Technical and Bibliographic Notes/Notes techniques et bibliographiques

The Institute has attempted to obtain the best original copy available for filming. Features of this copy which may be bibliographically unique, which may alter any of the images in the reproduction, or which may significantly change the usual method of filming, are checked below.

L'Institut a microfilmé le meilleur exemplaire qu'il lui a été possible de se procurer. Les détails de cet exemplaire qui sont peut-être uniques du point de vue bibliographique, qui peuvent modifier une image reproduite, ou qui peuvent exiger une modification dans la méthode normale de filmage sont indiqués ci-dessous.

- Coloured covers/
Couverture de couleur
- Covers damaged/
Couverture endommagée
- Covers restored and/or laminated/
Couverture restaurée et/ou pelliculée
- Cover title missing/
Le titre de couverture manque
- Coloured maps/
Cartes géographiques en couleur
- Coloured ink (i.e. other than blue or black)/

<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
12X	16X	20X	24X	28X	32X

The copy filmed here has been reproduced thanks to the generosity of:

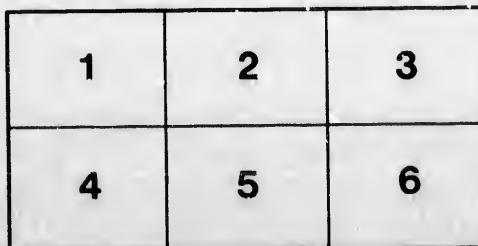

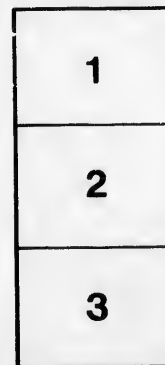

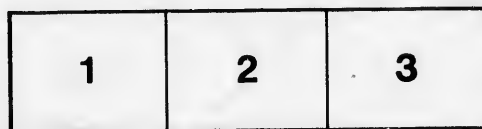

National Library of Canada

The images appearing here are the best quality possible considering the condition and legibility of the original copy and in keeping with the filming contract specifications.

Original copies in printed paper covers are filmed beginning with the front cover and ending on the last page with a printed or illustrated impression, or the back cover when appropriate. All other original copies are filmed beginning on the first page with a printed or illustrated impression, and ending on the last page with a printed or illustrated impression.

The last recorded frame on each microfiche shall contain the symbol \rightarrow (meaning "CONTINUED"), or the symbol ∇ (meaning "END"), whichever applies.

Maps, plates, charts, etc., may be filmed at different reduction ratios. Those too large to be entirely included in one exposure are filmed beginning in the upper left hand corner, left to right and top to bottom, as many frames as required. The following diagrams illustrate the method:

L'exemplaire filmé fut reproduit grâce à la générosité de:

Bibliothèque nationale du Canada

Les images suivantes ont été reproduites avec le plus grand soin, compte tenu de la condition et de la netteté de l'exemplaire filmé, et en conformité avec les conditions du contrat de filmage.

Les exemplaires originaux dont la couverture en papier est imprimée sont filmés en commençant par le premier plat et en terminant soit par la dernière page qui comporte une empreinte d'impression ou d'illustration, soit par le second plat, selon le cas. Tous les autres exemplaires originaux sont filmés en commençant par la première page qui comporte une empreinte d'impression ou d'illustration et en terminant par la dernière page qui comporte une telle empreinte.

Un des symboles suivants apparaîtra sur la dernière image de chaque microfiche, selon le cas: le symbole \rightarrow signifie "A SUIVRE", le symbole ∇ signifie "FIN".

Les cartes, planches, tableaux, etc., peuvent être filmés à des taux de réduction différents. Lorsque le document est trop grand pour être reproduit en un seul cliché, il est filmé à partir de l'angle supérieur gauche, de gauche à droite, et de haut en bas, en prenant le nombre d'images nécessaire. Les diagrammes suivants illustrent la méthode.

THE

British Columbia Directory

—FOR—

— 1884-85 —

CONTAINING A

COMPLETE CLASSIFIED BUSINESS & GENERAL DIRECTORY
OF THE PROVINCE,

PROVINCIAL OFFICIAL LISTS, AND USEFUL AND
RELIABLE INFORMATION.

ALSO,

SOME FACTS ABOUT THE COUNTRY,

Contributed by GILBERT MALCOLM SPROAT, Esq.

VICTORIA, B. C.:

R. T. WILLIAMS, PUBLISHER; WM. WOLZ, COMPILER.
1885.

PREFACE.

Since issuing the last edition of the British Columbia Directory, continued progress has been going on in nearly every section of the Province. Taking BUSINESS ADDRESSES from Directories of Victoria City for the following years as a guide it will show at a glance the substantial and steady increase that has been made.

Directory 1860, published by E. Mallandaine.....	625 names.
“ 1863, “ Howard & Earnett,.....	1,338 “
“ 1868, “ E. Mallandaine.....	1,331 “
“ 1869, “ E. Mallandaine.....	1,264 “
“ 1871, “ E. Mallandaine.....	1,395 “
“ 1874, “ E. Mallandaine.....	1,640 “
“ 1877-8, “ T. N. Hibben & Co.....	1,526 “
“ 1882-3, “ R. T. Williams.....	2,032 “
“ 1884-5, “ R. T. Williams (with list of new arrivals), about.....	3,000 “

This issue of the work is published with the hope that it will meet the requirements of business men, and also be an aid to those seeking concise information about the Pacific Province.

BROAD ST., MARCH, 1885.

Entered according to Act of Parliament of Canada in the year one thousand eight hundred and eighty-four, by R. T. WILLIAMS, in the Office of the Minister of Agriculture.

Victoria City--General Progress.

The City was incorporated in 1862. The last census, taken in 1881, gave a population of 7,000, exclusive of Indians; but, estimating from the additional names since our last Directory was issued (1882-3), it is safe to state that the population of Victoria City has increased 40 per cent., and, taking the estimate usually taken by Directory Compilers, *Victoria has at present about 12,000 inhabitants.* There has been a general business revival in nearly all branches, and to-day Victoria ranks among the foremost cities on the north-west coast in respect to manufacturing and commerce. The harbor is thronged with shipping, and her ocean trade extends to Europe, Australia, China, United States, Mexico, South America, and in fact to all parts of the world—amounting last year (1884) to \$2,638,894 in exports, while her imports reached \$3,475,735. A submarine telegraphic cable crosses the Gulf of Georgia at Nanaimo and connects the city with the mainland of B. C., another crossing the Strait of Fuca to Washington Territory, and from thence eastward to all parts of the world, affording excellent telegraphic facilities. There is direct mail communication with San Francisco every ten days, and a daily overland mail *via* Puget Sound. A tri-weekly service to both the mainland and east coast of Vancouver Island. There is a useful telephonic system within the city, and the streets are lighted by electric lights. Possessing large and well appointed schools and private seminaries—excellent institutions for education, a mechanics' institute with a complete and valuable library of choice works, musical societies, hospitals for the care of the sick, and good homes for orphan children are provided. An efficient fire department, composed of several companies, and the large and increasing number of visitors, together with the many manufactories in full operation, is an indication of the life, growth and activity of Victoria City.

BUILDING IMPROVEMENTS.

Since the last issue of the B. C. Directory there has been marked improvement throughout the entire city, and it is estimated that not less than 250 new buildings have been erected during the year 1884, with an expenditure of over \$600,000.

BOOK BINDERY.

R. T. WILLIAM'S BOOK BINDING AND BLANK BOOK ESTABLISHMENT is situated on Broad street, opposite View, containing the most complete machinery for binding, ruling, perforating, numbering, and all the general appliances for the above work; being the most complete establishment of this kind north of San Francisco. Seven persons are employed.

BOOK AND JOB PRINTING.

JAS. E. McMILLAN'S BOOK AND JOB PRINTING ESTABLISHMENT, Fort street, gives employment to five persons, and has the latest designs of type, presses, &c. Job work of all descriptions is printed at this office.

MUNROE MILLER'S STEAM BOOK AND JOB PRINTING OFFICE, on Johnson street, contains presses and type of the latest designs.

BRITISH COLUMBIA DIRECTORY.

THE GOVERNMENT STEAM BOOK AND JOB PRINTING OFFICE, at the Government Building, is used only for Government work, and has all modern improvements in presses and type.

For color printing see salmon label printing. For other job printing offices see newspapers.

BOILER MAKERS.

JOHN ROBERTSON, BOILER MAKER AND BLACKSMITH, has his works on Store street, opposite the Telegraph Hotel. The establishment is well furnished with all the plant required for boiler making.

THE I. X. L. STEAM BOILER SHOP, corner Government and Pembroke streets, Wm. Godfrey, proprietor, has all necessary machinery for general boiler making.

BOOT AND SHOE FACTORIES.

THE BRITISH COLUMBIA BOOT AND SHOE STORE, on Government street, is the oldest establishment of the kind in the province, having been started in 1867 by its present proprietor, Henry Mansell. The custom department is conducted exclusively by white labor. All the modern styles are introduced. Number of men employed at present, 13.

VICTORIA BOOT AND SHOE FACTORY, Government street, Wm. Heathorn, proprietor, was established in 1872, and employs at present about 80 hands, manufacturing from 40 to 50 thousand pairs yearly, valued at \$100,000. Since our last publication Mr. Heathorn has enlarged his factory and is at present making preparations to manufacture with steam power a larger variety of boots and shoes. There is also a tannery connected with this establishment, which is situated at Rock Bay.

GEORGE H. MAYNARD, PROPRIETOR OF THE CITY BOOT AND SHOE STORE, on Fort street, is employing from eight to ten skilled mechanics. All white labor.

BELMONT BOOT AND SHOE FACTORY, situated on Government street, W. Dalby, manager, turned out during the past twelve months 28,000 pairs of boots and shoes, valued at \$70,000. Number of hands employed, 75. This firm has a tannery at Belmont in Esquimalt district.

THE PEOPLE'S SHOE STORE, on Johnson street, has also a custom department connected with their store.

THE QUEEN'S BOOT AND SHOE STORE, corner Government and Yates, Gallick & Morris, proprietors, is also manufacturing for the trade, and employ about 30 hands.

BREWERIES.

THE VICTORIA BREWERY, LOEWEN & ERB, PROPRIETORS, is located on the corner of Government and Discovery streets. It is the pioneer, established in 1858, brewing about 150,000 gallons of beer per year.

THE PHENIX BREWERY, north-west corner Yates and Blanchard streets, was established in 1868 by Chas. Gowen, its present proprietor. Its capacity is about 60,000 imperial gallons a year. Malting capacity 200 tons per year. The Phenix Brewery porter is noted throughout British Columbia.

JOHN LEAHY'S BREWERY is situated on Johnston, between Douglas and Blanchard streets, and was formerly known as Bunster's. It has a larger capacity than any other brewery in British Columbia.

THE LION BREWERY, on Queen's avenue, has been of late re-opened by Peters & Davis, and is doing an extensive trade. They brew the celebrated Felsen Beer.

VICTORIA CITY—GENERAL PROGRESS.

11

THE BAVARIA, on Fort street, owned by Harry Walther, has established a reputation of brewing beer second to none in quality.

CARTER BROS.' BREWERY, on Johnson street, is doing a good business, and is noted for their superior article of porter.

TIGER BREWERY, on Fort street, is engaged in the manufacture of excellent ale.

BRICK YARDS.

VICTORIA PIONEER STEAM BRICK YARD, Coughlan & Mason, proprietors, is located on Saanich road, corner of Burnside road, and gives employment to a number of men in the manufacture of bricks and vitrified iron stone sewer pipes. The work turned out is in good demand and the firm commands an extensive trade.

M. LUMBER, proprietor of a large brick yard, on Saanich road, is employing a number of hands turning out a large number of first-class bricks yearly.

BRUSH FACTORY.

BRUSH FACTORY, G. & J. DOUGHTY, PROPRIETORS, is on Fort street, and is the only brush factory in British Columbia. The goods made are equal if not superior to any imported.

CANDY MANUFACTURERS.

This industry is well represented by H. A. Lilley, Douglas street, near Johnson, where candies and confectioneries of the best quality are manufactured, and orders receive prompt attention. Also by H. Waller and W. H. Tippins, on Fort street, and F. Bauman, on Yates street.

CARRIAGE FACTORIES.

WM. GRIMM'S CARRIAGE FACTORY was established in 1870. It occupies a frontage of 90 feet on Johnson street, and is the largest in Victoria, manufacturing carriages, wagons, &c., of every description, and employing from eight to ten men. Mr. Grimm also imports the latest styles of carriages, buggies, &c., doing an extensive business in that branch of industry.

McKENZIE & MESTON, on Government street, are established since 1877, employing a number of men in the carriage and wagon manufacturing business. They are also importers in their line of business.

CIGAR BOX FACTORY.

MR. D. W. HIGGINS is the proprietor of this new enterprise. It has a capacity of 350 boxes a day, and will stop the importation of Chinese made cigar boxes from California. Only white labor is employed.

CIGAR FACTORIES.

KURTZ & Co.'s FACTORY, next to Wells Fargo & Co.'s 'express, occupies the entire upper portion of the building as well as an office down stairs. The factory is the largest of its kind in the province, and employs exclusively white labor, giving constant employment to about 20 cigar makers and 10 boys. The tobaccos used are imported from Havana.

THE T. & L. CIGAR FACTORY is situated at 339 Government street, up-stairs, next to the post office. It was established in 1882 and employs now 14 cigar makers and seven boys. Their cigars, known as the T. & L., have a good reputation and are sold throughout the entire province. Joseph L. Levy is the manager of the factory, and none but white labor is employed.

BRITISH COLUMBIA DIRECTORY.

M. BANTLY, the proprietor of the cigar factory on Johnson street, is also employing only white labor, and manufactures a good article of cigars.

COFFEE AND SPICE MILLS.

STEMLER & EARLE'S PIONEER COFFEE AND SPICE MILLS, on Wharf street, are doing an extensive business in all kinds of spices and ground coffee. They have added to the above the manufacture of baking powder (The Pioneer) which is equal to the best imported brands.

CRACKER BAKERIES.

HUSON & MOSS, proprietors of the cracker bakery formerly owned by Joseph Rhode, on Store street, near Johnson, manufacture pilot bread, soda, and sugar crackers; employing four men.

NESBITT & Co.'s CRACKER FACTORY is situated at the lower end of Fort street; fitted up with all the requisite machinery, driven by a three horse-power engine.

FOUNDRIES.

THE ALBION IRON WORKS Co. (limited), situated on Store, Chatham, Discovery, and Herald streets, occupies about 16 town lots. These works were established in 1862 by Mr. Jos. Spratt and were incorporated in 1882. The machine shop is 250x50, 2 stories high, replete with all modern machinery and capable of turning out the best class of work. There are three foundries, one for stoves, 60x110; one for machinery, 90x50; and one for other work, 100x50. All fitted with large cupolas and powerful cranes. The brass foundry is fitted with four retorts of various sizes. Blacksmith shop, 90x50, with eight blast fires, five-ton steam hammer, steam punch, and shearing machine. Boiler shop, 240x50; most complete establishment on the coast; two steam punches, 2 lever punches, one pair steam shears, two pair lever shears, two steam drills. Have now on hand eight engines, from eight-inch to 46-inch bore, and have a large contract with the railroad contractors for bridge iron and iron for cars and locomotives. The brass foundry shop, 65x30, is well fitted with lathe, slotter, &c. In the basement is the bolt shop, where may be seen a very large bolt forging machine, automatic tapping machines, and several bolt cutters. These tools are all driven by two large boilers and four engines, situated in different departments. They have turned out about 2,500 stoves this season, and are yet unable to supply the demand. Average pay roll, 130 men, and wages amount to \$7,000 per month. Large outfit of hand tools; fire-proof warehouse; brick pattern shop, three stories high, with newest styles of lathes for wood turning; circular saw; band saw; jig saw, &c. Robert Dunsmuir, president; R. P. Rithet, vice president; W. F. Bullen, secretary; A. Gray, manager.

