College Heights CAPT. MACNEILL AT EATON CHURCH

Returned Chaplain Gives Graphic Description of War in Europe.

An unusually interesting meeting of the Yonge Street Sunday School was held yesterday afternoon when the missionary returns for the year were made known.

The beginning of the year John Macdonald made the school the offer that for every dollar the school would contribute to the war effort, he would contribute one also, with the result that the missionary offer for this year is \$1072.74. The Kings Bank system has been used, each class being anxious to make a good showing, the primary department alone contributing \$47. The funds are chiefly devoted to work in Japan.

In 1913 the school contribution was \$215, and has yearly increased. Mr. Macdonald has further announced to the school that if the present high record is sustained next year he will double the amount.

The contributing so handsomely to the other activities of the school have not been neglected, but have been kept up to last year's record.

CITY AND C. P. METHODS

One is for Delay and the Other is for Results and Service.

The Belt Line ravine viaduct will have its second track across the south side today and then be ballasted with broken stone. The north track on the bridge is now carrying the traffic in place of the temporary trestle. Both these tracks will bring the double track system as far west as the Reservoir ravine.

There will be one track on the Reservoir viaduct in a couple of days; this will permit of the temporary trestle that now carries the traffic to be taken down and allow the top concrete slabs on the north side of the viaduct to be lowered into position. Thirty of these fifty-ton slabs have to go in, and this may take some days, but they are all ready for the transfer. Then the second track and then the third track will be built.

There is a great deal of interest in the work being done in the viaduct, the decision of Mayor Church, Finance Commissioner Bradshaw and Works Commissioner Harris to undertake these bridges for a hundred thousand dollars that will now cost over half a million. These under-works would have been ready today, and the Mount Pleasant civil line ready to use one of them. But they would do anything but look wise and allow Mayor Church to camouflage it all with the plug hat, the cane, the public and the viaduct.

And speaking of the expedition in completing the C.P.R. viaduct, the men who can't help but turn them to the two viaducts of the city, the Don viaduct and the Mount Pleasant one north of the cemetery. A six months' rest in both of them and public use of them put forward by the C.P.R. stand for that kind of construction in its officials.

And it is the city's finance commissioner and the works commissioner who have in hand the city's effort to buy the franchise of the Metropolitan within the city limits. By their present progress will take the city at least a year to do the job. The Danforth Ratepayers' Association and the North Toronto Association are both working to get the city to take the franchise that is handed out from the city hall.

In other words the city is powerless and helpless to do things; the C.P.R. gets them done.

WAR SUMMARY

THE DAY'S EVENTS REVIEWED

In the region south of Ypres the French and British, attacking together the Germans before Mounts Rouge and Scherpenberg drove them back, or rather crushed them on a thousand yard front to the depth of a quarter of a mile. This smart little action has resulted in the considerable strengthening of their positions in the hills southwest of the Ypres salient. The allies at other important points also in local attacks improved their positions. The heavy German bombardment on the Flanders front which alarmed some of the neutrals on Saturday, brought a strong allied reply, and the enemy did not venture from his positions. Among his troops much disorganization as a result of heavy rain and past defeats still obtains. His new tanks are also a big disappointment to his higher command. They are unwieldy in action, and have developed various other defects.

Local activity on the French front has been chiefly to centre in Lorain. The French have raided the enemy positions quite frequently. The Americans have just raided the enemy positions there twice. The cannonading is at times intense. Since the impulse reached by the enemy against the British army, the German higher command is mad enough for any rash venture, and makes no attempt to achieve a success thru the better part of this opening in the defences of the French, however, is merely a trap. It proved the intention of the enemy in the opening phase of the war.

Emperor Charles of Austria-Hungary and his chief military officers have arrived at the Italian front and with the event has come an increased artillery fire. It is now supposed that the enemy will soon begin his offensive. The allied governments have strictly enjoined the defensive on their military leaders. This is for the purpose of sparing their men and of saving at the proper time a larger force available for striking back. If Austria is badly beaten she would appear about ripe for dissolution. She has lunged together much longer than anybody who knew her ramshackle conditions could have believed. The shortage of foodstuffs and the shortage of men combined have recently increased the internal strain.

The Austrians, if they go on with their offensive, will act from compulsion. Owing to the German failure in France and Belgium, Berlin has been increasing the pressure against Emperor Charles and his military chiefs to make the hazard. Owing to the internal distress among the Austrian people, public opinion has been increasing the pressure on the government to end the war. The allies, in electing to await the Austrian attack, have certain advantages. They have the political asset of showing the enemy as the aggressor and uniting the peoples the most strongly against his assaults. They have the military asset of defending their homes and of ability to check the enemy with force fifty per cent. their numerical inferior.

Danforth WIRELESS OPERATOR IS SENT TO HOLLAND

Mr. and Mrs. Albert Mills, 45 Easton avenue, Danforth, are in receipt of a wire from their son, Pte. Albert Mills, C.E.F., who was wounded and taken prisoner of war at the battle of Zillebeke, and interned at the prison headquarters, for the past two years, has been recently sent to Mechelen, Holland.

According to many letters received by his parents, Pte. Albert Mills never complained of his treatment during his captivity in Germany. He is, he stated, always kept busy employed on the coast recently with the Germans to the rank of corporal, as is shown by a photograph forwarded from Cleves, also his pay comes from Ottawa as private.

Another son, a wireless instructor, Thomas Andrew Mills, Leaside Camp, expects to be sent overseas shortly. He has previously been wireless operator for the past three years on many wireless-going boats, and has seen service in France, India and Italy, and was the wireless officer on board the British-Canadian steamship "The Italian Government," which was torpedoed while engaged in carrying horses from New York to Genoa for the Italian Government. He was also on the steamer Mont Blanc, which was sunk in Halifax harbor. He is only twenty years of age and was, as a boy, already interested in the study of electricity and wireless telegraphy. Previous to the outbreak of the war, Pte. Andrew Mills had a wireless outfit erected at his home on Easton avenue, which sent and received messages for a great distance. The apparatus was taken down when he enlisted in the wireless service.

