The woman in Parliament is proof of the great strides women has been enabled to make with short skirts.— Barrie Examiner.

That the exemption from income tax for each child be made \$500 instead of \$200, as at present, is the suggestion contained in a resolution placed on the order paper of the commons by Joseph Archambault, Liberal member for Chambly-Ver-

The Woodstock Sentinel-Review suggests that the author of the Nick Carter stories, who committed suicide grew disgusted at seeing stories which he used to sell at five or ten cents padded out, bound in cloth, called "literature" and put on the market at \$1.50 and \$2. It must be admitted that the literary standard cannot be judged by the binding and the cent the cost.

Woodstock Sentinel Review:—The mere fact that a man has had experience on the land in the Old Country is not, however, a guarantee that he will succeed in this country. Farming conditions are different here from what they are in England; however, for the man with some money, some brains and plenty of crit, there are brains and plenty of grit, there are good opportunities here. And there will be a welcome for such men.

Provisions governing the grading of vegetables, more particularly potatoes and onions, will be embodied in a bill to be brought before the Commons this week by Hon W. R. Motherwell, Minister of Agriculture. Up to the present time no serious attempt has been made to grade potatoes and onions, and it is claimed that both buyers and sellers have suffered thereby,

Calgary Albertan:—The farmers just about have their share of prem-iers in Canada. John Oliver of B. C. is a farmer; Herbert Greenfield of Alberta is a farmer; the next premier of Saskatchewan will be a farmer; Norris of Manitoba is partly farmer; and his successor will be a farmer; rury of Ontario is a farmer; P.E.I. is a farmer. In addition, among the provincial premiers there are two lawyers and one merchant.

When the Pope was Archbishop of Milan he once said: "Women are a great power for good. It is merely the shameless few who, by keeping themselves always conspicuously before the eyes of the public, give cynics and cheap humorists their chance to throw mud at women in general. But a world without woman's refining influence is a thought terrible to contemplate. Women should agree not to allow a few of their number to bring discredit upon them all."

The Walkerton Telescope questions the propriety of church organizations conducting baking sales, claiming that in so doing they are coming in direct opposition with the men in that business. The Telescope says: "Several of our exchanges lately have pointed out the unfairness of churches, etc., holding "baking sales" These sales, the making of which there seems to be no end, are a menace to the business of the local bakers, who have a hard enough time to make a living, and at the same time are usually financial supporters of the churches, etc. A large baking firm in a Western Ontario town has come out boldly in its advertising against the unfairness of baking sales. Many other bakers, while not openly de-claring against the holding of these sales, none the less feel the effect of this unfair competition."

One of the most effective vermi fuges on the market is Miller's Worm Powders. They will not only clear the stomach and bowels of worms, but will prove a very serviceable medicine for children in regulating the infantile system and maintaining it in a healthy condition. There is nothing in their composition that will injure the most delicate stomach when directions are followed, and they can be given to children in the full assurance that they will utterly destroy

A NERVOUS BREAKDOWN

When the Blood is Out of Order the Nerves Are Starved.

The nerve system is the governing system of the whole body, controlling the heart, lungs, digestion and brain; so it is not surprising that nervous disturbances cause acute distress. The first stages of nervous debility are noted by irritability and restless-ness, in which the victims seem to be oppressed by their nerves. The mat-ter requires immediate attention, for nothing but suitable treatment will prevent a breakdown. The victim, however, need not despair, for even severe nervous disorders may be re-lieved by improving the condition of the blood. It is because Dr. Williams' Pink Pills enrich the blood that this medicine has proved beneficial in nervous disorders. The nerves thrive on the better blood made by these pills; the appetite improves, indigest-ion is better, sleeplessness no longer troubles the nerve-shattered victim, troubles the nerve-shattered victim, and life generally takes on a cheerful aspect. The value of these pills in cases of this kind is shown by the experience of Mrs. John W. Macdonald, Cardigan, P.E.I.; who says:

—"I have much cause to be grateful to Dr. Williams' Pink Pills. I was suffering from nervous breakdown. suffering from nervous breakdown, and my condition gave alarm to both my friends and myself. I suffered almost continuously from nervous headaches, my appetite was poor, I hardly got any sleep, and in every way I was badly rundown. A friend advised me to try Dr. Williams' Pink Pills and after I had taken them for a time there was a roticeable ima time there was a noticeable improvement in my condition. I continued using the pills until I had taken twelve boxes, when every symptom of the trouble was gone, and I have since enjoyed the best of health."

