The Palma Trophy Won By the United States

CANADIANS SECURED SECOND PLACE IN MATCH THAT BEAT THE WORLD'S RECORD.

(Ottawa Free Press.)

The United States won the Palma trophy by shooting such as the world had never seen before, the representative eight from the American army on Saturday, at the Rockcliffe ranges, compiled a score of 1,712 points out of a possible 1,800 at 500, 300, and 1,000 yards. The previous record was 1,670 made at Bisley in 1903. Canada came second with 1,671, Australia next with 1,633, Great Britain last with 1,580.

The quality of scoring had never been equalled. All four teams surpassed any previous team aggregate. Fifteen individual marksmen reached figures higher than the best single total in any other contest. So that while the original defender of the trophy came into their own after many years, it was not due to any falling off in form on the part of their rivals. The best team was, and that phrase tells the story of the match.

While not the victor, the Dominion may take great pride in the magnificent performance of its marksmen. In a glorious uphill fight at the 1,000 yards range, the chosen eight put on 551, two points more than the American team, and raised the Maple Leaf to the status of second among the rifle-men of the world.

PRESENTED BY EARL GREY.

On the steps of the D. B. A. bungalow the victorious eight and their team captain, Col. Thurston, stood hand-in-hand in the centre of a huge crowd to receive the individual medals and the trophy from His Excellency, who had remained on the range until every shot was counted.

"Col. Thurston," said His Excellency, "it is my privilege to present to you this trophy which has been won by your team with its marvellous shooting. We all congratulate you on winning it, and the United States on winning it, and the United States on winning it. You take back with you not only the trophy but the friendship of all who have been fortunate enough to be in contact with you. The shooting was marvellous—it has beaten all previous records. That of the British team was 10 points above any previous record. Nor must you forget that Canada has beaten you at 1,000 yards. (Laughter.) It gives us some hope of bringing it back."

"Your total of 1,712 is the highest record on the ranges of the world. The highest individual score today was 219; the highest previously 206. Today fifteen men—six Americans, five Canadians, three Australians, and one Englishman—are above that mark."

He concluded with the sincere hope that riflemen of the King's dominions would soon meet the defenders once more.

FORTY LASHES AND TWO YEARS IMPRISONMENT.

Two years in the Maritime penitentiary and forty lashes were the sentence imposed by Chief Justice Tuck at Dorchester last week on Henry Berry, of Lewisville, who confessed to criminal conduct with his step-daughter, a girl about fifteen years of age. The lashes are to be administered on two different occasions, twenty each time. The first castigation with the lash will be given when Berry enters the penitentiary.

The crime with which Berry was charged, and to which he pleaded guilty, was a most heinous one, the father giving by the wife of the accused at the preliminary examination before police magistrate Kay in Moncton, being of a most revolting character.

The complaint against him was made by his wife, who was the child of a woman against him at the preliminary examination.

Fatal Driving Accident at Bridgewater

One person was killed and four others were seriously injured in a carriage accident near Bridgewater on Saturday, 7th inst., when a horse owned by Paul A. Moore, manager of the Micmac Gold Mines, ran away and after galloping down a steep hill crashed into an oxcart. Mrs. T. Nutting, Mr. Moore's mother-in-law, was instantly killed, while Mrs. Moore and her two year old daughter, a nursemaid and the driver were all seriously injured.

DEAD.

Mrs. Nutting, aged about 60, New York, killed instantly.

INJURED.

Mrs. P. A. Moore, wrist broken, several ribs fractured. Airtette Moore, two years old, daughter of Mrs. Moore, hip broken. Annie Butler, nurse maid, badly injured back.

Driver of carriage, severely cut and bruised.

A HILL ABOUT SEVEN MILES FROM BRIDGEWATER AND A QUARTER OF A MILE FROM THE MICMAC GOLD MINES WAS THE SCENE OF THE ACCIDENT, WHICH OCCURRED ABOUT 5.30 ON SATURDAY AFTERNOON.

The party had been out for a drive and were returning home. On the top of this hill the narrow road, getting beyond broke and the horse, getting beyond broke and galloped wildly down the hill. From side to side the carriage swayed threatening at any moment to overturn or throw the occupants out. Down the long hill the horse sped at terrific speed, and their vainly endeavoring to regain control of the animal. At the bottom of the hill the road came to a sharp curve and the carriage dashed into an oxcart, and was overturned, throwing the occupants out. Mrs. Nutting was instantly killed and, with one exception, all the other occupants were seriously injured. Marion, the five year old daughter of Mrs. Moore, was not injured in the slightest.

Everything possible was done to relieve the injured and they were removed to Mr. Moore's house.

Col. Nutting and Mr. Moore were away fishing at the time and were hurried to Bridgewater in a special train from Caledonia. Miss Olive Nutting, who had been staying with Mrs. E. E. Boreham at their summer cottage at the North West Arm, was notified of her mother's death about eight o'clock on Saturday evening and left in F. B. McCurdy's automobile at midnight, accompanied by Mrs. Boreham, and reached Bridgewater in six and one-half hours.

For several years Col. and Mrs. Nutting have been coming down each summer to visit their daughter. Col. Nutting was in the United States army for many years, but is now retired. Their only son, Raymond, who is an engineer, left New York for Peru a few days ago, and was notified of the accident by wireless.

Our Boys in Camp

Embryo Defendants of our Nation Learning the Science and Ethics of War at Camp Aldershot.

(Special to the Monitor.)

Camp Aldershot, officers and men alike are busy making themselves masters of the science of war. The weather has been excellent so far, the sun displaying itself each morning in all its glory, the fine weather enabling a complete day's work to be done each day.

There are about three thousand men in camp, made up from the following regiments—60th P. I. F., 52nd Halifax Rifles, 8th Kings County, 49th, Annapolis County, 76th, Lunenburg, 78th, Colchester, 93rd, Cumberland, 94th, Cape Breton, and two squadrons of the Kings County Hussars.

The men are commencing to assume a soldierly appearance. Their physique is above the average, and, as a rule, they are much younger than those drilling heretofore at camp.

Each regiment has its own chaplain and surgeon, so that the spiritual as well as the physical welfare of the men now receives attention. The Rev. F. B. Moore, formerly on the Bridgewater circuit, is chaplain of the 69th regiment, and is a favorite with all. He makes it a special duty of his to keep in touch with the men, keeping them supplied with reading matter and looking after their mail, a favor which the men appreciate very much.

On Sunday morning, Divine services were held on the ground. The whole camp turned out on Church Parade, each regiment presenting a very imposing appearance with its band. Sir Frederick Borden, M. P., K. C. B., Minister of Militia, also attended the service and reviewed the men after service, expressing satisfaction on the soldierly appearance of the men. It was through Mr. Borden that the present Aldershot was established, it being far superior to the old Aldershot, both for field work and from a sanitary point of view. It is situated on high ground, being a natural plateau about one mile square, making it much more healthy than the former location. This year there is very little sickness of any kind at the camp. The men look upon the work and camp life as a grand picnic. The Government is supplying a much better quality of food than formerly. The men are now able to have a change of food every day, a very decided change from "drill-ground beef," which is a synonym for piece of tough meat boiled in water, with a little pearl barley.

