#### The Nickel That Should be Canada's

(From The Newcastle Independent, Aug. 10.)

Certain extremely partisan newspapers have had ridicule and sneers for the Canadian newspapers and public men who have been agitating for a sensible and patriotic policy in regard to Canada's nickel supply.

The sneerers allege that the Dominion Government and the Provincial Government and the British Government are all convinced that not a particle of Can-Italian army. The enemy is being the war commenced, and consequently ada's nickel has reached Germany since

> sible for such blunders as the trouble in Ireland, the sacrifices at the Dardenelles, and the waste of life thru ineificiency in handling of the munitions question-to say nothing of the scandal of Quebec

It is not easy to understand why sev-ernments guilty of so much shortsighteded folly and misadventure should be treated with any breath-holding respect by the wayfaring man the a fool.

Further, it is an indisputable fact that it was only the persistent and patriotic agitation of the condemned newspapers and public men that has forced the accomplishment of what little has been achieved during the war to control the nickel supply of Canada for the advantage of the empire.

Had it not been for this unceasing agitation, the whole three governments would have done nothing between them. They started out quite calmly to do nothing, and when the agitation commenced they thought it would be enough if each government blamed the inaction

on one of the other two. The public are not so easily befooled however, in these stirring days of war. A continuance and increase of the agitation soon compelled the governments to further action. So, today, Canada has gained a little-a very little-in the matter of the nickel that should be Canada's but that is controlled by a foreign corporation with the apparent bless-

ing of three inept governments. Today there is alleged to be an agreement, guarantee, contrivance, or contrap- | Canada's nickel.

The Hamilton Herald has been throwng cheap jibes at The World, saying that three governments (British, Ottawa. Toronto) say that the nickel can't get to Germany's agents in the States ISSUES IN THE CONTEST and therefore that we are crazy. So then must The Newcastle Independent; so also the hundreds of thousands of Canadians that think with us. But the Deutschland did load up with Canadian nickel and get out of an American port with hundred of tons aboard.

And The Winnipeg Telegram quotes Hon. W. S. Fleiding as writing that we must let our nickel into the States so that the munition makers there under contract with the British Government may do their work. We say not that way! Let the nickel, when refined, be returned, every pound of it, to Canada and we will hand it out to these American manufacturers who are making shells and guns for the allies. But no more promiscuous shipment of nickel to the States. That's the issue in the campaign in Southwest Toronto. Here is how a western prairie paper handles it:

Nickel Co. should also be taxed at least heavily enough to take the surplus profit above a fair return for the original investment. The present annual profits of should \$6,000,000 are much over 100 per cent. of the price

The World herewith prints what it be- | tion, by which there is alleged to be an alleged surety that no Canadian nickel will be permitted to reach the enemy from the United States refinery. public may not think much of this governmental rigamarole, but there would not have been even this paltry protection had there been no determined agitation. much, but it is almost as good as no-thing. That is quite a lot to have forced from the governments in less than two

Another more material advantage secured from the agitation is the promise of the immediate erection of a refinery in Canada for the treatment of Canadian nickel. This is a step in the right direction, but it is still as far from what ought to have been done as "somewhere in France" is from "Tipperary." It was poor business to allow a foreign corporaion to control Canada's nickel supply in peace times. It is nigh to treason to permit the continuance of foreign control during this time of war.

Canada supplies four-fifths of the whole world's nickel output, and nickel is one of the most important metals used in modern armaments. The very least that Canada should have done was to have taken over the full control of the nickel industry as soon as war was declared. Fear or favor, or a mixture of the two, held the hands of our govern-ments. Eventually the Canadian public will force the disclosure of the interests during Canada's war.

One of the earliest excuses of the Dominion and provincial governments was that the nickel could not be economically refined in Canada. Yet today these same and the shameless trafficking that may seen be refined here. A later excuse was to the effect that any interference with to the effect that any interference with the control of nickel might offend the United States. This is a nice excuse to come from politicians who howled so recently, "No truck, or trade with the Yanks." Surely Canada has as much right, authority and power to conduct its own affairs without fear of punish-

ment-as Mexico, for instance. It might allay the suspicions of loyal Canadians if a complete list of those in-terested in the present style of control of Canada's nickel were published. Would that list include a certain Dominion Cabinet Minister who some years ago was interested in many mining and industrial ventures at Sudbury? Would it include a smaller provincial minister who was once upon a time thought to be interested in many things in newer Ontario? If the list were published would it be another case of "See Allison"?

There should be no slackening of the agitation against the present improper nandling of Canaca's nickel wealth. Loyal newspapers and public men should continue with increased force the campaign for Canadian control of this indispensable war material. Canadians are rot behind Australians in courage or resource, and Australia months ago in other matters proved that "confiscation" was only a bogey word. Canada should control

paid for the property and have been so for many years. Yet this company only pays \$40,000 a year to the Ontario Government in taxes. Why should the people of Canada, to whom these rich lands belong, have the profits persistently alienated from them to foreign investors who got them for a song, and who now distribute princely profits to foreigners on supplies used to make war on our own people?

