Whole of Village Now in British Possession, As Well As German Positions on Front of 6000 Yards Between Ginchy and Leuze Wood-Aeroplanes Take Prominent Part in Fighting-Thousands of Germans Taken Prisoner and Their Casualties Are Heavy, Owing to Thoro Work of British Artillery.

ONDON, Sept, 10.-With aeroplanes swooping above the attacking columns, the British on the Somme front yesterday advanced to the assault and carried German positions on a front of 6000 yards between Ginchy and Leuze Wood, including the whole of Ginchy, and also enemy positions on a front of 500 yards west of High Wood; and they stormed 600 yards of German trenches northeast of Pozieres, according to an official communication assued by the British war office early this morning.

The total gains of the British army in these encounters were thus made on an aggregate frontage of 7100 yards, or of four miles. The advance west of High Wood was for a distance of 300 yards.

The successes on the line between Ginchy Village and Leuze Wood make the total British gains in a week's fighting, the occupation of German positions extending over a front of 6000 yards, or about three and one-half miles, to a depth of 300 to 3000 yards. In this fighting many Germans were taken prisoner and their casu Germans Fiercely Counter- were heavy owing to the thoro work of the British artillery. Concerning this successful fighting on the part of the British, the German official communication today says: "After Friday's pause in the fighting, the battle on the Somme front is pursuing its course. STILL THREATEN LILLE

The British still continue their artillery and other preparations for assault, keeping up a heavy pressure on the enemy, in the direction of Lens and Artois. They heavily shelled the Vimy ridge which commands Lens and they entered German trenches south of Neuve Chapelle and killed or wounded many Germans. The British official communication announcing the success round

Ginchy follows:

"We attacked this afternoon on a front of 6000 yards, extending from High Wood to Leuze Wood. As a result the whole of Ginchy Village is now in our hands after severe fighting, and the ground between it and Leuze Wood was captured.

"East of High Wood we advanced three hundred yards on a front of five hundred yards. Numbers of prisoners were taken and the enemy's casualties were very heavy.

Gain Near Pozieres.

"Northeast of Pozieres we gained a further 600 yards of German trenches and captured sixty prisoners, inflicting heavy casualties on the enemy, who was caught by our artillery fire while massing for a counterattack.

"Our artillery bombarded the enemy's trenches on Vimy Ridge, opposite Souchez. There was reciprocal artillery activity in the neighborhood of Calonne and Ginchy and between La Bassee Canal and Neuve Chapelle.

"Friday afternoon many air fights occurred. A number of our aeroplanes bombed another enemy aerodrome, two hangars and a shed being

destroyed. One of our machines is missing."

This afternoon's British official communication follows: "All the ground gained yesterday has been maintained and our gains ere further extended last night and this morning.

"Prisoners are still coming in and the full number taken cannot yet be stated. A counter-attack northeast of Pozieres during the night was easily beaten off.

Inflict Severe Defeats-

"As a result of the heavy fighting during the past week, our line has been advanced on a front of 6000 yards to a depth varying from 300 to 3000 yards. Severe defeats and heavy losses have been inflicted on the enemy and the important and strongly-defended localities of Falfemont Farm, Leuze Wood, Guillemont and Ginchy have been wrested from him, despite his utmost efforts to retain them. N sharp actions the British straightened their line on Saturday

It will be noticed that in these operations, personally conducted by Sir Douglas Haig, the direction of the British assaults is both scientific and methodical. First, General Haig drives two wedges into the German line, on the principle of taking a grip on an object with a pair of pincers. Then after further careful and thoro preparation, he suddenly closes these pincers as he has just closed them betion, he suddenly closes these pincers as he has just closed them between Ginchy and High Wood, and the German defensive organization between their jaws is obliterated. This method has been conducted ever since the British began their attacks on the first of july and the Germans have not been able in 72 days to devise a defence against the devastation of those terrible pincers. Their additional closest and on Russian warships in those waters was announced officially today, as follows:

Neronic jets of Hame, only once did he get a footing in the French line, and men men then his temporary success was easily negatived by a prompt French assault, throwing the Germans back to their point of starting. The French also maintained the pressure at Verdun by capturing a Teuton trench system east of Fleury.