The balance of work at camp will probably be field manoeuvres, skirmish drill, attack and defence. Thursday will in all probability be Review Day. Friday morning will be sham fight, and work of breaking camp will commence on Friday afternoon. — H. E. WADE.

WELL-KNOWN AUTHOR DEAD.

James Macdonald, the well-known writer, is dead. He was born in Halifax in 1855 and educated at Halifax Grammar School and Dalhousie University. He practiced law in his native city for five years. In 1892 he became manager of the Sun Life Assurance Company at the head office, Montreal. He has contributed to more than fifty periodicals, including Scribner, Forum, North American Review, Cosmopolitan and Youth's Companion. Among his best known books are Up Among the Icebergs, Diamond Book, Romance of Commerce, and Spring of the Sea. He was a well known bowler.

Great success has attended the commission's efforts and Mr. Bowers' aiders that never before, in the memory of the present generation has there been so large a supply of young lobsters as there is now along the Atlantic coast.

Three millions young lobsters are to be put into the waters of the Atlantic coast this year alone, at least in the opinion of Commissioner Bowers. This, together with those planted in the last three years, will, it is expected, make a supply available next year to meet all possible demands.

The Courier says—Two Norwegian sailors, Frank Senek and Ancon Schenk, were arrested at Weymouth, where they were under ten weeks' imprisonment at Digby for desertion, effected in the morning, after spending four weeks in prison. The men, after great toil, removed a block of stone, over the wall door, through which the stove pipe passed. The work must have taken a long time, but the sailor's suspicions were not aroused. They are still at large.

Tell us not in mournful numbers that this town is full of gloom, for the man's a crank that slumbers in these bustling days of boom. Life is real, life is earnest, and the grave is not its goal; every holler that thou turnest, helps to make the old town roll. But enjoyment and not sorrow is our destined end or way; if you have no money, borrow—buy a course lot each day! Lives of great men all remind us we can make our lives as brave as theirs. We have the champs behind us and we'll get there just the same. In this world's bread battle, in the bivouac of life, let us make the dry bones rattle—lay a corner for your wife! Let us thump up and doing, with a heart for any fate; still achieving, still pursuing, soonest with a beating pulse.

The Tea that sells best and satisfies best is

MORSE'S

It Sells and Satisfies because it is a TEA of Best Quality.

Power for Operating Mines from Nictaux Falls

The Londonderry Iron Mining Company, who recently acquired the iron deposits at Torbrook from George E. Corbett, are preparing to install an electric system for operating their mines. The power will be drawn from the Nictaux Falls, about a mile from their property. The mills, which were formerly operated at the falls, have been abandoned, to make way for the utilization of the water power for electrical purposes. The estimated cost of the plant is between \$40,000 and \$50,000.

The wharf property at Allen's Creek Annapolis, bonded by George E. Corbett some time ago, has been taken over and the erection of a deep water pier for the shipment of iron ore will it is said, be now proceeded with at an early date.

NO CHANGE IN THANKSGIVING DAY.

Ottawa, Sept. 12.—A delegation from the Commercial Travellers' Association waited on the members of the government today and asked that Thanksgiving Day be held on a Monday instead of Thursday, as at present. While no definite answer was given the delegation, it is understood that there will be no change in the day, and that Thanksgiving Day will take place on a Thursday, the same as has always been the custom in Canada, as well as in the States and Britain.

FOR A SPRAINED ANKLE.

A sprained ankle may be cured in about one-third the time usually required, by applying Chamberlain's Pain Balm freely, and giving it absolute rest. For sale by W. A. WARREN, Pharm. B.

Death of Rev. I. E. Bill

The Toronto Globe says: A sudden attack of heart trouble carried off Rev. Ingram E. Bill at an early hour yesterday morning (Sept. 11). Mr. Bill, who has been the homely visitor for the past four or five years, was apparently in good health, having been at the exhibition on Friday, and seemed very well on Saturday, but his daughter happening to awake about 4 o'clock heard him making some noise as in pain, and hastened to his side. He passed his hand over his heart, saying that he had a strange pain there. She rushed off to get a doctor, but by the time she returned her father was dead, the heart having failed.

A specially pathetic coincidence was that Rev. Mr. Bill was to have occupied the platform yesterday of Ovington Ave. Baptist church, of which he was a member, along with his son, Rev. I. E. Bill, Jr., of Chicago, who was yesterday filling the pulpit in the absence of the pastor, Rev. William John Scott.

The deceased minister was somewhat advanced in age, being about seventy years old. He was for many years pastor of a church in Nova Scotia, but had been a resident of Toronto for some ten years, being a member of Bloor St. Baptist church before moving to the west end. He made his home with his daughter, Miss Isabelle Sears, at 524 Ovington Ave. He is survived by his wife, his daughter, and his son, a pastor in Chicago, who happens to be visiting here at present.

Sheriff's Sale

1907, Letter "A," No. 1331.
IN THE SUPREME COURT
Between
THE RELIANCE LOAN AND SAVINGS CO. OF ONTARIO, Plaintiff.
And
FRED M. MUNROE, Defendant.

To be sold at public auction by the Sheriff of the County of Annapolis at the Court House in Bridgetown in said County of Annapolis, on Saturday, the 21st day of September, A. D. 1907, at three o'clock in the afternoon, pursuant to an order of foreclosure and sale made herein and dated the 20th day of August, 1907, unless before the day of sale the amount due to the plaintiff on the mortgage foreclosed herein and costs are paid to the plaintiff or into Court, all the estate, right, title, interest and equity of redemption of the defendant and of all persons claiming or entitled by, from or under him, of, in and to
All and singular that certain parcel or tract of land and premises, situate, lying and being in Melvern Square, in the said County of Annapolis,
Beginning on the South side of the Melvern Square Mill Road, at a stake on the West side of Samuel Tilley's gate thence West, following Samuel Tilley's North line to George S. Phinney's East line, thence North along said line to said Melvern Square Mill Road, thence East along said road to Grist Mill fence, thence Northwardly crossing the road and following high water of the Mill Pond along lands owned by Miner Sprawl and Walter Gates to a maple tree marked, thence East across Mill Brook to a willow tree, thence South to a hemlock tree marked, thence Southwardly following high water mark along lands formerly owned by Rev. O. Parker, Timothy Phinney, Beniah Spinney, S. D. Munro, Francis Crockett & Jacques, Estate of the widow Eliza Gates, deceased, and Norman B. Phinney, crossing the aforesaid Melvern Square Mill Road, thence East on the South side of said road to a stake or stone, thence South two rods to the place of beginning, containing by estimation, sixteen acres, and all the mills, mill buildings and machinery thereon, the said lands and premises having been conveyed by deed by J. Aynard Morse, High Sheriff, to Edson J. Miller, hearing date the 27th day of October A. D. 1888, and recorded in Liber 89, Folios 360, 361 and 362, and by deed conveyed to Henry Munro by the said Edson J. Miller on the 15th day of October, A. D. 1870.

