic welcome, and welcome by the Lieutenant-governor of New Brunswick.

The Grand Division of New Brunswick meets in annual session in Moncton, prior to the National division. Among the distinguished visitors expected are Premier E. C. Drury, of Ontario, and William Mees, treasurer of the Grand Division of London (Eng.), and a member of the British National Division executive council.

The Ottawa Government is said to be contemplating a tax on wearing apparel, which, says the Quebec Telegraph, will, we expect, be followed by the formation of "bag to nature" societies in various quarters for the summer anyway.

**Tenders For Glebe Lot**

Sealed Tenders, addressed to the undersigned and endorsed "Tender For Glebe Lot, Newcastle, N.B. will be received until 12 o'clock noon, Monday, June 14th, 1920, for the purchase of the Glebe Lot of St. James' Presbyterian Church, Newcastle, N.B. adjoining the Universal Radio Syndicate Ltd. Wireless Station, and described as follows, viz:—

All that piece or parcel of land situate lying and being in the Town of Newcastle aforesaid, being part of Lot number one, originally granted to the Late William Davidson, and abutted and bounded as follows, viz:—

Southerly or in front by the King's Highway, on the easterly side by Radio Street, on the upper or westerly side by the westerly side line of said Lot number one, and northerly or in rear by lands owned or occupied by the Universal Radio Syndicate Limited, comprising about six acres, more or less.

Each tender must be accompanied by an accepted cheque on a chartered bank, payable to the order of William Ferguson, Sec'y to St. James' Church, Board of Trustees, for 5 p.c. of the tendered price, but no cheque to be for less than three hundred dollars. The highest or any tender not necessarily accepted.

**MR. CHAS. ROBINSON CONTINUES IN OFFICE**  
The continuance of the office of the Returned Soldiers' Aid Commission under Charles Robinson, secretary, is an announcement which is received with general satisfaction by the returned men. They regard it as especially important to have such an institution still kept up in St. John now that the employment offices and the pensions offices have been closed, for there is still much work to be done towards helping needy or problem cases. Mr. Robinson has made himself thoroughly liked and trusted by returned men who feel that he is working in their best interests and he has done much to help a large number of them.

**HELPLESS WITH RHEUMATISM**

Until He Took "Fruit-a-lives" The Fruit Medicine

R. R. No. 1. LORNE, ONT.  
"For over three years, I was confined to bed with Rheumatism. I treated with doctors, and tried nearly everything without benefit. Finally, I tried 'Fruit-a-lives'. Before I had used half a box I saw improvement; the pain was easier and the swelling started to go down. I continued taking this fruit medicine, improving all the time, and now I can walk about two miles and do light chores about the place".  
ALEXANDER MUNRO.  
50c. a box, 6 for \$2.50, trial size 25c. At all dealers or sent postpaid by Fruit-a-lives Limited, Ottawa.

**Potato Merchants In New Brunswick**

Potato merchants in New Brunswick are watching with interest the result of the consumer boycott of potatoes in various Ontario cities. At Toronto the dealers have over thirty cars on the sidings, and are in a quandary as to what to do about them. If sent to Montreal they may find that by the time they have reached there Montreal will be boycotting potatoes. The fact that some Ontario dealers are showing a disposition to let the potatoes rot rather than reduce prices is creating feeling among the people.  
Demands are being made in the press that the Government step in and take charge of the business of marketing farm produce, as is done with cattle and other produce in Australia. One result will apparently be to extend the co-operative movement among farmers for the disposal of their products, and eliminate some of the middlemen, who have been proceeding on the plan of charging all the traffic will bear.

CHATHAM, ONTARIO

**\$56,000,000,000 Represent Paper Money of World**

New York, May 10.—In an address before the Sales Managers' Club of New York, O. P. Austin, statistician of the National City Bank, presented the latest figures of world currency, national debts, interest charges and other Governmental expenditures, showing that the paper money of the world (exclusive of that issued by the Bolsheviks) had increased from \$7,000,000,000 at the beginning of the war to \$40,000,000,000 at the date of Armistice, and \$56,000,000,000 at the present time; also that the national debts of the world had grown from \$40,000,000,000 in 1913 to fifty-six billion in 1920, while world credits, another form of inflation, had also enormously increased.  
The ratio of gold to paper currency of the world, he said, which stood in 1913 at about 70 per cent., was at the close of the war 18 per cent., and at the present time approximately 12 per cent. Especially startling was the fact that while the increase in world paper had been \$33,000,000,000 during the war period, the increase since the close of hostilities had been \$16,000,000,000, or about one-half as much in the 18 months of after-war peace as in the 51 months of actual war.  
The world budgets are now approximately five times as much as before the war, and the annual interest charges on world national debts now over \$9,000,000,000 per annum as against about \$1,750,000,000 immediately preceding the war.

**No One Scoffs Now At Salvation Army**

Efforts Universally Appreciated from the King Down to His Humblest Subject.

The older generations will remember the sneers and scoffs with which the earlier pioneers of The Army were greeted when they planted their banners at the street corners. All that has gone, and the great war waged by the Salvationists against the powers of evil and folly, cruelty and vice is universally appreciated from the King down to his humblest subject who comes under the flag.  
So true is it that there is hardly a street or alley in any of our large towns which had not yielded a bitter harvest of misery to be cured and of wrong to be righted. Half a century—and still the fight goes forward.

In the great work of national reconstruction on new lines of freedom and self-determination, the Salvation Army has no mean share to under take in raising those who have fallen by the way in the press of the struggle for existence.  
Like other movements of its kind The Salvation Army has suffered from the diversion of financial aid to the imperative and overshadowing needs of the greatest war in history. Now, in the happier dawning days of peace in celebration of The Army's Jubilee, which really fell in 1916, but was postponed till the sound of the gun had died out, the call is once more confidently made for help.  
There are so many urgent directions in which The Army's work for humanity lies, that the appeal for the fund which its Officers have set out to raise as the special Jubilee Fund, should meet with a generous and ready response from men and women of all classes and all creeds.

**\$100 REWARD, \$100**

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is catarrh. Catarrh being greatly influenced by constitutional conditions requires constitutional treatment. Hall's Catarrh Medicine is taken internally and acts thru the Blood on the Mucous Surfaces of the System, thereby destroying the foundation of the disease, giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in the curative powers of Hall's Catarrh Medicine that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

**HAWKER'S NERVE & STOMACH TONIC**  
was no equal as a nerve food, blood maker and invigorant. It is an excellent remedy for depression and despondency.  
Read what Mr. E. L. Rising, of the well known St. John firm of Waterbury and Rising, has to say: "I have used Hawker's Nerve and Stomach Tonic in my family for years, and consider it has no equal as a blood builder and appetizer. It was especially beneficial to my children when in attack of nerves. Yours truly,  
E. L. RISING."  
Sold by all druggists and general stores at 50c. The same price everywhere. Name guaranteed without Company's name. Beware of cheap imitations.

