

McCREA BILL STRONGLY OPPOSED

ONTARIO GOVT. ESTIMATES EXCEED \$36,000,000

UNITED STATES IS FIRM IN STAND THAT GERMANY MUST PAY TO LIMIT OF RESOURCES

Reply to Berlin Note Asking American Government To Act As Mediator Is Sent Forward Within Few Hours After the Receipt of German Message—French Press Is Disappointed Because Harding's Reply Was Not Absolute Refusal.

Washington, April 22.—The promptness with which President Harding declined to undertake the role of mediator and umpire in regard to German reparations occasioned little surprise in Washington and was received with satisfaction by the Allied diplomats. The German note asking him to adopt the role was taken to the White House late yesterday by Secretary Hughes, and the reply went forward a short time afterwards.

The United States is determined that the Germans shall pay to the limit of their ability. This position has been repeatedly stated by officials of the Harding administration and was made perfectly clear in the United States reply to Germany's first memorandum to Washington on reparations, received last March 24.

FRENCH EXPECTED ABSOLUTE REFUSAL.

Paris, April 22.—French official circles expressed disappointment today that the United States reply to Germany's request for mediation was not a categorical refusal, as had been expected here. The United States answer is interpreted here as an invitation to Germany to resume negotiations with the Allies. It is expected that the refusal to intervene was not categorical; the communication indicates that the United States will not continue the conversation with Germany on this subject except in accord with the Allies. Secretary of State Hughes is understood, in authoritative quarters here, to have assured Ambassador Jusserand to this effect.

CRITICIZES APPEAL TO U. S. AS INDISCREET MOVE BY GOVERNMENT

Berlin, April 22.—The trend of the comment in this morning's Berlin newspapers on Germany's appeal to President Harding for mediation in the reparations question, written in the absence of knowledge of what the United States reply would be, was skeptical of any good coming from the German move, the note most frequently struck being expressive of resignation and despair over the circumstances which had prompted Germany's action.

The Nationalist press recalls the appeal made by Germany to President Wilson in 1918 just before the close of the war, and asks why Germany is placing herself helpless in the hands of an ally of her enemies. The German Deutsche Zeitung captures its comment "Germany's capitulation to Washington," while the Boersens Zeitung declares it saw "no indication of a favorable reception."

The Tagesschau says: "If he accepts, we must reckon with the possibility that President Harding will declare the Paris decisions binding."

The Lokal Anzeiger's comment is: "We are throwing ourselves helplessly into the hands of a man whose message showed how far he was removed from German ideas and sentiments."

PROVINCIAL OFFICER PALMER CAPTURES 3 ALLEGED RUM-RUNNERS NEAR MELBOURNE

Seizes Auto Just Lately Released From Clutches of London Police, a Motor Truck and Eighty-Two Cases of Whiskey—Men Appear in Court, Plead Legality of Shipment and Are Remanded.

Because Provincial Officer Arthur Palmer could not find a seat in London, he left Melbourne yesterday after the hearing of the Murrell brothers and Williams, who are charged with murder, three alleged rum runners, an auto, a truck and 82 cases of whiskey were captured by him.

The three men, Austin Bastien, George Taylor and George June, appeared before Magistrate A. H. M. Graydon in police court this morning, and were remanded for a few days on charges of having liquor in a place other than a private dwelling. They will not be tried by the magistrate, as the case is a county one, but will come up before Squire W. H. Chittick at the court house within a few days. Albert M. Judd appeared on behalf of Windsor men, who were said to be owners of the shipment. There was talk of proceeding with the case tomorrow, but Crown Attorney J. B. McKillop said that he would not be able to proceed on that date.

Waiting For Train. Constable Palmer was waiting in Melbourne late last night for a train to take him to London, when the same train carrying the Murrell brothers and Williams, who are charged with murder, three alleged rum runners, an auto, a truck and 82 cases of whiskey were captured by him.

Indian Girl Acquitted On Murder Charge

Vancouver, B. C., April 22.—Amy Adolph, 20, daughter of a chief of the Lillooet Indians, was found not guilty of murder yesterday in one of the shortest murder trials on record. The entire case consumed three hours, and the jury deliberated 30 minutes.

The girl, who is unmarried, was charged with the murder of her twin babies, the father of which was said to have been a white man.

WANT FINANCES OF WESTERN 'U' PUT ON FIRM FOUNDATION

Representatives of Board of Governors May Interview Government.

UNIVERSITY EXTENSION

Impossible To Go Ahead With Plans Without Definite Assurance of Help.

Although the matter of the maintenance grant to the Western University has been happily settled for this year, much remains to be done before the finances of this institution can be considered to be on a firm foundation. The question of a building grant in connection with the university extension scheme is one that has not yet been dealt with by the Government, and it is imperative that there should be something tangible in this direction.

In other words, as Dean Sherwood Fox stated to The Advertiser today, if there is not a definite prospect of a fixed sum towards the building fund, even although it may not take shape for another year, it will be impossible to go ahead with the development campaign. At present there is nothing to go upon.

SIR EDWARD CARSON HAS NOT ACCEPTED ENGLISH JUDGESHIP

Will Instead Become Member of Judicial Committee.

London, April 22.—Canadian Associated Press.—A report that Sir Edward Carson has accepted a high court judgeship in England has been denied. Political gossip says that he will probably become a member of the judicial committee of the House of Lords and Privy Council at a salary of £6,000 a year.

PARLIAMENT SUMMARY

Ottawa, April 22.—(Canadian Press).—Today in Parliament:

Today is private members' day. Government bills on the order paper include the Grand Trunk legislation, which was passed by the House of Commons yesterday.

The Senate meets at 3 o'clock. Yesterday in Parliament:

First reading given to Col. J. A. Currie's bill to amend the criminal code in regard to registration of firearms.

Lengthy debate on item of \$60,000 in estimates for Canadian representation at Washington. The prime minister announced that it was sincerely hoped the appointment of a minister would be made shortly.

Consideration of Grand Trunk bill held over at request of Hon. W. S. Fielding.

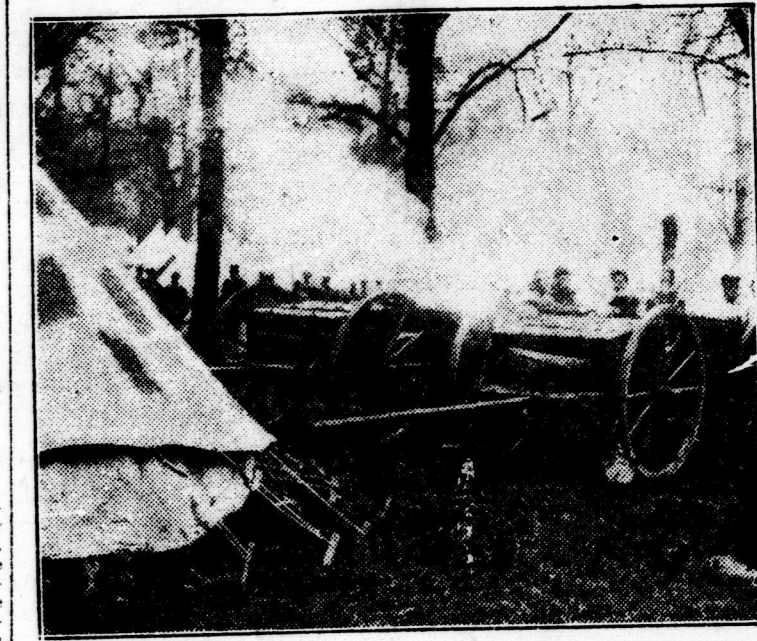

"PASSING THE BUCK." Ottawa, April 22.—The labor situation in Ottawa is about as "clear as mud," says an editorial in the Citizen, which accuses the employers and the unions of "passing the buck" to each other.

The troubles the newspaper anticipates on May 1 are mostly in connection with the building trades.

WOMEN STAGE REAL BATTLE IN BOSTON

Boston, April 22.—A wrangle between women workers or former workers in the garment trades caused a disturbance in the business district today, which was waged with a crowd of several hundred persons ringed around as spectators. Hair was pulled, blows were struck and pepper was scattered to cause confusion.

TROOPS IN LONDON PARKS

Kensington Gardens, one of the beauty spots in London, familiar to many tourists, are closed to the public, as troops have been stationed there in case of an emergency. This is a camp kitchen under the trees.

SINN FEINISM IS KEPT ALIVE BY AMERICAN DOLLARS, SAYS TRIBUNE

New York Newspaper Urges People in U. S. To Withdraw Financial Aid To Campaign of Terror—Thousands of Irish Fleeing From the Anarchy That Exists in Their Native Land.

New York, April 22.—Canadian Press.—In an editorial discussing the recent Sinn Fein murder of an Irish woman in County Monaghan, and the report, published on the same day, that one thousand Irish emigrants for the United States had embarked at Queenstown, the Tribune this morning says: "The steady immigration from Ireland, and the continuance of efforts to embroil this country in Irish troubles, suggests several things. One is that many in Sinn Fein countries have not sufficient sympathy with present Sinn Feinism to wish to stay and help it. Another is that Sinn Feinism in America to finance its campaign of terror, and that the voyagers from Ireland will be asked to revive in safe America an aggressive enthusiasm for an anarchism that they have fled from."

"Let us look to ourselves. Without American dollars Sinn Feinism probably long ago would have ceased, many men and women now dead would be walking the earth, millions of damage would not have occurred, and Ireland might now be adjusting herself to the self-government that Canada enjoys or be in a state of evolution toward that quasi independence."

"Those who encourage Sinn Fein or Ulster extremists to continue the tragedy of a hopeless guerrilla revolt assume a serious responsibility. Not only do they disregard the American principle of non-interference with the domestic affairs of another country, but they may ask themselves whether or not they are aiding and abetting murder."

Chauffeurs Are Robbed of \$5,000

Buffalo, April 22.—Seventy-five chauffeurs were held up in their club rooms on Eagle street early today by four armed men and robbed of \$5,000. The robbers escaped in an automobile.

MOTOR BANDITS SNATCH MONEY BAG FROM CLERK IN MONTREAL; GET \$1,200

Montreal, April 22.—A daring holdup occurred here at midnight when Wilfred Bougie, a clerk in the employ of the Montreal Tramways Company, was robbed of a bag containing \$1,200 in cash. The bag was snatched from him and the bandits made off in a waiting automobile.

