TWELVE PAGES—ONE CENT

JOHN RUSKE IS DEAD IN IRELAND

On Visit to Relatives After Superannuation

Had Not Seen Mother in Nearly Forty-five Years—Efficient and Popular Railway Official Here for Long Period.

Many friends in the city and throughout the province will regret to learn of the death of John Ruske, formerly general foreman of the C. N. R. freight department here, which occurred on Sunday in Ireland. He was retired on superannuation in last May and left soon afterwards to visit relatives in Ireland. He had been ill for the last month and although his condition was not considered serious, it was decided to operate. The operation took place last Sunday and five hours afterwards death took place. The news reached the city this morning in a cablegram addressed to his son, John C. Ruske, manager of the local branch of the Ford Company of Canada. Death occurred at the home of his brother-in-law, William Belmont, Pleasantville, County Leitrim, Ireland. When Mr. Ruske left Canada in June it was with the intention of visiting his mother, Mrs. Harriet M. Ruske, who is now approaching her ninetieth year, and whom her son had not seen for nearly forty-five years. The fact that he died while on this first visit in such a long period is one of the saddest features of his death. Besides his mother and son, he leaves his wife, two daughters, Mrs. Davidson, wife of John A. Davidson, a merchant doing business in Union street, and residing at 14 Paddock street, and Mrs. Williston, wife of P. R. Williston of Bay du Vin, N. B., at whose home Mrs. Ruske is now residing. The funeral took place today in Ireland.

Mr. Ruske was born in Ballycastle about sixty-five years ago and came to St. John when a boy. At the age of 15 he entered the service of the European and Northern American Railway in June, 1873, as a porter at Shediac. At that time the road did not run through to Halifax or north of Moncton and the route to Prince Edward Island was via Shediac. A local train operated between Moncton and Amherst and the railway was being continued from the latter place to Yvres. After three years work at Shediac and Amherst, he was transferred to St. John as freight checker and when in 1880 the old freight shed were replaced by larger accommodation, Mr. Ruske was placed in charge as general freight foreman, which position he occupied when retired. While with the C. N. R. his genial disposition and thorough attention to business gained for Mr. Ruske the confidence and esteem of the business people of St. John with whom he was almost daily in contact. His fairness and consideration for the men working under him was rewarded by a general respect and faithfulness on the part of all, and it is certain that there will be many who will mourn his passing. He was a member of Eldon No. 2 Lodge, L. O. L. of this city for the last forty-five or forty-six years, and he and James Keyes and David Hipwell, P. G. M., were the oldest members of the lodge. At the time of his leaving for Europe Mr. Ruske was treasurer of the lodge, which office he had occupied for about forty years. He always took a keen interest in the affairs of the order and his fellow members were preparing a demonstration for him on his return from Ireland. Today's news came as a distinct shock to them and there were many expressions of regret.

PIE FOR BREAKFAST

Go to it if You're a Brain Worker, Say Doctors.

New York, Aug. 28.—The physicians of the U. S. have voted to recommend the New England pie belt and its supplementary orbits throughout the U. S., especially for the intellectual workers; and not only pie but also hot cakes, corn pone and biscuits have received the stamp of medical approval. A heavy breakfast, light lunch and light dinner, especially for mental workers was approved by more than seventy-five per cent of the list. "If people want pie for breakfast and they live in the pie zone, don't rob them of their pie. They should go lighter on the other things, however," said one medical man.

UNIVERSITY CONFERENCE IN OCTOBER

Fredericton, N. B., Aug. 28.—A conference to have been held last week at Halifax, relative to the establishment of a central university for the maritime provinces, was postponed until October. The trustees of Lord Beaverbrook's fund for scholarships for university students in New Brunswick probably will meet in St. John on Saturday to ward the five scholarships.

N. Y. BROKERS FAIL

New York, Aug. 28.—Failure of the brokerage firm of Edwards and Gately, members of the consolidated stock exchange, was announced today by President Sillworth of the exchange. The exchange was informed that only about \$100,000 was involved. The firm was established on Dec. 21, 1908. It is supposed of J. H. Edwards and John

FOR EXTENSION OF AGREEMENT ON ARMAMENTS

Geneva, Aug. 28.—Extension of the Washington agreement for reduction of naval armament to include countries not parties to that accord, is one of the questions to come before the council of the League of Nations, assembling here today to begin preparations for the third assembly.

SLIM HOPE FOR BURIED MINERS

Forty-eight Trapped Nearly Mile Below Surface

Families in Sad Vigil at the Mouth of the Argonaut Gold Mine in California—Rescuers Trying to Break Through Barrier from Another Mine.

(Canadian Press) Jackson, Calif., Aug. 28.—Held in the grim grip of despair as hours follow hour in their vigil, families and fellow workers of forty-eight gold miners imprisoned since midnight Sunday nearly a mile below the earth's surface in the Argonaut mine, today cling stubbornly to the shred of hope that their husbands, fathers and buddies still live, although the most optimistic hope was to reach the men within eighteen hours. Dawn today found tense groups still waiting. From the mouth of the pit came no sign of the bell of flame and smoke and poisoned air that raged between the imprisoned miners on the levels below 4,000 feet and the workers who vainly struggled to reach them. During the night, men attempting to mine "adze" to ride down through the flames were dragged back to the surface, their faces blackened. They came to gasp eagerly for fresh air and to tell of the hopelessness of the help below. The trouble on which the mine was abandoned and distorted with the heat, in some places even melted away. Flames which started yesterday morning at 8,000 foot level, today had worked up above the 2,800 foot level. A half-dozen workers were seen working frantically with drills and picks to break through a concrete barrier which long has sealed the shaft. They were aided by other miners sought to make a possible channel of escape for the trapped comrades. It was a slim hope. A portion of the main shaft below the 2,700 foot level had caved in and workers could remain on the 2,400 foot level to fight the flames only a few minutes at a time. The trapped men are believed to be on the 4,500 level and even lower. Canary birds told the rescue workers the futility of attempting further descent into the shaft. They were lowered into the shaft, and as the strings played out with the canary cages they were carefully measured. Some of the birds came back with wings fluttering feebly. Others were dead. The tests showed that the descent to 2,700 feet would be made, but that further was perilous.

MORAL SUPPORT OF U.S. WANTED

Britain Not Seeking Financial Assistance There, and Will Pay Debt.

London, Aug. 28.—Premier Lloyd George this morning in conversation with Col. E. M. House, who breakfasted with the premier, reiterated Great Britain's intention to discharge her present debt to the U. S. to the last farthing, so Colonel House told the Associated Press. Colonel House said that the premier begged him to tell those at home that Great Britain was not seeking financial assistance from the U. S., but desired very earnestly her continued moral support.

HIT BY HIS CAR

Wm. Whitebone Injured; Someone Had Disengaged Brake.

William Whitebone, bill-posting manager and showman, was rather badly hurt this morning when he was struck in the head by the fender of his Ford car which started unexpectedly while he was cranking it. Mr. Whitebone had left the car in front of his home, 44 Celebration street, with the brake on and ready to crank when he wished to use it again. While he was away some children were playing around the car and, it is thought, they managed to disengage the brake. When Mr. Whitebone cranked the car it started to go ahead and the mudguard struck him on the head, knocking him unconscious for a while. Dr. G. B. Peat took several stitches in the wound. Although it was feared at the time that some serious consequences would result, Mr. Whitebone was able before noon to return to his work.

THE RAINFALL WAS NEAR 8 1-2 INCHES

Record for Three Day Period Established

Damage to the Roads and Bridges of the Province Not Less Than \$100,000—Humphrey's Mill Dam Carried Away This Morning.

A report from the Meteorological Observatory this morning said that eight and four-tenths inches of rain had fallen since Saturday morning, establishing a new record for that period of time. The barometer remained stationary and failed to give any indications of a change for the better. As a result of the heavy rain fall Stetson, Cutler & Company's large mill in Indiantown and another of their mills at Pokok were shut down this morning. The rain fall was directly responsible for the closing of the big mill and inability to procure logs, due to the storm, forced the Pokok mill to suspend operations.

FORECAST END OF THIS STRIKE

Pittsburg Bituminous Producers and Men to Meet—Canadian Reports.

(Canadian Press) Pittsburg, Aug. 28.—Termination of the coal strike in the Pittsburg bituminous district was forecast today when the district officers of the U. M. W. announced probably they will meet with the producers of the Pittsburg coal producers association this afternoon, on invitation of the association to discuss signing a pact under the Cleveland agreement. Pueblo, Colo., Aug. 28.—Suit for damages against seventeen Colorado coal producers was brought today in a few days by District No. 15, U. M. W., in an effort to collect between \$300,000 and \$400,000. They alleged that the coal producers employed in the district had conspired to raise the price of coal to \$15 per ton. The suit was filed in the U. S. District Court at Pueblo. Toronto, Aug. 28.—Warning that the coal strike in the Ontario district may find Toronto without adequate supplies of fuel of any description is contained in a statement issued by J. A. Ellis, fuel controller of Ontario. He regrets that the local coal dealers have not seen fit to order Welsh coal. As for the U. S. he does not think they will be able to carry out their promise to fill the city's needs with American bituminous coal. The situation will be very difficult, but nobody should freeze. Such is the fuel situation, according to F. L. Mackenzie, one of the two members of the fuel commission for this province. In Nova Scotia, Ottawa, Aug. 28.—It seems likely that the troops sent to the strike area of Nova Scotia on request of the local authorities will remain there until after the referendum on Tuesday. Militia headquarters has not yet received a request from Nova Scotia for the withdrawal of the troops, and it is thought that they are being retained until after the voting takes place. EXCHANGE TODAY. New York, Aug. 28.—Sterling exchange steady. Great Britain 4.45 5-8. Canadian dollars 1-16 of one per cent. discount. BIRTHDAY PARTY. Little Phyllis Hammond, daughter of Mr. and Mrs. W. M. Hammond, 32 Protection street, was yesterday the happy guest of honor at a party held by Miss Genevieve Baynton in honor of Phyllis' birthday. About twenty-five friends spent some hours enjoying themselves. Paris and Philadelphia WEATHER REPORT. Issued by authority of the Department of Marine and Fisheries. E. F. Szwedarski, director of meteorological service. Synopsis—Pressure is low over the north Pacific states, Arizona and Quebec, and high over the central portion of the continent and off the Atlantic coast. Showers have occurred in most districts of Ontario and in some places in Quebec and the maritime provinces; clear elsewhere. Clearing Tomorrow. Forecasts—Moderate to fresh winds; overcast, with scattered showers and some fog today. Wednesday, westerly winds; clearing. Gulf and North Shore—Moderate winds; overcast, with scattered showers today. Wednesday clearing. New England—Showers tonight or Wednesday. Somewhat cooler Wednesday; moderate southwest, shifting to west and northwest winds.

As Hiram Sees It

"Hiram" said the Times reporter is Mr. Hiram Horibean, "how is the weather in the Settlement?" "The weather's good," said Hiram. "The hens is sprouting' web-feet, and Sile Johns has 'twice spent wanted to 'take on' much about water 'he'd give us our fill of it, hey, what?" "It may be" said the reporter, "that he wants us to talk more about it, and realize its value, since it costs us nothing to produce, and needs only to be harvested." "They may be something in that, too," said Hiram. "Yes, ah—shouldn't be surprised if that is it—by Hen!"

CENTRE ON LESS DRASTIC MEASURES

U. S. Government and Coal and Railways

Chicago and Walton Walk-out is Ended—Several Outrages are Reported—Meeting of Big Five Holds in Cleveland.

(Canadian Press) Washington, Aug. 28.—Proposals for government operation of rail and coal properties in the U. S. were put aside yesterday and administrative leaders both in and out of congress centered their efforts instead upon less drastic measures to meet the industrial emergency. Chicago, Aug. 28.—The walk-out of Chicago and Alton trainmen at Rock Island, a striking engineers and company officials met at Slater, Mo., in a move to end the C. & A. tie up there. The U. S. railroad labor board continued its hearing on the application of maintenance of way employees for increased wages in Chicago. Chicago, Aug. 28.—The Michigan Central wreck at Gary, Ind., August 20, when two of the train crew were killed. These were important developments in the railroad situation today following the outbreak of terrorism, separate inquiries by federal, state and private operatives during the last twenty-four hours. The Chicago and Alton, which has been one of the chief sufferers from strike complications since the shipmen's walkout July 1, prepared to cancel the traffic angles on its western lines. While Chicago and Gary police, federal operative and state detectives dug into their investigations of the Gary wreck and other alleged sabotage plots in which train crews were a part of a programme of terrorism, separate inquiries were in progress into an attempt to ditch the California-Florida liner on the Pacific system at Capeville, Texas and the dynamiting of Chicago and Alton railroad bridges at Drake and Bonding of the homes of railroad employees at Bloomington, Ill., and Montgomery, Ala. The shooting of a Chicago and Alton trainman in Chicago, a gun fight between guards and a sniper at Dallas, Ill., and the dynamiting of a bridge at St. Louis, Mo., among strike disorders reported from different sections of the country. 270000 lbs. of dynamite and a bomb near a gasoline storage tank at Flint, Mich., increased the rapidly growing list of reports of violence. "Big Five" Meeting. Cleveland, Aug. 28.—One of the things to be considered by the "Big Five" brotherhoods of railway employees who are meeting here today will be proceedings of the recent conference between the union representatives and the roads in their efforts to bring about a settlement of the shipmen's strike. A complete review of these proceedings will be brought before the conference and a report upon it will be sent to the members of the several brotherhoods. For William, Ont. Aug. 28.—The strike of the freight handlers is still on at the head of the lakes. After coming to an agreement regarding wages, the men now insist on complete reinstatement of the strikers without regard to the men who have worked while they were out. Both sides are standing pat on this question and meanwhile the few men who are now at work are sufficient to handle the little freight that is arriving. POLICE COURT. Two cases of alleged assault took up considerable time in the police court this morning and afternoon. In the first case the evidence, resulted in fines of \$20 being allowed to stand in each case. William Paddock, who was arrested at 9:30 o'clock by Policeman Dykeman on a warrant charging him with assault on James Lavigne, pleaded not guilty. Lavigne said that the accused had refused to pay him some money owing to him and that he had threatened to sue for it, that the accused then jumped on him, hitting him twice in the eyes and once on the forehead. The defendant swore that he had ordered Lavigne to leave the place where he was and that Lavigne grabbed a rock with which he hit him on the head with it. He said that he was acting in self-defence when he hit him. The complaint said that it was self-defence which had caused him to pick up the rock. The principals were taken into the magistrate's office for a conference which resulted in a fine of \$20 being allowed to stand against Paddock. John Shortle pleaded guilty to a charge of assaulting Charlie Ritchie, but said that the complaint grabbed him and this led to the assault. Ritchie said that he would like to be allowed to drop the charge but His Honor refused to listen to such a proposition and his evidence was taken. A fine of \$20 was allowed to stand. A young woman, who pleaded guilty recently to a serious charge, was before the magistrate again this morning. Some evidence was taken and she was remanded to jail. NEW GOVERNOR OF INDIAN PROVINCES. London, Aug. 28.—The India office announced today that the king has approved the appointment of Sir William Marris to succeed Sir Harcourt Butler as governor of the united Indian provinces of Agra and Oudh. It was recently announced that Sir Harcourt would succeed Sir Reginald Craddock as governor of Burma. Sir William Marris was secretary to the governor of India from 1919 till 1921 when he was appointed governor of Assam.