Editor World: Your article on this problem in today's (Aug. 10) issue certainly challenges attention. Tens of thousands of Canadians, like the writer, are reading your articles with keen interest, especially as they wish to become familiar with the nickel industry in all its bearings, for it is both a Canadian and an imperial - problem

Your article deals with two special phases of the nickel question: (1) the attitude of our party leaders and partisan press, (2) the control the International Nickel Co. has obtained. Your crowded columns will only permit of a very brief reference to the first of these two phases. You refer to the cry of disloyalty raised Winnipeg Grain Growers' Guide (Aug. 9): All this export of nickel should be stopped and stopped at once except under a guarantee from the Government of the United States that not a pound of it will find its way out of that country to enemies of the allies. The idea of the International Nickel Co. or anyone else doing as they please with a commodity that belongs to the people of Canada is absurd. The Defence of the Realm Act gives ample power for this and it should be exercised. How long would the Government of Great Britain hesitate under such circumstances? How long did it hesitate about taking control of such utilities as it required? How long did the Australian Government hesitate about assuming complete control of the British Empire is a most brazen liar, and the truth is not in him. There wing supply there when German agents. against the Liberals. The declaration of about assuming complete control of the zinc supply there when German agents tried to hold up the British Government? The nickel question is not a new one. It was openly discussed before this war began. On the other hand, if the Russians should succeed in driving the Aus

berg, and with it the Galician railway system, they would be in about the

same geometrical position in respect to the Teutons as the Teutons were to

them about thirteen months ago, especially if the Germans remained as at present advanced in Poland, Volhynia and Poliesie. So if the Russians

choose they could divert their arms northward and compel the Germans

to evacuate the country to the east of it by driving northward and exert-

ing pressure against the lines of Von Hindenburg in Courland. But the

lead to the supposition that the Russian aim is to follow up the Austrian

army in its retreat, leave sufficient men behind in Galicia to protect its

communications, and proceed to the invasion of Austria-Hungary by ad-

by the making of no advance by the British forces. These were hampered

by bad weather and were also employed in consolidating their gains of

Sunday morning. The Germans did the usual amount of shelling along

the British front and more particularly on the Mametz Wood, Pozieres,

the vicinity of Arras and British trenches north of the Vierstraat-

Wytschaete road. The German shelling of the neighborhood of Arras

front between Arras and Pozieres bulges out into the British lines.

Pressure from the vicinity of Arras would eventually force the enemy to

evacuate the 18 miles or so of front between Arras and the present Somme

tions, but it did not prevent the big guns from engaging in an artillery

duel of some intensity south of the Somme. The Germans once more

treated Rheims to an exhibition of frightfulness by dropping incendiary

their batteries various quarters. A hospital and a dispensary were de-

Finding of Jury Investigating Cause of John English's Death.

Charged with criminal negligence in causing the death of John English, 22 years old, who was overcome with the fumes of a gas used in exterminating vermin in an apartment house at 98A Beverley street, August 4, George H. Webb and Miss May McBane were taken into custody by a detective shortly after a coroner's jury returned a verdict declaring the Uneeda Exterminating Co., in which the two are partners, guilty of negligence.

English was asphyxiated when he climbed thru the window of his room. The entire house had been filled with the gas used by the company and which experts on the witness stand declared to be one of the deadliest known. The fury decided that the company failed to take proper precautions to prevent anyone entering the house during the fumigation, and should have had a man or men constantly on guard.

should have had a man or men constantly on guard.

Testimony submitted last night revealed the fact that English had climbed into the room and was talking over the telephone to his fiancee when the gas began filling his lungs. She noticed the queerness of his conversation and warned him to leave the room immediately.

Strange incident.

Another strange incident in connection with the death of the young man was the fact that his mother. Mrs. Bella English, left the city early that day in response to a telegram from her sister, which was afterward proven to be a toke to gain a visit from her. The mother, after she reached her destination, called over long-distance telephone for her son, but was unable to talk to him.

Webb and his partner, Miss McBane, were the sendent at the inquest last night by counsel, and are prepared to fight the charge in court, meintaining that all necessary precautions were taken by them. Deputy-Reeve Miller Tells of Victory to Oakwood Residents.

#### AT LARGE MEETING

Thank Council and Ask That Work Proceed at .Once.

A meeting of the Oukwood Ratepay rs' Association was held last evening, in Oakwood Ffall, Oakwood avenue, President William Jarvis occupied the chair and the following members of York Township Council were present: First Deputy Reeve Fred H. Miller and Deputy Reeve William M. Graham. The supply of city water to the township was the principal topic discussed. Deputy Reeve Fred H. Miller outlined in detail the scheme and the negotiations carried on between the York Township Council and the city council for the past two years, "resulting in a great victory for the ratepayers of the township." "The agreement between the township authorities and the mayor was signed a few days ago, and our engineer is now busy preparing plans for the work, which will be commenced almost immediately," said the speaker. "We have not yet decided what price we shall charge the ratepayers for the water. Probably 30 cents per 1000 imperial gallons. The city will charge the township 20 cents, and the extra accumulated amount charged by the township will be allowed off the taxes after expenses, if any, are deducted. We will put in a two foot main on Eglinton avenue, the cost of which will be charged on the general rate and six and twelve inch mains will be charged as local improvements.

