

SOCIAL SERVICE
TALK AT SYNOD

Address by Canon Vernon of Toronto - Suggested Protestant Institution for Women Sentenced to Jail.

Fredericton, N. B., May 3. - Rev. Canon Vernon of Toronto, general secretary of the Social Service Council of the Church of England in Canada, was called upon at the Anglican Diocesan Synod today to speak. He said that to carry on successfully social service demanded study and investigation, and suggested study by the clergy of the various works prepared for this end, in groups of two or three.

While the clergy must oppose greater freedom for divorce, he said that at present the greatest trouble was that of closing the door behind a divorcee and that the church must assume greater responsibility in upholding the sacredness of the home and purity in the personal life and in the home, together with instruction in the matter of sex. Canon Vernon concluded with a reference to St. George and the dragon. "We have a dragon," he declared, "which attracts the tourists. St. George, however, was not satisfied with killing the dragon, but also undertook the rehabilitation of the victim."

The session was adjourned following a discussion of the proposed Maritime Home for Women at Moncton. It was urged by some that this project should be backed as a united Protestant project to provide accommodation for Protestant women who are now being sentenced to jail for lack of a Protestant home to which they might be sent.

RAILWAY PAY

Montreal, May 3. - The representatives of the Railway Association of Canada and the United Brotherhood of Maintenance of Way Employees of the principal Canadian railways, including the C. P. R., Canadian National and Grand Trunk, who have been negotiating for some two or three weeks with regard to revision of rates, principally affecting overtime payments, have reached a mutual satisfactory agreement. The agreement provides that for certain kinds of work in connection with which overtime is payable, the overtime rate shall be one and one-half times the regular rate of pay for such service without prejudice to future negotiations on other days notice, any change as a result of such further negotiations to be effective from a date subsequent thereto.

MRS. HAROLD HINES

The death of Mrs. Merion Hines, announced yesterday, occurred under very sad circumstances. She had been in apparent good health until last Wednesday. Her illness suddenly developed, and her condition became serious on Monday. Her physicians advised that she be taken to the hospital, but she succumbed while on the way to that institution in the ambulance. She is survived by her husband, Harold Hines, 211 Newmarket street, and by a boy and girl, aged seven and eight years. Mrs. Hines was formerly Mrs. J. MacKinnon of Sydney, but she had resided in the city for some time. Her mother, Mrs. J. Ferguson of Boston, left the city last night for St. John, summoned by the sad news. Many friends will sympathize with those bereaved. The funeral will take place at 2:30 o'clock on Thursday afternoon from the residence of Mr. Hines' father, 69 Durham street.

LIQUOR CHASE

Ivy Langwell, charged with having liquor unlawfully on her premises in Brunswick street, pleaded not guilty. Inspector Journey told going to the defendant's shop last night, and then into her kitchen, where the defendant was with a man and four women. The man was drunk, he said, but the defendant was pouring gin from a bottle into a small pop bottle. Inspector Killen gave similar evidence. The defendant swore that the liquor belonged to the man who was in the shop and she was pouring it into the bottles for him. She denied telling the inspectors that she had bought it outside and refusing to tell from whom she had bought it. She was fined \$30 and allowed to go on condition that she would get out of the shop. E. S. Ritchie appeared for the defence, and W. M. Ryan for the prosecution.

LOYD GEORGE PLEADED

Genoa, May 2 - After the session today Premier Lloyd George declared the work of the financial and transport commissions as set forth in their reports adopted today represented a very material contribution toward the reconstruction of Europe.

It was satisfactory to note, he remarked, the way in which all the powers had accepted, in such a rapid fashion, the proposals for reaching resolutions of the two commissions.

IN WALL STREET

New York, May 3 (10:30) - Speculative interest again concentrated in oil shares at the opening of today's stock market. Domestic issues, especially those mentioned in connection with possible mergers, were the strongest feature. Associated Oil immediately added two points to yesterday's seven-point rise, and Standard Oil of California, Producers and Refiners and Shell Trading were higher by fractions to one point. Shipments continued to strengthen, and news developed increased demands, but stocks, equipments and rails moved contrarily. American Iron was heaviest of these specialties, falling one point.

NOON REPORT

New York, May 3 (noon) - Oil continued to overshadow all other stocks in the smaller dealings of the morning.

Associated Oil extended its early rise to 9 1/2 points, or a half of the South Sea were made by Houston, Pacific, Standard Oil of New Jersey and California and other petroleum specialties. Secondary Motors and affiliated specialties rose 1/2 to 3/4 points of the demand for Bosch Magneto, Stromberg, Garburton, and other specialties. Independent Steels were firmer and various miscellaneous issues rose 1/2 to 2 points. Call money opening quotation of 4 1/2 per cent, the highest initial rate in several weeks, suggested tighter money tendencies.

Helps digestion

Thousands of men and women have found relief from various digestive disturbances by using Fleischmann's Yeast. It is human nature to want to find out "why." So far as science can tell us this is the reason: Fleischmann's Yeast is a food abundant in certain elements which are necessary to health and life itself. It promotes the flow of bile and of pancreatic juice. It has a remarkably beneficial effect on the whole digestive process. It cleans a coated tongue.

Try Fleischmann's fresh yeast in orange juice or in milk. Men like it in milk shakes and malted milk. Women like it spread on bread or crackers. Keep your digestion in the pink of condition and your tongue clean and healthy by eating 2 or 3 cakes of Fleischmann's Yeast fresh every day before or between meals. Secure it in the familiar tin-foil package with the yellow label. Place a standing order with your grocer today.

MORE NEW EVIDENCE. Further new evidence for the defence was introduced yesterday in the circuit court, where John Paris is on trial for the third time, charged with the murder of nine-year-old Sodie McAuley at or near Riverview Park on August 2, 1921. Judge J. H. Barry is presiding. Isaac Allen swore that he picked Paris up at Moose Creek bridge and brought him to Truro on the morning of August 3 in a motor truck. Norman S. Carter, corroborated evidence given by Mr. Allen regarding dates on which he brought meat to Truro. George Murray, former employe in Nichols' garage, told of seeing Paris in the garage and said that Paris apparently sold Nichols some gasoline. Stanley Nichols swore he bought about five gallons of gasoline from Paris on August 2 in his garage in Truro. The cross-examination of Mr. Nichols had not been concluded when the court adjourned last evening.

MOTOR TOURISTS SPEND \$7 PER PERSON DAILY

An analysis of last year's records and statistics of motor tourists, in so far as they were kept, indicates that the average tourist expended the sum of seven dollars daily in the community which he sojourned.

WHEN A MOTOR TALKS

"Keep cool," says the Fan. "Retire early," says the Wheel. "Be a good fellow," says the Wheel. "Brighten up," says the Headlight. "Cut out the noise," says the Muffler. "Don't blow too much," says the Horn. "Don't be a knocker," says the Cylinder. "Be a good mixer," says the Carburetor. "A quick turn over is what counts," says the Crank. "One good turn deserves another," says the Starter.