MINISTER, HIS MEMORY GONE, WORKED ON FARM

Grand Forks, N. D., Aug. 28.—Recovering his memory after a lapse of three weeks, Rev. J. H. McQuerry of Orrick, Mo., who has been in a hospital here since last Wednesday, last night was on his way home with his wife. Three weeks ago she disappeared. He appeared at the hospital Wednesday. Investigation disclosed that he had been working at a farm three miles from here. He remembered that he was from Orrick, but could recall nothing else. Authorities there were wired and yesterday Mrs. McQuerry came here. He apparently recovered his memory.

SAD NEWS IN ST. JOHN HOMES

Thos. A. Leger Decapitated by Train

Was Returning to His Home Near Shediac After Visit to Moncton—Three Daughters Reside in This City.

(Canadian Press) Moncton, N. B., Aug. 28.—The decapitated body of Thomas A. Leger, a farmer of Shediac, near Shediac, was found on the C. N. R. main line between Paines Junction and Halifax this morning. The right foot was also severed, and death must have been instantaneous. Coroner H. H. Coleman of this city began an inquest. It was established that the deceased was in Moncton yesterday and had several teeth extracted, returning to his home on the Moncton-Point du Chene train which leaves here at 9:30 p. m. After the train had passed Paines Junction he was missing. The inquest was adjourned until Thursday morning. Mr. Leger was born in 1855 and was twice married. His first wife was Miss Olive Leger, and his marriage six children survive. These are Mrs. Phillip Casey of St. John, Mrs. Henry Casey of Montral, Mrs. George Burns of St. John, Miss Emma Leger of St. John, Mrs. Jack Carroll of Sunny Brae, and Fred G. Leger, an employe of the C. N. R. shops here. His second wife was Mrs. Murphy, by whom he is survived by three children, the Misses Hattie of Western Canada and Miss Elizabeth of Moncton.

MURDER IN NOVA SCOTIA

Dying Girl Accuses Widower of Sixty

Flora Gray, Housekeeper for Omar Roberts, Says He Threw Gasoline Over Bed and Set Fire—She Dies of Burns.

(Canadian Press) Yarmouth, N. S., Aug. 28.—Omar Roberts, a widower, aged sixty, residing at North Kempsville, thirty miles from here, was arrested today charged with murder of Flora Gray, aged nineteen, his house keeper, who died last night from burns received when Roberts house was destroyed by fire. A little after ten o'clock last night, it is said, Roberts drove in his automobile to the home of Robert Randall, half a mile away, and reported that Flora Gray had been burned to death. A party proceeded to Roberts' home which they found full of smoke. Entering Miss Gray's room they found her under the bed, naked and terrible burned. She was unconscious but on the arrival of Dr. Farish from Yarmouth she recovered long enough to make a dying statement in which she accused Roberts of causing her condition. It is understood her statement to the doctor and others alleged that at ten o'clock last night after she had retired, Roberts made advances which were repulsed, whereupon he threw gasoline over the bed, set it alight and left her to her fate. She died soon after making the statement. An inquest is being held this afternoon at the home of her father, Clarence Gray, Kempsville.

STEAMSHIP GOES DOWN; 222 LIVES LOST

Santiago, Chile, Aug. 29.—The Chilean steamship Itata, 2,200 tons sank today off the Chilean coast, near Coquimbo. All the passengers, numbering 150, and the crew of seventy-two, were lost. DEATH OF CHILD. Many friends of Mr. and Mrs. Samuel M. Teffer will sympathize with them in the death of their son, Harvey Miller, aged 18 months, which occurred yesterday at the residence of his grandfather, J. Harvey Brown, Craigville, Westmoreland Road. The funeral will be held tomorrow afternoon at 3:30 o'clock and interment will be in Fernhill.

SHAWKEY'S GREAT ELEVEN INNINGS

He and Shocker in Notable Pitching Duel.

"Kid McCoy" Applies for a License for His Ninth Marriage—Wills to Meet Hard Hitting Jackson in Fifteen Round Bout Tonight.

(Canadian Press) New York, Aug. 28.—Superb pitching by Bob Shawkey for eleven innings enabled the New York Americans to defeat St. Louis, 2 to 1, and lengthen their league lead to a game and a half. Shocker, the St. Louis star, opposed Shawkey and had good control, but the Yankee punch, delivered at the right time, prevented him from carrying his club back into the lead. The Athletics and the White Sox divided honors in a double-header at Philadelphia. Hasty's wild throw in the fifth helped Chicago to its victory in the first game, 5 to 3. Home runs by Miller and Scherer, of the Athletics, were big factors in Philadelphia's triumph in the second game, 7 to 2. Brooklyn lost an eleven inning game to the Pirates, 4 to 3, when Catcher Miller threw wildly to the outfield in an attempt to catch Carey stealing. Bigbee's hitting, following, scored the winning run. Des Moines, Ia., Aug. 28.—The Des Moines Western League Club announced the sale of Pitcher A. Lynch to the Boston Club of the National League. He will report on Sept. 8. New York, Aug. 28.—The Brooklyn National League Baseball Club announced today it had recalled outfielder John F. Roosevelt from the Saginaw Club of the Michigan-Ontario League. He trained with the Brooklyn's at Jacksonville and was released to Saginaw under optional agreement. "Kid McCoy" to Wed Again. Los Angeles, Aug. 28.—Norman Selby, otherwise known as Kid McCoy, yesterday made application for a license to wed Mrs. A. McDowell, of Baltimore. The application was refused because the prospective bride was not present. McCoy said the lady would arrive soon, and he had passports for the two to make a trip to the Orient, following the ceremony. This will be McCoy's sixth matrimonial venture, according to local statisticians. Atlanta, Ga., Aug. 28.—Battling Budd of Atlanta beat Mel Coogan of Brooklyn in a ten-round bout here last night. New York, Aug. 28.—Harry Willis, New Orleans negro heavyweight, is to battle Tat Jackson of Washington Courthouse, Ohio, a colored heavyweight, tonight, in a bout slated for fifteen rounds at Ebbets' Field, Brooklyn. Unusual interest has centered around the match because of Willis' prominence in the heavyweight title situation and reports of Jackson's punching power. Four bouts will precede the Willis-Jackson clash. Sherbrooke, Que., Aug. 28.—At the opening day of the harness racing at the exhibition grounds here the results were: 2:30 Trot—Baroness Axel, A. Bissone, Montreal, first; Lettie Worthey, Roaring Brook Stables, second; Maple Leaf, Ingraham, Sherbrooke, third; Daisy Howard, B. V. Howard, Sherbrooke, fourth. Best time, 2:33 3-4. 2:30 Pace—Morco Denney, Stebbins & Gauthier, Parham, first; Blend J. Payette, Penetang, second; Delight, H. F. Pierce, Stanstead, third; Guy Dennis, Carlisle, St. Guillaume, fourth; Hoover, E. Swall, Colebrook, N. H., fifth; Flyaway, I. Dorman, Cookshire, sixth. Best time, 2:16 1-2. Roadville, Mass. Aug. 28.—Bright sunshine today promised to put the Roadville track in good shape for the opening of the Grand Circuit races, postponed from yesterday.

MONKS TO LEAVE ISLE OF WIGHT

Returning to France as Vatican and Government Have Composed Differences.

Paris, Aug. 28.—(Canadian Press)—The Vatican and French governments have composed their differences with the result that the Benedictine Monks in Quarr Abbey, Isle of Wight, are returning to the mother house of Sclesnes, in the department of Sarthe. They established themselves in the Isle of Wight twenty years ago and built a fine abbey on the ruins of the ancient monastery. Their departure from the island is generally regretted. The monks made themselves most welcome neighbors and they were hospitable to strangers.

AMUNDSEN CHECKED

Nome, Alaska, Aug. 29.—Captain Roald Amundsen's exploration ship Maud is in the ice off Point Hope, north of Kolsche Sound and the eastern entrance to Bering Strait, according to a radio message received here yesterday from the coast guard cutter Bear. It is believed here that the Maud is returning to Nome, because of ice conditions. The message also gives definite information that Captain Amundsen who left the Maud some time ago with Lieutenant Oscar Omdal, navigator, and a motion photographer, will spend the winter at Wainwright near Point Barrow, apparently having given up his proposed trans-Polar airplane flight for this season at least.

UNION BANK IN WEST LOOTED

Motor Bandits Gag Sleeping Clerks and Get Away with \$82,000.

Lethbridge, Alta., Aug. 29.—The Union Bank of Foremost, Alta., on the Foremost-Weyburn branch of the C. P. R., was robbed by five motor bandits about two o'clock this morning.

Winnipeg, Aug. 29.—Officials of the Union Bank at the west end here said this morning they had received no report of the robbery.

LATE SHIPPING

London, Aug. 29.—Ard, star, Montreal, New York, Aug. 29.—Ard, star, Elizabeth, Sydney, C. B.

TONIC TABLETS ARE EATEN BY CHILD

Little Hamilton Girl Dies in Hospital in Great Agony as Result.

Hamilton, Ont., Aug. 29.—Helen, the three-year-old daughter of Stephen Smith, 275 Emerald street, ate 28 tonic tablets that, it is thought, may have been handed to her by another child to play with, and died in the City Hospital in great agony.

MILLIONS IN BILLS JUST LYING AROUND

Ottawa, Aug. 29.—Piles of money—millions of dollars, or what was once currency—may be seen these days in the court-yard of the dominion treasury.

THE WESTERN CROPS

Winnipeg, Aug. 29.—(Canadian Press)—The weather during the past seven days in the prairie provinces has been fair and moderately warm with showers in a few localities.

FOUR HALIFAX OFFICERS.

Halifax, N. S., Aug. 29.—Halifax officers affected by the reduction of the Canada permanent military staff by twenty, of which official notice had been received from Ottawa, are Lieutenant Colonel J. J. Sharpley, Lieutenant Colonel R. B. Willis, Major F. C. Kilburn of the Royal Canadian Engineers, and Major George Simms, of the Army Service Corps.

CLAYTON CO. Undertaker, Embalmer

Phone No. 718 81 Princess Street

Notices of Births, Marriages and Deaths, 50 cents.

BIRTHS

BECKWITH—At 17 St. Paul street, on August 29, 1922, to Mr. and Mrs. O. F. Beckwith, a daughter.

DEATHS

CLARK—At her late residence, 160 Charlotte street, W. E., on August 28, Josephine, wife of A. R. Clark, leaving behind her husband, two sons to mourn.

MONTREAL STOCK EXCHANGE

Montreal, Aug. 29.—(10.30.)—The local market was dull at the opening.

LOCAL NEWS

Rockdale Hotel, Brown's Flat, closed for the season August 31.

HYDRO SITUATION

Mayor McLellan will address a public meeting at the Imperial Theatre on Thursday evening, August 31, at 8 o'clock. Subject, "The Hydro Situation."

A DESIRABLE COMBINATION

A combination tweed waterproof and fall overcoat, or cloak, in one, for men, women and misses. See Entry 40's.

THEY ARE POSTPONED

Not only has the weather caused a postponement of the playground children's pageant in the city hall, Carleton, until Thursday evening, but the picnic at the east and south end boys' clubs has been postponed till Friday.

IN IRELAND

Dublin, Aug. 29.—It did not need the interchange of assurances by the Irish and British governments to make it clear to the world that the Anglo-Irish treaty must stand, says the Freeman's Journal today.

Dublin, Aug. 29.—Train service on the Great Southern Railway was greatly interrupted yesterday as the water cut in several places.

BAPTIST WOMEN OFFICERS THE SAME AS LAST YEAR

Moncton, N. B., Aug. 29.—At the concluding session of the Maritime Convention of the United Baptist Women's Missionary Union held this morning last year's officers were re-elected for 1922-23.

NEW WORRY FOR THE PEOPLE OF VLADIVOSTOK

Tokyo, Aug. 29.—The Japanese evacuated the Suchang mines, which the Red troops immediately occupied, threatening Vladivostok economically and financially, according to a message published today by the Jiji Shimbun.

IN WALL STREET

New York, Aug. 29.—(10.30.)—A strong tone prevailed at the opening of the New York stock exchange today, reflecting the better prospects for peace in the anthracite fields and the more favorable industrial news.

SAYS THE CROPS THERE ARE BEST IN 30 YEARS

Smith's Falls, Ont., Aug. 28.—John Wiloughby of Montague township, president of the U. E. O. Club of Smith's Falls, says that the crops of the present year in this district are the best he has known in a period of thirty years.

NEW PLAN FOR WORLD ASSOCIATION OF STATES

Grenoble, France, Aug. 29.—A new plan for a "world association of states" to link together the League of Nations, the Pan-American Union and those governments which are members of neither.

Chicago Grain Market

Chicago, Aug. 29.—Opening: Wheat, September, 102 3/4; December, 104 1/8. Corn, September, 80 3/8; December, 85. Oats, September, 37; December, 34.

Stop Look Listen

to the voice of wisdom and step in and leave with that cake problem settled.

IDEAL BAKERY

Charlotte Street, opp. Dufferin Hotel Open evenings.

SHORT'S "Dyspepticure"

Thousands of bottles have been sold without any advertisement whatever, because it relieves the most stubborn cases of INDIGESTION and CHRONIC DYSPEPSIA.

PERSONALS

Miss Gertrude McNamara will leave tomorrow morning on the Governor Dingley for Boston where she will visit relatives and friends.

Mr. and Mrs. H. W. Long, 393 Charlotte street, West St. John, are leaving for Montreal on Monday, accompanied by Mrs. Eadie and son, Douglas Weir, who have spent the summer with Mrs. Eadie's mother, Mrs. Mrs. C. I. Keith and Miss Nellie Keith are spending two weeks in Prince Edward Island.

Mr. and Mrs. Percy Long of Montreal are visiting the city. Mr. Long is a member of the "Times" composing room staff, now in an efficient office of the Y. M. C. A. in Westmont, Montreal.

Miss Ursula MacDonald has returned to St. Michael's Academy, Chatham, to resume her studies.

Miss Sadie Ross of Chatham arrived in the city last night and is spending her vacation at the home of Miss Mary Vera Starkey, Main street.

Mrs. H. D. Miller and children arrived home yesterday from "Penobscot," where they had been spending a couple of weeks with Mrs. Miller's cousin, Mrs. W. Goddard.

