### The School Report.

We have received the Annual Report of the Chief Superintendent of Education, which was laid before the legislature. It is a most interesting pamphlet, showing the state of the schools, and affords the means of comparison between the present, efficient system, and the old-fashioned one, which it is to be hoped is banished out of the reach of resurrection. Even were the new school law more expensive—which by the way it is not—the great improvement which has been effected in school efficiency, more competent teachers, largely increased attendance, progress of the pupils, and order in the schools—would warrant a larger salary. Before noticing the report more fully, we would refer to the misapprehension of the effective system, that had worked, painstaking, poorly remunerated, and much abused gentleman, Chief Superintendent RAND, whom we only know through his successful labors; he surely had a herculean task, amid much opposition, and other discouragements to inaugurate the new system—but he has done so most effectively.

During the summer term of 1872 there were in the Province 887 schools and 921 teachers and assistants, a decrease of 11 teachers from the number employed the previous year, the number of pupils was larger, being 6,510 more than the previous year. The winter session of 1873, was still more encouraging. The number of schools was 894, an increase of 230 over the corresponding term in 1872, the number of teachers and assistants 932, being an increase of 280, and the number of pupils attending the schools was 40,405, an increase of 11,649. The summer session of 1873, gives even more encouraging results, there were 969 schools, an increase of 82 over the like term the previous year; the pupils numbered 1,013, an increase of 92 over the corresponding term in 1872, and the pupils numbered 42,243, an increase of 2,406 over the previous year.

But we must not omit any interesting particulars, and statistics. The Chief Superintendent shows the necessity of permanency in school says among other things:—

"It is evident that the manner in which the county and provincial funds are applied under the provisions of the Common School Act, will very shortly secure almost all that can be desired in the respect of the continuity of schools. For a few terms there will be obstacles in the way of trustees and teachers, but there is no tendency more marked or emphasis of the present system than the desire to have schools in constant operation.—This tendency, ever operative, is chiefly due to the county fund, and is, of the greatest moment in an educational system."

It is very clear that any school system in which teachers are underpaid, must fail to produce good results, for unless fair remuneration is provided for teachers, it is idle to expect the services of well qualified men and women in the public schools.—It is, therefore, satisfactory to observe by the report, that the salaries of teachers show a decided increase over last year's.

"The report abounds with so many instructive and interesting passages, that every one who feels an interest in schools should have a copy. We are pleased to notice that the County of Charlotte maintains a high and prominent position. The county inspector, Mr. Mitchell, in his report, alludes to the progress that has been made—and that the cause of education has received a great impetus in this County under the operation of the new Law. His report goes fully into the details of school houses he says:—

"The most noticeable feature of improvement is in the school buildings throughout the County. I had great reason to deplore in my last annual Report the dilapidated school houses which disgraced both town and country. It is no small boast for Charlotte County to say that in the last eight months her people have expended sixty thousand dollars in school buildings and furniture."

"The shire town, St. Andrews, has set a creditable example. Instead of school rooms in private houses, as on my first visit, they have now a large central building, containing four school rooms, with ante-rooms, &c., which in external finish is an ornament to the town, and in internal arrangement is all that could be desired. The old grammar school building has also been thoroughly repaired, and suitable out buildings erected. Too much praise cannot be given to the energetic gentlemen who compose the Board of Trustees."

"Though beset with many difficulties, they have effected the music with a will, and now have the satisfaction of seeing their work nearly completed, and what is still more gratifying them, meeting with the approval of their intelligent fellow townsmen."

Adding to the improved supply of teachers, Mr. Mitchell remarks:— "The schools have been vacated from the want of efficient teachers. This has forced me, sorely against my will, to grant quite a

number of local licenses, and still the supply is inadequate. I find by reference to your Report, that teachers in the County are better paid than any other, with the exception of St. John. This should operate as an inducement for good teachers to come to Charlotte, and have their labors duly appreciated. A re-examination of many of the teachers licensed under the previous law is needed. In too many cases persons holding first and second class licenses, and getting corresponding salaries, are doing their work in a third class manner. This evil must be remedied; a licence to teach should be some guarantee to the Trustees of the competency of the bearer."