The recapture of Dobric, in the Dobrudja, by the Roumanians and Russians, who now appear to be coming up strong, presages an early encounter between the main forces of the Romano-Slavs and the Germano-Bulgar armies. The Germans claim that they have captured Silistria, a town south of the Danube, situated at the point where the river makes a sweep from its due easterly course towards the north, but so far the engagements appear to be merely fighting between advanced guards and covering troops of the two armies. Roumania by this time has probably about completed her mebilization, and the Russians have had about time to make their pressure felt. The fighting in this theatre of the war has so far been chiefly conducted in the territory south of the Danube that Roumania took from Bulgaria in the second Balkan war. It is a narrow strip

If the Roumanians had elected to make their early defence in force covering troops on the south bank of the Danube before their main forces by covering troops on the south bank of the Dahube before their main follows and the Russians came up, they would have been committing a tactical blunder by fighting a defensive battle with their backs to a broad river; and as it must be assumed that the allied command which drew up the plans for the present campaign is well versed in the art of war, it may be safely assumed that the fighting in this region until the present has been conducted with small Roumanian forces. The Roumanians continue to advance in Transylvania and unofficial reports speak of the Russians as having already invaded Serbia along the northern bank of the Danube.

The Austrians began to blow up the forts at Halicz and they abve detroyed the great bridge acros sthe Dniester. This news, which has been ublished in Petrograd, is two or three days late, and probably by this time ublished in Petrograd, is two or three days late, and propably by the Russians firmly hold the town. "The entente minister visited Premier Zaimis and informed him of the conditions on which the incident would be considered closed. These were, first the punishment of those responsible; second, proceedings against the officials who failed to repress the incident; third, the immediate closing of all sections of reservists' leagues in Athens and the provinces.

KILLED BY DYNAMITE.

VANCOUVER. Sept. 10.—Mrs. A. H. Gravonor was blown to pieces and her husband hadly injured in an explosion which destroyed their desidence on Cobble Hill. Vancouver Island, at 7 o'clock Saturday evening. Gravonor had stored six cases of dynamits at his home. The huilding caught fire and before the couple realized the danger the powder blew up. The noise of the explosion was heard for miles around. Mrs. Gravonor was an English woman, 40 years of age, and had lived at Cobble Hill for ten years.

PHYSICIANS' FIRST **CLINIC IS SUCCESS**

Hamilton Medical Men Discuss Most Modern Ideas in Surgery.

NO CAUSE FOR ALARM

Health Report States Cases of Infantile Paralysis Are of Light Nature.

HAMILTON, Sept. 10.—Hamilton physicians held their first annual clinic Satarday, and it was a success in every respect. Dr. Lellewys F. Barter of Johns Hopkins University of Baltimore presided in the forenoon and handled a large numin the forenoon and handled a large number of cases, while the afternoon was devoted to a surgical clinic conducted by Dr. George F. Armstrong of Montreal, of McGill University, in which he demonstrated the most modern ideas in surgery. A visit was paid to the new mountain hospital, and the members of the clinic expressed satisfaction with the building and its surroundings. A banquet was held in the Royal Connaught in the evening, concluding the meeting. Dr. George W. A. Crile spoke on the "Clinical Aspects of the Cancer Problem." More than 175 doctors and their friends were present. Dr. Langrill, superintendent of the City Hospital, presided.

Re-opening Services.

At the re-opening of St. John's Presbyterian Church Rev. J. W. Pedley of Toronto corducted the services. At Christ Church Cathedral the evening service was conducted by Rt. Rev. Bidwell of Kingston. And at the Ascension Church the Bisbop of Kingston occupied the publit in the morning service, and the Archbishop of Algoma preached in the evening.

Blame One Another.

Blame One Another.

At this morning's meeting of the board of control and contractors the cause of the delay in the construction of the new mountain hospital will be decided. Separate reports are I eing received and the contractors blame one another for a hold-up of the work. Controller Jutten states that Hamilton is losing \$21 a day, and it is rumored that the building will not be completed this year.

On Saturday last Frederick Ford, 126 Delaware avenue, one of the founders of the Gideons, died after a brief illness. He was a member of the firm of Ford & Festherstone, 48 years of age, a thirty-second degree Mason, a member of the I-O.O.F., and leaves a widow and one son, Wilfrid, with the 56th Battery, and one daughter, Reta.

