

MACKENZIE KING UNDER THE COMPLETE DOMINATION OF QUEBEC LIBERAL POLICIES

Can be Unmade by Them and He Must Obey Orders or Get Out. KING ALREADY IN DEFEATED COLUMN He Must Obey Quebec in Campaign Against National Railways and Organized Labor.

Special to The Standard. Montreal, Oct. 18.—The Quebec political situation and contest differ materially in issues, objects and combinations from the rest of Canada. The Liberal party here is a Quebec party aiming at National control through provincial solidarity. It is more Tory than the Conservatives. It would increase protection, destroy Nationalism and public utilities of any form and would replace International Trades Association by racial, sectarian labor organizations as, in other words, labor independence would give way to corporation and sectarian paternalism. Quebec Liberals claim, and with much justification, that they control Federal Canadian Liberalism in policy, practice and leadership. They look upon Hon. Mr. King as but a megaphone and will use him or discard him just as he gives the proper tone in the expression of their ideas.

Quebec Holds Leadership The leaders of Quebec Liberals are Sir Lomer Gouin and Hon. Rodolphe Lemieux. They did not make Mr. King but they can unmake him. They may not displace him until after the contest, but he must accept their orders or get out. In Quebec Premier Lemieux indicates the trend of political thought. Mr. King has no important English press support. Mr. Melgheon has a nominal support from this section. Lemieux is playing a neutral game, while Lapresse is divided in his opinions on French leaders. All the press, French and English, are fighting for a Quebec block to enforce corporation control of Federal Utilities, especially in transportation. Mr. King repudiated Mr. Lemieux's declaration in favor of the Shughnessy plan of handling railways, and brought down on himself the wrath of the Montreal Press. He is nominally Conservative, but opposing Mr. Melgheon and National Railways. He says of Mr. King's statement of the railway policy "one of the best returns on the stage is of course, the effort of the boy leader to convince far away audiences that he is really Commander-in-Chief of the party which permits him to carry its banner."

King Takes Orders. But conditions are against him. A real leader would never have been "ordered" by his alleged following to sacrifice himself in North York. As it is, Mr. King is already in the defeated column for the evening of December 6th. Having disposed of Mr. King's leadership and political future the Star deals with his campaign in the province. "But this does not prevent him" it continues, "from still being, on occasion, an amusing 'little cuss.' For instance at St. John he undertook to lead Mr. Lemieux and the Quebec group generally out of the party." This was for declaring against Nationalization of Railways, and the Star declares that not only is this Mr. Lemieux's policy, but it is the policy of the whole Liberal Party in Quebec, "for they are all practically for the Shughnessy plan." The Star then sizes up the situation. "Who is the Liberal party? It is Mr. King or Sir Lomer Gouin. The Quebec group made him leader," and the Star further says, "Mr. King is wholly the creature of the Quebec Liberals, and that they can unmake him as readily as they made him," concluding, "hence it is the purest farce for him to tell the Quebec Liberals that it is he and not they who speak for the Liberal party. As well might a megaphone disown the man who lifted it to his lips."

Gazette's Opinion. Nor is the Montreal Gazette more indefinite in its opinion of the Liberal leader's position in Quebec. The Gazette is an outspoken advocate of corporation control, opposed to the Government's Railway policy, and sees in the Quebec representation the possibility of the return of the National Railways to a corporation. In an article, highly eulogistic of Sir Lomer Gouin, it discusses Mr. King. "It would be grossly unfair to describe Mr. King as a political nonentity," says the Gazette, "but quite within the bounds of truth to say that he is more chip upon the political waters, moved by every passing breeze and totally devoid of initiative, courage or consistency. An accident, a bit of politeness, a nursed resentment gave Mr. King the vote of Quebec in the Liberal convention, and made him the titular leader of that party, but no one in either camp takes him very seriously as the possible head of a Government. Not so with Sir Lomer Gouin." The Gazette sees in Sir Lomer Gouin's railway policy the same as Mr. Lemieux's—a solution of the railway problem. A solution that would give the assets of the C. P. R. to the stockholders and add its liabilities to an already overburdened National system. "Such is the situation in Quebec, Mr.

U. S. GOVERNMENT PREPARED TO MAN RAILROADS IN EVENT OF STRIKE

Washington, Oct. 18.—The Government is prepared to man and run the railroads if the nation-wide strike set for October 30th ties up the country's transportation system. This information was contained in a statement received from a source close to the administration. "The economic disaster that would be precipitated by such a crisis must be prevented by every power of the Government," was the statement of this authority. Congress, keenly alive to the dangers of the situation is prepared to act immediately if the impending strike becomes a fact. The use of the army and navy to protect those operating the roads in the emergency is certain to be evoked. Any molestation of the property or personnel of the railways while the strike crisis lasts will be dealt with unhesitatingly, it was learned today.

LOYD GEORGE GIVEN FREE REIN TO ADOPT ANY COURSE HE MAY WISH REGARDING ARMS PARLEY

House of Commons on Reopening Places No Obstacles in Way of Premier—Sole Obstacle to Definite Announcement of His Plans Rests in Progress of Irish Peace Making.

London Oct. 18.—The reconvening of parliament was marked by an absence of formality and devoid of oration, either in the Premier's address or in the attitude of the House of Commons has served principally to leave Lloyd George free to adopt any course he may choose to pursue towards the Washington Conference, and to determine for himself whether the circumstances will permit his personal attendance in America. The Premier will, accordingly, "go to Washington as soon as the parliamentary situation and general conditions at home render the trip possible. Apparently the sole obstacle to a definite announcement of his plans rests in the progress of the Irish Peace making which, if it reaches a critical stage, may cause a last minute decision to remain in England. The Premier's reference to his desire to attend the disarmament convention and his announcement of the personnel of the British delegation constituted the sole reference to America in his speech to the House of Commons. The Premier announced the British Commission will include Arthur J. Balfour, Lord Lee, First Lord of the Admiralty, and he hoped, himself. Since none of the Dominion Premiers had been invited to attend the conference as representing their countries, he said the government had nominated for places on British delegation, Paquet, of Australia, Borden of Canada, Bastril, of India, and Salmond, of New Zealand, Sir Auckland Geddes, Ambassador at Washington, will act as delegate in case any one of the appointees is unable to attend. The delegation as a whole, will represent interests of South Africa. As experts and advisers, Earl Beatty will represent the Navy, Earl Cavan, Army, and Sir Marshall Higgins, with Sir Maurice Hankey, Air Forces.

Some Disappointment. Some disappointment was expressed that the Premier failed to touch on the government's attitude towards the Conference in his speech. Several members of Parliament suggested openly that the discussion of this important event would be desirable. But attention is now centered upon the unemployment situation of which the Premier spoke at length and in great detail. Four bills, providing for relief, will be introduced in the House of Commons on Wednesday. The Government's latest estimates are now 1,750,000 idle in the United Kingdom. A bright feature of the opening session was the introduction of the second woman member of parliament in Mrs. Thomas Wintreburn, who takes the seat made vacant through the death of her husband. Mrs. Wintreburn was dressed in deep mourning. The House cheered as she entered and went through the usual formalities of presentation and swearing in, and Lady Astor, who thus loses the distinction of being the only lady member, joined enthusiastically in the welcome.

Six Foot Osprey Caught By Sailor

Bird Arrives in New York and Bronx Zoo May Have It. New York, Oct. 18.—A giant osprey, biggest of fishawks measuring six feet from tip to tip, which is bigger than some eagles, perched exhausted on the foremast light platform of the steamship Europe of La Veloce line Wednesday evening off the Grand Banks, 500 miles from land, and Capt. Minetti offered a reward to the seaman who would capture it. Quartermaster Francisco Donato volunteered and had a battle with the big bird aloft. If the bird had not been very weary from its long enforced flight down the blast that had borne it off the coast of Newfoundland Donato might not have subdued it. As it was the bird put up a good fight, severely clawing and biting the quartermaster before he dragged it down to the bridge with the help of Chief Officer Angelo Cocca. The bird was chained to the boat deck and fed regularly with fish. The skipper says the Bronx Zoo can have it merely by sending for it.

King Must Take Orders or Get Out. He must obey Quebec in its campaign against National Railways and organized labor. He will obey. He will never sacrifice the leadership through insubordination. Quebec controls Mr. King and hopes to control the Liberal Federal policy as well as the Liberal leadership.

King Must Take Orders or Get Out. He must obey Quebec in its campaign against National Railways and organized labor. He will obey. He will never sacrifice the leadership through insubordination. Quebec controls Mr. King and hopes to control the Liberal Federal policy as well as the Liberal leadership.

DISQUETING ELEMENT IN THE IRISH PARLEY

News Comes from Belfast That Ulster is Reorganizing Her Volunteers.

LORD CURZON REMAINS SILENT

Refuses to Make Any Statement on the Irish Situation, Believing It Dangerous.

London, Oct. 18.—Sinn Fein peace delegates held an extended conference this afternoon with Winston Churchill, discussing, it is understood, military aspects of Ireland as "a member of the community of nations known as the British Empire." The maintenance of an Irish army and its limitations and England's insistence upon full facilities for development of the aerial defenses in Ireland, and the question of communications, were some of the subjects touched upon by the Conference. In addition to Churchill, Captain F. E. Guest, Sir Hugh Trenchard, Air Ministry, and Worthington, British Minister of War, took part in the conference. The main conference is to be resumed Thursday.

Lord Curzon, in the House of Lords, declared he was unable to make any statement on the Irish situation since the premature disclosures of progress made at the conference would be dangerous. Curzon praised the reticence that had been observed by both sides since the parley began. Coincident with the announcement of Sir James Craig, Premier of Ulster, that the six counties of the North will cling together, then came news from Belfast that Ulster was reorganizing her volunteers which is a disquieting element in the situation. Ulster's arguments for re-establishment of volunteer forces in protection must be afforded against Sinn Fein aggressiveness as evidenced in recent outbreaks. Charged that Republicans establishing camps drilling and importing arms and ammunition, and "more than two persons" are now forbidden.

GEDDES ASKED TO HONOR U. S. UNKNOWN DEAD

London, Oct. 18.—Sir Auckland Geddes, British ambassador to the United States, will lay the wreath of South African flowers upon the tomb of America's "unknown warrior." The wreath will bear the following inscription: "America's Unknown Warrior. One with ours in the great comradeship of death, his sacrifice calls us to the great comradeship of the living." "From the government and people of the United States," the inscription reads. The date of the ceremony at the National Cemetery at Arlington, Va., has not as yet been announced.

Something More Powerful Than Law

Chicago, Oct. 18.—Municipal Judge Jacobs has found something more powerful than the law. John Bennett was before him today for "harassment." "Bring in the evidence," "Take it away," "I can't stand that. Prisoner is discharged." The officers left lugging a large limberger cheese. Bennett said he had found the cheese.

United States Is At Peace With The Germans

Washington, Oct. 18.—Normal peace with Germany is being negotiated. The Senate voted tonight 65 to 29 to ratify the treaty negotiated by the present administration and substitute it for the Treaty of Versailles. The treaty declares peace to exist between the United States and Germany, recognizing certain rights granted to the United States under the Treaty of Versailles and attempts to safeguard the claims of American citizens against Germany. The Senate also ratified the Peace treaties with Austria and Hungary which are virtually the same as the German pact.

Foch To Witness Foot Ball Game

Princeton, N. J., Oct. 18.—Marshal Ferdinand Foch will witness the Princeton-Yale football game at New Haven on November 12, according to a statement issued here today. The Marshal will be a guest at the game of Colonel Franklin D'Olier, first commander of the American Legion, who is a Princeton man, class '91. King vs Oliver Devenport, Richard Britton, John Burpee, attorney, member of Wendell Slipp, Truitt Hill. King vs Byron Ross, manslaughter. No bill.

PREMIER CONTEMPTUOUS OF UNSUPPORTED INSINUATIONS OF THE AGRARIAN LEADER

SECRET CONTRACTS COME TO LIGHT EMBARRASSING SHIPPING BOARD

Washington, Oct. 18.—The existence of secret contracts with British agents, made by the old Shipping Board, or Shipping Control Committee was revealed today by Sir Ernest Raeburn, British representative here to settle Great Britain's \$21,000,000 debt to the United States Shipping Board. These contracts, Sir Ernest declared, would materially alter the amount due the Shipping Board. Although Chairman A. D. Lasker refused to discuss the secret contracts, and merely announced the presence of Sir Ernest to dispose of the British debt, nevertheless, it is understood the old Shipping Control Committee made secret agreements. Therefore the final amount to be paid cannot be determined until the alleged secret documents are read. It is understood \$12,000,000 of the sum involved is in freights carried during the war for Wheat Export Company of New York, a British corporation.

THROUGH RAILROAD LABOR BOARD HARDING PROPOSES TO TAKE STEPS TO AVERT WALKOUT

Leaders of Big Five Cather at Chicago to Hear Executive's Statement—Steps Taken Which Are Expected to Lead Railroad Managers to Withdraw Application for 10 Per Cent Additional Wage Cut.

Chicago, Oct. 18.—Railroad labor, in session here tonight, is outlining the line of action intended to halt the threatened railroad strike. With the arrival of Chairman R. M. Barton, Vice Chairman Ben Hooper and G. W. W. Hanger, three public members who were called to Washington by President Harding, the Board started its executive session from which it expected there will be an announcement of the Government's plans to bring about peace between the carriers and their 2,000,000 employees—or to compel it. While the Board is meeting, Lloyd George and other "standard" railway organization leaders are meeting here in a preliminary star-chamber conference. On Wednesday these unions are expected to announce their decision on the proposition of joining the Big Five Train Service Brotherhoods in a walkout October 30.

Keeping Councils. "While we can make no announcement of the results of our conferences with the President and Interstate Commerce Commission at this time, we will be able to make known our plans very shortly," said Ben Hooper, Vice Chairman, as he hurried to join the other members of the Board already in session. "Left Washington on the first train after the conference with Secretary of Labor Davis, and Chairman Barton and Mr. Hanger on another train. Instructions had not been sent to the Brotherhoods for a final conference here when left. That is a new turn so far as concerns the Board. It is the result of information received by Chairman Barton."

It is intimated that the conference with the Brotherhoods here Thursday may develop into a general pow-wow at which the Railroad Executives and leaders of the Shop Crafts Unions may be included. Reports from Washington that the House is ready to take action to force both Rail Unions and Executive to obey orders of the Labor Board were received with great interest. This could only be done by Congressional action, it was pointed out at the Labor Board offices. "The Transportation Act would have to be amended."