THE ALDINE for April opens with a marvelous collection of beautiful illustrations, some of which are the finest yet seen in The American Art Journal, while all reflect great credit on the enterprising publishers. American scenery, as heretofore, forms a striking feature of this number of the Aldine. J. D. Woodward contributes a tender and beautiful full-page spring scene view, which is printed in tints, and has all the fineness of a steel engraving, the block coming from the hands of C. M. M. and the eminent engraver. Five great and remarkable pictures of Lake George and its glorious scenery embellish this number, in which the well-known artist, Thomas Moran, and the engraver, have vied with each other to put upon paper faithful pictures of the most exquisite scenery in the New World. A full-page picture shows Lake George, looking from Caldwell and the rear of the famous Fort William Henry Hotel; another fine picture is Fourteen Mile Island, and the rest all large and beautiful, and are view from Fourteen-Mile Island, Long Island, and Cat Mountain. The moonlight, rainbow, and sunlight effects in these pictures are particularly pleasing. A. G. Galt gives a full-page picture of Knickerbocker Days, which faithfully represents rural life in New Amsterdam, in the middle of the seventeenth century, when New York was but a village. The most spirited picture which has been seen on paper for a long time, is a full-page battle scene, drawn by Julian O. Davidson, representing a conflict at sea between an American and English ship of war, during the Revolution. The details of the ships are admirably drawn. Four other large and beautiful pictures represent scenes in the Old World. The literary contents of the April Aldine are of a high order, varied and interesting. Mrs. Margaret J. Preston opens the number with a fine poem of considerable length, called "The Bard's Daughter." B. P. Avery writes intelligently of "Art in California." W. W. Bailey has a timely essay on "Buds," the editor furnishes a long descriptive article about "Lake George."—There are several very finely executed pictures which we cannot notice at present.

How A NEWSBOY ROSE IN THE WORLD.—William Henry Smith, just appointed parliamentary secretary to the treasury, by Mr. Disraeli, the prime minister of England, was a newsboy, less than 25 years ago, on the streets from 5 in the morning till 8 at night. Presently he had a booth near the Strand, and then he employed assistants, finally he hit upon the idea of buying the exclusive right to sell newspapers and other literature at the principal railroad stations in the British Isles, and that made his fortune. He has been in Parliament for five years, and made the reputation of a good speaker and thinker, and Mr. Disraeli put him now in a place that is regarded as the stepping stone to promotion.

There's another fight between the East and West as to whether it is proper to say "on yesterday." It is, why not say "on last fall?"

DO FORESTS BRING RAIN?—Some years ago Upper Egypt had only some five or six rainy days in the course of a year; but the Pasha planted millions of trees, and the annual average is now forty-six days of rain, by which the country has been incalculably benefited. The country about Trieste has been made a pretty thorough test, too. Once it was fertile; but the forests were swept away, and barrenness soon followed. Since then, however, millions of olive trees have been planted and carefully reared, and now productiveness has returned.

The profession of journalism is well represented in the British House of Commons. Among its professional members are: Mr. Walter, principal proprietor of the Times; Mr. Beresford Hope, principal proprietor of the Saturday Review; Mr. May, Mr. Charles Reid of the Daily News; Mr. Alderman Carter, of the Leeds Express; Mr. P. Taylor, of the Examiner; Dr. Cameron, of the North British Mail; Sir John Gray, of the Freeman's Journal; Mr. Whitworth, of the Circle; Mr. Colman, of the Norfolk

News; Mr. Barr, of the Railway Service Gazette; and Mr. Sullivan, of the Nation.

### Sir Garnet Wolseley.

#### SKETCH OF HIS LIFE AND CAREER.

In 1854, when a British army, distributed in squads, was bound to the East at the outbreak of the war with Russia, a moderate-sized man in the uniform of an infantry regiment might have been seen, any day of the week, on board the troop-ship Orontes, drilling his company by squads, to the disgust of the sailors and less zealous military passengers in one of the way corners of the steamer's main deck. There was nothing very remarkable about this officer; he was always scrupulously neat, not at all troubled by sea sickness, only afflicted by a sleepless sort of energy that seemed rather out of place in a soldier on shipboard. When he was not drilling his men or showing some of the recruits how to "pack up" the knapsack, with its forty-two pounds weight of spare ammunition and so forth, so as to afford the luggage play under the chest strap, he might generally be found in his cabin with Petchelaine Kerson on his knees, and the Admiralty chart of the Euxine out for reference. That officer was Captain Garnet Wolseley, the present Commander-in-Chief in A-India.

