All we ask is for you to come and see the goods. To see is to buy. It is a simple matter. You simply write to us for samples of what you would like to have—a postcard will do it. We send you a collection to choose from. ### Footwear for the Little Folks.

Even the smallest child receives consideration in the selection of our stock of Boots and Shoes. We pay special attention to the needs of the little folks, which may be best seen in our large assortment of Children's Footwear—a stock in itself larger than you'll find in many complete boot and shoe stores. As many as eight salespeople in the children's section, and all of them experts in this particular line. That's why we can always satisfy those who come for Children's Shoes. It would be impossible to tell of every line, so we'll let these few suggestions speak for the whole section.

Babies' Moccasins, in black, wine or coffee colored kid, very pretty, sizes 1 to 4, at .....	25
Babies' Buttoned Boots, in black or coffee colored kid, with kid soles, soft and pliable.....	45
Infants' Vici Kid Boots, lace boots, fancy stitching, no heel, best make, sizes 2 to 5 .....	1.00
Infants' Chocolate Colored Kid Boots, laced, new design with fancy plain top, sizes 2 to 5, at \$1.15; sizes 5 1/2 .....	1.25

This is as much a store for the children as it is for the grown people, and their wants have been just as carefully looked after. In Clothing needs of every description we carry a full assortment—much larger than you think—and less to pay than you'd expect. It pays big to investigate.

### Ladies' Cotton Underwear.

Those who know and those who are in a position to make comparisons give us credit for having the most complete and best selected stock of Ladies' Underwear. Not only that, but they say that here styles and qualities are far better for the money. No wonder ladies come here in increasing numbers for their underwear needs. Every sale is a trade winner—that's our recompense for the care exercised in gathering the stock. These suggestions for spring buyers :—

White Cotton Skirts, 4 yards wide, deep frill, fine embroidery.....	1.35
White Cotton Corset Covers, 32 to 40 in bust measure, pointed yoke of insertion and embroidery.....	28
White Cotton Skirts, 3 yards wide, 1 cluster tucks, deep frill of cambrie.....	65

It may interest you to know that we have Ladies' Night Gowns as high as Ten Dollars and Skirts at Fifteen Dollars. ### THE RUSSELL ELECTION.

The Globe is extracting a great deal of  
comfort out of the Liberal victory in  
Russell. The fact that a Liberal was  
elected in this constituency is regarded as  
settling the destiny of the Hardy  
Government. To use the Globe's own  
expression, "Russell is a settler." The  
election in Russell really signifies nothing  
as far as the stability of the Hardy  
Government is concerned.

(1) Their liability under section 37 of  
the Companies Clauses Act of the Do-  
minion.

As to the first, the solicitors have ad-  
vised that the directors are liable, some  
more and some less, for the wrongful  
payment of dividends. This liability  
amounts to more than \$300,000 at least.

The liquidator company is seeking to  
have the directors acknowledge and pay  
this sum without legal proceedings.

(2) Their liability for non-fraud and  
malfeasance, that is, for fraud and  
breach of trust under the general law.

(3) Their liability under section 37 of  
the Companies Clauses Act of the Do-  
minion.

As to the second, the solicitors have ad-  
vised that the directors are liable, some  
more and some less, for the wrongful  
payment of dividends. This liability  
amounts to more than \$300,000 at least.

The liquidator company is seeking to  
have the directors acknowledge and pay  
this sum without legal proceedings.

There is some anxiety lest, under the  
wide powers of the Wind-up Act, a  
compromise may be made which will  
stop recourse against the directors under  
the other heads of liability. This fea-  
ture is, doubtless, increased by the close  
relationships of the persons concerned in  
the liquidation. But even if such a dis-  
position existed, the fear of public  
criticism may be trusted to bark a pre-  
judicial arrangement.

The solicitors have still under con-  
sideration the liability of the directors  
under the second and third heads. For  
some acts under the second head, the  
company (represented by the liquidator)  
are the real measure of the Hardy  
Government's popularity in Russell. The  
directors and the solicitors would  
have different rights. The solicitors are  
only concerned to determine the rights  
of the company. It is not possible to  
know whether the company will be  
able to meet its obligations. The  
directors should be advised well in advance  
for the "cut rate" matinees.