THE NOVELTY IRON WORKS, on Store street, Thomas Gowen, proprietor, has been established about six years. The machine shop is 50x32 feet, two stories high, and contains, on the ground floor, three lathes and one drilling and boring machine, driven by steam; on the second story is a pattern shop. Many of the steamers running in these waters have been supplied with compound steam engines made at this establishment.

WILSON BROS.' IRON AND BRASS FOUNDRY is situated near the corner of Herald and Government streets, and contains a cupola of three tons capacity.

SALMON LABEL PRINTING.

MR. D. W. HIGGINS, proprietor of the *Colonist*, having been the first to introduce steam cylinder printing, is also the pioneer of chromatic printing. The whole of the

13

colored labels for the salmon canneries of British Columbia were last year printed by Mr. Higgins. Thirty hands are employed.

MR. MUNROE MILLER, on Johnson street, is about to embark in the business of salmon label printing, and has imported an excellent printing press for that purpose.

SODA AND SYRUP WORKS.

CHRISTOPHER MORLEY has erected a new soda and syrup works, in Waddington alley, where the manufacture of soda water, lemonade, ginger ale, root bitters, &c., is carried on.

A. PHILLIPS is the proprietor of the Pioneer Soda Water and Syrup Works, which are situated on Yates street, near wharf, and commands an extensive trade.

SOAP WORKS.

PENDRAY & Co.'s SOAP FACTORY.—This is the only soap factory in British Columbia. It is located on Humboldt street and comprises very extensive buildings; the main building being 60x40 feet, the warehouse 60x30, a storeroom 20x16, a blacksmith shop 16x16, and a carpenter shop 60x16 is connected with the establishment. The amount of tallow used per week is 10,000 pounds. The quantity of household soap manufactured per week is over 18,000 pounds. The various kinds of soap manufactured are the tallow crown soap, the blue and red English model soap, and toilet soaps of every description.

SASH AND DOOR FACTORIES.

SASH AND DOOR FACTORY, MUIRHEAD & MANN, PROPRIETORS, is situated on Constance street. The main building, fronting the harbor, is 50x80 feet. The boiler house is in the rear. On the opposite side of the road is a two story building, 40x70 feet, used as a store for sashes, &c. The factory contains a 30 horse-power high-pressure engine, 24-inch planer, eight-inch molder, cutting and rip saws, emery and lathe wheels. On the second story there are two moulding machines, one panel, one tenoning, and one mortising machine; a jointer with cross cut, band and rip saws. The firm has constantly on hand semi-circular gutters and pointed pickets for fencing. The number of hands employed is 18.

SMITH & CLARK'S SASH AND DOOR FACTORY is situated on the corner of Langley and Fort streets. The main building is 40x60 feet, the joiner's shop 44x26 feet, and the warehouse on Fort street 50x24 feet. The machinery consists of moulding machine, planer, emery grinder, two mortising machines, with cutting off, rip, jig and band saws. This firm employs 31 men.

C. HAYWARD'S SASH AND DOOR FACTORY is situated on the corner of Langley and Broughton streets, and is 75x30 feet, two stories in height. The saw-mill is 45x30 feet, and the warehouse 40x30 feet, two stories high. The first floor of the factory contains band and rip saws, one surfacer, two stickers, circular saw 46 inches in diameter, tenoning and mortising machines. On the same floor are two turning lathes, boring, doweling, shaping and mortising machines, and crescent saws. The steam engine is of 35 horse-power. Number of men employed, 12.

SAW MILL.

ROCK BAY SAW MILL, W. P. SAYWARD, PROPRIETOR, is situated at the south end of Rock Bay bridge. The mill is 120x35 feet, two stories high. The machinery consists of double circular saw, edger, planers, trimmers, lath saw; two boilers, 80 horse-power. Can cut 30,000 feet per day of 11 hours. Number of hands employed, 30. Connected with the mill is a lumber yard containing all kinds of rough and

surfaced lumber. The property has a frontage of 300 feet on the harbor, affording every convenience for shipping.

MATCH FACTORY.

THE B. C. MATCH FACTORY, MANSON & HENDRY, PROPRIETORS, is situated on Work street, facing Victoria harbor. The building is 40x26 feet, two stories high, and contains a 10 horse-power engine, which drives a cross-cut saw and the jamming and splitting machines. The product of the factory is about 1,000 gross of bunches per month. The matches manufactured are considered far superior to any that are imported. Six men are employed.

PLANING MILLS.

THE QUEEN CITY PLANING MILLS is located on North Government street, and was established last year by Johnson, Walker & Flett. The building is 50x120, two story, and has all the necessary machinery required for the manufacture of sash, doors, blinds, mouldings, &c. The firm has also established a saw mill in connection with the planing mills, as well as a patent steam Excelsior dry kiln, and gives constant employment to from 20 to 25 men.

PIANOS.

PIANOFORTE, HARMONIUM, AND ORGAN FACTORY, Government street, Jno. Bagnall, proprietor, was established in 1863. Mr. Bagnall is a skilled and practical manufacturer, as well as importer of the above instruments.

LITHOGRAPHING.

BAUTZ, CREECH & Co.'s LITHOGRAPHING ESTABLISHMENT is situated on Broad street, opposite View. Office at R. T. William's book bindery. This firm is prepared to fill all orders in the lithographic and engraving line.

VICTORIA STEAM LITHOGRAPHIC PRINTING OFFICE, *Colonist* building. Mr. D. W. Higgins has imported the first steam plant from San Francisco, and will soon be prepared to produce lithographic cigar labels, maps, &c., by steam.

JOINERY WORK.

S. GRAY' STEAM JOINERY WORKS is situated on corner of Government and Herald streets. These works were built by Mr. Gray last year, the building being 30x60, three stories in height; also a boiler and drying room, 20x20 feet. Planing, band sawing, moulding, shaping and turning of every description. Stair building a speciality; hand rails, newell posts and ballusters of the latest designs. This firm keeps constantly on hand a full stock of Corinthian capitals of all sizes, plasters, centres, brackets, &c.

FURNITURE FACTORY.

JACOB SEHL'S FURNITURE FACTORY is situated on Government street, extending back to Langley street. Every description of furniture is manufactured here. Mr. Sehl also deals in carpets, matting, oilcloth, and all requisites for furnishing a house; employing from 18 to 20 men.

JOHN WEILER'S FURNITURE FACTORY; office and salesroom 206 Fort street, factory corner Broad and Broughton streets. This firm is well known to those interested in household requisites, which are to be found here in great variety, from the cheapest kinds to those of the most costly description. Mr. Weiler enlarged his factory last year, and is now employing from 20 to 25 men, commanding an extensive trade throughout the entire province.

TRY HENLEY'S CELERY, BEEF AND IRON

VICTORIA CITY—GENERAL PROGRESS.

15

JOSEPH SOMMER, on Government street, where office furniture is manufactured, is making picture frames a speciality in his line. Here may be seen a large assortment of frames of every description.

NEWSPAPERS.

THE DAILY AND WEEKLY COLONIST was established in 1858. D. W. Higgins is the proprietor. The paper has a large circulation. The office has a very complete plant for book and job printing of all descriptions.

THE DAILY AND WEEKLY STANDARD, published by C. McK. Smith, office Government street. It also has a book and job printing department in connection with the establishment.

THE DAILY EVENING POST, W. J. McDowell, editor and proprietor, was established in May, 1882. A very popular journal with all classes; being known throughout the province for its independence.

THE DAILY AND WEEKLY TIMES was established on the 9th of June, 1884, by the Times Publishing Company, and is already in the fore rank of journals in B. C. It is an evening paper, receiving associated press despatches. Mr. J. C. McLagan is editor and acting manager.

HOTELS.

THE AMERICAN HOTEL, on Yates street, Thos. J. Burnes, proprietor, was established in 1867; it is well known throughout the Pacific coast as a first class hotel. An excellent meal is always provided, no expense being spared in procuring everything that is "in season." There are 32 bedrooms with accommodation for 65 visitors, and strangers visiting Victoria can always depend on first class meals, excellent beds, and courteous attention at the American Hotel.

THE ANGEL HOTEL, on Langley street, F. Carne, proprietor, is well known to most travellers on the Pacific coast. It has accommodation for 60 persons.

THE BOOMERANG HOTEL, on the corner of Government and Courtenay streets, Alex. McDonald, proprietor, has excellent rooms as well as a beautifully furnished bar and dining room.

THE BRUNSWICK HOTEL, corner Yates and Douglas streets, W. E. Osterhout & Co., proprietors, is a newly furnished house, and managed on a temperance plan; having a large number of rooms and an excellent dining room.

THE COLONIAL HOTEL, on Johnson street, M. N. Bechtel, proprietor, has a frontage of 90 feet. It is well conducted, and has accommodation for 60 guests.

THE COMMERCIAL HOTEL, on the corner of Douglas and Cormorant streets, James Chas. Johnson, proprietor, is a brick building, and in addition to the bar, parlors and dining room there is bedroom accommodation for 60 persons. This hotel has become a great favorite with travellers.

THE COSMOPOLITAN HOTEL, corner Fort and Douglas streets, John Berryman, proprietor, is well managed, charges being moderate.

THE DOMINION HOTEL, on Yates street, serves an excellent table, with every comfort for single persons or families.

THE DRIARD HOUSE, on View street, Redon & Hartnagel, proprietors, is a first class hotel, and is celebrated for the excellence of its *cuisine*, which cannot be surpassed by San Francisco hotels.

THE GRAND PACIFIC HOTEL, corner Johnson and Store streets, is one of the largest hotels in the city, well conducted and moderate charges.

THE OCCIDENTAL HOTEL, corner Johnson and Wharf streets, Luke Pither, proprietor, is a large brick building, containing bar room, parlors, dining rooms, and 60

bed rooms. Its proximity to the wharf makes it a very convenient hotel for strangers. It is well conducted, with moderate charges; and those staying here will be well satisfied.

THE ORIENTAL HOTEL, Wm. McKeon, proprietor, is situated on Yates street, and is the most handsome hotel in British Columbia, having a splendid dining room and excellent bed rooms, with accommodation for 150 travellers; also a first class bar and billiard room.

THE PARK HOTEL, Miss K. Hotz, proprietress, is situated on the confines of Beacon Hill Park, and is in many respects unrivalled. The view from it is most magnificent, embracing the Strait of Fuca and the snow-clad mountains of the Olympian range.

THE PRITCHARD HOUSE is located on corner Yates and Government streets, Briggs & Gray, proprietors. This is a new hotel, elegantly furnished, containing 40 bed rooms and two handsome parlors. The house is connected with the telephonic system. It also has a magnificent billiard room and bar, which contains the largest looking-glass in the province, and where the gentlemanly bar tender, Mr. Stevens, is busy accommodating the many visitors at this house.

THE PACIFIC TELEGRAPH, Store street, Mrs. Astrico, proprietress, is well managed. It has 65 bed rooms, with accommodation for 100 persons.

THE QUEEN'S CHOP HOUSE, Yates street, opposite Langley, J. E. Brink, proprietor. This has become a prominent house for meals at all hours. There are four private dining rooms connected with the chop house for dinner parties, and rooms can be secured at this place by telegraph.

THE ROYAL HOTEL, J. R. Phillips, proprietor, is very conveniently situated in the center of the city and has 40 bed rooms, capable of accommodating 50 persons.

THE ST. NICHOLAS HOTEL, 408 Government street, B. F. Dillon, proprietor, is a very large fire-proof building, four stories in height. Besides dining rooms and parlors it contains 60 bed rooms, and can accommodate 150 people, at moderate charges.

THE TERMINUS HOTEL, on Johnson street, has a good reputation for supplying excellent meals and good beds, at reasonable rates.

THE VANCOUVER HOUSE, has been re-opened by Bernhard Wrede. It is situated on Yates street, near Douglas, and has accommodation for 75 visitors. The charges are moderate, and travellers will find the house a very convenient place.

STEAMBOAT AND STEAMSHIP LINES.

THE CANADIAN PACIFIC NAVIGATION COMPANY (limited), Jno. Irving, manager. Office, Wharf street. *Fraser River Route.*—A steamer leaves every Monday, Wednesday, and Friday, at 7 A. M., for Port Hammond, New Westminster, and way landings; connects at Port Hammond each trip with the Canadian Pacific Navigation Company for interior points. Connections are made at New Westminster with steamers leaving every Monday, at 7 A. M., for Burrard Inlet and Port Moody; every Wednesday, at 7 A. M., for Nanaimo and Comox; every Wednesday, at 7 A. M., for Chilliwack and way landings; every Saturday, at 7 A. M., for Hope and way landings. *East Coast Route.*—A steamer leaves every Monday, Wednesday, and Friday, at 7 A. M., for Nanaimo and way ports, connecting at Nanaimo every Wednesday with steamer for Comox. *Northern Route.*—A steamer leaves about twice each month for ports on the northern coast, from Alert Bay to Wrangel.

THE PEOPLE'S LINE, Turner, Beeton & Co., agents. Steamer Amelia plies regularly between Victoria and Nanaimo. The steamer Woodside is employed doing general work between Victoria and Sooke.

THE O. R. & N. Co.'s swift steamers ply daily between Victoria and Puget Sound, calling at Port Townsend, Seattle, Tacoma, and way ports; connecting with the overland train for Portland and the east, carrying passengers and mails. Office, Wharf street.

THE PACIFIC COAST STEAMSHIP Co.'s steamers, Welch, Rithet & Co., agents. Office, Wharf street. Steamers sail every eight days to and from San Francisco.

In Canada, Bank of Montreal. In New York, Messrs. W. Watson and A. Lang. In South America, London Bank of Mexico and South America. In India, China and Australia, Chartered Bank of India, Australia and China. Hong Kong and Shanghai, Banking Corporation, Hong Kong.

The Bank in London grants Letters of Credit and Drafts on its Branches at San Francisco, in California; Portland, in Oregon; and Victoria, in British Columbia; and similar credits are granted by the British Linen Company, the North and South Wales Bank in Liverpool, and the Bank of Liverpool.

The Bank also purchases or forwards for collection Drafts on the above places.

At the Branches Advances and Discounts are negotiated at current rates, Drafts on all parts of the world are issued, Bullion and Gold Dust purchased, and a general Banking business conducted.

Victoria, British Columbia, November, 1882.

VICTORIA ADVERTISEMENTS.

BEACON HILL
PARK HOTEL

MISS K. HOTZ, PROPRIETRESS.

The Hotel Bar is furnished with the Best

Wines, Liquors & Cigars

ONLY ONE MILE FROM VICTORIA POST OFFICE.

Horse Racing, Base Ball and Games of Every Description.
In fact, the Sporting Ground of Victoria.

The above Hotel is in many respects unrivalled, situated as it is, on the confines of Beacon Hill. The view from it is most magnificent.

Lovely Scenery, Beautiful Surroundings, and Salt Sea Ozone of the Straits.

VICTORIA ADVERTISEMENTS.

TOBACCO PLANT.

Come ye citizens and strangers,
Miners, sailors and Western rangers,
Listen to the truthful story
Of Frank Campbell of Victoria.

He in truthful words will tell you,
Just the goods he has to sell you;
Mind ye, now, he isn't joking,
If you are fond of chewing and smoking.

Or, if you are given to snuffing
What he keeps does not need puffing;
He has brands will suit you really—
Tobacco users prize them dearly.

From all parts of the "Old Dominion,"
He has stock, and his opinion,
Is that none will suit you better—
They will please you to the letter.

His cigars, just from "Havana,"
Smoke in the most lovely manner;
Meerschaum pipes of style and fashion
Just to suit the taste and passion.

And it is in Canada stated,
His tobaccos are celebrated;
Green Seal, Straight Cut, all go,
Big Lick, Big Cut, Wind Sap, also.

