PREFACE

This volume provides an Analytical Index of the Official Report of the Debates of the House of Commons for the session 1907-8, and is designed as a ready reference for the use of Members of Parliament and others who have to make research.

The work is in three sections,—an index to the daily sessions of the House, a Subject Index and a Name Index. In the first section the columns occupied by each sitting of the House are recorded, in the second the questions discussed are treated analytically under the subject heading; in the third section the members' names are arranged alphabetically and the subjects discussed by each member follow his name in alphabetical order.

This volume has been prepared by instruction of the Debates Committee of the House, and by Order of Parliament.

ADDRESS IN REPLY TO THE SPEECH FROM THE THRONE—Con.

Clements, H. S. (West Kent)-194.

Hall was honest enough to credit Sir John Macdonald with Peterborough's progress, 194. Campbell obliged to forsake his party allegiance and be shuffled off with the old grey-haired chaps over in the Senate, 195. No more popular movement than one for the real genuine reform of the Senate, 196. The Conservatives took exception to the Meat and Canned Goods Inspection Act, 197. Can see no reason for the legislation at all, 198. Knows more about farming in twenty-four hours than Fisher will ever know in his life 199. The regulations protect the foreign consumer but do not protect the Canadian produce, 200. The real sentiment of the Chatham meeting in regard to Fisher, 201. There is no reason for this iniquitous legislation, 202. Hogs are culled out for some spots on their liver or lungs, 203. The farmers, the mechanics and the labourers are the people who need attention, 204. Give the Canadian farmer every dollar of the Canadian market, 205. Only two changes in the tariff in the interest of the farmers, 206. Changes were promised in the interest of the Canadian tobacco grower, 207. Reads a circular from the Empire Tobacco Company, 208-9. The government could afford ownership in cold storage, 210. Believes intermediate tariff will prove a curse to the Dominion, 211. What we want in our immigrants is quality not quantity, 212. Will leave the inspection of fruits to be dealt with by others, 213. Was not asked to speak in Chatham, 214. Was there to back up his arguments against the regulations, 215. The treasury has been handed over to friends and partisans, 132. Do not buy anything outside which we can produce at home, 135. Does not see much gratification at the present time in the increase in immigration, 134. Five hundred people now being fed in the city of Toronto, 135. expected this government to do anything along the lines of Imperial trade or Imperial defence, 38. Not hopeful of any great results for Canada from the French treaty, 139. Calls particular attention to the cost of the Transcontinental Railway, 140. Quotes Laurier in Hansard as to the cost, 141. When Laurier said the road would be built for \$13,000,000. Blair left the party, 142. Sooner or later the country will have to pay for the Quebec bridge, 143. The post office the most undermanned and underpaid service in the Dominion, 144. The insurance business should be rehabilitated, 145. Invite all to see that we get honest and straightforward elections, 146. Let us unite in getting clean, honest, straightforward elections in this Dominion, 147. Moves an amendment to the address, 167-8.

Crawford, John (Portage la Prairie)-316.

Success and prosperity exist amongst people who help themselves, 316. Difference of tone in the Speeches from the Throne in 1895 and 1896 and that this session, 317. Not much in Conservative Speeches from the Throne regarding the flood of immigration, 318. Immigration from the States: quotes Charles N. Pepper, 319. Something that never happened when our Tory friends were in power, 320. No real stringency in the money market, 321. Land values better to-day than ever before, 322. Some farmers not as wise as they might have been, 323. The difficulty of getting transportation for grain, 324. No surplus of labour; threshing outfits shorthanded; men wanted to cut wood, 325. The Japanese question another indication of Canada's progress, 326. Borden always ready to make people believe he is going to do something great and grand, 327. Does not deem the question of government ownership worthy of consideration, 328. The only members unseated for corruption in Manitoba are Tories, 329. All judicial power in the province has been used against the Liberals, 330. Passed a special Act to satisfy a few electors, 331. Do not think the Tories are going to give you clean elections, 332. Some legislation required in connection with our judicial institutions, 333.

Elson, Peter (East Middlesex)-304.

Ex-perienced men on the Conservative side passed over, 97-98. Not much concerned passed over, 97-98. Not much concerned with what he himself or Borden did twenty years ago, 99. Strong dislike of the opposition to any mention of sur-pluses, 100. Must make allowances for the opposition if comparisons are odious, 101. There is a material reduction of taxation now as compared with 1896, 102. Opposition abandoned adequate protec-Opposition abandoned acequate protec-tion and adopted new government tariff policy, 103. McIntyre, G. H. (South Perth)-455.

The connection of the debate absolutely broken. Armstrong being assisted to elucidate his point-455. In the amendment has taken stronger ground than Borden-456. Whilst his remarks go further than his amendment-457. An opposition can advocate a policy it cannot be called upon to put in force-458. Not a single post office in one township in his riding-459.

McIntyre, W. (Strathcona)-445.

Time of the House taken up discussing question more fit for the hustings than for Parliament-445; Armstrong was himself on record and by that record he must be judged-446. This proposed system would result in a further starving of the west-447. To establish rural free delivery in his constituency would use up al the surplus-448. There will be a party in the soup after the mext general election but not the Liberals-165.
- Monk, F. D. (Jacques Cartier)-535.
 - Barker rendered an important service to the House and to the country-535. Very few gentlemen of the city of Quebec interested in the enterprise-536. He was the only one who opposes engaging the responsibility of the country-537; Fielding very reluctantly brought those resolutions before the House-538. Gentlemen of undoubted respectability lent their names; answers to the Senate evasive-539. Thinks Fielding did make a battle against the absurd, ridiculous, absolutely indefensible scheme-540. No accounting of how these vast sums that were given the company were expended -541. Of one thing there can be no doubt, there was no supervision-542; Has very grave doubts whether the stock was ever subscribed and paid up-543; We shall have to pay a much more considerable amount than we undertook to pay-544. There was no supervision or careful examination of the plans-545.

Pugsley, Hon. W. (Minister of Public Works) -81.

Foster has had some failures in New Brunswick himself-81. Was not associated with Mr. Russell in newspaper or land deals-440. There are many others who know about it besides myself-441.

Roche, Wm. (Halifax)-267.

Cockshutt has gone about the country dilating on the unfortunate condition of business-267. Afraid he has all the frenzy of a prophet without the inspiration-268. Not sufficient evidence to warrant him in moving his amendment -269. Great difference between the Canadian and United States banking systems -270. This amendment might cause distrust throughout the country-271. Last year the most profitable of any in our history-272. The government has acted as wisely as the most sagacious and prudent bank manager would have done-273. Country prosperous now and likely to be-274.

Inclined to think the amendment cannot be moved—530. It is a repetition of something that has been disposed of already —531.

Staples, Wm. D. (Macdonald)-383.

Crawford has become so bold that it is now necessary to notice his remarks-383-4. He would like people to believe that the Liberal party was only born in 1896-385. The great financial prosperity of the country due to the Conservative policy-386. What we want in our immigrants is quality not quantity-387. Admission by Fielding that there is a financial stringency-388. Crawford has changed his mind regarding public ownership-389. Polling lists in Manitoba looked as if they had been dipped in blood-390. The Roblin government and railway rates-391. The Manitoba boundary question should have been dealt with when the Autonomy Bills were-392. They were debarred from the extension they were entitled to. 'Liberal March' -393. 'There will be a Hot Time in the Old Town to-night'-394. Justice to Manitoba demands an extension of her boundaries-395. And that without constitutional limitations-396.

Wright, Wm. (Muskoka-)396.

Suggestions for conducting discussions on great public questions-396. The Liberals set out on a deliberate campaign to set class against class-397. The balance of trade, criticises the Minister of Agriculture-398. Government has done something towards bringing about good times in Canada-399. But they have been unable to point to a particular Act-400. Canada chained by reckless mining speculation-401. Would be wise policy to provide a market at home-402. Farmers in the United States in a better condition than those in Canada -403. Questions the accuracy of the immigration figures-404. ADJOURNMENT, HOURS OF-Con.

Borden, R. L. (Carleton, Ont.)-590.

- Some reform like this might be brought about under certain circumstances—590. Trusts the motion may come up at another session—591.
- Foster, Hon. Geo. E. (North Toronto)-591.
 - Was opposed to the Wednesday rule but is converted. Advocates shorter speeches -591. It ought to be possible to get through work every night by half past ten-592.
- Laurier, Rt. Hon. Sir Wilfrid (Prime Minister)-588.
 - Thinks on the whole it is as well to leave the rule as it is, and have a mutual understanding-588-9. If we are to despatch the business of the House, will have to work to some extent at night. Asks withdrawal of motion-590.
- Monk, F. D. (Jacques Cartier)-592.
 - Thinks Wright has taken a step in the right direction-592-3. Should try the day sittings. Would have plenty to do in the evenings-594.
- Taylor, Geo. (Leeds)-594.

Believes day sittings with Committees at eight would result in more work with less strain-594.

Wright, A. A. (South Renfrew)-584.

Moves his motion. The reasons for asking for the change-584. If the private members find difficulties to attend, how much more must the ministers-585. The majority of the members of this House are not accustomed to late hours; should consider the pages-586. What the legislatures of other countries do-587. ADMIRALTY JURISDICTION.

House in Committee on proposed resolution -Hon. A. B. Aylesworth-4835.

- Aylesworth, Hon. A. B. (Minister of Justice) -4835.
 - The object is to found a measure to improve admiralty jurisdiction; present conditions-4835. The statute of 1890 is the foundation of parliament's right to legislate on this subject-4836. Proposes to substitute ordinary civil tribunals for the Exchequer Court-4837. The courts aimed at by the Imperial statute are the ordinary provincial courts-4838. The greater power in every case where it can be given should be given the provincial authorities-4839. Annuities for existing admiralty judge; the changes in the provinces-4840. The only question is what means are most expedient to make better provision for the exercise of the jurisdiction-4841. Representations made to him by practitioners-4842. Not proposed to interfere with the present practice of the courts-4848. Cannot bring legislation into force till it has been

considered by the Imperial authorities-4844. Registrars will continue in their present positions; how remunerated-4845. Amends the sums for the registrars of Toronto and Nova Scotia-4846. Withdraws his amendments, and introduces Bill-4867.

Borden, R. L. (Carleton, Ont.)-4846.

Absolute impossibility of fusing admiralty law and general law-4846. We never can bring about any assimilation between them, 4847. Fails to see any ground whatever for the proposal before the House-4848. In what way does the question of provincial rights come in-4849. A system which has worked very well for seventeen years should not be lightly departed from-4850. Seems to him that there is absolutely no ground for the change proposed-4851.

German, W. M. (Welland)-4852.

- The changes proposed should have been made many years ago so far as Ontario is concerned—4852. It is far better that the procedure as it has existed since 1891 should be changed—4853. The change proposed will benefit litigants and claimants as well as owners—4854.
- Gervais, Honoré (Montreal, St. James)-4854.
 Surprised that no provision has been made for Mr. Justice Dunlop. Quotes the Montreal Gazette-4854. Is opposed to the Bill in toto; history of the admirally courts in New France-4855. Under the Act of 1890 only the provincial legislature has the authority to legislate-4856. Cannot be held that the Canadian parliament has power to deal with the question-4857. Judges will want compensation; the resolution uncalled for and inexpedient -4858. Resolution passed by the bar of Montreal-4859-60. Protest of the Montreal Board of Trade-4861. And the Shipping Federation of Canada-4862. The Shipping Federation do not want the Montreal admiralty judge paid by fees-4863. The government of Canada has merely the power of appointing judges-4864. Let us maintain admiralty practice separate from common law courts-4865. No one is asking for this legislation-4866. They may have before long to organize proper and constitutional courts of admiralty-4867.
- Porter, E. Guss (West Hastings)-4851.
 - Fails to see any sufficient reason for the change proposed, the result will be greater delays-4851.

ALL-RED ROUTE.

Motion-That at the Imperial Conference lately held in the city of London, England,

Henderson, David (Halton)-6987.

ALL-RED ROUTE-Con.

the following resolution was unanimously passed :--

- That in the opinion of this conference the interests of the Empire demand that in so far as practicable, its different portions should be connected by the best possible means of mail communications, travel and transportation: and that to this end it is advisable that Great Britain should be connected with Canada and through Canada with Australia and New Zealand, by the best service available within reasonable cost ; that for the purpose of carrying the above project into effect such financial support as may be necessary should be contributed by Great Britain, Canada, Australia and New eZaland in equitable proportions.
- That it is desirable that steps should be taken with all convenient speed to achieve the results aimed at in the said resolution.
- That this House doth hereby endorse the terms of the said resolution, affirming that Canada is prepared to assume her fair share of the necessary financial obligations.
- That in the opinion of this House it is desirable that the governments of Australia, Canada and New Zealand should, with as little delay as possible, agree upon a definite plan for carrying into effect the terms of the said resolution of the Imperial Conference, the same to be submitted for the consideration of the Imperial and colnial parliaments-Rt. Hon. Sir Wilfrid Laurier-12414.
- Borden, R. L. (Carleton, Ont.)-12432.
 - Not the slightest doubt as to the absolute importance of better means of communication-12432. Quotes Hon. Sydney Fisher on the fast line-12433. Regrets more attention has not been given to the question of freight rates-12434. On account of great expenditures must be careful how they commit themselves-12435. Believes every one in the House sympathizes with the object aimed at-12436. No peculiar advantage in pledging themselves to unknown liabilities-12438. Apparently only a 20 or 21 knot service on the Atlantic aimed at; moves an amendment --12439.

Cockshutt, W. (Brantford)-12448.

Cannot understand why South Africa is left out in the cold—12448. Does not see why the Premier overlooked the question of mutual preference—12449. A resolution submitted in the Chambers of Commerce of the Empire—12450. Another resolution; These were passed almost unanimously—12451. Trusts the Premier will incorporate the amendment—12452. Hopes both sides of the House will give it their support—12453. 10095—2

ALL-RED ROUTE-Con.

Daniel, J. W. (St. John City)-12469.

The All-Red line conceived many years ago-12469. Reads the conference resolution; not for a twenty or twenty-one knot service-12470. A 24-knot service means a separate freight service-12471. The Premier should have been a little more definite in his statement-12472.

Devlin, E. B. (Wright)-12487.

- The resolution commercially important to the Dominion—12487. The main object of the amendment is to defeat the motion —12488.
- Fielding, Hon. W. S. (Finance Minister)-12465.
 - The amendment distinctly declares that you must do nothing immediately-12465. This is not a case in which we are called upon to deal with details-12466. Passenger business being separated from the coarser freight business-12467. If some day we are to have one port all the year, that port would be Halifax-12468. The time is not ripe for parliament to deal with this question in detail-12469.
- Foster, Hon. Geo. E. (North Toronto)-12419.
 - Laurier not as positive in the House as he was in the Imperial Conference-12419. Canada has been gradually prying ahead towards a better and better service-12420. The attitude of the government towards these questions when in opposi-tion-12421. Quotes Sir Adolph Caron's resolution at the conference of 1894– 12422. That resolution did not find a dissenting voice in that colonial conference-12423. Quotes the Prime Minister on that resolution-12424. Well, the on that resolution-12424. Well, the country should know the kind of pro-position placed before the 1907 conference 12425. Reads the Premier's proposal-12426. Ouotes Mr. Deakin, Sir William Lynne, Sir Joseph Ward and Mr. Lloyd George-12427. Quotes Sir Wilfrid Lau-rier, true to his traditions, no inquiry necessary-12428. Quotes Mr. Lloyd Quotes George again—12429. Guotes MT. Indya Knot service on the Atlantic or nothing— 12430. Cost of the National Transconti-nental Railway—12431. The opposition does not propose to pin itself down to the proposition-12432. What is the scheme? who is the master of this craft -12488. Cannot but think that the Secretariat has been at work-12489. Rather remarkable change in the last few hours of the attitude of the government-12490. Difference between the Prime Minister and the Finance Minister-12491. The opposition and the government agreed that there should be no delay-12492. The imperative command of the House to bring in a definite plan without delay -12493. Navigation of the utmost im-portance-12494. Cost of the National Transcontinental; Canadian credit in the London market-12495.

Kemp, A. E. (East Toronto)-12460.

ion between the Premier and Sifton-12461. Wishes to endorse Premier Deakin's position, reads the despatch-12462. Are they going to pay \$1,000,000 for the purpose of saving half a day or a day?-12463. Does not want to be stampeded into endorsing a vague plan-12464. A little caution will result in a better service-12465.

Laurier, Rt. Hon. Sir Wilfrid (Prime Minister)-12414.

Moves the resolution—12414. The scheme seems to have commanded universal approbation; geographical considerations— 12415. The three divisions of the line, subsidized high class steamers—12416. The value attached to the line by Sir Joseph Ward, Premier of New Zealand—12417. The scheme may present so many difficulties as to render it impossible of actual accomplishment—12418. Only asking power to enter into negotiations— 12419. The comical aspect of the opposition efforts to kill this project—12495. Foster's verbose extravagance and poor memory—12496. When he wants to be dense he will not exercise his power of discernment—12497. It is not altogether a matter of providing cheap transportation rates—12498. Wants the assurance of the Canadian parliament that it will do its share when called on—12499.

Logan, Hance J. (Cumberland)-12480.

The proposition will be an advertisement to Canada—12480. Regrets the great Conservative party do not rise to the occasion and support the resolution—12481. Sir Charles Tupper too big a man not to congratulate opponents when they deserved it—12482. Quotes Foster in 1896 when criticising Mr. Dobell—12483. Criticises the amendment; Sir Charles Tupper's opinion—12484. The many ways in which the scheme appeals to us—12485. What the establishment of the line will mean—12486. The big men of the world have strengthened the hands of the government—12487.

Macpherson, R. G. (Vancouver)-12472.

The resolution means action-12472. The government's, a fast route, the opposition, an ice cream route-12473. Cannot afford to take the position laid down by Borden -12474. Foster says nothing can be done -12475. The people expect the government to take every opportunity of extending trade-12476.

Northrup, W. B. (East Hastings)-12476.

The scheme is older than its reputed father-12476. The Premier's resolution is ambiguous, may be read one way or the other-12477. The Premier and Sifton are contradictory in their views-12478. Anxious to support anything that will bind the empire together-12479. As an imperialist is forced to vote for the amendment-12480.

ALL-RED ROUTE-Con.

Roche, W. (Halifax)-12453.

The amendment will have the effect of making this a party question—12453. The question of speed on the Atlantic—12454. Great lines usually run cargo in conjunction with their fast boats—12455. The success of these large ships very largely dependent on the amount of subsidy— 12456. Nothing to prevent cold storage accommodation on these boats—12457. Great Britain continually making fast merchant ships to supplement the navy— 12458. Limitation under which Canada can assent to the proposal—12459. If they consider the development of Canada will support the project—12460.

Sifton, Hon. Clifford (Brandon)-12439.

Pleased to see the resolution on the paper -12439. The opposition in pursuance of their traditions should give a little more enthusiastic support to the resolution-12440. His position in regard to the matter; personal explanation-12441. The result of his inquiries with Lord Strathcona-12442. The attitude of Great Britain that the colonies should formulate a plan-12443. One of the most important things to-day is the development of a thorough system of cold storage-12444. No difficulty whatever about the freight service-12445. The question of finance and the question of time, serious questions-12446. The necessary lull in business had to come. It has not hurt Canada very much-12447. The Premier can confidently look to the House to stand by the position he took in the Conference-12448.

Moves his motion to bring to the atten-tion of the House-594. The correspond-ence which preceded the adoption for Canada of the Anglo-Japanese conven-tion of 1906-595. All the important de-pendencies of Great Britain were ex-cluded from the treaty-596. The necessity of at all times learning and maintaining of at all times keeping and maintaining an absolute control over immigration-597. Bankers consider this legislation as necessary—10941.
- Foster, Hon. Geo. E. (North Toronto)-10924. Matter should have been referred to the Banking and Commerce Committee; case as made out by Finance Minister not of sufficient importance to warrant parliament in making such drastic changes-10924. Proposed legislation is an absolute change from the foundations of our banking system which have hitherto prevailed-10925. Reasons for last year's troubles-10926. BANK ACT AMENDMENT.

Motion affirming necessity of legislation along certain specified lines, Mr. R. A. Pringle-4248.

Fielding, Hon. W. S. (Finance Minister)-4298.
The practice of reviewing the Bank Act every ten years-4298. Should not change it at all unless for strong and urgent reasons-4299. Reasons why he is disinclined to favour government inspection -4300. The advantage of the present system of branch banks-4301. It makes inspection practically impossible-4302. The interests of the note-holder, the depositor and the shareholder-4303-4. The matter of loans to directors might be left to the shareholders-4305. The question of call loans in New York; Quotes Mr. Cloustom-4306. Criticism sometimes offered that is a mere excuse-4307. The banks did not come to the government for assistance in moving the crops-4308. Wait for amendment till the time for reviewing the Bank Act comes round-4309. BANK ACT AMENDMENT-Con.

- Foster, Hon. Geo. E. (North Toronto)-4309. Thinks it better to adhere to the tradition of reviewing the Bank Act every ten years-4309. In the main agrees with Fielding's position and conclusions-4310. Hopes if any amendments are made this year they will be few-4311. No object in passing the resolution now attention has been drawn to the points-4312.
- Pringle, R. A. (Stormont)-4248.

It is by adjusting the bare notes to the full spots that the banks make money-4294. A Utopian idea that a bank should lend money to any one that comes in-4295. They look to the security and the returns-4296.

Sproule, T. S. (East Grey)-4272.

Banks and their critics, how treated by the public press. Banks one of our public utilities—4272. Any man who fails to criticise the banks is wanting in moral courage—4273. The government joined hands with the banks in making them a financial monopoly—4274. Contrast between the poor man's interest and the stockholders' dividend—4275. During last summer the best men in the country were crippled and curbed in their operations—4276. We gave them powers in order that they might serve the great bulk of the people—4277. Inquiry as to legislation this session—Mr. R. A. Pringle—12658.

Borden, R. L. (Carleton, Ont.)-12658.

Great difficulty in inspecting the numerous branches throughout Canada—12658. Inspection of the head office might be a very great protection—12659.

- BANKS, AUDIT AND INSPECTION OF-Con.
- Fielding, Hon. W. S. (Finance Minister)-12658.
 - Question of great importance, best taken in a general revision of the Bank Act, which must come shortly-12658. All these things are worthy of consideration --12659.
- Pringle, R. A. (Cornwall)-12658.
 - Asks whether there is a possibility of any legislation in this matter this session-12658.

- BELLEVILLE—PRINCE EDWARD BRIDGE COMPANY.
- Bill No. 20 in committee-Mr. Porter-8552.
- Alcorn, G. O. (Prince Edward)-8552.
- No position to take, willing the bridge should be free in the Private Bill Committee, we agreed on a tarifi-8552-3. This is a bridge over an arm of Lake Ontario a mile wide-8555. This parliament only can deal with it as navigation is involved-8556. Tolls are subject to the approval of the Governor in Council-8558.
- Emmerson, Hon. H. R. (Westmoreland)-8553.
 We certainly are invading the jurisdiction of the provincial legislature-8553. For the reason that by this legislation this parliament undertakes to fix the tolls-8554. Not within our jurisdiction though we may usurp those powers-8555. This is all interference with civil rights which is subject to the jurisdiction of the province-8556. Has stated this parliament has not jurisdiction-8558. Although this parliament has erred in the past, should not extend the error-8559.

Fielding, Hon. W. S. (Finance Minister)-8556. No doubt Emmerson is absolutely right on the question of navigation-8556. The trouble is, this work has been dealt with as a Dominion work-8557. Does not appear it ever was declared a work for the general advantage of Canada-8559. The question might arise whether it comes under Dominion jurisdiction at all-8560.

Inquiry for a return ordered—Mr. E. G. Porter—4408.

BELLEVILLE—PRINCE EDWARD BRIDGE COMPANY—Con.

- Graham, Hon. Geo. P. (Minister of Railways and Canals)-8552.
 - There was some question as to the rates to be charged—8552. It was suggested that we leave till Mr. Porter was here— 8553. Whatever error was made, was in the introduction of this legislation into this House—8558. It struck me that it ought not to be legislated on here—9066. Whether the province would not take exception to our legislating about such an agreement—9067.

Porter, E. Gus (East Hastings)-9066.

- Supposes Graham refers to the agreement between the city of Belleville and the company-9066. If Bill were withdrawn would still have legislation by this parliament-9067. Everybody is satisfied, and so far as bicycles are concerned it will not hurt anybody-9068.
- Pugsley, Hon. Wm. (Minister of Public Works)-8557.
 - This company should have been incorporated by the provincial legislature-8557. No right to assume by our Act that we have jurisdiction-8558. That is under the express terms of the B.N.A. Act-8559.
- Reid, J. D. (Grenville)-8553.
 - The insertion of the words 'Lieutenant Governor' would overcome the objection -8553. It would carry out what he is trying to state the Bill should be-8554.

Sproule, T. S. (East Grey)-8552.

The member in charge of the Bill is not here-8552. The federal parliament the only authority that controls the crossing of navigable wateri-8555. Streams that were not navigable under provincial control-8556. The proper authority to deal with it is the Railway Commission-8557. Better let it stand till the member in charge is present-8558. Only the federal parliament has power to give that right-8559.

DIDDLAT OF DI

CANADA-FRANCE STEAMSHIP SERVICE -Con.

Armstrong, J. E. (East Lambton)-6163.

Asks the estimated amount of exports from France-6163. A very small protion of perishable goods are carried in cold storage chambers-6205. Only fair to ask that some consideration be given to the shippers of Canada-6206.

Barr, John (Dufferin)-6208.

Sulphate of copper is a most injurious poi son; if there is sufficient it is injurious to the consumer-6208. It may be known to be injurious by those who put up these goods-6209.

Bergeron, J. G. H. (Beauharnois)-6162.

Could understand shipments from any other country than England-6162. Cannot see how goods passing through England can be on the same footing as those passing through Germany-6163. The re solution provides for payment of \$100,-000-6165. That would be a bad thing for the French goods-6166. Asks the number of trips-6172. The government do not contribute to installation-6203. Fisher said when the department heard of a complaint it was attended to-6204.

Borden, R. L. (Carleton)-6201.

- Would like to know the proposal of the government regarding a system of cold storage-6201. There has been absolutely no control by the government over the temperatures-6202. The question is when you find them what will you do with them-6206. If adulterated goods are sold the inspectors cannot possibly inspect all goods-6207. Believes the statement is that certain peas are colour ed with copperas-6208. France has advantage in regard to shipping goods-6414. Inquires as to policy of government regarding surtax-6415.
- Brodeur, Hon. L. P. (Minister of Marine and Fisheries)-6161.
 - The object is to extend and improve the steamship service between Canada and France-6161. The principal reason to be found in the new French treaty-6162. Goods subject to the 'surtax d'entrepot'-6163. Unless a direct line is maintained the benefit will be lost in many cases-6164. The resolution provides for a subsidy not exceeding \$100,000 -6165. Unless shipped direct goods will not enjoy the benefit of the reduced duty-6166. We obtain exactly the same advantages as those given to other countries-4167. Payment larger than the reduction between our maximum and minimum tarifis-6168. Our goods entering France enjoy a reduction of about 35 per cent-6169. The statute provided for 10 years-6171. The same terms as in previous statutes-6172. It expires with the opening of navigation this year-6173. The articles subject to a less rate of surtax than 100 francs-6174. The surtaxe d'entrepot only applies to goods

CANADA-FRANCE STEAMSHIP SERVICE -Con.

Brodeur, Hon. L. P.-Con.

- shipped to France through a European country-6198. If no company undertook that service the benefits of the French treaty would be lost-6199. Were very glad the Allan's were willing to make a contract for three years-6200. Fears the condition will prevent anybody from accepting it-6201. Cold storage provided for in the present contract-6202. Department has means of ascertaining that the conditions of the contract are fulfilled-6204. All goods offered for sale are liable to be inspected -6206. The label is English, and the name seems to be Italian-6209. If we can get the right to control the freight rates it will be a matter for Trade and Commerce-6215. Amount of subsidy; conditions of contract on which subsidy is based; cold storage facilities; freight rates; no rate of speed provided-6408-9. Canadian cheese and butter in France -6410. Tariff rates on imports from France-6411.
- Clements, H. S. (West Kent)-6174.
 - It will be 20 cents a bushel on wheat, and 30 cents a hundred on pork, 6174.
- Cockshut, W. F. (Brantford)-6176.
 - The purpose was that we were going to be called on to pay this large subsidy— 6176. The provision is not new, but this is a new treaty, 6177.
- Elson, Peter (East Middlesex)-6209.
 - Cannot agree that a large trade is likely to result from the French Treaty-6209. Our plenipotentiaries did not give sufficient consideration to the interests of the farmer-6210. Sheep not mentioned at all in this French Treaty-6211. Does not see much benefit in the treaty as far as the farmer is concerned-6212. Would like to see the resolution dropped altogether-6213.
- Fielding, Hon. W. S. (Finance Minister)-6174.
 - The surtaxe d'entrepôt a matter to which the French government attach great importance-6174. There was not a shadow of a chance to secure it-6175. The precise condition in the old treaty, but Cockshut saw nothing wrong in it-6177. If the manufacturer pays it and gets it back how does the farmer pay it -6180. This surtaxe d'entrepôt is deemed by the French a very important part of their fiscal policy-6194. I speak from knowledge gained from frequent discussion of the subject-6195. The ordinary observer would imagine that the colouring is not injurious-6208. Are these goods French or Italian?-6209. French goods imported by way of Great Britain entitled to tariff benefits-6412. The French surtax-6412-3. Difference between the positions of the two countries as regards tariff regulations-6413. Policy of government is not to impose

surtax at present-6414-5. Comparison of old and new treaty-6418. Old treaty was one-sided; new treaty—6418. Old treaty -6421. Canada's commercial agency in France—6424.

Fisher, Hon. S. (Minister of Agriculture)-6202.

The general conditions of the cold storage chambers have met the requirements of the treaty-6202. If conditions are not the subsidy-6203. It contains a withhold the subsidy-6203. Steamers receiving subsidies must provide cold storage facilities-6204. If the plant is not operated the department would doubtless call the contractors to account-6205. Imported goods subject to exactly the same restrictions as Canadian goods-6206. If adulterated goods are sold anyone can take action against the person offering them-6207.

Would like to have the opinion of a medical expert on that point-6208.

Henderson, D. (Halton)-6166.

Understands the French government con-The French Republic is going to get very much the better of this treaty— 6167. It seems we shall be obliged to pay this surfax in a good many instances -6168. Whether it be a good treaty or not time alone will tell-6169. If the not time alone will tell-6169. If the minister had insisted there would be no surtaxe d'entrepôt-6176. We give back 90 per cent of the duty-6179. A question whether the farmer will get the benefit or pay more-6180. I thought the minis-ters might have asked for it. They would stand in a better light before the country-6195. The minister should get the name of the vendor-6214. Neither butter nor cheese exported from Canada direct to France; Canadian goods and the French tariff-6411-12. Shipping privileges under the treaty all in favour of France-6419. Canada's posi-tion in negotiating with steamship com-panies for a direct line-6421-22.

Lalor, F. R. (Haldimand)-6177.

Hopes Fielding will call his own friends to him when they speak on this Treaty -6177. This treaty injuriously affects the interests of a great many farmers-6178. It would be very much better if it had never been brought into effect-6179. Apples go to New York and apparently are shipped as American goods -6197.

Lennox, H. (South Simcoe)-6164.

Asks an explanation of the Order in Council-6164.

Loggie, W. S. (Cumberland, N.B.)-6169.

Goods transhipped in London would enter France at the minimum rate-6169. Monk objects to the resolution because there will be a monopoly-6195. Rates

CANADA-FRANCE STEAMSHIP SERVICE -Con.

Loggie, W. S .-- Con.

recently from France to New York less than from Montreal to Havre-6196. Recently nearly all shipments going by the Furness and Allan lines—6197. Put in the agreement and make it the same as New York—6198. The cold storage plant on the Allan and C.P.R. lines is articlotate as 2006 satisfactory-6206.

- McLean, A. A. (Queens, P.E.I.)-6214.
 - The rate from St. John should be the ruling rate-6214. There should be a uniform rate from all points in Canada -6215.

Marshall, D. (East Elgin)-6206.

Goods allowed to come in coloured but Canadian packers not allowed to colour -6206. Only fair that the canneries should have been consulted before the duty was reduced-6209.

Monk, F. D. (Jacques Cartier)-6169.

The treaty allows us to establish a sur-taxe d'entrepôt-6169. The French government were not asked to contribute-6170. Object should have been to do everything to facilitate and extend trade -6171. It is \$7 a ton at the lowest, a prohibitive tax-6174. No record what-ever as to the disposition of the French encomment 6175. Did not to here government—6175. Did not take any exception to the treaty at all—6191. I thought that under any circum-stances it would be a wise policy stances it would be a wise policy to subsidize a line to France-6192. The same old thing, to go down to Quebec and say that Mr. Monk, with Dr. Sproule and Col. Hughes approved the French treaty-6193. Thinks we should not have insisted on direct shipment-6194. Why should we abligh that compare to should we oblige that company to con-form to a foreign rate over which we have no control-6198. Should submit their rates-6200. Would he prepared to withdraw the resolution though it seems to him reasonable-6201. No to withdraw the resolution though it seems to him reasonable-6201. No market n France for cheese or butter can rates-6410. France has advantage in tariff regulation-6412-13. Question of direct shipments-6417. Adequate commercial representation in France necessary to give full effect to treaty-6424.

Smith, E. D. (Wentworth)-6203.

No condition for any stated temperature, or temperatures approved by the gov-ernment-6203. That only applies to steamers at present receiving subsidies -6204.

Sproule, T. S. (East Grey)-6161.

Was not a provisional contract made by Sir Charles Tupper before he went out of office?--6161. Supposing a steamer called at a British port--6163. Brodeur seems to arrive at the conclusion that this line would take business from other

lines-6166. The proposal very defective at least in some respects-6171. If the reduction on duties will increase the trade tenfold this should be a paying proposition-6172. Why must they be left over here if they are to be provided later ?-6173. Lack of definite information as to terms of contract-6409.

Talbot, Mr.-6191.

- Monk seems to take very strong exception to the French Treaty and the conditions attached thereto-6191. It is Canadian and British bottoms that are going to get the benefit of this subsidy-6192. This statute is in existence-6193.
- Templeman, Hon. Wm. (Minister of Inland Revenue)-6213.

Will order an examination of this can of peas-6213. Could get some of the officials to provide further samples-6214.

Zimmerman, A. (West Hamilton)-6179.

With the French treaty in operation those goods will have to come through Canadian ports-6179. The farmers will pay less for them than they do to-day-6180.

- Bergeron, J. G. H. (Beauharnois)-12871. These measures brought down very late in the session-12871. It should have been asked before-12872.

CANADA SHIPPING ACT AMENDMENT-Con.

Borden, R. L. (Carleton, Ont.)-12855.

- A good deal of discussion over this clause two years ago-12855. The expression unusual, suggests another form-12858. Provide that the report shall be in writing-12859. According to the ruling of the Speaker it cannot be dealt with now-12872.
- The advantages of the Bill will depend on the way it is worked out-13058.
- Brodeur, Hon. L. P. (Minister of Marine and Fisheries)-12851.
 - Section 1 is to take the place of section 4 of the present Act-12851. Section 2, to prevent duplication of names; Section 3 and 4-12852. Section 5, certified officers; certain boats of small tonnage not obliged to have certified officers—12853. Section 8, fees on engagement or dis-charge of seamen—12854. Section 15, a wise provision that changes in certified officers should be communicated to the department-12860. The object of section 17 is to provide for a situation which occurs in New Bruns-wick-12861. To enable the minister to specify the limits of temporary certifi-cates-12862. We are not increasing the difficulty-12863. Would not take prodifficulty-12863. Would not take pro-ceedings where it was impossible to get men-12864. The change proposed is a mere verbal change-12865. That pro-vision will be incorporated as a return vision will be incorporated as a return of the Bill-12866. Advisable to dispense with the words 'having experience in the merchant service'-12867. Generally speaking, the principles are those adopt-ed in England-12868. Advisable to ex-tend the coasting limits as defined in section now moved-12869. Proposes to move two amendments-12870. Bill has come over to us after being two months in the Senate-12871. The House unanimous that this clause shall be conunanimous that this clause shall be con-sidered—12873. The leader of the op-position mentioned this point but did not press it—12874. Forcing seaboard certificates will make matters harder for coast-voyage mariners—12875. As far as Great Britain is concerned there is no restriction—12876. Every vessel en-gaged in such voyages may be without certified officers—12877. A privilege not being taken advantage of—12878. It is of the utmost importance that this pro-vision should pass this year-13052. provisions absolutely necessary-13053.

Conmee, James (Thunder Bay)-12855.

Asks the effect of the provisions of clause 5-12855. Prefers the machinery of the old law to section 17-12861. Unfortunate situation in one province. This will cut out men on the western lakes-12862.

CANADA SHIPPING ACT AMENDMENT-

Only men who have grown up in the district can run boats on those waters— 12863. Wants to protest, is no regard to be paid to the thousands who have invested money in these vessels?—12864. The present law defective, not in love with this Bill, but it is better than nothing—13053.

Daniel, J. W. (St. John City)-12855.

Mr. Prefontaine was of opinion that the whole tax ought to be abandoned— 12855. The question of the pilotage at the port of St. John—12856. This has nothing to do with the pilotage authorities—12857. It merely cuts out 'within specified limits in the inland waters of Canada,'—12862. The real reason why the coasting voyage was not extended— 12872.

Emmerson, Hon. H. R. (Westmoreland)-12866.

Would oppose the enlargement of powers for sailing without certified masters and mates-12866. Reads a letter from a retired sea captain-12869-70. Until recently the United States had no certificates -12871. Navigation south of Cape Hatteras more difficult than north of that point-12872. You are permitting them to go on voyages that are practically not coastwise-12873. By this amendment we say it is not necessary to restrict 12874.

- He can have a certificate otherwise than a coastwise certificate-12875. Objects to changing the definition of the expression ' coasting trade,'-12876.
- Fielding, Hon. W. S. (Finance Minister)-13054.

Propose to amend the revised statutes so as to give the government power of discrimination — 13054. These coasting privileges only continued for a limited time, and a special purpose—13055. Only by building special steamers adapted to the trade that we can make anything out of it—13057. There has to be a beginning to everything—13058.

Pickup, Saml. (Annapolis)-12876.

In 1896 the coasting voyage extended all round the coast of South America-12874. Change was made in 1903-12875.

Reid, J. D. (Grenville)-12853.

Was told Canadian laws were much stricter than American laws—12853. If some vessels were better inspected it would be better for those on board— 12854. The inspector at Kingston frequently away from his office—12858. Wants the very best Bill that can be produced—12865.

The fee provided for British Columbia is a very large one indeed—12854. Subsection 2 of section 15 objectionable, imposes a new duty on the captain and owner—12859. - Blain, R. (Peel)-4502.
 - The citizens of Quebec protested against the erection of this factory-4502. Quotes Mr. Casgrain, of Montmorency-4503. Disapproves the Bill in its present form. It is hasty legislation-4524. Local governments should have been invited to come in-4525.
- Hon. Sir Frederick (Minister of Borden, Militia and Defence-4498.
 - It is a lease for ninety-nine years with renewal, practically a gift-4498. The government would prefer that the operations of the factory should continue at Quebec-4499. There were already several buildings more unsightly than the factory-4501. The rifle company will have to be compensated if the removal takes place.—4502 There was nothing more serious in that protest than a kick by a dissappointed golf club —4503. Then there was no sacrilege. Order. Are we going into a discussion of the Ross rifle?-4504. And the opposition-4505.
- Foster, Hon. Geo. E. (North Toronto)-4497. Ought to be fnformed as to the exact position as regards the Ross Rifle factory-4497. Asks the conditions of the lease-4498. Thinks he may assume that the factory will be removed at some cost to the country-4501. It might have been a wise thing to have predicted the government's position-4502. That has been amended by substituting 'parlia-ment' for 'order in council'-4508. Thinks the safeguard should be greater -4532.

- Innocent as the Bill looks, it is like a serpent, the sting is in the tail-4517. The people of Quebec have just as good a right to furnish the money for their own celebration as the people of any other city-4518-9.

