Issued by authority of the Department of Marine and Fisheries, R. F. Stupart, director of meteorological service. Synopsis—Pressure is now abnormally high in nearly all portions of the continent. Showers have occurred over Southern Ontario, also in the Fundy district. Otherwise the weather has been everywhere fair, and in the west somewhat milder. Fair and Cool. Maritime—Moderate east to south winds, local showers in the Bay Fundy district, but generally fair and cool today and on Thursday. Washington, March 13—New England forecasts—Cloudy tonight and Thursday, probably showers; strong north-west winds, diminishing.

DERBY FAVORITE INJURED; TURF SENSATION BECAUSE OF SUSPICIONS

Tetrarch Likely to Be Scratched—Talk of Foul Work by Some One Interested in This Month's Classic Race

London, May 12—A tremendous sensation was created in turf circles today when it became known that the famous unbroken race horse Tetrarch, favorite for the Derby, had sustained an injury to the leg, and that his trainer, Perris, had advised Captain D. McGilnont, owner of the horse, to scratch Tetrarch from the Derby list of entries. Announcement of the injury to the speedy three year old came in such a way as to suggest the suspicion that the horse has been purposely injured by some one interested in the outcome of the classic turf event on May 27.

George A. McAvity will join the party in St. John and will return here on Saturday morning and leave for Montreal on Saturday night.

PROGRESS FOLLOWS THE INTERNATIONAL RAILWAY Already Eleven Lumber Mills—Substantial Development

A steady growth in the lumbering and substantial and permanent settlements in the district opened up by the railway is the story told by Thomas Malcolm, of Campbellton who is in the city today. Although he has spent the winter months in Upper Canada Mr. Malcolm has kept in close touch with the progress of his company and he said this morning that the development of the country served by the International has been a surprise even to him. Already eleven lumber mills have been established along the line and are doing a good business. All the operators have been busy during the winter cutting enough timber to keep the mills going right through the summer if possible and the cut was large. The newly opened country contains some of the best farm lands in America, Mr. Malcolm says, and new settlers are taking up land all the time. He thinks it is a mistake on the part of the government that they have not opened more lands more attractive for those who wish to take up the land. Mr. Malcolm will return to Montreal this evening.

NEW HEAD OF MYSTIC SHRINERS

Atlanta, Ga., May 12—Dr. Frederick R. Smith of Damascus Temple, Rochester, N. Y., today was elected imperial potentate of the Imperial Council, Nobles of Mystic Shrine, at its annual convocation here. Doctor Smith succeeds William W. Irwin of Wheeling, W. Va. He was today elevated from his previous position of deputy imperial potentate.

AT COURTEENAY BAY.

Norton Griffiths & Co's big sand sucker No. 1 has been at work in the basin at Courtenay Bay for the last week and is doing some effective work. A pipe line has been run from the dredge through the breaker about half way out and the sand is discharged into the section of Courtenay Bay outside the breaker.

CITY COURT.

There are no cases to come before the city court tomorrow morning, owing to the fact that no summonses were applied for during the week. Sixty summonses were issued this week by Police Clerk George A. Henderson.

Saskatchewan Sanitarium.

Regina, May 12—The construction work on the Saskatchewan Sanitarium for tuberculosis at Fort Qu'Appelle, near Regina, has been recommenced. A site of 290 acres has been acquired for the sanitarium and the grounds.

AN ACT OF WAR, SAYS HUERTA

United States Government Does Not Agree

LOBOS ISLAND SEIZURE

Vice Consul Silliman Released—Heavy Firing at Mazatlan Reported—Business With New York Resumed

Washington, May 12—The A. B. C. mediators informed Senator Bryan today that Huerta considers the seizure of Lobos Island an act of war. He demands the return of the island to the United States and that the United States should not consider the seizure an act of war. As stumbling blocks in the path of the preliminary attempts to compose the Mexican problem appeared to be gradually disappearing today, suggestions of the mediators' tentative plans unofficially were revealed. The disposition of five South American detained by General Funston at Vera Cruz for sniping was held in abeyance, and the Lobos occupation incident had not been lost sight of for possible establishment of a firm of government to include two administrations to be named by the Federals, though by the Constitutionalists' side by the mediators, attracted some attention but immediately drew from Carranza's agents the declaration that any such proposal would not be acceptable to their chief.

FREDERICTON THINKS WORST OF FRESHET OVER

Water Fell Last Night—Captain Read Retiring After 50 Years at Sea

Fredericton, N. B., May 12—The water in the river fell a few inches last night and it is believed the worst of the freshet is over. The city council will meet on Thursday evening to continue the investigation into the mayoralty election. The St. John bark Edna M. Smith, commanded by Captain Read of this city, arrived in Boston yesterday from Turk's Island. Captain Read will retire from the sea after fifty years of service.

BUYS ANOTHER TRACT OF NEW BRUNSWICK LAND

Alfred Burley & Company report the sale of a tract of farm land in the Coal Creek district, Chipman, Queens county. The purchaser is John Brodie of Glasgow, Scotland. This is the second large tract of land purchased by the Burley company and they presume, is coming to New Brunswick to improve the land and take up farming. Both tracts were formerly owned by Mrs. Jane Lloyd.

THREE HUNDRED MILES AN HOUR

London, May 12—Ewing Bachlet, a French scientist, is showing in London a model of a remarkable electrical aerial "railway" on which it is possible to travel at the rate of 300 miles an hour and more. Railway chiefs and post office engineers who have seen it are said to be amazed. The track consists of a succession of electric coils arranged at short intervals along the line, or pulling magnets (trapped like tunnels, placed at longer intervals). When the current is turned on, a cigar-shaped car is raised from the coils by magnetic attraction, and is held suspended in the air, the only contact between the car and the track purposes.

WEST SIDE BALL LEAGUE

Another baseball league is in full swing on the west side, composed of three teams, the Courtenays, Tannery Stars and Metcalf Co. A good five-inning contest between the Courtenays and Tannery Stars took place last night, the former winning by a score of 4 to 3. The batter was: For the winners, Murphy and Baker; for the losers, Fitzgerald and Joyce. The Metcalf Co. and the Tannery Stars will play tonight.

BASEBALL IN WOODSTOCK

Woodstock Press—It is expected that Woodstock will have one of the biggest seasons for amateur baseball in its history. While it has not yet been definitely decided as to whether we will have a three-team league, or confine ourselves to two but two teams, there is no doubt that the people will see fast ball.

TO MUNICIPAL HOME

An individual arrested on Monday night charged with drunkenness and given his liberty yesterday, when he promised to go to a sister living in the city, was arrested again this morning on a charge of having no visible means of support and was sent to the Municipal Home by the magistrate.

LEGACY OF \$20,000 FOR P.E.I. HOSPITAL

(Special to Times) Charlottetown, P. E. I., May 12—At a graduation of nurses of the P. E. I. Hospital last night, the president of the trustees, Percy Pope, announced that as a result of a legacy of more than \$20,000 left by the estate of the P. E. I. Ratchford Starr, funds were available for building new wings to the hospital, providing for new operating and X-ray rooms and eleven new private rooms for patients.

