

THE UNION ADVOCATE.

VOL. 39

NEWCASTLE, N. B., WEDNESDAY MORNING, FEBRUARY 7, 1906

19

THIS SPACE

Has been purchased by

Clarke & Co.,

and an interesting announcement will be found here each week for fifty-two weeks. Watch it.

First One Next Week.

Special Values in Cottons and Prints.

Grey Cotton. The famous Bengal Brand, full 1 yd wide, very fine quality, well worth 12c per yd, but having secured a quantity of Cotton before the advance in prices we are enabled to place this on sale now at **10 yards for 8c.**

Regular 10c. quality, good heavy full width Cotton, at 8c. per yard or 10 yards for 75c.

We are also showing an extra good Cotton at 5c. per yard or 10 yards for 45c.

Prints. We have several pieces of regular 10c. Print which in order to make room we are clearing out at 8c. per yard.

All regular 12, 14 and 15c Prints placed on the table now at 10c. per yard.

A. H. MACKAY,

Newcastle.

The Moving Process

Goes slowly but gradually on. We hope in a few days, by the first of February at all events, to be quite thoroughly established in our new quarters. In the meantime some rare bargains are to be had in the store which we are vacating. There are some pieces of Dress Goods, Skirtings, etc., and a lot of Short Ends of most all kinds that are being disposed of at **Half Price or less.** It would be a good idea to look in anyway, you might see something you need.

Still a few LADIES' COATS left. The prices on them has dwindled to so very small a figure that we blush to quote.

Do you know anyone that wants a Coat? Send them to us.

Carpets at 25 per cent. Discount this week.

Oilcloths at 22 and 27c per yard.

CLARKE & CO.

DO IT NOW.

Bring us your watch which stops or does not keep time.

Also your clocks that are out of order.

And your jewelry that needs repairing.

We are in a position to turn out first-class work and will do our best to please you.

H. WILLISTON & Co.,

JEWELERS.

ESTABLISHED 1837.

NEWCASTLE, N. B.

TROUBLES AT POWER HOUSE.

Electric Light Plant Out of Order Three Times in Succession.

REPAIRS MADE.

Troubles never come singly and this was never more truly evidenced than at the Power House the past two weeks. About two weeks ago Electrician Follansbee was taken ill and has been confined to the house ever since, and his helpers have been running the plant which supplies the town with light.

The first trouble was the "burning" out of coil in the exciter, and as luck would have it, although there are a number of spare coils, this one was not one of them so a new one was ordered by express, but has not yet arrived. This places the small generator out of commission.

Saturday night the packing blew out of the exciter stuffing box about 11.15 and a stop of about 10 minutes was necessary.

Sunday evening, shortly after starting it was found that the big engine was not running smoothly and a stop was made and the trouble located, this took about an hour, and was just at church service time so that lamps had to be provided in the churches.

Monday the big engine was thoroughly overhauled and it was thought that no more trouble would be experienced. Everything ran smoothly until at about seven o'clock when it was found that one of the journals had run hot and started the babbit. The machine was stopped and repairs made. This time it took about five hours to do the job and it was 12 o'clock before the lights were on again, but the engine ran smoothly the balance of the night and it is hoped that the troubles for this time are at an end.

HORSE RACES ON THE ICE

An Interesting Race Here Friday Afternoon Last.

Newcastle horsemen have been enjoying considerable sport on the ice which was in prime condition for trotting. Many brushes were entered into and some good racing was witnessed.

Last week it was decided to hold a race meet on Friday afternoon for five prizes. The entrance fee was \$5 and a number of spectators clipped in and made fair prizes.

Friday the ice was not in so good condition there being a quantity of water in spots which interfered with the horses.

Five horses entered, Chas. Morrissey's Baby Boy, Peter Archer's Lady Sim, C. Hubbs's Grey, A. Ulick's Lady Melbourne and J. J. Fallon's B.

A large crowd gathered on the wharves and ice to witness the race which resulted as follows:

- 1st—Baby Boy.
- 2nd—Lady Sim.
- 3rd—C. Hubbard's Grey.
- 4th—Lady Melbourne.
- 5th—J. J. Fallon's B.

Owing to a slight injury Mr. Landry's Baby L. was not able to start in the race. The committee who had charge of the arrangements are to be congratulated on the success of their efforts and we hope we may have more of these interesting exhibitions of speed in the near future.

At the horse races at Chatham yesterday Newcastle's horses carried off the honors. Charles Morrissey's Baby Boy won first, J. Fallon's B. second and Peter Archer's Lady Sim third.

St. Valentine's Whims

here find ample expression. Nothing expensive, but still the nobbiest goods we have ever shown.

The range comprises the sublime as well as the ridiculous, and the wit is all clean.

Valentine Post Cards just to hand.

Come early while the lines are unbroken.

FOLLANSBEE & CO.

NEWCASTLE MEN TAKE PRIZES.

Made Good Showing at Chatham Firemen's Sports last week.

WIN SEVEN PRIZES.

Large Crowd Present But Ice in Poor Condition. Sports Good.

The Firemen's Sports held in Chatham on Wednesday evening January 31st, were a grand success, although the weather and the ice were not the most favorable that could be expected. The track was crowded, and Newcastle was well represented. The Newcastle Firemen were greatly handicapped in some of the sports on account of their non-practice in skating, but considering everything made a very good showing. The Newcastle Firemen were also handicapped in the Ladder Race, as there is no Ladder Company in connection with the Fire Company of the town. The winners of all the contests were heartily applauded, and the Newcastle Firemen are perfectly satisfied with the treatment which they received from their Brother Firemen of Chatham.

The list of the Firemen's events and prizes are as follows:

Firemen's Ladder Race on Skates—1st, John Murphy, Gold chain; 2nd, Wm. Skidd, Shaving Glass, Chatham.

Teamsters' Race on Foot—1st, Wm. Dunn, Newcastle; 1 pair, Teamsters' Boots; 2nd, John Arsenault, Chatham, 1 pair Boots.

Hose Coupling Contest—On skates Chatham, John Murphy, Henry Neally, 1st, seconds \$5.00 Gold.

On foot Newcastle—B. F. Maltby, Frank Mason, 1st, seconds, \$5.00 Gold.

Captain's Race on skates—1st, Henry Ingram, Newcastle; 1st, Flinn-light.

Hose reel Race on skates—Chatham, Neally, Skidd, Murphy, 1st, seconds \$10.00 Gold.

Ladder Race on Foot—Chatham, Ed. Skidd, Murphy, 1st, seconds, \$7.50 Gold.

Firemen's Foot Race—1st, John Murphy, Chatham, \$1.00; Accident—Police.

2nd, B. F. Maltby, Newcastle, 1 pair boots; 3rd, Henry Neally, Chatham, Shaving Outfit.

Pipe Race on Skates—1st, Jas. Watson, Chatham, \$5.00; Pipe.

2nd, H. K. Maltby, Newcastle, Box Cigars.

The members of the Newcastle Fire Company hope in the near future to be able to invite the Chatham Firemen to a similar meeting, and extend to them the same cordiality which they received.

I. C. RAILWAY HAS SURPLUS.

Earnings are \$6,000 More Than Expenditure for December.

MONCTON, Feb. 1.—Present indications are that the Intercolonial Railway for the month of December last shows a surplus of about six thousand dollars.

This is said to be the first time in the history of the Intercolonial railway that it has shown any surplus for the month of December. Had it not been that the bills for the special expenditure on reconstruction for a large amount came in at the close of the month of November would have shown a surplus.

Mr. Emerson's policy of Intercolonial railway reform and retrenchment is evidently a success.

TROUT BROOK Social and Personal.

Some of the young ladies and gentlemen of this place spent a very pleasant evening at Mr. C. D. Manny's camp on Tuesday last.

Miss Emma Highland of Redbank is visiting her sister Mrs. Jeremiah Mullin.

Mr. John Hare passed through here on Friday last.

Messrs. Geo. Sutherland, and Daniel Cain, were the guests of Mr. James Way Friday of last week.

Misses Emma Highland and Nellie Fitzgerald were the guests of Mrs. Edward Brown on Wednesday.

CLERGYMEN AT LIQUOR INQUIRY.

Repeat Charges That Law is Openly Violated in Gloucester.

CONDEMN OFFICIALS.

Bathurst, N. B., Feb. 1.—Hon. W. P. Jones, commissioner in Gloucester liquor inquiry, arrived here on the 2.16 train this afternoon and the hearing of the evidence on behalf of the commissioners and inspectors was at once begun. Mr. Mott first called Rev. Mr. Wheeler, the pastor of St. Luke's Presbyterian church, who was closely questioned as to his personal knowledge of the charges as they appear on the records. He practically endorsed them all, excepting the charge which refers to the inspector as a "confirmed drunkard". He had no personal knowledge of the inspector to that as one of the members of the organization behind the investigation, accepted responsibility for the charges generally, excepting only that one statement.

He did not consider that Commissioner Stewart was a man of good reputation in the community as he considered that the public held that he had no "staid" as he should, to be called.

He had nothing to say against the chairman of the inquiry.

Rev. Mr. Tyle, Methodist minister, took about the same view of the situation as the previous witness.

The most pronounced witness was Rev. Father Carter, of St. Luke's. He accepted the charges as made on the ground that they were drawn up by persons in whom he had confidence. He stated that liquor was sold openly in the parish of Bathurst, which has legal option and that every one seemed to know of it, excepting the inspectors. He had had no complaint himself.

Rather an amusing feature was when the witness asked as to his opinion of the inspector, he remarked that he was informed that he was a "scamp" and in his opinion a scamp and a drunkard were about the same.

He predicted to the court the definition of a drunkard as given by Webster. One that drinks intoxicating liquors to excess.

He had very little personal knowledge of the inspector or the commissioners. He considered it strange that liquor was allowed to be sold at Bathurst as openly if the officials do their duty.

Bathurst, N. B., Feb. 2.—Saturday was largely taken up in the 1905 license investigation with the testimony of Albert J. H. Stewart, chairman of the board of commissioners. Inspector Cowan concluded his evidence early after the court opened. Dr. Meahan and Jos. Duncett were recalled to give evidence regarding a conversation between the latter and Rev. Father Martin in which Father Martin complained that discrimination was made against one license because he was a French Canadian.

Mr. Gilbert complained of the report in a newspaper of the proceedings which gave the impression that the personal reputations of the commissioners and inspector were attacked as revealed a what Rev. Mr. Wheeler was represented to say as to Mr. Stewart's reputation.