**Music Notes**

At the recent meeting of the Barrie, Ont., Board of Education the question of appointing a music teacher for schools came up. A committee was appointed to look into the matter.

The Toronto, Ont., Separate School Board has appointed a second music instructor for its schools.

Stradivarius, monarch of the art of violin making, had reached the age of 50 before his hand and eye had acquired supreme his best instruments when he was between 56 and 80 years of age.

Handel was 48 years old before he published any of his great works; and he was 56 when "The Messiah," the grandest and most popular of his oratorios, appeared.

St. Louis, Mo., has formed a Civic Music League to advance the interests of music in that city.

Denver, Col., has a municipal music commission, which controls a municipal auditorium seating 3,600 and a concert hall seating 10,000; a municipal band which gives free daily concerts; free organ recitals by a municipal organist; and a municipal choir director who has developed a fine choral body of 300 voices. The commission intend forming a symphony orchestra to round out its activities.

The Cambrai Steel Co., of Johnston Pa., has formed among its employees a symphony orchestra of 80 men.  
All the grammar schools of New Bedford, Mass., have orchestras made up of pupils playing music lessons in some one or other instrument. The High School also has an orchestra of advanced pupils, which give concerts several times throughout the year.

**WEATHER PROPHECIES**

An exchange says: Local weather prophets predict that the cold and chilly weather of early May will continue for another three weeks yet or at least until the moon again changes. This change takes place on May 13—following that event, the weather will be warm and mild. We hope that their predictions will not adhere to the literal truth. The winter has been quite long enough to suit the needs of the people. The people of the province of Nova Scotia have expressed the hope that Great Britain never took this country from the is

**DAVID RUSSELL STARTS  
SUIT AGAIN AT HAMILTON**  
Hamilton, Ont., April 30—A writ  
issued demanding the largest sum  
ever sued for in the local office of  
the supreme court has been issued  
by David Russell, of New Brunswick.  
The defendants in the action are Sir  
Edmund B. Osler, Hon. Wm. Faganey,  
the National Trust Company, Ltd.,  
executors and trustees of the estate  
of the late Herbert C. Hammond and  
Charles McInnes, trustees of the es-  
tate of the late Hon. Donald McInnes.  
Mr. Russell's claim is for \$8,175,000  
damages for alleged breach of con-  
tract under date of May 15, 1908.

**The Potato Crop**

The potato is one of our most im-  
portant food crops, and yet it is one  
that very often does not receive the  
attention it should. It is the practice  
of many farmers to leave the plant-  
ing of potatoes until practically all  
other crops are in. With the exception  
of, perhaps, some parts of the  
Maritime Provinces this late plant-  
ing means a much smaller yield than  
there would be if the planting were  
done before the middle or by the  
middle of May or beginning of June  
the seed potatoes have sprouted so  
much that when these are broken  
off at planting time the new shoots  
will not come on with the same vig-  
our as they did early in the season.  
Furthermore it is important for the  
potato to get a good root system  
before the hot weather sets in.

It is of the greatest importance to  
use good seed. Two lots of seed of  
the same variety which look very  
much alike may give a difference of  
three hundred or more bushels per  
acre in the crop, as has for instance  
one lot of Irish Cobbler yielded at  
the rate of 378 bushels per acre and  
another 37 bushels per acre. The  
best Green Mountain stock yielded  
330 bushels per acre and one of the  
poorest 46 bushels per acre.

If possible, one should know where  
the seed was grown the previous  
year that he is about to use. If it  
came from a crop, the plants of which  
grew vigorously until cut down by  
frost, then, if free from disease, it  
will, as a rule, yield a much better  
crop than if it is from a crop, the  
plants of which withered in the mid-  
dle of summer and the tubers lay in  
hot soil the rest of the season. This  
year when the price of potatoes is  
so high there will be a temptation to  
use small potatoes for seed. If these  
small potatoes come from a good  
crop the previous year the results  
are likely to be satisfactory if the  
season is favorable, but if they are  
from a small crop the previous year  
when the plants dried up early the  
plants this year are likely to be weak  
and the yield not very good. Good  
sized sets of from one and a half to  
two ounces have been found the most  
satisfactory, taking one year with  
another, although if the season is  
particularly favourable smaller sets  
will produce a good crop, but one  
cannot tell what the season will be,  
hence it is better to be on the safe  
side.

The distance of planting which has  
been found most economical in most  
places in Canada is, rows two and a  
half to three feet apart and sets  
twelve to fourteen inches apart in  
the rows. While quite shallow plant-  
ing has given the highest average  
yields at Ottawa, it is necessary to  
plant about four inches deep for  
field culture to enable one to harrow  
before the potatoes are up without  
pulling up the sets.

The varieties which have been  
most generally satisfactory in Can-  
ada and Irish Cobblers as an early  
potato and Green Mountain as a  
main crop or later variety. Other  
varieties which cannot be distinguish-  
ed from Green Mountain and are in-  
cluded in the Green Mountain group  
are Gold Coin, Uncle Sam, Wee Mac-  
Gregor and Delaware. The Dooley of  
the Rural group has done well in  
the warmer parts of Ontario, and in  
coast climates Burbank is also pop-  
ular.

**S. S. ALEXANDRA**  
The new company which has  
been formed to undertake the  
operation of the S. S. Alexandra is  
slowly but surely obtaining the  
capital necessary for the start. A  
week ago over \$4000 was needed to  
complete the transaction and take  
the boat over from the old company.  
Now less than \$3000 is needed, but  
time could be saved if a few people  
would come forward and between  
them take up that amount of  
capital stock. The investment in  
itself looks to be promising, but the  
project should be undertaken more  
for the benefit of the town and the  
river district than for the sake of  
dividends. Every merchant in Chat-  
ham should put in \$100 of an invest-  
ment.

In the meantime the boat is under-  
going a thorough overhauling pre-  
paratory to the season's business. It  
is still on the slip, but as soon as  
the painting is finished and also some  
overhauling of its machinery, the  
boat will be launched and be ready  
for the river very shortly after that.  
The launching will probably take  
place this week and the boat go on  
the route early next week.  
Everybody give a push and get the  
new company launched.—Commercial

**Middle Aged Women**

Women should take warning from such  
symptoms as heat flashes, shortness of breath,  
excessive nervousness, irritability, and the  
blues—which indicate the approach of the  
inevitable "Change" that comes to all women  
nearing middle age. We have published vol-  
umes of proof that Lydia E. Pinkham's Vege-  
table Compound is the greatest aid women can  
have during this trying period.

