HEAD OF WHITE LEGHORN COCKEREL.

Bred by J. B. Laing, Guelph.

The Secretary of the Stratford Association informs us that he will be happy to give the scores of winning birds in any classes on receipt of a post card for the return of information.

BUSTED

On February 3rd, 1888, the Toronto Black Spanish, Andalusian and Minorca Club, of outward indifference and inward dissention.

MR. A. G. GILBERT, of Ottawa, has been appointed director of the Poultry Department of the Government Ex-

perimental Farm, and hopes to move thereto when the proper buildings are put up. His experiments will be in the direction of crossing pure breeds for the purpose of finding out the best and the most profitable as egg and meat producers. MR. GILBERT has kindly promised to give the readers of the REVIEW an occasional letter on this subject.

We regret to learn that the wife of our esteemed friend MR. W. C. G. PETER has been ailing for some time, and is at present visiting Toronto in quest of medical advice. We trust Mrs.

PETER'S recovery may prove both speedy and permanent.

HON. JOHN CARLING, Minister of Agriculture, visited the poultry show at Ottawa, and was accompanied by PROF. SAUNDERS. They were shown through the place, and the minister examined the various classes closely. He will recommend that a collection of choice birds be purchased for the experimental farm. A collection of eggs will be purchased also. Mr. CARLING will do all in his power to encourage the poultry raisers, and expressed himself delighted with the exhibition and thought the collection of birds was very creditable to the Association.

We had the pleasure of a visit from MR. A. HOBBS, President of the Bowmanville Association, last month, from whom we are glad to learn that this Ass'n's show proved most successful in a financial sense, having after all expenses are paid a balance of some \$40 to the good.

MR. JOHN CROWE, of Guelph, writes us with reference to the Rochester show. "The prizes were generous, and although the management stood to lose four or five hundred dollars, the prizes were paid cheerfully before the close of the show. The honesty and square dealing of this society deserves all the commendation that you can give by publishing this in the columns of your paper."

We hear that the Ontario Poultry Association are paying all winners of amounts over five dollars at a discount of 14 per cent, *i. e.*, 86 cents on the dollar.

MR. C. BONNICK has been appointed chairman of the poultry committee of The Industrial Exhibition.

We regret to chronicle the death of the late Mr. William Brown, of Toronto, which occurred on February 9th. The deceased gentleman for many years

took a lively interest in poultry, and was most successful, both as a breeder and exhibitor. A widow and family are left to mourn his loss, and have our most sincere sympathy.

FROM SOUTHERN CALIFORNIA.

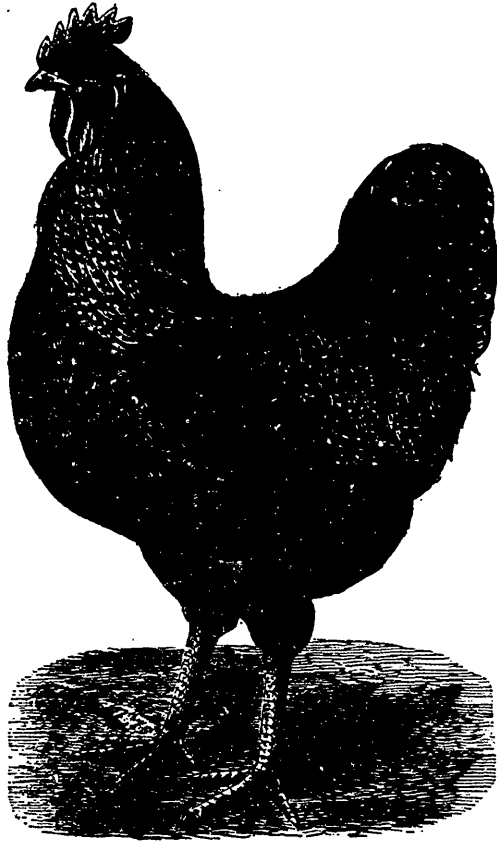

Editor Review:

For the first time in a couple of years the feeling that I am once more settled down has taken possession of me, and with it has come the inclination to write a short letter for the REVIEW. I will say at once that I have not yet a chicken or pigeon to call my own—all in the feather line about me being mocking-birds, thrushes, and many other varieties of warblers, which at the present time seem just crazy with delight in the enjoyment of the beautiful weather which prevails here. My home has about it magnificent pepper-trees, and hedges, arches and shrubbery of Monterey cypress, which, from frequent clippings, have become very dense, affording excellent harbors and nesting-places for the little warblers, and they show their appreciation of the situation by filling the air with melody from morn till night. I will send you a photograph of our home, which will assist your imagination to fill in the picture. You must fill every bush and hedge with birds. On the arch in front you must place a brown thrush, piping out his sweet melody as though his life depended on giving so much in a given time; and dozens of mocking-birds darting from point to point, like flashes of light. But they are almost silent now, and will be for a week or two to come. Roses, pansies, daisies, verbenas, geraniums, &c., are in full blow or bud; and above and about all an atmosphere as clear, warm, and in every way as delightful as that of the

most beautiful June day in Canada. To the north, over sixty miles distant, but in the clear air not appearing to be more than six miles, the snow-clad mountains are plainly seen, "Old Baldy" being the central figure. When you have filled in this picture and have compared it with eastern weather and scenes at this season, you will not be surprised when I tell you that I am delighted with my new home, and am here to stay.

Chickens are kept in this country by nearly every one who has room for a "chicken corral," as a yard is called here, and in the country large flocks are usually found on the ranches. Poultry-keeping is very profitable. Eggs average 25c. per dozen the year round. In March and April the price will sometimes fall to 12c. per dozen, and during the warm season and early winter, (so-called) 45c. is frequently reached. Eastern eggs are largely imported, and sell at 5c. to 10c. per dozen less than home eggs when the latter are scarce. Chickens bring an average price of \$5.50 per dozen. Four pounds, I would judge to be about the average weight, undressed, of the chickens marketed. Our Thanksgiving and Christmas turkeys cost 12c. per pound.

The fowls kept are generally good grades, the Leghorn cross being the favorite. I have seen several White Leghorn hens running about yards here that would be no discredit to a good show room, and all the fowls at this season show the ruddy comb, denoting prolificness. The eggs seem to me to be smaller than those the same grades would produce in the east. Very few feather-legged fowls are seen, and few buff-colored eggs reach the market, showing that little Asiatic blood has been introduced here. Leghorns undoubtedly do well here, and I would not be a bit afraid to undertake the production of some that would out-score anything in the east, with good breeding stock to start with.

PLYMOUTH ROCK COCKEREL.

Owned by Hon. Sid Conger, Flat Rock, Ind.

The chicken houses, as a rule, are of very faulty construction. The walls are in most cases made entirely of lath or lattice from ground to roof. In a few cases I have seen the lower half of walls close boarded, and only in a couple of cases have seen close walls on the hen-house. The roosts are usually high, so that all draughts strike the birds. The nights are always cool, with a nice breeze from the ocean, which drives quite freely through the houses, and the result is that in the summer time roup prevails to an alarming extent. Lice also hold high carnival during the summer months, and between these two evils which seem to be the poultryman's bane everywhere, he has his hands full—that is if he attempts to battle with them—which few do.

While in Los Angeles, under the guidance of Mr. L. Thorne (well-known to most of your readers as an enthusiastic and successful fancier) I visited the yards of a couple of fanciers. Their names I have forgotten. At the first visited about a score of varieties were kept, but all were running together and the houses and yards were being pulled down and the land sub-divided into city lots, that the real estate boom might not lack for want of material to feed upon. This had been the largest and most successful poultry establishment of southern California, if not of the whole State. The other yard I visited was within a short distance of the heart of the city. About ten varieties were kept here, and a number of the yards were made up of fine birds, imported from the east last spring. Some were from Canada. A poultry yard in the city in August and September, nor the fowls in it, are not in the best shape to favorably impress visitors.

Mr. L. Thorne, formerly of Seaforth, Ontario, shortly after coming to Los Angeles, imported a number of breeding pens of several varieties, and was very successful with them. He built

suitable houses and yards, but the coming of the great real estate boom soon convinced him that the fine lots on which the chickens ran were not being put to their most profitable use. On the market four of them brought, well, enough to buy a good many chickens. He has retained his black-breasted Games only, and has some excellent birds. He imported a pair from the east this fall, and intends to keep up this one variety in real fine shape. This is all his large real estate and brokerage business gives him leisure to attend to. I was near forgetting to mention something that gave me great pleasure on my visit to Mr. Thorne. He showed me up into his lofts, where I found about a dozen fine Homing Antwerps, bred from a pair I sent him a couple of years ago. The old birds were there, and in imagination I was back again in my own lofts, as they were a couple of years ago, although over 3,000 miles distant. I hope very soon to have the pleasure of assisting in the training of these birds, and as Mr. Thorne has promised me a pair when I get a loft ready for them, the chances are that I will soon again become a pigeon fancier.

