Official Announcement Made That Bessemer Carferry Will Leave Port Stanley and Convey Cargoes To Rondeau Before Month Is Over. Coal Being Routed To Chatham.

BACKBONE OF BUSINESS ON THE CITY LINE

Few Months' Passenger Business At 30 Cents and Freight To Westminster, Glanworth, St. Thomas, White's and Port Stanley All That Is Left.

According to an official statement given out this morning the Grand Trunk Stallway coal, which has amounted to at least 75 per cent of the total freight business of the London and Port Stanley Railway, will not be handled over that line when it becomes electrified,

The statement was made at the time of the electrification campaign that the Grand Trunk would not permit its supply coal, which has formed the backbon of the business of the city line, to be handled over the London and Port Stanley Line. In spite of the definite assurance given by railway men to Sir Adam Beck and his followers, it was denied to the ratepayers of London that the line would

ANOTHER CHICKEN HOME TO ROOST.

The loss of the Grand Trunk coal business, which will be routed to Rondeau by car ferry, and landed at the slipdock now in course of construction, the Bessemer discontinuing her customary trips to Port Stanley, constitutes anothe "chicken coming home to roost" in the greatest "white elephant" scheme that was ever foisted upon a confiding electorate in the name of progress. Michigan Central has again announced, this time in St. Thomas, that it will no use the line after the end of June, and that shippers in London will not be able to send their goods over the London and Port Stanley Railway, but must make Strong Feeling in Favor of Opening Straits and Negotiating:

CAR FERRY CHANGED TO RONDEAU.

The official announcement of the Grand Trunk concerning its coal trade was given out this morning by Mr. A. S. Munro, commercial agent of the Grand Trunk in this city, in the form of a letter from Mr. R. W. Long, division freight agent, with headquarters at Hamilton. The following is a copy of the letter:

Mr. A. S. Munro, Commercial Agent, London.

HANDLING OF COMPANY'S COAL

In our discussion when I was in London last week you advised me inquiry had been made with respect to future routing of Grand Trunk supply coal, which has previously been handled via Port Stanley and Longon for distribution to our various terminals.

I have since had an opportunity of discussing this matter with our vice-president, who advises he has been informed that the operation of the car ferry, heretofore calling at Port Stanley, will, in the near future, be transferred to Rondeau, and that this change in operation will necessistate a corresponding change in the routing of our supply coal. UPON sitate a corresponding change in the routing of our supply coal. UPON THE INAUGURATION OF CAR FERRY SERVICE VIA RONDEAU, OUR SUPPLY COAL WILL, THEREFORE, NECESSARILY BE DIS-TRIBUTED AT SOME POINT OTHER THAN LONDON, AND CANNOT BE HANDLED OVER THE LONDON AND PORT STANLEY RAIL-

When conveying the above information to the parties making the inquiry please have it understood that we do not wish to become involved in any controversy which may exist in London. There is, however, no objection to your stating that it is our understanding that the changes being made in the operation of the car ferry, and which necessitates a corresponding change in the routing of our supply coal, is CONSIDERED DESIRABLE IN ORDER THAT A DEPENDABLE ROUTE for the handling of this heavy and important traffic may be assured.

JAGOW STILL HARPS ON NEED OF "FACTS" TO SETTLE DISPUTE ACTIVE ON THE FRONTIER

In Interview Given United Press by German Foreign Secretary He Says His Country Is Fighting for "Freedom of the Seas."

[Special to The Press by Carl W. Ackerman.] Berlin, via The Hague, June 1 .- "America ought to be reasonable enough to grant Germany time, and the right to discuss the facts of the I usitania attack."

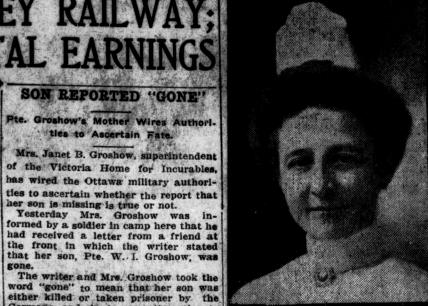

Herr Gottlieb Von Jagow, German foreign secretary, who drafted the German reply to the American note, so declared in an interview with the United Press today. He expressed the sincere hope that further discussion of the Lusitania incident will bring the United States and Germany to a complete understanding as to the facts in dispute, and that an agreement will be fairly and equally determined. SAME BASIS NEEDED.