GAME TONIGHT

St. Peter's and Fredericton Baseball Match Will be Played.

It is announced this afternoon that, if it is all possible, the game between St. Peter's and Fredericton will be played this evening. Rain alone will prevent the game taking place.

At three o'clock it was definitely decided that the St. Peter's and Fredericton game would be played this evening.

LOOKS BETTER IN CAPE BRETON

Sydney, N. S., Aug. 29.—The first move back towards the mines occurred today when several mechanics acting under permission from mechanics local of the U. M. A. went to the machine shop at Glace Bay to assist with repairs on colliery pumps.

TREES BREAKING DOWN UNDER LOADS OF FRUIT

A St. Catharines, Ont., despatch says that as proof of the immense crop of peaches and pears in the Niagara fruit zone, trees in all directions are breaking down under their loads of fruit.

TOWN HALL AUCTIONED OFF

Bridgeport, Ont., Aug. 28.—Bridgeport's own town hall, Palais de Justice, fire headquarters, etc., has at last been sold. It went under the hammer for \$30,000 to the Niagara Mercantile House being the purchaser.

WHY THE MILKMAN WAS NOT AT DOOR

Dublin, Aug. 29.—The following advertisement appeared last week in a Dublin paper:—"Mr. Edward Murphy of the Purvey Dairy, Kinnage, begs to apologise to his customers for the inconvenience caused by their being left without milk."

Drowned Near Cornwall, Ont.

Cornwall, Ont., Aug. 29.—Two lives were lost in the St. Lawrence river near here last night when a skiff ran into the side of the Canada Steamship Line Rapids King, when westbound from Montreal.

Belgium and Canada

Brussels, Aug. 29.—Negotiations for an economic agreement between Belgium and Canada are expected to open here in the near future.

HON. DR. BAXTER HOME

Hon. Dr. J. B. M. Baxter, K. C., arrived home today after attending a meeting of the Canadian Bar Association at Vancouver and a meeting of the American Bar Association at San Francisco.

C. P. R. CONFERENCE

J. M. W. Dunlop, general superintendent of the C. P. R., New Brunswick district, N. B. DoBrisay, general passenger agent, C. C. Kirby, divisional manager, W. J. Pickrel, divisional master mechanic, D. W. Newcombe, local freight agent, and W. S. Elliott, local freight agent, left this morning for Fredericton to attend the monthly conference of the officials and employees of the New Brunswick district, which is taking place at the capital today.

REV. WALTER DUNLOP IS TO LEAVE HALIFAX

Rev. Walter S. Dunlop, for the last two years curate at St. Paul's church, will leave this week for St. John, where he will spend a brief vacation.

The officers and teachers of St. Paul's Sunday school took advantage of the occasion of Rev. Mr. Dunlop's last Sunday at St. Paul's to present him with an address and purse of gold. The profusion of flowers used in decorating made one of the most beautiful spectacles outside. Archbishop-Armitage read the address, and the superintendent, Clifford F. Jubien, made the presentation.

BIG ENROLLMENT AT NORMAL SCHOOL

Fredericton, N. B., Aug. 29.—At the Normal school, an enrollment of about 85 students in the ordinary courses is expected.

SACKVILLE PERSONALS

Miss Maud Robson, R. N., of Fall River, Mass., is visiting her parents, Mr. and Mrs. W. S. Robson, in Sackville.

LOOKS BETTER IN CAPE BRETON

Sydney, N. S., Aug. 29.—The first move back towards the mines occurred today when several mechanics acting under permission from mechanics local of the U. M. A. went to the machine shop at Glace Bay to assist with repairs on colliery pumps.

TREES BREAKING DOWN UNDER LOADS OF FRUIT

A St. Catharines, Ont., despatch says that as proof of the immense crop of peaches and pears in the Niagara fruit zone, trees in all directions are breaking down under their loads of fruit.

SOLDIERS FIRE ON MUTINOUS CREW

150 Arrested After Immigrants are Saved from Blazing Ship—Inquiry Begun at Naples.

Naples, Aug. 29.—The American steamer Philadelphia, of the New York-Naples Steamship Company, was set on fire at several points last week. The crew and Italian emigrants who were on board were taken to the port of refuge at Salerno. The steamer has been held in Naples for some time, due to a controversy over alleged unpaid bills. It is reported in some quarters that the vessel was fired by the crew. The fire was extinguished.

London, Aug. 29.—A Naples dispatch to the Central News says that the fire which was started on the American steamer Philadelphia by a mutiny of the crew, after pillaging the hold which contained valuable merchandise, defied the fire-fighters of the captain and the officers several shots amongst the mutineers, the dispatch states. The latter made mistakes out of every thing they could lay their hands on.

Strong forces of carabinieri were sent for and after firing amongst the disturbers, quelled the mutiny. One hundred and fifty sailors were arrested and put into chains. The casualties are unknown. The fire on the steamer was only extinguished after hundreds of firemen were engaged in pouring water on the vessel.

Rome, Aug. 29.—The Italian Bureau of Immigration made public a statement which said that it had not sufficiently protected the Italian emigrants aboard the American steamer Philadelphia held up in Naples. The statement declared that the Emigration Bureau never authorized the steamer New York to carry emigrants.

The steamer of the New York-Naples Steamship Line, following the action of the Italian police force in raiding the steamer Philadelphia, announced that J. J. Dwyer, general manager of the line, was on his way to Naples to take hold of the affairs of the company at that point.

The seizure of the ship for alleged non-payment of bills is not the result of the action begun in this country, officials believe, but is over payment of bills. The Philadelphia was docked at Naples. The company has been in an involuntary petition in bankruptcy by a creditor with a claim of \$70,000 for goods and supplies.

FATALITIES IN WEST

Regina, Sask., Aug. 29.—Three fatalities in Saskatchewan are reported here. D. Crowder, Jr., of Harford, Sask., was drowned at Welsh's Lake while bathing; A. Tweed, of Gull Lake, was killed while his horse, drawing a binder, bolted and J. Y. Young, farmer of the Spring Creek district was instantly killed about ten miles south of Mooseman, when his auto turned turtle.

HEAVY LOSS BY FIRE IN A COTTON SHED

Winnipeg, Aug. 29.—The cotton shed of the Alaska Bedding Co. (Simmons Manufacturing Co., Ltd.) was gutted by fire last night, the damage amounting to between \$40,000 and \$50,000. The shed contained twenty carloads of cotton.

BETTER FURS

A house dealing exclusively in distinctive furs. H. Mont. Jones—and—Furs—They go together.

Better Furs Newer Styles Summer Prices

The discriminating buyer need not be told of the many advantages to be gained from purchasing furs during this sale at summer prices, but we mention a few:

- 1—Every article bears our label which means quality, style and workmanship.
2—Absolutely correct styles for 1922-1923.
3—Furs purchased now will be stored free until desired.
4—It is doubtful whether the quality of skins can be duplicated later in the season.

Electric Seal Coat

Soft lustrous skins are used to fashion this garment, which is considered one of our most advanced models, showing the cape body effect and new pocket collar.

Russian Pony Coats

Made from soft, glossy black skins and trimmed with the most favored furs. These coats are wonderful values at the regular figures—at present prices they cannot fail to command your attention.

Black Caracul Coats

Light in weight, trimmed with fashionable collars and cuffs and made in most practical lines. This fur so much favored now in New York appeals to all who desire a stylish coat at a moderate price.

Miscellaneous—Canadian Pacific Suburban Service, St. John-Welsford, Effective After September 9, 1922.

Daylight saving time will be abolished midnight, September 9th, and after that date Atlantic Time will be restored in the city.

Suburban train schedules will be adjusted accordingly and in addition preliminary arrangements in this service will be made, particulars as given below.

Effective after September 9th, trains leaving the city at 11.20 a. m. and 5.10 p. m. will be cancelled; trains arriving from Welsford at 2.25 p. m. and 7.00 p. m. cancelled.

Train No. 123 now leaving at 7.15 a. m. and train No. 124 now arriving from Welsford at 8.50 a. m. will continue in service until September 16th, after which they will be cancelled. Between September 9th and 16th, account of abolition of daylight, train will leave at 15 a. m. and arrive at 10.50 a. m.

Train No. 120, now arriving at 5.45 a. m., and train No. 127 now leaving at 10 p. m. will be continued in service until September 20th and then cancelled. After September 9th, train No. 127 will leave at 5.10 p. m. and train No. 120 will arrive at 6.45 a. m.

On Saturdays from September 16th to October 28th, there will be a noon suburban leaving St. John at 12.20 p. m. and returning leave Welsford at 6.55 p. m., arriving St. John 8.00 p. m. On Saturdays, September 16th, 23rd, and 30th, train No. 127 leaving St. John at 8.10 p. m. will be cancelled, but sent out as train No. 129 at 8.10 p. m., arrive Welsford at 10.15 p. m. This on account of a ship being open in month of September on Saturday evenings.

After September 30th entire suburban train service between St. John and Welsford will be withdrawn with the exception of the 12.20 p. m. and the 8.00 o'clock arrival from Welsford on Saturdays.

After September 16th and until further notice the McAdam express train No. 101 and 102 will be made bag stop at Ketepee and Ononette.

After September 9th, train 106 will leave Fredericton at 6.10 a. m., arrive St. John at 7.50 a. m.

Eastern standard time covers all bore figures, which is one hour slower than Atlantic. 9-27

FAIRVILLE BUILDING

Main street, Fairville, which suffered so severely by fire on May 1, is gradually being built up again, and with prospects of more new properties soon under way, that section will assume a more normal aspect.

The first to make a start at rebuilding was Thomas Kerrigan, meat dealer, and his premises were ready for occupancy by him in July. The property of J. Stout, furniture dealer, is rapidly nearing completion, and Mr. Stout expects to open his store for business at the last of this week.

It is reported that excavation work on J. J. Hennessy's lots will commence any day now, and in course of time a new building will be put up, consisting of store and dwelling.

The lot formerly leased by Walter Ross has been acquired by Chittick Brothers, and they are likely to build by the spring.

LOCAL NEWS

A drowning accident was averted on the West Side last night by the quickness of Thomas Treccartin. J. Allan Anthony, three-year-old son of James Anthony, 8 King street, was playing in a boat, when he tumbled into the water. Treccartin, who lives near by, was on his way to the boat to take the little fellow out, lest he should fall over, when

he perceived that this already had happened. He jumped into the harbor and rescued the child, who was none the worse for his ducking.  
At a meeting of the Exhibition Association held yesterday afternoon, it was decided not to purchase any rain insurance, but to take a chance with the weather as in other years. A committee was appointed to proceed with the matter of a live stock auction as an experiment. Commissioner Thornton explained the parking arrangements. He

We Wish to Announce Another Shipment of

WELSH COAL

To Arrive in Early September

We would ask those who have listed orders with us to call before Saturday of this week and make definite arrangements about their coal.

This coal will be ideal for Furnace, Range and any Stove other than Self-Feeder. It is NOT the right size for Feeder use.

PRICES WILL RANGE AS FOLLOWS:

	Cash with order	Cash ten days after delivery	Charge accounts
Dumped	\$16.00	\$16.50	\$17.00
Shoiced	16.25	16.75	17.25
Bags	16.75	17.25	17.75

A further supply of this coal will arrive later in September, but due to the higher cost of coal on the other side it will have to be retailed at a somewhat higher price. We are taking listings for this shipment now.

Consumers Coal Company, Limited

The First in North America to Import Welsh Coal

The "White Way" question was taken up. After much discussion, it was decided to adhere to the original arrangement.

POLICE BLOCK GENERAL STRIKE

Airplane, Wireless, Cavalry and Police Forces in Elaborate Plan of Campaign.

Paris, Aug. 29.—Elaborate plans by the police appear to have slipped in the bud the general strike ordered by the extremist labor federation in sympathy with the Havre strikers and in opposition to the conservative labor federation. Cavalry today patrolled all points and a police airplane hovered over the city, keeping in touch by wireless telephone with the reserves entrusted with the task of dispersing all manifestos.

The taxicab drivers alone are idle. The railroads have not been affected. The city is quiet.

Havre, Aug. 29.—Despite the general strike here, the French line steamer La Savoie sailed for New York after last midnight, as scheduled. The Rochambeau will leave late today.

**BRITISH WOMAN EDUCATOR IS FOUND DEAD IN ALPS**  
Geneva, Aug. 29.—The body of Sophie Bryant, an aged British educator, was found on the rocks between the villages of Montanvert and Chamouni, in the Alpine region today. She had apparently become lost and had taken off her shoes to bathe her feet, but there was no indication of the cause of death.

ST. JOHN EXHIBITION

Opens Saturday Next

Starting the season's gayest, merriest whirl, and presenting a wealth of Unique and Instructive Exhibits in Industry, Art, Science and Agriculture.

THE EVENING TIMES AND STAR, ST. JOHN, N. B., TUESDAY, AUGUST 29, 1922

## The Evening Times and Star

ST. JOHN, N. B., AUGUST 29, 1922.

The St. John Evening Times is printed at 27 and 29 Canterbury Street, every evening (Sunday excepted) by The St. John Times Printing and Publishing Co., Ltd., a company incorporated under the Joint Stock Companies Act, 1909. Telephone—Private exchange connecting all departments, Main 2437. Subscriptions—Delivered by carrier, \$4.00 per year; by mail, \$3.00 per year in Canada. By mail in United States \$5.00 per year. The Times has the largest circulation in the Maritime Provinces. Special Advertising Representatives—NEW YORK, Frank R. Northrup, 350 Madison Ave.—CHICAGO, E. J. Power, Manager, Association Bldg. The Audit Bureau of Circulation audits the circulation of The Evening Times.

### THE ALTERNATIVES

If the New Brunswick Power Company secured control of Musquash power and agreed to make a rate to consumers as low as a civic distribution system would give, it would still be a bargain for the city. The city is now offered the power at a maximum of 12 per kilowatt hour. This price provides a sinking fund which in due time would pay off the two millions of dollars the Musquash development has cost. Thereafter the only charge would be for upkeep, and a rate of less than half a cent would suffice. If the power company got the current it would have to make a continuous profit. The price would stay up, and it would not be the New Brunswick Power Company if it did not find excuses for increasing the rates. But of course the company would never consent to as low a rate as the city can get under civic distribution, and there is no reason whatever for such a conference as Mr. Bowser's long proposal. To enter such a conference would be a confession that the city cannot do business without paying continuous tribute to a corporation which has for years charged exorbitant prices for inefficient services. The second Bodell proposition would not give the power plant at cost. It would, however, fasten the power company upon the city for another long period as a monopoly, ever seeking as in the past to gain more profit at the people's expense. The people declared their views in April. They will be declared again in the recall election. Meanwhile the thing for the city council to do is to step up the contract for power and call for tenders for a civic distribution system. Pressure will undoubtedly be brought to bear on the government from the province at large to let the Musquash power and begin to get revenue from it. Already one such demand has appeared in print, the writer pointing out that if St. John does not want the power the government should market it elsewhere, and relieve the people of the province at large from taxation to pay for an idle plant at Musquash. To say that the city should let the government sell the New Brunswick Power Company is to say that St. John does not want power at cost, but does want to go on paying monopoly prices for services.