Right here in Orange we have another Canadian fancier, in the person of Thomas Walmsley, formerly of Embro, Ont. He has three lots and is now having them enclosed with a high lath fence, which will give him quite an extensive corral. Mr. W. exhibited Black Hamburgs successfully at London, Toronto and Grimsby a year or so ago. He brought a number of his fowls with him, and is particularly proud of his Black Hamburg hen, 1st at Toronto. He has Black Hamburgs, White, Brown and Black Leghorns, Plymouth Rocks and B. B. R. Games. He is full of enthusiasm as a yearling, thinks there is no place on earth equal to Southern California for fancy poultry raising, and predicts a great boom in thorough-bred poultry in the near future.

I shall now take some interest in the poultry business, and if you think a letter now and then from this coast would prove interesting to your readers, I will gladly furnish it.

Before closing, dear DONOVAN, I wish to compliment you on the great improvement which you have made in the REVIEW in every respect since you have become its proprietor and assumed its management. Canadian fanciers have reason to feel proud of the REVIEW, and I hope will always show their appreciation of your efforts by a cordial and generous support. Having launched the craft, and for seven years and a half steered it through the rocks and breakers in the very tempestuous times when the most vital questions of reform in the fancy were being worked out, I will always feel a great interest in its success, and the pleasure it now gives me to see it in smooth water, a beautiful and staunch craft, well manned, is greater than I can here express. From the land of the setting sun, in view of the grand Pacific ocean, I send a cordial greeting to my old friends and help-mates.

Yours fraternally,

JAS. FULLERTON.

Orange, Los Angeles Co., Cal.,
Feb. 1st, 1888.

[We need not express the pleasure it affords us to welcome "JIM" FULLERTON back again, to the pages of his first love, the REVIEW. We trust in the future there will not be such "a long time between—" his letters.—ED.]

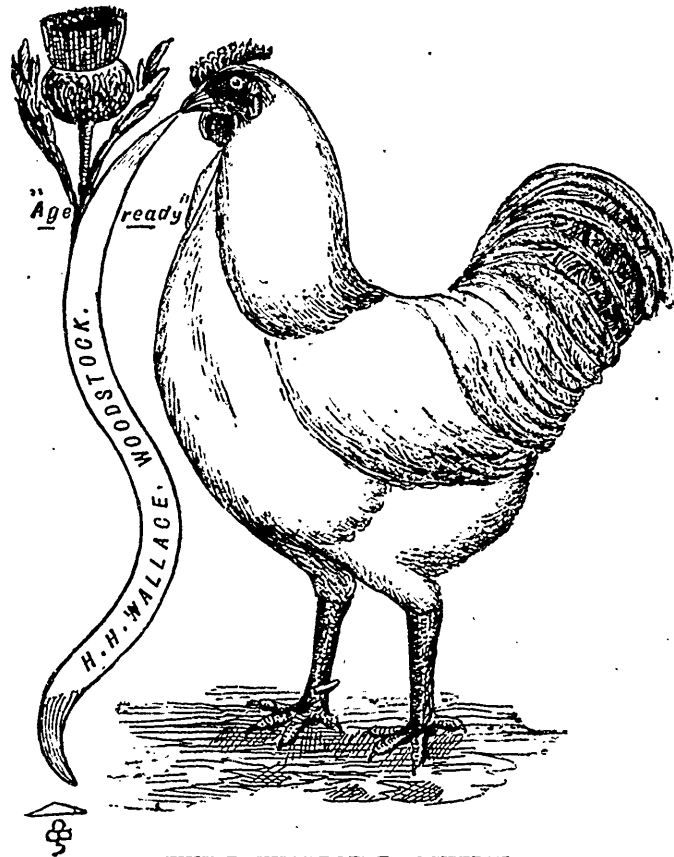

ONTARIO POULTRY ASSOCIATION.

THE PAST, PRESENT AND FUTURE.

BY J. DILWORTH, TORONTO.

THE PAST.

From a financial point of view, I might say has been a failure, the first year of its existence I believe it was held in the city of London, which proved to be the greatest of all disap-

WHITE WYANDOTTE COCKEREL.

pointments, but it was afterwards held in Guelph with good success. Next came Brantford for two years, with a loss of about three hundred dollars. Then Toronto's turn for two years, the first year, a great show, but financially a very great failure, loss over three hundred dollars, the expenses of running being very extravagant, amounting to over one thousand dollars. The next year, however, when the show was conducted more carefully, a profit accrued of about one hundred dollars. It then went to Guelph for another term of two years, which also proved to be a

gain of about ninety cents, then to London, proving a financial failure. This year, however, ought not to result in loss, as the prize list was well cut down. So that from the past experience the Ontario Poultry Association did not pay one hundred cents on the dollar. We may safely say the "past" has been a financial failure.

THE PRESENT,

I would say, is the time to take the past experience into thoughtful and serious consideration, which we will begin to do by asking ourselves the question, would any of us, as business

men, continue to conduct our own private affairs in the same way? I emphatically say no. In the first place there are men on the board of directors, year after year, that ought not to be, I also think that the time and place for electing directors, and selecting the place for holding the show to be in Toronto, during the second week of our Industrial Exhibition. I am certain we would have a more representative gathering of fanciers of the province of Ontario to choose from, and further, it would give the managers of the past winter show ample time to have a full

report, and financial statement ready to present to the board, and members, who could then vote much more intelligently as to where the show should go, and who should constitute the board of directors. But as it is at present, if by chance there should happen to be near by where the show is being held, a small ambitious town (we'll say for instance Hogs Hollow) that would like to have the show for the following year, it will get it because they can cast more votes than outsiders, and in this way the general good is forgotten. But right here I would say that I am not referring to St. Catharines, as I consider that place second to none for holding a successful poultry exhibition. All the same it was promised to go east and the place was Peterboro, and simply because they were not represented in person they got the "grand bounce." Then again, we have rules and regulations, and a constitution governing the Ontario Poultry Show, some of which are a grand sham, and a fraud of the first water. It says somewhere that the Ontario Poultry Show shall be judged by the *American Standard of Excellence*, then they deliberately go to work and appoint, year in and year out, men who have openly avowed their unbelief in that authority. Yes, I have seen with my own eyes one of the same judges, of whom I speak, make a public exhibition of a farcical nature, of the manner of scoring birds in the United States. Readers of the REVIEW I know whereof I speak. I will give one illustration of the ability of one of the judges, who was supposed to take the *American Standard* as his guide. I bought a bird from a gentleman, I could trust, that offered me a bird that scored 95½ with score card, signed by the judge, I bought the bird and to my great horror, in opening out the wing, found that four feathers were badly splashed with white, which, according to the *American Standard*, is an undoubted disqualification. And yet the

majority of these directors, after having complaints from all sides, persistently appoint the same staff of judges. And one other point, as to one of the directors, and who, by the way, is appointed an occasional judge, for what reason I don't know, whether it is because he is a strong advocate of names on coops, or to please his fancy, I know not, but I do know that he awarded a first prize to a Houdan cock lacking the 5th toe, and yet these are the men who tell you they judge by the *American Standard*.

If we adopt the *American Standard* as our guide, let us breed to it, stick to it and judge by it, and I am satisfied, had our old prominent Canadian breeders and judges shown proper sympathy with the *Standard*, they would have ranked amongst the foremost, in the guidance of affairs, in revising from time to time the *American Standard of Excellence*, and I certainly think we ought to agree on one *Standard*, because in common we are one people.

THE FUTURE

Will be a success or a failure, just as the managers wish to make it, but if matters are allowed to run in the same old groove, I would certainly suggest to our Provincial Government the advisability of dividing the grant east and west of Toronto, and every third or fourth year have a grand combined show held in Toronto. By doing this it would create a stimulus which would throw enthusiasm into the fancy, that we have not experienced to that extent in the past as we would in the future. I believe a step in the right direction would be, to put the prize list in such a shape that we could save money, and form a sinking fund, and buy say 400 wire-folding coops at an average cost of \$1.00 each, which could be shipped by freight, any reasonable distance, at very little cost, and thus enable any good agricultural or manufacturing town, to have a respectable and successful poultry show. I believe it would be a good

investment for renting purposes, I would also suggest that the names should be left off the coops while being judged, and immediately after put on the names of every exhibitor. I hear some one say in the far distance "Hould yer whisht" about your *Standard* and your coops, "it's money we're after." No, gentlemen, it isn't, we have eternity before us, and we live forever.

DON'T FEED TOO MUCH.

BY STANLEY SPILLETT.