TWO CONFESS TO KILLING OF WYANDOTTE CITIZEN

Detroit, April 22.—Deputy sheriffs announced early today that two Toledo men had confessed the slaying in a launch on the Detroit River Wednesday night of Arthur Janisse, of Wyandotte, a suburb. Four Toledo men were being held in connection with the case; but the officers refused to divulge the names of those making the alleged confession, until Janisse's body, which according to the reported confession, was weighted and thrown into the river, had been recovered.

Gerrymandering Impossible Under P. R. Voting System

Ottawa, April 22.—Ronald Hopper, secretary of the proportional representation society of Canada before the House Committee on proportional representation this morning, dealt with gerrymandering under the single constituency system. Mr. Hopper claimed that under P. R., gerrymandering would be impossible and that a more true representation of the public would be secured for parliament.

Proposed Measure Condemned as "Vicious in Principle"—Big Representation From Cities

COAL PRICES TO ADVANCE NEXT MONTH

Local Dealers Not Optimistic Regarding Winter's Supply.

HARRINGTON WARNING

Former Fuel Administrator Tells Householders To Fill Bins As Soon As Possible.

The serious warning issued by H. A. Harrington, former fuel administrator for Ontario, in regard to the supply of anthracite coal for this province is of importance to every householder. So far as London is concerned the situation appears to be that people are slow in sending in their orders for next winter's supply of hard coal, and would be well advised to get busy in this direction, as there is nothing to be gained by delay. On the contrary the chances are that there would be a good deal to lose.

In conversation with The Advertiser today William A. Martin, of the W. A. Martin Coal Company, stated that the larger coal corporations of the United States produce and sell about 80 per cent of all the hard coal that is placed on the market, and that the other 20 per cent is controlled by a number of much smaller concerns, into whose hands the retailer is thrown if supplies are cut off in other directions.

At present none of the big companies will quote a price for shipments of coal until the current rates at the time of shipment. At the same time it is of immense advantage if the retailers can state their prospective requirements to these companies some time ahead, because by doing so the orders thus placed will go a long way towards insuring that supplies will be forthcoming.

By delay the public has nothing to gain, and if, as Mr. Harrington suggests, certain mines have to shut down for lack of orders, it is hard to foretell how serious the situation will become. In the event of a shortage of coal, the first to suffer, as the available supplies will be swallowed up at various points before they cross the border.

At present the price of coal in London is \$18.50 per ton, delivered in the bin. A rise of 10 per cent is already in prospect for the month of May, and it will be recalled that the price last winter rose as high as \$24.

The other coal dealers in the city concur in stating that the warning issued by Mr. Harrington as to the apathy in purchasing winter supplies and its disastrous effects, is perfectly correct.

SIR SAM'S CONDITION.

Ottawa, April 22.—(Canadian Press).—The condition of Sir Sam Hughes this morning elicited the fact that while he is still confined to bed and very weak, there are no alarming symptoms.

FINDS A CONNECTION BETWEEN SINN FEIN AND RUSSIAN REDS

Attorney-General for Ireland Declares Evidence Has Been Procured.

London, April 22.—Evidence of a connection between the Bolshevik Government of Russia and the Sinn Fein movement in Ireland has been found, declared Denis Henry, Attorney-General for Ireland, in replying to a written question by Sir William H. Davison in the House of Commons here today. Mr. Henry added that he hoped to place this evidence before the House in a few days.

London Alderman Asks That Power To Increase Rates On Electric Lines Be Left in Hands of City Councils—Conservative Member for Sudbury Maintains That Bill Is Fair in View of Changed Conditions—Further Consideration of Bill by Committee Is Postponed Until Next Wednesday.

Toronto, April 22.—Hamilton, Brantford, Toronto, London, Guelph, and many other municipalities had representatives on hand to protest when Charles McCrea (Conservative) member for Sudbury, appeared before the Ontario Legislature committee on railways this morning to urge them to report his bill amending the Ontario railway act so that, regardless of any agreement, the Ontario Railway Board may approve of increased fares on electric railways. The member for Sudbury explained that conditions were rapidly changing, and it was only fair that the board should have power to adjust rates. He instances the London and Port Stanley line as one which charged higher rates, adding that it was controlled by the hydro commission."

Sir Adam Beck corrected him, saying the L. and P. S. R. was owned and operated by the city of London. Mr. McCrea said the "big stick was held up" whenever a private corporation wanted to charge the same rates as a publicly-owned road. He claimed that high rates were being charged on the Guelph radial line, which, he asserted, was under hydro control.

Sir Adam Beck said the hydro had nothing to do with that line.

Mr. McCrea said he was quite willing to exclude municipally-owned or hydro-operated roads from the provisions of the bill.

"It's all right to picture me as a corporationist," said Mr. McCrea. "I don't mind that cheap talk, but there should be power to adjust situations which might arise."

Halcrow Challenges Statement. George Halcrow (Hamilton) challenged a statement of Mr. McCrea's that the hydro act enabled the commission to ride roughshod over agreements. Sir Adam joined in the fray and warmly reminded Mr. McCrea that the municipalities had voted on the matter.

Councillor Wilson of London wanted the power to increase rates left in the hands of the city council.

T. J. Hannigan (Guelph), representing ten or twelve municipalities opposing the bill, including Toronto, Hamilton, London, Chatham, Peterboro, St. Thomas, Galt, Sarnia, said at a meeting in Toronto these municipalities had gone on record as absolutely against the bill.

"Why are you afraid of the Ontario Railway Board?" asked Z. Magoau (Sarnia).

Mr. Hannigan said it was because the municipalities thought they should have some say in regard to the fares to be charged.

Continued on Page Ten.

THIRTY-SIX MILLIONS NEEDED TO FINANCE ONT. GOVERNMENT PLANS FOR NEXT FISCAL YEAR

Main Estimates Tabled in the Legislature Today Call For Expenditures Exceeding Twenty-Two Millions—More Than \$13,000,000 For Hydro and T. and N. O. Railway—Raney Wants \$350,000 To Enforce Dry Laws.

Toronto, April 22.—Main estimates for the province of Ontario as tabled in the Legislature early this morning amount to \$22,081,459 excluding \$6,943,199 for hydro purposes and \$7,133,199 for the Temiskaming and Northern Ontario Railway. In connection with the Hydro estimates it is worthy of note that the amount for the Queenston-Chippawa development is only \$576,795 which would indicate that the Government is sanguine that work on that scheme will soon be completed.

In order that the University of Toronto may avail itself of the \$1,000,000 grant from the Rockefeller Endowment the sum of \$500,000 is included in the main estimates for 1922 to cover the cost of a new anatomical building. It is proposed to spend \$122,770 on the training of teachers at the university instead of \$87,317. Fifty thousand dollars will be spent on additions to the college of education. It is interesting to note that the amount set aside for art purposes is only \$500 compared with \$2,500 in previous years.

The Temiskaming and Northern Ontario Railway Commission is scheduled to spend \$150,000 on two Mikado locomotives and \$15,000 on eight miles of 90-pound rail.

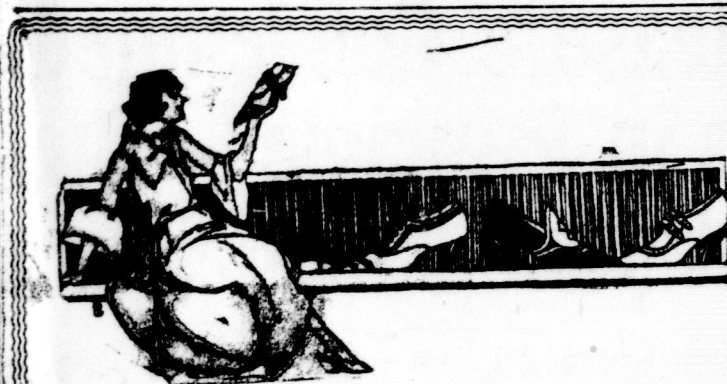

\$350,000 ASKED BY RANEY TO ENFORCE PROHIBITION LAWS. Toronto, April 22.—It would appear that Attorney General Raney does not imagine that Monday's referendum will immediately solve the liquor problem, for he was asked for \$350,000 to assist in the enforcement of the O. T. A. and a further \$50,000 to enforce the Canada temperance act.

THEATRES

AT LOEW'S.
Patrons of Loew's Theatre for the last half of this week will enjoy a splendid program. "Body and Soul," starring Alice Lake, is the feature film, and is one of the best pictures that has been screened at Loew's this year. The picture is based on the happenings of a young girl goes through when she unfortunately loses her mind.
Miss Lake, playing the part of Claire Martin, an artist in Paris, is experiencing poor health. A doctor informs her that she must be very careful and always be on the watch to keep from

"IDOLS OF CLAY" AT ALLEN'S SCORES HIT

Settings of Unusual Beauty For Love Story of Southern Seas.

The great Artcraft special, "Idols of Clay," the headliner at the Allen Theatre for the rest of the week is one of the most beautiful films seen in London in some time. No place in the world can rival the scenes of the Southern seas for richness of verdure, ocean scenes of wonderful beauty and picturesque wildness. The scenes in "Idols of Clay" are laid here and in old London, and interwoven into the whole is a love story of appealing simplicity which gives Mae Murray plenty of opportunity for clever film acting. David Powell, her star support, takes his role well throughout. There is humor, pathos and abundance of action in the production. The filming of a London fog is something seldom seen on the screen yet in "Idols of Clay" one gets a very realistic picture of London streets during a heavy fog.

Another big feature on the bill is the fifth episode of the Son of Tarzan, entitled "The Pirates' Prey." This film is as spectacular and as filled with adventure as any of its famous predecessors, and holds the interest to the end. The Tarzan pictures have scored a hit, not only in London but with movie fans all over the country, and "The Pirates' Prey" is one of the best of the series.

Ham Hamilton in "Dynamite" has a screamingly funny comedy. Many of his stunts are not only laugh producing but mystifying as well. The action in some parts of "Dynamite" is so fast that one believes the piece is well named.

The bill includes the regular Allen features and a musical program that is a treat.

BIRD NOTES
(Contributed by Melvraith Ornithological Club.)