At present the Esch-Cummings law gives the Board authority only to take cognizance "of any violations of its orders" and "make public its decision in such a manner as it may see fit." This fact, as generally interpreted here, means that President Harding is ready to act through the medium of the Labor Board and that union leaders will be apprised of his intentions. Vice Chairman Hooper declined to confirm the report that the public members returned with executive instructions. Shopmen Admired. The action of the Board in calling the Brotherhood chiefs here will in no way stop the Shop Crafts Unions from proceeding with their strike deliberations. It was stated by President B. M. Jewell, "We have received word from the Board that we are included in this conference," he said. "We will continue our group conferences at which every union in our organization will thrust out its own plans and then meet in a general conference for a final decision and adoption of action." The number of 275,000 in Shop Unions, headed by Jewell, have voted by overwhelming majority to strike, but their action is independent of the Brotherhood plans. Although the vote was also taken as a protest against the July 1 wage cut of 12 per cent.

Other developments during the day were, President E. H. Fitzgerald of the Brotherhood of Railway Mail Clerks, Freight Handlers, Express and Station Employees, issued a call for a strike conference and 300 general

Launches His Ontario Campaign With Most Militant Speech Since Dissolution

CHALLENGES CRERAR TO MAKE GOOD

Spencerville, Oct. 18.—Declaring that Mr. T. A. Crerar, Agrarian leader, was seeking to rouse passions and antagonisms, and characterizing some of the statements in his recent manifesto as "vague, cowardly innuendo," Premier Melgheon launched his Ontario campaign here today with the most militant speech that he has delivered since Parliament was dissolved. The Prime Minister was highly contemptuous of the unsupported insinuations in the Agrarian leader's pronouncement, and he exhibited all his capacity for scornful invective as taking up Mr. Crerar's statements in order. He called upon the author to support them with proof or piece of evidence to cowardice and deceit. "Mr. Crerar asserts, or suggests, that the Government is improperly influenced by Big Business. I challenge him here and now to state what and how this improper influence was exercised, and by whom; I defy him to speak. I challenge him to play the part of a man. If the time ever comes when I shall feel called upon to charge improper conduct against a fellow-citizen, I trust I shall have the courage to point my hand to the act. That is all I ask of Mr. Crerar today. I ask him to stand up and say when Big Business influenced me or my Government, and where."

Where Did Crerar Stand? "Mr. Crerar was a member of the Government. He was a member of it for two years. Ask him—farmers of Ontario—ask him if the Government was subservient to Big Business? Was he a party to the subservience? Or does he think we ceased to be victims when he departed from our midst? Mr. Crerar has no answer. He has no answer. All he seeks to achieve is the rousing of passions, the stirring of class against class. To hide the nakedness of his argument he is descending to vague, cowardly innuendo, to insinuations which are little worse than downright treason itself. Again I challenge him to come out into the open and cease his demagogic and cant."

If there were friends of Mr. Crerar among the fifteen hundred move farmers who made up the meeting, they were inconspicuous. The Prime Minister's vehement declarations were greeted by cheer after cheer. The meeting, which opened in the afternoon, nominated A. P. Casselman, a Prescott barrister, as the National Liberal and Conservative candidate for Grenville, was one of the largest and most enthusiastic political gatherings which the riding has seen in years. Farmers drove in from the most remote and distant points of the constituency, and a notable and significant feature was the presence of women in the audience which heard the Premier speak. Grenville, if yesterday's meeting be a mirror of its political leanings, is divorced from the former cause.

Attacks Agrarian Policies. Mr. Melgheon, probably for the reason that the Liberals have "not a candidate in the riding, devoted to most the whole of his speech to an attack upon Agrarian professions and policies. He was particularly caustic in his criticism of Mr. Crerar's manifesto. "Where does Mr. Crerar's manifesto get the revenue his tariff policy would abolish?" he asked. "Two years ago he told us he would get it on land and on inheritance tax, but today these policies are absent from his manifesto. In their stead we have—what? Simply the vague phrase that he will impose more direct taxation upon those best able to bear it. That is the kind of talk one expects to hear from an oily, squirming politician."

"I challenge Mr. Crerar to say what tax he will increase; I ask him now to say whether or no he intends increasing the income tax." I challenge him to say where he stands. Canada's present income tax is a heavy one. It is heavier than the income which existed when Mr. Crerar was a member of the government. It is heavier—on large incomes—than the income tax in Britain, where there per capita debt is four times larger than ours. It is heavier than the income tax in the States. The United States indeed has just cut its tax in two. Does Mr. Crerar propose halving ours?"

Coming to the Crerar-Wood proposal to abolish the duty on foodstuffs, (the Premier pointed out that Mr. Crerar has just changed "foodstuffs" for "essential foodstuffs") Mr. Melgheon declared that any policy which would thus endanger vital industries, while less essential industries were left untouched, would be "manifestly obvious folly." It would be "harmful to our interests, it would be un-Canadian and pro-American, and I am against it because I stand for Canada." (Continued on page 3)

PREMIER CONTEMPTUOUS OF UNSUPPORTED INSINUATIONS OF THE AGRARIAN LEADER

Launches His Ontario Campaign With Most Militant Speech Since Dissolution—Challenges Crerar to Make Good—Accuses Him of Using Vague Cowardly Innuendo to Bolster Up Weak Policy.

(Continued from page 1)
The Prime Minister stirred up the greatest enthusiasm of the day when he dealt with the Fordney tariff and with those who bow the knee to it. "The United States," he said, "are barring our goods. We were selling them half as much as we bought from them, but they have decided that we should sell them still less. Yet despite this, despite what they are doing to bar our goods, you are asked by Mr. Crerar and by Mr. Wood from Missouri, to throw down the tariff bars and buy more goods from the United States; do you want to do that? do you want it? (Cries of "no, no" and "never"). If there be some here who think that we ought to do that, then I ask them not to vote for the Government, for I will never do it. Mr. Crerar says that we ought to go down to Washington and plead with them, is that a manly policy? Is it a self-respecting policy? No, the day for pleading with Washington is gone, and gone forever."
Replying to Mr. Crerar's claim that in stating that the issue was between protection and free trade he, (Mr. Moynihan) was drawing upon his imagination the Prime Minister said: "Then I shall put it in another way for him. I shall say that it is a question as between my platform and his; between what I have done and intend to do, and what his friends on the Prairie would make him do."
Canada For Canadians.

A policy that constituted a pronouncement of death upon the industrial life of the country. They were proposing to throw the industry of Canada, the agriculture of Canada and the labor of the United States.
"Our fathers 42 years ago, after many discouraging experiences with the United States, cut the knot and launched out for themselves. They decided to have a Canadian policy for Canadians. They decided to build up a nation here, strong, self-sustaining, self-reliant. Their policy has triumphed. We have overcome great obstacles. In a northern country where the difficulties are great, where the hardships are many, we have enjoyed years of progress and prosperity."
Are we going to falter now? Are we going to turn back? Are we going to let Crerar when we have scaled the heights? I say that the fewer engagements we have with the United States the better it will be for this country. Not because we dislike them, not because we are their enemies, but simply because we cannot have the fiscal policy of this country dictated by the people of another country. This, I believe, is the sentiment of Canadians. It is a proper sentiment and we are not going to surrender it to the vague promises of Mr. Crerar nor to the dictation of the convention. We shall never bring this country into a position where Washington shall dictate the course of its commercial policy. The spirit of the Canadian Nation will never permit it. It was this spirit which gave the verdict of 1891. It was this spirit which inspired Edward Blake's famous warning to his countrymen. It was this spirit which inspired Macdonald. It was this spirit which even Sir Wilfrid Laurier upheld in 1898.

The world was turning more and more toward protection. Even England, the cradle and the citadel of free trade was abandoning Cobdenism. France, Italy, the United States, Australia and the Argentine were lightening their tariff barriers. At a time when such a time, at a time when Canada needed all the strength she could summon to survive in the race for national and economic supremacy, at a time when our dollar was already at a discount, at a time when the financial resources of the nation were being strained to a point of danger, at such a time Mr. Wood and Mr. Crerar proposed

Sunday School Golden Jubilee

Convention of Maritime Religious Education Council Opened.

The Golden Jubilee Sunday School Convention of the Maritime Religious Education Council, celebrating fifty years of organized Sunday school service, was opened in the Maritime church yesterday evening. Over three hundred delegates were present, including about two hundred from all parts of New Brunswick, Nova Scotia and Prince Edward Island. The convention was opened by the Rev. J. A. Clark, Charlottetown, P. E. I. He declared that it was most inspiring to have such a large assembly participating in the opening of the convention, and said that every Sunday school in the Maritime Provinces should have for its motto "Our Children for Christ." The president had been surprised to find on investigation that there were many more day schools in the Maritime Provinces than there were Sunday schools, and in one county alone there were 60% more day schools than Sunday schools. It was not the proper thing to have Sunday schools almost inaccessible to children by reason of their distance and the lack of transportation. It was that of reaching every boy and girl in the Maritime Provinces. Great credit, declared the speaker, was due to the faithful laymen, both men and women, who had done so much in the establishment of the Sunday schools. One great urgency which existed at the present time was the need for trained teachers, and president felt that this problem would receive the most careful consideration of the delegates.

Indigestion or Sour, Gassy Stomach

"Pape's Diapepsin" gives Relief in Five Minutes

"Pape's Diapepsin" relieves stomach distress in five minutes. You don't want a slow remedy when your stomach is your enemy. It is either one or a harmful one—your stomach is too valuable; you mustn't injure it with drastic drugs. Pape's Diapepsin is noted for its speed in giving relief, its harmlessness, its certain unfailing action in regulating sick, sour gassy stomachs. Keep this perfect stomach doctor in your home—keep it handy—get a large sixty-cent case from any drug store, and then if you should eat something which doesn't agree with you, if what you eat lays like lead, ferments and sours and forms gas, causes headache, dizziness and nausea; eructations of acid and undigested food, if you feel that Pape's Diapepsin comes in contact with the stomach all indigestion vanishes. It is the most efficient antacid known—the certain and sure with which it overcomes stomach and digestive disorders is a revelation to those who try it.

Natural History Annual Meeting

President's Address and Curator's Report Proved Most Interesting.

The annual meeting of the Natural History Society of New Brunswick was held last evening in their rooms on Union St. and was very well attended.
The Officers
The officers elected for the coming year were as follows:
R. B. Emerson, President.
Rev. Dr. Hutchinson, 1st vice-president.
H. H. Halloway, 2nd vice-president.
A. Gordon Leavitt, Treasurer.
William Macdonald, Curator.
W. L. McDermott, Recording Secretary.
F. B. Ellis, Librarian.
J. Roy Campbell, James A. Estey, F. E. Holman; Members of Council.
President's Address.
The president made a short address and referred to the amount of work this museum was doing along educational lines for the city and province and to the fact that it was a small part of what might be accomplished were it provided with sufficient funds to augment the staff and to meet the moderate increase in expenditures necessary to carry on the work which the schools and public are demanding of the museum.
The study of animal and plant life is now recognized to be of immense practical value. Careful estimates based on crop reports and actual damage over a series of years, show that the loss due to insect pests of farm products of Canada and the United States have reached the total of one and one quarter billion dollars annually. Scientists have discovered how to deal with these pests so that the crops may be saved from them.
The discovery that nearly all the common diseases are caused by bacteria has revolutionized medical science.
Most modern industries are largely dependent on science and the monetary value of its discoveries are almost beyond calculation. While it is not proposed to make the museum a producer of wealth in scientific discoveries, yet it can be a distributing centre for St. John and the Province, of useful and valuable information. The possibilities of the museum as an educational factor along these lines is limited only by the ability of its employees. Its budget and the desire of the people to benefit by it.
The Society is trying to build a museum that will be adapted to the needs of the mechanic, the laborer, the salesman as well as the student, the teacher and the man of leisure.

Young Woman Caused Anxiety

Hinted Suicide in Letter Left by Sister—No Explanation.

The fear of a suicide caused a hurried investigation last evening, when a young woman disappeared from her home. A letter from her mother to the effect that when she received it, the writer would no longer be alive. Fearing for the worst friends were called in to seek what was feared would be the dead body of the young woman. She was finally located at her sister's home apparently quite normal, and not at all concerned with the anxiety she had caused. She refused to give any explanation of her thoughtless act.

Two Explosions Kind of Mystery

Curator's Report

Two violent explosions shook the windows, caused the walls of many houses in the city to tremble, and the householders to do likewise at about 7:15 yesterday morning. The force and nature of the explosions, which followed each other in rapid succession, caused many to fear a disaster had befallen the city.
Despite the sounding of almost every available source of information, nothing could be definitely learnt of its cause yesterday. Many citizens traced the reports as coming from the street leading to the museum. It was positive he heard the donkey engine give the customary warning blasts at the Courtenay Bay works. The explosion followed from the quarter shortly afterward. An engineer at the works informed the Standard last evening, that his company were not engaged in blasting yesterday, and that one of the work now being done at the dry dock would call for such heavy charges.

"40" INDUCES SLEEP

Humphrey's Number "40" Induced Refreshing Sleep.

For Insomnia, Sleeplessness, Wakefulness, Nervousness. No Narcotic, No Opiate, No Dope, No habit forming drugs. Strictly Homeopathic. At Drug Stores.
Humphrey's "Seventy-seven" breaks up Colds that hang on. At Drug Stores.
Humphrey's Home, Medicine Co., 156 William Street, New York. Medical Book Free.

Report From The City Electrician

Effect of Electrolysis Explained—Will Consider Purchasing Indicating Instruments.

Some weeks ago the Commissioner of Water and Sewerage asked for a report on the subject of Electrolysis. The report was submitted to the Council on a preliminary report on the subject from the City Electrician, Barry Wilson. The fact that there is a copy furnished the Commissioner of Water and Sewerage and to deal with the matter of purchasing the machines mentioned in the report when the estimates are being made up for 1922. Following is the report:
Herewith I beg to make a preliminary report on electrolysis in the City of St. John.
I feel confident in stating that this matter is of vital importance to the maintenance of uninterrupted water and sewerage service. Although it seems impossible to prevent stray currents in underground pipes and cables, nevertheless, these can be reduced to such a minimum degree by properly bonding, running return feeders, and installing boosters in the return circuit of railway systems, that little effect is experienced in the life of cables and underground pipes. The instruments necessary for carrying out these tests consist of a low reading volt meter of 1 to 5, and 1 to 150 Volt Range, and a portable millivolt meter with suitable shunt range from 1 to 200 Amperes, at an approximate cost of \$350.00.
At a time when a suitable instrument are procured I would be pleased to make a complete survey for Electrolysis and report recommendations. Respectfully submitted,
(Sgd) BARRY WILSON
City Electrician.
St. John, N. B.
October 17th, 1921.