"America can hardly expect us to give up any means at our disposal to fight our enemy," said Secretary Von Jagow. "It is a principle with us to defend ourselves in every possible way. I am sure that Americans will be reasonable enough to believe that our two countries cannot discuss the Lusitania matter until both have the same basis of facts." FOR "FREEDOM."

"Germany is fighting for the freedom of the seas," he said. "It is far from Germany's intention to interfere with neutral rights, or to become the autocrat of the oceans."

Britain always claimed to be the dictator of high seas," he said, 'Until our recent marine activities, her rule was never challenged. We are fighting for the freedom of the seas, to make Britain give up her hold, because so long as one country control the oceans they are not free. Every nation must have a right on the seas.'

Washington, June 1.—Facing sweeping changes in the nation's Mexican policy and Germany's unsatisfactory rejoinder to President Wilson's submarine warfare protest note, today's cabinet meeting was expected to be one of the most important in two decades.

It was certain before the members gathered for consultation that the first step to force the creation of a stable Mexican government would be taken. While President Wilson was under-

stood to have prepared in rough outline the note to Germany, it will be withheld and its contents closely guarded, until after tomorrow's conference between the President and Count Bernstorff, the German ambassador.

The conference was asked for by the ambassador. At the embassy it was stated he hoped to be able to discuss with the President Germany's latest note to the United States, and find ou Secret Messages.

One of the rumors most frequently heard was that Germany had sent word to her ambassador to explain that she was willing to make material concessions to the United States, but that it had been necessary to make the first note evasive and unsatisfactory to prevent antagonizing the military element. It is admitted by those in a position to know that yesterday's note is in every respect at variance with the recommendations made by Ambassa dors Von Bernstorff and Dumba to their ome governments. It is difficult to estimate the number of men included in these classes, as the Italians unlike most other foreigners. are not obliged to register at their con sulates upon arrival in Canada. However, there are probably between 15,000 and 20,000 men in Canada today, who will leave.

According to Ralph Benenati, to-bacconist at 197 Dundas street, practically all Italian reservists of the first class who resided in London and the surrounding district left last fall for Italy when that country was preparing to enter the conflict. There are only a few reservists of the second class here, he stated, the majority of the Italians in this city having left their meland before they were old enough to enter the army.

NORTH AND WEST OXFORD SUNDAY SCHOOLS' ANNUAL

[Special to The Advertiser.] INGERSOLL, May 31. - The fourth annual convention of the Ingersoll, North and West Oxford Sunday School Association was opened in St. Paul's Presbyterian Church at 2 o'clock this afternoon, with a fairly representative attendance of delegates. Reports of an incouraging nature were presented officers of the various departments. A splendid feature was a strong address vincial representative. A solo by Miss J. Hagan was appreciated, and an experience meeting of superintendents, conducted by C. E. Rogers, also proved interesting and helpful. At 5 o'clock adjournment was made and lunch par-

taken of at the church. taken of at the church.

At the evening session devotional exercises were conducted by Rev. L. W. Hill, and the address of welcome was given by Rev. Ronald MacLeod. Addresses were also given by Rev. Mr. Lucas, of Toronto, and Rev. R. J. M. Perkins, Ingersoll. Several musical numbers were contributed.

WEDNESDAY HALF-HOLIDAY SALES BEGIN TOMORROW

A Day's Business in the Forenoon

Our summer early-closing schedule begins tomorrow, closing at 1 o'clock on Wednesdays during the months of June, July and August. Customers will benefit by these half-holidays as well as the salespeople, for although this store will be open until 1 o'clock, the shopping inducements will be made sufficiently tempting to bring a full day's business in the forenoon. For the first halfholiday sale a great list of big money-saving specials has been prepared; so much will be crowded into the forenoon that space will permit only of a brief listing of the many lines, which will be found below. Many have not forgotten the half-holiday sales of a year ago, which have been completely outdone by the great list for tomorrow. On sale from 8:30 to 1 p.m. Come early. No phone orders for Wednesday morning sale goods. Please don't ask.