A Wealth of Floral Tributes

Hundreds of Citizens Gather at Funeral of Mrs. William Pugsley This Afternoon

As a last tribute of respect to the late Mrs. Pugsley and of sympathy to her husband, Hon. William Pugsley, M. P., and the other members of her family, hundreds of citizens assembled this afternoon to attend her funeral, which took place from her late residence, 17 Chipman Hill, to St. John's (Stone) church. At the church the impressive burial service of the Episcopal church was read by the rector, Rev. G. A. Kurling. The full choir was present and the singing by the choir and the music of the organ, at which D. Arnold Fox presided, added to the beauty and impressiveness of the service. From the church the cortege proceeded to Fernhill where the interment was made. The great number of floral tributes which had been received had been taken to the cemetery in advance of the funeral procession and were arranged about the open grave in such a manner as to give the appearance of a magnificent flower garden surrounding the grave, this arrangement being necessary on account of their number. The flowers received included the following: Liberal Members of Canadian Parliament, wreath of roses, lilies, carnations and forget-me-nots. Dr. James Christie and Miss Christie, pink and white carnations. Officers of the 62nd Regiment, St. John's, wreath of white roses and purple sweet peas. Hon. J. D. and Mrs. Haesen, wreath of purple lilies. Joseph Allison, pink roses. Mr. and Mrs. James Robinson, wreath of tulips, sweet peas and aster. The Officials of the Public Works Department, St. John, wreath of white roses. Hon. Robert and Mrs. Rogers, wreath of lilies, roses, forget-me-nots. Mr. and Mrs. Morris Robinson, pink and white carnations. Hon. James Donville and Mrs. Donville, pink roses. Dr. W. W. White and Mrs. White, cross of pink and white roses. Mr. and Mrs. G. L. Tapley, pink and white carnations. Mr. and Mrs. R. T. Mack, lilies. Mr. and Mrs. George McAvity, sheath of purple lilies and lilies of the valley. Mrs. S. Hayward, lilies. Mr. and Mrs. W. Z. Earle, red roses. Maurice Cole, white roses. Mr. and Mrs. Fred Peters, pink and white roses. Mr. and Mrs. Harry Gilbert, pink and white roses. Mrs. George W. Fleming and children, pillow of pink and white roses and carnations. Mr. and Mrs. William S. Allison, pink and white carnations. Miss Stephenson, sheath of lilies. Mrs. Thomas Gilbert, cross of roses, carnations and forget-me-nots. Mr. and Mrs. W. M. Sherwood, pink and white roses. Mrs. Hugh H. McLean, roses. Mr. and Mrs. George Robertson, red and white roses. Mrs. J. L. Dunn, crescent of yellow and white roses. Mr. and Mrs. J. B. Hunter, wreath of roses, carnations and sweet peas. Mr. and Mrs. William Vassie, white roses. Liberal Members of Parliament from City before General Villa does; he may harass Huerta, and probably will, but the rebel army will have the capital and maintain order in it at all hazards, before Zapata enters the city. Foreigners and their property will be protected." New York, May 12—Large quantities of ammunition were shipped from Governor's Island yesterday for troops near Mexico.

THE NEW BRIDGE

A. R. Wetmore, government engineer, was in the city this morning and paid a visit to the work on the new bridge at the reversing falls. Speaking to a Times reporter, Mr. Wetmore said that the work was progressing satisfactorily, if not speedily. The rock foundations have been practically completed for the skewbacks and the forms were now being placed for the concrete part of this work. The Dominion Bridge Co. have started laying a side line into the western end of the bridge, which they expect to have completed about the same time as the concrete foundations are completed. The anchorages on the western side will be completed today, and the Dominion Bridge Co. will be ready to go ahead with the steel work as soon as the concrete foundations have been placed.

Montreal's City Politics.

Montreal, May 12—Mayor Martin has written to each member of the city council drawing attention to the fact that one of his campaign pledges was for a new city charter. It was said today that the framing of a new charter might give the mayor his opportunity for an entering wedge for elimination of the board of control.

PRINCE OF WALES IN FIST FIGHT

Attacked By The Driver Of a Laundry Wagon

ROYAL LAD BESTED HIM

Trouble Outcome of Prank by Other Students and The Angry Driver Did Not Know Prince Was One He Attacked—Gets Coin and a Cigar

London, May 12—The Prince of Wales has just had his first encounter with a British workman, in the shape of a brief bout at fisticks with a driver of a laundry wagon at Oxford. The driver was worsted.

The man was delivering baskets at Keeble College, when three students drove the wagon away and left it in a side street. The culprits were joined by the prince, when another driver rushed at the group, selecting Wales for attack. He tapped the princely crest and bruised the royal chest but next instant the prince landed on the driver's face a blow that staggered him. The prince soothed his opponent's feelings with a cigar and a gold coin. When the van man learned whom he had punched, he declared, for such a sickly looking "feller 'e can 'it 'ard and rough."

FOURTEEN DROWN

Aldenburg, Eng., May 12—Fourteen men were drowned when a steam collier was capsized by a high wind off Southwold today.

FIVE WELSH PILOTS DROWN

Cardiff, May 12—Five pilots were drowned in the Bristol channel, off this port today when a pilot boat was rammed and sunk by the British steamer Star. The pilot boat was carrying belmsmen to inbound ships to steer them into the harbor when she was run down in a fog.

A PARIS WARNING

Report That Germany May Take Advantage of Situation to Grab Haiti

Paris, May 12—in an editorial on the reported efforts of Germany to obtain control of Haiti while the United States has its hands full in Mexico, the "Temps" says that a protest of Latin-American against violation of Mexico territory gives rise to fear that mediation by "A. B. C." powers may be transformed into intervention in the name of the solidarity of Latin-America.

DEVELOPMENT IN MATTER OF MANITOBA SCHOOLS

Winnipeg, May 12—New developments in Manitoba school controversy seem likely to be the result of a letter from the trustees of St. Mary's Catholic school to the Winnipeg public school board. It formerly requests the board to take charge of St. Mary's school and manage it under the terms of the public schools act. The chairman was empowered to choose a committee to go into the matter. No intimation as to the decision was given.

HEART TROUBLE ENDS HIS LIFE ON COTTON EXCHANGE

New York, May 12—Owing to the sudden death of Otto Magnus, a former member of the New York Cotton Exchange, who succumbed to heart trouble on the floor of the Liverpool exchange today, the Liverpool market adjourned from noon until two o'clock.

Why Women Are Shrewd Buyers

Any man will tell you that his wife can get more out of a dollar than he can. Women have the natural value sense—they know what their money's worth means. One reason for this is that women are great readers of advertising. No part of a newspaper is greater in interest to them than the advertising columns. They study them daily and they shop as carefully through the newspapers as they do when they go to the stores themselves. The only advertising in the newspapers would lose half of their women readers. Incidentally, local merchants would lose more than half of their business. Would you like to know more about it while you are working on your paper? Drop a postal of inquiry to the Bureau of Advertising, American Newspaper Publishers Association, World Building, New York. Booklet on request.

Easy & Practical Home Dress Making Lessons

Prepared Especially For This Newspaper by Pictorial Review

THE CUTWORK BORDER.

An attractive costume for misses and small women, built up of olive green tulle trimmed with cutwork and a girle of dark pansy purple satin.

Really charming frocks are evolved from the cotton fabrics with cutwork borders. Ratine is used for the dress shown here, a lovely shade of olive green being used. The girle is of very dark pansy purple satin. The dress is made without a lining, and it is possible to get the designs with border all prepared for a reasonable sum—say from \$2.98 upward.

If the tunic is omitted there will still remain a pretty skirt with full hips, but in most of the pattern dresses shown provision is made for a tunic or some kind of drapery.

It will be necessary to lay the material open, if it is 44 inches wide or less, for the cutting of the skirt. One may, however, get out of the remaining yards.