And the Fine Cut brands for chewing,
That your teeth will never ruin;
Pipes to suit the inveterate smoker,
Cards for playing sinche or poker.

Pipes of briar, and stems of cherry,
More than any man can carry;
It would take a week to tell you
All the things he has to sell you.

While in town you may be stopping,
At the "Adelphia Corner" drop in;
Campbell you'll find at that location,
Ready to give you information.

Or to see you well provided
With what is by all decided—
The smoker's and the chewer's glory—
The best and cheapest in Victoria.

FRANK CAMPBELL.

BRITISH COLUMBIA DIRECTORY.

VICTORIA DISTRICT

Has an area of twenty-seven square miles, and a population of about six hundred. It is bounded on the south and east by Haro Straits, on the west by Victoria Arm, and on the north by Lake District.

The drives along the Saanich, Burnside, Cedar Hill, Gorge, and Cadboro Bay roads are delightful, and possess many convenient and enjoyable resorts for pleasure seekers.

During the last two years a number of handsome private dwellings have been erected in this district. The climate being mild, and sheltered from the prevailing winds with its beautiful highlands and charming surroundings, this district will in the near future become a most desirable locality for country villas.

ESQUIMALT.

This town is situated three and a half miles from Victoria, and has a beautiful harbor which is easy of access and well sheltered. It is the chief naval station for Her Majesty's ships on the Pacific.

The dry dock, when finished, will be one of the largest docks on the coast, affording ample accommodation for the largest ships.

Stages carry passengers between Esquimalt and Victoria daily. It is also connected with Victoria by telephone.

SOOKE

Is situated 23 miles south-west of Victoria. It has a very pretty harbor but a rather narrow entrance. Gold was discovered on Leech River in 1864, and on the right of the entrance to Sooke harbor is the celebrated copper and iron mine, which is said to contain 90 per cent. of metal. There are also indications of coal, both in Sooke and Otter District. The hemlock bark used in the Victoria tanneries is shipped from Otter District.

Thos. Tugwell's seed farm is in this section, and his seeds have a reputation throughout the entire province.

GOLDSTREAM AND HIGHLAND.

Goldstream District has an area of nearly thirty square miles, but is very thinly populated. It derives its name from the beautiful stream of water which flows through it. The Goldstream house, a favorite country resort, is 12 miles from Victoria.

Highland District is north of Esquimalt, and is very hilly and thickly timbered. It contains an area of about twenty-five square miles, and has several small lakes within its borders.

COWICHAN DISTRICT.

Cowichan is a fertile agricultural district situated on the east coast of Vancouver Island, about midway between Victoria and Nanaimo, and presents a wide and varied field for enterprise. It extends from the Goldstream hills, bordering on the west, the Saanich Inlet on the south, to Oyster Bay, near Nanaimo; and from the salt water on the east coast to the Great Cowichan Lake in the interior. Settlement began in 1802, under the auspices of the late Sir James Douglas, then governor of the colony. The pioneer settlers had the choice of location according to priority of registered claim, and many of them still reside upon the lands then acquired, now well-to-do farmers and honored members of the community. At the present time agriculture is the chief industry of Cowichan. It is noted for the productiveness of its soil, cereals being grown of a quality perhaps unsurpassed in any country. Diplomas of merit were given at the American Centennial Exhibition in 1876, and again at the Paris Exposition in 1878, for samples of wheat and oats grown in Cowichan, and exhibited by Messrs. Skinner, Smith and others, old pioneer residents of the district.

Cowichan Electoral District embraces Salt Spring, Galiano, Mayne, Pender, Saturna and a number of smaller islands. Fruits of every description thrive in a remarkable manner, and the islands are particularly well adapted to sheep farming.

Mail steamers call at Cowichan, Maple Bay, and Chemainus in Cowichan proper, and at Burgoyne Bay, and Vesuvius Bay on Salt Spring Island, semi-weekly. A wagon road has been completed between Cowichan and Victoria city, by which the district can be reached in a day's drive.

The district possesses the oldest and one of the most flourishing Agricultural Societies in the province.

San Francisco Chronicle, the leading Paper of the Coast.

Nanaimo--General Progress.

The site now occupied by the City of Nanaimo was bought by the Hudson Bay Company from the Indians in the winter of 1852, and was established by the Company as a trading post and mining village, where they carried on operations until 1862, when the town plot, mining works and buildings, together with an extensive tract of country which had been acquired by special grant from the crown, were purchased by the Vancouver Coal Mining and Land Company (limited).

The City of Nanaimo was incorporated in 1874. The population of the city and neighborhood is estimated at about 4,000. This number is being continually added to by immigration of miners, mechanics, laborers and settlers with, in many cases, their families; this influx of new population will in all probability be steadily maintained by the progressive development of the coal fields, and the stimulus of railway construction, during the next three years.

The City of Nanaimo, in the midst of a rich mineral region bounding in first-class coal, with extensive colliery works in full operation, surrounded with good farming and stock country, and possessing exceptional natural facilities and resources, is destined to attain a high position of industrial, manufacturing, and commercial importance and prosperity. The city wharves regularly receive steamships from San Francisco, Portland, Or., Alaska, and other foreign ports, as well as from Victoria, New Westminster, and coast ports, and a fleet of trading vessels. The merchants and mechanics of Nanaimo have been long known in the commercial world for their good business standing; and on the whole there are few communities where thrift and contentment so generally prevail as in this city.

The mainspring of the coal industry of Nanaimo is the enterprising British joint stock company known as the Vancouver Coal Mining and Land Company (limited), whose proprietary rights are ably represented in the city by their superintendent, Mr. Samuel M. Robins, J. P., from whom, it should be mentioned, the unsold land in the city and its suburbs can be obtained on easy terms by persons desirous of acquiring the same.

The line of the Esquimalt and Nanaimo Railway passes through the centre of the city, where the Railway Company purpose making a depot; from whence the line has been located in the direction of Departure Bay. The construction of the railway between Nanaimo and Esquimalt is being energetically proceeded with, under the efficient management of the President of the Company, Mr. Robert Dunsmuir, M. P. P. There is every probability of the completion and working of the railway within the stipulated time. The consummation of this important railway undertaking will, it is predicted, greatly contribute to the advancement of the material and social welfare of the City of Nanaimo and its inhabitants.

The District of Nanaimo is famous as the seat of the coal mining industry of Vancouver Island, and includes the celebrated coal fields which yield the true bituminous coal known as Douglas, Wellington, New Douglas (or Chase River), Newcastle, South Fields, Alexandra, and Harewood coals.

The Electoral District of Nanaimo comprises the rising and important farming and official districts named Oyster Bay, Cedar, Cranberry, Harewood, Douglas, Mountain, Wellington, Nanoose, Englishman's River, and Lower Qualicum; also the adjacent islands of Lasqueti, Jedidiah, Gabriola, Valdez, and the De Courcy group.

The Brunswick, Balke, Collender Co. 653 and 655 Market St., San Francisco.

Sole Agents for the HYATT BILLIARD HALLS, will stand any climate, and will guarantee them one year.

WM. WOLZ, GENERAL AGENT, AND
COMMERCIAL TRAVELLER, B. C.

THE NANAIMO COLLIERY.

The mines of the Vancouver Coal Mining and Land Company (limited) in active operation consist of: (1) Number One Shaft, in the city; (2) New Douglas Mine, at Chase River, about two miles south of the city; (3) South Field Mine, about three and a half miles south of Chase River.

NUMBER 1 SHAFT, NANAIMO.—This pit is of great size, being eighteen feet clear in diameter, and is lined wherever requisite with solid and substantial blocks. The pit is sunk to the depth of upwards of 600 feet to the famous Douglas seam of coal, which is here about eight feet thick. At a short distance to the north is the No. 2 Shaft, which is used as the air shaft. This shaft is sixteen feet in diameter, and is mostly lined with blocking; it is also about 600 feet deep.

The pit banks, frame and head gear of the No. 1 Shaft are of the most massive and substantial description. The pit head is housed and protected from the weather. The various operations necessary for conducting the hoisting and unloading of the coal proceed with an automatic precision that naturally excites wondering admiration. The ponderous winding engines of 30-inch cylinder with 5-foot stroke, and winding drums of nearly five yards in diameter, having a capacity of hoisting 1,000 tons per shift of 8 hours, are placed at about 25 yards from the shaft, in a finely appointed and handsome engine house—the engine resting so solidly and evenly on its massive bedding that though going at enormous pressure, with all the force of its 500 horsepower, the movement of its powerful drawing rods plunging upwards and downwards with an oily softness causes not the least vibration. The engine man, his hand on the lever, listens to the signals, keeping his eyes fixed on the indicator which shows the different positions of the cages in the shaft and the different stories of the pit bank. At each fresh start the two immense drums around which the steel cables coil and uncoil themselves whirl about so rapidly as to create a breeze in the heated engine house, fanning the exotic plant—the engine man's pride. The cables which are attached to the cages seem to leap straight up to the top of the shaft frame and to drop over the pulleys vertically into the shaft. The rapid movement of the thread-like cables that can lift as much as 6 tons at a time at the rate of 10 yards a second is very fascinating. The signal, a heavy hammer, moved by a lever, pulled from below by a wire rope, and falling upon a gong, keeps incessantly striking for lowering or to haul up, and at intervals to raise or lower a precious human freight, which is done with seemly care; again, when only water is hoisted in tanks beneath the cages; the speed and noise are awe-inspiring. Water is easily kept under in this shaft without pumps. At the pit mouth the bankmen receive the cage which glides up from the dark depths below—the cage with its two stories or decks, each containing two hoxes or trucks full of coals, which are quickly taken off and replaced by empty ones—and the cage is dispatched once more on its murky errand. The full trucks are weighed, pushed to the "tippler," and the contents discharged over screens into a railway car for shipment. At the change of shift, the colliers enter the cages above and below, and signals being exchanged, the cages move with their cargoes of human beings; thus the shaft devours and disgorges its daily ration of humanity.

The No. 1 Shaft is connected with the coal wharf by a line of railway along the esplanade, of steel rails, flange section, 56 lbs. per yard, fished.

The quality of the Douglas coal for steam and gas making is unsurpassed in the market, and the area of this coal which may be mined and raised from No. 1 Shaft is very extensive—practically unlimited; in all probability the operations of the next half century will not exhaust the productive power of this field.

Try Canadian Builders!

For Farmers and Miners, the great S. F. Chronicle.

NEW DOUGLAS MINE.—A railway of about two and a half miles from the coal wharf, of steel rails, conducts to the New Douglas Mine. This mine is worked by a slope at the head of which is a powerful winding engine capable of hoisting 500 tons per day. Attached to the engine are pumping gear and rods which operate a large plunger pump in the mine, by means of which and auxiliary pumps the water is raised into an adit level through which it finds its way to Chase River. As a help to keep New Douglas Mine free from water the pumps in the Old Douglas Mine, in the city (which is connected with the New Douglas underground) are kept continually going.

There are very capacious coal bunkers and excellent slope head arrangements at the New Douglas Mine, which is producing coal of the very best quality. The prospects are promising for the development of a large area of good workable coal in this mine.

SOUTH FIELD MINE.—The extension of the railway southwards from Chase River, a distance of about three and a half miles, to what is known as the South Field, was a most enterprising undertaking. In this locality the Company had proved about 1,000 acres of land to be coal bearing by means of their Diamond drilling machine, and a mine known as South Field Mine has been opened by a slope into the seam, from which coal of a very superior kind for household use has been extracted and shipped to San Francisco, where it has taken the highest rank in quality and price.

A pair of 16-inch winding engines has been erected at the head of the slope which is being driven directly towards a bore in which the coal was found to be seventeen feet thick; so far as the slope has been driven—seven hundred yards—the coal has proved good and from 5 to 8 feet thick. The work of opening the mine is being vigorously pushed, and there is every probability of its successful development into one of the most important mines of the district.

The Company's railways are of the uniform gauge of 4 feet 8 inches. They are operated by four powerful locomotives and about 750 coal cars. Ships drawing 33 feet of water can be loaded at the coal wharves, three at a time.

OTHER MINES.—The other mines belonging to the Vancouver Coal Company which are not in operation are: (1) The Old Douglas Mine; (2) Fitzwilliam Mine; (3) Harewood Mine.

LAND.—The Vancouver Coal Mining and Land Company (limited), besides being the owners of the site of the City of Nanaimo and of many thousands of acres adjoining the city and in its neighborhood, known as the Nanaimo Estate, also own a large estate in Mountain District, bearing the famous Wellington seam, which is under exploration by the Diamond drill. The Island of Newcastle, with its renowned stone quarry, and Protection Islands, belong to the Company. The valuable coal properties known as Delholt's Peninsula, and the Frew Estate, which forms the delta of Nanaimo River, have been acquired by the Company. The Harewood Estate, consisting of about 9,000 acres, situate in Mountain Cranberry, Douglas and Nanaimo Districts, is the property of the Vancouver Coal Company, with the Harewood Mine, its line of aerial tramway and shipping site, and wharf at Cameron Island in the city.

Within the past few years the Vancouver Coal Mining and Land Company (limited) have expended upwards of a quarter of a million dollars in the construction of works and the exploration and development of their vast property in the District of Nanaimo, and it is the sincere wish of every inhabitant of the district that the Company may derive an adequate return for their outlay and enterprise.

The Brunswick, Balke, Collender Co., 133 Front St., Portland, Oregon.
The most extensive Manufacturers of BILLIARD and POOL TABLES in the World.

FOR NERVOUSNESS & DYSPEPSIA,

TRY HENLEY'S CELERY, BEEF AND IRON

NANAIMO—GENERAL PROGRESS.

119

The Vancouver Coal Company employ about 600 persons, of whom about 100 are Chinese and Indians. The average rate of wages is from \$2 to \$3.50 per day; Chinese, \$1 to \$1.25; Indians, \$1.25 per day. Miners' earnings are from \$2.50 to \$5 per day.

OTHER INDUSTRIES.

THE ROYAL CITY PLANING MILLS Co. (limited), Andrew Haslam manager, which will when worked by the combined forces of steam and water turn out 45 thousand feet of lumber per day. In connection with the mill are several logging camps; 60 men find employment in the mills.

THE NANAIMO BREWERY, J. Mahrer proprietor, is located on Mill street, and was established in 1879. Its capacity is 30,000 gallons per year, and the beer brewed by Mr. Mahrer is said to compare favorably with any in the province.

SODA WATER WORKS, where various other temperance drinks are manufactured, is carried on by J. Mitchell, at the west end of Bastion street bridge.

FURNITURE MANUFACTURING, by J. Hilbert, Bastion street.

BLACKSMITHING, by Horne & Hemer, Bastion street, and Craig & Renwick, Bastion street bridge.

BOOT AND SHOE MANUFACTURING, by John Whitfield, Victoria crescent; James Abrams, Commercial street; David Davis, J. L. Elliott, and Richard Hilbert of Leon house, Commercial street.

A small tannery has been carried on by J. Abrams, which is located on the banks of the Millstream, and it is expected that ere long a company will be formed for the development of this industry and also for the manufacturing of boots and shoes, which will doubtless prove remunerative here as elsewhere.

WATER WORKS.—J. W. Stirtan has at present a system of wooden pipes used as new water works, the first real attempt made in Nanaimo to provide the city with a regular supply of water. The springs which yield the needed supply are located upon the rising ground in the rear of the Methodist parsonage and in other parts of the city. Mr. Stirtan with other persons are, however, seeking legislative powers, under which it is proposed to conduct water from Nanaimo River into the city.

FERRY.—A steam ferry connects the city with Departure Bay, and runs to and fro twice a day.

THE NANAIMO FREE PRESS, established in 1874 by its present enterprising editor and proprietor, George Norris, is a semi-weekly, ably conducted, independent and impartial in its treatment of public matters. Connected with the establishment is a well appointed job office, where the local demand for printing is met with ability and dispatch. Steam printing is the order of the day at this office.