MARJORIE PICKTHALL.

Her hand laid hold on beauty's hem And chiselled truth in sunbeams of soft gold To lines of sculptured loveliness.

For one sweet moment on the earth The clouds were broken, and this star Spilled opulent glory on us here A little while; ah, such a little while!

Then suddenly the rift was night. For Love stooped down and gently lifted her Now from the oracles of Heaven She gazes on the very countenance of beauty.

Leans upon the breast of the Beloved, And understands his heart. And we shall gather up the star-rays from her hand And set them in a crown That o'er her name shall shine till we, with her, Behold the beauty face to face, At home beyond the dark.

NEWS NOTES ABOUT PROMINENT BAPTISTS

Rev. J. S. Millett has tendered his resignation as pastor of the church at Clark's Harbour, N. S., to take effect on the 15th of the month.

One day last week Rev. L. J. Tingley, pastor-at-large, called at our office en route to his home in Windsor, N. S., for a brief visit.

Many of our readers will be glad to know that Mrs. Emma P. Jones, widow of Prof. R. V. Jones, Ph. D., is spending the evening time of her life happily in the home of her daughter, Mrs. J. S. Margeson, Berwick, N. S.

Rev. Perry J. Steadhouse, D. D., is meeting with large success in his pastorate with the First Baptist Church of Chicago. The intimation is given that the present Sunday School plant is outgrown and that the board of trustees have decided to put up a modern community house.

Rev. Joseph Nowotny, president of the Baptist Union of N. S., is planning to visit America in the late spring and early summer.

A brief note from Miss Mabel Archibald, dated Wolfville, N. S., April 4, conveys the welcome information that Miss Cora B. Elliott and herself reached Halifax on April 28, the former proceeding to the old home at Clarence, Annapolis Co., and the latter to that of her brother, Mr. W. C. Archibald. These two ladies are home on furlough from India.

A large number of friends gathered at the depot last night to wish bon voyage to Miss Elizabeth McInerney and Miss Katherine Lawlor, who left for Montreal, where they will embark on a tour of the Maritime Provinces, in connection with the Canadian Women's League at Montreal. Mrs. P. M. O'Neill, Miss Inez Ready and Misses McIntyre have already sailed for Rome.

EMPLOY ACTIVE MEN TO HELP CAMPAIGN

Young Huskies are Used as Bouncers and Guards.

Budapest, May 3.—A new occupation, open only to young huskies not afraid to fight at the drop of a cabbage, has been suggested here as a result of intensive campaigning for the pending elections.

Candidates opposing the Government have met with such pronounced hostility that they now employ as many athletic topmen as their campaign funds will permit to act as bouncers, body guards, spotters and shields for the speakers.

The opposition candidates decided to buy protection after dozens of their meetings had been broken up by bands of notorious "Awakening Hungarians," who acquired remarkable skill at heavy-smelling bombs and occasionally bricks during fits of political enthusiasm.

The bouncers are stationed at various points through the hall and galleries and on the speaker's platform. Those in the audience attempt to quell disturbances at the source, but should a stray vegetable break loose and head for the stage, there is always one of the hired help ready to jump in front of the speaker for an instant.

On the rare occasions when there are no disturbances, the huskies act as claqueurs. In many of the gatherings this is said to require almost as much courage as speaking, for an outburst of applause from any section of the house is sure to bring a collection of missiles.

Mexico City, May 3.—An alleged plot by General Celso Cepeda to hold up a Vera Cruz-Mexico City train carrying more than 600,000 pesos and with this plunder to declare a rebellion against the government was frustrated last night when one of his trusted aides instead of robbing the train at San Andres, as planned, boarded it with his followers, rode to Mexico City and made a report to the war department.

THE STILLMAN CASE

Poughkeepsie, N. Y., May 3.—Testimony that Mrs. Anne U. Stillman and Fred Beauvais made application for admittance to an Indian tribe on the Canawagua Reservation, near Montreal, and were refused, was understood to have been given here yesterday at hearings in the divorce suit instituted by James A. Stillman, New York banker. This testimony was attributed to Pete Delle, an Indian living on the reservation. He said no one with Caucasian blood could be admitted to the tribe, it was reported, which barred both Mrs. Stillman and Fred Beauvais, Beauvais' father Leille declared, belonged to the Bear Clan, divided into "black bears" and "white bears." In this connection the plaintiff's lawyers were reported to have referred to prior testimony that when Guy Stillman was born in November, 1913, Mrs. Stillman had a telegram sent to Beauvais reading "little black bear has arrived."

PETITION SIGNED BY 4,000 PEOPLE

Civic Control of Hydro Urged on Council—Daylight Saving on May 20.

A feature of the first meeting of the new city council held yesterday afternoon, was the visit of a delegation from the united organizations which presented a petition, signed by more than 4,000 citizens, calling on the council to inaugurate civil control of the hydro power. The delegation was given a hearty reception, and it was said that the petition would receive every consideration. At the meeting it was decided that daylight saving time this year would be in effect from midnight on Saturday, May 20, until midnight on Saturday, September 9. Mayor McLeInn was in the chair and all commissioners were present.

A letter from the board of school trustees, which was referred to the new council by the old body, asking that the city approve a bond issue of \$230,032.13 to replace Albert school and \$9,781.25 additional for the foundation for the new Newman street school, was discussed. Commissioner Frink contended that had the authority to issue the bonds without the consent of the council. Commissioner Thornton said that besides asking for bonds for the new school the board had exceeded the expenditure for the Newman street school. The mayor said that the council should accept no responsibility in the matter.

A letter from the Canadian Good Roads Association was read, asking that the annual fee of \$150 be forwarded and that a representative from the city be present at a convention to be held in Victoria in June. This was referred to the Commissioner of public works for report.

A letter was received from the Board of Trade in regard to harbor commission saying that the board was in favor of federal control of the port along harbor commission lines. It enclosed a letter from Hon. J. B. M. Baxter, M. P., saying the matter should be taken up at once with the minister of marine and fisheries. The matter was referred to the committee of the whole.

H. J. Garson presented a letter asking that the New Brunswick Rolling Mills, Ltd., be exempted from taxation this year and that the water rates be reduced fifty per cent. They had a hard time making the business pay and if the council complied with the request the company would start the mills at once, employing seventy-five men. The matter was referred to the committee of the whole.

Mr. Thornton said that the police magistrate intended taking a vacation of eight or ten weeks' duration and moved that Hon. R. J. Ritchie, police magistrate, be granted three months' leave of absence and be paid three months' salary in advance in recognition of his long service. The motion was carried unanimously. George A. Henderson, the clerk, will act as magistrate.