Fashion as She Appears in Her New Autumn Suits

Revealed in a Multitude of Lovely Imported Models Which Show Her Collared to the Ears and Often Cuffed to the Eibows and Emphasize the Slenderer Lines of the New Silhouette

A N ALTOGETHER taller, statelier, slenderer person than in the Summer is my Lady Fashion of Autumn, A 1916. Her skirts are still full, but they hang in straighter folds, and ripple is as dead as Queen Anne. In her coats, however, you will find the most noteworthy changes. They are not only longer than formerly, but they outline the figure more closely, and are oft-times cut on redingote lines or with the long basque-like panel in the new Moyen Age effect. The Russian blouse is much to the fore, but under a new guise, with less blousing and frequently a panel-like belt at the sides which gives the sought-for slender lines.

But it is in collars and cuffs that Fashion has given her fancy full play. These are large and all-enveloping, and are designed in a variety of shapes. Sometimes the collar is square, sometimes round and of cape-like dimensions, and sometimes it is shaped a la Directoire with a stand-up back and an enormous rippling square, and the cuffs closely follow suit.

Fur trimmings are a decided feature and distinguish probably more than helf the suits in the French room, being used chiefly for collars and cuffs and bandings on the coat, scarcely ever appearing upon a skirt. And wherever fur is lacking velvet takes its place. Braid is another most fashionable trimming, and embroidery and buttons of various shapes are seen everywhere. The new bolivia cloth and its first cousin, velours—both plain and checked—velvet, broadcloth, gabardine, poplin and serge are materials you will find most in evidence in this delightful collection, the most modish shades being Russian and balsam greens,

Burgundy, wine, purple, taupe, grey, brown and navy. The suits being the productions of some of the foremost designers in America, all bear the hall-mark of expert tailoring, and all the coats are lined with silk, and heavily interlined, making them warm enough even for cold weather. Prices, \$27.50, \$35.00, \$40.00, \$50.00, \$55.00 to \$95.00. -Third Floor, James St.

Velours Which Share With Broadcloth the First Place in Les, Modes Affections For the Fashioning of Autumn Suits

May Be Seen in the Suiting Section in Plain and Checked Effects With All Its Kindred Weaves

ND FASHION'S CHOICE has fallen most happily, for velours is infinitely becoming with its soft texture and velvety finish and it hangs in the most picturesque folds, this last feature being of the first importance in the making of the modish long coated suit.

The variety featured in our Suiting Section is really surprising, and each weave can be obtained in practically all the fashionable colors.

A plain velours, for instance, is procurable in ivy and Russian greens, navy and Petrouchka blue (a light royal with a hint of Saxe), taupe, nigger or Java browns, in Burgundy and pensee purple, cathedral grey and black. Price, \$2.50 a yard.

Very smart and distinctive is a hairline striped velours in about inch spacing. This is to be had in green with blue stripes, in mouse ear grey with blue, in black with white, leather with navy, navy with gold, and Burgundy with white stripes. Price, \$4.00 a yard.

Quite new is a suede twill, a sort of Jersey velours, procurable in practically the same shades as the plain velours. Price.

A somewhat heavier weave, a diagonal with velours finish, is a particularly interesting material. It has a dust resisting surface, and may be had in a host of fascinating new browns, green and wine shades. Price, \$3.00 a yard.

Smart French looking little checks, so popular for sports and motoring wear, are obtainable in purple and green, grey and green, grey and blue, red and black, Joffre blue and black, gold and green. Price, \$3.50 a yard.

In larger more open checks are equally effective color combinations. For instance, grey and blue, grey and green, grey and purple, black and white, all with a faint overcheck. Price, \$3.50

Yet another is available in grey and red grey and white, grey and blue, grey and green, grey and gold, all on a black

ground, and this is very smart. Price, \$3.50 a yard.

REVISED TRAINING AT CAMP BORDEN

New System of Exercises for Infantry Brigades Starts Today.

WILL EXTEND LEAVE

Respite From Duty as Often as Possible is Beneficial.