Terms—Ten per cent deposit at time of sale. Remainder on delivery of deed.
EDWIN GATES,
High Sheriff for the County of Annapolis.
O. T. DANIELS,
Plaintiff's Solicitor.
Dated the 20th day of August, 1907.

Puzzle Corner

Dear Boys and Girls—
If you have to speak pieces at school I think you will appreciate the pretty poems we are giving you this week. From time to time we shall give you something suitable for recitation. Would it not be a good plan to start a scrap book, if you have not one already?

THE PUZZLE EDITOR.

DREAMS.
At last I know where they are kept,
My own, own dreams;
At night I found them when I slept,
But now it seems
As if I only have to go
A little way,
And I can find them all, I know,
By night or day.
I do not even shut my eyes
I sit and wait,
And pretty soon, wide open lies
A rift in fate.
All things I wait some through to me
And I can go
A-sailing, sailing on the sea—
Heave ho! Heave ho!

THE SONG SPARROW.
He does not wear a Joseph's coat
Of navy blue, smart and gray.
His suit is Quaker brown and gray,
With darker patches at his throat.
And yet of all the well-dressed
Through
Not one can sing so brave a song.
It makes the pride of looks appear
A vain and foolish thing to hear
His "Sweet-sweet-sweet-very merry cheer."

PICKLED GRAPES.
Pick the grapes from the stems
without breaking, wash in cold water,
drain thoroughly and pack in a jar.
They need no cooking. For seven
pounds of the fruit put into the
preserving kettle a quart of good
vinegar, not too sharp, three pounds
of sugar and a tablespoonful each
of whole cloves and cinnamon sticks.
Scald thoroughly, then pour over
the grapes. Cover when cool, laying
first a grape leaf or horseradish leaf
directly over the pickles. Do not use
for two or three weeks.

PRESERVED PLUMS.
Take either large yellow or large
blue plums; weigh and place them in
a hot water, let them boil, let them
remain a minute, transfer the fruit
to a large flat dish, then carefully
remove the skins. For six pounds of
plums allow four pounds of sugar
and one quart of water. Boil sugar
and water five minutes, remove all
scum, add the plums and cook three
minutes. Carefully fill the glass jars
with plums; boil the syrup five
minutes longer; strain and pour it
over the plums. Fill to overflowing. Close
the jars and set them in a cool
place.

PICKLED PEACHES.
Prepare half a peck of peaches for
pickling by quickly immersing a few
at a time in hot water and wiping
the fuzzy coat from each with a
coarse towel. Make a pickle of a pint
of vinegar, two pounds of sugar and
an ounce of stick cinnamon, cloves
and nutmeg. Add the peaches and
cook for twenty minutes. Keep in
glass cans or small crocks.

CONUNDRUMS.
Why is a mad man like two men?
What is that which kings seldom
see but we see every day?
An eighty gun ship, in full sail,
with all her ballast and crew on
board, what does she weigh?
If a stone is thrown into the sea,
what color is grass when covered
with snow?
Dear Puzzle Editor—
I have not written to the Puzzle
Corner before. I am interested in it
and think it will be more interesting
since it has changed to stories and
poems. Think the story in last week's
paper was fine.
Wishing the Corner success,
I remain,
GLADYS DANIELS,
Paradise,
Age—11 years.

HANINGTON-WILLET WEDDING AT MONCTON.
Moncton, N. B., Sept. 12.—A very
pretty wedding took place at twelve
o'clock today in St. Paul's Reformed
Episcopal church, when Miss Mary
Willett, daughter of George B. Willett,
of this city, was married to Charles
Lionel, son of Judge Hanington, Dor-
chester. The church had been very
prettily decorated for the occasion,
and the pastor, Rev. J. Eastburn
Brown, tied the nuptial knot in the
presence of only the immediate friends
and relatives of the contracting
parties. The bride was becomingly
gowned in white collier over silk with
white silk picture hat and plumes.
The page was little Arthur Baldwin,
and the flower girl little Dorothy
Teed, daughter of Mr. and Mrs. M.
W. Teed. The ushers were Herbert
Wood, son of Senator Wood; Sack-
ville Roy Sumner, son of F. W.
Sumner; this city; Mr. Kery, Newark,
N. J.; and George Payzant, of Pay-
zant & Card, Dorchester. At the con-
clusion of the ceremony, luncheon
was served at the bride's home,
Church street. The bride's going away
gown was of willow green broadcloth
with hat to match. Many beautiful
gifts to the young people, who are
well known and popular in Moncton
society, were received. The groom's
gifts to the bride were a piano and
pearl necklace and bracelet.

Just Our Own

Dear Just Our Own—
Gypsy Jean's letter was no doubt
worth thinking about, but I would
not advise Mrs. Young-housekeeper
to follow her advice too literally.

It is a good practice to give the
broom and duster a rest occasionally,
but we cannot have grace and beauty
in our homes without a very liberal
application of those implements of
warfare. The happy medium is not
easy to find and Mrs. Young-house-
keeper will swing from one extreme of
the pendulum to the other many times
before she gains a steady poise. Let
Mrs. Young-housekeeper remember
that it is the spirit in which we sweep
a room which "makes that in
the action fine." As George Herbert
says, System is your best ally, Mrs.
Young-housekeeper, but don't let Sys-
tem make you her slave.

Even the friend of whom we were
told the other day, who did not wash
her dishes after each meal, employed
System. She did not let them stand
around at haphazard to fester up an
other's tidy kitchen, nor did she
leave them to be washed up at odd
times through the day. Personally, I
owe that friend a word of thanks.
The other day, with a big week's
ironing before me, I neatly piled
away my breakfast, dinner and tea
dishes, and rising half an hour earlier
next morning dispatched them promptly.
My ironing was finished at least
an hour earlier than it would other-
wise have been, which at the end of
a hard day meant a saving of two
hours' fatigue. Let us hear from you
again, Gypsy Jean.

MRS. OLD-HOUSEKEEPER.

Dear Just Our Own—
I have not seen any recipes in this
column for a couple of weeks. I am
afraid a good many who enjoy this
column are willing, as I have been,
to take without giving in return. So
I am sending you a few recipes which
are timely and I hope useful.
MRS. F. J.

PANDORA RANGE

A convenience much appreciated by every owner of a Pandora is the towel rod attached to the range. As one-third of the rod is made of emery, it makes a splendid knife sharpener, too.
Every Pandora thermometer is carefully and undergoes a practical test by heat—is proven correct before being sent out.
The figures, which show the required degree of heat necessary for the successful baking of bread, cakes, pies, etc., are plainly inscribed in black on a white enamel surface, so that they are easily readable, even when the day is dull.
If your local dealer does not sell the Pandora, write direct for free booklet.