The mayor announced that he had engaged the services of a private secretary or stenographer. There would be much work to be done in connection with hydro matters especially. He would need also to purchase a typewriter and desk. The salary of the stenographer, which would be \$1,000, would be paid out of general revenue.

Mr. Frink brought up the question of paving Prince William street from Princess street to Market square, and was given authority to have plans and estimates for the work made.

Mr. Thornton said that the city hall on the west side was in bad shape. The entrance was bad and the wiring in poor shape. He was authorized to have the city engineer and city electrician make plans and estimates for repairs.

A Life for A Dollar

NEVER was human life so cheap as it can be bought today in the famine districts of Russia. \$1 will save a child's life by providing food for a month. \$10 will save ten children from starvation. \$500 will establish a kitchen and feed 100 children until the next harvest.

Will you save a life with a dollar? Could any other dollar you have—or ever hope to have—bring such soul-satisfying returns? Wouldn't you sleep better—feel better—be better—if you knew that a dollar of yours saved a child's life? Only—anything you do to save the children of Russia in their desperate fight against death from starvation, must be done at once. Won't you send the dollar NOW? A child's life depends on it.

MOONSHINE AS FUEL MAKES THE MOTOR HUM

Autoist Steps on Exhilarator and the Engine Readily Responds, for It is Full of Liquor — Car Carries Its Own Still.

Spray, N. C., May 3. — A discovery which revolutionized the automobile industry and incidentally added another wrinkle to the already corrugated brow of the prohibitionists, was just about to light in the South Mountains, near Hickory, N. C.

A young business man from Hickory, who was driving with his family over Knob to change the air in one of his tires, when a young man in a light roadster drew up alongside and inquired if he might be of help. The Hickory man, who had been trying for half an hour to make seventy pounds of air grow where only fifteen were before, was glad to while he was resting his back, he walked over and looked at the radiator, the engine of which was still running.

Noticing the clear snap to the exhaust and the absence of any smoke or odor, the Hickory man said: "That's pretty good gasoline, you're using."

"That's not gasoline, that's moonshine," replied the stranger. "Moonshine?" questioned the Hickory man. "Do you mean moonshine?"

"Yes, moonshine, red-eye, liquor, joy," answered the young fellow, taking a key from his pocket. "Here, let me show you something."

Then the young fellow unlocked the lid from the big deck on the back of the roadster, and, raising it up, disclosed the customary jumble of tools and tire chains, but a shiny, copper still, which was bubbling away as merrily as if it were hidden in the mountains.

He explained to the Hickory man that he had disconnected the hose running from the cylinder block to the radiator and had piped the hot water to a double-jacket copper vessel surrounding the still and had also taken off the muffler from the exhaust pipe and had run the hot gases through a copper tube which was immersed in the outside jacket in order to superheat the water, and in this way generate enough heat to operate the still in a very efficient manner, while the vapor from the still, instead of being carried off through the familiar copper "worm," was piped direct to the radiator, which formed a perfect condenser, from the bottom of which the precious fluid was conducted through a small copper tube back to the gasoline tank, from which it was drawn to the carburetor in the ordinary manner. The Hickory man, who he told the stranger he did not know a gas engine would run on corn liquor, and the man replied:

"Ordinarily that's true, but the carburetor on this car's my own invention." The young man explained the construction of fuel oil and the number of thermal units in a gallon, etc., until the Hickory man was in a state of technical ecstasies. He learned, however, that about thirty or forty miles could be gotten from one gallon and that instead of having to stop at every service station to lay in a supply of gas, the new car had to stop every two hours to have the surplus drawn off from the tank at the rear, as the outfit generated the fuel faster than it was consumed. He also learned that it was only necessary to stop at a country store once in a while to buy a peck of corn meal, a dollar's worth of sugar, a cake of yeast and a few other simple ingredients, the names of which were not divulged, to make the contrivance practically self-supporting.

The Hickory man asked if the stranger had made any effort to have the commercial possibilities of the invention, and was told that the owner was in communication with two big automobile manufacturers who were anxious to purchase both the carburetor and the formula.

The young man said he was born and reared in the South Mountains, but had taken two years at college, where he had studied physics and chemistry. His name was not learned.

DAUGHTERS OF ISRAEL Mrs. Joseph Goldman presided last night at the annual meeting of the Daughters of Israel in the vestry of the synagogue and read her yearly report as president. The secretary, Mrs. Perchinsky, reported a membership of ninety-five, an increase of twenty. A beautiful loving cup was presented to Mrs. Perchinsky by the president, on the eve of her departure for Montreal.

The election of officers resulted as follows: President, Mrs. N. C. Harris; first vice-president, Mrs. J. Poyras; second vice-president, Mrs. W. Webber; treasurer, Mrs. Max Ross; secretary, Mrs. Louis Heger. Delegates to the local council of women were appointed as follows: Mrs. L. Brager, Mrs. N. C. Harris, Mrs. J. Goldman, Mrs. W. Webber, Mrs. L. Isaac and Mrs. Max Ross.

F. E. Sharp, superintendent of immigration and secretary of the farm settlement board, left for Fredericton yesterday to take over the new offices in the agricultural department building.

OFTEN HAD TO BE SENT HOME FROM HER SHOP

But Miss Kewley was Completely Relieved by Taking Tanlac, She Declares in Public Statement.

"I took Tanlac because I heard it was good for rheumatism, but it not only took away my rheumatism but relieved me of other ailments," was the statement of Miss Frances Kewley, 271 Rockland road, St. John, N. B., a young business woman with T. H. Estabrook, tea merchant.

"I suffered about five years with acute rheumatism in my back and arms. Two years ago I had the 'flu' and that was never well. Sometimes I got so faint I had to be sent home from work. I got so nervous and irritable I simply lost all interest in life. My friends were afraid I was going into a decline, and I was glad to state that five bottles of Tanlac have completely restored my health. I am sure it is excellent for all cases like mine. Tanlac is sold by all good druggists.

COMMODORE YEARS FOR YACHT RACES

Also Wants Other Facts About the Hereafter—Appeals to Sir Conan Doyle.

(Chatham, World.) The ancient creed, dividing all mankind between the shepherds and the goat pasture, and assigning them to eternal torture chamber (think of the malignity of it or a blissful fairyland) has been more remarkable for its crudity than its invention, but Sir Conan Doyle has evolved a hereafter from his imagination which will make no greater demand on human credulity and be much more consoling to the mortality of people. He knows it all because he has talked with the dead and been entrusted with the secrets of the grave. And here he is, in a most interesting manner, telling the world, while they slowly made assertions and added, "I wish the Lord."