Hints for the Cook

Brown Bread Pudding. Scald one pint of milk and pour it over one cup of brown bread. Let it cool, then add half a cup of sugar, two eggs, beaten, piece of butter size of a walnut, half a cup of raisins, a little nutmeg. Bake half an hour at once. The sauce is made with milk and butter, whipped cream or eaten plain.

Orange Sponge Cake. You can half this recipe for a medium-size cake; it is delicious. Rind of 2 oranges, with 2 cups sugar; add yolks of 6 eggs and beat 'til well; 2 heaping cups flour and 3 teaspoons of baking powder, juice of 2 oranges, with enough water to make 1 full cup (it may not need the water). Mix well and then add stiffly beaten whites of 4 eggs and beat all until you are tired.

KITCHEN KINKS

Should the inkpot be accidentally upset on the tablecloth or carpet, pour a little cold water over it at once. The ink will float on the water, and when the cloth or carpet is rubbed dry no stain will show.

To make meat cooked in a gas oven juicy, place a jam-jar half filled with cold water at the bottom of the oven. The steam rising from the water makes the air in the oven moist and prevents the meat from getting hard.

To clear a house of beetles, put 1 lb. of powdered borax into a tin with a perforated lid. Dust the borax lightly over the floor, or the walls, and in the cupboards; in fact, every place where the pests are found. They will soon disappear.

DR. J. D. MAHER BEFORE THE HALIFAX BOARD OF CONTROL

The Halifax Mail of Monday says "Dr. J. D. Maher appeared before the board of control today, asking for permission to put up a standard near his premises at the corner of Barrington and Buckingham streets. Doctor Maher also complained about the unsightly condition of so many posts used for the carrying of wires planted near his premises. His intention is to put up a standard carrying five lights with his name on it. He considered it would be in keeping with the general policy of the city for a better lighted city.

to the engineer, who will confer with Doctor Maher in regard to the matter. Later the permission asked for was granted.

STARVED NERVES

The Cause of Neuralgia—It Must be Treated Through the Blood.

Neuralgia is a cry of the nerves for more and better blood. It literally means that the nerves are being starved. Like every other part of the body the nerves receive their nourishment through the blood. There is therefore no doubt that Dr. Williams' Pink Pills will cure the worst cases of neuralgia. They actually make new, rich blood, carrying to the starved nerves the elements they need, thus driving away the sharp, torturing pains which nearly drives the sufferer wild. So many cases of neuralgia have yielded to treatment through Dr. Williams' Pink Pills that every sufferer from this dreaded trouble should lose no time in giving the Pills a fair trial. Mrs. Sophia H. Johnson, Mozan, Sask., says: "For upwards of ten years I was a periodical sufferer from neuralgia. It located in the side of my face and in the jaw, which would actually click every time I opened or closed my mouth. At times the pains would be almost unbearable, and at one time went on, my whole nervous system seemed to be affected. I was constantly doctoring, but the doctor did not seem to be able to give me permanent relief, and at last I decided to try Dr. Williams' Pink Pills. I got a half dozen boxes, and before they were half gone I felt much better, and by the time I had used them all every symptom of the trouble had gone, and I was enjoying a comfort I had not known for years. I have since remained in the best of health, and can only say I owe the joy of living without pain to Dr. Williams' Pink Pills."

Sold by all medicine dealers or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

cess, will be seen at the Opera House in a return engagement of four performances beginning Thursday, May 14th. It has been the reigning success in New York, Boston and Chicago, and has also scored a distinct triumph on the Pacific Coast, a tour of which it has just completed. A notable production of a decade, it does not depend on the quality of its elaborate scenic and costuming effects for praise, for it abounds in beautiful music, a concise and humorous story, the plot of which has unusual strength for a musical play.

The Fragrant Qualities of Master Mason

READY RUBBED SMOKING TOBACCO

Are all in the leaf used in the making of it. We have for years hunted the subtle and elusive elements of goodness in tobacco; we know how they spring from; we know how to retain them in the process of making smoking tobacco. The raw leaf used is the whole thing; the goodness is in the tough, waxy finish and silky fiber of the leaf we use in making

MASTER MASON
READY RUBBED

In the process, we merely deprive it of all possibilities of "sting" or "bite". The result is a really fine smoking tobacco, a cool, mellow, free and even burner to the last shred, with a rich and pleasing aroma. These qualities cover all there is in smoking enjoyment.

BAPTIST MINISTERS.

(Maritime Baptist.)
Rev. M. E. Fletcher, secretary of the eastern section of the Foreign Mission Board, spent last Sunday in St. George. The next few weeks will find him in the office directing the Judson centennial campaign.

Rev. W. B. Beanson of Dorchester, will have the sympathy of the denomination in the loss of the Upper Dorchester church, which was burned last week. The church was not insured, and the loss will be about \$2,000.

Rev. H. C. Estbrook, a former pastor of the Zion church, Yarmouth, N. S., has been appointed to the faculty of the Divinity School of the University of Chicago. He is lecturer in Church History and secretary of the school.

Rev. Dr. G. P. Mode, formerly pastor of the Zion church, Yarmouth, N. S., has been appointed to the faculty of the Home Mission Board of British Columbia. He is taking a well-earned rest on his orchard ranch in Sumnerland, B. C.

Rev. I. E. Vanwart has resigned his charge of the Millville, N. B., group of churches. He has done excellent work in that field and announces his readiness for service elsewhere after May 31.

Rev. Prof. Simeon Spidle, Ph. D., of Acadia, is supplying the pulpit of the West End church, Halifax, until the arrival of their new minister, Rev. G. F. Bolster, on May 24.

Rev. D. Freeman, McMaster preacher of 1914, received from that institution the degree of D. D. Dr. Freeman's baccalaureate was characterized by the Toronto press as a noble and brilliant effort. He will wear with pride the new honor which he carries with him to the mother church.

Rev. J. D. Spidle of Kentville, N. S., the newspapers report, baptized forty candidates on the last Sunday in April and between fifty and sixty persons were welcomed into the fellowship of the May communion.

Rev. W. Cummings, pastor of the First Baptist church, Pasadena, California, and formerly pastor of the First church, Amherst, N. S., has had the degree of Doctor of Divinity conferred upon him by Redlands University, California.

Dr. Shailer Matthews, Dean of the Divinity School of the University of Chicago, will preach the baccalaureate sermon at Acadia on Sunday morning, May 24. During his stay in Wolfville he will be the guest of Dr. J. F. Tufts.

Dr. David Hutchinson has just celebrated his tenth anniversary as pastor of the Main street church. His pastorate has been a most prosperous pastorate, and more than that. What Dyspeptics Should Eat

A PHYSICIAN'S ADVICE
"Indigestion and practically all forms of stomach trouble are, nine times out of ten, due to acidity; therefore stomach sufferers should, whenever they feel that they are suffering from indigestion, eat the best food corrective and antacid known. It has no direct action on the stomach; but by neutralizing the acidity of the food contents, and thus removing the source of the acid irritation which inflames the delicate stomach lining, it does more than could possibly be done by any drug or medicine. As a physician, I believe in the use of medicine whenever necessary, but I must admit that I cannot see the sense of dosing an inflamed and irritated stomach with drugs instead of getting rid of the acid—the cause of all the trouble. Get a little bisulphated magnesia from your druggist, eat what you want at your next meal take some of the bisulphated magnesia as directed above, and see if I'm not right."

ABOUT YOUR OWN VIGOR Sent Free to Men

MR. READER: Here is something I have to offer you absolutely for nothing—a little private book of special information about the legitimate use and unnatural abuses of manly vigor; about the preservation of manly strength and its possible self-restoration; an illustrated pocket compendium of 8,000 words, 72 pages and 80 half-tone photographs reproductions—which I am very pleased to send by mail, absolutely free of charge, in a plain, sealed envelope, to any man, young or elderly, single or married, who writes for it.

