The Trouble in South Africa. LONDON, Oct. 12 .- A dispatch from Johan mesburg, South Africa, says a large force of Matabele warriors is reported to be barring the route to Tati, where Raaf expects to arrive Tuesday. The dispatch adds that the Matabeles in other parts of Mashonaland appeared to be confused by the advance being made against them from several quarters. It is reported they are falling back and driving their cattle toward the Zambesi. esburg, South Africa, says a large force of

several quarters. It is reported they are falling back and driving their cattle toward the Zambesi.

The Matabele and Mashona are hereditary enemies. The former, who are warlike, look upon the latter, who are warlike, look upon the latter, who are docile,
as their legitimate prey. They kill them
and take their wives and cattle.

The British South African Company,
chartered by Great Britain, occupies a vast
section of Africa, Matabeleland and
Mashonaland included. The British company, like others, wanted to "civilize" its
section of the Dark Continent. Incidentally, it is digging gold and getting
other riches from the country.

The Mashona are good servants. It is
said that without them the British "civilizers" could not do much in the way of
gold getting. The company has tried to
get Great Britain to send troops to make
the Matabele stop killing off the Mashona.
The home Government has not seen its
way clear towards doing so. The company
apparently is about to take things into its
own hands.

track at the Market Lane. The engineer thereupon stated that it would be a good idea to run it that far. On Wednesday sevening about 120 feet of double track had been laid. On the 11th the mayor came along and asked: "How far are you going to run that double track?" Witness replied that it was not a double track, but merely a switch. On Thursday the north side of the track had all been completed, while the south side of the switch had been spiked down. Engineer Graydon ame on Thursday and handed witness a note, stating that the mayor was kicking about the double track.

Q.—What took place on the day of the tear up? A.—I noticed a gang of men and policemen coming along, and when they arrived we still kept filling in the track, P. C. Howie caught me by the coat collar

ENGINEERS' EXPERT TESTIMONY.

Allan McDougail, is a contractor of some years' exerience, and would call the part of the track torn up a double line. He thought 150 feet would be a fair allowance for a switch, as it would hold three cars. If at the western end it converged into a single line it would form a passing place or turnout.

place or turnout.

Messrs. E. H. Keating, Toronto's city engineer, Mr. Rusk, of Toronto, and Mr. Hastings, engineer of Hamilton, all agreed with Mr. McDougall.

agreed with Mr. McDougall.

The last witness was Sidney Loveless, who was working with Mr. Reycraft about a week after the tearing up of the rails, and witness stated that Reycraft told him it was a pity the company had not got down to the corner of Talbot street with their double tracks, so that the manhole would have been between the two tracks.

ARGUMENT POSTPONED. ARGUMENT POSTPONED

This closed the case for the defense.

Justice Falconbridge, in addressing the counsel, stated that the date for argument would have to be agreed upon between themselves, and the case will likely be argued before his lordship in Toronto at an early date.

I accordance with a resolution of the Liberal Churchmer's Uoton, we begin the proper of the Liberal Churchmer's Uoton, we begin the proper of the Church of the Irish people the power of self-government has passed through the House of Commons. As members of the Church of England, we feel ourselves the more constrained to break silence by reason of the exaggrated and unseemly language into which seem of the opponents of your policy have been betrayed. We specially refer to the tone of the resolutions passed by the General Synod of the Church of Ireland and widely disseminated by that body. To refuse the just demands of the Irish people is, in our judgment, to distrust the rocopiniciples which underlie all true democratic government, while the arguments on which that refusal is based showed a want of faith in human nature which we hold to be derogatory to the doctrine of the Innearation. We further protest against the spirit which arrogates to itself the exclusive favor of Almighty God, and which regards its political opponents as necessarily void of the virtue of patrictism and the essentials of good citizenship. We recognize only one bond which can hold society together, and that is a union based on the equal right and liberties of all classes. As for the threatened 'dishregation of the empire,' we believe that nothing is so well as in the propose of the vast majority. The point of the empire,' we believe that nothing is so well as the continuance of that ascendancy which is claimed for, and by a section of the inhabitants of Ireland, and through it we hope to see the law of Christ fulfilled in mittal burden-bearing and service. We confidently believe that, when united to Great Britain on equal conditions and fully condewed with her righting powers of self-government, Ireland will reader to the commonwealth not less, but more, of the weather the had completed his remarks.

