

BRITISH GOV'T TO GO BEFORE PEOPLE SOON

Revolt Against Coalition Has Grown Rapidly Since Conclusion of Irish Treaty.

RECENT REVERSES REGARDED AS OMINOUS

Principal Ministers Preparing to Make Speeches Throughout the Country.

London, Feb. 26.—The reverses for the Government in the three by-elections recently held for the Clayton division of Manchester, on February 18, the North division of Camberwell on February 20 and the Bodmin division of Cornwall yesterday, are regarded as ominous for the cause of the Coalition whenever the general elections may come.

There will be speeches throughout the country by the principal Ministers, including the Prime Minister, in the coming two months. Mr. Lloyd George will make a big speech at Manchester and possibly speeches in other cities, and it is considered that he would hardly be likely to do this amid the difficulties presented by the Irish question, the Genoa economic conference and other matters unless an appeal to the country was believed to be near.

The revolt of the Extreme Tory wing against the leadership of Mr. Lloyd George, and the continuance of the Coalition has given rise to a rapidly since the Irish treaty was concluded, and unless the Premier is able to stem the revolt, it promises to have very serious effects on the Coalition.

Labor and Liberals in Accord. The victors by two Labor candidates and one Liberal in the recent by-elections were due, largely, to the tacit understanding between the Labor and Independent Liberal parties to avoid irregularities.

HALIFAX IDEA TO BOOST TRADE FOR CANADIANS

Suggest Gov't Fit Out Steamer With Exhibition of Canadian Products.

Visit Principal Trading Ports Have All Countries See What Canada Has to Offer the World.

Halifax, N. S., Feb. 26.—(Canadian Press)—Canada's principal need now being an increased export trade, it is being suggested here that the Canadian Government should fit out one of its idle steamers as a floating exhibition of Canadian products and send it on a voyage to the principal trading ports of the world.

In the opinion of some exporters here, the important thing for Canada is to inaugurate a floating exhibition before Great Britain and France does as the first venture is likely to receive the most advertising.

MORE SCANDALS CROPPING OUT IN GAY "PAREE"

Late Developments in Banque Industrielle De China Affairs Start Something.

London, Feb. 26.—(Canadian Press Cable)—The Panama and Dreyfus scandals of twenty years ago are recalled by the latest development in the Banque Industrielle De China affair, says a Paris Reuter despatch. Parisians of former Premier Clemenceau, including Andre Tardieu and Edouard Ignace, ex-Under Secretary of Justice, are demanding an inquiry into the affair alleging that a rival bank had, in the late Briand Cabinet, strong supporters who were opposed to re-floating the Banque Industrielle. This demand is countered by a demand for a more comprehensive inquiry into the whole situation, including the allegations of first Clemenceau and his followers, and, especially, in regard to ex-Deputy Paul Meunier who has just been released after 27 months in prison without a trial owing to lack of evidence justifying his commitment to trial on the charge of "having intelligence with the enemy."

It is alleged that Paul Meunier of fabled Clemenceau. As a barrister, Paul Meunier opposed the interests of an enemy banker named Rosenberg, whom Clemenceau's brother, who is also a barrister, was defending. Paul Meunier is an advanced Radical and editor of the Defeatist.

CAN THE DEAF BE MADE TO HEAR?

This question can be answered both ways. If the deafness is due to Catarrh, success is general if the sufferer persists in the use of Catarrh-ozone and thereby drives Catarrh out of the system. Penetrating through the passages of the ear, the soothing vapor of Catarrh-ozone relieves the inflammation, destroys the seeds of Catarrh and thereby allows Nature to re-assert herself.

BRITISH NOTE SAID TO BE MORE OR LESS EVASIVE

Does Not Reply to French Genoa Memorandum—England Treats of Experts.

Paris, Feb. 25.—In view of the continuing reports from London relative to the forthcoming conference between Premier Lloyd George and Poincare, the best information obtainable came from M. Poincare himself to the Anglo-American Press Association of Paris. This organization had arranged an official luncheon and reception for the Premier on Saturday. M. Poincare explained he was unable to keep this engagement and that he would not be here until after Monday "because of a visit from Mr. Lloyd George."

The place of the meeting was not announced nor is it known whether the conversation will take the form of "moving picture" diplomacy which may permit official commentaries. At any rate, Parisian interest, which became dulled on the subject during the period when the question of the Genoa Conference bounced back and forth between Rome and London has now shifted slightly from the more absorbing topic of who will be "Queen of Queens" at the Mardi Gras festival.

