## Proceedings

## OF THE <br> THIRTY-EIGHTH ANNUAL MEETING

# Weslegan Methodist Missionary Auxiliary Society.  

The Rev. Dr. Ritohey in the Chair.

The opening devotional services were conducted by the Rev. Dr. Richey and Rev. Roland Morton.

Report read by the Rev. J. B. Brownell.
Res. 1st.-Moved by the Rev. F. Smallwood, seconded by the Rev. J. Brewster:

That the Report, of which an abstract has been read, be adopted and prints ed; and that this Meeting hails with devout thanksgivings to "the giver of all good," the safe arrival among us of the Deputation from the Parent Committee and British Conference.

Res. 2nd,-Moved by the Rev. Joun Beechay, D. D., seconded by the Rev. R. Morton :

That the constantly enlarging field for Missionary enterprise, and partieularly the new and extraordinary openings for the establishment of Christian Missions in the vast empire of China, in India, the islands of the South Seas, in Western and Southern Africa, and various other parts of the world, present irresistible appeals to every friend of Missions for corresponding efforts, to respond to the numerous and pathetic calls for additional assitetance in seeking the evangelization of the heathen world: and this Meeting therefore pledges itself to more liberal contributions, and to renewed endeavours, to carry into fall and complete effect the excellent and systematic plans of the Parent Society.

Res. 3 ryd-Moved by the Rev. W. Wilsor, seconded by the Rev. T. H. Davies:

That this Meeting, while convineed of the necessity and importance of canmeoting with every contribution to the cause of Missions, whether of monegs
or influence, or time, unceasing prayer to Almighty God for his furthering blessing, would especially recommend its being offered up that the War in which our own and other countries are involved may besignally overruled for the advancement of the kingdom of the Prince of Peace.

Res. 4th.-Moved by the Rev. James England, seconded by the Rev. R. Weddall:
That the following Gentlemen be the Officers and Committee of this Auxiliary for the ensuing year, viz.:
M. G. Black and G. H. Starr, Esqrss, Treasurers.

Rev, Jas. England, and J. H. Anderson, Esq, Secretaries.

> COMMITTEE:

## is furthering

 the War in rerruled, fored by the
this Aux-
ing scenes, the Church of the Redeemer has not only upheld its position, it has shown its capability to maintain its aggressive character by continuing to "take the prey from the mighty" and "divide the spoil with the strong,"-extending its conquests to every part of the habitable globe. In our own section of the Church of Cbrist, two most important events have transpired, viz., the formation of the Mission Stations in Australia and the Canadas into two distinct Conferences, independent, to a very considerable extent, in their fature movements, of the Conference in England;-the Societies in these places being considered to have arrived at such a state of maturity as to be fully able to manage all their own affairs without further controul or guidance from their Fathers and Brethren in the Mother Country.

The Committee of the Parent Society, in their last published Report, state a large increase in their funds over the preceding year, arising from an advance in the receipts of the Home Districts, the Hibernian Missionary Society, and the contributions of Foreign Auxiliaries, and your Committee have to announce the very gratifying fact that the amount raised by this Auxiliary society during the past year is unprecedently larger than al any previous period since its formation,