Have You Neuralgia?

If you are suffering the agonies of neuralgia, and have failed to get a remedy that will afford relief, we want you to try Polson's Nerviline. No remedy in the market has given anything like the same degree of satisfaction. Its action on nerve pain is simply marvelous, and as it is put up in 25 cent bettles no great expense is involved in giving it a trial. Polson's Nerviline is the most pleasant, powerful, and certain pain remedy in the world. Sold by druggists and all dealers in medicines, 25 cents a bottle.

go down with my hag named to the masthead;
Mr. Jones (Dem., Ark.)—Several Senators on this side will never vote for unconditional repeal. We will stuy with you. (Laughter.)
The night session was a peculiar one.
Senator Allen (Populist, Nebraska) took the floor at 5:15 in the afternoon, and without any interruption except such as were purely incidental held the floor all night. He proved himself an able and an indefatigable talker. Clad in a dark suit, his collar being set off with a black tie, in the oppressive atmosphere of the Senate he did not weaken for an instant, but with great vigos elucidated his financial views.

Mr. Voorhees was entirely worn out, He would occasionally take a book in his hand, but his head would soon fall upon his chest, and his eyes would close in slumber. Other Senators who desired to refresh themselves with sleep retired to the lounges in the cloak room or committer rooms; but Mr. Voorhees, in the performance of his duty, was compelled to remain in the hall without rest.

Senator Allen concluded his speech on the stroke of 8 o'clock, having thus been on the floor for 16 hours and 34 minutes. When he finished his eyes were as clear, his voice was as strong, his gestures were as vigorous as whon he took the floor.

Mr. Allen's speech breaks all previous records and his powers of endurance were the admiration of those who opposed him. He read quotations from 29 volumes.

At 9 a.m. the attendance in the Senate had increased, but there was still no quorum.

The Wiarton News (Conservative), after two years and a half, has succumbed. Says the Wiarton Echo: The effect was the opposite of what was intended by the political wire-pullers who planned the affair. Dissension has been sown in the united Conservative party of the riding and they are now divided into sections, that will take years of the most careful and skillful management (if ever) to bring the party where it was three vears ago.

Why has Lactated Food proved such a grand success above all other makes? Simply because in its composition nature's food—breast milk—has been the model. Lactated Food is a triumph of medical science and cannot be improved in any way. The best physicians in Canada have taken hold of it with the utmost confidence. They know its healing, nourleiling and building qualities, and prescribe it feely.

TORONTO, Oct. 12.—A conference was heid this morning between President McKenzie of the street railway company, the mayor, President Wilkie, president of the Board of Trade and the executive of the Street Car Employes' Union, in reference to the recently discharged employe. The union demands that reasons be given for the discharge of the men and that a more satisfactory basis of relationship be established between the two bedies. After discussing the matter Mr. McKenzie distinctive fused to concede to the men's position and declared in so many words that he did not recognize the union. Some of the men propose a strike.

London, Friday Oct. 13.

-Those of our readers who are to give evidence before the Liquor Commission in this city to-day should be on time with facts and figures. Temperance people have little faith in the Commission, but that is no excuse for not having their views put on record and given as wide circulation as is possible.

-At Lindsay Controller Wallace told the farmers that agricultural machinery was as cheap in Canada as in the United States. A farmer then asked what use there was putting on a duty of 35 per cent. He is still waiting for an answer. Mr. Wallace changes the subject when he runs up against a snag.

-It is believed that the court proceedings in regard to the Manitoba School Act will take five and perhaps ten or fifteen years to complete. The Government at Ottawa would do anything rather than permit a speedy and decisive ending to the for us to cut off our imports with question, in which it would have to act on its own responsibility.