**Read About These Two Women:**  
Fremont, O.—"I was passing through the critical period  
of life, being forty-six years of age and had all the sym-  
ptoms incident to that change—heat flashes, nervousness,  
and was in a general run-down condition, so it was hard  
for me to do my work. Lydia E. Pinkham's Vegetable  
Compound was recommended to me as the best remedy  
for my troubles, which it surely proved to be. I feel bet-  
ter and stronger in every way since taking it, and the an-  
noying symptoms have disappeared."—Mrs. M. GODDAR,  
228 Napoleon St., Fremont, Ohio.

Urbana, Ill.—"During Change of Life, in addition to  
its annoying symptoms I had an attack of grippe which  
lasted all winter and left me in a weakened condition. I  
felt at times that I would never be well again. I read of  
Lydia E. Pinkham's Vegetable Compound and what it did  
for women passing through the Change of Life, so I told  
my doctor I would try it. I soon began to gain in strength  
and the annoying symptoms disappeared and your Vege-  
table Compound has made me a well, strong woman so I  
tell all my own housewives. I cannot recommend Lydia E.  
Pinkham's Vegetable Compound too highly to women  
passing through the Change of Life."—Mrs. FRANK  
HESBORN, 1316 South Orchard Street, Urbana, Ill.

Women Everywhere Depend Upon

**Lydia E. Pinkham's  
Vegetable Compound**

**WORLD ASCENDANCY**

**BRANDRAM'S GENUINE BB WHITE LEAD**

THEY used it for the stage-coach of olden  
days in England—we use it in Canada  
today. Compare it with any other white  
lead or white paint, and you will decide that  
your house—or anything you wish to  
have truly white and remain white—must be  
painted with this brand which has survived as  
the leading white lead for nearly two centuries.  
Thinned with linseed oil and turpentine, it  
makes a perfect white paint. Combined with  
coloring matter, it makes the satisfactory  
tinted paint of any shade. It is the basis for  
that finest of ready-mixed paint, B-H "English"  
Paint.

Made in a modern Canadian factory, and by  
the same process as was employed for its manu-  
facture by its inventor in England, it is today  
the only survivor of all the patented white  
lead processes of that earlier generation. It  
has survived because it results in a white lead  
of exceptional fineness, whiteness and  
durability.

**Irrigation Extends in the West**

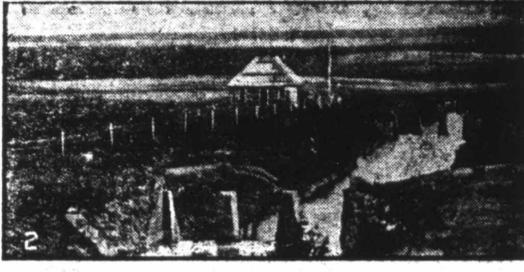

The year 1929 stands out in the  
agricultural history of Alberta and  
Saskatchewan as having proved be-  
yond all doubt the enormous benefit  
to be derived from farm irrigation  
for in the drought which afflicted  
nearly the whole of these provinces  
the south country within the irri-  
gation belt not only produced excel-  
lent crops, but in many localities  
were harvested well in excess of the  
average of what are called good  
years.

On 145,500 acres in the Lethbridge  
District, 65,200 tons of fodder crops  
and 3,775,000 bushels of grain have  
been grown, the total value of  
about \$7,700,000. Wheat was the  
largest crop produced, there being  
well over two million bushels. Other  
crops harvested included more than  
a million bushels of oats, nearly 400-  
000 of barley, 26,000 of flax, and 66-  
000 tons of alfalfa. In addition vege-  
tables were grown and sold from this  
area.

As another example of what  
phenomenal yields may be taken  
from irrigated land the case of a  
farmer at Brooks may be cited who  
on his farm produced a \$9,000 har-  
vest of alfalfa seed. The yield was  
14 bushels to the acre, which sold  
in the neighborhood at 80c per lb  
and netted him a return of \$740 per  
acre.

In the large irrigation block of the  
Canadian Pacific Railway east of  
Calgary there are approximately  
625,500 acres of irrigable land, and  
the amount in the Lethbridge district  
approximates 110,000 acres making  
a total of 735,500 acres. Of this less  
than 20 per cent was in crop this  
year. On the basis of this year's  
average production on irrigated land  
this total area is capable of produc-  
ing crops to the value of between  
thirty and thirty-five million dollars  
yearly with an average of over \$40  
per year for each acre of irrigated  
land.

(1) Head Gates of C. P. R. Irrigation Canal near Calgary, Alta.  
(2) Steps of an Irrigation Ditch near Gleichen, Alta.

With such examples as these of the  
fruits of irrigation it is little wonder  
that the farmers of the dry belts of  
Alberta and Saskatchewan are clam-  
oring for extensions to the existing  
systems of irrigation or the installa-  
tion of new projects, or that the au-  
thorities should be devoting more  
time and attention to the furthering  
of the schemes of irrigation.

A new project is already under way  
in the south area of Alberta which  
will take in the land in the Raymond,  
Sterling and Magrath districts, and  
the commissioner of irrigation, with  
headquarters in Calgary, has recent-  
ly returned from a reconnaissance  
trip to the Buffalo Lake country,  
where he has been gathering infor-  
mation as to the feasibility of an-  
other projected scheme. This pro-  
vides for the diversion of the flood  
waters of the North Saskatchewan  
River to irrigate the lands lying to  
the east and south of Buffalo Lake,  
all the way to the area between  
Toussaintown and Saskatchewan. The  
scheme, in outline, is to tap the

**MAJOR LEAGUE RECORD BROKEN**

Boston, May 2—The Major league  
record for the number of innings in a  
single game went to smash Saturday  
when for twenty-six innings and three  
hours and fifty minutes the Boston  
and Brooklyn Nationals battled to 1  
to 1 on Braves' field. Joe Oeschger  
for Boston, and Leon Cadore for  
Brooklyn, stayed in the box for the  
entire game. Oeschger allowed only  
five hits, struck out six men and  
gave five bases on balls. Cadore  
was hit fifteen times, struck out nine men  
and gave four bases on balls.  
(Called on account of darkness,  
twenty-six innings.)  
Batteries—Cadore and Kruger, B.  
Hott; Oeschger and O'Neil, Gowdy.  
Other National League results for  
Saturday follow:

### Land Inspector Gains 20 Pounds

#### Every Joint And Muscle Ached Before He Took Tanlac—Spry as Boy Now

"Well, sir, you can believe it or not, but I have gained twenty pounds in the past six weeks," said R. D. Hales, Land Inspector, 312 Silver St., Sturgeon's Creek, Manitoba, in a conversation with a Tanlac representative a few days ago.