If the city takes the Musquash current at 12, it and other localities taking the power will be paying for service plus plant, for the sinking fund will pay for the plant—and thereafter the only charge will be for upkeep. If the power company gets the current, it and not the city will get the benefit, and the rates, instead of coming down, will soon be increased one way or another as a result of monopoly conditions. The city must take the current and distribute it, and get power at cost.

### BOWSER THE LEADER

Hon. W. J. Bowser has been re-elected as leader of the Conservative party in British Columbia. The Ottawa Journal says this "comes somewhat as a surprise" and adds: "Although possessed of great abilities, he is a man wholly lacking in those half-fellow-well-met qualities commonly ascribed as essential to success in a political career. Of unyielding will, and with a forceful personality, he has found difficulty in working with other men, and, in addition, is supposed to have the hostility of a wing of the party that was staunchly for Sir Richard McBride."

It appears that Hon. H. H. Stevens, who was a member of the Melghon cabinet at Ottawa, was also a candidate for the leadership, but the Journal is surprised that he was not chosen. Hon. Mr. Bowser is a native of Weston, N. B., and is a prominent lawyer of Vancouver. He was a candidate in that city for the house of commons in 1896, but was defeated. He was elected a member of the British Columbia legislature in 1898, and again in 1907, and at every general election since. He became attorney general in 1907, and upon dissolution of the McBride ministry in 1916 was made premier. In the general elections of the following year, however, his party was defeated. The Conservatives in the Pacific province have gained courage as a result of the by-election following the entry of the by-election into the cabinet at Ottawa, as the seat he held in the legislature was captured by the opposition. The Oliver government, however, is still strongly entrenched, and Hon. Mr. Bowser may remain in opposition for years to come.

The power at Musquash has been developed. The current will be sold whether St. John takes it or not. The property taken at Musquash for development purposes will be paid for at the rate the courts fix. To say, therefore, that the sale of the current to the city has anything to do with the price to be paid for Musquash lands is but the vagary of an unbalanced mind.

Prohibition was defeated in the referendum in Sweden, but the vote in its favor was so large that it is only a question of a few years when the dry will win. The cities went against it, but most of the rural districts were in its favor.

### EUROPEAN AFFAIRS.

Universal interest attaches to a conference which began on Saturday between the prime ministers of Czechoslovakia, Roumania and Jugoslavia. An American writer expresses a belief that there may be a new alignment in Europe, with France, Belgium, Poland and the three states already named on the one side, and Germany, Italy, Greece, and perhaps Britain on the other. Austria is an uncertain quantity, and Italy is said to be eager to have a close alliance with that country. The Italian minister to Belgrade is attending the Little Entente conference, and a Washington despatch expresses the view that the question of an alliance with Italy will be advocated. Italy is represented as desiring this result, as an offset to French influence. There appears to be a drift back toward the old balance-of-power theory, and the League of Nations is described as confronted with serious difficulties. Of course there could be no re-grouping of nations that would leave Russia permanently out of the reckoning. At the moment, what to do with Austria, which is in an almost hopeless financial condition, appears to be one of the chief questions at issue, and she does not know which way to turn. The American correspondent who looks for a new national grouping within the next few years is disposed to think Britain will direct one and France the other, but this is a mere assumption which lacks real support. Britain and France have too much in common to array themselves permanently in opposition to each other.

### TOO HIGH A DEATH RATE.

"The highest death rate is 1.3 in New Brunswick, and the lowest .6 in both Saskatchewan and Alberta."

The above quotation is from a report issued in Ottawa. It is not the kind of report the people of this province should regard with any degree of satisfaction. There is every reason to believe, however, that within a year or two there will be a different story to tell. We have already made substantial progress in St. John in reducing the infant death rate, and it will be repeated still more so as the Health Centre work is developed. The universal medical inspection of schools in the province and the gradual increase in the number of public health nurses will have a notable effect, for they will result in a more general education in health subjects and a generally better standard of health all over the province. It may be hoped that the element of politics will be eliminated wherever and whenever public health matters are brought up for discussion, since the matter is far too important to be made the football of the partisan. The extent of expenditure is a fair subject for reasonable discussion, but the individual who sneers at or belittles health services instead of trying to make it more efficient is not a good citizen. A robust citizenship is greatly to be desired, and nowhere should it be found more generally than in New Brunswick.

The continuous rain has done much damage to crops and roads in the southern part of the province. It is most unfortunate that at a time when many farmers were anticipating exceptionally good crops, gathered in fine condition, they should suffer so much loss. Roads can be mended even if it costs money, but a ruined crop cannot be restored.

If the power company got the Musquash current, would the property owners there get pay for their property? Some city advocates are trying to convey the impression that they would not.

The coal strike situation in the United States continues to improve, and a settlement in Nova Scotia is expected this week.

The recall of the mayor is now assured. It only remains to name his successor.

## SENSATION AT WIENNA MEETING

### Dutch Delegate Advocates a World Conference for Abolishing of Tariffs.

Vienna, Aug. 29.—A sensational incident occurred at yesterday's session of the inter-parliamentary union conference here when Mr. Treub of Holland, after reading a paper on international commerce, departed from his subject to advocate international free trade. He denounced what he termed the chauvinistic trade barriers erected by the newly formed European states, and presented a resolution for the summoning of a world conference to abolish tariffs. The British spokesman objected to the introduction of controversial political questions and threatened the withdrawal of the British delegation. He was strongly supported by the U. S. delegation.

## FIFTEEN MINUTES OF RADIO EACH DAY

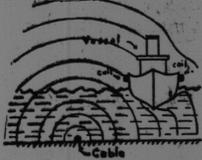

By Edward N. Davis

Formerly Technical Electrical Expert For U. S. Government

Lesson No. 50.

### THE RADIO PILOTING CABLE.

A recent invention of great potential value as an aid to navigation has been developed and tested which is dependent upon the development of the vacuum tube and the amplifier for its operation. This device, which is known as the radio piloting cable, depends upon a form of loop or pick-up coil with suitable cable laid along the harbor bottom. The cable extends, from a source of alternating current of about 500 cycle frequency, located on shore, along the channel to a point several miles away at the harbor entrance. Around every electrical conductor in which a current flows there is set up a magnetic field which rises and falls with the rise and fall of the current in the wire. The farther from the conductor the magnetic field is, the weaker the field. In the apparatus, the "radio piloting cable" by virtue of the alternating current flowing through it has set up around it an alternating magnetic field with suitable apparatus on the ship, may be picked up at a distance of 1,000 yards.

(Radio Piloting Cable)

The receiving equipment on the vessel consists of two coils, one mounted on each side of the ship in a vertical position, each coil having several hundred turns of wire wound on a few foot frame supported about fifteen feet above the water line. By means of a double throw switch, either coil may be thrown into circuit with an audio frequency amplifier and by noting the comparative strength of signals received in the two coils, the position of the cable with respect to the ship may be ascertained. When the vessel is directly over the cable the strength of the signal will have the same value in either coil.

An interesting feature noted during the tests of this apparatus was the shielding effect of the steel hull of the vessel which was responsible for the reception of leader signals when slightly to one side of the cable than were received when the vessel was directly over the cable.

The "radio piloting cable" is useful over short distances only and serves as a guide to vessels during foggy weather when the navigating officers cannot see the buoys which mark the channel. Practical tests of this system on a vessel at the entrance of New York harbor, during which the best of the vessel was screened from the eyes of the navigating officer could not see the channel, demonstrated the usefulness of the system. The pilot was able to maintain a course at either side of the cable without difficulty and at several previous experience with the system. Experiments have been conducted at sea, but this is a practically untested field in radio for systems of communication which are secret and at the same time flexible and reliable.

A system based on a similar idea has been experimented with for guiding airplanes over land, but so far has not proved practicable.

### RADIO IN CRIME DETECTION.

One of the most famous detectives of the United States, whose reputation in the detection of crime is international, predicts the wide use of radio in the performance of criminal acts.

A big feature in the rapid identification of persons held on suspicion would be the broadcasting of fingerprints which has been for years a powerful means of convicting the guilty.

Perfection of a system for sending fingerprints broadcast would allow a quick report from all the criminal bureaus possessing records under the Bertillon system.

The great disadvantage of broadcasting information contained in radio messages is the lack of secrecy. Information may be coded, ciphered and transmitted at a high rate of speed, but these methods are complicated and are very susceptible to interception by the enemy. The use of radio in communication which are secret and at the same time flexible and reliable.

### IN THE RAIN.

Raining—cold from the murky sky

To the soul of the weary hand,

Ceaseless it comes like patting drums

Where the bayonet cuts and kills.

Raining—so sharp as the steady thrust

To the shoulders covered by thin

Worn rags and the slow step eags

Where the snatching damp creeps in.

Fiercely it beats on the window

Like a hammer on the window pane,

The hurried beat like patting feet

Rattles the casement-guard.

Pitilessly, relentlessly,

Cold and clammy and chill

As the breath of the winds of death

That choke and blind and kill.

Fiercely it comes without retreat,

As fresh as its first begun,

'Till I sigh for a glimpse of God's blue sky

And a ray of the summer sun.

T. E. D.

### LIGHTER VEIN.

Labelled,

In an art gallery two women were

standing in front of Millet's famous

picture, "The Sower."

"I wonder what kind of grain he is

sowing?" said one woman.

"Oh, undoubtedly," replied her

companion, "don't you see the name in

the corner?"

Classical Music.

Instructor—"Frank, tell the class

about the Anabasis. What was the

Anabasis?"

"Frank—"It was—er—it was a piece of

music they played on the Xenophon."

Less Expensive.

"Edith says she would rather dance

than eat."

"Well, she'll find plenty of men who

would rather sign a dance programme

than a dinner check."

Worth Remembering.

"Why do you turn out for every road

hog that comes along?" said the misus,

rather crossly. "The right of way is

ours, isn't it?"

"Oh, undoubtedly," answered he,

calmly. "As for our turning out, the

reason is plainly suggested in this epith-

etaph which appeared in a newspaper re-

cently: "Here lies the body of William Jay,

who died maintaining his right of way."

He was right, dead right, as he spoke.

But he's just as dead as if he'd been

wrong."

### "LEST WE FORGET"

To the Editor of the Times-Star:

Sir,—Permit me to say that the Navy

League deeply appreciates the spirit of

loyalty which has prompted Mr. Walter

Golding, manager of the Imperial

Theatre, to arrange for an exhibition of

the famous naval war films which were

presented by the British government to

Captain (Rev.) Smith.

These films, which it has been my

pleasure to see, truthfully portray many

sea and air incidents of the great

struggle, and they should serve to

Mr. McCandless left last night for Hal-

ifax, where he will be the guest of Philip Temple.

## LIKELY ABANDON WARSHIP RALEIGH

Quebec, Aug. 29.—The Chronicle says that it has been learned from a reliable source that, acting on the advice of expert wreckers and the judgment of the British admiralty, the British ship Raleigh, stranded on the rocks at Pointe-aux-Lies, straits of Belle Isle.

The accident, it is said, was due to severe weather, and that the Raleigh was being steered to clear an iceberg when she went upon the rocks and the greater part of her bottom open and now it is agreed that the ship, with her guns and stores, will have to be abandoned unless the

children of St. John—the men and women of tomorrow—are the ones who will be persuaded to take a particular interest in these sea-fighting scoundrels, so that they, too, may become imbued with a spirit of loyalty towards Britain's king and empire.

Captain Smith, who has promised to explain the pictures to the audience, Raleigh, stranded on the rocks at Pointe-aux-Lies, straits of Belle Isle.

The accident, it is said, was due to severe weather, and that the Raleigh was being steered to clear an iceberg when she went upon the rocks and the greater part of her bottom open and now it is agreed that the ship, with her guns and stores, will have to be abandoned unless the

Thank you for this opportunity to express the Navy League's appreciation of Mr. Golding's thoughtful act.

Your sincerely,  
R. E. ARMSTRONG,  
President New Brunswick Branch of Navy League.

## SHRINERS ENTERTAIN

J. S. McCandless, Imperial

Potentate, Guest of Luxor

Temple—Fine Moose Head

Presented.

James S. McCandless, imperial potentate of the Mystic Shriners, who arrived here yesterday on a visit to Luxor Temple, was taken on an automobile trip to Rothesay in the afternoon. Last evening the nobles formed up at the Victoria Hotel and marched to the Temple, where a banquet was served. A short toast list was carried out, including "The King," "The Imperial Council," "The Imperial Potentate," "The President of the United States," "Luxor Temple," and "Our Sister Temples." In reply to the toast to himself, Mr. McCandless paid a tribute to the fraternity and to the fine type of Canadian manhood. He told of the plan to build seven hospitals in North America for the treatment of crippled children, one of the addresses, F. M. Tweedle, presented the illustrious potentate, Christ-ham, the illustrious potentate, presented to the imperial potentate a large moose head, and Noble Wm. Munro presented a key to the city, and the freedom of Luxor Temple.

The toast to the guest of honor was proposed by George E. Day, and Dr. F. S. Sawaya delivered a short address of welcome in Arabic, which was replied to by Mr. McCandless in the Hawaiian language. Addresses were also given by A. M. Rowan of St. John, Noble Schell of Tacoma, Washington, and Noble Magee of Boston. During the programme a solo was given by DeWitt Cairns.

Mr. McCandless left last night for Halifax.

British admiralty finally decides otherwise.

### OLD BRITISH WARSHIPS TO GERMANY TO BE SCRAPPED

London, Aug. 29.—The Times understands that arrangements have been made for sending several old British warships to Germany to be broken up.

As the admiralty's policy of late has been to refuse German offers for old vessels as scrap, it is assumed that to be sent are among a group sold several months ago.

It is reported in shipping circles that Germany is finding a ready market in Russia for scrap metal, which would account for her demand for old tonnage.

## INDEPENDENCE

### THE DOMINION GOVERNMENT ANNUITIES SYSTEM

affords an unequalled opportunity for the investment of small or large amounts for the purchase of an annuity of from \$50 to \$5,000 a year for life, to begin immediately or at any future age desired, and to be paid in monthly or quarterly instalments.

Annuities may be purchased on a single life, or on the lives of two persons jointly.

After contract issues, no restriction as to residence.

Employers may purchase for their employees—School Boards for their teachers—Congregations for their Ministers.

Cannot be seized or levied upon.

No medical examination required.

Free from Dominion Income Tax.