Over a million of these books have been thus sent to applicants all over the world since my first free offer appeared. Publishers are charging as much as \$3 for books on sex subjects, while my book is free. Therefore, reader, if you would like a great fund of inside information relating directly to the subject of manly vigor, all put in perfectly plain, easy-to-read language, with many hints that you can surely apply to your own self, no matter how strong you may be, or how nervous or run-down you may be—if you want to know the facts about this particular subject, given to you without a single cent, then fill in the coupon below, send to me and receive my book, sealed, by return mail. In one part of this little publication I describe a mechanical invention of my own, which I call the SANDEN Vitalizer, something you wear at night as an aid to the restoration of lost or wanting strength; but you are not expected to get one of these appliances unless you decide for yourself that you want one. The book is complete, and these are absolutely nothing you are required to buy or pay, either now or in the future. Therefore, please send your names and address today.

SANDEN, Author.

MANHOOD! The quality which rules the world today. My friend, there never was a time in the history of the human race when real, sturdy manhood, manly vigor and manly courage counted for as much as they do now, this very minute. No matter what your years, whether you are 20 or 60, you must be either entirely in the race or entirely out of it. It is invariably the fellow who proves up strongest in this human strength that forges to the front, while weaklings stand aside; it is also who is in most demand and most sought after by women and men of his community, simply because he radiates that marvellous magnetic influence which only an abundant vigor and rugged manly health can radiate. I believe any man can hope to completely develop or restore this same vigor or manly strength, no matter what his past follies may have been, provided he is willing to REALLY MAKE THE EFFORT; and provided, of course, he is not weighed down by extreme old age or is not incurably diseased. To my mind, the road of the one who wants more vigor is perfectly plain, but it is a road that any man MUST travel if he attains the highest ideals in respect to his own manhood. See information in my free book.

As to the SANDEN Vitalizer, previously mentioned, will say it is a little mechanical appliance, weighing but a few ounces, which you wear at night. This Vitalizer generates and sends forth a certain soft, penetrating force which I call Vitality. It drives this Vitality into your nerves, blood, muscles and organs as you sleep. It is quieting to the nervous system—or, at least, so users say. Men write that it takes pain out of the back often at once and restores vitality in 90 days. Remember, the general information of the free book is independent of the Vitalizer, and you are not expected to get one of these little appliances unless you want to. You can write me later as to that if you so desire. With special attachments, my Vitalizer is used by women as well as men for rheumatism, kidney, liver, stomach, bladder disorders, etc. If you live in or near this city I should be most pleased to have you call in person at my office, where you may see and test the Vitalizer free of charge. Hours—9 to 6; or if inconvenient to call, do not fail to write for the free booklet.

To Get Free Book Please Use Coupon

If you live too far to call, or if you cannot call, please fill in the coupon below and send it to me. You will receive free, sealed, by return mail, my 72-page illustrated book, containing 8,000 words, a complete compendium of useful information for men, young or elderly, single or married, who want the truth about the subject of vital strength, its preservation, its possible self-restoration and its legitimate uses and wanton abuses. You get it all free.

NAME

ADDRESS

The Evening Times and Star

ST. JOHN, N. B., MAY 13, 1914.

The St. John Evening Times is printed at 27 and 29 Canterbury Street every evening (Sunday excepted) by the St. John Times Printing and Publishing Co. Ltd., a company incorporated under the Joint Stock Companies Act.

OUR INTEREST AT STAKE

Keen disappointment will be felt in St. John at the failure of the delegation to Ottawa to secure a promise that the Guelph agreement would not be renewed. The Standard in its report says: "Hon. Frank Cochrane, minister of railways, will give his attention to the question of the Guelph agreement on his return, and it is likely that before its renewal it will be under the consideration of the cabinet."

It is true the delegation were assured that Halifax would not be named as the exclusive port in the renewal of the Atlantic mail contract, and that the selection of a port would be left to the steamship companies. On the face of this announcement it appears to be satisfactory, but so far as St. John is concerned it must be considered in connection with the Guelph agreement. If the government decided to renew that agreement, and give Halifax an unfair advantage over St. John, it will be taking away with one hand what it gives with the other.

The fight of St. John for its rights has only begun. If the Guelph agreement is renewed incalculable injury will be done to this port. The falling off in trade last winter has created an unfavorable impression abroad, where efforts have been made to interest capitalists in the development of this city, and where figures showing the growth of trade prior to the past winter have been used as a very strong argument to back up the statements made concerning the bright future of St. John. If the Guelph agreement is renewed the port cannot hope for the increase in traffic which on its merits it should receive, and there will be no need of further agitation to secure terminal facilities for business which "by the grace of the I. C. R." is to go on to Halifax.

The visit of the delegation to Ottawa has had one good result. It has shown the citizens that they must carry on a vigorous campaign or run the risk of having the interests of the port sacrificed. It is a significant fact that Mr. Borden did not meet the delegation from St. John. It is also significant that they do not appear to have received from Hon. Mr. Hazen any assurance that they could rely upon him to oppose a renewal of the Guelph agreement, and if his opposition were futile would tender his resignation as a member of the government. The citizens of St. John must fight their own battle, and the city council and board of trade should at once hold a conference to decide upon the next step to be taken in a determined struggle to prevent a renewal of the Guelph agreement.

CONCERNING PLAYGROUNDS.

"Playgrounds, One of Canada's Great Needs," is the title of a striking illustrated booklet just issued by Mr. J. J. Kelso, Superintendent of Neglected and Dependent Children of Ontario. In a very striking way the need of greater provision for play and wholesome recreation is set forth, and it is pointed out that there is not a city or town which is at present doing anything like its full duty in this respect. St. John people will be especially interested in what is said about playground progress in Toronto. A Playgrounds Association was organized in 1908, and Mayor Hecken declared in his inaugural address last January that, "the position of Toronto with respect to the encouragement of outdoor recreation is second to no city of like size in America."

"During the past four years," he said, "we have expended the sum of \$1,472,978 in the purchase of park lands and playgrounds, increasing our holdings in that period from 1546 acres to 1845 acres, and today these lands are valued at \$18,000,000." Mr. Hecken pointed out that there is still pressing need of more park lands in some sections, and that these would be provided. Of what the city had done in regard to playgrounds the mayor said: "We have now established thirty-two baseball diamonds, thirty-five football fields, sixty-five tennis courts, six bowling greens, three lacrosse fields and two quelling grounds, and this winter we are operating thirty-four skating rinks, thirty-one hockey rinks, and five toboggan slides. The annual outlay upon these classes of sports totals \$31,000. In 1909 we expended \$1,184 upon supervised playground maintenance, and last year nearly \$18,000. It is proposed during the present year to establish seven additional supervised playgrounds in various parks, which will give a total of fourteen play centres distributed throughout the city."

There is inspiration in these figures for the friends of playgrounds in St. John. We quote a striking paragraph from Mr. Kelso's booklet: "Put your money into a movement that crowds sunshine and happiness into the lives of boys and girls. A playground once secured can never be diverted from its original purpose. There should be a play specialist appointed in

every large city, to put intelligence and enthusiasm into the movement for helping young people to secure proper outdoor enjoyment."

Hon. Robert Rogers will introduce a bill increasing the subsidy for dry docks to 4 per cent. It is now 3 1/2 per cent. Is the St. John dry dock to be increased in dimensions as requested by the city council and board of trade?

