CITIZENS MEETING FOR SATURDAY

Will Take Up Matter of Better Train Service Up the Valley.

A meeting of citizens interested in a better train service between Campbellton and points west is called for Saturday afternoon at four o'clock in the old Curling Rink rooms. This is an important matter and every merchant and business man of our town should be there.

A committee appointed to interview the railway authorities on this matter will report.

There is not a doubt but that a very large portion of our business comes from along the line to the west of Campbellton. At present we have no suburban train to serve this large district, and this trade is being lost.

Let us get after this matter and we are sure the railway authorities will deal fairly with us just as soon as they realize we are in earnest.

NEW CHOIR LEADER

Mr. F. C. Schurman who will shortly open a five and ten cent store in the Commercial Block here has been engaged as leader of St. Andrew's Church Choir. Mr. Schurman gave an splendid demonstration of his vocal ability on Thursday evening last at the Caledonian Dinner and delighted the St. Andrew's congregation on Saturday evening with a sacred selection. The new leader has a pleasing baritone voice and there is little doubt that he will prove a capable director of the St. Andrew's Choir.

GIVEN AWAY FREE

Bring happiness to one of the kiddies by securing the wonderful twenty inch size doll at Jim Moore's Store. To be given away FREE in a few days.

"NOTHING BUT THE TRUTH"

A SUCCESS IN BATHURST. On Thursday evening last at the new Opera House in Bathurst, Miss Nita H. MacDonald and her company of local amateurs played their recent success "Nothing But the Truth" before a large and appreciative audience. Reports received here go to show that the Bathurst people were high pleased with the entertainment and expressed the opinion that our theatrical amateurs possessed extraordinary histrionic ability.

A REMARKABLE DOLL

Have you seen the beautiful walking and sleeping doll at Jim Moore's Drug Store. It will be given away free to the lucky customer. Call and get the particulars.

THE LOCAL HOCKEY TEAM

Game With Bathurst Set for Dec. 29th—Time to Organize.

At this date most hockey enthusiasts are aware that the N. B. and P. E. I. Amateur Hockey League has organized and that the Campbellton team has been placed in the Northern section to play with the teams of Moncton, Chatham, Shediac and Bathurst.

The opening game in this section of the league is scheduled for December 29th between the local boys and the Bathurst team. The date is not far away and we have been informed, by reliable steps, have been taken to organize the local club. It is time this matter was receiving attention.

As far as the players themselves are concerned no fears need be even momentarily entertained. They have always attended to their responsibilities in the past and will doubtless continue to do so in the future. What is lacking this year, as in past years, is sufficient enthusiasm on the part of citizens.

Most everybody thoroughly enjoys seeing our boys in action but only a few of the so-called fans ever offer any considerable assistance in organizing the club or any financial backing. At present the matter stands just where it always does at the beginning of each season. The players are ready to do their share but as usual no funds appear to be forthcoming. The initial contest is out of town—there are other incidental expenses which cannot be avoided. Something should be done and quickly by those who pretend to be supporters of our hockey team. And whatever is done citizens generally ought to see to it that they render pecuniary assistance. A hockey squad such as Campbellton possesses is worthy of better support than it has ever received in the past and it is high time that more tangible expression of appreciation was forthcoming.

NEW HOCKEY SCHEDULE

FOR NORTH SHORE

The schedule of hockey matches for the northern section of the New Brunswick and Prince Edward Island Amateur Hockey League was drawn up and approved at a meeting of representatives of the teams in Bathurst yesterday. Campbellton, Bathurst, Chatham, Shediac and Moncton will battle for honors in the Northern Section of the league.

Mr. Fred Thomas, the representative of the Campbellton Hockey Team.

The opening game of the league will be played in Bathurst on December 29 when Campbellton will cross sticks with the Bathurst boys.

The schedule as drawn up yesterday afternoon is as follows:

Dec. 29—Campbellton at Bathurst.
Jan. 3—Bathurst at Shediac.
Jan. 4—Bathurst at Moncton.
Jan. 8—Shediac at Chatham.
Jan. 11—Moncton at Bathurst.
Jan. 12—Moncton at Campbellton.
Jan. 13—Chatham at Shediac.
Jan. 16—Chatham at Moncton.
Jan. 17—Bathurst at Campbellton.
Jan. 18—Moncton at Shediac.
Jan. 22—Chatham at Bathurst.
Jan. 24—Campbellton at Shediac.
Jan. 25—Campbellton at Moncton.
Jan. 29—Shediac at Bathurst.
Jan. 29—Moncton at Chatham.
Jan. 30—Shediac at Campbellton.
Feb. 2—Shediac at Moncton.
Feb. 5—Campbellton at Chatham.
Feb. 12—Chatham at Campbellton.

The teams will be privileged to carry 12 men.

A DOLL WITH REAL HAIR. We have a wonderful walking and sleeping doll with real hair for one of your children. Call before the offer expires at MOORE'S DRUG STORE. 1-1-1.

ENGAGEMENT ANNOUNCED

ALL RECORDS ARE BEING BROKEN

Christmas Business Gives Promise of Being the Best for Years.

So far as the Graphic is concerned all records for Christmas business have been broken.

With our Christmas Edition not due until next week, we have this week been simply overwhelmed with demand for extra advertising space so that it was necessary to print twenty pages to accommodate it all. Our readers will do well to study these advertisements as it will mean dollars saved in your Christmas purchasing.

Next week our special Christmas Edition, with a handsome cover in four colors will be issued. Already there is heavy demand for space, but if orders are in early we hope to accommodate all.

The outlook for business this Christmas season is the best for a number of years. If you want your space get after it. An ad in our Christmas Edition will help you.

SUDDEN DEATH OF

WAR VETERAN AT ST. JOHN

St. John, N. B., Dec. 5—John Fraser, aged 27, war veteran, died in a motor car today as he was being taken to the hospital. He sustained a stroke of paralysis in his garage on Charlotte Street. He was married only five weeks ago to Miss Mary Morrison, of Bathurst.

U.S. AND CANADIAN POSTAL CONVENTION

Increase in Maximum Indemnity for Loss of Registered Articles.

Ottawa, Dec. 4—A new postal convention between the United States and Canada to supersede the existing convention concluded in 1888, will, it is expected, be the outcome of the International Postal Conference that opened here this morning.

The first decision reached by the conference was in favor of an increase in maximum indemnity for loss of registered articles between the United States and Canada. The present maximum is \$50. The conference agreed that it should be increased to \$25.00.

L. O. L. ELECTION OF OFFICERS

The annual meeting of Heine L.O.L., No. 64 was held on Tuesday evening in the Oddfellows Hall. A very large number of members attended and the Lodge was honored by the presence of Worshipful Master W. C. Waring of L. O. L. No. 3, St. John, who conducted the election and installation of officers. The following are the officers for the ensuing year—Worshipful Master—Bro. Stephen H. Turner. Deputy Master—Bro. James D. Sargent. Chaplain—Bro. Adjutant Wells. Recording Secretary—Bro. J. Trevor White. Fin. Secretary—Bro. Jos. A. Ross. Treasurer—Bro. Robt. W. Warman. Director of Ceremonies—Bro. Ernest Sargent. Lecturer—Allen Dickson. Six committee men, two auditors, and a Sick Committee of six members were duly appointed and installed.

After all business had been dispensed with Worshipful Master W. C. Waring was called upon for a speech. In response he gave an inspiring address on matters pertaining to the Orange Order, mentioning the fearless Sentinel and making an appeal for subscriptions. A letter extending a hearty vote of thanks to Worshipful Master W. C. Waring, the meeting closed with the National Anthem.

ENGAGEMENT ANNOUNCED

Mr. and Mrs. B. Goulding of 120 Broad street, Fredericton, have announced the engagement of their daughter, Miss May, to John Hartman Nelson, of Campbellton. The wedding will take place in the near future.

SLEEPING CAR TO LEVVIS

Commencing Sunday, December 4th, the through sleeping car between Campbellton and Lewis, attached to the Ocean Limited, will operate on Monday, Wednesday and Friday, instead of Tuesday and Thursday. This car will leave Lewis at 12.10 on Monday, Wednesday and Friday. Passengers may occupy berths at Lewis the evening previous.

REV. MR. MCNAIRN HAS ACCEPTED CALL

Will Become Pastor of St. Andrew's Church Here After New Year.