CANADIAN BATTLEFIELDS AT QUEBEC -Con.

Lavergne, A. (Montmagny)-4434.

Will have to oppose the removal of the factory from Quebec-4499. It is now a question of the livelihood of a number of families in the city of Quebec-4500. The only thing the people of Quebec do is to study their past history-4503. The sacrilege was committed so long ago that there is a prescription-4504. The commission have powers to be exercised subject to the approval of the Governor in Council-4521. The.Bill might apply not only to the Plains of Abraham but to the St. Charles Valley-4522. Shows why the preamble should be amended-4523-4. Has an amendment to propose-4530. Moves to amend the Bill by striking out paragraph 3 of clause 1-4533. An obnexious and ill-considered portion of the Bill-4534.

Lennox, Haughton (South Simcoe)-4587.

- Quite willing to facilitate the vote, but opposed to a large scheme for acquiring and beautifying a large portion of Quebec-4507. Should not be asked to commit themselves in advance to any larger scheme than the celebration-4508. Nothing in the return to show that the lease was ever submitted to parliament -4509. Reads a letter from Sir Charles Ross, dated 10th of April, 1906-4510. Does not want future action bound by anything the government or parliament may do now-4511. Should amend the tenth section-4529. Thinks the preamble should be recast to make it agree with the provisions-4530.
- Maclean, W. F. (South York)-4526.
 - Will vote for the Bill. If this parliament passes any subsequent parliament can revoke it-4526. Because all are Canadian they should join in celebrating the founding of their country-4527.
- Northrup, W. B. (East Hastings)-4505.
 - Would like to hear that no expropriation of property was included in this plan-4505. The evidence is conclusive that the government compelled the location of the factory in Quebec-4506. A possibility of the government buying back at enormous figure their own property-4507.
- Reid, J. D. (Grenville)-4504.
 - The government will have to purchase the Ross Rifle factory-4504. If they once get their money they are not likely to go into another scheme to manufacture rifles-4505.
- Robitaille, Lorenzo (Quebec County)-4514.
 - The tercentenary has been used as a pretext to boost this park scheme-4514. Advisable to put in the Bill a provision to retain the name 'Plains of Abraham'-4515. Would make it 'An Act respecting the Canadian Battlefields'; Outlines a scheme-4394. Thinks Ontario will contribute; The new government in New Brunswick might be approached-4396. Asks why the Commission should not choose its own chairman and appoint its secretary-4397. It ought to be an independent commission with the question of patronage eliminated altogether-4398. Asks what would happen in the case of war-4399. Section 11 will apply to the celebration proceedings-4400; The fact that the government has control might give greater confidence to the parties contributing-4401; Believes it was agreed to substitute 'parliament of Canada' for 'Governor in Council-4408; New parliament would be in a position to authorize the expenditure-4409. The government have the Cove Fields, the Citadel and the Terrace -4399. Has no objection to substitute parliament for the Governor in Council -4400. Believes the best way is to have the money subject to the control of parliament-4401. Would have no objection to Foster preparing an amendment to meet his views; Mere substitution not sufficient-4408. Wanted to have the whole matter controlled by parliament but did not see how it could be done-4409. Will have the matter placed before the Department of Justice-4410. The difficulties have presented themselves-4416. No majority or minority, we are on an equality of footing with evervbody-4417.

Not celebrating the second centenary of the battle of the Plains of Abraham, but the tercentenary of the founding of Quebec-4410. Champlain the hero of the past is almost entirely forgotten-4411. Must wait till 1967 to celebrate the centenary of the birth of Canada as it is-4412. The minority in the other provinces has seen its privileges and its rights curtailed-4413. To say that one of these elements has more privileges than another is speaking à propos de rien-4414. - Borden, R. L. (Carleton, Ont.)-8458.
 - Laurier thoroughly understands that he has not a leg to stand upon in his argument-8458. Attempts to put forward an excuse which he knows does not exist-8459. The injury to the public service, the neglect of public interests cannot be too strongly emphasized-8460

Foster, Hon. Geo. E. (North Toronto)-8445.

A statement of circumstances and inferences which made it imperative to take immediate action—8446. Circumstances under which Judge Cassels commenced his work—8447. Quotes Mr. Justice Cassels' letter—8448. A very large and serious piece of business has been imposed on the commissioner; Mr. Justice Cassels' engagements—8449. The government, with its eyes open, advised of the fact, still insisted on appointing Mr. Justice Cassels—8450. What is needed is a speedy and thorough investigation—8451. CIVIL SERVICE COMMISSION REPORT.

Inquiry as to when it will be distributed— Mr. R. L. Borden—5882

Barker, Sam. (East Hamilton)-5888.

Laurier rather shirking the question; government had the report for nearly two weeks-5888. If suspicion is thrown on the department how does the minister escape?-5889. With such a charge against a minister of the Crown the government stand for two weeks idle-5890.

Borden, R. L. (Carleton, Ont.)-5882.

Asks the policy of the government in regard to the very serious and very grave charges—5882. Should not adjourn till some statement is vouchsafed—5883. A new minister becomes responsible, politi cally, for all the acts of his predecessors —5912. The new doctrine of political responsibility in absolute antagonism to every authority—5913

Boyce, A. C. (West Algoma)-5906.

The Premier does not fully realize the responsibility under which he is-5906. Do not know whether the government will take action, but do know there is need for action-5907. The government em-

ployed this criminal, this convict, this felon at an increased salary-5908. He has exalted those who have committed these wrong doings-5909.

- Brodeur, Hon. L. P. (Minister of Marine and Fisheries)-5890.
 - There is nothing in it either directly or indirectly against the minister—5890. Investigation coming, any officer found derelict will be dismissed—5891. When Reid spoke of a rake-off he must have spoken of what he knew—5892. Everything has been brought down—5903.

Fielding, Hon. W. S. (Finance Minister)-5883.

Date of distribution a question for the King's Printer; when down will discuss it—5883. Not a word in the report reflecting on the minister—5889.

Foster, Hon. Geo. E. (North Toronto)-5884. -

Brodeur did not lose any time in attacking the commission of his own government-5884. He said the commisioners went beyond their duties and the scope of their commission-5885. Should tell the House what he proposes to do under this somewhat grave condition of affairs-5886. The case calls for prompt action; should announce their intention to-night -5887.

Laurier, Rt. Hon. Sir Wilfrid (Prime Minister-5887.

No hesitation at all in giving the information to which Borden is entitled-5887. Action must be taken, and will be taken, but not prepared to say what action will be taken-5888. Dissents from Borden's constitutional doctrines-5913.

Lavergne, A. (Montmagny)-5900.

This discussion premature. The minister responsible for what has taken place in the department-5900. Hopes the investigation will take place without delay -5901.

Macdonald, E. M. (Pictou)-5895.

Reid getting off one of the utterances which he seems anxious to give on every occasion-5895. Reid knows if he wants to charge malfeasance of office against anyone there is a proper way-5896. The opposition have relied wholly on their imagination in making their alleged disclosures-5897. Nowadays nobody but a Tory could look for anything in the Public Accounts Committee. Foster and outside matters-5899. He will deal with him as with all wrong doers always-5900.

Reid, J. D. (Grenville)-5891.

Quotes his speech of 8th May, 1906, 'Some one is getting that rake-off'-5891. Would know if any officials were getting a rake-off or not-5892. Quotes the Civil Service Commission Report-5893. Prices are paid higher than private individuals can buy for-5894. It is time that the Prime Minister should take action-5895; I laid a charge against the department-5896.

Rivet, L. A. (Hochelaga)-5905.

The country will not take any stock in the pranks Sproule has indulged in-5903. Hopes nobody will take any stock in this discussion-5906.

Sproule, T. S. (East Grey)-5901.

Seldom listen to speeches more original, more inferesting and more amusing than Macdonald's-5901. The report serious enough to be taken up before any other important business-5902. The minister the only man the country will hold responsible for the department-5903. He should resign until his character is cleared-5904. Not another day should pass without action being taken on this serious indictment-5905.

Taylor, Geo. (Leeds)-5909.

Reads a statutory declaration by L. C. Van Bever *re* the <u>Arctic</u>—5909. Do not want the government to spend more money until assured of getting better value—5910.

CIVIL SERVICE COMMISSION (REPORT Inquiry by Mr. Bergeron re investigation to be made by Judge Cassels-6636.

Bergeron, J. G. H. (Beauharnois)-6636.

Asks for information as to scope of investigation to be held by Judge Cassels; if a departmental investigation is in progress, and, if so, is it under oath-6636.

Brodeur, Hon. L. P. (Minister of Marine and Fisheries)-6636.

Bennett, W. H. (East Simcoe)-5623.

No report yet forthcoming concerning inquiry into the alleged defalcations at Sorel-5623. Asks concerning tht conviction for illegal fishing of a Georgian Bay Fishery Commissioner-5624. Asks for the report concering Mr. Gaudet-5625. Refers to Gaudet's report-5637-8.

Blain, R. (Peel)-5638.

Unfair to throw the members into a general discussion when they have not facts -5638. People have for many years had their eyes centred on the Marine and Fisheries Department-5639. Hopes the Minister will see that he has an honest and just administration of his depart ment-5640.

Borden, R. L. (Carleton, Ont.)-5623.

Seems to him Brodeur has been guilty of a very grave discourtesy to the House in discussing report—5623. Doubts if Mr. Speaker can apply that rule to any member of the House—5628.

Boyce, A. C. (West Algoma)-5644.

The people of Canada beginning to take Brodeur's protestations at a joke-5644. There are limits to the burlesque that he is attempting to play-5645. The transactions of a very favoured gentleman named Wallberg-5646-7. Investigation must be held into this department. Investigation will be insisted upon-5648-9.

- Brodeur, Hon. L. P. (Minister of Marine and Fisheries)-5620.
 - Statement by Messrs. Fyshe and Bazin, charging dishonesty in his department requires immediate attention - 5620. Quotes p. 61 of the report, and Mr. Stumbles' recommendation re coal-5621. Further investigation necessary in interest of the public, and proposes to secure it fortwith-5622. Bennett entirely mistaken; Desbarats never connected with that branch of the service-5624. Fraser has not been suspended-5625. The commissioners never consulted me, they never came near me-5627. Never gave any such orders-5629. Fielding, Hon. W. S. (Finance Minister)--5620.

Lays the report on the table. Moves that the unprinted portion be printed immediately-5620. No impropriety in Brodeur's action; accusations affecting the personal honour of officials must not be allowed to rest-5626. Proceedings necessary in interest of public and fairness of officials-5627. Did not know anyone else wished to speak-5628.

Foster, Hon. Geo. E. (North Toronto)-5631
Brodeur raised a tempest in a teapot Should be thankful to get off so lightly -5631. The right thing is to have a Royal Commission, or a commission of members of the House-5632. The least that can be done to satisfy the people of the country-5633.

Fowler, G. W. (Kings, N. B.)-5640.

- Asks why an investigation into Ernest Roy's accounts, ordered in 1907, is not proceeded with in 1908-5640-1. The amount of padding is not much, but it is the principle of the thing-5642. Brodeur betrays a regrettable lack of knowledge in his department-5643. Is it a British principle to order an investigation and hang it up for a year-5644.
- Laurier, Rt. Hon. Sir Wilfrid (Prime Minister)-5633.
 - The 'Arctic' evidence taken in the light of day. May not have suited Foster-5633.

Reid, J. D. (Grenville)-5627.

Asks if attention was drawn to goods purchased but never received by the department-5627. The minister the only man who defends the Merwin and similar transactions-5628. They continued to purchase from Merwin and Strubbe because the minister told them to do so--5629. There is no department which could be run in a worse manner-5630. CIVIL SERVICE COMMISSION REPORT.

- Some remarks of urgency-Mr. R. L. Borden-6143.
- Borden, R. L. (Carleton, Ont.)-6143.
 - Delay in printing seems undue; not blaming the King's Printer-6143. The responsibility of ministers for conditions disclosed in that report; Quotes Todd-6144. The theory of cabinet responsibility; Quotes Morley and Hearn-6145. The abuses affect not only the minister of the department, but the government as a whole-6146. Quotes the Order in Council-6146-7. The government's course not wise nor in the public interest-6148. When Laurier is in a tight place he becomes pathetic and blames this side of the House-6155-6. It is not necessary to limit the scope of the commission but to widen it-6157. Quotes the 'Free Press' of March 27; the government, not the commission, that is tired-6159. The proper course would have been to call for an investigation by the same men-6160.

Haggart, Hon. J. G. (South Lanark)-6153.

- It is open to any member to bring up a discussion on the report at any moment -6153. Not aware that any member risks his seat when he makes an accusation-6154. Wants a free inquiry; if the evidence is stifled the country will know it-6155.
- Laurier, Rt. Hon. Sir Wilfrid (Prime Minister)-6148.
 - Borden has not lived up to his own rule regarding courtesy in giving notice—6148What is the extent of ministerial responsibility in this case? French version. The French version absolutely as much law as the English -13317. Are putting into the French language English terms of acts with reference to the criminal law-13318. Section 5 harmless, but an amendment asked by some retail merchants-13319. Section 15, to remove the double liability from railway men-13320.

Borden, R. L. (Carleton, Ont.)-13317.

- Lemieux, Hon. Rodolphe (Postmaster General)-13317.

Lennox, H. (South Simcoe)-13318.

Another illustration of the exceedingly useless way this work was performed— 13318. Putting through the English version without the French probably one reason of the difficulty—13319.

Explains provisions of his amendment before the House in the form of a section of Bill (No. 80)—11845. Effect of his amendment is to introduce in full the English pracis to introduce in full the English prac-tice with regard to returns of election expenses; object is to provide against undue or corrupt expenditure-11884. Amendment more comprehensive and more explicit than the language of the Bill-11929. Surely the government are not going to cast this stigma on the pro-vince of Ontario-12939. Cannot be justified as commensurate with the wrong complained of—12940. The Premier's complained of-12940. The Premier's statement that the lists would be made on judicial authority entirely incorrect-12984. The Provincial Act does not contain such a clause as section 1-12985. The Ontario Act lays down a procedure for enumerators to follow-12986. Paragraph 5 will be in direct conflict with section 13-12987. A great deal of work saved if Aylesworth adhered to his original proposal—12988. Can see no rea-son for judges altering the polling divi-sion—12989. Not the least absurdity of the procedure will be the question of a man's right to the franchise-12995. Take the first Dominion lists as the basis for all subsequent lists-13000. He was unable to point out one section of the Act which was not for the advancement of the franchise-8651. That practically meant that the door is flung wide open for acts of corruption-8652. Do not find any complaint from the Liberal members for Manitoba-8653. The government to-day is practically in the hands of the moneylender-8654. The Liberal Conservative party are fighting for a square deal-8655. Was going to show that the measure was but a part of a government election scheme-8656. The government should have brought down a Bill dealing with corruption in elections-8657. Let the government go to the country on this question if they dare-8658. This piece of legislation most unfair, unreasonable and uncalled for-12971. Opening the door to the O'Gormans, the Pritchards, the Prestons, the Jacksons and the Conmees-12972. Variations in marking ballots—11794. Moves to sub-stitute another clause—11796. Sugges-tion of leader of opposition covered by sec. 314—11816. With slight variations, this is a repetition of the aviting law this is a repetition of the existing law-11823. Suggests change in wording-11824. Clause was recommended by the special committee-11825. Prohibition of statute extends to man who pays money statute extends to man who pays money for a vehicle to convey voters to the polls as well as to man who receives the money—11830. Difficulties of the past with respect to the form of oath that should be put to the voter; section provides for one form of oath—11848. Instructions to returning officers; let-ers from the King' Brinter and the ters from the King's Printer and the Clerk of the Crown in Chancery re pro-visions of Mr. Alcorn's Bill and indicating difficulties in the way of carrying them out-11849. Strangers from the United States brought into this country for the purpose of committing corrupt practices—11901. Wide scope of amendment proposed by Mr. Lake— 11901. Taking part in an election by an election official an indictable offence— 11902. Provisions in Bill go as far as necessary—11922. No substantial differ-ece between the section and the amend ece between the section and the amendment-11929. On section 1, moves to make three amendments-12919-20. A pracmake three amendments-12919-20. A prac-tical difficulty in working out any such suggestion-12990. The best practical way of working it out-12991. The clause originally framed was a perfectly fair clause-12999. Has prepared this clause to secure lists fair to each party -13000. The better authority would be

Proposes to add a sub-section to section 3-13010. The idea was to make it easier for the candidate who was elected—13011. If the committee want to have personal service strike out the clause-13012. Are otherwise providing for the correction of lists in the Yukon-13013 Proposes to make the deputy returning officer punishable for marking a ballot—13014. It would be marvellous if they did not occasionally make a mistake—13017. The amendment proposes to lay upon him the burden of proving his innocence-13018. This secproving his innocence—13018. This sec-tion directs what ought to be done after closing the poll—13024. Some errors in the French version which it is neces-sary to correct—13025. Moves two amendments to correct the French ver-sion—13026. No good reason appears for Borden's amendment-13027. Is it worth while to amend by changing 'two days' to 'three days'-13029. Make them do what is going to be impossible in half the constituencies-13030. Only residents to be appointed deputies or poll-clerks—13031. Does not see the improve-ment in the amendment—13036. Difficult to understand how Bennett's amendment is necessary-13037. This would cer-tainly destroy the secrecy of the bal-lot-13039. The amendment makes anomalies and discrepancies in the penalties—13040. He is advocating the cause of the electors generally of the constituency—13041. Cannot see the rea-son for amendment No. 26—13044.

- Bergeron, J. G. H. (Beauharnois)-8681.
 - This measure is not well understood outside the House-S681. This Bill simply an attempt by the government to elect their own friends in Manitoba and British Columbia-S682. The Manitoba Election Act the best in the whole Cominion -S683. Would support a Bill providing that the federal parliament should control the making of the lists-S684. There is nothing in all this Act to prevent that kind of thing occurring again-S685. To ask me to sign such a petition I thought was an insult to me-S686. Bergeron, J. G. H.-Con.

Liberal government proposes a Bill, which will abolish the secrecy of the ballot-8688. We know what it means to have by-elections after a party has got into power-8689. They do not want to touch the lists in Nova Scotia where they are so unjust to the Conservative party-8690. Laurier has only one thing to do, withdraw the obnoxious clauses of this Bill-8691. Law cannot be en-forced; should be made permissible to drive people to the polls under certain circumstances-11831. Law should be made clear and simple as possible-11857. Prefers only one form of oath-11858. Franchise should be uniform throughout the Dominion-11859. Accept provincial lists as given by the authority of each province-11861. Establishing principle all over the Dominion of one man one vote, would do away with a great deal of difficulty-11862. Is that an answer to a question put by Clements the other day?-13010. The man who gives the fictitious address is the man elected—13011. Little care exercised in the appointment of deputy returning of-ficers—13016. Not a clause in the Act so much transgressed as section 114—13030. The returning officer two days before polling should give the names of all his deputies—13031. The less we have of these exceptions the better—13034. Surely we cannot take too many precautions 19 we cannot take too many precautions to see that we have proper ballot papers -13037. The law regarding polling booths is not carried out—13039-40. Urges a clause to prevent a candidate running in more than one constituency-13043.

Blain, R. (Peel)-12943.

Has not heard a valid argument why Ontario should be legislated against-12943. The Minister of Justice will have cause to regret that he was the father of that Bill-12944. Legislation that is an invasion of the rights of the people of Ontario-12945.

Bole, D. W. (Winnipeg)-7939.

Voters' lists should be revised immediately preceding an election; great cost of annual revisions-7940. Manitoba government anticipated a Dominion election by legislation; Manitoba Franchise Act of 1900. The Galician vote-7941. Names fraudulently put on voters' lists in Manitoba; reads affidavits made by persons interested-7942.

Borden, R. L. (Carleton)-7859.

Criticises certain clauses of the Bill-7860. Secrecy of ballot done away with-7861. Omissions in the Bill-7862. Overlapping of polling subdivisions; Manitoba statutes provides for such cases-7864. Registration in Ontario-7865. The real object of the Bill-7866. No complaint against Manitoba lists-7867. Quotes Winnipeg 'Tribune'-7868. Provincial lists in Manitoba and British Columbia

Order in Council passed by Mani-tele compensation of the state of the second se 7875. Revision of Manitoba and British Columbia lists—7876. No demand from Manitoba for a change—7877. Carvell evidently came to the conclusion that Manitoba does not know how to prepare votons' lists 2422. His except h absolute absurdity of the government proposal from the very first-8424. The guilty parties in the Rothsay ballot Quotes the Chief Justice of the province of New Brunswick-8426. Laurier's memory not so good for 1896 as for 1885 8427. The declaration is that this par-liament may intervene when a fraud is committed—8428. Does not understand from that that this parliament of Canada is to have a franchise law of its own for one particular province-8429. There may be partisan officers who create lists There under a municipal system-8430. Reads a criticism of the municipal system-8430-1-2. Men will not make their application in time, or some default of that kind will occur-8433. Quotes the Premier; a pretty plain and frank state-ment-8434. Unable to find justification for the Bill in any consideration of public policy-8435. There is nothing that will commend itself to the judgment of this country or of this people-8436. The proper course to have been taken before introducing the Bill-8437. You should certainly withdraw or completely modify the provisions of section 17-8438. Has endeavoured to give the Bill fair and reasonable consideration-8439. Alloca-tion of voters' names in Manitoba-11789. Lists in northern districts of Ontario-11800. Mr. Hogarth's appointment as enumerator—11802. Real object and motive of the Bill—11805. Proper course is either to leave preparation of voters' lists to provincial authorities, or take it absolutely under our control-11806. Suggests that when address of candidate is inadvertently omitted on nomination paper, the address of returning officer or an officer of the court should be reof an once of the court should be re-garded as the address for the purpose of serving a protest-11815. Questions penalty-11827. Instructions to returning officers provided for in the Act; object of amendment is to make absolutely clear to returning officers what oath they shall administer—11860. If resolution shall administer-11800. If resolution forbidding officers engaging actively in elections was worth while passing, it should be enforced, and that can only be done by putting it on the statute book 11903. Calls attention to proposed amendment to this section-11922. Pater-son has been amusing as usual-12916.

Not abiding by the principles of the past in proposing this legislation-12957. This Bill cannot be justified under present conditions-12958. No provision for the publication of the proclamation -12990. Having protested does not know that they can do more-12994. The Bill founded on the grotesque absurdity that could be imagined—12995. We took such provincial lists as were available and adopted them as a basis—12999. Ayles-worth would facilitate business by giving less rhetoric and more information-13000. Hears no reason for departing from the provincial polling divisions-13001. The difficulty of effecting service in election petitions has become a scandal-13013. The suggestion not very much to do with what has been discussed—13014. Leaves the onus of proof on the deputy returning officer—13015. He is acting for the nearly of the whole calling caldini returning officer—13015. He is acting for the people of the whole polling subdivi-sion—13016. That is the whole effect of his amendment—13017. The facts are peculiarly within the knowledge of the man accused—13019. There is no reason why witnesses should not be called— 13021. Would have preferred to have the whole propatice of the ord 12025. More whole penalties at the end-13025. Moves substitutes for section 75 and 76-13026. Will assure the selection of men of responsible position-13027. All the pro-vincial elections held on the same day in British Columbia-13032. No difficulty -13033. The difficulty is in posting new proclamations—13034. To prevent a witness being asked for whom he voted— 13038. It is designed to prevent wholesale bribery of a community-13041.

Boyce, A. C.-Con.

Conmee unable to substantiate the many statements he made of irregularities 12927. The facts upon which he relied were denied on the floor of the House-12928. Why does he not apply the same remedy to Ontario-12929. Aylesworth will not produce the evidence on oath and letters he speaks about-12930. Shall continue to protest until Laurier sees fit to deny it-12931. Against that insult to my province I protest most strongly-12932. Moves to strike out subsections 1 to 8-12940. Disinfranchises those who to 8-12940. Disinfranchises those who became entitled to vote since the last lists were made-12941. McCool reads declarations repudiated by the court of record-12980. Then the converse must be the case-12981. He will get his answer from the very gentleman he has reviled-12982. McCool keeping back the Bill, retailing statements on hearsay-12983. Aylesworth's amendment obviates the necessity for the last words in sec. the necessity for the last words in sec-tion-12989. The position in which these judges will find themselves-12990. The judge in each district should appoint the enumerators-12992. The time allowed for making up the lists comparatively short-12993. Have each judge work in short-12993. Have each judge work in his own territory-12994. It will be ab-solutely impossible to get those lists made up within the time-12995-6. Only have sixty days to cover a district twice as large as settled Ontario-12997. This should be consonant with the Ontario Voters' Lists Act-12998. Nothing worse for a country to suffer from than a deaf Minister of Justice-13002. Will continue to protest--13003. This is the evidence of a desire to discriminate against the province of Ontario - 13004. Moves amendment No. 17-13032.

Bristol, E. (Toronto, Centre)-12920.

Protests against sections 1 to 8 inclusive of the proposed subsection 9a-12920. Discrimination against Ontario by unjust and unfair legislation-12921. Under the present law the lists can and must be used unless more than a year old-12922. Decided to leave out the province of Quebec, but to leave in the province of Ontario-12923. No public interest to be served by putting through this legislation-12924. This legislation is unjust and ill-advised-12925. Many of his colleagues absolutely opposed to this proposed legislation-12926. Leave with some grown person, or nail up at the address 13012. Moves an amendment on these lines-13013. Suggests an addition to section 17-13017.

Burrows, T. A. (Dauphin)-8357.

Two things provided, complete and full revision of the lists and their adaptation to Dominion constituencies-8357. The explanation and justification are to be found in the lists themselves-8358. Aylesworth pointed out that the government intended to adopt the laws of Man-

itoba in making the lists-8359. It is clearly shown that the time given in the court of revision is too short-8360. In Manitoba the revision and preparation of the lists is not in the hands of the judges-8361. Reads an affidavit by G. J. Lovell of the city of Winnipeg-8362. Not time enough given to register, or for the court of revision-8363. Quotes W. J. Roche, reads a letter from C. J. Mickle-8364. Quotes Mickle on the Act of 1903. They have gone back on the principles of that Act-8365. Quotes Winnipeg 'Free Press,' an affidavit of J. Hyzy-8366. The cheque was given for eight days' work and for securing certain affidavits-8367. The Bill should pass; it is a fair Bill: believes the opposition will support it-8377.

Carvell, F. B. (Carleton, N.B.)-7401.

Not worth while taking up the time of the House in answering Staples. An agitation has been going on in Manitobafor the last six years-8401-2. Here is where we commence to see the fine hand of the politician in Manitoba-8403. Unless a foreigner could speak in one of four or five languages, he could not exercise the franchise-8404. The fault is in the law, it is in those who are administering the law in Manitoba-8405. Only a sample of the way in which the Conservative party manipulated things in Manitoba-8406. Only the persons present when the time came to close who had a right to have their grievances heard-9407. Hundreds of people were prevented from having their names put on the lists because of insufficient time-8408. Schaffner's idea is that voters' lists exist by and for the Tory party only-8409. It is only the board of registration that has power to extend the time-8410. They have no power whatever sitting as independent indges or revising barristers to extend the time-8411. The registration clerk cannot and will not extend the time-8412. Something ike 2.500 names were struck off the list in the city of Winnipeg alone-8413. It is not the question of time, it is the fact that a man has to travel 30 or 40 miles to get there-8414. There are thousands of names on the list that have no right to be there-

8415. The 'red line' matter; we people not on the ground are discussing this question in the dark—8416. The Attorney General of Manitoba went to work and publicly entered a nolle prosequi in all cases—8417. Did Foster when he was a Conservative minister ever protest against allowing a constituency to remain vacant—8418. Foster knows that the object of this legislation is not to do what he says it will—8419. What happened in a place called Macinac— 8420. Another evidence of the impossibility of Liberals in the Manitoba legislature getting justice—8421. The Attorney General brought down one sheet and handed it round among his friends —8422. The Conservative party and threats of obstruction—8423.

 - Enumerating officers in West Algoma-7982. Revision of voters' lists in Algoma-7983. Object of Bill in regard to use of provincial lists-7984. Operation of Ontario law in new districts; people robbed of their rights-7985. Partisan enumerators-8000. Proceedings on injunction re voters' lists-8003. Writing on ballots-8005. Spoiled ballots in 1896 and 1900-8007. Algoma elections in 1892 -8010. Preparation of lists for the provincial election in Thunder Bay and Rainy River district; lists were illegal-11728. Time for appeal cut down. Electors not aware of the charge-11730. Partisan enumerators-11732. Lists posted fifty miles or more from place of residence of electors interested; no chance to appeal-11736. More time required for preparation of lists-11737. Under the Ontario Act of 1908 you cannot have a fair list in an unorgonized territory-11738. Boyce himself gave the reasons for this Bill in a speech two years ago-12958. Quotes a statement read by Boyce-12959. Has Ashworth's own statement that he did not get the appointment-12960. Borden read the report, he is repudiating it-12961. The reasons which the Conservative paper in Port Arthur gave-12962. Ouctes a memorandum by Mr. Dowler-129634-5-6. The law deprives them of a proper revision-12967. How the lists were prepared at Ignace, with regard to Mr. Eoll's list-12968. You cannot have a proper list under the Ontario Act, there is not time enough-12969. Foster has not shown that spotless character that

he talks about—12970. No one has accused him of being a traitor to his leader—42971. Are trying to get a new list; more likely to by giving it to the judges—12992. The provincial law governs the preparation to a great extent 12993. The board of three judges will deal with them better—12994. There wil not be appeals in half the places— 12998. There never was an election in which new polling places were not to be provided—13001-2. The object of knowing the deputy might be a bad object— 13031.

- Foster, Hon. Geo. E. (North Toronto)-8321.
 - No sufficient basis for this very drastic legislation yet produced-8321. Aylesworth's speech little but misrepresentation of facts, hearsay and allegation of what might have been-8322. No investigation, no proof, simply assertion of the most illusory and unsatisfactory kind-8323. Willing this matter be judged by simple proof. Mr. Bole's speech-8324. For all that fell from Aylesworth this Bill consists of one clause and only one-8325. The fact is the government use their officials to help their party-8326. There is no effective power to carry the election law into effect-8327. The clause is certainly open to criticism of the most stringent and vehement kind-8328. The returning officers in 1904 went beyond the overlapping polling divisions and redistributed the divisions-8329. It would raise a revolution in the Province of Ontario-8330. It amounts to the dis franchisement of every man whose name was stricken off the list-8331. The vital

proposal in the Bill-8332. For the last week have been discussing almost mainly that one vital proposition-8333. It proposes by its own revising officers, and proposes by its own revising officers, and its own government and party machin-ery, to make a list-8334. You are sad-dling your country and the candidate with large expense-8335. From a con-stitutional point of view, the province should make the lists-8336. Information given by a man who, when asked a question, dare not answer it-8337. Judge what they will do under this clause by what they have done-8338. What will they do when they get all they want in the shape of legislation-8339. Duggan took the revision made by the Liberal organizer, by which Conservatives were disfranchised-8340. We go to the word and testimony and it was plain that that was done-8341. The attempt to put the Liberal Conservative party in the wrong for opposing this legislation-8342. We are bound to stand against that legislation until its provisions are ameliorated-8343. Supposes Aylesworth has the mind of the Prime Minister behas the mind of the Prime Minister be-fore he introduces this Bill-8344. Fitz-patrick's statement in introducing the Franchise Act of 1898-8345. Quotes Laurier's speech in 1898-83456. Sug-gests a Bill establishing a Cominion franchise and put into judicial author-ity-8347. Not inconsistent in coming to earliement and concerting a moment parliament and suggesting a remedy-8348. What he is really going to do is to hang the party, and he has the tim-ber ready for the gallows-8349. Hugh John Macdonald's change in the regis-John Macdonald's change in the regis-tration and list preparation law-8350. No man got on the list under that Board unless he came up and made his appli-cation-8351. Only possible grievance, that not sufficient registration booths are provided-8352. We should be remiss in our duty if we did not deal with the situation-8353. If fraud is necessary as a foundation for such action, bring the evidence of it—8354. We ask for the proof that these judges have abused their authority—8355 If I were in Manitoba I would feel like fighting against that invidious distinction—8356. It is demeaning, it is humiliating, it is take many years to allay—8357. Domin-ion officials, especially in the Northwest, taking part in elections and not one dis-missed—11908. Resolutions of parliament should be embodied in the law of the country-11910. Rather irregular that nobody finds a word to say in defence nobody finds a word to say in defence of clause 1-12945. Laurier was a little terrified when he came to look at this legislation-12946. He had bitten off more than he could chew without injur-ing his political digestion-12947. If provincial elections can all be held on one day, why not Dominien?--13033. Has the Premier lost confidence in all the schemes that have been concocted?--13035. Many people share the feelings of the doubting Thomases-13036. Will call the attention of the returning officers to the fact that such appliances might be there-13037. Alcorn must be very sanguine-13041. All these promises have been held out by candidates on the government side-13042. The Postmaster General did the same thing-13043. Moves amendment No. 26, to the intimidation section-13044.

Galliher, W. A. (Kootenay)-8619.

In 1898 the government did not divest itself of the power of assuming control over the lists-8619. There is no inherent right in the province of Manitoba to prepare federal lists-8620. In 1898 this parliament delegated to the province a right which was inherent in itself-8021. Hon. Mr. Rogers did not state the case quite fairly—8622. If the lists are submitted regularly, the judges cannot strike the names off—8623. No fault can be found with the majority of the judges for being Liberal-8624. Borden during the debate of 1898 said he quite understood the principle that government was not divesting itself of its rights-8625. It would be if a fraud at all, a fraud against the electors of the province—8626. Quotes Crawford on re-gistration—8627. Points out that there are different degrees of fraud—8628. There must be a red or black line passed through the names of those not in the federal constituency-8309. Cannot accept it except by legislation of this parliament-8310. No necessity for intervention where the boundaries are not divided-8311. The government of Manitoba fixes the revision of the lists-8312. The Bill as it affects the unorganized districts of Ontario-11707. Attitude of leader of the Opposition towards the Bill -11707. Desire is to have lists honestly and carefully made-11709. The Bill as it relates to Quebec-8121. Defects in Manitoba law not so grave as to call for this sweeping change-8138.
- Oliver, Hon. Frank (Minister of the Interior) -8659.
 - The objection to the Manitoba Act not so much to the registration as to the revision-8659. No provision was made for the printing of the preliminary list-8660. The eminent fairness with which it is proposed by our friends of the opposition to carry on this debate-8661. There was absolutely no opportunity for revision in that case-8662. Here is an indubitable instance of the allegation that has been made-8663. There should be at least a month to secure a fair revision in many cases-8664. In the large majority of cases it was considerably under a month-8665. Remarkable that this most glaring case should have occurred in Portage la Praire-8666. Such a villainous case as that in the local constituency of Beantiful Plains-8667. The Lac du Bonnet case-8668. Finds nothing stating that the judges have any authority whatever in this connection-8669. Roche conveyed the impression that the registration

We have that established for the first time in this discussion-8671 time allowed for the revision of the lists is altogether too short—8672. There is no such thing as a revision of the lists in the province of Manitoba—8673. The charges against Rudneski and Walton charges against Rudneski and Walton not good enough in this case-8674. Staples knows too much about this cheque for his own good, and so do his friends 8675. Rudneski accused of many things, but not accused of being such a con-summate fool as that 8676. It is be-cause of the iniquity that exists that the opposition are so persistent in holdthe opposition are so persistent in hold-ing on to the Manitoba law-8677. The boundaries of federal constituencies should be independent of those of the provinces-8678. It is surely just as unfair that the Manitoba law should remain as it is-8679. The opposition prepared to stretch the constitution to prevent the application to themselves of their own law-8680. I say give us the law instead of the practice and there is no disagreement between us-8681.

The whole argument based on the assumption that the judges will make partian lists-12955. Expense the only thing they can charge against the government-12956.
- Reid, J. D. (Grenville)-12941.

If the province of Quebec can be trusted to make their lists why not Ontario-12939. The judge sits for appeal in every place where the enumerator sits-12998. Alcorn, G. O. (Prince Edward)-13254.

Part of the scheme is that in these five constituencies nomination is advanced one week-13254.

Aylesworth, Hon. A. B. (Minister of Justice) -13238.

-13238. Important consideration to remember what the existing law is—13238. No lists prepared in the unorganized territory this year—13239. The question simply is, whether or no the existing law is to continue—13240. It is a measure I would be happy to discuss before any meeting of electors—13241. The Bill worded as plainly as any words could make it—13242. No more impartial tribunal could possibly be selected—13243. Reads an article from the Ottawa 'Morning Citizen;' concurs in every word—1325.

Bennett, W. H. (East Simcoe)-13247.

The province of Ontario will hold the Prime Minister responsible for this Act -13247. Cap Sullivan and Conmee were together-13248. All means were resorted to in that riding in the local election -13249.

Borden, R. L. (Carleton, Ont.)-13232.

Idle for the Prime Minister to say there is no discrimination against the province-13232. The government intends to drive discriminating legislation affecting six constituencies through-13233. The people of Ontario will not regard this provision kindly-13234. Offers made to have new lists prepared under the provincial law-13235. Criticism of last year's Bill; quotes from speech by Mr. Greenway-11154. No intimate connection between the proposals in the Bill and the Hudson Bay Railway project, except as far as it may be put forward for party purposes-11155. Provisions very far-reaching; no limitation upon power of Governor in Council as to alienation of land-11159. Large powers given the Minister in settling disputes between persons claiming the right to entry for the same land. In other systems such matters have been left to the courts-11408. DRY DOCKS, CONSTRUCTION OF-Con.

Assuming that the dock company becomes bankrupt, what then?-4677. In case of an enlargement the parties might demand its being taken over at a valuation-4678. They got \$15,000 a year for ten years-4680.

Borden ,R. L. (Carleton, Ont.)-4687.

Government obliged to pay the interest on any outstanding mortgages as well as repairs and maintenance-4687. If the government right to foreclose irrespective of the right of any third person, should be made absolutely clear-4688. Suggests an amendment to the fifth clause providing for information being laid before parliament-4689.

Daniel, J. W. (St. John City)-4686.

The effect this Bill will have on the Imperial Dry Eock Company in St. John's, N. B.-4686. Dry docks, like canals, necessary, but too expensive for private capital-4687. The subsidy would be payable even though the government took over the dock-4688.

Fielding ,Hon. W. S. (Finance Minister)-

The object to amend existing legislation for the encouragement of the construction of dry docks-4076. The payment of the subsidy is dependant on the constant operation of the dry dock-4677. Cannot see how to distinguish between enlargement of a dock and the construction of an original dock-4678. The St. John's Dock Company the only one that has made representations-4679. Collingwood received \$15,000 per annum; have received full payments-4650. The real difficulty is to find people willing to enter upon the construction of docks -4682. The government of the day the only body to control public works; no desire to encourage construction for speculative purposes-4683. The Governor in Council must be satisfied by the report of the Minister, based on the report of the engineer of public works-4684. All that is contemplated is that if the dock is not operated the government will take possession and operate it-4687. All investment is made subject to the conditions of the Bill-4688. Section 6 of the Bill covers a point not covered in the resolution-4689

Foster, Hon. Geo. E. (North Toronto)-4679.

New legislation of this sort generally proceeds from an idea that there is a call for aid-4679. This legislation seems likely to promote speculative building-4680. You contribute considerably more than one-half of the cost without participating in the profits-4681. May lead to giving subsidies to places where there is no need of dry docks-4682. A very different method of carrying out popular government in Great Britain to what there is in this country-4683. That

which has been the bane of governments in Canada ever since Canada had a government-4684. In Great Britain all that atmosphere of partisanship is cut off, and popular government is all the better served-4685.

Osler, E. B. (West Toronto)-4687.

Circumstances in which governments would be paying a subsidy without getting any profit at all-4687. A chance here for making a transaction which would not be beneficial for the government-4688.

Smith, Ralph (Nanaimo)-4685.

Does not know if the government have considered the effect this will have on government dry docks-4685. Suggests consideration of the enlargement of Esquimalt dry dock-4686.