Arrived at Gallipoli the division to which Captain Wolseley's regiment was attached had a time of inactivity, little of which fell to the share of the subject of this sketch. He was the privilege to incur an early rebuff from the divisional commander, whose faith in the reliability of a by-gone age induced him to fill the role of a youngling captain-widow to initiate; that, namely, of allowing his men to disperse with the chocking leather stock when the glass marked 90 degrees Fahrenheit. Capt. Wolseley, however, was an irrepressible in a story checked in one direction this impulse broke out in another, and when the division was moved to Varna his company was, through the judicious changes effected by him in the soldiers' kit, in lighter heavy marching order than any other in the regiment.

Upon the instant of Sebastopol after the defeat of the Russians at the Alma by the combined armies, Captain Wolseley's regiment was incorporated with the Fifth (Sir Richard England's) Infantry Division, which was severely handled at Inkermann. That he was given Captain Wolseley's majority. He had no sufficient influence in the regiment to carry through some of the minor reforms in the position of his command. He was the first officer who dispensed with shaving in the ranks, and when the rigours of the Crimean winter set in, to encourage the soldiers to wear sheepskin coats and caps, whereby the regiment obtained the sobriquet of Wolseley's woolly boys.

During the desperate fighting to repulse the Russian sortie on the 8th of December, 1855, Major Wolseley, who was field officer of the trenches, observed the left wing of the Third Brigade, that was acting as covering force to the advanced working parties, suffering severely from the enemy's artillery fire, and moving up to the offer in command, suggested that he should order his men to lie down.

"Excuse me, I command the wife," was the repellent answer. The next instant the utter fell mortally wounded. "Come, this, your officer has set you the example; lie down," said Wolseley dryly and the men complied. Shortly afterwards a hill troop of Russian horse artillery was pushed forward to enfilade the advancing columns of the French reinforcements led by Gen. Appellé de Paludine.

"There is a time for all things," boys," said Wolseley quietly: "a time to take rest, and a time to take guns. We'll have those two; follow me!" And have them he did. They may be seen to this day on Clifton Down, in England, with "Red Bulls" scratched in the time of capture on the chase of each piece by Garnet Wolseley's sword point. The interval between the first and second bombardment of Sebastopol afforded Major Wolseley opportunities to distinguish himself, which he was not the man to neglect.

The audacity with which he threw himself with a portion of his regiment into recapture Kutch which the Turks had abandoned, and from which he had held the whole Russian attack in check until Sir Colin Campbell's brigade had charged forth, earned him mention in Lord Raglan's despatches, and the conclusion of the war found him a lieutenant-colonel, a Knight-Commander of the French Legion of Honour, holder of the Victoria Cross, and of the Turkish Order of the Medjidie of the first class.

In 1858 Sir Garnet obtained his majority. At that time he was attached to the 90th regiment, from which he retired on half pay, after serving in the Burmese and Chinese wars; he obtained the rank of Lieutenant-Colonel, and went on Indian appointment, in April, 1859, and that of Colonel in 1865. He was at the siege of Lucknow and defence of the Almor

high in the Indian mutiny, when the despatches mentioned him with praise, and his conduct was rewarded with a step of brevity rank. He served in 1860 on the staff of the Quarter-master General, through the war in China, for which, as for his previous services in three other wars, he received medals and other tokens of distinction. In October, 1867, he was appointed Quarter-master General in Canada, and held that office several years. He commanded the Red River expedition in 1870, in which his skillful management was justly applauded; and he has since his return to England shown much ability in command of a division of the troops engaged in the autumn campaigns of the last two or three years. Various articles from his pen upon the subjects of coast and urban fortifications, recruiting, defensive and offensive systems of war, and modern tactics and drill made the name of Garnet Wolseley more of a household word than any of his deeds in the field. The attention of his men won for him brought him a major's commission when his age was far below that at which that rank is generally attained to in the British service, and the action to the command of the Ashantee expedition was such a departure from Home Guards tradition that it started public opinion into unquenching speculation. The result, however, was fully justified by Mr. Cardwell's action, and General Sir Garnet Wolseley—soon to be, it is expected, Lord Wolseley of Wolseley—is the hero whose name is in every man's mouth.