The facts really go to show that the  
wave of unpopularity is still rising  
against the Government, and that the  
day of reckoning is not far distant.

### THE HUDSON BAY PROJECT.

The Railway Commission, in making  
its first announcement to the public,  
seems to lay it down as a postulate that  
the proposed Toronto and Hudson Bay  
Railway involves the construction of a  
completely new line from Lake Ontario  
to James Bay. According to the com-  
missioners, it is proposed to build a  
line via Timmins.

It is proposed to build a branch line from Temiscaming  
to North Bay. What the commission  
therefore recommends is the extension  
of the Grand Trunk's North Bay line  
to Temiscaming, and the construction  
of a new and parallel line from Toronto  
to the same point. We are to have two  
lines to Temiscaming, which is  
midway between Toronto and Moose  
Factory, and one line from Temiscaming  
to the latter point. If one object is  
merely to develop the industries of Hud-  
son Bay, it is surely superfluous to have  
two parallel lines, even for half the dis-  
tance. A single line between Toronto  
and James Bay will be quite enough to  
take care of the business for 10 years to  
come. At any rate, one line is sufficient  
until the business is large enough to  
warrant the construction of two lines. It  
has become a well-recognized principle  
that no Government or municipality is  
justified in financing a railway unless it  
is designed to serve local business.

We take it, therefore, that the  
city of Toronto will lend no encor-  
agement to the duplication of a line  
to Temiscaming, as far, at least, as  
the Hudson Bay trade is concerned.

The city of Toronto will, however, be  
likely to develop the industries of Hud-  
son Bay, and it is as well to have  
two parallel lines, even for half the  
distance. A single line between Toronto  
and James Bay will be quite enough to  
take care of the business for 10 years to  
come. At any rate, one line is sufficient  
until the business is large enough to  
warrant the construction of two lines. It  
has become a well-recognized principle  
that no Government or municipality is  
justified in financing a railway unless it  
is designed to serve local business.

The commission has outlined, it must be  
on other grounds than those put forward  
in connection with the Hudson Bay  
trade.

A parallel line to Temiscaming is no  
doubt a coming certainty, but its con-  
struction is justified, not because of the  
Hudson Bay trade, but because the  
C.P.R. finds it necessary to have such  
a line in connection with its business.

The C.P.R. has already decided to con-  
struct a line from Sudbury to Toronto.

Surveyors are now in the field, and a  
large portion of the route is located.

### REBELLION TALK IN CHINA.

Officials in Hunan Province Said to be in  
Conspiracy to Overthrow the  
Manchu Dynasty.

London, March 19.—A special despatch from Shanghai, received here to-day, says a conspiracy, with the object of bringing about revolution, has been started by Chinese officials in the provinces of Hunan and Kiangsi.

The Czar, according to a special despatch from St. Petersburg, has issued an order increasing the ordinary naval expenditure of 3,000,000 rubles yearly for six years, to meet the expenses of the war with Japan. The Peking authorities are cognizant of the fact, and are awaiting the arrival of the naval supplies before they are prepared to pay the interest on the new loan.

The conspirators are said to have approached British subjects with inducements to join in the rebellion, which they have also offered to the French.

The Czar, according to a special despatch from St. Petersburg, has issued an order increasing the ordinary naval expenditure of 3,000,000 rubles yearly for six years, to meet the expenses of the war with Japan.

It was an important Cabinet conference this morning, in continuation of yesterday's discussion of the Chinese question. It is to be expected that the Czar will issue an order to his foreign ministers to give guarantees that the warships of the world will be free entry into Peking.

Argentina.—British Ambassador has been ostentatiously acting at the instance of China.

### France and the Chinese Loan.

Paris, March 19.—A semi-official statement has been issued saying that there is no likelihood of war between France and the French Government in China and the Chinese loan. The French demands remain as they were, and the negotiations were immediately suspended.

The San Martin, belonging to the Argentine Republic, and the battleship General O'Higgins, belonging to Chile. The San Martin was originally built for the Italian Government, and was known as the Varese, but since her purchase by the Argentine she has been renamed.