 The Bill embodies the substance of the resolution. Designed to accomplish three purposes-1215. The home market of the chief importance. Still prosperity is dependent to a considerable degree on the prosecution of an over-sea trade-1216. Desire in these growing times to reach out for a share of the trade of the whole world. Only asked to receive the best terms that are granted to a foreign country; 'foreign' in diplomacy has a definite meaning-1225. Something that the duty on Can-adian agricultural implements is lower than that on American-1232. Articles printed in italics indicate that on these there is no reduction of duty at present -1233. May have to extend concesions to most favoured nations-1239. That list is not a very alarming one-1240. When they receive the benefit of this tariff they do not get it for nothing.  - There were never any treaties negotiated exclusively by Canadian ministers as this one has been - 926. Previous treaties were all negotiated exclusively by British ambassadors-927.
- Fielding, Hon. W. S. (Finance Minister)-930. Unable to accept the motion. Monk's method of dealing with the question somewhat extraordinary-930. This treaty is part of the fiscal policy of the government of Canada-931. By the intermediate tariff were able to offer something for what they gave-934.

It would be conducive to the enlightenment of the House to have a special committee-933. The all-sufficient policy propounded last year has utterly failed in the very first attempt-934. - Fielding, Hon. W. S. (Finance Minister)-941.
 Moves that the resolution be taken into consideration on Tuesday next-941.
 Would be glad for the resolution to pass pro forma and the discussion to be on the Bill, on the same day-942-3. Of the utmost importance to obtain the best treatment for Canada on these items-944. Will endeavour to get what information he can-945.

Foster, Hon. Geo. E. (North Toronto)-941.

Is it intended to discuss the treaty on the resolution or on the Bill?-912. Suggests a table showing the duty as provided in the treaty, and that duty reduced to our units-943. Must understand the commercial effects of the treaty-944. The one thing easily obtainable-944.5.

Sproule, T. S. (East Grey)-945.

We want to know what we are doing on those lines, and what the duty is on those lines in France-945.

FRANCO-CANADIAN TRACE TREATY.

Statement by Hon. W. S. Fielding-848.

Fielding, Hon. W. S. (Finance Minister)--848. Finds that there will be delay in bringing down papers; hopes to have them by the end of the week. Members anxious to have them should leave instructions--848-9.

FRANCO-CANADIAN TRADE TREATY.

- Third Reading of Bill No. 57-Hon. W. S. Fielding-4317.
- Beauparlant, A. M. (St. Hyacinthe)-4356.
 - Our opponents refuse apparently to believe in the general advantage to Canada of this treaty-4356. It seems impossible not to admit that agricultural articles will be benefitted by this treaty-4357. Treaty cannot fail to be beneficial to the leather and boot and shoe trades-4372. The treaty favouring development in several parts; cannot be anything else than drafted in the public interest-4373. Quotes Sir John Macdonald in Confederation Debates-4374. Canada evidently sets a high value on commercial autonomy-4375.
- Brodeur, Hon. L. P. (Minister of Marine and Fisheries)-4335.
 - The method in which former treaties have been made-4335. Quotes Pope's biogra-

Quotes Sir Charles Tupper that he negotiated the treaty of 1893. What Lord Dufferin said-4339. Quotes Sir Edward Grev and the Marquis of Ripon that Sir Joseph Crowe assisted-4340. Not altogether necessary that ne-gotiations should be carried on by the plenipotentiaries-4341. Quotes Sir the plenipotentiaries—4341. Quotes Sir Charles Tupper's letters bearing on the case—4342. Quotes Lord Dufferin's let-ter suggesting that Sir Joseph Crowe assist in the negotiations—4343. The Marquis of Ripon's despatch antagonis-tic to giving the Colonies power to ne-gotiate their own treaties—4344. Quotes gotiate their own treaties—4344. Quotes Sir Edward Grey's letter of 1907, leav-ing for the first time negotiations to Canada-4345. Most important these ne-gotiations are to be carried on exclusively by the Canadian representatives— 4346. The report quoted mixes a little the Colonial Conference and the negotiation of treaties—4347. Sir Henry Camp-bell-Bannerman did not go so far as Laurier—4348. The Canadian representatives had no status in previous con-ferences-4349. Monk forgets two important features of the treaty of 1893-4350. The most favoured nation treat-ment applies to Canada as well as France-4351. We have simply to decide whether the treaty as it is is a good one -4352. Our aim was to cover all the articles that we are exporting-4353. We have the minimum tariff on apples and on dried fruits-4354. Such a description in the French tariff means simply eels-4355. The treaty was discussed in the French Chamber and adopted on the same day-4356.

- Fielding, Hon. W. S. (Finance Minister)-4327.
 - The United States do not have the French minimum tariff-4327. Does not accept Monk's interpretation, but if it is correct it defeats his argument-4328.
- Foster, Hon. Geo. E. (North Toronto)-4340.
 - The point he wants to make: Why introduce Sir Joseph Crowe when Lord Dufferin and Sir Charles Tupper were the plenipotentiaries—4340. Has the status been changed as to who represented the countries—4341. Was Sir Joseph Crowe appointed a plenipotentiary—4341. They had no status in the conference of 1907—4349.

Monk, F. D.-Con.

This very treaty will not pass the French Chamber without the most cru-cial exemination. Quotes 'Le Canada' cial exemination. Quotes 'Le Canada' -4318. Fielding plays a very secondary part in the criticism. Quotes 'Le Soleil'-4319. The attitude taken by Laurier in regard to Sir Charles Tup-per's treaty of 1893. Quotes his speech-4320. Not one word to commend the efforts made by Sir Charles Tupper, as shown in his correspondence—4321. Perhaps with a less plentiful list of articles and more concessions of a solid character we would do more business-4322. M. Pichon, that the very last con-cession to be expected from France would be in regard to her agricultural tariff-4323. Look at the tariff. Consider the prevailing conditions, can only conclude no trade in that line can be de-veloped—4324. Should have aimed at having a shorter list and more substanhaving a shorter list and more substan-tial advantages-4325. Regrets the aim has not been for a special list where ad-vantages would have been immediate-4326. The United States enjoy the French minimum tariff, according to Kelly's Customs Tariffs-4327. No word in that section 8 of shipping through the United States-4328. It seems to be right in this stage to state the are act the really are 4299. Your things as they really are-4329. Your frineds went down to meet this great Talleyrand who was coming from France -4330. He claimed that using the right he had wrested from England he had obtained this treaty-4321 obtained this treaty-4331. We have concluded this treaty as we have concluded every other treaty as we have con-cluded every other treaty for the last thirty years-4332. This treaty been re-ceived in a broader spirit than was that of 1893 by the then opposition-4333. 'Le Canada' of October 7, 1907, on Bro-deur at Three Rivers-4347. Has not spoken against the treaty, but Laurier did against that of 1893-4349. His authority the beginning of the communication of which Brodeur quoted the latter part-4350. The most important change of all was that of conducting treaties in your own name-4351. With the certainty that we would deal in those articles-4353. Loes not think we can do much trade in apples-4354. We are enjoying the benefits of the minimum tariff-4355.

Sproule, T. S. (East Grey)-4351.

When they come to establish a line of steamers Canada pays all the subsidy— 4351. Has scarcely criticised the treaty because he could not make an analysis that would justify him—4352.

Zimmerman, A. (West Hamilton)-4333.

Monk appears to doubt his statements. Quotes the Hamilton 'Spectator'-4333. 'Times' and 'Herald' confirming them 4334. The Hamilton newspapers justify the statement he made-4335.

J. Hughes (King's, P.E.I.)-6243.

Barr, J. (Dufferin)-6272.

Graham, Hon. G. P. (Minister of Railways) -6272.

Importance of the question not only to Prince Edward Island, but to all Canada-6272-3. No discrimination against P.E.I. in making of rates; compact of Confederation has been kept-6274. Terms of Confederation provided for steamer communication-6274. Cost of maintaining communication-6274. The question of claims-6274.75. Would not change name of the Intercolonial-6276. Imposible for a narrow gauge and a standard gauge road to unite-6277. Question of the Railway Department operating the ferry service winter and summer, a debatable one-6277.78. A car ferry service, 6278-9. Suggests that motion be withdrawn, until government can make further inquiry-6280.

Hughes, J. J. (Kings, P.E.I.)-6243.

Reasons for change of name-6243. Present system works to disadvantage of the Island Railmay-6244. Island Railway discriminated against-6244. Comparison of freight rates from Montreal and Toronto to Charlottetown-6245. Rates from Toronto to Georgetown-6245-6. Reasons why P.E.I. Railway should be an integral portion of the Government system-6246. Peculiarities of the transportation system to and from Prince Edward Island; a tripartite system-6247. Prince Edward Island shippers handicapped as regards freight rates-6248. Resolution passed by the Maritime Board of Trade -6248. More favourable treatment given Cape Breton and Vancouver Island-6249. Tunnel proposition should be fully investigated. Service across straits should be under Railway Department-6285. Withdraws motion-6286.

Lefurgey, A. A. (Prince, P.E.I.)-6261.

The freight rate question; long and short hauls—6263. Put Intercolonial under a commission—6263. Advantages of tunnel connection with the mainland —6264. Responsibility for transportation facilities should be placed under one department—6265.

GOVERNMENT RAILWAYS-Con.

Macdonald, E. M. (Pictou)-6256.

Natural conditions affecting transportation to and from Prince Edward Island -6256. Long hauls or short hauls-6257. Arrangement of freight charges made in interest of the people of Prince Edward Island-6258. Port of Pictou should have same favourable low rates as are granted St. John and Halifax-6258-9. Difficulty in adjusting rates on freight originating with other railways -6259. Management of steamers across the straits should be in hands of the Railway Department, winter and summer 6260-61.

McLean, A. A. (Queens, P.E.I.)-6252.

Freight rates from P.E.I.-6252-3. A tunnel the only remedy for the grievance-6254. Notwithstanding resolutions of the Charlottetown Board of Trade interests of the east being neglected by the government-6255.

Martin, A. (Queens, (P.E. I.)-6250.

Change of name would not influence freight rates—6250. Quotes freight rates from Montreal to St. John, Halifax and Sydney, and from Tignish to the same points—6251.

Reid, J. D. (Grenville)-6269.

Present name should be retained. Estimate should be made of the cost of a tunnel-6269.

Taylor, George (Leeds)-6266.

Change of name would be a mistake; the cost involved-6266.

Wright, A. A. (South Renfrew)-6270.

Potato trade affected by want of proper transportation facilities — 6270-71. Tunnel should be proivded if necessary; cost would not be prohibitive—6271-72.

GOVERNMENT SUPPLIES, PURCHASE OF.

Motion ' that all supplies purchased for the use of the various departments of the government should be procured on the basis of public tender and contract, under the direction of a competent purchasing commission, and with regard primarily to quality and price'—Hon. Geo. E. Foster—5802.

Blain, R. (Peel)-5826.

The amendment reaffirms the principle applied by this government to purchasing of goods-5826. The case of B. J. Coghlin and Hon. R. Préfontaine-5827. One refund in connection with the purchase of these goods-5828. Was informed that Mr. Beauchemin was a Liberal-5829. Falconer came in to instruct the government how to correct their system -5830. Has a charge to make against two ministers of the Crown-5831. The Finance Minister and Aylesworth prevented the price being given-5832. This man should not be shielded by any technicality from telling the price he paid-5833. For some unexplainable reason sent for men from New York to do this work-5834. The Department of Marine in such a condition that no one could make anything out of it-5835. Strongly disapproves of the system now in vogue-5836. Goods purchased for the Speaker's department without tender -5837. Reads a list of purchases without tender-5839-40. Is quoting from a return to an order of this House-5841

GOVERNMENT SUPPLIES, PURCHASE OF -Con.

Blain, R.-Con

Reads correspondence with Falconer-5842-3. A large amount of money has been paid to these gentlemen - 5844. Contract with a new company let without tender by the Militia Department-5845. Never do for the Government to give patronage except to their political friends-5846. Moves amendment to the amendment-5847.

Borden, R. L. (Carleton, Ont.)-5820.

Seems the Premier agrees with the resolution by not answering Foster's speech -5820. You would have a safeguard which is not provided under the present system-5821. The principle will work out in the interests of the people of this country-5822.

Boyce, A. C. (West Algoma)-5872.

The resolution deals with a matter of paramount public importance—5872. This motion comes at a very opportune time 5873. The Premier voting down in quiry, what can you expect—5874. Scandals treated with complacency. The people will not suffer it—5875. The Premier has absolutely failed to fulfil his promises—5876. Quotes Hon. George Brown—5877.

Fielding, Hon. W. S. (Finance Minister)-5822.

- Some part of the resolution open to the objections that have been taken-5822-3. Commission requires men who are capable, alive to a sense of duty, and of the highest integrity-5824. Cannot and should not wish to get away from the principle of parliamentary responsibility-5825. Moves an amendment-5826.
- Fisher, Hon. Sydney (Minister of Agriculture)-5860.
 - Blain showed clearly that he wanted to make this a purely party question— 5860. Does not believe such a commission would work effectively—5861. The commission would be open to the worst tendencies of beaureaucracy—5862. It would buy as large a proportion of goods outside tender and contract as does the government—5863. Quotes the Civil Service Report of 1892—5864. The contract goes to the lowest tenderer, be he producer or middleman—5865.

Foster, Hon. Geo. E. (North Toronto)-5802.

Gave notice at the beginning of the session of three motions, which have been delayed—5802. An essential to good government is the existence of a strenuous opposition—5803. Amount of taxation paid in Canada in forty years—5804. Two points might be easily agreed upon by all. Progress of business methods in last ten years—5805. Men high in authority ought to set an example of plain, straight living—5806. No reason why business methods should not be applied to governmental matters—5807. Depart

ments with system, others which have retrograded. Patronage list-5808. There is no uniformity, it is confusion worse confounded-5809. There is no proper check upon the quality in some departments-5810. Cost of provisions, Militia Department, government steamers-5811. Buying is an expert business in this age -5812. Would have a purchasing commission and all its purchases under audit-5813. Introduce with the new system a method for elevating and heightening the tone of public life-5814. Now is the time for Canada to sit up and think-5815. Once you establish a system, no difficulty in working out details-5816. Have a right to deduce examples; cannot possibly be out of order -588

Laurier, Rt. Hon. Sir Wilfrid (Prime Minister)-5816.

Purchase by tender the only rule, the only method by which a government can safely do business-5816. Not possible in every instance to carry out government business by contract-5817. Foster outlined a plan which he himself would revise before expecting it to be accepted-5818. This idea is not one which ought to be adopted-5819. Invites Foster to reconsider this new departure in our political system-5820.

Northrup, W. B. (East Hastings)-5854.

The greatest factor in the case the man who is charged with giving effect to it— 5854. If the Conservatives are returned to power they will do better than any government yet—5855. Have proof after proof advanced of infamous wrongdoings—5856. Obstacles placed in the way of their getting proofs—5857. The 'Arctic,' 'Montcalm,' &c.—5858. The government committed uneservedly to Blain's amendment—5859. With the object lessons before them are justified in supporting the amendment—5860.

Roche, Wm. (Halifax)-5847.

Foster only became a reformer when he lost the power to carry out reforms-5847. Disorders in Marine Department under Foster-5848. Conservatives in exercising patronage did not consider one-half the people-5849. All good supporters of the Liberal Conservative party to the exclusion of all Liberals-5850. The system adopted by the British government-5851. Why should a purchasing board be better than a departmental board-5852. Foster's claim falls absolutely to the ground-5853. Influences brought to bear upon the British government-5854.

Speaker, His Honour the-5837.

The comparison between expenditures by two Speakers is not pertinent—5637-8. It is not relevant to the question of purchase by tender—5839.

GOVERNMENT SUPPLIES, PURCHASE OF -Con.

- Sproule, T. S. (East Grey)-5837.
 - Takes a point of order. It is necessary to give examples—5837. Fisher admits the resolution contains much with which he agrees—5865. Thousands of dollars spent for nothing—5866. Half a million dollars in one department without tender in two years—5867. Supplies for the L.C.R. Only a small percentage purchased on tender—5868. The present system of purchasing vicious and rotten— 5869. Judge Winchester on the rules of evidence—5870. Evidence of wrongdoing, mismanagement, incompetence, &c.—5871. They must take the consequence at the bar of public opinion— 5872.

GRAIN COMMISSION REPORT.

- Inquiry whether the evidence taken before the Commission is or will be printed-Mr. R. S. Lake-4224.
- Fisher, Hon. Sydney (Minister of Agriculture)-4224.

Will make inquiries. The evidence was taken by the Minister of Trade and Commerce-4224.

Lake, R. S. (Qu'Appelle)-4224.

Asks whether the evidence is or will be printed-4224.

GRAND TRUNK PACIFIC AND THE QUE-BEC BRIDGE.

Inquiry by Hon. G. E. Foster.-13227.

Fielding, Hon. W. S. (Finance Minister'-13227.

There is no such agreement concerning the Quebec Bridge-13227.

- Foster, Hon. Geo. E. (North Toronto)-13227. Asks if any agreement for the G.T.P.R. to take over the bridge exists-13227. If the report is not made later will move to strike off their salaries-13228.
- Graham, Hon. Geo. P. (Minister of Railways and Canals)-13227.

Has several times given all the information he possesses—13227. It is to the end, of the fiscal year like all the others— 13228.

- Barker, S. (East Hamilton)-8133.
 - Future interests of people of Canada should be protected as regards their rights in branch lines—\$133.

Blain, R. (Peel)-8748.

The amendment leaves to the discretion of parliament the choice of lines-8748. It is in the interest of the people to adopt the amendment-8749.

GRAND TRUNK PACIFIC BRANCH LINES -Con.

Borden, R. L. (Carleton, Ont.)-9463.

Must look forward to the time when the government will operate the line-9463. A very incongruous condition if any other result should obtain-9464. Govother result should obtain—9464. Gov-ernment no power to expropriate with-out legislation—9466. It would be neces-sary to obtain the consent of parlia-ment—9467. By the statute of 1906 there are 18 branch lines provided for— 9469. Close relationship between their construction and that of the main line _9472 -9470.

Crawford, J. (Portage la Prairie)-9462.

The whole thing was fought out two years ago-9462. The company are just as anxious as they can be to build them-9468.

Crocket, O. S. (York, N.B.)-9464.

- Refers to despatch in the Montreal 'Gazette' of to-day-9464. Understands the hope that the G.T.P. will take over the New Brunswick Coal and Railway Company-9465.
- Graham, Hon. Geo. P. (Minister of Railways and Canals)-8552.
 - Has no objection, but it cannot be said that the government is retarding public business-8552. Asks for it to stand as business-8552. Asks for it to stand as matter of convenience; ought to get rid of it some time this week-8609. The interests of the people in these branch lines ought to be safeguarded-8742. Reads his proposed amendment, identi-cal with section 11 of the amended con-tract of 1904-8743. Moves this as an His amendment to the amendment-8744. His amendment had that proviso in-9379. Had a clause drafted the same as 9381. Willing the Bill should be ac-cepted as passed by the Senate-9382.
- Haggart, Hon. J. G. (South Lanark)-8746.
 - The company can compel the government to take over lines that are worth very little-8746. Never heard of anything of the kind in a private Bill before-9462.

Lake, R. S. (Qu'Appelle)-9469.

- Government should press the commencement of these branches as early as possible-9469.
- Lancaster, E. A. (Lincoln and Niagara)-8746. Pugsley afraid of the government doing what it ought in the interest of the country-8746. No word of his will stay the government from giving the G.T.P. R. what it wants-8747. Allowed them the most beautiful part of the park as site for an hotel-8748. Not one word advanced to show that this is not a proper position-9382. Understands Lennox wants to stop this from going any further-9383. These are the people who are incorporated in the name of the Branch Lines Company-9384. We must have something to protect the people in

GRAND TRUNK PACIFIC BRANCH LINES. Con

- Lancaster, E. A.-Con.
 - This government did this Bill-9385. undertake to say that the one had something to do with the other-9386. Dif-ference between the Minister of Justice and the Minister of Railways and Canals-9387. Go on, build them. Those you find do not pay you can throw on us-9388. We must take such lines as the G.T.P. want to sell-9389. No way of protecting the people without some up on a second second second such amendment-9390.
- Laurier, Rt. Hon. Sir Wilfrid (Prime Minis-ter)-9465.
 - Withdraws the amendment to the amend-ment-9465. Nothing can be done without the consent of parliament-9466. His colleague has concluded that there is no necessity for the amendment-9467. Thinks the matter can be safely left to for the parties most interested-9471.
- Lennox, Haughton (South Simcoe)-8125.
 - nnox, Haughton (South Simcoe)-8125.
 Country should be in position to take over control of branch lines on eastern di-vision of the G.T.P. at end of fifty year period. Moves amendment to that ef-fect-8126. Quotes precedent for course suggested in his amendment-8131. Ex-pects that if he is not here on an occa-sion when this Bill is called, that it will stand 2600 Amendment giving covstand-8609. Amendment giving gov-ernment, at the end of the fifty year period the right to take over all branch lines-8741. Has safeguarded the peo-ple's rights by providing for parlia-mentary approval of options-8742. Why he cannot accept Graham's amendment: re-enacting section 11 would be worse than a blunder-8749. That means that the company would have the right to retain all the paying branches-8750. Securing an option that will give the peo-ple a fair deal—8751. The position un-der the mnister's amendment worse than under the Bill—9377. Very anxious to defeat this amendment by any legitimate means-9378. These three companies are substantially one-9379. Very slovenly and unsuitable language to accomplish any purpose-9380. Minis-ter should frame a provision somewhat on the lines on which I framed it-9381.

Macdonald, E. M. (Pictou)-9467.

- No connection between the extension of time and the provision in the original agreement-9467. As to the time of con-struction-9468. Very little relation to the time for completing the original undertaking-9470.
- Pugsley, Hon. Wm. (Minister of Public Works)-8130.
 - Amendment contrary to provisions of British North America Act-8130. Lennox amendment allows the government to pick out what lines it pleases; that would be unjust-8746. Graham thought it better to have both the amendments withdrawn-9462. Thinks in the interests

GRAND TRUNK PACIFIC BRANCH LINES -Con.

Pugsley, Hon. Wm.-Con.

of justice both should be withdrawn-9463. Have suggested that they might branch off from Chipman to St. John-9464. New Brunswick sources of information to the Montreal 'Gazette' might be partisan-9465.

Sproule, T. S. (East Grey)-8552.

- Asks that the Bill stand, as Mr. Lennox is absent-8552. Unbusiness-like to take over only such parts of the road as the company do not want-8744. We held the principle was wrong and unsound when it was carried through before-8745. Thinks the country will not endorse it-8746. Proposed amendment makes it very much worse than it was-9461. Better have both withdrawn than pass this one-9462. Amendment sets out conditions under which they may take these lines over-9466. Government cannot expect the railway to be completed within the time limit-9467. Macdonald's a strange kind of logie-9468. Every company will hold off until it suits its own time to build-9471-2.
- GRAND TRUNK PACIFIC CONSTRUC-TION-ACCIDENTS.
 - Attention called to loss of life on Transcontinental construction-O. E. Talbot-6850.

As long as it suits the city and the government the contract will go through, even though the cost is only \$100,000-12062-3. The city has practically nothing to do with the giving the land-12074. Both the railway company and the government can ignore the city-12075.

Borden, R. L. (Careton, Ont.)-12070.

Cannot understand how any government ever came to accede to this proposal— 12070. Appropriating a portion of the National domain for the purpose of building an hotel—12071. Is looking at this park as a portion of the grounds of parliament—12072.

Boyce, A. C. (West Algoma)-12077.

This proposition is an extraordinary one -12077. Government spending about a million dollars to expropriate land for public buildings-12078. Allowing an hotel right amongst the government buildings-12079.

Lennox, H. (South Simcoe)-12064.

Customary in such transactions to have a stated amount of expenditure-12064. Passed the Order in Council without one tittle of evidence as regards cost-12065. Ordinarily it should go to the consolidated fund-42066. If the land rad been put up at auction it would have realized a far larger sum-12067. The disastrous scheme of selling the land at all-12068. Would like an explanation of the contract between the city and the government-12069. The minister did not seem to know anything about it-12070.

Perley, G. H. (Argenteuil)-12073.

 - Proposes an amendment, providing that the title lie in the Ottawa Terminals Railway Company-12061. The plans and specifications are to be approved by the Governor in Council-12062. Believes the plans approved by the city will be approved-12063. Our duty to stipulate for a first-class hotel, an ornament to Canada-12064. The money consideration to be used in improving the remainder of the park-12066. Only right that the money should be used for beautifying the park-12067. The people's rights can in no way be interfered with-12068. The moment we part with the land it becomes private property-12069. The city has entered into a written agreement with the company -12070. The company said 'if we cannot build there we will not build at all' -12075. Moves his amendment-12076. The total expenditure for this land is very far short of being a million dollars

IMMIGRATION BUSINESS.

Motion that no further bonuses be paid, and that undesirables should be prohibited firom landing-Mr. Wm. F. Cockshutt-1295-3279. 10095-81

IMMIGRATION BUSINESS-Con.

Borden, R. L. (Carleton, Ont.)-1298.

Ross has taken his point of order a little too late-1298. 'It is perfectly clear you had not'-1299. No other man could secure the same number of quibbles in the same time as Oliver-1328. The letter was simply an ordinary letter, used without notice-1329. The letter simply carries out the policy of Lazurus and Preston-1330. Reads John McLennan's letter to Cockshutt-1331-2. The exodus still continuing. The minister ready to claim credit for the crops and the weather-1333. Immigration to the United States without any bonus-1334. How immigrants to the United States are handled. Desire that the country shall grow in population-1335. Asks if the government intend to accede to the resolution. Cannot tell from Oliver's remarks-1336. Trusts Cockshutt's eloquent remarks will receive due consideration-1337.

Brodeur, Hon. L. P. (Minister of Marine and Fisheries)-1344.

It is always permitted to refer to a document without referring to a debate-1344.

Cockshutt, Wm. F. (Brantford)-1295.

Makes his motion-1295. Criticises Oliver's action in reading his letter-1296. His letter not in the interest of the manufacturers, but of all classes-1297. Oliver misrepresented him as advocating an immigrant bureau-1298. The inclosure from the Manufacturers' Association-1300. Quotes the 'Free Press,' Ottawa, of December 19. Has three times denied being a member of the association-1301. Reads a letter signed by one of the European immigration agents-1302. Is using a copy, but has the original, the date is 5th June, 1907-1303. 'Free Press' attack on Foster and himself. Quotes the Speech from the Throne-1304. He wrote a booking agent to send no more men, but the government made no attempt to stop the congestion-305. The immigration policy characterized by recklessness as the rest of the government policies-1306. Bringing in immigrants regardless of their quality or fitness-1307. The question goes to the very fountain of our moral, social and religious life-1308. Evasion of the \$25 law. Crimes of violence increasing-1309. They have recklessly fought to make a showing regardless of disasters-1310. High time the minister should inaugurate a policy of retrenchment. Moves his resolution -1311. Oliver did not want the letter, that is why it is not shown-1312. The letted is dated 'Aberdeen' and signed John McLennan-1321. There was no correspondence leading up to it-1322. Oliver misrepresents him; he always stood for a special amount of British immigration-1326. The letter was ad dressed to him, he handed it over to the proper authority-1337. Wishes to correct

Foster, Hon. Geo. E. (North Toronto)-1299. That point of order has been decided-1299. That has all passed into oblivion -1300.

Johnston, A. (Cape Breton)-1337.

There has been a searching of hearts amongst the Opposition and unkind looks at Cockshutt-1337. Cockshutt playlooks at Cockshutt play-ed the game of the professional politi-cian rather than the friend of the skilled workman-1338. He carefully concealed the fact that such a letter had been written by one of its officers from the department-1339. Borden said that the government were not bringing these people into the country; Borden, as reported by the 'Montreal Gazette'-1340. Perhaps he thought the people in reported by the 'Montreal Gazette'-1340. Perhaps he thought the people in the west would not find out what he said in Valleyfield-1341. This declara-tion would hold good only while he was in the west-1342. Cockshutt's efforts to escape responsibility for writing that letter-1343. The policy of the govern-ment has done much to people both the east and the wast-1344. Comparison before 1896 and now-1345. Moves an amendment-1346.

Martin, A. (Queens, P.E.I.)-1342.

- Oliver, Hon. Frank (Minister of the Interior) -1298.
 - Asks what Borden's suggestion has to do with the point of order—1298. Questions Sproule's point that he had no right to give the facts when he did—1299. Asks If his statement was ahead of time or out of order—1300. The House indebted to Cockshutt for depicting the views of to Cockshutt for depicting the views of the Opposition on immigration-1311. It was not a private, but an essentially public letter-1312. It is such a document as the government are always prepared to lay before the House-1313. The word-ing of the letter does bear out the position taken by Cockshutt-1314. Reads a letter from the Brantford Bureau of Information endorsed by Cockshutt-1315. The ouestion of Cock Reads a letter from the Brantford Bureau of Information endorsed by Cockshutt-1315. The question of Cock-shutt's assuming responsibility for the views therein-1316. He vouches for the standing of the bureau, and then disclaims responsibility for its state-ments-1317. He wanted to empty the overcrowded tenements of Europe into Brantford and other cities - 1318 overcrowded tenements of Europe into Brantford and other cities - 1318. Astonishing he should have sent such a letter, and then not stand by it-1319. The difference between Mr. Stewart's letter and that of the member for Brantford-1320. Mr. McLennan evi-dently does not understand the position of the government as he should-1321. While indiscret the letter does not urge While indiscreet the letter does not urge

Bill No. 88 in Committee.—Mr. J. C. Walsh -5379, 5953.

Blain, R. (Peel)-5382.

Bill comes up to-night almost as a new Bill-5382. If this Bill is passed some men would be barred out-5383. Could not support the Bill, it creates a monopoly-5384. No advantage to the public in this Bill-5385. This is a matter to be dealt with by the province-5408. Asks if that point has been considered -5409.

Architects and contractors should be separate or far as possible—5385. Cannot see why the architects should not be allowed to form themselves into an association—5386.

Gervais, H. (Montreal, St. James)-5379.

- Most of the objectionable features have been eliminated-5379. Now absolutely nothing to exclule anybody-5380. The title of the Bill changed-5382. The Bill forms a social club, doubts if it should pass-5383. Asks to have a day fixed for the Bill-5386. Moves to strike out section 4-5408. Now the duty of the House to say that parliament is powerless to incorporate social clubs-5409. Moves that clause 4 be struck out-5953. This corporation will be a paper corporation pure and simply-5954.
- Laurier, Rt. Hon. Sir Wilfrid (Prime Minister)-5409.

INSTITUTE OF ARCHITECTS OF CANADA — Con.

Macpherson, R. G. (Vancouver)-5380.

- A pretty broad Bill; amendments not reprinted-5380. The architects themselves desire it-5383. The architects wish to protect the public-5384. It will raise the standard of architecture and of architects-5385.
- Sproule, T. S. (East Grev)-5379.
 - The Bill as it stands merely amounts to the incorporation of a club-5379. Advocates a Dominion standard for the learned professions-5380. Might be worked to the discredit of the architects-5381. Gives them power to establish classes-5382. Might claim the Dominion standard higher than the provincial-5383.

Walsh, J. C.-5380.

The chartered accountants are incorporated-5380. The object is to better their position as a profession-5381. Willing to accept any modification-5382. Willing to strike out the first paragraph of clause 4-5953. There is nothing about teaching in the Bill-5954. Recognize the rights of provinces under this amendment-5955.

IRRIGATION ACT AMENDMENT.

Bill No. 10 read a second time and in Committee-Hon. Frank Oliver-766.

Borden, R. L. (Carleton, Ont.)-766.

Asks an idea of what the Bill contemplates—766. Should follow language of Bill relating to telephone companies— 769.

Oliver, Hon. Frank (Minister of the Interior) -766.

Bill contains practically three amendments, one verbal-766. To preserve rights of municipalities, and give the user a right to cross other people's properties-767. Provision is made requiring them to keep open any road allowance whether it is travelled of not-768. Want to preserve municipal rights as far as consistent with efficiency of irrigation-769.

Ross, Duncan (Yale-Cariboo)-768.

No provision made for appealing from the decision of a municipality in this matter-768.

Sproule, T. S. (East Grev)-768.

Telephone Bills provide that works shall be carried out under municipal supervision—768. Should make similar provision in the case of irrigation companies—769. The section all right as far as it goes, but does not go far enough— 770.

IRRIGATION ACT-AMENDMENT.

- Bill No. 10 again in Committee-Hon. Frank Oliver-953-4671.
- Ames, H. B. (Montreal, St. Antoine)-4673. Is the authorization referred to federal or local-4673. Asks an explanation of the exemption in section 9-4674.

Bergeron, J. G. H. (Beauharnois)-968.

If any kind of work should be done by the government, it is work of this kind -968. The adoption of such a policy would obviate the necessity of introducing Bills such as this-969.

Borden, R. L. (Carleton, Ont.)-955.

On section 4. Power to withhold consent, implies power to give consent subject to certain conditions-955. Unless a municipality when giving consent reserves the right of future control, it might lose

such right—956. Regulation by a municipality might be made subject to approval of some higher authority—957. The first resolution of the Union of Alberta municipalities—958. Copies of the Bill should be sent the Union of Alberta municipalities—962. On section 1. Is the expression 'industrial purposes' used in the Act—963. On section 6. The drafting not happy; suggests an improvement—964. Should insert 'satisfactory,' making it read 'satisfactory evidence'—965. In the United States lands when irrigated are handed over to settlers at the cost of irrigation—969. Irrigation in Canada has been left to private enterprise on conditions unfair to the settler—970. The two questions the minister thinks identical absolutely distinct—971. McCarthy wanted information as to the policy of the government—972. The association asked a location and survey in the interest of the people as a whole—973. The object is to require the filing of permission by the municipal or other authority—4671. In case of dispute the matter must be referred to the Railway Commission—4673.

Foster ,Hon. G. E. (North Toronto)-974.

- All this time delay is going on; insufficient information is being gathered— 974. In times past we have recklessly and extravagantly disposed of great franchises of this country to private individuals—975. Recommends a systematic and scientific study of these questions, and intelligent action—976.

Quite sure can frame provisions to meet conditions that are suggested—959. Would not like on his own responsibility to suggest any amendment to the section as it stands-960. Irrigation on a large scale as a commercial undertaking; an experiment in the west-969. As to what the government has done McCarthy had better move for a return-970. Different degrees of governmental responsibility are matters of policy not decided by survey-971. So far the government has not decided on any irrigation—972. Wants a definite statement as to what R. L. Borden wants—973. There has been no change of policy as regards irrigation—974. On section 7. The Commissioner acting for this government is to have the permiswith him-4671. Lancaster, E. A. (Lincoln)-12400.

Protests against passing a serious law in this hasty way-12400. It is an outrage upon decency; affects the liberty of every child-12401. MANITOBA BOUNDARIES.

Motion eo extend the boundaries of Manitoba, Ontario and Quebec-Rt. Hon. Sir Wilfrid Laurier-12776. 10095-91

MANITOBA BOUNDARIES-Con.

Borden, R. L. (Carleton, Ont.)-12790.

The resolution defines the boundaries and leaves everything else absolutely open-12790. Quotes the Manitoba 'Free Press,' and the 'Globe'-12791. Would have been wise to consider the possibility of Newfoundland entering the Union – 12792. Does not see the difference between the amendment, and the amend-ment to it-12833. Subsection 4 is not a provision for the reduction of repre-sentation-12834. The resolution is a foundation for legislation-12835. Stanfield's amendment as definite as anyone could desire-12836.

Crocket, O. S. (York, N.B.)-12796.

Quebec the pivotal province upon which representation turns-12796. The debate in the New Brunswick House in 1905-12797.

Daniel, J. W. (St. John City)-12795.

- This matter very important to the people of the Maritime provinces-12795. The Maritime provinces robbed of their representation by changes-12796.
- Fielding. Hon. W. S. (Finance Minister)-12796.
 - The addition to Quebec not necessarily a disadvantage to the Maritime provinces -12793. The unit should be established upon the present population of Quebec -12794. Defer action that all parties may be consulted-12795.

Fowler, G. W. (Kings, N.B.)-12793.

bler, G. W. (Kings, N.B.)-12/93.
Protests as a Maritime province member against the addition to Quebec-12793.
The amendment does not go far enough to do any justice to the Maritime provinces-12816. The lands belong to the Dominion as a whole; they were purchased by the Dominion-12817. Nothing for the Maritime provinces, nothing for British Columbia-12818. Maritime provinces have some compensation-12819.

Hughes, J. J. (Kings, P.E.I.)-12826.

- Would not support the resolution if the details were not left open-12826. A provision that the Maritime province representation should never be less than at Confederation-12827.
- Laurier, Rt. Hon. Sir Wilfrid (Prime Minister)-12776.
 - Moves the resolution-12776. Never occurred to any one to create a new pro-vince out of the north country-12777. This course was contemplated by the fathers of confederation-12778. What took place at the confederation New York took place at the conference in Novem-ber, 1906—12779. The conclusion arrived at after consideration-12780. "The boundary laid down adheres to the height of land as far as possible—12781. Increase of population to Manitoba, at last census -12782. Quotes the memorial of Manitoba-12783. No reason to depart from the arrangement made when Manitoba entered the Union-12784. The Hudson

Bay Company does not come into con-sideration in this matter—12785. A mem-orial from the executive council of Quebec-12786. With territory added Que-bec 12786. With territory added Que-bec is far the largest province of the Dominion-12787. Not a single voter in the new territory-12788. The Newfound-land-Canada boundary to be settled by arbitration-12789. Attention of Quebec drawn to objections to increasing her area-12790. Nothing so likely to create bad blood as these boundary questions-12819. Preferable that the claims of Quebec and of Newfoundland should be settled-12820. A Bill would not be more binding than this resolution-12821. Wishes a new province would be formed out of Ungava—12822. Would rather annex the Yukon to British Columbia —12823. A more practical question is that of representation—12824. Should not have any province harbouring the feeling that an injustice had been done to it—12825. Have a right to insist on a provision for another basis of repre-sentation—12926. Makes a verbal amendment-12836.

Macdonald, E. M. (Pictou)-12827.

Fails to see that any compenation logi-cally follows the change of boundaries -12827-8. The Imperial parliament alone can change the basis of representation -12829. The effect of the increasing population of the west-12830. Moves an amendment to the amendment, nothing to impair the representation of any province-12831

Maclean, W. F. (South York)-12831.

The province of Ontario will take what is given it—12831. Believes parliament is big enough to revise the constitution of the country—12832. And in that way meet the views of all sections of the country -12833.

McLean, A. A. (Queens, P.E.I.)-12813.

Seconds Stanfield's amendment-12813. Believes the resolution could not be con-sidered without the amendment-12814. If the other provinces are affected, their representation must be-12815. All the other provinces should receive a proportionate share of money-12816.

Martin, A. (Queens, P.E.I.)-12798.

- Protests against the public domain being given away to these provinces-12798. Adhere to the terms of confederation and maintain Quebec as the pivotal province-12799.
- Pugsley, Hon. Wm. (Minister of Public Works)-12799.
 - No doube whatever the northern boundary of Quebec at confederation was the height of land-12799. Nothing in the height of land-12/99. Nothing in the resolution that commits the House as to representation-12800. It expressly re-serves to parliament the right to stipu-late as to terms-12801. Very clear that

The Premier's declaration when he intro-duced the Autonomy Bills-12805. We do not know when a Bill will be intro-duced into the House-12806. Our claim has always been that the public lands be handed over to the province-12807. Manitoba has been very unfairly treated Manitoba has been very unfairly treated and deserves more consideration-12808. No justification for not introducing a Bill-12809. Keewatin exempted to fasten the same system of education upon that added territory-12810. If it has to be faced it may as well be faced and fought out first as last-12811.
- Stanfield, John (Colchester)-12813.

Moves an amendment to protect the re-presentation of the provinces-12813.

Staples, W. D. (Macdonald)-12811.

Here we are to-day with a resolution that practically provides for nothing-12811. No government in Manitoba will be satisfied unless justice is done that pro-vince-12812. The resolution only to give Manitoba Liberals something to go on the stump with-12813.

Tisdale, Hon. David (Norfolk)-12792.

No present necessity for the distribution of this 400,000 square miles-12792. The of this 400,000 square miles-12792. The Dominion capable of looking after natural resources-12793.

Blain, R. (Peel)-12565.

Members of the opposition claim that they were not invited to the meetings-12565.