HOTELS.

The hotels in Nanaimo which afford accommodation to the traveling public are quite large and numerous, among which are the Old Flag Inn, by J. E. Jenkins, Bastion street; the Royal, by Richard Watkins, Commercial street; the Miners' Exchange, by Joseph Webb, Commercial street; the Temperance, by Mrs. J. K. Gilbert, Bastion street; Nanaimo Hotel, by Mrs. E. Gough, Commercial street; the Britannia Hotel, by Smallwood; the Provincial, by J. W. Brunton, Victoria crescent; the Commercial, by Sabiston & Wilcox, cor. Bastion and Commercial; the Identical, by N. Smith, Victoria crescent; the Dew Drop, by George Baker, Haliburton street; and the New Castle, by A. P. Smith, Wellington road. There are also many large and well furnished stores of various kinds where every commodity in general use may be obtained.

DEPARTURE BAY AND WELLINGTON.

Departure Bay is situated some three miles north of Nanaimo, on a picturesque inlet of the Gulf of Georgia, and is the shipping point of the well known Wellington coal. The mines are about three miles south of the bay, where the manager's office, carpenter and blacksmith shops are located.

The mining village of Wellington comprises North, South and East Wellington, having a population of about 1,000; and when the demand is sufficient the company has facilities of 1,500 tons of coal per day. The mines were discovered in 1869 by Robt. Dunsmuir, the present owner.

COMOX DISTRICT.

Comox is the most northerly agricultural district on Vancouver Island, situated on the east coast about 140 miles from Victoria, containing 65 square miles, and a population of about 350.

The town of Comox is situated at Port Augusta, and contains all necessary conveniences for settlers and travellers. The settlement is certainly a thriving and industrious community; and all those who visited the beautiful Comox valley are satisfied that after a more frequent mail service has been established, and her coal mines developed, that Comox will become one of the favorite agricultural sections of Vancouver Island.

New Westminster City---General Progress.

This city, the largest on the mainland of British Columbia, is pleasantly situated on the right bank of the Fraser River, about 15 miles from the mouth, in lat. 49 deg. 12 m. 47 s. N., long. 122 deg. 53 m. 26 s. W. Lower Langley, otherwise Derby, had at first been adopted as the principal seaport town and capital (Vancouver Island being then a separate colony) for the mainland, but owing to its numerous advantages the site of New Westminster was finally preferred. In May, 1859, Her Majesty was pleased to decide that the capital of British Columbia should be called New Westminster. The seat of government continued here until 1868; in the meantime the colonies of Vancouver Island and British Columbia had been united, and the legislature, by a majority vote, removed the capital of the united colony to Victoria, the present seat of government. The city was incorporated in 1861, and since that time has made a steady increase, and estimating (by the Directory canvass) its population is nearly 4,000.

The city is centrally situated, and occupies such a position as to be benefitted by any prosperity that may accrue to any of the adjacent settlements. It is connected with Burrard Inlet, the terminus of the Canadian Pacific Railway, by several roads, all more or less interesting, and some affording access to scenery of the most attractive description. Among these may be specially mentioned the Northeast road, which introduces the visitor to a view of the beautiful valley of Pitt River, with the picturesque range of mountains beyond, and the sublime peak of Mount Baker, in Washington Territory, in the distance.

The industries of the place rest chiefly upon farming, lumbering, manufacturing and salmon fishing. The last mentioned being the largest. To the fishing tourist New Westminster presents great attractions. The lakes and streams in the neighborhood, all easy of access from the city, abound with trout of great excellence.

The proximity of New Westminster to Burrard Inlet has induced a company to apply to the legislature for a charter (which has been granted) for a branch line of railroad from Port Moody to this city, and it is expected that work on the projected line will shortly be undertaken. This enterprise, which will add largely to the prosperity of New Westminster, is one that reflects credit upon the energy and business capacity of the citizens, and will add an element of success to the prospects, commercial and otherwise, of the city and the surrounding country. The present session of the provincial legislature will pass upon a bill to incorporate a company for the purpose of constructing and maintaining a line of railway between this city and the southern boundary. Our neighbors across the line are equally anxious for this connection, and are taking the necessary steps towards their share in its fulfilment. Should this scheme be carried out (which is highly probable), it will be of incalculable benefit to this city and the district on the south side of the river.

A steam ferry has been established between this city and Brownsville, jointly by the municipalities of New Westminster and Surrey, with the assistance of the provincial government, and is a considerable convenience to farmers and the traveling public generally. The salmon hatchery, lately established here by the Dominion government, is expected in the near future to tell to the advantage of our already large and increasing piscatorial industries.

Try Dominion Billers!!!

For Farmers and Miners, the great S. F. Chronicle.

Among the public buildings worthy of note is the provincial penitentiary, a slightly stone structure, situated on a lofty eminence in the north-eastern portion of the city. Extensive improvements and additions are now in progress at this institution.

The lunatic asylum, built by the provincial government, is a brick edifice with stone corners, and situated so as to have a fine view of the river. A new wing has lately been added to this building and other substantial improvements and alterations effected, at an aggregate cost of \$25,000 or \$30,000. The local government have also under contract a new jail for this city, which will be pushed to completion as soon as practicable.

The district court house is a neat wooden structure, very suitable, when built, for the purposes for which it was intended, but it now hardly affords the requisite accommodation.

On the corner of Columbia and Mary streets, in the central portion of the city, stands the Dominion government building. It is three stories in height with a mansard roof, built of red brick with facings of free stone, and furnishes accommodation for the post office, custom office, Dominion savings bank, telegraph office, and such other Dominion offices as are required.

There are many neat and commodious private residences in the outskirts, and a pleasing feature connected with this city are the many well-kept flower gardens and orchards that may be seen around.

BISCUIT AND CRACKER FACTORY.

L. WILLIE'S CRACKER FACTORY is situated on Front street, and the production has a steady sale.

BREWERIES.

THE CITY BREWERY, cor. Agnes and Douglas streets, has of late been re-opened and to some extent enlarged by Robert Reisterer, who has established a reputation for brewing a superior article commanding an extensive and increasing trade.

THE SAPPERTON BREWERY was established in 1879, and is at present under the management of Kehoe & Co.

CARRIAGE MAKING, BLACKSMITHING, &C.

THE PACIFIC CARRIAGE WORKS, Johnstone & Smith proprietors, is located on the corner of Columbia and Begbie streets, and is the largest of its kind in the province. The building is 120x40, two stories high, and is fitted with machinery of the newest and most perfect kind. The firm is a branch of an extensive carriage manufacturing establishment in Freulton, Canada, and is at present making arrangements to import a large stock of every description of carriages, wagons, &c., to supply the British Columbia market.

W. R. Lewis, Speirs & Beaton, Walter Blackie, and T. Ovens are engaged in the general blacksmithing business on Columbia street.

CANNERIES.

NEW WESTMINSTER CANNERY, cor. Front and Begbie streets, Ewen & Co. proprietors, was established in 1870. This cannery puts up about 20,000 cases of salmon per season. Nearly 300 men find employment in this fishing industry.

LAYDLAW & Co.'s CANNERIES are situated near Sapperton, one mile north-east of the city, and employ about 450 hands while putting up fish, and in a good run usually can about 30,000 cases a season.

The Brunswick, Balke, Collender Co. 653 and 655 Market St., San Francisco.

SOLE AGENTS FOR THE SYDNEY BILLIARD BALLS, will stand any climate, and will guarantee them one year.

NEW WESTMINSTER CITY—GENERAL PROGRESS.

147

THE QUOQUITLAM CANNERY is located $4\frac{1}{2}$ miles north-east of New Westminster; it was established in 1879 by Haigh Bros.; at present the firm consists of Benjamin Haigh & Sons. This cannery employs some 250 men, besides purchasing a large amount of fish from private fisherman.

CIGAR FACTORY.

THE MAINLAND CIGAR FACTORY was established last year, by William Tietjen, and employs 14 hands. It is the only enterprise of this kind on the mainland, and the cigars which are manufactured have already become the favorite of the mainland smoker.

FOUNDRY.

NEW WESTMINSTER, R. Law proprietor, is situated on Front street, and occupies three town lots. The moulding shop is 30x45; machine shop, 30x18; pattern shop, 30x18; brass finishing shop, 12x12; blacksmith shop, 22x12; engine room, 24x12; fan shop, 24x12; employs six men, and does good work.

FURNITURE.

W. PROTHERO & Co., on Columbia street, are manufacturing furniture at Victoria prices, of every description, and are commanding an extensive mainland trade; employing a number of hands.

HOTELS.

THE AMERICAN, on Columbia street, formerly the Oro, has been established since 1859, Samuel W. Daggett proprietor. Stages leave this hotel daily for Burrard Inlet. It has 15 bed rooms; every attention is paid to the comfort of guests.

THE ARLINGTON HOTEL, Columbia street, Robert Campbell proprietor, is a three story hotel, and has good accommodation for travellers.

THE CITY HOTEL, on Columbia street, Mrs. Bouson proprietress, is the only hotel in the city without a bar; has accommodation for 30 guests; it is well conducted, with moderate charges.

THE CLEVELAND HOTEL, on Columbia street, George Clark proprietor, is a newly built and newly furnished house.

THE COLONIAL HOTEL, Columbia street, John E. Insley proprietor, is the largest hotel on the mainland. It has a beautiful location, being three stories high, and extending to Clarkson street. It is elegantly furnished and provided with spacious parlors, commodious dining room and handsome bar room. Meals first-class in every respect. This house has accommodation for 150 persons.

THE EAGLE HOTEL, Front street, Plumb & Cleland proprietors, is well supplied with good beds, meals and liquors, at reasonable rates.

THE FARMERS' HOME, James Turnbull proprietor, is pleasantly situated on Lytton square. There are 18 bed rooms, and it has the reputation of being a good, clean and quiet house.

THE HOLBROOK HOUSE, on Front street, Al. J. 'Olmie manager, is a well known house to the traveling public, and is pronounced by the people in British Columbia as one of the best houses on the mainland. Its proximity to the wharf makes it a very convenient house for strangers. It is well conducted and is in many respects unrivalled, possessing a splendid dining room, excellent bed rooms, and a first-class bar; those staying at this house will be well satisfied.

THE MERCHANTS' HOTEL, on Columbia street, was established in 1884 by its present proprietor, J. Johnson. It has accommodation for 50 guests.

BRITISH COLUMBIA DIRECTORY.

THE OCCIDENT, on Columbia street, opposite the post office, is a stone building. John Austin, proprietor, is well known to most travellers. There are 40 rooms, capable of accommodating 60 persons.

THE PALACE, Front street, John Rankin proprietor, combines saloon and boarding house, with six well furnished rooms, and is noted for excellent meals.

THE TELEGRAPH HOTEL, Front street, Mrs. Mary Hogan proprietress, is conveniently located for the travelling public, and has a reputation of affording good accommodation.

THE UNION HOTEL, Columbia street, John Cartwright proprietor, is an old established house, and has of late been refitted; there are 28 bed rooms, with accommodation for 40 guests.

MILLS.

BRUNETTE SAW MILLS are located about one mile north of the city, DeBeck Bros. & Co. proprietors. The capacity of the mill is 50,000 feet of lumber per day, employing from 25 to 30 men. The Brunette logging camp is situated on Pitt Lake, about 20 miles from the mills.

THE DOMINION SAW MILL COMPANY (limited).—Officers, John B. Henderson, manager; T. W. Gray, secretary. Directors, John B. Henderson, T. W. Gray, John A. Webster, Wm. Johnston, Jas. Gray, H. V. Edmonds, and A. A. Green. The mills were established in 1878 by Webster & Co., but have since passed into the hands of a stock company and is now one of the largest lumber mills in British Columbia, manufacturing rough and dressed lumber of all kinds, doors, sashes, blinds, mouldings, &c., as well as furniture of every description; giving constant employment to large numbers of men.

THE ROYAL CITY PLANING MILLS COMPANY (limited)—partners, John Hendry, David McNair, R. B. Kelly, A. E. Lees, and Andrew Haslam, established 1878—is one of the leading industrial enterprises of B. C. The mills do scroll sawing, planing and turning, and manufacturing rough and dressed lumber of all kinds, doors, sashes, blinds, mouldings, salmon boxes, shingles, and chopping feed mills. The buildings connected with the sawmill and sash and door factory are 187x120 feet. The box factory, 100x100 feet. There are two engines with boilers having 175 horsepower. The mill cuts 25,000 feet and planes 20,000 feet a day. The sash factory can turn out 100 doors and 100 windows a day. The box factory, one of the most complete of its size on the coast, can make 2,500 a day; it has in connection with it a machine for printing the different brands and names of the canneries. There is in the box factory a new machine, patented by D. McNair, one of the firm, for sawing box bottoms and tops.

There is also a gang saw for sawing sides. The water frontage is 594 feet; a warehouse, 30x60, two stories, for doors, windows and glass. They employ 96 men, and have a logging camp in connection employing 20 men. The company has three steamers employed in logging camp business.

HOT SULPHUR SPRINGS.

Considerable attention has been attracted of late to the sulphur springs of Harrison River. They are said to have wonderful curative properties, unrivalled by warm springs in other parts of the world. They are in close proximity to this city. The temperature of the water of this spring is one hundred and sixty-four degrees. The proprietor, J. C. Armstrong, is about to erect a hot:

NEWSPAPERS.

THE BRITISH COLUMBIAN, published semi-weekly by D. Robson & Co., has a large circulation and a very complete job printing office in connection with the establishment, which is run by steam power.

THE MAINLAND GUARDIAN, published semi-weekly by J. K. Suter. This paper is well conducted and has a good circulation as well as a very complete plant for job printing of all descriptions.

SODA AND SYRUP.

THE NEW WESTMINSTER SODA AND SYRUP WORKS, located on Columbia street, Huson & Wilcox proprietors, manufacture a very good article, and have an extensive mainland trade.

TANNERY.

ROUSSEAU'S TANNERY is situated at Sapperton. It has a steam engine of 10 horse-power, and employs five men.

STEAMERS.

THE C. P. N. Co.'s steamers Wm. Irving and Reliance carry mails, freight and passengers from New Westminster to Hope and intermediate ports during the summer season. This company has various other boats plying between New Westminster and up river ports.

THE YOSEMITE AND PRINCESS LOUISE ply regularly between Victoria and this city.

THE STEAMER TEASER is plying regularly between Victoria and this city.

THE STEAMER DUNSMUIR makes weekly trips to Nanaimo.

THE STEAMER ADELAIDE plies between this city and Burrard Inlet; also makes occasional trips up the river.

THE K. DE K. is a ferry boat running between this city and Brownville, leaving foot of Mary street at all hours.

ESTABLISHED 1870.

NEW WESTMINSTER ADVERTISEMENTS.

THE BRITISH COLUMBIAN Newspaper and Printing Establishment,

COLUMBIA STREET,

NEW WESTMINSTER, - BRITISH COLUMBIA.

THE COLUMBIAN IS PUBLISHED EVERY
WEDNESDAY & SATURDAY MORNING

And mailed to Subscribers anywhere in Canada, the United States and Great Britain for \$3 a year. Delivered by Carriers in the City for \$1 per quarter.

THE COLUMBIAN has been enlarged to a 32-column newspaper, contains the latest telegrams, local and provincial news, and correspondence from all parts of the country. In politics it is absolutely INDEPENDENT. It is a *newspaper* in the unqualified sense, and not the organ of any party or sect.

THE COLUMBIAN has a larger circulation than any other newspaper on the Mainland of British Columbia, and is, therefore, the best advertising medium.

THE COLUMBIAN PRINTING ESTABLISHMENT is provided with 3 Power Presses, operated by steam, and undertakes every description of Book and Job Printing. It has also a first-class Ruling Machine, and a Stereotyping Outfit, and can do all kinds of special ruling. **A trial order solicited.**

PORT MOODY.