"All streets requiring water will petition the council in the water." Township Council and the city council

"All streets requiring water will peti-tion the council in the usual way.
"Regarding fire protection, the city does not intend to charge us for any service rendered by the fire department, according to the statement of the works commissioner. We will, however, take this matter up later on regarding our own local fire service. "The extension of the water system north from Eglington avenue to the old belt line, is another matter unger consideration," said Mr. Miller, "as we intend to cater for factories and manu-

"Why should we pay 30 cents for water, when the city is only charging 20 cents?" queried W. Bennett. "We 20 cents?" queried W. Bennett. "We

Benefit to Ratepayers. The chairman in reply, said, if there was any surplus, the ratepayers would receive the benefit. "There is always a wastage. The city has a large percentage of wastage in its water system," said Mr. Jarvis. Other matters discussed were the dangerous conditions of several streets in the Oakwood section. J. Read pointed out that planks and other building material were allowed to remain on Lauder and Glenholme

avenues to the danger of pedestrians after dark. It was decided to write the high constable requesting his attention to this matter. The dangerous state of Amherst avenue owing to a drop of nearly three feet from the junction of Oakwood avenue and the unsafe state of Anderson and Rockvale avenues will receive attention from the com-

missioner. "Shortage of labor will make it impossible to do everything this year," said Deputy Reeve F. H. Miller, "and no new work on streets will be under-taken. We are paying six mills war tax at present, and there are a great number of unpaid taxes in the town-

R. Paynter urged more police protection for the township, par-ticularly the Oakwood section. There are a number of young hoodlums creating a nuisance nightly on Oakwood avenue, robbing orchards, breaking windows and using obscene language, and are a pest to the residents," said Mr. Paynter. It was resolved to write the police commissioners asking for more police

protection.

The following resolution was unanimously adopted: Resolved, "That the York Township Council be requested to proceed as soon as possible with the to proceed as soon as possible with the work on the water main and that the council receive a hearty vote of thanks for the manner in which they secured the water supply for the Township of

# SCARBORO, AGINCOURT

Question Will Be Discussed Public Meeting on August Twenty-Eighth.

# TOWNSHIP RATE STRUCK

Total Amount to Be Raised Scarboro This Year is Eighty Thousand Dollars.

Reeve Cornell presided over a full uorum of the Scarbore Township council yesterday, which dealt with a large number of important matters. They dealt with the question of extending the hydro-electric from Danforth avenue out to Scarboro Junction and Agincourt, and a report from the Ontario Hydro Commission commenting favorably o nthe undertaking being submitted at yesterday's session. The rate for the township at Dan-

forth, will be \$19.25 per h.p., the cost of construction being borne by the municipality, but the work itself will be undertaken by the commission. As required by law a public meeting will be held and this will take place at Scarboro Junction, on Aug 28th. The action of council in pressing for the extension of the undertaking was very favorably commented on last night. Council yesterday fixed the rate for the year, that for the township being 3.5 mills amounting in all to \$14.045 The county rate fixed by the county council is 7.8 mills, and totals the large sum of \$29,000. Patriotic and other causes are held responsible for the large increase as Scarboro's share of the patriotic fund is about \$16,000. The amount raised for public school pur-poses will be \$6300 and does not include the trustees' levy. The provincial war tax amounts to about 1.07 mills and BEAT YORK SOLDIERS up to about \$4250.

The total amount for all purposes to be raised in Scarboro this year will be about \$80,000, an increase over any former year, but the amount for which the Scarboro council is directly responsible is regarded as low in view of the improvements effected. George Green was reappointed as-sessor at a salary of \$380, and some ac-

counts for loss of sheep thru worrying by dogs were ordered paid. The opinion was expressed that the running of dogs at large was a serious loss to the province at large, farmers fearing the destruction of their flocks and some better method of dealing with the situation is imperative.

Oak Ridge Ratepayers' Association are asking for the putting down of A PRISONER OF WAR district, and this will be done on the general rate. A large number of routine matters were also dealt with and the council closed one of the busiest sessions of the year.

#### MEN OF YORK RANGERS **GET SIGNALING WORK**

Message Transmitted From Aurora to Battalion's Headquarters in Remarkably Short Time.

The signaling squad of the 220th Battalion was given practical work in signaling yesterday under conditions which will be encountered at the front. The members of the squad were stationed at intervals between the battalion's recruiting depot on Yonge street and Aurora, a distance of 25 miles. In sending messages no use was made of telephones or telegraph, but they were transmitted only by those means with which the signaler is equipped.

equipped.

At 10.30 a message was started from Aurora. Owing to the hilly nature of the country eight stations for observation were necessary. By means of flag waving, despatch riders and field telephone the message reached Lieut.-Col. B. H. Brown, O. C. of the battalion, in Toronto, exactly one hour after communication had been opened. He immediately sent a reply to Lieut. L. E. Anderson at Aurora, who received the message in a remarkably ceived the message in a remarkably short time. The messages were conveyed without error in transmission. Four of the members of the squad are recent graduates of the school of sig-nalling in Division No. 2.