I do not feel disposed to dispute such testimony upon the subject of trade as your own and brother PETER'S. I am pleased to be convinced that I have misinterpreted certain signs of a falling of in interest among poultry men. First, the shows did not seem to receive the same patronage, and the competition in my opinion did not seem to be so keen, but stronger than this to my mind was the fact that our journal, though immensely improved, did not seem to receive the amount of attention from fanciers that it merits and invites. Now a man who is succeeding becomes intensely interested which is likely to overflow in the direction of the public. I presume a good deal of this indifference comes from the old causes. If you ask a man why he don't contribute something for the common good, he will tell you "he don't know anything about the thing, he just has some old fashioned notions of his own," and yet if you undertake to point out some of the little deficiencies in his stock he will very soon undertake to disburden your mind of any false notions on the subject.

The notion that to pay for a journal is our full duty towards it, and that we simply pay for what information it can give is in my opinion a wrong one. The main object, as I see it, is to provide a medium for the exchange of thought and in which to test notions

and conclusions we have arrived at from certain data. The crucible indeed in which our notions are to be tried and the dross separated from the metal. It takes the place of the Farmers' Institutes and has this advantage over them, it is sitting all the time and comes to us instead of compelling us to go to it.

But I set out to offer a few thoughts on feeding. There is nothing against fancy feeding that I am aware of only waste. To take the very best of care of an animal will surely pay. But over-feeding is not good care, and more harm is done in this way among the breeders of fancy fowls than in any other.

Let any young animal, calf or pig for instance, be fed to surfeiting and it will not thrive or grow as well as one which is never fed as much as it will eat. My experience says the same with poultry. If young chicks are given food till their crop is distended and hard it is injurious to them and they become stunted and mean looking. Therefore they should never be given all they will eat at any time. The largest hen I have ever raised ran with the hen with others among standing grain, and after grain was cut picked up a living from the fields, now those chicks could never be seen with hard crops. Ground barley scalded and mixed with milk has given me the best returns of any food I have ever used for chicks. Again, your fowls once made perfectly fat will never be either as good layers or as certain breeders again, nor will their offspring be as hardy or thrifty. This is simply my opinion for feed for old fowls. I prefer solid grain scattered among chaff or anything of that kind, the exercise necessitated creates a more healthy warmth than warm food; of course a feed of scalded may be fed occasionally, in which to mix oyster shells, &c. Wheat for winter, with row and then a feed of oats or barley with a feed of peas scalded and mixed with middlings now and then

makes a good ration for all purposes. I admit I am not sufficient of a fancier to attend to my fowls very much at the expense of my own comfort.

AMERICAN BUFF COCHIN CLUB.

ORGANISED AT ROCHESTER, N. Y., FEBRUARY 7TH, 1888.

The above club have sent out the following circular:—

During the recent great International Poultry Exhibition at Rochester, N. Y., there was so great an interest manifested over the "Buff Cochin" class, which was one of the largest and finest seen at an Eastern Exhibition for years past, and owing to the large number of enthusiastic fanciers it was deemed advisable to form a "Buff Cochin Club," the object of which is to elevate and strengthen the great interest already manifested in this, the most beautiful variety of the whole Asiatic family.

Therefore, upon Tuesday, February 7th, a club was formed and organized, and it is sincerely hoped that each and every breeder or fancier who may receive one of these circulars will immediately correspond with the Secretary, stating whether he will accept the office to which he was appointed or whether he will join with the Club and become a member, thereby assisting the Club to be placed upon a solid basis for future operations.

The following list of officers were appointed and members elected, therefore we hope each and all will join and thus give the "American Buff Cochin Club" such a start as will enable it to bring this most beautiful variety of fowl before the general public in a manner that it never yet has been able to attain.

President:—Fred E. Schell, Belleville, Ill. Vice-Presidents:—C. H. Johnson, Rushville, Ind., M. M. Conner, Ada, Ohio., T. F. McGrew, Jr., Springfield, Ohio. Secretary:—George E. Peer, Rochester, N. Y. Treasurer:—Wm. F. M. Smith, Pine Hill, N. Y. Ex-

ecutive Committee:—J. D. Nevius, Philadelphia, Pa., John VanMater, Colt's Neck, N. J., Eugene Powers, Cortland, N. Y., John Crowe, Guelph, Canada., E. J. Sanderson, Waltham, Mass.

The following members were elected: T. F. McGrew, Jr., Springfield, Ohio., Fred E. Schell, Belleville, Ill., C. H. Johnson, Rushville, Ind., M. M. Conner, Ada, Ohio., George E. Peer, Rochester, N. Y., Wm. F. M. Smith, Pine Hill, N. Y., Eugene Powers, Cortland, N. Y., J. D. Nevius, Philadelphia, Pa., John VanMater, Colt's Neck, N. J., John Crowe, Guelph, Canada., E. J. Sanderson, Waltham, Mass., Fred R. Brown, Waltham, Mass., C. A. Reid, Englishtown, N. J., P. Rowland, Glen Cove, N. Y., Frank B. Smith, Danville, Ill.

TORONTO POULTRY, PIGEON, AND PET STOCK ASSOCIATION.

REGULAR MEETING.

The regular meeting of the above Association was held on the 9th, inst. Vice-President Barber in the chair.

After the reading of the minutes of the previous meeting, the auditors report for 1886 was read and adopted.

A letter was read from the President stating that he had waited on the Industrial Board and that there was little probability of a new poultry building this year. The Secretary was instructed to write the widow of the late Mr. Brown expressing the sympathy of the Association.

A petition was drafted and signed by the members present, praying the Industrial Board to concede to their wishes for a new poultry building.

The new printed by-laws were distributed to the members.

Mr. Jno. Miles had a pair of Black red Bantams on exhibition which were adjudicated upon by the Game judge, of the Association, Mr. Wm. Barber.

THE TORONTO BANTAM, PIGEON AND PET STOCK CLUB.**REGULAR MEETING.**

The regular meeting of the above club was held on the 21st inst., the President in the chair, and twenty-one members being present.

After the regular routine business had been gone through, the President introduced the subject of holding a show here next winter, when a disultory discussion took place, but of course no preliminaries were gone into.

A letter was read from the St. Catharines Association, asking the co-operation of all fanciers in a memorial to the Government to increase the Provincial grant to \$1,000. After free discussion it was decided to request the applicants to forward a copy of the petition for approval.

Messrs. Thompson & Son brought for inspection a Pyle Game Bantam Cock, Mr. Miles, a Pyle cockerel, and Messrs. Fox, Burroughs, Hobden and others, pigeons.

ST. THOMAS POULTRY ASSOCIATION.

The St. Thomas Poultry and Pet Stock Association held their annual meeting on the 16th inst., and appointed the following officers:—

Honorary President, S. O. Perry; Pres., Samuel Dubbar; 1st Vice., Peter Brown; 2nd do., Wm. Meecham; Secretary, T. H. Scott; Treas., John Axford. Auditors, Jas. Hopkins and A. W. Graham. Executive Com., Frank Oke, Harry White, A. W. Graham, D. Dinner, Samuel Axford. Delegates to Industrial, T. H. Scott and Harry White.

T. H. SCOTT, Sec.

AMERICAN WHITE WYANDOTTE CLUB

At the annual meeting of the American White Wyandotte Club held at Rochester N. Y. Feb. 8th, 1888 the following officers were elected for the ensuing year:—President, J. M. Dexter,

Camden, N. Y.; First Vice-President, B. M. Briggs, Broken Straw N. Y.; Second Vice-President, James Forsythe, Owego, N. Y.; Third Vice-President, A. M. Hough, Upper Sandusky, Ohio; Fourth Vice-President, D. S. Shourds, Macedon, N. Y.; Fifth Vice-President, J. C. Harris, Venango, Pa.; Secretary and Treasurer, F. W. Gaylor, Nassau, N. Y.; Executive Committee, J. M. Dexter, F. W. Gaylor, C. L. Seely, Afton N. Y., Willis G. Clarke, Wyandale, N. Y., G. A. Hunt, Greenwood Ill.; Honorary Vice-Presidents, W. N. Croffut, Binghamton, N. Y., J. Y. Bicknell, Buffalo, N. Y., Philander Williams, Taunton, Mass., Rev. C. L. Ayer, Three Rivers, Mass., R. W. Goodrich, Poultney, Vt.

Yours truly,

CRITICISM OF THE MONTREAL ASSOCIATION.*Editor Review:—*

Re last Montreal show. Quite a number of fanciers here have spoken to me about the way the shows here take place, and find it rather ridiculous that they are not advertised. I dare say the last one appeared in the local papers a day or two before, although I looked for it and could find nothing. The first I heard about it was when I saw a man carrying a square board on his back, marked something in this fashion, "Go to the Poultry Show, etc., etc."