"For years and years before I commenced taking Tanlac I had been in bad health and hardly saw a day that was free from pain and suffering," continued Mr. Hales. "My stomach was all out of order and what I ate would sour and settle into a lump in my chest and burn like a ball of fire. I had lumbago of the worst sort and if I stooped over and tried to straighten up again, the pains were so severe I just seemed to be wrenching every muscle in my body. I had rheumatism all through my arms, legs and feet and every joint in my body ached. My feet would swell so that I could hardly get my shoes on and my legs pained me until it was all I could do to walk. My joints would swell so that I could hardly get my shoes on and my legs pained me until it was all I could do to walk. My joints would stiffen and hurt so bad it was agony if I tried to bend my arms and legs. I was subject to awful headache spells, I lost weight and strength and, in fact, I was in misery all day long. I hardly knew what a night's rest was for I would lie wide awake for hours with every joint and muscle aching no matter what position I lay in.

"Several of my friends had recommended Tanlac to me so highly that I commenced taking it and I could just feel my troubles leaving me and the pains easing up. And now since I have taken four bottles of Tanlac my stomach is in fine condition and I can eat anything set before me without suffering the least bit afterwards. I haven't a trace of rheumatism in my body, my feet never swell up and my joints don't stiffen any more. The lumbago has disappeared entirely and I am so active that I feel as spry as a boy. The headaches have also left me and when I go to bed I sleep like a log till time to get up. My lost weight and strength have come back to me and I am feeling better in every way than I have in many years. All praise is due to Tanlac and as long as I live I can never say too much for such a remarkable medicine."

Tanlac is sold in Newcastle by E. J. Morris, in Redbank by Wm. M. Sullivan and in Doaktown by G. Hildebrand.

### THE RELIABLE REMEDY

**CAKED UDDERS**  
**DOUGLAS' EGYPTIAN LINIMENT**  
"I have now used Douglas' Egyptian Liniment for 2 years, and find it gives the best satisfaction for udder and breast. I tried the liniment on 4 cows during the winter for lumpy udder, and a sample bottle cured each case in 24 hours. I also found it good for muscular rheumatism and lumbago." (Signed) Allan Schiedel, New Hamburg, Ont.  
This Liniment will also stop bleeding at once and prevent blood poisoning.

### This is Better Than Laxatives

One NR Tablet Each Night For A Week Will Correct Your Constipation and Make Constant Dosing Unnecessary. Try It.

Poor digestion and assimilation mean a poorly nourished body and low vitality. Poor elimination means clogged bowels, fermentation, putrefaction and the formation of poisonous gases which are absorbed by the blood and carried through the body. The result is weakness, headaches, dizziness, coated tongue, inactive liver, bilious attacks, loss of energy, nervousness, poor appetite, impoverished blood, sallow complexion, pimples, skin disease, and often times serious illness. Ordinary laxatives, purgative and cathartics—salo, oil, calomel and the like—may relieve for a few hours, but real, lasting benefit can only come through use of medicine that tones up and strengthens the digestive as well as the eliminative organs. Get a 25c box of Nature's Remedy (NR Tablets) and take one tablet each night for a week. Relief will follow the very first dose, but a few days will elapse before you feel and realize the fullest benefit. When you get straightened out and feel just right again you need not take medicine every day—an occasional NR Tablet will keep your system in good condition and you will always feel your best. Remember, keeping well is easier and cheaper than getting well. Nature's Remedy (NR Tablets) are sold, guaranteed and recommended by your druggist.

### Wage Schedule Is Being Sought

On the busy North Shore, as a result of organization, a new wage schedule is being sought by the millmen. The companies which are interested are Shives Lumber Co., Richards Mfg. Co., W. H. Miller and Co., Fraser Lumber Co., Dalhois Lumber Co., the Restigouche Boom Co., and A. Barbette. Band or rotary sawyers with riggers are asking \$8 a day, band and rotary sawyers \$6.00; band saw filer \$6.00 round saw filers \$8.50; lath sawyers \$5.00; handymen, such as millright helpers, assistant foremen, pop sawyers and helpers \$5.00, blacksmiths \$7.00; mill engineer \$7.00, deal workers, \$5.00; general labor \$4.00. Among the conditions set forth is that nine hours constitute a day's work, overtime to be paid for at the rate of time and a half with double time for Sundays and various holidays. Daylight saving time is taboored.

### Extension Of Time For Filing Tax Papers

Orders have been sent out from the finance department extending the time for filing income tax returns for the whole dominion to May 31st. A. W. Broadner, commissioner of taxation, told your correspondent tonight that this action had been taken in account of the fact that persons liable to the tax are absent from the country and because greater time is needed to secure returns from Great Britain, Holland and other European countries. It was impossible for many firms with head offices overseas and branch offices in Canada to file returns by today, and therefore the extension of time has been granted. All the data required to fill out the papers could not be obtained on this side of the ocean. Many insurance, mortgage and financial companies were in this situation. The act gave the minister power to extend the time if found necessary, but if the returns are not in by May 11 Mr. Broadner says that the penalties will be rigidly enforced.

### A Story About The Retreat From Mons

Sir Philip Gibbs tells a story in "Realities of War" about Sir John French and Sir Nevil Macready which in present circumstances is doubly interesting. The retreat from Mons, described in the press as masterly and orderly, was at times a little hurried. Sir Nevil Macready, as Adjutant-General to Sir John French, occupied a chateau near to that of the Commander-in-Chief, while the G. H. Q. were scattered about in private houses. One night the Adjutant-General and Colonel Childs were writing in their room, when the Colonel, impressed by the unusual quiet outside, thought he would step over to Sir John French's quarters. He returned shortly and interrupted Sir Nevil's work quite abruptly with "General, the whole box of tricks have gone. We've been left behind. 'Forgotten' answered General Macready. 'The dirty dogs!' Sir Nevil, Colonel Childs, the Judge Advocate-General and an orderly or two had just time to scramble into a motor, and in their race after the G. H. Q. were sniped all the way. 'And wouldn't they say to see me in the evening?' So Sir Nevil tells the story. Will he tell it after dinner at the Castle?

[The point of the last sentence is that Lord French is now Viceroy of Ireland and General Macready is in command of the forces in that country.]