STORE CLOSES WEDNESDAY AT 1 O'CLOCK.

New Manager Takes Over His Own and Mr. Glaubitz's Portion At \$2,800 a Year.

FORMERLY COST \$6,500

Incumbent Was So Long Kept in Office.

In view of the fact that E. V. Buchan an, new general manager of the public utilities commission, who took over his new duties officially this morning, is getting just half the salary paid his predecessor, H. J. Glaubitz, it is significant to note that no successor has been or will be appointed to Mr. Buchanan as electrical engineer. In other words, it might be pointed out that General Manager Buchanan at a salary of \$2,500 per year, is prepared to do what General Manager Glaubitz got \$5,000 per year for, while Electrical Engineer Buchanan got another \$1,800, or a total of \$6,800 in salaries as contrasted with

What's the Answer? Since these facts have come to light the inevitable question has been asked:

'What's the answer?" Apparently the answer is that the publie utilities commission has been paying out \$4,300 a year for the privilege of having H. J. Glaubitz as its general Certain members of the public utili-

ties board have been freely criticising the council's attitude in what they please to call "extravagance" in securing outside engineering advice on civic questions. The aldermen have denied this charge, and are now prepared to put their finger on this neat little sum of \$4,300 for surplus engineering and managerial work that the commission has been paying and ask "What's the

Why Was Office Retained? For the defence of the commission, the plea will doubtless be entered that the electrical department has practically completed all its installation work, and hat such a "luxury" as an electrical engineer is no longer a necessity, and that the office could well be abolished. If that is to be the alibi, then the question will undoubtedly be asked why the office wasn't abolished when the commission was paying \$5,000 a year for

expert advice? From December 26 until February 10 the newly-appointed general manage ran the three departments under the control of the utilities commission. It Glaubitz was on the "retired list." However, the acting general manager man aged to do his own work successfully as well as that of his chief, so this illustration only lends color to the somewhat pertinent query as to what Glaubitz did for his \$5,000, and what the

The withdrawal of the Grand Trunk coal business is the most serious blow of the increasingly numerous setbacks the new line has had. A large sum of money will no doubt be required for terminals and the right-of-way to Richmond street granted by the railway commission to the L. and P. S. R. It has been estimated that at least \$100,000 will be secured by the Grand Trunk if the matter goes to arbitration, as the old Southam building was regarded as the matter goes to arbitration, as the old Southam building was regarded as the most valuable piece of property which the railway secured when it purchased land for improvements.

ANOTHER HALF MILLION REQUIRED. Before adequate equipment to handle crowds, shops and terminals have been secured it is estimated that the citizens of London would, if they could be persuaded to do so, have to spend in the neighborhood of another half million

The Grand Trunk coal business will be handled from Rondeau, via Pere Marquette, to Chatham, and will be routed to the various destinations. The supply coal will be shipped to points in this division, and Grand Trunk officials stated today that the cost of handling would be no greater from Chatham than from London. The commercial coal handled from Chatham will give the Grand Trunk a somewhat longer haul than it has at present, and its proportion of the Question Asked Is Why Late rate from the starting point will be larger.

[Canadian Press.] London, June 1 .- "The German note morning, is a document of great importance in the evolution of sea law, and it raises questions, the substance of which concerns us all," says the Westminster Gazette in an editorial article this morning. looking for 30,000 machinists for British Continuing, the newspaper makes the

point that previous to this war it was an unquestioned principle that a belligerent who seized an enemy mer-chantman was responsible for the safety of non-combatants, whether passengers or crew. In an extreme case, where for his own safety the belligerent sank the vessel, he was under the obligation to provide for the passengers and crew. "In the early stages of the war," the Westminster Gazette goes or to say, "we saw this obligation ably acknowledged by the captain of the Emden and other German cruisers." Not Question of Fact. "The American note stands for this

principle. The German reply argues that danger from a suspicious craft is quickly that her crew and passengers are unable to escape. Originally Germany said that all neutrais entering the war zone would be liable to destruction; now she says she has no intention of attacking neu-trals who are not guilty of hostile acts. WESTERN ONTARIO TO BE ASKED TO RAISE FURTHER BATTALIONS

Its Ready Response To Country's Call May Mean Enlistment of Further Units Throughout District.