West Toronto TWELVE-YEAR-OLD BOY IS BADLY INJURED

Harold Rumbis, 205 Weston road, was run over yesterday, and lies unconscious in the Hospital for Sick Children with a fractured skull, a fractured arm and severe head injuries. X-rays were to be used this morning to ascertain the extent of the injuries.

Harold, who is twelve years of age, was playing on the street, at the corner of Keele and Dundas streets, with his brother, Stanley, when a car belonging to Mrs. McCann, 58 Humber street, and driven by Kenneth McPherson, C.A.S.C., knocked him down. Dr. Gardner was called, and the boy was taken to the hospital in the police ambulance.

Earls Court UPPER CANADA COLLEGE CADETS PARADE SUNDAY

The cadets of the Upper Canada College, Avenue road, paraded 108 strong Sunday morning to Deer Park Presbyterian Church, Rev. G. B. Macleod, minister. Capt. Sims and Lieut. Mitchell, McIntosh, MacDonald and Stow were in command. The cadets, who were in khaki, were accompanied by the regimental band and were drawn up in front of the church, where a large number of citizens were gathered. In the church reserved seats had been provided for the cadets.

An address was given by Capt. (Rev.) G. A. Gilmore, a professor of McMaster University and now chaplain at the Davielville Hospital. Capt. Gilmore was at the front in 1917 and did excellent work among the fighting forces with the Y.M.C.A. He told of the splendid heroism of the men in Flanders and what the Y.M.C.A. was doing in the line, and made a strong appeal to the congregation on behalf of the Red Triangle fund, for which \$2,250,000 is being raised.

The Upper Canada College cadets will be inspected next Friday in the grounds of the college at 2.30 p.m. Lieut.-Colonel MacPherson, No. 2 military district; Lieut.-Col. MacPherson and other officers will be present.

Beaches KIMBERLEY SCHOOL IS DOING GARDENING

In connection with the greater introduction of food campaign packets of vegetable seeds to the number of 1918 have been distributed to the pupils of Kimberley avenue school, East Toronto, by T. Brownlee, principal, and teaching staff, for growing in their home gardens within the last few days.

Owing to the nature of the ground, gravel and sand, surrounding the school, it has been found impracticable for vegetable production. As a school brooding 325 gardens were attended by pupils last year and a much larger number will be cultivated during this season and early and good results are anticipated. Kimberley School, which is a 17-room building, is full, having a roll of 495 pupils, with a staff of 19 teachers.

New Toronto BEAT UP CONSTABLE.

When Constable Daniels of New Toronto went yesterday afternoon to the house of a Polack there to make an arrest, he was set upon by three or four of the man's friends and badly beaten. Constable Daniels, George Simpson, accompanied by Constables Constable Myers and Dinis, at once tried to the spot and placed them in No. 6 Police Station. Later the day Constable Simpson arrested other men alleged to have been implicated in the row. The men's names: Victor Turren, Philip Walton, Tony Baronska and Alexander Szymanski. The men had been attending church downtown in the early morning, and came home under the influence of liquor and were drunk. Constable Daniels was the assailant of the Polack faith, yesterday was the anniversary.

Flight-Lieut. Con. Smythe Gets Red Cross Parcel

Word has been received by his father from Flight-Lieut. Con. Smythe, son of A. E. S. Smythe of Glenora avenue, that he is regularly in receipt of parcels from the Red Cross. The letter was dated March 18. He is in Blauenthal, Mark, Germany, near Berlin, which is one of the best prison camps in Germany. Lieut. Smythe is much pleased with his parcels and wishes to thank those who have made it possible for him to receive them.

BIG DEALERS CO-OPERATING.

C. J. Bodley, supervisor of the police, biscuit and candy section of the food board, who was in Toronto over the week end, stated that he found a general feeling of willingness on the part of the dealers to co-operate with the board regarding the new regulations. He stated that although there had been some misunderstandings they had been cleared up and no further trouble was anticipated. Mr. Bodley will meet the London and Western Ontario bakers today in London and the Hamilton bakers tomorrow at the Connaught Hotel.

RIVERDALE GARDENERS HAVE GOOD MEETING

A well-attended meeting of the North Riverdale Horticultural Association was held in Frankland School, Logan avenue, recently. James Law, president, occupied the chair.

Professor Simpson, Toronto University, gave an interesting treatise on the growth and cultivation of the gladiolus, and outlined the history of the flower from its introduction to the present time, and recommended everyone to grow gladioli in their gardens. A number of questions were answered by the speaker at the conclusion of the reading. Many members of the association were present, and the speaker said that while some people could get two and three vacant lots to cultivate, others could not get any. He said that instances were pointed out where the owners of lots are taking hold themselves for cultivating. This is a very good condition by the labor of the Rotary Club and put into fine condition by the labor of the Rotary Club.

A committee was appointed to interview George Baldwin of the Rotary Club in connection with the autumn show a committee consisting of a chairman, J. J. Smith, with three members, men and three women, was appointed to arrange a prize list for the best results in flowers, vegetables, fruit, preserves and pickles.

The license number had been taken from the motorcycle and thrown into the Humber river and another number taken from Percy McBride's garage on Yonge street and placed thereon. The side car had been left in the Humber woods.

Three applicants for membership were baptized at Annette Street Baptist Church last night, and the sermon was given by the pastor, Rev. W. J. H. Brown, on the text: "What Shall I Do?" He asserted that the man who doesn't worship God worships some idol and said that a prayer meeting would do more to quiet nerves than a spring tonic.