Port Moody at present consists of about 75 buildings, many of them large and substantial including five hotels and a number of general stores, &c. Its population is about 250. It was declared by the Dominion government as the permanent terminal point on the Pacific coast for the greatest railway system in America. In view of this decision the interest in Port Moody has steadily increased, and the near completion of the railway has created a desire in the public mind for more information concerning the site and surroundings of what must undoubtedly become in the near future a great commercial and manufacturing center. Its waters are navigable throughout for shipping of the largest tonnage; good anchorage, with perfect immunity from storms. The Coquitlam River is four miles distance, from which can be brought a supply of the finest mountain water; and in fact nature has provided Port Moody with every natural convenience essential to the growth of a large city. The distance from Port Moody to New Westminster is six miles, and one hundred and five miles to Victoria city.

On Wednesday, Jan. 23rd, 1884, the first through train to Yale left Port Moody. It has telegraphic and telephone communication with New Westminster, and there can be no doubt that when the Canadian Pacific Railway is completed the rapid growth of the terminal city will be something unparalleled in the history of the Dominion of Canada.

GRANVILLE

Is situated at Coal Harbor, on the south side of the Inlet. It is a busy little town, containing a number of general stores, three comfortable hotels, churches, telegraph office, &c., &c. Two good stage roads connect this place with Hastings and New Westminster, while its water communication to Moodyville and other points on the Inlet is supplied by steam ferry. It is the center of the great lumber district which produces the supply for Hastings Mills, and absorbs nearly all the trade of the numerous logging camps situated on English Bay and the North Arm of Fraser river. It has a daily line of stages to Hastings and New Westminster, its distance from the latter place being twelve miles.

Since the publication of the last directory, two years ago, an unexpected turn in the wheel of fortune has taken place. Negotiations to locate the terminus of the Canadian Pacific Railway at Coal Harbor appears to have at once dispelled the clouds of uncertainty which for the last two years has hovered over terminal matters, and turned the attention of capitalists to Coal Harbor, and also made Granville the most important point in British Columbia. Situated on a beautiful level stretch of land, which fronts on the south and west on False Creek and English Bay, and on the north on Coal Harbor, and without those unsightly hills which are to be met with farther up the Inlet, it has not only room enough for a city such as must necessarily spring up round the terminus of our transcontinental line, but is perhaps the only point on Burrard Inlet offering the same facilities for the building of such a metropolis.

MOODYVILLE

Is situated on the north shore of the Inlet, distant from Granville about two miles. It has a population of about two hundred and fifty, chiefly officers and employees of the Moodyville Sawmill Co., which extensive establishment occupies a site on the water's front near the center of the town. Moodyville has its churches, common school, well-kept reading room, and a first-class hotel. It is also the head quarters for the two steam ferry boats which constantly ply to all points on the Inlet.

HASTINGS

Is situated on the south side of the Inlet, three miles from Granville and one and a half miles from Moodyville. It is connected by stage road with New Westminster and Granville, distant from the former place nine miles. It is the "Brighton" of the mainland, and the fashionable resort for visitors far and near, and during the summer months boasts of quite a crowded population. It has one of the best hotels on the mainland. Stages to New Westminster and Granville daily.

RICHMOND MUNICIPALITY.

The North Arm settlement includes that part of New Westminster district bounded on the west by the Gulf of Georgia, on the south by the South Arm, or main channel of the Fraser, on the east by an imaginary line crossing the Fraser at right angles about three miles below the city of New Westminster, and running from the South Arm channel to a point between Fraser River and Burrard Inlet, and on the north by a line from that point, at an average distance of one mile from the river, to the Gulf of Georgia.

Its resident population is about 250. The soil is of superior quality. All the cereals can be successfully grown, but oats and barley are the principal crops, and the hay crop is generally heavy—three and a half tons to the acre being not uncommon. There are two salmon canneries in this municipality, namely, the Richmond Canning Co. and English & Co.'s North Arm cannery.

The settlement is situated within an easy distance (by water) of New Westminster, Burrard Inlet and Nanaimo, where the settlers always find a market for their produce. With such advantages it is easy to foretell a prosperous future for the North Arm settlement.

MUNICIPAL OFFICERS.—*Reeve*—Hugh Boyd. *Councillors*—Alex. Kilgour, John Brock, W. R. McMyn, A. H. Daniels, W. H. London, David Reid, Hector McDonald.

DELTA MUNICIPALITY.

This highly important agricultural and pastoral section of the district of New Westminster occupies that portion of the South Arm of the Fraser River that extends from the Municipality of Surrey on the east to the Gulf of Georgia on the west, embracing within its borders some of the finest land on the Pacific coast, the section being noted for the remarkable fertility of its soil. The settlement comprises about 40,000 acres of rich delta land of deep black earth with a clay bottom, yielding surprising crops of timothy hay, oats, barley, wheat, and fruit; also dairy produce in abundance.

The main outlet of the settlement is Ladner's Landing. This place, as is usual with country sites, contains a church, post office, general store, &c.; also the extensive cannery of the Delta Fishing Co. There is a free wharf for the accommodation of the settlers, at which the regular mail steamers from New Westminster and Victoria call twice a week. To one seeking a home with land of exceeding richness no more inviting spot can be found than the Delta of the Fraser.

MUNICIPAL OFFICERS.—Reeve—Wm. H. Ladner. Councillors—Mr. Mitchell, P. W. Swett, Jas. S. Harris, Wm. Arthur, John McKee, Jr. Clerk and Assessor—Wm. McKee.

SURREY MUNICIPALITY,

Lying between the corporations of Langley, Fraser River, and Delta, extending from Fraser River to the international boundary line of 49 deg. north lat., contains within its limits the important and growing settlements known as Hall's Prairie, Clover Valley and Mud Bay, consisting of about one hundred and twenty square miles, has many good roads, and two navigable rivers, namely, the Serpentine and Nicomekl, which discharge into Mud Bay. A steam ferry connects this municipality with New Westminster city, its principal source of supply and market.

The British Columbia Packing Company (an extensive fishery) is situated in this municipality, on the left bank of the Fraser River, about two miles below New Westminster. It has a capacity of 25,000 cases, with 35 boats, being fully equipped with the latest and most approved appliances for turning out a standard quality of fish. This company is represented by the well known San Francisco firm, Wm. T. Coleman & Co.

MUD BAY.

The settlement commonly known as Mud Bay settlement is situated on the eastern extremity of Boundary Bay. The soil along the bay and banks of the rivers in this section is of most productive character, as high as 100 bushels of oats having been harvested off a single acre of dyked land. Game of all kinds abounds throughout and affords excellent sport for the huntsman during the fall and winter months.

CLOVER VALLEY.

Clover Valley is the most thickly settled section of Surrey Municipality. It takes its name from the great quantity of clover found growing wild throughout this section. Considerable progress has been made in clearing up and cultivating the land during the last two years which add very materially to the prosperity of this valley.

MAPLE RIDGE MUNICIPALITY.

This municipality is situated on the right bank of the Fraser River, opposite Langley, its extends from the Pitt River to Stave River, in all, a distance of about 16 miles.

The Canadian Pacific Railway runs through the whole municipality. In view of this the value of the land in this neighborhood has become greatly enhanced.

Port Hammond is the shipping point where steamers from Victoria connect with the C. P. R., and has become a station of some importance.

Port Haney is also a railway station, and all steamboats in going up and down the river generally stop here.

In looking at Maple Ridge generally, and taking into consideration its many advantages, it will undoubtedly become a very important district.

MUNICIPAL OFFICERS.—*Reeve*—George Howison. *Councillors*—John Fitzpatrick, Peter Baker, J. H. Laity, W. J. Harris, W. Isaac.

LANGLEY MUNICIPALITY DIRECTORY.

187

LANGLEY MUNICIPALITY.

This municipality is situated on the south side of the Fraser, and its landing place, Fort Langley, is 17 miles (by the river) from New Westminster city. The soil and climate of this district are especially adapted to the cultivation of hay. The Langley road runs through the middle of the municipality. The district presents great inducements for the huntsman and is largely visited by those in quest of game.

MUNICIPAL OFFICERS.—*Reeve*—Jas. McAdam. *Councillors*—Adam Innes, John Smith, Wm. Jenkins, James Houston, Jos. Morrison. *Clerk and Collector*—G. Rawlison.

CHILLIWHACK MUNICIPALITY.

This municipality comprises the two settlements of Chilliwack and Sumas, the former being bounded by the towering peaks of Cheam Mountain and the latter by the Sumas Mountain and Lake—both settlements lying upon the south side of the Fraser.

In or near the centre of the municipality is a rising town, appropriately called Centreville, having been laid out by Mr. I. Kipp, who owns most of the adjoining property.

The settlement covers a very large extent of ground. The climate is healthy and singularly invigorating. The scenery around the neighborhood of Chilliwack is grand, and for a lover of nature it would be difficult to find a more beautiful spot. The steamboat landing for Chilliwack is one mile from Centreville. The district possesses the finest agricultural land on the Lower Fraser.

HOPE AND POPCUM.

The town of Hope is situated nearly 100 miles from the mouth of the Fraser River, and presents an attractive appearance. It is located on the most beautiful flat along the Fraser River. It has always been an important trading post for the Similkameen Valley settlers, which is 40 miles from Hope. The government is at present considering the advisability of building a road from Hope to Nicola Valley, by which good agricultural land will be opened for settlers.

At Popcum is a saw mill, owned by the Knight Bros. This is a really picturesque village, and from the peaks of the adjoining mountains a magnificent view of the windings of the Fraser River and the adjacent settlements may be obtained, and on a clear day the waters of the Gulf of Georgia can be seen. Two miles below Popcum is the Cheam Indian village.

EMORY AND WAY STATIONS.

Emory is situated about three miles from Yale, on the C. P. R. The railway warehouses are located here, and it is the first station which has the appearance of a town after leaving Port Haney for Yale. The town of Emory possesses excellent hotels, general stores, &c.

The stations between Port Haney and Emory are Mission, Warnock, Harrison River, Agassiz, Ruby Creek, Fort Hope, and Texas Lake. At Texas Lake is the C. P. R. saw mills, where a large number of men are employed. At Ruby Creek the passenger train stops for meals.

YALE.

The town of Yale is situated on the right bank of the Fraser River, 110 miles from its mouth, at the head of uninterrupted navigation during about nine months in the year. Its (white) population is about 500; the town is almost entirely wooden. The C. P. Railway's head office is located here, with machine shops and contractor's residence. It has good wholesale and retail stores and excellent hotels. The town is nearly on the dividing line between two climatic zones—the moist coast climate, and the arid interior climate. There are pleasant prospects from some parts of the town. A short distance above the town the Fraser boils through a narrow gorge, and an active pedestrian will be amply rewarded by wide views of grand scenery. The gold mining camps across the river are worth visiting.

Mails reach Yale twice a week (at present) by railway, and during summer months steamboats generally ply between Victoria and Yale.

Twenty-five miles above Yale is Boston Bar, where there are good hotels for the traveler on his way to the interior.

YALE DISTRICT.

The district may be described generally as a hilly or mountainous district of British Columbia. It comprises more than one half of the southern interior tract of the mainland, and has a roughly estimated area of about 24,000 square miles.

The climate differs essentially from that of the Lower Fraser and the coast, it being drier and seasonally more regular.

The towns and villages in the district are Hope, Emory, Yale, Spence's Bridge, Lytton, Cache Creek, Savona Ferry, and Kamloops.

The district has a considerable future before it as a mineral region, and produces a good deal of gold yearly.

Fish and game are sufficiently numerous to interest both the sportsman and settler.

LYTTON.

This town is situated at the junction of the Fraser and Thompson Rivers, 57 miles above Yale. It is a picturesque and rapidly growing town. The business of this town has of late largely increased, and is constantly multiplied by the enterprising firms of Lytton.

The hotels afford comfortable accommodation for the constant travel, and with its good farming country and its central position Lytton will ever remain an important station on the C. P. R.

SPENCE'S BRIDGE OR COOK'S FERRY

Is situated on the left bank of the Fraser. The road to Nicola Valley turns off here. The distance to Nicola Lake is about 47 miles. The town has good hotels and general merchandise stores. Quite a little settlement exists at this point. From this place the Cariboo road follows the right bank of the Thompson River.

CACHE CREEK

Is situated a short distance above Spence's Bridge, on the C. P. R. It has hotels, stores, blacksmithing, and other business accommodations.

CACHE CREEK DIRECTORY.

(P. O. Address Cache Creek.)

ADDITIONAL NAMES, ETC., CACHE CREEK.

(Also see page 201.)

Situated about midway between Spence's Bridge and Savona's ferry and about five miles from a station on the Canadian Pacific railway, has for many years been a place of local importance, forming a rendezvous for the stock men, teamsters and farmers of the surrounding country, and being the seat of the Provincial boarding school, also containing an hotel, stores, postoffice, telegraph office, blacksmith shop, etc. There is a large and complete grist mill in the neighborhood. The country is remarkable for its salubrious climate and its pastoral and farming resources.

 Stuart Jas., farmer.

SAVONA FERRY

Is 22 miles from Cache Creek and 30 miles from Kamloops, and has within the past six months grown from a small settlement into a thriving and busy little town. The volume of business is daily growing larger, owing to the many sub-contracts on the railway, and, jointly with the usual Indian and Chinese trade, bids fair to become a place of constant activity.

Three steamers ply on Lake Kamloops, into the Shuswap Lake and on to Eagle Pass, carrying the supplies to the works on the Kootenaie wagon road, and to the several landings convenient for settlers in the interior.

At Savona proper Mr. John Jane has the largest store as well as the best selected stock, and enjoys a large volume of business. Mr. Uriah Nelson has a general store. Messrs. Coursier & Johnston have established themselves in the stationery and clothing line, &c. Mr. W. Megan does a good business in dry goods and groceries, the stock in charge of Mr. Lyne. Mr. Geo. Roberts is the town barber, and has in addition a saddler's shop and a stock of cigars, pipes, &c. Messrs. O'Hara & Simpson carry a large stock of drugs and medicines and enjoy a thriving business.

There are three hotels, the Lake View, by Messrs. Ferguson & Newland, and the Savona, by James Uren. The Central is owned by Abraham Thomas. There is also an express and a telegraph office.

KAMLOOPS.

Kamloops presents quite an imposing and enterprising appearance. It is located on the Canadian Pacific Railway, and has increased more than any station along the railway in British Columbia during the past year, possessing a number of business houses, good hotel accommodations, extensive milling establishments, and splendid farms throughout the surrounding country. It is connected by a wagon road with the Nicola settlement, which is known to be one of the best agricultural sections on the mainland.

The *Inland Sentinel*, Michael Hagan proprietor, formerly published in Yale, is now a weekly publication in Kamloops, fast gaining a large circulation.

During the last year a large number of buildings were erected, and all branches of business are now carried on in a more extensive way, and it may well be said that Kamloops bids fair to become one of the most influential towns of the mainland interior.

TRY HENLEY'S **CELERY, BEEF AND IRON**

NICOLA.

The settled portion of this valley is 50 miles in length and 40 miles in width. It is centrally situated, being distant from Kamloops 60 miles, Spence's Bridge 50 miles, Fort Hope 80 miles, Osoyoos custom house, southern boundary line, 60 miles. It is generally reached via Spence's Bridge or Kamloops.

In 1868 the first settler located in Nicola Valley. The climate and soil are admirably adapted to the growth of all cereals, whilst all kinds of small fruits yield enormously, and every day improved lands are becoming more valuable.

There are a number of general stores, hotels, flour mills, saw mills, &c., in this valley; and the settlers are perfectly satisfied with their lot in life.

OKANAGAN AND SPALLUMCHEEN COUNTRY.