A movement to re-organize the Y. M. C. A. and re-open the Hall will meet the approval of many—in fact, we trust the majority of our citizens. For several winters this institution has filled a need which must be evident to all who are interested in the moral and physical status of our rising generation. One thing must be conceded, and that is that young people will have amusements, and if left to their own resources that amusement is likely to be found under conditions and circumstances badly suited to their impressionable years.

The institution has done good work here in past years, and we trust its influences are not to become memories of by-gone days. Unfortunately a large number of the young men who supported it in its infancy here have gone away, and the younger generation have not quite filled their places either in numbers or in interest. The same need exists, however, and to let this useful institution die for lack of personal interest would be a retrograde action on the part of our citizens and town; and this being contrary to the spirit which generally animates them, we believe that some provision will be made for continuing the work of the institution.

It is hoped to secure the services of a gentleman who has had long association with work of this nature and who will bring new ideas and methods into practice, which will add to the interest and perhaps also assist materially in raising the necessary funds.

We trust the meeting called for Friday evening will be a full and representative gathering of our responsible citizens.

According to reports, the crops of 1907 are above the average. This means that the grain crop of the west will be large enough to supply not only domestic consumption but help to meet the demands of many countries, where the crop has fallen far below the average. These demands will, of course, strengthen prices so that the farmer will find the year one of prosperity. On the prosperity of the farmer, depends the welfare of trade in general, thus the crops of the country determine the condition of its business interests. The farmer raises the crops and he is therefore the backbone of the country. There are nearly 2,000,000 of him, or one-third of our population when those immediately dependent on him are taken into consideration. In the transportation, industrial and business interests are involved another good third of our population and, as the welfare of these is assumed by the prosperity of the farmer, over two-thirds of the people are promised a continuance of good times. When two-thirds of the population are prosperous, the other third must be, because of being dependent directly or indirectly on the welfare of the majority. Thus good crops mean much to all the people, and should afford general gratification and thanksgiving.

FINANCIAL SITUATION CHANGING FOR THE BETTER.

Saturday's Halifax Chronicle says:—Activity on quite a large scale has continued in the local market during the past week, the most prominent securities being Bank of Nova Scotia and Royal Bank of Canada shares, both of which have been heavily bought on account of the attractive prices. There has been a particularly good demand for the former stock. It has advanced steadily from 275 to 279, and the demand continues unabated, but there is very little stock offering. Royal Bank of Canada stock changed hands today at 225 for several large blocks. Both stocks are selling at prices which give the most attractive interest yield in several years, and the impression seems to be growing that it is not at all likely that they will be purchased at any better than present prices for a long time to come.

There has also been a good enquiry for municipal debentures, several good sized blocks of Town of New Glasgow, Province of Nova Scotia, City of Charlottetown, and Town of Glace Bay changing hands at prices yielding from 4 1/2 to 4 3/4 per cent. on the money invested.

Corporation bonds have not been neglected, sales being recorded of Stanfield's, Nova Scotia Steel and Coal first, and Consolidated Mortgage, while Telephone stock, though not active, has been in fair demand.

The general financial situation is undoubtedly changing for the better and we do not think it will be many months before money will be in much more plentiful supply for good securities, and we expect the prices of such securities will advance.

ADVANCE IN SALARY OF POSTMASTERS.

Ottawa, Sept. 2.—The new scale of wages for country Postmasters has been finally passed upon by the Postmaster General and his Department. In future the minimum salary of a country postmaster will be thirty-five dollars, at present the minimum is twenty-five dollars.

On the first eight hundred dollars the Postmaster now gets forty per cent. Hereafter he will get fifty per cent. on the first one thousand dollars, and on all over eight hundred dollars and up to ten thousand dollars he gets twenty-five per cent.

In future he will get thirty per cent on all over one thousand dollars and up to ten thousand dollars. At present he is allowed fifteen per cent on all over ten thousand dollars and in future he will get twenty per cent.

An allowance for night duty is now paid when a Postmaster has to be on duty after ten p. m., or before six a. m., the minimum pay being eight dollars, and the maximum sixty dollars according to the time employed and the work done. It has now been decided to change the hours to nine p. m. to 7 a. m. and to make the minimum allowance ten dollars, and the maximum one hundred dollars. The present scale is ten per cent on the revenue of offices which forward duty is performed when the forwarding is due direct and five per cent when indirect or through forward office.

The new scale is twelve per cent for direct, and the same for indirect forward duty.

St. Joseph, Levin, July 14, 1903. MINARD'S LINIMENT CO., Limited. Gentlemen—I was badly kicked by my horse last May and after using several preparations on my leg nothing would do. My leg was black as jet. I was laid up in bed for a fortnight and could not walk. After using three bottles of your MINARD'S LINIMENT I was perfectly cured, so that I could start on the road. JOS. DUBES, Commercial Traveler.

DOMINION ATLANTIC EXCURSIONS TO HALIFAX EXHIBITION.

For Halifax Exhibition, Dominion Atlantic Railway will issue Excursion Return Tickets from Tuesday, 24th September, to Wednesday, Oct. 2nd, good returning till Saturday, October 5th. Fare from Stations Yarmouth to Middleton, \$3.00.

Sailings from Yarmouth, Monday, Wednesday, Friday and Saturday, after arrival trains from Halifax. S. S. "Boston" sailing Monday and Friday, S. S. "Prince George" and S. S. "Yarmouth" on Wednesday and Saturday. Sept. 18th.

Hymeneal

DODGE-GATES.

An unusually pretty wedding took place at the home of Mr. and Mrs. Arthur D. Gates, Forest Glade, on August 28th, when their only daughter, Winnifred, was united in marriage to Mr. Stuart P. Dodge, of Spa Springs. The rooms had been beautifully decorated for the occasion with ferns and cut flowers, and at 8.30, as Mendelssohn's wedding march was being played by Mr. Claude E. Balcom, the groom entered the parlor with Mr. J. Wylie Gates followed by the charming bride leaning on the arm of her bridesmaid, Miss Carrie E. Harris of Margarettville, who took their places beside the groom under a beautiful floral arch, where they were made one, Rev. H. B. Smith officiating. The bride was handsomely gowned in white silk with bridal veil and carried a bouquet of white asters and maiden hair ferns. Miss Harris was also very charming in white organdie with lace and ribbon, and carried a bouquet of pink and white flowers. George Balcom, little cousin of the bride, carried the ring on a small golden toy, and was very sweet in a white silk frock, with a bouquet of pink and white roses. After congratulations, refreshments were served followed by music and social intercourse. The presents were numerous and costly, including one hundred and ten dollars in money. The groom's gift to the bride was a handsome gold watch and to the bridesmaid and ring bearer, pearl banded gold pins. Mr. and Mrs. Dodge left the following day for a short wedding trip. Upon their return, a reception will be given them at the home of the groom's parents, Mr. and Mrs. Robert Dodge, of Spa Springs, where they will reside.