The amounts contributed by the various Branches forming the Aux. iliary Society, for the N. S. West District, are as follows :-Halifax and Dartmouth, £268 4s. 5d.; St. Margaret's Bay, £24 6s. 7d.; Lunenburg, $£ 43$ 8s, $5 \frac{1}{2} \mathrm{~d}$, ; Petite Riviere, $£ 2815 \mathrm{~s} .10 \frac{\mathrm{~d}}{\mathrm{~d}}$; Liverpool and Mills Village, $£ 75 \mathrm{4s}$. $5 \frac{12}{2} \mathrm{c} . ;$ Barrington and Shelborne, $\mathfrak{E} 640 \mathrm{0}$. 10d. t Yarmouth, $£ 27$ 7s. 5d.; Horton and Cornwallis, £182; Windsor, $£ 68$ 10s. 7d.; Newport, $£ 76$ 17s. 9d.; Maitland, $£ 29$ 108. 3 fd ; ; making a total of $£ 87815 \mathrm{~s}$. 9d.-an amount which calls loudly for gratitude to Almighty God, and thankfulness to the collectors for their untiring zeal, and to the contributors for their liberality.
From the Report of the Parent Society for 1853-4, we extract the following particulars:-Ordinary Receipts at the Mission House, £66,911 15s. 2d. ; the Hibernian Missionary Saciety, $£ 4,195$ 8s, $;$ Juvenile Offerings, $\mathfrak{x 5}, 297$ 18s. 7d. ; Contributions of Foreign Auxiliaries, £17,713 13s. 5d.; Colonial Grants, $£ 2.741$ 18. $;$ Legacies, $£ 13,922$ 2s. 101.; Donations on Annuity, $£ 1,150$; Contributions for the China Mission, £902 18s. 8d.; Dividends, Interest, \&c., $\mathfrak{E 1 , 6 6 3}$ 16s. 8d.-making a total of Regular and Miscellaneous Receipts, from all sources, of $£ 114,498$ 14s. 3 d . The Expenditure of the year has also been 114,498 14s. 3d., including the amount of $£ 5,119$ 17s. 4 d. which has been paid in partial liquidation of the accumulated deficiencies of former years. The remaining balance of those deficiencies now stands at $£ 19,50111 \mathrm{~s}$. 10 d , the entire liquidation of which the Committee keep steadily in view, in connexion with the financial management of all the operations of the Society.

Thirty Missionaries, and ten wives of Missipnaries, have been sent to various parts of the Mission;field; and nine Missionarien, with one crcallent Female, the wife of a Missionary, have archanged mortality

## 7

for life. The number of central or principal stations, called Circuitan oecupied by the Society's agents, is 367 ; Chapels and other preaching places, 3,116; Ministers and Assistant Missionaries, 507 ; other paid agents, as . Catechists, Interpreters, Day School Teachers, \&c., 703; unpaid agents, as Sabbath School Teachers, \&c., 8,779, full and accredited Church members, 110,228 ; on trial for Church membership, 4,873; Scholars, deducting for those who attend both Day and Sabbath Schools, 78,811; Printing Establishments, 8.

Amidst the opposition with which the Missionaries have to contend on some of the Stations, the accounts received are, generally speaking; of a very encouraging character. 'Thus from Germany we hear:"The work of Göd still advances. We have lost no place, but gained several; some souls find redemption through faith. The Lord is doing wonders. When some places are in the shade, the Sun of Righteousness rises upon others."

The Report furnished by the Missionary at Gibraltar states : - "The last year has been one of unusual change in our little Church on the Rock. We have lost 42 members by removals, \&ec., and received 35 into full membership-a greater number than has been reecived in. any similar period for the last 13 years-thus furnishing satisfactory proof that God is with us, and blesses our efforts to promote his glory: in the salvation of souls."
"The mission in South Ceylon has, during the year, had to contend with many opposing influences; nevertheless, the result of the year's labour is encouraging. An increase of forty in the total number of members, with a large number on trial tor membership, shows that the labours of the Missionaries have not been fruitless, and an increase in the local contributions also would lead us to hope that they are increasingly appreciated. The zealous endeavouns of Romish Priests to make proselytes, have succeeded to someextent at Negombo. Five have departed this life in the peace and hope of the Gospel; yet there is a small increase in the Society" From Jaffna, in North Ceylon, Mr. Griffiths'reports a steady increase of the Native and English Congregations. In every respect they afford him the greatest satisfaction and encouragement. In the Educhtional Institution at Jaffna, goeat pains are taken to teach the doctrines and evidences of Christianity. The Female Sehool affords much satisfaction. From the English Schools all the Roman Catholic children have been withdrawn, ut the bidding of the Priest. In Battioalou: there are nine adult candidates for baptism, and one has been baptised after due probation. Several persons have renounced Romanism during the year, and others have neoeived copies of the Scriptures, promising to examine them, notwithstanding the denunciations of the Priests