SECURITY—THE DOMINION OF CANADA

Descriptive booklet may be obtained by applying to the Postmaster or by writing, postage free, to S. T. Bastedo, Superintendent Dominion Government Annuities, Ottawa. When writing, kindly state sex, and age or age last birthday.

**MINISTER KILLS  
A BLACK BEAR**

New York, Aug. 28—A black bear seven and a half feet long and weighing 340 pounds was killed recently by the Rev. Edwin A. McAlpin, Jr., near his camp on Brandreth Lake (N. Y.), in the Adirondacks. Dr. McAlpin, son of the late Gen. E. A. McAlpin, was walking through the woods with his gamekeeper, James Hall, of Long Lake, when he saw the bear in a clearing where children often gather berries. The bear is said to be the largest killed in that section in several years.

**RECENT WEDDINGS**

**McKinney-Newbury.**  
In the German street Baptist church on Saturday afternoon, Miss Violet Evangeline Newbury, daughter of Mr. and Mrs. Newbury of Kitchener, Ont., and George Henry McKinney, son of James McKinney of the customs service, were united in marriage by Rev. S. S. Poole. They were unattended. They will reside in Elliott Row. The groom is employed with the Dominion Rubber Co.

**Sheard-Moore.**  
At the Charlotte street Citadel of the Salvation Army yesterday, Colonel Otway, secretary for school service work, united in marriage Adjutant Moore, assistant matron at the Evangeline Home, and Commandant Sheard, of the People's Palace. Captain Harrison and Adjutant Fagner were the attendants and Little Miss Flosie Hurd was flower girl. After the ceremony a dainty supper was served in the young people's hall of the Citadel.

**RECENT DEATHS**

**Mrs. Charles Spragg.**  
After a brief illness the death of Laura Annie, wife of Charles Spragg, of 209 Germain street, occurred yesterday at the General Public hospital. Mrs. Spragg was born in Richibucto and was a member of the Salvation Army, belonging to No. 8 corps in the city. She was very highly regarded and many friends will regret her sudden death. Besides her husband and infant child she is survived by her mother, six brothers and three sisters. The funeral will take place on Thursday afternoon from her late residence and following a service at the house there will be a service in the Salvation Army Citadel in Brindley street.

**KING OF SIAM MARRIED  
TO HIS PRINCESS COUSIN**

Courteous attention and a fair price for every article is the policy here.

**McROBBIE**  
Foot St. John 50 King  
Fitters. Street.

This evening in City Hall, West St. John, as was originally planned, will be held on Thursday evening. The children who were practicing for the pageant yesterday were caught in the heavy rain and it was thought advisable to postpone the event until a later date.

**AGED WOMAN'S NERVE**

Eighty-five Years Old, She Looped the Loop in Airplane.

Cape May, N. J., Aug. 29—After looping the loop 2,000 or more feet in the air, Mrs. Peter Quidort, eighty-five years old, told Captain Jack Robertson, former British ace, who took her aloft, that she had had the time of her life.

Captain Robertson, who had nine enemy airplanes to his credit in the war, and who has braved every peril in the air since, said that he was "jolly well startled" when Ronald Quidort, one of the umpires at Columbia Park, asked him to take his grandmother, Mrs. Quidort, for a spin. The aviator demurred at first, then consented, and was genuinely astonished at his passenger's coolness.

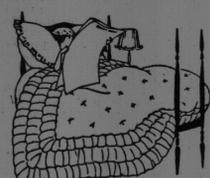

**PAGEANT POSTPONED.**

The pageant which the children of the supervised playgrounds were to have presented as a closing of their season has been postponed and instead of being held

**Curtains, Curtain Materials, and Some Special Lines of Bed Comfortables Placed on Our Counters at Greatly Reduced Prices on Wednesday**

Women will be surprised at the unusual values offered in this timely sale. Exhibition time will find a great many homes in need of some of the things mentioned in this advertisement. By buying now you will be able to save a good deal of money and have "What you need when you need it."

**Humoring the Nerve Centers  
into Sound Sleep**

In youth, sleep comes easily with the close of day. Later in life it is a very different matter. Scientists have discovered much lately about the phenomena of sleep—especially in relation to the tense life of these stirring times.

The thing that misleads people when they go out to buy Bed Springs is the fact that a bed spring looks easy to make.

On the other hand—you may appreciate the Simmons "Frontenac" Spring more truly when you know that it took nearly two years of experiment and scientific test to develop the practical balanced compression and tension of this wonderful Spring.

It is this kind of thing that your friends, your neighbors and your dealer mean when they tell you that Simmons Bed Springs are built for sleep.

Not a lot of wire and angle iron rushed through a factory. But the product of an intimate knowledge of sleep and its causes.

An engineering science adequate to embody the principles of sleep in a bed spring and a deep sense of responsibility for sleep.

Simmons Springs—Built for Sleep \$5.50 to \$50.00  
Simmons Beds—Built for Sleep \$8.00 to \$75.00  
Simmons Mattresses Built for Sleep \$10.00 to \$60.00

Be sure to see the Simmons Label on Bed, Spring and Mattress before you buy

The Simmons Label is your assurance of sleeping equipment built for sleep. All genuine Simmons Beds, Springs and Mattresses have it. No others have.

The "Madison" Design 1328  
An exquisite example of bed design in the early Colonial manner. Beautifully finished in "hand rubbed" Mahogany and Walnut.

**SIMMONS BEDS**  
Built for Sleep

**STEEL WORKERS IN  
SYDNEY TO REQUEST  
INCREASE IN WAGES**

Sydney, Aug. 28—Sydney steel workers are preparing to approach the British Empire Steel Corporation with a request for a wage increase along the general lines of that recently granted by the United States Steel Corporation and other American steel operators.

A mass meeting of steel workers to discuss this subject was called for tonight but did not materialize on account of extremely humid weather.

There was, however, a private meeting of the steel workers' union at which plans for early negotiation with the British Empire Steel Corporation management were talked over.

Only a small percentage of the 4,000 men employed at the Sydney plant belong to the International Association of Iron, Steel and Tin Workers, which is the official title of the steel workers' union.

**GRANTING PENSIONS  
LITTLE INFLUENCED,  
DIRECTOR TESTIFIES**

(Canadian Press Despatch.)  
Ottawa, Aug. 28—Answering questions by Dr. Gordon Henderson, counsel for the pensions board, at this afternoon's sitting of the royal commission investigating G. W. V. A. charges, Dr. N. B. Alexander, unit director with headquarters at London (Ont.), said that he had received no instructions from Ottawa to "tighten up" in his medical examinations, and that applicants were always given the benefit of the doubt when a medical examination was made.

Doubtful cases were referred to the board at Ottawa, he said. He expressed the opinion that the amendments to the Pensions Act passed in 1920 and 1921 had little effect on the granting or refusal of pensions in his unit.

**BLUDGEONED  
AND ROBBED AT  
MOTHER'S GRAVE**

New York, Aug. 28—Robert Lake, aged twenty-eight, West New York, went to Grove Church Cemetery, in North Bergen, to pray by the grave of his mother. As he knelt beside the grave he was struck over the head with a blunt instrument. When he became conscious, just before daybreak, Lake found that his pocketbook, containing a pass he carries as an employee of the West Shore Railroad, and \$7 in money had been stolen.

**WENT WITHOUT SOCKS;  
EXPERIMENT IS FATAL**

Bolton, Aug. 29—To septic poisoning is attributed the death of Edward H. Jones, a farm laborer employed by Charles Dean, an Alliston farmer. Mr. Jones had been working without wearing socks and the chafing of the foot had caused a sore heel. Infection entered the system and death followed, despite the best medical attention. Mr. Jones was born in Wales, coming to Canada thirteen years ago. He was thirty-one years of age and served with the Canadian forces during the war. A mother and sister survive.

**It Rests the Wrist**

**PORTRAIT OF EDWIN BOOTH IS HUNG AT STRATFORD-ON-AVON**

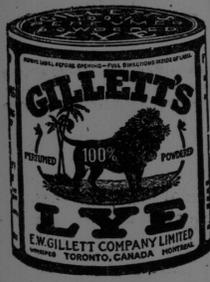

**Famous Tragedian Given a Place in Shakespearean Hall of Fame Thirty Years After Death.**

New York, Aug. 28.—Almost thirty years after his death, Edwin Booth has finally found a place among the immortals in the Shakespearean Gallery at Stratford-on-Avon, England, and this event was celebrated by many of his contemporaries and admirers at a luncheon of the Rotary Club at the Hotel Astor. In praise of the great Shakespearean actor spoke Robert Mantel, Augustus Thomas, Julia Arthur and Arch C. Klumph, past president of Rotary.

The portrait of Edwin Booth, on view behind the speaker's table, was adorned with the flags of England and the United States. It is life size and was executed by J. A. Mohite, the artist, for E. F. Albee, who is presenting it to the British gallery through Rotary.

Mr. Klumph and a committee of Rotarians are sailing with the portrait on the Majestic on Saturday. E. H. Sothers attend the installation ceremonies at Stratford on September 20. According to the speakers this is the first American honored by the Shakespearean Hall of Fame.

"Although I was born a British subject," asserted Julia Arthur, "having been born in Canada, I want to say that I feel that it is the Shakespearean Gallery that is being honored by the future possession of the portrait of the greatest actor, I

suppose, that has ever lived, Edwin Booth."

Miss Arthur told an anecdote of her first meeting with the great tragedian. She was fourteen years old, she said, and was playing in a small back-mount town. Booth was playing in Richeieu in the same place. Although hearing much of his talents, Miss Arthur had never seen him and was eager to watch his performance. After the second act in her play, she succeeded, she said, in getting two seats in the front of Booth's theatre. Her girl friend accompanied her.

"I sat spell-bound," she said, describing Booth's performance. "I watched him intently, with his gorgeous red robe, his quiet voice, his sharp eyes and eagerness. When the curtain came down my little friend said 'Sit down. Don't make a holy show of yourself.' Then I realized I was on my feet, yelling. I'll never forget that night."

"It gave me my first lesson in natural acting. It taught me that a tragedian need not shout; he can talk just as humanly and naturally as the people talk up stairs, and I considered that lesson one of the greatest I have ever had."

The man who says he doesn't care what the public thinks of him will probably be about other things also.

**"THE ROSARY" A CHARMING FILM**

**Imperial Packed on Rainy Night to See a Powerful Yet Sweet Drama, Based on Well-Known Song.**

There is exceptional screen entertainment at the Imperial theatre this week opening in a photoplay which goes on record as a wonderful story and a perfect dramatic motion picture. It is the First National production of "The Rosary."

"The Rosary," as presented on the screen under the tried directorial hand of Jerome Storm, registers a large achievement in expressing the spiritual thought underlying the lives of the characters using as a symbol the idea of the Rosary and its relation to life.

The whole enthralling story is woven about the dramatic and yet simple figure of the kindly Father Brian Kelly, a part in which that sterling actor, Lewis Stone, gives one of the finest characterizations of his career.

The production works up to a powerfully dramatic climax when Kenwood Wright causes the dynamiting of the church, where the widow Kathleen Wilton is praying. Father Kelly pleads with the mob not to cause bloodshed. A village halfwit draws a pistol. The widow sees him, flings herself in front of the priest, and receives the fatal bullet. In the blind storm drives to death over a rickety bridge.

The plot works to a happy conclusion and leaves the audience thoroughly refreshed.

Jane Novak, Dora Davidson, Pomroy Cannon, Bert Woodruff, Mildred June and Harold Goodwin help to make this one of the outstanding features of the year.

"The Rosary" will be concluded with the four showings today, and those who like a good plain story of honest, simple folks, see another drama as "Way Down East," should not miss seeing it. Immense crowds viewed it yesterday at all showings, in spite of the most inclement weather. Tomorrow Imperial will show the splendid Paramount production entitled "The Good Provider," the great mother in Vera Gordon, the great mother in "Humoresque," and John Davidson, another noted Jewish player.

**Put one on-- the pain is gone!**

Corinne Griffith has a difficult role and a strong cast in a story of South Sea Island life entitled, "Island Wives," which was shown at the Unique Theatre yesterday. The production opens with a big spectacular scene and interest is sustained throughout the entire picture. One can feel the heat of the tropic sun as Corinne, leaning against a rush hut, longs for the refreshing breezes of the north and the beautiful gowns of the city; then one feels cool and refreshed when she emerges from a plunge in the ocean.

From this point the interest runs at fever heat during one of the most terrific and intensely human electrical storms ever produced upon the screen. Then comes refreshing scenes aboard a beautiful yacht with the dainty star dressed in a Chinese-Mandarin garb, lounging lazily upon the cushions on the upper deck and a little Japanese maid furnishing music on the Moon Banjo while a love scene that is exceptionally dramatic is enacted by the star and Rockcliffe Fellows.

"Island Wives" is a production that requires two leading men and for these roles two of the best known actors in the film business were selected, Charles Trowbridge as "Jim" and Rockcliffe Fellows as "Hitchens."

It is a feature that gets away from the ordinary run of motion picture productions; a thrilling and interesting story with an educational background and it affords a splendid evening of entertainment for all people.

**RADIO GIRLS AT QUEEN SQUARE**

**Wholesome Comedy, Intermingled With Clever Dancing Numbers and Sweet Singing Presented.**

The audience at the Queen Square last night was treated to one of the best shows of the season. It is full of good comedy which kept the audience laughing and laughing and laughing in an uproar which kept the audience in an excellent singing "September Morn," which went over with a bang. Then came a plate bit, in which Al Lemons and Tom Crowley, two clever comedians, kept the audience laughing throughout.

Muriel Rogers, the pretty soprano and chorus sang "Smiling," which received well merited applause. George Brown, the leading man and manager, sang "Don't Leave Me Mammy," which also was well received.

Madeline Beland, the prima donna, sang "Kiss Me Again," which brought forth rounds of applause.

The chorus girls contest in which every member either sang or danced was thoroughly enjoyed by all.

Madeline Beland and chorus sang "Some Sunny Day," which also was well received.

Al Lemons, the dancing hound and principal comedian, sang "Bologna," and did some clever dancing which called forth rounds of applause.

The finale with the whole company singing "You Can't Get Away From Me" brought the performance to a close.

Wednesday will be "A Surprise Night" and for Friday night Mr. Lemons has accepted the challenge issued by Mr. Izard, the Maritime champion dancer, the contest to take place at the Queen Square. Saturday there will be a special matinee for children.

**PLEASEING PICTURE AT THE UNIQUE.**

signed by Ricardo Lancia, secretary of government, creating a censorship board of five and outlining the limits of its authority.

The committee will act upon its own initiative or upon complaints from any source filed with it, serve without pay, have authority to compel exhibitors to discard any film it may have reason to believe may bar those which show an adroit criminal successfully evading the law.