### Hon. Dr. Roberts Likely To Have Stiff Opponent

St. John, N. B. May 2.—Dr. Roberts, Minister of Public Health, having recently accepted a paid office under the Crown, must now enter into a contest for his seat in the House of Assembly. There was a feeling that the Conservatives might not oppose Dr. Roberts, but recent events have dispelled that belief. It is now announced that a strong candidate is to be put forth by the Opposition party. It is understood that Colonel McLaren, is the man upon whom Conservative eyes are focused. The Government has not yet set the date for the bye-election but it is thought they will soon do so.

**PROVINCIAL PUBLIC WORKS.** Plans and specifications of the various improvements embodied in the provincial public works programme for this year, are on display in the governments on the St. John-Wellfield road, the Nelson-Chatham road, the Pennell highway, the Meductic-Woodstock road, the North of Dover road and the proposed Power Creek South bridge.

### Overland Has Real Sensation

#### Interest is Attached to Beautiful New Light Overland Four

Distinctive in body lines and of unusual quality in mechanical achievement, the new Overland Four models of the Willys-Overland Company are a feature of the automobile show. The new Overland Four marks the greatest advance in years in light car construction. The models displayed are attracting unusual attention because of new engineering ideas which provide high priced car comforts at small operating and maintenance costs.

Salesmen in charge of the Willys-Overland booth in the automobile show are besieged constantly with questions concerning three-point suspension tripler springs which give the Overland Four models a cushion between road shocks and the car body, providing a riding comfort hitherto unknown in light cars.

This particular improvement, an exclusive Overland feature, is regarded as the most notable achievement of automobile engineers in years. Some have termed it the greatest improvement in motor-car comfort since pneumatic tires.

The interest manifested in the Overland Four touring models is emphasized with earnest admiration over the Sedan models. The Sedans are finished in Copenhagen blue; the body lines are beautiful. The Sedan models are making special appeal to women.

Overland Four not only satisfies the demand for a light, economical, comfortable car, easy to handle in traffic, but it is in every particular a quality car. Light weight and reliability could not be combined with out the best of materials.

The triplex springs, for example, are of chrome vanadium steel. The front axle, steering gears and arm, the steering knuckles and knuckle arms, propeller shaft, axle shaft, transmission gears, axle drive, gear and pinion, clutch shaft, valve tappets and all important keys and bolts are of alloy steel.

The frame of the car is of heavy 3-16 inch steel pressed into channel, form 3 1/4 inches deep and 1 1/4 inches wide. The body of the car is of heavy pressed steel. The fenders all are of heavy pressed steel. It is only because of this all steel body that the Willys-Overland Company is able to give it that high gloss, permanent finish.

Quality in Overland Four goes further than materials. It applies to design which has given that perfect balance that means years of life to the car and economy of operation and upkeep.

For Sale and on Demonstration by Wm. J. Hogan, Newcastle, N. B. & I.

### Farmers Making Money On Lath And Pulp Wood

Practically every New Brunswick farmer, owning timber land within hauling distance of a navigable river, is taking advantage of the present high price of spruce, fir and poplar and hauling as much as he can spare down the river's edge. Last year buyers paid \$16 a thousand for selected logs; this year the price is \$23 a thousand, on the river banks, and up there is barely enough offering to meet the demand.

Many of the woodland owners are not content with these returns, however, and have installed individual lath machines on their farms and with the American price for laths up to \$18 a thousand, it is expected that they will get good returns for their work.

Dealers point out that the United States market is high now and may break at any time, but it is not thought by those on the inside that the price will go below a cent a lath this summer. The local pre-war price of laths was ninety cents a thousand.

There is a strong boom in pulp wood, also, and it is said that farmers in striking distance of the rivers have made an average out of fifty cords each and are getting \$14 a cord, loaded on cars. The early spring price for pulp was \$12 a cord and there is no prospect of the market suffering a bear movement. Last year the price averaged between \$9 and \$9.50 a cord. So steady is the demand at present that many contractors, especially those who are acting as agents for firms across the border are offering a bonus, or a share in their commissions, to the lumbermen.

### PULP WORKERS GET MORE PAY

A committee of the Local International Brotherhood of Pulp & Sulphate workers with Mr. Labelle, organizer, met in conference with W. G. Stevens, manager of the Dominion Pulp Co., Ltd. on Saturday last and drew up a schedule of wages and conditions. This mill, which has been operating with two shifts, turned over to three tours of eight hours each and commenced operations under the new arrangements. The tour workers got an increase in wages of twenty per cent, while all other labor received an increase of thirty per cent. Day workers work the nine hour day as formerly.

## MARTIN-SENOUR 100% PURE PAINT & VARNISHES

### MARBLE-ITE

The Hard-Drying, Long-Wearing Floor Finish.

Nothing adds so much to the beauty of a home as floors that are properly cared for; on the other hand, floors that are not protected are unpleasant to look at, are hard to keep clean, and become injured through wear. Don't neglect your floors, beautify them and save them. Save the surface and you save all.

MARBLE-ITE Floor Finish is the perfect treatment for floors of all kinds. It is the one floor finish that has a money-back guarantee attached to every can.

In 24 hours MARBLE-ITE dries hard with a beautiful finish that will not show heel marks. It has a high gloss, yet is tough enough to stand any amount of wear without injury. It can be washed with soap and water and it will not mar nor scratch white.

We invite you to call and discuss this method of beautifying and protecting your floors. We can give you full details regarding this or any other painting or varnishing problem. We have a complete stock of MARTIN-SENOUR Paints and Varnishes. For every purpose—For every surface.

**Muskrat Open Sea-  
son Ended May 1**

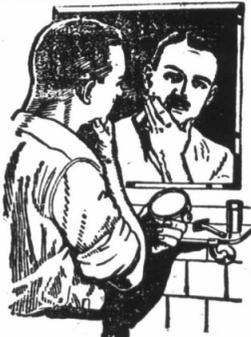

The general public would do well to  
remember that by legislation passed  
at the last session of the House of As-  
sembly the open season for the kill-  
ing of muskrats was curtailed and un-  
der existing laws ends May 1st instead  
of May 15th as heretofore. This means  
that the close season went into effect  
on Saturday last and anyone taking  
the animals after that date is liable  
to prosecution. The penalty varies  
from \$4 to \$10.

An important amendment to the  
game laws of which all should be  
aware is that each killing of an animal  
is now regarded as a separate  
offense. Formerly but one offense a  
day could be charged. Under that re-  
gulation the Chief Game Warden  
about a year ago could bring but one  
charge against a man who had killed  
seventy-nine muskrats.