Married

ANTHONY WARE—On October 15, 1921, at the residence of the bride's parents, Mr. and Mrs. C. W. Magee, East St. John by Rev. H. B. Thomas Olga Goldart Magee, to Herbert Leslie Anthony, of Red Head.

Died

TILTON—Suddenly at Toronto on October 17, Joseph A. Tilton, of this city.
Notice of funeral later.
RETAILLACK—Suddenly on the 14th instant, Richard Retaillack, leaving a wife, two sons and two daughters to mourn. Notice of funeral to follow. Please omit flowers.

SURE PROTECTION FOR YOU WHILE YOU TRAVEL

You may find the water bad, some poorly cooked food may excite trouble, a draught from a car window may give you an ache or pain—a cold or damp sheets may cause rheumatic twinges. Remember this—any pain that is caused by congested glands, stomach sour and your body full of cold. Get a 10-cent box of Cascarets at any drug store and enjoy the nicest, gentlest and yet the most thorough liver and bowel cleansing you ever experienced.

Nothing New on Motor Accident

The detective department reported last evening that there was nothing new to report on the motor car that came to grief at Silver Falls and which was found yesterday morning badly damaged, and piled up on a wired fence some distance from the highway.
The accident is believed to have happened some time after midnight. Although there was considerable loss of blood about the car, it is not thought that a serious accident occurred. While the number plates were removed from the car, there will be no trouble to trace its ownership because of its unique design, a Ford chassis, with a speedster body.

GRANDPA DIDN'T NEED CASCARETS FOR THE BOWELS

Great medicine—the Sawnick. Two hours a day sawing wood will keep anyone's bowels regular. But if you will take your exercise in an Easy Chair, there's only one way to do it—Cascarets.

Acker's Horses Had Good Year

Peter Verde Was in the Money in Eleven Races—Sold Signature for \$2,000.

Len. R. Acker, Halifax race-horse owner and theatre magnate, returned to Halifax Monday after one of the best seasons on eastern tracks. Before he returned to the city, Acker sold Signature, 2:17 1/2 to Angus Mac Donald, Glace Bay, for a figure said to be well over the \$2,000 mark. Mac Donald expects to campaign Signature on the Cape Breton circuit next year. Blinger Worthing, started in 19 races in New Brunswick and Maine and was outside the money once. Peter Verde was also a big winner and was in the money in 11 races. Trilixie Dillon also made a fine showing on the big track. Acker's stables were always to the front and although Worthing Dillon and Parde were pitted against the best horseflesh from New England to Maine and the Provinces, they were able to show class.

Benny Leonard's Long Inactivity

Lightweights Believe Champion Will Retire or Move to Welterweights.

Special to The Standard. New York, Oct. 17.—Benny Leonard's long inactivity as lightweight champion is arousing hopes among the lightweight fighters here that the champion will decide to retire or move up into the welterweight division this fall. Leonard's last fight of importance was a 12 round decision farce with Rocky Kansas, in Harrison, N. J., last spring. Billy Glassman, manager of Lew Treadler, the Philadelphia News boy fighter, who battles Kansas at the Garden here Friday night, said today if Leonard did not give Treadler a fight he would send his man on a campaign through the lightweight ranks and then claim the title. Billy Glassman, Leonard's manager is reported to be preparing another member of his stable to "accept" Leonard's title when Benny retires this winter.

CANADA'S PLAN MIGHT AFFECT PORTLAND TRADE

Project for Deep Waterway on Canada's Side of Line.

Washington, Oct. 18.—The State of New York has invited the members of Congress to inspect the Erie Canal, the deep waterway afforded by the Hudson River and other waterways between Canada and the ocean. A number of the members have accepted the invitation and will take advantage of the occasion to form their own ideas of the proposed plan to connect the Great Lakes with the Lawrence River by a deep waterway canal, as now desired by the Canadian government. So far as known, Congressman Beedy of Maine is the only New England man who will make the trip. The invitation to congressmen was extended by Mr. Ten Eyck of New York, who is a staunch advocate of deep waterways for the United States but who does not believe this government should enter into an agreement for one which will lie over the Canadian line. Prolonged hearings have taken place before the International Joint Commission of which Obadiah Gardner is a member, regarding the proposed Canadian plan. Cost United States \$300,000,000. Mr. Ten Eyck is convinced that such a plan as is proposed by Canada would cost the United States not less than \$300,000,000 and would be detrimental to the business interests of the country as well. He believes it would seriously injure the barge canal, as now desired by the Canadian government, which he believes is adequate to perform all necessary work. Moreover it is very generally agreed that the Canadian project would be an injury to the import trade of American cities, including Portland, where now there is a big export and import trade and through which port much of the Canadian grain passes via the Grand Trunk railway. The Canadian Canal, so they say, would be frozen over at least six months of the year. Mr. Ten Eyck believes such a competitive waterway would help Canada but injure the United States, saying, "Co-operation makes success, not competition." He cites as an example the Interstate Commerce Commission has come to the conclusion that where one line runs we should parallel it, or both will be failures. He called attention to the fact that the Hudson River is navigable for sea-going boats and that there is ample room for adequate terminal facilities along the route. Speaking in the House a few days ago, Mr. Ten Eyck said, "I am not opposing the Canadian project so far as the Dominion goes; but I do not believe the United States should enter into the plan through a financial arrangement. My objection is to the United States spending money on transportation facilities outside the territory of the United States. . . . If we help create a grain export harbor on the St. Lawrence it will mean, in a case of disagreement with any of the countries in Europe, to which we are selling our grain, that under international law, Great Britain could close that port; any export harbor in Canada would be controlled by Great Britain, would carry grain in English bottoms and so would absolutely close the price of the commodity. Our farmers would suffer loss through the loss of control of price by this government. We could, moreover, lose the return cargoes of other materials. . . . I want to see conditions improved not hampered." Mr. Ten Eyck closed by saying "The policy of the United States should be American money for American waterways in the territory of the United States." As it is stated freely that the proposed waterway would adversely affect the import and export trade of Portland Harbor, Mr. Beedy decided to take the trip and see for himself what the present conditions are, and how they would probably be affected by the proposed American-Canadian project.

Ruth Will Learn Who Is The Boss

Started Out on Barnstorming Career in Opposition to Rules.

Special to The Standard. Chicago, Oct. 17.—Babe Ruth is about to learn who is boss of organized baseball. Judge Landis, high commissioner of game declared today he was elected to be the teacher. He declared that either a heavy fine or suspension hovered over Babe for starting a barnstorming career in opposition to the rules of baseball about his world's series players participating in exhibition games. Judge Landis came to this decision on his return from New York where he looked over the world series. "I notified him two weeks ago that the rules prohibited this sort of thing," said the judge. He stated he was holding off his decision due to more pressing matters and that he would show in his state. "I accept Mr. Rickard's offer and notified him that I am willing to sign for Dempsey at any time," said Kearns.

MINERS' HEAD FIRES HOWAT AND HIS AIDS

Lewis Charges Flagrant Violation of Union Laws in Order of Suspension.

Pittsburg, Kan., Oct. 17.—Alexander M. Howat, president of the Kansas Miners' Union, and his administration have been suspended from office on the order of John H. Lewis, president of the international union. George L. Peck, a member of the suspended executive board, was designated acting president of a provisional organization created to handle district affairs. It was announced that the action was taken because Howat and other officials refused to abide by a ruling of the international union convention of Indianapolis recently that certain striking miners be ordered back to work. Howat, with August Dochy, vice-president, is serving a six months' sentence in the Cherokee county jail at Columbus for violation of the criminal section of the industrial court law by calling strikes. A statement issued by Peck today said that all striking miners would be expected to return to work immediately. Announcement was made that a mass meeting of miners had been called for tomorrow afternoon. In a statement by Howat from his jail cell late in the day he said: "To hell with John Lewis and Gov. Allen. Our plans are unchanged. We shall continue to fight." In his order of suspension President Lewis charged that the laws of the international union were being flagrantly violated, and asserted that the "joint agreement between miners and operators in the State of Kansas has been trampled upon by individuals who seemingly have no respect for the laws of their organization and the principles of fair dealing among men."

World's Champ Gets In Trouble

Jack Dempsey to be Sued for Alienation of Affections of Inventor of Shimmy Dance.

Special to The Standard. New York, Oct. 17.—Jack Dempsey is to be sued for \$100,000 for alienation of the affections of Bob Palmer, the inventor of the "Shimmy Dance," according to her husband, Al Siegal, song writer and vaudeville actor. Siegal said his attorneys had drawn up summons for Dempsey who is in Chicago enroute west for a vaudeville tour. Miss Palmer, it is understood, is to be a member on the same bill. Prolonged hearings have taken place before the International Joint Commission of which Obadiah Gardner is a member, regarding the proposed Canadian plan. Cost United States \$300,000,000. Mr. Ten Eyck is convinced that such a plan as is proposed by Canada would cost the United States not less than \$300,000,000 and would be detrimental to the business interests of the country as well. He believes it would seriously injure the barge canal, as now desired by the Canadian government, which he believes is adequate to perform all necessary work. Moreover it is very generally agreed that the Canadian project would be an injury to the import trade of American cities, including Portland, where now there is a big export and import trade and through which port much of the Canadian grain passes via the Grand Trunk railway. "PUSSYFOOT" WELL PLEASED WITH CAMPAIGN

Natives of India Desire to be Freed of the Curse of Drink.

Calcutta, Oct. 18.—India is the easiest place in the world to enforce prohibition. This is the conclusion drawn by "Pussyfoot" Johnson at the close of his six weeks' expedition through Northern India during which he visited a score of cities and several of the native states ruled by Indian princes. Shortly after his arrival here Mr. Johnson in an interview given your correspondent said: "India from the prohibitionist viewpoint, is the most hopeful country in the world. "Wherever I have been the audiences have been eager, and willing not only to forego liquor, but to bear the additional taxation entailed by the disappearance of liquor revenues. "It has been frequently charged that Mr. Johnson's audience have been solely composed of the "intelligentsia," the minute percentage of the Indian population who are educated and hence unrepresentative of the vast body of the native population. This charge he strenuously refuted to your correspondent. "At Poona," he declared, "the Drahavish of the Maharajah accompanied me through an audience of 6,000 'untouchables'—low caste uneducated Hindus whom no upper caste is supposed to touch—and they all told me the same story as did the intellectuals. They expressed a desire to be freed of the drink curse and said that only reactionary British traditions prevent them. "Asked by your correspondent if it were true that he had said the British introduced drinking into India, Mr. Johnson replied: "I never said that, because it was not true. But what the British did do was to organize drinking for industrial and revenue purposes. Before it was a family and social affair confined to the home, but the British have made a business of it. "When asked what he thought probable, private distillation without control or the scientific system of control now in vogue regulating all liquor and devoting excise proceeds to better administration, Mr. Johnson answered that the scientific system was infinitely worse. "The British have been here over a century and it is a disgrace to them that instead of destroying the drink traffic they have devoted themselves to organizing and popularizing its consumption. "In fact the poorer classes who drink are taxed not to give education for themselves, but for the wealthier classes who do not drink." When reminded that in many provinces the excise revenue is one-third of the total revenue and that the government is unable to find an alternative source of taxation, Johnson said: "In the native state of Baroda, where upon my arrival I was received as a state guest and accorded a cordial welcome and the Premier declared at the meeting: 'If you taxpayers will accept additional taxation you shall have prohibition tomorrow.' His statement was received with enthusiastic applause. "Three native states already have adopted prohibition. If those heathen can solve the question is, why cannot the clever British? One British Premier asserted to me that the revenue problem offered no insuperable difficulty, but he opposed prohibition because it interfered with personal liberty and private conscience. "An amusing incident of Mr. Johnson's tour occurred at Agra where whisky sodas were provided for the guests at the reception given in Mr. Johnson's honor. On the other hand, the luncheon at the Viceregal lodge, at Simla, at which the British Viceroy, Lord Reading, was present, was given in Mr. Johnson's honor, as was the ceremony arranged for him by the Governor of the Punjab. "Mr. Johnson concluded his interview with the following statement: "Britain is putting herself wrong in the eyes of the world by forcing drink on the Indians who do not want it. "At a Rotarian luncheon Johnson was severely heckled by Englishmen and Americans and it was clear that the conclusions formed on his six weeks' tour were not accepted by those who know India well.

Urges Prior Need of Mexican Treaty

Thomas W. Lamont Says a Pact Should Precede Recognition by United States.

Mexico City, Oct. 18.—An intimation that the interests he represents support the State Department in Washington in its demand for the signing of a treaty of amity and commerce by Mexico prior to the United States according recognition was contained in an address made by Thomas W. Lamont at the American Chamber of Commerce today. "Our American business men in Mexico," said Mr. Lamont, "must not attempt to exploit Mexico. They must have scrupulous regard for private and for public rights. They must know at all times just where they stand. "Whatever form of expression the Mexican Government takes to manifest its national attitude is not a matter of so much importance to American business men, provided that its declarations are of a character absolutely clear and explicit and capable of only one interpretation by honorable men. "If such should prove to be the case, then, indeed, the clouds which I already can see breaking away on both sides will be completely dissipated and hence unrepresentative of the vast body of the native population. This charge he strenuously refuted to your correspondent. "At Poona," he declared, "the Drahavish of the Maharajah accompanied me through an audience of 6,000 'untouchables'—low caste uneducated Hindus whom no upper caste is supposed to touch—and they all told me the same story as did the intellectuals. They expressed a desire to be freed of the drink curse and said that only reactionary British traditions prevent them. "Asked by your correspondent if it were true that he had said the British introduced drinking into India, Mr. Johnson replied: "I never said that, because it was not true. But what the British did do was to organize drinking for industrial and revenue purposes. Before it was a family and social affair confined to the home, but the British have made a business of it. "When asked what he thought probable, private distillation without control or the scientific system of control now in vogue regulating all liquor and devoting excise proceeds to better administration, Mr. Johnson answered that the scientific system was infinitely worse. "The British have been here over a century and it is a disgrace to them that instead of destroying the drink traffic they have devoted themselves to organizing and popularizing its consumption. "In fact the poorer classes who drink are taxed not to give education for themselves, but for the wealthier classes who do not drink." When reminded that in many provinces the excise revenue is one-third of the total revenue and that the government is unable to find an alternative source of taxation, Johnson said: "In the native state of Baroda, where upon my arrival I was received as a state guest and accorded a cordial welcome and the Premier declared at the meeting: 'If you taxpayers will accept additional taxation you shall have prohibition tomorrow.' His statement was received with enthusiastic applause. "Three native states already have adopted prohibition. If those heathen can solve the question is, why cannot the clever British? One British Premier asserted to me that the revenue problem offered no insuperable difficulty, but he opposed prohibition because it interfered with personal liberty and private conscience. "An amusing incident of Mr. Johnson's tour occurred at Agra where whisky sodas were provided for the guests at the reception given in Mr. Johnson's honor. On the other hand, the luncheon at the Viceregal lodge, at Simla, at which the British Viceroy, Lord Reading, was present, was given in Mr. Johnson's honor, as was the ceremony arranged for him by the Governor of the Punjab. "Mr. Johnson concluded his interview with the following statement: "Britain is putting herself wrong in the eyes of the world by forcing drink on the Indians who do not want it. "At a Rotarian luncheon Johnson was severely heckled by Englishmen and Americans and it was clear that the conclusions formed on his six weeks' tour were not accepted by those who know India well.