WELL-KNOWN HAMPTON COUPLE CELEBRATE THEIR GOLDEN WEDDING.

On Thursday, September 12th, Mr. and Mrs. Eber Chute, of Hampton, celebrated their golden wedding. Mr. and Mrs. Chute were married at Hampton, in the year 1857, by Rev. Mr. Murray, and have resided there during the fifty years of their wedded life. Their union has been blessed by a family of five boys and six girls, seven of whom are now living—Henry and Reuben, of Hampton, Mrs. Simms living in Lynn, Mrs. F. Chute, in Phinney Cove, Mrs. Oliver Parker, in Peabody, Mass., Mrs. Burpee Armstrong, in Mt. Hanley, and Mrs. Bradford Poole, in St. Croix Cove. Three of these, Reuben, Mrs. Chute and Mrs. Poole, were home on the occasion of the anniversary, and about seventy invited guests were present.

At about five o'clock, Mr. and Mrs. Chute appeared on the lawn in front of their home, surrounded by their friends, and the program was photographed, after which a bounteous repast was served on the lawn, while the Canadian flag floated in the breeze above the happy gathering.

Music on the autoharp and organ was furnished during the evening, and singing consisting of the old-time tunes which the old folks love so well, and although over seventy, Mr. Chute joined in the singing with a clear, strong voice which would have done credit to a man of much younger years.

Many appropriate gifts were donated by friends, including gifts of money, estimated in all to amount to about fifty dollars value, showing in a practical way the high esteem in which Mr. and Mrs. Chute are held by their many friends. During the evening, a very appropriate congratulatory address was made by Mr. Edward Craig, of Bridgetown.

TEMPERANCE ALLIANCE.

There will be a meeting of the Annapolis County Temperance Alliance in the Paradise Baptist Church on September 23rd.

In the afternoon, the session will be devoted to reports and discussion of County work. In the evening addresses on the subject of Temperance. All temperance workers are invited. All temperance societies are asked to send delegates. If you do not receive a special invitation, you are herewith invited to attend. Delegates will please obtain standard certificates with ticket.

By order of Ex-Com. H. H. SAUNDERS, Secretary.

Orders for home cooking solicited

Mrs Congdon

LOCAL AND SPECIAL

Mr. M. L. MacLeod has rented one of O. Ruffe's cottages on Washington street.

The schooner *Havcock* is loading lumber for Shalmer and Anderson for Porto Rica.

The subjects of the sermons in the Baptist church next Sunday will be: morning, "The Fruit of the Spirit"; evening, "An Expert Contortionist."

Sergt. Major Pincombe has rented the house of Mrs. John Lockett in her business block, Granville street, and will take possession next month.

Miss Florence Dodge, of Los Angeles, has purchased the house of H. W. Cann, Church street, for a home for her parents, Mr. and Mrs. Warrford Dodge.

Rev. J. W. Litch, formerly of Bridgetown, graduate of Acadia, pastor of First Baptist Church, Vancouver, B. C., accepts unanimous call to Broadway Church, Winnipeg.

The sale of the Shipley estate took place on Saturday afternoon last. The homestead property passed into the hands of F. L. Milner. The business property was purchased by N. E. Chute.

A little son of Mr. Hoffman, driver for J. W. Peters, while trying to get on a moving truck, fell and was run over by the wheels. One of the wheels breaking his arm. The arm was set by Dr. Burns.

Berriet Jacobson, of the firm of Jacobson & Son, sets on Monday for St. John, where he will today marry Miss Esther Jacobson, the ceremony to be performed in the Jewish Synagogue in that city.

The first shipment of apples from this station for the London market went forward on Friday morning, another going from Paradise Station the same morning. The combined shipment was fifteen hundred barrels.

By a collision on Sunday of the Quebec Express train and a freight on the Boston and Maine, twenty-four were killed and twenty-seven wounded. Most of the passengers were returning from the Toronto Exhibition.

An accident occurred to a freight train on the H. & S. W. line last Saturday, through a baggage car jumping the track and derailing the train. Half a dozen freight cars were piled up in great confusion and a car containing kerosene oil was upset over one loaded with flour. The oil leaked out and trickling into the underneath car completely ruined the flour. A lot of furniture and other household goods was also broken up. No one was injured.

We are informed that the Monitor's statement that the new vessel now building for L. D. Shalmer is the largest ever built here is incorrect, vessels of much heavier tonnage having been built here by the late Alvan Young more than thirty years ago. Our informant agreed to give us for an early issue some details as to the ship-building of those days, which will doubtless prove interesting reading.

Mr. Fox, of the firm of John Fox & Co., London, returned home on Saturday last, via New York, after a month's pleasant trip through our beautiful Valley. He will arrive in London in time to attend to the first shipment of apples, arriving on steamer "Rappahannock," in the interests of apple shippers, and expects to return good prices for our fruit through the season, as the English crop is light.

A meeting of all those interested in the work of the Y. M. C. A. branch in the town will be held in the Division Hall, over Waples' Drug Store, on Friday evening, at 8:30 p. m., to discuss and consider the lines on which the work is to be carried on during the coming winter season. It is hoped that the arrangements made will permit of the program being reopened on the first of October. The meeting is called for a late hour so as to permit those attending the regular church services to be present.

Mr. W. M. Saunders, of Boston, is spending a few weeks with friends at Paradise, the home of his youth, and waid the Monitor a friendly call on Saturday. The readers of the Monitor were indebted for an interesting and timely article on the Brown-tail Moth which appeared in these columns some weeks ago, to Mr. Saunders, who thus gave evidence of his practical interests in his native land and the welfare of his old-time friends, who are glad to welcome him again to his native haud.

PERSONAL

Mr. A. H. Bishop went to Kentville last week.

Mrs. Higgins, of Goldboro, is visiting her mother, Mrs. Healey.

Mr. and Mrs. T. D. Ruggles are guests of Mrs. May, St. John.

Mr. Freeman Hicks, of Lynn, is visiting his brother, Mr. J. Harry Hicks.

Harold Willett, of Tupperville, left last week for Wolfville to take a business course.

Mrs. Butcher, of Middleton, paid a visit to her daughter, Mrs. W. A. Warren, last week.

Miss Lottie Davies leaves tomorrow for a three weeks visit at Windsor and Fort Laurence.

Dr. Anderson has returned from a last week for Wolfville to take a brief trip to Montreal.

Miss Bessie Eaton returned home last week, after a two months visit in Freeport and St. John.

Miss Lottie Burns and Miss Ruby Stronach spent Sunday in Halifax, the guests of Mrs. G. G. Tompson.

Mr. Elias Piggott, who is becoming a veteran traveller, left on Saturday to attend the Jamestown Exhibition.

Mrs. Jessie Huntington was summoned to Providence, R. I., last week by the death of her niece, Miss Ina Chipman.