The prices of fur which were re-  
markably high a short time ago, have  
dropped to a marked extent. Muskrats  
pelts within the past few days were  
sold here as low as 2.50 each. Beaver  
and other fur has dropped to a  
similar degree. Many owners of furs  
are refusing to sell them at current  
quotations preferring to store them  
for a possible revival in the market.  
Buyers claim that the world is well  
stocked with furs and that it is  
doubtful if there will be any great re-  
vival in prices.

**A  
Terrible  
Penalty**

frequently follows the neglect of  
an injury. Germs and dust get into  
the wound, it begins to fester, blood-  
poisoning sets in, and sometimes  
the loss of a limb is the result.  
Safeguard yourself against such  
a possibility by applying Zam-Buk  
at once. This antiseptic balm de-  
stroys all germs and prevents festering  
and blood-poisoning. Then the  
healing essences promote the  
growth of new tissue and it is not  
long before the wound is com-  
pletely healed.  
Zam-Buk should be kept handy  
in every home, office, store and factory  
for cuts, scratches, burns,  
scalds and bruises. It is equally  
good for eczema, rashes, boils and  
ulcers. All dealers, 50c. box.

**Applied  
After Shaving**

Keeps the Skin Soft and  
Smooth

MANY men suffer from  
irritation of the skin  
as a result of shaving. With  
some it assumes a form of  
eczema and becomes most  
annoying and unsightly.

By applying a little of Dr.  
Chase's Ointment after shav-  
ing the irritation is overcome  
and such ailments as Barber's  
Itch and Eczema are cured.

60 cents a box, all dealers, or Edmanson,  
Bates & Co., Ltd., Toronto.

**Dr. Chase's  
Ointment**

**A Dyspepsia Cure**

M. D. advises: "Persons who  
suffer from severe indigestion  
and constipation can cure them-  
selves by taking fifteen to  
thirty drops of Extract of Roots  
after each meal and at bedtime.  
This remedy is known as Mother  
Seigel's Curative Syrup in the drug  
trade." Get the genuine. 50c.  
and \$1.00 Bottles.

**A  
New Man**

If you are suffering from  
dyspepsia or other sto-  
mach trouble, you will  
appreciate a medicine  
that will relieve and  
correct your condition.

**HAWKERS'  
DYSPEPSIA  
REMEDY**

regulates and invigorates  
the digestive organs, pre-  
vents acid fermentation  
and souring in the stomach,  
and promotes digestion and  
assimilation of the food.  
Try this extraordinary me-  
dicine—it will make you  
feel like a new man.  
Sold at all drug and general stores, 50c.  
The Canadian Drug Co., Limited  
St. John, N.B.

**Quack, Couch or  
Twitch Grass**

This weed is a perennial, propagat-  
ed by seeds and sweeping root-stalks,  
persistent in all deep ploughed lands  
and in all crops, having great power  
in spreading and choking out other  
plants.

The permanent means of breaking  
this weed under control is to adopt  
for the area infested a sort rotation  
of rotation of crops or cropping plan  
which includes a hoed crop, once in  
three or four years. A short rota-  
tion of three years duration is pre-  
ferable since there is a hoed crop  
and only one crop of hay in a three  
year period conditions which tend to  
give the pest the least chance of  
flourishing. Another suitable rota-  
tion is one of four years duration of  
one year each in hoed, grain, clover  
and timothy hay crop. For timothy  
hay or pasture areas the procedure  
is as follows.

Allow the plant to exhaust its sub-  
stance in the production of a hay  
crop, which should be cut and re-  
moved as soon as the head is formed  
and before it is in bloom. Plough  
shallow, roll, disc once or twice to  
break up the sod and then cultivate  
with a stiff-tooth cultivator until the  
root-stalks have been pulled to the sur-  
face of a soil. When the accumula-  
tion of roots is so great as to inter-  
fere with the efficient working of the  
cultivator remove or burn them and  
continue cultivating in order to com-  
plete the work. In the autumn, ridge  
or deep roots to the action of frost  
than ordinary ploughing. Frost is an  
agent in the control of quack grass  
that should be made use of every  
possible occasion.

Grain areas that contain quack  
are not in fit condition to be seeded  
down to grasses and clovers nor are  
they in shape for the growing of pro-  
fitable crops in the future until after  
control measures have been intro-  
duced. Immediately after harvest  
stubble land should be shallow  
ploughed, disced once or twice to  
break down and consolidate the fur-  
row slices after which the stiff-tooth  
cultivator can be employed to advan-  
tage to obtain the necessary depth  
to facilitate the drawing of the root  
stalks or underground stems of quack  
to the surface. Cultivation should  
be thorough and the fall treatment  
as outlined for meadow or pasture  
land will apply on stubble.

THE STIFF TOOTH CULTIVATOR  
IS AN ESSENTIAL IMPLEMENT  
IN ANY CULTURAL PLAN FOR  
THE CONTROL OF QUACK GRASS.  
THE DISC HARROW USED AS  
THE COMBATANT IMPLEMENT  
ACTS AS A FORCE AGAINST THE  
SUCCESS OF OTHERWISE THOR-  
OUGH TREATMENT. THE USE OF  
THE DISC HARROW IN THIS CON-  
NECTION SHOULD BE LIMITED TO  
WORK OF DISINTEGRATING AND  
PULVERIZING SOD AND SURFACE  
RATHER THAN BREAK EACH  
ROOT INTO SEVERAL PARTS.  
EACH SMALL PIECE, LIKE THE  
POTATO SET IS CAPABLE OF EST-  
ABLISHING A NEW PLANT.

The following spring the area  
treated as described, should be planted  
to hoed crop for which manure may  
be applied, before the last ploughing  
or ridging in the fall or during the  
winter or spring. This brings us to  
the first year of the rotation from  
which period the procedure in crop-  
ping would be as outlined in the rota-  
tions recommended.

Where no regular hoed crop is  
grown, which is poor farm practice,  
rape or buckwheat sown on an infest-  
ed area after it has been thoroughly  
cultivated and the root-stalks removed,  
prove excellent smothering crops.  
For late sowing and as "first aid" in  
the control of the weed on an excep-  
tionally dirty field where other crops  
would be choked out and before at-  
tempting a hoed crop the two mentioned  
crops are very useful. Smothering  
crops, however, are recommended only  
as a temporary means of control.  
It is only by thorough persistent cul-  
tural methods and the proper utiliza-  
tion of crops that any satisfactory  
degree of success will be attained.

**"Produce More  
And Waste Less"**

New York, May 4—"Increase produc-  
tion and waste less," is the advice  
tendered by Lord Shaughnessy in a  
review of the present day outlook  
published today in the Wall Street  
Journal.