Rev. W. W. MacNairn of Westville, N. S., has accepted the call extended him from St. Andrew's Presbyterian Church here and, according to information received, will take up his new duties in this field about the first of the new year. A delegation consisting of Messrs. D. C. Firth, A. McDonald and W. F. Yonson left here the first of the week to confer with the presbytery in which Mr. MacNairn's congregation is recorded.

Mr. MacNairn comes here with the best recommendations of his brother clergymen and hosts of friends and acquaintances. He is a graduate of Dalhousie and Pinehill Colleges, where he received his degree of M. A. The Reverend gentleman has held the pastorate of his present church in Westville for the past eighteen years, except while absent overseas as a chaplain with the Canadian forces and during his long service there has proven himself a faithful and conscientious worker and endeared himself to his congregation.

The members and adherents of St. Andrew's Church here are glad to hear that Mr. MacNairn has accepted the pastorate of their church and all who know the Reverend gentleman are eager to welcome him to Campbellton.

THE MEETING OF PARLIAMENT

Preparations Now Being Made and Expected All Will be Ready Jan. 18th.

Ottawa, Dec. 6—Official announcement of the opening of parliament has not yet been made, but indications are that it will be Thursday, January 18th and preparations are being made with this date in view.

SERIOUSLY WOUNDED IN TIME

Fire in W. H. Miller Co's Store Does Considerable Damage to Stock.

Fire which broke out in the general store of W. H. Miller Co. Ltd., on Roseberry Street, about 10 o'clock Monday night occasioned heavy damage to the large stock of dry goods and groceries. The company's loss will doubtless run into several thousand dollars for although not a great deal of merchandise was burned, almost the entire stock was damaged by water or smoke. Many of the store fixtures were also badly wrecked.

The fire was fortuitously discovered by one of the clerks who had returned to the company's office across the street to fix the fire for the night. Upon emerging from the office he noticed a flickering light in the store and after satisfying his suspicion that a fire was in progress, he immediately rang in an alarm and telephoned Mr. W. H. Miller who hurried to the scene. The fire department responded promptly and succeeded in confining the blaze to the store itself. While the building, which is owned by the Oddfellows Lodge, suffered no great damage the walls and ceiling are badly sprung from the continuous play of water upon them and blistered from the fierce heat occasioned by the blaze. The fire started under a counter about the middle of the store where the drugs and patent medicines are kept and is believed to have originated from spontaneous combustion. A quantity of household ammonia was also stored nearby and when its vapor became inflamed asphyxiating fumes were added to the dense volume of smoke. Consequently two firemen were rendered unconscious but speedily recovered upon being carried out to the fresh air.

It is understood that the company carried about \$14,500 insurance on stock and store fixtures and while this indemnity will doubtless cover the damage sustained, the consequential loss of trade during the approaching busy season will be much more considerable.

It Works From Both Ends

A local merchant upon whom we called recently gave us a first class talk upon "buying at home." We certainly agreed with him in all he said, and more too. The Graphic has always preached this doctrine, and lived up to it.

But what of our local merchants? A genial solicitor for wrapping paper, paper bags, etc., had induced him to order his counter check books from him, "just to make up a good sized freight shipment."

Our local merchant clean forgot that our local printers could supply these counter check books at the same price. He sent out of town for them.

But it's a poor rule that won't work both ways.

CAMPBELLTON SCOTS CELEBRATE ST. ANDREWS

Real jolly time at Princess Palm Room Last Thursday
Evening—Program of High Order Rendered
Good Speeches—Good Music.

Last Thursday night was a "brave night" in the Princess Palm Room here when the Caledonian Society of Restigouche celebrated with a turkey dinner the anniversary of Scotland's patron saint. A large representation of the local St. Andrew's Society was present together with many friends of the organization and the festival was replete with songs, speeches, numerous stories, Scottish reels and reminiscences both historical and personal. The speeches were colorful eulogiums of the Scottish race and glowing tributes to the land of the heather, flavored always with touches of Scottish wit. A splendid musical programme was provided for the occasion. Piper Harry McLennan was on hand and the resonant strains of the pipes stirred the large gathering perceptibly and evoked prolonged choruses of merited applause. Two members of the Palm Room Orchestra did themselves full justice at piano and drums, while Mr. Arch. McEachern of Chatham supplied numerous selections on the violin. Mr. Mc-

Eachern, who is an artist of no mean ability, appeared to be in his best form and injected in these selections a true Scotch rhythm that won pleased smiles from the most staid and sober Scotchmen present.

The dinner itself was a faultless spread and speaks well for the new management of the Princess. Much credit is also due Mrs. Edward Alexander who tastefully arranged and decorated the tables for the host of diners, thereby contributing very appreciably to the unalloyed success of this annual event.

GAME OFFICIALS TO HOLD CONFERENCE

To Discuss Ways for Co-operation in Wild Life Conservation.

Ottawa, Dec. 5.—Game officials representing every province in the Dominion, together with federal officers, will meet in conference on Dec. 6, 7 and 8 to discuss ways and means of securing further co-operation in wild life conservation. The conference, which has been called by the Department of the Interior, will be an informal one, taking the form of round table talks and it is hoped that it will result in bringing out valuable suggestions with regard to wild life problems in Canada.

GUARDING NOAH'S ARK.

Watched Night and Day, a Bait Is Preserved in Cario.

Whether one believes in Noah's Ark or not, there is a bit of it called up on the inner wall of the Jewish synagogue in Cario, Egypt. This precious bit of splintered wood, several square feet in extent, is kept night and day by devout believers in the ark, who have incidentally a soft job. Four men guard the piece of the Ark by day, but at night the piece across the entrance is guarded by eight. Travelers from all over the world stand in awe, more or less, across the entrance to the temple. It is a splendid, if unconvincing, relic, and well worth the money one is bound to give to the beggars outside.

The bit of Ark actually looks like a piece of fractured timber taken from one of the old sailing vessels. It has certainly not the dignified appearance which one might expect from so ancient and historic a landmark in human history. It might be any odd bit of wood splintered and made to look old—perhaps it is! When one looks at it, it is not so much a question of believing, but of pretending to believe.

The visitors who come to view this relic are numbered in thousands every year. Each one gives a small contribution towards the upkeep of this ancient showpiece, to say nothing of the tips demanded by the numerous interpreters of history, guides, Arab, and street loungers, who demand some small coin before they will divert their unwelcome attention to other visitors.

Altogether, guarding this bit of Noah's Ark is a profitable business, and it is certainly the guards would fall asleep if sufficiently bribed, so as to enable the over-curious tourist to take back a chip of the Ark to show his family.

Before Man Came.

The land vertebrates of the era were amphibious animals, half reptiles, half fish. Bones and skeletons of the crocodiles, the largest and best known of these amphibians in America, are occasionally found in the upper coal measures of Pennsylvania, but the best specimens are from Texas. The crocodiles are twice as old as the coelophiles—the diminutive ancestor of the horse—one hundred times as old as the mammoth or the mastodon or the earliest known remains of man. It has been said of the crocodiles that he is a collateral ancestor of all the higher animals—of reptiles, birds, mammals and of man himself—all developed, through the ages which have since elapsed, from animals of the same type and grade of organization.

CORRECTION.

As readers of the Graphic will have noted, two typographical errors appeared last week in our article on the vocational classes. The entire cost of these classes to the School Board should have been \$1900, instead of \$199, as printed by mistake, thus leaving the net cost of operations \$650 per year after the cost of equipment, which was \$1250, has been deducted. The cost of the commercial course included in the curriculum is obviously \$1300 instead of \$1300.

While it is unfortunate that these mistakes should appear in an article of such importance, the figuring of the costs was clearly set forth and the results—apart from the misprints—were perfectly obvious to all who are sufficiently interested to be concerned about actual cost figures. It is therefore unlikely that much confusion or any deception or delusion was brought about by the aforementioned errors.

At the age of fifteen years a dog is more decrepit than a man of eighty.

Three hundred years ago the population of London was only 100,000.

Lions and tigers are too weak in lung power to run more than half a mile.

There are more than 300 railway stations within twelve miles of St. Paul's Cathedral.

Madrid lies higher than any other European capital. Its height above sea level is 2,990 feet.

A fraction of a grain of musk will scent a room for years, and the earlows thing about it is that at the end of that time its weight is not diminished by the smallest fraction.

Only queen bees and workers have the power to sting. The drone cannot sting.