Mr. Mott urged that the report was really milder than the statement and said that Mr. Wheeler, if he chose, could go on the stand and modify his former testimony.

Mr. Stewart was under examination all the afternoon. He went into details as to his conduct of the business, explaining that he had found when he came to office the accounts in bad shape, while now the fund was in a healthy condition.

He pointed out the difficulties of his position with four contending parties to please, the local government, the municipality, the temperance people and the liquor dealers.

He deposed that there was far less drunkenness in Bathurst than in other towns he had visited, whether under the license act or the Scott Act. In the latter case particularly instancing Chatham and Newcastle.

He admitted that there were cases of petty gambling and that he had played cards for money out of the bar in houses of grace and had tossed dice for drinks in the bar.

The proceedings were then laid over until a date to be fixed by the commissioner after the arrival home of Rev. Father Vailly.

BORN.

Feb. 5th to Mr. and Mrs. D. K. Coole a son.

DIED.

At Douglastown on Saturday Jan. 27th Annie Helen aged 1 year and three months only daughter of Mr. and Mrs. John Roy passed peacefully away, after a short but severe illness. The funeral took place on Monday at 4 p. m. conducted by the Reverend Mr. Thomas when the remains were deposited in the cemetery.

Sunlight Soap is better than other soaps, but is best when used in the Sunlight way.

To appreciate the simplicity and ease of washing with Sunlight Soap in the Sunlight way you should follow directions.

After rubbing on the soap, roll up each piece, immerse in the water, and go away.

Sunlight Soap

will do its work in thirty to sixty minutes. Your clothes will be cleaner and whiter than if washed in the old-fashioned way with boiler and hard rubbing.

5c. Buy it and follow directions. 5c. Lever Brothers Limited, Toronto

ALEX DAVIDSON SAYS NEWFOUNDLAND IS ALL RIGHT.

TO THE EDITOR UNION ADVOCATE:

Dear Sir:—I was one of the party that went to Newfoundland to explore and estimate lumber lands on the Exploits River, and I have heard it is reported that I said since I came home that I did not think much of Newfoundland, and that there was no lumber there. Now, I wish to contradict that report in every particular.

I was used well in Newfoundland, and I have not one word to say against the people or the country.

I saw a report of J. W. Vanderbeck's in the World of Chatham, and I agree with him in every respect.

In regard to the quantity and quality of the lumber on the Exploits. On the part I was on, the lumber is perfectly sound and clear of shakes; and as for the quantity, I never saw such an extensive area of spruce land in my travels.

The pine is of a large size. I measured one tree, felled. It was seventy-five feet clear of limbs, and was twenty inches in diameter. On what I thought was an acre, I counted twenty of those same kind of trees.

The paper industry is going to give a great deal of employment on the Exploits river.

ALEXANDER DAVIDSON, SR.
Upper Derby, Jan. 29, '06.

The Extended Popularity Of Diamond Dyes

Induces Speculators to Introduce Weak and Worthless Imitations

DIAMOND DYES, true home helpers and money-savers for mothers and wives, are dear to every woman's heart.

Recently, speculators have gone into the package dye trade with the view of gaining a share of the immense and ever-increasing trade held by the manufacturers of the DIAMOND DYES, but all such efforts will, as in the past, result in failure.

The crude and worthless dyes brought out in opposition to the DIAMOND DYES, can never become popular, for the simple reason that they have not one good quality to boast of. The merchants of Canada who were induced to buy these adulterated package dyes now find them dead and worthless stock.

The progressive and busy druggists and dealers of Canada sell only the DIAMOND DYES, which have an established reputation of over twenty years. The modern merchant has not the time or inclination to encourage the sale of worthless and deceptive goods.

Four Canadian women Jessie, full, brilliant and fast colors, they should at all times ask for the DIAMOND DYES, the only guaranteed package dyes in the world. When buying package dyes, see that the words DIAMOND PACKAGE DYES are on each packet, handed out by your dealer. WELLS & RICHARDSON CO., LIMITED, MONTREAL, P. Q., will send to any address their New Dye Book, Card of Dye Samples, and new book in verse entitled "The Longjohns' Trip to the Klondike." This little book is interesting thousands.

You're wasting your time and your money trying to capture that widow.

Why? Don't you think she will marry me?

Of course. She told me the night she met you that she was going to.

SIR JAMES WATSON'S OPINION

He says that the commonest of all disorders, and one from which few escape is Catarrh. Sir James firmly believes in local treatment, which is best supplied by "Catarrhzone." No case of Catarrh can exist where Catarrhzone is used; it is a miracle worker, relieves almost instantly and cures after other remedies fail. Other treatments can't reach the diseased parts like Catarrhzone because it goes to the source of the trouble along with the air you breathe. Catarrhzone is free from cocaine, it leaves no bad after-effect, it is simply nature's own cure. Accept no substitute for Catarrhzone which alone can cure Catarrh.

Why don't you break it off if you feel you don't love him? Well, I believe he wants to break it off himself and I'm beginning to think I do love him.

Gas in the Stomach

Belching and that sense of fullness so often experienced after eating is caused by the formation of gas. The stomach fails to perform its functions and the food ferments. Chamberlain's Stomach and Liver Tablets will correct disorder. They aid digestion and strengthen and invigorate the stomach and bowels. For sale by R. C. Vye.

Freddy—Cholly is an awful reckless chap. He seems fond of scrapes.

Reggy—Bah Jove, maybe that is why he shaves himself.

House Cleaning Time is a good time also a good time to clean the system. Use Wheeler's Botanic Bitters. They prevent and cure all Headaches, Dizziness, Bile, Pimples, etc., and Purify the Blood, Keep the Eye Bright and Skin Clear. They regulate the Bowels, curing Constipation or Costiveness.

Do you know where little boys who smoke cigarettes go? Yes, in behind our stables is the safest place.

A GUARANTEED CURE FOR PILES. Itching, Bleeding or protruding Piles. Do not waste money if PAZO OINTMENT fails to cure any case, no matter how long standing, in 6 to 14 days. First application gives ease and rest. 50c. If your druggist hasn't it send 50c. In stamps and it will be forwarded post paid by Paris Medicine Co., St. Louis Mo. 9-291.

The following points and suggestions regarding the prevention of consumption which deserve the attention of everybody, are gathered from a recent article by Dr. Knopf of New York which is to be found in the Medical Record of November 18th, 1905.

There are more cases of advanced tuberculosis to be treated than any other disease.

There is no disease where so much can be done to render the patient comfortable and hopeful as pulmonary tuberculosis in the advanced stage.

There is no disease where one case in a family can more readily become the cause of infection of other members particularly in the stage where the consumptive begins to be confined to the close association of the family members only.

It is extremely important to remember that advanced consumptive patients who are able to go about, perhaps able to work at their ordinary calling in the office or factory when ignorant or careless, constitute the greatest danger to the health of the community.

They must be considered as the most frequent cause of infection. The careless, ignorant or helpless consumptive when confined to bed can do little more than infect his room, but the advanced patient able to follow some calling can, if he is careless, scatter 7,000,000,000 bacilli every day with the greatest ease.

Of all tuberculosis patients, he should be the most carefully instructed and should be most deeply impressed with the fact that carelessness in the disposal of the sputum is dangerous to himself as well as to his neighbors.

As yet people generally have not been educated to the point at which they are willing to carry and use a pocket flask or cardboard puse. Being desirous to conceal their condition, they are extremely reluctant to do anything which would call attention to their infirmity. Some way less likely to

cause remark must be found. Probably the best that can be done in the meantime is to suggest that tuberculous men should have two pockets lined with some material which can be easily cleaned and that they should carry in one of these pockets very cheap handkerchiefs, or bits of cheesecloth or other cheap material cut like handkerchiefs, which when used can be put into the other pocket and kept there until the close of the day when they can be easily destroyed or sterilized by boiling after their return home. In this way they can escape observation and at the same time secure their fellow-workmen and a society against danger. When so simple a precaution as this, and one so easily within the reach of every right thinking man, is available, not to make use of it, would seem to be little less than criminal neglect.

Hubbs, I think your boy will make a very distinguished man if he lives long enough.

Yes! And what do you think he will be distinguished for? Longevity, if he lives long enough.

Itching Piles. If you are acquainted with anyone who is troubled with this distressing ailment you can do him no greater favor than to tell him to try Chamberlain's Salve. It gives instant relief. Price 25c. per box. Sold by R. C. Vye.

A BILIOUS HEADACHE. Is one of the meanest things in the world. To prevent biliousness use D. Hamilton's Pills which keep the system clean and pure, regulate the bowels, give tone to the kidneys and liver. You'll never have a headache, never have a stomach, but you'll have vigorous health by taking Dr. Hamilton's Pills. Your druggist sells Dr. Hamilton's Pills 25c. per box or five boxes for one dollar.

I seem to be the walking delegate of this union, remarked the wayfarer. There was no triumph in his tone.

The truth was his wife had seen him on an errand, and he had no care.

HAVE YOU HEARTBURN? It is quite common with people whose digestion is poor. Immediate relief follows after the use of Nervine. Stomach is strengthened, digestion is made perfect, last cure results in every case. Nervine's Nervine once and you'll never be without it because every type of stomach disorder is conquered by a few doses. One 25c. bottle of Nervine always convinces. Sold everywhere for the past fifty years.

Dottie went out calling with her mother. When about to enter an apartment house the child said: "Mamma, you'll have to take your gloves off before we go in."

Who so, Dot? I heard the janitor say the other day they didn't keep any kids in these flats.

Every Mother who does not already know, should know the value of that safe, pleasant and effective remedy, McLean's Vegetable Worm Syrup. Any child will take McLean's Vegetable Worm Syrup. All dealers keep it.

If all of us knew one-half of the time what some people are saying about us all of the time, we would feel very chummy some of the time, so meaner than dirt most of the time, so seal up your ears, look pleasant and saw wood all the time.

In looking up the title to a piece of land in Greenwood, an old deed was found which contains an amusing description. The last clause of the description is, "Thence a crooked as you can, go to the north line of the Phillips Academy grant."

Coughs that irritate and inflame the throat, loss of voice, Bronchial and Asthmatic Coughs, promptly relieved with The Bard Company's Wine of Tar, Honey and Wild Cherry. This preparation is highly recommended for Public Speakers and Singers. "It clears the throat."