The District Meeting of the Madras District reports the native Congregation to have improved since the opening of the new Chapel is 2oyepettidh, in April 185s, as has also been the case with the Euglith congregation in Black Town. The little Finglish Soviety at Trielioen
nopoly has afforded great comfort to the Missionary ; and the small native Society in the same place is believed to be sincere, but greatly needs to be quickened from on high. The Mission Press at Bangalore, in the Mysore District, is maintained in unabated and most useful activity. Seventy-seven thousand volumes and pamphlets, comprising many useful School Books and Tracts in English and Canarese, have been printed during the year, in addition to the new version of the Scriptures in Canarese, which is not yet completed The Report of the religious state of the Societies is on the whole gratifying; though some have declined from their steadfastness, others are pressing forward to the prize of their high calling. The state of the Schools in this Distriet is highly encouraging.
The Brethren in China earnestly solicit a reinforcement, that they may be prepared in due time to take part in embracing the wide openings which are expected to present themselves, if the party of Tai-ping-wang should succeed in their present enterprise. Mr. Percy has commenced preaching in a room in his own house, which was opened as a Chapel in June last. He has also translated the First Catechism and part of the Second, for the use of the Mission School; and some: portions of the Scripture narratives have been printed under his direetion, to be used as Tracts. The three brethren, Peroy, Beach, and Cox, have engaged to distribute ten thousand copies each; if spared, during the coming year, from the supply to be provided by the Miillion Testaments Fund. Whilst at present mainly occupied in learning the very copions and difficult language in which their ministry is to 'be exercised, the Missionaries relieve their arduons toil by the distribua-1 tion of Tracts, and seek in all such ways as may be open to them tol spread the knowledge and influence of Divine Truth. -From New South Wales, Victoria, South Aástralia and Western! Australia, tidings of the most cheering character have been receivedy Chapels, school-housees, and missionhhouses, are being multiplied alb through the country, and from every part comes the cry, "Send us: more Missionaries;" but we can only give one extract from the Parent: Report, and that will serve as a sample of the rest-it is selected from "Jictoria." During the past year the Congregations have been large and attentive. Eight places of worship have been erected. A missionhouse has been built at Bendigo at a cost of \& $\{300$ sterling. SSSeveral pleasing instances of conversion to God have taken place, while. some of our old members have died in the full triumph of faith. Preaehing in the open air, when the weather was favourable, has been regularly t earried on, These services have proved highly beneficial, and in ino instance has any disturbance been experienced, The Diggings have: contributed liberally for the support of the Ministry. A very pleasing: zevival haes just coumencoed at Bendigo, and many new converts have been added to the Society, The field is truly white unto the harvest. We are aware of the interest which our brethren in other Districts,: sad our. Fathers in the Ministry in our native land, feel in referencee
nd the small but greatly at Bangamost useful comprising arese, have rsion of the 3. Report of ng; though 'essing forSchools in

le some reaching agularly linin no gs have ileasing is have larvest. istriots, ference
to the work of God here, and we are glad to be able to speak so highly of its progress. We have at present 31 Local Preachers, and 14 Class Leaders. The Sunday Schools at our Diggings are five in number, and are well reported of. There are two very promising Day Schools. At Hobart Toonn, Van Dieman's Land, the work is prosecuted amidst many discouragements, and some cheering indications of accomplished good. Among the latter are considerable liberality in the support of God's cause; and several instances in which Members have evidenced the power of divine grace in the midst of peculiar temptations, and in the confliet with their "final foe." The Sabbath School is well supported, and four small Chapels have been freed from debt. A. spacious new School-room has been erected in the Back River Cireuit, free from debt.
At Auckland, New Zealand, a native preacher is to be employed in endeavouring to promote the spiritual interests of his countrymen visiting the Settlement. A new Chapel has risen up in one thriving village in the neighbourhood of Manukau, and three promising congregations have been formed in others. The work among the natives in this Circuit is advancing. The present prospects of the Aotea Circuit call for all the wigilance and care of the Missionary. A second Chapel is, however, in course of erection, the expense of which will be met by the natives; and the children of the Sabbath School manifest a creditable ardour in pursuit of scriptural knowledge. The Missionary writes from Waingaroa, that the people on the station show, by their attention to the means of grace, that they still feel the concerns of the soul to be of permanent importance; and he has been oheered by witnessing the peaceful and happy end of some of his charge. A similar report is made from Waipa, where the exercises in the Sabbath School are happily marked by the aageness of many to know more than the letter of the word.