The British report insisting that two notes have been sent to the French embassy at London by Lord Curzon replying to M. Poincare's note of Feb. 5 has called forth the following semi-official declaration: "It is to be observed that these notes did not reply to the French memorandum. The British communications were only concerning the role of experts and the motives which impeded the Foreign Office in discussing the French views. But they did not treat the subject as a whole. It is for these reasons that a direct talk between M. Poincare and Premier Lloyd George is recognized as necessary. Now that the interview is announced it is unnecessary to discuss the contents of the notes from London and the French press would probably not have been advised to signal the absence of the British response if the British note had not made it necessary to show that the French sections were well founded."

FIFTEEN BOILS ON NECK AT ONE TIME

Any one who has suffered from boils can sympathize with poor Job. There was no Burdock Blood Bitters in those days, so Job had to suffer in silence. Now-a-days no one need endure the misery of boils.

Burdock Blood Bitters

and the blood will be cleansed of all its impurities, and then every boil will disappear. Mr. Roy McLaughlin, High Sheriff, P. H. I., writes: "I was troubled with boils for some time, and had as many as fifteen on my neck at once. After taking one bottle of Burdock Blood Bitters they commenced to get better, and after I had taken two bottles I was relieved of them and felt much better. I think B. B. B. is a grand blood medicine, and can recommend it highly."

Piping hot rolls for breakfast

ARTHUR STAFF WON CANADIAN

Won Every Event Excepting Meet—Edmund Lamy Se Enjoyed Racing Saturday.

Despite the heavy ice, which became honey combed under the rays of a brilliant sun, the large crowd of spectators who witnessed the second day's events of the Canadian Professional Championships on the East End open air rink Saturday afternoon, were treated to a series of fast and well contested races, that caused many a thrill and earned well merited applause.

The skaters were badly handicapped by treacherous soft spots that developed on the turns, but skilfully steered their courses and picked up their strides on the straight. Art Staff, of Chicago, was the star of the day, taking first in three of the four events, the 440, 680, and mile, and getting second in the five mile, which was won by Edmund Lamy, of Saranac. Bobby McLean, a popular favorite who was hailed with acclamation by many who remembered his races with Freddie Logan in the Victoria rink in 1912, came third on points scored in the afternoon races as well as third in the total number of points scored during the meet. The fact that McLean was skating with an injured knee doubtless impaired his speed.

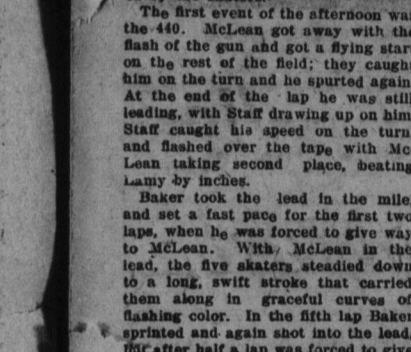

FIFTEEN BOILS ON NECK AT ONE TIME

Any one who has suffered from boils can sympathize with poor Job. There was no Burdock Blood Bitters in those days, so Job had to suffer in silence. Now-a-days no one need endure the misery of boils.

and the blood will be cleansed of all its impurities, and then every boil will disappear. Mr. Roy McLaughlin, High Sheriff, P. H. I., writes: "I was troubled with boils for some time, and had as many as fifteen on my neck at once. After taking one bottle of Burdock Blood Bitters they commenced to get better, and after I had taken two bottles I was relieved of them and felt much better. I think B. B. B. is a grand blood medicine, and can recommend it highly."

THE STANDARD'S SPORTING SECTION

ARTHUR STAFF OF CHICAGO WON CANADIAN CHAMPIONSHIP

Won Every Event Excepting the Five Mile in Two Days' Meet—Edmund Lamy Second in Points—Large Crowd Enjoyed Racing Saturday.

Despite the heavy ice, which became honey combed under the rays of a brilliant sun, the large crowd of spectators who witnessed the second day's events of the Canadian Professional Championships on the East End open air rink Saturday afternoon, were treated to a series of fast and well contested races, that caused many a thrill and earned well merited applause.

The skaters were badly handicapped by treacherous spots that developed on the turns, but skilfully steered their courses and picked up their strides on the straight. Art Staff, of Chicago, was the star of the day, being first in three of the four events, the 440, 880, and mile, and getting second in the five mile that was won by Edmund Lamy, of Saranac. Bobby McLean, a popular favorite who was hailed with acclamation by many who remembered his races with Freddie Logan in the Victoria Rink in 1912, came third on points scored in the afternoon races as well as third in the total number of points scored during the meet. The fact that McLean was skating with an injured knee doubtless impaired his speed.

Everett McGowan, of St. Paul, failed to place in any of the races but the splendid sports he brought into play in all the afternoon events brought forth cheers from an otherwise unpromising crowd, and greatly aided in the race.

Donald Baker, of Brooklyn who also failed to place set a pace in the initial laps of the longer races and after treading the rest of the field dropped out with the remark "I'm no body's witness." It was a pity that so many a chuckle from the spectators.