POLICE AT LOSS FOR CLUES IN TWO MURDERS

Fail to Connect With Authors of Crimes in New York City.

New York, Oct. 18.—Although the detectives of the Italian squad are convinced that a quarrel between bootleggers led to the killing of Joseph Veretta, better known as Joseph Peppo, and Louis Rango in a coffee house at 367 Broom street on Thursday, they admitted last night that nothing which has been turned up so far in their investigation of the case is likely to lead them to the persons who planned and executed the murder. Peppo, described as a hoodlum in a large way of business, was killed by some one who pursued him into the coffee room from the street. In returning his assailant's fire Peppo killed Rango, who was a stranger to him and had nothing to do with the fight. Amabile Stilo of 330 Degraw street, Brooklyn, arrested after the shooting, was held without bail in the Tombs court yesterday, but the police have not been able to connect him with the murder of Peppo. He admits that he telephoned to the place where Peppo was killed twenty minutes after the shooting and asked if Peppo was dead, but insists that he did so only because he had heard that he had been killed and wanted to verify the report. When he was asked who told him of the shooting he said that he heard two strangers speak of it while he was passing them in the street. One of them, he said, told the other that he had just heard of the shooting. The thanks of the convention was extended to Rev. Dr. Spidel and to Rev. Dr. Porter, of Atlanta, Ga., for his leadership of the devotional services. The convention appreciated the work done by the new Ukrainian Orphans' Home and recommended that the churches of New Brunswick set aside a Sunday on which to take up an offering. Sympathy is extended to the new St. John's and St. Peter's churches, which do not recognize the work done by the board's hands. The Peace River country is opening up and there is need of men there. Manitoba reports show steady progress in the work of the board. The first Ukrainian girl is about ready to enter college. In Saskatchewan two closed churches have been reopened. The college at Brandon is the best in its history, with Scandinavian the best students. The best workers in the Swedish churches are from Brandon; that province had fifty-three languages and seventy-two religions and creeds. New churches have been organized. Women, who show special qualifications may be given permission to preach. The convention approved of the action of the correspondence committee. Rev. Mr. Spencer, representing the Lord's Day Alliance, spoke briefly of the work of the board's hands. He urged that each church should have every member canvassed. Seventy-five thousand dollars was asked for a further report was submitted by the nominating committee as follows: To confer with association re plans for meeting, president of convention, secretary of association and two field representatives. Representative of Social Service Board, Rev. W. D. Wilson. To replace Rev. C. W. Rose on an ad hoc committee, Rev. B. D. Knott. Committee to confer with other bodies re overlapping, Rev. E. S. Wilson. LINIMENTS WONT RELIEVE PAIN BETWEEN THE EYES The pain is not rheumatism or neuralgia. Many folks think so—it is due to Cataract, plain ordinary Cataract and it can be cured. Cataract is the name of a wonderful invention that is daily fixing up chronic cases of weak throat, bronchitis and catarrh. Every breath through the inhaler is laden with soothing, healing substances that destroy all diseased conditions in the breathing organs. It can't fail to help, because it goes where the trouble really exists—and doesn't attempt to cure an illness in the head or throat by means of medicine taken into the stomach. There is no sufferer from a grippy cold or any other ailment that won't be cured in Cataract, which is employed by physicians, ministers, lawyers and public men throughout many foreign lands. Large size lasts two months, and costs \$1.99. Small size 50c, same as size 25c, all storekeepers or the Cataract Co., Montreal.

MARITIME BAPTISTS HAD BUSY SESSION IN CONVENTION

Large Number of Reports Received and Dealt With—Social Service Board Made Its Final Report—Despite Depression Receipts for Missionary Work Ahead of Last Year.

Special to The Standard. Fredericton, Oct. 18.—The Maritime United Baptist convention held a busy session this afternoon, a large number of reports being received and dealt with in the devotional exercises. Rev. Dr. Henry Alfred Porter, of Atlanta, Ga., gave his last address before the convention, taking as his subject "The Measure with a Golden Rod." Dr. J. W. Manning closed the service with prayer. Rev. A. J. Prosser presented the report of the Social Service Board, which was the first annual report. The board stands for child welfare, widows' pensions, removal of vice, proper housing, proper domestic relations and temperance. It was resolved that the convention urgently request that copies of the resolutions be forwarded to the daily papers and to the provincial governments of the maritime provinces. The report stated: "Juvenile crime has increased three hundred per cent. during the last twenty years. We recognize that the parents be warned that the dime novels are being duplicated in the questionable thrilling films at the movies, yet we recognize the educational value of the good clean pictures. "The Board asks for the confidence of the convention in order that they may thoroughly investigate the advisability of participation with other bodies in the proposed Maritime Home for Women, and, if satisfied, proceed with the work. "A resolution was carried by the convention: Resolved, Whereas there is overlapping that a committee be appointed to meet the committee of other churches with the purpose of cutting out such overlapping. "The report on the Maritime Home for Girls at Truro was presented. The institution is carried on by four denominations and is for delinquents under sixteen years. Twenty-one girls entered during the year, and sixty-one now are in the home. The new building cost eighty thousand dollars and the loans are almost returned. With but three exceptions girls out on parole have done well. "The report on historical records showed that all records are kept in a bound volume of the institutions at Wolfville. "The report of the committee on resolutions was presented and adopted. "The thanks of the convention was extended to Rev. Dr. Spidel and to Rev. Dr. Porter, of Atlanta, Ga., for his leadership of the devotional services. The convention appreciated the work done by the new Ukrainian Orphans' Home and recommended that the churches of New Brunswick set aside a Sunday on which to take up an offering. Sympathy is extended to the new St. John's and St. Peter's churches, which do not recognize the work done by the board's hands. The Peace River country is opening up and there is need of men there. ORDER RESULTS IN FURTHER BIG MINERS' SPLIT

Kansas Union Defies International Meeting.

Pittsburg, Kan., Oct. 17.—Between 4,000 and 5,000 Kansas coal miners, meeting at Franklin, adopted resolutions upholding the administration of President Alexander M. Howat, suspended yesterday on order of John L. Lewis, president of the International Mine Workers' Union. Resolutions also were adopted declining to recognize the provisional administration created under President Lewis' order to be headed by Geo. L. Peck, local member of the international executive board, and refusing to comply with instructions sent out today by Acting President Peck that all striking miners return to work immediately. About 12,000 miners have been on voluntary strike over the commitment to jail recently of President Howat and August Dorchy, union vice-president, for violating the criminal section of the state industrial court law. Howat and Dorchy are serving six months' sentences in the Cherokee county jail at Columbus. Supporters of the provisional regime, asserted tonight that the Franklin meeting was attended only by friends of the suspended administration and that resolutions recognizing the new administration and voting to return to work, would be adopted at a mass meeting of miners of the southern end of the field to be held at Scammon, later. In the resolution adopted at Franklin, belief was expressed that to recognize the new administration would, in effect, be recognition of the industrial court. The meeting voted to permit the return to work of those miners in Missouri, under the jurisdiction of District 14, it being stated that it was Howat's desire that the fight be carried entirely in Kansas. In an effort to forestall action, said to be considered by Howat and his associates toward maintaining funds of the suspended organization intact, C. O. Pinyer, legal counsel for the international representatives, tonight mailed to all banks in which are the funds notices that cheques signed by

Dyed Her Faded Curtains and a Skirt like New

"Diamond Dyes" add years of wear to worn, faded skirts, waists, coats, stockings, sweaters, coverings, hangings, draperies, everything. Every package contains directions so simple any woman can put new, rich, fadeless colors into her worn garments or draperies even if she has never dyed before. Just buy Diamond Dyes—no other kind—then your material will come out right, become Diamond Dyes are guaranteed not to streak, spot, fade, or run. Tell your druggist whether the material you wish to dye is wool or silk, or whether it is linen, cotton or mixed goods.

TRIPLET CALVES BORN TO PRIZE BABY MILK COW

Dayton, Oct. 18.—An interesting exhibit at the recent fair held in York County and which have been attracting unusual attention from spectators at those events and from residents in the neighborhood of the Lewis Carter farm in Dayton, are the triplet calves, born at the Carter farm on March 3 of this year. The youngsters are in the best of health and are developing into normal growth, promising to be milk producers of the same class as the mother rated among the foremost prize winning producers of the baby food in this section of the Country. The mother cow is a pure bred Holstein, one of a large herd and was valued highly up to the time of her performance in giving birth to the triplets, but since that time she has taken on a value without price as Mr. Carter refuses to part with any cow that produces high grade milk machines in quantities such as this one, as he feels that the animal is a better investment than an interest in one of the United States mines. At the age of three months the calves had attained extraordinary growth. It was about this time when the mother of the triplets in the cattle exhibit at the fair which he did and the entry has never failed to bring home at least one ribbon.

THE OLD STUMP FENCE.
I have found a grassy garden on the
summit of a hill.
Where an old stump fence grows
Where the grey pine trees are standing
very wise and very still,
While they spread their thoughts
to mellow in the sun,
Where the wind crawls up the hill-
side through the tawny curving
grass,
And tumbles past the hill crest
to clouds,
There's a place for learning
words that very often pass
between the quiet earth and friend-
ly clouds.