Protect the child from the ravages of worms by using Mother Graves' Worm Exterminator. It is a standard remedy, and years of use have en-hanced its reputation. m

IORONTO

You know from laborious experience that you spend at least an average of one hour a day in pumping water for use about your farm.

Stop losing this valuable time. Save your strength. Instal a Toronto Windmill and see how quickly it will pay for itself.

Toronto Windmills are quiet, efficient workers. Cost nothing to run. Require practically no attention outside an occasional oiling.

And when linked up with a Toronto Pump and Toronto Water System, a Toronto Windmill will give you a city water service right on your farm.

ALVINSTON WOMAN'S DEATH

Fell From Hospital Window In Absence of Nurse.

Falling from a second-story wind-ow in St. Joseph's Hospital, London, shortly after 2 a.m., Saturday morn-ing, Miss Elizabeth Black of Alvinston, 51 years old, suffered internal

ston, 51 years old, suffered internal injuries, that resulted in her death six hours later.

Hospital authorities report that although Miss Black had been ailing for several months she had only been a patient at the institution for the past two weeks. Early Saturday morning, they report, she arose from her bed to raise the window, immediately falling to the grass below, just missing the cement sidewalk. She sustained a broken arm in the fall as well as internal injuries, which caused her death.

Dr. A. MacLean, coroner, decided an inquest was unnecessary.

The doctor attending Miss Black stated that the news of the tragedy was like a bolt from the sky to him. "Miss Black was never a violent patient at any time. She never gave any intimation that she might and any intimation that she might end her life. She was certainly not that type of woman."

NEW IDEAS FOR FALL FAIRS

The Listowel papers announce that The Listowel papers announce that the prize lists of the local exhibition to be held next fall are now ready for distribution. The Listowel Exhibition Directors have gone a long way towards insuring the success of their show by getting their prize lists out so early in the season. The majority of fall fairs do not get their prize lists out in time to be of much prize lists out in time to be of much advertising value to the fair. If the prize lists were issued not later than June 1st, in each year, exhibitors in every department would have some reasonable time in which to prepare their entries. This would be especially true in the ladies' departments. As it has been in the past, there is no time after the lists are issued for the ladies to get ready any new fancy work or articles of domestic manu-

OF PASSING INTEREST

Only four passengers were killed on the Canadian railways last year, out of a total of fifty one millions carried.

During the last four months that the agricultural development board has been functioning, the province has lent to farmers in long term loans more than half a million dol-lars—to be exact \$571,579, in addition it has advanced \$25,000 in shor term loans.

The importation into Canada from Europe of bees, used or second-hand hives, or raw hive goods or products, excepting honey, is prohibited on and after the first of May, 1922, according to an order issued by the Federal minister of arriculture. The order a statement issued by the department of agriculture says, is necessary owing to the danger of introducing a contagious disease of bees known as the "Isle of Wight Disease."

The farmer is now starting on his annual gamble with nature. He has promise that "as long as the world lasts, seed time and harvest will not fail," but between seed time and harvest there are many anxious hours for the man who must depend on sunshnie and moisture, who must contend with insect pests and other unfavorable factors. **WE didn't have to tear off the old roof and litter up the lawn.
We used ART CRAFT, the wonderful roll roofing with the tile design."

ART CRAFT, Canada's most beautiful roofing, is made of heavy rag felt impregnated with asphalt, and surfaced with crushed slate (red or green),

with an enduring tile design. ART CRAFT adds beauty to any residence, and gives a double roof at half the cost. Strengthens the old wooden shingle roof, makes it more attractive and absolutely water-proof. Reduces fire risks and wears—wears. AND—ART CRAFT can also be applied directly to the roof boards for new work.

THE UNSEEN ENEMY OF MOTOR VEHICLE AND TRACTOR EFFICIENCY

One of the most important factors in the operation of motor vehicles and tractors is correct lubrication "CERTIFIED" Lubricants are manufactured with scientific exactness (by one of the largest oil refiners in Canada) and eliminate wear by stopping friction; when used continuously creates in every motor in any make of car perfect and permanent lubrication.