Now why does not Montreal do like all other towns, viz., advertise it in the REVIEW so as to bring strangers here, and also hire strange and good judges to come and judge all the fowls. I am against local judges, especially when the judges are exhibitors themselves. Now I cannot see why a prize was awarded, to what I would certainly call, "dung hills," but they were ticketed as "pit games." If the judges cannot judge a pit game from a "barn-door-fowl," well he had better "get." I don't

believe the pit games are even scored here in Montreal. If there is a special class for pit games why not have them scored, or else exclude them altogether.

If the judges who acted at the last Montreal show are mostly fanciers of L. Brahmas, Plymouth Rocks, Cochins and Bantams, and consequently capable of judging only these varieties to advantage, it does not follow that the other classes should be neglected.

I think also that a little more cash prizes, and less "rain-bow colored" prize cards, would induce a little more competition, but it is not every man who cares about paying firstly \$1.00 and then 30 or 40 cents I believe for each and every fowl you put in. Is this the way the other associations do about it?

Now a word to the heads of the Montreal Poultry, Pigeon and Pet Stock Association. If you gentlemen want to have the biggest show Montreal ever witnessed next year follow my advice. First, have the show in March when all snow blockades are over and the weather mild, secure judges (not local) known to be good ones, advertise the previous month (at least) in two or three poultry journals offer good cash prizes and specials for best display of each breed, and reduce the entrance fee for the fowls exhibited.

Yours truly,

P. T. H. ERMATINGER.

Montreal, Feb. 16th, 1888.

(Our correspondent evidently labors under the idea that pit games are in the *Standard*; such is not the case, so of course they cannot be scored.—Ed.)

THE LATE ONTARIO POULTRY ASSOCIATIONS SHOW.*Editor Review:—*

Your paper came to hand this morning, and I must say I would not be doing you justice if I allowed the present opportunity to pass without complimenting you on its general appearance, if it had contained the prize list of the O. S. show I consider it would

have been pretty near perfection. I must say I was very much surprised as well as disappointed when I found it had been omitted, as I was debarred from exhibiting by not receiving a prize list, and did not attend the show, I was quite anxious to see who were the winners. I don't understand how it is that you should have a full report from the secretary of the Stratford show and no report from the Ontario, especially as the Stratford show was a week later, and what makes it more difficult to fathom the secretary of the Stratford show works for nothing while the secretary of the Ontario is supposed to be well paid. I think the late show was the most bungled up affair I've seen in the shape of a poultry show.

Editor Review:—

May I ask through your columns the reason why the Ontario Association at London will not pay the prize-money due to exhibitors at their last show in January. I am compelled to ask this question through your columns, as the secretary will not take any notice of my enquiries regarding the same, which is to say the least of it, as ungentlemanly as it is unbusiness like. Would suggest that if they cannot pay the premiums offered, they at least refund the entry monies, or rank as insolvents and call a meeting of their creditors. The way matters were conducted there, in the delay of issuing prize list, and now treating exhibitors like myself, with silent contempt, merits the public exposure this letter means to convey.

Yours truly,

H. H. WALLACE.

Editor Review:—

In justice to the management of the Ontario Poultry Association at London, I feel it my duty, being a disinterested party, to write a few lines regarding the several articles published in last months

issue of your REVIEW finding fault with the said management for not sending the prize lists out in better time, and of the secretary not furnishing the list of prizes won to the different poultry journals.

Now, in the first place, the poultry lists were not ready as soon as they should have been, and I suppose a resident of your city, who supplied them, is the only man who can explain why they were not, perhaps he was waiting for advertisements. In the second place the post office department was to blame for three days delay. The lists were all taken in a large bag to the post office on Wednesday morning, Jan. 4th, Thursday and Friday passed without any delivery, in the meantime the secretary, Mr. Garner, had called at the post office about the delay, and was answered that they were all on the way. However, Saturday morning passed and still no delivery. Mr. Garner then came to me on Saturday afternoon and asked, as a favor, if I would go with him to the post office. I did so and laid the case before the post-master, who at once made enquiries, and a search revealed the bundle of prize lists just as they had been left.

Now regarding the list of winners not being published. I would say that it is to the interest of the poultry journals to be represented at such exhibitions, thereby being in a position to take off the lists for themselves. I do not think any blame should be attached to the secretary in this matter, as I am sure he is not expected to write off copies of the list for every poultry journal not represented.

Hoping that these explanations will be satisfactory to all concerned, I am,

Yours respectfully,

GEO. G. McCORMICK.

London, Feb. 15th, 1888.

(We sincerely regret that the series of mishaps related above in regard to the mailing of the prize lists, resulted in such a disastrous manner. In regard to the list of winners, the REVIEW was

represented at the Exhibition for two days, but if our esteemed correspondent will inform us how a reporter could take down the list, when the judging was not finished at the close of the show and some of the cards never placed on the coops we should be greatly gratified. We found no fault with the secretary, we mentioned the course we took to procure the list in time for our February issue, and of our disappointment in not receiving it, as an explanation to our readers, and not as a reflection on the secretary in any way.

We again beg to state that we think an *official* explanation ought to be forthcoming.—Ed.

THE TORONTO BLACK SPANISH, ANDALUSIAN AND MINORCA CLUB.

A meeting of the above club was held on February 3rd, the President Mr. Banks being in the chair and the following members being present. Messrs. Donovan, Doel, E. Lawson, E. A. Lawson, Gurd and Delaporte.

A statement was read from the Treasurer showing a balance on hand of \$14.00

After a free discussion of the prospects of the club it was moved by Mr. Delaporte seconded by Mr. Doel and unanimously carried that the club dissolve, owing to poor support and want of interest. Those members who had recently joined were refunded their fees.

DETROIT SHOW.

Editor Review:—

A few lines regarding the recent show in Detroit may be interesting to your readers. I reached the show somewhat late, in fact, the judge had been some hours at work before I arrived, but the President MR. READ, also Secretary RUMSEY, met me most cordially and gave me every attention, assisting me to have birds at once brought through customs, and placed fairly and well in the exhibition room. Their manner towards me was at once assuring, and I felt right at home, among the breeders of the city and other cities over the State of Michigan. This was the first poultry show in Detroit in the last ten years, and the first one under the new society, "Eastern Michigan Poultry and Pet Stock Association." The management was simply perfect, from the caretakers up to the President, and Secretary RUMSEY was as cheerful all through the show as when he first met me. I think we may well take a leaf from this management and also from the exhibitors there. I found a very much different feeling pervading these exhibitors than I ever noticed at any of our shows. There was no wrangling or jealousy exhibited, they came as men to battle for supremacy, and the same happy expression could be seen on the faces of loser and winner alike. All seemed to rejoice with the victor, who ever he might be.

There were some 600 entries, and in heavy breeds there was keen competition. In Hamburgs, Polands, and Bantams the competition was slim. I saw "BILLY" MCNEILL'S beaming face there as well as some other Canadian visitors, but I would have sooner had their exhibits there, to astonish the Americans, than to be kept continually

telling of their birds. It would have been a grand place for our fellows to unload their surplus stock. Money was plenty, the fever ran high, I was credably informed that over \$2500 worth of birds changed hands in the show room. The committee very generously refused the 10 per cent due them on such sales, and allowed exhibitors to make all they could of their sales. Unfortunately for me my stock had run so low I had none to offer, else they would have gone off lively. The show was held in a convenient part of the city, on Michigan Avenue, and on ground floor, so that visitors could reach it without going too far or running up stairs, and was well patronized from the opening day until the close, and for this the committee can justly feel proud, as they are some \$250 ahead after paying all expenses. Of course the regular premiums were not cash, but silk badges, gold lettered, red for first, blue for second, white for third. They are beautifully gotten up, and I value the collection I was fortunate enough to secure, much higher than money prizes. They propose holding another show next winter and I hope to attend. I also desire to see many of our Canadian breeders going over in friendly rivalry to try their strength with our American cousins, I may be speaking a little strong when I say I think we have metal enough in our exhibitors, and excellence enough in our birds to hustle them all through the classes, and I believe next show in Detroit will find our fair province well ahead in the prize list of the Detroit show.

The American plan of exhibitors furnishing their own coops and all of regulation size is a good one. They look neat and it saves the Association lots of money in putting together coops of unsuitable size and appearance. Such coops often show the best birds to very poor advantage. With the regulation coops, all are on an equality of position. None being placed above each

other, all birds have comparatively fair play, while exhibitors can see them without either stooping down or climbing up, as is often the case at many of our best shows. Most of these coops are canvas, with round wooden fronts, not expensive, while some are more expensively gotten up. Through the kindness of the secretary I secured a sample of his, which to my mind were the handsomest ones on exhibition, and at some future shows I hope to send my exhibit in my own show coops. Regarding the judge MR. B.N. PIERCE, of Indianapolis, Ind., I have only to say he seemed very accurate and painstaking, and was always willing in a most cheerful manner to give his reasons for anything he did when asked for it. And although a hard cutter I believe his decisions were to the satisfaction of every exhibitor present. I was very favorably impressed with his frankness of manner all through his judging, and although I was constantly among the exhibitors, I failed to hear a single unkind word from any exhibitor regarding his decisions.