The stinger is curved, and is carried sheathed. After the point enters there is a flow of poison. It is believed that a bee cannot sting a second time because, owing to backward pointing barbs, the stinger is left in the wound. Thus the bee dies as a result of its vengeance.

Stature as a Racial Test.

Stature is by no means a general criterion of race. It would not be difficult to find groups of Englishmen, Kafirs and North American Indians whose mean height would scarcely differ. Yet it is, in many cases, a valuable means of distinction, as in separating the Teutonic and the Celtic ancestry in the population of England. The height of the mean or typical man is five feet seven inches, and that of woman five feet two inches. An historical account describes the Teutonic peoples as tall, the Irish and Slavs as medium stocky, and the Mediterranean peoples as medium slender.

A Strange Position.

The survivors of the Irish Nationalist party, notably T. P. O'Connor, who has represented the Irish constituency of Liverpool since 1885, and Joseph Devlin, of Belfast, and themselves in a curious position. Practically the only plank in the Nationalist party has been Home Rule for Ireland, and with Ireland under the form is pulled from under them. The Nationalists naturally co-operated with the Liberals in the past, but that was because the Liberal party was the British party of Home Rule.

The Duck.

The duck obtains the wonderfully glossy appearance of its feathers by means of a private store of "brilliantine" which it possesses. This curious oily liquid is stored in a small gland under the roots of its tail, and rubs its head under its tail. It is really just giving itself a thorough treatment of its own special hair oil.

Wouldn't Mind That.

An Lillian who kept a fruit stand was much annoyed by possible customers who made a practice of hanging the fruit and pinching it, thereby leaving it softened and often spoiled. Exasperated beyond endurance he finally put up a sign which read, "If you must pinch, do it right—pinch a cocoon!"

Report on Swim Execution

Places the Discredit Upon

Doyle, One of Hangmen

Recommendation That Executions Should be Held at Central Prisons—Finds that Sheriff Foster Took all Reasonable Precautions

Fredericton, Dec. 5.—Declaring that the "Swim hanging would have been hardly more public if the scaffold had been erected on the street" in laying emphasis upon the unsuitability of conditions at county jails for carrying out executions, the report of J. Bacon Dickson, of this city, who is commissioner appointed by the Attorney-General's Department conducted an investigation into the recent execution of Bonnie Swim, who had to be twice hanged at Woodstock on October 6th before the death penalty had been carried out, was tabled at this morning's meeting of the Provincial Government. The report suggests that the execution should be held at a central prison where they might be under the supervision of a competent and experienced official.

The Commissioner's report blames M. A. Doyle, of Montreal, one of the executioners for the body being cut down too soon after the trap had been sprung the first time. "Nothing was disclosed at the investigation to throw discredit on any other person taking part in the execution," reads one paragraph of the finding, referring to Doyle. Regarding reports that Doyle was drunk or under the influence of liquor, the commissioner says: "I have come to the conclusion that if Doyle had taken any liquor he did not show signs of it in any marked degree on the morning of the execution" and that "it certainly had not affected him

to such an extent as to interfere with his carrying out the execution." Regarding charges that Doyle had been brutal to Swim, the Commissioner finds that the hangman "did not look upon the affair in a proper light" and that Doyle was "not as considerate of Swim's feelings as he might have been," mentioning his remarks on the scaffold to Swim and the springing of the trap while Swim had not finished his prayer.

The report completely exonerates Sheriff Albion Foster of Carleton County from any suggestions of neglect of duty, the commissioner saying: "I am fully satisfied that the Sheriff did all in his power to have a capable man on hand to carry out the execution."

The Recommendations.

The concluding recommendations of the report follow:

While not a part of my duty, I feel that having been in close touch with the facts regarding this regrettable affair, it would be well for me to deal briefly with our system of capital punishment. The sentence of the court is that the prisoner be hanged by the neck until he is dead. The duty of carrying out this sentence is placed on the sheriff. He receives no instructions from any official source as to how the details of this gruesome task are to be carried out. As our sheriffs have no knowledge of hanging and as no official information is available, they are obliged to secure the services of a professional hangman and this practice has become almost universal in Canada. But the sheriff's difficulties do not end with the decision to employ a professional hangman. There is no official of this description. He must employ some person on the recommendation of others without any responsibility in the matter, and, quite naturally, dependable citizens are not making their living by hanging. The wonder is that there are not more affairs of this nature.

DALHOUSIE.

After spending a vacation of several weeks at her home in the States, Miss Stella Troy left on Tuesday for Boston, where she will remain for a few days. She will then return to her home in the States.

On Saturday last, a heavy snowfall, the heaviest and heaviest in many days, caused a serious condition for pedestrians, owing to the slippery sidewalks. A heavy snowfall during Sunday night and early morning caused a similar condition.

Thomas Chelmsford Beckingham and Maria Priscilla McCannell were married by the Rev. E. J. Shawson Monday. They will reside at Dal River.

The "Red" school children, "Arlene" and "Zweller," 600 tons, in charge of Capt. Green, after being in port for three weeks, left Tuesday bound for New York. She was loaded with large quantities of goods by the P. Q. Lumber Company.

To avoid danger from the ice, she was taken from the wharf on Wednesday to the lower wharf, where she finished loading.

Mrs. E. J. Day who was the guest of Miss Audrey Troy, left last week for Boston.

Dr. Rogers, medical inspector of schools in the County of Restigouche, made an official visit to the superior school on Thursday and Friday of last week, when a thorough inspection was made of the pupils.

George C. Scott, manager of the P. Q. Lumber Company, left last week for his home in Framingham, Mass., where he will spend the next few weeks.

The big game season which closed on Thursday, was a poor one in this district, both moose and deer being scarce. The sale of game-meat by holders of game licenses is permitted until the fifteenth of the month. Only animals killed by the holders of game licenses may be sold for meat.

Ian Hamilton, of Chaudiere, was a visitor to town on Saturday.

Several farmers up-river have lost horses, recently from what appears to be acute indigestion.

During the terrific north-westerly gale which blew all day Saturday, two negroes loaded with lumber and laths for the four-masted schooner at the lower wharf, went adrift. While they were being rapidly swept to sea, Captain Allard, that skillful seaman, game chase and not without considerable difficulty succeeded in boarding them and towing them to port.

Public notices are posted, announcing that J. E. Fournier, fishing officer for this district, will be at the Carrier Hotel, on Wednesday, for the purpose of issuing smelt-fishing licenses.

Clarence Little, formerly of this town, but later of Montreal, is visiting friends here.

Dr. M. A. Priest, of Augusta, Me., was in town last week, the guest of his parents, Mr. and Mrs. W. H. Priest. Mrs. Priest, though much improved in health is still confined to the house.

Mr. and Mrs. T. Hottot, of New Carlisle are guests of Mr. and Mrs. Robert Good, at the Junction, for a few days, before proceeding to Campbellton where he will enter the Soldiers' Memorial Hospital for a surgical operation.

NEW CARLISLE.
Elaborate preparations are being made for the wedding of Mr. Stuart Fournier and Mrs. Nina Astles, (nee Kears), widow of the late Garfield Astles, both of New Carlisle, which will be solemnized on Dec. 6th at 7 p.m. by the Rev. A. W. Stockland. The bride will be given away by Mr. Charles Gosselin of Madawaska, Russia, and will be attended by Mrs. Alvin Justice. While Mr. Astles is of Maine, U. S. A., will support the groom.

A reception is being held immediately after the ceremony.

BLACK-CAPIES.
Mrs. Wm. Johnston has returned home after visiting friends in Charlottetown and St. John's.

Miss Gertrude Fairservice left last week for Montreal, where she will spend some time.

Miss Clara Campbell who has been visiting her parents, Mr. and Mrs. A. N. Campbell for the past month, has returned to her home in Charlottetown.

Mrs. Wm. Campbell of Boston, Mass., arrived Saturday. Mrs. Campbell will spend some time with her daughter Mrs. John Steele.

Our new pastor, Rev. C. F. McLennan, preached his first sermon here Sunday.

On Friday evening the choir tendered a variety shower to Miss Rota Hamilton who is to be married on Wednesday at her home. Many useful gifts were received and a very enjoyable evening was spent by all. Those present were: Mr. and Mrs. G. A. Galmers, Mr. and Mrs. Archie Henderson, Mr. and Mrs. Scott Hamilton, Mrs. W. A. Hamilton, Miss Fernie McLean, Miss Florine Jamieson, Miss Beulah Henderson, Miss Bernice Dickie, William Jamieson and J. W. Turner.