At intervals between the speed races, two skaters in the costumes of a colored Mammy and an Irish comedian amused the crowd with their antics, as prize fighters. Every body was a knockout, and some clever turns were brought into play. One of the most amusing events brought forth cheers from an otherwise unpromising crowd, and greatly aided in the race.

The snow shoe race served to accentuate the remarkable speed attained by the skaters. The first event of the afternoon was the 440. McLean set a pace with the flash of the gun and got a flying start on the rest of the field; they caught him on the turn and he spurted again at the end of the lap when he was still leading, with Staff drawing up on him. Staff caught his speed on the turn, and flashed over the tape with McLean taking second place, beating Lamy by inches.

Baker took the lead in the mile, and set a fast pace for the first two laps, when he was forced to give way to McLean. With 300 yards to go in the lead, the five skaters steadied down to a long, swift stroke that carried them along in graceful curves of flashing color. In the fifth lap Baker sprouted and again shot into the lead, but after half a lap was forced to give way to the powerful stroke of Staff.

In the sixth lap McGowan, in a wonderful burst of speed similar to that with which he thrilled the crowds of the night before, literally buried himself into the premier position. Lamy responded and for a lap the two neck and neck. All intent on fighting it out with each other they missed Bobby McLean, who shot in under their arms and took the pole. Staff, who had been holding himself in reserve, again sprouted, and with a confident smile caught up with and passed McLean on the stretch and broke the tape on the finish. McGowan was forced to fall back, but Lamy raced and then the fight was on between Lamy and McGowan for second place.

The two took the final turn abreast, McGowan nudging the blocks and Lamy taking a wide turn. Down the home stretch they flew in a blur of red and black, amidst the frenzied roving of the crowd, and shot over the finishing line in what appeared to be a dead heat. The judges, however, accorded second place to McLean.

As the ice had steadily been growing worse, it was decided to finish the races to a three mile event. But rivalry amongst the five speed kings of the continent runs high, and Lamy, the old war horse, refused to state any distance other than the five, believing he had it on his companions. When it came to staying points. His was accordingly granted, and in an incredibly short space of time, considering the tremendous pace set in the preceding race, the five gladiators glided out into the arena, amidst the buzz of the populace.

Staff set the stroke on the flash of the gun, and the rest fell in behind his space consuming stride. No one disputed the champion's position in the lead for the first mile, which was covered in 3:08. Then Lamy went up front to face the teacher and the pack glided through the second instalment in 3:28.

To the crowd the pace set seemed a killing one, in view of the long road ahead, but it did not prevent Bobby McLean, his face wreathed in smiles, from suddenly calling for the joy juice which sent him up into the windshield position. All the time the

St. Andrew's Curlers Trimmed Thistles

With Sixteen Rinks a Side Saturday the "Saints" Were Victorious, Score 251 to 215

After two previous defeats, the St. Andrew's curlers played their way to victory Saturday when they defeated the Thistles Curling Club by a score of 251 to 215, in the third and last of the inter-club series of season's matches. The games were played on the ice of the two clubs Saturday afternoon and evening, sixteen rinks a side.

The St. Andrew's players led in the scoring on the ice of both clubs in the afternoon by 34 stones. In the evening the Thistles had the better of play on the St. Andrew's ice by 11 stones, but were "beaten" by the "Saints" of their own ice by 13 stones. Dr. J. M. Magee's rink scored the highest total of points of any rink, with a score of 24 stones.

The ice was the best the curlers have enjoyed this season. The rinks follow:

Good Entry List for Six Classes in the Armouries Tomorrow Evening.

Everything points to a very successful programme at the Armouries tomorrow night, when under the auspices of the St. John Amateur Rowing Club the Provincial Boxing Championships will be held. So far there has been a good number of entries received and some of the best boxers in New Brunswick will take part. There are six classes and every artist is out to win the championship in his respective class.

The local fans will never forget the excellent bouts seen last year and it is a foregone conclusion that there will be a good crowd present to witness this programme. The object of the club is not only to encourage the young men in the art of self defence, but also to finance next summer's aquatic. The club has a great deal to do to make things ready for the occasion and among the chief needs is a floating bathhouse where the oarsmen can house their boats safely and be able to row at all times of tide. A sum of money is already on hand and the club is already in a position to be able to carry out the plans under way. The local fans will do well to attend tomorrow night's show and they will not only see some good boxing but will assist the club financially.

Boxing Results in Local Leagues. WELLINGTON LEAGUE. Several changes took place in the standing of the Wellington League last week. The chief features were McMillan's win over St. George's 2-1 and Nashbrook Paper Co.'s great game against G. W. V. A., whom they took 4 points from and totalled up 1235 points. This moved them out of the cellar which is now occupied by C. N. Express.