Those who are credulous enough to accept the Doyle doctrine will find a consolation in them. The next state of existence is "a step in the evolution of the soul." The selfish pocket in time "in a gray mist" where their souls have to suffer and be purified so that they can enter into companionship with those who were unselfish and had friends in life. The latter, about three days after death, are available to themselves, surrounded by friends who help them to understand spiritual things, and enter upon a state of progress and enjoyment. They have etheric bodies and are subject to mental pain only. But, according to Doyle or Hoyer, the honest truth is, he lies for a long time as readily as they did on earth, which accounts for the confusing messages the mediums receive from the spirits. The old (how consoling this is to the old folks) regain their youth as the young grow into the old and manhood. (What purile rot!)

"Work is a joy in the next world," says Sir Conan, and his latest work looks forward without apprehension to sawing wood or washing dishes. "Every human being," says this unassuming philosopher, "has a spiritual body, which is the basis of what people call phantasms—an etheric or astral body—which is drawn from the mental body at death. The Roman Catholics will be greeted by their Roman Catholic friends on the other side, the Methodists by their Methodist friends, etc., but in the course of time they will all come to the understanding of the Fatherhood of God and Brotherhood of Man."

A little fuller and more definite information would be welcomed by believers in this doctrine. For instance, what occupations or recreation will we enjoy in the old doctrine promised with the repentant, if we remember aright, with which to fly, and endowed us—ever those of us who can't tell Old Hundred from Yankee Doodle—with the ability to sing, flying and singing, though rather monotonous, would be better than nothing. But what prevents Sir Conan from giving us a greater variety of recreation and occupation? Are there no lakes, rivers and seas in his hereafter where we can go on a yacht cruise and sail yacht races? This is what we particularly want to know. Are there automobiles there? Is it a "dry" region, or can one look forward to something to drink? Are we to get oranges and roast chicken and other eatables? And, if not, what are we to get as substitutes? Is the smoker to look forward to an unfailing supply of good cigars? Will the dear old maid cease to play aunt to the children of their sisters and brothers, the wrinkled grandmothers be young girls, the mothers and their little daughters be even as twins, the old men and boys be equally young and vigorous? Will the women dread their hair, wear it loosely flowing over their shapely shoulders, or have it hideously bobbed as at present? Will they follow every fool-fashion that may be set by others even if it makes them look ugly, or will they wear only that which enhances their charms? Will their skirts end above the knee or below the ankle? Will they talk English and, if so, will they talk the King's English, or will they say, like recent writers and speakers, that "the river has raised twelve inches," and this was the work of who stands before you? There are a few of the questions that a man who converses freely with the inhabitants of the other world may be reasonably asked to answer.

As Sir Conan is in daily communication with departed souls, we look to him for this information. We refuse to accept generalities from a teacher who is in position to give us particulars.

The executive of the Fredericton Diocesan W. A. at a meeting on Monday allotted their funds for the coming year. Mrs. J. Lee Day, the new secretary of Little Helpers, was welcomed to the executive.

Corns?

—just say Blue-jay Stops Pain Instantly

The simplest way to end a corn is Blue-jay. A touch stops the pain instantly. Then the corn loosens and comes out. Made in two forms—a colorless, clear liquid (one drop does it) and in extra thin plasters. Use whichever form you prefer, plasters or the liquid—the action is the same. Safe, gentle. Made in a world-famed laboratory. Sold by all druggists.

DO YOUR BOWELS MOVE REGULARLY, OR DO THEY BECOME CONSTIPATED

There is no medium through which disease so often attacks the system as by allowing the bowels to become constipated, and there is no other trouble which is better to that is more likely to be neglected, because material inconvenience may not be felt at once, from irregular action of the bowels. When there is not regular action, the retention of the decayed and effete matter, with its poisonous gases, soon poisons the whole system by being absorbed into it, causing violent sick and bilious headaches, internal bleeding or prostrating fevers, heartburn, jaundice, etc.

MILBURN'S LAXATIVE PILLS

will regulate the flow of bile to act properly on the bowels, thus making them active and regular, and removing the constipation and all its allied troubles. Mr. Samuel Knicker, Tatumagoch, N. MORNING NEWS OVER THE WIRES

Loss of about \$8,000 with about half insured was the result of fire in a pasteurized milk factory in Lewisville, near Moncton last night. The fire broke out during an electrical storm and might have been caused by lightning.

Cecil McCullum, aged twenty, was drowned yesterday at Tatamagochi when a boat he was in capsized in about twenty feet of water. He was with Gordon McCullum and three school children. Gordon rescued the children and kept them up until help arrived, but Cecil got out of his reach and was drowned.

At 10:45 o'clock last night, about 500 strike sympathizers broke into Thrice Canadian Pacific sheds in Montreal and, in a revolver battle with city, harbor and C. P. R. police, wounded two constables, probably fatally, and injured several others. Constable Ferdinand Beaudry is said to be dying in the Dufferin Hospital and Constable James Munsey is not expected to live.

PEPPERY ADMIRALS MAY BE DISCIPLINED

London, May 3. — A novel order-in-council issued by the admiralty requires officers "judged unfit for service by reason of their peculiarity of temper not governed by temperate or irregular habits." This means that peppery admirals may be fired if they curse officers and men from the quarterdeck.

Fredericton Diocesan Synod. The fifty-third session of the Fredericton Diocesan Synod of the Anglican church was commenced yesterday at Fredericton. The business meeting was held in the afternoon and was opened with prayers.

Two notices of motion were made. One was respecting the appointment of a trustee for the orphan's home in St. John should be taken up on which collections for the orphan's home were made in the diocese. The other was respecting a proposal to increase the insurance on the diocesan church properties in the diocese and the appointment of a committee to look into the matter.

The report of the committee on memorials for deceased members of the synod was then presented. Tributes were read for the following members who had died during the past year:—W. M. Jarvis, St. John; Robert E. Couper, Fredericton; Mrs. J. H. Ludlow, Belvedere, of the parish of Greenwich; John H. Hickman, of Dorchester, and Daniel C. St. John. This report was adopted.

GIRLS! LEMONS WHITEN SKIN AND BLEACH FRECKLES

Squeeze the juice of two lemons into a bottle containing three ounces of Oratol. This mixture will whiten the skin and supply for a few cents, a skin and, and you have a quarter pint of lemon juice. The Oratol is a most effective skin cream. Massage this sweetly fragrant lotion into the face, neck, and chest each evening. It will not only whiten the skin and remove freckles, but it will also whiten the teeth and brighten the eyes.

ARREST PARENTS; NOT CHILDREN Adults Considered at Fault by Mayor Oles.

Youngstown, O., May 3. — Arrest of parents who permit children to remain in the streets after eight p. m. is the latest writ in Mayor George L. Oles' campaign to "modernize" Youngstown. "I'd rather arrest the parents than the kids," Oles declared.

SPENCER OUTRIDES EATON AT NEWARK

Takes Two Straight Heats in Mile Match Bicycle Race With Surprising Ease.