Sunshine.—Would that you possessed the essential which you say would lead you to write often if all your letters were as charming as this one! So you long for a frilly, "little" blouse? One of white Habutai silk (which launders and wears exceptionally well) might suit you exactly; it has a ruffle down the front, pearl buttons, long sleeves, and low collar; the price is \$2.95. The same style in crepe de chine or Georgette would be \$5.00 or \$7.50. The rose wool sweater is more difficult to secure, within the limitation you set, as our new Fall stock will not be in till the first of September. However, one may be obtained in rose with rose bone buttons and roll collar, at \$7.50.

"Mermaid."—The "sensible bathing suit" question!—Well, here is one solution: for wearing under your silk suit the Annette Kellerman tights—without stockings attached—would be excellent but alas! just at this moment none are in stock. However, they are on order so by the time you write again we may have them. It takes at least two days' time for mailing: by money order is a good method of payment, but do you know of our Customers' Deposit Account System?—It is such a trouble saver.

O. J. P.—So the suit was a success

O. J. P.—So the suit was a success and now a fluffy, frilly blouse requires our advice? Many are here in the dainty styles which "delight the hearts of women," as you say. A Georgette crepe, white or maize, with frills down the front, hemstitching, low collar and long sleeves would be attractive, don't you think so? Or one of white ninon with pleated frill and cuffs would be delightfully sheer and filmy. Crepe de chine in colors of maize or white, has a frill front and is more practical, while several lovely styles are obtainable in white voile with embroidery in Freuch floral patterns and insets of guipure, Valenciennes, or filet; one with three-quarter sleeve and a flaring cuff is charming. The price for any one of the above is just \$5.00.

SEVEN ROWS OF FINE VALENCIENNES lace and insertion in graduated widths form the flounce of one petticoat which is finished by bows and loops of blue silk ribbon; price, \$5.25. Insertion and lace combine to make the flounce of another which has Frenchy little rosettes of pink silk;

TWO DEEP FLOUNCES OF LACE topped by a wide band of Val. insertion give a charmingly filmy effect to a \$4.50 petticoat. Vandyke points in eyelet pattern form the edge of a deep flounce while above is allover shadow lace and insertion. Price, only \$3.75.

DEEP FLOUNCES OF EMBROIDERY in several patterns form the decoration on well-finished petticoats of fine cotton with plain dust frill. Price, \$1.75.

DRAWERS OF FINE NAINSOOK, in both styles and a complete range of sizes, make another item of interest. Embroidery medallions outlined by fine insertion are charming in one style finished by a scalloped edge and a deep ruffle of shadow lace; price, \$2.50.

LIKE HAND EMBROIDERY is the decoration which combines with fine Val. insertion, inset in a "criss-cross" motif, in another style which is finished by a buttonholed edge and double ruffle of lace; price, \$2.00.

TINY GROUPS OF TUCKS, instead of gathers, give fullness to a frill of embroidery with ruffle of Val. and tiny pink bows; these drawers are seamed with narrow

French beading; price, \$1.75. Swiss Embroidery, ribbon-run beading, fine insertion and ruffles of embroidery are features noted in other styles priced at \$1.50, \$1.25 and \$1.15.

TUESDAY MORNING, AUGUST 15.

Mr. Asquith and Female Suffrage Premier Asquith's admission in the British House of Commons that the representatives of the women had presented to him a perfectly unanswerable case is not the least notable of the changes wrought by the war. It was believed by the suffragists generally for some years before the war that Mr. Asquith was the sole obstacle to the passing of a woman's franchise act. The possibility of changing his mind during times of peace did not occur to anyone in the suffrage ranks, and this was a potent cause of the militant policy, which alienated so much sympathy from the women's movement. The outbreak of the war D. Watson. altered the whole condition of affairs. The women, franchise or no franchise, POSTAL ASSOCIATION understood that British liberty more both in the actual and the po sible, than Germany dreamed of. It was more liberty, not less, that the Five Hundred Dollars Voted Sufwomen of Britain wanted, and they decided to fight against Germany. It has been no vain boast. The women have made a great fight for the com-

and established British liberty on a wards the relief of the pioneers in fair share of what they helped to win. by the recent most disastrous fires. They were content, as Mr. Asquith says, to abide by the present franchise for USUAL C. P. R. DIVIDEND the present, but would urge their claims if any change in the qualifications for the franchise was now made When the war is over they will not only urge but insist upon a recognition of their rights. With Mr. Asquith's admission it is scarcely likely that pressure will be required to do the women of the nation this justice. The Canadian Annual Review

for 1915, of which has just been issued, secures for him the indebtedness, and we trust the gratitude, of all who rewith a graphic touch brings the importance of the review before the reader, when he says, "To gauge its future importance, it is only necessary to imagine 15 of the volumes published in the years surrounding 1812 or 1867." This would indeed be a treasure. It is scarcely necessary to be apologetic for the amount of space devoted in the present volume, and the last, to the war. hree Men Tried at Barrie, Charged With Being "Absent Without Leave."