Borden, R. L. (Carleton, Ont.)-12569. The Minister should have made the in-formation open if he did not wish this made a party question-12569. What might have been expected of the minister when a little off his base-12570.

MANITOBA GRAIN ACT-AMENDMENT-Con.

Conmee, James (Thunder Bay)-12561.

Grain shipped to Winnipeg is not inspected as it goes into the car-12561. The certificate given at Winnipeg final as between buyer and seller-12562. as between buyer and some and Gives notice of an amendment to overfair consideration for this amendment-12564. What may possibly take place under subsection 8 of secton 9-12572. Most of the grain now shipped from the west is not inspected at Winnipeg-12573. We do not want to be treated differently from Winnipeg-12574. Would like some one to show him how the farmer is to be benefited by this-12575. The farmers' representatives are with the opportunity of treating it and mixing it if they want to in Winnipeg-12578. The terminal elevator is the only proper place for inspection-12579. Would be in place for inspection-12579. Would be in favour of grading grain into its proper class-12581. Proposes an amendment making all elevators at Winnipeg public terminal elevators-12582. The point un-der discussion does not touch the ques-tion of sample market-12584. The subsection applies only to country elevators -12586. If it does not go to Winnipeg it passes on to the terminal elevators without a grade—12588. The protected in rates—12593. The farmer is well

Crawford, John (Portage la Prairie)-12571.

- The grain might be billed to a public terminal elevator—12571. Farmers under the impression that they are losers by mixing grain in elevators—12577. Not five per cent of the grain passing through Winnipeg goes into the Winnipeg elevators—12578.
- Fielding, Hon. W. S. (Finance Minister)-13207.

Liscuss both Bills at the same time-13207. Report progress and take up the other-13208.

Herron, John (Alberta)-12565.

Heard the government members had several meetings with the delegates-12565. The grades of Nos. 1 and 2 Alberta Red two pounds too high. Against the growers-13214. Would vote in favour of government ownership and operation of government elevators-13223.

Jackson, S. J. (Selkirk)-12583.

Farmers want a sample market at Winnipeg-12583. Farmers know that with the large crops Winnipeg will be too congested for business-12591. The farmers will get the benefit, that is what we want-12593.

Lake, R. S. (Qu'Appelle)-12559.

Asks an explanation of the proposed amendments-12559. The two Bills so mixed up it is a difficult matter to keep them separate-12568. The Senate Bill speaks of a public terminal elevator,

MANITOBA GRAIN ACT-AMENDMENT-Con.

Luke, R. S. Con.

and the amendment of a 'public terminal point '-12571. A difference made between the clearing and moving elevators at Port Arthur and Fort William and that at Winnipeg-12572-3. The Bill discriminates against the farmer and in favour of the buyer-12579. Holds it better not to allow any mixing at all-12581. Before December 15 there should be no mixing at all anywhere-12584. The charge of \$3 is for demurrage for the day's detention-12588. This is giving a limited time to farmers to take advantage of through rates-12589. The opposition have not had time to consider the Bill-12594. Clause No. 3 seems to disregard the wishes of the grain dealers entirely-13708. Having to give special bins may cause some congestion-13112. The inspector will have full discretion to divide the bins-13213. The wording likely to lead to some confusion-13214. Is the minister really satisfied-13215. The government should operate the terminal and transfer elevators-13221. Regrets the government has not seen fit to meet the wishes of the grain growers-13222.

I ancaster, E. A. (Lincoln)-12566.

- Schaffner complains that information that would throuw light has been denied him-12566. Does not think the opposition have been properly treated-12567. Why was not an invitation sent-12569.
- *Gliver, Hon. Frank* (Minister of the Interior) -12559.
 - The Bill from the Senate based on the reports of the Royal Grain Commission-12559. At a conference it was decided not to follow their views in all particulars-12560. Conmee's remarks apply entirely to the Senate Bill-12563. Section 3 a preliminary provision-12564. There has been no special committee of the House-12565. If Schaffner is not able to give a reasonable judgment, that is his fault—12566. That would only ap-ply to the western members—12567. Not dealing with that Bill at all-12568. The opposition prepared on any occasion to obstruct business-12569. Applies to grain passing through and not put in an fram passing through and not put if an elevator -12570. Moves an amendment to section 10-12571. Moves to add a sub-section -12572. Found necessary to handle grain on grade not on sample-12573. The farmer has seen them here-12575. Farmers averse to allowing any mixing beyond the point of first inspection-12576. No question about that-12577. Cannot accept Conmee's amendment-12583. Moves an addition to clause 23-12584. Clause 24 only applies to grain that is special binned—12585. Clause 8 an undue burden—12586. Moves to in-sert a section 99c.—12587-8. The farmer has the same privileges and pays the same amount as the miller-12589. has as the miller-12589. Moves to substitute a new section for

MANITOBA GRAIN ACT-AMENDMENT-

Oliver, Hon. Frank-Con.

118a-12590-1. Moves a substitute section to paragraph (h) section 2-12593. Will endeavour to have the Bill reprinted-12594. The provisions of the Manitoba Grain Act Bill have already been agreed to-13207. Evidently no intention to relax any provisions in regard to quality -13208. Moves an amendment to section 9-13209. Must be some point where wheat changes from sample to grade-13210. Doubts if there are enough buyers in Winnipeg to make the sample market a success-13211. At any point declared to be a terminal point all elevators are to be public elevators-13212. No larger number of grades than at present under this Bill-13213. Whatever the grade may be, if the wheat is scoured it will be given that grade-13214. Objections to the standard board fixing the grads for oats-13215.

Roche, W. J. (Marquette)-13222.

Express regret that the grain growers' request is not acceded to-13222. Farmers convinced mixing and grading to their disadvantage is going on-13223.

Schaffner, F. L. (Souris)-12565.

Not a party question; wants the very best conditions possible to prevail—12565. Hampered in the discussion by not being at the meetings—12566. Moves an amendment to prevent all mixing—12579. Withdraws his amendment in favour of Conmee's—12582. Fair and proper sample is not very definite—12585. Special binning from Dec. 15 to Sept. 1. will not be very much use—12591. Not much use the opposition protesting against the provison—12592. This matter was discussed at some length in the Senate—13213. If the wheat is of equal milling value the farmers should have the benefit—13214. A grave suspicion has arisen between the grain dealer and producer—13220. Until the government control the terminal elevators the farmer will not get his share of the profit—13221.

Staples, W. D. (Macdonald)-12559.

Asks an explanation; hopes time to consider this Bill will be taken—12559. This legislation has cost the country an enormous sum of money—12560. The legislation before the House, far short of what the Grain Growers' Association wanted—12561. Section 3 to protect the identity of the farmer's grain—12564. One of the objects of the amendment would be to hurry the grain along—12571. The owner fully protected all the way through—12572. Appreciates the position Connee is taking and has some sympathy with him—12575. Mixing should be prevented in Winnipeg just as much as elsewhere—12577. Parliament should decide and not leave it to the minister —12583. Should be purchased as sample wheat, and go forward as such—12584. On section 24, some country elevators

MANITOBA GRAIN ACT-AMENDMENT-

Staples, W. D .- Con.

will reuire a good many receptacles— 12585. Supposes we will have to accept the Bill as it has been prepared—12591. Charges of the elevator companies should be regulated in some way—12592.3. Asks that the Bill be reprinted—12594. No advantage from the sample market to grain not passing through Winnipeg— 13209-10. A mixing elevator might be established at Emerson, and later a sample market—13211. The wording of the clause not sufficiently explicit—13212. Hoped to see the request of the Grain Growers' Association complied with— 13215. Reads the resolution adopted at the conference—13216-7. The necessity of government ownership and operation of terminal ; quotes R. L. Borden in 1903—13218-9. Borden's resolution which was voted down by government supporters—13220.

Taylor, Geo. (Leeds)-13207.

- Two Bills that run concurrently; better discuss both at once-13207.
- Turriff, J. G. (East Assiniboia)-12574. Most of the grain goes into the elevator at the country point-12574.

- Armstrong, J. E. (East Lambton)-5124.
 - Proud to see the general moral advancement in our schools and colleges-5124. Going to bring legislation that will tend in the direction of reform-5125.
- Avery, Melzar (Frontenac)-5123.
 - Both sides of the House will support a Bill if the government will bring one in -5123. The government should introduce a measure to deal with the evils of cigarettes-5124.

Barr, John (Dufferin)-5100.

- Had hoped for a statement of government policy on this all important question— 5100. It is an evil with which we must strenuously combat in the near future -5101. The time has come when the government must take the question seriously-5102.
- Bickerdike, B. (Montreal, St. Lawrence)-5127. The resolution of 1903 not quite the same in purport-5127. Any effective measure will have his hearty support-5128.

Blain, R. (Peel)-5087.

Moves the resolution-5087. Similar resolutions carried by a majority of 55 in 1903-5088. Bill introduced and withdrawn. Maclaren's resolution in 1904-5089. No further action on the part of the government that year-5090. Fisher

MANUFACTURE AND SALE OF CIGAR-ETTES-Con.

expressed himself very much in favour of the principle of the resolution-5091. Law passed in Ontario in 1892-5092. The provincial government has given municipalities power to legislate-5093. Increasing consumption by boys especially in cities and towns-5094. Reads an article: 'Let us Save our Children' from 'Le Canada'-5095. Resolution passed by the Provincial Sabbath School Association-5096. Agreed on every hand that the smoking of cigarettes is harmful to boys-5097. Opposition will support any legislation dealing with this question-5098.

Clarke, A. H. (South Essex)-5120.

The Prime Minister in 1905 held that any member had full right to introduce such a Bill-5120. The effect of the resolution is to prevent not only young but all people from using cigarettes-5121. Does not recall a single prosecution under the Ontario Act-5122. Moves an amendment-5123.

Elson, Peter (East Middlesex)-5098.

- The duty of the government is to legislate for the benefit of the people in every way they can-5098. Believes the only way to remove the temptation is entire prohibition-5099.
- Fsher, Hon. Sydney (Minister of Agriculture) -5109.

In hearty sympathy with anything in the way of legislation or education that may minimize the harmful results of cigarette smoking—5109. Might be successful in legislation without the assistance of the government—5110. The habit increased though the Ontario statute has been enacted sixteen years—5111. Indisposed to think that the law has not been effective—5112. Believes the use of cigarettes more harmful to the users than is drink—5113. More effective for some member to introduce a Bill than resolutions of this kind—5114.

Galliher, W. A. (Kootenay)-5128.

The question of vested interests—5128. Prohibit the sale or gift to a boy under 18 years of age—5129. As far as the young people are concerned we can take the matter up again and go further— 5130.

Henderson, David (Halton)-5119.

Does not remember any Bill affecting revenue introduced by a private member-5119. This has not been the practice of the House and would not be constitutional-5120.

Macpherson, R. G. (Vancouver)-5132.

The liberty of the individual, the revenue and the tobacco industry are all concerned-5132. Believes cigarette smoking is a bad thing for boys-5133.

MANUFACTURE AND SALE OF CIGAR-ETTES-Con.

McInture, Gilbert H. (South Perth)-5130.

No argument necessary as to the evil of the cigarette habit-5130. Should have very good reason before espousing total prohibition-5131.

Martin, A. (Queens, P.E.I.)-5099.

- It is time to take another step in regard to the protection of minors-5099. The Dominion government have the remedy in their own hande-5100.
- Miller, H. H. (South Grey)-5104.
 - Many men who use tobacco with a great deal of apparent pleasure and comfort— 5104. Some special evil accompanies the use of the cigarette—5105. Quotes opinions of physicians and philanthropists— 5106. If our young ladies and girls learn to smoke it will be by the cigarette—5107. Will not object to passing any law for the protection of the people —5108.

Monk, F. D. (Jacques Cartier)-5125.

Cigarette smoking a great evil and produces extremely deplorable results— 5125. In England no private member would dream of introducing a measure of this kind—5126. The issue fairly before the government, should declare their policy—5127.

Sproule, T. S. (East Grey)-5114.

Such a Bill affects revenue and can only be introduced by a member of the gov⁴ ernment - 5114. The government has many ways of burking the action of parliament-5115. The tobacco used in cigarettes is saturated with belladonna-5116. The responsibility of legislating on this subject rests with the government-5117. The power rests with them and with them alone, will they do their duty?-5118. Does not agree with the amendment-5130.

Stewart, Robert (Ottawa)-5125.

In thorough sympathy with all that has been said of the evils of cigarette smoking-5125.

Taylor, Geo. (Leeds)-5127.

The amendment only intended to sidetrack the original resolution-5127.

Telford, Wm. P. (North Grey)-5102.

St. Paul's perhaps too high a standard for ordinary mortals such as we to adopt—5102. Boys who have dwarfed their bodies, ruined their intellects and damned their moral perceptions—5103. Hopes the government will find something to take the place of the resolution, if they do not take it as a whole —5104.

Wright, A. A. (South Renfrew)-5131.

In my own town this evil is growing with terrible rapidity-5131. Will vote for the resolution until they get a government that will do something-5132.

MORNING SITTINGS.

Moion for the House to sit at 11 o'clock and on Wednesday evenings-Rt. Hon. Sir Wilfrid Laurier-9477.

Alcorn, G. O. (Prince Edward)-9498.

Questions the right to pass the motion if objected to by a considerable number of members-9498. Prime Minister will do well to consider the point-9499 ...

MORNING SITTINGS-Con.

Barr, John (Dufferin)-9491.

The whip stated if Election Bill were withdrawn they would pass the esti-mates-9491. The government may well move carefully till they see the result of the election-9492. One week respite should be given before starting morning sessions—9493.

Borden, R. L. (Carleton, Ont.)-9478.

The motion proposes to practically abolish one of the rules of the House-9478. If that can be done almost anything in the way of variation could be done-9479. Seems very unreasonable and ought not to be persevered in at present-9480.

Bristol, E. (Toronto Centre)-9502.

Motion of Prime Minister inopportune-9502. Would better serve his end by not pressing the resolution-9503.

- Daniel, J. W. (St. John City)-9494.
 - Several Bills not yet introduced, govern-ment measures-9494. Premier should allow this motion to be postponed for a week-9495.
- Fielding, Hon. W. S. (Finance Minister)-9486.

Foster, Hon. Geo. E. (North Toronto)-9481.

It is provided for in the rule-9481. The rule regarding Wednesday night is a special rule-9483. The government's business alone cannot be done in a week -9484. Nearly all the government busi-ness is yet barely explained --9485. Would like a good long holiday before the elections-9486. Suggests the motion come into effect only on Monday next--9502.

Kemp, A. E. (Toronto East)-9487.

Has the impression that the session's not half through yet-9487. Urges that the motion be left over for a week-9488.

Kennedy, J. B. (New Westminster)-9501.

or solemnity than any other-9481. Time has come to reasonably ask the House Must give the to sit mornings-9482. committees leave to sit during the sessions of the House-9483. For the pres-ent will give the House the rest on Wednesday evenings-9495. Leave the rule as to Wednesday as it is-9496. The amendment not necessary, it is withdrawn-9503.

Thinke the Premier may very well accept the amendment-9502.

Macdonald, E. M. (Pictou)-9489.

Opposition urge the quantity o work and argue that we should stop working-9489. Time has come when every memher should give greatest assiduity to the public business-9490. The motion is not made a moment too soon-9491.

Roche, W. J. (Marquette)-9488.

Premier unfair, especially to opposition, in urging such a motion at this stage-9488. Protests against the motion passing at the present time-9189.

Sproule, T. S. (East Grey)-9477.

Such a motion would have come better after this week-9477. Not disposed to agree, work of the committees-9496. More reasonable to adjourn for a week till the elections are over-9497. This motion should be delayed for one week-This The amendment is still before 94.98. the House-9503.

Taylor, Geo. (Leeds)-9499.

Government has occupied more pages of 'Hansard' than the opposition-9499. Was told to sit till Christmas rather than pass clauses 1 and 17 of the Elec-tion Bill-9500. No obstruction to the estimates when the Premier carries out the bargain-9501.

NATIONAL BATTLEFIELDS COMMISSION. House in Committee on Bill 219-Rt. Hon. Sir Wilfrid Laurier-13495.

- Barr. John (Dufferin)-13501.
 - Must protest against this proposition in the last hours of the session-13501. No reason why parliament should be sub-ject to directions from the Commissioner-13502
- Blain, R. (Peel)-13503.

The Commission has great powers and must exercise great caution-13503.

- Borden, R. L. (Carleton, Ont.)-13498.
 - The section very indefinite as to the extent of the lands proposed to be pur-chased—13498. The Commission would do well not to be in too great haste to pur-chase—13499. Sees no objection to the legislation-13500.
- Chisholm, Thomas (East Huron)-13501 Protests against the passage of the Bill at the last stage of the session-13501.
- Foster, Hon. Geo. E. (North Toronto)-13500. Has all the land been taken by the Com-mission?-13500. Understood that none of the Ross Rifle property is included-13501. Cannot tell from the plan what 13501. Cannot tell from the plan what already belongs to the government-13502. There is absolutely no general plan of what we are going to have-13504. Why not have the driveway without putting the Commission to the cost of the whole of it??-13505.
- Fowler, G. W. (Kings, N.B.)-13500.
 - Sees no necessity for this Bill and pro-tests against it—13500. Does this Bill apply only to battlefields on the Plains of Abraham ?-13505.

Hughes, Sam. (Victoria)-13505.

Not becoming to see any private property in the middle of the Plains of Abraham -13505. For defence as well to have that part of the plains free from buildings -13506.

Lancaster, E. A. (Lincoln)-13501.

The Premier should explain where the urgency of this Bill exists—13501. Un-less there is great urgency, protests against the Bill passing—13502.

- NATIONAL BATTLEFIELDS COMMISSION -Con.
- Laurier, Rt. Hon. Sir Wilfrid (Prime Minister)-13495.
 - Introduces the Bill, reads the resolution of the Battlefields Commission—13495. Reads a statement as to the property— 13496-7-8. The greater, part of the land has already been appropriated by the Commission—13500. The only authority is a resolution of the Commission— 13501. With this exception only nothing is changed—13502. Blain has no undue confidence in the government; the personnel of the Commission—13503. Blafn's opinions are utterly uncalled for—13504. It is connected simply with the events of 1759-1760—13506.

Lennox, H. (South Simcoe)-13501.

- Throws upon the government the entlre onus in the matter-13501.

- NATIONAL TRANSCONTINENTAL RAIL-WAY-MAJOR HOUGINS' CHARGES.
 - Motion to concur in the report of the Committee of investigation-Mr. V. Geoffrion -12265.

Barker, S. (East Hamilton)-12361.

Gives Macdonald credit for making a very clever speech and carefully evading any of the questions really involved—12361-2. Unfair having refused to call Armstrong to read a statement by him—12363. Major Hodgins not alone in referring to 86 per cent classification—12364. The over-classification was all done before the alteration in the interpretation— 12365. The Committee shut down though they were ordered to investigate by the House—12366. Quotes the motion of reference; interview added to Major Hodgins' letter—12367. Quotes Hodgins' original letter, on the McArthur interview —12368. The House referred all those papers to the Special Committee to investigate—12369. What Major Hodgins' precise position really was—12370. The feeling of hostility on Major Hodgins' part towards Mr. Grant—12371. Quotes the letter of Mr. C. A. Young—12372. A highly improper letter from a commissioner to a subordinate—12373. The chief, the man who ought to have taken part, held aloof—12374. Matters got

warm with the contractore; everybody was in trouble—12375. Because Major Hodgins dared to make such a suggestion he was dismissed—12276. Takes up the question of over-classification, Mc-Intosh to Hodgins—12377. Correspondence detween Hodgins. and McIntosh— 12378 Hodgins said somebody had certified that estimate who did not know anything about the facts—12379. Quotes Major Hodgins' report. on MoIntosh's work—12380. The chief's reply. As to confining the inquiry to Major Hodgins' evidence—12381. Positive charges in the reports of the assistant trajineer of the G.T.P. of over-classification—12382. They could stand a good deal of over-classification being paid by the country—12385. Mr. Lumsden's letter on these estimates —12386. Clear that the whole purpose of that agreement is to keep these disputes in suspense—12387. The majority of the Committee prematurely closed the inquiry—12388.

Carvell, F. B. (Carleton, N.B.)-12293.

This question the outcome of a letter written by Major Hodgins-12293. The glee with which the Conservatives looked forward to the investigation-12294. The only things that any ordinary man ought to consider the substance of the letter-12295. Major Hodgins continually finding fault over Grant's appointment-12297. The whole cause of trouble was jealousy over that appointment -12298. Major Hodgins suggested a deviation from the terms of contract-12299. Because with the price of labour they could not do the work—12300. Reads S. W. Parent's letter — 12301. The Commission would not agree to Major Hodgins' proposition— 12302. Mr. McIntosh to Major Hodgins —12303. The actual items Major Hodgins —12303. The actual items Major Hodgins had omitted-12304. The opposition not fair enough to admit that this is the reason of additional cost-12305. If ever If ever there was an issue dead and buried it is this Hodgins question-12306. Mr. Arm-strong the man who reported on overstrong the man who reported on over-classification—12307. Quotes a letter from John Armstrong—12308. The interpreta-tion never was altered by the Commis-sioners—12309. Everything in the specifications is incorporated in the contract -12310. A. E. Doucet to Hugh C. Lums-den-12311-2. Reads an opinion of the Department of Justice - 12313. Major Hodgins' reply to Mr. Grant's report-12314. Mr. Heaman taken by the G.T.P. and appointed inspecting engineer — 12315. The position they would place themselves in by trying to decide a technical and intricate question—12321. Two views to be taken of this question—12322. The report of the Committee should be adopted—12323.
- Geoffrion, Victor (Chambly and Verchères)-12265.
 - On June 3rd last Major Hodgins practically repudiated the two interviews which had been attributed to him - 12265-6. About June 16 Major Hodgins repudiated or withdrew all charges; quotes his evidence-12267-8. Quotes the order of reference-12269. The course adopted by the Committee was logical and fair-12270. Moves that the report be now concurred in-12271.

Lennox, Haughton (South Simcoe)-12271.

The G.T.P. was up in arms against the classification—12271. Quotes letter of H. A. Wood—12272-3-4. Mr. Doucet to some extent stood by the country and against the contractors—12275. He seems to have advanced along the line that the contrac tors were travelling—12276. Quotes Mr. Lumsden on classification—12277. These opinions were used as an argument ex parte behind the backs of the people— 12278. Quotes Mr. Newcombe's letter— 12279-80. P. E. Ryan to Mr. Lumsden; Quotes H. A. Woods—12281-2-3. The 'Ottawa Citizen' puts it on the basis of bocdling and dishonesty—12284. Difficult for the government to refuse investigation—12285. The Prime Minister referred to us to investigate the whole of the matters—12286. 'I care nothing for the position Major Hodgins takes'—12287. Quotes the Hodgins evidence—12288. Mr. Parent's evidence—12289. Fails to see why they were told they should not proceed —12290. Quotes paragraph 47; moves an amendment favouring further investigation—1229-2-8.

Macdonald, E. M. (Pictou)-12340.

The day occupied in the desire of the opposition to cover their retreat-12340. They were so clear in their judgment that there was something more to be investigated-12341. If they want to investigate Mr. Lumsden, let us investigate him-12342. The tendency of the opposition to get round important questions of this sort-12343. No evidence refused except certain when both sides were in accord - 12344. Reads Mr. Parent's memorandum-12345-6. The only thing they had to consider was the charges in Major Hodgins' letter-12347. Asks Barker what evidence there is as to any overallowance-12348. Deals with one or two 10095-114

matters in the minority report-12349. Reads from the record on Wood's letter-12350. No issue before the House involving wrong-doing on the part of the Commissioners - 12351. What Deputy Minister of Justice said-12352. Quotes the leading organ of the Conservative party-12353. Quotes sections 16 and 17 of the N. T. R. Act-12354. Sections 23 and 34 of the contract, 10 per cent of the progress estimates retained-12355. The interests of the people absolutely safeguarded by these provisions-12356. By means of the 10 per cent drawback any error can be rectified-12357. One thing to alter a contract, another to define what it means-12358. There never was any original interpretation to alter-12359. The letter of Mr. Woods has been completely disposed of-12360. This absolute fasco the worst that has marked the career of the opposition-12361.

Northrup, W. B. (East Hastings)-12323.

- Listening to Carvell carried him back to the 'Arctic'-12323. Majority always voted down any motion arising in eliciting information — 12324. Premier's motion — 12325. Quotes the Mr. Parent was afraid that the charges would be limited — 12326. What Major Hodgins found after he had been before the Committee for weeks-12327. Quotes what Major Hodgins said in the way of making charges—12328. This Committee ab-solutely declined to take further evi-dence—12329. Quotes Mr. Carvell from the printed evidence—12330. He had to hunt round the country to bring in out-side information—12331. Bound to discuss the matter upon the evidence before the House-12332. Quotes clause 7 of the agreement-12333. Quotes Major Hodgins agreement-12333. Quotes Major Hodgins on Mr. Armstrong-12334. An *ex parte* opinion on a statement by one who wanted a favourable opinion - 12335. Admires not only Mr. Newcombe's legal ability but his astuteness in the opinions given-12336. A letter from Mr. Lumsgiven—12336. A letter from Mr. Lums-den interpreting the specifications—12337. Mr. Ryan to Mr. Lumsden, approving his decision—12338. A scheme to get con-tributions from the contractors for the campaign fund—12339.  - Bill No. 82 in Committee-Mr. Calvert-4996, 5049.

Barker, S. (East Hamilton)-5056.

This road should be prohibited from operating a street railway without the consent of the city-5056. Suggests following out the minister's suggestion and inserting certain words-5058. Submits a second proposal which is absolutely fair -5058.

Blain, R. (Peel)-5003.

Farmers sold the right of way cheaply to have an electric road; will not get the road they wanted-5003. Very important to abolish level crossings within the limits of Toronto-5004. Neither of the amendments goes far enough; the leave of all municipalities should be required-5059. No railway Bill should pass without protecting the rights of the municipalities-5060. The same objecton would apply as far as his county is concerned-5071. Government should not compel farmers to part with their rights-5072. Insurance companies absolutely refuse risks on buildings close to steam railways-5073.

Bristol, E. (Toronto Centre)-4997.

In 1901 this company was authorized to ab sorb certain other lines—4997-8. Thinks the city of Toronto is amply protected—

NIAGARA, ST. CATHARINES AND TO-RONTO RAILWAY-Con.

Bristol, E. Con.

5004. Quotes the charter and amendments-5005. The municipalities are the ones to judge, because they are directly responsible-5006. Unless Toronto and Hamilton are given the protection they ask, the Bill should not pass-5007. Will hand Graham his amendment-5050. Takes the position that, as far as Toronto is concerned, the grade crossing has come to an end-5052. Reads an article from the Toronto 'Star,' wants a provision put in this Bill-5053. Quotes 'The danger of level crossings' from the 'Globe'-5054. This matter of policy should be decided here and now-5055. The Railway Commission says the city must pay its share of the elevation or depression of the tracks-5056. Cannot see why the city of Toronto should not be the one to say where the level crossing, if any, should be-5059. Very unfortunate that a Bill of this kind should come before parliament-5068. The council of the city of Toronto is directly responsible to the people-5069. Very poor basis upon which to consider a question affecting the lives of the people of a great city-5070. This amendment does not affect the position in regard to the control of its streets-5074. Insists upon his amendment, but will not oppose any that helps the city oppose any that helps the city oppose any that helps the city will not oppose any that helps the city o

Calvert, W. (West Middlesex)-5062.

Puts a case of the other roads continuing level crossings, why should this road be obliged to elevate or depress its tracks --5062. Should not put such a clause in this Bill till the other lines have been dealt with--5070. Agrees to a clause giving Hamilton and Toronto ample control--5071. They have to submit plans and specifications to the minister--5073. Suggests doing it with the concent of the Committee--5076.

Conmee, James (Thunder Bay)-5064.

Cannot agree as to the absolute power they seek to invest in the city corporation-5064. Doubts the good judgment of the city aldermen in all cases-5065. The Board of Railway Commissioners a safe body with whom to entrust that power-5066. The motive power by which a road is operated cannot make much difference in a rural community-5071. The municipality still has power to compel them to carry out their obligations-5072. The municipalities should be protected, but not beyond the powers of parliament-5073.

Foster, Hon. Geo. E. (North Toronto)-5060.

Graham verbally concedes everything, but is not willing to do much-5060. The feeling of the citizens of Toronto is acute on this matter-5061. Why not settle the question here and now and get

it off the list of unsettled questions-5062. Must take cognizance of the progress of the times and change of public opinion-5063. Presses for the right of the municipality to protect the lives and properties of its citizens-5064.

Galliher, W. A. (Kootenay)-4997.

Have they power to use steam on any portion of the road?-4997.

- Graham, Hon. Geo. P. (Minister of Railways and Canals)-5050.
 - Railway Commission has power to make railways elevate or depress their tracks -5050. Some amendment to protect the centres of population in this regard necessary-5051. No doubt the Commission will make this company conform to what is done by other railways in the city-5042. Wants to put something in the Bill to protect Toronto and Hamilton-5058. Would get the Bill in shape by working along those lines-5059. Attitude in Committee was that they did not want this railway compelled to be elevated if others were not-5062. Believe the Railway Commission has been selected and given power to do this very work-5074. If Mr. Barker's amendment is carried the city's interests are thoroughly guarded-5075. His amendment that railways cannot run on the highway of any municipality without its consent-5076.

Henderson, D. (Halton)-5076.

The rule is with reference to an amendment to a Bill and not an amendment to an amendment-5076.

Jackson, W. (East Elgin)-5076.

More objection to railways using highways in the rural districts than there is in the cities-5076.

Lancaster, E. A. (Lincoln)-5002.

Where application is made by a railway to cross a highway, then the order is made-5002.

Macdonell, A. C. (South Toronto)-4996.

Records his protest against legislation of this sort — 4996. Practically this company has power to construct a railway into the city of Toronto-4997. Quotes'A Case for Sir Wilfrid' from the 'Globe' —4998. This railway can do what it chooses, the city has no right to lift its little finger against it-4999. In railways incorporated before 12th March, 1903, the municipality had the veto power-5000. There could be no more unfair measure than the present Bill-5001. Toronto cannot force the railway company to do this needed work-5002. Modern restriction should be placed on the ompany-5003.

They are the ones that do the killing-5056. Agrees with many of the amendments that have been proposed-5067. Other rights this company will acquire which it was never intended they should enjoy-5068.

Zimmerman, Adam (West Hamilton)-5066.

The time has arrived when the authority of municipalities should be recognized in all these Bills-5066. The power should be placed entirely in the hands of the municipalities-5067.

- NIAGARA, ST. CATHARINES AND TO-RONTO RAILWAY.

ORIENTAL IMMIGRATION.

Motion 'For a copy of all orders in council, correspondence, documents and papers during the present year relating to the immigration of Japanese into Canada'-Mr. R. L. Borden-854.

Forden, R. L. (Carleton, Ont.)-854.

The policy of the government on this question as little known now as when the session opened-854. Information afforded by the government to their own followers, not to the House-855. The attitude of the Liberal party as expressed at the recent convention in British Columbia-856. Quotes article 6 of the British Columbia Liberal platform-857. Quotes the Montreal 'Star,' Windermere's interview with Brodeur-858. Quotes Mr. Morrison on Japanese immigrants in 1900-859. Quotes the Premier in replying to the Trades and Labour Congress in September last-860. Thinks the House is entitled to some statement from the government of their position in this matter-861. Reads Mr. Chamberlain's despatch of 20th July, 1898-862. Quotes the United States treaty clause, which is not in our treaty -863. The whole outcome of Lemieux's mission; does not seem to improve the situation-864. Was referring to Ross' statement-866. Can Act be passed whilst treaty remains in present form -868. Asks for the written assurance in 1903-881-2. Was any attempt made to secure a clause similar to that in the U.S. treaty-884. If the documents are really confidential, they should not have been referred to-889. It is absurd to make such a suggestion about a document of that kind-890.

- Fisher, Hon. Sydney (Minister of Agriculture)-880.
 - Adhered to the treaty with the full concurrence of the parliament of Canada-880. The only references to remarks from the opposition in 'Hansard'-881. When the treaty passed the House we had an engagement with Japan, which had worked well-882. They have not undertaken in any way to depreciate the value of the treaty to Canada in other respects-883. It was because of the commercial benefits that the treaty was accepted without any conditions-884. Believes the Japanese government are desirous, and have been desirous, of adhering to the arrangements-885. The

opposition had better wait for authoritative information before discussing diplomatic questions-886. Statistics of trade with the United States; due distinctly to what he did-837. Why he is proud of the British preference-888.

Foster, Hon. Geo. E. (North Toronto)-881.

The assurance was given, after Mr. Kennedy had made his objections-881. Asks that the written assurance that has been alluded to should be brought down-889. The letter written by the Japanese consul should be laid on the table-890.

(ialliher, W. A. (Kootenay)-878.

Neither in Montreal nor elsewhere did any newspaper get any statement from me regarding the matter-878.

Henderson, D. (Halton)-889.

- The American government removed the, quarantine and not Fisher-889.
- Laurier, Rt. Hon. Sir Wilfrid (Prime Minister)-864.
 - Thinks Borden cannot be in doubt as to the position of the government in this matter-864. The question one which ought to be treated with as much calmness as possible-865. The basis of our operation was the report of the commission; quotes the report-866. The Commission had a different treatment for the Japanese; quotes the report-867. Therefore did not apply the same law to the Japanese as to the Chinese-868. Were ratifying the treaty on an understanding had with Japan-869. Finding there was a misunderstanding sent a commissioner to Tokio to ascertain the explanation-870. The matter absolutely in abeyance, absolutely no information until the return of Mr. Lemieux-871. The position of the government clear; does not intend that there should be any ambiguity about it-872. As soon as the commission comes beek all the papers will be communicated to the House---889. Not proper to bring down the papers pending their return-890.

McCarthy, M. S. (Calgary)-881

Asks if the assurance were not given the House that Japanese immigration would be limited—881.

Monk, F. D. (Jacques Cartier)-872.

Takes it from the Premier's speech that the mission to Japan has not come to an end-872. Could have strengthened the hands of the commissioner by indicating the feeling of the House on this subject-873. Can find no such reservation in our treaty as that which is in the United States-Japan treaty-874. The denunciation of the German and Belgian treaties, and the preference-875. Foolish to suppose dealing with this question will affect the Anglo-Japanese alliance-

ORIENTAL IMMIGRATION-Con.

Monk, F. D.-Con.

876. Denouncing the treaty would doubtless lead to the conclusion of new arrangements—877. The only cure is to remove the obstacle which lies in our way—878. Now, when face to face with the matter, Laurier gives the reply given by the clerk in the circumlocation office—879. It may be necessary to tell Japan, that it has become necessary for us to put an end to the treaty—880.

Ross, Duncan (Yale-Cariboo)-855.

The information was given in the House in answer to a question by R. L. Borden -855. The communication by Japan's representative to the government was outside the House-856. Is Monk in favour of denouncing the treaty?-877-8.

ORIENTAL IMMIGRATION.

Motion: 'That in the opinion of this House steps should be taken to restrict the influx of oriental immigrants into Canada, and inasmuch as the policy of the government concerning Chinese immigration has proved entirely satisfactory, a definite policy should be immediately put into operation looking to the accomplishment of equally satisfactory results with regard to all other oriental immigrants' — Mr. Ralph Smith—699.

Kennedy, J. B. (New Westminster)-748.

Refers to his speech in opposition to the ratification of the treaty with Japan-748. Quotes his answer to the Royal Commission on oriental immigration-749-50. Does not think that Britain should have made any such treaty-751. The present government have done what no Conservative government ever did, raised the head tax-752. Hopes the motion will be passed without opposition-753.

Macpherson, R. G. (Vancouver City)-719.

Would approach the subject in the broad spirit of Canadian citizenship—719. When the treaty was accepted had an assurance of restricted immigration—720. We can look back and appreciate the mistakes we have committed—721. You cannot build up a great country by mixing the occident and the orient together—722. The only authority that can handle this question is the federal government at Ottawa— 723: Why is it that no other part of Canada has been obliged to bring in orientals ?—724. Surely Canada can as well afford to legislate against orientals as any other part of the empire—725. The city of Vancouver has given an object lesson to the rest of Canada—726.

The people who are looking at British Columbia with longing eyes, anxious to take possession -738. Quotes Sir Henry Parks on the Chinese Restriction Bill-739. Borden strove to make political capital for his own party out of the situation in British Columbia-740. Having the assurances given, they saw no reason why the treaty with Japan should not be ratified-741. Borden's only contribution to an important debate-742. The objections of the people of British Columbia put in concrete form-743. The most practical means of restricting oriental immigration is the Natal Act-744. British Columbians enthuse over the possibilities of their country-748.

Sloan, William (ComoxAtlin)-726.

The question of oriental immigration and its consequent effect upon the country-726. Is the most important matter that has been before parliament since confederation-727. Unless there is a revisal of policy British Columbia will become a colony of a united orient-728. Guard well the strategic position which is not only of Dominion but of Empire-729. Statistics of the present volume of trade with Japan-730. Has no sympathy with mob demonstration or mob violence-731. This is not a question for the west, but for Canada and the Empire-732.

Smith, Ralph (Nanaimo)-699.

Impossible to have a correct impression of this question without a personal experiene of the west-699. Jealousies associated with race exist wherever we go -700. Holds this question as of too great importance to associate it with party-701. Thinks there has been a disposition to bring about a too sudden assimilation of alien races-702. ORIGINAL DOCUMENTS.

Inquiry by Mr. R. Blain-7809

Blain, R. (Peel)-7809.

- Inquires of Prime Minister if he will consult with Minister of Marine and have original documents *re* fire extinguishers laid on the table-7809.
- Laurier, Rt. Hon. Sir Wilfrid (Prime Minister).

Papers have been laid on the table of the House for inspection of members-7810.

ORIGINAL DOCUMENTS-ACCESS TO.

Motion, for a return laying upon the table of the House the original applications and tenders in respect to timber berths 1107, 1108 and 1171-Mr. H. B. Ames-1132.

Ames, H. B. (Montreal, St. Antoine)-1132.

Surprised that any objection whatever should be raised to this resolution— 1132. Consider they have a right to the originals. Motion drafted to test this question—1133. It is the principle involved leads to this discussion—1196. In innocence of his heart did not imagine Oliver was buncoing him—1197. Was told in this case no member of parliament would be given access to the originals—1198. Is prepared to state specifically every allegation he has to make —1199. There are nine pages in which the copy does not tell him all he wants to know—1200. Take the odium through out the country that we do not wish an original document to come to light— 1901.

Barker, S. (East Hamilton)-1162.

It behooves us to take great care the government does not steal a march upon the people--1162. Quotes Bourinot as to practice--1164. We are told we must on our responsibility say that we have suspicions before we get the papers--1165.

ORIGINAL DOCUMENTS-ACCESS TO-Con.

Barker, S.-Con.

Bennett, W. H. (East Simcoe)-1151.

Because there is no expenditure of money here, the Committee cannot get these papers-1151. When it suits the minister he can produce original documents-1152. Look at what has been done in their department to suppress the truth -1153. The government can only suppress papers where there has been no expenditure-1154. The public will wonder why the government say the minority in parliment shall never see those documents-1155.

Bergeron, J. G. H. (Beauharnois)-1180.

The people of Canada are demanding their rights and privileges here—1180. Challenges any man to say that the Conservative government ever refused to bring down an original document—1181. Is convinced that the copies are not the same as the originals. Ames right in not saying openly—1182. Does not think it necessary to make a charge to get the information—1183.

Borden, R. L. (Carleton, Ont.)-1140.

- The premier takes a different ground from that taken by Oliver-1140. Government members are allowed to examine the files, opposition members are not-1141. Lazarus conceded greater power than that given the representatives of the people-1142. Can only be attributed to the fact there are matters which the government wishes to conceal from the people - 1143. It must be grounded on reasons of state-1144. Then the agreement has no relevancy-1145. The House which has power to order the papers has also power to send them back-1150.
- Brodeur, Hon. L. P. (Minister of Marine and Fisheries)-1149.
 - In England the practice has been to bring down copies—1149. Once the papers are brought down they are in the possession of the clerk and are part of our records—1150. It would be a very serious departure from the practice to order original documents to be brought down—1151.