How a Chinaman Smokes.

Of all smokers the Chinaman goes to the greatest trouble and obtains the least result. "He carries," says an observer, "a little box almost twice the size of an ordinary silver cigarette case. This is half filled with water. In one end is a removable tiny tube to serve as a pipe. At the other end is the cigarette. First of all he takes out the tube and blows through it to remove all blockage. Then he fumbles through his awkward clothes, searching for tobacco, and produces a bit of rag, in which it is wrapped. Carefully he extracts a wad of tobacco, puts away his rag and slowly plugs the tube, which holds perhaps the tenth part of an ordinary cigarette. But he never has any matches, so he has to borrow or hunt out a brown paper stem and light it. It glows for a long time and can be puffed into flame again. He gives a long draw, slowly enjoying it to its full extent for a minute or two, then back again through the old routine to find his tobacco, fill his pipe and get it lighted."

Remarkable Escapes.

One of the most remarkable escapes from drowning on record was that of a man whom a wave picked off from a vessel, washed into the sea off Lundy Island, near the Devonshire coast, England, and then returned to his ship. But it was not so remarkable a case as that which is suggested by an epitaph said still to exist in Jamaica: "Here lieth the body of Lewis Gaidy, Esq., who died on the 22d of September, 1737, aged 80. He was born at Montpelier, in France, which place he left for his religion and settled on this island, where in the great earthquake, 1672, he was swallowed up and, by the wonderful providence of God, by a second shock was thrown out into the sea, where he continued swimming until he was taken up by a boat and thus miraculously saved. He afterward lived in great reputation and died universally lamented."

"Esquire" and "Gentleman."

The words "esquire" and "gentleman" are among those which fall from our lips daily, and yet most of us would be rather puzzled to say in precise language what we mean by them.

In a county court case a schoolmaster was ruled out of the "gentleman" list. Legal distinctions on the point have been anomalous. The following are not "gentlemen": A buyer of silks, a solicitor's clerk out of regular work, a commission agent and an audit office clerk. On the other hand, the following have been held "gentlemen"—viz, one following country pursuits and a sleeping partner in some business, a medical student, a dismissed coal agent out of work and a person living on a parent's allowance.—London Law Times.

A Curious Advertisement.

An old London paper contains the following curious advertisement: "Wanted, a man between twenty and thirty years of age to be a footman and underbutler in a great family. He must be of the Church of England and have had the smallpox in the natural way. Also a woman, middle aged, to wait upon a young lady of great fashion and fortune. The woman must be of the Church of England, have had the smallpox in the natural way, very sober, steady and well behaved and understand dress, getting up lace and fine linen and doing all things necessary for a young lady that goes into all public places and keeps the best company. Inquire of the printer of this paper.—Oct. 1, 1774."

The Madness of War.

So wars are begun by the persuasion of a few debauched, barebrain, poor, dissolute, hungry captains, parasitical fawners, unquiet hotspurs, restless innovators, green heads, to satisfy one man's private spleen, lust, ambition, avarice, etc. Fios hominum, proper men, well proportioned, carefully brought up, able both in body and mind, and led like so many beasts to the slaughter in the flower of their years, pride and full strength, without all remorse and pity, sacrificed to Pluto, killed up as so many sheep for devils' food, 40,000 at once.—Burton's "Anatomy of Melancholy."

Gory Dew.

In appearance gory dew is a dark red, slimy film, which is frequently seen on damp walls and in shady places. It is in reality one of the lowest forms of vegetable life and is closely allied to the plant to which the famous phenomenon of red snow is chiefly due. Its botanical name is *Palmella crenata*. At times patches of it may become quite large, and it will develop into a tough, gelatinous mass.

Ungrateful.

"Some people never thank you, no matter what you do for them," said a small boy. "A feller put a bent pin on the teacher's chair the other day, and when the teacher was about to sit down I pulled the chair out from under him to save him from the pin, and if he didn't lick me for it!"

He—I know lots of women who haven't any sense of humor. She—Well, what of it? I know lots of men who haven't any sense at all.

Minard's Liniment Cures Disemper.

UPPER NELSON

We are pleased to see some of our young men in our midst again, after their sojourn in the lumber woods.

Most of the young folks are taking advantage of the good skating. A carnival is contemplated being held in 'Doyle's Cove' on Friday if the weather continues fine.

Mr. Patrick Walsh who has been seriously ill, has taken a change for the better, and it is hoped that he will soon be making again.

Mrs. R. Dawson was visiting friends in Semiwayan Ridge on Sunday last.

Mr. and Mrs. Wm. Kirk were the guests of Mrs. Jas. Grattan on Sunday.

We are pleased to hear that Miss A. Doyle, who has been spending the winter in Fredericton, is expected home.

Miss Bernetta Tobin of White Rapids, spent Sunday at her home here.

Mr. Wm. Russell was visiting friends in Chelmsford on Sunday. Mr. Thos. Hackett intends erecting a dwelling on 'Barren Heights' in the near future.

YES—THEY ARE.

We have talked so strongly about "Fruit-a-tives" being a liver tonic, and curing Constipation and Biliousness, that some may think they are not for anything else. Well, they are. "Fruit-a-tives" are a grand, good tonic for the whole system. One "Fruit-a-tives" tablet three times a day, makes rich, red blood and firm flesh. The same daily treatment and a sensible diet takes away dyspepsia and gives you sound digestion, and good appetite. "Fruit-a-tives" clear the skin of pimples and blotches—make the complexion fresh and rosy. Get "Fruit-a-tives"—take them the right way—and see how you improve.

50c. a box. At all druggists.

Vapo-Cresolene

Established 1879. Whooping Cough, Croup, Bronchitis, Cough, Grip, Asthma, Diphtheria. Cresolene is a boon to Asthmatics.

CRESOLENE is a long established and standard remedy for the diseases indicated. It cures because the air is made strong; antiseptic is carried over the diseased surfaces of the bronchial tubes with every breath, giving prolonged and constant treatment. Those of a consumptive tendency, or sufferers from chronic bronchitis, find immediate relief from coughs or inflamed condition of the throat.

Vapo-Cresolene is sold by druggists or sent prepaid on receipt of price. A Vapo-Cresolene outfit including a bottle of Cresolene \$1.20. Send for free illustrated booklet. LEXINGTON MILLS CO., LTD., Agents, 200 St. James St., Montreal, Canada. 306

GIVE THE

1/2 A CHANCE

and it will make one pound of flesh on less food than any other farm animal because its digestive juices are stronger.

It is the ideal meat making machine. Hence every effort should be made to keep it "up" and growing from birth. No let up because it is too much effort to get it back.

It is less effort to draw a wagon a given distance if constantly in motion than if stopped and started every once in a while.

Clydesdale Stock Food

will keep your hogs "up" and growing because it gives a better appetite, thereby increasing the digestive fluids, and these dissolve and assimilate more food and at a profit.

It keeps them in tip-top health enabling them better to resist disease, thereby making a firmer flesh. It gets them to market weight much sooner, saving feed bill. Nothing better for runs. Equally good for Horses, Cattle and Sheep.

Nothing injurious in it and can stop feeding it without harmful effects.

If you are not satisfied after feeding it your money cheerfully refunded by the dealer. Same for all Clydesdale preparations.

Clydesdale Carboline Antiseptic will keep your pens and pigs clean.

TROUT Mezzz Work

The undersigned have received from Mr. Nash of Maine the agency for New Brunswick for his famous trout mezzz work. A trout mezzz is one half the fish so mounted upon a convex elliptical panel as to stand the fish out in bold relief, giving the effect of an oil painting or while a dried fish, with the real thing to show at your prowess. The process of preserving fish in this artistic way was discovered by Mr. Nash in 1900, and patented by him.

EMACK BROS., Leading Taxidermists, Fredericton, N. B.

NOTICE

Notice is hereby given that, at the next meeting of the Local Legislature, legislation will be applied for to make certain changes in the assessment law respecting the Town of Newcastle, also for the erecting of a fire district in the Town in accordance with certain demands of the Fire Underwriters, also, to provide funds for the building of permanent sidewalks and special taxation therefor on adjoining properties and the erection of a crib work at the public wharf, also for authority to impose taxes and assessment on certain properties within the Town and the amendment of an Act relating to the Town of Newcastle passed in the year 1903, also for the power to bond the floating indebtedness of the Town and to provide for necessary expenditure in connection with Water, Sewerage and Electric Light.

Dated this 26th day of January, A. D., 1906.

R. T. D. AITKEN, Town Clerk. 171.

FOR SALE

A four horse power engine with six horse power boiler in good condition. Will be sold cheap. Part cash, part time. Just the thing for running light machinery. Apply at once at ADVOCATE OFFICE.

Dated Jan. 30th, 1906. 171.

Messrs C. Gates, Son & Co.,

Dear Sirs:
I have been thinking for some
time that I should write and let you
know what your

CERTAIN CHECK

has done for my son. He had such a
bad case of Cholera that he was reduced
to skeleton. We tried Doctors, drugs
and every other remedy but without
avail. Finally we procured your Certain
Check and we believe it saved our boy's
life, as it cured after everything else
had failed.

Your Life of Man Bitters and Invig-
orating Syrup also cured me of Lung
trouble. I consider that your medicines
are all as recommended. Yours truly
W. I. Curtis.

Gates' Certain Check never fails and
is sold everywhere at 25c. per bottle.

Wife (enthusiastically)—How
much do you think we took in at
the bazaar?
Husband (quietly)—How many
you mean.

To Cure a Cold in One Day
Take LAXATIVE BROMO QUIN-
INE Tablets. All druggists refund the
money if it fails to cure

She is that stingy, said Bridget
to Agnes her caller. If I wrap up
the least bit of tay for the
folks at home, sure she misses it at
once.

Why, asked the visitor, don't
you take it out of the bottom av
the can.

Concerning The
Connell Stamp.

POST OFFICE OFFICERS WHO
REMEMBER THE
ISSUE

A writer in a Boston Transcript
of recent issues gives under date
of Washington, an interesting
account of the origin and fate of
the famous "Connell" stamp, issue
of 1860. The "Connell" was the
five-cent denomination of the first
stamp issue after the change of
New Brunswick currency from the
"pence" to the "cent" basis. It is
so named from the fact that H. H.
Charles Connell, then provincial
postmaster general, had seized the
opportunity of having his likeness
down to posterity by having it
engraved upon the stamps. His
action not meeting with govern-
mental approval, however, the
plates were ordered changed to
the portrait of the Queen, while
the thousands already printed of
Mr Connell's miniatures were
burned by the postal secretary.
The Transcript's account goes on
to say that these five-cent stamps,
were never issued to postmasters,
and that genuinely stamped copies
purporting to exist are invariably
found to be spurious. A genuine
used specimen, it is stated, would
be snapped up at \$25.00 while an
unused copy comes at \$150.