NATIONAL HOCKEY LEAGUE. GAMES PLAYED SATURDAY

Canadiens Put It Over Hamilton in Montreal by Score of Six to One—St. Patricks of Toronto Won from Ottawa Senators, Seven to Five.

Montreal, Feb. 26.—Canadiens kept in time with the St. Patricks of Toronto in the race for the second position in the N. H. L. by defeating Hamilton six to one here Saturday night while the Toronto team was winning from Ottawa. The Hamiltons must win all their three remaining games and St. Patricks lose them, to beat the Toronto team for second place, and if Pat's win only one while the Canadiens take them all they will tie. The game on Saturday was a lullax affair and productive of little excitement to 2500 spectators here. Canadiens had no difficulty in winning from the Tigers and outskated and outgeneralized them throughout the match.

The Line-up. Canadiens: Goal—Vezina; Defence—Roch, Bouchard, Stuart; Centre—Clancy; Wing—Malone, O. Cleghorn; Producers—Wing—Boucher, Arbour; Substitutes—Berlinguette, Roch, Bouchard, Laloitte, Carey, Philo.

St. Patricks: Goal—Benedict; Defence—Gerard, Clancy; Centre—Denenny, Neighbor; Wing—Broadbent, Cy Denenny, Sub—Andrews, Bull, Randall, Bruce; Referee—Lou Marsh.

The Summary. First Period: 1—Canadiens, O. Cleghorn, 6:15; 2—Canadiens, Boucher, 1:45. Second Period: 3—Canadiens, Boucher, 7:20; 4—Canadiens, O. Cleghorn, 12:30. Third Period: 5—Hamilton, Roche, 11:00; 6—Canadiens, S. Cleghorn, 3:00; 7—Canadiens, Boucher, 5:30. Referee, C. F. McKinley.

St. Patricks 7; Ottawa 5. Toronto, Feb. 26.—St. Patrick's defeated the champion Ottawa Senators on Saturday night by 7 to 5 after a game which was productive of some of the best hockey seen here this season. It was a great game for the double-header family: Cyril, of Ottawa, notching four goals, while brother Corbett, of the Irish, scored the first three for the locals. CANADIAN INDUSTRIAL RESEARCH.

The Canadian Manufacturers' Association has just placed a number of proposals before the government in Ottawa. They seem to be mostly concerned with questions of tariff adjustment; but the proposed establishment of a national industrial research bureau, so ably advocated by Mr. Rums Croxson in the last Parliament, should as the Ottawa Citizen says, appeal to the general public irrespective of tariff opinions.

Large and so forth are all different in their true relationship to money with wheat at \$1.30 a bushel from what they are with wheat at 70 cents a bushel. If wheat goes down from \$2 a bushel to \$1, and other prices do not go down, indeed they do not and cannot immediately, then we have a period of unstable prices with all the other accessories of which we have had such a painful experience.

"PAY-AS-YOU-GO" POLICY
BY NATIONAL FINANCE URGED

Robert Woodworth Tells Chamber America Should Make
Expenditures from Income, Not from Borrowing, to
Retain Its Position.

America's strong financial condition
among the nations can be maintained
only by "pay-as-you-go" policy, which
means that expenditures for the
country's needs should be met from
income and not from borrowing,
according to Robert Woodworth,
president of the National Finance
Association, in a report made at the
annual meeting of the association
held at the Waldorf-Astoria Hotel
in New York City today.

America's financial position today
is one of the most favorable in
the world, and it is essential that
this position be maintained,
Woodworth declared. He pointed
out that the country's income is
the best source of funds for
meeting its needs, and that
borrowing should be avoided
whenever possible.

Woodworth also pointed out that
the country's financial position
is a result of the high standard
of living maintained in this
country, and that this standard
can be maintained only by
continued efforts to improve
the country's financial condition.

Woodworth's report was
received with approval by the
members of the association,
and it was decided to adopt
his recommendations as the
policy of the association.

TROUSSEAU OF
PRINCESS MARY
NOW COMPLETE

Blue the Predominating Color
in Almost Every Shade and
Tone.

London, Feb. 25.—Simplicity is the
keyword of Princess Mary's trousseau,
now practically complete at Buckingham
Palace in readiness for her
marriage to Viscount Lascelles next
Tuesday, except for the wedding dress
itself, which conforms to the
precedents of English history for the attire
of royal brides.

The Princess was allowed an
entire free hand in the choosing of
her trousseau. A large selection
of models was taken to Buckingham
Palace for her approval and after
trying them on and discussing them
with Queen Mary, the Princess ordered
them to be copied in her favorite
colors.

Blue is the predominant note,
shades in almost every shade and tone
from forget-me-not to deep corn
flower. After blue comes gray—the
shades, and after that, green and
lavender. The royal bride-to-be
has almost all her dresses, costumes and
trousseau cut on long, straight and
simple lines showing the nationalistic
taste and the influence of the
Empress.