In the by-election in Great Grimshy yesterday the Unionist candidate was elected by 420 votes less than the Unionist candidate secured in that constituency in the last election. Evidently the cause is not gaining strength in Great Grimshy.

Mr. F. B. Carvell, M. P., in a letter to the Globe informs that journal that no proposal was made to him or by him in any way to hush up the matter of the Dugal charges, and he adds that those who made the charges have been patiently waiting for five weeks for an opportunity to prove them.

Mr. Hasen entertained the St. John delegation at lunch. So far as the record goes he does not appear to have given them any assurance that he would fight tooth and nail against a renewal of the Guelph agreement. How would it do to hold a public meeting in St. John to discuss this question and invite Mr. Hasen to attend?

Whatever tends to bring any group of citizens of Eastern and Western Canada into closer acquaintance and sympathy is good for Canada. The formation of national organizations of one kind and another is a desirable movement. The organization of a Canadian Bar Association, for which Mr. Aikens, K. C., M. P., so ably pleaded last evening, and which local members of the bar unanimously endorsed, is therefore entirely commendable.

From a discussion in the municipal council yesterday it would seem that funds designated for one purpose had in past years been drawn upon for other purposes. This is not a good method of financing, although the county secretary expresses the view that it is common in the various counties of the province. As a matter of sound finance there should be cash on hand whenever the books show a credit balance on any particular account, and each fund should be administered by itself.

The municipal council yesterday acceded to the request for a bond issue of \$80,000 to cover the cost of the tuberculosis hospital, so that it might be made a most substantial building with accommodations for fifty-four patients. The architect says that if a start is made now the building should be ready for occupancy by January next. It may be hoped that there will be no further delay in this matter, and that the situation will be completed within the time mentioned.

After several years of effort St. John has a Children's Aid Society, and the municipal council has placed at its disposal the sum of \$1,500 to enable it to begin its work. There seemed to be some doubt whether the council would be able to provide the money at the present time, and the grant was made subject to the provision that if the amount be not available at once the matter will be brought up again at the July meeting. It may be hoped that the delay will be unnecessary.

In the British parliament yesterday Mr. Asquith said that the only way to carry out an agreed settlement of Home Rule was to pass the original measure and follow it immediately with an amending bill. The Unionists appear to have come to the conclusion that they cannot prevent the passage of the original measure, and the next fight will probably be over the amending bill. Mr. Redmond expressed the hope that a satisfactory settlement would be made, but he held himself free to deal with any amending bill which was not accepted by the Unionists as a satisfactory settlement.

At the annual meeting of the United States Steel Corporation it was stated that more than 30,000 employees of the subsidiary companies are holders of stock in the corporation, and therefore partners in the concern. Six mill employees, bearing proxies from other workmen, attended the annual meeting and told of the material advantages they had derived from the co-operative system—the better working conditions, the higher wages and the welfare work propagated by the company. Where the spirit of co-operation exists between employer and employe there is material advantage to both.

BIRTHDAYS OF NOTABILITIES

WEDNESDAY, MAY 13. Today marks the fifty-sixth birthday of Hon. Wallace Nesbitt, one of the ablest lawyers in Canada. He was born in Woodstock, Ont., and was called to the bar in 1881. After attaining the highest rank among the lawyers of Toronto, he was induced by Sir Wilfrid Laurier in 1903 to take a seat on the supreme court bench at Ottawa. He remained there for only two years, however, preferring to practise rather than to deliver judgments. Since then he has been a consulting counsel. Always keen and quite self-possessed, he has distinguished himself in many cases. An amusing incident occurred in 1909 when he appeared before the judicial committee of the privy council in the famous steel and coal case. The Dominion Iron and Steel Company had also engaged Sir Robert Finlay to argue their side. The latter was delivering his argument but was interrupted time and again by his colleague, who threw in explanatory remarks. At last one of the law lords became annoyed at the frequency with which Mr. Nesbitt chimed in and said to Sir Robert: "It would greatly facilitate the hearing of this case if you could manage to keep your junior off his feet after that for about an hour."

Alex. born today—Professor A. T. Delaur, University of Toronto, born in Manila, Ont., 1864. Lieut.-Col. John Bruce, Toronto, born in Beaverton, 1880.

LIGHTER VEIN. A farmer was going through an art institution where a number of models of ancient Greek sculpture were exhibited. He noticed that on one hung a placard saying "Hinds off." "What'n thunder do they have to tell me every time that the hinds is off?" he exclaimed. "Do they reckon we can't see it? Ah! why don't they never say nothing 'bout the arms and legs bein' off too?"

There is a Baltimore divine who can administer a rebuke delicately, but, on occasion, he sees it that the point is plain. Once a wealthy member of his congregation, who is very close to the minister, spoke of his intention to go abroad. "I have never been on the ocean," said he to the clergyman, "and I would like to learn of something that will prevent me from becoming seasick." "You might swallow a dime," said the divine. "You'll never give that up."

"O, yes, Martha sings in the choir and she has about the best voice of any one in it," boasted Martha's aunt, who may not have known much about music, but who certainly knew all about choir. "Isn't that boasting just a little?" gently inquired her husband. "No, it ain't. I've noticed Martha's aunt. I know she's the best singer in the lot because no one else in the choir will speak to her!"—Lippincott's.

The class had seemed exceptionally bright and intelligent that afternoon and in consequence there was a look of smug satisfaction on the teacher's face. "Now, James," she asked, "do you really understand the meaning of 'extinct'?" "Yes'm," replied James. "Then name one bird that is now extinct." "James hesitated a moment, then—'Chippie,' he exclaimed. "'Chippie' inquired the teacher, 'And what kind of bird is that?' 'My pet pigeon,' came the reply. 'The cat caught him this morning!'"

capital seat of government at Rangoon, while Assam, situated on the eastern extremity of Bengal, though openly supposed to be neutral, was suspected of sympathizing with "Redland." Assuming that the "Blue" or Burmese commander held control of the sea, there seemed two main alternatives open to him. The first of these, which was to effect a landing somewhere at the mouth of the Hooghly and so threaten Calcutta, was deemed impracticable owing to the river defenses. The second alternative was therefore chosen, making a descent by sea on the mouth of the Meghna, the eastern flank of the Ganges delta, with the hope of seizing Dacca and separating Assam from "Redland." The imaginary scheme provided plenty of scope for the exercise of tactical skill and practical work for the troops fully frustrated the plans of the "Blue" invaders. One episode, amongst others, was the swimming of a river by the East Surrey battalion in order to capture boats on the opposite shore in which the native infantry were subsequently ferried across, this movement resulting in the capture of a neighboring "Blue" position. The United States post office department has added two new stamps, 7 and 12-cent denominations.

Button Boots FOR MEN

Ever wear a pair of Button Boots? Men are so conservative. They wore long-legged boots, and when elastic side ones were introduced, they were slow in taking to them. Then came the laced ones, and it took time to divorce them away from the elastic side.

Now Button Boots are slowly coming into use. A button boot has many advantages. There are no laces to break, no cutting of the instep, buttons are fastened on, and they have a smart, dressy appearance.

Squaw in city yesterday predicted Indian town would burn this month. Wish she'd said so a month ago, and we'd have started house-cleaning over there.

Man Wanted—To act as umpire in baseball game tomorrow. Must neither be an actor nor a scribe. Must be brave and courageous, and not afraid of being walloped with a bat or two. Should for his own sake be a good sprinter, as he's liable to have to "beat it" if he calls too many strikes. None but big husky fellows will be considered. Knowledge of baseball immaterial. Apply at 3.30 p. m. Marathon Grounds, to R. C. Withus.