-Hooper, the Ottawa man recently taken to Quebec to answer to a charge of poisoning his wife, under the sensational circumstances already recorded, may be an innocent man. He has himself to blame if he is strongly suspected. He has told so many lies in the last week or two that even his best friends must begin to distrust him.

-At this late day the London Free Press is praising the cautiousness of Sir Leonard Tilley. The Canadian people cannot indorse its estimate. Sir Leonard Tilley did more than any other man to encourage the with should be collected no matter wha Manitoba boom and to bring about that era of land grabbing that cursed the Canof trade in the world as well as the adian Northwest for years, and brought ruin to many persons in other parts of

-Chicago reports say, the big fair management is out of debt. It is and it is not. All the extra money borrowed has been paid off, but the exhibition still owes the people of Chicago \$11,000,000, which never will be paid. The extra business brought in by the fair will make that debt easier to bear, to say nothing of the advertising which the city and its industries have received. The Chicago people seem to well pleased with the prospects.

-If the far East is not speedily modernized the blame will not rest on English capitalists and American contractors. They Ontario! are pushing their enterprise in every direction. The latest is the construction of the much-talked-of railway from Haifa, in Syria, to Damascus, the contract for which has been awarded to a Chicago firm, without portfolio. There have been many who expect to complete the road in surmises in the outer circles of the Coneighteen months. The project contemplates an ultimate extension of the road to India if Persian concessions can be obtained.

-The determination of the Administration leaders in the United States to force a vote on the question of whether or not the bill for the repeal of the free coinage of silver shall pass into law without amendment resulted in a resort to a continuous sitting until the measure is disposed of, it began Wednesday, and its great feature was the all-night speech of Senator Allen, a Populist member for Nebraska, who broke the record in speech-making in Congress by talking for 16 hours and 34 minutes. umbia Legislature by a member talking against time; if we are not mistaken, Bunster was his name. For this reason every barrier that we raise up against importing the products of other countries just makes it so much the more difficult for them to pay for what we have to sell, and supplies them with an inducement to look for other and and freer markets in which to buy than we possess. Suppose it were possible other countries entirely, how long would any nation continue to buy our products? The lower our taxes on imports, the greater will be the extent of our imports, nomatter how other countries may tax themselves. If other nations can be prevailed upon to emancipate their international trade, there would certainly be more profit for us, as well as for them, but it does not pay us to collect more revenue than is necessary for economically running the machine of Government merely because some other country exchanging products with us indulges in that absurd policy. In former days, on all such occasions, Mr. Carling was invariably appointed general manager for his party, and was chief nong all the western Conservatives in aranging for public gatherings. Now he seems to have been deposed in favor of Dr. Roome, who has been elevated to the position of Conservative leader in Western

Sir John Carling did not appear at one of the Conservative gatherings held in this neighborhood, though he still holds the position of member of the Government servative party as to the reason for superseding the ex-member for London by Dr. Roome, but no one has yet vouchsafed an explanation. Can it be that Sir John has repented of the step which his political friends prevailed upon him to take when se usurped the seat provided for him by fraud? Is his retirement antecedent to the giving up to Mr. Hyman, M.P., the seat in Parliament to which that gentleman was declared, by six superior court judges, fairly elected?

-The plebiscite idea extends. It is ikely that the residents of Hawaii, who have had no very settled form of government since they deposed their queen, wil be called upon by popular vote to settle Though this oration is a record-breaker in the United States, it is still far short of the speech once delivered in the British Colannex the islands, but desires to take no steps which will not have the sanction of the majority of the people. The popular Bunster was his name. He spoke for 24 vote is a much better agency with which to settle this great question than the old method of setting the people at one another in warring factions. Then the men who be elected to a seat in the Dominion House of Commons. A pitched battle with ballots, honestly recorded and counted, is fully as effective and is perfectly harmless.

QUARANTINE USELESS.