EARLS COURT METHODISTS' ELEVENTH ANNIVERSARY

Capacity congregations filled the Earls Court Central Methodist Church Sunday on the occasion of the eleventh anniversary of that church. Former pastors, Revs. Archer Wallace and Lloyd Smith, preached the anniversary sermons. Mr. Bryce said it was a great pleasure for him to announce that the congregations that day were the largest in the history of the church. There has been a steady growth and both financially and numerically the church is in a very satisfactory condition. On the North Earls Court branch church \$4000 had been spent, and \$2000 on the church at Riverhorse. Mr. Bryce expressed his thanks for the loyalty and self-sacrifice displayed throughout the year.

The sum of \$800 was contributed by the congregations at the morning and evening services in response to an appeal by Mr. Bryce for that amount, which was needed for the general fund, insurance, mortgage, and for other department of the church's work.

At the close of the service Mr. Bryce asked the people to stand and sing the national anthem as they were a prayer, which was responded to very impressively. Special music and singing was rendered by the choir.

Gentlemen:

I arrived in France, April, 1917, with one of your cars (Model D45 Touring). Up to now it has covered over 18,000 miles over all conditions of roads, some so bad one would never think of taking a car in private use.

It is only fair to you and your car that I should tell you that up to now it has given no trouble nor has it had any replacements except one plug and the carbon removed. The oil we are getting not always the best.

This statement is correct and will bear any investigation. Have had such pleasure with the car, compared with others, suggested it to me that I should write you this note, which may be of some use.

Yours sincerely,

Local activity on the French front has been chiefly to centre in Lorain. The French have raided the enemy positions quite frequently. The Americans have just raided the enemy positions there twice. The cannonading is at times intense. Since the impulse reached by the enemy against the British army, the German higher command is mad enough for any rash venture, and makes no attempt to achieve a success thru the better part of this opening in the defences of the French, however, is merely a trap. It proved the intention of the enemy in the opening phase of the war.

Emperor Charles of Austria-Hungary and his chief military officers have arrived at the Italian front and with the event has come an increased artillery fire. It is now supposed that the enemy will soon begin his offensive. The allied governments have strictly enjoined the defensive on their military leaders. This is for the purpose of sparing their men and of saving at the proper time a larger force available for striking back. If Austria is badly beaten she would appear about ripe for dissolution. She has lunged together much longer than anybody who knew her ramshackle conditions could have believed. The shortage of foodstuffs and the shortage of men combined have recently increased the internal strain.

The Austrians, if they go on with their offensive, will act from compulsion. Owing to the German failure in France and Belgium, Berlin has been increasing the pressure against Emperor Charles and his military chiefs to make the hazard. Owing to the internal distress among the Austrian people, public opinion has been increasing the pressure on the government to end the war. The allies, in electing to await the Austrian attack, have certain advantages. They have the political asset of showing the enemy as the aggressor and uniting the peoples the most strongly against his assaults. They have the military asset of defending their homes and of ability to check the enemy with force fifty per cent. their numerical inferior.

In Palestine the British have engaged the Turks in heavy fighting at Es-Salt. The Turks fought hard to drive the British out of this village, but in a 50-hour battle all their attempts broke down with heavy losses. British aircraft also attacked the Hedjaz Railway. The operations in Palestine are therefore achieving their object. They are a diversion. The object is to attract a superior force of the enemy by threatening an important political object. The loss of Jerusalem has impelled the pope to utter his opposition to any power seeking to restore the Holy City to the Turks. This declaration is a barrier to Germany.

The German peace offensive, which has broken out so suddenly as the German military offensive, is falling faster than any previous effort of the kind. The allied peoples are mindful of Russia and her catastrophe. Her eagerness to sign a separate peace was her downfall. The Germans have failed to drag the Pope into their manoeuvres. The Vatican has made it known that the pontiff will make no peace attempt at the present time. Two things are surprising about the arrival of a neutral banker as an enemy peace emissary in London. One is the effrontery of the thing and the other is the patience of the British people in enduring this man. He seemingly runs in peril of deportation as an undesirable or of incarceration or shooting as a spy.

Arrangements are being made to hold a public meeting under the auspices of the North Riverdale Ratepayers' Association in Frankland School, Logan avenue, in order to discuss and take action regarding the tie-up on the Bloor street viaduct and Pave Avenue car line, and other needs of the district.

Gentlemen:

I arrived in France, April, 1917, with one of your cars (Model D45 Touring). Up to now it has covered over 18,000 miles over all conditions of roads, some so bad one would never think of taking a car in private use.

It is only fair to you and your car that I should tell you that up to now it has given no trouble nor has it had any replacements except one plug and the carbon removed. The oil we are getting not always the best.

This statement is correct and will bear any investigation. Have had such pleasure with the car, compared with others, suggested it to me that I should write you this note, which may be of some use.

Yours sincerely,

FINLAND CLEARED OF RED PARTISANS

Germans Report Forces of Revolutionaries Surrendering—Firing in West.

Berlin, via London, May 5.—There was much artillery activity on the battlefield in France, but, according to the official report from general headquarters yesterday, the situation was without change. The statement says: "The situation is unchanged on the battlefronts. The artillery activity was spirited on various sectors throughout the night. In the Kemmel region and on both sides of the Aves it increased this morning to greater intensity."

"A British partial attack southeast of Arras was repulsed. The artillery activity revived before Verdun. "After unsuccessful reconnoitering thrusts by the enemy on the Lorraine front, the fighting activity during the forenoon was slight. At Parroy Wood and west of Blamont the firing revived during the afternoon, but died down again at nightfall."

"Yesterday we shot down twenty-five enemy airplanes and two captive balloons. Lieutenant Buckler achieved his thirty-third aerial victory and Lieut. Putter his twenty-second."

"Finland has been cleared of the enemy. German troops, in co-operation with Finnish battalions, attacked the enemy between Lakhti and Tevastus in an encircling movement, and in a five-days' battle, in spite of a bitter defiance and desperate at-

USING LAST RESERVES

German Authorities Are Sending Alsatian Youths into Front Line Trenches.