Devlin, E. B. (Wright)-1177.

Sir Charles Tupper refused to lay certain C.P.R. documents on the table of the House-1177. Quotes May and the

- 'Canada Evidence Act'-1178. If charges are made, there will be an immediate production of papers-1179. If Ames finds these papers improperly certified he can make a charge-1180.
- Foster, Hon. Geo. E. (North Toronto)-4135. The business of the country is the concern of the people's representatives-1135. Any representative of the people has a right to view of, and an examination of the documents-1136. Has never seen the Public Accounts Committee refuse to pass an order for original documents-1137. In nine cases out of ten the order for papers are not accompanied by subpenas-1146.

Galliher, W. A. (Kootenay)-1170.

Has not heard anyone successfully refute the Premier's position—1170. Why should we depart from the parliamentary practice and adopt what is practically a new practice—1171. Something behind this motion that does not appear on the surface—1172. When he found that Ames had copies he did not put forward an amendment—1195.

Haggart, Hon. J. G. (South Lanark)-1175.

- Laurier, Rt. Hon. Sir Wilfrid (Prime Minister)-1137.
 - Endorses the doctrine laid down by his colleague-1137. Quotes Todd. Such a motion as to-day's is utterly unprecedented-1138. It would not be possible to carry on the business of the country as it must be carried on-1139. Copies are brought down, unless cause is shown for bringing down originals-1140. No such demand was ever made unless cause was shown for it-1181. If Ames will say he has reason to believe the copy incorrect, the papers will be brought down-1182. If he makes a charge he will have the evidence he wants-1183.

Lennox, Haughton (South Simcoe)-1155.

The absolute right of any member of the House to go into any of the departments and examine documents—1155. Mr. Ames had the right last year, but has not this year; a letter from Oliver— 1156. It is the right and duty of every member to know that things are carried on fairly—1157. Every public document is a document of the people—1158. Of course papers placed on the table of the House go back to the department— 1159. Let us be all-powerful for the purpose of doing right, not for denying the people that which they are fairly entitled to—4160.

ORIGINAL DOCUMENTS-ACCESS TO-Con. McCarthy, L. G. (North Simcoe)-1143.

- One would think from Borden's speech he was discussing papers in regard to which there was suspicion--1143. To speak of the action of Lazarus is to draw a red herring across the trail-1144. The opposition do not seem to understand him because his argument is a complete answer to their position--1145. The Committee has delegated power to summon witnesses to bring papers--1146. You could not carry on the business of the country if that prevailed---1147.
- Macdonald, E. M. (Pictou)-1160.
 - The fact that the opposition have tried to arouse suspicion, the only reason they can give for their arguments—1160. Quotes Bourinot. Oliver saye he is willing to bring them down—1161. Borden knowe he cannot see original deeds in a registry office in Nova Scotia—1162.

Northrup, W. B. (East Hastings)-1190.

- No member will dispute that the ownership of these documents is in the people of Canada—1190. An important question, will be fought ont for months if we are not allowed to see the original documents—1191. The Galway hose deal and the Brown case—1192. The Grand Trunk Pacific deal. Not a single Conservative member who is not suspicious of this transaction—1193. Every member determined to see whether the money is honestly expended—1194.
- Oliver, Hon. Frank (Minister of the Interior)-1133.
 - Reads a report from Mr. W. W. Cory on the subject—1133-4. To transfer the originals from the department is an infringement of business methods. Fees may be brought to the Committee—1135. Could not carry on the business if there was a general demand for original documents—1140. The order applies to all members of the House—1141. Thinks the signature showed 'H. P. Brown per J. D. M.'—1152. No such statement ever came from any officer of the department—1197. All he has to do is to allege that he has not been furnished with proper copies—1198. Seems to be under a misunderstanding as to what constitutes a gentleman—1199. Does Ames say that these nine papers differ from the original—1200.

Roche, W. J. (Marquette)-1183.

One reason for Ames wanting to see the original is his experience last session-1183. Never heard of a parallel case, a minister giving advice to a member-1184. Reports not given in their entirety in the printed report. He asked today for the original-1185. The document had never been signed by Browit was written by McGregor-1186. Ross, Duncan (Yale-Cariboo)-1172.

If Ames got what he wanted last session why is asking now for something he already has?-1172. Will venture to s that Haggart when minister never con sented to bringing down original documents-1173. Original documents brought down to certain committees have never been returned to the department-1174. Ames wants to make a little political capital and takes up the time of the House-1175.

Speaker, His Honour the-1188.

Roche is wandering a little from the subject-1188. The amendment was not read, nor was it handed to the Chair-1195.

Sproule, T. S. (East Grey)-1147.

- What was done in Connolly-McGreevy case. Papers are under the care of a clerk of the Committee, but members have access to them—1147. Quotes Bourinot as to practice—1148. Every member of the House has a right to see all these documents—1149. Original documents are placed before the Committee —1151. Have departed from the well understood practice of parliaments for years—1194. Has a right to speak il there is an amendment—1195.

The custom to produce original documents in the Public Accounts Committee-1383. Practice to leave them in charge of the clerk; asks the policy of the government -1384. Asks a statement of policy; it has been the custom to leave documents in the custody of the clerk of the committee-1425-6. May as well understand where we are on this question-1427. Agreement between representatives of contending routes-3253. Promise of motor car lines-3253. Peculiar position of Prince Edward Island; contributes to construction of railways in other parts of the Dominion from which it gets no benefit-3253. PRINCE EDWARD ISLAND RAILWAY-HARMONY TO ELMIRA BRANCH-Con.

- Graham, Hon. Geo. P. (Minister of Railways and Canals)-12628.
 - This is all we can undertake this year; other branches were asked for—12628. Selected this branch because it seemed to be needed—12631. The minister refuses the report of surveyors—12631-2. The present government will promise anything, especially with an election coming on—12636. Asks policy concerning a line along the north shore—12637. The railways he contemplates building are simply political railwas—12638. Millions spent for the west, time the east was considered—12639.

Martin, A. (Queens, P.E.I.)-12628.

- Includes many lines besides this little bit of a paltry spur-12628. A little alarmed at anything undertaken by this government-12631. The people came to an agreement with Mr. Fielding-12632. There was a pretty free fight about the route of the proposed Elmira branch-12633. Bill comes far short of what Prince Edward Island requires-12634. The resolution of 1896-12634-5. Motion for a copy of all correspondence, &c. in reference to winter communication, and the construction of a tunnel between Prince Edward Island and the mainland of Canada-Mr. A. Martin-4589.

Martin, A.-Con.

PRINCE EDWARD ISLAND-TUNNEL-Con.

Borden, R. L. (Carleton, Ont.)-4635.

Does not observe the word 'steam-boat' in the Act, it is 'steam service'-4635. The Premier has not said to-night anything more than he said as far back as 1891-4654. Quotes the letter of Decem-ber 19, 1891 to Mr. D. B. Hogg-4655. Quotes the articles of agreement, the words capable of wider construction-4656. The honour of the country is involved in the question as to what shall be done-4657. Ought to have had all necessary information long ago-4658. Chisholm, W. (Antigonish)-4630. This question perennial, comes up session

his question perennial, comes up session after session-4630. No party venom in the minds of the promoters; no desire to create political capital-4631. Must sympathize with the Islanders in the handicap to which they are subjected-4632. What is guaranteed by the terms of union; quotes the terms-4633. No reference to a tunnel or anything of that sort-4634. Abundant evidence that the only service contemplated was a the only service contemplated was a steam-boat service-4635. From 1878 to 1897 or 1898 there was only one boat doing duty for the island in winter-4636. In this as in every other respect the Liberal party has been in the vanguard of progress—4637. Quotes Deputy Min-ister Gourdeau's report of 1904; Mr. Shewen's report—4638. The complaints were not trumped up complaints; the mainland terminus not satisfactory-4639. The whole trouble is Pictou har-bour. Quotes Mr. Charles Duguid-4640. And the report of Capt. McElhinney-4641. Quotes the report of Mr. Owen, and a letter of Judge Warburton in the 'Daily Patriot'-4642. The route be-4641. tween Georgetown and Cape George the only route that will carry out the terms of union-4643. The time to test this of union-4643. The time to test this route is when Pictou is unapproachable -4644. Satisfactory tests will be made and it will be demonstrated that this is the proper route-4645. Disgraceful that the smallest province should have to go to the foot of the throne for justice as in 1886-4646.

Hughes, J. J. (Kings, P.E.I.)-4628.

- Conservatives very warm on this matter on the eve of an election,-generally cool off after-4628. Can better consider this question when the records that have been asked for are brought down-4629. If the cost is such as to render the tunnel impracticable, let it drop-4630.
- Laurier, Rt. Hon. Sir Wilfrid (Prime Minister)-4650.
 - The articles under which P.E.I. entered confederation did not provide for a fixed minimum representation-4650. No intention on the part of the government of Canada to inflict any injustice on Prince Edward Island-4651. The new subsidies as arranged with representa-tives of the province 4652. We should provide the funnel if it can be done 11 199 10095-124

- Lefurgey, A. A. (Prince, P.E.I.)-4606.
 - No earnest effort to carry out the conditions of confederation, what P.E.I. sacrificed-4606. Confederation took away the protection she might have had-4607. The Premier's action in regard to the subsidy altogether unwaranted-4608. P.E.I. never properly represented in the con-ference of premiers-4609. P.E.I. has ference of premiers-4609. P. a right to \$1,250,000 of the award-4610. Wants a connect Halifax Wants a connecting link that will make them part of the con-federation-4611. A million a year would not compensate them for their loss-4612. The premier has taken no steps to carry out his promise when in op-position-4613. The tunnel would be a benefit to the whole confederation-4614. Quotes the Montreal 'Herald'; memorials frequently passed on the government-4615. Quotes articles 13 and 14 of the claims of P.E.I.; estimated cost of the tunnel-4616. Quotes a letter of H. B. Reed-4617. What the service now costs; an indirect loss-4618. The results which would immediately accrue-4619. The people of Prince Edward Island should not be humbugged as they have been -4620. The thought was that some means of communication should be kept up-4635.

Macdonald, E. M. (Pictou)-4647.

Pictou harbour the only one with facilities between the Strait of Canso and Point du Chene-4647. There is no harbour at Cape George at all-4648. Thirty two years experience of that harbour have shown it to be the best place-4649. The new ice-breaker will cause many grievances to disappear-4650.

McLean, A. A. (Queens, P.E.I.)-4620.

This is a matter not of political policy, but of contract—4620. Quotes the agreement; a solemn contract which the Dominion government is bound to carry out to the letter—4621. They entered in-to this contract with their eyes open; knew they would have to fulfil the obli-gation—4622. Quotes Sir Wilfrid, 'must be constructed if the thing is reasonably practicable-4623. The condition of afpracticable-4623. The condition of af-fairs to-day with respect to transpor-tation-4624. Going to ask this govern-ment simply to fulfil the terms of con-federation-4625. Unisholm, William (Antigonish)-13353.

Moves that the report be concurred in-Reviews the history of the pro-13353. position to build a bridge at Quebec-13354. What was done in 1900 by let-ting contracts, &c.-13355. Alleged that when guaranteeing the bonds, sufficient precautions were not taken-13356. Quotes Mr. Parent's evidence as to the stand taken by Mr. Cooper-13357. The

- action of the government quite justified by facts-13358. The company re-garded Davis' cheque as cash and so garded Davis' cheque as cash and so notified the government-19359. Quotes Mr. Price's evidence, it was an abso-lutely good bargain-13360. The testi-mony of Messrs. Scott and Lumoulin to the same effect-13361. Quotes Mr. Price as to Mr. Hoare-13361. Guotes Mr. is blame to be thrown on anybody, it must be thrown on Mr. Cooper-13363.

Quotes the Royal Commission on Mr. Cooper-13375. The agreement ratified by parliament in October, 1903 -13376. \$119,000 of that stock was sub-scribed by Mr. M. P. Davis; would have given him control-13377. Epitomizes the story of the bridge-13378. Mr. Schreiber recommended the appointment of an engineer-13379. The question to-daywhat is to be done to secure the completion of the bridge-13380. Does not con-cur in the minority reports' charges of want of care-13381.
- Monk. F. D. (Jacques Cartier)-13363.
 - Moves an amendment adopting the minority report-13363. Thought in spite of any political tendencies they would view this question as of national importance-13364. An enterprise from its inception financially considered, was perfectly absurd-13365. What happened in 1903 was a deception and a snare—13366. We were involved to an extent that we financed the whole business—13367. Mr. Dean's aims been attended by sinister misfor-tunes in the United States—13368. Mr. Schreiber's request for a specialist to work with Mr. Cooper-13369. The government did not use proper precautions in reference to the plan of the structure -13370. The story of the \$200,000 addi-tional stock in 1903-13371. The share-holders took care to protect themselves in every way-13372. Why pass a resolution that will involve us more in this un-businesslike way of doing the work-13373.

Thinks he has proved that there was a lack of bona fides in the method of tendering-13391. Mr. Schreiber's demand ; Mr. Cooper given a free hand-13392. The order in council not heeded, and Mr. The Cooper left alone-13393. The commis-sioners admit that Mr. Cooper was under a severe handicap-13394. Mr. Cooper asked to be relieved-13395. Was Mr. Parent really the man who running the company? - 13396. was Mr. Parent was responsible for the bad as well as for the good in the management -13397. A man guilty of such careless-ness must be held responsible-13398. It was desirable that Mr. Davis should con-trol the stock because he was a contractor-13399. The action of the special committee is the basis of this Bill-574. The House passed the Bill unanimously as it now is-575. Do not want railway companies to be allowed to kill people when crossing highways-576. As Hon. G. W. Ross said in the Senate, the speed of railway trains is all the time increasing-577.8. - mstrong, J. E. (East Lambton)-4969. Suggests providing against all the mem-bers being of the same political com-plexion-4969. Some measure of civil service reform should be adopted in this country without delay-4970. Govern-ment should consider the advisability of appointing itwo men of the iopposite party-4971. Herron, John (Alberta)-8474.

Hard to get any other land equal in value to this land owing to its being particu-larly fit for irrigation—8474. The case referred to was over four years ago-8475.

Lake, R. S. (Qu'Appelle)-8472.

Asks the practice in regard to school lands, contained in lands covered by such schemes-8472. You are creating a precedent in this case-8473. An im-portant principle involved in this ques-tion of the exchange of school lands-8475. These lands should be disposed of in advance by public auction and their full value obtained-8476.

Oliver, H 8467. Hon. Frank (Minister of Interior)-

Reads the explanation furnished by officers of the Interior Department-8467.8-9-70. Asks parliament to sanction the sale of this land, and substitute a section of equal value elsewhere-8471. Desirable to facilitate the bringing under irriga-tion land requiring it-8472. The C.P.R. were given the privilege of taking school sections-8473. We sell the land at \$3 an acre subject to a reduction for work were given the privilege of taking school sections-8473. We sell the land at \$3 an acre, subject to a reduction, for work done on the ditch-8474. Any recent transactions have not been of the class mentioned-8475. From a provincial point of view there is no objection to the exchange-8476. If the projectors had known they would not have undertaken the scheme-8477. The Acts hitherto passed have not been questioned as to their legality-8478. The precedent has been established for cause; it has the sanction of law-8479. Does not follow that the school fund will suffer-8480

SCHOOL LANDS-EXCHANGE OF-Con.

Sproule, T. S. (East Grev)-8470.

The irrigation would enhance the value of the school land—8470. The school fund would lose to the extent of the dif-ference—8471. This seems an injustice to the school fund-8472. An injustice if school lands were enhanced in value-8473. And then exchanged for lands where there was no development--8474. That is an important element-8476. Has the Department of Justice been con-sulted? The case of Manitoba school lands—8478. Many bad precedents are established and we should not follow them-8479. So many crooked kinks in these land transactions that one becomes suspicious-8480.

SENATE-CONSTITUTION OF.

Motion to invite the Senate to a joint consideration of a series of proposals for its reform-Mr. G. H. McIntyre-1573.

Daniel, J. W. (St. John City)-1561.

The Liberals in 1893 undertook to reform the Senate-1561. Believes in an upper House both from a theoretical and practical point of view-1562. Comparison of the United States and Canadian forms -1563. The elective process would be expensive to the people-1564. Wise to prevent any dangerous agitation, by making the Senate more acceptableby making the Senate more acceptable-1565. A time limit would appeal to the genius of the people and go a long way to satisfy them-1566. The government has the matter entirely in its own hands -1567.

Foster, Hon. Geo. E. (North Toronto)-1574.

Agrees with some of McIntyre's state-ments; some of his positions would probably find differences of opinion-1574. The chief objection not to the constitution of the Senate, but to the way appointments have been made-1575. Laurier's duty to propose some plan, and consummate a reform he and his party declared necessary-1576. It was consid-ered part of the office of the Senate to protect minorities-1577. Two things which would be gained by having a smaller Senate-1578. Favours the limit-ing of the period of service-1579. Does not see much force in the question of responsibility or irresponsibility-1500. Laurier evacuated his high position, he burlesqued the whole question-1581. The one man power appointment, where the cardinal defect comes in-1582. No mechanical medium will suit the people better than to have the direct choica-1583.

Laurier, Rt. Hon. Sir Wilfrid (Prime Min-ister)-1567.

The debate judicial in tone, high and elevated in purpose and expression-1567. The first reform ought to be attempted in reducing the number of Senators-1568. Should come to the principle of equal representation of our provinces in

SENATE-CONSTITUTION OF-Con.

Laureir, Rt. Hon. Sir Wilfrid-Con.

- eir, Bt. Hon. Sir Wilfrid-Con. the Senate-1569. Asks the House to con-sider a proposition, for a Senate of a fixed number, and equal provincial re-presentation-1570. Believes Senators should be appointed for a certain term, a pretty long term-1571. As to the manner of composing the Senate; the American system of selection considered -1572. What would happen if he re-commended a Conservative for the Sen-ate-1573. Would like to have more views expressed on this subject, moves the adjournment of the debate-1574.
- Lewis, E. N. (West Huron)-1530.
 - Brings forward his resolution for sub-mitting a plebiscite on the Senate at the mitting a pieblscite on the Senate at the next election-1530-1. Believes there is great capability of harm in the Senate, if the Premier, for the time being ap-points enough of his own party-1532. The people want either the abolition of the Senate or some material change-1533.

McIntyre, G. H. (South Perth)-1513.

Two other resolutions bearing upon the Senate on the Order Paper-1513. Reads the other motions; reviews his speech on this subject two years ago-1514. What are the usually accepted reasons for a second chamber-1515. Aboltion the remedy of impatience rather than of sober thought-1516. It would remove all the ability and experience there is in the Senate-1517. The House of Com-mons investigation might cause great injustice to the minority-1518. The ma-jority even at election time only abso-lutely represents the views of the peo-ple on one or two questions-1519. The Senate works quietly, has no fire-works, does a considerable quantity of work-1520. The representation in the House, a representation of local majorities-1521. the other motions; reviews his speech 1320. The representation in the House, a representation of local majorities—1521. Two difficulties in the way of reforming the Senate—1522. Quotes his motion of two years ago; life tenure not in ac-cord with representative government— 1523. Appointments lie in the Governor 1524. in Council, which is the government of the day-1524. The second chambers of the day-1524. The second chambers of France, Germany and Great Britain-1525. Election of senators by large con-stituencies would give a very valuable body-1526. Would prefer that the gov-ernment should be limited in the num-ber of their appointments-1527. The Senate at present does not initiate very much-1528. Irresponsible as it is, it is illogical that the Senate should have the veto power-1529. Hopes the ques-tion will be debated seriously-1530.

Miller, H. H. (South Grey)-1533.

The resolution of 1649 abolishing the House he resolution of 1649 abolishing the House of Peers, followed next day by that for the abolition of the monarchy-1533. Three propositions, if these state the case the Senate must go-1534. Impossi-ble under any system to obtain a Sen-ate as representative as is the House of Lords-1535. Electing the Senate brings it under the control of the pub-lic opinion of the country-1536. The

question of election by the several provincial legislatures—1537. An article on the United States Senate in a recent American encyclopedia—1538. After careful consideration rejects all the plans he has heard for the reform of the Senate —1539. Quotes R. L. Borden in 1906— 1540. Quotes Lord Salisbury and Gladstone on the British House of Lords— 1541. Two reasons mainly advanced in support of our Canadian Senate—1542. The need of protection on the part of the smaller provinces more imaginary than real—1543. Does not think that protection was ever required or that the Senate would have given it—1544. Points out how opinions differ on the subject —1545. Senate costing over a quarter of a million dollars to-day—1546. The Canadian public too ready to look with suspicion upon their government—1547. Legislation strangled by upper chambers, our own included—1549. Quotes Sir Oliver Mowat, in 1903, and John Bright in 1884—1549. Until some stronger reasons for its continuance are adduced, will be in favour of its abolition—1550.

Schell, M. S. (South Oxford)-1550.

Three propositions, thinks that for a referendum is not a practical one-1550. Abolition might seem easy; quotes Mr. Clements and Sir John Macdonald-1551. Showing the views of those who drafted the Canadian constitution-1552. Believes Ontario would oppose abolition; favours age limit and still more term limit-1553. The apportionment of legislation between the two Houses-1554. Hopes both parties will combine to bring this matter is a successful issue speedily-1555.

Smith, Geo. (North Oxford)-1555.

A certain feeling abroad, especially in Ontario, of disappointment in the Senate --1555. Quotes 'The Rising Storm Cloud' in the 'Westminster Review'--1556. Does not think abolition the desire of the majority of the people, even in Ontario --1557. The elective system more democratic than nominative---1558. Not a success in America; quotes authorities --1559. If the Senate is maintained as at present there should be some change --1560.

 - His district has produced the best oats in any part of Canada; this vear's conditions—1353. No wheat to speak of shipped out this year—1354. Many of the best farmers will be compelled to seek assistance from the government— 1355.
- Crawford, J. (Portage la Prairie)-1364.
 - Not the danger from want of seed grain in the west that may now appear-1364. Only a little while before there will be no good grain for seed-1365.
- Greenway, Thomas (Lisgar)-1355.
 - Not necessary to include Manitoba-1355. Something should be done for Saskatchewan and Alberta-1356. The assistance required in any part of the province would be very small indeed-1357.

Herron, J. (Alberta)-1360.

If assistance is given, it should be given to those who require it, without distinction-1360.

Hughes, Sam. (Victoria)-1360.

Made a similar suggestion in his address to the Canadian Club at Winnipeg-1360. The only solution is for the federal government to step in and supply grain-1361.

Jackson, S. J. (Selkirk)-1365.

If assistance is given thinks experience shows it should be left to the provincial government-1365-6. SEED GRAIN FOR THE NORTHWEST-Con.

Knowles, W. E. (West Assiniboia)-1368.

No frozen wheat in Alberta that he ever heard of-4368. Districts where there was very little frost-4369. The fault in the case cited by Cash seems to lie with the financial institutions-1370. The banks and the farmers; difficulties in the way of making cash advances-1371. The vastness of the problem; the railways should assist-1372. The homesteader, the ward of the government most in need-1373.

Lake, R. S. (Qu'Appelle)-1352.

The financial stringency has created conditions that call for some assistance-1352. Advances might be made repayable in equal instalments-1353.

McCarthy, M. S. (Calgary)-1376.

Has heard no demand for seed grain in his section of the country-1376. There should be no discrimination in the administration of this scheme-1377.

McCraney, G. E. (Saskatchewan)-1363.

Resolution by the Battleford Board of Trade on the necessity of seed grain distribution-1363. Those who need seed grain most are liable to buy almost any old stuff-1364.

McIntyre, Wilbert (Strathcona)-1358.

- The fact that frost has injured the grain renders some such assistance necessary -1358. The men who do, and those who do not want assistance; concerning oats-1359. The homesteader who has not his patent is in a position that requires the attention of the government-1360.
- Oliver, Hon. Frank (Minister of the Interio) -1377.
 - General regret for occasion of the discussion; hopes of the summer disappointed -1377. In some places total, in others serious partial destruction of crops-1378. The negotiations that have been entered into-1379. Will be doing well if they can measurably meet the conditions with measurably meet the conditions with measurable satisfaction-1380. The interest of every financial institution to see that every acre that can be put in seed this year is seeded-1381. Not desirable to go into details whilst negotiations are pending-1382.

Osler, E. B. (West Toronto)-1362.

Probable great shortage of seed grain this coming year-1302. Let the companies advance the money, and do the collecting as a matter of business-1363.

Roche, W. J. (Marquette)-1373.

The means taken of drawing attention to the matter, likely to prove detrimental to the country-1373. The part of Manitoba that has suffered most has been the northwest-1374. In Manitoba municipalities can sell seed grain on a lien; serious risk of sowing frozen grain-1375. Any distribution made should be to parties really in need-1376. SEED GRAIN FOR THE NORTHWEST-Con.

Schaffner, F. L. (Souris)-1367.

No demand in the province of Manitoba for keed grain to be supplied—1367. Providence has something to do with this, and government being punished for legislation of three years ago—1368.

Sifton, Hon. Cliffton (Brandon)-1349.

Refers to question of seed grain-1349. In sections where the grain suffered from frost there is no seed grain-1350. Neither the banks nor the loan companies in a position to tie up capital in the matter-1351. Hopes the government will give the matter early consideration-1352.

Sproule, T. S. (East Grey)-1361.

More things to be done than simply to provide seed grain-1361. The farmers should be assisted and government should have grain tested-1362.

Staples, W. D. (Macdonald)-1357.

Southern Manitoba never had a better quality of grain than this year-1357. If government deals with the matter all the western provinces should be treated alike-1358.

Taylor, George (Leeds)-1366.

Advises the government making arrangements for the banks to supply the grain dealer with money-1366.

The Ontario government more generous to the veterans in that province—12610. The newspaper correspondents should receive recognition—12612.

Beattie, T. (London)-12600.

Any Canadian, if his name is on the roll, should be entitled to a land grant-12600. The best plan to adopt is to compel the volunteer to settle-12609. Otherwise the land will be sold and held vacant-12610.

Bergeron, J. G. H. (Beauharnois)-3756.

- No objection to volunteers of western provinces receiving grants, but those from other provinces should be similarly treated—3756. Dominion government making this grant, and it should apply to whole Dominion; need not consider action of local governments—3758.

The reason which makes the resolution necessary should prevent the amendment taking effect-12596. The amendment can be smaller but not larger than the resolution-12597. The amendment speaks of their being domiciled in Canada-12599. Not difficult to alter the amendment so as to cover them all—12601. Suggests an ad dition—12602. Suggests a wording for Herron's amendment—12612. Oliver sat. isfied that the provisions of the Land Act would amply cover the case-12613. Would like to have the amendment explained-12614.

Does not think a substitute should be allowed—12606. Believes in being generous to the men who went out—12607. The provisions of the Bill are quite broad and generous enough— 12608. In a few years the scrip will be worth \$25,000 to \$30,000—12609. The On-tario government only valued the land at \$50—12610. The whole idea of allow-ing a substitute is absurd—12615. Vio-late the principle of settling these lands 12616. Protests against this policy in the interests of the people—12617. Recognition should take the form of a money grant—12618. Considering a second edition of 'Farm Weeds'-12891. Can do it in two years if he does it right-12892.

Fowler, G. W. (Kings, N.B.)-12891.

Only one fault in the seed samples, they are not large enough—12891. In oats you ought to have at least a bushel— 12892.

Staples, W. D. (Macdonald)-12891.

- Armstrong, J. E. (East Lambton)-12879.
- The way the minister has dealt with the Agricultural Committee's resolution of 1905-12879. He refused to raise a finger, practically told Lord Strathcona that the government wished no action taken -12880. He has instructed Lord Strathcona not to do anything in this matter -12881. That being the case, why did the minister ignore the resolution-12885. Correspondence with the High Commissioner-12887-8. Fowler, G. W. (Kings, N.B.)-12886.

No impediment whatever to im-migration propaganda in France-9852 Does not think there is such a law that is put into operation-9853. Geof-frion in Paris, not much immigration work to be done there-9854. Is against all this kind of immigration expendi-ture-9855. When Sifton resigned Le-minur's Montreal argum mode to with mieux's Montreal organ made a terrible attack on him-9856. Would infer that Frenchmen have not been conspicuous in the development of the west-9857. Oliver's report conveys no information whatever of a valuable kind-9858. In England every licensed bookagent is the authorized agent of this government-9859. The government give different ex-planations at various times-9860. Are told there are forty agencies throughout France-9861. They are authorized to collect the bonus-9862. There is no appointment and Oliver knows it-9863. If they do not act properly we refuse to do business with them-9862. We do not pay Cook & Son a bonus on immigrants from France-9863. That is the statement in the circular-9864.  - This department is notorious for outside extravagance-980. The Georgian Bay Fisheries Commission-981. Asks information regarding payments to Messrs. Birnie and Noble-982-986. These payments made when former accounts were not fully explained-987. Attacked the department for advancing more when proper explanations had not been given -989-90. A K. C. who can shut up his office and go hawking round the country at \$6 a day-991. It is a great tribute to the sagacity of the department-992. The papers will show that there was a dispute as to Birnie's remuneration-993. With \$2,000 in his pocket-996.

Bergeron, J. G. H. (Beauharnois)-1014.

Not boats enough, because too many are used by the ministers-1014. When the Prime Minister came back from England all the government boats were pressed into the service-1015. Where does the difference of \$8,000 come in?-1016.

This was for blue the estimates-982. This was for blue prints-983. Dr. Brown has no connection with the department-984. Col. Ander-son has to look after the work from Halifax to British Columbia-986. Sorry Bennett wants to discuss this now, it comes under the Fisheries item-987. When we come to discuss this question I will make the explanation-991. Shall 1 will make the explanation—991. Shall be in a better position to give all the information when we have the papers— 992. Better for all concerned if Bennett would wait for the papers—993. Was away during six months and was away during six months and could not render an account until he came back-994. Paid by the deputy against his orders, and adjusted since his return-995. The tickets were sent to the dependent of the sector of the sector. to the department and no money was paid to the railway company-996. Has explained the matter several times-997. Not all the expenses, not the travelling expenses—998. The figures given by Foster are not correct—999. Could not take the money out of that vote, had to get an advance out of some other vote -1000. Bills are rendered some times af-ter the close of the fiscal year-1001. Monk never heard him say any such thing-1002. Would like to use private cars oftener but they are too expensive -1004. All the expenses incurred on that boat were paid by myself person-ally-1005. The 'Stanley' was sent over to England to get new boilers-1006. Was speaking of the friends who were with him-1007. Took the opportunity of the trip to examine ice-breakers in Europe -1008. Is informed that before Lacas did the work they were paying more-1009. Mr. Spain, as wreck commissioner, has to travel all over the country-1010. Never went to ask his officers whether they has passes or not-1011. Officers who certify the amounts have to see that a man oes not get railway fares when he travels on a pass—1012. Money expended when he was Speaker was not for his benefit but in the public interest 1012. Reid's data ment is not connect. -1013. Reid's statement is not correct; went down to inspect the different stations-1014. The boat at Rimouski is not under his department-1015. Statutory increases and the appointment of more employees—1016. The places are prepared under Col. Anderson's supervision-1017. And control-1018.

changes—976. Before saddling the department with 21 more clerks, should have the report of the commission—977. They should pool their interests on the photographic business and each pay part of the salary—980. The minister is on his trial for all the work of his department—991. The minister and his deputy ought to be able to give a satisfactory answer—992. He made a requisition before the end of the last fiscal year—994. The mistake was of charging not only his own expenses, but the expenses of other officials—995. In our day we had not the cheek to ask for tickets without paying for them—996. This item will have to stand until we receive an explanation—997. Amongst all the things that grow there is nothing grows like the ministerial travelling expenses—998. The figures given here are figures given for the information of this House—999. Heard him say he had to take that advance out of another vote and pay it back—1000. He will take and divert money from one plain parliamentary purpose and apply it to another—1001. They get return courtesies on the government railways—1004. It would be 'infra dig' for him to go to Russia in a commercial or tramp steamer—1006. The private car business has been carried to an absurd and scandalous extreme— 1007. The matter of Lacas is not finished; a demoralizing practice—1008. An order in council contravened by that transaction—1010. That is a royal method; the minister can afford that for he knows the money is not his own—1011. Millions of the people's money has been paid on the certificate of officers of that fund—1012. Can any man, however faithful, do all that work—1017.

At a loss to understand Bennett's persistently renewing his attack on the Fishery Commission-987-8. Birnie, a man of considerable standing, considerable integrity and 'considerable reputation in his own town-989. Bennett might give his experience as a K. C.-993.

Monk, F. D. (Jacques Cartier)-1001.

This is a matter which the minister ought to explain at once-1001. He received \$6,000 in cash for expenses defrayed by the home government-1002. Here is an exceptional expenditure absolutely unexplained-1003. The whole of the government fleet was down to meet the ministers on their return-1004. Will the minister deny that?-1005. An amount of \$4,000 plus \$2,000 plus \$840 paid for crossing the Atlantic -1007. Understands that Mr. Potvin was the secretary-1008.

 - Do the railways charge for hauling cars? -1004. Lid not the government steamer go from England to Russia?--1005-6. Would like to know how the \$2,000 was got from the Auditor General for this trip-1008. The minister does not think \$10 a day too much allowance for travelling expenses-1012. The Department of Marine under its present head the most extravagant of the service-1013. The minister uses the government boats a great deal too much himself-1014. His expenditure as Speaker-1016.
- Sproule, T. S. (East Grev)-985.
 - Clearly bare-faced misconduct on the part of any establishment under the government. It is a political machine -985. Very improper to take money from one vote and use it for another-1000.
- Taylor, G. (Leeds)-978.
 - Understood there would be no increase in the number of clerks-978. In every department the staff has practically doubled-979. A clerk in the Public Works to whom money is paid for doing extra work-982. Blue prints at 14 cents a square foot, just double the price elsewhere. Address to Dr. Brown-983. Are we going to pay men simply as a political school?-984. The extravagance of this government in travelling expenses-985. Wants an explanation from the minister-986. Did not explain Commander Spain having spent \$10 a day during nine months-993. The minister took over \$2,000 and charged the country with the expenses of himself and party to England-994. The explanation might satisfy Brodeur, but not him-995. How did the account for steamship tickets get into last year's accounts-996. The case of Mr. Lacas -1009. Simply throwing the money of the people away for the benefit of political friends-1010. The statement is made that Mr. Spain also had a pass in his pocket-1011. The traveling expenses simply an outrage on the country-1012. \$9 for two clothes baskets, and \$22 for lining a coat and vest--1016.

Bennett, W. H. (East Simcoe)-1048.

- These are high and mighty times for the Minister of Marine and Fisheries-1048. Before he came into politics his knees never went under a \$50 table-1049. Asks particulars of the arrangement for the Golspie-1084. She carried passen-gers; people not making trips of two and a half months on the lakes-1085. Understood she was a small steamer plying around Port Arhur-1087. The minister has a lot of political friends in Ontario who own tugs-1088. Asks for the advertisement calling for ten-ders for a lighthouse supply boat-1089. Will see what it was and how long tenders were asked for-1090. The Golspie has a tonnage of only 700 tons, the reg-istered tonnage is what tells-1103.
- Bergeron, J. G. H. (Beauharnois)-1090.

They must have liked it if they have continued it for eleven years-1090. All

 - the barge companies' captains buy the food for the crew-1091. All these immense sums spent on the boats do not give any benefit to the sailors-1092. Asks the tonnage of certain boats-1093. Asks the number of boats-1094. Mr. McConkey's expenses-1095. The sailors do not get it-1097. Are the captains in charge of everything in connection with the boats?-1104.

- The committee wants to know if Lacas was doing this work while paid by Pub-lic Works-1038. Asks for Lacas' accounts to be produced-1040.
- Borden, R. L. (Carleton, Ont.)-1045.
 - Understood it had all been adjusted but this \$915, which was too much-1045. There is an expenditure of \$8,000 claimed, it appears in the accounts, and has been paid out of the treasury-1046. The minister should be prepared to give the exact sum-1047.

Royce, A. C. (West Algoma)-1072.

- yce, A. C. (West Algoma)-1072. This the fourth time W. Roche has avoid-ed all the shoals of election trials-1072. The firm of Peter Fudge & Co. of Halifax, evidently an annual pen-sioner on this government-1073. There has to be some explanation why this tre-mendous expense is fastened on the country-1071. Roche has brought his remarks on himself by his action in the appointment of a judge to the Su-preme Court of Nova Scotia-1076. Thinks Roche's statement is correct-1077. 1077

In Commander Spain's case there was a special order in council-1034. The arrangement made regarding Mr. Lacas-1035. Mr. Lacas has been simply carrying out the arrangement-1036. He is paid on the certificate of the officer for whom the work is done-1037. Formerly it was done by outside 1037. Formerly it was done by outside people, but was not as satisfied of 1038. There are a number of people not leave of absence-1039. Had his pri-vate secretary also a messenger-1040. If Foster will await the explanation he will find there is no abuse-1041. Reads his letter to the deputy-1042. Spent sevreal months in London and Paris work-ing in the interests of the country-1043. Sent a cheque to the accountant but the accountant told him it was too but the accountant told him it was too much-1044. Has just said that the ac-counts were not adjusted yet. Foster accuses him of extravagance-1045. Will not follow his example and allow the expenses of unofficial persons to be charged-1046. They are charging

There were some accounts in the Hotel Cecil which I paid-1048. I had some hotel expenses in London which I paid -1049. This vote \$50,000 less than last year; no supplementary estimates-1078. Taylor should consider facts and not compare the large steamers of to-day with the small ones of 1895-6-1079. It is often economy to buy good things; might lose money by buying in-ferior qualities-1080. The expenditure on the Lansdowne was \$4,000 less than that under the late economical governon the Lansaowne was \$4,000 less than that under the late economical govern-ment-1081. Taylor does not wish the sailors to be properly fed or clothed; we shall do our duty-1082. Glad Dan-iel takes so practical a view of the matter-1083. Are doing their best for the harbour of St. John-1084. Should be surprised to learn that the Golspie carried passengers whilst in government employ-1085. Where the vessels are to be employed-1086. Tenders not called last year because the boat was under the same commission-1087. Asks the names of the friends of the government who complained about the Golspie-1089. names of the Irlends of the government who complained about the Golspie-1089. If he does not fulfil his contract it will be cancelled right away-1090. It is adopted on the St. Lawrence ship chan-nel-1091. The Alert spent only \$4.25-1092. The Aberdeen has been in com-mission since 1896-1093. The Druid bought from Fleming & Ferguson about five years ago-1094. Particulars of ser-vice of the vessels-1095. The expendi-tures were for 1906-7-1096. Paying a little less on the dredges than on the other boats-1097. Taylor in those days supported a government that was not doing its duty by the country-1098. Martin's statement shows how unfair he has been-1099. The feeding of the men given by contract to the captain on some has been-1099. The recently of the held given by contract to the captain on some boats-1104. An objection to having the captain the contractor-1105. Are going to make a comparison of the systems-1107.

- Foster, Hon. Geo. E. (North Toronto)-1033.
 Asks the minister to explain the cases not finished last night-1033. The good old-fashioned way was that the man should acount for all moneys given to him-1034. The difference between outside and inside travel-1035. While Lacas was doing this work last year he was being paid his regular salary-1036. That is not satisfactory; the minister dodges the question-1037. No objection to the same man doing work for

Roche, Wm. (Halifax)-1068.

Now the scale of victualling ships is prescribed by the Board of Trade of England-1068. The cost of meats and other supplies used by crews has very much risen-1069. The Canada has to compare

with ships in the Royal Navy-1070. Taylor should be specific and if there is anything wrong, he should show where the wrong is-1071. The Lady Laurier, the Canada and the Aberdeen are fitted out in the most modern style-1072. Entitled to an explanation after Boyce has attacked him; would have proved conclusively that the opposite party were guilty of all the misdemeanours-1075. If Boyce cannot answer his arguments he should not make personal attacks-1076. Boyce has a mental habit of quoting people as saying things they have not said-1077.

Talbot, O. E. (Bellechasse)-1090.

Thinks the system of the captain finding the boat a vicious one-1090. Then it is the company who gets the benefit and not the captain-1091. The captain, when he knows he can make a profit out of the sailor, does it every time-1092. Maintains that the system is a vicious one-1106. Has not heard any complaints about the Montcalm-1107.