Friend DONOVAN, kindly excuse the length of this letter and if I have time I will probably give you another one next month on some other matters that I hope may be of interest to the fraternity.

Yours sincerely,

F. WIXSON.

THE OTTAWA SHOW.

NOTES FROM OUR REGULAR CORRESPONDENT.

The fourth annual exhibition of the Eastern Ontario Poultry and Pet Stock Association was held in the City of Ottawa, on 14th, 15th, 16th and 17th of February; the show room was the hall of the Lower Town Market building, an excellent place as far as comfort of birds, and good light for judging is concerned, but rather isolated as to location; however, there was no other suitable place to be had; and although

the attendance of visitors was not so large as it should have been, still it was as good as most poultry shows get. The visitors, among whom may be mentioned such distinguished persons as LADY MACDONALD, the HON. JOHN CARLING, Minister of Agriculture, and PROF. SAUNDERS, of the Government Experimental Farm, expressed themselves as highly pleased with the general excellence of the exhibits, which in most classes, were undoubtedly quite an improvement on that of last year.

A conspicuous and very pleasing feature of the show, was the exhibit of dressed poultry and eggs made by MR. A. G. GILBERT, of Hintonburg, a suburb of Ottawa. The display consisted of Turkeys, Geese, Plymouth Rocks, Brahmas and Leghorns, all dressed after the most approved English style. There was no premium offered for such a display, and MR. GILBERT's object was to show the masses how poultry should be dressed, and if more displays of this sort were made, it would undoubtedly have the effect of greatly improving the appearance and quality of the poultry offered for sale on our markets and in the stores of poultry dealers.

MR. GILBERT showed how poultry was prepared by English farmers to sell to dealers, and how finally finished by the dealer to sell to the consumers. The birds were all dressed by MRS. GILBERT, who is undoubtedly an adept in this line.

The entries were very numerous, and competition in most classes very keen. Light Brahmas were a grand class throughout, the winning birds being good enough to win anywhere; the breeding pen winning first were particularly good, the pullets might have been broader in head, but taken all round were hard to find fault with. 1st prize cock, a grand well preserved bird, a little light in hackle, but grand in shape, very heavy leg and toe feather, and a splendid black tail. In the opinion of the writer, MR. R. G. MARTIN's cock, an unnoticed bird, should

have had 3rd prize, although light in hackle and coarse in comb. Hens were a good lot, a score of 88½ under Mr. BICKNELL'S severe cutting, not being able to get 3rd place. 1st and 2nd pullets good, but coarse in head and narrow over eyes.

Dark Brahmans were represented by only six birds, the 1st prize cockerel a particularly fine one, nothing else in class of any particular note.

White Cochins, six birds only, not of any particular excellence.

Partridge Cochins were represented by one pair of fowls, good birds, but not able to take 1st prize here, the Association demanding that a bird must score 90 points to get a red ticket.

1st prize Langshan Cock, a grand large bird, but poor in comb. Your correspondent thought that the red ticket on cockerel should have gone to an unnoticed bird.

Wyandottes were a large class, 1st prize breeding pen a fine lot, good legs and combs, and well marked, but cockerel off on breast lacing. Second prize breeding pen, fair birds individually, but not well matched, cockerel bad in comb and breast marking.

In Games, the 1st prize black B. R. Cock was a good one, fine in tail and head, well up on legs, but off in symmetry; 2nd and 3rd well placed.

Black Red Cockerels were a better lot, 1st and 2nd prize winners both very good, grand station and symmetry.

First prize pen contained some fine females of this variety.

Yellow Duckwing breeding pen well marked birds, but low station.

First prize Y. Duckwing Cock, poor station, off in head, and a big tail.

First and 2nd S. Duckwing Cocks, well placed and good specimens; hens of no particular note.

Red Piles, a small class, 1st prize cock a good one but in poor condition.

Black Leghorns were a fairly good lot, but showing room for improvement.

Houdans, a small class, 1st prize pen

were a very evenly marked lot; 1st prize cock and 1st hen fine specimens, large size, well marked, good crests and beards, and well developed fifth toe.

S. S. Hamburgs, a small class, two light in marking, with exception of 1st prize pullet, which was a fine one.

G. P. Hamburgs, only one pair, fair birds.

W. F. black Spanish, a fine pen, good in comb and face; 1st and 2nd cockerels very good birds, and so was the balance of the class.

Some good white Wyandottes and white Plymouth Rocks were shown. The 1st and 2nd white Rock hens and 1st W. Rock pullet were beauties, large well developed specimens, having the typical Plymouth Rock shape.

Plymouth Rocks were a very large class, and contained many excellent specimens, but neither cocks nor hens scored up to the 90 points necessary to get a red ticket; consequently, only 2nd and 3rd prizes were awarded in these sections of the class; the writer considered two unplaced cocks better birds than the winner of 3rd ticket.

The competition in cockerels was very strong, there being three ties for 1st prize score 90¾: 1st, 2nd and 3rd breeding pens contained some very well marked birds; 1st and 3rd prize pullets well marked, light coloured birds with good yellow legs. The writer thought 3rd prize pullet a better bird than the winner of 2nd place.

Brown Leghorns were a good class and contained some well marked birds scoring well up in the nineties, and it was the universal opinion that a bird in any class that reached 90 under Mr. BICKNELL'S scoring, was something that no breeder need be ashamed of.

White Leghorns were as usual a very large class, and it required some nice discrimination to place the tickets. First prize breeding pen very fine, cockerel good in comb, ear-lobes and legs.

Tickets well placed throughout the class.

The Bantam classes were well represented, some very fine Black Reds being shown, also Brown Reds and Pyles; Seabrights were good; Japs, only one pair; a few good Pekins and Rose-Comb Blacks.

Pigeon fanciers failed to put in an appearance, only one pair being shown.

Taken altogether, the show was a decided success, and the quality of the birds showed quite an improvement on the last show.

MONTREAL POULTRY, PIGEON AND PET STOCK ASSOCIATION.

FROM OUR OWN CORRESPONDENT

One of the most remarkable Institutions of Montreal, is the Poultry Society. Possessing a working membership of about a dozen, they manage year after year to hold a successful exhibition which is a tribute to their enterprise and untiring industry as well as a credit to Montreal. There is, perhaps, no other city on this continent that has held exhibitions year after year for so long a time as Montreal.

These shows have been a most powerful factor in promoting the poultry interests of this Province; for one has

only to look back ten years, and compare the quality of fowls exhibited then and now, to see the usefulness of the Montreal society. Again there are breeders in this city who are known from one end of the Dominion to the other, and are making a name for Montreal in the Agricultural world. The time has come when such work and such faithful services to the Province should be more appreciated; and as the Province of Ontario has for years given a grant of \$800 to the Ontario Poultry Association, to aid it in encouraging this Branch of the Agricultural interests of the Province, the time has arrived when the Quebec Government should give a grant to the Poultry interests of this Province. They cannot afford to be behind Ontario in promoting every object that will tend to enrich the Province.

These remarks are, by way of introduction to the annual show, which is now going on in the Frazer Institute Building. No more appropriate place could have been selected, as this is the Free Public Library of Montreal and is doing its work as an educator for the farming interests of the Province.

I notice the entries are about 50 more than last year, and as the hall is more than double the size of that of last year, the exhibits are seen to much greater advantage. The exhibitors from outside the city are:—G. S. Aldrieve, of Kingston, Bants. G. C. Howison, of Brockville; Leghorns and Plymouth Rocks. J. A. McLean, of Lancaster, a new beginner in the show room; A. Pepler, of Melbourne, Black Minorcas; R. Dunton, of Richmond, Plymouth Rocks; U. Bonneville, of Danville, with a large exhibit of Games; he also shows a pair of Turkeys that pull the weight at 75 lbs. A. Paquette, of Danville, shows four black-red Games. H. Desaulniers, of Richmond, Langshans. The Montreal exhibitors are Thomas Costen, Plymouth Rocks, Wyandottes and Pekin Bants. The only drawback to the show is the ab-

sence of this gentleman, the honored President of the Society, who is lying on a sick bed to which he has been confined for weeks. He and his family have the sympathy of every one of his brother fanciers. Thos. Hall, of "Lansdowne," Light Brahmas; A. Joyce, Dorkings, Hamburgs, Leghorns, Wyandottes, Plymouth Rocks, Andalusians and white Plymouth Rocks; Jas. Ainslie, dark Brahmas; W. Cox, with his partner O'Neill, Games and Game Bants; Wm. Cox with Bants, R. Elliott with Spanish.