Geneva, May 5.—The German military authorities are sending direct to the front lines all youths from the reserve depots in Alsace-Lorraine, according to an Alsatian chemist, who has just arrived here from Mulhausen. The chemist already has lost four sons, the latest, aged eighteen, having been killed at Lore, in the Flanders battle.

"The Germans are employing their last reserves," said the Alsatian, "especially the soldiers from Alsace-Lorraine. It is the German manner of setting the question of the two provinces. If a referendum is taken after the war only a few Alsatian electors will be left."

PASTOR GOES FARMING.

St. Thomas, May 5.—Rev. D. Langill, pastor of the Fingal Presbyterian Church for the past five years, has resigned his pastorate, and leaves shortly for Manitoba, where he will engage in farming near Winnipeg.

ESTHONIA ASKS AID FROM BRITAIN

Balfour, Replying to Statement, Promises Provincial Recognition to Council.

London, May 5.—Delegates representing the Esthonian national council, or diet, recently laid before the British secretary for foreign affairs, Mr. Balfour, a memorandum dealing with the political situation in Esthonia, and asking for a favorable reception of the statement of their national aims and aspirations.

They have received a communication from Mr. Balfour to the following effect: "The British Government greet with sympathy the aspirations of the Esthonian people and are glad to reaffirm their readiness to grant provisional recognition to the Esthonian national council as a de facto independent body, until the peace conference, when the future status of Esthonia ought to be settled as far as possible in accordance with the wishes of the population."

In the meantime the British Government expresses willingness to recognize M. Pip, one of the delegates, as the informal diplomatic representative of the Esthonian provisional government.

HEAVY DRAFT OF MEN LEAVES FOR OVERSEAS

St. Thomas, May 5.—A draft of about 400 men under command of Major George C. King left here today for the east, and will later proceed overseas. This contingent, which was recruited in this district, just arrived in St. Thomas last Wednesday from Quebec, where they were on anti-conscription riot duty, and so were only in barracks here three days before they were ordered overseas.

Major King is a native of Kingsville, Ontario, but for a number of years has resided in Detroit. He went overseas with the 241st Battalion, and spent a memorandum dealing with the political situation in Esthonia, and asking for a favorable reception of the statement of their national aims and aspirations.

CALL MEN OF NINETEEN.

Actual Call to Colors Not Expected to Be Made Before July.

Ottawa, May 5.—Men of 19 years of age are to be called upon to register for military service. A proclamation to this effect will be issued shortly and it is understood, will provide that the men must register before June 1. None of the men will, however, be actually called to the colors before July. The proclamation will apply to unmarried men and widowers without children born since October 13, 1897.

The purpose of stipulating that the call shall apply to men born since October 13, 1897, is apparently to make it include all those who were nineteen years of age and not twenty when the first class was called out on October 13, 1917. The call will apply to those who have attained the age of 19 years and who were born on or before October 13, 1897, and are unmarried.

The men will be required to register after the postoffice, as was the case when unmarried men and widowers, between 20 and 24 years of age, were called up on Oct. 13 last. The men will simply give their names and addresses and such details as will permit full registration to be effected. The actual call to the colors will be received by registered post from the district registrar.

CALL ON WILSON TO SPARE IRISH

New York Celts Demand Rescission of Irish Conscription.

New York, May 5.—A demonstration under the auspices of the Irish Progressive League drew thousands to Madison Square Garden last night to hear the Irish question discussed by Celtic leaders, who desired they would place before the American people the question of Ireland's right to work out its own destiny.

In anticipation of possible disorder, in view of the protests that had been made against permitting the meeting to be held, the police detail at the garden was increased, but the meeting was without incident, aside from the vociferous applause which greeted some of the more emphatic utterances of the speakers. Government men-graphers were present, it was understood, to make a record of the speeches.

The audience adopted a resolution condemning conscription in Ireland as "a direct violation of the principle of national self-determination for which President Wilson says the American people have gone to war." Predicting that, in the present temper of the Irish people, conscription may threaten the very life of the Irish race, the resolution called upon the president and congress "to use their influence to have this action by the British Parliament reversed."

Blood Poison Developed

As the Result of Accident—Nerves Break Down After Three Weeks of Suffering—A Glowing Tribute to Treatment Used.

Kingston, Ont., May 5.—Blood poisoning seems to become more common from year to year, and the death of it is ever on the increase. In the case reported here the doctor did not seem able to get rid of it, and after three weeks of suffering the patient was almost a nervous wreck. Mrs. Susie Thompson, Smith street, Kingston, Ont., writes: "Early in the fall of 1916 I had a painful accident. I ran over my thumb nail, and neglected having it extracted. My thumb festered very badly, in fact my arm was fearfully swollen up to the elbow. It developed into blood poison, and the doctor lanced it several times, but it failed to get better. With the intense pain and loss of sleep I became a nervous wreck. After following the doctor's orders for three weeks and not getting any benefit, I wrote my mother about it. By return mail she sent me a box of Dr. Chase's Ointment. The very first application eased the pain, and I slept that night quite easily. I kept using the Ointment regularly, and by the fifth day the swelling was gone, and also the inflammation. "During this time I had become so weakened and run down that my whole nervous system seemed affected. I was very nervous and restless, appetite became poor, and I had frequent headaches. I decided to try Dr. Chase's Nerve Food and had the same splendid results from this as from the Ointment. Using the Nerve Food internally built up my system and made me strong, while using the Ointment externally healed my sore thumb. I am now quite well, thanks to your wonderful remedies—the only regret I have is that I did not begin using them earlier, and saved myself months of suffering, to say nothing of doctor's bills. "Dr. Chase's Nerve Food, 50 cents a box, a full treatment of 6 boxes for \$2.75, at all dealers, or Edmanston, Bates & Co., Limited, Toronto. Do not be talked into accepting a substitute. Imitations only disappoint."