Both Canada and the United States have spent large sums on quarantine at their passed a bill to repeal the Federal respective seaboards, and have come to Election Laws. This measure prevents place great reliance on this agency as a Federal supervisors, marshals or deputy- means to keep out infectious and contagious diseases. It is rather discouraging, in the election for members, and provides therefore, to be told by so eminent ar authority as Dr. Ernest Hart, editor of the polls. Its effect is to give to the States British Medical Journal, that "quarantine absolute control of elections without Fed- has been everywhere ineffectual when put eral supervision. In Canada, under the system which Sir John Thompson says his Government means to maintain, the partisan judge can send to Parliament the minority candidate, and roba whole people of their just rights. All he has to do is to square himself with the Parliamentary majority.

No such system would be tolerated for a day in either Great Britain or the United States.

A FALLACY EXPOSED.
Putting down our tariff won't give Canadian producers the entrance to any other market.—(Toronto Empire.
The making of this statement implies ignorance of the first principles of international trade. All trade is barter. We pay for products with products. If we make it easy for our people to buy, does not that imply that we make it easier for them to sell? For this reason every barrior them to sell? For this reason every barrior to the most such a such as the product of the product of the product of the case of cholera be prevented. This is the paramount duty of every municipal government."

city first put the road in thorough repair.
The cost of this has been previously estimated at about \$125,000.

Engineer Brennan, of Toledo, bids \$15,000 a year for the lease, the road to be put in proper condition at the city's cost, said cost to be deducted from the rent until paid. The city calculated on this basis that there would be no revenue forthcoming for four or five years. As already published, the board do not deem Mr. Brennan's proflered security satisfactory.

The ofter of the G. T. R. is known. This company agreed to give the city 30 per cent. of the gross receipts if the latter would place the road in a thorough state at an expenditure of some \$127,000. It is understood the mayor and Ald. Goorecombly waited upon the local G. T. R. anthorities and informed them that the Grand Trunk would stand no show for the lease unless this ofter was improved, or

The Entomologists.

The proceedings at this morning's session of the Entomological Council were of a technical nature. Dr. Bethune read a paper on "Locusts in Hay." He presented Miss Omerod's views in regard to them. There had been quite a scare in England over the discovery that locusts were in the hay exported from this country. The essayist substantiated Miss Omerod's opn. Jion that these insects did no damage whatever. They were, he said, dead insects, and their eggs were not likely to survive. A paper prepared by A. H. Kilman, of Ridgeway, on "Additions to the List of Canadian Colloptera," was also read. Quite a number of species new to Canada had been discovered. A number of interesting specimens of insects were exhibited by the members. The meeting

Special Correspondence of the ADTERTISER.] [Special Correspondence of the ADTRISTIBE.]

The annual exhibition of Westminster Township Agricultural Society was held at Lambeth village on Thursday, and it was, all in all, the most successful ever held in the township. There was \$500 offered in prizes and the exhibits in nearly every department were excellent. The whole exhibition goes to indicate that the farmers of Westminster stand in the very front rank compared to any other portion of the county. The exhibition would be much more successful if it had suitable buildings and grounds. As it is the township half gives room to those exhibits that need shelter from exposure, while the rest were scattered in fields that could be conveniently obtained for that purpose.

There was an unusually large and good exhibit of roadsters and general purpose horses. The horse ring and the speeding track were crowded during the entire time. There was an absence of heavy horses, but the good steppers showed to capital advantage compared to any other township show which we have seen for The annual exhibition of Westminster

sented, both of the long and short wool varieties. Among the large exhibitors may be mentioned James Beattle, of Wilton Grove, who showed 7 superior Leicesters; John Laidlaw, of Wilton Grove, 9 capital John Laidlaw, of Wilton Grove, 9 capital Leicestors, and Hardy Shore, of Glanworth, 11 large Cotswolds. Mr. Shore took sixteen prizes on his sheep at the late London exhibit, and ten at Lambeth. R. W. Stevens, of Lambeth, had seven very fine Lincolns. During this season he has imported eight of this class from England, one of which was a prize-winner in the old land before he left this year. W. E. Wright, of Glanworth, had a capital show of twelve excellent Shopshires. He was the only exhibitor in that class.