Lacas has been in government employ for many years, and the minister says he is not a civil servant-1039. Here is \$199 of the people's money thrown away-1040. Fowler, G. W. (Kings and Albert)-10826.

Should have the annual drill before the Tercentenary-10286. Regrets it is not intended to mobilize the entire militia -10288. A mistake for the minister to change his position-10289. It might be an inducement for drilled men to go in-to camp-10290. Does not think men would leave the force because they were not sent to Quebec. Every man would like to go-10296-7. Did not advocate taking the whole Canadian militia to like to go-10296-7. Did not advocate taking the whole Canadian militia to Quebec-10298. Sinclair sat and voted money to benefit a few favourite indi-viduals-10299. Wonders Fielding does not keep these iresponsible members in battar check 10290 better check-10300.

Henderson, D. (Halton)-10293.

Difficult to get men to go to camp unless reasonable compensation is paid-10293.

Hughes, S. (Victoria)-10293.

As many of the rural corps as possible should go into camp-10293. All the men want is their transportation and ration allowance-10294. The represent-ation of the rural corps is but one out of eight-10295. The minister's opinion of the rural corps at Toronto-10296. There should be a fair division between city and rural corps-10300 city and rural corps-10300.

Blain, R. (Peel)-5746. This means half the militiamen in On-tario will have no drill-5746.

- Borden, Hon. Sir Frederick (Minister of Mili-tia and Defence)-5732.
 - Gives details of arrears; there is no serious inconvenience to the men-5732. Custom, an undesirable one, but has Custom, an undesirable one, but has existed ever since confederation-5733. Each member of the permanent force costs something like \$500-5734. Six years ago we had no Esquimalt and Halifax to support-5735. At Petewawa years ago we had no Esquimalt and Halifax to support-5735. At Petewawa and some other places the permapent force turned out to assist in the camp-5736. Desirability of small armouries where lectures can be given for the rural battalions-5737. Would be glad to build an armoury in Minnedosa and other towns if possible-5738. Will not forget it this time, and will see what can be done-5739. No intention to build large drill halls in future outside of cities-5740. A large number of the militia will be at Quebec under camp conditions-5741. Should be a small armoury con-nected with every company, or with every unit-5742. The time has come when in every school there should be teaching or training-5745. Intention to form a composite regiment representing the west-5744. Will have to apply the same rule to all-5745. Not aware of the Rigaud case; would be included to duration would be inclined to advertise over again -5751.

Cockshutt, W. F. (Brantford)-5741.

Asks if the cost of taking men to Quebec will be taken out of the vote for the battlefields celebration-5741. Endorses the suggestion of Herron-5745. It would be unjust and unwise to exclude all western representation-5746. The minister should request the transport companies to provide the most efficient ac-commodation-5747. Troops should be transported in the shortest possible time under the best possible conditions-5748.

Daniel, J. W. (St. John City)-5745.

Understands the corps who do not got to Quebec will have their usual annual drill-5745.

Foster, Hon. Geo. E. (North Toronto)-5732.

Asks how \$65,000 of this year's vote was used to pay last year's accounts—5732. Parliament coming to be pretty nearly a farce as far as voting money goes— 5733. Anyway you are a month and a half behind in paying your army—5734. 10095-191

 An inspector sent down to examine into the price of the site-8519. The vote is for a post office and other public purposes, not for an armoury-8520. Barr has put forth somewhat narrow views; it is the trade and district centre of southwestern Manitoba 8521. Foster missed part of what he said; an inspector was sent to compare the price-8522. It is a rapidly growing town-8523. Is not prepared to say, everything considered, that the price was excessive-8524. His information is that the population is 2,000-8525. Foster should not make such a suggestion without some evidence -8526. The building is to be used as a custom-house as well 8572. Has no record whatever as to previous transactions-8529. He reported that this was an exceedingly good lot and the price was reasonable-8530. Can hardly be expected to do what none of his predecessors since Confederation have done -8532. A large number of considerations had to be taken into account-8533.

- It was shown that the returns were honestly made; it was not shown that anything was lost-12128.
- Pugsley, Hon. Wm. (Minister of Public Works)-12105.
 - The tenders bear every appearance of being in different handwritings-12105. Understood Bennett that the same man was interested in both companies-12107. Tenderers were allowed to tender for the various works in each province-12110. The contract would have been given to them as lowest tenderers-12111. Does not throw the responsibility of accepting the lower tender on anybody -12117. Believes that the appropriation will be quite sufficient-12118. The easiest thing in the world to find resemblances in handwriting if you want to-12119. Concerning the extension of the dredging contracts-12120. His report was that in all cases the prices were fair and reasonable-12121. The prices were

considerably higher than those at which work was done last year-12122. It was a question of accepting the lowest tender a question of accepting the lowest tender or not proceeding with the work—12123. Regrets that Bennett has this unfor-tunate disposition to find fault—12124. The prices being certified as reasonable it was his duty to accept the lowest tender—12125. The price given per cubic yard in situ is always different—12126. The inspector is not to estimate the quantity in the scow—12127. Prender-gast will tell you there is not much money in dredging—12130.

Reid, J. D. (Grenville)-12125.

It reflects on the minister that he renewed the contracts at advanced prices-12125. On every dredging contract there should be an engineer-12126. To see that the contract is properly carried out -12127. To measure the work, and know exactly the quantity on each scow -12128.

To satisfy all interests and to save expense I advised that the post office be placed as near as possibe in the centre of the settled portion of the town-8539.40. The majority of the people thought it should go on the main street -8541. Three thousand odd dollars is all that should have been spent-8542. The site for which \$6,000 was asked was only 66 by 90 feet-8535. Can assure them there was no graft about it-8546. There are two rifle companies and a cadet corps-8547. cadet corps-8547.

There will be \$563 of last year's vote which we are not asking for-8543. You would condemn us very much if we attempted to force public buildings in all the towns at once-8544. It strikes me as high unless there was some exme as high unless there was some ex-ceptional reason for it—8545. The total estimated cost, including site, is \$44,437 -8546.

The board of trade in his own town protested strongly against the selection of the site-8540. Only necessary to compare the cost of the lot in Neepawa with that in Dauphin-8544. His own opinion is that the Dauphin site was exorbitant-8545. Sees that last year the outlay was put at \$25,000-8546.

Ottawa Royal Mint, \$25,000-1451.

Barker, S. (Hamilton)-1476.

Fielding thought it would cost less than the estimate-1476. The first and all the estimates have been for work well done-1477. Parliament was not advis-ed of anything more than that they had let a contract-1478. Cannot trust too much to assurances after their experi-ence-1479. Then we are well on to \$600,000-1484.

Barr, John (Dufferin)-1481.

Not a contract under the government in which the payments do not exceed the estimate—1481. Government must call a halt or it will drive the country into bankruptcy-1482.

Bennett, W. H. (East Simcoe)-1458.

Bristol, E. (Toronto Centre)-1454.

Would like more light on this item than the minister seems able to afford—1454. Better hand over the building to be used as a public museum—1455. If the opposition agreed with the undertaking it was on the estimate submitted—1456. The work was done by contract, therefore the rise in prices does not effect it —1457. Quotes Fielding's speech upon which the opposition agreed—1465. Will cost nearly double the estimate for construction and maintenance—1466. Presumes that in 1902 they had all reasonable knowledge—1470. After the election they decided that the mint should be established in Ottawa—1471. Should have a full and complete statement of the whole matter—1472. Based his argument on what was said before the contract was entered into—1474. The government assured the House that the entire cost would be \$300,000—1475. They enlarged their plan and entered into a contract with their favourite contractor without informing the House—1476 Fielding attributes arguments to them and then proceeds to knock them down —1479. Entered into a contract without reasonable and proper disclosures—1480.

Daniel, J. W. (St. John City)-1483.

- Saw in a newspaper that a smelter and a refinery plant would be required—1483. Understood the minister that the country would make a profit out of coining —1485.
- Fielding, Hon. W. S. (Finance Minister)-1453.
 - Ministers anxious to have the full amount voted, but sometimes the Finance Minister puts on the brakes-1453. Every estimate submitted to parliament is open to the same criticism-1454. If Bristol wants to raise the question of minting our own coins he must go back a few years; the legislation passed unanimously-1455. One of the things of which the government and parliament may speak with pride-1456. All they can do is to frankly admit the increased cost of all material and labour-1457. The fence constructed under arrangements with the imperial government-1458. If it is substantial, mints every where are substantial-1459. Asks the connection between Bennett's speech and the item in hand-1461. Understood Bennett that Calvert was an applicant for a seat in the Senate-1462. If anything improper in construction or otherwise can be pointed out, that is a good thing-1466. There was an item for maintenance in 1901, under an arrangement with the imperial government-1472. Statistics of payments for coining; will cost \$117,000 per annum more-1482. That amount would be saved by doing the work in England-1483. If the minister follows the policy of bringing in these outsiders he will never have a staff of his own-1492. Quotes 'Hansard' to this effect-1502. Quotes Fowler in 'Hansard' that Canty was employed but ' pays no attention whatever to the building '-1504.

Boyce, A. C. (West Algoma)-1498.

The Saint Andrew's rapids works the only ones of their kind in America-1495. A portion of the wosk can be removed at the close of navigation-1496. Not a very large building-1497. The contract price is for the building alone-1498. Tenders will be called for, and contracts let to the lowest tenderers-1499. Very difficult to satisfy Reid-1500. Asks what the appointment of postmasters has to do with his estimates-1501. Mr. Canty considered a very good man for this work-1502. Mr. Taylor and not Mr. Canty was responsible for the Laurier tower-1503. It was proved Mr. Canty had nothing to do with the tower-1504.

Reid, J. D. (Grenville)-1490.

Understands the only amount to outsiders to be that paid Mr. Ewart-1490. Hard on the permanent staff for an outsider to get the trip to London-1491 Better put him on the permanent staff than give him special work-1492. PUBLIC WORKS-Con.

Sproule, T. S.-Con.

- a reputation that is a hundred per cent worse—8568. Is within the mark when he says White got \$40,000—8569. Not going to be beaten down in that way— 8570. My first question was what commission was paid—8571. Not yet told them from whom the land was purchased —8573.
- Winnipeg-New immigration building, \$2,000 -8573.
- Pugsley, Hon. Wm. (Minister of Public Works)-8573.
 - This \$252,885 covers everything, fittings and all-8573. Quotes description of the land-8574. Can give the practice at St. John and also Quebec, the right to furnish meals is let by contract-8575.
- Sproule, T. S. (East Grey)-8574. Riopelle acted for the government and received 5 per cent-8574.

Wilson, Uriah (Lennox)-8573.

Asks if this includes furnishings and all -8573. Asks if any portion of the supplies are to be furnished by the government-8574. Not treating the House properly to have the minister absent when the supplies are being voted-8575.

Winnipeg-New post office, \$100,000-8575.

- Lefurgey, A. A. (Prince, P.E.I.)-8576. We are here to think of the future, especially when we are spending millions -8576.
- Pugsley, Hon. Wm. (Minister of Public Works)-8575.
 - It is practically completed now-8575. Tenders are opened in the presence of the minister and deputy minister-8576.

Roche, W. J. (Marquette)-8575.

Two years ago the minister said it would be completed that year-8575. Asks the practice in opening tenders-8576.

Winnipegosis lake-Dredging, \$5,000-12141.

Pugsley, Hon. Wm. (Minister of Public Works)-12141.

Work not very necessary, not a large population there-12142.

Staples, W. D. (Macdonald)-12141.

Nothing for the completion of the work at St. Laurent, Lake Manitoba-12141. It is of the utmost importance to the people of that district-12142.

KAILWAYS AND CANALS.

Caals-Calops Canal, \$31,900-5671.

- Graham, Hon. Geo. P. (Minister of Railways and Canals)-5671.
 - Gives expenditure, Galops channel used by vessels going down-5671. The currents very swift, vessels prefer the channel to taking chances in the canal-5672.

RAILWAYS AND CANALS-Con.

Reid, J. D. (Grenville)-5671.

- Not one large vessel for which it was built has ever used this canal-5671. Insurance companies will not accept risks; not 14 feet of water there to-day-5672.
- Lachine Canal, chargeable to capital-Rebuilding slope walls, \$124,000-5663.
- Bergeron, J. G. H. (Beauharnois)-5663.
 - Asks how the contractors can be con-trolled-5663.

Conmee, James (Thunder Bay)-5664.

- A great deal of that class of work can be done in the winter-5664. Foster can make as much sport out of it as he likes-5665.
- Graham, Hon. Geo. P. (Minister of Railways and Canals)-5663.
 - The estimated cost is \$475,000. Contractors are Haney, Miller, Quinlan and Robert-son-5663. This is the amount of work up to the 31st of March-5664. Total payment up to 1st of November, \$238,000 -5665. They have to tear down crumbling walls-5666. It was at first necessary to do the work when the water was out of the canal-5667. There was very little work done this year-5668.

Haggart, Hon. J. G. (South Lanark)-5663.

Minister of Railways has no business to enter into a contract for such an amount-5663. About \$335,000 expended on I.C.R. capital, and \$1,500,000 in working expenses-5664. The old work was not laid in concrete, it was a dry wall—5666. Asks how this work, esti-mated at \$256,000, has cost \$400,000—5667. It is costing \$400,000—5668.

Johnston, A. (Cape Breton)-5667.

Last year Haggart asked what it would take to finish this work-5667.

Reid, J. D. (Grenville)-5664.

Auditor General gives the firm as Coulson, Quinlan and Robertson-5664. This is for electrical supplies as well-5665. Asks if there was only one tenderer-5666. Finds record of payments for slope walls, but not these contractors' names-5667. If there is anything wrong, it is the minister's duty to tell them-5668.

Sproule, T. S. (East Grey)-5664.

- Does not think they can build a concrete wall in the winter-5664. It is an un-satisfactory way of doing business-5665. Asks price per yard-5666.
- Lachine Canal-To reimburse Lachine and Soulanges repairs appropriations-Leak at Lock 1, \$21,700-5672.

blain, R. (Peel)-5673.

Last year \$8,250 was expended in interlocking steel beams-5673. $10095 - 20\frac{1}{4}$

RAILWAYS AND CANALS-Con.

- Graham, Hon. Geo. P. (Minister of Railways and Canals)-5672.
 - Had to take money from another appropriation or stop navigation-5672. The interlocking beams were really protectors-5673.
- Henderson, D. (Halton)-5672. Better to stop navigation than to break the constitution-5672-3.

Sproule, T. S. (East Grey)-5673.

- Might make a fairly good justification for resorting to a Governor General's warrant-5673.
- Port Colborne improvement, \$115,000; Port Colborne elevator, \$170,000-12211.

Bennett, W. H. (East Simcoe)-12211.

- Asks amount already expended—12211. Asks amount already expended—12211. No wonder men ask 'Whither are we drift-ing? '-12213. The general public are simply laughing at the government— 12214. The G.T.P. will not be completed for \$200,000,000-12215. Threatening to unsettle the financial conditions of the country—12216.
- Borden, R. L. (Carleton, Ont.)-12223. Asks an explanation of an allusion in a return-12223.

German, W. M. (Welland)-12212.

- The intention is to tranship grain at Port he intention is to tranship grain at Port Colborne-12212. If power were provided the elevator would begin operations-12213. The cost of running will depend on the volume of grain-12217. The Welland canal will need to be deepened and enlarged-12221.
- Graham, Hon. G. P. (Minister of Railways and Canals)-12211.
 - Gives expenditure at Port Colborne-12211. This vote is expected to finish-12212. Made a contract for power to run the elevator—12217. A debatable question whether the elevator should not be leased to a company-12218.

Kemp, A. E. (East Toronto)-12218.

The best policy was to have deepened the Welland canal-12218. Calls attention to the number of routes in working order -12219. These engineers reports go for nothing-12220. Let us improve the harbour on the Georgian Bay and improve the railways-12221.

Lancaster, E. A. (Lincoln)-12221.

Advocated deepening the Welland canal instead of constructing the Georgian Bay Canal-12221.

Reid, J. D. (Grenville)-12216.

Has every session advocated the enlarge-ment of the Welland Canal-12216. Should be done and commenced at once-12217.

Schell, J. T. (Glengarry)-12221.

Agreed some years ago that the elevator at Port Colborne would probably be use-ful-12221-2. Would cost too much for

many generations to deepen the Georgian Bay Canal-12223. Rideau Canal-5689.

Bergeron, J. G. H. (Beauharnois)-5689.

- On the Soulanges canal the superintendent has a yacht—5689. The ministers have their private cars—5690. Asks the cost of running the boat—5691.
- Graham ,Hon. Geo. P. (Minister of Railways and Canals)-5689.
 - Could not very well attend to the work without some means of getting round-5689. Cost \$15,000; \$2,500 allowed for the old one on the bargain-5690. These boats are used for towing scows and transferring the repair gangs-5691.

Reid, J. D. (Grenville)-5689.

- The tug 'Alert' at Morrisburg, would have been a splendid tug on the Rideau -5689. A very flagrant case of expenditure of this kind-5690. The inspection can be made by driving along the canal bank-5691.
- Soulanges Canal-To pay Manning and Macdonald's claim, \$14,271-5668.
- Graham, Hon. Geo. P. (Minister of Railways and Canals)-5668.
 - Has been certified since then-5668. Would revise the forms of contract-5669 The Department of Justice instructed us to pay it-5670.
- Haggart, Hon. John G. (South Lanark)-5668.
 - The Auditor General refused to pay on account of its not being certified to-5668. Quotes Mr. Grant's report-5669-70.

The moment a man favourable to the contracter makes a report in his favour, the government is committed-5669. Reads the correspondence-5670. The government tied itself up the moment it let Mr. Schreiber certify-5671.

Trent Canal construction, \$1,000,000-12225.

Graham, Hon. Geo. P. (Minister of Railways and Canals)-12225.

Thinks some engineer was there-12225.

Lennox, H. (South Simcoe)-12225.

- Asks to have an engineer sent up to inspect the Devil's Elbow at Bradford-12225.
- Welland Canal-Chargeable to capital-electric lighting, \$50,000-12195.

Bergeron, J. G. H. (Beauharnois)-12195.

Asks if it is intended to deepen the Welland canal-12195. Now that electricity is being used, so many men are not needed-12197. Asks an explanation of the different price per horse-power on the Welland to that on the Cornwall canal-12204. There will be an increased expenditure of \$15,000 a year-12206.

RAILWAYS AND CANALS-Con.

- 12195. It is on capital account and is for installation—12196. By this system we will have better lighting and better operation—12206.
- Graham, Hon. Geo. P. (Minister of Railways and Canals)-12195.
 - For the purpose of lighting as well as handling locks by electricity-12195. From the Cataract Power Company-12196. Practically the same number, two men at a lock-12197. The lighting of the Cornwall canal under contract-12198. Dr. C. N. Hickey was superintendent-12200. Mr. Ross was engineer under Mr. Stewart-12201. Mr. Stewart occupies the position of superintendent -12203. In charge of the canal and the staff is under him-12204. Imagines the power on the Cornwall canal is transmitted differently-12205. Vessels save two hours in every twelve by this system-12206. There will be no decrease in manual power-12207.
- Lancaster, E. A. (Lincoln and Niagara)-12195.
 - The people of Welland understood that the minister was going to deepen the canal-12195. Gas was supplied at \$10,000 a year-12197. The electric operation of the gates is the only new feature-12207.

Pringle, R. A. (Stormont)-12201.

Mr. Stewart was not the man who should have charge of the canal-12201. The greatest advantage to navigation that we can possibly have-12202. The work of repair has been expeditiously and well done-12203. Mr. Stewart only in charge of the men to-day-12205.

Rcid, J. D. (Grenville)-12197.

The government will be paying \$15,000 a year more than at present—12197-8. The contract under this government was made for eighty-nine years—12199. It was neglecting the marine interests of this country to put this man there— 12200. Mr. Sargent was engineer in charge at Cardinal—12201. Is Mr. Sargent under Mr. Stewart—12203. The person occupying the position of chief should be an engineer—12204. There will be \$15,000 more for the operation of this electric plant—12206.

Schell, J. T. (Glengarry)-12198.

- Is not Reid a little beyond the truth?-12198. This administration reduced the contract from \$52,000 to \$28,000 yearly-12199. He was neither born in the country nor resided there-12200.
- To make survey of the canal, \$15,000-12207. 12210.
- Bergeron, J. G. H. (Beauharnois)-12208. Must be papers shewing the lines in the registry office-12208.

Reid, J. D. (Grenville)-5669.

RAILWAYS AND CANALS-Con.

- Foster, Hon. G. E. (North Toronto)-12207.
 - Incredible that such an amount could be spent defining boundaries-12207-8. T_t is absolutely unauthorized by the vote -12209. Could determine half the international boundary for the sum-12210
- Graham, Hon. G. P. (Minister of Railways and Canals)-12207.
 - Necessary to define the boundaries-12207. Mr. Weller chief engineer of the canal and a staff—12208. The surveying par-ties not doing the work the 'Globe' mentions—12209. His bonly positive statement that the Hudson Bay Railway would be built-12210.
- Kemp, A. E. (East Toronto)-12209.
 - Reads from the 'Globe,' survey for a 25-foot canal-12209. More in the interests of the country to survey for the new canal-12210
 - Welland Canal-to renew entrance piers at Port Maitland, \$21,460-5673.

Barker, S. (E. Hamilton)-5682.

Asks what the G.T.R. or the C.P.R. would do with an engineer who greatly underestimated-5682. They would expect him to go somewhat nearer-5683.

Bennett, W. H. (East Simcoe)-5678.

The practice is for the contractor to appoint the inspectors-5678. This is an exemplary case as compared with some that are known-5679. Said the contractors had the monopoly in Pub Works-5860. Battle and Conroy, rival contractors, suspicious appearances-5684. Does not know who Begie is, Lalor says he is a painter-5685. It is a complete tender for the removal of the superstructure-5686. Reads further correspondence-5687.

Blain, R. (Peel)-5674.

- Will inform the minister from the records of the department who recommended Braund-5674. It is carrying out to the letter the system of patronage-5675. Reads the correspondence-5679-80. Was there more than one inspector-5681. Quotes the Civil Service Commission report—5683. A very great deal of money expended without the sanction of the House—5688. Ministers exceed the estimates submitted to parliament -5689.
- Foster, Hon. Geo. E. (North Toronto)-5675. This appears to be one of the many instances where these things are simply matters of patronage-5675. Would like matters of patronage-5675. Would like to know if the minister knows anything about the qualifications of the man-5676. If you are to have an in-spector at all he should be a good man-5677. The system now in force has been the system for many years, but it is a

RAILWAYS AND CANALS-Con.

- Foster, Hon. Geo. E.-Con.
 - bad system-5678. Asks why Mr. Weller has never been asked to report as to why his estimate has run up-5686.
- Graham, Hon. Geo. P. (Minister of Railways and Canals)-5673.
 - This is to complete-5673. No record in the department to show who recom-mended him-5674. Mr. Weller is in charge of the work and responsible to the government-5676. It is his duty to dismiss a man who is not competent -5677. If the man does not discharge his duties properly, it is the duty of the engineer to discharge him-5679. Safe to believe that the work has been done satisfactorily-5681. This work was done at a schedule price-5682. Railway work quite different from hydraulic work-5683. Beggie was a member of he firm of Larkin and Sangster-5685. There was tearing down the old work and replacing it-5686. The letter read explains a lot of large amounts-5687. The inspector never makes estimates, the engineer does that-5688. It was an old pier and had to be removed-5689.
- Haggart, Hon. J. G. (South Lanark)-5673. Asks amount of contract and amount expended-5673-4. If the engineering branch is so far out in its estimates, surely it cannot be longer depended on -5683

Lalor, F. R. (Holdimand)-5676.

- bor, F. R. (Haldimand)-5676.
 W. Weller is seldom seen in connection with the work-5676. The inspector seems to have complete charge of this work-5679. People say that the cost is far in excess of what it should be-5681. There were three tenders and the lowest was accepted-5682. Weller a thoroughly competent engineer, would not at all dispute his figures-5683-4. The family of Beggie's, they are painters-5685. Quotes questions of December 16 last-5686. Not prepared to discuss, whether Braund did his work 'properly-5687. Asks for the inspectors estimates-5688.
- Reid, J. D. (Grenville)-5675.
 - He was a tailor, was he not ?-5675. If the work cost \$40,000 two years ago, surely it cannot cost \$80,000 now-5676. Asks if Thompson recommended the sal-ary-5681. The appointees are always recommended by the Liberal committee --- 5682
- Taylor, George (Leeds)-5674.
 - Would very much like to know who re-commended Braund to that position-5674. Quotes the Civil Service Commis-sioners' report-5676-7.

HUDSON BAY RAILWAY.

To provide for survey and location of a line of railway from the Saskatchewan River to Hudson Bay, \$100,000-12764.

HUDSON BAY RAILWAY-Con.

Graham, Hon. Geo. P. (Minister of Railways and Canals)-12764.

Will look into it to see if there is a re-port-12764. The road will be built and built immediately by somebody-12765. Surely Lake does not mean to hold this item as a hostage-12766. Navigation might be assured for four months of the year-12767.

Sam. (Vitcoria and Haliburton)-Hughes, 12765.

No new railway in the Northwest was in good condition this year-12765. The greater part of the Pas line is fit for any sort of traffic-12766.

Jackson, S. J. (Selkirk)-12767.

- Not wise to confine this survey to the Pas route-12767. Is told there is a high ridge that would give a better line-12768.
- Knowles, W. E. (West Assiniboia)-12765.
 - The people of the west want the work done as soon as possible-12765. The banks of the lower Saskatchewan not of a marshy nature-12766.

Lake, R. S. (Qu'Appelle)-12764.

Presumes the railway has been completed to The Pas, on the Saskatchewan-12764. Understands the whole country has to be drained-12765. Knowles trying to make a little paltry political capital out of it-12766.

INTERCOLONIAL RAILWAY.

Lennox, H. (South Simcoe)-12766.

Utterly contemptible the tactics some people adopt for cheap political capital-12766. Will the government construct it as a national work or have it con-structed-12767.

I.C.R., collection of revenue, \$1,400,000-5693.

- Fielding, Hon. W. S. (Minister of Finance)-5694.
 - This is practically a cross entry-5694. No one can estimate in advance what are going to be the expenses of the I.C.R.-5695. The department has been following the old practices-5696.
- Graham, Hon. Geo. P. (Minister of Railways and Canals)-5693.
 - The I.C.R. is not on the same basis as other railways-5693. All the receipts go to the Receiver General. The Auditor General gave us a credit-5694. It is much better to take the full estimate -5695. Will have the appropriation for March-5696.

Haggart, Hon. J. G. (South Lanark)-5693.

Asks how provision has been made for payment-5693. You have exceeded that estimate by \$1,400,000-5694. You have paid it out of amounts that were not at your disposition-5695. We got out of that and got into a pay and 5606 that and got into a new one-5696.

Sent in their application in accordance with the tend-er-10199. If others are not on the list they cannot possibly tender 10199. Those on the list are given the privi-lege of tendering-10200. Does he expect to continue inviting tenders from a few political friends-10201. Not reasonable political friends—10201. Not reasonable to peddle around so large a contract —10202. Ticket sellers get a com-mission on tickets sold—10210. Asks how cotton waste was purchased, if by private tender—10220. Purchasing by the month from stores means high prices-10221.

Blain, R. (Peel)-10191.

Asks if the policy *re* advertising is to be changed-10191. The people believe that tenders should be asked for-10192. It is a political policy to help the minister's own friends-10193. When goods are required those on the list are notified-10196

Borden, R. L. (Carleton, Ont.)-10128.

Parliament would not be in session-10128. Paterson is entirely mistaken-10134. He gave him the impression that 10134. He gave him the impression that the men would be paid—10135. Paterson enters upon a controversy on the point -10137. Quotes the unrevised 'Han-sard'--10138. What Paterson said— 10139. Then the outside as well as the inside officers might be paid—10140. Can-not imaging motion work interview. inside officers might be paid—10140. Can-not imagine anything more explicit— 10141. Inquires as to cars detained in the United States—10222.

Crocket, O. S. (York, N.B.)-10147.

Reads an article in the Moncton 'Daily Times' on deterioration of the I. C. R.-10147-8. Repairs to rolling stock ne-glected, locomotives bought on capital greated, locomotives bought on capital account-10149. Twenty-one locomotives lying idle waiting for repairs-10156. The question of tolls on the Fredericton and St. Mary's bridge-10161. A num-ber of claims standing against the deber of chains standing against the de-partment-10177. Concerning the 'chief claims agent'-10178. Purchases from the New Brunswick Coal Company-10191. And from McAvity & Sons-10195. Purchases from L. S. Macoun-10197.

Daniel, J. W. (St. John City)-10154.

Parliament might be given a list of classes of employees and the wages-10154. The government buying exclusively from their political friends-10186. Would be glad to see a change made in the system

Asks if the Peter McSweeny's Company is the senator's firm-10198. A good deal like his name anyhow-10199. Asks the object in paying to the American Railway Association-10210. Hopes the minister will correct the omission of the St. John Board of Trade-10211. Complaints in connection with the widening of the bridges in St. John-10219. A question of the safety of the foot passengers-10220.

- Emmerson, Hon. H. R. (Westmoreland)-10152.
 - Rightly or wrongly complaints are being made-10152. Only called the attention of the deputy to the matter quite recently-10154.
- Fielding, Hon. W. S. (Minister of Finance)-10128.
 - Presumes the practice has been in conformity to the law-10128. Illegal to use public money without authorization by parliament-10129. The opposition refused a one-fourth vote-10130. Would like to have the railway estimates concurred with-10142. A departure from the policy laid down by Taylor-10143. The opposition pretending that they are not obstructing supply-10144.
- Foster, Hon. Geo. E. (North Toronto)-10126.
 Refers to a telegram sent from Monoton on June 5-10126. Reads the telegram re stoppage of wages, and asks an explanation-10127. Thinks it smacks very strongly of being a political move-10129. During six months the House not asked for a dollar of that money-10130. Three-fourths of the difficulty in the House due to Fielding's autocratic disposition-10131. The issue between the two parties-10132. Making ducks and drakes of the franchise is not a proper way of handling the question-10133. Every plank of the Liberal platform sacrificed but one-10134. Graham's circular is defenceless-10142. The House ready to make what the committee has granted available-10143. Returns of revenue and expenditure should be available early-10182. Twenty-five days is a long while to wait--10183. Glad to hear the minister is reforming the system of accounts-19184. Charges proper to capital and revenue accounts-10185. Should put the line on proper basis even if it involved a deficit-10196. Large purchases of iron from McAvity and the McLean Holt Company--10205. Fowler, G. W. (Kings and Albert)-10150.

Surely we know how many locomotives were repaired—10150. Complaints of James Stewart, 'spotter'—10151. Has heard he is not always in a fit condition for duty-10152. No investigation has been held; some better measures should have been adopted—10153. Would like to know what steps have been taken— 10154. Not desirable to have an employee perform his duties in an objectionable manner-10155. People do not like to give evidence, same with conducmabiles-10166. Motor cars like old auto-mabiles-10160. There should have been six new cars, an elusive surplus—10171. The minister will get tangled as to the life of a locomotive—10172. Instead of a surplus there would be nearly \$800,000 deficit-10173. Graham, Hon. G. P. (Minister of Raiilways and Canals)-10127.

Reads his circular, well to have it understood why the men were not paid-10127. Simply that and nothing more-10128. The letter of May 20, the authorization for that circular-10143. Anxious for the vote; discussion on management can come on capital expenditure-10145. Custom is to post a notice—10146. Ap-plications for increases of wages—10147. The immigration agents come under the Interior; last of commercial agents-651. The department well satisfied with the results achieved for the amount spent-652. Has no information as to Mr. Smith's visit to Chatham-653. Did Mr. Wilson make any representation to the minister-656. Cannot afford relief unless told that a wrong has been done-657. Some of Mr. Bryce's questions have been discussed from time to time and answered-659. It is annual-660. Commercial reports given to the press and widely advertised-663. The rule that has been established will prevent such a thing occurring again -669. Not aware if all the money for which there were no vouchers was refunded-670. Why does Bennett make the charge-671.

- SUPPLY—ADMINISTRATION OF THE YUKON.
 - Statement of certain matters arising out of the Pringle correspondence—Hon. Geo. E. Foster—9580.

Borden, R. L. (Carleton, Ont.)-9636.

Is it fair play to any one to make a monkey of an investigation?-9636. One challenge by Pringle with respect to the administration-9637. A distinct charge, dance houses were houses of prostitution -9638. Majority of the council can exercise an influence over the officials appointed by this government-9639. Reads a letter from T. A. Wroughton -9640-1-2. Pringle would have been an absolute fool to have embarked on any such investigation-9643. The minister says the charges were not specific-9644. They were made more specific by Pringle during the negotiations for investigation -9646. The minister declared the charges specific-9646. They have shaken public confidence in the intentions of the government-9647. Regrets the government have adopted the course they have seen fit to adopt-9648.

Bristol, E. (Centre Toronto)-9679.

- Considering Knowles' desire not to obstruct, he made a long speech-9679. Peculiarity of the Prime Minister never to find a specific charge-9680. Quotes Pringle's letter to show specific charges -9681. Oliver's letter a key to the whole situation-9682. Henderson's admission that an informal investigation could not be satisfactory-9683. Only endeavour to cover up and conceal one of the worst scandals-9684.
- Fielding, Hon. W. S. (Minister of Finance)-9684.
 - Foster availed himself of this to occupy another day, and prevent progress-9684. General charges against private character, mothing more-9685. Does not think he would have any right to appoint a royal commission-9686. Oliver went

out to the Yukon himself to ascertain facts-9687. Pringle repeated a story which had reached him-9688. That was an accusation that the Christian minister accepted it on that condition-9689. Pringle zealous in making rash statements; selected Lithgow as a strong man-9690. Never knew any one else who did not testify to his faithful service-9691. Letter of John Grey, dissenting from the resolution-9692. Public interest best served by keeping Lithgow in his office-9693.

Foster, Hon. Geo. E. (North Toronto)-9580.

The Yukon a land of mystery; subject to suspicions and to facts-9580-1. Wonderful tales of the early days; the social and moral point of view-9582. Pringle's letter to Sir Wilfrid Laurier, reads it-9583-4-5-6-7-8. Reads the second letter written three years after-9589-90-1-2-3. Sir Wilfrid's reply-9594. Reads Congdon's memorandum-9595-6-7-8. Letter from Pringle to Sir Wilfrid-9599-600. Hon. Frank Oliver to Pringle, on the Lithgow matter-9605. Further correspondence read-9602-3-4-5-6-7-89. Part of good government to see that men in office conducted themselves properly-9610. Article from the 'Globe'; telegram Pringle to Sifton-9511. Pringle's letter in the Toronto ' News'-9612-3. The government made no investigation or examination and proceured no redress-9614. Special care ought to have been taken to have preserved common decency at least-9615. Will leave Roche (Halifax) and his peculiar position to the people of Halifax-9616.

Knowles, W. E. (West Assiniboia)-9668.

- Borden's usual introduction, 'the most remarkable speech he ever listened to' --9668. Pringle has almost always been a man with a grievance-9669. Pringle's praise of Congdon at the banquet in his honour, estrangement later-9670. Governor of the Yukon cannot be accused of hiding immorality-9671. The duty of bringing up this matter fell on Senator Ross, or Dr. Thompson-9672. If it had been a public scandal as has been suggested-9673. The Yukon council exercises jurisdiction within the limits-9674. Possible only by the appointment of mere tools-9675. It seems almost like abusing the dead to persue this discussion-9676. Lithgow, Girouard and Pringle sat together in the Yukon council-9677. Quotes a lecture by Mr. Justice Craig-9678. They repeat the story in order to delay the business of the House-9679.
- Laurier, Rt. Hon. Sir Wilfrid (Prime Minister)-9648.
 - Foster left out several passages of Pringle's letters-9648. The letter of 1902 contains nothing definite, only general assertions -9649. The letter of 1905 had direct

charges against Congdon and Girouard -9650. The charges made against Girouard were very formal-9652. It was charge made by Pringle did not come within scope of the Act-9652. It was open to Pringle to come forward with his evidence in his very last charge-9653. The minister did his full duty to Pringle and himself-9654.

- Oliver, Hon. Frank (Minister of the Interior) -9616.
 - Will not begrudge Foster his pleasures; complaints considered good grounds for investigation -9616. The opportunity for investigation was given but not taken-9617. Pringle mistaken in his statement about the Treadgold concession-9618. No use to Treadgold or to anybody else -9619. Pringle in part of his facts, but not in the whole of them-9620. Pringle -9619. attempt to show that the hydraulic concessions were a principle of corrupt dealing-9621. Pringle declares that Lithgow prevented an improper expenditure of \$15,000-9622. The government enquired and the allegations were not only denied but disproved—9623. When in the Yukon, neither Pringle nor anybody else Yukon, neither Pringle nor anybody else gave him any hint of such charges— 9624. Pringle was asked to come for-ward, to make his charges specific and substantiate them—9625. Did not put his charges in such shape that they could be denied—9626. There shall be a charge before there shall be an investi-gation—9627. Will not be a party to a system of simple slander—9628. Believes the country will sustain him in that position—9629. Give people in the Yukon the same consideration as is given peo-ple elsewhere—9630. Conditions of vice and immorality exist in every city in the world to-day, unfortunately—9631. the world to-day, unfortunately-9631. The complaint of Perron was in re-gard to public business, that of Pringle as to private character-9632. The charges against Lithgow and Girouard are not in regard to their public duties-9633. Reads his letters to the commissioner-9634-5. Holds himself reponsible where private conduct conflicts with public interests-9636.

Gravamen of Foster's charge is that certain officials played music in dance halls --9615.

Sproule, T. S. (East Grey)-9655.

Affidavit by R. H. S. Cresswell-9659. Sir Wilfrid's answer to Pringle; resolution of the Young Men's Liberal Club-9660. These charges are made against three officials. Congdon, Girouard and Lithgow-9661. Yet the insinuation is made

Pringle made charges and these charges are backed up by affidavits-9666. Oliver said 'I shall not give you the advantage of substantiating them '-9667. Reformers will refuse to declare by their ballots that the government did their duty-9668.
- SUPPLY—ADVERTISEMENTS FOR TEND-ERS.

- Ames, H. B. (Montreal, St. Antoine)-4716. The system in Montreal; it has worked satisfactory-4716. Only special friends of the government used the short line, blank tender, double cheque method-4717. The practice in Montreal-4721.
- Armstrong, J. E. (East Lambton)-4735.
 - A tender received from the Montreal 'Herald' within the last day or two; recommends it to Pugsley-4735.
- Barker, S. (East Hamilton)-4712.
- Astounded that any government would tolerate what has been going on in the Interior-4712. The Premier ought not to allow that to continue for one hour under his regime-4713.
- Bennett, W. H. (East Simcoe)-4728.
 - Pugsley's speech shows the necessity of a third party being present when tenders are opened—4728. When a witness plainly states that he has stolen \$120 from the country, the minister says there is nothing wrong—4729. Challenges the minister to say that he will allow an investigation with that case of fraud—4730. Hundreds of thousands of dollars swindled out of the country on dredging contracts, and ministers conniving—4731. It is anything but fair, square and above-board -4732.
- Bergeron, J. G .H. (Beauharnois)-4722.
 - Understood to-day that invitations to tender are sent around to friends of the government, not to the public-4722. No tender should be opened except in public and by certain officials-4723. A case where the government spent \$500 to \$600 in advertising in the newspapers-4724.
- Blain, R. (Peel)-4717.
 - A matter of regret that such a resolution is necessary in parliament at this time of our history-4717.