P. S.—Neither team will accept responsibility for what may happen, so applicant should arrange with funeral director or hospital authorities beforehand.

Now the latest fashion hint from Paris is that women shall wear long white gloves on which are painted landscapes of flowers, most artistic in effect, and designed generally by well-known artists. Just think of the eager longing and anxiety of husbands and

YOUR HAIR NEEDS PARISIAN SAGE

It Quickly Removes Dandruff, Stops Falling Hair and Scalp Itch.

Just because your hair is full of dandruff, thin, streaky, dull and never will do up to look pretty, do not think it must be so. Beautiful hair, thick, fluffy, lustrous and absolutely free from dandruff is only a matter of care.

Parisian Sage frequently applied and well rubbed into the scalp will work wonders. Just one application stops itching head, removes dandruff and all excessive oil. It goes right to the hair roots and furnishes the nourishment needed—the hair becomes soft, wavy, abundant and radiant with life.

Parisian Sage, which can be had at any drug or toilet counter, not only saves the hair, but stimulates it to grow long and heavy. Get a 50 cent bottle at once. There is no other "Just-as-good."

The latest excuse for staying out late is the story told by a local man when he reached home in the early hours upon a temporary job on the night street cleaning staff.

He was a new suburbanite not yet familiar with the train arrangements, and he had left himself barely enough time to catch the evening train. After a lively sprint he climbed on board the Quebec express and heaved a sigh of relief. When he had recovered his breath he addressed the brakeman to the brakeman: "I seem to have lots of time after all."

"Yes," said the brakeman. "We don't leave for twenty minutes yet."

"Isn't this the 4:15 suburban?" the passenger asked with a horrified expression.

"No, that is your train just pulling out of the shed now," was the heart-breaking answer.

FOR DELICATE CHILDREN

A Mother's Letter to Mothers

Mrs. E. W. Cooper of Bloomfield, N. J., says: "My child, seven years old, had a bad cold and was weak and quite run down in health. She had been in this condition for about six weeks when I began giving her Vinol. It was a wonderful help to the child, breaking up her cold quickly and building up her strength besides. I have also found Vinol a most excellent tonic for keeping up the children's strength during a siege of whooping cough."

Vinol is a wonderful combination of two world-famed tonics—the medicinal herbs, building elements of cod liver oil and iron for the blood, therefore it is a perfectly safe medicine for children, because it is not a patent medicine, everything in it is printed on every package, so mothers may know what they are giving their little ones.

Therefore I ask every mother of a weak, sickly or ailing child in this vicinity to try Vinol on my guarantee. Wasson's Drug Stores.

NORDICA

Lillian Bayard Norton, who died this week, was born in Farmington, Me., May 12, 1839. She was the youngest of five sisters, all singers. Her father was Edwin Norton, an amateur violinist and singer; her grandfather, Rev. John Allen, the chaplain of the Maine Assembly.

She was a pupil of John O'Neill at the New England Conservatory. She secured her first choir position in 1875 in Grace Church, and at eighteen was receiving \$1,000 a year as the soprano at Dr. Putnam's church in Roxbury.

She made her first public appearance in a pupils' recital in the old Bumstead Hall, in 1876, when she sang Leonard's "The Messiah," by the Handel and Hayden Society.

Tetiens, hearing the girl, advised her to go to Mme. Maretzky in New York. This Lillian did and learned a dozen operas in one summer. Through her she met Patrick Gilmore, the great bandmaster, who engaged for a western tour with expenses for herself and mother

and \$100 a week, which seemed to her then a large salary.

Gilmore was so pleased with his American songbird that he took her to England, where she sang twice a day at seventy-eight concerts. With this band, Lillian Norton was the first singer to be heard in the new Trocadero in Paris. Opera then became her ambition. She went to Milan and began study with Sangiovanni, who prepared her for the stage.

A countryman aided her in obtaining a hearing. Sovel, an American, was both impresario and chief tenor of a small theatre at Brescia. Here on April 30, 1879, she made her debut in "La Traviata" under the name of Norton.

Here she sang four times a week, receiving for three months' service \$100 with a "benefit" yielding \$60 more.

Mme. Nordica's first appearance in opera in a principal part in her own country took place on November 26, 1888, as Marguerite in "Faust" at the old Academy in New York under Colonel Mapleson's management.

Her first appearance in London took place on March 12, 1887, at Covent Garden. Augustus Harris, with the de Reszkes and a rival company at Drury Lane, ruined the Covent Garden season and took on Mme. Nordica. She sang Aida without a rehearsal and learned the part of Valentine in "The Huguenots" in a week.

Mme. Nordica's association with the Metropolitan Opera House during the latter half of the '90s, lent lustre to that brilliant company of artists not since duplicated in any opera house—a roster that included Sembrick, Melba, Calve, Schumann-Herter, Jean and Edouard de Reszke, Maurel, Campanari, Plancon, Bispham.

It was her honor to sing in the opening performance, "La Gioconda," of the Boston Opera House on November 8, 1909. She had taken the part thrice since that time. Until this year she had appeared each season and was heard as Isolda and Marguerite in "Faust."

"Who can make a sentence and use the word 'income' correctly?" asked the teacher of the second grade.

"You may tell us, Johnny," indicating a little boy whose hand was waving violently.

"The kitchen door was left open and in come a rat," was the triumphant response.—Harper's Magazine.

SPRING SICKNESS COMES TO EVERYONE

Spring sickness comes in some degree to every man, woman and child in our climate. It is that run-down condition of the system that results from impure, impoverished, devaluated blood. It is marked by loss of appetite and that tired feeling, and in many cases by some form of eruption.

The best way to treat spring sickness is to take Hood's Sarsaparilla. Ask your druggist for this all-year-round medicine. It purifies, enriches and revitalizes the blood.

Waltham Watches

The purchase of a watch involves more than selecting the one that merely looks the best.

Waltham Watches are supremely beautiful, but the real basis of their world-wide fame is the perfection of their inward structure. It is this which makes them unequalled for right time-keeping. The name Waltham on a watch protects you from inferiority in those things which you cannot see.

There are Walthams for as low a price as will buy a good watch, and up to as high a price as any one should pay. Visit your jeweler.

BRADSTREET'S ON TRADE

Two views of trade and industry present themselves to the close observer at present. One is the profound feeling of depression ruling in most lines devoted to supplying everyday wants. These wants, by the way, may seem few, and yet in the aggregate must count up to surprisingly large totals, because of no other basis can the undeniably large volume of bank clearings and the trifling decreases from the best of past years be explained. Hand-to-mouth buying, while an almost ever-present subject of complaint since the panic of 1907, is just now apparently more than ordinarily a subject of comment.

THE CHINESE REPUBLIC

Step by step the constitution of the Chinese republic is being transformed under the pressure of the personality of its president, Yuan-Shi-Kai. It may be recalled that in the fall of last year, after his election by the parliament, the chief of the republic expelled a large number of its members, and later inspired a movement for its elimination. A constitutional convention which has been framing a new organic law for the republic since the middle of March has recently completed its work in a fashion which appears to give a strong preponderance to the power of the chief executive. Under the new constitution, the president has the power to convoke, suspend, dissolve and disinvest the legislature, which is a body of a single chamber; to submit to it the budget and other bills, and to refer back to the chamber for reconsideration bills which it has already passed.

THE FRESHET

The freshet at Indiantown remains about the same and it is thought by higher. There was a rise of an inch and a half at high water last night and at the highest tide this afternoon, it was about the same. On Monday night the rise was several inches higher than on the previous night and since the tide will be as great, it is hoped that it is about as high as it will go. If heavy rains come, however, much damage will be caused and among other drawbacks the mills may have to shut down.