By a Staff Reporter, CAMP BORDEN, Sept. 10.—Beginning tomorrow, the various brigades of infantry in camp here will be trained under a revised system, with the brigade commanders having more latitude in respect to allotting the work to be carried on by the battalions in their brigades. Many of the battalions are well advanced in special course instruction, such as musketry, hayonet fighting, bombthrowing and trench work. Such advanced units will now take up close order work and other drill at the option of their brigadiers. This does not mean that the special courses at the camp will be discontinued but that a larger proportion of the time will be devoted to company and battalion drill by the units in question.

Fourteen battalions have already had their turn in the trenches. They each occupied these dug-out lines at the school of trench warfare for a continuous day and night.

Fifteen more of the battalions here have still to do their bit for a similar period in these trenches. the brigade commanders having more

have still to do their bit for a similar period in these trenches.

Three Toronto battalions, the 168th Queen's Own, 180th Sportsmen and 201st Toronto Light Infantry, have had one course in the trenches, also the 173rd Highlanders and 205th Tigers from Hamilton.

To Take Course.

The Toronto units yet to take the trench-warfare course are the 170th Mississaugas, 198th Buffs, 204th Beavers, 208th Irish-Canadians, 213th American and 216th Bantams.

ers, 208th Irish-Canadians, 218th American and 218th Bantams.

Lieut-Col. Clayton, director of medical services, is a strong supporter of Major-General Logie's policy of giving the troops ample leave. Colonel Clayton says: "In the matter of leave a great change has taken place. It has come to be a recognized fact today that the soldier is possessed of the same feelings and ideals as his officers, and it is a tremendous advantage that he should be kept psychologically healthy by giving him respite from duty ever so often. Of course it costs

With short and simple ceremonial tho Bishop of Toronto unveiled and dedicated a memorial tablet to the late Lieut. Alexander Douglas Kirkpatrick in the Church of St. Mary the Virgin. A touch of pathos was given to the service by the presence of a number of returned men of the Third Battalion, "C" company, of which the gallant officer was leading when he met his death on April 23, 1315, St. George's Day, at St. Julien.

The officer was one of the eight members of the church who has made the supreme sacrifice for the empire. In all more than 200 men have left St. Mary's to fight in France and Flanders.

Bishop Sweeny preached his sermon from the text, "I am a man of authority. I have soldiers under me and I say unto one, 'Go' and he gouth, and to another, 'Come, and he cometh,' and to thy servant, 'Do this,' and he doeth it." In his discourse, his lordship pointed out how great had been the response to the call for volunteers among all classes of men in the British Empire, and referring to the tremendous sacrifice made by the parents of these men, he said that while some had become brokenhearted as a consequence, others had grown callous and steel-hearted at the loss of their loved ones.

"Do they estimate the honor it is to be fathers and mothers of men whose patriotism leads them to fight and who are willing, if necessary, to lay down their lives for their country?" he asked.

At this spot there is a high bank of earth overhanging the road, where children play making holes and tunnelling into the sides. At any moment of the earth is likely to fall and seriously injure pedestrians. The city authorities are constantly carting away fallen earth from this spot.

Mr. Blackburn states that he has notified a member of the board of control regarding this matter, but nothing has been done to remedy the danger up to the present.

I am told that the holding of parade ervices is not regarded as the most halatable part of a chapitain's duty. A many at home have got out of the habit of attending church regular; even if the inclination of those at the front were in the other direction, it is a front were in the other direction, it is a front were in the other direction, it is a place merely when they are possible, and, according to the disposition of the forces and the state of the chapit's engagements.

Saw Canadian Service.

I was privileged recently to be present at such a service at a brigade headquarters on the Canadian front. The brigadiler fixed the time for the strike at time and the state of the chapitage at 10.80. His reverence, bearing a bagful of little service books, motored up bretty early. Half an hour before the time appointed there was a "besting-up" of officers and meragement of about 50 was thus socured:

The service took place—like a means the time appointed there was a "besting-up" of officers and meragement as a "besting-up" of officers and meragement as a "besting-up" of officers and meragement as a service to the time appointed there was a "besting-up" of officers and meragement as a "besting-up" of officers and his staff occupied the chairs. The men, commanded to "stay easy," were two deep behind. The padre, seeming-ly, had not much gift in the way of melody. For after announcing "O God, our help," as the opening hymn, he left us to strike the note for ourselves. Somebody in the ranks began the well-known "Saint Anne" tune, which was remembered on the instant by the rest. We had pitched about an octave too low, tho, and

to most of the singers. The singing thruout in fact was rather in the style of the lions roazing after their prey, of which the pealmist writes, but it was hearty enough.