A tale told by the Globe Thurs-
day with some prominent postal
officials brought out some additional
facts of an interesting nature.
Assistant Inspector Wm. C. Whit-
taker, the oldest official at present
in the service, entered two or three
years previous to the issue of the
stamp, and recollects well that
several thousands of the Connell
stamps were issued to various
post offices, numbers being used
before the remainder were called
in and destroyed. There should,
therefore, be a considerable number
of genuine used specimens in ex-
istence. Speaking of the spurious
copies, head clerk W. R. Avery
said that these were proofs from
the original plates, which were
distributed to several members of
the government. These bogus
specimens are unperforated, and
valued at about \$10. The issue of
which the stamp in question is
one, was the first lot perforated in
New Brunswick. A genuinely
perforated specimen catalogued at
\$140.

Despite its history, the Connell
stamp was a fine specimen of the
engraver's art. An enlarged
portrait of the postmaster general,
in the possession of a Woodstock
family, is an excellent reproduction
of his features.

GRAND TRUNK
DINING CAR SERVICE

A prominent M. P., who lately
returned from an extensive trip in
the west, when leaving a Grand
Trunk dining car last week, said:
"This is the best meal and the
finest service I have had since I
left Canada."

When you next visit Montreal,
Detroit, Chicago, Buffalo and New
York try the luxury of a first
class meal, served in first-class
style, in a beautiful car, while
travelling at a sixty-mile gait over
a splendid double-tracked modern
railway, such as the Grand Trunk.
—Kingston Whig, Nov. 22, 1905

Sunlight Soap is better than other soaps,
but is best when used in the Sunlight way.

Mrs. G., and I wish you would get
one for me when you are at it.

Mothers Are Helped
THEIR HEALTH RESTORED

Happiness of Thousands of Homes Due
to Lydia E. Pinkham's Vegetable Com-
pound and Mrs. Pinkham's Advice.

A devoted mother seems to listen to
every call of duty excepting the su-
preme one that tells her to guard her
health, and before she realizes it some
derangement of the female organs has
manifested itself, and nervousness and
irritability take the place of happi-
ness and amiability.

Tired, nervous and irritable, the
mother is unfit to care for her chil-
dren, and her condition ruins the child's
disposition and rears, even herself.
The mother should not be blamed, as
she no doubt is suffering with back-
ache, headache, bearing-down pains or
displacement, making life a burden.
Lydia E. Pinkham's Vegetable Com-
pound is the infallible cure for this
condition. It strengthens the female
organs and permanently cures all dis-
orders such as this letter describes:

Dear Mrs. Pinkham:
"Being mother of five children, I have
had experience with the general troubles of
my sex. I was lacerated when one of my
children was born, and from that hour I date
all of my afflictions. I found that within a
few months my health was impaired, I had
frequent sickness and serious inflammation
and frequent flowing spots. I became weak
and dizzy, but kept on my feet, dragging
through my work without life or pleasure.
A neighbor who had been helped by taking
Lydia E. Pinkham's Vegetable Compound in-
sisted that I take at least one bottle. I did
so, and felt so much better that I kept on the
treatment, and it made me a strong and well
woman. The few dollars I spent for the medi-
cine cannot begin to pay what it was worth
to me.—Mrs. Anna McKay, 230 Spadina
Ave., Toronto, Ont.

Mrs. Pinkham advises sick women
free. Address, Lynn, Mass.

You won't be able to enjoy the
same luxuries after you're married.
Why not? I'm able to afford them.
Oh, yes. I just said you would
not be able to enjoy them.

Lumbago, Sciatica
Gout, Neuralgia

All Caused by Rheumatic
Foison in the Blood—
Cure Guaranteed—
Relief Swift and
Sure From
DR. HAMILTON'S PILLS.

There is a new life ahead for every
sufferer from rheumatic poison who has not
yet used Dr. Hamilton's Pills; their prompt
cures are the marvel of the medical pro-
fession of many nations.

The unspeakable anguish of rheumatic
torment need no longer be suffered—use
Dr. Hamilton's Pills and permanent cure
is assured. In so many thousands of
cases have Dr. Hamilton's Pills been
successful, the manufacturers are willing
to guarantee a lasting cure to all that use
them.

No one can doubt the efficacy of Dr.
Hamilton's Pills after testing the experi-
ence of Miss Minnie Saunders, of Halifax,
who says:

Scores of different remedies failed
to relieve me. I suffered incessantly
from neuralgia and sciatica. Some-
times the pain was unbearable.
A friend recommended Dr. Ham-
ilton's Pills. In a few days I was
relieved. I continued the treatment
using all five boxes, and was cured.

I have not felt the slightest pain or
ache since taking Dr. Hamilton's
Pills and consider my cure absolutely
perfect.

Why delay any longer? Get Dr. Ham-
ilton's Pills at once. They will restore
your health in a short time. Price 25c.
per box or five boxes for \$1, at all deal-
ers or by mail from N. C. Pilsen & Co.,
Hartford, Conn., U. S. A., and Kingston,
Ont.

An average girl is never satisfied
until she acquires a son-in-law for
her mother.

Coughs, colds, hoarseness, and other throat
ailments are quickly relieved by Creosolene
tablets, ten cents per box. All druggists.

Towne—I never saw a man who
was so fond of entertaining as
Henpeck is. It's really remark-
able.

Browne—Oh, that's not so
strange. You see, his wife is quite
pleasant to him when there's com-
pany in the house.

Use Kendrick's Liniment

The Union Advocate

NEWCASTLE, FEBRUARY 7, 1906.

The Dominion Parliament will meet March 8th. The Tariff revision will be the main question at this session.

THE WAVE IS HERE.

Some few weeks ago a temperance wave swept over Ontario. It would seem that it has not passed by us unnoticed. There is considerable ferment here amongst those most interested in the cause of temperance and not without reason. It certainly looks absurd to have a law upon the statute books—a criminal law—and allow it to remain as a dead letter. It seems like a parody on legislation to allow it to remain as it is at present. Neither party is satisfied. Those in favor of Scott Act seem powerless to enforce it; those in favor of Liquor License Law are equally strong against the existing Law. What is to be done next?

MISS FENCH'S CASE

In connection with the case of Miss Mabella P. French it is interesting to note that some of our contemporaries are bowing to the recent decision of the Supreme Court in this matter, and have offered a satirical apology to the bench for the misfeiture in which they published the court proceedings of the case. We are pleased to learn that they have even thought of reforming; and would add that an apology from those who have attempted to use her name with disrespect, might not be out of place. Miss French is a lady of uncommon ability, eminently fitted for the high position to which she is aspiring and to couple her name with drunken Kate of Police Court fame is shameful in the extreme.

COMPULSORY EDUCATION AND FREE TEXT BOOKS.

One of the greatest benefits which the Legislators who are to meet in Fredericton Thursday next could bestow upon the Province would be the passing of an Act for compulsory education and free text-books.

The subject of compulsory education has been so often rehearsed that it seems almost like a waste of words to mention it here; but as nothing has ever been accomplished along this line, we feel it is our duty to once more urge upon the Legislators the necessity of this great work.

Through it the whole country we find children growing to manhood and womanhood who are unable to either read or write. It is true that the numbers are not so great as formerly, but there are many children, especially in country districts, who have but very limited education. In most instances it is the fault of the parents. Children complain to indulgent parents that the teacher is "cross" or "no good" and the result is that the child is allowed to remain at home and grow up in ignorance. Ignorant and illiterate parents fail to appreciate the advantage of education and they often keep their children home from school to do work which they are far too young to do. They complain that they cannot get along without their child's help. The old saying is here at least true—"Where there's a will, there's a way"—and if parents are unable to frame the will it would be a most commendable act for the Legislators to frame it for them. The question of Free text books is also worth considering. The buying of text books for large families by poor parents is quite an obstacle in the way of better education, and so long as the present system continues teachers will always find their scholars ill supplied with them.

Government can supply them far more cheaply than parents can, and it can be done to better advantage, and it would certainly remove from before the teachers a troublesome and insoluble problem.

Dottie went out calling with her mother. When about to enter an apartment house the child said: "Mamma, you'll have to take your gloves off before we go in. Who so, Dot?"

I heard the janitor say the other day they didn't keep any kids in these flats.

The Baird Company's Wine of Tar Honey and Wild Cherry

A Lubricant to the Throat A Tonic to the Local Chords

CANADA AND HER DOLLARS.

We are a great people, and we have a great country; and we are not often allowed to forget either fact, except when we are asleep. Visitors who come to us from the various parts of the outer world—which some of us are inclined to translate freely as "outer darkness"—find that they are permitted to bring their superlatives into the country duty free; and they are consequently soon filling our ears with them about everything Canadian. It must be confessed that we have a fairly strong appetite for superlatives. But it is not so certain that the diet is entirely good for us. For instance, it unites our palates for patience under the tonic of criticism. Quite lately two visitors have done us the heroic kindness to administer a little of this tonic; and it cannot be said that we have distinguished ourselves for gratitude. Sir Gilbert Parker in the Canadian, and Madame Sarah Bernhardt, in a talk which has been so freely edited since its first publication that we hardly know what it did contain, ventured to tell us that there are one or two things in which we are not "world-beaters." Sir Gilbert, who knows us, made this suggestion tactfully; and as we let him go with nothing more severe than a pained silence. But the impatient Parisienne—well, perhaps we had better cover that incident with a pained silence too.

What they both told us, however, was that we have been making great material progress but have almost entirely neglected "things which matter." We are adepts at dollar making; but we do not in the least know what to do with our dollars after we get them. No one can best us at putting them where they will produce the most dollars; and then we can plant these additional dollars to produce still more, until it is always dollars—dollars—dollars that we get, and sometimes a useless multiplication of the simple satisfactions which we used to buy for five-cent pieces. Where we are not bewildered by the flood of rolling dollars we have evoked, we are very apt to spend them as did the country lad who thought to get a dinner worth "a wad of dollars" as he had read of, with his pen doing, and knew of no other way to order "a dollar's worth of ham and eggs."