The morning of the 21st yielded only one new species for the club list, the Broadwing Hawk. This bird was identified not by color so much as by actions. He is the hawk of the lazy flight, and this example flew from a lowly perch over a woodland pool, where he was doubtless seeking a breakfast of frogs, though nothing comes amiss to him. He flew slowly and at a low elevation, and after going 75 yards settled on another low perch. This is the hawk of spectacular migration in the London district. A migrating company of 25 or 30 is sometimes seen, and as the journey is carried on in a most desultory fashion, periods of flight separated by intervals in which the whole company circles at varying heights, the travels of this bird make a very interesting sight for the field worker. One disadvantage of this habit of migrating in companies is that one is more liable to miss a bird than to see it, but if there were no rare things to be seen bird study would lose much of its charm.

On the pond two of the Buffbreasted Ducks were still enjoying themselves peacefully, while a second pair was seen on the river by another member of the club. A solitary male Mallard duck watched us closely and then flew out of sight. Mallards are too toothsome to ignore human propinquity.

The real interest of the morning, however, and the most interesting item for those who read these notes but stay in the city, was the singing of the Ruby-crowned Kinglet. We have nothing materially smaller than this bird except the hummer, and yet when one hears the song first and then hunts up the singer he is amazed that so tiny a bird can produce such beautiful music. Ruby-crowns are all over the city. On Sunday when the ground was snow-covered one was singing from an evergreen beside Bishop Williams' house on St. James street, and on Tuesday a pair rewarded me with music for my diligence while working in the garden. These birds while unusually early are also unusually abundant and musical this year, and every bird lover has a chance to make the acquaintance of their song without going far from home. They are birds of the far north, nesting mainly beyond latitude 50.

Straggling Myrtle Warblers have already been noted two or three times, but this morning we found a nice little company in a small piece of woodland, though they were not heard to sing. In this morning's Globe, Hamilton Laing, writing of the spring migration at Fort MacMurray, 1920, speaks of hearing a song from the first Myrtle Warbler on April 23, an amazingly early date from such a northern region.

W. E. SAUNDERS.

GARFIELD AVENUE HOUSES FOR RENT

Housing Commission Decides To Accept Tenants On Certain Conditions.

The question of renting houses on Pine Lawn and Garfield avenue, in order to relieve the present shortage, formed an outstanding part of the business at the meeting of the London housing commission last night, and after considerable discussion it was moved by D. J. Tallant that the clerk be instructed to write to J. A. Ellis, housing commissioner, Toronto, in order to get permission to rent these houses, that the rent be placed in the hands of City Treasurer Bell; that the houses be rented for not less than two months; that at the end of this period the tenants must sign an agreement to purchase their houses, and that the houses be rented only to people who can produce good evidence that they will be in a position to pay for them when they are sold.

The motion was seconded by R. H. Hessel and unanimously adopted. In the course of the discussion on this question, City Clerk Baker expressed the opinion that renting was a bad proposition, and remarked that the city council was receiving less money in rent for some of their property than would keep it in repair. "They will be hounding some of you men to death when they hear that the houses are to be rented," he declared.

Some Already Rented.
It transpired, however, that some of the houses had already been rented by Mr. Richards of the Land and Development Company, who stated that he had received instructions from members of the commission to do so. Four of these houses were on Garfield avenue, and one at Pine Lawn. Mr. Richards also said that he had offered to rent two more on Garfield avenue, and three at Pine Lawn. The applicants were reliable people. He also stated that he

Attractive Sale List For Saturday

Not for some years have we been able to offer such an attractive sale list so early in the season. To overlook the announcements in this space for tomorrow may mean a lost opportunity to you, for here you may find the very things you need at half the price you expect to pay. We specially direct your attention to the sale of Blouses, Middies, Corsets and the four specials in the Linen Section, not forgetting the Men's Shop and the big sale of Arrow Shirts. Shop early tomorrow. Store closes at 5:30.

Retraction Asked For.
Some discussion took place in regard to statements alleged to have been made by H. T. Baker, who had got a house through the commission, and a resolution was unanimously adopted to the effect that if these charges were not retracted through the medium of the press by April 25, the commission's solicitor be instructed to take legal action. Treasurer Bell read the report of the

financing of the houses, which had been purchased through the commission, and from this it was shown that the men who had acquired their houses in this manner had on the whole met their obligations in a very satisfactory manner. Out of 77 reported upon, only 14 had failed to come up to expectations, and of these, only 2 were considered disappointing cases. Several men applied for loans and for funds to meet additional work required on their houses, but it was pointed out that the commission had no power to exceed the amounts already granted. Building Inspector A. M. Piper reported that under the act providing for individual loans for building purposes 51 houses had been erected. Of these 54 were occupied, and 7 were not. The total cost was \$214,630.

COMMISSIONER OF FINANCE FOR LONDON

The following is the second of a series of open letters issued by the London advisory committee of the Citizens' Research Institute of Canada:

"The city of London, through its various civic bodies and commissions, spends about \$3,000,000 per annum on current account. This represents an expenditure of about \$50 per head of population, or of about \$250 per family of five. How the expenditure of this money is controlled is of vital interest to every family in London."

"A board of trustees may have a railroad built and locomotives constructed, but a locomotive cannot successfully be driven by a committee. A committee may plan how things are to be done, particularly when it acts on the advice of a professional advisor, but a committee as a committee cannot execute policies successfully. Individual members of committees may do things, but a committee is most effective when it limits its actions to sanctioning the action of others; acting as a restraining influence when restraint is necessary; stimulating action when increased speed is called for; suggesting policies to, and receiving suggestions as to policies from, their professional advisors; and, finally, laying down general policies for the guidance of the various administrative officers. This is important, but it is legislative, rather than administrative control. Actual financial control demands a controller. There can, in the long run, be no effective financial control unless the city has the good sense to appoint—and the good fortune to obtain the services of—an experienced financial officer to be the responsible advisor of the various civic bodies and commissions on all financial matters, and the administrative head of all divisions of the city government which have to do with the receiving and paying out of money."

"The logical name for such an official is 'commissioner of finance.' Such an officer is not a glorified cashier or chief accountant. He is not an officer whose advice may be asked for or may not be asked for as is seen fit. He is not an officer who speaks when he is spoken to, and who, if he wishes to hold his job, must be careful not to 'butt in.'"

"No policy involving financing or financial control should be adopted without first getting the advice of the finance commissioner. Otherwise there can be no continuity in policy, a condition which invites waste."

"People instinctively grasp at financial methods tending to postpone expenditures or keep down the taxes, even for one year. This is true of the taxpayer, worried about his bills; and of the administrator, worried about his re-election. Hence the ease with which perfectly honest citizens can fool themselves into adopting, or sanctioning, unsound devices for putting off the evil day. Some of these devices are as old as government and have acquired a sort of respectability on account of their antiquity. Among those which have rendered most service are the following: 'Pretending that the revenue will be more than you know it will be; 'Pretending that the expenditure

will be less than you know it will be;

"Looking at appropriation balances with the blind eye when they are approaching exhaustion;

"Borrowing money to do things which should be financed out of current funds;

"Retracting that improvements will last longer than their life is known to be and issuing bonds according to their pretended life;

"Pretending that deficit-producing departments were revenue-producing."

"Pretending that it is ever justifiable to pay more for a thing than it is worth."

"There is only one way in which these short-cuts to financial embarrassment can be effectually fenced off. That is to appoint a chief financial officer who is brave enough to find the truth and brave enough to tell it."

"The logical name of the office of finance commissioner would not necessarily lead to the abolition of any of the present civic departments."

"Among other things, a commissioner of finance should be given, if he does not already possess it, the necessary authority to:

"Prescribe a uniform method of procedure in making departmental estimates, and standard forms for presenting estimates both of capital and current expenditures."

"Compile and analyze all such estimates and present them to the council with explanations and recommendations both as to capital and current expenditures."

"Co-operate with so-called boards so as to secure co-operation in standardizing methods of preparing and presenting estimates."

"Prepare or revise all money by-laws, in co-operation with the legal department."

"Determine the form of all debenture issues and conduct the sale of all debentures, subject only to council."

"Be the chief accounting officer of the city, and, through the chief accountant, standardize the accounting of all city departments and boards. All accounts of departments, with the exception of cost accounts, should be carried on in a centralized accounting office in his department."

"Control, through a purchasing agent, all purchases made by the city, and, if the necessary co-operation can be effected, by civic boards, the department or board concerned setting forth on requisitions the quality and quantity of the goods desired, and checking all goods received as to quality and quantity."

"Collect all revenues through a divisional officer in his department designated for the purpose."

"Estimate the current revenue other than taxation, his estimate being final for purpose of striking the tax-rate."

"Prevent the creation of overdrafts by refusing to authorize payments after appropriations have been exceeded by civic departments or such outside boards as can be run on the appropriation basis, and by calling the attention of the city council and boards concerned to threatened exhaustion of appropriations. (Even if the estimates of such boards are not subject to revision by the city council, the city treasurer or finance commissioner should have the necessary authority to prevent boards from exceeding their own estimates.)"

"A commissioner with these powers and duties would give London much more effective financial supervision of all community expenditures."

"Among other things, a commissioner of finance should have the following qualifications:

"Years of experience in financial operations involving the borrowing or lending of large sums of money, so that he may be able to advise the city how and where to borrow to the best advantage. A thorough knowledge of sinking fund administration. A good general knowledge of the principles of accounting. The power of presenting financial facts in a clear, telling way, so that the ordinary taxpayer can understand his official statements. Absolute independence of all special interests and influences. Directness of speech. Great moral courage."

IRISH PARLIAMENT CANDIDATES NAMED

Joseph Devlin Among Those Selected.

Dublin, April 21.—Official lists of candidates for the North of Ireland Parliament, which has been created by the Irish act, put into operation April 19, have been completed. There are 42 Unionists, 14 Nationalists and 19 Sinn Féin candidates selected, and from these will be elected the occupants of the 52 seats in the parliament. Joseph Devlin has been chosen for the West Belfast County Antrim-County Armagh constituency, but in the event of his election is pledged to ignore the summons to attend meetings of the body.

Donegal, the most northern county of Ireland, has been the first to select a candidate for the south of Ireland Parliament. He is Major R. L. Moore, master of the Londonderry Orangemen, and he was selected yesterday as the official Unionist nominee. The seeming singularity of the situation is explained by the fact that Donegal, although it

borders extend further north than those of any other Irish county, is not included among the six counties named by the Home Rule act to make up what is known as "Northern Ireland" which elects a separate parliament.

SIX CONSTABLES ARE KILLED DURING WEEK OF IRISH CONFLICTS

Dublin, April 21.—A review of the "operations" in Ireland for the week ending April 16, published in last evening's Irish Bulletin, says there were 39 armed conflicts, and that one jail, one aerodrome and nine barracks were attacked. Total casualties are given as follows:

Republican troopers killed, 1; wounded, 2; constabulary killed, 6; wounded, 29; military killed, 1; wounded, 3; barracks attacked, 9; destroyed, 1.