The Princess will probably wear a
blue dress, and the trousseau will
be in shades of blue and gray.

IN THE EDITOR'S MAIL.

The Editor of the Standard:
Sir—The cost of power is a very
important item in manufacturing, and
that of the charges in the capital
value of a factory, machine, etc. Hydro-
electric power must be supplied
cheaply to induce manufacturers to
scrap present steam plants and to
substitute electric motors, which would
call for considerable capital outlay.
And the charge would take some time
for installation.

In all the discussion on the hydro-
electric power, it is important to
remember that the cost of power is
not the only factor to be considered.
The cost of the machinery, the cost
of the installation, and the cost of
the maintenance are also important
factors.

Children Cry for Fletcher's

CASTORIA
Fletcher's Castoria is strictly a remedy for Infants and Children.
Foods are specially prepared for babies. A baby's medicine
is even more essential for babies. Remedies primarily prepared
for grown-ups are not interchangeable. It was the need of
a remedy for the common ailments of Infants and Children
that brought Castoria before the public after years of research,
and no claim has been made for it that its use for over 30
years has not proven.

What is CASTORIA?
Castoria is a harmless substitute for Castor Oil, Paregoric,
Drops and Soothing Syrup. It is pleasant, it contains
neither Opium, Morphine nor other narcotic substance. Its
age is its guarantee. For more than thirty years it has
been in constant use for the relief of Constipation, Flatulency,
Wind Colic and Diarrhoea; allaying Feverishness arising
therefrom, and by regulating the Stomach and Bowels, aids
the assimilation of Food, giving healthy and natural sleep.

National Breweries Led Montreal Market, Advancing Steadily

Greatest Gain of Day Registered by Winnipeg Railway, Gaining Three Points.

Montreal, Feb. 26.—Saturday half day session furnished a record in activity for over a year whilst the price trend was the most encouraging for months back. Gains far outnumbered losses and were of respectable proportions. National Breweries led the market and advanced steadily to the day's high of 59 1/2, closing 1 1/4 points up to 59 1/4. Brazilian came next and also displayed strength gaining 3/4 higher than the highest level reached in 1921, at 53 3/4. The greatest gain of the day was in Winnipeg Railway which was also very active, the stock gained three points at 56 1/2. Other transactions shared largely in the day's generally stronger feeling. Toronto was up two points at 65; Detroit Railway gained 1 1/2 at 58 1/2 and Quebec Railway remained unchanged at 54. Other stocks to make a display of strength included Asbestos up 2 to 50 and Laurentide which scored a similar gain at 79. The rest of the papers were firm to strong in tone, the latter being the only one to show a fractional decline. Canadian Steamships preferred was the weak feature selling off two points to 57. Other stocks to lose took in Power, off half to 58 and St. Lawrence Flour down half to 74. The appearance of Crown Reserves after a long absence was a feature, it changed hands at 17, a gain of 6 1/2 cents. Trading in bonds was light and the price trend was narrow and mainly toward lower levels. Total sales, listed, \$781; bonds \$118,850.

N. Y. Stock Market Finished The Week With Strong Tone

Rails and Motors Made Most Extensive Contributions—Industrials Yielded to Pressure.

New York, Feb. 26.—The stock market finished an active week with a strong tone, which calls and motors made most extensive contributions but selected industrials again yielded to pressure. A very large part of the day's business centered in secondary or low-grade transportation at gains of 1 to 3 points. Automobiles featured the market, moving to its highest level of the current movement. Domestic oils were in greater favor than the foreign division, California Petroleum and Pacific Oil displaying special strength and activity. As a result of the unexpected large dividend recently declared on Market Street Railway, Peoria suffered, all the other issues of company moved forward. Affiliated properties such as Philadelphia Company and United Railways investment made noteworthy gains. Crucible, Gulf States Steel and Republic Iron suffered from the onset of liquidation which followed the omission of the dividend. Republic preferred and several of the undistributed specialties eased moderately in the absence of support. Sales amounted to 455,000 shares. The interesting feature of the clearing house statement was an actual cash gain of \$46,400,000 which wiped out the deficit in excess reserves of the past fortnight and left a very large margin over legal requirements. Actual loans and discounts decreased, despite the unusual activity shown by the stock market. Foreign exchange threw off yesterday's moderate reversal, sterling gained 1 1/2 and allied bills 1 to 3 points. On the least of American bankers to the Dutch Government guilders were strong, approaching their recent high at a 15 point gain.