Did Not Refer to War.

We had the general confession, the reed, some collects. The men were creed, some collects. The men were then "made to sit down" and an address followed. I am inclined to think it was one of the good chaplain's "learnt" addresses, and, in saying so, I mean nothing of disparagement of it. It had a beginning, a middle, and an ending, each in its due proportions—which can not be said of all the sermons which are preached by so-called extempore preachers. There were no references to the war, none to hardships or bravery, or anything of that kind. The chaplain appreciated that his hearers were aware of all those, and, very properly, he confined himself to matters which came more within his own province.
Service lasted about three parts of

an hour. At the finish everybody regadier to his reports, the signal officer to his instruments, the policeman to his station at the lane-head, the brihis station at the lane-head, the brigade cook to his kitchen. The chaplain motored off to conduct a like ceremony elsewhere. Men at the front tell me they forget the days of the week, they are only able to bear in mind the date of the month. Not far from where our little service had taken place there is a church shelled to bare walls by the enemy, its congregation dispersed all over France and England.

A Veiled Threat?

Count Wrangel's letter, given out today, says Sweden shares the hopes expressed by Viscount Grey that the correspondence may bring definite solution of the questions at issue, and that Sweden "would warmly congratulate itself on the application of the fertile principle of international arbitration." The count says further he is glad the British Government appears to recognize it as an impossi-FROM MANITOBA EXHIBIT ouis Kon Says Toronto Has All "The Toronto Exhibition has them all ceaten for our work," says Louis Kon,

bitation. The count says further he is glad the British Government appears to recognize it as an impossibility for the Swedish Government to renounce in advance the right to take measures which regrettable circumstances might render necessary. The letter concludes with the statement that Sweden recognizes fully the binding character of the postal agreement of 1904, but maintains the right to suspend the agreement under the conditions in question.

In reply, Viscount Grey says the meaning of this communication is not clear, and that he has instructed the British minister at Stockholm to point out to the Swedish Government that Great Britain "must as a condition precedent to any arrangement involving recourse to arbitration have assurance that the Swedish Government will definitely cease to interfere with the transit of parcels to and from the United Kingdom across Sweden."

ed unusually large crowds. He expects great results from the exhibit, as he secured the names of hundreds of farmers, whose practical enquiries showed them to be really interested.

Mr. Kon has had long experience in colonization work in all parts of Canada and the United States, as well as in Europe. He was particularly struck by the fact that during the past two weeks the great majority of enquiries were regarding mixed farming and dairying, rather than wheat-growing. "It has taken our Manitoba farmers many years to realize that in the long run there is more money in mixed farming than in trusting to good seasons to bring bonanza rereturns from wheat alene," he said. There were 28 lost children at the Exhibition Saturday, and this number is a new record for the closing day. The number of arrests this year has been very small, numbering about 35. The police department says the crowds this year have been very orderly.

CAMP BORDEN, Sept. 10.—At the moment when exacting training unbroken by leave is about to commence comes the announcement from Major-General W. A. Logie that nine of the battalions of Military District No. 2 and two from District No. 1, now encamped here, would proceed overseas before a general movement to winter quarters began. This announcement was made today on his return from Ottawa, where he has been consulting the parliamentary secretary on several important matters.

Col. P. C. Bickford, in his remarks the other day, stated that General Logie would make the final choice, and this is now corroborated, but the general is going to take everything that goes for efficiency into consideration when making his decision. A battalion's numerical order, or its strength, will not weigh in the balance. If a battalion is under strength it will not alter the situation one lots, but the standard of training, efficiency of the officers, non-commissioned efficers and men, as a unit, and the prevention and curtaliment of crime, will decide. To a great extent this will leave the onus with the battalions themselves, and any breaches of discipline, training, etc., will be chalked up against the offending units. The work of choosing the fortunate ones will not be easy; but, with the assistance of the effect of the new leave regulations and the keen interest displayed by all concerned, it is expected to work great improvement in all ranks.