Western Ontario's ready response to in London, and there is also equal be-the country's call for men may mean that the western section of the province will be raised here. Both artillery and that the western section of the province will be called on to raise more men and units for overseas service. No. 1 military district, which has its head-quarters here, has met every call so far. It has, Indeed, more than met them. It has, Indeed, more than met them. The fact that, despite special drafts, the two infantry battalions here are again practically up to strength, is taken as an indication of the patriotic spirit throughout the district.

Of course orders for the mobilization will be raised here. Both artillery and cavalry are popular branches of the service, and it almost seems easier to recruit them than infantry battalions. This and the fact that there are many converted that there are many on the district who would seem easier.

The response of Western Ontario to date has strengthened this belief, and

But I see with sorrow that you cannot remain here; let us hope that God, who has protected you amid so many battles will save you once more.'

Therefore, on Feb. 26, 1815, Napoleon sailed from Elba and on March 1 landed at Cannes, France, with 500 grenadiers of the guard, 200 dragoons and 100 Polish lancers. On the next day he reach ed Grasse and was greeted with wild acclaim. At Mure a battalion of French troops, hastily sent out to arrest his march, was met.

Bonaparte rode up, dismounted, and with a company of guards carrying reversed muskets, advanced on foot toward the ranks of the king's soldiers. There was perfect silence.

Then Napoleon, baring his chest,

"If there be among you a soldier who desires to kill his general—his—emper-or—let him do it now. Here I am!" The ranks broke and the old cry of "Vive l'Emperor" arose from every lip. The veterans surrounded Bonaparte and kissed his hands and called him

ITALIAN FRONTIER, via Paris, May 31.—The Italian invasion of the province of Trent is progressing from the south along the Adige and Chiese rivers, from the west across the Tonale Pass and from the east by way of the Lavaronne plateau. The attack of the Italians is continuing all along the zig-zag frontier up to the highest part REV. FR. R. HUBERT DIGNAN, OF north, where they have occupied the Ampezzo valley, together with the town of Cortina. Cortina is a well-known summer resort where the ambassadors accredited to Italy were accustomed to spend several months during the hot season, it being available to a quick re-

Cortina is the junction of several railroads, the most important being that from Pieve di Cadore, which leads to Toblach along the Drava valley.

Especially interesting is the occupation by the Italians of the heights in southern Trentino, where the Chiese valley joins the Ampolia valley, which overlook the village of Storo. It was to this point that the Italian volunteers in the war of 1848 penetrated, and also where Garibaldi in 1866 established his headquarters, radiating his action thence in the Giudicara region. Thus it will be seen that the Italians have conquered the group of fortifications commanding the passes leading to the vast entrenched camp, which has its centre

Wonderful Defence System These fortifications, some of which are modern and perfectly armed, but others less formidable, constitute a won derful system of defence. They are ren. REV. FR. F. McCARTY, OF KINCORA dered almost impregnable by the mountainous nature of the country. The oc-cupation of Cortina threatens the Ausrian fortfications at Landro, which protect the important railway from Bozen to Klagenfurt.

The difficult task of the Italians, it

is believed, will be the attack on Rovereto, directly to the south of Trent. It is defended by several lines of forti-fications, which begin at Mori, on both sides of the Adige River, and run along the mountains, which are about 6,300 feet high. Thus Rovereto is in the in-side of a kind of amphitheatre and mounts heavy artillery, especially on

The last range of entrenchments near Rovereto are dug into the rocks. If the Italians intend to attack Rovereto from Schio, which lies on the border some thirty miles to the southeast, they will find on the high plateau of Fugazzi the armed with large mortars. If they should enter by the Arsa Valley they will find interminable lines of entrenchments. CAPTURE VAL DAGNA.

GENEVA, via Paris, May 31.—Italian troops have occupied Val Dagna, according to a dispatch to the Tribune from Laibach. The troops now opposed to the Italians number, it is estimated, 650,000 with 70 batteries. Austro-Ger-man losses on the Italian front to date are said to have been about 1,800 killed, 3,000 wounded, and 1,000 prisoners. GERMANY TO RESCUE.