But Parker asks why we do not put our dollars where we might create a better world than the one which would breed pictures that Australia buys pictures; and if it has fewer dollars than we have, it is New York, and certainly Boston, with pictures. A daring group of gentlemen in France have suggested to Premier Whitney that he might let Canadian artists paint pictures of Canadian heroism and achievement.

For Thin Babies

Fat is of great account to a baby; that is why babies are fat. If your baby is scrawny, Scott's Emulsion is what he wants. The healthy baby stores as fat, what it does not need immediately for bone and muscle. Fat babies are happy; they do not cry; they are rich; their fat is laid up for time of need. They are happy because they are comfortable. The fat surrounds their little nerves and cushions them. When they are scrawny those nerves are hurt at every ungentle touch. They delight in Scott's Emulsion. It is as sweet as wholesome to them.

Send for free sample.

Be sure that this picture is the form of a label is on the wrapper of every bottle of Emulsion you buy.

Scott & Bowne Chemists Toronto, Ont.

50c. and \$1.00 All Druggists

ment on the black walls of the Legislative Buildings of Ontario; and the Premier did not talk as if this daring proposal seemed to him beyond the realm of the possible.

We in Canada are too ready to think that we have neither history nor artists, and they are wrong in both cases. Still, so long as we neglect to surround our youth with the inspiration of such history as we have and to extend native encouragement to native artists, we will do much to perpetuate a partial justification of this pessimistic view.—From "Wall Paintings in Europe" by A. R. Cármas, February Canadian Magazine.

DERBY NOTES Local and Personal

H. Price Wabher's Company played two nights in Merton Hall last week. The hall was crowded to its utmost capacity and everybody was delighted with the play.

Skating has been the order of the day or the past week and quite a number took advantage of that pleasant and delightful pastime.

I would like to call the attention of the public to the disorderly conduct of some of the young boys in the skating rink. If they cannot have any respect for themselves or anybody else, they ought not to be allowed in such places.

Mr. James Robinson and Mr. Weldon Robinson were in Newcastle Friday to witness the horse races.

Mr. George Peterson skated to Newcastle and back in sixty minutes one day last week.

The friends of Miss G. Carruthers are sorry to hear of her illness.

Cash or Cure

If Shiloh's Consumption Cure fails to cure your Cold or Cough, you get back all you paid for it. You are sure of a Cure or the Cash.

It wasn't a sure cure, this offer would not be made.

Can anything be fairer?

If you have a Cold, Cough, or any disease of the Throat, Lungs or Air Passages, try

ISSUE BOND FOR SERVICES

**Dalhousie Will Ask For Power to
Issue \$70,000 Debentures for Water
Sewerage and Light.**

Dalhousie, N. B. Feb. 5.—At a special meeting of the Dalhousie town council on Saturday evening it was decided to authorize Willis Chapman, a civil engineer of Toronto to complete arrangements with the Pneumatic Engineering Co. of New York for the testing of two artesian wells.

Upon motion of Hon. M. LaBelle, seconded by A. M. Powell it was unanimously resolved to petition the legislative assembly at its coming session to give the town power to issue debentures for a sum not exceeding \$70,000 to provide for a system of water, sewerage and electric light upon a vote being taken by the rate payers. A report of the chairman of the street committee, that ten ornamental trees have been destroyed by some mischievous person or persons, it was decided to offer a reward of \$50 to any person who would furnish sufficient information to secure a conviction against the guilty party.

BATHURST

Social and Personal

At 8 o'clock Wednesday morning the Church of the Holy Family Bathurst Village was scene of a very interesting ceremony being the marriage of Miss Agnes Lydia Melanson, daughter of Samuel Melanson, registrar of deeds to Mr. Louis J. B. Senz, of Montreal. Rev. Henry O'Leary, performed the ceremony. The church was beautifully decorated for the occasion, the wedding march was played by Miss Leger. The bride wore a travelling suit of navy blue silk with black velvet picture hat, and carried a bouquet of white flowers. She was attended by Miss M. A. Senz, sister of the groom, who wore a blue velvet suit with hat to match. H. A. Melanson, brother of the bride was best man. The bride is one of our most popular young ladies which was manifested by the large number of beautiful and costly presents received. The bride and groom left on the local express for St. John and then to Boston, New York and other American cities before returning to their home in Montreal. A great number of their friends were at the depot to see the bridal party off, who left amid showers of rice and good wishes for long years of happiness. The groom's present to the bride was a gold brooch and pendant with sapphires and baroque pearl. To the bridesmaid a gold brooch with rubies and pearls and a diamond and ruby pin to the best man.

Price Webber Co., have engaged the Opera House for the week commencing Monday Feb. 5th the opening play being the Gold King. As usual our old friend will be greeted with a large audience for each and every one of our theatre goers are ever ready to welcome him. A feature added to the programme will be our local orchestra under the management of Mr. Willet.

Mrs. R. Southwood went to Campbellton on Saturday to visit her sister Mrs. Berry. Miss E. Babin, of Edmundston who has been visiting her sister Mrs. McKay left Thursday evening for Campbellton, to visit Mrs. Malcolm.

Miss M. A. Senz has returned to her home in Montreal after spending some weeks in Bathurst.

Miss Tilla Melanson left Friday morning for Fredericton where she will visit Mrs. F. G. Foster.

Mr. P. J. Burns, returned from St. John, on Saturday.

Dr. A. J. Somers of Lunenburg was in town this week.

Mr. James J. Melanson went to Moncton on Monday last to attend the Artisan meeting.

The publisher of the best farmers paper in the Maritime Provinces in writing to us states:

"I would say that I do not know of a medicine that has stood the test of time like MINARD'S LINIMENT. It has been an unfailing remedy in our household ever since I can remember, and has outlived dozens of would be competitors and imitators."

I seem to be the walking delegate, of this union, remarked the wayfarer. There was no triumph in his tone.

The truth was his wife had sent him on an errand, and he had no choice.

TANNING BY ELECTRICITY.

**Factory to be Established in the
Maritime Provinces.**

The Maritime Provinces are to have the credit of initiating the first scientific advance that has been made in the art of tanning for some centuries. This is due to the enterprise of the Canadian Electrical Process Co., Ltd., which has recently been organized for the purpose of erecting and operating an electric tannery at some convenient point in the Maritime Provinces.

The provisional directors of this company are John C. O'Mullie, President, Edward Stairs, Treasurer, and W. E. Thompson, Secretary, all of Halifax, along with Max Ugar, Halifax, Geo. D. Barton, Boston, (the inventor of the process) and Frank W. Gifford, Fairfield, Maine.

These gentlemen have undertaken the enterprise only after giving the process a very severe trial. They established a demonstration plant in Halifax and operated it for two months not only giving it careful scrutiny themselves, but calling in leather experts and many prominent business men to follow the various stages of the process and judge of its results. These tests showed that the electrical tanning process could do in 30 days what it takes four months to do by the process now in use. The demonstration also proved that not only was time saved, but a great amount of labor as well, and that the process also produced the finest quality of leather.

So great economies being effected by this process the new company will evidently have the best opportunity to make profits of any tannery in operation, and there is the more force to this in view of the fact that the tanning industry is in a particularly sound condition because the demand for this commodity is and will continue to be much greater than the supply.

The Company makes an estimate an annual profit of 18%, which seems to be very conservative, and no doubt the issue of \$100,000 of 7% cumulative preferred shares which they now offer will become very popular among investors in the Maritime Provinces.

The price of the stock, \$100.00 per share, affords an opportunity for the small investor or which it is expected will secure a very last list of subscribers.

The establishing of a new and profitable industry in the Maritime Provinces is one that should command the support of people in all circumstances. We would refer our readers to the advertisement regarding this one which appears elsewhere in the present issue.

Owing to an oversight in the preparation of the prospectus of the Canadian Electrical Process Co., Limited, the fact that a share of common stock would be given with every share of preferred stock, was omitted. The Directors wish it to be known that all subscribers, including those who have already sent applications for stock in the new company, are entitled to and will receive this bonus.

Douglastown

We think the walking must be good between here and Newcastle as our young people make many trips.

It is reported that James Taylor and Edward Woods intend opening a pool room and cafe in Douglastown in the near future.

Misses Olive Russell and Rano Wiseman of Newcastle were the guests of Miss Gekko on Sunday.

Mr. John Driscoll arrived safely from the woods last week.

We are very sorry to hear that Mrs. Casie is failing in health.

Misses J. Taylor and Ed. Woods enjoyed a very pleasant afternoon, driving with Thor, Barnett's "Flyer" on Friday last.

NIGHTINGALE.

LOWER DERBY

Social and Personal

Mrs. Frances J. Clouston of Bangor who has been visiting her daughter, Mrs. H. Appleby, has returned to her home.

A number of the young men have returned home from Sheehy.

Mr. Amos Russell spent Wednesday at Mr. Samuel Lee's.

We are very sorry to hear that Mr. John Ericson is still in very poor health. Misses Sadie Haine and L. L. Arsenault spent Wednesday with Mrs. Harvey B. Brown.

We are pleased to hear that Mrs. John Russell is slowly recovering from her recent illness.

Mrs. F. B. Brown passed through here on Wednesday.

Mrs. W. Caruthers and Mrs. A. Barron were the guests of Mrs. H. Appleby on Tuesday afternoon.

We are glad to see Miss Mabel Clouston in our midst again.

Miss Katie Ames spent Sunday at her home.

Mr. Hiram Appleby spent Sunday at his home.

THE CHANGE NOT APPRECIATED

There is quite a fermentation going on in the Parish of Northesk over the turning down of Mr. Wm. Baileys as boommaster of the mouth of the Mill Stream and appointing Daniel Donovan in his stead. It is stated that the boom across the mouth of the Mill Stream was purchased by the Maritime Sulphate Fibre Co., and Mr. Baileys jointly. This boom is hitched at one end to a tree standing on the shore of Mr. Baileys' property, and he has always been boommaster here. At the last annual meeting of the Councilors Mr. Daniel Donovan was appointed in his stead. It is claimed that no fault was ever found with Mr. Baileys during the years which he held office, and his friends are naturally quite indignant over his removal. But there is still another side to the case. In consequence of the drives being "hung" last spring the boom was left down, and when the spring freshets came it is there ready to scoop the logs that come down the Mill Stream, if it is allowed to remain there. But Mr. Baileys says that no one has any real privilege to pass through his fields in summer or hitch beams to his shore beyond what he gives them gratis, and he has announced that his generosity is at an end and that he will not allow the boom to remain hitched to the old willow tree. What will happen to the boom? Where will the logs go to and who will be responsible for the loss? Those who have logs to drive are growing anxious over Mr. Baileys' proclamation. They claim that he is master of the situation, and feel that it is no wise to appoint a new boommaster if that be Mr. Wm. Baileys. The question is, doubtless, worth considering.