**ACADIA UNIVERSITY AND THE FEDERATION SCHEDULE**

Wolfville, N. S., Aug. 28.—The United Baptist Convention of the Maritime Provinces will be held here on next Thursday, Friday, Saturday and Sunday. The question of Acadia's entrance into the proposed scheme for federation of maritime universities will be taken up on Thursday.

A payment of one-half down puts you behind the steering wheel of any model. The balance you pay in 12 equal monthly payments. Take advantage of this plan today. You really only pay the initial payment. Your Ford will more than earn the rest.

**ROYDEN FOLEY**  
FORD DEALER 300 UNION STREET

**CUBAN CENSORS WILL BAN CRIME FILMS**

Havana, Cuba, Aug. 28.—Fedeouts of loving clutches, one-minute kisses and kindred screen scenes that skirt the bounds of moral laxity will not be passed on by the newly created Cuban Board of Moving Picture Censorship. Only those films which might turn movie palaces into Fagan's schools of crime are to be banned by the censors, according to an order

signed by Ricardo Lancia, secretary of government, creating a censorship board of five and outlining the limits of its authority.

The committee will act upon its own initiative or upon complaints from any source filed with it, serve without pay, have authority to compel exhibitors to discard any film it may have reason to believe may bar those which show an adroit criminal successfully evading the law.

**Preserving?**

**YOU'LL be doing your preserving soon. Any day now. Are you all ready for it? Have you got your preserving kettles, your spoons and ladles, your cups and dippers, your cullenders, funnels and your fruit jar filler? If not, listen to this.**

**Preserving Sets at Reduced Prices**

You can buy a full set of preserving utensils in beautiful Diamond Ware or Pearl Ware from any hardware merchant carrying SMP goods at a special price. Cut this ad from the paper. Take it to any good hardware store where SMP Diamond Ware or Pearl Ware is sold, and he will sell you a preserving set at the right price.

Our high grade enameled ware is wonderfully well made, very durable, absolutely clean and sanitary, and cannot absorb grease or odors. There is no possibility of tainting. Use either Diamond or Pearl and your preserves will be the most delicious you ever put up.

The Sheet Metal Products Co., Limited  
Montreal Toronto Winnipeg Calgary

**SMP Diamond or Pearl WARE**  
"A Face of Porcelain and A Heart of Steel"

Diamond Ware is sky blue and white outside, with a pure white lining, and has three coats of the best enamel fused on shapes of steel.

Pearl Ware is pearly grey inside and out and has two coats of special SMP enamel fused to shapes of open hearth steel.

Do you know that the Diamond or Pearl Ware pot or pan that sold last year for \$1.50 can now be bought for 90 cents?

**ADVENTUROUS TRIP OF SEAPLANE THAT FLEW ACROSS N. B.**

Halifax, Aug. 28.—Major A. B. Shearer, of the Halifax air station, arrived back this morning from Roberval (Que.), where he delivered a seaplane from here. Major Shearer left here on Tuesday morning, passed over St. John, took the water on the St. John River at Fredericton, and from there proceeded to Edmundston where a heavy rain storm forced him to stop for the night.

Starting again on Wednesday morning the seaplane ran into a heavy wind blowing about forty miles an hour. When about twenty miles past Lake Temiscouata (Que.), the oil supply gave way and it was necessary to turn back to the lake, or take to the water on a small isolated lake nearby from which it would in all probability be impossible to extricate the machine.

Temiscouata was made with difficulty and after much danger of a perilous forced landing. A supply of oil was secured after some delay. Chicomini was made that night with the gas tank almost empty following the long flight into an unusually strong head wind. Roberval was made next morning. The distance flown was about 700 miles and the actual flying time about twelve hours.

Major Shearer will take a seaplane to Lockport (N. S.), on Labor Day, Sept. 4.

**TO STAND TRIAL FOR SHOOTING MAN**

North Sydney, Aug. 28.—Norman MacIntosh, who is alleged to have wounded Isaac Weir, with bird shot at his home in Sydney Mines on August 13, was today committed to the supreme court to stand trial and was taken to the county jail at Sydney. MacIntosh, it is alleged, entered Weir's home at breakfast time and fired at Weir. The latter was taken to a hospital and has since had an arm amputated.

**Don't Scratch Teeth**  
Beautify them in this scientific way

Don't try to whiten teeth by use of harsh abrasive. The enamel, if you harm it, won't come back. Polishing agents should be mild, as in Pepsodent.

Combat the dirty film. Do it as millions now are doing—in this scientific way. Then the prettier teeth you see everywhere now will come to you and yours.

**The cloudy film**

Your teeth are coated with a vicious film. It clings to teeth, gets between the teeth and stays. When not combated, it forms coats which are the basis of tartar. Film absorbs stains, making the teeth look dingy. Those cloudy teeth rob millions of much beauty.

Film also holds food substance which ferments and forms acids. It holds the acids in contact with the teeth to cause decay.

Germs breed in it, and they, with tartar, are the chief cause of pyorrhea. Thus most tooth troubles are now traced to film.

**Ways to end it**

Film has been the great tooth problem. Old methods did not end it. So well-brushed teeth discolored and decayed. Tooth troubles have been constantly increasing. Now dental science, after long research, has found two ways to fight film. Able authorities have proved their efficiency. Careful people the world over now see and feel the results.

A new-type tooth paste has been created, made to meet modern requirements. The name is Pepsodent. These two film combats are embodied in it for daily application.

**Five new effects**

Pepsodent brings five effects which science now demands. One is to multiply the starch digests in the saliva. That is there to digest starch deposits on teeth before they ferment and form acids. One is to multiply the alkalinity of the saliva. That is Nature's agent for neutralizing acids—the cause of tooth decay. It leaves the teeth so highly polished that film less easily clings.

All five effects come from every application. So film, starch and acids are constantly combated. Forces are created which fight and day fight enemies of teeth.

To countless homes, all the world over, this has brought a new era in teeth cleaning. The results will be life-lasting.

Send the coupon. Note how clean the teeth feel after using. Mark the absence of the viscous film. See how teeth whiten as the film-coats disappear. The results will surprise and convince you. Cut out the coupon now.

# SCOTT SERVICE

In these days of accelerated progress new ideas and conceptions are born every minute. The majority, no doubt, are good ones. A great many are performing revolutions and frequently upsetting the "apple-cart" of precedent in business. All of these ideas are not entirely new. It is the application of old ideas in a modern way and the striking of a practical medium which gets results.

Analysis proves, in the majority of cases, that the desired result has been attained by the application of "horse-sense," either directly or in conjunction with the natural evolution of circumstances. What is referred to as "horse-sense" is not shallow, haphazard thought or meditation on that which is self-evident, or in romancing on the impossible, but the clear, conservative reasoning of one who has learned to concentrate—to follow out a line of thought, and by simple logic arrive at an accurate solution.

**A**NYONE who has observed the trend of affairs during the past few years can hardly avoid the conclusion that the time is ripe for revolution—or rather, a long step in evolution—in the investment banking business, as conducted among the so-called small or average investors. Statistics show that in the year 1921 the stupendous sum of \$500,000,000.00 was lost in fraudulent securities in Canada and the United States. Fully ninety per cent. of this amount was lost in sums ranging from \$500 to \$5,000. In other words, the small investor contributes about ninety per cent. of the funds that go into "wild cat" schemes.

This is regardless of the fact that some of the provinces, and the majority of the states have adopted so-called "blue sky" laws in some form or other. With money tighter, the number of "wild-catters" has diminished, but unfortunately not fast enough. Despite fresh daily evidences of huge losses by the seemingly always gullible public, it is apparent that the public is gradually becoming educated to the difference between investment banking and wholesale thievery, operating under the same name. Public opinion is slowly but surely bringing about an important economic change.

It is generally agreed by authorities familiar with the re-acton of "blue sky" legislation, that no matter how strict the security laws may be, no matter how efficiently enforced, the peddlers of fraudulent and otherwise valueless stocks will continue to find ways and means to operate, as long as they find people who will buy. The direct, practical education of the public is the most effective weapon against this insidious evil.

## HISTORY

The R. T. Scott Company, Limited, was organized less than three years ago for the purpose of rendering a practical, protective, educational investment service among average investors. It is the logical development of an idea based upon certain economic facts. Beginning with one small office in Toronto, it has grown and expanded until today it maintains thirty-seven branch offices and resident representatives in the principal cities in Canada and the United States. The Executive Offices in Toronto occupy over 3,500 square feet of floor space. It does an annual business of several millions of dollars. It employs over eight hundred sales executives and service staff representatives who are educating clients every day in the investment field, exposing fraud and encouraging legitimate business.

## NATIONAL SERVICE

The R. T. Scott Company stands apart from, and has nothing in common with the many so-called service houses for the small capitalist, a great many of which have come into existence during the past few years and which, in reality, have been the worst offenders against the "small investor." Its business is investment banking. It does not conflict with the chartered banks, but is a source of strength to banking institutions, as well as insurance companies and other financial establishments which prosper with individual and national prosperity.

The R. T. Scott Company encourages individual thrift, national economy and wise and prudent investment of surplus capital. It believes that Canadian enterprises should enjoy the support of the Canadian public; that thousands of people of modest means all over the Dominion should be given the opportunity of extending that support on a basis that will give them fair and equitable returns on their money. It instructs its service staff representatives to encourage clients and prospective clients to:

- Establish Savings Accounts;
- Carry Adequate Life Insurance;
- Invest in First Class Bonds;
- Purchase Securities combining Safety with Equitable Returns.

In this latter respect the R. T. Scott Company are specialists. It acts as fiscal agent for companies, either in the formative or expansion stage, under clearly defined conditions. Perhaps in this capacity, *per se*, it is not different from others, but in its plan of operation,

its scope, permanency, results and in its furtherance of an economic theory—plus practical business—it is different—so different that it constitutes something new in the financial firmament, and is a distinct variant from the old promotional idea. And because it is different, and because in a comparatively short time it has built up a clientele of thousands of people in all parts of the country; specializing in bringing capital and opportunity together in a desirable way, the R. T. Scott Company, Limited, should be of interest, not only to every investor, but as a study in financing to every economist in the country.

The small investor finds it hard to distinguish between the legitimate and the fraudulent in financing or promotions. He finds it difficult to differentiate between sound and unsound issues. The company that can obtain his confidence and retain it by fair dealing wins not only a client, but a habitual investor. The country that has its small savings thriftily secured in legitimate enterprises yielding equitable returns, possesses within itself conservation elements whose value cannot be over-estimated.

## POLICY

The sale of legitimate financial securities is the Scott Company's business. Every proposition submitted is carefully scrutinized before receiving final consideration. It must combine the features of absolute soundness, no promotion stock, maximum earning power, limited directors' salaries and equal rights of control for all shareholders. In other words, it must be morally right, legally right and the possibilities weighed.

The money obtained is money that ordinarily would be lost through extravagance or in some stock swindle. Canada lost huge sums last year in various promotional schemes. This drain upon the national resources should be stopped. It is part of the business of the R. T. Scott Company, Limited, to help in stopping it. The company encourages its clients to be steady bank depositors. It recommends life insurance as a vital part of any plan for the provision of a future income. At present it does not sell bonds, but it firmly believes in bond buying for people of modest means, on account of the ready market for this class of security.

In giving such instructions, the Scott Company believes it is doing financial and industrial Canada a service. And if that service is not done from disinterested motives, at least the company asks no more than a normal profit on its operations. The company believes it has a useful function to perform in the intricate financial machinery of the nation. As much as the banks or the insurance companies, it is a proper department of legitimate finance, and it is as concerned for its proper performance as other Canadian institutions are for the correct discharge of their functions and obligations.

## SELLING SYSTEM

The R. T. Scott Company, Limited, applies scientific co-operation to its work of serving and building its clientele. The same waste-eliminating, cost-cutting methods that make a factory or department store efficient are building a sales organization of tremendous power and far-reaching influence.

The company does not tarry in its offices or attempt to do a mail-order business, but goes out by means of its hundreds of representatives direct to the people—the man with the money, the relatively small investor. Careful management and wholesale methods enable the Company to do its work for less than is customary for such work, and much less than the amount demanded sometimes by the country's biggest underwriting syndicates.

Through their salesmen security corporations make direct personal contact with the more wealthy elements of the country. These personal interviews are not regarded as any reproach against the companies employing them. The Scott Company believes that the less wealthy should have the same privilege of personal contact, personal examination, personal opportunity. It believes that the small investor should have more of the fruits of legitimate investment. It believes that companies should be conducted in their interest, as much as in the interests of promoters and large invest-

ors. It believes that the man with fifty dollars, or one hundred dollars, or one thousand dollars should have as much consideration as the man with thousands; such consideration was given in war "drives." The Scott Company gives it in peace "drives."

Insurance Companies approach all kinds of people personally and directly through their salesmen and agents. The Scott Company does the same thing. It does it as fairly and certainly as efficiently. It endeavors to protect its client-investors as it does to assist its client company. It believes that war loan methods are legitimate. Its representatives are trained from the selling standpoint and are capable of entering into active, aggressive competition with the efficient but unscrupulous salesmen of "blue sky" propositions.

The head of the organization has probably trained, directed and developed more security salesmen than any man on the American continent. The Scott Selling System is the result of several years of practical experience in the wholesale marketing of securities. The fact that rogues and swindlers have taken advantage of this system does not condemn it. All down financial history rogues have utilized legitimate machinery to advance their own evil schemes. Salvation lies in education, and sometimes in legislation—not in stupid condemnation of an approved sales system.

## EDUCATIONAL DEPARTMENT

No small part of the service rendered the public by the R. T. Scott Co. is included in the functions of the Educational Department. By the means of client meetings to which the general public are invited, house organs and individual letters, this department familiarizes clients from a practical standpoint with the methods and schemes used by the fraudulent promoter. This department is conducted by men thoroughly familiar with the subject. The Company receives no compensation for this work, but considers it a matter of duty to the public and an integral part of Scott Service. The work already accomplished by the Company along these lines will be extended and amplified this year by a series of public meetings in all principal Canadian cities. Some of these meetings will be addressed by men who have no connection in a business sense with the Scott Company, but who are prominent in the public eye and who are thoroughly familiar with economics, security law, and promotion as well as the methods of stock swindlers.

## SCOTT SALESMEN

The field representatives of the Company—those who go into the highways and byways, bringing Scott Service to the attention of the people by direct solicitation are not "stock" salesmen. They represent the term. They are recruited from all walks of life, and the majority are of high education. The company has no place for salesmen of the "wild-cat" variety. Very few of its representatives ever had any security selling experience, but individually and collectively they possess the character which Scott Service demands.

They come into the organization because the company offers to every man of character and purpose the chance to rise as rapidly as inspiring associations and constant development will permit.

## EXPANSION NECESSARY

Due to a contract to finance the Credit Alliance Financial, a new \$5,000,000 credit discount corporation, the company is in the midst of national and international expansion. At least thirty additional branch offices will be opened in Canada and part of the United States inside of the next sixty days, and the company is seeking a few capable men from which to develop executives of high earning power. It offers them the same opportunity for success that its present staff enjoy.