LONG-SERVICE SOLDIER IS DEAD IN TORONTO

The death occurred suddenly yesterday morning about 9 o'clock at his residence, 461 St. Clares avenue, of Charles D. Wilson in his 81st year. He was one of the oldest members of the H. M. Army and Navy Association. He served in the 42nd Highland Regiment, the celebrated "Black Watch," throughout the eastern campaign, and was present at the battles of Alma, Balaclava, the siege and fall of Sebastopol, and also served in India during the mutiny, and was present at the battle of Chawngore and the siege of Lucknow, and also served thru many other engagements. He was born in Edinburgh Castle in April, 1837, and came to Canada over 40 years ago and located in Toronto, where he was employed in the Bank of Ontario for a number of years and afterwards in the Bank of Montreal, where he remained for 25 years up to 12 years ago, when he retired from active life. He is survived by his widow, one daughter, Mrs. Joseph W. Barker, 30 Hewitt avenue, Toronto, and one son, in Philadelphia. The funeral will be held Wednesday at 2.30 o'clock.

ST. PAUL'S CONGREGATION HEARS OF Y.M.C.A. WORK

Taking as his subject "The Romance of the Red Triangle," G. A. Warburton, representing the Dominion Y.M.C.A., addressed the congregation of St. Paul's Anglican Church last night, and gave a graphic account of the work done by the Y.M.C.A. among the soldiers of the allied armies. The military work of the Y.M.C.A., now done by the branch known as the Red Triangle, had first begun at Niagara Camp, in Canada, in 1914. In the United States the idea of Y.M.C.A. military work was copied from Canada at the time of the Spanish-American war. During the present year \$75,000,000 was being gathered for Y.M.C.A. work among the allied troops. The fact that when the soldiers returned from the war they would have altered views regarding religious denominational distinctions, owing to the co-ordination of the various chaplains in their work at the front, was drawn attention to by Mr. Warburton. He said he didn't believe in the destruction of denominationalism, but he did believe in the abolishing of narrow bigotry.

NEW FORM OF GAS USED BY GERMANS ON PICARDY FRONT

With the American Army in France, May 5.—What is probably a new German liquid gas was projected this morning against the Picardy front where American troops are fighting.

The gas, in its fluid form, is contained in glass bottles. On bursting they give off some substance from which heavy white fumes, transparent in texture, continue to arise for five minutes.

No detonation was heard as the heavy gas was hurled thru the air and apparently they were thrown by a spring. The gas caused nausea, sneezing and coughing, but did not harm any of the Americans.

MONDAY MORNING, MAY 6.

What We Need to Win.

Very much depends on the United States producing what is expected of her in men, food and ships. In war only certainties enter into calculations up to the critical point. Beyond that there may be bluffing and guessing, as well as mistakes and failures, but good generals and good general staffs do not manage things that way. The United States is the allied reserve. When Russia dropped out of the war defeat started the remaining allies in the face. We do not think it is written in the eternal records that the allies are to be defeated, but they are expected to fight for their principles, and will be helped as they help others.

Since the United States has undertaken to supply the default of Russia, and the fidelity and diligence with which she takes Russia's place will determine the length of the war. On Friday last some disclosures were made of the war activities of the republic, but the whole truth will not be revealed. The main effort at present is to get men across the seas. One man describes the Hudson as black with transport. The World has information of as many as 27 sailing in one night. We believe there are not fewer than a million of the "dough-boys" across the ocean now, and good authorities on the other side talk about 3,000,000 for the fall.

But this is what is hoped for, and cannot apparently be definitely reckoned upon. The Washington war department has been notoriously slow in many respects. Men were not called up as fast as they should have been last year, because, it was said, their equipment and clothing would not be ready. The rifles were not ready because the war department emphasized, and political forces have been irritated, while the natural instincts for peace of the habitant have been cultivated and encouraged by talk of a foreign war and unnecessary intervention by Canada.

There has always been a minority in Quebec which understood the situation and endeavored to make it clear to their compatriots. Their efforts are being rewarded, and the young men of Quebec, beginning at last to realize the gravity of a situation which requires compulsory service without exemptions, are responding as they might have done at first, but for the manner, to adopt Dr. Crozier's suggestion in regard to Ireland, in which the proposals were brought forward. Had the Militia Act been set in motion as soon as voluntary enlistment was shown to be inadequate, many grave difficulties would have been avoided. As it is, the heroism of the volunteer regiments from Quebec was second to none.

There is a feeling in many quarters that the war will not be over until everyone has contributed his share to it, and that this is not to be regarded as due to social or political or any other partial aspect of human affairs, but rather to deeply seated currents belonging to the very nature of things. War is a fever, and while former wars have been restricted and represent but local inflammations, the present war is a universal malady by which the whole human organism is affected. No man and no nation can stand apart and say that the poison has not entered his system. The virus courses thru every vein, poisons every cell, and sets the whole body in all its constituents in fierce conflict. The Destroyers and the Builders are met to determine whether the body is to cease to be as an organized entity. It is vital that each man take his place in such a struggle. Happy is the man and fortunate the nation that sees the clear, straight path of duty.

There are other elements that are being relied upon by some observers to bring about a Teutonic defeat otherwise than by a decision in the field. Of these only three seem of any importance. They are the reorganization of Russia, which may be put aside as Russian lines, which is surely incredible, and famine in Germany which might send the people to a revolt, which would be out of the question for merely political reasons. None of these things can be seriously counted on by the military authorities. Superior force in the field is the only thing on which General Foch can put his trust as a soldier. As a man, like the rest of us, he has other resources, but the enemy must be met cannon with cannon, airplane with airplane, division with division, and, finally, brains with brains. In the last analysis, he must win the war, and the Germans are short of both.

Quebec is Joining In.