The history of the Friendly Islands Mission exhibits some sorrowful circumstances. Of the seven European Missionaries stationed there, three have been compelled to leave by failure of healch,-Messrs. Miller, M. Wilson, and Peter Turner. The first not being likely to resume his Missionary labours, has returned to Sydney, and retires hrom the work altogether. Mr. Turner has honourably completed a period of nearly twentyfive years active service, and takes his place on the Supernumerary list. Mr. Wilson may, it is hoped, recruit himself for further service. The report from Tonga refers in pleasing terms to the benefits already realised since the restoration of peace. "Our villages have become repeopled, and the deserted house of God is again the place of joy and singing. New villages have sprung ap, and in every place a house is dedicated to the worship of the Lord of Hosts. All the people from the large fortresses of Houma, Vaini, and Folahak have abandoned their devilish superstitions, and have become, at least nominally, worshippers of the one living and true God. Nine additional Schools have been established in Tonga since the close of the wat. The
demand for such portions of the Holy Scriptures as are in circulation in the language of these Islands continues unabated. The present condition and wants of this Mission are well summed up in a communication from one of our Missionaries. "Upon the whole, we seem to feel that ours is no more a mission to the heathen. The Friendly Islands are now Christian Islands, at least in profession. Let none, however, suppose that the work is now done-on the contrary, it is only begun. It is true that all are now brought under the sound of the Gospel, but we are far from being sanguine enough to suppose that it has as yet had a saving influence upon multitudes of them. We know, however, 'faith cometh by hearing' we are therefore encouraged to work on in hope of reaping in due season. Whilst, however, we can but rejoice on account of the extensiveness of the harvest, we are constrained to lament that the labourers are indeed few. Death and removals have thinned our ranks to such a degree, that we are now one in Vavau, and one only in Habai, In the former Circuit there has generally been three, and in the latter two, and that few enough. We most earnestly pray you send us help."
The past year has been marked by a most gratifying event in the Feejee Islands, viz., the completion at the Mission Press of an edition of 3,000 copies of the entire New Testament, the translation of which has undergone careful revision. The translation of the Old Testament has been completed, and will be diligently revised before it is put to press. The chief town of Lakemba is probably by this time adorned with a very large and beautiful Chapel. At Ono the Society is in a bealthful state, and that at Vatoa more established than for some years. The Moalans, as a whole, are now learning the ways of the Lord. Yotoya's four towns are now wholly Christian. The Vanuambalavis group of islands contains many Christians who, though left without a Teacher through persecution, have stood firm in their profession, observing the Sabbath, and keeping up religious services.

Of the Vewa Circuit, which is estimated to contain two-thirds of the entire population of the Feejee group, truth forbids an equally favourable report.

Emigration to Australia from the Cape of Good Hope, South Africa, interferes with the growth of the Societies there, though the congregations at Burg Street are generally good, and the word is listened to with much attention. The Sunday School is conducted in Duteh for the benefit of the adults, who manifest a great desire to be able to read the Scriptures ; but the younger scholars are chiefly taught in English. At Diep River the congregations continue good; there are several new members of Society; the Day School is a credit to both Masters and Scholars ; the Sabbath School is attended by old and young, and is believed to be a biessing to both.
There is great cause for encouragement in the Khamies Berg Station. The number of members increases, and there are several candidates for baptism passing through their probation. Five of the