TWO SEPARATE COLLARS

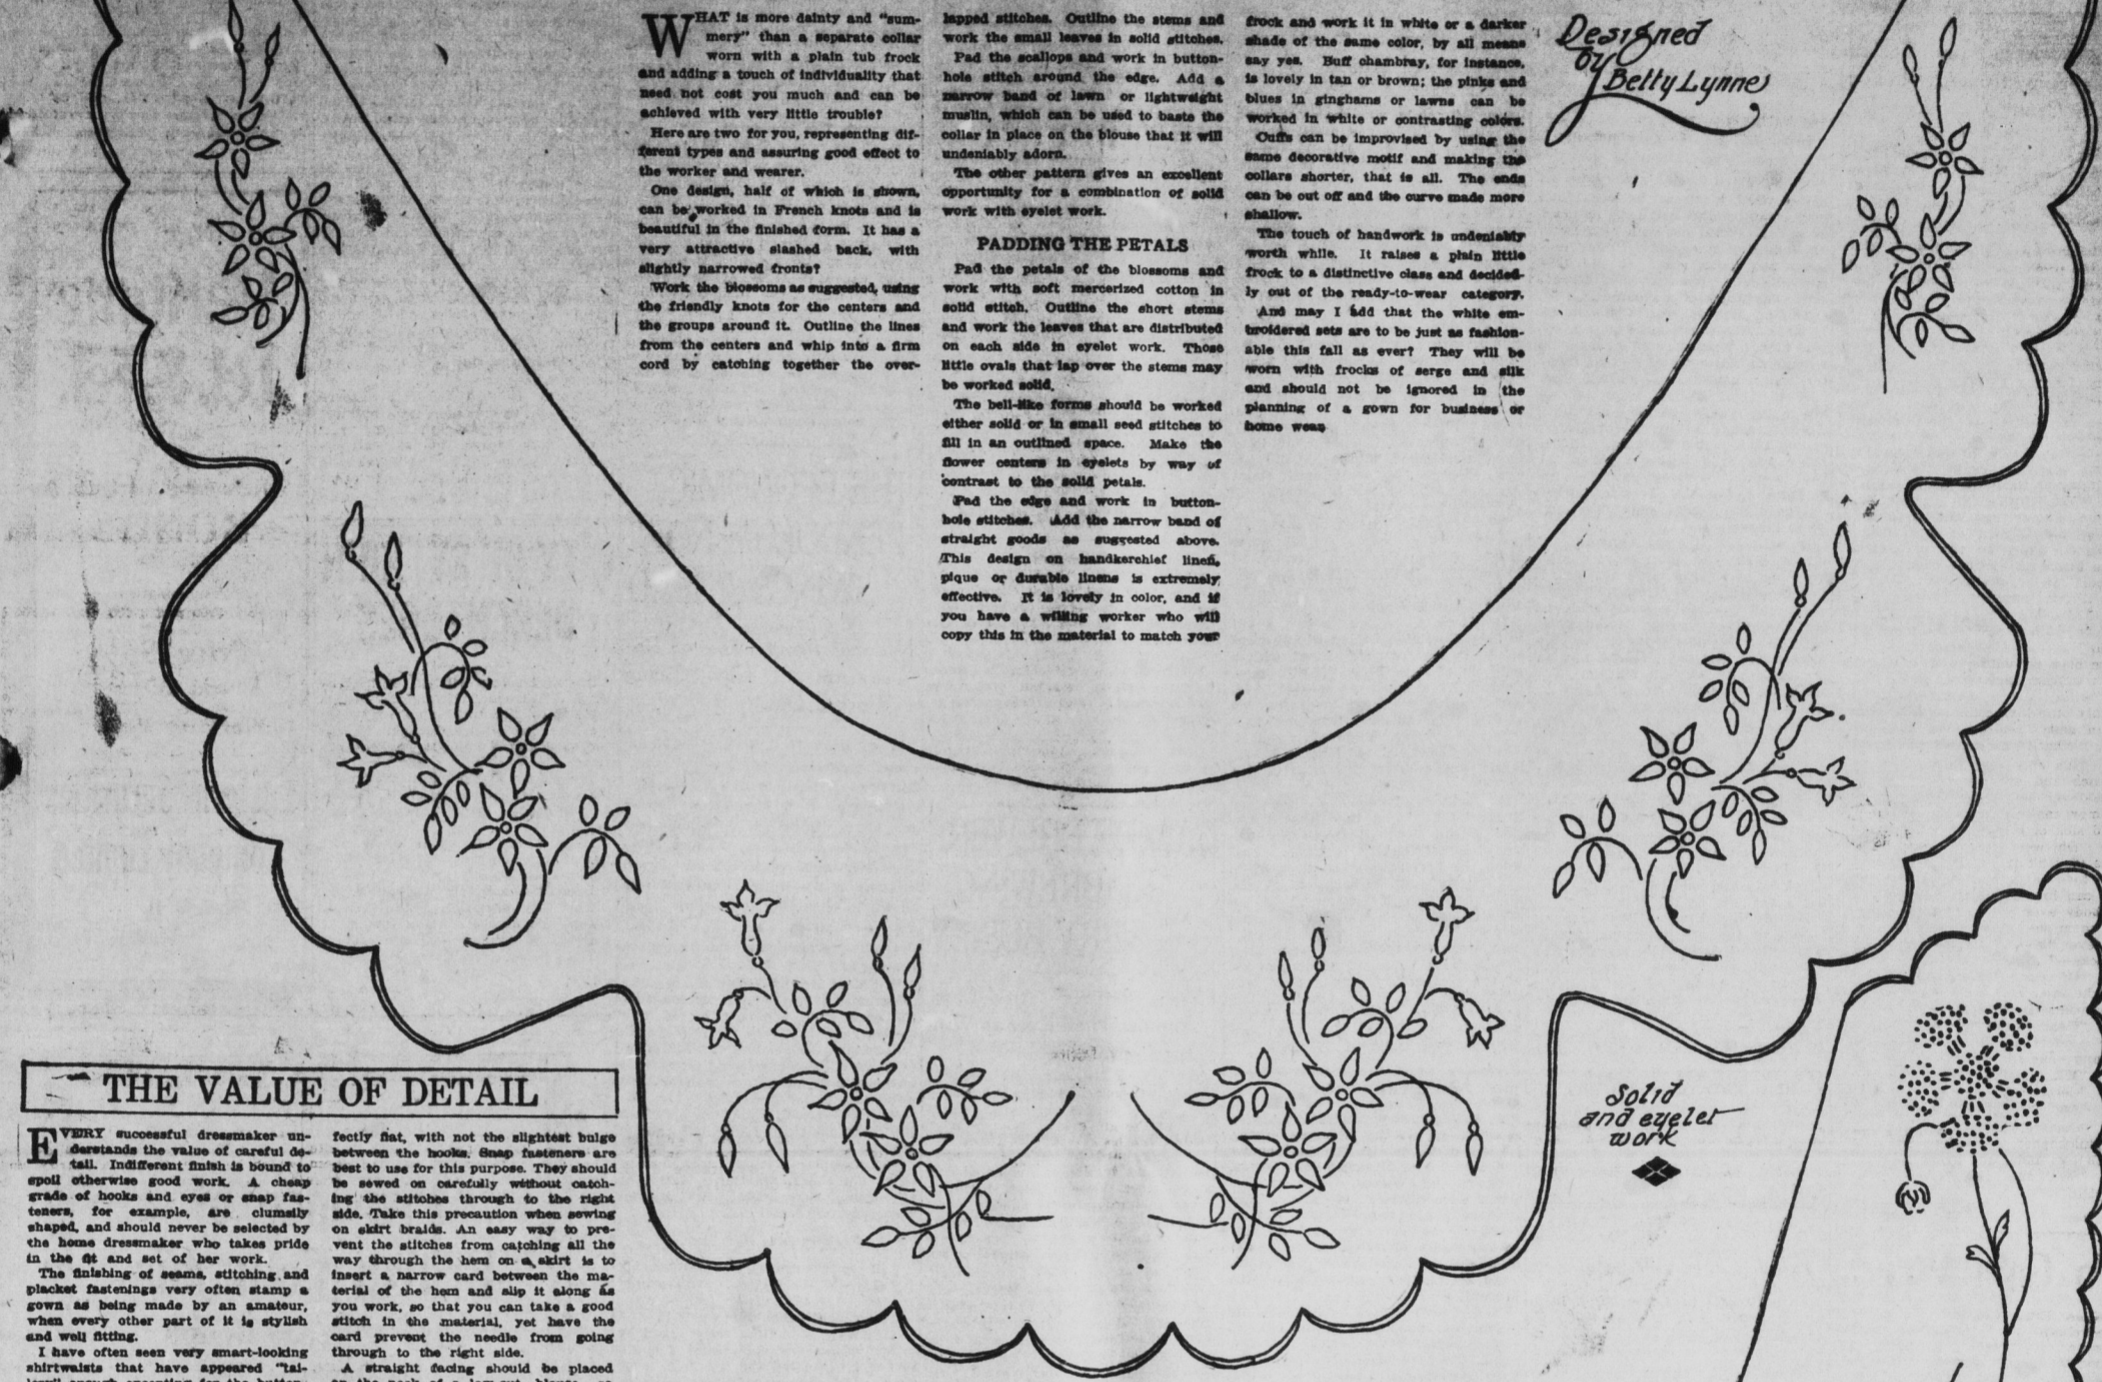

Designed
by Betty Lynne

WHAT is more dainty and "sum-
mery" than a separate collar
worn with a plain tub frock
and adding a touch of individuality that
need not cost you much and can be
achieved with very little trouble?
Here are two for you, representing dif-
ferent types and assuring good effect to
the worker and wearer.
One design, half of which is shown,
can be worked in French knots and is
beautiful in the finished form. It has a
very attractive slashed back, with
slightly narrowed fronts.

**Work the blossoms as suggested, using
the friendly knots for the centers and
the groups around it. Outline the lines
from the centers and whip into a firm
cord by catching together the over-
lapped stitches. Outline the stems and
work the small leaves in solid stitches.
Pad the collars and work in button-
hole stitches around the edge. Add a
narrow band of lawn or lightweight
muslin, which can be used to fasten the
collar in place on the blouse that it will
undeniably adorn.
The other pattern gives an excellent
opportunity for a combination of solid
work with eyelet work.**

PADDING THE PETALS
Pad the petals of the blossoms and
work with soft mercerized cotton in
solid stitch. Outline the short stems
and work the leaves that are distributed
on each side in eyelet work. These
little oval that lap over the stems may
be worked solid.
The bell-like forms should be worked
either solid or in small seed stitches to
fill in an outlined space. Make the
flower centers in eyelets by way of
contrast to the solid petals.
Pad the edge and work in button-
hole stitches. Add the narrow band of
straight goods as suggested above.
This design on handkerchief lined,
plique or durable linens is extremely
effective. It is lovely in color, and if
you have a willing worker who will
copy this in the material to match your

The touch of handwork is undeniably
worth while. It raises a plain little
frock to a distinctive class and decidedly
out of the ready-to-wear category.
And may I add that the white em-
broidered sets are to be just as fashion-
able this fall as ever? They will be
worn with frocks of serge and silk
and should not be ignored in the
planning of a gown for business or
home wear.

THE VALUE OF DETAIL

EVERY successful dressmaker un-
derstands the value of careful de-
tail. Indifferent finish is bound to
spoil otherwise good work. A cheap
grade of hooks and eyes or snap fas-
teners, for example, are climaxes
shaped and should never be selected by
the home dressmaker who takes pride
in the fit and set of her work.
The finishing of seams, stitching, and
patches fastenings very often stamp a
gown as being made by an amateur,
when every other part of it is stylish
and well fitted.
I have often seen very smart-looking
shirtdresses that have appeared "tal-
lor" enough excepting for the button-
holes; but once you caught sight of
these you knew they were worked by
the rankest novice.
A well-made buttonhole should be
perfectly flat, and the edges should lie
close together, touching each other
when unbuttoned. The end of the but-
tonhole toward the outer edge of the
box pleat should be rounded, while the
other end should be drawn close to-
gether with a few stitches worked over
and over. Buttonholes should not be
worked with too coarse thread. This is
a mistake that many dressmakers make,
and the result is a thick, clumsy-looking
buttonhole that gaps apart like a
pig's eye—always open. Use medium
fine waxed thread, single, never dou-
bled, and begin to work at the end of
the hole furthest from the edge of the
material. Then take the stitches very
close together, the width of the thread
apart and a little less than an eighth of
an inch away from the opening. Work
straight ahead until you reach the other
end of the opening; then work around
it as you would if making an eyelet.
Now continue to the starting point, and
when you reach it take three or four
stitches over the end and secure the
thread on the wrong side before cut-
ting it.
An important point to observe while
working is to keep the cut edge close
together; then you will have no trouble
with a gaping eye.
When buttonholes are cut parallel to
the edge of the material, begin at the
lower end of the cut edge to work.
When sewing on hooks and eyes, be
sure that the bill of the hook is placed
at least a quarter of an inch back from
the edge of the goods. Then sew them
fast with double waxed thread, catch-
ing it through the loops for that pur-
pose and two or three stitches under
the bill, so that it will not work loose
at the edge. The eye must be placed
a quarter of an inch back from the
edge and sewed down flat.
The raw edges of seams should be
either bound with fine silk seam-binding
or carefully pinked on the edges by
snipping them in little V-shaped pieces
with the scissors. If you are working
with material that frays badly, such as
serge and some of the heavy woven
silk and woolen materials, all seams
should be covered, or "whipped" on
the edge. The armbands of an unlined
waist should be bound, and those of
a lined bodice whipped.
If an inside belt is used to hold the
bodice down at the back, attach it to
the inner seams at the back with the
catching worked in silk. Sew silkings
in under the arms by catching them
lightly at each end, and so the sleeve seam
and in the center of the lower portion
next the waist to the edge of the un-
derarm seam.
Finish the placket so it will lie per-

fectly flat, with not the slightest bulge
between the folds. Snap fasteners are
best to use for this purpose. They should
be sewed on carefully without catch-
ing the stitches through to the right
side. Take this precaution when sewing
on skirt bands. An easy way to pre-
vent the stitches from catching all the
way through the hem on a skirt is to
insert a narrow card between the ma-
terial of the hem and slip it along as
you work, so that you can take a good
stitch in the material, yet have the
card prevent the needle from going
through to the right side.
A straight facing should be placed
on the neck of a low-cut blouse, so
that it will not stretch out of shape;
but if you want a full curve, it will be
necessary to face the edge with a nar-
row strip of bias material, stretched to
fit the curve.
Take great pains with all handwork
to have the stitches small and neat,
and when stitching on the machine, use
the guide that comes for that purpose
to keep the rows of stitching straight
and an equal distance from each other.
See that every little detail of the
gown is finished carefully and you will
be repaid for your trouble by the praise
of your friends.

How to Transfer
HERE are suggestions for trans-
ferring the pattern before you
use any material before working.
Perhaps the easiest way is the "win-
dow-pane" method. This is successful
when the material is thin, like linen,
batiste, etc. Pin the sheet of paper
and the material together and hold
them up against the glass of a win-
dow. With a sharp pencil draw on the
material the design, which can be easily
seen through the goods. If one-half of
the design only be given, unpin the
paper and turn the other side to the
fabric. The strong light behind will
make it plain.
If you have carbon paper, you should
place the sheet between your fabric and
the newspaper. This latter is on top.
With a sharp pencil go over the outline
of the design. The impression will be
left in fine lines and will last until
worked. This method is successful on
heavy material.
The last way is also easy. On wax
paper or ordinary tissue paper trace
the pattern before you. When the de-
sign is completed, turn over the paper
and outline the pattern with a heavy
lead pencil. Then place the design
down on the fabric and redraw the out-
line, pressing hard with the pencil. The
pattern will be transferred without dis-
culty.
Surely the way is easy.

MAKING A TAILORED BLOUSE
THOSE tailored blouses are so
smart. I should love to have
one, but if I buy one, already made,
they are so expensive that I will
not be able to afford more than
one blouse this season, and I
need several. If I could only make one
myself! And the little woman, who
stood next to me at the counter where
linen shirtdresses were sold, sighed
deeply as she carefully smoothed the
crisp folds of the "smart" tailored
blouse she so much admired.
"Do you make your own blouses?" I
inquired.
"Yes," she said; "but I have always
been afraid to attempt a tailored model,
they look so hard to make. I am afraid
I could not put on the cuffs, the collar-
band and the yoke properly. This one
has tucks in the front—I know I never
could get them right." So while I wait-
ed for my change, I explained to her
just how to go about the making of a
tailored blouse.
"First," I said, "select a fine, close-
woven linen, not too heavy, but one that
will take the starch nicely when it is
laundered; then before you cut into it
soak it overnight in cold water, let it
get almost dry, then iron it out smooth
until it is perfectly dry.
"This shrinks the linen so that it can
be made up without fear of shrinking
the first time it is laundered.
"Now measure off the lengths of the two
fronts. Leave this in one piece,
allow a two-inch margin on one side for
the box pleat, and tuck the material in
the size tucks you want—one inch on
one and a half is the most popular
width. This done, measure off a length
for the back and add tuck that; or, if you
wish, leave it plain and add a yoke like
this one has.
"Of course you must purchase a pat-
tern the size that will fit you; then fol-
low the directions on the wrapper as to
the proper way to lay the pattern on the
material. Pin it firmly in place and cut
out, being careful to mark the material
with notches as is the pattern.
"Double the tucked material for the
fronts and lay the pattern on it so that
the first tuck will be about one inch
away from the box pleat when it is put
on—one inch from the edge of the
pattern, understand, but an inch from
the box pleat. The pleat is made sep-
arate from the waist and stitched in
place after the waist has been fitted.