Mr. T. A. Hill and family, accompanied by Miss Susie Hill, have returned to their home in Dorchester, Massachusetts.

P. F. Bancroft, of the track department of the Intercolonial Railway, has returned to Windsor, after a visit in Annapolis County.

E. Hayward Hawkins and Mes L. D. Brunt, of Halifax, who have been spending their vacation with Mrs. H. Lister, returned home on Friday last.

Mrs. Lucy A. Morton, after an enjoyable visit in this County and Kings, has returned to Chelsea, N. S. where she is at present making her home.

Mr. Edward Rice, formerly of this town, but for the last thirty years of Worcester, Mass., is spending his vacation at the home of his son, E. W. Rice.

Miss Ruby Stronach, who received her certificate as stenographer at the Maritime Business College, goes to Annapolis today to relieve Miss Cunningham for a few weeks.

Mr. and Mrs. Henry Ladue and Miss Katie Baker, of Marlboro, Mass., are visiting Mr. and Mrs. James Chute, Clarence West, and Mrs. Ladue's sister, Mrs. Lyring Hall, Bridgetown.

Miss Millie Stanford and friend, Mrs. Libby, of Boston, are visiting the former's aunt, Mrs. J. Harry Hicks. Misses Lena and Lillian Hicks, of Clementsport, are guests of their cousin, Miss Marguerite Hicks.

Mrs. H. J. Starratt, of Paradise, says an exchange, is visiting her parents, Mr. and Mrs. E. B. Harris at Canning during camp Aldershot and while her husband, Lieut. H. J. Starratt, of the K. C. H. is drilling.

The new firm of Moses and Young have opened the stand formerly occupied by W. I. Troop as a meat-market. Both young men have had several years' experience in the business and will doubtless meet with a fair share of the public patronage.

During the Provincial Exhibition in Halifax, Nova Scotia, the School for the Blind will be open daily from three to five p. m., when good musical programmes will be rendered. Intending visitors should make a point of visiting the school and attending at least one of these daily concerts.

Something to remember when you go to the Exhibition in Halifax. If you are interested in our Great West call and see Mr. Stewart at the Carleton House. He is known to many in this County, and represents a reliable Western Real Estate concern.

On information of Mrs. Minnie D. Adney the police magistrate has issued summonses against Lemuel Kelly and Church Morse, employees of J. N. and S. B. Chute, of Berwick, for violation of the Fruit Marks Act. The violation complained of consists of packing and marking the New Brunswick apple under the name of the Duchess. Mrs. Adney will prosecute all persons who represent the New Brunswick to be the Duchess apple, contrary to the terms of the Act.—Woodworth Despatch.

Business Loals

Wanted.
A good job printer, or a young man having a few years' experience in the printing business. Apply at
MONITOR OFFICE.

Butter and Eggs 22c at J. W. Beckwith's.

Obituary

GEORGE CHUTE.
Once more we are called upon to chronicle the death of one of Springfield's citizens in the person of Mr. George Chute, who passed away Monday, August 26th, after a short illness from pneumonia. The deceased was in his 66th year, being born in Bear River in 1841, and moved to Ontario about 32 years ago, settling on the 9th con. of Malahide. About two years ago, he moved to Springfield, settling on East Street. Besides a widow, two sons, William of Toronto, and Vernon, of Berlin, two daughters and five sisters are left to mourn. He was a member of the A. O. U. W. and C. O. F., in religion, a Methodist, and in politics, a Republican. The funeral was held on Wednesday morning at 10 o'clock, Rev. Mr. Lloyd, of First Stanley, and Rev. Mr. Miller, of Counting, officiating, and was largely attended. The flowers were beautiful, being an anchor from the Workman Lodge, two wreaths with "Fether" and one with "Blue-hand," besides many smaller sprays. The interment took place in the Fifty cemetery, the Workman Lodge reading their burial service at the grave—Springfield, Ontario, paper.

Tenders

SEALED TENDERS addressed to the undersigned, and endorsed "Tender for Cape St. Mary Breakwater," will be received at this office until Tuesday, September 24, 1907, inclusive, for the construction of an extension to the Breakwater at Cape St. Mary, Digby County, Nova Scotia, according to a plan and specification to be seen at the office of E. G. Millidge, Esq., Resident Engineer, Antigonish, N. S., C. E. W. Dodwell, Esq., Resident Engineer, Halifax, N. S., on application to the Postmaster at Mavillette, N. S., and at the Department of Public Works Ottawa.

Obituary

FRANCIS KEMPTON.
Mr. Francis Kempton died of heart trouble at his home in Bear River on Thursday, September 5th. He was seventy-two years of age, and leaves three daughters, and two sons to mourn their loss, his wife having passed away some two years ago. Last October he and his daughter went to Denver, Colorado, to spend the winter. Returning last July, he came here to stop a while with his daughter, Mrs. Lillian B. Ruggles, where he was taken sick and kept gradually sinking until death claimed his victim. There was a service at the house on Friday morning last conducted by the Rev. I. A. Corbett, pastor of the Bear River Baptist church, of which he was a member, after which the remains were taken to Kempt, Queens County, for burial.

Obituary

It is claimed the arctic region is an ideal location for the treatment of tuberculosis on account of the almost perpetual sunshine. It is dustless, the air is pure and dry, and the unusual scenes stimulate the desire for exercise. Dr. Frederick Bohlen, of Washington, is inclined to believe that a Greenland sanitarium is not only a medical possibility, but a practical business proposition.

Obituary

It is claimed the arctic region is an ideal location for the treatment of tuberculosis on account of the almost perpetual sunshine. It is dustless, the air is pure and dry, and the unusual scenes stimulate the desire for exercise. Dr. Frederick Bohlen, of Washington, is inclined to believe that a Greenland sanitarium is not only a medical possibility, but a practical business proposition.

Snowy Bread Light Pastry Delicious Cake

come to every home that uses Beaver Flour. It's the greatest help any home cook can have—because it is always the same—always the best for all baking.

Beaver Flour

is a blend of Manitoba Spring Wheat and Ontario Fall Wheat. Combines the whiteness and lightness of winter wheat, with the strength and nourishing food properties of spring wheat.

Dealers, write for prices on all kinds of Flour, Corn Meal, and Cereals. T. H. Taylor Co., Limited, Toronto.

It Is Grand

To live in a time of such great opportunities. Some years ago, we had difficulty in finding situations for all our graduates. Now it is difficult to keep our students till they graduate, so great is the demand for proficient bookkeepers and stenographers.

We have not yet advanced our rates, but the great advance in almost everything we have to buy may soon compel an increase. Students can't enter at any time.

My Hair Ran Away

Don't have a falling out with your hair. It might leave you! Then what? That would mean thin, scraggly, uneven, rough hair. Keep your hair at home! Fasten it tightly to your scalp! You can easily do it with Ayer's Hair Vigor. It is something more than a simple hair dressing. It is a hair medicine, a hair tonic, a hair food.

The best kind of a testimonial—

A HOMESICK BOY.