## h Africa,

 ongregatened to atch for to read English. several Masters g , andmembers have been called away by death, but there is reason to hope the change was a happy one. The work at Nisbet Bath Station is in prosperity. Upwards of forty persons who had become weary in well doing, have again sought and found redemption in the blood of Christ. Several girls travel fifteen miles on Saturday, in order to be present at the School and the public services on the Sabbath, returning home on Monday. All the people in the neighbourhood of Hoole's Fountain, except the inhabitants of one village, have forsaken their heathenish practices, and take every opportunity to hear the Gospel. In the Port Natal and Amazula Distriet the direct influence of the Gospel is seen in the holy lives and happy deaths of believers, and in the additions to the Church of those who are saved. And its indirect influence is no less clearly seen in the removal of prejudice and suspicion from the minds of the heathen. A Chief connscted with Faku's mission observing what was passing in his tribe, said to the Missionary, "Go on, go on, my Teacher. We feel the truths you preach, though we say little. The nation will yield-it must yield to the truth of God." Death has removed four members from this Circuit during the year, but they "knew whom they had believed," and could set to their seal, that God was true. They died in the Lord. One was an old woman. She called the Missionary to her bed-side just before she died to thank him and his wife for all they had done for her, and to request him to write to all the friends of missions to thank them that they had sent the word of life to this land of darkness before she was no more. She was joyful and happy. Her last words were, "Farewell: I am going to Jesus." She fell asleep and woke no more.
The numerical returns from the several Circuits in the Sierra Leone District of Western Apryca show that the Lord continues to bless the labours of his servants in a remarkable manner. A net increase of more than 200 members, and an equal increase in the number of Scholars in the Day as well as in the Sabbath Schools, a subscription of $£ 126$ in aid of the funds of the Parent Wesleyan Missionary Society ${ }_{\text {, }}$ and sundry contributions to the Jubilee Fund of the British and Fort eign Bible Society, also are facts which all go to show that the pulse of health is beating in the Churches gathered in this Colony. In theplaces where the extensive renunciation of idols excited so much interest and feeling last year, the people have not relapsed. At Murray Town the idolators, who were recently brought into the fola of Christianity, are stedfast and promising. They evince a strong attachment to the cause of the Redeemer, and shine as lights in the midst of their benighted neighbours. The number of children under daily instruction is upwards of 2,900 . The Reports from the Sabbath Schools are in the main satisfactory. That highly important section of the mission-field the Gold Ooast, Ashanti, and other parts of Guinea, sustains the interest which has in former years attached to it. The work of God in the Circuits already formed is steadily advancinge Anong the members at Oape Ooast all the fruits of righteousness are
in healthy development. Many have believed, and are saved-many are inquiring, and here and there shines out the more exalted Christian, whose energy and vigour attest how deeply he has felt the powers of the world to come.

With regard to the West Indies we have to report that in the Island of Antigua the Congregations have been good and upwards of 250 persons have joined the Society; but the total number of members exhibits a small decrease, owing to an unusual rate of mortality, and to very numerous cases of backsliding. The Society at Montserrat has had to endure many trials, arising from a variety of causes, but especially from a long prevalence of yellow fever : while at Nevis, the ravages of the cholera have been still more distressing, 83 members having died of that disease in Charlestown alone. Many of these are known to have finished their course with joy, and of the majority the Missionaries entertain a good hope. In some parts of the 1sland of St. Christspher's there has been an encouraging awakening; and notwithstanding continued emigration to other islands there is an increase of sixty-one in the total number of the Society.

From the various stations in the St. Vincent's and Demerara Districts, with one or two exceptions, the accounts are of a very encouraging character as to the religious state of the Societies. The Missionaries have had their trials in the death of two of their number, and the sicknesses of others, but the everlasting arms have been around and underneath them, and they are enabled to encourage themselves in the Lord.