Considerable weight should be given to the statement by the Primate of All Ireland, Dr. Crozier, that the Vatican has had nothing to do with the consolidation of the Sinn Feiners and the Nationalists against conscription. "There is enough to account for it here in Ireland," he says, "without going so far afield." And he adds, "The manner in which the conscription proposal was brought forward was calculated to produce anything but the desired result." Archbishop Crozier knows Ireland as well as any man. A southerner by birth, he came to Ulster about 1876 as curate of the new working class parish of St. Stephen's, Millfield, Belfast, in which he was followed by his deeply respected brother, Rev. Henry B. Crozier, when he went to St. Anne's, under the vicar of Belfast, Dr. Hannay, father of Canon Hannay, "George Birmingham." Dr. Crozier became prominent Orangeman in those days and has continued ever since, as vicar of Holywood; bishop of Ossory, a southern diocese; bishop of Down and Connor and Downpatrick, which brought him back to Ulster and finally as Primate of All Ireland.

With his vast experience of the country, his breadth of understanding, his executive ability, and his mellowed wisdom, there cannot be too much importance attached to his declaration on the general question. "Upon the subject of home rule," he states, "I am one with Cardinal Logue in standing for an ideal, or 'all Ireland from Cape Clear to the Giant's Causeway.' My heart's desire is to find some scheme which will gratify the legitimate aspirations of the Irish party, allay the fears of the Southern Unionists, and win even the reluctant consent of northeast Ulster."

Similar testimony to that of the Archbishop on the question of conscription comes from Australia and Quebec, and observers on the ground declare that in both countries as well as in Ireland the objections to conscription were due to local causes. That the Roman Catholic population in each case has been identified with the opposition is a coincidence to the same extent that the opposition of the labor element in each case is a coincidence. Labor in general elsewhere is not against conscription. Lord Denbigh's letter shows that the Hierarchy in England is not in sympathy with the Irish Hierarchy on this issue.

There has been a most gratifying change in Quebec on the matter, and the reports of enlistments from the eastern province give rise to hopes that a clearer understanding of the situation both in Ireland and Australia will lead to a similar fulfilment of patriotic duties.

SEEKS TO JUSTIFY FORCE IN UKRAINE

German Vice-Chancellor Says Assassination of Officers Was Planned.

SEIZED FOODSTUFFS

"Our Activity," Says Minister, "Has Caused a Certain Amount of Discontent."

Amsterdam, May 5.—The imperial German vice-chancellor, Friedrich von Pappe, speaking before the main committee of the Reichstag yesterday, attempting to justify Germany's use of the iron hand in Ukraine in the past few days, where, he declared, prominent Ukrainians, under the title of the committee of safety, had been caught planning the assassination of all German officers, or, as the vice-chancellor phrased it, "a sort of Sicilian vespers." (Sicilian vespers is the term given to the massacre of the French in Sicily by the Sicilians, which began at Palermo on March 30, 1322; so-called from its commencement at vespers on Easter Monday. The populace ran thru the city crying out, "Let the French die," and 3000, without distinction of rank, age or sex, were killed.)

Von Pappe declared, according to Berlin despatches, that the membership of the committee of safety included several Ukrainian ministers and that the committee held its meetings at the house of the war minister. "Our activity," he added, therefore "took steps to render them harmless."

Had to Use Force. "The Germans entered Ukraine," said the vice-chancellor, "at the express wish of the Ukrainian government for the purpose of restoring order. But there were also other reasons. The Ukrainians were getting foodstuffs as speedily as possible. The general idea then was that great quantities of foodstuffs could be sent to the Ukrainians, and Ukrainians undertook to deliver at least one million tons by August 1. The idea, however, had no means of insuring the delivery of the grain by the population. The Germans, therefore, had to concern themselves with obtaining deliveries in accordance with the treaty."

"Our activity in this direction has been to a certain extent a source of discontent. The recent reorganization of the Ukrainian government has nothing to do with the foodstuffs. General von Elchorn (commander of the German army group in Russia) relative to the sowing of crops, nor with the arrest of members of the committee of safety. "The field sowing decree was issued because opposition to the proposed land expropriation created a serious situation. The Ukrainians were unable to fulfil their obligations towards us."

"The interests of our people, therefore, were at stake. The Ukrainian government was powerless to fulfil its obligations towards us. The decree addressed to the Ukrainian people, but to the German military authorities. "Measures have now been taken to insure the affairs of political importance of our military commanders must only act in collaboration with the German minister."

As regards the arrest of members of the government in the rada—on the night of April 21—Director Doby of the delegation in Kiev, and a member of the rada, were arrested. They were arrested by three armed men, who declared they acted on the instructions of the committee of safety. This committee pursued an anti-German tendency, and several Ukrainian ministers belonged to it. They went so far as to aim at driving the Germans out of their country and the arrest of order of personalities already mentioned."

According to a Berlin official statement on May 2, the Germans established military rule in Kiev, the Ukrainian capital, and placed under arrest numerous officials of the government on the ground that "the government has proved too weak to maintain law and order." The Ukrainian Government officials arrested included the minister of the interior, the chief of the foreign ministry and the commander of the local militia.

Dublin's Lord Mayor To Visit Washington

London, May 4.—The Dublin correspondent of The Express quotes the lord mayor of Dublin as saying in an interview that he was expecting to receive passports any day for a visit to Washington.