"Then the back and sleeves are cut,
and from the pieces left come the cuffs,
yoke, collar, box pleat and belt."
"Cut the neckband, collar and cuffs
double; the cuffs should have an inter-
lining of heavy linen that has been
shrunk before using. Now baste
shoulder and underarm seams, taking
up one-half inch and matching the
notches; but make the shoulder seam on
the right side instead of on the wrong,
if you are using the yoke.
"Try the blouse on, and if there are
any alterations to make in the fit of the
sleeves, they can easily be made at
this time.
"Pin a tape around the waist line over
the blouse, and to the tape pin the
blouse in place around the waist, and
stretch the fullness in the center of the
back and a little to each side of the
center of the front.
"The box pleat is then pinned on. This,
of course, is just a strip three inches
wide, turned in one-half inch on each
edge and placed on the right-hand side
of the front.
"This done, slip the waist off and
stitch the seams in place; but first, if
you are using the yoke, that must be
basted in place on the back along the
lower edge and the shoulder seams left
open, so that it can be turned in and
stitched to cover the seam of the waist
on the shoulder that is turned back to
slip under the yoke.
"Should the armhole be too large, take
the underarm seam in a little, and if
the neck has the same fault, take it up
on the shoulders. These details you
will have to overcome when fitting
the first time; then, if all is well, you
can stitch the seams, making a French
seam under the arm; that is, stitch a
very narrow seam on the right side and,
turning it, stitch a wider seam on the
wrong side, so as to take in the edges
of the narrow seam.
"The tape is basted in place and
stitched on both edges and the bottom
of the waist is finished with a narrow
hem. Now the neckband must be ad-
justed. If the standing or stiff collar
is to be worn, lay the neckband sections
with the right sides together and stitch
along the top edge, then turn it right
side out and baste one edge—the inner
one—in place around the neck of the
blouse. Try on the blouse and see that
the collarband fits well, then turn it
in the outer edge and stitch in place.
The sleeves are slashed at the indi-
cations marked on the pattern. Finish the

back edges in the slash with an under-
lap one-half inch wide completed, and
the front edge with the overlap of the
pattern. Sew this shorter side of the
slash in a very narrow seam, with the
edges on the right side; then turn the
lap over and baste it flat to the sleeve,
finishing the edges neatly, making a
good point at the top. Stitch the sleeve
seam, finished. Then gather the lower
edge each side of the slash. The cuffs
are then made ready to attach to the
sleeve, placing the right sides together
and the interfacing against one of them.
Stitch along the lower edge and ends,
and then turn the cuff right side out.
Stitch the outer edge of the cuff and
the interfacing to the lower edge of the
sleeve. Baste the inside section in place,
run a stitching all around the cuff, and

with the notches matching, try on and
see if they set all right; then stitch in
and bind with a narrow bias strip of
linen.
"Stitch the little patch pocket on the
left side of the front if you are making
a plain-front waist.
"There you have it, and it is not so
hard after all, is it?"
"No," beamed the little woman. "I
shall go right home and make one for
myself after I purchase a pattern, for I
have a large linen bolster case that was
mother's that will be just the thing to
practice on. Thank you so much for
telling me how to do it. Goodby.
Thank you again."

When Winding Wool
WHEN winding wool for croch-
et or knitting, begin the ball
by winding the thread over the
tag that comes with the skein. This
will save trouble in starting the ball
and also trouble when more wool is
needed, as the tag has the number and
size of the thread on it, and will be
there when the end of the ball is
reached, and will serve as a guide for
the person who uses the last of that
ball. Always mix the tags of silk em-
broidery, thread and cotton and linen
threads, for crocheting for this same
purpose.

with the notches matching, try on and
see if they set all right; then stitch in
and bind with a narrow bias strip of
linen.
"Stitch the little patch pocket on the
left side of the front if you are making
a plain-front waist.
"There you have it, and it is not so
hard after all, is it?"
"No," beamed the little woman. "I
shall go right home and make one for
myself after I purchase a pattern, for I
have a large linen bolster case that was
mother's that will be just the thing to
practice on. Thank you so much for
telling me how to do it. Goodby.
Thank you again."

with the notches matching, try on and

and bind with a narrow bias strip of
linen.
"Stitch the little patch pocket on the
left side of the front if you are making
a plain-front waist.
"There you have it, and it is not so
hard after all, is it?"
"No," beamed the little woman. "I
shall go right home and make one for
myself after I purchase a pattern, for I
have a large linen bolster case that was
mother's that will be just the thing to
practice on. Thank you so much for
telling me how to do it. Goodby.
Thank you again."

THE STANDARD'S FINANCIAL SECTION

New York Market Quietly Strong On Yesterday's Trade

Money Was on Decline,
Dropping from Five to Four
Per Cent.

New York, Oct. 18.—The market remained quietly strong during the afternoon, with no special news of any kind or any new developments occurring to affect prices other than the decline in the price of money, which dropped from a renewal rate of 5 per cent. to 4 per cent. American Sugar remained an exception to the general strength of the market, the common stock selling down to the lowest price in its history and the preferred going down to a much smaller scale. The price touched in recent years. In the late dealings, Pullman sold in considerable quantities and declined sharply below 85.

PRICES REACTIONARY MONTREAL MARKET, SHARP TONE RECEDED

Ontario Steel Vulnerable to Attack, Breaking to a Large Net Loss—Other Leaders Suffered Losses.

Special to The Standard.

Montreal, Oct. 18.—Developments in the general stock market situation which occurred over the past week-end and yesterday, when the local stock market was closed, had some influence upon the general list with resumption of trading this morning. Prices were more reactionary than at the close last Saturday, and here and there a fairly sharp loss was recorded.

The pending railroad strike in the United States would have quite a serious though temporary effect upon the situation there both as regards industry and commerce, and such a development might find reflection in Canada, or at least make for uncertainty. This seemed to be the line of thought among traders this morning, although there was little selling apparent except for profit on recent purchases here and there, and as the day wore on nervousness disappeared and prices tended to recover.

Ontario Steel proved vulnerable to attack during the morning, the price breaking to a fairly large net loss. It was reported on the street that liquidation was caused by some doubt as to the dividend position of the stock, although the people close to the company stated that the dividend was being earned by an easy margin. The stock opened softer at 49, following which it fell to a low on the reaction at 46. It firmed to the close ending the session at 47 with a net loss of 5 points. In the afternoon the stock was offered at 49 but only 20 shares were taken.

National Breweries suffered somewhat from profit-taking sales, although the business consummated during the morning was small as compared with the closing days of last week. It opened at 55 1/2 and sold off to 54 1/2, leaving a net loss of 1 1/2 points.

Detroit United, one of the strongest issues on the list in recent trading, also suffered during this morning, the price falling off from 76 to 74, this leaving a net loss of 2 points, in the forenoon, but the afternoon brought a half way recovery to 75 1/2.

British Empire Steel 2nd pfd., was also easier, the net loss at the close being 1 1/2 points with the stock ranging at 22 to 21 1/2. Car preferred was also down to a new low on the decline at 48, a net loss of a point and a quarter.

Other stocks closing with net losses included: Brompton 20 1/2 down 1/2, Quebec Ry. 24 1/2 down 1/2, Winnipeg Falls 87, down 1/2, Astibi was one of the more active issues during the morning, the price holding steady and up 1/4, at 31 to 31 1/2.

Steamships pfd. was also fairly prominent with stock coming out at 61 1/2 to 61, unchanged. Asbestos held firmly at 52 1/2 to 53, unchanged.

Braslian 24, unchanged. Cal. Cottons 75 1/2, Bell Tele. 106 1/2 up 1/4, Conventors 70, unchanged. Textile 136 1/2 up 1/4, Toronto Ry. 71, unchanged. Rioron 3, unchanged. Macdonald 14, Can. Gen. Electric 93 1/2, unchanged. Dom. Canners 28 1/2, up 1 and Asbestos 53 and Asbestos PM 74.

The afternoon feature was the appearance of a couple of 200 share blocks of Canadian Car common at 20 and 19 1/2. Loyal, which in the forenoon dipped to 62, recovered to 63, down a net half point.

Dominion Glass was softer at 61 to 61 1/2. Dominion Bridge which eased off 1/2 in the forenoon closed with a net gain of 1/4 at 77 in the afternoon.

Spanish River came out at 55 1/2 to 56, and Spanish preferred up a fraction at 67 1/2, after an early fractional loss. Montreal Power bordered to 85 1/2.

Detroit United, one of the strongest issues on the list in recent trading, also suffered during this morning, the price falling off from 76 to 74, this leaving a net loss of 2 points, in the forenoon, but the afternoon brought a half way recovery to 75 1/2.

British Empire Steel 2nd pfd., was also easier, the net loss at the close being 1 1/2 points with the stock ranging at 22 to 21 1/2. Car preferred was also down to a new low on the decline at 48, a net loss of a point and a quarter.

GOSSIP AROUND THE MARKETS

The Boston Elevated Railroad on Nov. 24th will put in an experimental plan of five cent fares on 13 more of its lines. This is in line with other street railroads of the country of reducing fares along their lines.

Soft coal production was still gaining at latest accounts, the output for the week ending Oct. 1 being 9,576,000 tons. This is the fourth consecutive gain since the first of September, still the industry has yet a long way to go to equal outputs of other years.

Unemployment was shown to be decreasing in a number of the more important cities of Illinois this past week.

Generally favorable soil conditions prevail in the winter wheat country according to the latest reports. Most of the seedling has been finished in the Southwest and the stand is generally good in Western Kansas.

Dividends Declared

Special to The Standard.

Montreal, Oct. 18.—Dividends declared: Montreal Power Cons., regular quarterly 1.4 per cent, payable November 15 to stock record of October 31.

Montreal Light, Heat and Power, regular quarterly 2 per cent, payable November 15 to stock record of October 31.

Cedars Rapids, regular quarterly of 1 per cent, payable November 15 to stock record of October 31.

BANGOR BREWERS ARE BREWING VERY BUSILY

Home Mixtures Are More Popular Than Ever as Winter Approaches.

Bangor, Oct. 18.—This is the season of the year when Bangor home brewers are brewing a brew that in quantity, quality and influence far exceeds any mixture they have concocted during the great few months of torridity. A long, cold winter is coming, local people believe, and they are taking the necessary precautions to fortify themselves against the wintry blast.

Grocery stores which deal in malt, hops, yeast and brown sugar, and most of them do, report that there is a great demand for these products. Concord grapes are also greatly in demand, and everyone knows that grapes when properly treated, will make an appetizing concoction that is neither jelly nor grape preserve. Italians are famed for their skill in making grape wine but grapes are scarce this year and they are not making as much as they have in past years.

There is something new in the home brew line in local grocery stores which is making a great hit with numerous families. It consists of a concentrated essence of malt and hops, which when treated with lukewarm water, brown sugar and a portion of a yeast cake, will in the course of time develop an odor and taste that is said to be reminiscent of East India rum and other beverages blacklisted by the Volstead Act.

It is no longer necessary to be a master of chemistry and domestic science to manufacture a creditable home brew. All the home brewer has to do is follow the instructions printed on the can, and if his wife doesn't empty the embryo seeds into the kitchen sink in his absence, he will have his winter's supply of pneumonic prevention manufactured within a week's time.

Some old timers still stick to the plan of mixing their concoction in a barrel, however, and grocery stores are frequently visited by men who order liberal quantities of malt, hops, brown sugar and raisins. And as they are leaving the store with their bundles they often turn around and say: "Oh, yes, I need a yeast cake, too."

Prices of genuine hooch are continually fluctuating, say those who know. Certain quantities of Canadian liquors have been obtained here for \$6 a quart, but probably the lowest quotation for the so-called "good stuff" is \$8 a quart. Of course, the procuring of liquor in Maine is entirely an underground procedure, no physicians being licensed to prescribe it and no druggists being licensed to dispense it. But it is said that there is more or less traffic in intoxicating beverages here, nevertheless.

Many ideas are told in Bangor of the ways and means which are used for the unlawful transportation of liquor from Canada to Maine and Massachusetts. Some of the stories are almost unbelievable with endorsement officers but the majority of them tell thrilling narratives of their skill in avoiding the officers.

One Maine man crossed the Canadian border recently with two cases bottled in the roomy sleeves of a fur coat. Others decorate high class beverages in hollow cans and in other unobvious-looking containers. The value of the booze isn't so much, they say, but the thrill of smuggling it through is worth a great deal.

Flour Takes Another Drop of Fifty Cents

This Followed by Milling Companies After Drastic Decline in Wheat Market.

Special to The Standard.

Montreal, Oct. 18.—Flour is down fifty cents a barrel, today. A reduction of this amount is reported by Milling Companies following the drastic decline in the wheat market.

Royal Household Flour is now selling at \$7.90 per barrel. Its previous price was \$8.40. Glenora flour is selling at \$7.40, a reduction of a similar figure from \$7.90. Pastry flour is also down 50 cents from its former price of \$8.90 to \$8.40. Imperial flour is down \$5.10 to \$4.60. A reduction of 50 cents in bran, the price now is \$22.25. Shorts are also down 50 cents to \$24.25. Middlings are selling at \$27.25, being reduced from \$31.25.

THE ECONOMIC PENDULUM NOW SWINGS AHEAD

National Programme of Re- adjustment Now Being Worked Out.

Washington, D. C., Oct. 18.—The national programme of economic readjustment outlined by the Washington conference on unemployment today was being worked out by manufacturers, workers, farmers, bankers, business men and public officials in all sections of the United States, it was shown in telegrams and letters pledging co-operation which poured into the office of Secretary of Commerce Hoover.

President Harding, recipient of many telegrams expressing the opinion that the conference achieved a real and lasting result.

Secretary Hoover and Cabinet members were conferring tomorrow in business men and officials anxious to co-operate in the movement.

Mr. Hoover took some time selecting the permanent committee on economic readjustment which will undertake to direct the entire nation in the effort to carry out the programme. Names of the committee members will be announced later.

Freight Rate Reductions.

Railway executives, Federal officials noted with satisfaction, are expected to discuss reductions in freight rates at the conference tomorrow in Chicago. Rate reductions were urged by practically every conference committee which studied the business situation. Although more than 30,000 reductions already are estimated to have been put into effect, these deal mainly with sectional shipments.

Reductions also have been put into effect on the part of the country for basic commodities like coal, iron ore, lumber, vegetables, sand and gravel and other building materials, freight for export and the like. Many more reductions are expected to be made by the Federal Farm Loan Board farmers are to receive other financial assistance in the shape of long term credits.

CHANCERY COURT

In the Chancery Court yesterday morning, Mr. Justice Grimme presiding, the case of George vs. Georgia, and the case of Marianne Nall Co. vs. Sloan and Wilkes, executors, vs. Sloan were allowed to stand. The case of Fenton vs. Kelleher, which was taken up for trial at 10:30 a.m. in the matter of Daley vs. McDade et al application was made by M. G. Teed, K. C., to have it stand for the present.

B. S. Smith applied for judgment by default of appearance in the case of Jennie E. Lobb vs. James McDevitt, et al. The case was set for trial on the 27th of November to have been served, the principal being \$1,800. Further documents were called for before the order would be granted.

The case of Lewis vs. Barnett was again before the court, largely to have a decision given to determine the boundary line between two properties in Peterborough, Quebec, N. B. This case was decided on appeal to the Supreme Court last fall and is now handed back to the local court for settlement of the line question. Evidence was taken in the matter yesterday morning, G. H. V. Belyea, K. C., acted for plaintiff.

Reclamation Work.

In the West the Federal and State Governments are co-operating in pushing reclamation work. With authority from Congress these jobs can be made to care for 40,000 unemployed, according to the findings of the conference at the Capital today several Senators and Representatives stood ready, they said, to introduce measures authorizing this work.

Road building totalling millions is being contracted for in many States, especially in the South, where such work can proceed all winter. Contractors from all sections of the country are sending bids to the Carolinas, two States leading in the work.

In the building trades workers and employers of a dozen cities are negotiating new wage scales at lower rates intended to stimulate building. New Orleans reports that building contracts are being let at a rate double that of a year ago.