The review asserts that two parties of the Royal Irish Constabulary, while patrolling near Ballymena, Antrim, mistakenly fired on each other, resulting in an inspector and a constable being wounded.

AGREEMENTS ARE SIGNED. Barcelona, Spain, April 21.—Conventions relative to waterways, railroads and the recognition of the flags of nations without seaboard were signed at the closing session of the inter-

national conference on communication and transit here yesterday. Several delegates did not sign the convention because they held they did not possess plenary powers, and it is asserted that the agreements will thus be without effect for world purposes.

MODERN AUTOMATICS FOR TORONTO "COPS"

Toronto, April 21.—Toronto's police are to be re-armed with modern automatics as soon as they can be secured. Chief of Police Dickson announced today. The cost will be \$25,000. At present the Toronto constables have old-fashioned British bulldog revolvers.

PRIVATE CONFERENCES. Paris, April 21.—Premier Briand and Mr. Lloyd George plan strictly private conferences at the meeting to be held at Hythe, England, on Sunday. No one else will be present during the time they are talking, except one secretary for each. Philippe J. L. Berthelot, general secretary of the French foreign office, will probably act in that capacity for M. Briand.

The World's Verdict On Harding's Message

Disappointment in Berlin and cordial approval in London and Paris are among the significant foreign reactions to the president's first message to Congress. At home a majority of the papers applaud his program, yet a few sharply dissenting voices are heard.

The leading article in THE LITERARY DIGEST for this week, April 23, quotes a large variety of opinions from the press of the country on this question. The New York World regards the peace plan outlined by Mr. Harding as "a miserable makeshift that no president would ever adopt of his own initiative," and the Louisville Courier-Journal characterizes his proposed "association of nations for world peace" as a toothless whatnot, with no power to promote peace except to talk about it, while the Philadelphia Ledger considers it "woefully incomplete" and "a negative rather than a positive policy." On the other hand the Providence Journal praises the message for its "prevailing note of lofty Americanism," the Cleveland Plain Dealer avers that "granting the president's point of view of the majority of Americans, his program cannot well be challenged," and the St. Louis Globe-Democrat feels that he "has opened a new way to the solution of the problem of our international relations."

Among the other deeply interesting articles in this issue are:

PAGE OF INTEREST TO WOMEN

Mr. and Mrs. Harry Carling are in St. Catharines.

Mrs. Woollett of Walkerville is the guest of Mrs. Fred Grant.

Mrs. L. J. Nichols, Base Line road, is visiting friends in Detroit.

Rev. Mr. and Mrs. Clarence Foreman spent a few days in Toronto this week.

Miss Janet Wilson entertained at a small bridge of three tables on Tuesday last.

Mr. and Mrs. F. P. Betts are now at their country home "Moosekewau," near London.

Mrs. Graham and Mrs. J. W. Plewes have returned home after paying a brief visit with Mrs. J. J. Hinneken, Chatham.

Mrs. Hugh Shuttleworth was the hostess of a very small but charming luncheon party held at the "Kennels" yesterday.

Mrs. W. M. Garthshore, who has been spending the winter months on the continent, is sailing for Canada at the end of the month.

A jolly party in honor of the "Dumb-bells" was held on Saturday night last at the home of Mrs. and Mrs. Arthur Taylor, Central avenue.

Miss Ruth Williams of Duluth, accompanied by her mother, is coming east on the first of June to visit relatives in London and vicinity.

Mrs. S. V. Cooke, Wolseley Barracks, who has been spending the last few weeks with her mother, Mrs. Spooner, in New York, has returned home.

Mrs. A. B. Greer, York street, entertained recently in honor of Mrs. Clarke of New York, who is visiting her daughter, Mrs. Silvester, Grosvenor street.

Mrs. Richardson of St. Marys and Mrs. Ward of Sarnia will be guests with Mrs. R. B. Ross, Gerard street, for her reception, which takes place on Tuesday afternoon.

Mrs. William E. Green, Chenside street, entertained yesterday afternoon. Hall and living-room were prettily arranged with snapdragons. Mrs. Greene receiving her guests wearing a lovely gown of white net. In the dining-room, Mrs. Frank Lawson presided over the tea cups roses were used delightfully, the tea assistants being Mrs. Fred Grant, Mrs. Kenneth Greene, Mrs. Ray Law, son and Mrs. R. B. Ross. Those present at this attractive little function included Mrs. Victor Blackwell, Mrs. Hagarty of Toronto, Mrs. Hugh Shuttleworth, Mrs. Leslie Turner, Mrs. Mortimore Hunt, Mrs. Norman Howard, Mrs. Robert Orr, Mrs. Shaver, Mrs. Ross Johnston, Mrs. Hamilton Bingle, Mrs. Hawke, Miss Hilda Keene, Mrs. Archie Becher, Mrs. Duncan, Mrs. Arthur Fraser, Mrs. Cy Eddy, Mrs. Fred Marshall, Mrs. Talcott of Chicago, Mrs. Kingston and Mrs. Norman Humphreys.

Mrs. Greene entertains again today at the tea hour.

On Wednesday afternoon a delightful function was held by the Forest City Chapter, No. 13, Order of the Eastern Star, when the chapter held a tea at the Smallman & Ingram tea room in honor of one of its members, Associate Grand Worthy Matron Sister E. Taylor, who is leaving this city to take up her permanent residence at Preston, Ont. One hundred members of the chapter together with a number of officers and members from Ruth and Trinity chapters gathered for afternoon tea in the large dining-room, which had been very tastefully arranged and decorated with the colors of the order. Sister Taylor received from her friends a pair of handsome cut glass candlesticks, the presentation being made by Worthy Matron Electa Wallace who made reference to the sterling quality of the personality of the recipient. The reply was equally apt to the occasion and brought forth great applause and expressions of appreciation. Worthy Grand Patron for Ontario Brother T. Rowe, Past Worthy Grand Patron Brother E. T. Essery, Past Worthy Matron Sister Shortall, Past Worthy Matron Sister Rowe, (Trinity Chapter) and Worthy Matron Sister Rowe (Ruth Chapter) also made suitable remarks to the occasion. The reception committee included Sisters F. G. Staples, F. Thomas, M. E. McLaren and P. Ashton, who are to be congratulated on the splendid success of their efforts in making all arrangements.

The home of Mrs. Fred H. Ward, Princess avenue, was the scene of a lovely reception yesterday afternoon, when she received with her mother, Mrs. Robert B. Savage of St. Thomas, and Mrs. Ward of this city. Sweetheart roses filled drawing-room and hall, while in the tea room daffodils and mauve sweet peas were used with pretty effect. Mrs. Ward received her guests, who numbered many during the afternoon, wearing a lovely gown of blue Canton crepe with iridescent trimming, and wearing a corsage of pink roses. Mrs. Savage of St. Thomas was handsomely gowned in black moonlight satin with seal trimming, a large black tulle hat and corsage of sweet peas, while Mrs. Ward wore a smartly gowned in grey georgette and wore a black hat. Mrs. Archie Mc-

Mahen invited to the tea room, while little Miss Helen Mary Savage in pale blue georgette acted as door attendant.

In the tea room Mrs. Gilbert Ward and Mrs. (Dr.) L. V. Savage of St. Thomas presided, the former in a pretty black lace gown, and the latter wearing a modish frock of Pekin blue and hat to match. They were assisted by Miss Marjorie Gott of St. Thomas in grey Canton crepe, with jade green trimmings, hat to match, and corsage of sweet peas. Mrs. Cora McCassey in black georgette, with hat and corsage of Killarney roses, Miss Madonna McMiller in blue georgette and wearing Sweetheart roses, and Miss Ann Ward in pale yellow tulle with mauve hat and Sweetheart roses.

Following the reception Mr. and Mrs. Ward entertained at bridge and a dance in the evening.

MARTYN-INGRAM.
A quite wedding took place at the King Street Presbyterian Manse, on April 19th, when Mary W. Ingram, second daughter of Mr. and Mrs. H. B. Ingram of London, was united in marriage to Mr. Reginald J. Martyn, also of the city, the Rev. W. R. McIntosh officiating. The bride was attended by her sister, Miss Elsie Ingram, while Mr. Percy Martyn acted as groomsmen. After the ceremony the happy couple left for a honeymoon trip to Toronto and Port Arthur.

SUMNER-HAY.
A pretty wedding took place on

April 19th, at the Christ Church parsonage, the Rev. C. B. Gunne officiating, when Laura E. M., eldest daughter of Mr. and Mrs. Wm. Hay was united in marriage to Mr. N. H. F. Sumner of this city.

The bride, who wore a becoming suit of midnight blue tulle with hat to match and corsage bouquet of Sweetheart roses, was attended by Miss E. Carder, while Mr. M. G. Hay acted as groomsmen.

After the ceremony the party repaired to the home of the bride's parents, where a dainty luncheon was served. Later Mr. and Mrs. Sumner left on a short honeymoon trip to Toronto and points east.

Mr. and Mrs. Sumner will reside in London.

McRONALD-DAVIE.
The home of Mrs. Allison, Riverview avenue, was the scene of a pretty wedding on Wednesday afternoon, when her sister, Miss Minnie Davie, daughter of Mrs. Mary Davie of this city, was united in marriage to Mr. Robert McDonald, also of London, the Rev. W. R. McIntosh officiating. The bride, who was given away by her brother, wore a gown of white satin, draped with georgette and tulle veil crowned with orange blossoms, and carried Ophelia roses and mauve sweet peas. The bride was attended by her sister, Miss Annie Davie, who was gowned in pink georgette, and carried an armful of carnations. Mr. George Perry of Merriton, attended the groom.

A wedding luncheon followed the ceremony, the bride's table prettily arranged with pink and white roses and centred with the bride's cake. Mr. and Mrs. McDonald will reside in South London. Among the out-of-town guests were Mr. and Mrs. Alex Smith, Miss Bessie Copeland, Mr. Sterling Johnson and Miss Stella Johnson, all of Inwood; Mr. and Mrs. Roy Sage of Tillsonburg, and Miss Myrtle Richardson and Mr. Elmer Richardson of Merriton.

FOR LOVE OF BETTY

[BY MAY CHRISTIE.]
(Copyright, 1920, by the McClure Newspaper Syndicate.)