General Upturn On Grain Market

Chicago, Feb. 26.—Trade statistics showed an alarming trend of attention in the Argentine today and this, taken in connection with independent strength in corn and oats, caused a general upturn. Wheat registered an advance of 1/4 to 1 1/4, corn of 1/8 to 3/8; oats off 1/4 to 1/8 and provisions were generally off 1/8 to 3/8 to 1/2. Wheat—May 1922; July 1922 34. Corn—May 1922; July 1922 54. Oats—May 1922; July 1922 44. Pork—May 1922; July 1922 39. Lard—May 1922; July 1922 35. Who'll bet nobody. Object To The Centralization of Business Interests

Said to be Behind Move of Returning I. C. R. to Status Intended by Confederation.

Halifax, N. S., Feb. 26.—The demand of the Maritime members of Parliament for the restoration of the old Intercolonial Railway to the position it was intended to occupy by the Fathers of Confederation may be regarded as part of a growing movement to resist the tendency of the centralization of the industrial, financial and business activities of the Maritime Provinces. It is a common complaint among Maritime business men that the tariff and railway policies of Canada have in the past been more adjusted to the interests of the central provinces than to the needs of the Maritime Provinces. With their strategic geographical position, their sea, river, canal and waterway, and their enormous water power. Ontario and Quebec have obvious advantages which they have exploited with ability and energy, and the centralizing process has probably been inevitable. At the same time it presents a problem which demands public attention; political observers here declare that the overwhelming Liberal vote in the Maritimes in the last Dominion election was a protest against this centralizing tendency, and they regard the rise of the Progressives in the west as an endeavor to readjust the balance of economic interests between the centre and extremities of Canada. In view of the conviction of the Maritime business men that the industrial development of the three eastern Provinces since Confederation has not fulfilled the promise of their pre-Confederation development, it is interesting to note that the proportionate increase in the value of the output of manufacturing industries of the Maritimes between 1871 and 1917 was greater than that shown by the manufacturing industries of either Ontario or Quebec, according to the returns compiled by the Dominion Bureau of Statistics. Comparing the value of the product of the manufacturing industries for the year 1917 with the output for 1871, the first census year after Confederation, the following increases are indicated: Nova Scotia..... 14.7 times Ontario..... 13.2 Quebec..... 10.8 New Brunswick..... 2.7 However, 1917 was an exceptional year for the manufacturing industries of Nova Scotia, and a large part of the increase is accounted for by the development of her iron and steel making enterprises. With the value of raw material used is deducted the increases in value added by the manufacturing process itself are for the period in question as follows: Ontario..... 14.8 times Quebec..... 13.2 Nova Scotia..... 10.8 New Brunswick..... 2.7 According to the bureau of statistics capital invested in manufacturing in 1917, as compared with 1871, showed the following increases: Ontario..... 36.1 times Quebec..... 32.5 Nova Scotia..... 35.8 New Brunswick..... 10.8 Notwithstanding the apparently large industrial development indicated for Nova Scotia that Province, as well as New Brunswick and Prince Edward Island, has seen numerous small industries pass out of existence, and there is a belief that they went down before the competition of the larger industrial enterprises of Ontario and Quebec aided by the low freight rates on the Intercolonial Railway. Prince Edward Island manufacturing industries have dwindled since the entered Confederation. In 1881, the island's manufacturing output was valued at \$2,400,000; in 1891 it was \$4,849,819; and in 1917 it was \$6,927,010. In 1917 was 1.7 times; in Quebec 1.7 times; and in Nova Scotia 1.6 times; in New Brunswick it was only 1.1 times. In 1917 and also in 1918 the number of persons employed in the manufacturing industries of Ontario from 1871 to 1917 was 1.7 times; in Quebec 1.7 times; and in Nova Scotia 1.6 times; in New Brunswick it was only 1.1 times. At a whole, therefore, the industrial development of the Maritime Provinces has been proportionate to that of the Central Provinces, and there are among the old generation many people who still argue that Confederation was a bad bargain for the Maritimes. Ambitions, aptitudes and traditions, connected with sea enterprise, and the decay of the once important ship building and ship operating industries left little room for a state of uncertainty regarding their future. In this atmosphere numerous small industries which had been developed to satisfy local needs were unprepared to make the adjustments necessary to

Fluctuations in Wheat Market Were Again Erratic

Highly Nervous State of Trade Revealed and Prices Changed Rapidly.

Winnipeg, Feb. 26.—The wheat market fluctuations here today were again erratic, showing the highly nervous state of the trade generally, and although the spread was only about three cents, price changes rapidly. The result of today's trading marked a strong under-tone and may closed 1 1/2 cents higher. Around mid-session prices reached the high of the day when May advanced to \$1.44 1/4, later falling off to around closing figures. A better demand existed for numbers 1 and 2 Northern in the cash wheat market, and on light offerings, premiums were 3/4 to 1 cent better. Lower grades remained unchanged with only a limited demand reported. Coarse grains continued to show a firm undertone, most classes and grades registering higher prices. Cash course grains were dull and spreads unchanged. Inspectors tallied 477 cars of which 290 were wheat. Quotations: Wheat, May 1922; July 1922 asked. Oats, May 1922; July 1922 bid. France Plans To Ship Live Lobsters Across Atlantic

Project Involves Construction of Tanks of Twenty Tons Capacity to Keep Fish in.