The Pigeon men are well represented by Ainslie, Currier, Lavers, Arahill, Elliott, Metcalf and Messrs. Cox and O'Neill.

The singing birds are represented by Messrs. Philpot, Mines and Bastien, who have a splendid variety of birds. Mr. Philpots collection of rare foreign birds is the centre of attraction in the bird room for every visitor.

Among the fanciers in the show room from a distance, I noticed Messrs. Aldrieve, of Kingston; Howison, of Brockville; McLean, of Lancaster; Dunton, of Richmond and Bonneville of Danville.

The Judges were through their work in good time, and the red tickets put on immediately after the judging. Nearly all the tickets were on the first day, which gave great satisfaction to the exhibitors, as one of the defects of poultry shows is the fact that it is often the last day before many of the prize tickets are placed on the coops.

J. C. Nichol judged the Games and Game Bants. His thorough business like manner of procedure was most marked, and his awards met with general approval. The following is a full list of the judges:—

CLASSES I (except Langshans,) II, IV, VI, IX, and X., MR. AINSLIE.

CLASSES III, V, IX, XI, and Langshans, MR. HALL.

CLASSES XII to XXXV, MESSRS. JOYCE, CURRIER and AINSLIE.

CLASS XXXVIII, MESSRS. PHILPOT and SCOTT.

The Secretary, J. H. Cayford, (how long has he been secretary?) was around as usual, making things lively for the exhibition. It is time a little new blood was infused into this department of the show. Experience has shown that the new departure of last year of holding the show up-town is the correct one, as we noticed in the hall many of our leading citizens with their families, who would not have been present if the show had been down town.

CORRECTIONS.

Editor Review:—

I see by the Owen Sound Prize list that my Light Brahma Hen comes in for only 2nd place, with which I beg to differ. You will find enclosed, her score card, which if properly added up, will score 92 and cut one for weight by I. K. Felch, Esq. By kindly giving this space in your valuable paper the REVIEW, you will oblige yours &c.

H. S. McDONALD.

Mansewood, Feb. 22, '88.

(Our correspondent is correct in this according to the score card he has sent for our inspection. The hen is cut half on ear-lobes and 1 on wattles, which is extended $2\frac{1}{2}$ in mistake for $1\frac{1}{2}$. The correct score is 92, not 91.—ED.)

Editor Review:—

We notice that the report of the Owen Sound Show gives Wm. Fleming, President of the Association, 1st prize on breeding pen B. B. Red Game instead of us. Will you please note in your next issue that we exhibited the 1st prize pen of B. B. Red Game at Owen Sound. We have written to Secretary of the show to have correction made, but he may overlook the matter, thinking it of little note, but it

is quite material to us. We want credit for all we won at Owen Sound.

DEWAR & MITCHELL.

Milton, Feb. 20., '88.

Editor Review:—

In Owen Sound prize list I find the following mistake:—Second prize white Leghorn cockerel should read T. Rice, Whitby, score $94\frac{1}{2}$; at Bowmanville, 1st prize white Leghorn hen, Thos. Rice, Whitby, score $96\frac{1}{4}$. By correcting those mistakes you will oblige,

Yours truly,

THOS. RICE.

Whitby, Feb. 20., '88.

Editor Review:—

Mr. Burroughes writes me that you credit T. Male with 2nd on Owls. If such is the case it is incorrect, as Mr. Burroughes took 1st and 2nd on owls. Please correct and oblige,

Yours truly,

W. SANDERSON,

Sec. Stratford Ass'n.

Mr. J. H. Cayford, Box 1,168, Montreal is our Agent and Correspondent for the Province of Quebec. Any correspondence relating to subscriptions or advertising may be addressed to him.

ANOTHER EXTRA.

Our advertising columns are so crowded and show matter has taken up so much space this month that many interesting items have to be held over. To meet the press of correspondence &c., we shall issue a small extra between the 10th, and 15th, of this month, in which the departments crowded out of this number shall have special attention.

A limited number of "ads" received at regular rates.

We have no "puffs" in reading matter at any price so please do not ask for

them. It only puts us to the pain of refusing them.

If you think the REVIEW is worthy of patronage send in your dollars for it, if not, don't.

We invite a careful inspection of the great number of "ads" contained in our pages this month, a number of which appear before you for the first time. We believe them all to be trustworthy and reliable otherwise we should have refused them the use of our columns. As to our American patrons, we may say that there is *no duty* on thoroughbred fowls and eggs imported from the U. S.

All those interested in the breeding of sheep should send a stamp to the *American Sheep Breeder* for a sample copy. The *Sheep Breeder* is an illustrated monthly published at Chicago, Ill., at \$1.00 per year. The publishers are now offering a premium that should adorn the parlor of every sheep-owner in America. It is an exceedingly fine engraving, entitled the "Sheep Fold," a reproduction from the famous prize painting of Jacques the noted French artist. This is no *Cheap John chromo*, but a magnificent work of art. The paper for one year with the engraving sent post-paid will be \$2.00. The C. S. Burch Pub. Co. are the publishers. Address, *American Sheep Breeder*, W. W. Burch, Manager, Chicago, Ill. 3 4

AN EASY WAY TO GET FELCH'S GREAT BOOK.

To any one sending us five new subscribers with \$5 we will send a copy of "Poultry Culture" by I. K. Felch, value \$1.50, a book no fancier should be without. We have lots of these books so don't be afraid the supply will run out.

CONSUMPTION SURELY CURED.

To the Editor:—

Please inform your readers that I

have a positive remedy for the above named disease. By its timely use thousands of hopeless cases have been permanently cured. I shall be glad to send two bottles of my remedy FREE to any of your readers who have consumption if they will send me their express and P. O. address.

Respectfully,
Dr. T. A. SLOCUM, 37 Yonge St.
Toronto, Ont. 1 6

LEGAL DECISIONS REGARDING NEWSPAPERS.

1. Any person who takes a paper regularly from the post office whether directed in his name or another's, or whether he has subscribed or not, is responsible for payment.

2. If a person orders his paper discontinued, he must pay all arrears, or the publisher may continue to send it until payment is made, and then collect the whole amount, whether the paper is taken from the office or not.

3. In suits for subscriptions, the suit may be instituted in the place where the paper is published, although the subscriber may reside hundreds of miles away.

4. The courts have decided that refusing to take newspapers or periodicals from the post office, or removing and leaving them uncalled for, while unpaid, is "prima facie" evidence of intentional fraud.

TRIMBLE'S "AWAY UP"
B. B. R. Games of Light Brahmas

are again on deck, and for the season of 1888 are to doing their egg business. Owing to heavy cuts on weight my Brahmas had to play second fiddle at Ottawa, but don't forget that I imported three years ago and bred the trio from which the Ottawa winners came, and that while my birds were not fat enough to be up to weight they will be the better stock getters.

Orders for eggs, of either variety, booked now, and filled from same yards as I use for my own breeding.

Thanking the fancy for past business, I can assure all of square dealing in future.

B. B. Red Game Bantams

My Brahmas are well known prize winners, Bantams little beauties, stock for sale at all times. Eggs, Brahmas \$3.00 per sitting; Plymouth Rocks \$3.00; Bantams \$2.00; also imported Collie dogs.

“Braeside Poultry Yards.”

White Plymouth Rocks and White Wyandottes a Specialty.
My Strains of above varieties and their record are surpassed by none.

WHITE PLYMOUTH ROCKS.—I was awarded this season the following, 1st on Cockerel and Pullet, Ontario Show, London January, 1888, Cockerel Scoring 94, Pullet 96½. First on ditto, Orangeville, Jan., 1888. At Ottawa, 14th February, 1888, I obtained 3 firsts, 2 seconds and 2 specials. Those prize-winners were personally selected and judged by J. D. Nevins, of Philadelphia, for me, and are direct from his choicest stock.

WHITE WYANDOTTES.

I only exhibited at Ottawa this season, and won on every bird shown, 1st on Cockerel, 1st and 2nd on Pullets, and 2 specials. Subjoined is Knapp Bros. certificate of sale and record:—
“This is to certify that we have sold and shipped this day to H. H. Wallace, of Woodstock, Canada, the finest pair of White Wyandottes sold by us this season to go into Canada. They were scored at Indianapolis, in January last, by Fred E. Scheel, Cockerel scoring 93, Pullet 94, and won 1st prize at Onandaga County Fair, held at Syracuse in September last.”
Fabius, N.Y., 9th Feb., 1888. KNAPP BROS.