Newark, N. J., May 3. — Arthur Spencer looks up at present as the most likely contender for the American bicycle championship. Spencer, who defeated Ray Eaton in two straight heats in a mile match race in Newark a week ago, repeated the trick at the Velodrome here on Sunday. Spencer won both heats in such a decisive manner that the fans were almost dumbfounded. He showed sensational speed in each heat and won just about as he liked.

Spencer in the first heat rode around Eaton on the last turn, and when he was leading, a half lap from home, the fans thought the heat was over. Spencer came along with a remarkable burst of speed and sprouted around him in the stretch. Eaton tried to recover by riding from the rear, but Spencer was too good for him, figuring he could ride around him in going out in front and proved it by riding as fast from the front as from the rear. He hit up a hot lap and sprouted so fast that he led Eaton over the tape by a full length.

STILL EXPLOSION CAUSES PANIC

(New York Times) A fifty-gallon still exploded last yesterday afternoon at the basement of the five-story house at 220 East Twelfth street, causing wild excitement in the neighborhood, but not doing any harm. The fire, which had been extinguished and the occupant, Camello Capatzen, 42 years old, was sent to a hospital for treatment of serious burns. Pedestrians were showered with bits of glass from the windows which had been blown out, and pictures were torn from the walls of the basement apartment. The crowd that gathered proved nothing about him.

CHAMBERLAIN'S

If Your Liver is Torpid Perhaps all you require is a few doses of Chamberlain's Tablets. DAUGHTER WAS WEAK AND NERVOUS

Mother Gave Her Lydia E. Pinkham's Vegetable Compound with Happy Results

Cobourg, Ontario.—Lydia E. Pinkham's Vegetable Compound was recommended to me when my daughter, Emma, had trouble every month which left her in a weak and nervous condition with weak back and pain in her right side. She had these troubles for three years and frequently was unable to attend school. She has become regular and feels much better since she began taking the Vegetable Compound and attends school regularly.—Mrs. JOHN TOMS, Ball St., Cobourg, Ontario.

Every mother who has a daughter suffering from such symptoms should give Lydia E. Pinkham's Vegetable Compound a trial. It is prepared from roots and herbs, and can be taken in safety by young or old. It has been used nearly fifty years, and many, many women owe their good health today to the timely use of Lydia E. Pinkham's Vegetable Compound.

VALUATION OF SCHOOL NURSES

Of 31,740 school children in Manitoba examined by Public Health nurses during 1921, 10,425 were found to have physical or other defects, 9,228 were given treatments, and 2,088 were excluded from school for suspected communicable diseases, according to the annual report of the Health Department. This shows that 80.4 per cent. of the children had defects and that 91.1 per cent. of the defective received treatment.

Lloydminster, Sask., May 3.—The 19th anniversary of the arrival of the "All British Colony" in this district was celebrated here on May 1 when a re-union of Lloydminster "old timers" was held. Lloydminster derives its name from Rev. Geo. E. Lloyd, now Bishop of Saskatchewan, and a feature of the celebration was a reception in his honor.

In April, 1903, the famous "All British Colony" also known as the Barr colony, of some 2,000 British colonists detrained at Saskatoon and started upon a 200-mile trek by ox wagon across the plains. Some settled near Battleford and a thousand pushed on and finally pitched their tents where today stands the town of Lloydminster. The place was an outpost of civilization, 200 miles from the nearest railway, but the tents soon gave way to shacks and the prairie grass to acres of golden grain. The shacks in turn disappeared to give place to well-built houses, churches and schools, and

MEASURE IMPULSES EYE SENDS TO BRAIN

New Light on Laws Governing Mechanism of Vision Revealed at Harvard—Novel Apparatus Used.

Cambridge, Mass., May 2—The most accurate measurements ever made of the manner in which the optic nerve transmits nerve impulses from the eyes to the brain have been made recently at the laboratories of the Harvard Medical School and have thrown new light on the laws governing the mechanism of vision.

The experiments, conducted under the direction of E. L. Chaffee, assistant professor of physics, and W. T. Bovie, assistant professor of biophysics, were made with extremely delicate electric apparatus which amplified about 500 times the nerve impulses passing from the eye to the brain.

It has long been known that light passing through the lens of the eye makes an image on the retina at the back of the eyeball, as on a photographic plate, and that the impulse which then carries the message from the retina along the optic nerve to the brain is in the nature of an electrical disturbance. Such men as Walter and Jolly, in England, and E. H. Snodgrass, in Holland, have been able to measure roughly the intensity of this electrical impulse. They have represented its intensity by a curve, and have found that when a light is flashed upon the eye the curve rises sharply, then drops, and then rises again gradually. This second rise corresponds with the phenomenon known as "after vision," which may be noticed by anyone who looks at a bright light and then closes his eyes. He continues to "see" the light, because the optic nerve is still transmitting impulses to the brain.

At the Harvard laboratories these investigations have now been pushed much further and made more exact. The Harvard experiments were performed on the eyes of frogs. The frog was killed and his eye was then immediately removed. The eyeball was cut in two and the optic nerve, which ordinarily connects it with the brain, was attached instead to two electrodes connected with a vacuum tube amplifier such as is used in wireless telegraphy. This was connected with a string galvanometer so adjusted that it registered the slightest electrical disturbance. In other words, whatever the frog's eye "saw" was reported electrically, not to the frog's brain, but to this galvanometer, and amplifier 500 times.

This apparatus, attached to the frog's eye, proved far more sensitive to light than any hitherto constructed. It measured its impulse from light a great deal

previous investigators could be plotted with much more accuracy. They discovered that the smoothness and regularity of these curves are distributed by a large number of small oscillations, and that these oscillations have to do with the perception of color.

How color impulses were transmitted from the tiny "cones" on the retina to the brain had not previously been known. The Harvard investigator discovered that all impulses passing along the optic nerve are rhythmic, that they go in a series of extremely rapid pulsations, and that the nature of this rhythm varies with the color of the light seen.

White light, for instance, when flashed upon the frog's eye causes impulses to pass along the optic nerve to the galvanometer in groups, while blue light causes regularly recurring impulses. As the investigators alter the color of the light cast upon the frog's eye the rhythm of the impulses varies accordingly. Incidentally, it has been noted that the frog is practically red blind; the frog's eye transmits only very faint impulses from red light.

The observations made at Harvard are said to confirm the accuracy of many of the laws of vision worked out by totally different methods by psychologists. The investigators have measured carefully the way in which the response of the eye varies according to the intensity and duration of the light, which shines upon it. By thus finding out more about the natural laws which govern the transmission of messages from the eyes to the brain they hope in some degree to make it easier for the medical profession in the future to understand and treat defects of vision.

BASEBALL. Heavy Hitting.

It seems that another era of heavy hitting is in prospect. Despite widely circulated reports prior to the start of the baseball season that the lively ball of last year had been shunted into the discard, it appears that the lives of the pitchers are to be just as miserable during the current campaign as they were when Babe Ruth and the rest of the maulers were making records a year ago. Whether the ball now in use is just as lively or whether the pitching is below standard is a moot question, but the fact remains that to date this year there has been plenty of hitting, and hitting of the distance variety.