Halifax, N. S., Feb. 26.—A big fish firm in Paris, France, has been working on plans for the shipment of live lobsters across the Atlantic. The project involves the construction of tanks of about twenty tons capacity in which the live lobsters will be kept. These tanks will be loaded on steamers bound for France, and the water in the tanks will be changed as circumstances require. The problem which worries the firm which controls the Atlantic upon the lobster, is live lobsters have for many years been shipped from Nova Scotia to Boston, Mass., in well smacks, and then kept for weeks in tanks at that port before being sold. And by all accounts the lobsters usually flourish in captivity. Last year live lobsters were shipped in specially constructed boxes with water tanks from the St. Lawrence, Riv. to New York, and though the mortality among the lobsters was great it is said the value of the live lobsters is commensurate with that of the dressed lobsters easily compensated the loss. SATURDAY'S MARKET Prices in the city market showed little change Saturday morning from last week. Business was fairly brisk with the demand for various averages. The prices: Beef 42 to 35c, mutton 8 to 15c, lamb 25 to 30c, veal 20 to 30c, ham 40c, bacon 45c, pork 12 to 15c, chicken 60c, fowl 50c, cod 12c, haddock 15c, smelt 20c, salmon 25c, halibut 30c, butter, creamery 60c, dairy 40 to 45c, eggs 55 to 60c, potatoes, home, carrots and parsnips 50c, turnips 30c, cabbage 50c, celery 30 to 35c, lettuce 6 to 10c, parsley and mint 5c, apples 20 to 40c, cranberries 35c, squash 6 to 8c, onions 10 to 12c. enable them to compete, even in their own markets, with the larger industries developed in Ontario and Quebec, under the impulse of protective tariffs. At the same time the adoption by the United States of high tariffs, to some extent shut off the Maritimes from their natural markets in New England, and put a period on the big development of the fishing industry which has gone on during the lives of the old reciprocity and the Washington treaties. Such Maritime industries as survived, or such new industries as have been developed, were mostly of a character demanding larger markets, than are offered by the Maritime Provinces themselves, and the success of these industries, some of which compete with the central provinces in the far east markets, has not been unconnected with the Intercolonial railway. The restoration of that control, therefore, presents itself as a matter of first importance to Maritime business interests. That was a condition of Confederation, and it is also the only thing that appears as a counterpoise to the strategic commercial position of the central Provinces with their free waterways developed at the expense of the nation, or to the unequal export rail rates which the western provinces enjoy on their primary products, and which entail a burden upon the whole country.

Revenue From P. E. I. Fox Farms \$1,240,000

Charlottetown, P. E. I., Feb. 26.—According to the latest available statistics, the fox farming industry of the Province last year produced a revenue of \$1,240,000 or nearly six times as much as the Island's fish production and dairy output combined. About 5,000 pairs of breeding foxes are held in the various ranches of the Province, and last season the increase was 7,000 young foxes. The ranches sold 400 pairs of breeding foxes at an average price of \$600 a pair, and also disposed of 5,000 pairs at an average price of \$100 each.

Canada Received Its Name From The Spanish Explorers Origin of Other Names Now Famous the World Over. Halifax, N. S., Feb. 25.—Moses H. Nickerson, Commissioner of Fisheries for Nova Scotia, takes a tilt at the legend that November 11, the eleventh or twelfth century gave Nova Scotia the name Markland, because it was a wooded country.

Mr. Nickerson, who is master of several more languages, declares that the word Markland in the Norse language was never used to denote a forest. A German, Paulson Adam of Bremen, was responsible for the legend, according to Mr. Nickerson. Copying the Norse sagas, he wrote: "Is a land with under landin, or fundu their that bjarn-dyr, ok kolku, the bjarn; en landit kolku their Mark-land, that er skogin var."

Mr. Nickerson says that the word "Markland" is derived from the word "Mark" which means a forest, and "Land" which means a country. He says that the word "Markland" was used by the Norsemen to denote a wooded country, and that the word "Canada" was derived from the word "Markland" because it was a wooded country.

SOCIETY WOMEN ARE VICTIMS OF HIGH FINANCE Ten Prominent New Yorkers Lose \$600,000 in Mythical "Pool"—Hunt for Broker. New York, Feb. 24.—Ten women, several prominent socially, who claim to have put more than \$600,000 into a mythical "pool" promoted by Alfred E. Lindsey, broker, with a palatial home at South Nyack, today were summoned to appear before a supreme court grand jury Monday and help piece together the details of a remarkable story of "high finance," on which Assistant District Attorney Murphy will seek Lindsey's indictment.