Two New York business men were one day discussing the purchase by one of them of a certain mercantile concern with which, the buyer explained, had come the "good will."

"I hope this 'good will,' said the friend of the purchaser 'is greater than that of the old French farmer'."

"I have never heard the story."

"Here it is: The farmer was dying, and he sent for the notary to make out his will. Propped up in bed, he dictated:

"To Jean Marcel, our superb coiffeur, \$10,000 francs.

"I bequeath 15,000 francs to the fearless Alphonse Bayard, that he may continue his valuable aeronautical experiments."

"To my physician, M. Leclair, 10,000 francs as a mark of affection."

"To my eloquent pastor, 25,000 francs to continue the restoration of..."

"But, my dear sir, interrupted the notary, 'I don't believe you have all that money to leave.'"

"I know very well I haven't," said the farmer, calmly, "but I want to show them my 'good will.'" - Youth's Companion

Three Great Controversial Measures Likely Passed in Present Month—Greatest Interest in the Irish Situation

London, May 13—This month probably will see the passage through the House of Commons of three great controversial measures, home rule for Ireland, disestablishment of the Welsh Church and the abolition of plural voting.

Of course the greatest interest is taken in the home rule bill. In a speech in the House of Commons yesterday Premier Asquith said the house would maintain complete control of the situation and the only way to carry out any agreed settlement of home rule was through an amending bill to follow the passage of the original measure.

The opposition, seeing that the bill must become law, realize that their best course is to fight to secure special treatment for Ulster, and that even more generous terms will be offered by the government than those held out at the time of the second reading, providing for temporary exclusion, is now regarded as almost certain.

John E. Redmond, National leader, hoped that if an amending bill was introduced it would be given effect to the agreement reached. If an amending bill were introduced after failure to reach an agreement, then he must hold himself absolutely free to deal with it when it rose.

While some interpret Mr. Redmond's speech as a warning to the government against further concessions to the Unionists, others interpret it as a warning to Ulster that once a home rule bill is on the statute books any further concessions can be had only by consent of the Nationalists.

It Hits Belfast Business Men

There has been talk of a federal system for the whole of the United Kingdom, and it has been suggested that Ulster should be excluded from the home rule bill until this system is inaugurated.

The Matter of Big Purse

(FROM T. S. ANDREWS)

Milwaukee, May 11—The money bug, which has at last struck the boxers in France, is well known sporting man of London.

The only thing that may spoil it is the greed of the champions. Some of these latter have the notion that their abilities are paid for at a rate that compares unfavorably with their brethren in the United States.

The United Sporting Club of London is about the only place that charges admission rates that compare with those charged at the big shows in America.

when she could choose the state which she would join. The federal system, however, has many influential opponents, and as for Ulster it raises another difficulty.

There is the opinion of a wealthy Belfast business man. "Sir Edward Carson's demand for the complete and unconditional exclusion of Ulster need not be taken seriously."

"I know that the Nationalists will never think of accepting such a proposal. We know quite as well that it would be impracticable if it were possible."

"The people of the south and west are great consumers. I should think that the volume of business between the Nationalist parts of the country and Belfast alone has quadrupled within the last five years."

Now that the government has safely weathered the crisis over the refusal of officers to serve against Ulster volunteers, Liberal members of parliament have returned to their old demand that there shall be no general election until the bill to abolish plural voting has been passed.

Of course if the Unionists agree to let the bill go through this year the Liberals will consent to a general election, but otherwise the rate and rate of the party and the Laborites as well will fight to the last to prevent an appeal to the electors until they are sure that they do not have to fight with the advantage of the plural voter, who in the mind of every Liberal must be a Unionist.

select swells. It is very seldom that a big purse affair in this country proves to be worth the money charged to see it.

One enterprising promoter started a contract system whereby a boxer was signed for say a dozen bouts for a fixed sum. As this money had to be paid in any event, whether the boy lost or won, it dangled upon the promoter that it would be to his interest to see that his contract fighter was not beaten, otherwise his value as a drawing card would cease.

As there seems to be a regular epidemic of Sore Throat, the following valuable recipe will be welcomed by many.

As the bronchial tubes lead directly to the lungs and the disease often travels along these tubes into the lungs and there sets up an inflammation that invariably results in a serious lung trouble.

At the first sign of soreness in the throat or around the tonsils you should secure from your chemist 1 oz. of Parmin (Dyadic Strength), and take this home and add to it 1/2 pint of hot water and 4 oz. of moist sugar.

Important.—In ordering Parmin always specify that you want Double Strength; your druggist has it or he can get it for you; if not, send 75c. to the International Laboratories, 74 St. Antoine St., Montreal, who make a specialty of it.

Before the recent crisis it was said that the bitterness aroused could never equal that of 1886, but it came very close to it.

Many friendships have been broken during the last month even among those who do not take their politics so seriously as do the political society leaders.

FERNHILL WORK

Protection at Graveside in Case of Rain at Funeral

NEW PLOT FOR GRAVES

Annual Care Price Advanced—Some Criticism of Proposed Street Railway Route—Nearly 80 Bodies in Receiving Tomb in Last Winter

An important meeting of the directors of the Fernhill Cemetery Co was held yesterday following the spring visit of the lot committee to the grounds on Saturday. They reported that the new lots in South avenue are completed and these, with those lately cleared from rock in Central avenue are now being sodded and will be ready for sale at once. Plans were reported for the season and these will include the continuation of the changes at the Marsh road entrance to further beautify the cemetery. The directors passed some important resolutions among which were that two new water hydrants be installed, one in Willow avenue which will be available to water the ground in the vicinity of the marine lot and the chapel, and the other on the pipe line with an attachment of 800 feet of pipe to water Central avenue, Hill avenue and part of the Church of England plot.

It was also decided to procure frames and awnings for use on wet days so that service may be held at a graveside with protection for minister and people. A new plot will be at once laid out on the lower part of Willow avenue near the front gate and divided into cheap lots to be sold at from \$25 each and upwards. It was also decided to advance the price of annual care of lots fifty cents each. The matter of advancing perpetual care rates and the sale price of all lots was deferred for the present. The matter of draining the company's property in Marsh road was discussed, and steps were taken towards making a drain into the Marsh creek. The route of the street railway was before the board, and some adverse criticism was made that the line will run within a few feet of the cemetery gate which, it was declared, would not only affect the entrance but in winter the snow would be plowed through the gate and make much work in keeping a passage clear. In addition to this if the grade of the Marsh road was raised as proposed, it was felt there would be much expense caused the cemetery in conforming their grounds to correspond with the roadway.

There is a large force of men now at the usual spring work on the grounds and many improvements will soon be noticed as a result of the systematic work under the direction of the superintendent. Last week more than fifty bodies were removed from the receiving tomb and buried, and all lots are now being prepared and sodded. There were nearly eighty bodies placed in the receiving tomb during the last winter.

BROOKVILLE WON In a fast and exciting game of baseball last evening the Brookville tilters defeated the diamond stars from Torriburn by the close score of 5 to 4. The battery for the losers was made Jos. Gallagher and John Gallagher, while Leonard McLaughlin and Herbert Whalen were between the points for the winners. The feature of the game was a two bagger by Bernard Ryan in the third inning. A large crowd witnessed the game, and the fair sex were out in force.