A WAR RATION OF CROW FOR CHARLES

THE WOMAN WHO CHANGED

BY JANE PHELPS

My First Sitting. I liked talking to Clark Huntington. His easy carelessness was restful. The levels of his mental processes made talking to him a pleasure. He was rather witty, a good story teller, without demanding an incessant flow of humor from me. He enjoyed appreciation, tho, and that I gave freely and honestly. If he was a bit egotistical, a bit inclined to emphasize the I in talking, I was so accustomed to that quality in George that I never dreamed of resenting it in any one. So this afternoon he entertained me by recounting his experiences when he sat for his portrait. The artist was a woman, and he said he never was so nervous in all his life, until she threw down her brushes and palette in disgust and asked him to have some tea. Then after they had become better acquainted, had chatted for half an hour, she tried again. "It went better that second time," he assured me, encouraging me so that I might expect my next sitting to go much more smoothly than the first one. "Just forget you are sitting for your portrait; pretend you have only dropped into Gray's studio for a call." I told George of his call at dinner, also of what he had said about my next sitting. George is Amused. "So you did not accomplish anything, today," he observed, frowning. "I might have known that you would be upset over anything new or different," he went on caustically. "I should have asked Mrs. Sexton to accompany you."

Ottawa, May 5.—A further list of names of men who will act as registrars when the new registration of men and women power throughout the country is taken, has been given out by Senator Robertson.

According to a Berlin official statement on May 2, the Germans established military rule in Kiev, the Ukrainian capital, and placed under arrest numerous officials of the government on the ground that "the government has proved too weak to maintain law and order." Baseball Leafs Need Strengthening U. of P. Won Cricket By 5 Lengths U.C.C. and S.A.C. Play Draw Games

THE LEAFS NEED SOME PLAYERS

Ida Says Present Outfit Will Make Sorry Showing in New League.

UNLESS DAN'S A MAGICIAN

Critical Review of Saturday's Exhibition Baseball Game at Hanlan's.

By Ida L. Webster. There is no use kidding around any longer with these hapless baseball players, because the season is due to open in a few days, and Toronto has practically nothing to open with. Howley is doing wonders with the material put at his disposal, but there is a lot of it which could not be used by the Leafs.

Dan Howley may be a wonderful manager, and we think that he is, but he would need to be a magician to make any kind of a showing with the crew that he now has tied to him. Unless this new International League is going to be on the same footing as the Southern Atlantic, the Toronto club, from their present standing, will not have a look in the competition, and also most unnecessary, because in spite of the war still any number of good ball players for sale, and with the patronage given the club in this city there can be no excuse for not getting them.

Saturday's exhibition game was almost pitiful, when one remembers that the Leafs were stacked up against a team of semi-pros, and at that it was the first day out for most of the visitors, so only heaven knows what would have been in condition. The fact that Bailey, of Boston, was not in the line up makes very little difference, unless the gentleman intends to show more speed for Howley than he has for Stallings. There have been numerous cases of men being coming actual stars after getting out of the Stallings club, so that while there is life there is hope.

Alchele was the pick of the recruits on his Saturday showing, and there is no doubt but what this boy will soon be a wonderful pitcher. Right today he is equal to a position in this league, and his work will be sure to keep on improving. Red Fergus, another who deserves mention, and who is well within his class. His arm is very strong, and he has been for the last few days, but he gave very little indication of the fact while on the field. He has a nice batting eye, but he could stand a little more speed on the base-running end of it. Of course, Red is a remarkably big fellow, and one cannot expect him to make the circuit like Tait would, but Dan would do well to keep the young giant chasing around that old field for the next couple of days.

Wagner was our latest addition, and there can be nothing said against him so far, but give us time, and you cannot tell what we will be able to say. However, there is little likelihood of any complaints. Joe knows the game from the ground up, and the hits, fields and runs well in fact, just to show the fans the sort of a guy he is he hit a home run into the left field bleachers with a couple on. Not only did he wallop the old pill for a homer, but it took three men to find the ball when it did eventually light. Then he pitched a fairly good game, but he was not properly warmed up, the cold weather on Friday having been hard on his arm, but just the same he was "there" and when it finally gets warm he will be found ready, and waiting to go. As for "Bugs" he did a pinch-hitting trick, which was very won-

derful, and incidentally cost the Toronto Ball Club the price of a new hat. It could be truthfully stated that he was the only player on the field who received an ovation, but then the whole world is the possessor of a very good souper, and a surplus supply of pep. Dan as usual was full of the old ginger, and did his honest best to keep things alive, showing encouragement to his various "wards," particularly the ones most inclined to fall down, but it was a tough job, and no mistake. Acheson lived up to expectation at third, also he is not exactly a knockout at the bat. However, that may come.

Willie Kyronen Won Modified Marathon

New York—May 4.—Willie Kyronen, the Finnish distance runner, was an easy winner of the eighth annual modified marathon race from the Bronx to the city hall here today. The distance of the course, which was laid thru the principal streets and avenues of the city, is about 12 1/2 miles, and the winner covered it in the excellent time of 1:10:20, duplicating his victory in this contest two years ago. Charles Pores of the Pelham Bay Naval Training Station, finished second, and Hannes Kolehmainen, Mischovood, A. C. Philadelphia, the veteran Finn runner, was third.

LAWN BOWLING IN GUELPH

Guelph, Ont., May 4.—Plans of the local bowling season were discussed by the executive committee of the Guelph Lawn Bowling Club tonight. It was decided to revive competition of the Kelly Evans Cup. The competition is open to the clubs of South Wellington, which comprise Erin, Fergus, Elora and the Guelph club, and the cup is now held in this city. The committee will make a rule that no players in the two winning trophies will have the opportunity of playing for a second time until all players in the club have had a chance to compete. The arrangements for the Plumber's and the other competitions were left in the hands of the games committee. The greens are being put in shape rapidly and it is expected that the opening will take place in about two weeks.

U. C. C. IN DRAW WITH OLD COUNTRY

Good Individual Scores in Well Contested Cricket Match on Cold Day.