The fact that discipline and training is to be the oustanding features should make the officers and men renew their interest, and everyone should be working, tooth and nail, to reach the highest grade possible.

The question of winter quarters will not be decided definitely for a few days, as it is still under consideration at Ottawa.

as it is still under consideration at Ottawa.

The altitude of the camp is making itself felt in the evenings now, and, as the temperature may drop appreciably before the order to move to winter quarters, it has been decided to provide each man with another blanket. This will give every soldier here four blankets, and this should prove ample under the most extreme circumstances.

Soldiers overseas and in the majority of other camps are only provided with two wifile at present the allowance here exceeds that by one. There is quite a supply of blankets in store, and ten thousand others have been indented for.

Eighty men were struck off as "illegally absent" and three discharged as medically unfit in Saturday's orders.

Competitions End.

The bayonet fighting competitions in all their strenuous but goreless ferocity, have been practically decided in each brigade. A new draw for the decision of these will be made tomorrow to accommodate such units as are on leave.

Second brigade, none; all defaulted.

DROUGHT CAUSES BIG LOSS TO THE CROPS

Little progress is being made by the farmers in the prosecution of their fall work, such as plowing and getting ready for fall wheat, the ground practically all over the county being so hard as to leave little hope that any acreage anywhere comparable with other years will be sown. No rain of any account has fallen over the midland counties for the best part of three months and only where summer fallowing has been carried on will there be any wheat sown in Ontario this fall. From the 10th to the 20th of September is the usual time for sowing the seed, but there is little chance of the weather permitting anything along this line. The drought is also causing great loss to the field crops, all kinds of noots showing a small, stunted growth, with a large acreage plowed up. The meadow lands give such poor pasturage that farmers and dairymen already have recourse to feeding hay and corn to ensure anything like an adequate supply of milk for the city demand. Little progress is being made by the

Toronto Audience.

A thoroly Toronto audience witnessed the final performance in front of the grand stand, which was carried out in splendid style. A remarkable send-off to the men forming the model camp took place. At the close of their drill, when they marched down the track, the military units which have taken part in the spectacle each night marched from the back of the stage to the front, cheering and waving flags. This was the signal for those in the grand stand and on the lawns, and all joined in cheering and handkerchief waving. It was a wonderful demonwaving. It was a wonderful demon-

The spar-pushing contest, a new feature of athletic games, proved of interest. Two teams of four men each man a long pole, and by the teams shoving towards each other they endeavor to push the other out of a square marked on the ground. The 180th Sportsmen managed to defeat the 205th Battalion, while the 173rd Battalion proved superior to the 142nd. In the final between the 180th and 173rd, the 180th took the first event and the 173rd took the second after a gruelling tussle. Enthusiasm ran high for the final, which the 180th won after a hard struggle. At the close of the for the final, which the 180th won after a hard struggle. At the close of the sports presentation of the beautiful cup, the gift of Gen. Sir Sam Hughes, was made to the champion 180th Sportsmen.

Col. Lang of the headquarters staff made the presentation and Lieut. Bob Dibble received the gift on behalf of the battalion. Col. Lang, in presenting the cup, said that the members of the battalion were not only sportsmen by name, but had proved themselves real sportsmen as well.

dered off the field for objecting to O'Loughlin's decisions. In the fourth innings Baker hit a home run over the right-fligld fence. Three hits and a base to on balls gave New York three runs in the seventh. Excellent pitching won both games. Bob Shawkey gave the Mackmen four hits in the first game, and Urban Shocker held them safe at all stages in the second. Rube Oldring and Germany Schaefer, were released by New York today to make room for new players, purchased and drafted. Oldring announced his permanent retirement from baseball.

At New York (National)—William Dayton Perritt hurled and won both games of a double-header at the Polo Grounds this afternoon. He defeated the Phillies, a to 1 and 3 to 0. Thirty-five thousand stagectators watched Perritt pull his "ironman" stunt. In the first game he allowed but four hits and passed none. In the second the Phillies made but two hits up to the last innings, and a total of only four. Behind Perritt the Giants fielded sensationally. Back in 1908 the Philadelphia Club helped beat the Giants out of a pennant by the excessive use of Harry Coveleskie. By Saturday's double-defeat of Philadelphia the Giants put Brooklyn again in the lead for the pennant. Perritt permitted only eight hits in the two games. According to a statement made by President Hempstead, the double-header drew the largest paid attendance at a league game in this city. The crowd was estimated at about 37,000.