The Spallumcheen settlement has very much improved in the past two years. A large number of first class settlers have been added to the settlement, which at present is one of the most flourishing on the mainland of British Columbia. Large quantities of new machinery are constantly coming in, some for new settlers, and some to replace that which is wearing out.

Okanagan and Spallumcheen have produced about 2,000 tons of grain in 1884, as against about 800 tons in 1882. The cattle business is as flourishing as ever. At the same time the ranges are becoming more and more confined, as the web of settlement encloses them around. The very fact of more settlers coming in forces the stockmen to cultivate and fence in more land every year; all tending to the general improvement that is so marked in this favored portion of British Columbia.

Thousands of acres of good land along the Okanagan Lake, that might with the assistance of artesian wells and a little capital be made to produce their thousands of bushels annually, still lie idle; but this cannot be for long under the present healthy circumstances.

The lack of hotels and places of accommodation for travelers is rather a drawback to this part of B. C. Hundreds would come through this noted portion of the province, to see its beauties and trap its game, could they but get hotel accommodation.

SIMILKAMEEN DIRECTORY.

211

SIMILKAMEEN.

This valley extends 70 miles in a north-easterly direction from the 49th parallel, through which the Similkameen River takes its course—along which gold has been discovered. Stock raising is the principal business in this valley at present. The climate is dry, with moderate cold in winter. Goods are generally packed from Fort Hope.

KOOTENAY DISTRICT.

This district is fast springing into life and is sure to become an important section. The shortest route to Kootenay is via Portland and N. P. R. R. to Sand Point; thence by trail to the Old Camp, a place built by miners in the early days. New mining discoveries are made every year. Last season several mining claims changed hands at from five to six thousand dollars a claim, and 12 miles from the Old Camp there was taken out of Bull River nine hundred dollars.

During the last two years a small settlement sprang up in the vicinity of Columbia Lake, where the trail from Kicking Horse pass goes through.

Among the new discoveries made last year are the Tunnel Mountain quartz mines. The Big Bend country, which is long known to miners, lies east of the Mountain quartz mines, and the general belief is that when the C. P. R. comes through that country there will be a revival of a mining boom in the Big Bend section. The district possesses the Great Kootenay Lake, which is 90 miles in length.

In conclusion, should sufficient capital be invested in mining operations in Kootenay District, it will no doubt become a wealthy and important section of the province.

LILLOOET.

The town of Lillooet is situated on the right bank of the Fraser River. Its altitude is 650 feet above the sea. The town consists chiefly of one broad street, having stores belonging to whites and Chinese intermingled.

The agricultural land in this section is exceedingly rich, and railway work has caused stock and other produce to command a high price so that farmers prosper.

New discoveries of gold are constantly made, and the Bridge River mines are paying fair wages in spring and autumn when the water is low. There are also many acres of unoccupied land adapted to cattle in this vicinity, which offers an inducement and would yield large profits to enterprising men in a short time. The Indians who number 400 in this neighborhood are engaged in agricultural pursuits and are happy and contented.

E. G. PRIOR, Government Street, Victoria.

CARIBOO DISTRICT,

Situated in the north-east part of the province, is noted for its gold fields and the richness of its placer mines. It is estimated that since the development of Cariboo in 1861 over \$50,000,000 in gold dust has been taken out in this locality. The production of gold for the past three or four years has been between \$450,000 and \$750,000 annually. The Cariboo mining region proper extends from Horse Fly River, near the southern line of the District, for some 150 miles northward; and eastward for a distance of 75 miles; withal it may be asserted that, extensive as the district is, and encouraging as the fact has been, a wide tract remains still only partially known, or, as it is locally termed, "prospected." Hydraulic mining has only of late attracted attention among Cariboo miners.

CLIMATE, AGRICULTURE, &c., &c.—The agricultural portion of Cariboo District may be said to commence at the southern boundary, and extend to the mountains. Williams Lake, at an elevation of 2,135 feet above the sea, is one of the prettiest places in the province. Soda Creek is 1,690 feet, and Alexandria 1,420 feet, at which there are several extensive and productive farms, some of the finest in the country. There are two flour mills in this part of the country.

SODA CREEK,

On Fraser River, 53 miles below Quesnel, has two hotels and stores, a telegraph office, and post office. During the summer a river steamer plies between this place and Quesnel, thus facilitating the journey to the mines, and the transport of provisions.

QUESNEL.

1,490 feet above the sea, at the confluence of the Fraser and Quesnel Rivers, is this beautifully situated town of about one hundred inhabitants; it has two hotels, four merchant and trader's stores, three Chinese stores, two saloons, two butcher shops, two blacksmith shops, one Chinese baker's shop, and a school. Here furs are collected from a vast surrounding district by the Hudson's Bay Company, this being a central depot.

BARKERVILLE.

The town of Barkerville is situated on Williams Creek, at the terminus of the Cariboo wagon road. It has a population of about 250. Good hotels, a number of general merchandise stores, post and telegraph office, a government assay office, and a very efficient fire brigade. Richfield is one mile south of Barkerville, where the court house and government offices are located.

CASSIAR DISTRICT.

The District of Cassiar is situated along the north-western boundaries of the province. The population is about 400. Attention was first drawn to Cassiar by the discovery of gold on Thibert Creek in 1873. The principal streams on which mining has been prosecuted profitably are the Dease, Thibert, McDame and Walker Creeks. The district has produced over \$5,000,000 in gold.

The features of the district are mountainous, being of little use for agricultural purposes. Its rivers and lakes teem with fish, and its forests abound with game. There is not the least doubt that remunerative gold deposits are waiting to be developed, and a mining population will be found in this country for many years to come.

NORTHERN COAST, NORTHERN INTERIOR AND WEST COAST OF VANCOUVER ISLAND.

METLAKAHTLA

Is situated some twenty miles from Fort Simpson, and is purely an Indian settlement with a population of about 800. The industries prosecuted here are a saw mill, a barrel factory, a salmon cannery, blacksmiths' work, and other mechanical arts.

SKEENA RIVER

Is situated fifteen miles south of Metlakahtla, and is the second largest river in British Columbia. The river is navigable for a distance with steamers of moderate draught and with canoes to the head of the Babine lake.

The Skeena is a prolific salmon stream, and fish of the finest quality are procured here.

FORT SIMPSON.

This fort is situated on the north-west end of the Simpshean peninsula, separated from the south end of Alaska by the Portland Inlet.

The town is situated on a sloping hill-side, and has a population of 800 Indians, who are chiefly engaged in the fishing and fur trade business.

BRITISH COLUMBIA DIRECTORY.

The village has a fire brigade, a brass band, a rifle company, and is governed by an Indian council.

Kit-a-maat, about 100 miles down the coast, is an Indian village, and has a population of 350.

QUEEN CHARLOTTE ISLANDS.

The general character of these islands is mountainous and heavily timbered. The extreme length is about 170 geographical miles, their extreme width about 100 miles. The mining resources of these islands are undoubtedly very extensive.

The only industry established here is the Skidegate Oil Company, which enterprise is confined to the manufacture of oil from a small species of shark commonly known as the dog-fish.

The chief trading places on the islands are at Massett and Skidegate Inlet. The chief item in trade is fur seals, in which about \$10,000 of trade is annually done.

The Hydah Indians of these islands are famous for their skill for carving in wood, silver or slate, and their crest poles adorn every village. They are beyond doubt the best canoe makers on the coast.

NAAS RIVER AND DISTRICT.

Naas River ranks third in size of British Columbia rivers, and waters the country north of the Skeena. On the right bank, close to the mouth, is the mission village of Kincolith, population about 225. The Indians own and work a saw mill. One mile above Kincolith is a steam saw mill, owned by the Naas River Fishing Co.

Several well equipped canneries are located along the Naas River, and thousands of Indians are engaged in fishing during the salmon and oolichan run.

The Methodist mission is in charge of Rev. A. E. Green, and the school is in Miss Green's charge, where Indians are taught the habits of civilized life.

The winters are very severe, the thermometer falling from 40 deg. to 50 deg. below zero for weeks in succession. Gold is found in small quantities, and also croppings of coal. When properly prospected no doubt much wealth will be discovered.

ALBERNI (BARCLAY SOUND).

The settlement of Alberni is situated on the west coast of Vancouver Island, distant from Victoria (by water) 136 miles. The district can also be reached via Nanaimo. It is clearly apparent that Alberni District will become a place of much importance as a farming district. Quite a number of settlers have taken up land during the last year, and all are well satisfied. A company has started a salmon fishery at Alberni of late.

FORT RUPERT.

This post is situated near the northern extremity of Vancouver Island, and was established by the Hudson Bay Company for a trading post.

ALERT BAY

Is situated about twenty miles south of Fort Rupert, on Cormorant Island, and is a convenient stopping place for vessels on their way to and from the northern ports of British Columbia and Alaska Territory.

BELLA BELLA

Is distant from Victoria about 400 miles, and is an Indian village with a population of about 250.

Victoria, B. C.

NORTHWEST COAST DIRECTORY.

229

O-WEE-KAY-NO

Is situated at the head of Rivers Inlet, where the well known canning establishment of Shotbolt, Hart & Co., is located. The Indians in this neighborhood number about 150, and speak the Bella Bella Indian language.

SMITH'S INLET.

A good sized stream empties into this inlet, up which the salmon run in large numbers, and several canneries have been established in this neighborhood since the issue of the last Directory.

BELLA COOLA

Is situated at the head of Burke Channel, and was formerly the landing place for Cariboo miners. The Indians are quite numerous, and the country abounds with fur-bearing animals.

NORTHERN COAST, NORTHERN INTERIOR AND WEST COAST VANCOUVER ISLAND DIRECTORY.

Alexander George, head fisherman, Aberdeen.

A FEW NOTES ON THE PROVINCE

—BY—

GILBERT MALCOLM SPROAT.

Author of "Select odes of Horace in English Lyrics" "Scenes and Studies of Savage Life," "Education of the Rural Poor in England," "On the Poetry of Sir Walter Scott," &c. Winner of the First Prize Essay, (\$1,000) on the "British Opium Policy in India and China," formerly Agent General for this Province in England, and Indian Reserve Commissioner in British Columbia.

Dates of some Notable Facts in the history of the North Western part of North America.

1774. Capt. Perez landed on Queen Charlotte Island, and, some think, discovered Nootka Sound.
1775. Capt. Bruno Heeceta, accompanied by Capt. Quadra, discovered the Columbia river estuary.
1778. Capt. Cook noticed Cape Flattery without discovering the Straits, entered Nootka Sound, and explored the coast, chiefly from 44° northward.
1787. Capt. Berkeley (not Barclay) under the Austrian flag, re-discovered the Straits that had been found, in 1592, by Juan de Fuca, a Greek in the service of Spain. Captain Berkeley's name is perpetuated in that of Barclay Sound.
1792. Capt. Robert Gray re-discovered and entered the Columbia river, and named it after his ship, the "Columbia," of Boston. The Spanish had named the river the "St. Roe."
- 1792-94. The surveys of Captain George Vancouver, of the Royal Navy, established the fact that Vancouver is an Island.
1793. Alexander Mackenzie, of the North West Company, (afterwards Sir Alexander), discovered the Upper Fraser, and, the first of any white men, on that line of latitude, reached the Pacific from the Rocky Mountains.
1795. Commandant Quadra, of the Spanish navy, withdrew the Spanish establishment at Nootka Sound.

The publisher takes leave to announce that he contemplates arranging for the preparation and publication of a popular illustrated History of the Province, and will be greatly obliged to any one who may send to him suggestions, notes, memoranda, memoirs, or authentic information on any subject, or as to any locality, in British Columbia.

- 1804-06. Overland expedition of Lewis and Clark. They wintered at mouth of Columbia river in 1805.
1806. The North West Company established, at Fraser's Lake, their first trading post, west of the Rocky Mountains.
1806. Messrs. Fraser and Stuart, the first of any white men, descended Fraser river to its mouth.
1811. Astoria established.
1811. Mr. Thompson, of the North West Company, the first of any white men, descended the Columbia from its head waters in Kootenay, to its mouth, and, on returning, established the trading post of Fort Okanagan. Thompson river is named after him.
1812. War between Great Britain and the United States.
1813. Astoria captured by H. M. S. "Raccoon."
1818. Treaty of Peace of Ghent, following the war of 1812 between Great Britain and the United States. Astoria restored to the United States.
1821. Coalition of the North West Company and the Hudson's Bay Company.
- 1824-44. Negotiations between Great Britain and the United States respecting the "Oregon" territory.
1838. Twenty-one years trading license granted to the Hudson's Bay Company of all British North America, outside of established provinces.
1843. Fort Victoria, in Vancouver Island, established by the Hudson's Bay Company.
1846. Oregon Boundary Treaty.
1849. Colonizing grant of Vancouver Island to the Hudson's Bay Company, terminable with their trading license of 1838.
1858. Gold discovered on the mainland. Hudson's Bay Company's Trading License revoked. Vancouver Island re-acquired by the Crown.
1866. British Columbia (the mainland colony) and Vancouver Island colony united, as one colony, under the name of British Columbia.
1871. The colony joined Canada as a province.

Boundaries.—The boundaries of the province, subject to questions respecting the delimitation of the Alaska and eastern boundaries, are as follows:—On the north, the parallel of 60°; on the west, Alaska and the Pacific Ocean; on the south, the parallel of 49° (U. S. boundary); and on the east, the Rocky Mountains and the Meridian 120°. Vancouver Island is wholly within the province, though extending southerly beyond the 49th parallel.

Former Divisions of the Country.—Captain Vancouver called coast generally "New Georgia." North West Company gave name of "New Caledonia" to northern interior of mainland. Van-

couver Island, in 1849, was granted, under terminable colonizing grant, to Hudson's Bay Company—re-acquired by Home Government. Mainland made separate colony, 1858. The two united in 1866, and became province of Canada, 20th July, 1871.

Structure of Province.—Northern half, above transverse Pacific—Arctic watershed, (about 55th parallel), lies on Arctic slope, rich in minerals, but description, at present, would have only geographical interest. Southern half more peopled, traversed by Canadian Pacific Railway: includes, properly, Rocky Mountains. West of these is a mountain district which, coming from U. S., runs up interior to about 55th parallel. Lying between that mountain district and Coast mountains, is a high irregular plateau. Coast range comes close down to seashore, leaving large low area only at mouth of the Fraser. Cascade Mountains, of Oregon, run into south-west angle of province and disappear about 150 miles up river Fraser, on its east side.

Surface of the Province.—Above mentioned mountain ranges are aggregations of smaller ranges with similar direction, generally, to trend of continental coast, 30 to 50 miles wide, average height 5,000 to 8,000 feet, some higher. Intervening "plateau," diversified with hills rising up to 3,000 feet above sea level. Many large and small lakes, generally long in proportion to width, valleys of mountain districts deep, narrow and sombre: in the "plateau" district bounded by terraces, kolls and slopes, rising to lightly timbered, grassy, cheerful uplands and hills. The Fraser river, alone, crosses to the Pacific from Rocky Mountains with a course of 740 miles. The Columbia rises in Kootenay District, bends southerly and flows 440 miles through the Province into the U. S. The Arctic slope rivers flow east into the Mackenzie. Coast Range rivers flow westerly or south-westerly into the Pacific. As a rule the rivers, except in lake-like expansions, are much broken for navigation, but the Fraser has navigable stretches up to 100 miles, and the Columbia for more than double that distance. Coast well protected by Vancouver and Queen Charlotte Islands (which, in fact, are above-water portions of a half submerged mountain range), and cut by innumerable long inlets, indentations, bays, harbors and coves.

Subdivisions of the Southern Portion of the Province.—Four principal zones or sub-divisions in above mentioned southern half of the Province, including Vancouver Island.