#### HAPPY USE OF A SCRIPTURAL TEXT.

One of our correspondents with the expeditionary force in Ashantee thus describes an incident which was told him in a letter published in the Daily News on Saturday last. He writes under date Camp, Detachment, Jan. 29:— "I do not know that a waster in a house of a valuable hint, conveyed under circumstances of difficulty by an ingenious man, has often been recorded. It appears that the last time the envoys were sent back to Comacina a letter was also sent to Mr. Dawson, who has been a captive there ever since he was sent up to negotiate the deliverance of a German missionary. The letter was, from Captain Butler, the head of the Intelligence Department, and simply contained a small sack of money, for which Mr. Dawson had asked by way of something to live upon. It is understood to be of value from the letters received that Mr. Dawson has been very closely watched this time. As, however, the King had been informed that the money to Mr. Dawson had been sent to the latter, the King was to a certain extent interested in allowing Mr. Dawson to acknowledge the receipt of money. This accordingly Mr. Dawson did in a letter to Captain Butler, which consisted of an acknowledgment in simple terms of receipt, and then concluded something in this way:—'The King's letter accompanies this by the same messenger; please see 2 Cor. 23 chap. 11th verse.' Your readers may judge of the temptation it was to Mr. Dawson, engaged in very serious business, to live as such a momentary notice of this kind, to throw it aside as a pious circulation. Some may irreverently dare say, 'Some of your readers already remember that the words, in fact, are—'Let Satan get an advantage of us, for we are not ignorant of his devices'—about as neat a hint of intended treachery as perhaps ever passed under circumstances of equal difficulty."

GREAT PRESERVE OF MIND.—It is believed that the lives of perhaps one hundred persons were saved during the recent explosion in the west shaft of the H. W. Tunnel by the presence of mind of one of the blasters. He was carrying a can containing twenty-seven pounds of nitro-glycerine when the first explosion occurred, about fifty feet from him. Some of his companions told him to throw the can down the shaft; others shouted "Drop it, and run!" He did neither; but realizing that if a second explosion occurred, immense damage would be caused by the consequent explosion of the nitro-glycerine, he rushed to an old building at some distance, where he put down the can, and then returned toward the scene of disaster. A second explosion occurred just as he reached the door of the machine shop, killing a man within a few feet of him; but the dangerous can was at a safe distance.

The Legislature of British Columbia by a vote of 14 to 5 has sanctioned the departure from the terms of Union, which will enable Mr. Mackenzie to carry out his Pacific Railway policy.

## The Aldine,

AN ILLUSTRATED MONTHLY JOURNAL, UNIVER-  
SALLY ADMITTED TO BE THE HANDSOMEST  
PERIODICAL IN THE WORLD, A REPRESENTATIVE  
AND CHAMPION OF  
AMERICAN TASTE.

Not for Sale in Book or News Stores.

THE ALDINE, while braced with all the  
regularity, has none of the temporary or  
timely interest characteristic of ordinary peri-  
odicals. It is an elegant miscellany of  
pure, light and graceful literature; and a  
collection of pictures, the rarest specimens  
of artistic skill, in black and white. Altho-  
ugh each succeeding number affords a fresh plea-  
sure to its friends, the real value and beauty  
of THE ALDINE will be most appreciated after  
it has been bound up at the close of the  
year. The possessor of a complete volume  
cannot duplicate the quantity of fine paper  
and engravings in any other shape or num-  
ber of volumes for its time its cost; and  
then, there are the chromos besides!