Reports to the Federal Reserve Board seem to indicate that a building boom is developing in many sections. Both the number of contracts and their value are on the increase in New York, Philadelphia and other large cities.

CITY OF ST. JOHN DEBENTURES

Sealed Tenders will be received by H. E. Wardrop, Common Clerk, addressed to him, until noon of Friday the 28th day of October inst. for the purchase of the following debentures, viz:—

\$846,000.00 dated 1st November 1921, due 1st November, 1931, bearing 6 per cent interest payable half yearly.

Interest and principal payable in St. John, Montreal or Toronto at his option.

Denominations \$500 and \$1000. The City does not bind itself to accept the highest or any tender.

Dated St. John, N. B., October 17th, 1921.

E. A. SCHOFIELD, Mayor.

CLASH OVER
KILLING OF
BOOTLEG

New York Official Will Hold Seized Li

Ogdensburg, N. Y., Oct. 18.—Attorney William D. Ingraham Lawrence county announced that he would resist any Federal authorities to take possession of the large quantity of liquor in connection with the investigation into the death of Wilbur Hunt bootlegger.

Hunt, riding in an automobile being pursued by Charles State trooper, and Henry Collector of Customs for the district of New York, riding another car, when the State trooper fired the shots that hit him, both he and Collector were under arrest on charges of manslaughter.

Collector Holland declared that he volunteered to submit in order that a thorough investigation might be made of the case.

CLASH OVER THE KILLING OF A BOOTLEGGER

New York Official Says He Will Hold Seized Liquors.

Ogdensburg, N. Y., Oct. 18.—District Attorney William D. Ingram of St. Lawrence county announced tonight that he would resist any attempt by Federal authorities to take possession of the large quantity of liquor seized in connection with the investigation into the death of Wilbur Hunt, alleged bootlegger.

Hunt, riding in an automobile, was being pursued by Charles Spink, a state trooper, and Henry Holland, Collector of Customs for the northern district of New York, riding together in another car, when the shooting took place. Trooper Spink was admitted firing the shots that killed Holland, but both he and Collector Holland were under arrest on technical charges of manslaughter.

Collector Holland declared tonight that he volunteered to submit to arrest in order that a thorough investigation might be made of the affair.

Two To Four Years For "Clubber" Tighe

Policeman Who Abused Score of Persons is Jolted by Sing Sentence.

New York, Oct. 18.—Charles Tighe, the "clubber" policeman, who ran amuck during a raid and assaulted several persons, including women, was visibly jolted yesterday when Judge Crain, in Special Sessions, told him he must serve between two and four years in Sing Sing prison. Friends of Tighe had encouraged him to look for a light penitentiary sentence. He was found guilty a week ago of assault in the second degree.

Judge Crain said he intended the sentence to serve as a warning to all members of the police force that they must respect the rights of citizens in the performance of their duties, and keep within the limits of the law.

Tighe, who lives at 2743 Eighth avenue, is married and has one child. He is 32 years old. His counsel, Samuel Puzantzenberg, called several character witnesses, and asked leniency on the ground that Tighe had lost his place on the force as the result of his actions, and that he had hurt no one seriously.

The assault was committed July 23, when as a member of Chief Inspector Lahay's staff Tighe conducted a raid on a saloon at 600 Ninth avenue, which was suspected of being a gambling den.

The complaint was Mrs. Emma Lennon of 261 West Fifteenth street, one of twenty persons arrested by Tighe during the raid.

Judge Crain said to Tighe: "Your conduct was unmanly and unbecoming a police officer. You threatened and abused other people, at least one other woman. In all likelihood you were under the influence of liquor—and that is the most charitable explanation of your conduct. Your record on the force is a bad one and I am surprised that you stayed on it so long."

HOME BREW RAIDS ARE CALLED OFF INDEFINITELY

Tests Will be Made in Cases Where Seizure of Material is Involved.

Washington, D. C., Oct. 18.—An expected order to State prohibition directors directing raids on sellers of home brew materials, has been indefinitely held up by Prohibition Commissioner Hayes.

A semi-official statement from the prohibition unit yesterday gave the impression that the next step would be a cleanup of stores handling malt extracts and other materials used in home brewing.

The suggestion that a drive on home brewers might become nationwide followed a few arrests here of dealers in home brew ingredients, but the arrests and seizures were not intended to be general. Most dealers were unmolested. Only five dealers were taken into custody and their stocks confiscated. Moreover, a hundred stores are distributing home brew ingredients in Washington.

Inquiries as to the attitude of the Government toward individuals selling home brew materials elicited an official statement that Mr. Hayes had not yet decided that an order to directors would be necessary and probably may defer this step indefinitely.

There is grave doubt among some of the Treasury's legal advisers whether the few cases against the home brew manufacturers will stand the test of the courts. It is possible that officials will await the outcome of some of these cases. One of them at least may be appealed to the Supreme Court of the United States.

In one case the accused, whose entire stock of goods, worth several thousands of dollars, was seized and carted to the warehouse of the prohibition unit, several of Washington's able lawyers were retained and are preparing a case for appeal.

The view of some officials within the prohibition organization is that it would be unwise at this time to stage a drive against home brewing. Even some prohibition officials who hold that home brewing is technically illegal strongly urge that other and more important phases of the enforcement problem are presenting themselves and should be dealt with by enforcement officers.

J. M. Doran, chief of the chemical division of the prohibition unit, said: "I would quite as readily order a drug store or doctor's office and blindfolded drink the contents of bottles on shelves as to sample average specimens of bootleg liquor that come to me officially for analysis. Less than 2 per cent. is to be discarded. There is scarcely any actual whiskey or gin being peddled by boot-leggers. All sorts of alcohol enter into the concoctions and the startling number of deaths in all parts of the country indicate that some of the alcohol being used is of the poisonous variety.

"As to home brew, the unsanitary method usually employed will develop a general popularity. As to official data of deaths from poisonous liquor, it is impossible to secure such records, for the chief reason in many instances relatives and others either suppress or make deceptive reports. Hundreds of fatalities and poisonings have occurred the past year."

Tobacco Raising in Palestine Is A New Industry

Sir Samuel Predicts Big Growth of Project.

New York, Oct. 18.—Cultivation of tobacco has been begun in Palestine and Sir Herbert Samuel, high commissioner of the mandatory under the League of Nations, reports to the British government that the new industry will become one of the most flourishing of the country. Tobacco growing in the Holy Land formerly was prohibited.

Several cigarette factories are being built and the manufacture, as well as the cultivation of the weed, promises to contribute a large part of the mandatory's income.

Sir Herbert's report, a copy of which has been received by the League of Nations news bureau here, predicts that if Palestine as a whole is properly developed, it should enjoy a prosperity greater than ever before.

The public school system is developing rapidly and will be extended over the entire country within four years, Sir Herbert declares. Any town or village requiring a school may now obtain one at the expense of the government, merely by furnishing a suitable building and contracting to keep it in repair. Teacher's salaries and maintenance costs are paid by the government out of general tax revenues.

The report received by the League of Nations news bureau here, says that more than 10,000 Jewish immigrants have entered Palestine since the war. The importance of its geographic position as a possible center for the commercial traffic of the larger countries surrounding it is pointed out in the report.

"Within the limits of the province," Commissioner Samuel said, "it offers the varieties of soil and climate of a continent." Since the beginning of the Zionist movement, 64 Jewish agricultural settlements have been established, which are becoming prosperous.

This entire population according to the report, is about 700,000 or less than the population of the province of Galicia alone in the time of Christ. Four-fifths of the population are Moslems. There is a small percentage of genuine Bedouin Arabs while the rest, although they speak Arabic and are termed Arabs, are largely of mixed race. There are 77,000 Christians, the majority of whom are members of the

CHAUFFEUR IS HELD IN ATTACK ON STUDENT

Negro Suspected of Shooting Maria Lyon, Goucher College Student.

Baltimore, Oct. 18.—Samuel Smith, a negro chauffeur employed by William J. Flannery of Catonsville, was arrested this afternoon and is being questioned tonight concerning the attack yesterday on Miss Maria Lyon, of Glen Ridge, N. J., a student at Goucher College, by a negro who invited her to ride in the automobile he was driving as she stood waiting for a trolley car.

Miss Lyon was shot four times while she was trying to escape from him and by the Maryland General Hospital. One bullet struck her in the mouth, one in the head, one in the neck and the fourth in her left arm. The attack was made in a quarry field at a lonely point on Glen Spring avenue.

Miss Lyon will recover. She explained them by saying he had stumbled into a barbed wire fence.

Wipes of human hair were found about one of the buttons of a coat hanging near Smith. Clinging to the coat also were burns. The police accused Smith of having got them on the coat in the field where Miss Lyon was attacked. When the coat was shown to Miss Lyon, she could not recognize it.

Smith's employer puts entire confidence in him. He informed the authorities tonight that as soon as he heard that a negro chauffeur was being sought, he questioned Smith in great detail and became convinced he was innocent.

Pontoon Bridge Plan Over Hudson Given Up

Lasker's Conditions Impossible, Says Projectors.

New York, Oct. 18.—The project of building a pontoon bridge across the Hudson, from Tompkins to the wooden ships, has been abandoned. It met with great opposition, but according to George A. Post, president of the company which backed the proposal, this was not the cause of relinquishment.

Mr. Post said the project of building a pontoon bridge across the Hudson, from Tompkins to the wooden ships, has been abandoned. It met with great opposition, but according to George A. Post, president of the company which backed the proposal, this was not the cause of relinquishment.

The Croby was built by the Croby Navigation Company at Richmond in 1920 and only this past spring went out for the coastwise trade. She was named for the well known singer, Phoebe Crosby, who sang last week at the Maine Musical Festival in Portland and Bangor.

The craft is largely owned by stockholders of the Kennebec Navigation Company and is valued at about \$164,000 and insured for only about one-third of that amount.

Orthodox Church and speak Arabic. The total number of Jews in Palestine is now 76,000.

Sir Herbert reported that steps are being taken to form a constitution for the country, which will include the electric element and leaders of the various sections of the population are being consulted as to its terms.

The report is maintaining 15 hospitals, 31 dispensaries, eight clinics and five epidemic posts. Medical officers are particularly active against eye disease and malaria which are the two curses of the country, the districts being remarkably free from other epidemic diseases. In the campaign against malaria more than 18,000 wells have been registered while 67,000 villages are examined every month.

PORT OF ST. JOHN, N. B.

Wednesday, October 19, 1921
Arrived Yesterday.

S. S. Governor Dingley, 2856, Ingalis Boston.
Coastwise—Sir Keith Cann, 177 McKinnon, Westport; sch Citizen, 47, Cole, Port Greenville; gas sch Arawana, 31, Atkinson, Bear River; str Grand Mannan, 179, Hersey, Wilson's Beach; motor boat Shirley, 5, Haddon, 56 Andrews; gas sch Wilfred D. 21 Mills, Advocate.

Cleared Yesterday.
Coastwise—Sir Keith Cann, 177 McKinnon, Westport; sch Susan B. 357, Covert, Windsor; gas sch Arawana, 31 Atkinson, Apple River; gas sch Wilfred D. 21, Mills Advocate Harbor; str Empress, 612 McDonald, Digby.

Sch. Susan B. called yesterday for Windsor to load a cargo of plaster for New York.
C. G. M. M. Programme.
H. E. Kane, port agent of the C. G. M. M., who returned recently from Montreal, declared yesterday that the first part of the twelfth programme would be ready for publication about the end of this week.

Docked at No. 5.
S. S. Mongolia which arrived in port on Monday yesterday from Port Hastings, is now docked at No. 5 berth. She will load a cargo of potatoes for Cuba.

Arrives from Boston.
S. S. Governor Dingley arrived at this port on Monday yesterday from Boston carrying 60 passengers and 40 tons of freight.

S. S. Callabas Due.
S. S. Callabas is hourly expected to arrive from Cuba with a cargo of raw sugar for the Atlantic Sugar Refinery Co.

Large Passenger List.
Advice was received here yesterday to the effect that the S. S. Saxonia, which sailed from London on Thursday last for Halifax and New York, has 66 cabin and 295 third class passengers for Halifax, in addition to seven cabin passengers for Canada via New York.

Extension of Service.
The Hamburg-American Line announces the extension of its West India-Mexican service by the establishment of another West India line. It is stated that this line will be combined with a direct coast service to Central America via the Panama Canal. The sailings will be weekly and in all likelihood the first steamer will leave Hamburg on November 15th.

En Route to New York.
The schooner Abble C. Stubbs is en route to New York with a cargo of lumber from the Port of St. John.

Unloading N. S. Coal.
The Turret Coal, owned by the Century Coal Co., arrived at Toronto recently with a large cargo of coal from Nova Scotia. This consignment

represents the first real effort to get around the haulage obstacle and put Dominion coal into Toronto on a commercial basis. The Turret Cape will load at Sydney N. S. with about 5,000 tons of coal; at the Montreal point of the company the load will be depleted to about 2,000 tons to permit navigation up the St. Lawrence. The boat will carry a cargo of grain from Port Colborne to Montreal on her return trip. It is considered that this arrangement will permit Canadian coal to successfully compete with that commodity from Pennsylvania in the Toronto market.

Bound for Chatham.
When about to enter the Strait of Canso on her way to Chatham from Portland, the easterly wind struck the Boston four-masted schooner A. Ernest Mills, Captain E. C. Hinkley, and forced her to run for Halifax. The vessel, which is 84 tons net, arrived at Halifax Monday afternoon at four o'clock, coming to anchor just inside George's Island. She is in ballast and bound for the New Brunswick port to load for New York.

Danger of Navigation
The hull of the four-masted schooner Charlotte Comeau, which sank off Horton, Kings Co., N. S., on the night of Sept. 18 after burning to the water's edge constitutes a danger to navigation, according to information received by J. C. Chesley from the Horton Bluff light in the Minas Basin. The hull lies in four fathoms of water at low tide and as her masts are gone she is completely submerged at high tide. A contract was given to Capt. W. H. Finley of Hantsport to move the wreck to a place of safety, but he was unable to do so. A green buoy will be placed over the spot where she lies at the first opportunity as a warning to mariners.

The Charlotte Comeau was burned while on a voyage from St. Stephen to Windsor to load lumber. She was owned by the L. M. Comeau Shipping Co. of Digby county, N. S.

PERSONAL USE SHIPMENTS INTO NEW BRUNSWICK WILL DOUBTLESS BE PROHIBITED WITHIN SIXTY DAYS

After that time it will be illegal to import for personal or home use.

Now is the time to stock up. Lay away a generous supply because it will be a long time before you will have this opportunity again.