Miss Margaret Fraser was in Campbellton Saturday.

Friends of Mr. Laughlin McCurdy will be sorry to learn of his recent illness, which however, is not serious.

Mr. Vaughan Cook has gone to Benjamin River where he will be engaged in work this winter for J. & A. Culigan Co.

Mr. and Mrs. James Skeene were visitors to Campbellton Saturday.

Mrs. Thomas Martin, of Dalhousie, was the guest of Mrs. Louis Giroux this week.

Mr. Jas. G. Dickie is in Lewis, P. Q. this week.

About six inches of snow has fallen here this week, thus lessening the treachery of the roads.

Mr. Ian Hamilton was in Nash's Creek Monday.

Miss Bessie Cook attended the Children's Pageant at Campbellton on Monday night.

Mr. William Thompson who spent some time with his cousin, Mr. Arthur Thompson, has returned home.

Mr. Warren Miller was in Campbellton on business Saturday.

Mrs. Murray Nichol and daughter Dorothy, of New Mills, spent Saturday with Mrs. David Henderson here.

NEW CARLISLE.
A heavy fall of snow fell here on Monday and good sleighing is the result.

The well diggers are very busy deepening the wells, both in Papezbac

and New Carlisle. The scarcity of water in very serious, for not only are the wells dry but the brooks.

We are very sorry to hear of the serious illness of Mr. Delbrough, the master mechanic of the railway shops here.

We trust that under the eye of his physician in Campbellton that he will soon recover his usual health and be with us once more. Mr. Delbrough has made many friends in New Carlisle.

Thousands of Christmas trees have been shipped from here to the United States but does it pay? Five cents for cutting, hauling and buy twice to tie up the branches. Somebody gets a raking off.

Dr. LeBel who was recently married has opened up his office opposite the Anglican Church. His shop window looks very well stocked with useful articles in the toilet line.

We are glad to see back with us one of our boys who has recently returned from British Columbia in the person of Mr. Frank Cooke.

heavy blow upon the City of Halifax, blotting out hundreds of lives and causing property damage of millions of dollars. The approximate cause of the explosion which caused such havoc was a collision between two steamers in the harbor, the Belgian steamer Imo and the French steamer Mont Blanc.

The latter ship was loaded with high explosive munitions, the chief among which was trinitrotoluol, commonly known as T.N.T. The occurrence of December 6 brings to many people sad memories of that terrible day.

CHATHAM FAVORS VOCATIONAL CLASSES

The town council of the town of Chatham at its last meeting made a grant towards the continuing of vocational classes. A year ago Chatham had these classes and now its citizens are demanding them again.

It seems too bad that Campbellton citizens have allowed themselves to be stampeded by a writer in a newspaper and a loud talking politician. We feel sure that the majority of citizens favor these classes. Are they to sit quietly and allow them to be discontinued?

A meeting of the town council is called for Monday night. That is the time for action.

CHIMNEY FIRE.

A fire alarm was rung in for a chimney fire at the home of Mr. Pete LeBlanc, Lansdowne street at 9 o'clock Saturday morning. The fire department answered promptly. No damage was done.

AFTERNOON TEA AND SALE.

The Ladies Aid of the Baptist Church will hold a sale of Useful and Fancy articles and Home Cooking at the parsonage on Saturday, December 16th at 2:30 p.m. Afternoon tea will be served.

FIRE DISCOVERED IN TIME.

A fire was averted a few nights ago in Durick's drug store where a customer had thrown a lighted cigarette into a bin of newspapers. The fire department arrived just in time and the fire was extinguished.

From the Coral Room opens a small passage with an alcove containing a "fairy" bride altar, and partly barred by what looks like portieres beautifully draped. Just beyond there is a nature cabinet, a theater of antique pattern with a little stage all set for a play.

In the next chamber a visiting tourist beholds the semblance of a great pipe organ seventy-five feet high. Its pipes, of course, are stalactites, which, when struck with the cloth-wrapped end of a stick, give forth different notes, tuneful and suggesting chimes.

Liberty Hall is 150 by 80 feet, and in the middle is the Liberty Column, an enormous stalagmite fourteen feet in diameter which is beautifully reflected in a quiet pool of water at its base. Yet another chamber, or even greater size, 200 feet in diameter, is called the Amphitheatre, oval in shape and with a dome-like ceiling 150 feet high.

Other curiosities are the Echo Chamber, the Cypress Swamp (with counterpoint pond lilies) and the Parachute chamber, in which two immense white parachutes seem as if hanging from aloft.

"Niagara in Winter" looks like a frozen cataract. The Vegetable Garden exhibits beets, turnips, carrots, parsnips, new potatoes, etc., all neatly executed in stone. In one chamber is a curtain of what looks like Japanese art carving, most elaborate.

The so-called Madonna resembles a statue of the Virgin and Child. "Navajo blankets," hung from aloft, are woven by nature in varied colors; and in one of the aches there is even a gigantic angel's wing, feathery and exquisite.

The entrance to these wonderful caves is six miles west of the little town of Baker, Nevada. Tourists are beginning to go there in flocks. All around them is green and beautiful country, with trout streams full of fish; and close by is a little ranch-house, where folks can get waffles and chicken if they are hungry. There is also an outdoor camp, with stoves, etc., ready for use by anybody who happens to come along.

Apples Like Onions.

An apple, onion, or a potato taste alike. It is necessary to see and smell them to detect the difference.

stated by Dr. J. A. Haddad in his lecture on "The Psychology of Painting" at the National Food Exhibition, held at London, England.

Another statement he made that will astonish most people is that we do not smell chloroform, but only taste it.

The mind has a powerful influence on digestion, he said, and instanced the case of a man who became sick when he took milk simply because in his childhood he had been compelled to take medicine in it.

NEW ALLIES ARE NOW OPEN

Bowling Allies and Pool Room in the Boudreau Basement Opened.

With the completion of the Boudreau bowling alleys and pool room in the spacious basement of the new J. L. Boudreau building on Roseberry St., Campbellton enjoys the distinction of having one of the finest bowling alleys for its size in the eastern provinces.

Many citizens who are familiar with various pleasure haunts of this kind in Montreal and other large Canadian cities declare that they possess nothing in this line that excels the Boudreau alleys for completeness of equipment and distinctive finish.

The new alleys which were opened to the public on Tuesday afternoon are modern in every respect and obviously no expense has been spared to the place, one which those who bowl and play pool will be proud to visit.

The apartment contains three up-to-date pool tables, one English billiard table and four regulation hardwood alleys finished and polished in apparent No. 1 style.

The floors are of steel gray concrete as is also the wainscoting with the upper wall, pillars and ceilings done in a pleasing contrast of white. The lighting arrangements are also a feature of equipment for, aside from their splendid illuminating capacity, the electric light shades are of the "milky white" variety and are adjustable and of very pleasing design.

The other necessary equipment is all modern as can be procured.

The basement or first story of the Boudreau building is of massive concrete structure with a handsome brick front and when the additional three or four stories are added it will be a credit to the town.

It is to be hoped that next summer will see its completion.

WONDERFUL CAVES.

A Recent Discovery in the Nevada Forest.

The Lehman Caves, in the Nevada National Forest, have been designated as a national monument. Their discovery by a ranchman, after whom they are named, was quite recent, and it may fairly be said that they make a most important addition to the list of the natural wonders of the United States; for, although less in size than the famous Mammoth Cave of Kentucky, they far surpass the latter in scenic beauty.

They are located in the foothills of one of the loftiest mountains on this continent, Mount Wheeler, whose snow-clad peak towers 13,034 feet above the sea level. The formation is in limestone, out of which water has in the course of ages hollowed enormous subterranean caverns, hung with myriads of stalactites and so fearfully carved as to present to the eye extraordinary effects.

To get into them one must descend from the ground level a series of steep flights of "stairs" which lead down 125 feet to a cave called the Gothic Palace. This, only one of many spacious underground chambers along interesting enough to repay a visit, its roof being hung with stalactites resembling huge chandeliers, while a weird simulacrum of a mastodon in limestone offers rude contrast to a "fairy rose-bush."

Leaving the Gothic Palace, one enters the gateway of the Temple of the Gods, 180 feet long by sixty feet wide, with a vaulted ceiling forty feet high. From the ceiling are suspended great numbers of stalactites, fluted and so colored as to resemble onyx.