"It should be our prayer," says Lord  
Shaughnessy, "that contraction be not  
swift and that price correction be or-  
derly and spread over a long period.  
History will repeat itself, as it did  
after the American Revolution, after  
the civil wars and after the great  
wars of olden times. There can be no  
real liquidation of wages until com-  
modity prices are lowered. It was  
true a year ago and remains true now  
We must increase production and de-  
crease wasteful consumption.

The United States through its re-  
serve system, and Canada through its  
branch banks can hasten this process  
through judicious conservation of  
new credit. But a concerted  
program of contraction in either coun-  
try would still be a congestive stric-  
ture. We have no such program or  
formula here. It is the task of the  
farmer, merchant and manufacturer,  
and finally of the consumer to co-  
operate with the bank to produce natu-  
ral deflation."

**Children Cry for Fletcher's**

**CASTORIA**

Fletcher's Castoria is strictly a remedy for Infants and Children.  
Foods are specially prepared for babies. A baby's medicine  
is even more essential for Baby. Remedies primarily prepared  
for grown-ups are not interchangeable. It was the need of a  
remedy for the common ailments of Infants and Children  
that brought Castoria before the public after years of research,  
and no claim has been made for it that its use for over 30  
years has not proven.

**What is CASTORIA?**

Castoria is a harmless substitute for Castor Oil, Paregoric,  
Drops and Soothing Syrups. It is pleasant. It contains  
neither Opium, Morphine nor other narcotic substance. Its  
age is its guarantee. For more than thirty years it has  
been in constant use for the relief of Constipation, Flatulency,  
Wind Colic and Diarrhoea; allaying Feverishness arising  
therefrom, and by regulating the Stomach and Bowels, aids  
the assimilation of Food; giving healthy and natural sleep.  
The Children's Comfort—The Mother's Friend.

Mr. A. Butenschon of Norway has disposed of the Beaubear's Island Property to Messrs O'Brien Ltd. of Nelson, N. B.

**BABY CARRIAGES AT RUMMAGE SALE.**

**TEA AND SALE**  
The Ladies Catholic Club intend holding a Tea and Apron Sale in the Town Hall, the first week in June. Further announcement and particulars will be given.

**CLEAN UP DAY**  
Today is Clean Up Day and judging from the manner in which the public in general are interesting themselves our town will have a much cleaner aspect when the day is over.

**FURNITURE FOR SALE AT THE RUMMAGE SALE**

**SOCIAL DANCE**  
A social dance under the auspices of the G. W. V. A. will be held in the I. O. F. Hall, Nelson, N. B. on Wednesday evening May 12th. All are invited to attend. Ladies Free. Gents Tickets \$1.25.

**TOWN MANAGER IDEA TURNED DOWN**  
At a meeting of the Chatham Board of Trade held last Wednesday evening a motion was made to refer the Town Manager question to a meeting of the ratepayers, but it was voted down.

**MOTHER'S DAY**  
Sunday, "Mother's Day," was generally observed throughout the town the red and white rose being worn by a number of citizens, young and old. Special services were conducted in several of the churches and Sunday Schools.

**ANNUAL MEETING**  
The annual meeting of the Newcastle Fire Company was held in their room in the Town Hall last Thursday evening. The election of officers for the ensuing year took place and Chief B. F. Malby was again elected. A general re-organization of the company is to be made.

**AT OPERA HOUSE TONIGHT**  
The Earl of Chatham I. O. D. E. of Chatham are playing "Why she loved him," at the Opera House tonight. This is a 4 act musical drama and is under the direction of Mr. Theodore H. Bird. The company is composed of fifty Chatham people and played to a crowded house last Thursday in Chatham.

**ROBINHOOD FLOUR SALES**  
We had a call last Wednesday from Mr. F. B. Chandler representative in Northern New Brunswick of the Robin Hood Mill Limited, Moosejaw Sask. who manufacture the famous Robin Hood flour, rolled out porridge wheat etc. Robin Hood is a hard spring wheat flour and is rapidly becoming popular in Newcastle and surrounding territory. The Maritime Produce Co. sell all Robin Hood products wholesale and retail and Mr. Russell the manager reports an enormous increase in business with these lines.

**PROHIBITION PLEBISCITE EARLY IN JULY**  
Premier Foster announced Friday afternoon at the close of the morning session of the Provincial Government that the matter of the date of the plebiscite on the question of Prohibition was under consideration and although the date had not been definitely selected, the plebiscite would take place early in July. At least one month notice will be given to the electorate of the province, of the questions which will be upon the ballot. The nature of those questions has been practically settled. There will be not more than two and they will be as plain and simple as possible to avoid the criticism which was directed against the ballot used in the Ontario plebiscite on a similar subject. The ballot used in the Province of Quebec for Prohibition referendum contained but two questions and it is expected that the New Brunswick ballot will be similar.

**Childhood Constipation**  
Constipation is one of the most common ailments of childhood and the child suffering from it cannot thrive. To keep the children well the bowels must be kept regular and the stomach sweet. To do this nothing can equal Baby's Own Tablets. They are a mild but thorough laxative; are absolutely safe and never fail to relieve constipation and indigestion; colds and simple fever. Concerning them Mrs. Jules Paugereau, Nominette, Que. writes: "My baby was terribly constipated and suffered day and night, I was advised to give him Baby's Own Tablets and from the first they helped him and now at the age of thirteen months he is a big healthy, happy boy." The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams Medicine Co., Brockville, Ont.

**WOOD FOR SALE**  
Robinson's Mill is now prepared to take orders for wood.

**PROPERTY PURCHASED**  
Mr. Edward Dalton has purchased the Dr. D. R. Moore residence on Pleasant Street.

**GRADUATION CLASS**  
The class of 1920 to be graduated from the University of New Brunswick on Thursday, May 13th, will number 32.

**PRIZE WINNER**  
Miss Elizabeth Stothart was the winner of the prize offered to Grade V. (Miss Dunnett's Dept.) for highest marks in Arithmetic during April.

**MILLINERY. MILLINERY. MILLINERY AT I. O. D. E. SALE**

**ROY-HUTCHISON**  
At the home of the bride's mother Douglastown, N. B. April 26th 1920 Percy Everett Roy, and Barbara Hutchison were united in marriage by the Rev. Alexander Pirih.

**TWENTY-FIVE YEARS AGO**  
(The Daily Times, May 8, 1895)  
Mr. E. Sinclair, the popular and well-known north shore lumber king was at the Brunswick yesterday and returned home last evening. He reports the spring very favorable for stream driving. He himself has over 100 men on one drive.