The list of alleged victims of the missing broker is headed by Mrs. Lillian N. Duke, divorced wife of James B. Duke, "tobacco king," who claims the entrance of \$25,000 to Lindsey. Others on the list, with their contributions to the pool, include: Mrs. Dorothy Atwood, \$7,000; Miss Catherine Adams, \$4,000; Miss Charlotte Wilson, \$3,000; Mrs. W. H. Arnold, \$3,000; Miss Margaret Bogart, \$18,000; Mrs. Helen Burnett, \$31,000; Mrs. Adelaide V. Rice, \$25,000; Mrs. Josephine A. Cornell, \$20,000; Miss Florence James, \$5,000.

Tales of quick and fabulous profits induced the women to dispose of securities they held and put their cash equivalent in Lindsey's hands. Mr. Lindsey's alleged victim, Mrs. Lillian N. Fire Destroys Home of Mrs. Geo. Gambin At Collina Large Part of Furnishings, Clothing, Etc., Also Destroyed in the Blaze. Apohaqui, Feb. 25.—On Friday morning the home of Mrs. Geo. Gambin, of Collina, Kings County, was burned to the ground. The fire started in the attic and made such headway before being discovered that nothing could be saved from the upper story. Practically all the furnishings on the ground floor were saved, but all the bedding and wearing apparel with the upstairs furniture was lost, the occupants only saving the clothes which they were wearing.

Mr. Kierstead, who resides with her mother, lost a her wedding gifts which were stored in the upper part of the house which was an early prey to the flames. The heavy wind blowing made it a difficult task to save the residence of Marshall Sharp, nearby, but with the combined efforts and valiant work of the fire fighters, it was saved and was also the barn and other farm buildings of Mrs. Gambin.

There is considerable insurance but will be inadequate to cover the loss, and very general sympathy is extended to Mrs. Gambin and Mrs. Kierstead in their loss.

Obituary Mrs. Wm. Black. The death took place on Friday at the Public Hospital of Mrs. Sarah A. Black, wife of William J. Black. Besides her husband she is survived by her father, James Hargreaves, two sons Lewis and Fred, and two daughters, Miss Lillian and Rosamond, all of St. John. One sister, Mrs. Elizabeth Morrison, predeceased her last week. The funeral will take place this afternoon.

William Shaw Badly Injured

Fell in His Office Saturday Evening and Broke Both of His Hips.
William Shaw, the senior member of the firm of J. & W. Shaw, bankers, suffered a serious and most unfortunate accident in his office, Wednesday evening, when he fell and broke both of his hips. His screams were heard by his family, who hurried to his assistance and summoned medical aid. Because of his advanced age, eighty-four years, Mr. Shaw's condition is considered most critical. It is believed that the accident was due to a miscalculation of the agent's weight in the position of his chair, and in the act of seating himself he fell heavily to the floor.

64th Anniversary Of Methodism Interesting And Forceful Address

The 29th Birthday of Fairville Church Celebrated With Special Services Yesterday.
The 64th anniversary of the introduction of Methodism into Fairville and the 29th birthday of the present church, was celebrated yesterday with appropriate services.

The speaker enlarged on some of these gains, citing several illustrations by way of argument. Among other things, he said that the bar had been abolished, and although even under the Scott Act open bars were to be found, there was a generation in existence that did not know what an open bar meant. Another stride towards improvement lay in the fact that, at the present time, that element of rowdiness and dissipation, which had formerly existed under the old order of things, had been practically eliminated.

Fairville Fire Caused Excitement

Burning of Ernest Scott's Barn Last Evening Caused Many False Reports.
The reflection of flames in the western sky caused quite a little excitement around the city last evening, and it was reported at one time that the Wilson Box Factory was on fire. This, however, was not the case, the blaze being in a barn owned by Ernest Scott, situated in the rear of his residence, Hayes avenue. The building was totally destroyed, but the firemen were able to keep the fire from spreading to any of the nearby houses.

MOTHER ASKS THE CUSTODY OF CHILD
In chambers before Chief Justice McKeown, on Saturday morning, the hearing of evidence was concluded in the matter of habeas corpus proceedings instituted by Helen Beddow for the custody of her child, Bessie Coleman. The child has been residing with the grandparents, Mr. and Mrs. H. S. Cooman, of this city. The mother is asking for the custody of the child, and in case that is not granted the right of access to it. In the event of an order issuing for the latter piece, the child shall not be taken from the province. Judgment was reserved.

CLIFFS HOUSE, all meals 60c.
The speaker concluded his address by stating that any law enacted which brought such drastic results as the prohibition act was worthy of any province, and he felt that the Government would do well to consider this view to strengthening the prohibitions of this view to lessening their rigor.