LXVIII.—THE ACCIDENT.

It was a wild, wet afternoon in Maine when Jack Trevor set out from his lodgings and turned his footsteps toward the great shipbuilding yards where his business lay.

"Another tour of inspection," he said drearily. "Ugh! What a miserable day!"

It was lucky, he reflected, that his duties here would soon be over. He would go back to New York, then and try hard to forget . . . New York was the place in which to drown one's sorrows.

In spite of persistent effort to the contrary, his thoughts kept turning all the time to Betty Gordon. If only things had gone right in that quarter of the world, the Rev. W. R. McIntosh officiating. The bride was attended by her sister, Miss Elsie Ingram, while Mr. Percy Martyn acted as groomsmen. After the ceremony the happy couple left for a honeymoon trip to Toronto and Port Arthur.

"What's the good of making money, of working hard, when I've no one in the world to share it with?" The thought kept running through his mind.

There never could be anyone else but Betty Gordon—and Betty did not care for him.

Arrived at the great yards, he splashed disconsolately through the mud and rain.

A merchant vessel was in course of construction, and almost completed. It was being built for him. Today the chief engineer was going to take him over it on a tour of inspection.

It loomed up, huge and gloomy. "We're nearly through now," the chief beamed on him. "And she's a wonder too!" he added.

Together they went on board.

Trevor knew his business thoroughly. But today it struck his companion that he was curiously listless and dispirited. Every now and then he had to draw the young man's wandering eyes to the various points.

The engineer, enthusiastic in his job, began to feel resentful over Mr. Trevor's attitude.

"The young fellow has too much money," he told himself in his sly New England way.

They went up to the upper deck. It was wet and slippery.

"Is she a beauty?" said the eager engineer.

But Trevor did not answer. He had wandered off to a little distance, over the wet boards, hardly looking where he was going.

"Be careful, sir," the other shouted, "the deck is slippery, and there's an open hatch just where you're standing!"

Finishing Women Unite in Household Reforms

The "Martha Union" is Important Factor in Life of Finland.

Canadian women would do well to take heed of the Finns in the work of household reforms.

Through an organization of more than 22,000 members, known as the Martha Union, Finnish women have effected more reforms in this direction than any other body in the country.

The members, all of whom are women and girls, aim at social and moral education through their own efforts. They have introduced into even the most isolated hamlets by means of volunteer workers.

They initiate the peasants into the possibilities of poultry farms, garden plots, and other remunerative work for women during the year. They effectively stamped the idle epidemic that was sweeping into Finland from all sides.

"Martha Days" are set aside in the spring when all these young girls assemble to learn and discuss new reforms and to volunteer as workers and propagandists during the coming year.

Club News

GIRL GUIDES WIN BADGES.

The Girl Guides of the Y. W. C. A. had a most busy evening on April 20, when Miss Stella MacKinn and Miss Mary Moore, representing the badge committee of the local association, were present at their meeting to try examinations in various phases of Guide work.

Miss MacKinn and Miss Moore were not only delighted, but expressed themselves as being amazed at the fine degree of excellence of the work done. The Guides were examined on a number of subjects, laundry, millinery, clerk, scribe, entertainer and cyclist.

That the examinations are not too easy is shown by the requirements. For instance, the following is the test which is to be passed before a Guide may win her clerk badge.

show good handwriting, handprinting and figures. Be able to write in shorthand from dictation at a rate of 40 words a minute as minimum, or type correctly from dictation 100 words with fair speed. Be able to write simple business letters, such as: An order to a shop including a P. O. order, an application for a position, an acknowledgment of money received, summary.

PUPILS' RECITAL.

The recital promised for the evening of Monday, April 25, at the London Conservatory of Music Hall by the pupils of Thomas Martin will be exceptionally fine.

SIR GEORGE ROSS CHAPTER.

From a recent rummage sale held in the Jubilee Link the Sir George Ross Chapter, I. O. D. E., made over \$50 towards the Children's Hospital.

ST. PAUL'S GIRL GUIDES.

Miss Julie of Hurvill College, Toronto, recently addressed the Girl Guides of St. Paul's Cathedral on the experience of her sister, who was confined in Russia during the late war.

SOCIAL SERVICE CLUB.

The members of the Social Service Club are planning a picnic for the children of the "Shelter," to be held the last week in May at the White farm, near London. A recent meeting of this club was held at the home of Miss Velma Wylie, Waterloo street, at the close of which refreshments were served.

Three Bandits To Be Tried For Melbourne Murder.

From left to right the men are Sidney Ernest Murrell who, witnesses swore, fired the fatal shot; William George Murrell and Henry Jack Williams, also known as William Henry Vaughn, who were captured by Melbourne citizens after an unsuccessful attempt to escape from the Home Bank which they attempted to rob on Monday, April 11. The trio appeared before Squire W. H. Chittick at Melbourne yesterday afternoon, and after being given a preliminary hearing, were committed for trial on charges of murdering Russell Campbell, who attempted to prevent their escape from the bank.

DRUG ADDICTS INCREASING.

Vancouver, B. C., April 22.—Indicating an increase in the use of drugs in Vancouver during the last few years, the annual report of the city health department shows that the number of examinations of drug addicts during 1920 was nearly double that of the year previous and more than five times as many as in 1917. The sale of liquor is under Government control in this province.

MELBOURNE AUDIENCE CHEERS AS THREE GUNMEN ARE COMMITTED FOR TRIAL ON MURDER CHARGE

Preliminary Hearing Before Squire Chittick of Men Who Attempted Robbery of Home Bank, Melbourne, On April 11, Brought Out No New Evidence—Prisoners Apparently Quite Unconcerned—Pathetic Scene When Mother and Sister Bid Good-bye To Murrell Brothers.

[By Staff Reporter.]
MELBOURNE, April 21.—Sidney Ernest Murrell, William George Murrell and Henry Jack Williams, otherwise known as William Henry Vaughn, were committed for trial on charges of murdering Russell Campbell during an attempted bank robbery here on April 11, by Squire Chittick of London, at their preliminary hearing this afternoon.
During the hearing the only prisoner who seemed at all worried was Sidney Murrell, who possessed a solemn stare, while all the evidence was being taken. Much of the evidence was a repetition of that given at the inquest a week ago. Mrs. William Murrell, mother of the two boys, and her daughter Ella, were at the hearing, and when the trio were being led away to a car to be taken back to London, they kissed and hugged the two Murrell brothers, almost refusing to be separated from them. At the same time a crowd pressed closely behind, and it was with diffi-

culties that the detectives put the prisoners safely in the auto.
Several times it required about ten minutes to restore order in the hall where the hearing was held, the audience cheering wildly at various stages of the proceedings. Parts of the floor, which is built but a few feet from the ground, collapsed under the strain placed upon it by the crowd.

Was Lawyer Serious in Plea.
J. M. Donohue, counsel for the defence, in addressing the court, declared that William Murrell and Williams should not be sent for trial on charges of murder, as there was no evidence that they had committed murder. He said that the Murrells had been in the bank when the shooting took place, and that they had been fleeing from the scene when the shooting took place. He said that the Murrells had been in the bank when the shooting took place, and that they had been fleeing from the scene when the shooting took place.

He heard the report of a gun, the sound of which seemed to crack, as the scene of the scuffle, and saw Campbell fall. Sidney Murrell, he said, was the man who had the gun.
E. A. Theaker, manager of the Union Bank, which the bandits raided, told of their entrance, and of their actions until the time of her escape, after she had closed the safe.

German-Made Bullet.
Roy E. McCandless, manager of the bank, told of being overpowered by the bandits, and of his refusal to open the safe. He was asked if the missing man was the leader of the gang, but replied that he would not say that he was.

One of the bullets which was recovered by McCandless was a 9 millimeter of German make.
Several witnesses described in detail the capture of the three men.

John Macdonald, who was in the alleyway beside the bank which took place between Sidney Murrell and Russell Campbell.
He heard the report of a gun, the sound of which seemed to crack, as the scene of the scuffle, and saw Campbell fall. Sidney Murrell, he said, was the man who had the gun.

E. A. Theaker, manager of the Union Bank, which the bandits raided, told of their entrance, and of their actions until the time of her escape, after she had closed the safe.
Clothes Not Burned.
G. W. Spence, undertaker, admitted that the three bandits had been in the bank when the shooting took place. He also produced, at the request of the counsel for the defence, Campbell's clothing, which he had in his possession when the bandits were taken into custody. He said that the clothing was in his possession when the bandits were taken into custody, and that it was in his possession when the bandits were taken into custody.

Ruthless Denial.
McIntyre denied that he had been in the bank when the shooting took place. He said that he had been in the bank when the shooting took place, and that he had been in the bank when the shooting took place.

McIntyre said that he was with a friend in the bank when the shooting took place. He said that he was with a friend in the bank when the shooting took place, and that he was with a friend in the bank when the shooting took place.

McIntyre said that he was with a friend in the bank when the shooting took place. He said that he was with a friend in the bank when the shooting took place, and that he was with a friend in the bank when the shooting took place.

McIntyre said that he was with a friend in the bank when the shooting took place. He said that he was with a friend in the bank when the shooting took place, and that he was with a friend in the bank when the shooting took place.

McIntyre said that he was with a friend in the bank when the shooting took place. He said that he was with a friend in the bank when the shooting took place, and that he was with a friend in the bank when the shooting took place.

McIntyre said that he was with a friend in the bank when the shooting took place. He said that he was with a friend in the bank when the shooting took place, and that he was with a friend in the bank when the shooting took place.

LONDON NEWSPAPERMEN GIVE EVIDENCE IN ASHLANT PROBE

H. B. Ashplant To Be Given Opportunity by Committee On Privileges To Refute Statements Next Week — Alleged To Have Imputed Bribery in Speech Made March 7 To City Council On Gas Question.

[By Staff Correspondent.]
TORONTO, April 21.—Only preliminary steps in the investigation of the statements made by H. B. Ashplant before the London City Council March 7, involving the Ontario Legislature, were taken by the committee today. The more important parts of the evidence will be taken next week, when Mr. Ashplant himself will be called as a witness to give his version of the affair.

Mayor Little and aldermen who were at the council meeting will also be called.
A. C. Carty and H. H. Penny, two London newspapermen, were the only witnesses heard today. Carty, as correspondent for the Toronto Globe, sent to Toronto an account of the council meeting containing a report of Ashplant's address to the council on the proposed settlement with the Gas Company. In this, referring to Ashplant's remarks about the proposed increase in the gas rates, he said that he believed that the company was asking what was to prevent some of this stock being given to members of the Legislature to insure passage of the bill.