Motorists whose policy is to save "maintenance-cost dollars" rather than "price per gallon pennies" consider "CERTIFIED" Oils and Greases by far the most economical motor vehicle and tractor lubricants obtainable. Upon regaest one of our Lubricant Service-Sales men will call and explain further the merits of "CERTIFIED" Oils and Greases—the better motor vehicle and tractor lubricants. lubricants.

Rust Defying - Because Hot Galvanized

There's one feature in particular you'll appreciate about Toronto Stable Equipment. It's the only Stable Equipment made in Canada in which the galvanizing thoroughcovers and completely coats the metal and the inside of steel tubes as well. This method makes it absolutely rust defying and proof

against strong stable acids for the maximum period—while the method ordinarily used simply applies a surface coating and goes only a short distance inside tubing.

Toronto Stable Equipment will make work easier—keep cattle

Montreal Woman Health by Taking Lydia E. Pinkham's Vegetable Compound

Montreal, Quebec.—"I was a sufferer for three years, not able to do my housework. My husband was discouraged, for I was no better and had had the doctor all this time and nothing helped me. I was always sleepy, had no appetite and suffered with my left side. My mother in England recommended Lydia E. Pinkham's Vegetable Compound because it had helped my sister, so I have been taking it. I am now able to do my housework and I can not praise your medicine too highly as I have great hopes for the future. I will tell anyone who writes to me what good it has done me."—Mss. E. Masson, St. Henry P. O., Montreal. For nearly fifty years Lydia E. For nearly fifty years Lydia E. Pinkham's Vegetable Compound has been helping women just as it helped Mrs. Masson; oftentimes after doctors and other medicines failed. If you are suffering from disagreeable symptoms caused by some female weakness, try this splendid medicine. It is a woman's medicine for women's ailments, and can be taken in safety by any woman.

CANADA'S CRUCIFIXION

(Cleveland News, April 22, 1922) North, over the border, to-day in every community leal-hearted citizens of the Dominion are holding commemorative services for the sons of the maple, lying in Flanders fields, who held the line for liberty from April 22 to April 24 seven years ago. In proud and loving memory mothers and fathers of these heroes recall the battle of battles of the World War, in which the picked conscripts of con-tinental Europe hurled themselves for three consecutive days on the flower of youth of Canada and in the

end retired baffled, leaving on the field thrice 10,000 dead. The true story of the world's salvation from militarism by that little band of stalwart souls, known as the First Canadian Division, history will tell. The battle of St. Julian was the tell. The battle of St. Julien was the start of a series of displays of Can-adian heroism and efficiency that marked the Flanders and Picardy campaigns of the great war wherever emergency occurred, and which has added to the glory of patriotic achievement the events chronicled by the names of Festubert, Givenchy, Vimy, Cambrai and a score more.

Untested men from farm and factory, numbering less than 10,000, had been placed between two French armies to block the enemy's deter-mination to achieve the French channel ports. To Von Falkenhayn's command to his German troops to pulp the Canadians and break through, no matter the cost, an answer was given which ranks St. Julien with Therwhich ranks St. Julien with Ther-mopylae and The Alamo, with the difference that St. Julien had her messengers of victory, albeit they numbered but 400, all that was left

of Canada's vanguard in the fight for civilization. Deserted by the Algerian corps on its left; its right bared by the re-treat of the extreme eastern French wing, this pigmy army stood. Defying the repeated charges of the magnificent Prussian guard, 10 service battalions of which dissolved themselves against that unbreakable hum-an wall; scornful alike of gas and bomb these Canadians fought for 72 hours to achieve the result their commander curtly ordered in the words:
"The line across St.Julien wood must
be held. The Canadians will hold it."

And when, after the three-day agony, the third British army came to the relief and the battered men of the western continent marched out, no more inspiring sight was ever witnessed than the little army passing through infacing serried ranks of seasoned British warriors, each rigidly standing at "the present."

The salute of St. Julien is Can-ada's forever!

SATISFIED MOTHERS

No other medicine gives the same satisfaction to mothers as do Baby's Own Tablets. They are equally good for the newborn babe or the growing child and are absolutely guaranteed to be free from opiates or other harmful drugs. They are a mild but thorough laxative and cannot possibly do harm—they always do good.
Concerning them Mrs. Jos. Ache,
Coteau Road, N.B., writes:—"I
think that Baby's Own Tablets are a marveleous medicine for little ones. I gave them to my little girl with such good results that I now strongly recommend them to all mothers."

The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co, Brockville, Ont.