Upper Canada College opened the cricket season on Saturday, having for opponents Old Country. The afternoon, the sunny, was hardly warm enough. Nevertheless all concerned agreed that the match was splendidly contested. Both teams fielded smartly, but some chances of catches were missed owing to cold hands. Old Country batted first and made 99 runs, obtained against very good bowling and fielding. The college responded with 71 for six wickets, of which Hardaker had 20 and Macdonald 41 not out, both batsmen making really excellent showing against such fine bowlers as McKinnon and Green. Greatest Bicycle Run Sunday to High Park

What is claimed to have been the greatest bicycle run ever held on this continent, in point of attendance, was the one held in Toronto on Sunday morning, when 725 cyclists participated in a "Health Jamboree" to High Park. The largest tour for bicycles held in Toronto last year brought out slightly more than 400 cyclists, and the latest ride easily eclipsed this and other previous events.

Many old-timers were seen in the column which stretched more than a mile along the streets. In the lead were several women in feminine attire, and a number of soldiers-cyclists. The Toronto Cyclist Corps, many local clubs were also represented, the largest turnout for these organizations being that of the Swift Bicycle Club, which had an attendance of 125 members. The Victoria club of West Toronto turned out 42 strong, and the club in line were the Broadway, Macdonald, Toronto, Queen City, Classic and Kitchener bicycle clubs. The Brantford Bicycle Club of Brantford, Ont., was represented by R. E. Coupland, while the Montreal Bicycle Club, the second oldest bicycle club on this continent, was represented by Fred St. Onge, the widely-known pro. because of one of the players shooting a foul shot at the time of the game, the Toronto Association could be suspended. Smith, however, assured him that the executive would handle the matter from its individual standpoint, and the league or association would not be blamed.

J. FOX, E. McINTOSH AND M. HATCH, WINNERS IN MOTORCYCLE TESTS

Several hundred motorcyclists of Toronto and Hamilton travelled to Inlington yesterday afternoon for the local tests of the international conservation trials, which were staged in many cities throughout the United States and Canada. Exactly fifty local motorcyclists, including two cyclists, participated in the three classes. The tests were held on a 15-mile course, extending from Inlington thru Burnhamthorpe, down to Cooksville and back.

The winner of the solo heavyweight class was J. Fox, who covered forty miles on the required quart of gasoline. Second man in this class was James McNeil, a returned soldier, who travelled approximately thirty miles on a quart of gas. Percy A. McBride took third place on a quart. G. Sarridomka finished twenty-five contestants, the winner being Ernest McIntosh, who rode twenty-five miles on a quart of gas. The winner of the solo class, finished second when he made twenty-four miles on a quart of gas. Gold, silver and bronze medals will be given the three best in both the sidecar and solo heavy-weight classes, while silver and bronze medals will be given the first two in the lightweight division.

Tens of Thousands of Mines are Laid

British Complete Laying Largest Field Since the War Began.

London, May 5.—According to Archibald Hurd in The Daily Telegraph the area in the North Sea recently announced by the British Government as prohibited as dangerous to shipping after May 15 will be the greatest mine field ever laid for the special purpose of felling submarines. It will embrace 121,782 square miles, the base forming a line between Norway and Scotland and the peak extending northward into the Arctic circle.

Archibald Hurd, who is an authority on naval subjects, says that there has been a vast improvement in British mines since Admiral Jellicoe became first sea lord. Hurd points out that the creating of this barrier across the northern exit of the North Sea was an enormous task, involving 12

HEROIC DEEDS WIN HIGHEST DECORATION

Victoria Crosses Conferred Upon Five—Three Recipients Make Supreme Sacrifice.

London, May 4.—(Via Reuter's Ottawa Agency)—Acts of almost superhuman heroism characterized deeds for which five Victoria Crosses have been awarded. Three of the recipients are dead. The following instances are typical:

Second-Lt. B. O. Cassidy, late of the Lancashire Fusiliers. During the hostile attack when the flank of his division was endangered, Cassidy, who was commanding a company in close support, carried out in the noblest manner and to the letter orders that he must hold the position to the last. The enemy came on in overwhelming numbers, endeavoring to turn the flank. He, however, continually rallied his men under a terrific bombardment. The total security was forfeited if the company was broken up. Cassidy, who was eventually surrounded, but Cassidy fought on, encouraging and exhorting the men until he was killed. His most gallant conduct held up the whole attack at this point and undoubtedly saved the left flank from possible disaster.

Private H. Columbine, late of the machine gun corps. Owing to casualties, Columbine took command of a gun and kept firing from nine in the morning until he was killed in the afternoon, in an isolated and unwired position; beating back successive enemy waves. An attack by a low-flying airplane finally enabled the enemy to gain a footing in a trench on either side. The position being untenable, Columbine ordered the two remaining men to get away and, the bomb-bearer either side, he kept on firing the gun and inflicting tremendous losses. He was eventually killed by a bomb, which blew up both him and the gun.

JUSTICE DEPARTMENT HAS JURISDICTION

Ottawa, May 5.—The passing of the order-in-council cancelling certain exemptions from military service has apparently created some misapprehension as to responsibility for administration of the act. Men whose exemptions have been canceled are called to the colors, it is pointed out, by the machinery established by the military service council in the same way as men are still called who have been refused exemption by the tribunals.

It is not until men have been notified to report for duty and the day arrives when they report that they pass out of the jurisdiction of the department of justice into that of the military authorities.

Up yesterday the number of men made available for service under the Military Service Act was 50,205. As periods of exemption expire the number (apart from those made available for service by cancellation of exemptions by order-in-council) is increasing daily.

Two Women Nearly Suffocated By Inhaling Illuminating Gas

Mrs. Friswell, 65, aged 65 years, and Martha Taylor, aged 60 years, were removed by the Western Hospital Sunday evening by the police ambulance suffering from the effects of suffocation by inhaling illuminating gas. It appeared they rented rooms at 86 Oakmount road and were in the house alone and in some manner the gas heater became turned on. One of the women managed to reach the window and called out to the neighbors, and Kenneth Rose of 50 Oakmount road and Arthur Moysie of 53 Oakmount road broke into the house and turned off the gas and afterwards notified the police. Their condition is considered serious.