Two of the men who contributed most liberally to the home-run records of 1921 have been forced into illness and will remain under wraps for nineteen more days—Babe Ruth and Bob Meusel. But so far as the general epidemic of long distance hitting is concerned, they have not been missed. No less than eighty-seven home runs have already been made—forty-five in the National League and forty-two in the American League.

Among those who are showing proficiency with their bludgeons is one Kenneth Williams, left fielder for the St. Louis Browns. Thus far he has been a sensation, even more so than was Babe Ruth at this time a year ago. He has now made nine home runs in as many days. At this time in 1921 Ruth had accumulated five homers and it was not until May 10 that Babe slammed out his ninth circuit smash. Thus Williams is ten days ahead of Ruth's record. Almost doubling a record made by a master slugger such as Ruth is a feat that demands wholesome respect. If it does mean that Williams will surpass the record of fifty-nine homers made by Ruth, nor does it necessarily mean that Williams will finish the campaign with a better mark than Ruth is able to make this year, but it certainly indicates that in Williams Ruth has a budding rival who may make things interesting for the Home Run King.

Last year Williams's great work was so greatly overshadowed by Ruth's performance that many may have lost sight of the fact that this slugger finished the season with Bob Meusel for second honors in the American League with a total of twenty-four homers and that he had a batting average of .347. These figures furnish proof conclusive that Williams is no flash in the pan but that he is really a finished performer at the plate.

Killed By Pitched Ball.

Hit on the head by a pitched ball, Earl Heuer, 26, of 405 Sixty-third street, Brooklyn, N. Y., died in the Norwegian Hospital last Saturday after an operation for concussion of the brain. Heuer was an accountant for Guggenheim & Co., 120 Broadway, Manhattan. He played with the Guggenheim team on Staten Island Saturday and was at bat when struck.

Three Homers in Succession.

New York, May 3.—The Philadelphia Athletics yesterday made three consecutive home runs in a single inning—a feat accomplished only twice before in the big league annals. Walker, Perkins and Miller of the Athletics equalled the clotting history made in 1894 in the National League by Shugart, Miller and Pettz of St. Louis, and in 1902 by Lajoie, Hickman and Bradley of Cleveland. The homers all were made off Mordridge and helped Philadelphia beat Washington 11 to 2.

The Yankees and St. Louis were tied for the American League honors again today as a result of a battling combat back by the New Yorkers, who beat Boston 12 to 6, while Detroit, behind clever twirling by Ehmke, stopped the Browns 3 to 1. Frank Baker gathered five hits in as many times at bat off three Boston pitchers.

The Giants have a lead of two and a half games over their nearest rivals Chicago, as the result of making a clean sweep of the series with Boston, driving Rube Marquard from the mound in the first inning, while Ryan held the homers all were made off Mordridge and helped Philadelphia beat Washington 11 to 2.

Coch, a recruit, pitched the Reds to another victory over Pittsburgh, 9 to 2, while the Indians emerged from his slump to trim Chicago 10 to 6 in the only other major league game played.

His 848th Consecutive Game.

By playing in last Saturday's game against his former team, the Boston Red Sox, at the Polo Grounds, New York, Everett Scott completed his 848th consecutive game—a record that surpasses the best previous mark ever made in the major leagues by 271 contests. The Yankees' shortstop started his streak in 1916 while with the Red Sox. He has not missed a game since that time. The previous record was made by George Pinckney, a third baseman who played with the Brooklyn American Association, and Brooklyn National League teams. From 1885 to 1890 he did not miss a game, playing in 477. Fred Lindstrom, a member of the Philadelphia National League, established a modern record from 1916 to 1920 when he played in 829 consecutive games. During Scott's streak he has led the American League shortstops in fielding for six years. He has batted .285 and fielded .970.

Fletcher Out of Game.

Philadelphia, Pa., May 3.—Arthur Fletcher, captain of the Phillies, who was injured last week in a game with Brooklyn, will be out of the line-up for two weeks. He tore the muscles in his right thigh.

Knock Out in First.

New York, May 3.—Vincent (Pepper) Martin of Brooklyn last night knocked out Babe Herman of Los Angeles in the first round of a scheduled fifteen round bout in Madison Square Garden. The men are featherweights.

Providence, R. I., May 3.—Dannie Lee of New York and Harry Martin of Providence, bantams, fought ten rounds to a draw here last night.

Purer Than Air! Purity Heathized Ice Cream

The atmosphere used in making PURITY HEATHIZED ICE CREAM is infinitely purer than air. It is a sterile, clean, germfree atmosphere. The purest atmosphere known to science—the air at mountain tops, which ordinary mortals never breathe, is said by scientists to contain over 3,000 particles of dust and dirt to the cubic inch.

The same authority says the air of our busy cities is never pure. It is often laden with all kinds of impurities. So mixing air in with pure cream, sugar, fruits and flavoring used in making ice cream makes the finished product impure.

PURITY HEATHIZED ICE CREAM is made by a patent method. The air is driven out of the freezers before the mixture is run into them. The pure atmosphere is forced in under pressure, until it replaces the air.

The mixture is then frozen in this super-pure atmosphere. That's why we can say that PURITY HEATHIZED ICE CREAM is infinitely purer than air-made ice cream.

Be sure, when you order ice cream, whether it be a dish or a brick or carton to take home, that you are getting PURITY HEATHIZED ICE CREAM.

IF IT ISN'T PURITY IT ISN'T HEATHIZED

Dunlop Mile-age

"MILEAGE" is the magic word in Tiredom these days, and Dunlop Tires right across the continent are rolling up record after record.

To think about a 5,000-mile Tire is to live in the past; to talk about a 10,000-mile Tire is to be "just ordinary;" to dwell on a 15,000, 20,000, 25,000 mile Tire is to get into that rubber sphere where Dunlop is pre-eminently the leader.

Ask for Dunlop Cord and specify "Traction." Then you are on your way to a new experience.

Four Teams For City League.
Further progress was made last evening towards the formation of a city amateur league. At a meeting held in the Commercial Club rooms four teams were represented, Commercial Club, East End Improvement League, St. Roses and St. George's. St. Roses representatives avowed pooling the receipts and dividing them at the end of each week, but the other teams did not favor this and decided in favor of receiving their portion of the gate after each game. It was agreed to play one game a week on Queen Square, West St. John, and three on the East End grounds. A. W. Covey, who was present, explained about the status of athletes.
asked St. Peter's to play in Montreal.
Joseph Dever, manager of St. Peter's baseball team, received a telegram from the local team last evening asking the team to go to Montreal to play this week-end, as the local team has not been able to season they were unable to accept.