Every precaution should be taken to prevent even suspicion of collusion or

- Fielding, Hon, W. S. Finance Minister)--4719.
 - Can conceive reasons why the public interest would be best conserved by tenders not being made public-4719. Quite possible for cases to arise where publicity would do harm to the public interest-4720. Cases where there is reason to suspect that tenderers were trying to arrange so that one might retire -4721.
- Graham, Hon. Geo. P. (Minister of Railways and Canals)-4721.
 - Any department asking for and receiving tenders has to deal with the shrewdest men that live in this country-4721. Easy for the lowest tenderer to drop out and even lose his deposit 4722.
- I.ake, R. S. (Qu'Appelle)-4713.
 - A matter of the very first importance to inspire confidence amongst tenderers. 4713. Could do no harm to the public service to allow each tenderer to know what his competitors tenders were— 4714. The whole thing is most careless and slipshod and open to suspicion... 4715.
- Laurier, Rt. Hon. Sir Wilfrid (Prime Minister)-4706.
 - Reid's observations on sales of timber limits voided by the new system; some of his_suggestions they could adopt-4706. The English practice of receiving tenders to a certain hour and then and there disposing of them good; objection to, public opening-4707. Cannot accept the resolution entirely; regrets the spirit of Reid's remarks-4708.
- Lennox, H. (South Simcoe)-4708.
 - The public opening of tenders appears to be the crucial point of the discussion -4708. The object of the motion is that we shall secure publicity in this matter-4709. Have developed a knowledge of a very peculiar form of tender in relation to public lands-4710. The very gravest reason for suspecting that dishonesty has occurred in the past-4711. There seems to have been a prevailing system not conducive to the benefit of the public-4712. Was referring to documents brought down-4725.

 - -4732. The case of the post office at Nicolet-4733. An extravagant amount paid for advertising and yet the public in general are not reached -4734. Abuses in the civil service. This very motion contains chief reason for a change in the system of administration -4735.
- Pugsley, Hon. Wm. (Minister of Public Works)-4723.
 - No foundation whatever for Bergeron's statement-4723. In one breath he says we do not advertise and in the next that we advertise too much-4724. Not aware of any document that has given evidence of any fraud or collusion in coanection with awarding contracts-4725. Very desirable that the minister should be present; the lowest tenderer must receive the contract-4726. We follow out what apparently is the practice in England-4727. The first time he has heard that the city council of Montreal could be held up as a model-4728. Bennett might assume that the fullest investigation would be allowed-4729. If he has any charge of fraud to make and will make it, there will be the fullest investigation-4730. He knows how to make the charge perfectly-4731. That is a pretty large list on both sides of politics-4732.

Reid, J. D. (Grenville)-4702.

Tenders by letter invitation; purchases without tender; no contract over \$2,000 without advertising for tenders-4702. Reads sample advertisements, Canadian and United States-4703-4. The public losing a large sum annually through the present system of tenders; moves his amendment-4705-6. In England tenders are received until a certain hour, and then and there opened-4726-7.

Cannot agree with Sproule's view of Ross' speech-1760. British |Columbia desirous of seeing a proper solution of this question-1761. When the Lieutenant Governor told McBride he would not sign the Bill, he meekly walked away-1762. They are men who are false to their country, they are not patriots-1763. McBride notified Mr. Scott of the refusal a week before it was made-1764. No doubt the reply pleased McBride and Bowser-1765. It would not be the part of wisdom to pass another Natal Act-1766.

This means that it would be lawful for any one who could not read or write English or any European language to be admitted-1752. Mr. McBride has been making political capital out of this question-1755. This information was fully published and discussed in the British Columbia papers in August last-1756. Mr. Dunsmuir is as absolutely honest as he is absolutely stupid in matters political-1757. It was absolutely necessary to compromise the Lieutenant Governor before Mr. Bowser could carry out the trick-1758 Hopes Mr. Bowser will be allowed to pass no measure which has no honest object-1759.

Congratulates Foster on his speech-9168. Quotes the last report, 'the strongest possible condemnation of the present administration of the service '-9169. Our bounden duty to put on a Civil Service reform law-9170. Canada still following the abandoned principles of the 18th century-9171. The standard of the service as a whole is not an enviable one -9172. Passing the resolution would lighten the duties of the Public Acccounts Committee-9173. Members of parliament hold the pistol of their prestige at the heads of the departments-9174. Members makes promises or votes, the result disastrous-9175. Quotes Lord Dufferin at Toronto-9176. A letter from Mr. Carney and Mr. Roche; the extent to which the patronage system is carried-9177. Strange that they should make this promise that he should get more-9178.

- Fielding, Hon. W. S. (Finance Minister)-9158.
 - The words of the motion and greater part of Foster's speech not objectionable— 9158. The law respecting statutory increases never made it matter of obligation—9159. When a man displays particular fitness the minister should not be tied down—9160. Better not make it as a non-confidence motion, or not make it at all—9161. Sproule not quite accurate—9162.

Foster, Hon. Geo. E. (North Toronto)-9132.

Motion been a long time finding its way to discussion—9132. Considering public interest, and nature and importance of the subject, no apology necessary-9133. The merit system in Wis-consin-9146. Two pretty drastic and far-reaching clauses of the Wisconsin Act-9147. The morals of the civil ser-vice not as high as fifteen years ago-9148. The power of pull; the superan-nuation system-9149. Parliament ought to be able to devise a scheme economical but fair-9150. The patronage system never so greedy, grasping, insistent, but fair-9150. The patronage system never so greedy, grasping, insistent, heartless, conscienceless as during these last years-9151. The choice put in the hands of a distinct and partisan pat-ronage committee-9152. Out of this state of things comes in the first place lack of principle-9153. The Civil Ser-vice Commission wants to secure the best results for the country-9154. The civil service is more important than governments-9155. The people should think more of it, legislators should think more of it, legislators should think more of it-9156. He gets in by merit let him go ahead by merit-9157. Will have a loyalty that will take little account of political advantage-9158.

Fowler, G. W. (King's and Albert)-9187.

Emmerson with his usual misfortune has been unable to make his meaning clear -9187. The civil service a very creditabla service in the main-9188. The Conservative majority outside the city of Moncton was a large one-9189. The chief engineer of the I.C.R. dismissed after the Liberals came into power-9190. Lennox, Haughton (South Simcoe)-9203.

No more opportune time could possibly have been selected than now-9203. Civil service system a subject of patronage regulated and controlled by politics-9204. Laurier did not give one substantial reason why this motion should not carry-9205. Almost on every page the commissioners speak about the influence of politics-9206. Quotes the report and evidence-9207. Political influence used not only to get appointments but promotion-9208. Quotes the evidence as to rates on the I.C.R.-9209. Patronage committees are at work right here in the capital—9162. Resolution would give a better civil service; one more independent of political parties— 9163. So many appointments based upon nothing but nepotism—9164. Political pull used to good effect—9165. In the interest of the government that this motion should pass—9166.

Foster is welcome to all the satisfaction he can get out of these letters-9310. Surely he is not asked to deprive his son-in-law of the means of earning an honest livelihood-9311. Williams could get no assurance that he would receive even fair consideration-9419. The pre-sent motion better received than the Civil Service motion had been-9425. Asked the Prime Minister to point out the unfairness of his speech-9426. The documents all point to Sir F. Borden being interested—9427. Mr. Macoun, the being interested—9427. Mr. Macoun, the son-in-law, makes application the sec-ond—9428. Mr. Macoun's application strictly speaking, is for information, not for a subsidy—9430. Williams' letter to Emmerson and the reply—9431. Wil-liams comes to the conclusion that he has fought a prottr hand fight with the has comes to the conclusion that he has fought a pretty hard fight with the Minister of Militia-9432. From that day Mr. Graham, Mr. Macoun and the Minister of Militia had that subsidy in their pockets-9433. Two questions he would like the Minister of Agriculture to answer 9434. Certain points upon to answer-9434. Certain points upon which the House will require some information-9435. Who were the men interested in the company? what did they put into it?-9436. They were so certain they made a contract for the installation of the most important part of the plant-9437. Is it to be part of the warfare to slug him every time he brings a subject up in the House-9438. The Minister of Militia was not justified in pitching into me in that way-9439.

Fowler, G. W. (Kings and Albert)-9328.

Fisher says Sir F. Borden's only interest was that of a public man-9328. Must conclude that he had some more intimate and more individual interest than that-9329. Williams is turned down, and the concession granted to the Minister of Militia's company-9330. Resumes his speech of Wednesday—9346. What the facts of the case are-9345. Sir Frederick's attack upon Williams unwarranted and unsupported by facts -9346. Williams' conduct has been reasonable and proper-9347. Laurier, Rt. Hon. Sir Wilfrid (Prime Minis-ter)-9415.

The opposition have been extremely unfair to the Ministers of Agriculture and Militia—9415-6. Reviews the two appli-cations—9417. Williams would not file his plans unless assured beforehand that they would be adopted—9418. The frankness of Fisher something Foster cannot understand—9419. Has stated the salient points, on them Fisher gave his decision -9420.Interesting oneself on behalf of a company and having an interest therea company and having an interest incre-in are two very different things-9421. The Canada Lands Produce and Cold Storage Company was never organized -9422. The minister has stated more than once that he has absolutely nothing to do with the company-9423. The Minto do with the company-9423. The Min-ister of Militia followed the example of Mr. Chamberlain-9424. Will accept the motion readily-9425.

Lennox, H. (South Simcoe)-9398.

Williams frightened out of the field with his scheme by the action of the two ministers-9398. Quotes what Sir Fredministers-9398. Quotes what Sir Fred-erick Borden said as to his connection with the company-9399. Hard to under-stand how the minister can draw the distinction-9400. An attempt to separ-ate the action of Macoun from that of Graham or of the minister-9401. Un-fortunate when you find a minister of fortunate when you find a minister of the Crown in the race with outside in-dividuals for personal gain—9402. Cor-respondence in the matter—9403-4-5-6-7-8-9-10. Absolute freedom from entang-ling always insisted upon by Mr. Gladstone-9411. Chamberlain's action on joining the government-9412. Opinion of Sir Richard Cartwright, the cases of Lord Henry Lennox and Mr. Mundella -9413. Quotes the 'Law Times' of 1906 -9414. Moves an amendment-9415.

Maclean, A. K. (Lunenburg)-9363.

No other country would permit such an abuse of privilege as prevails in this parliament—9363. A leader of a party in receipt of an indemnity should pay some attention to the real business of parliament—9364. Two ideas developed by the opposition during this discussion —9365. drew-9366. Williams wrote that he was interested in the fish business, and proposed to enlarge it-9367. No hint from Williams that he ever thought of a cold storage plant such as the Act contemplated-9368. The financial aspect; Daniel's statement absolutely unfounded -9369. Hon, gentlemen talk glibly about the construction of the whole out of subventions-9370. It was a fair proposition for the government to grant this subvention-9371. Nothing in it to justify Foster's action-9372.

Porter, E. Guss. (West Hastings)-9372.

Marvels at the partnership between the Minister of Militia and Mr. Graham-9372. Graham a Belleville broker; has a cold storage establishment, but not a large one-9373. Common talk that Fisher has some interest in the matter -9374. Williams made application for assistance for a bait freezer-9375. At that time his was the only application before the department-9376. Williams' application to the department of Agriculture made in the same manner-9377. There was an opportunity of getting ahead of Wiliams-9390. Sir Frederick Borden the hired man of this company -9391. Did not even call upon Williams to file plans and specifications-9392. At any time when it would have been of service to him to submit them-9393. He was making an honest application and entitled to fair treatment-9394. The application of the Canada Lands Produce and Cold Storage Company-9395. Williams was discouraged sufficiently to prevent him putting in plans and specifications-9396. Where did the money come from ; fair and cogent reason for waiting five months for Williams-9397. The subject should be fully and properly investigated-9398.

SUPPLY—COST OF NATIONAL TRANS-CONTINENTAL RAILWAY.

Remarks-Mr. R. L. Borden-5728.

Borden, R. L. (Carleton, Ont.)-5728.

- Though at the minister's request he dropped his question, he still hopes to be given very thorough information as to the cost-5728.
- SUPPLY COST OF THE NATIONAL TRANSCONTINENTAL RAILWAY.

Statement-Hon. Geo. P. Graham-12662.

Borden, R. L. (Carleton, Ont.)-12682.

Graham admits too much against himself; reads statement brought down-12682. Quotes the agreement-12683. A certain pamphlet sets forth 'A Transcontinental Railway for \$13,000,000-12684. The paucity of information in the commissioners' report-12685. Items admitted by the Minister of Railways-12686. Is endeavouring to set forth the total cash outlay to the country-12687. Cost of the Quebec Bridge-12688. Optimism of

to-day will not pay the debt of to-morrow -12689. Terminals; standard called for in the contract-12690. Quotes Mr. Charlton in 1903-12691. Standard of the road not improved to the extent of \$61,-000,000-12692. They presented the road as a project to be paid for by investing \$13,000,000-12693. Before this railway is completed the bridge will have to be reconstructed-12694.

Cockshutt, W. F. (Brantford)-12725

Misrepresentations were made to parliament when the project was first commenced-12725. The expenditure put in the same category as the government roads-12726. The Quebec bridge is a part and a consistent part of the Transcontinental project-12727. The only point of difference between Borden and Fielding is in regard to the net debt-12728.

Fielding, Hon. W. S. (Minister of Finance)-12694.

If Borden approached this subject with a desire to be fair, he strayed sadly away --12694. He revived the exploded fallacy of the thirteen millions--12695. Quotes the Premier's statement; they confuse the cost of the road, and what the gorernment will have to pay--12696. The cost of the road is one thing; what the people will have to bear is another-12697. Borden's estimate monstrous as the cost to the people--12698. After seven years the interest is a charge on the company--12699. We are not properly chargeable with the capital sum itself--12700 After seven years they are obliged to pay the interest--12701. Borden's statement with regard to the Quebec bridge--12702. Hon. Mr. Felletier' 'the Quebec bridge has been promised to us by important Conservatives'-12703. The plans were made and work begun long before the inception of the G. T. P. R.--12704. Now he charged up the whole thing to the Transcontinental --12705. Quotes Borden on the bridge in 1903--12706. Quotes Monk in 1903, that the Conservatives were committed to the bridge before 1896--12707. Preposterous to represent that the guarantee on the bonds means expenditure--12708. Borden's statement printed with his approval in 'Hansard'--12709. Contrast of Borden's statement and actual facts --12710 The figure considerably less than \$38,000,000-12711. Any estimates he gave were based on reports of enginers--12712. Major Hodgins acknowledged that he was mistaken, there was no longer any charge-12713. Quotes Borden on the addition to the public debt ; not increased \$14,000,000-12714. Borden repeating his statement, must repeat the reply-12715. The road has cost more than expected ; no apology to offer-12716. Necessary to send the government to power to give us that road--12717.

SUPPLY — COST OF THE NATIONAL TRANSCONTINENTAL RAILWAY—Con.

- Graham, Hon. G. P. (Minister of Railways and Canals)-12662.
 - Borden's statement not fair to the government; personal allusion; reads statement by Mr. Schreiber--12662. This great company is doing a large portion of the work by day labour--12663. Statement of contracts let--12664. Total amount paid contractors on the eastern division--12665. Digest of the Winnipeg Terminals agreement--12666-7. Gross exaggeration in the Ottawa 'Evening Journal'--12668. Total amount of interest will not be payable till 1918--12669. Quebec bridge, Moncton terminals, G.T.P. will use Moncton terminent will have to pay on the Winnipeg terminals--12672. Borden's newspapers are out, for some reason or other, just \$97,048,000--12673. Believes we will never be called to pay one cent of the guarantee on the bonds--12674. Memorandum by the chief engineer of the Transcontinental Railway Commission-12675-6. Not a road in that country that has not a one per cent grade on it-12677. The conclusion to memo.--12678. Great difficulty is that Canadian railways were not constructed properly at first--12679. Difficulties of coal supply, weather and snowfall--12660. The construction of every railway on the continent has exceeded the first estimate-12681 Canada has value for the money she is putting into the line--12682.

Haggart, Hon. J. G. (South Lanark)-12717.

The cost of the road put at \$8,700,000 in the campaign literature—12717. Fielding misrepresents Borden's statement—12718. You would have on your hands an elephant that would cost the country millions every year—12719. Quotes Fielding on the Quebec bridge—12720. Not a doubt the government will be compelled to build the bridge—12721. The cost with terminals and all will be not less than \$70,000 a mile—12722. Impossible to get a better road than they have from Quebec to Moncton—12723. The road from Winnipeg to Quebec will not pay for the next fifty years—12724. The expenditure will be enormous and Fielding should acknowledge it now—12725.

SUPPLY-CRIMINAL CODE AMENDMENT.

Suggestion to make it a government measure-Mr. E. N. Lewis-9281.

Laurier, Rt. Hon. Sir Wilfrid (Prime Minister)-9283.

Useless to make these Bills government measures if government cannot get Supply-9283.

Lewis, E. N. (West Huron)-9281.

Desires to call attention to some Bills and suggests that they should be taken over by the government-9281-2-3.

- Armstrong, J. E. (East Lambton)-9227.
 - Paterson's position is that there is no use Conservatives passing the examination-9227. He frankly admits that he only appoints Liberals-9228.
- Bergeron, J. G. H. (Beauharnois)-9229
 - Cannot understand why a man on salary should not come back and do work, when necessary-9229.
- Borden, R. L. (Carleton, Ont.)-9225
 - Either the Prime Minister's memory is shorter than usual, or he was not frank in his statement—9225-6. Attendance at trains might be included in daily duty of some officer—9232. Let him commence and leave at corresponding hours—9233. Does not advocate any division by provinces; is opposed to supplementary estimates—9235.
- Fielding, Hon. W. S. (Finance Minister)-9221.
 - Not discussing legislation now, proposing to ask for supplies for the public service-9221. Attention of the House occupied all the afternoon with an utterly useless motion-9222. Did not say silly, does not object to it-9223. You can hold us here but that does not alter the facts-9253. Questions asked to cause obstruction and waste the time of the House-9254. When we went to the country and came back the opposition were still doing business at the same old stand-9255. For six months hon. gentlemen opposite have been obstructing business-9256. Can take the cry away by voting the estimates right away-9257. Suggests whether it is worth while sitting any longer-9262.
- Fester, Hon. Geo. E. (North Toronto)-9220.
 - Other business than the estimates that are before the House-9220. The government obtruded between these men and their pay; obnoxious legislation-9221. Putting through what they wished to pass in 1904-9222. Those resolutions were placed on the Order Paper at the opening of the session-9223. Duty of the opposition to examine into the way the finances are managed; the demand for original documents-9224. Should not be kept to pass estimates because the gov-'ernment has delayed its legislation--9225. Understands the overtime is limited to two hours maximum-9230. A man must be roused from his rest at eleven o'clock to go down and do two hours' work-9231-2. This brings out again the concealed nature of these votes-9233. Wants the \$80,000 cut up into what is required for each of these three divisions-9234. If increases are asked we are told what officers are to get increases-9235. The government might as well ask for the whole esti-

mates in one item-9236. Before he gets the vote will have to tell the committee what he proposes to do with the money-9237. Then there was a connection between the Inland Revenue and Customs officer-9238. The salary of this same officer is included in this item-9239.

Johnston A. (Cape Breton)-9253.

- A. A. McLean has wasted two hours in an effort to prevent the salary of this man being voted-9253.
- Jaurier Rt. Hon. Sir Wilfrid (Prime Minister)-9225.

Then we are to understand that unless we take up the Election Bill there will be no estimates—9225.

Lennox, Haughton (South Simcoe)-9257.

Objects to the announcements that negociations were going on, they were confidential-9257. Roblin went home on the understanding that this objectionable Bill should be withdrawn-9258. He allowed two hours per day and added ten hours on Sunday-9259. Might think it a fraud if it were any department but Customs-9260. These items for overtime appear very doubtful-9261. If we accepted that we might as well abandon our functions as an opposition-9262.

McLean, A. A. (Queens, P.E.I.)-9221.

- Blames government for the length of the session-9221. The services of a collector of inland revenue at Charlottetown, P.E.I.-9237. Reads the correspondence on the law-9238-9-40-1-2, 46-7-8-9, 50-1-2.
- Paterson, Hon. Wm. (Minister of Customs) -9220.
 - 2000 men will have to go without their pay if this vote is not passed-9220. What they want about their Bill does not interest him just now, he wants the money-9226. His aim to fill vacancies with competent men, men of character and ability-9227. Knows as much about the service as those who examined only one or two men-9229. The accountant makes up his estimate, he knows what will be wanted-9230. Night work to accommodate travellers-9231. Instead of letting the railways pay we pay ourselves-9332. Economy to pay certain officers overtime rather than have two staffs-9233. Asks for the vote, it will be paid as it has been in the past-9234. Far better to take a vote for the whole Dominion-9235. There was \$150. 000 increases in salaries last year without a word-9236. Can find the officers in the Civil Service List-9237. It is well known who is keeping these men from being paid their wages-9245. During the rush of summer they are allowed to work five hours-9253. In the meantime we want to pay the civil

The overtime comes to us certified by responsible officers-9261. The whole process this afternoon and evening an organized attempt to prevent our getting the money-9262.

Taylor, Geo. Leeds)-9253.

Wants an explanation of overtime payments in Montreal-9253. Will stay till thinner than a pipe stem before the Election Bill goes through-9254. Say you will drop clause 1 and 17 and you will get your vote-9255. Ready for dissolution but not with a secret ballot -9256. The government held back the estimates and are now blaming the opposition-9257.

Templeman, Hon. Wm. (Minister of Inland Revenue)-9240.

All this has nothing to do with the customs and is irrelevant—9240. It was found that there was no violation of the customs law whatever—9244. The 10 cents a pound on the imported leaf is paid to the Inland Revenue—9245. This is not a matter which affects the Customs estimates—9248.

SUPPLY-DEBATES OF THE HOUSE.

Attention called to length of speeches-Mr. Kennedy-13537.

Barr, John (Dufferin)-13539.

Kennedy should warn his friends against bringing an obnoxious Bill-13539. Were justified in taking every hour they have in exposing he misdeeds of the government-13540.

Borden, R. L. (Carleton, Ont.)-13539.

The misdeeds of the government exceed the misdeeds of the opposition a thousand-fold-13539.

Fowler, G. W. (Kings, N.B.)-13540. Kennedy will share the fate of his statistician predecessors-13540.

Kennedy, J. B. (New Westminster)-13537.

Would not enter into any arrangement without a report from the commission —13149. Would increase the Canadian flow of water from 5 to 50 per cent of the whole—13150. Nothing should be done till the whole matter comes before parliament—13151.

The 'Globe' does everything in its power to set creed against creed and race against race—5034. If we want to make a great country of Canada we must put a stop to this kind of nonsense—5035.

The Doukhobours morals would compare favourably with some in Ontario-5014. Not a single criminal record against the Doukhobors in Canada, the community system-5015-6.

Oliver has no right to say this report was written in ignorance or maliciously-5027. He and many other members protested against the Doukaobors coming at the time-5028. The government must be responsible for bringing these immigrants here-5029. Oliver should not apply such expressions to members of the House-5030. SUPPLY-DUTY ON MATERIALS FOR IN-TERNATIONAL TUNNELS.

Statement by Hon. Wm. Paterson-13254.

- Foster, Hon. Geo. E. (North Toronto)-13526 Reply from the States entirely satisfactory, a pity it was not had weeks or years ago-13526. No, the contract is already made-13527.
- Paterson, Hon. Wm. (Minister of Customs) -13524.

Desires to speak to a question which arose on his estimates—13524. Reads correspondence with the U.S. Treasury Department; materials used in actual construction free—13525-6. If our ce-ment manufacturers desire to secure a portion of the trade they can do so-13527.

- SUPPLY EXPENDITURE ON PUBLIC WORKS.
 - An amendment re expenditure on public works to the motion to go into Supply-Mr. G. H. Perley-4868.

SUPPLY - EXPENDITURE ON PUBLIC WORKS-Con.

- Biain, R. (Peel)-4952.
 - Public works asked for by Johnston and Kendall in 1903-4952. A circular sent Public Works in 1900-4953. That cir-cular was used in the political cam-paign in November, 1900-4964. Duncan Ross had been asked to resign because Action of the policy of the government-4956. Reads a letter from A. Johnston re Glace Bay in 1903-4956. The first time in Canadian history that public money was expended on a private wharf-4957. The revenue from wharfs in Nova Scotia is less than it was ten years ago -4958.
- Berden, Hon. Sir Frederick (Minister of Mil-itia and Defence)-4894.
 - Reid's statement utterly without founda-tion, the rifles are in use to-day-4894. The contract for machine guns made at the same price per gun as is paid by the United States-4895. It was a good contract, one to be proud of-4896.
- Porden, R. L. (Carleton, Ont.)-4945.
 - Fielding's petulant fit of temper does him no credit-4945. Public money has been no creat 4945. Public money has been wasted, and wilfully wasted, in Queens-Shelburne-4946. Pug'sley endeavours to create a sort of statute of limitations for these things-4947. Quotes Glad-stone and Morley on the duty of the Chancellor of the Exchequer-4948. Fielding's example of lavish, extrava-gant and absurd expenditure in his comgant and absurd expenditure in his own constituency-4949.

Clements, H. S. (West Kent)-4931.

The last man to criticise proper expenditures; wharfs at Rondeau and Jeannette's creek—4931. The Tecumseh park break-water nothing but an eyesore—4932. The bungled job at Chatham tumbled down-4933.

Conmee, J. (Rainy River)-4914.

Reminds Osler that government had guar-anteed not only C.P.R. bonds, but their stock-4944. Conservatives never did anything for the C.P.R. Conservatives would be pleased if Osler were relegated to the back benches-4915. No one has had the courage to point out a public work that ought not to have been built -4916.

Crocket, O. S. (York, N.B.-4916.

Pugsley quite mistaken in the assumption he has made to-night-4916. The case of Caraquet wharf-4917. Quotes the de-bate on the first vote-4918. The wharf at Tracadie-4919. No vessel of any size could get up to the wharf on account of the shallow water-4920.

Daniel, J. W. (St. John City)-4958.

Federal politics in the New Brunswick local election-4958. The appeal made by the Liberal party was fully and wholly corrupt-4959.

SUPPLY - EXPENDITURE PUBLIC ON WORKS-Con.

Devlin, E. B. (Wright)-4922:

Understood Perley complained of Hull wharf as a useless work-4922. The International Portland Cement Comany use the wharf, shipping immense quantities of cement-4923. Hull prom-ises to be one of the great cities of the Dominion-4924.

Fielding, Hon. W. S. (Finance Minister)-4937.

Scandalous statements of mismanagement made, unsustained by a single fact-4937. Believes Osler to have made a statement that is scandalously untrue -4958. He refuses even to state the county in Nova Scotia where he made these observations-4939. He can point to no action which justifies his remarks -4940. Perley says 'I am informed,' and when asked by whom declines to say-4941. The same story told by Borden six years ago; the same old stories -4942. The statement was made by an urresponsible person to R. L. Borden. Quotes the engineer's report-4943. The gravamen of the accusation that Dod-well reported against the work; reads his letter-4944. Every point intended to be made in connection with this work was absolutely false and unfounded-4945.

Fowler, G. W. (Kings and Albert)-4924.

Was about the county of Kings with Pugsley when he was making an effort for honest government-4924. The opfor honest government-4924. The opposition do not find fault with the expenditure of money, but with the way it is expended—4925. The government found it necessary to come to the rescue of the Quebec Bridge Company-4926. And found it necessary to borrow a large amount from the Bank of Mont-real-4927. The fact is the money was borrowed from the bank by the Bridge Company-4928. Conmee made a very bitter attack on the C.P.R.-4929. Sir Charles Ross been able to hypotize the coverument into giving him everything government into giving him everything in sight-4930. The obstruction club of the Public Accounts Committee-4931.

Canong, G. W. (Charlotte)-4935.

Some of Pugsley's promises, correspond-ence with Col. Hugh H. McLean-4935. The sort of campaign literature in the last local election. Pugsley's ambitions -4936. He apparently did not get the position he was after-4937.

Cirard, J. (Chicoutimi)-4886.

ara, J. (Unicoutini)-4886.
Would speak in English, but fears wor-rying the House-4886. Many of the di-rectors of the Pulp Company Conserva-tives. No political move in building the boom-4887. Perley's quotations not extravagant prices, but regular market prices-4888. Boom has proved of great benefit to the lumbermen of the district the engineers pot to blowe the district; the engineers not to blame -4889. The matter one not of personal but of general interest--4890.

SUPPLY - EXPENDITURE ON PUBLIC WORKS-Con.

Johnston, A. (Cape Breton)-4949.

It is because Borden has no knowledge of conditions amongst the fishermen that he made his criticisms-4949. Borden leaves the chamber because he does not care to be confronted with the facts of the case-4950. Osler had absolutely no foundation for the statements he made-4951. Perley neglected to inform himself of the facts in regard to these expenditures-4952.

Osler, E. B. (West Toronto)-4908.

No man more absolutely in favour of spending money for the benefit of the public than he-4908. Without the backing of the government the Quebec Bridge Company could never have bor Bridge Company could never have bor rowed money-4909. In New Brunswick at least half the expenditure has been for political purposes-4910. Nova Sco-tia votes re-voted simply to be kept dangling before the people for political purposes-4911. The Newmarket branch of the Trent Valley canal; Roche's Point wharf-4912. There is no need to unearth anything, there is no earth over them-4913. Paying double for Sunday work illustrated-4914.

Perley, G. H. (Argenteuil)-4868.

In twelve years Public Works expenditures has increased seven times; quotes statistics-4868. Liberals seem to think this vast expenditure something to be proud of 4869. The case of Hull wharf; quotes 'Hansard'-4870. Must have been built for political purposes; wharfs on Lake Nominingue-4871. The bridge at D'Israeli comes under the same category. Quotes 'Hansard'— 4872. Works built for political pur-poses or for the benefit of a few indi-viduals; the wharf at Greece's Point viduals; the wharf at Greece's to there -4873. Steamboats refuse to go there except under extreme pressure; the wharf at St. Joseph, Lake Huron---4874-5. Booms on the Saguenay river above Chicoutimi. Quotes letters from the return--4876. Notice how promptly the department took action on this ex-traordinary request — 4877. Quotes agreement with the Crown and Chicou agreement with the Crown and Onlot timi Pulp Company-4878. Quotes ques-tions in 'Hansard.' Notice the filmsy excuse given in the third answer-4879. Quotes Public Works report for 1906. The last sentence most extraordinary -4880. Quotes prices paid for spruce; perfectly absurd for spruce logs-4881. All the government got was a bond to recoup outlays for maintenance 4882. This company has refused to pay even the small sum it agreed to -4883. There was a very extraordinary thing done was a very extraordinary thing done at Gunning Cove; built a wharf in Mr. Donne's back yard-4884. Legiti-mate expenditure of public money very essential, that is what Conservatives carried out-4885. Quotes J. M. Court-ney that Canada is spending too much. Moves an amendment-4886.

SUPPLY – EXPENDITURE ON PUBLIC WORKS–Con.

- Pugsley, Hon. Wm. (Minister of Public Works)-4896.
 - Understands that the resolution is directed against some expenditures by Public Works-4896. Felt that Perley and Reid were bearing silent testimony to the administration of his department -4897. The money belongs to the people and is expended in the interests of the people-4898. Are not expenditures in transportation interests in the interest of the people-4899. The Hull wharf a very substantial building-4900. No revenue collected at wharfs under the Public Works-4901. It has been recognized as quite proper for the federal government to build wharfs in inland waters-4902. Otherwise the people would have been deprived of transportation facilities-4903. The wharf at St. Joseph and works on the Saguenay-4904. If Perley does not know what the timber was used for surely he cannot criticise the cost-4905. An unfortunate difference between the government and the Chicoutimi Pulp Company-4906. The wharf on Stanley Island and that on Lake Nipissing-4907. The federal government can do no better work-4908.
- Reid, J. D. (Grenville)-4890
 - Expenditures made not for general interest, but to help re-elect the government at the general elections-4890. The case of the wharf at Monetville on Lake Nipissing; contracts to middlemen-4891. Merwin has no difficulty in getting his clutches on the Marine Department-4892. The Arctic; the Conservatives were not doing the grafting that is being done now-4893. Sir F. Borden willing to give orders to the Ross Rifle Co. and to pay for absolutely useless rifles-4894. A contract made just previous to an election; the money probably used for the election campaign -4895. If the people only get to know what the government is doing, they will turn them out-4896.
- Speaker, His Honour the-4958.
 - Daniel will see it has no relevancy to the question—4958. Must rule his remarks not pertinent—4859.

- Rises to a point of order, Daniel's circular is not pertinent to the question-4958.
- Turgeon, Onésiphore (Gloucester)-4920.
 - Crocket has shown his ignorance of the geography and resources of his province-4920. We want wharfs and means of transportation along the Atlantic-4921. Invites Crocket to become familiar with the topography of the province-4922.

SUPPLY-FINANCIAL REVIEW.

- The annual financial criticism-Hon. G. E. Foster-13420.
- Borden, R. L. (Carleton, Ont.)-13459.
 - Fielding has made a stump speech-13459. Less than half of a Canadian loan sub scribed-13460. Quotes an article in the London 'Economist'-13461. Point to any great enterprise that has been completed and paid for-13462. The cost of the Transcontinental Railway-13463. Quotes the 'Economist.' Does not take Fielding's view-13464. Written by a gentleman who has been in remarkably close touch-13465. It is the comment ol their Ottawa correspondent-13466. A most striking comment on the course that the government has pursued-13467. It is these matters that are engaging the attention of financiers in the great money markets-13468.

Talbot, Mr.-4958.

SUPPLY-FINANCIAL REVIEW-Con.

Boyce, A. C. (West Algoma)-13470.

- Closing of the rail mill of the Lake Superior Corporation for lack of orders-13470. Disquieting rumours concerning importations of rails from the States-13470. 13471. An article in the 'Canadian Journal of Commerce'-13472. There are and have been a lot of heavy im-portations-13473. Canada should get the benefit of the trade arising from the G.T.P. construction-13474.
- Fielding, Hon. W. S. (Finance Minister)-13442.
 - Foster's resolution a very old friend; for twelve years he has been a prophet of gloom-13442. Before the government had been many weeks in power Foster had raised the wolf cry-13443. Sir Charles Tupper in 1896 declared they would destroy public credt-13444. Fos-ter must not be surprised if judging by the past the people of Canada refuse to take him seriously-13445. They join in condemning the government, but each wants some expenditure in his but each wants some expenditure in his own constituency-13446. They wanted the government to buy up all the ele-vators in the Northwest-13447. From their own point of view they realize the need of these increasing expendi-tures-13448. Railway subsidies voted and paid, the latter about one half-13449. Comparison of the net debt, re-duction per capita since 1896-13450. 1349. Comparison of the net debt, re-duction per capita since 1896-13450. Conservative and Liberal additions to the debt. Foster's lack of responsibil-ity-13451. When we were paying 7 per cent it was under an agreement Foster made-13452. This coveryment has no cent it was under an agreement Foster made-13452. This government has no reason to be afraid of comparisons-13453. There are times when the more taxes people pay the better off they are -13454. The G.T.P. construction esti-mates submitted in 1903 were prepared by Mr. Schreiber-13455. The true way to tast the arodit of Canada Correct to test the credit of Canada. Govern-ment has obtained a great financial con-cession-13456. Canadian 3 per cents at a higher price than some imperial securities-13457. Comparative statement of revenue and expenditure-13458. The government policy will continue to com-mand the support of the people-13459.
- Fuster, Hon. Geo. E. (North Toronto)-13420. Particularly timely at this period to review some of the financial events-13420-1. Comparison of estimates 1907-8, 1908-9-13422. Seems to be no species of expenditure which is barred from public help-13423. Absolutely false re-presentation of expenditure made in the initiation of items-13424. Examines statements made in 1903 re Grand Trunk Pacific with conditions now-13425. Quotes the Finance Minister on the Quebec-Moncton section-13426. The Minister of Finance takes up the state-The ment of the Prime Minister and con-firms it-13427. Quotes Fielding on the Monutain sections and the Quebec Bridge-13428. Cost of G.T.P.R. - Fielding, Hon. W. S. (Finance Minister)-9895.
 Paterson exercising his rights; no reason for attacking him in his absence-9895.
 Not a dollar of supply for Customs or Post Office has been voted-9896. Just such procedure forced the mother of parliaments to adopt the closure-9897. In 1896 there was no obstruction-9898.
 The leader of the opposition refused a vote on account-9909. Asked for a fourth, was given an eighth, when that was gone they refused a further vote-9910. Every member of this House has the rights that the rules passed by the majority give him-9912.

The supplies for those 1,800 men were voted the very night before he left-9910. The government has not yet asked for the Supply Bill-9911. SUPPLY-PRIVILEGE, QUESTION OF.

Speech of Mr. Claude Macdonell, M.P.-Mr. Knowles-1438.

Knowles, W. E. (West Assiniboia)-1438.

Quotes report of Macdonell's speech in the Borden Club; whilst in the west he had interviews on the matter-1438. Takes exception to the charge that the motive of the suggestion is to corrupt the electors of the west-1439.

SUPPLY-PRODUCTION OF ORIGINAL DOCUMENTS.

Attention of the House called to the matter -Mr. R. L. Borden-1617.

Borden, R. L. (Carleton, Ont.)-1617.

Grievance before supply; the tradition in all self-governing countries-1617. Usage in regard to documents in possession of the Crown, and departmental docu-ments-1618. The right of access to documents with two limitations-1619. It is not Ames, but the government, that is trying to create a new precedent-1620. The suggestion that these documents should not be inspected because they relate to title-1621. Not the practice to demand reasons from any gentleman moving for papers; moves a resolution -1622-3. The original may be denied him if he makes an oppressive demand -1624. It depends on his stating that he desires the information in the public interest-1625. Should grant access to originals for the same reason-1626.

Boyce, A. C. (West Algoma)-1666.

Rises to comment on the extraordinary attitude of the Prime Minister-1666. Has changed his position since the matter was under consideration on the 13th of the month-1667. These two opposite positions of the Prime Minister present a very remarkable anomaly-1668.

Bristol, E. (Central Toronto)-1663.

Reviews the situation; asks Laurier if Ames did not state his reasons-1663. Afraid no reason they could give would, in Oliver's opinion justify the produc-tion of documents—1664. The question is not whether a member has or has not the right to go into the department-1665. Ames case exactly within the lines of the Prime Minister's own argument-1666.

Chisholm, Thomas (East Huron)-1651.

- Must be something wrong with the De-partment of the Interior when they find the minister so often in trouble-1651 Thinks the minister has lost his head, he has simply gone wild-1652. Hopes that for his own sake he will let them see the original documents-1653.
- Foster, Hon. Geo. E. (North Toronto)-1628. Laurier saw fit to ignore everything that preceded the absolutely tyrannical re-fusal made the other day-1628. Never before has he known any attempt to prevent members of the Public Accounts Committee perusing papers at their leisure-1629. The House must not allow any of its rights, sanctioned by custom to be taken away—1630. Neither by the courtesy of the minister nor the will of this House was allowed a look at these originals-1631. Ames gives the only possible reason he can give, being a truthful man-1632. Few ministers in this House who have not known papers to disappear-1633. This particu-10095 - 23

Foster, on. Geo. E.-Con.

lar circumstance the weakest case that could possibly be-1634. Ames' proposition a very reasonable one-1635. Laurier climbed down, not as gracefully as in other evolutions, but still he climbed -1636. Has not the papers in his pockets; does know that he has them amongst his earthly possessions-1643. Does not suppose Oliver meant that he was tampering with those papers-1645. If Oliver had done his duty he would have had a motion for their return-1646.

Laurier, Rt. Hon. Sir Wilfrid (Prime Minister)-1623.

In the enforcement of rights certain rules have to be rigidly enforced-1623. On stating that the original will give information which the copy will not, access is granted-1624. As a rule the infora reason is given the production of papers shall take place—1625. Borden admitted there might be cases where the admitted there might be cases where the government should refuse-1626. Ames contends that it is for the government to show reasons why the papers should not be produced-1627. If Ames asks for papers, and gives good reasons, his demand will be complied with-1628. Northrup, W. B. (East Hastings)-1658. Ames moved for original documents to test the question of their production-

- test the question of their production-1658. Quotes the ground on which the Deputy Minister has presumed to lay down a rule for this parliament-1659. Quotes Oliver's ground for justifying his refusal-1660. The Premier's reason for declining to produce certain documents -1661. Oliver gave some amusing episodes of occurrances in days gone by-1662. But differs entirely from his leader -1663.
- Oliver, Hon. Frank (Minister of the Interior) -1636.
 - Takes exception to Foster's remarks as far as the Interior is concerned—1636. Foster changed his views when he changed his seat in the House—1637. Never learned that they were accustom-ed to show original documents—1638. To assist in clearing up a doubt, as a matter of courtesy, members were given access to originals-1639. If any member will give a reason for the produc-tion all risks will be taken-1640. Ames' suspicion that something might be wrong not a reason for putting him in possession of other people's property-1641. Should a paper be mislaid the proof of the fact could not then be made-1642. the fact could not then be made-1642. Original tenders produced on a motion by Foster in 1906 have not since been returned-1643. These documents were taken out of the custody of my de-partment, this session demands for 21 original documents-1644. Foster was absolutely regardless of the private

rights concerned in those particular interests—1645. Until they are released from the custody of the House they are not at my disposal—1646. It is not fair to the people whose business is carried on the files of the department; reads departmental correspondence—1647. Another memorandum from Calgary—1648. Reads instructions, and a memorandum by Robert Sedgewick, Deputy Minister of Justice—1649. This rule was confirmed when Foster was a member of the government of Canada—1650. Asks the opposition to substitute statements for insinuations and responsibility for innuendo—1651.