CAMP BORDEN, Aug. 14,-An impressive bayonet fighting and physical training exhibition was given here this afternoon by officers and N.C.O.'s who have been attending the bayonet flighting course conducted at the camp. The exhibition was witnessed by hundreds of officers and various units and staff officers, including Brig.-Gen. Logie, Lt.-Col. Bickford, G.S.O.; Lt.-Col. Mayes, Dominion director of bayonet

The assault-at-arms was held at the special new bayonet fighting area, which is quite close to the headquar. ters offices. As the area includes trenches, obstacles, parapets and bogs (representing Germans), the charge of the soldiers across the course fixed bayonets, made a thrilling spectacle. The physical training exhibition included jumping of trenches, hurdles and the scaling of a seven-foot wall. Pick-a-back wrestling, boxing and wheelbarrow races were also foot wall. Fick-a-back wresting, boxing and wheelbarrow races were also interesting features. It is thought quite likely that the exhibition of havonet work and physical training given here today will be repeated at the Can-adian National Exhibition at Toronto. In future requests for transfers will not be considered except where the transfer can be carried out from a junior to a senior unit, unless the units concerned are likely to proceed over-

# TUMULT AT NOMINATIONS IN SOUTHWEST TORONTO

Four Candidates Are in Field, But Actual Contest is Apparently Between Dewart and Norris Dewart Renews Attack on Government's Nickel Policy.

There is a red hot fight on in Southwest Toronto and four candidates were officially placed in the field at yesterday's nominations. But the fight is rapidly harrowing down to a contest bener of Queen street and Dovercourt road, when the nominations closed was about equally divided between the followers of Norris and Dewart. The Dewart men were, perhaps, in the majority, but the Norris men present were old politicians, better organized, and they broke about even in the matter of uproar and noise.
Gordon Waldron, the anti-probitton

ist, directed almost his entire speech against Mr. Dewart, and the Dewart men, accordingly, vented their displea-sure by numerous interruptions and great disorder. James McArthur Con-nor, the Socialist Democrat, got a good start, but when he charged the On-

also made it equally difficult to under-stand what the candidate who had the floor was trying to say. He announced that each candidate would be allowed 15 minutes in which to state his views and Mr. Dewart was given the first chance. This proved to be an advantage because the noisy uproar increased as time went on. Mr. Dewart, in spite of some interruptions, was able to put over a pretty fair speech, but Mr. Waldron and Mr. Connor found themselves rowing against a heavy tide. As for Mr. Norris he had little to say, and was probably glad that the uproar and interruptions consumed two-thirds of his time.

Repudiates J. E. Atkinson In the 15 minutes allowed him, Mr. Dewart repeated in tabloid form his speech made before the Liberal convention Saturday night. He promised that at his meeting tonight he would fully discuss the nickel question; meanwhile he repeated and heartily on-dorsed the statement of the Rev. John Bennett Anderson that Canadian nickel was going to Germany and coming back to Canada as bullets in the dead and the Flectrical Development Co. got wounded bodies of the boys we have sent to the front. Referring to The Toronto Star, Mr. Dewart said that the opposition of that paper was the tig-gest asset he had in this campaign. The editor, Mr. Atkinson, claimed to be tainted with social reform, but he was really tainted with the greed of personal aggrandisement and the desire for political dictatorship. He could not and would not be allowed to con-trol the policy of the Liberal party.

Supineness and Neglect. "When we find that in regard to the great political issue there is supineness and neglect; when we find that the representatives of this city have neglected it, it is time for protest," said Mr. Dewart. "Are you willing that the work of Sir Adam Beck, the investment the City of Toronto has of \$6,000,000 in the hydro should pass from the control of the the municipalities is the control of the sovement. ties to the control of the government under the McGarry Act?" Mr. Dewart-I stand where it stands I am trying to uphold the hands of Sir Adam Beck. "Mayor Church says we cannot issue any bonds for the right-of-way without an order-in-council. Sir Adam Beck's hands are tied. This is an investment n which we have \$6,000,000. n which the municipalities had inter-

st enough to send 500 representatives to interview this government."

A by-election, Mr. Dewart said was the time at which the public expressed that the time at which the public expressed that the public expressed that the public expressed the time at which the public expressed the public expressed that the public expressed the public expr duries to his ankle, due to a fall from its opinion of the government that did such things. "I am aware," said Mr. Dewart, "that the dictator who sits in the tower

of The Toronto Star is opposing me, welcome the opposition. "I do not come before stranger," Mr. Dewart concluded, "and ask if you agree with my views on those particular questions, to support the coming election." applause.)

Waldron Attacks Dewart. Gordon Waldron said that the issue noneys due to the men.