THE STARFISH.

This Peculiar Creature Can Neither See, Hear Nor Smell.

Unlike man, the starfish which loses one of its "arms," or properly its rays, grows a new one to take its place. Under certain conditions it grows two to take the place of one. A starfish may lose all its rays without losing its life, and very often a cripple with but a single ray left is found by fishermen and collectors. When completely broken in two the starfish becomes two distinct fish, and the growing process continues. The brittle starfish, it is believed, in many instances breaks off its own rays at the approach of danger. For this reason it is difficult to obtain a perfect specimen.

A starfish can neither see nor hear. Neither has it the sense of smell. In spite of these seeming impediments, nevertheless, it seeks and devours its prey as neatly as an ordinary fish. The starfish lies upon its prey and folds its "arms," or rays, completely about it. Then it pushes its stomach out through its mouth and will wrap even a large oyster and shell within the folds of its stomach. The mouth of the starfish is in the center of its rays.

Some great ships are today employed almost wholly in seeking for starfish specimens in deep seas, and there are hundreds of men who spend a portion of their time in collecting starfish in the interests of science. Many of the specimens collected by ships are taken from depths of one and even two miles.

Supreme Test.

She was a Wisconsin girl of more than the usual share of this world's goods who became engaged to the man from Maine, a civil engineer, whose business was in the far west. Compelled to separate soon after the engagement, 2,000 miles soon divided the two lovers. Business duties called the man away, but frequent letters helped to shorten the months of separation. Turning her attention to cooking, this girl of almost unlimited wealth soon proved her devotion to her absent lover by mastering the difficulties of cooking in anticipation of that happy time when she should have a home of her own. Triumphant she wrote her lover, "I can make lemon pie, custard pie and Washington pie all myself!" Then did this man from Maine and the land of orchards assert his loyalty to his home state most vigorously and back over the wires, 2,000 miles away, came this telegram, brief, but emphatic, "Try apple!"

Pepys' Furnace.

An electric resistance furnace was used by Pepys in 1815 for the cementation of iron. He took a piece of pure, soft iron and cut a slit along its length. The slit was filled with diamond dust, which was prevented from falling out by fine iron wire. The portion of the wire containing the dust was wrapped in mica. The wire thus charged was heated quickly to redness by the current from a battery. On opening the wire Pepys found that the diamond dust had disappeared and that around where it had been the wire had been converted to steel.—London Engineer.

Followed Her Instructions.

Mrs. N. was giving instructions to her new servant: "Before removing the soup plates, Mary, always ask each person if he or she would like any more."

"Very good, madam."

Next day Mary, respectfully bowing to one of the guests, inquired, "Would the gentlemen like some more soup?" "Yes, please."

"There isn't any left."

A REVOLUTION IN TANNING

Demand for LEATHER exceeds the available supply, making its manufacture the SAFEST and most Profitable business in the world.

Canadian Electrical Process Company, Ltd.

HAVE YOU IDLE MONEY?
If so, why not get it busy earning 7% in the Manufacture of Leather? This opportunity is one you cannot afford to miss.

OVER 3,000 years ago the Egyptians wore shoes or sandals made of leather and since that date no successful substitute for this material has been produced. Inventions of far reaching importance have marked the progress of all industries, but in the tanning of leather the methods and processes in use to-day differ but slightly from those used by the Egyptians. The employment of electricity in the varied industries of the world is comparatively recent. Tanning of leather has never before enjoyed the aid of this wonderful industrial agent and the Canadian Electrical Process Company, Limited, has now demonstrated the immense value of the electrical current in treating and tanning all classes of hides, skins and pelts.

This Company has power under its charter to Electrically or otherwise unhair, tan, dye, wash, cleanse, bleach and otherwise treat Animal Furs, Hides, Skins, Textile and porous substances.

SOLE AND EXCLUSIVE RIGHTS.

The Company owns and controls all patents covering these new methods in Canada, Newfoundland and British West Indies.

The Canadian Electrical Process Company, incorporated at Halifax, shall be the parent or holding Company and encourage the formation of subsidiary Companies throughout the Dominion of Canada and Newfoundland to operate one or more branches of the business which the parent Company under its patents controls.

SUBSIDIARY COMPANIES.

These Companies will be licensed to make sole and upper leather; do wool washing; degrease, unhair and tan seal skins; treat cotton and cotton waste; treat hair; coconut fibre; raffine; flax and rope; treat furs, sheepskins and wool pelts; refine and manufacture vegetable and animal oils; for dyeing, shrinking and colour setting; for bleaching, and so on; each paying a royalty or bonus in cash and shares for the exclusive right to operate within a given territory under any one or more of said patented methods, arts or processes.

UP-TO-DATE ELECTRICAL TANNERY.

The Company will build, equip, and operate, a thoroughly up-to-date tannery for the manufacture of leather by these processes, the advantages of which will be shown in the course of this statement.

PROCESS FULLY DEMONSTRATED.

The Company has had in operation at Halifax for some months, a demonstrating plant to illustrate the various processes, methods and inventions of unhairing, washing, dyeing, tanning and otherwise treating hides, skins and pelts. A number of leather merchants and prominent Nova Scotia boot and shoe manufacturers, visited this plant and placed

private marks upon certain hides, and noted the hour they were placed in the electric tanning vats, for the purpose of verifying the claims of the Company in the matter of time and labor saving and the quality of leather produced. Their opinions are submitted in affidavits which may be seen on application.

THERE IS NOTHING LIKE LEATHER.

is an old and true statement. The mercantile records for years back rarely record a failure in the tanning industry. The demand for leather is always increasing.

EASY TO SELL LEATHER.

Leather being a commodity, the uses of which are many and varied, there will always be a ready market for the output of this Company at a good margin of profit. The net earnings of the plant proposed to be erected will greatly exceed the amount required for the interest on the preference shares. This does not include any estimate of profits from subsidiary companies.

ECONOMIES OF ELECTRICAL PROCESS.

Any ordinary tanning proposition is a good one to-day. But this one offered by the Canadian Electrical Process Company, Limited, is rendered particularly good by the amount of time, labor, space, power and interest charges saved by the electrical tanning process, not to mention the superior grade of leather which it produces, thus ensuring higher prices for the output.

RAPID RESULTS OF PROCESS.

The process which the Company uses for unhairing and tanning are distinct inventions under separate patents. By this Company's New Electrical Process the Lighter Skins are Unhaird in from Three to Four Hours, and the Heavier Skins in Ten to Twelve.

The ordinary method of tanning heavy hides by bark or extract tanning, consumes from three to six months, and for lighter skins, from three to six weeks. By this Company's New Electrical Process the Lighter Skins are Tanned in from Four to Six Days, and the Heavier Hides in Twenty-four days or less.

This is not the Acid or So-Called Chrome Process, by means of which Skins are tanned (not tanned) in a much shorter time than by bark or root extracts but to the detriment of the leather. This Company's methods or processes may, however, be used to hasten the Acid or Chrome process if desired.

FURTHER SOURCES OF LARGE EARNINGS.

The Company also feels assured that owing to the great earning powers of this patent Company through its prospective holdings of shares in the Subsidiary Companies that will be formed throughout the Dominion of Canada and Newfoundland to operate under the various rights of the Company, and through its own operations, which in time are sure to be extended, it will in the course of a few years be in receipt of greatly increased earnings from these sources.

ECONOMY OF PROPOSED LOCATION.

The ports of the Maritime Provinces are well situated for receiving hides and other materials required. Hides are received in quantities from South America and are landed cheaply by water freight. Many of these hides are forwarded to Upper Canadian Tanners who will be at a disadvantage on this point alone as compared with this Company, for the reason, that hides lose 35 to 40 per cent. weight in the tanning process, so that the freight from the seaboard to the West is lower as leather than as hides, giving the products of a factory in the Maritime Provinces an initial advantage in Western markets over the products of the tanneries operating right on the spot.

BUSINESS MEN INTERESTED.

From the above facts investors may feel sure that money may be profitably and safely invested in this enterprise; and also be assured by the names of the men who have undertaken its promotion. They have invested in it after having convinced themselves that the process is all that is claimed for it. And, having given it a thorough test at the demonstrating plant referred to, are able to recommend it to the public with confidence.

PERSONNEL OF DIRECTORATE.

The President of the Company, Mr. John C. O'Mallin, senior member of O'Mallin, Parsons & Gray, Barristers, is a director in important provincial enterprises. Mr. Edward Stairs, Managing Director, of William Stairs, Son & Morrow, Limited, is treasurer of the Company, and is widely known because of his identity with one of the oldest and largest wholesale hardware firms in the Dominion. Mr. Max Ungar, of Ungar's Laundry, is the pioneer in the Steam Laundry industry in the Maritime Provinces, and from small beginnings has built up a large business in St. John and Halifax, with connections in all parts of the province. Mr. W. E. Thompson, Barrister, is experienced in matters relating to joint stock companies.

Mr. Geo. D. Burton is President of the Electrical Forge Company of Boston, also Assistant General Manager of the Burton Stock Car Company of Chicago, and is a well known inventor, who has lectured on electrical subjects before the Massachusetts Institute of Technology, Franklin Institute of Philadelphia, and Harvard University. Mr. Frank W. Gifford, of Fairfield, Maine, was one of the owners of the patent rights.

THE PRACTICAL MANAGEMENT.

The practical management of the enterprise will be entrusted to an experienced man. The Company has made arrangements to obtain the services of one who has given the tanning industry and electricity as applied to tanning under this Company's patent the closest study and who will also be interested as a shareholder in the Company, thus ensuring his very best efforts.

ABSOLUTELY NO COMPETITION

This Company Controls All Basic Patents

Advantages of the Electrical Tanning Process.

An Array of Facts Showing Why it is Superior to and So Much More Rapid Than Existing Methods, and Therefore a Great Deal More Profitable.