Next comes the so-called Crystal Palace; then the snow room, with walls of dazzling white; then the Pine Room, which has a ceiling of alpine pink hue; and, further on, the Coral Room, where the stalactite formations suggest the corals of the sea.

From the Coral Room opens a small passage with an alcove containing a "fairy" bride altar, and partly barred by what looks like portieres beautifully draped. Just beyond there is a nature cabinet, a theater of antique pattern with a little stage all set for a play.

In the next chamber a visiting tourist beholds the semblance of a great pipe organ seventy-five feet high. Its pipes, of course, are stalactites, which, when struck with the cloth-wrapped end of a stick, give forth different notes, tuneful and suggesting chimes.

Province Makes About One Dollar a Head on Rum Traffic.

(Fredericton Gleaner.)

Profits to the extent of more than half a million dollars have been realized by the province of New Brunswick during the past fiscal year from the distribution of liquor under the Prohibition Act by the New Brunswick Liquor Commission and receipts under the New Brunswick Liquor Exporters' Tax Act.

Estimates presented in the last session of the Legislature showed \$250,000 as the anticipated receipts from each of these two taxes during the fiscal year and it is understood that the gross amount has now been reached, although no figures have been made public and officials are diffident about discussing the matter.

Some time ago, however, it was said that more than \$220,000 had been received under the Liquor Exporters Tax Act and there have been considerable receipts since that time as well as a judgment by the Court of Appeal sustaining the principal of the Act and ordering the Security Export Company to pay in over \$60,000 of disputed taxes upon a shipment of about 49,000 gallons of liquor.

The Liquor Commission, it is said, have had their balance sheet completed for the fiscal year and it was said today to show profits of somewhat more than \$250,000, the official estimate. Just what the figures actually are has not been stated but it is said they are under \$300,000.

ELECTION IN QUEBEC SOON

So Opposition Journal Published
At Quebec Will Say

Quebec, Nov. 30.—The Quebec Chronicle will say tomorrow:
"At a caucus of the Liberal party held tonight, the principal questions discussed were: The liquor law, the roads' law and the election."
"It is understood that the government would like to prorogue the session Dec. 23, and that eighteen days later the legislature will be dissolved and the general elections fixed for about the middle of February."

CAMPBELLTON TOTS DELIGHT ELDERS

Opera House Crowded to Doors Monday
Night to see Children in "Sylvia's Dream."—Lots of fun

That Campbellton young people have talent has always been conceded, but during the past week we have had conclusive proof of this. Our citizens had hardly stopped laughing over the side splitting comedy put on by the older young people, a week ago, when the real young folk came to the front Monday evening with a musical play which was one of the best of its class ever witnessed here. The title of the piece was "Sylvia's Dream" or "A Day in Fairyland." The cast included sixty children ranging from the wee tot of five and six to the older girls of teen age, and Mrs. Ray Ferguson directed the production. The girls and boys in appropriate costumes, many of which were beautifully made, took their parts like veterans. There was enough humor in the cast to keep the audience in a most pleasant vein, and encores were demanded of many of the scenes. The programme as follows will give some idea of the cast.

OBITUARY.

Beatrice Joyce Gilker.

A host of youthful acquaintances as well as the many friends of Mr. and Mrs. W. R. Gilker were greatly grieved to learn of the death of their little daughter, Beatrice Joyce, Alexandra Gilker, which occurred at the Soldiers' Memorial Hospital about 4 p.m. on Saturday, Nov. 25th, after an illness of some three weeks from bronchial pneumonia.

The little girl who was in her fifth year had endeared herself to a large number of friends, both young and old and her departure has been keenly felt. Besides her father and mother, the deceased child leaves to mourn one sister and one brother.

The funeral services, held on Monday the 27th inst. at 2:30 p.m., were largely attended and were very impressive, two hymns which were sung being "By God Silas Shady Hill" and "When He Cometh to Make Up His Jewels." Rev. B. C. Salter of Tide Head officiated. The pall-bearers were: Gerald Stewart, George McMillan, Edward Smith and Harold Jamieson.

The floral tributes were numerous and beautiful and were as follows:—

Broken wreath, Father and Mother's Sprays from St. Andrew's Church Choir, Mr. and Mrs. H. W. Sharpe and Family, Mr. and Mrs. P. E. Mullins, Mr. and Mrs. B. Theobald Mr. and Mrs. G. Bentley Mr. and Mrs. C. Killam and Family, Mr. and Mrs. C. Goss and Mr. and Mrs. S. Moores, Mr. and Mrs. J. Goss, Mr. and Mrs. H. McKenzie and Family, Mrs. Parks, Quebec; Wreaths from Miss Charlotte Stewart, Mr. and Mrs. George Richards and Mr. and Mrs. John O'Connor.

SURPRISED IN LIQUOR LANDING

Occupants of Dory at Yarmouth
Make Getaway, but Leave
290 Bottles.

Yarmouth, N. S., Dec. 4. Two men in a small dory were surprised by Sergeant Godel and Policeman Allen and Myers at three o'clock this morning attempting to land a load of liquor near the old woolen mill property. The two men abandoned their liquor laden craft and jumped into another dory and disappeared in the darkness, aided by thick snowfall. The abandoned dory was found to contain 290 bottles of liquor, mostly whiskey.

The present slump in business in general creates havoc with the average merchant whether he be big or small. Many the heretofore strong firm has been forced into bankruptcy or has been saved just in the nick of time by sacrificing their all to avoid sure bankruptcy.

On account of being overstocked, and as the weather is against us, we are pressed to realize cash, and in order to get it we are going to offer you the most wonderful values. We don't want to wait until the season is over to get rid of our winter stock—RIGHT NOW you can get the BEST VALUES at ridiculous prices. WE DEFY ALL COMPETITION. At such a time a man with the ready cash can BUY AT HIS OWN PRICE.

Why Bake at Home

—when you can
buy bread
like it,
ready baked?

COUNT the raisins—at least eight big, plump, tender fruit-meats to the slice. Taste it—see how the raisin flavor permeates the bread.

No need to bake at home when we've arranged with bakers in almost every town and city to bake this full-fruited raisin bread.

Just phone and they'll deliver it—all ready to surprise the family tonight.

It comes from master bakers!

modern ovens in your city. And it's made with Sun-Maid Raisins.

That's another reason for its superiority. A rare combination of nutritious cereal and fruit—both good and good for you, so you should serve it at least twice a week.

The Sun-Maid Raisins also in puddings, cakes and cookies. You may be offered other brands that you know less well than Sun-Maid, but the kind you want is the kind you know is good. Indeed, therefore, on Sun-Maid brand. They cost no more than ordinary raisins.

LUSITANIA CARRIED NO GUNS OR TROOPS

Official Report of Cargo Made
Public—Shows Some Am-
munition Was Carried.

New York, Dec. 8.—The Cunard liner Lusitania, sunk by a German submarine in 1915 off the Irish coast, carried neither guns, troops, nor explosives, but did carry 5,400 cases of ammunition, but the official report of the vessel's cargo made public by Dudley Field Malone, collector of the port at the time, shows, according to a copy-righted story in the New York World.

The cases of ammunition, the report stated, were carried by specific permission under rulings of the department of commerce in force since 1911.

HON. H. S. BELAND IS
VICTIM OF LA GRIPPE

Hon. H. S. Beland, Minister of Civil Re-establishment and Health left last evening for Ottawa, where he is to attend several meetings of the Cabinet. The Minister was unable to receive visitors yesterday, being confined to his room suffering from an attack of grippe. He, however, was able to proceed to the Capital, accompanied by his daughter, Mrs. Victor Mathieu.

BISHOP OF GASPE QUEBEC STUDENT

Was Born in Matane, But Received Classical Education At Quebec.

Quebec, Dec. 4.—Monsignor Francis Xavier Ross, who has been appointed Bishop of the new diocese of Gaspé, is at present vicar-general of the diocese of St. Germain of Rimouski, and which comprises parishes in the counties of Bonaventure, Gaspé, Matane, Rimouski and Temiscouata.

The bishop-elect was born at Grosse Roche, Matane, in 1869, and is now in his 53rd year. He is the son of Joseph Ross, a farmer, and Madeline Gendron, being a descendant of a Scottish soldier who settled along the coast following the disbandment of the regiments after the capitulation.

Mgr. Ross received his classical education in Quebec and completed his studies in Rome. He was ordained at Rimouski on the 19th of May, 1894, by the late Mgr. A. A. Blais, then bishop of Rimouski.