You can import in any quantity. PREPARE FOR THAT BONE-DRY PERIOD. Send for our price list at once.

AROUND THE CITY

CONDITION IMPROVING. The many friends of Miss Florence Hayward, who was operated on in the General Public Hospital on Wednesday for appendicitis, will be glad to hear that her condition is improving favorably.

CALLING FOR TENDERS. The city is calling for tenders for 100,000 of the issue of \$25,000 of bonds recently authorized, tenders to close at noon on October 28. The balance of the amount, \$75,000, has been placed in the city sinking fund.

SLIGHTLY DAMAGED. A Ford car sustained a punctured tire and other slight damage, in running into an excavation on Prince William street at 5 1/2 yesterday. The accident happened when a plank which gave warning of the excavation had been removed to allow a street car to pass. The automobile was following closely in the wake of the electric.

AWARDED CONTRACT. Messrs. McDonald, contractors, have been awarded the contract for the erection of a pier head at Black's Harbor. The construction of the pier will entail an expenditure of \$1,500, and operations will be commenced as soon as the lumber is assembled. Messrs. McDonald have completed their contract on an extension to the biological station at St. Andrews.

NORTH END FIRE. The North End firemen were given a run last evening by an alarm from Box 133 for a fire in a house on Millidge Avenue owned and occupied by Worden Andrews. The blaze caught around the bottom of the chimney and it was found necessary to cut away some of the flooring and lath to get at it. The damage will amount to about \$100 it was reported.

HAD LEG BROKEN. J. Theo. Shaw, a clerk with Macaulay Brothers in the General Public Hospital suffering from a compound fracture of the leg. He was a passenger in a Union Bus Co. vehicle coming to the city from Glen Falls when near the One Mile House something went wrong with the transmission, causing part of the undergear to fly some distance across the road, while a portion broke through the bus floor striking Mr. Shaw on the leg, cutting through the flesh and fracturing the bone.

APPOINTED TO PASTORATE. Very Rev. Arthur Coughlan, C.S.S.R., of Toronto, who is provincial of the Redemptorist Congregation in Canada, and who at the present time is a guest at St. Peter's rectory, has appointed Brother Joachim to the Redemptorist Church in Brandon, Man.; Brother Dominic to St. Patrick's Church in Montreal, and Brother Vitus to Brockton. Brother Vitus left yesterday afternoon to take up his new duties, and the other brothers will leave in a day or two for their new stations. All three took their vows in St. Peter's Church Sunday afternoon.

ENQUIRY COMMENCED. Coroner H. A. Porter yesterday morning empaneled a jury to conduct an inquest into the death of Eugene Durant, superintendent of the Currie Construction Company, who was killed Monday afternoon in Robesay avenue. The jury is composed of E. J. Todd, foreman, W. V. Hatfield, David J. Stockford, Harold I. Soula, Andrew Gernett, W. H. McDonald and P. S. Horne. The jury viewed the body, inspected the equipment concerned in the accident and adjourned to meet this evening at 7.30 in the court rooms in Germain street.

SPEEDING CASES. Dr. C. M. Pratt pleaded guilty to exceeding the speed limit in the police court yesterday afternoon. Plainclothesman Bettle who made the report stated he observed the doctor's car exceeding the limit on Douglas Avenue near Bentley street at 2.30 p.m. October 12. He said there was a school near by, and several complaints had been made by residents of the number of motorists who speeded in that vicinity. Dr. Pratt admitted the charge, but said he was on a sick call. He was cautioned, and a fine of \$10 struck, and allowed to stand.

FISH MARKET RATHER SLACK. Prices Lower Now Than This Time Last Year—Salt Fish Lower. The price of fish is lower now than at this time last year, and business is rather slack at present. The price of salt fish has dropped and is \$1.00 per hundred less than last season. Salt gasperous are scarce but are about \$1.00 per barrel less than last October. Fresh fish, which were very plentiful last season, are very scarce now. This fact to a certain extent is attributed to the storms and high winds which have been prevailing along the seaboard this fall.

BRITISH COLUMBIA STOCK WHICH CONSISTS OF FROZEN HALIBUT AND SALMON IS ALSO LOWER IN PRICE THAN LAST FALL. VAGRANTS IN POLICE COURT. One Drunk Sent to Jail for Eight Months—Juvenile for Stealing Papers Warned.

In the police court yesterday Charles Donovan, an umbrella maker from Fredericton, and Gustaf Thorne, a native of Queens county, were each charged with vagrancy at the morning session and remanded along with a lone drunk who was sentenced to eight months in jail.

Daniel McCallister was fined \$20 for soliciting passengers inside the rail at the Union Depot. A juvenile charged with stealing newspapers from George's store on Black street was allowed to go with a warning.

Common Council Regular Meeting

Will Open Up Wood Cutting Operation at Musquash—Paving Tenders Opened.

Mayor Schofield was given authority to go ahead with his scheme to provide employment by opening up a wood cutting operation at Musquash by the city council yesterday. The elevator matter was further discussed and again laid over for further consideration. Tenders for the paving of Germain street, from St. James to Britain were opened and referred to the commissioner of public works and some matters of routine business dealt with.

Elevator Matter. The council went into committee to hear representatives of the Turnbull Elevator Co. W. R. Mathers, of the A. J. Williams Machinery Co., and C. L. Stevenson were then heard. Mr. Stevenson said they were prepared to put in the same type of installation as their competitor and for an additional \$500 they would put in an elevator with a speed of 250 feet per minute.

It was decided to have Mr. Stevenson meet the city engineer and city electrician and in the meantime the master to lie on the table. The report of the committee of the whole as published yesterday morning was adopted.

Wood Cutting. The report of Mayor Schofield on the proposition to cut cordwood on the Crown lands at Musquash to provide employment during the coming winter was read and after some discussion it was decided to finance the undertaking until the wood was sold.

During the discussion Commissioner Bullock suggested that streets might be laid out in the land owned by the city in Lancaster and in Stanley Ward and provide some employment in that way.

A request for permission to erect an electric sign over their premises 90 King street was received from Robinson's Clothes Ltd., and referred to the commissioner of public safety. Commissioner Prink was given authority to settle a bill of \$475.15 for cement.

Germain Street Tenders. Tenders for the paving of Germain street were opened and referred to the commissioner of public works and the road engineer as follows: Stephen Construction Co.: Sidewalk \$2 per square yard; street surface \$2 per square yard; broken stone base, \$1 per square yard; tile drain 10 cents per foot; granite curbing, circular \$1.10 per foot.

Currie Construction Co.: Sidewalk \$2 per square yard; street surface \$1.94 per square yard; broken stone base, \$1.25 per square yard; extra excavation \$1.50 per square yard; tile drain 10 cents per foot; granite curbing, straight \$1.10 per foot, circular \$1.25 per foot.

Commissioner Jones called the attention of the council to the way the city taxes had gone up in the Parish of Simonds. Last year the amount assessed was \$89 and this year it was \$297. He said he had written the secretary of the school board about the matter.

Halifax Pastor Is Coming Here

Rev. John A. Swetman Has Accepted Call to Waterloo Street Baptist Church.

Word has been received in the city that Rev. John A. Swetman, pastor of the Nictaux Baptist church, Halifax has accepted the call extended by the Waterloo street United Baptist church of this city and would begin his pastoral duties here on Sunday, December 11.

Weddings

Anthony-Magee. A pretty event of interest took place yesterday afternoon at the residence of Mr. and Mrs. C. W. Magee, East St. John when their daughter, Olga Galdart was united in marriage to Herbert Leslie Anthony of Red Head. Rev. H. B. Thomas, pastor of Exmouth street Methodist church performed the ceremony in the presence of relatives and a large number of friends.

The bride and groom were unattended, and following the ceremony a dainty luncheon was served. Mr. and Mrs. Anthony left on an automobile tour through the Province, and on their return will reside at Red Head. The groom is a prosperous and popular young farmer, and the bride had been a bookkeeper in the insurance office of the late W. M. Jarvis, on Prince William street. She was a prominent worker in Exmouth street church and Sunday school, and among the numerous handsome wedding presents received were a beautiful clock from the teachers of the Sunday school, a scallop dish from the members of the bride's Sunday school class.

Mr. and Mrs. John DeLong, of Upper Hamstead, N. B., announce the marriage of their youngest daughter, Annie Belle to Halsey Stewart, of White's Cove, N. B., the marriage to take place at an early date.

Two Charges Against Parker

Evidence Heard in Case of Having Stolen Goods in Possession.

The case of George V. Parker charged with having stolen goods in his possession, the property of E. R. Taylor, Union street, West End, and a further case against him in which he is charged with having stolen goods in his possession the property of the C. P. R. was heard by the mayor yesterday. Daniel Mullin, K. C., appeared for the defendant, and H. McLean, for the C. P. R. Scott E. Morrell stated he had appeared for the defendant at the first hearing, but as other counsel had since been retained without his being notified, he would graciously disappear.

Identified Goods. E. R. Taylor was the only witness called in the first case. He stated that in consequence of a report by Policeman Linton, he visited his tailor shop at 43 Union street, West End, on the morning of September 2, and found the front door had been broken in, and a quantity of goods stolen. He identified some five pieces of black chevrot, some overcoating, and other goods produced in court as similar to the goods he had stolen. He said there were also some ends of blue serge mising, some grey worsted, a blue serge coat and uniform trousers, some black melton overcoating, 10 yards of grey frieze and other goods amounting to from \$400 to \$500.

C. P. R. Case. The case was allowed to stand for further witnesses and the second case against the defendant taken up. Thomas B. Wishart, of Fredericton shipping clerk for the Hartt Boot and Shoe Co., the first witness, stated that on the 28th of September, he shipped two cartons containing 18 pairs of shoes to Kerr & MacDonald, of Camrose, Alberta. He produced a bill of lading to show the shipment, and identified a pair of boots, by size, width and series number. He said no one else could get shoes with the same number other than the firm who had ordered the original lot marked. He identified seven pair of black shoes, and one of brown, as those he had shipped to Alberta, and identified a carton as the one they had been packed in.

Car Was Seized. Robert McLennan, C. P. R. checker at Fredericton, said that he had received two cases of shoes from the Hartt Co. for Camrose on September 28. They were placed in car C. P. No. 294,922, which was seized by him. The car left at 4 p.m. and was carded to stop at Wassien Russagornis and Fredericton Junction.

Found Shoes Stolen. Albert H. Heenan, assistant agent of the C. P. R. at Fredericton Junction, stated that he checked the car at the Junction on September 29 and found a case of shoes short. The car had then been in the yard an hour and twenty minutes. Later he found the carton produced in court near the river bank. It was addressed to Camrose and was from the Hartt Co.

The case was adjourned to 11 o'clock Friday morning.

County Elections Held Yesterday

Old Councillors Returned in Lancaster—Dalzell Defeated in Simonds.

The county elections to determine the councillors for the two years 1922-3 for the County of St. John were held yesterday. In three of the parishes contests were held—Lancaster, Simonds and St. Martins—in Simonds the old councillors were returned by acclamation. In Lancaster the old councillors were returned. In Simonds two of the old councillors were running, Messrs. Mosher and Dalzell, the former was elected but the latter went down to defeat. In St. Martins only one of the old board, Mr. Shanzlin, was offering and he was re-elected.

The new municipal council will be composed of Messrs. Campbell, Golding and O'Brien, representing Lancaster; Messrs. Smith, Magee and Mosher, representing Simonds; Messrs. Crossman, McLeod and Shanzlin, representing St. Martins; Messrs. O'Donnell and Anderson, representing Musquash and the city commissioners.

The first meeting of the new council will be held in January and until that time the old councillors will hold office.

Following is the result of the polling yesterday:

Table with 2 columns: Name and Votes. Lancaster: Campbell 947, Golding 801, O'Brien 754, Davidson 725, Knowlton 498. St. Martins: Crossman 159, McLeod 155, Shanzlin 149, Kane 125, Mosher 108, Black 106, Howard 94. Simonds: Smith 342, Mosher 330, Magee 321, Dalzell 294, Shortlife 290, Whalen 280.

Business At The W.C.T.U. Meeting

Letter Received from Mrs. Berglund—Report from Year Book Committee.

A letter from the corresponding secretary, Mrs. Berglund was read at the regular meeting of the W. C. T. U. held yesterday afternoon. Mrs. Berglund is at present in Moncton and wrote that she greatly missed the Union meetings. The secretary was asked to reply saying how glad members would be to welcome Mrs. Berglund back to St. John.

Mrs. David Hipwell, president presided and led the devotions, reading Psalm 131 and giving a talk full of inspiration from the passage. A collection was taken for flowers.

A satisfactory report was heard from the Year Book Committee.

Mrs. Seymour reported on a needy family, and Mrs. R. D. Christie was authorized to send assistance.

Routine Business Was Transacted

Executive of Maritime Hardware Merchants' Assn. Met in Quarterly Session.

The executive of the Maritime Hardware Merchants' Association held their regular quarterly meeting in the Board of Trade rooms yesterday. W. G. Stratton, of T. McAvoy & Sons, president, presided in attendance were R. M. Barch, of the Wm. Stairs, Son & Morrow, Ltd., of Halifax; I. L. Crowell, of Wm. Robertson & Son; A. W. Weston, of the A. M. Bell Co., and R. B. Dickson, of F. W. Sumner Co., Moncton. Only routine business was transacted.

Thomas G. White. The death of Thomas G. White occurred yesterday morning at his home, Harding street, Fairville. He became ill with pneumonia about three days ago and his sudden death came as a shock to his many friends. He is survived by three wives and four nephews, of whom only one, Roy Dennison, resides in St. John. Mr. White was a valuable employee of the Provincial Hospital as an engineer. The funeral will take place from his late residence on Thursday.

E. J. B. Leblanc. Moncton, N. B., Oct. 18.—E. J. B. Leblanc, a well known citizen died at his home here last afternoon after an illness of two years. He was 65 years of age and was born at Fox Creek, but had lived in Moncton nearly all his life. He was formerly in the Grocery business, but of late years had been in the employ of J. D. Leblanc, merchant tailor.

Deceased is survived by a widow, four brothers and two sisters. The brothers are Thomas and Caltra of Fox Creek, Dr. Philip, of Fairbanks, Alaska, William, Moncton.

PERSONALS

The Rev. J. A. MacKolegan, pastor of St. David's church, left for Toronto last evening to attend the meetings of the Church Union Committee.

W. R. Golding left for Fredericton last evening for a few days. Mrs. John F. Tilton, 344 King street east, returned home yesterday on steamer Governor Dingley after a three week delightful visit to relatives in Boston and the suburbs.