Active War Preparations Continue.

Both the Navy and War Departments are continuing active preparations for emergency and war in all branches of armament are being made daily by the various bureaus.

The Navy Department of Ordnance has contracted for 4,500,000 pounds of brown powder, which is probably the largest single order ever given. This was followed by another contract for 2,000,000 pounds, and the negotiations were immediately suspended.

In the meantime, the navy department has almost given up, but cables received to-day from Commander Brownson, now in Europe, make the outlook more encouraging, as to the closer date of war.

There is no occasion to threaten or menace China with the forcible seizure of a cooling station.

FARMERS' LOAN MORTGAGES

Alleged Unfair Treatment of Mr. McLaren's Tenders on Which He Spent Several Hundred Dollars—Whilst Ratification is Postponed Central Canada Gets the Purchase—Mr. McLaren's Grounds of Complaint.

Mr. McLaren of Ottawa complains of the treatment he has received at the hands of the liquidators of the Farmers' Loan Company in respect of the sale of the first lot of his company's mortgages. The following are the facts:

The transaction and its results.

The company advertised for tenders for the purchase of \$103,498.08 of farm mortgages to be paid in by the 12th of Feb., 1898. The mortgages were secured upon farm lands from Prince Edward County to Bruce. Acting upon the assumed good faith of the tenderers, the company accepted tenders for the mortgages, property being property valued. In this way he spent several hundred dollars. On the 12th of Feb., he put in a claim for the same amount of mortgages in question for \$90,000. The offer was brought before the Advisory Committee of the Farmers' Loan Company, and the liquidator was advised to accept the same and the only offer was rejected.

Reserve Formal Ratification.

On the 28th of Feb., Mr. McLaren's offer was rejected, and it was informed that Mr. George Cox, a member of the Board of Directors of the liquidator company, had been approached, but that the Master-in-Ordinary had not been consulted.

On the 1st of March the liquidator telegraphed: "Offer of \$90,000 has been rejected. Master will accept the same if you will increase McLaren's offer. Please reply by telegraph."

The liquidator agreed to let matter stand Monday to give an opportunity of communicating with Mr. McLaren, who resides in Ottawa. The same day the liquidator telegraphed: "Master may accept the same if you will increase McLaren's offer."

Before the Master-in-Ordinary.

In the meantime a meeting was held between the Master-in-Ordinary and the liquidator to discuss the terms of Mr. McLaren's offer. The Master-in-Ordinary had been approached, but that the Master-in-Ordinary had not been consulted.

On the 14th of March, Mr. McLaren telegraphed from The Waterfront that the mortgages he had purchased by the Central Canada Loan and Savings Company, of which he is a member, had been sold to us. We have stated, Mr. Cox is also a director of the Toronto General Trust Company, and the Master-in-Ordinary, as well as the ordinary solicitors of the Trust Company, had intimated that all the parties need not have another exposition.

The Unfair Treatment.

Mr. McLaren feels that he has been unfairly treated, and that, though proper in time and form and amount, was hawked about in private to provoke a higher bid. After the offer was given, it was after he had been told of its acceptance. The liquidator had no hand to accept it, but it should be on just grounds of business, he has been accepted or refused business.

Whom Rests the Blame?

Mr. McLaren, in his statement of the Master-in-Ordinary, and two of the Advisory Committee members, have tendered their apologies for the conduct of the liquidator, and his indignation at a course which he terms unfair, dishonorable and unbusinesslike and the effect of preventing respectable firms tendering for other blocks of mortgages.

A SOLDIER'S STORY.

Mr. GEO. KINGSTON, who resides at 136 John St., North, Kingston, Ont., is a retired British soldier, who served in India, and through Afghanistan, Central Asia and Russia, in the fighting and capture of Magdala, in which King Theodore of Abyssinia lost his life.

The hardships of the Campaign brought on an attack of kidney disease. He was sent to the hospital but after a time was discharged as a hopeless invalid. He had been a soldier throughout his back, his spine was unnatural and he was in the greatest misery. Hearing of the wonderful cures made by