**DOMINION ALLIANCE TUESDAY**  
The meeting of the New Brunswick Branch Dominion Alliance at which matters connected with prohibition and the coming provincial referendum will be discussed will be held at Fred ericton today the sessions beginning at 11 a. m. and 2 p. m. The sessions will be open to the public.

**WHEAT ADVANCED**  
The Canadian Wheat Board has issued a new regulation, effective May 8th, advancing all grades of western wheat thirty five cents per bushel, and B. C. Ontario and Quebec wheat forty cents per bushel. Bran and shorts have also been advanced \$3.00 per ton.

**CARPENTER'S SUPPLIES AT THE RUMMAGE SALE.**

**NEWCASTLE ASSISTS CHATHAM**  
Referring to the matter of abolishing the C. N. R. train despatching office at Newcastle, the World says "The proposed change would make the Chatham Branch service even more unsatisfactory than it is. Accurate information can sometimes be obtained from Newcastle in reference to delayed trains and other matters, but the transfer of the despatchers to Moncton, would leave us at the mercy of the station."  
The Chatham Board of Trade were requested to send representatives to join the Newcastle delegation which met Gen. Supt. L. S. Brown, but refused to do so. Newcastle has again assisted Chatham, regardless of their non-co-operation.

**EVERYTHING REASONABLE AT RUMMAGE SALE**

**Rates of Pay To Be Given At Camp Sussex Expected That Camp Will Open June 22nd and Continue Twelve Days.**  
The rates of pay to be allowed the various ranks during the period of training at Camp Sussex this year have been announced. It is expected, though not yet officially confirmed, that Camp Sussex will open June 22nd, and that training will continue for twelve days. The official pay rates per day are as follows:  
Horse allowance per day each \$1.25  
Wagon allowance per day each .50  
Warrant Officers, Class I. Brigade or Regimental Sergt Major or Staff Sgt. Major \$2.75  
If not granted warrant .250  
Bandmaster  
If granted a warrant, per day .275  
If not granted warrant .250  
Warrant Officers, Class II, N. C. O.'s and men  
Brigade or Regimental Q. M. S. or Staff Quartermaster Sergeant, per day .250  
Squadron, Battery or Company Sergeant Major, per day .225

2nd Corporal, per day .050  
Lance Corporal, per day .025  
Trooper, Gunner, Driver, Sapper, Private, Trumpeter, Bugler  
Piper or Drummer, over age of 18 years .125  
Buglers, etc., under age of 18 .075  
An additional 25c per day will be paid those with two or more dependents training or previous service in the C. E. F.

**Flour Again On Upward Climb**  
Flour prices are stiffening in Canada and the United States, the quotation in Minneapolis advanced to \$14 a barrel which is 98c pound sacks in carload lots. This represents an advance of \$2 a barrel for standard flour in a month. Sixteen dollars is a new high record. Ontario flour advanced this week twenty five cents a barrel to \$14.00 whole sale.

**TO BEGIN OPERATIONS**  
Several of the mills on the river expect to begin their season's operations this week.

**APPOINTMENT MADE**  
Messrs. Theodore Bell and Earle Wilson, two returned men have been given appointments as Fishery Officers for the North Shore.

**CORRECTION**  
The Life Membership Certificate of the Women's Foreign Missionary Society was given to Miss McAllister by Mrs. L. H. MacLean, and not by the society.

**TO TAKE SEAT WEDNESDAY**  
It is expected that Sir Robert Borden will take his seat in the House of Commons on Wednesday in time for the introduction of the current budget.

**CHILDREN'S HATS AT RUMMAGE SALE...**

**NO TIDINGS**  
No tidings of Clarence Wright, who left a camp some two weeks ago on the Northwest Miramichi, have been secured and the searching party is still hunting the woods.

**MONEY ORDER FOUND**  
A Dominion Express Money Order remitted by T. Eaton Co., Ltd., can be secured at the Advocate Office by the party losing same, on giving full particulars and paying for this advertisement.

**FIRE COMPANY RE-ORGANIZED**

Harry Taylor, Lieut.  
W. Stables, Secretary  
W. McMaster, P. Russell, C. Stothart, C. Delano, F. Harris, R. Jarvis, R. McPherson, A. Melvor, L. Vickers, J. Fallon, H. Comfort, E. Treadwell

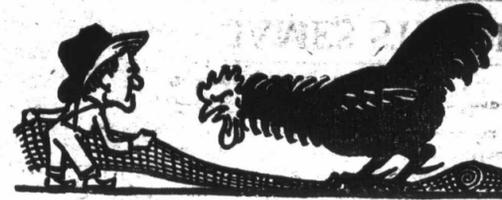

**CLOTHING AT RUMMAGE SALE**

**FATAL ACCIDENT**  
Mr. Chas. Johnson of Acadville, Kent County who was employed on the Fraser Company Drive was killed Saturday morning May 8th at 8 o'clock by a number of logs rolling on him from off a landing, which was being put into the stream. The young man only lived a short time after the accident and his remains were taken to the undertakers at Blackville from where they were sent to his home.

**MARITIME PROVINCES TO BE WITHOUT UNITS**  
Fredericton, May 9—Mayor John A. Reid and C. D. Richards, who went to Ottawa as representatives of the local organizations to discuss the location of a unit of the permanent military force in Fredericton as before the war, returned on Saturday afternoon. Mayor Hughes said the delegation had been given a most satisfactory hearing by Hon. Hugh Guthrie, the Minister of Militia, being introduced by Col. H. F. McLeod, M. P., who had arranged the interview the afternoon of their arrival, and they came away impressed with the belief that the question as to whether Fredericton will have a unit of the permanent force located here again is not so much one of the choice of a location in the province but as to whether or not there will be any units of the permanent force stationed in New Brunswick at all.

It is understood that the delegation learned while at Ottawa that the Militia Council have made a recommendation favoring establishment of the permanent force established in Canada, so that the Maritime Provinces, as well as British Columbia, would be without any units. The recommendation, it is said was only recently made and thus there was an unexpected situation confronting the delegation upon their arrival in Ottawa.  
Lieut. J. E. Hall and Q. M. S. Mc Guire, of Halifax, were here Saturday on their way to Woodstock with equipment for the 59th Field Battery a militia unit there. The four guns held by the various batteries at present are being replaced by new 18 pounders, which have been sent from England. Lieut. Hall stated that all the old guns were being replaced by modern ones which had arrived at Halifax from England.

**PILES**  
Do not suffer another day with PILES. Use Chamberlain's Pile Remedy. It is a sure cure for PILES. No matter how long you have suffered from this painful ailment, Chamberlain's Pile Remedy will cure you. It is a sure cure for PILES.