Kootenay District.—The traveller coming from the East by Canadian Pacific Railway, reaches, first, Kootenay District, which lies between the Rocky Mountains and Eagle Pass—mineral and forest region, mostly enclosed within "Big Bend" of Columbia River. Promising gold mines and silver bearing galena mines—will be scene of great saw-milling industries, for export easterly and southerly. A long, pretty bunch-grass valley west Rocky Moun-

tains—old established gold mines of Wild Horse Creek in the valley, also silver bearing galena mines. Half-way down valley is settlement of Windermere at headwaters of Columbia—silver mining at Kootenay Lake, the chief industry in south of district. On westerly leg of Columbia chief place is Farwell, opposite Eagle Pass. From that point the Columbia is navigable into United States, steamboats already running. A railway is projected from Farwell to boundary. Farwell, it is thought, will be a great saw-milling, mining, manufacturing and trade centre—location commanding—fine water power. Men of great energy and ample capital have taken hold of Kootenay, now that the district is opened by the Canadian Pacific Railway.

Yale District.—The short avenue from Farwell through Eagle Pass brings the traveller by the C. P. Railway into Yale District—extensive, hilly, bunch-grass plateau between eastern and western mountain districts already mentioned. Yale, distinctively, stock-raising zone, but arable lands very fertile under irrigation. Fruit thrives well. The district contains coal, (anthracite, bituminous and lignite) as well as gold diggings and silver mines—the surface a combination of long, narrow, river valleys, with terraces, knolls, slopes, and eminences rising in parts to hills of considerable altitude—undulating surfaces and rolling lightly timbered grassy hills, crossing and re-crossing, very picturesque—numerous lakes and ponds—red pine trees scattered on the hills, not valuable, compared with the Douglas fir and other trees of Kootenay and Pacific coast districts. Yale District, nearly as large as Scotland—railway projected from the gold mining and anthracite Similkameen region to some point on the C. P. Railway. Near Cache Creek, Cariboo wagon road connects with the C. P. R. This road, after leaving Clinton, passes in its northward course, over elevated portion of country, as far as Soda Creek on the Fraser, mostly covered with forest, but with very good land scattered through it. From Lytton, wagon road is about to be made to Lillooet, which district, in the valley of the Fraser, with its bunch-grass benches and rolling hills, much resembles Yale District—the rough Bridge River region, north-west from Lillooet, is a promising gold region.

New Westminster District.—From Lytton down to Yale the traveller passes from interior through mountains to Coast District—river scenery very fine. At Yale, Lower Fraser Coast District entered, a district in length 75 miles; in breadth 10 to 15 miles, traversed longitudinally by navigable river, railway and wagon road, crossed by country roads and trails—surface low, except a few ridges. Towards sea-shore, and in some other parts, open, but in general, well timbered—alluvial soil wonderfully fertile—natural hay and grasses good for stock, particularly for dairy cows. Silver lodes in neighborhood of Hope—lumbering and sal-

mon canning industries very large—district has a numerous, thriving agricultural population. New Westminster with about 3,000 inhabitants is chief city—river well supplied with steamboats—short railway to connect New Westminster with the C. P. R. terminus at Burrard Inlet—another line will be made soon to United States boundary.

Vancouver Island may be classed with New Westminster District as part of Coast region of Province, though it has not same extent of alluvial soil—a hilly island, in some parts, mountainous—south-eastern and most part of eastern coasts characterized by hills up to 1,000 feet, rising from comparatively low rolling land, which, in places, extends back about ten miles from the shore—many lakes and streams, but no navigable rivers—harbors, coves, nooks and outlying inlets, common on coast everywhere—surface is wooded, (chiefly cone-bearing trees), except on some alluvial flats, and on fern openings, or on little parks, dotted with oaks, (found nowhere else in the Province)—soil varies, but proved to be exceedingly fertile—**island settling up fast.** **Victoria**, 12,000 inhabitants, capital of the Province, is chief city. **Nanaimo**, on east coast, well placed, thriving city—railway to connect these two cities being made, and will doubtless be extended, soon, beyond Comox, where there are fine land, and also rich coal deposits—steam ferry will connect Island line with Burrard Inlet.

Queen Charlotte Islands.—Over 150 islands and islets, 156 miles from south to north, varying breadth up to 50 miles—mountains rising in parts up to 5,000 to 6,000 feet, along western side—hills roll easterly across islands, with diminishing elevation, leaving only small areas of low land on the east coast—natural resources resemble those of Vancouver Island, but agricultural area less, soil inferior, climate moister, and no Douglas fir. Gold, anthracite coal, halibut and other fish. Were these industries developed, probably small farms might be cultivated in parts—grazing land, comparatively, limited—surface, in general, densely wooded and obstructed by fallen trees.

Resources of Province Generally.—Coal, gold, silver and iron, (already established industries), copper and other minerals waiting development. Lumber export business from coast already large. Kootenay district will soon export lumber eastward by Canadian Pacific Railway. Fisheries a great source of wealth to Province—average annual value of canned salmon, alone, already exceeds a million dollars—fur exports important. Fruit growing, in time, a great industry. Every year adds largely to number of agricultural and stock-raising population. The most valuable tree (only one, indeed, exported from coast in cargoes), is Douglas spruce, (Douglas fir, Douglas pine, or commercially called Oregon pine)—occurs very sparingly on coast north of Vancouver Island—excellent for spars, timber, and

lumber, but many other trees may be merchantable, by and by. Coniferous trees are reproduced in Kootenay District, with notable addition of tamarac (or western larch). Exports easterly from Kootenay by railway will include various kinds of wood which it does not, at present, pay to export, in cargoes, from coast. Table and oil fishes almost too numerous to mention—can be procured in any quantity, salmon, halibut, herring, cod, smelts, oolachans, sturgeon, etc. All fruits of best parts of England and Western Europe ripen well along C. P. Railway line in British Columbia and in Vancouver Island. Cattle, horses, sheep, and farm animals, generally, thrive in all parts of Province. No large surplus of these, at present, for export, but fine horses and more wool should be exported.

Manufactures.—Increased of late flour mills, biscuit factories, foundries, iron and brass works, boiler and machine shops, boat-builders, sawmills, sash and door, furniture, piano, boot and shoe, glove, bookbinding, soap, match, cigar, candy, brush, brick and dram-pipe factories, with breweries and other industries, but more attention demanded by suitability of Province for manufacturing on scale permitting of export. Province ends at Rocky Mountains only politically. People must manufacture, and seize markets east of Rocky Mountains. Victoria and Nanaimo on Vancouver Island; New Westminster District and Farwell on Columbia River, particularly the latter, may be manufacturing centres.

Existing Trade already deserves particular attention—per head value exports more than three times highest per head value of exports from other provinces of Canada, and exceeds that of adjacent American territories. Opening of Canadian Pacific Railway during 1885, will tend to increase these exports, notably by opening the new galena, silver and lumber district of Kootenay, and by creating fresh markets for fish, lumber, fruit and other articles from older districts of Province.

Position on the Globe.—Geographical position very important—juts out from North-West America as Great Britain juts out from Europe—comparatively favorable distances across ocean to Japan, China and Australia, direction of trade winds, open harbors, stores of coal, immense fertile region through which Canadian Pacific Railway reaches seaboard of British Columbia—linking Pacific Ocean to system of St. Lawrence navigation on eastern side of the American Continent—are facts extremely favorable to the growth of a widely extended commerce. Opening of Panama Canal, also, will have a marked influence, commercially, on future of North-West of America.

Comparative Exports, 1884.—Total exports from Canadian provinces for year ending 30th June, 1884: Ontario, \$24,517,512; Quebec, \$39,519,012; Nova Scotia, \$9,599,006; New

Brunswick, \$7,753,072; Manitoba, \$722,730; British Columbia, \$3,099,814; P. E. Island, \$1,310,039. Total, \$86,521,175.

Comparative Imports and Duties, 1884.—Ontario, \$40,332,245; duty, \$6,977,340.77; Quebec, \$43,026,172; duty, \$8,127,920.84; Nova Scotia, \$9,183,346; duty, \$1,907,174.54; New Brunswick, \$6,513,924; duty, \$1,354,886.42; Manitoba, \$3,768,857; duty, \$664,037.61; British Columbia, \$4,040,335; duty, \$884,076.21; P. E. Island, \$829,032; duty, \$170,863.40; N. W. Territories, \$486,739; duty, \$70,148.16.

Chief Items of Export, 1884.—British Columbia exported to Great Britain goods \$878,883; United States, \$1,691,767; Peru, \$62,413; Chili, \$75,044; British Africa, \$10,667; British East Indies, \$10,468; China, \$59,501; Australia, \$257,262; Sandwich Islands, \$29,172. In 1884, there were sent to United States 212,000 tons of coal, (since greatly increased) value, \$741,675; Sandwich Islands, 6,955 tons, \$24,343. Gold to United States, \$671,379. Iron to United States, 1,830 tons, value, \$3,660. Canned Salmon to Great Britain, 6,193,968 lbs., value, \$680,758; to Australia, 226,800 lbs., \$23,493; to the U. S., 903,216 lbs., \$94,100; a total for canned salmon of \$798,351. Pickled salmon, to United States, 639 bbls., \$5,430; Australia, 677 bbls., \$5,982. Fish oil to United States, 37,168 galls, value, \$14,080. Lumber to Australia, \$18,190; China, \$51,218; Great Britain, \$4,578; United States, \$1,956; Peru, \$62,413; Chili, \$75,044; Australia, \$209,104; British Africa, \$10,559; to B. E. Islands, \$10,268; masts and spars to Great Britain, \$13,161; making a total of about \$500,000. Undressed furs, \$106,498 to Great Britain; to United States, \$102,665; to China, \$8,283. Raw hides to United States, \$47,665. Beef, pork, tallow, wool and hops also were exported.

Chief Items of Imports.—Dutiable goods, \$3,445,409; free goods, \$696,877; total, \$4,142,286. Entered for consumption, \$3,337,642. Duty paid, \$884,076. Of the above Great Britain sent \$1,296,558; United States, \$2,307,612; France, \$10,606; Germany, \$7,143; Holland, \$6,280; China, \$400,693; Japan, \$1,286.

Railways and Public Works.—The Canadian Pacific Railway, (Callender to Port Moody, 2,550 miles, of which rails laid on 2,070 miles) will be completed during the present year through from the East to Port Moody, at the head of Burrard's Inlet. Trains run now, thence, 213 miles eastward to Savona—fare, \$17—meals on the way 50 cents each. The uncompleted portion between Savona and the first crossing of the Columbia is under contract and partly finished. A railway is projected from the United States boundary up the Columbia valley to Farwell, at second crossing of Columbia river, and another from Similkameen to some point on the main C. P. R. line. In 1886, the C. P. railway will be extended for about 20 miles from Port Moody, along Burrard's Inlet, to the

terminus at English Bay, and a branch will connect the terminus with New Westminster city, from which place, or its neighborhood, it, also, is proposed to make a line to the United States boundary. A steam ferry from Burrard's Inlet will connect the C. P. R. with the Nanaimo and Esquimalt railway on Vancouver Island, of which about 40 miles of the total length of 70 miles, are under contract. This latter line has to be finished before the 10th June, 1887. It will, probably, be soon afterwards extended from Nanaimo to Comox.

A contract for completing the Naval Dry Dock at Esquimalt has been let to Messrs. Larkin, Connolly & Co., by the Dominion Government, which has undertaken to complete it, with the aid of a subsidy of £50,000 from the Home Government. This dock, originally, was to be 400 ft. long by 90 feet broad, but will be lengthened to accommodate the largest ironclads and commercial steamers. Defensive works will be constructed by the Home Government at Esquimalt harbor. The Dominion Government has obtained a vote for barracks at Victoria. Quarantine buildings, lately, have been erected at Albert Head. Dredging operations continue in the harbor of Victoria under the experienced direction of Capt. Robert Dexter—harbor, already, wonderfully improved—deepened, in parts from original depth of 12 feet to 20 feet—spit partly removed and deepened about 6 feet. Among other notable works, now in progress, is the dyking and draining scheme on the Lorne estate, which comprises the greater part of the rich arable Township 4, Group 2, New Westminster District. The Drainage Company have arranged to purchase 6,680 acres from the Government. Mr. Edward Mohun, C. E., an experienced engineer, is in charge of the works.

Climate.—Fineness so well known, that it is unnecessary to say much about it—is more temperate than the climate of any part of Canada lying east of Rocky Mountains—coastal district climate—say in New Westminster district and Vancouver Island—much like that of South of England. Between Coast Range and Rocky Mountains, namely, in Yale and Kootenay Districts (except in particular localities) climate characterized by greatly less rainfall and more snow than on coast—the winter also colder, but extreme coldness seldom lasts long, and winters last for only about four months. In northern part of interior of mainland, climate may be described as mildly Canadian.

Land Laws.—Very liberal—a pre-emptor may take up 160 acres in Coast district or 320 acres in interior, under easy conditions of occupation, at \$1 per acre, payable in four instalments, first on 2 years, and last only after survey. The price of unsurveyed lands, when bought, instead of being pre-empted, is \$2.50 per acre—10 per cent. down and balance on survey. The quantity must not be less than 160 acres and not more than 640 acres. The

farm and buildings, (\$2,500), also goods and chattels, (\$500), may be registered against debts incurred after registration.

The surface rights of railway land grant on Vancouver Island may be acquired by actual settlers, for agricultural purposes, on the above pre-emption terms, during 4 years from 19th Dec., 1883.

The 40 mile belt along Canadian Pacific Railway is entrusted to Canadian Government, whose agent in province, the Hon. J. W. Trutch, manages it under Dominion Lands Act.

Mineral Laws liberal. All miners or miners' workmen must have free miner's certificate, \$5.00 annually. Ordinary mining claims must be staked and recorded, and transfers of interest in writing. Claims unworked for 72 hours, unless for sickness or other good reason, are deemed open. Mineral and quartz claims also must be staked, recorded and advertised. A Crown grant can be got after expenditure of \$1,000, in money or labor, or may be got by paying \$50 an acre to Government in lieu of representation and expenditure. "Representation" requires spending of \$200 annually in money, labor or improvements. Coal prospecting licenses for a year, for 480 acres in one block, are obtainable for \$25, and may be renewed for another year.

Provincial Taxes and Interest of Money.—Annual personal tax of \$3 per head, and on personal property, (including property within Municipalities), $\frac{1}{4}$ of 1 per cent. On real property, outside Municipalities, $\frac{1}{2}$ of 1 per cent, and 5 cents per acre on wild unoccupied lands. Range of rates of interest on good mortgage, 8 to 10 per cent.

General Advantages.—The excellent administration of justice in Province, free public schools, numerous churches, Municipal system, free popular government, too well known to require any detailed description. All immigrants welcome, except Chinese. Indians orderly, and inclined, in many parts of the country, to be industrious, though Canadian management of them perfunctory.

Wages.—The supply of labor after the completion, this year, of the main C. P. R. line, will probably be sufficient. (Chinamen are prohibited from employment on the extension from Port Moody to English Bay). The following are the average wages in the Province at present, as they have appeared in official reports, or have been furnished on inquiries made lately:—**COLLIERIES**—Carpenters and blacksmiths, \$3 to \$3.75 per day; Laborers, \$2 to \$2.50; Miners' earnings (contract work), \$3 to \$4. **FISHERIES**—Fishermen, \$50 to \$60 per month. **OTHER INDUSTRIES**—Stonecutters, stonemasons and bricklayers, \$4 to \$5 per day; their laborers, \$2 to \$2.50; Plasterers, \$4 to \$4.50; Carpenters and joiners, \$3 to \$4; Ship carpenters and caulkers, \$4 to \$4.50; Cabinet makers and upholsterers, \$3; Painters, \$3.50 to \$4; Shoemakers, \$2 to \$3; Tailors, \$2.50 to \$3; Tailoresses, \$1 to \$1.50; Bakers (with board and

lodging), \$65 per month; Butchers (cutters) \$75 to \$100; Slaught-
 erers, \$75; Cigarmakers, \$2.50 to \$4 per day; Boys, as strippers,
 etc., from \$2 to \$5 per week; Printers, 45 and 50 cents per 1,000
 ems; Wagon-makers, \$3.50 to \$4 per day; Tinsmiths, plumbers
 and gasfitters, \$3.50 to \$4; Machinists, moulders, pattern and
 boiler-makers and blacksmiths, \$4 to \$4.50; Longshoremen, 50 cts.
 an hour; Wood-turners, \$3 per day; Farm servants, by the month,
 \$20 to \$40, according to skill; Cutting cordwood, \$1 to \$1.25 per
 cord; Women servants, \$10 to \$20 per month, with board, accord-
 ing to work and skill.