"If you vote for Mr. Norris what do you say to the government? That you are satisfied with the government's action in the matter." ("No such thing." "No. no.") "What does Mr. Dewart mean by

saying he will have an independent judgment in the matter? Mr. Dewart runs with the hare and hunts with the hounds. He says nothing that will deter anyone from voting for him." Laughter and cries of "No" followed this sally, and the chairman had to appeal for a hearing for the can-

"I have no sympathy with Mr. Dewart when he comes out at the bidding of Mr. O'Reilly and his friends water localities and it probably will with this policy, which has not one word of honesty," said Mr. Waldron.
John Galbraith: "Do you approve
of the government appointing a costroller for the financial end of the hydro, or do you believe in giving Adam Beck complete control?" Mr. Waldron: "The people say Sir Adam Beck.

Mr. Waldron had no complaint to make of The Star because it would not support him, and Mr. Dewart, he said, should not complain if the Rowell party failed to see in him the

Would Nationalize Nickel. James McArthur Connor, a piucky little Scotchman, came forward as a candidate of the Social-Democrats. He said the Conservative party was manipulated by Wallace Nesbitt, the man who manipulated the nickel trust. The Social-Democratic party favored the immediate nationalization of the nickel industry. (Applause.) Hen. Howard Ferguson was rurning around one day at Welland and another day at North Bay saying that a nickel refinery would be established there, but he had nothing to say start, but when the tario Government with relusive pass any law against child labor, the Conservatives made such an uproar that he could scarcely proceed.

Generally speaking, however, Mr. Connor thought that the Grits were no better than the Tories. Mr. Dewart, he said, was a corporation lawyer and profited by private owner-ship of public utilities, and he would never quarrel with his bread and butter ticket. (Applause and laugh-

When, however, Mr. Connor went or to say that the Ontario Government, passed a law permitting children under 12 years of age to work in shops and factories, there were many fierce interruptions and an uproar that practically prevented the social democrat from getting on with his speech.

Norris' Rapid-firer. Candidate Norris evidently had his speech learned off by heart, and proceeded to repeat it at the rate of 350 words a minute. He said that Hartley Dewart was the lawyer for Mackenpie and Mann, and had helped to make all the agreements by which its concessions at Niagara Falls and tied up the province in a contract which prevented it from erecting a provincial power plant. At this poin some Liberal arose to ask a question some Liberal arose to ask a question about Hon: W. J. Mr. Norris seemed to welcome the interruption and asked for no additional time. He said he resented Mr. Dewart questioning his sincerity on the temperance question. Mr. Dewart was a corporation lawyer, and had supported reciprocity in 1911 and had tried to sell us out to the United States and he ought to be defeated. Mr. Dewart had no opportunity to nake a formal reply, but stated to the press and a number of his supporters at the close of the meeting, that he had never represented Mackenzie and Mann or any of their companies in the matter of Niagara He promised to deal with Mr. Norris' charge at his meeting to-

German resistance is impotent. The lesson of previous offensives has been well learned, and their fruit is the advance on the Somme, steady and cautious, with no lives sacri unnecessarily, and every position held.

On Four-Mile Front. It was 6.30 a.m. when the bombardment ceased and the infantry waves swept forward on a four-mile front. At 7.50 the objectives were attained and preparations to repel counterattacks had already begun. Everywhere the losses were trifling. At many points the French had only to round up the prisoners. Thanks to round up the prisoners. Thanks to the command of the air, the advance was nowhere checked by unexpected crossfire, and those of the defenders whom the deepest shelters had protected, lacked the time to install the

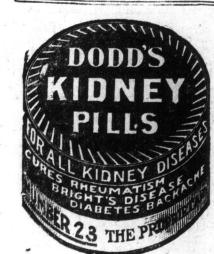

pieces for the defence.

Real fighting occurred only on the slopes of Hill 100, southeast of Maurepas, and here the attacking regiment won three lines of trenches with only three killed and wounded. These troops made a total gain of three-quarters of a mile, which brings them within a mile and a half of the "Route nationale" from Bethune to Peronne, whose possession means the piercing of the whole German scheme of defences of Picardy. Already a dangerous menace is developing against the flanks of the important centres of Combles and Per-onne, and the task of the British before Guillemont has become greatly lightened. The allied progress may seem to be slow, but they can afford not to

Bombardment of Bulgar-German Positions Described as Intense.

NEW YORK, Aug. 14.-The Journal has the following from Saloniki to-

day:
The offensive of the entente allies in the Balkans, begun three days ago against the Bulgarian positions at Lake Doiran, in Greek Macedonia, was METHOD LAUNDRY extended today along the whole Bulgar-German front from Monastir, in Serbia, to the Vardar River. This is a

listance of 65 miles. Semi-official reports emanating from entente headquarters here state that the allied forces opened fire with their new heavy artillery on the enemy positions and fortified works.

The bombardment is intense. At some points the opposing lines are close enough for exchanges of rifle and machine gun fire, which is being car-

In the region of Lake Doiran the offensive has been prosecuted with vigor, several villages being captured by the allied forces at the base of Doiran Hill, and some prisoners being captured. The violent bombardment of the enemy's position along Lake Doiran continues today.