Holds 23 World Records
Culver, Ind., May 2.—John Wettsmuller, of the Illinois Athletic Club, established his twenty-third world's record in a 100 yard swim in the Culver military academy pool in 59.2-8. The former record of 59.1-8 was held by Duke Hissmanok of Belyea to Philadelphia.
If present arrangements materialize Hilton Belyea, Canadian senior sculling champion, will sail in the near future on one of the Manchester line steamers for Philadelphia where he will compete for the championship of the United States. He will be accompanied by his brother and trainer, Harry Belyea, and will take along his new boat "St. John," which will be ready this week. It was designed by John O'Neill and is being constructed by members of the Belyea family. The designer is an invalid and has asked Hilton to row across the harbor and show him the shell when it is completed. Formal confirmation of the acceptance of Hilton's challenge was received yesterday. John Hanlan Dunham of Toronto, has also challenged for the cup and it

OLD TIMERS WIN.
New York, May 2.—Numerous suspensions of drivers and horses were ordered by the National Trotting Association yesterday. Among the decisions announced were two affecting Canadian owners. The application of John Wood of St. Catharines, Ont., for removal of expulsion imposed in 1902 was granted on condition that \$50 be paid as recording fee for change of name of horse.
New York, May 2.—Harry S. Page, famous for forty years for his interest in amateur racing and riding, at a meet of the United Hunt and Riding at Belmont Park yesterday, rode his sixteen year old Gold Plate to victory in a two mile and a half steeplechase. Mr. Page won the champion steeplechase at Morris Park on his Self Protection in 1902.

R. K. Y. C. Plans For Season.
The annual banquet of the Royal Kennebec Yacht Club was held last evening in Bond's and was followed by the regular quarterly meeting of the club. Commodore Walter Logan presided. Secretary Robert L. Logan reported that there were 186 members in the club. Four honorary members were elected: the prime minister of Canada, the lieutenant-governor, the premier of the province and Mayor McEllan. It was decided that no cash prizes would be awarded during the year, but suitable ones would be secured by the sailing committee. It was also decided to hold the annual cruise on August 5 to the Narrows on the Washpetook, and the annual service at Sand Point on August 18. A committee composed of James W. Barnes, Frank Whelpley, John Kimball and S. B. Hastin was appointed to revise the by-laws and constitution.
The sailing committee reported the following fixtures for the coming season: Dinghy races, June 6, Millidgeville course; June 13, Millidgeville; June 19, Courtenay Bay; June 21, Courtenay Bay; June 24, Westfield; June 27, Millidgeville; July 3, Padenack. Artillery handicaps, July 14, from Millidgeville to the Westfield wharf.
Concluding the business session, an entertainment was enjoyed. Those participating were: Jack Rossley, Peter Murray, Willard Smith and Thomas Gray. Rev. Dr. Morison, the club chaplain, presented to Honorary Commodore F. P. Starr an honorary commodore flag.

The Frederickton girls' basketball team defeated the Y. M. C. I. girls' team in Frederickton last evening by a score of 19 to 8. It was one of the best games played in the capital this season.
ENTIRE TOWN OF ST. ANDREWS A CLINIC
St. Andrews, Scotland, May 2.—Unsatisfied with its reputation as the place to which all good golfers come, St. Andrews has become the greatest clinic in the world. Every resident of the town is being kept under strict medical supervision, in hope that observation will add to medical knowledge.
Sir James Mackenzie, one of the world's greatest heart specialists, is conducting the clinic. Already 600 of the adult population have been ticketed and are under observation, in addition to more than 100 children.
Upon the first visit to the clinic, the volunteers—who include the minutely, and all symptoms noted. Afterward they pay monthly visits. In the case of babies, a record is to be kept from the cradle to the grave, in order that physicians may note the inception as well as the progress and cure of diseases to which they may be heir.

THE SWISS MONEY MARKET.
Why Rates Are Lowest in the World and Exchange at Premium.
Paris, May 2.—The fact that the Swiss bank rate is the lowest of any market in the world and yet that Swiss exchange is at a premium in London, Paris and even New York, continues to attract attention. It is explained by the immense quantities, both of foreign credits belonging to Germans, Austrians, French and Italians, also of foreign stocks similarly owned, which have been deposited in the Swiss banks for safe keeping.
Interest accruing on all these credits is remitted from other foreign countries to Switzerland, and the greater part of such accrued interest is left on deposit with the Swiss banks. It thus not only goes to swell the available fund of capital in Switzerland, but makes that country the creditor of the countries on which the bills are drawn or by whom the securities were issued. It is this abundance of deposits which is the real cause for the 8-1-2 per cent, bank rate.

LOCAL NEWS

HALF HOLIDAY.
It was announced this morning that the stores in West St. John would take their weekly half-day on Monday afternoon, starting this afternoon and probably continuing until October.

BURIED TODAY.
The funeral of Mrs. Elizabeth McCarthy was held this afternoon from 2 to 4 o'clock at the Catholic funeral home for service by Rev. A. P. Allen. Interment was in the old Catholic cemetery.

INSPECTION TRIP.
A. C. Barker, superintendent of this district of the N. B. R., arrived in the city this morning from Moncton on an inspection trip. He returned to Moncton in his working car No. 87 this afternoon.

MILFORD FIRE.
The residents of Fairville experienced another scare this morning. Smoke was seen issuing from a dwelling house owned by James Goldie, in Milford, just across the railway tracks. An alarm was given in Fairville, and the department responded. They found a blaze near the chimney and checked it.

TWO NOW IN POUND.
Since the city dog pound was opened eight canines have been rounded up. Four of these were reclaimed by their owners, two unclaimed for were sold and two still remain in the pound. One of these is a black and white spaniel and the other a brown and white collie.

REPORTS PURSE STOLEN.
Mrs. James Goldie, whose house was damaged by fire this morning, said that on her return to the house which she had left to do some shopping she discovered that a purse with \$200 and some tickets on the bureau in her room had disappeared. Search failed to bring it to light so she came to the conclusion that it had been taken by someone.

POLICE COURT.
There were three names on the sheet in the police court this morning. Two men were charged with driving a motor car without a license. One juvenile appeared on a charge of theft of a bicycle. The property of Sydney Anderson was at \$40 from a yard at the rear of 47 Duke street on April 18. He pleaded guilty and was sent below.

PRESENTATION.
A pleasant event took place yesterday in the office of the Consumers' Coal Company, Limited, when Miss Mary Carey, who has been a bookkeeper with the firm for some time, was presented with a handsome set of china, as she will be one of the principals in an interesting venture in the near future. George Blizard, vice-president of the firm, made the presentation, which was from both the firm and staff.

JUDGE CARLETON ENTERTAINS.
Wedstock Press—Judge Carleton entertained gentlemen friends at bridge at his residence on Wednesday evening in honor of Chief Justice McKeown of St. John. For those who did not play bridge the genial host made other plans. Delicious refreshments were served the night after which the game was resumed for an hour, when the guests made their farewells.