Nine Thousand Pieces In It

Mrs. Thomas H. Lawson Completes Making Of Remarkable Quilt

A wonderful work representing a period of several winters in leisure hours has been completed by Mrs. T. H. Lawson, of Princess street, a handsome quilt made up of 9,000 pieces of silk. She recently finished this task. Several years ago on a visit to a local exhibition Mrs. Lawson saw a quilt which took her fancy and she determined to have one like it, but the result of her work shows it to be far superior to that on display at the time. It is of log cabin design, very pretty, and of many colors. In each block there are twenty-five pieces and each block is one-eighth of a foot square. The quilt is fifteen feet in length and thirteen feet in width, and the pieces total 9,000. The centre piece is of red silk. Mrs. Lawson, who is an expert with the needle, has worked at the quilt now and again for the last few winters and this spring saw the triumph of her efforts in an original and handsome piece of work.

BRUSSELS STREET HOUSE VISITED BY POLICE; FOUR ARE BROUGHT TO COURT

Policemen Gibbs and Kane raided a flat at 178 Brussels street last night between 12 and 1 o'clock, and as a result two men and two women with a baby in arms were taken to central police station and were brought before Magistrate Ritchie in the police court this morning. The prisoners pleaded not guilty. The police said that the house had a reputation for being disorderly, and they gave the women a bad name. Policeman O'Neill, who had been on the beat several weeks ago, said that he had often passed the house and heard cursing and swearing from within, and was nothing of the clinking of glasses. He said he knew one of the women when on the Sheffield beat several years ago. Policeman Gibbs said that there was no drinking in the house last night as far as he knew, and the only refreshments in evidence were periwinkles which all enjoyed with the exception of one of the women who expressed a violent dislike for them. The prisoners were remanded until tomorrow when Policeman Kane will be called to give evidence.

A CALL TO THE SWEEPS

No. 5 Team, winners of the Five Men League, on Victoria alleys, are anxiously awaiting for the sweeps to name their roll-off for the championship of the city. The night they won the City League, Mr. Masters, captain of the team, issued a challenge to our team. We accepted on the following day and have not heard from them yet. Hoping to get a reply through this paper, we remain,

Yours truly, MEMBERS OF NO. 5 TEAM.

Thanking you, Mr. Editor, for your valuable space in this paper and for the way you have displayed our games in your paper during the season.

THE BLASTING

Contractor John Flood Gives Evidence

CASE IS GONE INTO

Suit For Injunction and to Recover Damages—Evidence Has to do With Nature and Effect of the Blasting Work

The case of the Provincial Chemical Fertilizer Company, Limited, vs. the Norton Griffiths Company, Limited, came up before Chief Justice McLeod this morning. This is a suit for an injunction to restrain the defendants from surface blasting at East St. John, and also to recover damages. At the outset F. R. Taylor, appearing for the defendants, said that his clients would admit their liability for any damage resulting from their blasting. He thought \$100 would cover the damage, but if the defendants were unable to estimate the same, his clients would be willing to repair in the usual manner, but not put up with new buildings. Mr. Taylor also made this statement, thinking that it might effect the question of costs at a later date.

His Honor said that if there was any question of damages he would simply refer the matter to a master in chancery for assessment. The only witnesses examined this morning was John Flood who was called by G. Taylor, K. C., for the defendants, a little outside his turn on account of his leaving the city this evening on an extended tour. Mr. Flood said he did not wish to effect the burden of proof, or make the plaintiff assume something he was not called upon to assume, by calling the witness.

Mr. Flood said that he was a general contractor, and builder, and had to do with blasting for thirty-five years. He explained that surface blasting was simply putting the explosive on top of the rock, while in other cases holes were drilled to contain the explosive. The shallower the hole the greater the danger would be from concussion and flying rock, and in surface blasting, he thought the danger would be still greater. Blasting by drilling holes was much more expensive than the surface blasting, but was always possible.

Cross examined by Mr. Taylor, the witness said that he had had no experience in surface blasting and would not care to compare the two or say anything about surface blasting. He had seen large pieces of rock used in the breakwater. He said the reason he thought surface blasting would cause more concussion was because there would be no resistance from the rock and the atmosphere would have to take it all. He had never seen any work of this magnitude before and had never seen the explosive covered in large blasting operations, where there were no buildings in the vicinity.

Mr. Taylor—If you think the blasting at Courtenay Bay is so dangerous how is it that the steam shovel and plant adjacent do not suffer? Witness—I have often wondered how they were able to do that. Mr. Taylor—There would be very little steam shovel left. Re-examined by Mr. Flood, the witness said that there were boulders as large as twenty-five tons removed in the blasting at Courtenay Bay. These would have to be broken up before they could be used. Adjournment was here made until twelve o'clock on next Monday. A. H. Hamilton, K. C., appeared with Mr. Flood for the plaintiffs.

MICHAEL J. BARRY IS DEAD IN BOSTON

Well Known as Livery Man and Hotel Proprietor Here

It was with a feeling of regret that the death of Michael J. Barry was learned in the city this morning. The news of his death was brought to the city in a telegram from Mrs. Barry in Boston to relatives here, saying that Mr. Barry had died there this morning. Although he had not been in the best of health for the last few months, Mr. Barry's death came as a great shock to his many friends, who will extend heartfelt sympathy to his bereaved wife.

Mr. Barry was born in this city about fifty years ago, and was a son of the late Patrick Barry, who was engaged in stovering work about the harbor front. When a young man he entered the employ of Michael Blackall, livery stable owner, and was with him until he started in business for himself on the south side of King Square, about 1888. Three years ago Mr. Barry disposed of his stable business, and after a short vacation in the west, took over the Park Hotel, from which he retired last fall. Besides his wife, Mr. Barry leaves one brother, Harry, who left Boston yesterday on receipt of a telegram saying his brother was seriously ill. The body will be brought to the city, leaving Boston on Thursday, and the funeral will likely take place on the following day. Mr. Barry was well known both in the city and through the province, and was a member of the local council of the Knights of Columbus.

HEAD OF NURSES SAVES HOSPITAL AND MAY BE LIVES OF MANY

London, Ont., May 12.—Miss Margaret Galbraith, formerly of the Royal Victoria Hospital, has saved the new Strathroy hospital, of which she was recently appointed superintendent, and the lives of many patients, when, single handed, she fought a fire which started a little before last midnight. An explosion of gasoline occurred where a sterilizer was being started, and as a few seconds a fierce blaze was in progress. Miss Galbraith seized an extinguisher, and not only kept the fire in the room where it started, but finally got it out.

DENOUNCED AS IMMODEST

Women's Dresses and Latest Dances Receive Swiss Archbishop's Condemnation. Geneva, Switzerland, May 12.—The Catholic Church, having condemned immodest attire of women, has carried the war a step further. The Archbishop of Besancon has issued a warning to parents, through all the abbots and curas in his diocese, which touches the Western Swiss Frontier, that in the future neither confirmation nor communion will be given to young girls who are dressed in the present extreme fashions, which in his opinion are indecent. Following is the order issued to the congregations: "Young girls must not have their arms naked, and above all they must not come to church décollete. If the present ridiculous fashion continues we shall be obliged to make examples by refusing to admit to confirmation and the communion young girls dressed up in the images of the modes." The Archbishop in his sermons recently denounced the extreme dresses and the latest dances.

THE HALF HOLIDAY

St. John, N. B., May 11, 1914. Editor Times—In the Upper Canadian cities the clerks enjoy the Saturday afternoon half holiday all the year 'round. Why not in St. John? The greater number of our large business houses are in perfect sympathy with the request of their clerks for the Saturday afternoon, and the less reasonable few should follow in their footsteps. Let us help them by doing our shopping before one o'clock Saturday.