The Toronto Italian Red Cross Society held its final meeting last even-ing. The president, Mrs. Ambrose Small, received a letter from the minister of foreign affairs in Rome, congratulating the society on its splendid work, and thanking it in the name of the Italian Government for the large sums of money sent for the relief of the Italian soldiers. At the close of the meeting Miss Corti, on behalf of the committee, presented Mrs. Small with a spray of roses. Mrs. George Glioma, the secretary, read an address expressing the appreciation of the society for Mrs. Small's untiring efforts in its behalf, and telling her that it was only thru her capable organization it was able to accomplish such splendid work.

Mr. Norris contended himself with saying that a law was wrong which permitted the rich man to buy liquor by the case and would not permit the poor man to buy lager by the glass. He thought so when the law was passed, and he was still of that opinion. Archie Draper, amid considerable applause, summed up the argument in a single sentence: "A cold

Unfriendly to Norris.

J. Black, a young barrister with good this or who arrays of considerable to voice, who aroused considerable en-thusiasm, said the government only earned a short time ago that nickel was going to Germany, and that as soon as they got the information they ordered the nickel company to refine Il their product in Canada. Nearly all the speakers devoted themselves to commending the Workmen's Compensation Act. They also assured the Hebrew voters that the Conservative party was their friend, and not the Liberal party. All got a fairly good hearing except Mr. Norris. For some reason a large number of people left the hall during his speech, and the meeting closed almost imme-diately afterwards. There was confusion for a moment. Mr. Owens hastened to tell the voter that his support was not required. Someboardelse referred to him in uncomplimentary language, and the last heard was the exclamation, "You're a liar!" from the man who thought the Norris majority would be pretty small.

Mr. Owens bade his audience beware of the whisperer, and likewise the scandalmonger. He was afraid to tell his convictions, and he hedged on important questions. These various assertions were punctuated with a series of "Hear, hear's" from the back of the room, each one more emphatic than the last. It was not until the ringing note of the last one broke upen the meeting that Mr. Owens realized he was being joshed. Then he set out to quell the disturber. Mr. Cohen did not attempt to tell the other side.

He believed prohibition wasn't of much interest to the Jewish people. Jews, he said, were inevitably temperate. In any case he thought the Ontario Temperance Act did not make much difference, because anybody who wanted whiskey could still get it shipped to him."

James A. Norris declaredt hat Hartley Dewart would have his answer on the nickel issue within a very few days. He had been assured, he said, that no Canadian nickel was getting into enemy hands. But in any case he was in favor of having all Canadian nickel refined right in Canada.

The candidate reiterated his views on the prohibition issue, that it savored to him of class legislation and should not have been enacted. The question of prohibition, he said, was settled in the elections of 1914.

Candidate of Social Democrats Urges Government Control.

Speaking to a meeting of Hebrew Socialists last night James Connor, the Social Democrat candidate in the Southwest Toronto by-election, denounced the Hearst government's nickel policy. He reviewed the nickel situation in some detail and pointed out the ineffectiveness of the Ontario Government's precautions against the export of Canadian nickel. The only solution of the issue, he declared, was to have the refining of nickel, applier proper control in Canada.

# **BOWLING FOR THE WALKER AND ONTARIO** THE ANNUAL D.B.A. TOURNEY IS ON

Mayor Church Welcomes Players on Behalf of City-Scores in the Different Games.

Under ideal conditions the Dominion Lawn Bowling tournament opened yes-terday afternoon with games on ten different Toronto bowling greens. Up to the time the draw was closed 136 difthe time the draw was closed 136 different rinks had entered, and since that time nine entries, that were too late for the draw, were received. Had an these entries been in on time the record of all previous years would have been beaten; as it is there are only three rinks less than in the record year, a remarkable entry considering the number of bowlers who are away on military service. Bowlers cannot say too much for the splendid way in which this year's draw and arrangements have been planed. Much of the credit for this is due to Thos. Rennie, who is not bowling this year, but giving his whole time to the details of the tourney. All sames will be played on neutral greens and no two teams from any one club will come together in the first or second round of any of the competitions.

any one club will come together in the first or second round of any of the competitions.

Mayor Church, on invitation, made speeches of welcome at the Granite and Victoria lawns. His worship was introduced by Mr. Thos. Rennie at the Granite and by Chairman R. M. Spiers at Victoria. The mayor pointed out how the bowlers had helped in the war, both in many men and much money. On behalf of the city he gave the visiting bowlers a hearty welcome. His addresses were well received by the players.

A chart has been furnished every competitor, and from it he can tell just where and when his rink plays. This year all the greens in use have been numbered consecutively, and in this way the previous confusing plan of having greens numbering the same at different clubs has been superseded.

Another feature this year is a record board, on which there is a small card giving the name of each rink, names of players, and where the skip can be located by phone during the tournament.

The tournament commenced with the first round of the Walker Trophy, of which two rounds have now been played, with the exception of two games, which will be played at the Granite Club, as per schedule, and later the third round will be commenced.

# Canadian Stables Very Prominent In Entries for O. J. C. Fall Meet

Tartarean 4.