I'm visitin' at Aunt Mar's, and I'm homesick as I can be. It's sawdust and shavin's for breakfast, and shavin's and sawdust for tea.

She says it ain't sawdust nor shavin's, but some kind of nutriment food. Anyway, tain't pie nor doughnuts, nor fritters, nor anything good.

She never has jam or cookies; she says they are awful for me; we eat 'em like sixty to our house, and we're all of us healthier'n she!

She won't let me have any sugar, because it will give me the gout, and meat I can't swallow a mite. Till I've chewed it an hour about!

Didn't know that I had any liver, 'cause, you see, I was never sick much. But I'm hungry for all I can think of 'cept sawdust and shavin's and such.

O, I want to see ma and Louisa and grandma—and my old ball! But I guess I'm homesicker for doughnuts. Than anything else at all!
—Emma C. Dowd, in 'Life.'

MOTHER LOVE IS THE MOST PERFECT OF ALL THE EARTHLY LOVES.

The person who is doing the best, noblest and most unselfish work in the world is the woman who is conscientiously bringing up a large family. Her work is never ending. Between husband, children and home, the demands on patience and sympathy never cease from morning till night.

If she neglects any one of the three she is dubbed by the world in general as a poor mother, a poor wife or a woman who has lost all charm. Nine women out of ten elect to do their duty by their children. Being responsible for their being, conscience demands that they be responsible for their upbringing, and so, swamped in duties of motherhood, they grow further and further away from their husbands, until the only tie that binds them is in reality the tie that separates them.

The woman who never wears the crown of motherhood has but half lived; it is her divine right, and without it she never fully develops. Mother love is the purest, holiest, most perfect of all earthly loves, and woman is so constituted that were she to have one child or twenty, she would love them all equally well.

She may bemoan her fate and say that she wants no more children, but from the instant she hears that feeble cry and feels the touch of those tiny, wandering, helpless fingers, the mother love springs to life, strong and fierce as death, abiding as eternity.

It is the very strength of this love that is her undoing. She cannot, if she is a true woman, neglect her babies; their wants are insistent and never ending.

So she gives herself up to them, and gradually her husband, feeling that his wife is absorbed by her maternal cares, comes to seek his diversion elsewhere. His wife is not as pretty as she used to be; she neglects the little dainty touches to her dress that made her so attractive in her old days, before the babies demanded so much of her attention.

She has no time to keep up her reading, music or any other accomplishment. If he asks her to go to the theatre, baby has the croup, or she has no gown, or she is too tired. Of course she's tired, poor, little worn-out mother. She never gets a good night's rest, and her hands, brain and heart are in demand every hour of the twenty-four.

A woman is her husband's sweetheart until she becomes the mother of her children. I do not mean to say that a man does not love his wife as well after motherhood as before. It is an entirely different love; there is a deeper, more tender note to it, but it is as the mother of his children he loves her. He expects to share the love that hitherto has been his alone.

DEVELOPS CHARACTER. That motherhood brings out all that is best and highest in a woman there is no doubt. I have known women who were the idlest butterflies, with not a serious thought in their minds until the first baby came. They have settled down into perfect mothers, wise, tender and unselfish.

Many people have an idea that the woman of fashion make poor mothers. That is not so, for the majority of them make exceedingly good mothers. Their babies are well looked after in every way, and, in spite of many social duties, the mothers usually manage to see a great deal of the little folks.

The best mother in the world is the one who wins her children's confidence and respect. To be with her children as constantly as she feels it necessary, she is obliged to forego much of her husband's society.

It is hard on her and hard on her husband, but there is nothing in the world as forlorn as a neglected child and the older lives must, to a certain extent, be sacrificed to the unfolding bud that can be made or marred according to the treatment received.

Beatrice Fairfax.

POPULAR FABRICS FOR FALL SEASON.

(New York Times.)

Quite a radical change has come into dress fabrics this season, in that certain weaves heretofore plain in coloring are brought out in stripes. For instance, who, a year or two ago would have thought of such a thing as striped broadcloth? And yet today striped broadcloth is a distinct feature in tailored suits, and is often the distinctive feature of the suit.

Possibly it is the return of the plain tailor-made walking suit that has led up to this vogue of fancy fabrics instead of plain weaves. The plainer the making of the garment the better the chances for using a fancy cloth.

The fancy striped broadcloths are first in the rank of fashion favorites this fall. There is a soft blend to the stripes in this cloth and the colors in which they are brought out are all in the dark and soft tones. Two-toned greys and browns, and greys with brown, and blue with brown are favorite combinations. Plain broadcloths are not by any means overlooked by home fashion, but for point of novelty the striped ones lead.

Another novelty of the season is the fancy serges. These are serge weaves in chevron patterns, but with interlines that form checks or plaids, the whole woven in melange effect that account for their name of skibo serges. They are distinctly Scotch in character and are counted exceedingly smart. These are shown in the dark shades of teal green, the Burgandy reds and the new blues, as well as the more conventional greys and browns, the touch of black mixed in with the color toning down what might otherwise be too glaring a shade.

The plain serges are also in for a season of high favor. The novelty in this is the wide wales. The fine and regulation weaves of serges are also seen, but those with the ribs or wales are intended for tourist and auto coats rather than suits.

Still another novelty consists of serge or broadcloth or even thinner weaves showing a velvet figure or stripe. These cloths are all imported and sell at \$20 to \$25 a yard, hence there is little likelihood of their coming into general use. It has been long and many a year since these velvet figured fabrics have been in favor and it seems like a return to the high quality and standard of our grand mother's times to find them back in the high class shops and the imported model garments. Of course, they are intended for ceremonious costumes.

Rather heavy and wiry voiles and panamas of good weight will be extensively used for the little dresses that will be such a feature of the fall and winter fashions.

THE TAILORED SHIRT IS NEXT. To many a busy girl the holiday season has given opportunities for mild efforts in the direction of home dress-making that are out of the question during the short days of the much-occupied months of the year. For that reason it seems a not inopportune time for the consideration of the making of a quite simple shirt. To begin with, it is an undertaking that surely need not appall the soul of the most diffident of maidens. There is so little trouble involved, and the demands made on the skill of the worker are of the slightest. Then, too, winter is not so far off, and the need for band and other warm shirts will soon be making itself felt. So taking everything into consideration, I think there must be many who will be glad to try their

skill on the pretty and simple little garment in question.

Now the great thing to remember in connection with shirts is that they emphatically belong to the tailor-made order of garments. It is because people forget, or have never realized this, that very many so-called shirts are more travesties. This is, of course, a recognized fact among those who really know the ins and outs of clothes, and, as a natural corollary, to those who are able to go to a man's shirt-maker for these necessary adjuncts to their wardrobe. But this is a decidedly expensive course to pursue, and so the less well endowed among us are at a decided disadvantage, just as they are where the smart frocks and coats are concerned.