H. L. Brackin, chairman of the committee, pointed out that the committee today merely wished to establish whether Mr. Carty would affirm this report. If he did not, there would be no need for proceeding further with the case. As Mr. Carty confirmed his account of the meeting, further witnesses will be called.

Chas. McCrea, Conservative member for Sudbury, showed a keen interest in the proceedings. He was sponsor of the gas bill, and his name was mentioned by Mr. Ashplant at the council meeting.

"Is Mr. Ashplant a member of a political organization in London?" he asked Mr. Carty. "He represented the municipal Labor party in two recent municipal elections," Mr. Carty replied.

"Is Mr. Ashplant's reputation such as to make such statements as this generally believed when he makes them?" was Mr. McCrea's next question.

"I don't think that is a fair question. It would be merely a personal opinion," replied the witness, and refused a further statement on this point.

"Well, is Mr. Ashplant given to making irresponsible statements?" Mr. McCrea pressed.

"He's given to making statements," admitted the witness, avoiding any qualifying word.

A Varied Reputation.
Questioned further, he said he supposed Mr. Ashplant's reputation varied with different factions in the city. He would not say whether Mr. Ashplant was identified with any particular section of the Labor party.

"If Mr. Ashplant is given to making irresponsible statements, why do the newspapers report them?" Mr. McCrea asked.

"I can't answer that," replied the witness. "It implies that I think Mr. Ashplant makes irresponsible statements, and that I know why other papers report them. If Mr. Ashplant says something that has news value, I suppose it is reported just as in the case of any other person."

At this point Mr. McCrea moved that the committee be adjourned in order to give Mr. Ashplant an opportunity of giving his version of the affair, and also to hear other witnesses.

The advertiser reporter who attended the council meeting for The Advertiser corroborated Mr. Carty's statements, as made to the committee, and also the reference to Mr. Ashplant's statement which appeared in The Advertiser's account of the meeting. In reply to a question from C. Hicks, East Middlesex, he stated that Mr. Carty and he had not compared notes before writing their accounts of the meeting.

BRIBERY ALLEGED.
TORONTO, April 21.—Charges of attempt to bribe members of the Legislature made by Andrew C. Hicks at the Middlesex election apparently petered out at the special session of the committee on privileges and elections this afternoon.

Mr. Hicks declared that he was satisfied with Mr. Fox's probity, and that he had misunderstood what he had said about bribes. Several members of the committee rose and asked that the whole matter should be dropped.

In an exciting session Mr. Hicks was grilled by Herbert Lennox about the sensational statements at the East

KRONSTADT SAILOR EARLY ANTAGONIST OF THE BOLSHEVIKI

He Has Always Fought For More Liberal Rule, Says Capt. McCullagh.

WOMEN THE FIERCEST

Had To Walk Across Frozen Gulf To Get Food Liable To Seizure.

REVAL, April 21.—Kronstadt has been called by the Reds "the ornament and pride of the Russian revolution" (Krasa e Gordost Rossieskoi Revolyutsii) because it was the first place in Russia to take the side of the Bolsheviks, so that the latter now shows ingratitude if they maintain that the "back of the Kronstadt sailors" to use Trotsky's words, who constituted the garrison of the island fortress, have no influence on the Russian masses.

For the last six months Kronstadt has been steadily drifting into opposition to the Soviet regime. This opposition was due to various causes. Most of the sailors got extremely "fed up" as an English blue-jacket put it, at being cooped up in one place, especially as that place happened to be a dreary little island without any amusements, the food, fuel and clothing difficulties from which all Russia is suffering hit the Kronstadters very hard; there was keen disillusionment at Lenin's failure to produce the Socialist Paradise that he had promised; there was a feeling of being deceived, as the slack discipline led, as slack discipline always leads, to such intense discontent that a blowup of some kind became an absolute physical necessity.

The sailors were not allowed to live in the town or to visit the town often, and they objected to these restrictions on their liberty. There were 1,000 men aboard the Petropavlovsk, but the number of Communists among them had fallen to 100. They grew to hate the civilian commissaries, and during the last few months no commissary dared to venture aboard the vessel. The sailors, in order to carry food thence on their own backs. This long daily walk was not, however, what the women objected to most. The difficulties of getting permits as their replacement of the usual Bolshevik salutation of "tovarishch" (comrade) by "bratishka" (little brother). The heads of the local Soviet were Bregman and Hertzberg.

The fiercest opponents of the Soviet regime were the women of Kronstadt. Owing to the insufficiency of the food served out free by the Government, these women had to walk almost daily across the ice to the mainland in order to carry food thence on their own backs. This long daily walk was not, however, what the women objected to most. The difficulties of getting permits as their replacement of the usual Bolshevik salutation of "tovarishch" (comrade) by "bratishka" (little brother). The heads of the local Soviet were Bregman and Hertzberg.

When the committee took up the Ashplant case Arthur C. Carty, the newspaper reporter of London, local correspondent of the Toronto Globe, was sworn by Mr. Brackin. He verified the dispatch in which Ex-Alderman Ashplant's charge was cited and told of the meeting at which the charge had been made.

In an interview with witness Mr. Ashplant explained that he had merely mentioned Chas. McCrea carrying a gun, and not with the intention of implying that the member for Sudbury had been offered or had accepted, a bribe.

Mr. Ashplant had been before the council as a member of a deputation from several labor organizations, Mr. Carty stated.

"Has Mr. Ashplant such a reputation in the community that the public is likely to believe them?" asked Mr. McCrea.

"His friends would believe him, I suppose."

"But would he be generally believed?" "I don't think that is a proper question."

Is he in the habit of making irresponsible statements?" Mr. McCrea insisted.

"He is in the habit of making statements," Mr. Carty countered.

Questioned by Mr. Ferguson, witness admitted that he had heard that there were two wings in London labor circles, and that Mr. Ashplant was a leader in one of them.

Herbert Penny, reporter of the London Advertiser, was next called. He corroborated Mr. Carty's report of the council meeting. He stated that he and Mr. Carty had not compared their notes before writing their respective articles.

RAIN EXTINGUISHES FIRE.
ST. MARYS, April 21.—Torrents of rain falling at the time helped greatly in getting a fire, which broke out in a dwelling above Sinclair's barber shop here tonight, under control. The fire department responded hurriedly, but found the rain had kept the blaze within limits. The damage was slight.

BRITISH EXHIBITORS TIRE OF OLD FILMS

Resolve To Stop Booking Those To Be Shown After Aug. 31, 1922.

LONDON, April 21.—A serious agitation against the system which fills British cinemas with old films came to a head this week, when the general council of the Cinematograph Exhibitors' Association adopted the following resolution: "Exhibitors shall cease to book films which are to be shown after August 31, 1922. The system of booking films in blocks must be given up. Exhibitors are to ask renters of pictures for a rebate of 25 per cent on pictures already booked under contract."

Matters have come to such a pass that cinemas have booked pictures as far in advance as the middle and even the end of 1922, while the renters who have bought and paid for the pictures must wait two years for the money agreed on for the showing.

The action should interest American distributors because of the majority of pictures shown here, certainly the most popular of the productions in America, which necessarily were booked up many months ago. Even some American war time pictures are being shown now, and Chaplin's "Shoulder Arms" is all the rage.

A dramatic critic commenting on Chaplin this week said that he had read in New York papers of the great hit made by "Charlie Chaplin's latest picture" ("The Kid") and he felt that there must be something wrong with British management, because it could not be expected to see this picture here for many months yet.

The whole industry upon a basis of operation, but there is fear of crushing the small man by a combination of big ones. The proprietor of one of the largest circuits says that the public is tired of seeing pictures two years old, and adds that "the time has come when we must show the newest and best pictures, no matter in what country they are made."

VOLCANOE PUT TO WORK BY HAWAIIANS

The volcanoes of Hawaii, whether dead or alive, are working for or against the people.

Honolulu has just tapped the extinct crater of Paioho, overlooking the city, and is getting therefrom 2,000,000 gallons of drinking water daily. Hilo, on the island of Hawaii, is raising a fund to tap the active volcano of Kilauea and utilize the tremendous volume of gas, steam, and lava for industrial and other purposes.

The cup-shaped tops of the extinct craters around Honolulu are known to act as collection and storage reservoirs for immense amounts of water. A great deal of this has been seeping out through the sides of the former volcanic hills. Recently the Honolulu waterworks department went prospecting for new sources of supply, decided to bore into the side of Paioho crater and when the boring was completed, obtained 2,000,000 gallons the first day, and then jumped to 2,000,000 gallons daily.

While Honolulu has been experimenting with water, Hilo has been discussing the possibility of fire, as evidenced in the great overactive volcano Kilauea, thirty miles from that city's door. Scientists declare that its pent-up gases have limitless possibilities for an industrial and power of generation, while they also contain all the food elements necessary to sustain the human body—carbon, nitrogen, hydrogen and lime.

Already \$1,500 has been subscribed to the fund for experiments at Kilauea and this, it is hoped, soon will be swelled to the \$5,000 necessary to do preliminary work.

SENSATIONAL SALE

3,400 Pairs of Men's Socks at 1-3 the Original Prices
On Sale Saturday Morning at 8 o'clock

Men, just think, you can buy your entire summer's supply now!

PURE SILKS, spliced heels and toes, regular \$1.50 pair (slightly imperfect), at **59c**
4 PAIRS \$2.00

4 PAIRS \$2.00

SEVEN PAIRS FOR \$1.00—HEAVY COTTON LISLE SOCKS, in brown and black shades, slightly imperfect, regular 50c value at **7 PAIRS \$1.00**

We must limit you to seven pairs of these, as our supply is only 500 pairs at this price. No dealers' orders filled.

Pure Silks, Silk Lises, Silk and Wool, and Cotton Socks

In slightly imperfect goods; made by Canada's best high-grade men's hose makers. We cannot mention the name of this nationally advertised line of men's socks, but Orth's merchandising methods are well enough known in London and district to assure you of a real sock if we say so publicly. And this is the unfortunate part of this sale—there are only 3,400 pairs, not enough to go around, so be here at 8 o'clock. This is 30 minutes earlier than the usual opening of this store, just to accommodate the down town working chaps who must be at work by 9.