The wages paid by Railway Contractors for white labor are
 about, as follows:—Rock Foreman, \$3 to \$4 per day; Earth fore-
 man, \$2.50 to \$3; Bridge foreman, \$3.50 to \$4; Bridge carpenters,
 \$3; Blacksmiths, 1st class, \$3.50; Drillers, \$2 to \$2.25; Laborers,
 \$1.75 to \$2; Hewers, \$3; Choppers, \$1.75 to \$2. Outside labor
 ten hours. Carpenters furnish their own chest tools. Employees
 find bed, board and lodging. Boarding houses convenient—\$4.50 \bar{u}
 week—not compulsory to board in company's houses. Wages paid
 monthly.

Victoria Family Market Prices.—Saturday Morning, Feb-
 ruary 14th, 1885:—

BUTTER—Choice Island, 50c. \bar{u} lb; Island Roll, 75c.; New
 Grass, Cal., 87½c. \bar{u} roll; White Clover, 55c.

CHEESE—Canadian, 30c. \bar{u} lb; Cala., 25c.; Eastern Cream, 30c.;
 B. C., 25c.

EGGS—Fresh Island, 37½c. \bar{u} doz.; Sound, 25c.

CORNMEAL—50c. \bar{u} sack of 10 lbs.

OATMEAL—62½c. \bar{u} sack of 10 lbs.

FLOUR—Extra, \$5.50 \bar{u} brl.; \$1.50 \bar{u} sack; Super., \$5 \bar{u} brl.

WHEAT—2c. \bar{u} lb.

BEANS—Lima, 8c. \bar{u} lb; Small White and Bayou, 6c.

SPLIT PEAS—12½c. \bar{u} lb.

VEGETABLES—Potatoes, 1¼c.; Onions, 5c. \bar{u} lb; Celery, 50c. \bar{u}
 doz.; Carrots, 2c. \bar{u} lb; Lettuce, 50c. \bar{u} doz.; Cauliflower, \$1.50 \bar{u}
 doz.; Asparagus, 20c. \bar{u} lb; Radishes, 50c. \bar{u} doz. bunches; Squash,
 3c. \bar{u} lb; Turnips, 1½c. \bar{u} lb; Cabbage, 2½c. \bar{u} lb; Tomatoes, 25c.
 \bar{u} lb; Chili Pepper, 25c. \bar{u} lb; Vegetable Marrows, 3c. \bar{u} lb.

HAMS—Home Cured, 25c. \bar{u} lb; Chicago, 25c.; Oregon, 25c.;
 Shoulders, 18c.

BACON—Breakfast, 22c. \bar{u} lb.

LARD—25c. \bar{u} lb

FISH—Cod, 6c. \bar{u} lb; Salmon, 6c.; Boneless Cod, 10c.; Soles,
 6c.; Halibut, 8c.; Yarmouth's Bloaters, 25c. \bar{u} doz.; Sal. Bellies, 3
 for 50c.; Herring, 3c.; Flounder, 6c.; Smoked Oolachans and Sal-
 mon, 25c.; Smelt, 8c.; Sturgeon, 6c.; Whiting, 7c.; Shrimp, 50c.;

Salt Oolachans, 6c. : Crabs, 75c. $\frac{7}{8}$ doz. : Smoked Herring, 12½c $\frac{7}{8}$ lb. : Salmon Trout, 8c. Oolachans, 8c. $\frac{7}{8}$ lb.

CANNED SALMON—1 lb tins, $\frac{7}{8}$ doz., \$2.

FRUIT—Lemons, 37½@ 50c. $\frac{7}{8}$ doz. : Oranges, 37½@ 50c. $\frac{7}{8}$ doz. : Limes, 40c. $\frac{7}{8}$ doz. : Apples, 5c. $\frac{7}{8}$ lb. : Cranberries, 75c. $\frac{7}{8}$ gal. : Bananas, 75c. $\frac{7}{8}$ doz. : Cocoanuts, 12½c. each : Pineapples, 75c. each.

CANDIED FRUIT—Lemon, 50c. $\frac{7}{8}$ lb. : Mixed, 50c.

CURRENTS—Zante, 15@ 16c. $\frac{7}{8}$ lb.

RAISINS—English Layers, 50c. $\frac{7}{8}$ lb. : Cala., 25c. : Sultana, Valencia and Eleme, 25c.

FIGS—New, 37½@ 50c. $\frac{7}{8}$ lb.

MIXED SPICES—25c. $\frac{7}{8}$ tin.

STARCH—\$1 $\frac{7}{8}$ 6 lb box.

TEA AND COFFEE—Coffee, ground, 50c. $\frac{7}{8}$ lb. : green, 28c $\frac{7}{8}$ lb. : Tea, from 37½c. to \$1.25 $\frac{7}{8}$ lb.

SUGARS—Crushed or Cube, 6 lbs. for \$1 : Granulated or No. 1, 8 lbs. for \$1 : D or No. 2, 9 lbs. for \$1.

NUTS—Eng. Walnuts, 20c. $\frac{7}{8}$ lb. : Cocoanuts, 12½c. each : Almonds, Paper shell, 37½c. : Jordan, 75c. : Brazil, 37½c. : Chestnuts, 37½c.

ROLLED SPICED BEEF—12½@ 18c. $\frac{7}{8}$ lb. : Ox Tongues, 75c. each : Smoked Tongues, \$1 each.

BEEF—Choice Cuts, 12½@ 15c. $\frac{7}{8}$ lb. : other cuts, 10@ 12½c. : Soup Meat, 8c.

MUTTON—Choice Joints, 12½@ 15c. $\frac{7}{8}$ lb. : Stewing meat, 8@ 10c.

PORK—12½@ 15c. $\frac{7}{8}$ lb.

VEAL—12½@ 15c. $\frac{7}{8}$ lb.

LAMB—\$1.25 per quarter.

SAUSAGES—15@ 18c. $\frac{7}{8}$ lb.

SMET—10c. $\frac{7}{8}$ lb.

SUCKING PIGS—\$2.50@ \$3 each.

DUCKS—Tame, \$1.25 each : Mallard, 62½c. $\frac{7}{8}$ pair : Teal, 37½c.

CHICKENS—Spring Chickens, 62½c. each.

TURKEYS—35c. $\frac{7}{8}$ lb.

GEESE—Tame, 25c. $\frac{7}{8}$ lb. : Wild, \$1.25 each.

COAL OIL—\$2.25 $\frac{7}{8}$ tin : $\frac{7}{8}$ ease, \$4.

OYSTERS—75c. $\frac{7}{8}$ quart : Canned, 37½c. $\frac{7}{8}$ can.

HAY—\$18 $\frac{7}{8}$ ton.

OATS—1¾c. $\frac{7}{8}$ lb.

MIDDINGS—2½c. $\frac{7}{8}$ lb.

BRAN—1½c. $\frac{7}{8}$ lb.

KIPPERED SALMON—12½c. $\frac{7}{8}$ lb.

Victoria Prices of Farming Implements, &c.—Threshing Machines, \$450 to \$800 : Reapers, \$150 : Mowers, \$100 : Self-Binders, \$300 : Ploughs, \$20 to \$40 : Harrows, \$20 to \$35 : Wagons,

complete, with box and seat, \$120 Wagons, with brake, \$130; Wagons, running gear only, \$85 to 110.

WHOLESALE PRICES CURRENT, FARM PRODUCE.—Wheat, $\bar{7}$ cwt. (100 lbs.) \$2.00 @ \$2.25; Oats, $\bar{7}$ cwt., \$1.75 @ \$2.00; Barley, rough $\bar{7}$ cwt., \$1.75 @ \$2.00; Peas, $\bar{7}$ cwt., \$2.00; Hay, $\bar{7}$ cwt., \$2.00; Timothy Seed, $\bar{7}$ cwt., \$14.00 @ \$16.00; Potatoes, $\bar{7}$ cwt., \$1.25; Butter, $\bar{7}$ lb., 28c. @ 30c.; Cheese, Maple Ridge, $\bar{7}$ lb., 18c.; Eggs; fresh Island, $\bar{7}$ dozen, 25c. @ 37½c.; Eggs, Oregon, $\bar{7}$ dozen, 25c.; Beef, dressed, $\bar{7}$ cwt., \$11.50; Beef, on foot, $\bar{7}$ cwt., gross, \$5.00; Sheep, on foot, $\bar{7}$ cwt., \$5.50; Mutton, dressed, $\bar{7}$ cwt., \$12.50; Lambs, each, \$3.00 @ \$4.00.

Concerning Passage to British Columbia.—All persons desirous of obtaining information, whether of rates of passage, or otherwise pertaining to Canada, can make application to the following Agents:—

CANADIAN GOVERNMENT AGENCIES (IN THE UNITED KINGDOM. —London, Sir Charles Tupper, K. C. M. G., &c., High Commissioner for the Dominion, 10 Victoria Chambers, London, S. W.; Mr. J. Colmer, Secretary, High Commissioner's office, (address as above); Liverpool, Mr. John Dyke, 15 Water Street; Glasgow, Mr. Thomas Grahame, 40 St. Enoch Square; Belfast, Mr. Chas. Fox, 29 Victoria Place; Dublin, Mr. Thos. Connolly, Northumberland House; Bristol, Mr. J. W. Down, Bath Bridge.

IN THE OLD PROVINCES.—Quebec, Mr. L. Stafford, Point Levis, Quebec; Toronto, Mr. J. A. Donaldson, Strachan Avenue, Toronto, Ont.; Ottawa, Mr. W. J. Wills, Wellington Street, Ottawa, Ontario; Montreal, Mr. J. J. Daley, Bonaventure Street, Montreal, Province of Quebec; Kingston, Mr. R. Macpherson, William Street, Kingston, Ontario; Hamilton, Mr. John Smith, Great Western Railway Station, Hamilton, Ontario; London, Mr. A. G. Smyth, London, Ont.; Halifax, Mr. E. Clay, Halifax, Nova Scotia; St. John, Mr. S. Gardner, St. John, New Brunswick.

IN MANITOBA AND THE NORTH WEST.—Winnipeg, Mr. W. C. B. Grahame, (Mr. H. J. Mass, German Assistant), Winnipeg, Manitoba; Emerson, Mr. J. E. Tetu, Railway Station, Emerson, Manitoba; Brandon, Mr. Thos. Bennet (Mr. Julius Eberhard, German Assistant), Office at the Railway Station; Prince Arthur, Mr. J. M. McGovern.

IN BRITISH COLUMBIA.—Victoria, Mr. John Jessop.

PROVINCIAL GOVERNMENT AGENCIES.—London, (England) Mr. H. C. Beeton, Agent-General for the Province, 36 Finsbury Circus; Paris, (France) Mr. J. S. K. deKnevett, 17 Boulevard de la Madeleine; Toronto, (Ontario) Mr. George Faulkner; Winnipeg, (Manitoba) Mr. W. J. Graham, M. D.; New Westminster, (British Columbia) Mr. Wm. Ross.

Cost of Passage.—The current advertised through rates (it is always best to take through tickets) from Liverpool, England, by the Allen line of steamships and the Northern Pacific railroad, are as follows:—

Cabin, - - - - -	\$1.93 50) subject to change.
Intermediate, - - - - -	112 50	
Steerage or Emigrant, - - - - -	68 00	

Passengers *via* Northern Pacific railway at present stop at Portland, Oregon, over night; from thence to Tacoma, Puget Sound, when they take the daily steamers now on this route, for Victoria, British Columbia.

Rates over the Central and Southern Pacific are about the same as those of the Northern Pacific railway, but with the disadvantage of a three days' sea voyage from San Francisco to Victoria, and that much longer time *en route*.

For crossing the Atlantic from any port in the United Kingdom to Quebec or Halifax, emigrants may obtain the Canadian Government assisted tickets of £4, 0s. 0d. for laborers or general workmen, and £3, 0s. 0d. for agricultural laborers and their families and female domestic servants. These are the rates per ocean adult, which is fixed at 12 years. Under 12 years and over 1, the rate is £2 0s. 0d., and for infants under a year old the rate is 10s. 6d. each. The ordinary unassisted rate of emigrant ocean passage is £6 6s. stg.

Steamers leave San Francisco for Victoria every eight days: The present advertised passage is, cabin \$20 (£4 2s. 5½d.), steerage \$10 (£2 1s. 2¾d.)

In the steamboats the passage money includes provisions, but the railway fares do not include provisions. Railway sleeping cars are provided on the railways across the continent, but passengers furnish their own bedding and blankets.

One hundred pounds weight of baggage is allowed to each adult on the railway, and one hundred and fifty pounds weight on the steamers to Victoria. *The charges on excess weight are high.*

In view of the much greater cost of reaching British Columbia than any of the other Provinces, the Dominion Government grant bonus certificates of \$10, or £2 sterling, payable in Victoria, to all emigrants over 16 years who have the requisite certificate from the Canadian agents in the United Kingdom.

Prices and Rates of Sundries at Victoria.—Size of town lots mostly 60 feet by 120 feet—held at rising prices—interest or mortgages 8 to 10 per cent. per month—Municipal tax one per cent. on assessed value.

Clothing 10 to 12 per cent. more than in England or Canada. Furniture, moderate price, need not be brought. Bricks, \$8 to \$10 per thousand at kiln. Rough lumber, \$10 to \$12 per thousand feet, drayage of lumber, \$1 per M. Coal, \$7 to \$9 per ton; Wood fuel, \$4 to \$5 per cord. Rents of houses range from \$10 to \$40 per month, but few unoccupied in Victoria.

Second-class hotel rates: Board and lodging, \$5 to \$6.50 (20s. to 26s. English) per week; board and lodging, \$1 (4s. English) per day; single meals, 25 cents (1s. English); beds, 50 cents and 25 cents (2s. and 1s. English).

Drayage of merchandise 50 cents per ton from frontage, including outer wharf, to all parts of city.

Hack rates from Stand, one person, 25c.; two or three persons, 50c. Rates of Postage.—Rate of letter postage 3 cents (1½d.) per half ounce, in Canada. Postage for letters between Canada and United Kingdom, 5 cents (2½d.) Newspaper, parcel, sample and book post, at a cheap rate.

Money Orders.—\$4, 2 cents; \$10, 5 cents, and so on.

Money.—In Canada is in Dollars and Cents.

<i>Sterling into Dollars and Cents.</i>		<i>Dollars and Cents into Sterling.</i>	
	\$ cts.		£ s. d.
½d. sterling is.....	0 01	1 cent is.....	0 0 0½
1d. " ".....	0 02	1 dollar is.....	0 4 1½
1s. " ".....	0 24	4 dollars are.....	0 16 5¼
£1 " ".....	4 87	5 " ".....	1 0 6½

The half-penny sterling is 1 cent; and the penny sterling is 2 cents. The pound sterling may be counted at 5 dollars.

Money in Canada consists of bank bills, gold and silver coins, and bronze in single cents. In British Columbia the bronze coin not in circulation, though legal.

The Dominion of Canada paper money, also the paper money of the Bank of British North America and the Bank of British Columbia, pass freely in Province in notes from \$1 to \$100. These are payable in gold. United States paper money is not used in the Province, but passes in trade at silver rates.