German Socialists Open War On Greed of the Imperialists

LONDON, June 1 .- 2:52 a.m. - The Morning Post's Berne correspondent says that a long manifesto of the German Socialist Party is being circulated widely among the German working classes.

According to the correspondent, it accuses Austria of having caused the war, complains of the ignorance in which the German and Austrian people are kept, and denounces the German war party, imperialism and secret diplomacy as the arch enemies of the German people. It is asserted in the manifesto, the correspondent adds, that in March peace was possible, but "the greed of the imperialists refused it."

Whatever is necessary for the success of the army comes first: mational honor, solemn treaties, consideration of humanity, all these are of minor importance

What will the President of the United States and his Cabinet do about it? That, of course, we cannot tell. If we are to judge from the comments of the American press so far as received, Germany's reply will not be considered satisfactory. There must be, they say, no quibbling; no evasion. The American note was positive; the answer must be positive. Yes, or no and that without delay. There is little doubt that if a positive answer is given, it will be "no." The nation that defies all its powerful military neighbors will scarcely submit to the demands of the United States. The Germans plunging across Poland and Galicia by the hundreds of thousands is a striking and fear-inspiring spectacle, but we forget that the Kaiser's picked legions, at their greatest strength, and going at top speed, were halted and turned back before they had made any serious invasion of France or Russia. As to France, they will never be able to penetrate further lowards Paris, while the rapidly aclating strength of the Allies will in time drive them farther north.

And all this time the economic sitution is fighting for the Allies. With

siness abroad. Germany can sell nor buy, and this drain her to her knees. Finally, Italy is lined up with the Allies, putting at least two llions of perfectly prepared men the field with Roumania. Bulgaria and possibly Greece, almos pertain to fall into line. The war may last another year, perhaps two, but there is no question as to the outcome. The Allies will win.

Voice of the People

A Tribute to Mr. Heakes.

To the Editor of The Advertiser: The severe battles during the month of May have caused great anxiety to those who had relatives or friends at the front. It will, therefore, be a matter of rejoicing to the numerous friends of the Rev. S. R. Heakes to hear that he is uninjured and has been promoted to the rank of captain.

I quote from a letter written in France by an officer of the 16th Battalion, dated May 10, which reached me on

injured after our very trying experi-ences at the battle of Ypres and after. Owing to the energy and devotion with which he worked on that occasion, was put on the sick list for a time, and has only just returned to duty. there are so many things awaiting his attention, he hopes you will forgive this formal acknowledgment of your very

kind letter of inquiry.
"It may be of interest to you to know that recently Mr. Heakes was gazetted to a captaincy in the Imperial army. Owing to the fact that he has endeared himself to his men and made himself ensable to the 16th Battalion, he has been offered similar rank in the Canadian army."

To those who really knew Mr. Heakes' sterling qualities and his unbounded spirit of self-sacrifice for the welfare of others, the above news comes as no surprise, and one can only add "God bless him, and quote on his behalf the words of Psalm 128, 7: Thou shalt stretch forth Thy hand upon the furi-

THE PLACE OF VICTORY.
[London Chronicle.]

We have access to the Continent; we can send thither our men and our munitions to beat back the German dragon and kill it in its lair; and to that supreme task every energy in the workshop, on the drill-ground, on the aero-drome must be directed. Our navy is our buckler; we must keep it strong, and yet stronger, for the great purpose which it has fulfilled and will fulfill with so much silent efficiency and sleepless devotion. But we must never leave out of sight the fact that for victory we must attack as well as defend, and that only on German soil can Germany be finally vanquished.

tion, the slaughter and starvation of civilians, the utter disregard for the plighted word and the conventions sanctified by the slowly ripening humanity of centuries, it cannot be disputed that this war is the most brutal and ferocious since the Dark Ages. It is also the first war in which whole nations have taken the field, and the first war in which the belligerent nations have a long tradition not only of learning and art, but of, at any rate, lip loyalty to humanity. This combination of primewal savagery with modern cant and modern science gives the present war a singularity of horror which is lacking even to the campaigns of Chengiz Khan.

GERMANY AND THE NEUTRALS.