Following his ordination Mgr. Ross acted as secretary to Bishop Blais until 1898 when he was appointed parish priest at St. Laurent de Matapédia, remaining here until 1898. In that year he was transferred to the parish of Anse-au-Loup in Bonaventure, where he remained until 1901. The then Father Ross was next moved to St. Louis de Ha! Ha! in Temiscouata, and there he built a church and the priest's residence.

In 1906 Father Ross returned to Rimouski and was there appointed as principal of the Normal School. He was named titular canon and became vicar-general to Bishop Blais on the 10th of Dec. 1910. Mgr. Ross, the death of the latter and the accession was appointed vicar-general to the present incumbent.

Bishop-elect Ross has been noted for his interest in educational matters and has contributed numerous articles as well as a volume, on that subject.

OBITUARY

Mrs. Clifford Sherar.

Dundas, N. B.—A deep gloom was cast over this community on Friday morning, Dec. 1st when it became known that Mrs. Sadie Sherar, wife of Clifford Sherar, had passed away after a lingering illness of about two years. Possessed of a cheerful disposition and of splendid characteristics, Mrs. Sherar endeared herself to a large circle of friends by whom she was greatly beloved and esteemed and to whom her passing came as a severe shock.

Deceased was in her twenty-sixth year and was a member of the Dalhousie Presbyterian Church. She leaves to mourn her loss, a loving husband and two small children, Roland aged two and a half years and Doris one month old; also her parents, Mr.

and Mrs. Alexander Innes, four brothers, Ernest and Hugh of New Hampshire, Russel of British Columbia, Willie of Wisconsin, James at home, and one sister, Mrs. O. Dean of Portsmouth.

The funeral which was very impressive and largely attended took place on Sunday at 2 o'clock. Rev. Mr. Shaw officiating. The hymns rendered were: "Nearer My God to Thee," "Asleep in Jesus," and "Safe in the Arms of Jesus." Interment being made at Dalhousie Cemetery.

The heartfelt sympathy of the community is extended to the bereaved family and for herself we commend her to the loving care of God in the great new life before her.

CURRIE HELPED WIN THE WAR

Gave Advice Which Was Adopted By Foch in Great Drive.

Ottawa, Dec. 4.—Official reports of the Canadian corps and a highly important chapter to the Foch-Haig controversy—aroused by the publication "Sir Douglas Haig, Command" by A. E. Dewar and Lieut.-Colonel Boraston. The theme of the book is that it was Haig and not Foch who planned the counter-offensive that won the war. Records of the Canadian corps do not touch on the sharp clashes between Haig and Foch alleged in the book, but they show that suggestions made by Sir Arthur Currie, commander of the Canadian corps, were adopted in the plan of attack that led to the first crossing of the Hindenburg line.

CANADIAN COIN IN NEW YORK

Again Make Their Appearance Among Change At "The Hub."

New York, Dec. 2.—The Sun publishes the following:

"Evidence of the return of Canadian coins that have begun to appear again in the small change of New York. Canadian paper was at one time at as much as 15 per cent. discount, and has gradually come back until within the last few weeks American money has actually been at a slight discount in Canada.

"A Canadian coin that is not likely to be familiar to New Yorkers is the penny, of the same size as the American penny. Before the war Canadian dimes and quarters were common enough in this city, but pennies from across the border seldom traveled this far."

"Tell Me Your Plan of Campaign."

should be overthrown at some future date. Also you have my profound sympathy for the people."

"Tell me your plan of campaign," Webster suggested.

"In a secret rendezvous in the mountains, I have 600 soldiers with my father's veterans. They are armed with modern rifles and machetes. The nitrate company, which has been suffering from the earthquake, is composed by Sarros, has loaned me all the rolling stock of the railroad for one month. It will be mobilized at night. Miguel de Padua by next Saturday night; my troops will arrive late the same afternoon and entrain at once."

"In the interim all telephone and telegraph communications with Bu.aventura will be severed. The night previous our steamer will have discharged her cargo of men and munitions at San Domingo a matter of 200 miles away so as to establish an all communication with the coast will be shut off."

"On Saturday night, also, the Comandante's company will be sent to La Estrellita, will make port with 30 Americans in her storage. These men will be road-makers and miners supported by Mr. J. S. Webster. In order to make certain that they will come, you have already ordered the steamer to be ready to sail with the port doctor to give La Estrellita a clean bill of health the very next day. Hence the ship's authorities will not be suspicious. I hope, when we remove our men after

erty sacrifices—and all because he, John Stuart Webster, had hesitated to let his son-in-law on a freelance salary \$40,000 without security.

No, there was no alternative. If his son-in-law for Billy was not a scoundrel, it was worth \$40,000; if his slient, unrequited love for Dolores Ruey was worth her, no sacrifice on his part would be necessary. He provided it guaranteed her happiness.

"Ruined again," he sighed. "This time I'm ruined. I've lost my money. I've lost my money when the tall goes with the hide. How soon do you want the money?"

(To be continued)

SAILED FOR ENGLAND.
Dr. G. W. Saleby, noted physician and scientist of London, England, who spoke recently here to a large audience, sailed Saturday from New York on the White Star liner, Olympic.

SLIPPERY.
The rain of last week and made the streets very slippery, and the hills were superb for coasting. Sunday night's snow made walking very treacherous, but more snow has remedied it.

VALUE OF WOODLOT.
A woodlot on every farm, maintained under the rules of scientific forestry, drawn upon for fuel annually, would make about half of the population of Canada wholly independent of the coal mines and the coal-mine operators in the matter of keeping the home fires burning.

SMELTING IN MIRAMICHI.
The smelt fishing season opened on Friday morning, Dec. 1st. The fishermen report the river full of smelts, and some exceptionally large catches have been made by those who are fortunate enough to have the rigging and equipment for open water fishing and advantage point at which to set their nets. The price being paid by the dealers is seven cents per pound—Commercial.

You can still get a big discount at Gillman's. Our goods are sure to please you.

TAKING LONG TRIP.
Robert E. Caldwell of New Carlisle, Bonaventure County, Que., formerly of Shediac, and Lee M. R. Caldwell, also of New Carlisle, arrived here last week from Campbellton by automobile and left the same day for Moncton and St. John. They are taking a long tour to the south, going as far as Florida, and after that may cross the continent, on a southern route, to California. They reported the roads from Campbellton to here as being in good condition.—Chatham Gazette.

N. B. WILL BE REPRESENTED.
Hon. W. E. Foster, Premier of New Brunswick has written to the Canadian Prime Minister, Mr. W. L. Mackenzie King, expressing the sympathy of the New Brunswick Government with the action taken by the Dominion in connection with the reservation of space at the British Empire Exhibition in London next year. Asked what the province planned in the way of an exhibit, the Premier replied that nothing had been done in the matter so far, as the Provincial Government was awaiting the announcement of arrangements by the federal body.

THE RETORT COURTEOUS.
A noted suffragist says: "Editors make the best husbands." The average editor, not to be outdone either in chivalry or debate, will come back with this statement of fact: "Good wives make the best husbands."

BEAT THIS ONE.
QUIBELL, Ont., Nov. 24—Last week at Lookout a man was treed by four brush wolves. Soon two of them moved off. Shortly after the two animals returned with a beaver between them. They forced the beaver to begin work on the tree but before it had quite finished gnawing through the trunk a party of hunters came along and a tragedy was averted. We doubt whether John Connell the celebrated Bartibogue guide, who was noted for his stories could beat this one.

"Would Wake Up Screaming"
"The Least Sudden Noise or Loud Talking Would Startle Him."

"Up to the age of eight, my boy was a strong, healthy lad, full of life and energy. While playing leap frog one day with some boys of his own age, and while in a stooped position, a big boy jumped on his back and in falling my boy caught his foot in an iron grating and dislocated his hip. The pain was so great that he fainted and the other boys were so frightened they ran away. For hours he suffered terrible pain and when found and brought home was very weak, with his thigh and leg swollen twice its size. The doctor set the bone but the pain and exposure were too much for the poor boy and he became unconscious. A high fever set in and for weeks he lay between life and death raving for hours at a stretch. One day he opened his eyes and murmured 'Mother,' but this was the only word he could utter he was so weak, but I knew the worst was over. He got stronger but for months was in a nervous condition. The least sudden noise or loud talking would startle him and he would begin trembling. He was quite lame and the swelling still remained. The doctor gave him a tonic and told me to rub the leg with olive oil. This reduced the swelling and took away the lameness, but the nervousness remained. The poor child would wake in the night screaming at the top of his voice. The doctor gave him several different tonics but they were no use. I found a circular about Carmol and it seemed a circular about Carmol and it seemed so different from other tonics I had heard of, that I thought I would get a bottle. Three bottles were all that was needed to make my boy like his own self again. It is hard to convince my friends that the change in him is entirely due to Carmol. Of course I still have to watch him and know that he will soon be as strong again as ever he was."