## SUMMING UP

Society has been imposed upon too long by a certain type of promoting interests. A new era is here. The R. T. Scott Company conceives it to be its function to do its part to elevate the very necessary labor of corporate promotion, be it direct or indirect, to the highest possible level. Humankind and efficiency are not incompatible in such an organization, and the R. T. Scott Company, for all of its twentieth century selling methods and aggressiveness, is human in every stratum, if for no other purpose than that Company ideals may leave the whole lump.

Assisting, as it does, to make sterile capital profitable, in seeing to it that investment opportunities are disseminated to create needed financial enterprises, helping in the betterment of the whole investment fabric through the interjection of approved practices and ideals, the R. T. Scott Company is doing an important public service. That service is beneficial, both economically and socially. It is creating utilities and profiting the group.

## LOCAL NEWS

Further argument in the case of William Foster, who is charged with having shot his way out of a place other than his private dwelling, was heard in the police court yesterday and was adjourned until Wednesday. W. M. Ryan appeared for the prosecution, and J. A. Barry for the defence.

Friends of Dr. Percy Crookshank, of Rapid City, (Man.), who formerly resided in St. John, will regret to hear of his severe loss, which occurred a short time ago, when his handsome residence, valued at \$12,000, was burned to the ground, only a small amount of silver being saved out of its contents.

## MONCTON PERSONALS

(Transcript, Monday)  
Miss Jessie Abbot of St. John, is a guest of Miss Margaret Thompson. George Bell left for Toronto, where he has accepted a position. Mr. and Mrs. Elton Barton of Dorchester, Mass., are visiting Mrs. Barton's parents, Mr. and Mrs. George Brett, Mr. and Mrs. H. W. Furlong of Wolfston, Mass., are spending a vacation with Mr. and Mrs. J. H. Norton. Mr. and Mrs. Chas. Irving and infant daughter, of Broderick, Sask., are visiting in the city at the home of Mr. and Mrs. George Irving. H. H. Stack, a barrister from Vernon, Alberta, and who has been spending a vacation with relatives and friends at McLoose, was a visitor in Moncton today.

## So Much Depends on the Doors

However nice the interior trim, poor or indifferent doors will spoil the entire effect. Our CALIFORNIA SUGAR FINISH DOORS

of five panels, four upright and one across, are well made, and will finish nicely, and add much to the appearance of any room. They come in all standard sizes.

For Prices, Phone Main 3000 Murray & Gregory, Ltd. Cutting Mill—Aladdin Company.

Mr. and Mrs. A. K. Mackasey, accompanied by Mrs. A. J. Wodlow, left this morning for St. John, and will spend the next two weeks visiting in the Adirondack Valley and South Shore points. Alexander Rogers, ex-M.P. for Albert County, now register of deeds, etc., at Hopewell Cape, reached Moncton yesterday and with his daughter left in the afternoon for Ontario to which province they will visit several cities and towns. Mr. and Mrs. Thomas Casey and little daughter Irene, of New York, are guests of Mrs. Casey's parents, Mr. and Mrs. T. C. Ayer. They made the trip to Moncton by motor. Mr. and Mrs. W. F. Baumann and daughter, of Melrose Highlands, Mass., arrived in the city on Saturday by auto country under study and the work of the missionaries there, particularly that of her brother, Rev. E. C. Henniger. Miss Henniger also kindly showed and explained several Japanese curios. Mrs. Ean McLechlan was in charge of the organ.

## MISSIONARY SUNDAY

Last Sunday was "Missionary Sunday" in Little River community church, under the auspices of the Sunday school missionary committee, at present in charge of the Taxis Boys' Square. The subject for the day was "Japan." At the afternoon session the program was assisted in their programme by the Taxis Boys' Class. In the evening Miss J. E. Henniger gave a very interesting and profitable address on the East and study and the work of the missionaries there, particularly that of her brother, Rev. E. C. Henniger. Miss Henniger also kindly showed and explained several Japanese curios. Mrs. Ean McLechlan was in charge of the organ.

## FAIRVILLE BAPTIST PARTY

The Young People's Association of the Fairville Baptist church held a very enjoyable social evening last night at the home of Mr. and Mrs. A. E. Kierstead, the guests of honor being Miss Irma Schofield, Stanley Ross and John Linton, all of whom expect to enter the Provincial Normal school next month.

"WATER GAS" TO DO COAL'S WORK AT THIRD COST

New Fuel May Revolutionize Power, Heating and Lighting

Several Inventions — Many Engineers and Financiers Satisfied — Equipment Being Made.

New York, Aug. 28.—A new fuel, "water gas," produced by fusing disintegrated water and crude oil in a temperature of 900 degrees Fahrenheit, has been produced in the cellar of a West Sixty-fifth street garage, and according to the inventor and his financial backers, it will do the work of coal at one-third the cost.

The Interborough Rapid Transit subway system could be equipped to operate on oil and water in ten days. Apartment house furnaces can be equipped with the water gas maker and the house heated, and locomotives, steamships, automobiles, fire engines and airplanes can be run, according to the inventor.

At the same time, the invention of a new type of steam propelled engine, designed to burn "water gas" was disclosed. The model already constructed has only twenty-six operating parts, and was designed to operate a motor delivery truck. The average automobile truck has 875 parts. A steam airplane engine, consisting of only eleven parts, as against 2,800 in the Liberty motor, is being constructed.

The fuel and the engine were designed and assembled by Joseph Watrous Prosser, born fifty-seven years ago in Cranston, R. I. Prosser is a former Rhode Island school teacher, who turned automotive engineer.

Prosser is emphatically confident of the possibilities of his invention. Equally confident was Elbridge Gerry Snow, president of the Home Insurance Company, who said that he and a number of unnamed business and banking associates were backing Mr. Prosser.

"I consider," he said, "that we have one of the greatest inventions of modern times, with revolutionary consequences in power, heating and lighting."

Mr. Snow said that the engine had been taken on several plants, one near Newark, N. J., for the purpose of turning out the "automatic siphon fuel burner" as the oil-water fuel maker is called, and the "duplex steam motor engine," in large quantities. He added that engineers and officials of several big corporations had witnessed tests of the fuel and engine, but that efforts to purchase the rights to the invention were not being considered.

"I desire to add," said Mr. Snow, "that the end of the use of coal may be regarded as in sight, and the public need not worry over the fuel conditions, as cheap fuel made of oil and water for all purposes is in sight."

GIVES HIMSELF UP ON MURDER CHARGE

John Steven Arraigned in St. Catharines Court and is Remanded.

St. Catharines, Ont., Aug. 28.—A little quarrel on the bank of the Welland Canal between two boatmen over which was getting the most work to do, caused a man to be arraigned for murder in the police court here.

John Steven, who had been hiding at Thorold, his home town, the last few days, came into police headquarters and gave himself up. In the police court Acting Magistrate H. E. Rose remanded him for a week after reading over to him the charge of murder. F. W. Griffin of Niagara Falls appeared for the prisoner.

Steven and Thomas Spratt were the men who are alleged to have had the fight, Spratt dying in the hospital. Steven, it is alleged, called Spratt a well, Montana, where he was located before coming to Moncton. After spending three or four days on the coast he will return by the Canadian National Railways.

90 per cent of all diseases can be traced directly to constipation!

And, you can permanently rid yourself of this dangerous condition by the daily use of a delicious, appetizing cereal—Kellogg's Bran, cooked and krumbled! Don't let constipation "get away" with you or any of your family! Don't neglect such danger signals as bad breath, coated tongue, brain fog, feverish headaches, bad taste! No matter how slight the symptoms, FIGHT CONSTIPATION! It is deadly, once it gets its grip on your system!

Physicians endorse Kellogg's Bran, cooked and krumbled, for constipation because it is nature's food and because it relieves constipation permanently. The only caution is to eat Bran regularly and then the severest case can be combated successfully! Eat at least two tablespoonfuls daily; in chronic cases, eat Bran with each meal.

WESTERN STRIKE COST \$12,500,000

Miners Lost \$8,500,000 in Pay and Operators \$9,000,000 in Business.

Calgary, Aug. 28.—Coal miners in District 18, comprising Alberta and southeastern British Columbia, during strike, it is estimated, have lost approximately \$8,500,000 in wages, while the members of the Western Canada Coal Operators' Association are faced with a loss of \$9,000,000. These figures are arrived at from evidence as to earnings given before the Knowlton Conciliation Board. The strike has been in progress for practically five months and was the second longest strike in the district, that of 1911 lasting three months longer.

From interviews with various operators it is predicted that the mines will now be working to their utmost capacity, and it is anticipated that quite 4,000,000 tons of coal will be mined by the union colliers by December 31 next.

In addition to the association mines there will be a very considerable output by the non-union companies, totalling probably about 400,000 tons a month.

It was confidently predicted by Robert Livett, member of the international board, United Mine Workers of America, that all the union miners in District 18 would be back at work this week. He stated that immediate steps would be taken by the local union officers to organize the non-union miners.

Mr. Livett, in reply to a question, said there were approximately 2,000 miners in District 18 who were not members of the U. M. W. of A. The total number of miners altogether was about 10,000.

MONCTON PERSONALS

(Transcript, Saturday) Mr. and Mrs. W. Emmet McMonagle will motor tomorrow to Hampton where Mrs. McMonagle will be the guest of her parents. Mr. Monagle will go through to St. John on Monday on business.

Miss Lida B. Robinson left today for Florenceville, where she has been engaged as teacher in the Florenceville Superior School.

Miss Agnes Crockett and Miss Hannah McEachern left this morning for St. John from where they will embark on the Governor Dingley on a three weeks vacation trip to Boston and New York.

Mr. and Mrs. J. A. Marven and family will leave tonight for Westfield. On Monday, Mr. Marven and son, Murray, will proceed to Boston.

Miss Leah E. Matthews left this afternoon for her home in Chatham, N. B., where she will spend a few days before leaving for Ottawa.

Dr. N. Tilley Steeves, formerly of Hillsboro, but now of Brooklyn, N. Y., and his son, Master Everett, are in the city, visiting relatives and renewing acquaintances and will visit Hillsboro. Dr. Steeves is a nephew of Mrs. J. M. O. Steeves and Mrs. J. P. Clark, of Moncton.

G. V. White left this afternoon on a month's trip to the Pacific Coast. Mr. White will spend two or three days in Toronto, a day or two in Chicago and about ten days in Missoula and Kells, Montana, where he was located before coming to Moncton. After spending three or four days on the coast he will return by the Canadian National Railways.

REPORTS GIVEN AT MEETING OF UNION OF BAPTIST WOMEN

(Canadian Press Despatch.) Moncton, Aug. 28.—Today's sessions of the United Baptist Women's Missionary Union of the Maritime Provinces were largely taken up with reports of committees and executives. The treasurer's report showed receipts for the year totalling \$28,489, the chief expenditures going for foreign missions.

An address by Dr. Ada Scudder, of Yvelore Medical College, was the principal address of the afternoon, and the resolutions committee recommended increasing the size of the union paper to twenty pages.

Demonstration of scores from medical work in India by Dr. Zella Clark, an illustrated lecture, "Canadian Baptists in Bolivia," by Rev. H. E. Stilwell, general secretary of the foreign mission board, and farewell to missionaries Dr. Zella Clark, Miss Martha Clark and Miss Evelyn Eaton constituted the evening's programme. These three missionaries leave for the Canadian field September 18, sailing from Quebec.

Dr. Clark and her sister are returning to Southern India, and Miss Eaton accompanies them on her first trip.

PICNIC POSTPONED

Owing to weather conditions and wet grounds the Church of the Assumption picnic, which was to be held today, has been postponed until tomorrow, Wednesday.

So genuinely good is its reputation in our Home Provinces here in the East, folks who like good Tea are wont to say: "We use RED ROSE TEA."

The fine quality of RED ROSE COFFEE will please particular people.

WESTERN STRIKE COST \$12,500,000

Ford CAR WINS GOLD MEDAL as Pathfinder of the Canadian Rockies

Ford Car Piloted by George Gordon Makes Fast Time to the Coast and Gets Gold Medal

(From the Edmonton Journal, July 15th) Made Trip of Seventeen Hundred Miles Over Rocky Mountains in Eight Days Without Repairs or Change of Tires

The recent pathfinding tour from Edmonton to Victoria, B. C. brought further laurels to the Ford car and it demonstrated that this popular car can be operated successfully under the most severe conditions.

When the city of Victoria offered a gold medal to the driver of the first car to blaze a trail from Edmonton to Victoria via Jasper Pass, Yellowhead Pass and Kamloops, it was considered an almost impossible feat, and if accomplished the trip would take from three to five weeks and the car would be almost a wreck.

The city of Victoria offered this medal during the recent convention of the Canadian Good Roads' Association which was held in that city. A motor road between Edmonton and Victoria has been the dream of western Canadians and to that date an automobile had never crossed the Rocky Mountains and to the first pathfinding car.

this trip presented almost insurmountable difficulties.

Such an adventurous journey appealed to several citizens and on Saturday, June 17, the first car set out from Edmonton and eight days later Mr. Geo. F. Gordon followed with his Ford roadster. Four days after starting Mr. Gordon caught up to the first starter at Alberta. When this news came through to this city it was presumed that the Ford car had taken advantage of the road-making that was done by the drivers of the other car, but this was not the case as Gordon traveled over a different route altogether from Edmonton to Edson and from that point to Alberta no road-making was done as there is a passable trail between these two points. From Alberta the Ford took the lead and was never at any time headed by the other car and arrived in Victoria, July 4, 24-hours ahead of his rival.

Gordon Gives Ford Credit

Mr. Gordon returned to the city on Tuesday morning by train, as he left his car in Vancouver on display at the Ford showrooms in that city and it will be freighted back to this city and placed on show at the Dominion Motors, Limited, the local Ford dealers. Mr. Gordon gives unsolicited praise to the

Ford car and he says: "When I first took the notion of making this trip I decided to take a Ford, as from past experience I know that if any car got through in reasonable time it would be the Ford and to back my own faith in this car I purchased a new Ford roadster. I did not ask or take any financial assistance from the Ford dealer or any other person as I knew that the car would not lose any of its value from the trip unless we went over a precipice or some such accident. We took with us approximately \$60 worth of spare parts and tires and we accomplished this trip with no further damage than a broken spring leaf, and never used any of the spare parts.

Pleasure to Drive

"It was a pleasure to drive this car as we knew that it was capable of overcoming any difficulties and as long as there was a place for four wheels to go through or over we went. We traveled approximately 1,700 miles and we never had the slightest trouble with the engine, and we found it both economical on tires and gas. The tires are at present on show at the Vancouver office of the Gregory Tire Company and do not show any wear at all; neither did we have a puncture. If I should ever have the occasion to take a similar trip I would take a Ford."