Above needs no comment from me. Will guarantee every egg I sell, both varieties to be from above stock. Have only the one breeding pen of each, 8 Pullets and Cockerel. Can supply a limited number of eggs at the following prices, from both varieties.

\$3.00 per Setting of 13, \$5.00 for two Settings. Apply Early.

“PEKIN” AND “ROUEN” DUCKS.

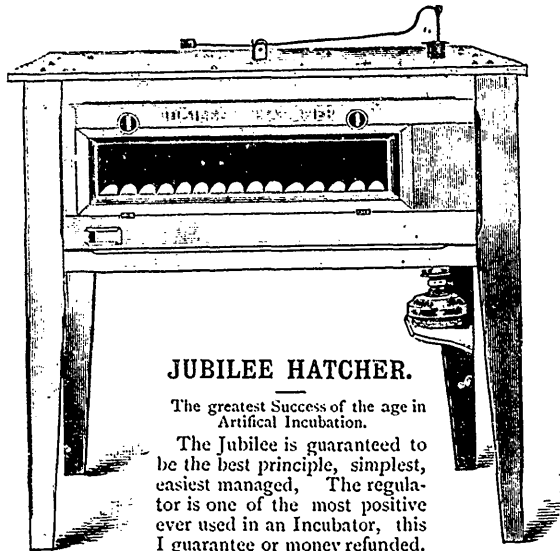

My Pekins were awarded 1st at the Western Fair, Sept., 1887. Have purchased, and have now in my yards, from J. H. Paton, Hamilton, the finest pair Pekins in Canada, carrying off first wherever shown; scored by L. G. Jarvis, Drake 99 and Duck 97½ points, mated with three more magnificent Ducks. Rankins best Eggs from this grand stock \$2 00 per 13. My “Rouens” were awarded 1st at the Western Fair, Sept., 1887, and 2nd at Ontario Show, London, January, 1888. Eggs \$1.50 per 13 or \$1.00 per 9.

Satisfaction guaranteed and correspondence cheerfully answered.

W. J. LEWIS, PROP.

Breeder of the Celebrated True Blue Strain of P. Rocks. Having won high honors at most of our leading shows since 1885. Yard No. 1 headed by old True Blue, which is admitted to be the best Cock in Ont. today, and which I have mated up with 8 first-class imported Hens, which must throw a large percentage of first-class stock. Yard No. 2 is headed by the Cock "Champion," first at Owen Sound as a Cockerel, 1887, and first at Seaforth same year, I. K. Felch, Judge; and again at Owen Sound, as a Cock, securing second only beaten by old True Blue one point, and mated with 10 Ar. Hens and Pullets, got by old True Blue, which must give good satisfaction. Eggs from those yards at \$2.00 per dozen.

BLACK MINORCAS.

My stock in this variety consists of Cock "Old England," with 8 first-class Hens Imported from Messrs. Abbott Bros., Norfolk, England, 1887. This Cock is admitted, by all who have seen him, to be the best bird on this side the Atlantic, with the high score of 96 1-2 to his credit, under I. K. F., at Owen Sound, 1887, Hens 93. I have also a few choice young birds from this really fine pen for sale, which I must dispose of to make room. Write for prices. Eggs for sale now at \$2.00 per dozen.

Warranted Seed.

I have founded my business on the belief that the public are anxious to get their seed directly from the grower. Raising a large proportion of my seed enables me to warrant its freshness and purity, as seen in my Vegetable and Flower Seed Catalogue for 1888, FREE for every son and daughter of Adam. It is liberally illustrated with engravings made directly from photographs of vegetables grown on my seed farms. Besides an immense variety of standard seed, you will find in it some valuable new vegetables not found in any other catalogue. As the original introducer of the Eclipse Beet, Burbank and Early Ohio Potatoes, Hubbard Squash, Deephead Cabbage, Cory Corn, and a score of other valuable vegetables. I invite the patronage of the public.

USE GUEST'S ROUP

OR

Tonic and Condition Pills.

If your fowls or pigeons have Roup, even if almost dying, give one Pill every day, for four or five days. They are especially suited for Roup, Rousy diseases, Bad Moulting, Bad Fledging, Weak Young Pigeons, Chickens, Turkey or Chicks, &c. For General Unhealthiness in Birds, either young or full grown. Skin diseases, Inflammatory diseases, Colds, with great difficulty of breathing. Indigestion, Cramp, Pip, when Apoplexy is feared, and going Light if given before the vital organs are too much affected. As a Tonic give an occasional dose when required. For pain and inflammation in the Egg-producing organs. When used for Egg-bound, oil must also be applied in the usual way. For weakness and prostration from Overlaying. For Scour or Diarrhoea in Chickens, young Pigeons, Turkeys, &c. Canker. Leg-weakness.

Since the introduction into Canada of these Pills, the Agent has received numerous letters from Fanciers all over the Dominion endorsing the Pills in the highest manner.

READ THIS.

DEAR SIR,—I can recommend them to be the best. I tried several other receipts, but no good. I had one hen nearly blind. I gave her three pills. She is now in good trim. Send me another packet.—B. J. YORK.

WARDSVILLE, Ont., Jan. 1877.

DEAR SIR,—Please find enclosed one dollar for your celebrated Roup Pills. A brother fancier met me in the street to-day, he wished me to get the pills as he had some sick birds. He used them last winter and found them good. A good article will always recommend itself.—JOHN FINCH.

HASH!

COMPOSED OF FRAGMENTS OF REVIEW CORRESPONDENCE.

FROM HON. SID. CONGER, FLAT ROCK, IND

Today I received your extra of the Feb. CANADIAN POULTRY REVIEW, and

was very much surprised to see such a good report of the proceedings of the American Association.

As this extra contains a full report and knowing that our home papers have great advantage over yourself to get this report, I am doubly surprised that they have not already got the report in, but yours is the first of the kind I have heard of or seen.

For such enterprise the American and Canadian fanciers should see that you are nobly supported. You may give me an ad in your next number.

A. HOBBS, BOWMANVILLE.

A Mrs. Day, a neighbor of mine had a white Leghorn pullet die on Friday, it was in good health to all appearances, so she opened it, when she found the liver entirely filled the inside, she called me in to see it, she then removed the liver it was seven inches long and five inches across, it weighed the next morning 12 ounces it was more like a lambs liver; my wife showed it to the butcher when he asked, is it a lamb's liver? she told him it was a pullets liver, he could hardly credit it. Is not this remarkable? in all my experience I never saw anything to equal it.

DUNCAN MCGREGOR, MAPLETON.

I think your paper is firstclass, it is just "boss."

I am very sweet on Light Brahmas, and would like to hear more of them through your paper.

M. M. CONNER, ADA, OHIO.

Enclosed find \$1.00 for sub. to your paper which please forward to my address. I notice your journal has improved wonderfully in the past year.

A. W. BELL, TORONTO.

Your latest enterprise, recording meeting of American Ass'n, clearly shows that the REVIEW intends to stay and I hope it may long continue to flourish as the leading Canadian Poultry paper and take the "back wash" from no American paper.

Wishing yourself and the REVIEW every success.

R. H. TRIMBLE, NAPANEE.

You see your prediction was right, I proceeded to sell my Games till I got down to six, when I got lovesick and bought a lot of them back.

RICHARD OKE, LONDON.

I say patronize the REVIEW and not American journals. Canada for Canadians, as the saying goes, you should be rewarded for your efforts. I think the January No. of the REVIEW is a *Daisy* and second to none of the American journals that I have seen yet, and I think the Canadian fanciers should be proud of their REVIEW and patronize it liberally, these are hard pan facts.

J. BARRAND, GRAVENHURST

You will find enclosed one dollar for my subscription for 1888 I have been well pleased with the REVIEW for the last year, and I wish you every success in the future. I might say that I put a small advertisement in the REVIEW last April I had a great number of answers to it.

P. H. FANQUIER, BRAMPTON.

Enclosed please find \$2.00 being the amount due you for my subscription to the POULTRY REVIEW. Please acknowledge receipt and oblige I admire your paper greatly, for it gives one who

is a great admirer of Poultry, many interesting facts. There is one thing I would like to see done at our Exhibitions, a more honorable way of awarding prizes. Now I could not help but notice the favoritism, that was shown to a certain few hailing from Middlesex County at the Toronto Industrial of 1887. Take the Plymouth Rock and Brown Leghorn classes, why the birds that received first prize, I would not have them in my breeding pens, on any account. I never exhibited any birds myself, so do not imagine that I was having my corns tramped on. I would not exhibit at any show for I know that I would not stand any show, with these moneyed men, no matter how good a class of birds I have. It is one of the greatest pleasures and studies in my life the breeding of Poultry and I only wish there was more encouragement given to such fancies, and not to the monopolists.