### ART DEPARTMENT, 1874.

The illustrations of THE ALDINE have  
won a world-wide reputation, and in the art  
world of Europe it is an admitted fact that  
its wood cuts are examples of the highest  
perfection ever attained. The common prej-  
udice in favor of "steel plates," is rapidly  
yielding to a more educated and discriminating  
taste which recognizes the advantage of  
superior artistic quality with great in-  
crease of production. The wood-cuts of THE  
ALDINE possess all the delicacy and elaborate  
finish of the most costly steel plate,  
while they afford a better rendering of the  
artist's original.

In addition to designs by the members of  
the National Academy, and other noted  
American artists, THE ALDINE will reproduce  
examples of the best foreign masters, selected  
with a view of the highest artistic suc-  
cess and greatest general interest. Thus the  
subscriber to THE ALDINE will, at a trifling  
cost, enjoy in his own home the pleasures  
and refining influences of true art.

The quarterly tinted plates for 1874 will  
be by Thos. Moran and J. D. Woodward.  
The Christmas issue for 1874 will contain  
special designs appropriate to the season, by  
our best artists, and will surpass in attrac-  
tions any of its predecessors.

### PREMIUM FOR 1874.

Every subscriber to THE ALDINE for the  
year 1874 will receive a pair of chromos.  
The original pictures were painted in oil for  
the publishers of THE ALDINE, by Thomas  
Moran, whose great Colorado picture was  
purchased by Congress for ten thousand dol-  
lars. The subjects were chosen to repre-  
sent "The East" and "The West." One is a  
view in the White Mountains, New Hamp-  
shire; the other gives The Cliffs of Great  
River, Wyoming Territory. The difference  
in the nature of the scenes themselves is a  
pleasing contrast, and affords a good display  
of the artist's scope and coloring. The chro-  
mos are each worked from thirty distinct  
plates, and are in size (12x16) and appear-  
ance exact fac-similes of the originals. The  
presentation of a worthy example of Ameri-  
can's greatest landscape painter to the sub-  
scribers of this journal is a bold but pecu-  
liarly happy idea, and its successful realiza-  
tion is attested by the following testimonial  
over the signature of Mr. Moran himself.

NEWARK, N. J., Sept. 10th, 1873.  
Gentlemen,—I am delighted with the proofs in color  
of your chromos. They are wonderfully successful re-  
productions by mechanical process of the original paintings.  
Very respectfully,  
THOS. MORAN.

### TERMS.

\$5 per annum in advance, with all chromos free.  
For 50 CENTS EXTRA, the chromos will be  
sent mounted, varnished and prepaid by mail.

THE ALDINE will, hereafter, be obtainable  
only by subscription. There will be no re-  
duced or club rate; cash for subscription  
must be sent to the publishers direct, or  
handed to the local canvasser, without re-  
sponsibility to the publishers, except in case  
where the certificate is given, bearing the  
signature of JAMES SUTTON & Co.

### CANVASSERS WANTED.

Any person wishing to act permanently as a  
local canvasser will receive full and prompt  
information by applying to  
JAMES SUTTON & Co., Publishers,  
58 Maiden Lane, New York.

Dr. J. Walker's California Vinegar  
Bitters are a purely Vegetable preparation,  
made chiefly from the native herbs found  
on the lower ranges of the Sierra Nevada  
mountains of California, the medicinal prop-  
erties of which are extracted therefrom  
without the use of Alcohol. The question  
is almost daily asked, "What is the cause  
of the unparalleled success of VINEGAR BIT-  
TERS?" Our answer is, that they purify the  
cause of disease, and the patient recovers  
his health. They are the great blood  
purifier and a life-giving principle, a perfect  
Renovator and Invigorator of the system.  
Never before in the history of the world has  
a medicine been compounded possessing the  
remarkable qualities of VINEGAR BITTERS  
in healing the sick of every disease man is  
heir to. They are a gentle Purgative as  
well as a Tonic, relieving Constipation or In-  
flammation of the Liver and Visceral Organs,  
in Bilious Diseases.

If men will enjoy good health, let  
them use VINEGAR BITTERS as a medicine,  
and avoid the use of alcoholic stimulants  
in every form.

and New York, New York.  
Sold by all Druggists and Dealers.