At Boston—The Dodgers put in another fine day's work and won their third straight from the Braves, 5 to 0. It was the seventh consecutive defeat for the Hubites. The air-tight pitching of Cheney was the main stumbling block for the home team. He allowed but three hits in all, one of them of the scratch variety. Another came in the ninth, when two were out. By grace of this victory and a double-defeat of the Phillies by the Giants, the Dodgers climb back into first place, with a lead of a game and a half.

At Pittsburg—Good pitching by Vaughn and Lavender enabled Chicago to twice shut out the Pirates, 3 to 0 and 2 to 0. Larry Doyle, the Chicago second-baseman, sustained a broken ankle while sliding into the plate in the eighth innings

TO ANDREW SHEPHERD AND HELEN

You, and each of you, are hereby required to take notice that default has been made in payment of the principal money and interest secured by a certain mortgage dated the first day of September, 1915, made by you, the said Andrew Shepherd, to Abraham Smoodin, and registered in the Registry Office for the Registry Division of West Toronto as Number 83046-J, which said mortgage has been assigned to the undersigned William Garside, and which covers the following lands, namely:

All and singular that certain parcel or tract of land and premises situate, lying and being in the City of Toronto, in the County of York, and being composed of Lot Number 162, on the south side of Peterboro Avenue controlled. Lot Number 162, on the south side of Peterboro Avenue, according to Registered Plan 1360; and subject to a right-of-way at all times over and along and upon the northerly sixty feet of the westerly nine feet of the lands hereinbefore described, for the use as a side entrance and side drive for horses, vehicles or automobiles, and for the owners and occupants from time to time of the lands immediately to the west thereof, and others entitled thereto.

And take notice that there is now due for principal the sum of eight hundred and sixty-seven dollars (\$867), together with interest thereon at the rate of six per cent, per annum, from the first day of March, 1916, amounting at this date to twenty-seven dollars and eight cents (\$27.08), and for costs the sum of twenty dollars (\$20).

And take notice that in default of pay-

Business Affected by the Late Arrival of Train at Wholesale.

PLUMS STILL SLOW

Peaches Are Light and Bulk Not of Very Good Quality.

Receipts were again heavy on the wholesale fruit market Saturday, with business being considerably affected by the late arrival of the afternoon train. Peaches were not shipped quite so heavily as on Friday, and the bulk were not of extra good quality, the demand being very heavy for the choice ones. They were cleared out as fast they came in. The six-quart flats sold at 15c to flats going at 20c to 50c; the 11-quart flats going at 20c to 50c, and lenos at 35c to 75c; a few choice ones reaching 30c to 31. A small lot of especially fancy Crawfords, which were shipped by the Queonston Quarrie Co., to H. Peters, bringing \$1.25 per 11-quart basket. These were sold to John Barron of Yonge street.

were sold to John Barron of Yonge street.

Plums came in very freely, and were dragsy, the six-quarts selling at 20c to 30c, and the 11-quarts at 30c to 50c, with a very few choice ones in leno filled 11-quarts bringing 60c to 75c.

Pears continue to be an extremely slow sale, the six-quarts selling at 18c to 25c, and the 11's at 25c to 50c; only a very odd one of especially choice ones bringing showe 50c.

Melons are beginning to glut the market as the supply is so great it is exceeding the demand. The 11-quart sold at 25c to 50c, and the 16's at 40c to 65c; a very few reaching 75c, and a large quantity remaining unsold at 6 o'clock Saturday afternoon.

Lawton berries still came in in small loss and brought 5c.

quarts.

Tomatoes were a little more plentiful than on Friday, and sold at 20c to 35c per II-quart basket; some leno 11's bringing 40c to 50c.

Corn of choice quality was so scarce it sold well at 25c per dezen—but the bulk shipped in during the past few days was exceedingly poor quality; quite a large portion was unfit for consumption, and some so utterly no good the shippers surely must not have examined any of it or they would never have gathered it, let alone bag it and go to the expense of shipping it in for it to be dumped here.