Numbers Show Increase Over Last Year, Notably in To-Sea Lord 5, Gala Day 3, Our Mabelle 5, Miss Fay 3, The Sea Jockey Club Cups.

The Ontario Jockey Club, Toronto, yesterday handed out the entries to stakes for Woodbine autumn meeting. Included in the list are the names of the best horses on the Canadian circuit, with Canadian stables very prominent, in addition to others which have been racing in New York, and now at Saratoga.

The entry of 34 in the Toronto Autumn Cup is a very considerable increase over that of 1915—this applies also to the Ontario Jockey Club Cup, the long-distance event of two miles and a quarter. The Grey Stakes, with 44 entries, has all the good two-year-olds, which have appeared on the Canadian circuit this season, as well as several which have yet to make their start on a Canadian race course. The new stake for two-year-olds foaled in Canada—The Lansdowne Nursery Handicap—closed with the splendid total of 27. Seventeen nominations for the Hendrie Steeplechase shows lots of good material for this real good cross-country event.

The list all round must be highly

of good material for this real good crosscountry event.

The list all round must be highly
gratifying to those who are anticipating
a week of capital sport at Woodbine
Park, the last week in September.

on Profit-Taking. Trading at the Toronto Stock Exchange yesterday was for the most part dull with the volume of business restricted, and the general tendency to slightly lower prices. There were a couple of exceptions in Shredded Wheat and Spanish River, the latter stock making a new high point for this movement. Canada Cement, which re-

acted on profit-taking, was the general market leader. market leader.

The strong feeling in Spanish River is evidently inspired by the bullish reports circulating with regard to the profits being made by paper companies. The stock here opened at 13 1/2 and after a temporary reaction to 13, advanced to 14 and closed there. Cement, on the other hand, sold off from 60% to 59, and failed to rally. Shredded Wheat made a new high

cn its advance to 13014.

It is learned that the business of the Shredded Wheat Co. is running the best in history, and that earnings are well in excess of the 6 per cent. divident requirements. The new plant in California has not been started up yet, and will not be in operation on a commercial basis until late in the year. Interests close to the company state that a bonus may be paid at any time, as the profits are sufficient to warrant a larger distribution. The dividend was 4 per cent. and a bonus of 1 per cont. in 1911, 4 per cent. and a bonus of 1½ in 1912, 4 per cent. and a bonus of 2 in 1913, a straight 6 per cent. in 1914, and again last year. The next balance of the list w dividend is due Oct. 1, and if anything a fraction up. better than the 6 per cent, is to be paid this year, the bonus would come then. The August letter of the Canadian Bank of Commerce, out yesterday, says that much anxiety is felt as to labor conditions. Continuous pressure is being exerted to advance and at the same time national exigencies make it most desirable that the cost of munitions should be reduced. Domestic industry has been stimulated by prospects of another good harvest. Prices of raw materials tend upward, and in many cases they are beeming more difficult to obtain. > Yesterday's market at the Standard Stock Exchange was the most active one for some weeks. Paying in larger volume came into the market and business for the day amounted to over 170,000 shares.

Interest was centred chiefly in the Porcupine list, where several stocks displayed a stronger feeling, but on the whole the list was with one or two

who assumed that the market would be seriously influenced or restrained by the pending crisis in the railway labor situation, today's session must have come as a surprise. Trading lacked the breadth and vigor of recent sessions, but was sufficiently large and diversified to embrace an unusual vastaty of issues.

Except for the first hour, when the undertone was somewhat uncertain, prices in the main ruled variably above ast week's final quotations. Advices from Washington, the seat of the labor conferences, were received with interest and for some undefinable reason Wall street was generally of the opinion, at the end of the day, that existing differences would be overcome.

# PRICES OF WHEAT **FALL FIVE CENTS**

Market Develops Marked Weakness on Stop Loss Orders.

STARTS AT WINNIPEG

Break in Chicago Market Arises From Canadian Crop Report.

CHICAGO, Aug. 14.-Wheat developed a marked weakness today on stoploss orders and liquidation. Possibility of a railroad strike, the Canadian crop report, and the federal investigation of the recent sharp advance in prices were contributory factors in the weakness. Wheat lost more than 5c in price; corn an extreme 1%c; oats 1%c, while provisions, despite lower hogs, were re-

latively firm.

The wheat market opened weak, hesitated and then slumped hopelessly. There was much liquidation and this, among other things, encouraged short selling. The Canadian corn report, reflected in The Canadian corn report, reflected in a siump at Winnipeg, was the principal factor. Fluctuations were governed by individual necessities. It was noted that the recent 11c advance seemed to have more than reflected the black rust scare and the government report. Fear of a railroad strike worked against investment. The visible supply statement and heavy receipts also worked against prices. Heavy sales of corn by traders who were notable as buyers last week and sympathy with wheat sent corn down. The visible decrease and a reduction in local supplies checked the slump momentarily, but without not result. Export houses were buying September oats, but falled to check a decline in prices based on the weakness of neighboring pits.

Provisions were unsettled; weak early with hogs, but recovering later on an unimportant trade.