Carmol is sold by your druggist, and if you can conscientiously say, after you have tried it, that it hasn't done you any good, return the empty bottle to him and he will refund your money.

Mrs. P., Montreal.

BIG MONEY FROM THE SEA

**Fish Caught in Canadian Waters
During Oct Worth Nearly
\$1 500 000**

Ottawa, Nov. 27.—Despite unfavorable weather conditions which prevailed on the Atlantic coast during October, landings of sea fish in Canada during the month, was 679,697 cwt., as compared with 490,206 cwt., in October last year. The value of the catch to the fishermen last month was \$1,498,365 as at last \$1,467,324 in October, 1921.

The total catch of cod, haddock, hake and pollock during the month was 166,348 cwt. as compared with 127,939 the corresponding month of last year. Pollock was the only one of these varieties which showed a falling off in the catch.

Mackerel taken amounted to 20,051 cwts. as against 15,429 cwts. in October, 1921. The total mackerel catch for the year is 240,331 cwts. as against 141,855 cwts. last year. The lobster catch during the month 4,298 cwts., a slight decrease from the landings of October last year. The total catch since opening of the season in November last is 349,515 cwts. of

which 63,055 have been used fresh and the remainder canned, making 142,206 cases. Figures for the corresponding

Smelt and oyster seasons opened during the month. There were 2,346 cwt. of the former and 10,620 bbl. of the latter taken. These quantities are slightly less than for October, 1921.

Calgary, Dec 3—Emillo Piccarillo and Mrs. Florence Lassandra, were found guilty last night of the murder of Constable S. O. Lawson, of the Alberta provincial police at Blairmore Alta., on September 21. They were sentenced by Judge Walsh to be hanged on February 21.

The Plunge Print. 382

The researches of Sir Francis Galton, conducted less than forty years ago, have been the basis for the test the gentleman in the proposal to have been done by Leonardo da Vinci's prints. The results have arisen. Advantage is to be taken of the custom of painters in Da Vinci's time to use a "plunge" of the finger on the freshly painted surface of a picture. A picture known to be by Da Vinci is shown to have a painting in dispute, and men versed in the art of the finger marks are confident that the two paintings are by the same hand. The results to determine whether both paintings are by the same hand have been asserted. The field of utility of the finger print is being rapidly extended. It is now used to identify criminals. It is now widely employed in the classification of other prints. It is now used to identify their names to money orders, to patients in hospitals who are temporarily insane, to the signatures of bankers under the general adoption of the "plunge" as a protection against forgeries. Only the "plunge" is used by its association with prison records, and the "plunge" is used in a much wider use than now permitted.

From the diary of Columbus and from other papers found available for his purpose, a German statistician has estimated at \$7,250 the original cost of the discovery of America. Admiral Columbus himself drew a salary of \$320, according to the information gathered by Herr Feldhaus. The crews of the fleet were content, it appears, on stipends of \$29.25 a man. The German authority agrees that the Columbus enabling fund was obtained largely through the pawning of the rings and necklaces of Isabella of Spain.

Suez Canal Traffic.

Returns of Suez Canal traffic show that of the aggregate tonnage of 18,118,999 which passed through the waterway in 1921, no less than 62.9 per cent. was British. The number of vessels was 3,975, of which 2,418 were flying the British flag.

Chinese Are Superstitious.
The Chinese are probably the most superstitious race on earth. They have a strong belief in all sorts of spells and charms. The average Chinaman also has great faith in drugs, and frequently spends a large part of his income on medicine.

They Don't Do It.

"Are those fish fresh?" asked the young wife.

"Less than twenty-four hours ago, mum," replied the venacious dealer, "them fish were playing about in the water just as happy and full of life as any fish you ever saw."

"Dear me," exclaimed the young wife, with a shudder. "Don't talk about them that way. You'll make me so sorry for the poor things I won't be able to eat one."

"FRUIT-A-TIVES" SAVED HER LIFE

This Fruit Medicine Always Gives Relief

MISS DOROTHY B. MONTGOMERY, of Montreal, has just been elected president of the International body of the W. C. T. U. at that organization's meeting in Philadelphia. Miss Montgomery has been elected to the position of president of the W. C. T. U. for the year 1923.

After finishing a few hours, I was entirely relieved of the dyspepsia and my general health was restored; and I am writing to tell you that I owe my life to "Fruit-a-tives".

MISS ALFONETTE BOUTCHER, of Montreal, writes for Fruit-a-tives.

OF INTEREST TO WOMEN

HEAD OF W. C. T. U. HOPES FOR "DRY WORLD"

(Miss Anna Adams Gordon of Evanston, Ill., has just been elected president of the International body of the W. C. T. U. at that organization's meeting in Philadelphia. Miss Gordon outlined the far-reaching projects she will seek to put into effect to make the world dry.)

(By Anna Adams Gordon.) (President, World's Women's Christian Temperance Union.)

Philadelphia, Nov. 25.—For 40 years the Women's Christian Temperance Union has been working for prohibition in 40 nations.

An international educational program has been conducted in practically every civilized part of the globe. Thousands of workers speaking many languages have been carrying forward the work.

All over the world we have been imparting to peoples of all the races the fundamental knowledge of the effect of alcohol on the human system.

Discouraged and Encouraged. Difficulties and obstacles of course have beset them. W. C. T. U. workers but they have been encouraged and cheered on by two facts:

One—They always have known they were a part of a great organization, that they were all banded together for a purpose, and could count on the support and co-operation of their fellow workers everywhere.

Two—Almost from the beginning we achieved some results; and with the passing years and the extending of our efforts into newer and larger territories we have seen the work going successfully forward.

In recent years great strides toward

world-wide prohibition have been made. With these advancements many reinforcements have joined our ranks.

Many rational thinking men and women the world over who were not originally in sympathy with prohibition have come to see the sound scientific basis of our program and have joined with us and are now lending their best efforts to our work.

To Continue Program. We shall carry on our program along practically the same lines we have followed for 40 years, and we are confident of a successful termination of our long-sought objective of world-wide prohibition.

The position of the W. C. T. U. in the matter of cigarettes and tobacco is exactly what it always has been. We do not put tobacco and cigarettes side by side with alcoholic beverages.

Our national program on the subject of tobacco is an educational one, outlined and carried forward in the interest of the health of boys and girls everywhere.

It is based on established scientific facts that prove beyond question the injurious effect of narcotics on the physical and nervous system.

We have worked largely with the school and educational officials and authorities and almost without exception they have shown the keenest interest and readiest disposition to co-operate with us.

MAKING HOUSEWORK EASY. Everything seems to tend toward the drudgery out of a woman's housework nowadays, and not only out of the actual housework but out of everything she does. Take the making of household linen, when were embroideries so simple as they are today and yet when were they more beautiful.

Takes, for instance, the time-honored cross stitch. Certainly there never was anything simpler than that, yet the results when worked out in artful designs or coloring repay the worker indeed for the time she spends upon them. This stitch, too, seems to be used for almost any article where embroidery is desired.

Then there is the French knot. That, too is easy to make and the present-day embroideries are most effective carried out in this stitch. In keeping with the tendency, too, these knots are single instead of double, treble, and up, as they used to be.

Designs are simpler. Everyone seems to have learned the secret of the beauty that is to be found in simplicity.

Then there is the question of practicality. Everything in the line of household linens nowadays is designed with an idea to washability. The linens that launder easily are the ones that are most in favor with all practical housewives. And rightly so too for there is nothing so attractive as snowy linen so embroidered that it keeps its beauty after it is washed again and again.

With the common sense in linens comes a greater call for luncheon cloth cloths that are simpler to handle than the large tablecloths. They are used much for informal wear and in that way the work of the housekeeper is lightened.