UNTIL the discovery of the above process, which must revolutionize the tanning industry, the manufacture of sole, belting and harness leathers was a long, laborious and tedious process, taking all the way from four to seven months to convert the raw material into the finished article. After patient and expensive experimenting by the inventor, this process has been perfected. It has proved to be successful in every respect, and has solved the problem of quick tanning, especially the quick tanning of heavy hides. It is entirely different from anything heretofore known in the art of making leather. It is now no longer an unobtainable success, and fully justifies the words used above indicative of a revolution in tanning.

The heaviest steer hides are thoroughly unhaird, tanned and ready to be marketed in the remarkably short space of thirty days. The process has been demonstrated beyond question of a doubt that it is absolutely safe, sure, commercially practical and means a tremendous saving over the old way of tanning, not only in the cost of manufacturing, saving of time, labor, space and power, but in making a better and finer grade of leather, which brings a higher price in the open market.

By the present methods it requires from two to three weeks to unhair heavy hides and from four to seven days to unhair lighter skins. By our electrical unhairing process the lighter skins are unhaird in from three to four hours and the heavier hides in ten hours.

Some persons have an idea that electricity burns or injures the leather, an erroneous impression. This process uses the same material for unhairing and tanning that is now employed in tanneries throughout the world. We change nothing so far as the unhairing or tanning solutions are concerned. We add a reagent of electricity which enters the vat through the medium of a large metal plate secured to both ends of the tank. The hides or skins to be treated are suspended within the tank in the required solution for either unhairing or tanning. The current is not left on continuously, but for short periods only. The current can be switched from one tank to another as is best suited to the convenience of the tanner.

THE PROPOSITION.

The Canadian Electrical Process Company, Limited, has been incorporated to carry on the above objects with an authorized capital of \$300,000, divided into 3,000 shares of \$100.00 each par, 1,150 shares of the Capital Stock will be 7% cumulative preferred, and 3,850 will rank as common shares.

Under an agreement with the patentees, this Company becomes owner of the patents above referred to, for Canada, Newfoundland and the British West Indies, for the sum of \$40,000 in cash and 2,500 shares of the common stock of the Company.

The Company offers for public subscription 1,000 shares of 7% cumulative preference stock at par, 150 shares have been subscribed, allotted and paid for and the proceeds turned over to the patentees on account of purchase price. From the sale of the 1,000 shares of preferred stock \$25,000 will be applied to the final payment of the sum due under the agreement. The balance of the sum realized from the sale of said shares, less the usual commission, shall be used for the erection, equipment and operation of a modern tannery in which electrical methods will be used.

Preference shares will be entitled to a priority of earnings to the extent of 7% annually and such dividends shall be cumulative. These preference shares shall also rank ahead of the common stock of the Company as respects its property and assets. A further advantage offered to holder of preference stock is the right to participate equally with holders of common stock, in excess profits over and above that required to pay a dividend of 7% annually on both classes of shares. Further, the preferred stock of the Company shall not be increased without the consent of the majority of the preferred shares. In the event of the preferred stock of the Company being increased, holders of present preferred stock shall have the prior right to subscribe for same.

TERMS OF SUBSCRIPTION.

Applications for shares must be accompanied by 25% of the par value applied for, 25% more is payable 30 days after allotment and the balance, or 50%, within 90 days after allotment. Due notice of allotment will be given and all payments are to be made to the

EMPIRE TRUST COMPANY, HALIFAX, N. S., which is authorized to issue interim receipts to be exchanged later for stock certificates. Applicants will also be received by any branch of the Royal Bank of Canada or the Union Bank of Halifax, and the same will be forwarded to the Empire Trust Company free of charge. Remittances may be made by cheque, post office or express order. The Company reserves the right to reject all or any part of the subscriptions which may be received.

INVEST YOUR MONEY AT HOME.

In the stock now offered an excellent opportunity is given investors in the Maritime Provinces to find a satisfactory use for their capital, and it is a practical opportunity in which all can help towards building up another industry in this part of Canada. By investing in this enterprise the Maritime Provinces will enjoy the credit of initiating this modern method of tanning, which is the first important scientific advance that has been made in this industry for centuries. The manufacture of boots and shoes in the Maritime Provinces, by the aid of this process, will be able to offer goods of superior quality, and thus a kindred industry will be directly benefited.

SMALL SUBSCRIPTIONS WELCOMED.

Subscribers for one share are promised the same consideration and courtesy as those for a larger number, and investors of moderate sums are heartily invited to co-operate with the Company in what is sure to prove a permanent and profitable investment.

ANNUAL ESTIMATED PROFITS.

Annual estimated profits on a basis of tanning 25 hides per day—250 working days per year—7,500 hides, average weight 60 lbs. each—450,000 lbs., @ 12c. per lb.

St Paul Building, HALIFAX.

WHAT DOES ELECTRICITY DO TO THE SKIN?

It is a well-known fact that the hair has been placed upon the skin of the animal for the purpose of protecting it against the elements—wind, rain and snow. When the hair becomes wet it is matted down and sheds water, etc. Each hair is held in a small gelatinous cell. In order to remove the hair from the skin this gelatinous cell must be softened, as the root of the hair is hook shaped and is held firmly in the gelatinous sac until dissolved. The reason it takes so long by the old process is because this gelatinous substance must be softened from the flesh side of the skin, and this requires long soaking and a long time in which to allow the unhairing solution to penetrate through to the hair side.

In our unhairing process the current electrifies the hair, causes it to rise or stand out from the skin and allows a free circulation of the unhairing solution to attack this gelatinous sac from the hair or grain side of the skin, thereby rapidly softening the same. The result is seen in the speed with which the skin is made ready for the removal of the hair.

Electricity readily acts upon all porous and fibrous substance and imparts life and strength to all such. The tanning process is conducted on the same lines as the unhairing. The skins are hung in the same kind of a tank containing a different solution and the current passed through the skins from one end of the tank to the other. The skin being porous and fibrous, the current of electricity opens these pores and fibres in travelling from one pole of the current to the other, carrying with it the best elements of the tanning solution into and through the skin, which is hung in its pathway, thereby greatly facilitating the tanning process.

This electrical tanning process is a complete revolution in the art of making all kinds of leather, saving time, capital, interest, space, power and labor.

I must be observed that our process of unhairing and tanning is accomplished without labor after the hides are once placed into the unhairing and tanning vats. The use of electricity electrifies and does all the work which has heretofore been done by repeated handling of the hides or skins in process of unhairing or tanning. Hence, therefore it has been necessary to overhaul them every day, pull them out of the unhairing or tanning vats, look them over and replace them. With our process, when once placed in the vats, they remain until ready for dressing and finishing. Our tanning liquors cannot sour or become in gelic acid, because of the presence of the current, thereby making a great saving in the use of tanning extracts.

The saving of time means that the capital invested in a tannery using our process is capable of being turned over at least twelve times every year, while the best tanneries under the old system cannot turn their capital more than three times per annum. A capital invested in an Electrical tannery will produce eight times as much leather as can be done with the same capital invested in an old process tannery. Consequently if an old fashioned leather tannery earning 10 per cent. on a \$100,000 outfit should be replaced by a modern Electric plant must earn from thirty-five to forty per cent. on the same capital, provided that cost of manufacture is the same in both instances, which, however, is not the case. For the cost of unhairing sole, harness or other leather by the Electrical process is fully fifteen to twenty per cent. less than that made by any other process, there being economy of labor.

Whirl of the Town.**

Mr. G. Ernest C. Palmer, a resident of Douglas Harbor, Queens County, N. B. did some ploughing on Wednesday, January 24th.

Greenhans have just received some beautiful styles of men's Hard and Soft Felt Hats and Caps from New York. (Low Prices.)

Alph. Festeau, traveller of the V & B. Co., was robbed of a rifle in Campbellton, N. B. recently. The Campbellton police have the matter in hand.

Inspector Menzies has been making things lively for violators of the C. T. Act in the parish of Alawick. A number of informations were laid and the cases are now pending.

The opening of the Provincial Legislature takes place to-morrow. One of Northumberland representatives, Mr. Robt. Murray of Chatham is to move the address from the throne.

Robert McKenzie of the Bank of Montreal, Kingston, was found dead near Kingston Ont., Saturday morning. Mr. McKenzie was years ago connected with the Bank of Montreal here.

Things are quiet in civic election matters as yet but no doubt will commence to get interesting shortly as we understand that some charges are pending on the board and an agitation is under way.

At a meeting of the Chatham Curling Club Friday night it was decided to extend an invitation to the Campbellton juniors to play the Chatham juniors at Chatham some time soon.

The annual military camps for 1906 in the maritime provinces will be held as follows: For St. John district, from 26th June to July 7th; district 2, Halifax, from 11th Sept. to 22nd Sept., and for district 11, from June 26th to July 7th.

C. C. Hayward has just returned from Nova Scotia where he visited different furniture factories and purchased two carloads of furniture for the Lounsbury Company Limited who intend taking up this line the coming season.

On Jan. 20th the property belonging to H. C. Niven at Bathurst and occupied by Joseph Legay was destroyed by fire. Mr. Legay wishes through the Advocate to thank the neighbors for assistance given him in saving his household effects.

Owing to a compositor's error the advertisement calling for applicants for the position of Policeman and Scott Act Inspector read "Applications will be received until July 5th". This was discovered before the edition was run off so only a few papers got out but some of these were said by the news boys. The correction Feb. 15th was made and the balance of the edition turned out.

A Fredericton despatch Monday afternoon says Mr. Frederick S. Hilyard, postmaster, died at 2:30 o'clock p. m. Deceased was a St. John man, son of the late Mr. Thomas Hilyard, and brother of Messrs. Henry, Thomas, Edward, Arthur and Herbert Hilyard, and Mrs. W. H. Smith. He married a daughter of the late Senator Temple, and has been postmaster at Fredericton for a long time.

Over thirty articles are to be found in the February issue of The Busy Man's Magazine, beginning with a capital sketch of Hon. W. S. Fielding by H. F. Gadsby. Among the other readable contents are "How Men Get Rich Now," "The First Self Made Man in America," "The Future of Electricity," by Thos. A. Edison; "The Menace of Enormous Fortunes," "The Greatest Detective Agency in the World," "Nurses, Stevedores and Matrimony," "The Best Remedy for Worn Brains," "The Mable Satisfaction of Life," "Reciprocity in Men," etc. These articles have been gathered from dozens and dozens of current magazines and represent the very essence of their contents.—Published by the McLean Pub. Co., Toronto.