[Westminster Gazette.] By their proceedings of the last few wounded soldiers who are well enough to be out of doors and enjoy the blue sky and the sunshine. We look at them of the neutral countries, that no tolerable life is to be secured for any of sky and the sunshine. We look at them always with the profoundest sympathy and admiration, and rather wistfully, too, sometimes—with a little pang of envy that we hope may be forgiven us. We nearly all of us know, out of our own inglorious experience, how delightful it is to recover even after an illness to which no credit is attached. When we add to that a feeling which we can only imagine, the consequences of a only imagine, the consequences of a splendid duty well done, we cannot but believe that the soldier cheerfully limp. ning and cruelty were established as be only a pause for digestion between the finish of one meal and the beginning of the next on the part of the

Brother at the Front.

Dear Miss Grey.—I enjoy reading the Woman's Page very much. I thought I would write and ask you if you could kindly tell me how I could find out if my brother joined the volunteers in Vancouver, as we haven't heard from him for nearly two years.

I am sending a recipe for cleaning gilt frames, if the gilt is still on. Boil a good-sized onion in a half pint of water until soft, strain and dip a brush in and paint lightly over the gilt. Here are two old English songs, sung at the time of the South African war. Hoping I haven't taken up too much of your time. I remain, A NUISANCE.

I may add that I have seen some very courteous country boys. Thanking you in advance, I remain.

Rans.—I. Here is one way to make a "tried and true" formula, I should be very glad to receive a copy. Between layers two inches deep of rose petals, gathered when perfectly dry, sprinkle on a broad platter and mix and toss until they are all loosened. Then incorporate thoroughly with the formula given below, pack in a clean jar, cover lightly and set away to ripen. In tw

Dear Miss Grey,—If you feel that your fiance cannot afford to give you a diamond engagement ring, what is the next most appropriate ring to ask for if you are given the liberty of choosing? your queries have been delayed so long on both occasions. Perhaps its not too Ans.—I always hesitate to give any hints for the removal of stains, for an agent that is successful with some colors and materials does not work well in other cases. For most woolen goods a mixture of 1 ounce glycerine, 9 ounces water and ¼ ounce aqua ammonia is an excellent solution for sponging coffee stains. Apply repeatedly, press between cloths, steam a little, and the coffee stain should not show. The trouble is that the water is apt to leave a "ring-around." Sometimes to rub chalk or starch into the goods around the stain prevents this.

On both occasions. Perhaps its not too late yet to give what help I can.

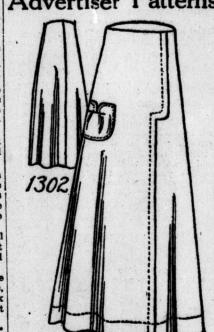

1. Some of the cotton corduroy materials would make a nice little coat for the wee girl; they are washable, don't shrink (or at least very little), and launder nicely. White serge or cashmere, is always lovely for a baby's coat, and the latter fabric especially looks very well when washed.

SEVEN RUNS IN THE NINTH WASN'T ENOUGH TO WIN

London Rallied Strongly, But Fell Four Short of Beating Ottawa in Heavy Hitting Contest - Frankie Fuller Again Stars for Senat ors-Morgan Hit Hard

OTTAWA, May 31.—Ottawa beat London in the second game of the series today, 14 to 10. For four and a half innings the contest was a ball game. It: Ottawa's fifth the champions gave Morgan, a righthand youngster, the worst lambasting ever seen at Lansdowne Park. Twelve men came to bat in this round and from his offerings three singles, a double, two triples and a home run accounted for seven earned runs. Not stopping at this, the champions gathered three more in the sixth, one in the seventh and two in the eighth.

Tom Robert, who was on the rubber for Shaughnessy's men, was not very brilliant, but twirled effectively right through to London's ninth, Robbie had figured considerably in the slaughter of Morgan, twice circling the bases, and as a result he lost his effectiveness at the finish. The Cockneys leaped on him with avidity in their half of the final session and cut a ten-run lead down to three, seven runs crossing the rubber before the side was retired. Errors by Smykal, coupled with a pair of bingles, gave London a two-run start in the second. Ottawa got one back in their half, and from that time till the slugging started in the fifth the game was exciting. Morgan threw nothing but hooks, and even when the champs got after him kept it up. Reisling took pity on him in the eighth, finishing the game himself. Kubat also relieved Roberts in the ninth.

and solid hitting accounted for the spurt.