Ross, Duncan (Yale-Cariboo)-1632.

His argument was that original papers laid on the table in this House had disappeared—1632. Papers should remain in the custody of the department —1633. All that he has to show as to his claim is in the papers in the department—1634. Others have rights in this matter—1653. The rights of his constituents have been invaded by Ames' suggestion—1654. Objects to the laying down a rule by which documents are transferred to the custody of the House —1655. Challenges any member to give an instance when original documents have been laid on the table of the House —1656. No machinery provided for their return to the department—1657. The House can order their return if it chooses—1658.

SUPPLY-PRODUCTION OF ORIGINAL DOCUMENTS.

Reference to the matter, to clear up a doubt-Hon, Geo. E. Foster-1766.

- Alcorn, Geo. O. (Prince Edward)-1843.
 - The whole matter now under discussion is absolutely concluded by the records of the House-1843. The government by the action of their leader absolutely precluded from taking the position they have taken to-night-1844.
- Ames, H. B. (Montreal, St. Antoine)-1806.
 - Would be satisfied to call at the department and examine the papers-1806. According to Fielding the getting papers rests with the majority-1814.
- Armstrong, J. E. (East Lambton)-1878.
 - Never occurred to him that the government would take such a position as it has taken—1878. Paterson did not tell them of the corrupt measures carried under his very eyes—1879. We cannot help but feel that there is something wrong in the department—1880. Have no real freedom under this government —4881. They will see it is to their own interests to recede from this position— 1882.

SUPPLY -- PRODUCTION OF ORIGINAL DOCUMENTS-Con.

- Barker, S. (East Hamilton)-1793.
 - Has not heard one word in support of there being any difference between copies and originals — 1793. Quotes 'forms' from Flint; there is no difference in these forms between copies and originals—1794. Every reasonable man will admit that we ought not to seek for originals when copies will suffice—1795. Th word 'original' in the motion shows copies will not suffice; calls for reasons against—1796. Prima facie right is to get originals; accepts copies only as a convenience—1797.

Blain, R. (Peel)-1871.

- His duty as a representative to enter his protest against this new doctrine—1871. A resolution by Uriah Wilson calling original documents—1872. Oliver before and after entering the cabinet—1873. The people of this country will realize that something must be done—1874. Protests not only for the Conservatives of Peel but for the Reformers—1875.
- Borden, R. L. (Carleton, Ont.)-1801.
 - After Laurier had raised his objection Ames went on to comply with his suggestion-1801. If he did not give his reasons in the first place he gave them before the debate closed-1802. So far as creating a precedent goes Laurier's position is not well taken-1803. The government obstructing the business of the House by not complying-1804. Laurier's position absolutely absurd and untenable - 1805. Points out to the Premier that the words of the motion are his own-1844. Quotes the debate-1845. Does not want to talk of generalities but of reasons-1846. Answers the Premier 'out of his own mouth'-1847. He should read over the debate and see if he did not conclude that what is claimed is a right-1848.
- Bristol, E. (Centre Toronto)-1797.
 - Sorry Laurier did not at once yield courteously to Ames' request-1797. He went not only beyond logic, but beyond the regions of plain every-day sense-1798. Ames should have had his order in this case without argument..1799. Laurier above all people should set an example not of technicalities but of fair treatment-1800.

Broder, A. (Dundas)-1825.

Always thought members had some rights, but according to Fielding he has none at all unless he pleases—1825. The refusal leads to suspicion that party interests will suffer by the scrutiny—1826. Men who will follow him in that servile manner may sit on his side of the House but not on this—1872.

Crocket, O. S. (York, N.B.)-1861.

The government's attitude involves tyrannical denial of constitutional rights-

SUPPLY — PRODUCTION OF ORIGINAL DOCUMENTS—Con.

1861. The whole history one of subversion and betrayal of the principles of the Liberal party-1862. The independence of parliament and government by order in council-1863. Not surprised at any conduct, however unjust, tyrannical or contradictory-1864. Oliver took the ground that it would be inconvenient -1865. This so-called Liberal government invokes an antiquated rule-1866. Ames had shown ample grounds for his motion-1867. His statement completely fulfilled the Premier's requirements-1868. Could any one have done more twisting and turning and hedging than the Premier - 1869. This further infringement by this government of the undoubted rights of the people-1870. Cannot conceive any stronger reason for the dismissal of the government-1871.

- Fielding, Hon. W. S. (Finance Minister)-1805. If there has been any wasting of time,, the opposition have been doing it-1805. As a matter of courtesy would allow the inspection of documents in the depart-Ames as contending that they have a perfect right to ask for originals-1807. Ames refused to show cause; claimed he was not bound to show case-1808. Proper ground to take that reasons should be given when such papers are asked for-1809. A mistake to confound rights in the House with rights to be found under the gentleman's own hat-1810. Throughout his speech he insists on his right to this information, because he wants it-1811. He asked us to vote for this principle-1812. The judg-ment must be the judgment of House, not the judgment of Ames-1813. Instead of making an ordinary request he has insisted on making himself a martyr -1814.
- Foster, Hon. Geo. E. (North Toronto)-1766.
 Not clear that the result of R. L. Borden's question will be any change from the previous conditions-1766. Ames gave his reasons for wanting the original, but received a flat refusal-1767. Ames was arguing the absolute right of a member to call for original documents -1768. Cannot find out from the First Minister what he would consider a sufficient reason; quotes Ames-1769. Brodeur did not refuse papers on the ground of inconvenience, but because the correspondence was not complete-1770. Brown simply a cover for McGregor and McGregor for Adamson-1771. Not necessary that reasons should be given at any particular time-1772. Quotes the debate from 'Hansard'-1773. That resolution is the only guard that the government has-1774. Asks if the case is not clear that these nine pages be put on the table of the House-1775. Ames never came with a club in his 10095-23¹/₂

Fielding not leading the secession party now, but is just as insincere —1853. The onus on the government to show any valid reason why the papers should not be brought down—1854. No member supposed to ask for papers unless he has a good reason—1855. That side of the House not going to be goldbricked again; they have been several times—1816. Instances of gold bricks— 1857. Protests against the conduct of the government—1858.
- Haggart, Hon. John G. (South Lanark)-1778
 Never before heard reasons required before a motion calling for papers was acceded to-1778. It rests with those who refuse to give sufficient reasons for their refusal-1779. The right is one which has been acquired by the people of this country-1780. A time when the First Minister wanted secret service papers brought down-1781. The government had better make up their mind that these papers must be brought down-1782.
- Lake, R. S. (Qu'Appelle)-1839.
 - Rises to protest against the astounding doctrine laid down by Fielding-1839. His position entirely antagonistic to that of his leader-1840. Although the House has passed the resolution Oliver refuses to be bound by it-1841. Believes certain supporters of Oliver's have been allowed access to the papers at the land office in Regina-1842. Laurier led them to believe that the papers would be brought down-1843.
- Lancaster, E. A. (Lincoln-Niagara)-1814.
 - An entire want of logic in the position taken by the Premier. In Fielding have seen ridicule run mad-1814. But have not heard one word from him on the merits of the question-1815. The government been allowed to break every pledge, and set aside every principle they ever announced-1816. Not one government to stand up and say Ames' position is not correct-1817. Laurier will hear about this from Halifax to Vancouver, he will find he is up against the people-1818.
- Laurier, Rt. Hon. Sir Wilfrid (Prime Minister)-1775.
 - Ames' a bare motion without a word of explanation—1775. Could not agree with the statement that they had a right to originals—1776. What he relied on was the naked rights to ask for originals instead of copies—1777. Cannot establish the precedent that they can force the government to bring down originals —1778. The motion was made so as to establish a precedent—1801. If they had

agreed it would have been quoted later on as a precedent-1802. Ames claimed it as a right to have papers without giving reasons, and said he brought it as a test case-1845. On the ground on which he made his motion we could not agree-1846. When a member says he could not get the information from copies he must have originals, that is a fair course-1847. In the course of his parliamentary career has never before seen such a tempest in a teapot-1848. Ames said he wanted to make a test case of having originals brought down without giving reasons-1849. Then any one else may make a motion and justify it by simply saying he wants to see them -1850. We might have on this table hundreds of documents from the various departments-1851. When both sides have had time to cool down will have a statement to make-1884.

Lavergne, A. (Montmagny)-1827.

Copies brought down as a convenience, but members have a distinct right to see originals—1827. The Houses blocked from going into supply because the originals are refused—1828. A principle of the British Constitution that members have a right to information before voting subsidies—1829. Everybody seems to agree that the reasons for producing the documents are good—1830.

Lennox, H. (South Simcoe)-1786.

Laurier's the most extraordinary change he ever saw, even for this government -1786. He has admitted the absolute right to the examination of the papers -1787. Other complaints to make against Laurier-1788. He shifted his ground, but he has not been fair in his quotations-1789. The government has not clothed itself in anything like honour in refusing the papers-1790. Nobody will insistently demand papers if there is any question of public policy -1791. The case of the Fenian Raid papers in the British House-1792. Has taken a position that cannot fail to throw great discredit on him-1793.

Northrup, W. B. (East Hastings)-1830.

Not a single supporter found to say a word on behalf of the government-1830. If they had on other occasions kept back original documents they would have prevented much unpleasantness-1831. From the government standpoint something to be said for them-1832. The case of Lord Brougham and Lord Melbourne in 1838; an obsolete authority in 1771-1833. Criticises the Premier's attitude-1834. Quotes Ames' speech and the Premier's-1835. It is a question of looking to the future that no injustice is done-1836. Calls attention to the effect produced on other members by the application of the rule-1837. The question of members only being able to

Osler, E. B. (West Toronto)-1800.

- Two days ago the Prime Minister accepted the principle of the production of original documents—1800. Prefer the odium of refusing to the odium that will come through producing them—1801.
- Perley, G. H. (Argenteuil)-1818.
 - The question will the government provide some way by which members can see original documents—1818. There are times when it is absolutely necessary to see the originals—1819. Surely it is a duty to investigate dealings between the government and individuals as thoroughly as possible—1820. Asks to be told any one way in which these documents could hurt anybody—1821 Evidently an intention on the part of the government to prevent Ames seeing these papers—1822. All this turmoil caused by Oliver's new regulation—1823. It lays down the absolute rule of refusing members the privilege of access to the papers—1824. Ames has given good and sufficient reasons for being allowed to see the papers—1825.

Reid, J. D. (Grenville)-1875.

Does not agree that the policy laid down in the last 48 hours is right—1875. The case of Mr. Caldwell and the RobtEns irrigation deal—1876. Told by Fielding last evening that the opposition had no rights—1877. Hopes Laurier will see that he is wrong, and lay the papers on the table—1878.

Sproule, T. S. (East Grey)-1782.

The duties and rights of the members of the opposition--1782. This right which belongs to every member of parliament must be maintained--1783. Parliament would be doing less than its duty if it gave up this right of examination--1784. It would be making a retrograde step if it allowed itself to lose that right--1785. People will sustain them if they hold parliament six months to hold that right--1887.

SUPPLY-ROYAL MILITARY COLLEGE-CHARGE AGAINST A CADET.

Attention called to the case of Cadet Lancaster-Mr. Sam. Hughes-1018-9.

Borden, Hon. Sir Frederick (Minister of Militia)-1022.

Thinks it undesirable to discuss questions of discipline in the Royal Military Col-lege in this way as a rule-1022. Cannot think the commandant would be actuated

SUPPLY-ROYAL MILITARY COLLEGE-CHARGE AGAINST A CADET-Con.

Borden, Hon. Sir Frederick-Con.

- by any low motive-1023. Reads the let-ter he sent the commandant to be read to the cadets; reversing the judgment-1024. Lancaster was under arrest when he left for the Christmas vacation, and of course returned to it-1025. Thinks it possible the commandant overstepped his powers; not one iota of evidence to justify his finding-1026. The presumption and practice are that the commandant's powers are the same as those of an officer commanding a regiment-1028. The rule in the college down to the present -1029. No evidence on oath, found it very difficult to reach a conclusion-1030. The preliminary proceedings consisted in the summoning a board of inquiry-1031. It was not taken down-1032. This is the first case of the kind since I have been minister-1033.
- Borden, R. L. (Carleton, Ont.)-1018.
 - Cannot be made a charge against the commandant, but is an irregularity which urgently demands correction-1032. Sup-poses no circumstance of this kind has arisen in the past-1033.
- Hughes, Sam. (Victoria)-1019.
- Resume of the case; not a cadet manly enough to tell the commandant he was pursuing a cowardly course-1019. Denunciation of the sweat-box process ; commandant failed in first attempt, had to rake up another of having cheated at cards—1020. Judgment reversed, cadet returns, but is put in close confinement -1021. If this is true commandant unfit to stay twenty-four hours longer in his job-1022. Does the minister say any such system ever prevailed in any mili-tary college?-1023. The judgment was to be read to the cadets-1024. He was rusticated after the period of arrest ceased-1025. The commandant of the Royal Military College has no authority to place anybody under arrest-1026. It was all wrong-1027. The cadet had to put his question through the commandant-1028.
- Lavergne, Armand (Montmangny)-1022.
 - Is not the fact that all the cadets agreed to take the same course in the commandant's favour-1022. Those who know the commandant know that he would not do anything imporper—1026. He did not act in any other way than according to the evidence—1027.

Northrup, W. B. (East Hastings)-1030.

If this youth had not beenfortunate enough to have a father to take up the case he would have been branded for life as a thief-1030.

Porter, E. G. (West Hastings)-1031.

The usual practice of the college has not been carried out in this case, but has been deliberately violated-1031. The commandant asked the minister to form a judgment upon unsworn testimony,

SUPPLY-ROYAL MILITARY COLLEGE-CHARGE AGAINST A CADET-Con.

Porter, E. G.-Con. taken behind the back of the accused-1032.

Would Hughes, as a military man, approve of the young men telling the commandant he was pursuing a cowardly course -1022.

Tisdale, Hon. David (Norfolk)-1027.

If the commandant has the power which he exercised in this case, it ought to be taken from him-1027. No commanding officer of a Military College has a right to hold a private arial in a criminal case-1028.

Ward, H. A. (Durham)-1025.

- Asks if rustication and arrest are synonymous-1025. If the commandant has power to try such cases as these, that power should be taken from him-1028. The commandant of the college had no right to try the case at all, even if the cadet did make a selection-1029. He stood in the position of making a charge against the cadet and trying it himself --1030. Asks if the witnesses who gave evidence before the board were called at the trial-1031.
- SUPPLY-SALE OF INDIAN LANDS.

Attention drawn to a report of a speech by Mr. Ames-Mr. J. G. Turriff-8697.

Ames, H. B. (Montreal, St. Antoine)-8711.

Turriff did not have the courtesy to notify him that he meant to deal with this-8711. The documents show the system opened wide the door to fraud and imposition-8712. One analysis shows T. A. Burrows as having acquired 549 square miles-8713. The mysterious Im-perial Pulp Company had 417 miles-8714. Mr. Burrows had been remarkably successful, his success one of the fea-tures of the investigation-8715. Specific instances which have come out in the Public Accounts-8716. The story of the Prince Albert deal discloses a betrayal of trust-8720. Mr. Burrows acquired berths-1048 and 1049-8721. My statement that Burrows retains an interest in 1048 remains-8722. Burrows sold his half interest in 1049 and whatemen interest here 1048 and whatever interest he may have 1048 and whatever interest he may have had in 1049-8723. The object of reopening the inquiry was to prevent the matter, while fresh, being debated in the House-8818. Fraser swore he did not know the director's names of the Imperial Pulp Company-8819. Burrows, T. A. (Dauphin)-8734.

Difficult to follow all the insinuations Ames has cast upon him-8734. He was very free in making insinuations he had no ground for, he was afraid to let me show my case in the Public Accounts-8735. Defies Ames to point out anything wrong in it-8736. It is the practice of lumbermen to put in more than one cheque-8737. It is a practice that is known to public men and to governments-8738. Ames could have seen the cheques in the Public Accounts Committee if he had asked for them-8739. I was tendering on more than one item that day-8440. Was speaking in reference to three leases secured by himself-8751. My three tenders were \$3,345 in the aggregate more than the next three-8752. Was never interested directly or indirectly in 1049-8753. Never had one-half cent interest in the limit at Cedar Lake-8754. Out of 1062 timber limits secured 19 and tendered too low on seven-8755. Bought 571A from Shaw Bros. who secured it from a Tory government-8756. On two limits in which I am interested fire has this year done damage-8757. Produces a memo. showing that he paid higher prices than any one else-8758. In his own county of Dauphin farmers cut a great part of the timber they use-8759. fide lumbermen to a bona fide lumberman-8762. Quotes as defence from the Grandview 'Exponent' of February 14 -8763. Ames very interested in the Imperial Pulp Company; gives a statement of their holdings-8764. If he had a chance of knowing other tenders, he would not waste \$500 or \$600; Ames' other remarks equally ridiculous-8765. Secured his limits before he became a member of parliament-8766. The total amount of his holdings at the present time is 436 square miles-8767. The average bonus on limits sold by the present government is \$1 per square mile. in addition to dues and ground rents-8768. His character stands just as high in the west as Ames' does in Montreal -8769.

Foster, Hon. Geo. E. (North Toronto)-8703.

Understands Turriff gave Ames no notice of this matter before making this attack-8703. The case of section 29, township 1, range 6, west of the 2nd meridian-8704. Reads a declaration by J. D. McLeod, and statement by G. W. McLaurin-8705. The evidence given in court by this witness-8706. After a time Griffiths got busy, he wanted the coal lands for himself-8707. Reads telegrams of Howard and Turriff-8708. Reads a letter from Turriff marked ' private'-8709. No comment needful, will leave it with the House and the country-8710.

Lake, R. S. (Qu'Appelle)-8769.

Ames' speech a powerful arraignment of the government for its policy regarding timber berths in the Northwest-8769 Burrows does not account for the remarkable coincidences occurring in connection with his tenders-8770. Great curiosity which was entertained as to the Imperial Pulp Company-8771. Burrows has no complaint as to the profitableness of his timber investments-8772 Have now far greater ground for damanding an investigation into the whole timber business-8773. Tenders put in show a considerable number of names and aliases have been used-8774. Large number of names used in the Imperial Pulp Company's tender-8775. The blank tenders had not any statement of the amount of cheques endorsed in them-8776. In one case where the amount was put in it was only in pencil-8777. Moves an amendment asserting improvident alienation and demanding an investigation-8778.

Macdonald, E. M. (Pictou)-8778.

The masterly addresses of Sifton and Oliver universally held to have entirely disposed of the question—8778. Public Accounts investigated these fantastic theories and unnatural insinuations— 8779. Ames wishes to exploit in the House the peculiar statements he has been making in the country—8780. All

the Ames theories advanced were brought into effect by Oliver long before with all Ames' microscopic and photo-graphic machines—8782. Ames did not call Burrows and others because he did not want to prove the truth-8783. Benot want to prove the truth-8/83. Be-lieves he has a perfect right to deal with this question in the broadest possible way-8784. Ames summoned thirteen witnesses at the expense of the country and only called six-8785. Would not have had Fraser's evidence unless some-one not associated with Ames had in-sited on his gring to the stand \$726 one not associated with Ames had in-sisted on his going to the stand-8786. Ames put up an attack on himself and others because they would not let the investigation be closed-8787. Quotes Turriff on the committee: he invited the fullest investigation-8788. Ames' ad-dress to the Y.M.C.A. in Halifax on 'Fair Play '-8789. Quotes Ames' address-8790. Why did he not tell the audience about timber limits granted by the Com-8790. Why did he not tell the audience about timber limits granted by the Con-servatives before 1836-8791. The most charitable view to take, that Ames did not know what he was saying-8792. Ames endeavoured to make the people think that this quantity of land had been given away-8793. That these lands had passed into the ownership of Mr. Burrows and his friends for all time-8794. That they owned forever these 6,500 acres of land that had been given away by this government-8795. Ames' 6,000 acres of fand that had been given away by this government—8795. Ames' conduct to-night a fair indication of how much reliance can be put on his statements—8796. Ames would have al-lowed the House to get away with the impression that some expert Northwest humber had written that latter \$707 Iumberman had written that letter-8797. Believes Ames thought the government had made leases with fictitious persons-8798. The fairy tale that Dr. McInnis told about some man named Maloney-8799. Ames the great obstructionist who 8799. Ames the great obstructionist who wanted to prevent the evidence going in-8,800. Ames thinks when Burrows put in three cheques something was wrong, but there is nothing significant when another gentleman puts in three -8801. Can go through the evidence and show where Ames' innuendoes were un-fair and his incinnet sector. show where Ames' innuendoes were un-fair, and his insinuations unjust-8802. It is up to the men who slandered Mr. Turriff to declare that their impres-sions were wrong-8803. In nine cases Burrows paid \$5,134 more than the next lower tenderers-8804. There never has been any mystery about the Imperial Pulp Company-8805. Never heard such unworthy and unjust interpretation put upon evidence as was done this after-noon-8806. The west was a pretty poor place when it was taken in hand by the present government-8807. present government-8807.

The Thompson River charter not acted on-5418. The Bill gives the gov-ernment all possible control-5419. Quotes section 14 and 11-5420. The company willing to accept any amend-ment-5421. The privilege of building a boom absolutely necessary-5422. Copp absolutely wrong-5423. Reads section 8-5424. What they have power over-5425. Anybody can buy stock in these companies-5429. But proposition could not be carried out-5432. The subcommittee preferred the usual expro-priation clause-5433. Borden's amendment would leave everything open-5434. mont would leave everything open-3404. Section 8 protects navigation-5438. Copp ought to go a little further-5439. Questions parliament's right to insert a clause making the Bill absolutely un-workable-5440. You particularly pre-vent this company from retaining their logs above the mill-5441; willing to ac-cept an amendment providing for free what he hears from both sides—5449. Moves an amendment to section 11— 5450. The Bill deals only with naviga-ble portions of the picture of the section 11 ble portions of the rivers or streams-5451. Could make a regulation before approving the tariff-5452. The companies interested in this matter have millions invested-5455. Nothing to limit the regulations the Governor in Council can make-5456. Not a part of their undertaking to become freighters-5457. Should give some consideration to 5457. Should give some consideration to the rights of men who have invested— 5458. The Bill does not interfere with Kamloops Lake—5459. Wording sounds more formidable than it is—5460. Sees no reason for the proposed clause—5461. The government do not seem anxious to take it over-5462. Would like to see it proceeded with to-night-5463. Moves the Bill back into Committee of the Whole-5519. Moves an amendment, which will be satisfactory-5520.

Haggart, Hon. John G. (South Lanark)-5450.

The Governor in Council here has no means of knowing what would be a fair charge-5450. Better regulate them in some manner-5453. Is there any local charter?-5459. Building these booms would be a legitimate enterprise to press upon the government-5460. Government should have the right to assume the works-5462. Lennox, Haughton (South Simcoe)-5109.

- Asks information as to the extent of the amendments-5409. The other Bill is still before Private Bills-5413. The government should insist that the equitable rights of these parties should not be lost-5414. Should not proceed until they have the application for the re-newal of the prior charter-5415. Pro-visions of section 8-5430. Should not interfere with the navigation of the river-5431. Ross says great care has been taken to safeguard public interests -5432. Should provide that the com-pany make full compensation for injury -5433. They intend to command the whole river-5436. They want and in-tend to command the whole river-5437. Section 8 incorporated deliberately in the Bill of 1904-5438. No harm in reading the amendment-5439. Section 8 provides that the company shall not inter-fere with the free navigation of the river 5443. Products thereof would cover almost anything that is made of wood-5444. They might be able to make a charge we do not contemplate; moves an amendment—5445. No one yet has given any reason why those words should be there—5447. Those words and the pro-ducts thereof are of very doubtful im-port and should be struck out—5448. port and should be struck out-3448. Thinks the granting of this monopoly unwise-5454. The capital of the com-pany is only \$100,000-5455. They can only make limited regulations-5456. Wise to have a clause providing for government taking over the works-5463. Inserted before the third read-ing-5464. Has an amendment on the lines suggested-5519. Has no objection to Galliher's amendment-5520. The Lamb-Watson Com-pany Bought out the Kamloops Lumber Comments 5416. Afterwards the Western Company-5416. Afterwards the Western Rivers Bill was resurrected-5417. All the waters up the North and South Thompson are navigable-5437. Before any boom can be operated the regulations have to be in force-5439. If we are to become a great dominating race we must take advantage of that position-4450. The deepening of the canals would involve an expenditure which would not be at all justifiable—4451. The statisti-cal report not as full as promised, should contain information which it does not—4452. In order to make a show he charges to capital account every expenditure he possibly can-4453. When he administered the road the receipts equalled the expenditure-4454. The minister makes the bald charge that promotions and increases of salary are in the hands of the unions-4455. The dismissal or retention of men should be in the hands of the government; the question of rates-4456. The passengers who utilize our railways in Canada pay less than 2 cents per mile— 4457. There ought to be something in the shape of railways left to private enterprise in the particular provinces-4458. The regulator of freight rates on the regulator of freight rates on the continent will in future not be the railway but the canal-4459. A bright future for the road, hopes it will not be con-trolled by any minor political in-fluence-4460. Said the capital account should cease and expenditure be charged to the ordinary revenue-4461. Never heard that his leader advocated government ownership-4462. Nothing of the kind in the Halifax platform-4463.

Suggests some amendments to the Railway Act regarding connections between railways-4492. Accidents caused by broken rails. Quotes the Public Service Commission of New York State-4493. The time has come for a general revision of the Railway Act-4494.

Logan, H. J. (Cumberland)-4460.

The minister's speech filled with hope to those who live along the railway-4460. None but the densest would use Haggart's argument; revenue and expenditure very nearly balance-4461. Borden

went to the country in 1904 on the plea of building a railway from ocean to ocean - 4462. Improvements on the I.C.R.; comparison of 1896 and the present conditions-4463. Quotes Borden at Owen Sound on the I.C.R.; high character of the employees-4464. Advocates a nine-hour day; the acquirements of branch railways-4465. Because of political pull the I.C.R. was built over the Cobequid Mountains-4466. The I.C.R. is not for the benefit of the maritime provinces alone-4467. In every speech in Ontario Borden was plainly advocating, not government management, but government ownership of railways-4468.

Maclean, W. F. (South York)-4484.

Macdonald's whole presentation was in favour of government ownership-4484. Haggart's views as to government ownership of railways at variance with his views as regards canals-4485. The question of nationalization in the British House-4486. Comparison between private and state owned railways altogether in favour of state owned-4487. Quotes Lloyd-George ; effects in Germany and Italy-4488. Lloyd-George stated that all the arguments are in favour of a reduction of rates and of state owned railways-4489. Canada was committed to the principle of state ownership in the G. T. P. R.-4490. Takes up the question of passenger rates-4491. Let us extend the I.C.R. service and extended it across the continent-4492.

Macdonald, E. M. (Pictou)-4479.

The Conservative party have been irrevocably committed to the principle of government ownership of railways-4479. Quotes Borden at Halifax-4480. Every little rainbow means that they hope to get back to power some day-4481. The leader of the opposition has declared himself in favour of the construction of another transcontinental railway by the government; a clear issue-4482. The effect of the extension of the I.C.R.; necessaries go from Ontario instead of from the States-4483. Would rather see the extension of the great transcontinental line into Nova Scotia-4484.

Reid, J. D. (Grenville)-4469.

No doubt the canals have been of great advantage to the people of this country -4469. But for canals the rates on grain from Fort William to Montreal would be 10 cents instead of 5 or 5½ cents-4470. The solution of the transportation question is to be found in the deepening of the Welland Canal-4471. Montreal another trouble with the transportation question-4472. The people are finding fault with the way these large expenditures are made - 4473. The Premier stated that \$13,000,000 was all the G.T.P. Ry. was going to cost-4474.

SUPPLY-TRANSPORTATION-Con. Reid, J. D.-Con.

Blair resigned and said it would cost \$150,000,000 - 4475. The Conservative proposals when the G.T.P. Ry. Bill was being discussed - 4476. If the I.C.R. were extended to British Columbia it would not have to pay dividends on watered stock and the rates could be kept down -4477. Comparison of operating expenses-4478. Hopes next year they may have a more satisfactory statement-4479.

WAYS AND MEANS RESOLUTIONS.

House in committee on the resolutions-Hon. W. S. Fielding-6118.

Beattie, Thomas (London)-6124.

Cigar men in his constituency object to the changes-6124. Reads a petition from cigar makers using foreign leaf exclusively-6125. They are manufacturers of all kinds of leaf-6126. You cannot tell the Canadian from the imported leaf cigars-6127.

Bergeron, J. G. H. (Beauharnois)-6120.

Asks concerning a recent deputation re excise changes-6120. Will encourage the cultivation of better Canadian tobacco-6121.

Bristol, E. (Toronto Centre)-6120.

Asks if any protest has been received on the ground that the consumer will not be able to see what he is buying-6120. Has a strong protest from some unions -6121. Does he understand that the protests have been fully considered-6124. If it happened to be the best kind the brand would protect the smoker-6130. Reads a communication from Cigarmakers' Union No. 27 of Toronto-6131. Desires to lay the matter before the minister-6133.

WAYS AND MEANS RESOLUTIONS-Con.

Brodeur, Hon. L. P. (Minister of Marine and Fisheries)-6121.

The object of the change is to give Canadian tobacco growers a better advantage -6121. It is a matter which the manufacturers themselves should see to-6122. Change will prove of great benefit to the Canadian grower-6123. In future the cigars will be sold on their own merits -6125. The petition says they are manufacturers of foreign leaf exclusively-6127. Mr.| Fisher taking steps to increase the curing and growing of tobacco -6135. The law has been in existence many years-6136. A man licensed as a manufacturer of foreign leaf is supposed to use foreign leaf exclusively-6137. There is under this clause no reduction of duty-6138. It will be an advantage to the Canadian grower-6139.

Clarke, A. H. (South Essex)-6126.

In favour of this resolution that it is opposed by-manufacturers of foreign leaf-6126. Cannot imagine manufacturers of Canadian leaf being opposed to the change-6127. The policy has been in effect a discrimination against Canadian tobacco-6128. Tobacco a most profitable crop, growers entitled to encouragement-6129. The consumer not yet educated to a proper appreciation of Canadian tobacco-6130. It is not a fraud-6139. The object of this stamp is to regulate the amount of duty-6140. The law says that Canadain tobacco may be taken in-6141.

Clements, H. S. (West Kent)-6138.

- The manufacturer of chewing tobacco would be worse off than before—6138. Has long advocated the scheme advocated by the government—6141.
- Fielding, Hon. W. S. (Minister of Finance)--6118.

Moves the resolution-6118-19.

- McLean, A. A. (Queens, P.E.I.)-6136.
 - Any man having a license for foreign leaf could mix Canadian with the foreign-6136-7. Fail to see how it can be done without the knowledge of the officials, but it is every day-6139. A fraud connived at by the officials of the Inland Revenue Department-6140.

Monk, F. D. (Jacques Cartier)-6123.

- No doubt the change to one stamp has been long sought in the interest of Canadian tobacco-6123. The government has been very slow in remedying that injustice-6133. The packing for the European market is a matter of the utmost importance-6134. If we are to develop as we ought we must go a step further-6135.
- Templeman, Hon. Wm. (Minister of Inland Revenue)-6120.
 - Now to one stamp and one license for tobacco manufacturers-6120. Have received some protests, one from London

B'ain, R. (Peel)-6124.

Understands the changes in no way affect the price of cigarettes or tobacco-6124. Would that apply to cigars as well-6135. Understood the black stamp represented cigars made in Canada out of foreign leaf-6137. The effect is that it is a misrepresentation to the public-6138.

WAYS AND MEANS RESOLUTION-Con.

Templeman, Hon. Wm.-Con.

especially-6121. Canadian and foreign can be taken into one factory and mixed -6123. The rate of taxation practically the same as before-6124. Cannot conceive that the result will be to palm off on the consumer worse cigars-6132. Doing the right thing in removing the discrimination against our own product -6133. The object of the label was to indicate a brand of cigars-6137. The black stamp indicates the payment of a certain duty for foreign leaf-6138. No knowledge of what fraud is referred to -6139. Or where it is-6140.

WAYS AND MEANS-THE BUDGET.

Delivery of the Budget speech-Hon. W. S. Fielding-5137-5567-6011.

Armstrong, J. E. (East Lambton)-6046.

Government members simply trying to talk in the way of bluff and bluster instead of dealing with facts-6046. Quotes Trade and Commerce report, imports and exports of other countries-6047. Japan, the Argentine Republic, the unemployed scandals-6048. Goods manufactured in Germany sent to Canada via Great Britain-6049. Only a small portion of goods go in cold storage -6050. Our transport facilities are not what they should be-6051. A few suggestions for the serious consideration of the Minister of Trade and Commerce-6052. How is it that at the Imperial Conference special effort was not made to obtain united preference -60667. Dr. Jameson of the Transvaal and the intermediate tariff-6068. Coming change in Great Britain's fiscal system an opportunity for securing mutual preference-6069. Should not lose the opportunity of getting into the German market-6070. Argentine Republic and Germany-6071. The government for eleven years have been dealing with the matter in a half-hearted manner-6072. It is our duty to deal with these questions in a business-like manner-6073.

Bergeron, J. G. H. (Beauharnois)-5357.

The Budget speech this year different from others; sounded like a valedictory-5357. Quite evident Sifton is not satisfied with the fiscal policy of the government-5358. Cotton goods imported which should be made in Canada-5359. Canada owned Alaska when the Conservatives were in power-5360. Cockshutt, W. J. (Brantford)-5314.

If Paterson has not spoken long he has spoken loudly-5314. Steals the case of Donald Fraser-5315. Quotes the Premier on the G. T. P. cost, a pamphlet in 1904-5316. We never said we believed your statement; you misled the country-5317. Half a million dollars worth of stoves imported into Winnipeg-5318. No graft in the French treaty, except what the two ministers got-5319. More intense suffering in Toronto this winter than ever before-5320. The government taking double per head from the people than did the Conservatives-5321. We are face to face with a deficit of twelve million-6322. The Quebec Bridge contract a preparation for a big graft-5323. About two or three votes he did not give the government-5324. Concerning the financial stringency-5325. #Hardly a factory left of the great array of a few years ago-5326. We have become importers of almost everything on the list-5327. Clover seed-5328. The British preference, and the imperial conferences-5329. What a mutual preference should be-5330. Great Britain ready for a tariff change-5331. Men are marching upon public buildings demanding work or bread-5332. Under this government there have existed corrupting influences-5334. The axiom of this government there leve in Borden will 4b premier, and they will have a clean government_5336.

- YUKON PLACER MINING ACT-AMEND-MENT.
 - Bill No. 150 read a second time and taken in committee—Hon. Frank Oliver-8481.

Borden, R. L. (Carleton, Ont.)-8488.

The whole section is before us and we should consider what it means-8488. You provide that the person who exercises this right should give adequate security -8489. When damages are allowed for entry alone, it would be well to make the matter clear-8490. Cannot understand how it came to pass that the authorities deprived the person of forty inches under the present law-8491. The statute only intended to apply to persons who were there when the ditch was constructed-8492. Would like to know how much a bona fide worker would be entitled to -8498. The difficulty arises in the use of the word 'diverted'-8499. If there were a dozen persons below each would be entitled to forty inches-8500.

Clarke, A. H. (South Essex)-8494.

It looks as if he did not get the 40 inches unless 200 inches are diverted-8494.

Galliher, W. A. (Kootenay)-8489.

That difficulty met with in surveying in British Columbia-8489. The entry is directly connected with the construction and rapair of ditches and flumes-8490. The owners of claims are entitled to the waters of that stream to work their claims-8497. He would be entitled to 40 inches if 200 inches were diverted-8498. It means not the water in the river but the water in the ditch-8499. It would be better to come back to this section-8500.

Lake, R. S. (Qu'Appelle)-8484.

Different applications of the word 'Commissioner' likely to cause confusion--8484-5.

YUKON PLACER MINING ACT-AMEND-MENT-Con.

Macdonell, A. C. (South Toronto)-8486.

- Asks if the amendment reserves to the 'Crown the right overlapping claims' -S486. The change proposed is rather important-S491. By the amendment an old established company with rights might have to give up the entire flow of water that goes through the ditch-8492.3. Last session the rights were curtailed so as to oblige them to give up a certain quantity of water-8494. The matter well worthy of consideration, and the parties interested should be heard-8495. The man who has the right to the water is the man who has the right to divert the stream-8496. Galliher speaks as if it were a virgin country and as if no rights had been granted-8497. The probable result of this amendment-8498.
- Oliver, Hon. Frank (Minister of the Interior) --8481'
 - Moves second reading of the Bill-8481. Serious difficulties in meeting the conditions as they are found to exist-8482. Has to be some way of defining a stream Has to be some way of donning a stream to which dredging regulations may apply-8483. Section provides for the division of the territory into mining districts-8484. The mining recorder the officer most nearly acquainted with the actual circumstances-8485. There are certain rights to what are called re-verted claims-8486. The provision is to permit broken periods to be brought together-8487. The owner will then have security should he require to take legal action-8488. The security demanded is at the discretion of the min-ing recorder-8489. Will sacrifice element to section 22-8490. It is proposed to meet the conditions which the Bill as passed last year was intended to meet-8491. The statute is intended to apply to people who were not there when the ditch was constructed—8492. The pro-posed provision the same as the previous provision except a little wider-8493. Difficult to frame the section so 8493. that two meanings cannot be taken-8494. The Commissioner of the Yukon is of opinion that the proposed legislation is in the public interest-8495. We cannot afford to have the gold of the Yukon locked up by the locking up of the water-8496. The first right shall-be to the claim holder on the original creek-8497. Forty inches of water the amount considered necessary for the working of a placer claim-8498. Thinks the Act as it stood last year really con-veyed the idea desired-8499. Let the section stand and the Bill remain in committee-8500.

Sproule, T. S. (East Grey)-8483.

Thought there was only one Gold Commissioner, seem to be several-8483. Thinks the Gold Commissioner would YUKON PLACER MINING ACT-AMEND-MENT-Con.

Sproule, T. S.-Con.

be the more responsible officer-8485. Seems that this is a means of enabling a few parties to get control of the whole district-8486. At present a man must pay a full fee if he renews a claim for half a year-8487.

YUKON PLACER MINING ACT.

House in committee on Bill No. 150 to amend the Yukon Placer Mining Act-Hon. Frank Oliver-10518.

Borden, R. L. (Carleton, Ont.)-10521.

- Suggests change in wording and moves amendment-10521.
- Oliver, Hon. Frank (Minister of the Interior) 10518.

Moves amendment to section 61-10518. Embodies an important principle regarding the ownership and use of water-10519. Moves amendment with regard to payment of a fee-10525.

YUKON TERRITORY — FINNIE-PERRON CASE.

Inquiry whether the Minister of the Interior has any information on the subject --Mr. A. Thompson-4316.

Oliver, Hon. Frank (Minister of the Interior) -4316.

The Gold Commissioner investigated and found there was no ground for the complaint by Mr. Perron against Mr. Finnie -4316. Judge Craig found that the complainant had failed to establish his allegations-4317.

Thompson, A. (Yukon)-4316.

Asks the Minister of the Interior if he has any information regarding the Fennie-Perron case-4316.

Laurier, Rt. Hon. Sir Wilfrid (Prime Minister)-10303.