White & Co. had two

American Copper and Zinc Shares Enjoyed Keen Demand.

NEW YORK, Sept. 9.—The unfavorable crop conditions disclosed by togovernment's report were without effect on today's active and broad market, insofar as they had a tendency, to check any movement in grangers and northwestern issues. Shares of eastern roads, particulally Reading and other coalers, as well as Pacifics and Trunk Lines were strong. Reading scoring its best price of the year at 112 1-2.

A little more significance was at

scoring its best price of the year at 112 1-2.

A little more significance was attached, however, to the movement in U. S. Steel, which rose 4 points to the new record of 103 7-8. This was prior to the publication of August tonnage figures which reported a very moderate increase over the preceding month. Shipping issues also absorbed considerable speculative attention, Mercantile Marines coming within easy distance of their recent high records, with gains of 1 to 2 points, while Atlantic, Gulf and West Indies common and preferred made record prices of 86 and 87, or 3 1-2 points higher.

Independent Industrials followed Steel—gains in Republic, Lackawanna and Crucible Steels ranging from 2 to almost 6 points. Copper and zinc stocks were in keen demand, Kennecott featuring the former group at an extreme gain of 2, with 2 to 5 for American zinc common and preferred. Paper shares also augmented recent advances by 2 to 5 points, International Paper common, Union Bag and Paper preferred, and American Writing Paper preferred, displaying marked strength, Various issues of no special class shared in the general advance, total sales of the two hours aggregating 690.009, shares.

The noteworthy feature of the week-

.000 shares. The noteworthy feature of the weekly bank statement was the decrease of
\$26,000,000 in actual reserves, making
a total contraction of almost \$56,000,000 for the past fortnight,
Bonds were steady on limited dealings. Total sales (par value), \$1,180,-

Canadian Issues of Merit.

Coniagas Company of Cobalt. The drill was set up on the east side of Pearl Lake close to the junction of the road and the railway. There are several quartz veins running east and were not of sufficient moment to attract attention. Local speculation has run into the Wall street market and dealings in domestic stocks are confined more representations. attention. Local speculation has run into the Wall street market and dealings in domestic stocks are confined pretty much to investors. Dominion Steer was the issue in most enquiry on Saturday, but orders, had limited prices and the business was not large as a consequence. The rise in the American steels is directing attention to the better Canadian steels. Cement improved slightly and Brazilian was firm at Friday's advanced price. A revival of interest in Smelters was shown to a light extent. Steamships was only steady. It was thought likely at the week-end that any continuance of the buil market on Wall

SNOW ON SPRING WHEAT.

B. W. Snow says: "The government report fully confirms the substantial failure of the spring wheat crop for the west. It makes the crop of Minneapolis and the Dakotas only 91,000,000 bushels, against 285,000,000 last year. From the northwest crop. after deducting about 20,000,000 bushels of Durum wheat and the 22,000,000 required for seed, there is left a total available supply of spring wheat production of 49,000,000. The feed requirement of population of three states for a year equals about 21,000,000 bushels, so that the surplus production of spring wheat this year in the three states is only about 28,000,000 bushels, against 222,000,000 last year."

(Members Standard Stock Exchange). CONFEDERATION LIFE BLDG... TOBONTO. EXPECTS A STRONG MARKET.

Heron and Co. had the following at the close: MONTREAL, Sept. 9.—The Standard

stocks made the best performance again today, Quebec Railway, Toronto Railway and Smelters being the strong stocks. The strength of U.S. Steel put new life into the local steel shares and Steel Co. of Canada and Dominion Steel each sold up a point. Cement was in demand again and Cement was in demand again and Bridge was strong. A good deal of interest is taken in the completion of Quebec Bridge, and when this is done on Monday, a rise in Dominion Bridge is confidently expected.

The market should open strong on Monday, and we expect to see an active and strong market next week.

NIPISSING PRODUCTION LOWER

During the month of August the Nipissing mined ore of an estimated value of \$203,898, and shipped bullion from Nipissing and Customs ore of an estimated net value of \$226,341.
The production compares with \$288,-