A Record For Hits.

It has been some time since so much free hitting has been seen in a Canadian League game in the capital. Indeed yesterday's encounter almost sets a record. Thirty-four safe smashes were recorded. Reisling's bunch accounting for eighteen, seven being obtained in the last round. The Senators, however hit harder, their total bases numbering 27 for the day. Frankfe Fuller was again to the front with a slashing home run in the fifth, with one on. The ball looked ordinarily good enough for three bases, and was relayed to the infield before the speed boy rounded third. He never stopped however and beat the throw to the plate from an even start. Hoch contributed four safe ones and scored three runs for his side.

Tharra Breaks In.

Tharra, a catcher from Allentown, Pa., reported to Reisling in the morning and was sent in to backstop. The locals doped him out pretty well and ran wild on him late in the game. Pitcher "Lefty" Dillinger, from the Cleveland American Association club, reported to London this morning and was on the bench.

NEW YORK, May 31.—Soldier Bartfield, of the United States army, surprised fight fans during a series of outdoor fights at Ebbets Field today, when he held Mike Gibbons, the St. Paul middleweight, to even terms in a ten-round bout. Gibbons welghed 155 pounds and Bartfield 148. Gibbons exhibited his usual cleverness, but he was never able to solve the soldier's defibions at his own game. It was an interesting bout all the way and at the end honors were equally divided. Battling Levinsky, a local heavy-weight, out-boxed and out-fought Dan (Porky) Flynn, of Boston, in every session of their ten-round bout. Levinsky weighed 179 pounds and Flynn 198.

Johnny Dundee, of this city, who is an aspirant to the lightweight title, knocked out Johnny Drummie in the second round of another bout. Dundee weighed 133 and Drummie 128 1-2. yards handicap; 2, R. James, Perryman, Hamilton and Ag-new, Severoid. AT OPENING AT MONTREAL Jim Coffey Made Jim Flynn Quit

NEW YORK, May 31.—Jim Coffey, the Dublin giant, stopped Jim Flynn, the Pueblo fireman in the ninth round of their ten-round bout in the open at the Brighton Beach race track tonight. Their man badly beaten and bleeding from the nose and mouth, but still on his feet, Flynn's seconds threw the sponge into the ring in the middle of the ninth round. From the seventh round Flynn had been fighting gamely with one hand, his left hanging limply. Coffey outboxed Flynn in every round. He used a left jab with great effectiveness, and had Flynn bleeding freely in

ness, and had Flynn bleeding freely in the third round. A volley of rights to the jaw almost knocked Flynn out in the In the early rounds Flynn directed his attack at Coffey's body. In the seventh it was first noticed that Flynn was not using his left hand. He continued efforts with the right, rushing and swinging wildly for a chance blow. In the eighth Coffey rained blows upon the

helpless fireman. Flynn was saved from

[Special to The Advertiser.] ST. MARYS, May 31.-It's mere introductory work at the London Methodist Conference in St. Marys today. Just those ministers having to do with the stationing committee and the statistical committee arrived in the pretty little town in the hollow today, and their work consisted in preliminaries rather than nose to the ground grinding. The president, Rev. George N. Hazen, got in shortly after noon and with him were some dozen or so others. The members of the two main committees met at 2 o'clock. The stationing

committee discussed preliminaries in the Young Men's Hall of the Methodist Church, of which Rev. F. E. Malott, B.A., B.D., is pastor, and the statistical committee did their work in the east vestry of the same church. Tuesday the district journal secretaries will confer and the financial sec-

retaries will meet the conference treas-urers. In the evening addresses will be delivered by Rev. A. E. Lloyd and George Stanley, Esq.
In all about 300 representatives from In all about 300 representatives from dination class. Addresses by Rev. J. various parts in Western Ontario will E. Holmes and Rev. T. Wesley Cosens,

WEDNESDAY AND THURSDAY TWELFTH INSTALLMENT OF THE GREAT SERIAL

"RUNAWAY JUNE"