When I said I never exhibited I made a mistake I did exhibit this winter at the Or. zeville fair some Plymouth Rocks sending a breeding pen and six other birds, and after paying my entrance fee Railroad fare etc., the result was six birds scored, and my breeding pen taken no notice of, well in the first place my object in sending to the Exhibition was for the purpose of getting the lot scored so as to know *how to mate* for the *coming season*, and not for the prize particularly. I trust you will pardon me for taking up your time but if you can in any way through your valuable monthly, improve Justice at our winter Exhibition etc. by giving a few suggestions through your columns, it will more than please those who are poultry fanciers, and readers of your REVIEW.

ORANGEVILLE POULTRY ASSOCIATION.

ANNUAL EXHIBITION.

Please find herein a list of prizes with scores awarded at the Orangeville Poul-

try Association Exhibition, held 24th, 25th and 26th January, 1888.

I was requested in sending report to state the exhibitors were particularly pleased with the work of MR. L. G. JARVIS as judge, so much so was it the case that those who came prejudiced against him were the first to express their satisfaction. In brief, there was a consensus of opinion that MR. JARVIS is a most capable, painstaking and impartial judge of fancy poultry.

The exhibit in regard to number of entries was 50 per cent. ahead of the previous year's show. All outside exhibitors present received their prize money and score cards before they left, and those not present, received theirs by next mail. Home exhibitors had to be content with the return of their entry fees and the "glory" won, the management contributing out of their own pockets to square up matters that way. It would seem that some new scheme will have to be devised to make poultry exhibitions a financial success.

Your truly,

W. T. BAILEY,

Secretary.

EASTERN ONTARIO POULTRY AND PET STOCK ASSOCIATION.

The fourth annual exhibition of this Association was held in Ottawa, from 14th to 17th of Feb., and as expected, was a success in every particular. Heretofore, the practice has been to pay exhibitors from a distance with the funds contributed by local fanciers (when necessary) in order to bear a good name with the poultry world around us. Fortunately, the tide has turned, and a system so discouraging, we trust, will have to go elsewhere to find an abiding place. At any rate, we have no further use for it. Every dollar of our indebtedness has this year been paid out of the legitimate receipts of the exhibition, and while we cannot boast of a large surplus, we have on hand coops, and other paraphernalia of a poultry show, sufficient to give us a good start, and if the fifth annual exhibition of the E. O. P. & P. S. A. is

not one of the best of the season, it wont be owing to the want of enthusiasm on the part of the fanciers of Ottawa.

MR. BICKNELL gave great satisfaction as the judge, and placed the red tickets where they properly belonged, as evidenced by the absence of the chronic kicker that usually haunts every poultry show. But what a gigantic fraud on the fancy, to invite a gentleman all the way from Buffalo to act in the capacity of judge, when we have in our midst so able (?) a dissector of the *Gallus Bankiva*, as your regular correspondent appears to be. (*Vide* March REVIEW.) From the report just furnished you, it is evident that there are large "cock tails" not to be found in the Game bird your correspondent attempts to describe. Below is the list of winners:—

HOMING ANTWERP.

LARGE VERSUS SMALL BIRDS.

An interesting discussion is now going on in the *Homing Exchange* on the above subject, MR. JNO. VAN OPSTAL, well known to all Homing fanciers, gives his opinions as follows:—

I have read with much interest the article of Mr. Thomas Brooks entitled "Facts vs. Fancy," which appeared in your November issue, in which the above named gentleman shows unmistakable preference for the large kind of Homers, principally those crossed the most with the English Carrier. Not only is Mr. Brook's preference for the crossed English Carrier, but by his theory inclines to make believe that they are the best birds for flying purposes.

Now if the above views as expressed by Mr. Brooks remained without an answer, a number of young fanciers without experience would not hesitate to discard all other birds, to do away with the smaller kind, and we would, before long, hear from nothing but the

the wattled birds, of which Mr. Brooks is such a great admirer.

Before commenting on Mr. Brooks' article I will give my ideas about the best kind of Homers, and will not only back up my theory, not alone with my many years of experience in this country and in my native city of Antwerp in Belgium, but by the best writers on Homing pigeons, namely, Dr. Chapius, of Belgium, and Dr. Perre De Roo, of Paris, France.

Let me say first that Mr. Brooks commits an error, no doubt an involuntary one, in saying that the Becs and Demi-becs are the largest and most powerful of the Homers of Belgium; we don't consider a Bec a Homer at all in Belgium, we call a Bec there "Unbec Anglais," an English Carrier, and a Demi-bec in Belgium is called a cross between a pure English Carrier and a homing bird, or at least a bird which shows by its wattles that it is about a half English Carrier breed.

Among the latter we find but very few good birds, and even if good for a year or two, at the third year or later they generally get too heavy, which hinders their good flying, while birds less crossed with English Carrier get better and stronger as they advance in years. Let me not be understood as saying that it is not good to cross a bird that shows English Carrier with the smaller kinds of birds which show no Carrier at all, such as the Cumulets or Smerles, and of which pure breed there are hardly any pure types to be found to-day, as all have been crossed or recrossed these last seventy-five years, so that to-day there are hardly any birds in Belgium, but what there is some English Carrier mixture in them, in a great many so little it may be that it is hardly perceptible. Dr. Chapius, the best writer on homing pigeons, speaking in his book of the crossing of the homing pigeon says, "To-day, after a multitude of trials, we have obtained a new breed of Homers which seem to have won the confidence

of the fanciers by the brilliant results which they have shown. They form now in Belgium the main of the lofts of the fanciers, and to such an extent that it would be difficult to find at this time a type of the pure Smerle or Cumulet.

We have seen and heard of the good side of the crossing, but we find yet adversaries, deceptions have often been multiplied; how often has not an intelligent breed by its crossings with the English Carrier given stupid products; bred under the best conditions, perfect pictures in feathers, strength and health, arising in their owners the best of hopes, the products have been lost in their first voyage of training.

"However, on the other side of the disasters, there have been successes; other fanciers have done better, and those that have failed in their first trials have tried new experiments. In the nature of things the unintelligent products have been lost while training. Those that have succeeded have returned to their lofts and have formed good stock, the selection has been made of itself."

See what Mr. La Perre De Roo says: "We can cross without inconvenience, the Smerle with the large and strong Antwerp, with the prospects of gaining birds of larger size; but I cannot enough disapprove the crossing of foreign breeds, not Homers, (*non voyageures*) because, I really don't know what merits the Belgian Homers could derive from pigeons which have not the least degree of orientation, meaning, those that have not the least faculty of finding their way home from any middling far distance. I have been told that fanciers frequently buy English Carriers with a view of breeding Homers from them, instead of going ahead this is going backwards, and I am certain that the fanciers who have tried the experiment will not persevere in a way of which the results have been absol-

utely negative, as I will try and demonstrate:

"The Belgian Homer has not been created in a day, by a single crossing with an English or Persian Carrier (*Columba tuber culose*), but is the result of multiplied crossings where hazard and the unknown have played an important role, and of which the products have been tried with severity without mercy by lady voyage (*dame voyage*), because the Belgians since more than half a century, make their birds travel without interruption, and it is, I think, superfluous to add that the mediocre subjects are always lost while traveling, and that the good birds only, return to their lofts.

"The result then of those annual trials is that the Belgian fanciers have at the end of the year in their lofts none but the best birds."

When Mr. Brooks speaks about the Smerle I don't think that he means the pure breed, but those that show by their short beak that they are the most related to it.

Of the numerous birds which I have received from Verviers, the noted home of the original Smerle, as Antwerp is the natural home of the Cumulet, I have received but a very few, which I consider almost pure Smerle, all the rest were crossed between the Cumulet, with a small percentage of English Carrier blood in them, and I always recommend and do myself cross the smaller with the larger birds and those that show no Carrier at all.

My theory is that the English Carrier being an unintelligent bird as far as flying qualities are concerned, we should keep it out of our homers as much as possible, only keeping so much in as is required to give strength to make a good homing bird.

WHITBY POULTRY ASSOCIATION.

An enthusiastic meeting of local fanciers was held in Mr. Pringle's office Whitby, on Friday afternoon March 2nd, at which a poultry association was formed, to be known as the Whitby Poultry Association. The new association starts with a membership of nearly twenty, all of whom are known as thorough-going fanciers who will do their utmost to make the association in every respect a decided success. The following officers were elected, viz.—Mr. THOS. RICE, Whitby, President, & Mr. FRANK C. HARE, Secretary and Treasurer. Mr. Rice and Mr. T. Hawes of Whitby were appointed delegates to the Industrial exhibition. It was decided to hold the next meeting on Saturday, March 10th, at two p. m. It is hoped that the society inaugurated under such favorable auspices may grow in strength and influence.

FRANK C. HARE,
Secretary.