PIGS AND POULTRY.
Among the pigs exhibited were some of
the finest we have anywhere seen this year. David Nichols, of Glandale, took the first on Berkshire boars, a fine animal weighing, he estimated, about 500 pounds. Joseph Baher, of Lambeth, showed an enormous Torkshire boar estimated to weigh about 00. Frank Newell, Lambeth, had a very (700. Frank Newell, Lambeth, had a very superior Poland China pig of 5 months which would do credit in size for a year-ling. There were a number of other fine animals in this class.

The show of poultry in all its departments was remarkably good.

GRAIN AND VEGETABLES.
In both these departments the show was
exceedingly creditable. Outside the Toronto and London shows we have not seen

evidence of both a good soil and excellent

LADIES' FINE WORK.

At nearly every one, even of our township fairs, there are capital indications of the education, taste and skill of the ladies of the locality. Lambeth was no exception in this respect. There were a lot of really splendid exhibits of handicraft, of fine needlework, embroidery, fancy knitting, crayons, oil paintings and the like. We only have space to mention a few of the many prize winners in this class: Embroidery, Mrs. Sutton and Mrs. Odeli collection of fine laces, Miss P. Smith, Lambeth; hand fancy painting, Miss Campbell, London, and Miss Howard, Lambeth.

Everything passed off successfully and smoothly, indicating good management throughout. One experienced exhibitor, remarked to your correspondent that "our shows are growing larger and better every spear," and one director told me that none had been in all respects as successful as the present in the whole experience of the society.

What is

Castoria is Dr. Samuel Pitcher's prescription for Infants and Children. It contains neither Opium, Morphine nor other Narcotic substance. It is a harmless substitute for Paregoric, Drops, Soothing Syrups, and Castor Oil. It is Pleasant. Its guarantee is thirty years' use by Millions of Mothers. Castoria destroys Worms and allays feverishness. Castoria prevents vomiting Sour Curd, cures Diarrhœa and Wind Colic. Castoria relieves teething troubles, cures constipation and flatulency. Castoria assimilates the food, regulates the stomach and bowels, giving healthy and natural sleep. Case toria is the Children's Panacea-the Mother's Friend.

Castoria.

"Castoria is an excellent medicine for chil-dren. Mothers have repeatedly told me of its good effect upon their children." DR. G. C. Ossoon, Lowell, Mass.

⁶⁴ Castoria is the best remedy for children of which I am acquainted. I hope the day is not far distant when mothers will consider the real interest of their children, and use Castoria in-

stead of the various quack nostrums which are destroying their loved ones, by forcing opium, morphine, soothing syrup and other hurtful agents down their throats, thereby sending them to premature graves." Dr. J. F. KINCHELDE.

"Castoria is so well adapted to children that I recommend it as superior to any prescription known to me."

Castoria.

"Our physicians in the children's department have spoken highly of their experi-ence in their outside practice with Castoria, and although we only have among our medical supplies what is known as regular products, yet we are free to confess that the merits of Castoria has wen us to look with

A Quarter Century's Work.

The characteristic feature of the annual hank-offering meeting held yesterday fternoon in connection with the Woman's oreign Missionary Society of the Park Avenue Presbyterian Church was a paper on the evangelistic work done in Trinidad during the past 25 years. This was read by Miss Kennedy. Her treatment of the subject showed deep research and compreheusive knowledge. Gospol-spreading enterprises in the island have been exceedingly successful. One evidence of the progress made is seen in the fact that while a quarter of a century since there was only one school ostablished, attended by four children, there were at present in operation 54 educational institutions patronized by thousands of scholars. Mrs. Albert E. Cooper, of St. Andrew'e choir, and Miss Bessle Evans gave well-appreciated vocal Avenue Presbyterian Church was a pape Bessle Evans gave well-appreciated vocal selections.