No Person can take these Bitters  
according to directions, and remain long  
unwell, provided their bowels are not de-  
stroyed by mineral poison or other means,  
and vital organs wasted beyond repair.  
Grateful Thousands proclaim VINEGAR  
Bitters the most wonderful Invigorant that  
ever sustained the sinking system.  
Bilious, Remittent, and Intermit-  
tent Fevers, which are so prevalent in the  
valleys of our great rivers throughout the  
United States, especially those of the Mis-  
sissippi, Ohio, Missouri, Illinois, Tennessee,  
Cumberland, Arkansas, Red, Colorado, Brazos,  
Rio Grande, Pearl, Alabama, Mobile,  
Savannah, Roanoke, James and many others,  
with their vast tributaries, throughout our  
entire country during the Summer and Au-  
tumn, and remarkably so during seasons of  
unusual heat and dryness, are invariably  
accompanied by extensive derangements of  
the stomach and liver, and other abdominal  
viscera. In their treatment, a purgative,  
exerting a powerful influence upon these  
vital organs, is essentially necessary.  
There is no salubrier for the purpose equal  
to Dr. J. Walker's VINEGAR BITTERS, as  
they will speedily remove the dark-colored  
viscid matter with which the bowels are  
loaded, at the same time stimulating the  
secretions of the liver, and generally restor-  
ing the healthy functions of the digestive  
organs.

Dyspepsia or Indigestion, Headache,  
Pain in the Shoulders, Coughs, Tightness  
of the Chest, Dizziness, Sour Eructations of  
the Stomach, Bad Taste in the Mouth, Bil-  
ious Attacks, Palpitation of the Heart, Inflam-  
mation of the Lungs, Pain in the region of  
the Kidneys, and a hundred other painful  
symptoms, are the offspring of Dyspepsia.  
One bottle will prove a better guarantee of  
its merits than a lengthy advertisement.  
Scrofula, or King's Evil, White Swell-  
ings, Ulcers, Erysipelas, Swelled Neck,  
Goitre, Scrofulous Inflammations, Indolent  
Inflammations, Mercurial Affections, Old  
Sores, Eruptions of the Skin, Sore Eyes,  
etc., etc. In these, as in all other constitu-  
tional Diseases, WALKER'S VINEGAR BITTERS  
have shown their great curative powers in  
the most obstinate and intractable cases.  
For Inflammatory and Chronic  
Rheumatism, Gout, Bilious, Remittent  
and Intermitent Fevers, Diseases of the  
Blood, Liver, Kidneys, and Bladder, these  
Bitters have no equal. Such Diseases are  
caused by Vitiated Blood.  
Mechanical Diseases.—Persons en-  
gaged in Painting and Minerals, such as  
Plumbers, Type-setters, Gold-beaters, and  
Miners, as they advance in life, are subject  
to paralysis of the Bowels. To guard  
against this, take a dose of WALKER'S  
VINEGAR BITTERS occasionally.

For Skin Diseases, Eruptions, Tetter,  
Salt Rheum, Blisters, Spots, Pimples, Pus-  
tules, Boils, Carbuncles, Ringworms, Scald  
Head, Sore Eyes, Erysipelas, Itch, Scourf,  
Discolorations of the Skin, Humors and  
Diseases of the Skin of whatever name or  
nature, are literally dug up and carried out  
of the system in a short time by the use of  
these Bitters.

Pin, Tap, and other Worms, lurk-  
ing in the system of so many thousands, are  
effectually destroyed and removed. No sys-  
tem of medicine, no vermifuges, no anthel-  
minitics, will free the system from worms  
like these Bitters.

For Female Complaints, in young or  
old, married or single, at the dawn of wom-  
anhood or the turn of life, these Tonic Bit-  
ters display so decided an influence that  
improvement is soon perceptible.

Jaundice.—In all cases of jaundice, rest  
assured that your liver is not doing its work.  
The only sensible treatment is to purify the  
secretion of the bile and favor its re-  
moval. For this purpose use VINEGAR BIT-  
TERS.

Cleanse the Vitiated Blood when-  
ever you find it impurities bursting through  
the skin in Pimples, Eruptions, or sores;  
cleanse it when you find it obstructed and  
sluggish in the veins; cleanse it when it is  
foul; your feelings will tell you when. Keep  
the blood pure, and the health of the system  
will follow.