Remarkable, Yes! Unusual, No! Every day on the ragged edge of civilization, hundreds of Fords blaze new trails, do the impossible. Sufficient publicity has not been given to the unbelievable performances of the Ford.

SPORT NEWS OF A DAY; HOME AND ABROAD

TURF. Big Sum Bet.

The crowd of Detroit gamblers that swarmed across the river to Windsor, Ont., on last Friday to try again to beat the pari-mutuel gambling machines numbered approximately 11,077. They paid \$38,631 to the management as admission. Once inside they threw \$45,020 into the machines on the first race. They put \$14,089 new money on the second race, and \$11,817 more on the third. From the fourth race they held back \$0,189, but by the time the sixth race had been run they had thrown the \$20,000 back in, along with \$19,826 more money. From the last race they held back \$653, which has to be deducted from the total money bet, leaving the amount actually put up on the seven races as \$84,069.

RING. Dundee Retains Title.

Johnny Dundee successfully defended his title of junior lightweight champion last evening in New York, when he decisively defeated Vincent "Pepper" Martin of Brooklyn.

AQUATIC. Bluenose in Home Port.

Lunenburg, N. S., Aug. 29.—The international champion fishing schooner Bluenose arrived here yesterday after her summer's trip with 2,800 quintals of fish. After unloading she will start preparations for the Nova Scotia championship races scheduled for early October.

WILSON'S "The National Smoke" BACHELOR Still the most for the money 10c. ANDREW WILSON & CO. TORONTO

ATHLETIC. Equals World Record.

Winnipeg, Aug. 29.—Laurie Armstrong, of the North End Club, who chased Cyril Coffey so close in his record-breaking century at Calgary recently, set up a new Canadian record and equaled the world's mark for the fifty yard dash at the police sports here on Saturday afternoon. He covered the distance in 52.5 seconds.

BASEBALL. N. B. Baseball Bits.

Fredericton seems to be trying to rival the New York Yankees when it comes to purchasing a winning team. They have now signed on Dolan of Eddie Carr's Auburns to try to help them win the championship. They evidently realize that they will have a hard fight

UNIQUE (Today) Mat. 2, 3.30 Eve. 7, 8.45 Corrine Griffith "ISLAND WIVES" "IT IS THE LAW" "RED HOT RIVALS" "RECKLESS CHANCES" "CHICKEN PARADE"

to beat St. Stephen and St. Peter's if a series is arranged. The continuous heavy rain fall has put a damper on the ardor of many fans, who were building high hopes on the series this week. The fans are very eager to witness St. Peter's, the local champions, clash with Fredericton and St. Stephen.

The Auburns were booked to play in Amherst tomorrow, not on Friday as appeared in local papers. Despite the record rain fall St. Peter's park is in remarkably good condition. A visit to the grounds yesterday showed the diamond to be in good order with an exception of the third base line and a section in front of home plate. A little gasoline would fix that.

An endeavor is being made to secure excursion rates from Fredericton and St. Stephen for the big game tomorrow evening between teams representing these towns that are booked to play on St. Peter's Park.

American League—Monday. New York, 2; St. Louis, 1—eleven innings. Chicago, 5; Philadelphia, 3. Philadelphia, 7; Chicago, 2. National League—Monday. Pittsburgh, 4; Brooklyn, 3. Only one game played. International League. Rochester, 3; Reading, 1. Buffalo, 8; Jersey City, 2.

MARITIME ROWING CHAMPIONSHIPS SEPTEMBER 6

The maritime rowing championships will be held at Halifax on Wednesday, September 6, according to an announcement made yesterday afternoon by Harry Ervin, secretary of the M. P. A. O. A. for New Brunswick. He received a telegram from W. W. Hoyt suggesting that September be set as the date for the championships, and it was referred to J.

SPICE OF LIFE AT OPERA HOUSE The New Programme Includes a Northwest Mounted Police Picture.

Abie and Mickey and the Merrymakers ushered in the sixth week of successful engagement at the Opera House last night playing to good crowds who broke the storm so that they would not miss their first night of the new bill. A comedy quartet composed of Abie and Mickey, Bob Ellsworth and Danny Fitzgerald was the hit of the bill, and they were compelled to give several encores before they were allowed to retire.

Miss Lillian, Bessy Fox, Velma Lee and George Barker all whom have become favorites with Opera House audiences, won praise from scores of patrons for their hits in the show, which was an enjoyable one. The photo drama "Channing of the Northwest" starring Eugene O'Brien, is the first part of the programme and was particularly enjoyed by those who like stories of the outdoors.

Mr. Barker announced that Cecil Izzard has accepted the challenge of Jim Burns, a local dancer, and will meet him on the stage of the Opera House during the performance on Wednesday night. Mr. Izzard will be happy to defend his title against all comers and would like to meet all local dancers during a performance at the Opera House so that the audiences may judge the winners. Friday night is a surprise night and in addition to local talent contest several features will be offered. Saturday matinee as usual will be a toy matinee for the children. The bill now remaining will be replaced on Thursday with a complete new change. An evening at the Opera House is well spent.

CONFESS PART IN TRAIN WRECKING Four Said to be Striking Shopmen—Two Lives Lost in Wreck. Chicago, Aug. 29.—Confession of actual participation in the wrecking of the Michigan Central-express near Gary, Ind., recently by the removal of thirty-seven spikes from a rail were made by four men held in connection with the disaster which cost the lives of two engineers, according to police authorities last night.

CAMPAIGN TO CUT FIRE LOSS Chatham, Ont., Aug. 29.—The dominion association of fire chiefs opened their annual convention here yesterday. The session was featured by an address by Fire Marshal Heston of Ontario, upon the foundation of a new fire marshals' association of Canada, pointing out its benefits and objects. He said that the association intends to undertake the adoption of a uniform personal liability for loss in all provinces and to regulate and systematize the study of fire prevention in all schools with the preparation of a suitable text book. He pointed out that the annual loss by fire in Canada was \$30,000,000 and he showed how the fire chiefs could assist in reducing that loss.

**LOCAL NEWS**

**POST OFFICE, LABOR DAY.**  
On Labor Day, September 4, at the post office the money order office will be closed. The general delivery, registration and stamp window will be open from 9 to 10 a. m. and 6 to 7 p. m. There will be no delivery by letter carriers. At the street letter boxes and parcel receptacles there will be collection by team as usual. Mails will be despatched at the regular hours.

**WANTS PUBLIC MEETING**  
James A. Sheehan writes again to the Times urging that action be taken to provide East St. John with a proper system of water and sewerage. He says there has been one case of typhoid since he last wrote, and another in Eastmount, and preventive measures are necessary. He suggests that the East St. John Community Club call a public meeting at once to hear the report of the committee appointed to wait on the city council.

**AWAY TO NEWFOUNDLAND.**  
Something out of the ordinary occurred in the harbor yesterday afternoon, when the little steam yacht Ewayas steamed down the harbor on her way to Curling, Nfld. The little vessel, which is of ten tons net register, has been a familiar sight on the St. John river for some years. She was owned by J. Fred Williamson of this city, who recently sold her to parties in the Newfoundland port. Onlookers remarked when she left port that she seemed a very small craft to make the long trip to the ancient colony, but those who know her say that she is a very seaworthy boat. She has very graceful lines, and is a pleasure vessel that any owner would be proud of. Captain White, who has commanded her on the river for Mr. Williamson, is in command on the Ewayas on her trip.

**TRAFFIC CASES**

Magistrate Commends Enforcement of By-laws and Announces Plan to Keep Youth Off the Streets at Night.

From the look of the traffic report sheet in the police court this morning it might easily be inferred that the authorities are out to stop the infractions of the traffic by-laws which have been getting rather numerous. There were nine names on the sheet, seven of which were answered when called for and fines of \$1 each were collected from six of them. The magistrate asked for a slight change in the form of the reports made, saying that they would expedite matters considerably if some idea of the speed at which a car was alleged to have been traveling were put on the report.

His Honor said that he was glad the matter of infractions of the traffic laws was being attended to in the way it should and asked the same kind of support for the propaganda which he was about to start to have the young boys and girls kept off the streets at night. He hoped to have effected this before the New Year, and believed that it would expedite matters considerably if some idea of the speed at which a car was alleged to have been traveling were put on the report.

Charles F. Sanford pleaded guilty to a charge of exceeding the speed limit in Douglas avenue, but said that he was hurrying because a friend he had with him had a train to catch.

John A. Kennedy, charged with exceeding the speed limit at the corner of Princess and Water streets, pleaded guilty. Policeman Church testified.

Charles F. D. Marshall was charged with exceeding the speed limit at the corner of Brunswick and Prince Edward streets. Harold H. Peters was also charged with exceeding the speed limit and not sounding his horn at the corner of Brunswick and Prince Edward streets. Policeman Chisholm gave evidence.

Louis McCourt pleaded not guilty to a charge of exceeding the speed limit at the corner of Brunswick and Prince Edward streets. The defendant asked for time to get witnesses and the case was postponed until tomorrow.

P. F. Hoyt, charged with allowing his car to stand before the Opera House for a longer time than allowed by law, pleaded guilty. Policeman Garter told of seeing the car there.

Frank Stewart, charged with speeding across the intersection of Brunswick and Prince Edward streets on Sunday, pleaded guilty. Policeman Garter gave evidence.

E. F. Powers and Ralph Dean, charged with violations of the traffic by-laws, failed to appear when called. The six whose cases were finished were called forward and fines of \$3 were collected from each.

**COUNTY COURT JUDGMENTS GIVEN**

In three cases set for trial this morning in the County Court in which appearance and defence had been entered the defences were withdrawn and judgment given in full for the plaintiffs by Judge Armstrong. The cases were The Dominion Bank vs. C. W. Butler, and Gunn's Limited vs. Frank Flanagan and the same plaintiff against Daniel Fields. These actions were of a similar nature being based upon promissory notes given for fertilizer sold the defendants. Their defence was that the goods sold were not of good quality and damages contra were claimed. This defence was abandoned this morning, however, and judgment given as above stated.

The court adjourned to 10 a. m., Tuesday, Sept. 5, when the jury will be required to attend. The case next to come up is that of Robert Carlin vs. Joseph Doody. This is an action in which some comparatively few dollars are involved. It having to do with the alleged sale of a gas-stove by one McCarthy, a tenant of the defendant to the plaintiff, McCarthy, it was set forth, was in arrears in rent in Doody's house and a distraint warrant was issued. A capias for damages was also taken against McCarthy when the radiators were allowed to freeze. Sheriff Wilson took him in charge on the capias but a settlement was made by McCarthy instructing him to sell what was in the house. In the meantime Constable Gibbons was proceeding under the distraint warrant. Carlin contended he had bought the stove previously from McCarthy, paying about \$10 for it but Doody claimed it for rent due. The action is brought to determine the ownership.

**REAL ESTATE NEWS**

The following property transfers have been recorded recently in St. John county:

Coldbrook R. & D. Company, Ltd., to J. Jackson, property at Glen Falls.

Trustees of Lucy G. V. DeBury to N. C. Giddens, property in Adelaide road.

W. McL. Sharp to C. A. Robertson, Jr., and others, property in Uplham.

**THE BOSTON BOAT.**

The steamer Governor Dingley arrived from Boston at noon today, with 150 passengers, most of whom were destined for points east.

**COAL MEN IN CONFERENCE HERE**

Meet in Response to Call from Premier to Consider Measure to Meet Shortage.

Coal dealers from various parts of the province are meeting here this afternoon with Hon. W. E. Foster, premier, to discuss the coal situation and talk over any possible measure which might be adopted to relieve the expected shortage this winter. Among the matters which will receive attention are the appointment of a provincial fuel administrator to co-operate with the federal advisory fuel committee and a committee of leaders to assist him in the carrying out of his duties.

After expressing appreciation for their attendance the premier addressed the dealers as follows:

My object in asking you to come here is that I might impart to you the information that has been conveyed to me relative to the available supply of fuel, and to discuss what means of co-operation and assistance the government of the province can lend towards procuring at least our share of any coal, both bituminous and anthracite, that might be available. I presume, however, you who are engaged in this business may know more about the available supply than I do, but nevertheless, the aid of the government might be useful in providing for the emergency which no doubt, in my mind, is apparent. My information is that there is now over four months' shortage in the year's production of anthracite and equal period in respect to say sixty per cent. of bituminous production. In the past the annual consumption of anthracite has been affected by the severity of the different winters and therefore it is quite clear that, with the stoppage of production which has up to now been about five months, and if the mines do not resume work at once, the shortage cannot possibly be overtaken in time to meet the needs of the coming winter. Furthermore, my advice is that the transportation of any available supplies will be congested because the importations are the heaviest in the months of April to August, inclusive. I feel sure that we all must agree that there will be considerable shortage and that the utmost care must be exercised to conserve whatever anthracite supplies there might be for use during the coldest winter months.

I am further advised that, provided the mines resume operations shortly, we should prepare for a shortage of anthracite, which at the present time might be met by the use of the normal winter supply. It seems imperative therefore that substitutes will have to be obtained. The American government has set up a fuel administration for the purpose of equitable distribution of the coal being mined and the supply on hand. In turn, the government of Canada has also appointed a federal advisory fuel committee. The members of this committee are Mr. Charles McGrath, Mr. F. E. McCourt and Major Graham Bell, deputy minister of railways, the chairman of the committee being Hon. Mr. Kennedy, minister of railways and canals. This committee visited Washington and discussed Canadian requirements with the authorities of the United States as a whole in matters of international and interprovincial negotiations and arrangements. It will facilitate importation and transportation. It will deal, if required to do so, not with local dealers, nor municipalities, but if occasion requires only with a provincial administrator, who will have to deal with the distribution of emergency supplies obtained within the province. A provincial administrator, if appointed, will be required to pass upon local requisitions and send them to the federal advisory fuel committee, which will be the recognized medium of communication with the American authorities. I do not claim that the appointment of a provincial administrator will be the means of obtaining our requirement, but I think it will assist, and it will be for the municipal authorities themselves to keep in touch with the situation and take steps to provide as far as possible substitutes to replace the expected anthracite shortage.

By referring to the press dispatches this morning, you will observe that active steps are being taken by the local authorities to meet the situation as far as is possible, and it seems to me that it is our duty as a province to set up some machinery that can give effect to representation that might be made to the government from time to time by municipal bodies; first, that all institutions such as hospitals may first receive a supply, and that domestic requirements might have second call, and so on the classification of emergency.

After hearing what you have to say, I will be better able to judge as to the advisability of the government appointing a fuel administrator and if such a decision upon, who the individual will be; further, whether or not it would be desirable to appoint a committee from among the dealers to work in co-operation with such appointment and to assist him in his efforts.

**NEW WOOL HOSIERY**  
In Fall Shades Now on Sale