The Jamaica District, like the preceding one, has been called to suffer the loss of two valuable Missionaries. These painful bereavements are rendered doubly painful by the thought that the labours of Christian Missionaries were seldom, if ever, more needed in Jamaica than at present. The staff of several Gircuits, even when complete, is below their actual requirements ; and the present languid condition of the Societies throughout the Island renders it desirable that the number of Missionaries should, if possible, be considerably augmented. There is great need throughout the entire island of an out-pouring of the Holy Ghost; and we cordially join in the prayer with which the Parent Committee close their account of this important District. "Return, we beseech thee, O God of Hosts; look down from heaven, and behold and visit this vine!"
To the Baiama District the past has been a year of great affliction. On the 25 th of August the Society in St. Domingo was bereaved of its Missionary, the Rov. W. Towler, whose pious and prudent exertions continued through a period of sixteen years, had secured for him the high regard of the Committee, and a large measure of the esteem of the community amongst whom he lived. The next day the Society at Abaco was called to lament the decease of their Missionary ; and in the course of the following month Mr. Thompson died, much lamented, at Turks,
saved-many calted Chris It the powers

ion. On 1 Missittinued regard nunity - was urse of [urks,

1slands. There has been a net increase in the District of more thatill 800 members. The Brethren are unfeignedly thankful to their hea venly Father for this signal token of hisgfavour, and feel encouraged to dedicate themselves more fully to the great work of saving souls. The mission in Hayti has to contend with many obstables, but it maintains its ground notwithstanding. Its educational operations continue to be carried on with marked encouragement, and find increasing favour with the public.

The general condition of the missions in the important and flourishing provinces of British North America is such as to afford ample eause for thankfulness and rejoicing. The communications received from the Missionaries mention various instances of the revival and extension of religion. The Indian Missions in Canada West include fifteen stations, with eleven hundred and fifty-nine members, being an increase of forty-eight after filling up vacancies; eighteen Missionaries who use four different languages, twelve Day school Teachers, and seven Interpreters. Many visitations of grace have attended the labours of the Missionaries ministering the word of life to the Indian tribes; and under all the disadvantages which severely attest alike the fidelity of the Pastor, and the principles of the converts, the joy of conquest and progression has often been felt among the lonely, reserves now occupied by the remnant of a once powerful people.

In conclusion, your Committee still feel it to be their bounden duty to call upon you, who so frequently interest yourselves in the spread of the divinely-constituted remedy for the world's woes, to continued and increased exertion. The vineyard of the Lord lies before his labourers-and we are called by the force of principle-by the glow of feeling-by the power of piety-by the ardour of hope-by the sublime scenes and prospects which the mighty operations of Providence among the nations of the earth now spread around us-by our loyalty and love to our Redeemer and his cause; to be steadfast, unmoveable, and always abounding in the work of the Lord, full well knowing "that our labour is not in vain in the Lord."

## TIIE PROVINCIAL WESLEYAN,

Tha Provisolal Wraberan, one of the largeat and cheapest weekly papern in the Lower Provinces, and printed under the direction of the Wesleyan Methodist Conference of Eastern Hritioh Aimerica, is published at Halitax, N. F., on the morninga of Thursday. Great care is uied to tender each number interesting and profitable, and a safe visitor to the family circle. Though giving apromineney to Wesleyan Intelligence, it is conducted in a Catholic pit it totwatd all eystrgetical denominations of christians. In point of circulation it is second to nighe of the weekly papers of the Lower Provinces; but as the current expensesare large. additional-sibscribers are required to render it remunerative. An earnest appeal is hereby made te the christian public, solicifing those thio are alesirous of obtaining a large amount of \#\#geful reading at a cheap rate, to aid indits sustentation by becoming subscribers, and recommending if to their friends.
Wesleyan Ministers in the Provinces generglly, kindly act as agents,-who will forward the names of subseribers, and to whom subseriptions may be made.
terms: 10s. per'annam, payable half-yeuly in advance.
IGR Any'erson can obtain the paper by forwarding the advance.
Whovincial Wres cyan. Offiç, No 136 Argyld Street.
Septempu hinsoss?

## WESLEYAN B00K-R00M.

One door South of the Old Dilthotist Chapel, No, 136, Argyle Sirect.