Yet there is this important difference, that in the shirt the skill lies simply in the cut, whereas in everything else that bears only a part of the responsibility. The mischief is found in the fact that shirts look so easy, so that to the uninitiated one shirt pattern is very much like another.

If the new saddle yoke shape be chosen it should take a slightly pointed shape. The sleeves, too, follow the latest decree on the subject, being distinctly full on the shoulder, yet cut to give that rather stiff look which is the sure sign of first-rate tailor work.

BABY'S COAT.

Balford cord is, perhaps, the most practical material for babies' long coats. It is sufficiently warm and when soiled is easily laundered. The mercerized blends make a pretty trimming, but I do not care for the fancy braids one often sees as a decoration on the ready-made coats of this fabric.

Bands of heavy lace insertion look well and so do medallions of lace, and I think the best results at the least expenditure may be obtained by getting a perfectly plain coat, and trimming to suit one's taste.

Really handsome effects may be produced in this way at comparatively little cost. The heavier lace, as point de Venise or baby Irish, should be chosen, as this will wash exactly the same as the material it trims and be no trouble.

Supposing one prefers silk, then China may be selected in the wash silks, while bengaline is generally preferred in the heavier kinds.

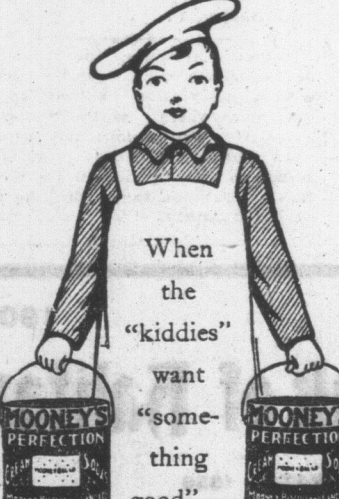

SCHOOL ATTIRE.

Shoes are important. Gloves must be considered. Jacket suits are in serge, tweed and broadcloth.

Extra heavy, long, loose coats, very cozy, are soft and warm. Felt hats are stiff or soft, the former being in a short front sailor shape.

MINARD'S LINIMENT CURES DANDRUFF.

To check a cold quickly, get from your druggist some little Candy Cold Preventives. Druggists everywhere are now dispensing Preventives, for they are not only safe, but decidedly certain and prompt. Preventives contain no Quinine, no laxative, nothing harsh nor sickening. Taken at the "onset stage" Preventives will prevent Pneumonia, Bronchitis, La Grippe, etc. Hence the name, Preventives. Good for feverish children, 4c. Preventives 25 cents. Trial boxes 5 cts. Sold by Royal Pharmacy.

When the "kiddies" want "something good" when mother wishes "a bite between meals"—when father feels a bit hungry at bedtime—how they all go for the pill of

Mooney's Perfection Cream Sodas.

Skin Disease is Blood Disease

"Fruit-a-lives" clean the blood of all impurities and clear the complexion.

Pimples and blotches—Redness—Boils—Eczema and other inflammations of the skin—mean Impure Blood.

A person with a bad complexion always suffers from poor digestion—non-action of the bowels (or Constipation) and often the kidneys are weak.

These unhealthy organs cannot rid the system of the waste matter. It is this waste—taken up by the blood and carried to the skin—that ruins the complexion.

"Fruit-a-lives" cure all skin troubles because they cure the kidneys and bowels.

"Fruit-a-lives" cause the eliminating organs to do their

proper share of the work of ridding the system of waste. This purifies the blood—and instantly the pimples and blotches disappear, and the complexion clears.

"Fruit-a-lives" cure skin troubles when everything else fails.

"Fruit-a-lives" are fruit juices, intensified, and combined with valuable tonics and antiseptics.

They are without doubt the greatest blood purifier in the world. 50c. a box—6 for \$2.50. At all druggists.

Fruit-a-lives

ANNIE E. YOUNG, Secretary-Treasurer.

A TRAVELLING MAN'S EXPERIENCE.

"I must tell you my experience on an East bound O. R. & N. E. R. train from Penland to LeGrand, Ont.," writes Sam A. Garber, a well known travelling man. "I was in the smoking department with some other travelling men when one of them went out into the coach and came back and said: 'There is a woman sick unto death in the car.' I at once got up and went out, found her very ill with cramp colic, her hands and arms were drawn up so you could not straighten them, and with a death-like look on her face. Two or three ladies were working with her and giving her whiskey. I went to my suitcase and got my bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy (I never travel without it), ran to the water tank, put a double dose of the medicine in the glass, poured some water into it and stirred it with a pencil; then I had quite a time to get the ladies to let me give it to her, but I succeeded. I could at once see the effect and I worked with her, rubbing her hands, and in twenty minutes I gave her another dose. By this time we were almost into Le Grand, where I was to leave the train. I gave the bottle to the husband to be used in case another dose should be needed, but by the time the train ran into Le Grand she was all right, and I received the thanks of every passenger in the car." For sale by W. A. WARREN, Phm. B.

Thinking About Going West !!!

Here's a Pointer !!! Don't go there to be at the mercy of any person you may chance to meet. If you want to see what the West has for you, get into touch with those who know all there is to be known about that country, and will save you right. The H. H. CAMPBELL CO., Ltd., with offices at Regina, Indian Head, Saskatoon, Moose Jaw, Winnipeg, can do all this for you - and more. Best of references. Write for information to Charles D. Stewart, P. O. Box 97, Saskatoon, H. B., or call at Carlton House, Argyle St., when in Halifax at the Exhibition.

Miss Rhoda Bent is pursuing a course of studies at the Annapolis Academy. J. Robin Parker, of N. T. R. Survey, is at home for a few days, previous to his departure for Sackville, where he intends taking up engineering at Mount Allison College.

Mrs. Charles Todd, of Lynn, is visiting her parents, Mr. and Mrs. W. H. Bent. The annual picnic of the Upper Granville and Granville Centre Sabbath Schools was held together on the grounds of the Ray Brothers, Upper Granville, on Saturday afternoon, the 14th inst. A most enjoyable time was spent. Swings, games, etc., were provided for the enjoyment of all. A pretty feature of the picnic was a picture of the whole group, taken by N. M. Smith. Tables were set under the trees and were loaded with the good things found in the baskets. After tea, Mr. Herbert W. Bent, superintendent of the Upper Granville S. School, was presented by the School with a very beautiful chair. The presentation was made by the Rev. Mr. Cochran on behalf of the School. Mr. Bent has indeed taken by surprise, but being equal to the occasion, in a few well chosen remarks thanked his many young friends for their kind consideration of his efforts in their behalf, after which all departed for their respective homes, pronouncing it one of the best picnics they ever held.

William Woodward sold his fine Sir William coat last week to Mr. H. B. Willett, of Torbrook, for good figures.

INGOLDSVILLE.

Service for Sunday, Rev. W. M. Brown, East Ingolville, 11 a. m. Mrs. King Lynch, of Portland, Maine, is visiting her parents, Mr. and Mrs. William Burney.