TRAFFIC CASES.
Two traffic matters were settled this morning in the police court. O. W. Crawford, charged with speeding in Union street on April 20, by Sergeant Spinyne and Police Constable McNeil, was fined \$10 and the fine allowed to stand. J. Willard Smith, charged with speeding and refusing to stop when ordered to do so in Prince Edward street on May 1, said that he was not in the car. A fine of \$10 was allowed to stand.

MRS. MARY A. McCAPFREY.
The death of Mrs. Mary A. McCapfrey occurred at her home this morning at her residence, 15 Clifton street, West St. John. She was the widow of Captain John McCapfrey, twenty years so well known as captain of the ferryboat, and as a life-long resident of the west side and was well known and respected. She is survived by three sons and two daughters. The sons are James, of Montreal; John, of this city; and Joseph, of Dawson City. The daughters are Mrs. James Sweeney and Mrs. James Burns, both of West St. John. They will have the sympathy of many friends in their loss.

THE VISITING SENATORS.
Among the eighteen or twenty senators expected to accompany Senator Thorne to St. John on Friday will be Hon. R. A. Mulholland, Port Hope, Ont.; Hon. W. B. Willoughby, Moose Jaw, Sask.; Hon. W. H. Bennett, Midland, Ont.; Hon. R. Blain, Brampton, Ont.; Hon. J. A. Calder, Regina, Sask.; Hon. A. H. Macdonnell, Toronto; Hon. L. McMeans, Winnipeg; Hon. A. F. Gillis, Whitehead, Sask.; Hon. S. J. Crowe, Vancouver; Hon. J. D. Taylor, New Westminster; Hon. J. B. M. Baxter, M. P., and Dr. Murray MacLaren, M. P., expect to accompany the senators to St. John. They will return to Ottawa on Saturday evening's train.

MRS. HARRY SMITH.
Friends of Mrs. Jean A. Smith, wife of Harry Smith, were shocked to learn of her death at her home in Torriburn on Tuesday, May 2, after less than two days' illness. She was born at the Range, Grand Lake, and was the second daughter of the late John Masters and Lucy A. Barton. She is survived by her husband, one son, Frederick, two daughters, Mrs. George Orr and Mrs. Edith Redmond, of this city, also four brothers, Samuel and Charles, of this city, Frederick H., of Torriburn, William B., of Grand Lake, and four sisters, Mrs. Mary Harding and Mrs. Walter Armstrong, of this city, Mrs. Theodore Fairweather, of Pasadena, California, and Mrs. N. Belyea, of Hamilton, Ont., besides eight grandchildren and a host of friends. Funeral service will be conducted on Wednesday evening at half-past seven o'clock, at her late residence. Interment will be at Grand Lake on Thursday.

EVIDENCE ABOUT GASOLINE SALES

Some Differences in Dates on Copies of Receipts.

Nichols Denies They Were Made by Him—Counsel in Tilts at the Trial of John Paris This Morning.

The entire morning session of the Paris trial today was taken up with evidence relating to the sale of gasoline by the prisoner and by the Imperial Oil Company to Stanley Nichols. The cross-examination of Nichols was continued on the opening of the court and was not completed after noon, the questions being chiefly in connection with quantities of gasoline purchased during July and August last year and the matter of dates. He was followed by Wilson Robinson, driver of the company's wagon, who was still on the stand at adjournment. There were more tilts by counsel for crown and defence.

Nichols Again on Stand.

The cross-examination of Stanley Nichols was resumed when the court reopened this morning. To the attorney-general he said that he did not suspect the gasoline sold him on Aug. 2 was stolen. He said there was no change made in the figure '37' in the entry made in his book. He said he made half the figure and his pen ran dry and he made the figure all over again. He said the receipt 586418 proved was one he got from the Imperial Oil Co. driver on August 2 with 100 gallons of gasoline. He said if the copy held by the Imperial Oil Co. did not bear the same date as the copy in court, this might be accounted for by the fact that the company sometimes changes the dates. He said last Friday or Saturday, April 29, he bought some gas and the driver dated the receipt May 1.

"Could this not have happened last August?" asked the attorney. The witness said "No," as he had made the entry in his book on August 2. He would not swear that the date on the company's slip had not been changed. Witness said he had no entry in his book for August 1, but when shown a receipt dated August 1, he said this might have been purchased on July 29.

Mr. Vernon said that he would have witnesses here to explain that whole matter. He said that the crown subpoenaed witnesses at the last trial and was afraid to call them.

The attorney-general said that he was present to do justice not only to the people of the province but also to the prisoner at the bar.

Mr. Vernon handed in copy of Receipt 586418, dated August 27, while the same number in the possession of the attorney was dated August 28, for 50 gallons. The entry in Nichols' book was dated August 27.

The witness said that last week was the first time he knew of the driver dating the receipt slips ahead.

To the judge the witness said he made four purchases of 100 gallons each during the last ten days of July and the first ten days of August.

From July 27 to August 5, he said he made five purchases of gasoline, three of 50 gallons, one of 25 gallons and one of 75 gallons. He made entries in his book without reference to the slips.

The witness said the five gallons of gasoline sold to Stanley Nichols should not be referred to as "stolen gasoline" as the receipt had never been established in a court of law.

The witness said he knew that the Imperial Oil Co. claimed it was stolen from them. He said when he gave evidence in Truro on the theft charge against Paris, he was not sure if the date on which he purchased it. It was in his book as August 2. He verified this afterwards. He said he put the date down when he bought the gasoline.

The witness identified receipt 586228 covering an entry in his book of August 5 for 150 gallons of gasoline which was the only purchase he made on that date. The receipt he received on August 3 was 586502, and he could not explain why the company's copy was dated August 5. He said that he had heard nothing against Mr. McCurdy but knew he liked to "flew" people.

Re-examined by Mr. Vernon, the witness read a copy of a slip 586502 to A. Thompson, dated August 6 in the company file. The slips were submitted to the jury for comparison. The witness said he never changed the dates on the copies of the slips given him by the driver.

Nichols' copy of receipt No. 586418, dated July 27 and that of the company dated July 29 were shown to the jury by Mr. Vernon. The witness said that when Paris was charged with theft he did not know he was wanted on murder charge. He said his book was a true and accurate account.

Oil Wagon Driver.
Wilson Robinson of Truro, said that in last July and August he drove the Imperial Oil Co. team in Truro. He said he came to St. John at the request of the crown and was paid \$29.49 for two days attendance here, but was not examined as a witness.

Robinson identified carbon copy receipt 586418, dated July 27, as being in his handwriting. He also identified the original but said the '37' in the date, July 29, was not his—the date had been changed but not by him, he said.

Shown the original and duplicate of 586228 dated August 5, he said there was no change in the date. He identified the customer's copy bore date of August 5, which was not his figure. The customer's copy was dated August 2.