For the woman, too, who isn't too fond of linen there are some attractive crepe crests that launder easily. All of these tend toward one end and that is to make a woman's housework easier. It shows plainly that woman more and more is realizing that to spend all of her energy in the part of the housework that might be called drudgery is not right. She is needed for the higher calling of making her family happy and getting in some time for self-improvement. The real mother needs to grow as her children grow if she is to be of real value to them. To do this she must not spend all of her time cooking and cleaning or laundering. And the new embroideries seem to have that idea in mind.

FALL FASHIONS IN NEW YORK. Veils Back in Vogue. Veils are being worn in large quantities in Paris. They are said to be coming in stronger than ever before. As trimmings and drapings, veils are particularly smart, and much used at present.

Rich Trimmings of New Blouses. Metallic looms and braiddings on extremely rich materials give an elaborate appearance to the new fall blouses and overcoats—highly fascinating. Some of the blouse models are made on simple straight lines and lavishly beaded or richly embroidered. These dressy blouses are very much in vogue for afternoon and evening wear.

Newest Novelties in Separate Skirts. The new separate skirt offers much choice, both for sports and dressy wears. Skirts to wear with the new "Jaquette" and overblouses are mostly shown in plain shades—brown and tan leading in favor. "Wrap-around"

NIGHT COUGH

CHEST'S torn and made sore by an incessant night cough, are comforted and strengthened by Peps.

When placed in the mouth, Peps dissolve away into powerful healing and germicidal vapours that are breathed straight to the lungs. style are most popular although dropped effects are seen. Novel touches in the way of pockets, buttons and other trimmings, give individuality.

HELPFUL HOUSEHOLD HINTS. Do not start to fry bacon until you can give it your undivided attention as it will not cook evenly if allowed to cook haphazard. If you prefer very crisp bacon, the fat must be poured off as it cooks out.

Protects From Burns. When frying anything that is apt to splutter grease, it is a good suggestion to slip an ordinary paper bag over

the hand holding the fork. Many a nasty burn will be avoided.

Warmed-Over Biscuits. Muffins, rolls and biscuits may be warmed over successfully by sprinkling lightly with water and placing the pan in which they are in another pan containing water. Heat in the oven for a few minutes and they will be as fresh as when first baked.

A Handy Receptacle. An old saucepan can be utilized to splendid advantage as a receptacle for paraffin candle ends and tops from last year's preserving. When you are making jelly the pan can be put on the stove and the contents used for sealing the jars. It is not easy to remove the melted wax from the pan after it has congealed and the old pan saves this trouble.

For Whipped Cream. When the cream will not whip, add the white of an egg to it. Let both the cream and the egg get thoroughly cool and try whipping them together.

Have You Tried This One? French fry sweet potatoes just as you would white ones. Sprinkle them lightly with powdered sugar into which a pinch of salt has been added.

Fur Cleaning at Home. Brush your soiled fur collar with toilet water. There is enough alcohol in toilet water to make it cleaning and it soon evaporates, leaving a pleasant odor.

A Help for the Carver. Always serve the roast of meat on a platter large enough to allow its being turned easily. Never serve gravy on the same dish with meat to be carved or you can expect soiled table linen with nobody to blame but yourself.

Oilcloth Covers. Cook books, if used frequently, are bound to become soiled and greasy. Cover them with white oilcloth, then they can be washed off with warm water and soap and save you the necessity of continually having to recover them, besides adding to the life of the books.

1,200 PERSONS SAID TO BE HOMELESS

Through the Fire at Terrebonne, Que., on Friday Last.

Terrebonne, Que., Dec. 2.—Early morning estimates indicate that the situation here is far worse than supposed late last night, and that the amount of damage done by the devastating fire, which swept through the town during the night, and which even now is still burning in some quarters, rendered no less than twelve hundred persons homeless and destroyed approximately one hundred and seventy-five houses, resulting in damage estimated in the vicinity of a million dollars. As far as could be ascertained at nine a.m. no lives were lost.

Scores of firemen and a great quantity of apparatus are here, having been despatched from Montreal late last night and early this morning. The firemen are now engaged in blasting many of the dwellings in the western end of the town, in order to render it impossible for the flames to spread to this small undamaged section.

The refugees are being cared for at the St. Louis College. It has been definitely decided that the conflagration was caused by sparks from the

CHILDREN AND AMUSEMENT

Some pastime, other than that of

gallivanting about the streets at

night ought to be evolved for the harm-

less amusement of children just enter-

ing their teens. Recently a party

of youngsters narrowly escaped serious

injury when attempting to put over

some smart pranks where a

number of young folks were enjoying

a few hours coasting. When a

group of youngsters were

about their fully the youngsters

made some retorts which were

rather unusual considering their age

and which gave the impression that

they were not very well bred. Fre-

quently of late, other similar incidents

have come to our notice. We once

thought it an advantage to have one's

house close to the sidewalk but seeing

groups of mischievous youngsters

knocking on doors and rapping on win-

dows of houses that are situated in

close proximity to the street has caused

us to change our mind. It must be

very annoying to have your neighbors

children looking in your windows and

knocking at your doors and then run-

ning away. In cases where there are

just two in the front room it must

be especially disconcerting. When a

young man is visiting with serious in-

tentions, peace and quiet are very es-

sential and mysterious noises about

the house are apt to hinder the natural

procedure of events. Proposing, ac-

cording to those who have tried it, re-

quires the full measure of a man's

courage and it is unreasonable to ex-

pect a fellow to offer a lady a life-long

job when he has been kept sitting on

pins all evening by mysterious parties

rapping on the doors and peeping in

through the windows.

Apart from all joking, however,

these young tricksters sometimes play

pranks-players lose a scow, belong-

ance but considerable loss. On a

love's night a party of youthful

prankplayers lost a scow, belong-

ing to a local contractor, from its

moorings below the government

wharf. When the craft was found

near the McLennan plant it was in an

inverted position. Consequently, its

cargo, consisting of a stumping-ma-

chine, and a maulhook or anchor was

lost. It is altogether likely that the

perpetrators of this prank did it

without realizing that the result might

be what it was. Nevertheless their

thoughtlessness was the cause of the

destruction of private property.

Upon hearing of the incident one

citizens were wrath against the

youngsters themselves. But their

anger was ill-directed. Indirectly the

parents of these children are to blame

for their conduct and are civilly re-

sponsible for their thoughtless pranks.

There is evidently too little home

discipline in some families and too great

a laxity in home training. Moreover,

too little attention is given to the

provision of proper home amusement for

these younger members of the family.

Youngsters must be amused and if

they find interesting entertainment

at home they are almost sure to seek

it on the streets.

YOUNG PEOPLE'S SOCIETIES

AND CHRISTMAS WORK

Now that the Christmas Season is

approaching, Young People's Organi-

zations and Welfare Societies need

not want for work to do. Bringing

Xmas cheer to drab and cheerless

homes is always a work worthy of

honest effort and in harmony with the

real spirit of Yuletide. A good many

homes will present a scene on Christmas

morning unless some thoughtful and gen-

erous-hearted persons carry some happy

tokens to these bare and cheerless

homes. The tragedy of the matter is

that even though several people may

voluntarily undertake to bring a de-

gree of joy and gladness to the needy

homes they know of, there is always

the likelihood that some worthy family

may be overlooked. Then again,

many of us—although inspired by

good intentions—are frequently vic-

tims of procrastination and leave

many good deeds undone. Here, then,

is where the different societies can,

through co-operative and systematic

efforts, work to much greater ad-

vantage. The total membership of

these organizations aggregates to a large

number and there is no reason why

much good cannot be done. Why

should even one child, after dreaming

of Santa Claus, wake to find a dreary

hearth and an empty stocking when

we have all we need—and to spare?

THE ROAD TO PROSPERITY.

An important contribution to the

better understanding of our economic

conditions was made the other day by

Mr. P. Howland in the course of his

address to the shareholders of the Im-

perial Bank. He claimed that cer-

tain of the basic industries of the

country, such as mines, pulp and pa-

per, lumbering and fishing, all have

better prospects; the harvest of the

land is good and the outlook for the

future is bright.

Upon consideration of these sug-

gestions from an unbiased viewpoint

one can but deduct the conclusion that

they are founded on logical reasoning.

But, it is not the world's pros-

perity that is normal property has

undoubtedly been greatly hampered

because of the obstacles of labor in-

efficiency, high wages, restricted mar-

kets and immigration and a chaotic

Europe. When laborers and the labor

parties have abandoned revolutionary

tactics and have become less com-

petitive, the world's prosperity will

be greatly improved.