They include the favorite shades of grey, slate, tan, brown, black, white, champagne and a few purple. The sizes are all here from 9 to 11½—and hundreds of pairs to select from. The imperfections are so slight that it is real fun to select a dozen pairs without any noticeable defects.

On sale on main floor. We have a dozen salespeople to serve you, five deep, only don't crowd, please. Quick service, as all lines are specially grouped and ready for your pick.

Sold Only Saturday

We cannot guarantee to fill phone or C.O.D. orders after 12 o'clock.

INFANT DIED THROUGH NEGLIGENCE, JURY'S VERDICT

Third Man Arrested on Charge of Stealing Case of Whiskey.

SARNIA, April 21.—No new developments were brought to light at the inquest held at Clark's School house today into the circumstances surrounding the discovery of the body of a male infant, who was found on the side road on April 11, and in substance the following verdict was rendered by the coroner's jury: "We, the undersigned jury, after hearing the evidence find that the unknown newborn baby came to its death by some unknown persons or person through neglect."

Roy Smith was arrested by Provincial Officer Lowe today and brought to the city police station, where he is being held pending trial on a charge of being implicated in the recent theft of a case of liquor at the village of Cornwall. This is the third man arrested on this charge, the other two, John Porter and Joseph Birmingham, having been released on suspended sentence.

DAYLIGHT SAVING IN OTTAWA.
OTTAWA, April 21.—The various departments of the Government are to observe daylight saving hours in conformity with the proclamation to be issued by the mayor. This will insure a general observance in Ottawa.

City council recently decided to have the mayor issue a proclamation requesting the citizens to observe daylight saving from May 1 to October 1.

EXTENSIVE ADDITIONS TO LIGHTING SYSTEM

E. V. Buchanan Working On
Report for the P. U. C.

ORNAMENTAL LIGHTS

City Council Will Be Ap-
proached On the Matter
Shortly.

Extensive additions to London's or-
namental lighting system may be
undertaken in the near future. General
Manager E. V. Buchanan is at work on
a report for the public utilities com-
mission. If this is adopted, the city
council will be approached with a pro-
posal that will greatly enlarge the
present lighting equipment.

The matter was first discussed dur-
ing the war, and a comprehensive re-
port was made. Owing to the shortage
of power at that time and the war-time
restrictions on lighting, nothing was
done. Now that plenty of power is
available there are bright prospects for
the scheme being undertaken again.

The several changes may be made in the
previous report. It provided for ex-
tending the ornamental system on Dun-
dus street as far as Queen's Park. At
present it only extends to Waterloo
street. The report also proposed that
ornamental lights be placed on Rich-
mond street, from the G. T. R. tracks
to the C. P. R. tracks. They only ex-
tend from the G. T. R. to Kent street
at present.

Additions to the lighting in other
parts of the city were also recom-
mended. Lights on many streets were
suggested for some of the more im-
portant thoroughfares.

JESSE MAY SLEEP NEAR THE POLICEMEN TONIGHT

Was Not Aware of Free Lodging House
on Carling Street.

Although Jesse Collins had taken off
his shoes and gone to sleep in a shed
at the corner of Oxford street and the
West London railway last night, Magistrate
A. H. M. Graydon did not think that the man was the common
garden variety of vagrant, and allowed
him his freedom this morning. At the
same time, he advised Jesse to come to
the police station for a night's lodging
if he could not secure enough money to
buy a bed tonight.

Collins said that he had been a hard-
working man, but work had become
scarce, and his landlady had a \$24 debt
against his trunk. He could not walk
the streets all night, so he decided to
sleep there. He said that he would like
to be released so that he could search for
work. He was not previously informed that one could
be a lodger at the police station without
being a prisoner, and so had not sought
refuge there.

NO DEVELOPMENTS IN ST. CAR SITUATION

A. B. Ingram in City For a
Short Time On Routine
Business.

Although A. B. Ingram, vice-chairman
of the Ontario Railway and Municipal
Board, was here today there were no
developments in the street railway
situation. He was only here a short
time for the purpose of carrying out
routine business in connection with the
administration of the road.

Manager C. B. King is still out of
the city, and it is not expected there
will be a conference between the men
and the company until next week.

MRS. M. J. LEVITT IS CHARGED WITH BREACH OF ONT. MEDICAL ACT

Case Adjourned One Week by Magis-
trate Graydon This Morning.

Mrs. M. J. Levitt, 390 Ridout street,
was charged in police court this morn-
ing with a breach of the Ontario Medi-
cal Act, John Fyfe of the Ontario Medi-
cal Society alleging that she practiced
medicine or surgery without a license,
and pretended to be able to cure can-
cers. The case was adjourned one week.
It is alleged that a Mrs. Gleason of
Nissouri, one of her patients, was treat-
ed last April and died.

She also alleged that she sells cancer
plasters, patented by Henry Edwards of
the Henry Edwards cancer hospital,
which was said to have been located on
Ridout street at one time.

U. S. Buchner, who is acting for the
defendant, says that Mrs. Gleason was
cured of cancer, but later died through
natural causes. He did not agree with
the adjournment of the case, saying that
he also witnesses had come from as far
away as Waterloo.

SUGGESTS PLAYGROUND IN RING AT QUEEN'S PARK

Ald. Wenige Would Like to See Space
Utilized.

Making a public playground in the
centre of the race track at Queen's
Park will be suggested by Ald. W. A.
Wenige at the next meeting of No. 1
committee of the council. He will recom-
mend that the proposed be taken up
with the Western Fair Board.

He pointed out that at the C. S. E.
T. games in the armories Thursday
night, which were well attended, the
present playground was a fraction of the
space that should be engaged in ath-
letic games. More of them would join
in if there was a big playground avail-
able, entirely free from restrictions. These
could be obtained by carrying
earth from all the streets now being
graded and spreading it in the centre
of the racing ring. It could then be
rolled and packed and would make a
fine field for baseball, football and
other sports. Amateur organizations of
all kinds would be permitted to use
it without restriction. Many more boys
and young men would become interest-
ed in physical training, he thinks.

He also suggested tearing down the
present platform in front of the grand
stand and replacing it with a collapsible
stand.

He did not think the plan would in-
terfere with arrangements the fair
board may have with racing associa-
tions, but even if it did to a slight ex-
tent he contends that the welfare of
the boys is more important than racing.

Perhaps you want a domestic in a
hurry. Then use The London Advertiser's
classified column and you will be
quickly supplied because everybody
reads The London Advertiser.

STILL ENJOYING LIFE AT THE COUNTY JAIL

Murrells and Williams Pro-
vide Entertainment For
Murphy and Wafer.

ORNAMENTAL LIGHTS

City Council Will Be Ap-
proached On the Matter
Shortly.

Extensive additions to London's or-
namental lighting system may be
undertaken in the near future. General
Manager E. V. Buchanan is at work on
a report for the public utilities com-
mission. If this is adopted, the city
council will be approached with a pro-
posal that will greatly enlarge the
present lighting equipment.

The matter was first discussed dur-
ing the war, and a comprehensive re-
port was made. Owing to the shortage
of power at that time and the war-time
restrictions on lighting, nothing was
done. Now that plenty of power is
available there are bright prospects for
the scheme being undertaken again.

The several changes may be made in the
previous report. It provided for ex-
tending the ornamental system on Dun-
dus street as far as Queen's Park. At
present it only extends to Waterloo
street. The report also proposed that
ornamental lights be placed on Rich-
mond street, from the G. T. R. tracks
to the C. P. R. tracks. They only ex-
tend from the G. T. R. to Kent street
at present.

Additions to the lighting in other
parts of the city were also recom-
mended. Lights on many streets were
suggested for some of the more im-
portant thoroughfares.

JESSE MAY SLEEP NEAR THE POLICEMEN TONIGHT

Was Not Aware of Free Lodging House
on Carling Street.

Although Jesse Collins had taken off
his shoes and gone to sleep in a shed

MILITIA UNITS TO ATTEND CHURCH ON SUNDAY AFTERNOON

Sixth Anniversary of Battle
of Ypres To Be Com-
memorated.

TO FORM UPON MARKET

Lieut. Col. W. G. Coles To
Have Charge of Parade.

Final plans for the commemoration
of the sixth anniversary of the Battle
of Ypres, in which the Canadian forces
so gallantly distinguished themselves,
were completed on Thursday afternoon
at a meeting of a committee of war
veterans and members of the headquar-
ters staff of Military District No. 1.

The parade will form up on the mar-
ket square at 2:30 o'clock, headed by
the G. W. V. A. Band. Sgt. Mitchell
and Pte. J. Gordon, two former mem-
bers of the first contingent, will carry
two memorial wreaths, and will follow
the band. Next will come members of
the G. W. V. A., Army and Navy and
Grand Army of United Veterans' Asso-
ciations and ex-soldiers; nursing sis-
ters and members of the ladies' auxil-
iaries of the different soldier organiza-
tions; Ontario Canadian Regiment; West-
ern Ontario Regiment; 1st Hussars; Ma-
chine Gun Brigade, and the Boys' Naval
Brigade.

Brigadier General H. A. Panet, C.B.,
C.M.G., D.S.O., general officer com-
manding M. D. No. 1, and his staff will
take the salute at the entrance to the
cathedral square.

Lieut. Col. W. G. Coles will be in
charge of the parade, with Major Ches-
ter Butler as adjutant.

Sgt. Major Nanfan will sound the
"Last Post," as the two wreaths are
being unveiled.

Rev. C. W. Foreman, curate of St.
Paul's Cathedral, will preach the ser-
mon. Rev. Mr. Foreman was an over-
seas chaplain.

Although the battle was fought six
years ago today, no special ceremonies
are being held in soldier circles.

The line of march is as follows: From
the Market square to the Market Lane,
to Dundas street, east on Dundas to
Wellington street, north on Wellington
street to Queen's avenue, west on
Queen's avenue to the cathedral square,
and north on Richmond street to the
cathedral entrance.

Several out-of-town veterans are ex-
pected to attend.

All members of the different military
units in the city, instead of turning out
in full as at first announced, will wear
their uniforms, and will find markers
of their units to fall in on at the
market square at 2 o'clock, shortly
after. The different unit commanders
request particularly that the men turn
out promptly on time, in order that no
delay will occur in forming up the gen-
eral parade.

HIGH SCHOOL BURNED YEAR AGO TONIGHT

Building of New Collegiate
Not Started Yet, But
Tenders Called.

Today is the first anniversary of the
burning of London's Collegiate Institute.
The first brick of a new building has yet
to be laid.