In this episode a tragedy takes place in which June plays an important part. Durham, an artist, wishes his model to give the appearance of being insulted. He insults her, but she fails to understand his meaning and runs away. He pursues and she in desperation leaps from a high embankment into the water and perishes. Durham tries insulting June as a model and in the struggle that takes place Durham steps into quicksand and is swallowed

to the United States note of protest regarding the sinking of the Lusitania. All papers agree in characterizing the answer as another German Von Bethmann-Hollweg is endeavoring o open a controversy to gain time. The Matin says the imperial chancellor invites the United States to abandon neutrality by exerting pressure on Great Britain to induce the latter country to give up her blockade, "that is to say, abandon her naval supremacy," in consideration of which the German admiralty would "cease assassinating the passengers and crews of unarmed ships."

The Journal believes Germany, notwithstanding the calm moderation of President Wilson and Secretary of State Bryan, who have resolved not to be forced into anything precipitate, will end by exasperating America. The paper declares the President and his Secretary of State are democratic leaders of a democratic nation, who must follow rather than lead public opinion.

GOOD COTTON PROSPECTS. Washington, June 1.—The newlyplanted cotton crop of the United
States showed a condition of 80 per
cent of a normal on May 25, the Department of Agriculture announced today in its first condition report of the
season, which had been awaited with
interest. That condition compares with
74.3 per cent on May 25 last year, and
79.5 per cent the average for the past
ten years on May 25.

Until the official report of the Government estimating the area planted
is issued on July 1, no calcuation will
be made by the department's crop experts as to the probable size of the
crop.

ernment was reflected in a number of sharp recessions on the resumption of operations today. Losses ran from 1 to 3 points, war specialties naturally scoring greatest declines, but standard railways fell 1 to 1½ points. All the trading was in moderate amounts, with no indication of urgent liquidation. There were fractional railies after the first decline, but these were succeeded by another setback, after which trading became dull by another setback, after which trading became dull Noon.—Trading in the second hour of the market came to a complete standstill. Some of the war shares, like Westinghouse and Crucible Steel, recovered half of their early losse, but the movement as a whole was entirely without significance, except in the case of Missouri Pacific, which steadied further in anticipation of the success of the extension plan. So indifferent was the list to routine news that New Haven, on a single sale, failed to show any change from last week's final quotation, despite action adverse to the company by the Governor of Massachusetts. Bonds were steady.

[Canadian Press.]

Liverpool, June 1.—The Pacific Steam Navigation liner Orissa, which has arrived in Liverpool from Valaraiso with several hundred passengers on board, introduced an innovation during the trip. This consisted of frequent submarine drills, in which all persons on board were summoned, without having been given previous warming, to put on lifebelts and take their places in the boats. Thus all the members of the crew and the passengers knew exactly where to go and what to do in case of danger. Many of the passengers praised the innovation.

Indicate the European belligerents who had infringed the neutrality of Chile.

The note emphasized the fact that Chile now was enjoying complete peace, internal and external, and declared that the new policy inaugurated recently by the Argentine, Brazilian and Chilean Government insured a durable peace.

On account of the European war, the Foreign Minister reported, customs duties had fallen of 80,000,000 france (\$16,000,000), but that the expenses of the state had been reduced by 238,000,000 france \$47,600,000).

USE COCOANUT OIL FOR WASHING HAIR

Kidneys.

If you want to keep your hair in good condition, the less soap you use the better.

Most soaps and prepared shampoos contain too much alkali. This dries the scalp, makes the hair brittle, and is very harmful. Just plain muisified cocoanut oil (which is pure and entirely greaseless), is much better than soap or anything else you can use for shampooing, as this can't possibly injure the hair.

Simply moisten your hair with water and rub it in. One or two teaspoonfuls will make an abundance of rich, creamy lather, and cleanses the hair and scalp thoroughly. The lather rinses out easily, and removes every particle of dust, dirt, dandruff and excessive oil. The hair dries quickly and evenly, and it leaves it fine and silky, bright, fluffy and easy to

You can get mulsified cocoanut oil at most any drug store. It is very cheap, and a few ounces is enough to last everyone in the fam-ily for months.