The general impression is that a few days will bring news of the retirement from active work of His Honor Judge Wilkinson, Judge of the county courts of Northumberland, Restigouche and Gloucester. Judge Wilkinson was born in Feb. 11, 1826, and was appointed to his present position on March 11, 1881. He has thus passed the age limit of 75 years and has been for nearly twenty-five years a judge. There is some difference of opinion as to Judge Wilkinson's success. Mr. H. F. McLaughlin, M. P. for Restigouche; Mr. Warren G. Winslow, Chatham; Mr. R. B. Murray, M. P. for Northumberland; and Dr. R. E. Quigley, who is a native of New Scotland, Northumberland, are mentioned in the connection. In the time of his retirement the Acadian population is very large, and it is being urged the new judge should be conversant with the two languages. The judge is now away from the province on a long trip to the States.

All members of Division are urged to attend meeting on Thursday night. Important matters are to be discussed.

Snow commenced to fall Monday afternoon and continued into the night. Not much fell and Tuesday morning was cold and clear.

To busy moving into our new quarters to write an ad this week. Hope to have an announcement next week. In the meantime come in and see us in our new store.

CLARKE & CO.

The Boston Comedy Co. H. Price Webber, played Rip Van Winkle, to a crowded house here Saturday night. Price's many friends regret that he could not make arrangements to play here more than one night.

At the meeting of the Executive of the County S. School Association last evening it was decided to hold the County Convention in September, place suggested. Booked in the people of the place are willing. The provincial prospects for the year was discussed and plans laid out for the year's work.

James Gallant and Thomas Louis escaped from the Restigouche county jail Friday night. They were both to be tried for larceny. Gallant has already been before the court, and Louis has served a term in the penitentiary for stabbing. Both parties were sent up for trial by a Campbellton justice.

Saturday morning Willie Farrah oldest son of Abraham D. Farrah a bright boy of seven years and seven months, died at his parents' home. He was much liked by all who knew him. Funeral on Sunday was largely attended, interment being in St. Mary's Cemetery. The heartfelt sympathy of the community goes out to the sorrowing parents in their sad bereavement.

The body of Miss Ellen Ekin, who died in Montreal Wednesday, arrived at Chatham Friday morning for burial. The deceased who was about forty years old, was a daughter of the late Thomas Ekin, of Chatham and is survived by one sister, Miss Elizabeth Ekin. The funeral was held Friday afternoon being in St. Michael's cemetery.

The Thank Offering Service to be held in St. James Church under the auspices of the W. F. M. S. Feb. 7th will commence at 7:30 o'clock. Addresses will be delivered by Revs. Messrs. Mitchell and Arnold. There will be special music and as noted before a pleasant and profitable evening may be expected. Those not receiving Thank Offering envelopes for collection before meeting can obtain them from the ushers at the door.

The legislative buildings, Fredericton are being put in shape for the opening of the legislature on Thursday next. The first regiment will furnish the guard of honor for the opening, and it will be commanded by Capt. Grey. The salute will be fired by a detachment from the Woodstock Field Battery. The Lieutenant Governor will hold the usual state dinner at Government House on Thursday evening.

At the leper lazaretto at Tracadie, N. B. there are now seventeen patients on the books, ten males and seven females. Those actually in the lazaretto are fifteen, eight males and seven females. There was no deaths during the year. Two new patients both from neighboring districts were admitted. One patient a man of forty is so apparently cured of all symptoms of the disease that Dr. Montzabert, felt justified at his last inspection of the lazaretto in approving of his going home on condition of his reporting himself from time to time. He had been in the lazaretto for five years.

Mr. J. Marvin of St. John was in town yesterday.

L. C. H. Vye, has gone to Sydney C. B. on a business trip.

Miss Janie McRae spent part of last week with friends in Chatham.

Misses Carrie and Helen Fraser of New Glasgow, N. S. are visiting Mrs. J. S. Lewis.

Miss Russell returned home Friday from a visit to her sister, Mrs. Armstrong, Youghal.

Miss Ruth Thumber of Montmorency is a guest at the home of Mr. and Mrs. J. W. Miller this week.

Mr. and Mrs. Chas. F. Donavan are receiving congratulations on the arrival of a young daughter.

Miss Laura Morrison of Chatham spent last week in town the guest of her sister Mrs. Robertson Lingley.

Mrs. I. DeBoo and Mrs. A. R. Bell entertained a number of their friends at a very delightful at home on Tuesday last.

Misses Alice Fraser and Annie Dower, of Chatham were guests at the home of Mr. and Mrs. Geo. Major, Nelson, on Sunday.

St. Gov. Snowball went to Fredericton last week for the session. The Nurses' Snowball went over last week and opened the Governor's Fredericton residence.

Miss Marion Doyle of Douglas-town left last week for Montreal, where she will attend Vile Marie. She was accompanied by Miss Nordine who went to Quebec to meet her brother, who is returning from a trip to Europe.

DOUGLASTOWN CEMETERY

At the last meeting of St. Mark's congregation on Douglastown, the following report was presented:

Mr. Chairman and Trustees of St. Mark's Church.

LADIES AND GENTLEMEN: Your committee appointed to look out a site for a cemetery for St. Mark's Church, beg to report that we have been very successful in our undertaking.

A nice lot of land containing about 31 acres was presented to us. A survey and plan of the ground was made and about 100 burial lots laid out. A first wire fence has been put up all around the lot and adorned with maple leaves facing the roadside. Three foot wire gates at the entrance, with a beautiful arch and name plate, bearing the inscription "St. Mark's Cemetery" over the main gates have been erected. The survey plans, blank deeds for burial lots, fencing and all other expenses have been paid by the donor. We would recommend the trustees to take special care of this magnificent gift, and see that the ground, fences, etc. be kept in good repair. We herewith place in your hands, the deed, blank deeds, and plans, and trust the congregation will highly appreciate the costly gift and the work done by your committee.

Jos. McKnight
H. H. Lamont,
Douglastown, Jan. 10, 1906.

CATARH CANNOT BE CURED
with LOCAL APPLICATIONS, as they cannot reach the seat of the disease. Catarrh is a blood or constitutional disease, an tin order to cure it you must take internal remedies. Hall's Catarrh Cure is taken internally, and acts directly on the blood and mucous surfaces. Hall's Catarrh Cure is not a quick medicine. It was prescribed by one of the best physicians in this country for years and is a regular prescription. It is composed of the best tonic we know, combined with the best purifiers, acting directly on the mucous surfaces. The perfect combination of the two ingredients is what produces such wonderful results in curing Catarrh. Send for testimonials.

WANTED AT ONCE—A good upstairs girl and a good kitchen maid who can do plain cooking. Apply at once to **ALBERT HOUSE,** Chatham.

In looking up the title to a piece of land in Greenwood, an old deed was found which contains an amusing description. The last clause of the description is, "Thence as crook-d as you can, go to the north line of the Phillips Academy grant."

PUPILS STANDING
IN TOWN SCHOOLS

The following are the names of the pupils making the highest general standing in the different grades of the town schools.

Grade XI.—Edith Clarke, 1st, Agnes Corbett, 2nd.

Grade X.—Francis Fish, 1st, Helen Stables, 2nd, Jean Robinson, and Sadie Fish, 3rd.

Grade IX.—Margaret Sobey, 1st; Nellie Desmond, 2nd; Tessie Ivory, 3rd.

Grade VIII.—Melvin Allison, 1st, Rennie McQuarrie, 2nd; Percy McCormick, 3rd.

Grade VII.—Sadie Smallwood, 1st; Hazel Crabbe and Alice Rundle, 2nd; Harrison Gough, 3rd.

Grade VI.—Herbert Connell, 1st, Winfield Williamson, 2nd; Harold Boyes, 3rd.

Grade V.—Helene Boyes, 1st, Alfred Weiler, 2nd, Ethel Allison, 3rd.

Grade IV.—William Sullivan, 1st, Mildred Reid, 2nd; Greta Rundle, 3rd.

Grade III.—Hazel O'Donnell, 1st; Gerald Foley, 2nd, Leslie Jeffrey, 3rd.

REGENT STREET SCHOOL.
Grade II.—Lizzie Adair, 1st, Ruth Wyse, 2nd, Parker Coole, 3rd.

Grade I.—Nan Nicholson, 1st, Julie Fleigher, 2nd, Roy Dickinson, 3rd.

MISSION HALL SCHOOL.
Grade III.—Cecil McWilliam, 1st; John Doucet, 2nd, Walter McDonald, 3rd.

Grade I.—Helen Maier, 1st, Harry LeFranc, 2nd, Hubert Ruth, 3rd.

The Mid-Year written examinations were held in the High School of Haskins Academy on Friday and Monday Jan. 25th and 26th. The following pupils made an average over 70 in these examinations:

Grade XI.—Edith Clarke, Agnes Corbett, Grade X.—Francis Fish, Helen Stables, Mary Fitzpatrick, Sadie Fish, Jean Robinson.

Grade XI.—Margaret Sobey, Mabel Boyes, Lucy Lingley, Nellie Desmond, Eliza Weldon, Leslie Ivory, May Robinson, Gertrude Brown, Annie Stewart, Elsie Williamson.

Grade XI.—Margaret Sobey, Mabel Boyes, Lucy Lingley, Nellie Desmond, Eliza Weldon, Leslie Ivory, May Robinson, Gertrude Brown, Annie Stewart, Elsie Williamson.

One of the ringing successes in emotional drama is announced for the Opera House, Newcastle for Tuesday evening, February 13th when the ever popular "East Lynne" the play made famous by the late Ada Gray will be produced by the Raymond and Poore company. Many eminent authorities have pronounced "East Lynne" the best emotional drama ever written, a statement which is born out by the number of years it has been before the public, and is undoubtedly popularity at the present time. The Kalamazoo, Mich., Daily Gazette of Sept. 20, 1903, says:—"There has been no theatrical performance given in Kalamazoo for several seasons that has met with so few unfavorable criticisms as has Raymond and Poore's beautiful production of 'East Lynne' which was given in the Academy of Music at evening, to a good house. Take the Company as a whole, it was one of the most evenly balanced seen in this city for some time. The music furnished by the orchestra was a rare treat. Those present felt amply repaid for their outlay of coin."—"We can produce the above notice.—The prices for admission have been placed at 25, 35 and 50 cents. Seats for sale at A. E. Shaw's.