The blaze, which was attributed to
lighting broke out in the chemical room
on the third floor of the building about
11 p.m., and before it was noticed had
gained a tremendous hold. All efforts
to save the building were futile, and it
was a complete ruin when pupils ap-
peared for classes the next day.

Divided policy as to whether a cen-
tral school should be built to replace it
or whether there should be three schools
in different sections of the city pre-
vented rebuilding immediately.

Tenders for a building on the old site
have been called at last, however, and
are to be opened by the high school com-
mittee a week from Monday. Just what
steps will follow that are not known yet,
and no plans have been made to mark
the turning of the first sod for the new
structure.

SOCIAL SURVEY REPORT TO BE READY SHORTLY

Will Cover Every Phase of Life in
London—Council to Meet April 28.

A meeting of the London Social Ser-
vice Council will be held on the 28th of
this month in the Y. M. C. A., when a
program of work will be mapped out for
the coming year. During the last two months the activi-
ties of the council have been somewhat
suspended, the efforts of the workers
being confined to the temperance cam-
paign.

The report of the social survey taken
of the city some time ago will be pre-
pared for printing shortly and placed
in the hands of the public. The sur-
vey will provide interesting reading re-
garding the city, as every phase of life
in London was thoroughly covered. The
industrial relations committee has not
yet handed in its report and the church
census is to be finished before the sur-
vey is completed. It is expected that
the report will be issued shortly.

SOLDIERS EXEMPT FROM STATUTE LABOR TAX

While a soldier's life may not al-
ways be a happy one there are some
compensations for being a member of
the active militia. Although it is not
generally known, enlistment in any
militia regiment exempts the recruit
from statute labor tax. This is not
quite so new as it sounds, however.

The statute officials in the assessment
department when they cannot collect
statute labor taxes collect income taxes
in their stead.

A married man who happened to be
boarding instead of living in his own
home would benefit by the ruling. His
income would be exempt up to \$2,000.
Heavy qualifications for the exemption
must be met, however, and the soldier
and his enlistment in the militia
would exempt him from the statute
labor tax.

The statute labor tax is levied on
every male inhabitant of the city be-
tween the ages of 21 and 60 years who
is not otherwise assessed.

BOYS' ELECTION

Result of Voting for Boys' Community
Council To Be Announced
Tonight.

The results of the election for mayor
and eight commissioners of the boys'
community council will be announced
this evening at the conclusion of the
Tuxis boys' athletic meet in the Ar-
mories. About 100 Trail Rangers cast
their ballots on Thursday evening. Rep-
resentatives from The Advertiser and
Free Press editorial departments will
count the ballots.

Harold Richmond and Allan Kay, the
two nominees for mayor, and three com-
missioner candidates, spoke to a large
number of the Trail Rangers before they
entered the Armories on Thursday even-
ing.

OPEN NEW FALLS PARK

Toronto, April 22.—All arrangements
have been made for the opening of the
new park, Niagara Glen, at the foot
of Whirlpool Rapids, on the Niagara
River. This will be the third park
operated by the Niagara Park Niagara
Falls Power Commission.

From the north of the city of Niagara
Falls the commission is building a road
to the foot of the glen, along which will
be placed a refreshment pavilion and an
athletic field.

STANDARD MINING EXCHANGE

Toronto, April 22.—This morning's
session of the mining exchange was
productive of fair trading activity, al-
though not as brisk as yesterday morn-
ing. Some mines, after opening at
lower at \$23.50, dropped to \$23.30, but
later picked up to \$23.40, at which
figure they closed. A few others ad-
vanced to 14 1/2c. Lake Shore was up 2
points at \$1.25. McIntyre closed at
\$2.00, 7 points in advance of yester-
day's closing quotations. Beaver, in
the silvers, showed fractional fluctua-
tions opening 1/2c lower at \$4.85, rising
to 3c, and closing at 3 1/2c. Total sales
approximated 64,420 shares.

BUILDING FIGURES STILL MOUNTING

Total for Month of April Now
Stands At \$200,315.

While there are eight more days in
which building operations are started
this month, the building figures are almost
equal to the total attained during the
whole month last year. They total to-
day, \$200,315, while during the whole
month last year they only reached
\$215,510.

With the totals for the previous month
of the year it amounts to \$457,530, which
is nearly \$100,000 ahead of the total for
the same period of the end of April last
year. Building Inspector A. M. Piper
is confident that the half-million
dollar mark will be reached by the end
of the month.

R. Martin gave a permit today to
build a one-story stucco house on Smith
street, at a cost of \$3,000. George Ven-
ner was given a permit to erect a one-
story frame addition to 40 Saulty
street, at a cost of \$800.

PROPOSED MEASURE

paid by the people who ride over the
systems. They did not think the rail-
roads should have the right to say
that a franchise should continue and at
the same time disregard agreements
regarding the rate of fares.

Mr. Hannaford's motion was not
carried. The rates were set at the
time of the agreement. There was noth-
ing in the McCrear bill which provided
that the fare shall be reasonable. "We
are quite satisfied with the conditions as
they are in Hamilton and for that reason
and many others we oppose this bill."

Mayor Copley stated that the bill
would destroy the rights of the people
that the provincial Legislature should
protect.

Mr. McCrear "Can you put your finger
on the section that you claim is vici-
ous?"

Mayor Copley: "The bill is directly
against the unassailable will of the
people."

"You will find 10 to 1 against it."

Mr. McCrear "The member for Peter-
boro tells me that their increase was
illegal."

Sir Adam Beck "That is a Govern-
ment road."

Not a Square Deal.

Hon. Walter Holo, minister of Labor
at this point protested against the cross
fire. He claimed that a fair hearing
had been given. Mayor Copley had,
however, completed his remarks.

"The whole bill is vicious," stated
Ald. Morrison of Hamilton. "You mem-
bers of the committee can heckle me all
you like. The only man you gave a
decent hearing to was Controller
Maguire of Toronto, and you had to
listen to him because he yelled so loud."

Mr. Lennox (North York) "Suppose
we do not make the agreement effec-
tive until September 21."

Mr. Morrison claimed Mr. Lennox's
offer as a "bribe." Toronto is a big
city and you offer to take it out. To
leave the rest of the smaller cities to
struggle."

On objection being raised Mr. Mor-
rison changed his "bribe" to "offer."

He contended that if Mr. McCrear
looked into the bill he, himself, would
see that it was not giving the people a
square deal.

No decision was reached by the com-
mittee, which postponed consideration
of the bill until Wednesday next.

THREE MONTREALERS KILLED WHEN TRAIN STRIKES MOTOR CAR

Accident Occurs Two Miles
North of Lacolle, Que.

Montreal, April 22.—Canadian Press.
—Three Montreal people were killed
and three others, also of Montreal, were
injured at 9 o'clock last night when
an automobile was struck by a southbound
train of the Delaware and Hudson Railway
at Hughes' crossing, two miles north
of Lacolle, Quebec.

The dead are Isidore Beaudin, 50,
of 748 Lafrance street; fractured skull.
Mrs. I. Beaudin, 42, same address,
wife of above; fractured skull.
Leona Blair, three months old, fractured
child of the two deceased, fractured
skull.

The injured who, except Mrs. F. L.
Blair, 24, of above address, fractured
arm, were not seriously hurt, were tak-
en to the Champlain Valley Hospital at
Plattsburg at 12:30 this morning.

ECLIPSE OF MOON

Curtain of Clouds Hid Antics From Lon-
doners Early This Morning.

The moon was eclipsed last night. It
might have been turning somersaults as
far as Londoners were aware. A heavy
curtain of clouds hid all its antics from
the gay "night-lifers" of the city who
had stayed awake until 2 a.m. in the
hope of witnessing the event.

Astronomers pledge their word, how-
ever, that the queen of the night was
in total eclipse, and that, barring con-
ditions such as prevailed here, it was
visible in all parts of the continent.
It rose at 6:42 p.m., went into eclipse
at 2:24 a.m., was totally eclipsed at 2:44
a.m., and was fully visible once more
at 3:05 a.m.

AUSTRALIA'S EXPENSES IN LEAGUE \$340,000

Melbourne, April 22.—Australia's ex-
penditures for the representation in the
League of Nations from its inception
to the end of the present financial year
will approximate a total \$340,000 ac-
cording to a statement made in the
House of Representatives by the fed-
eral minister of the treasury.

TORONTO STOCK EXCHANGE

Toronto, April 22.—Ridion Paper and
Steamships issues, which have been in
the spotlight on the local stock ex-
change for the past few days, had to
give way this morning to Toronto Rail-
way. Rails was by far the most ad-
vanced stock on the list. Likewise the
strongest, and on dealings of 400 shares
advanced to 7 1/2c, a gain of almost 4
points from last night's close. The
stock closed the morning session at 7 1/2.
Ridion, while lightly dealt in, was
quite erratic in its movements, ending
at 42 1/2c, with the close at 40 1/2c, a
2-point loss from the last sale yester-
day. Trade in Steamships confined within
limits of 1/2c for the common and 1
point for the preferred, with the former
closing at 47. Brazilian was active and
gained 1 point during the morning.
Developing in the mining stocks in the
unlisted department.

W. H. HEWLETT GIVES FINE ORGAN RECITAL

Music Lovers Appreciative of Program in First Presbyterian Church.

The music lovers of London turned out in large numbers last evening to the First Presbyterian Church to hear W. H. Hewlett of Hamilton, at one time a well-known musician of this city, give an organ recital under the auspices of the London Organists' Club. His program recalled other delightful organ programs given here some years ago, when Mr. Hewlett's organ recitals were big events of the year. Beginning with the "Prelude and Fugue" in E minor (Bach), and concluding with the brilliant "Toccata in F" by Thomas J. Crawford, the organ numbers were a succession of delightful moments. Assisting Mr. Hewlett was Mrs. Harold Hamilton, a soprano with a powerful and rich voice.

"Marche Russe" (Schwinke) was an organ number which was played with brilliancy, its majestic and triumphal ending filling the whole church with "glorious" sound. "Scherzo Caprice" (Bernard), was another big number, but in lighter vein. Bernard Johnson's "Aubade" and "Pavane" were also de-

lightful numbers, as were "Humoristique" (Tschakowsky) and "Sour Mouque" (Couperin). Each number on the program was a happy selection. Some beautiful songs were rendered by Mrs. Harold Hamilton, not the least beautiful of which were "God's Garden" (Lambert) and "A Ballad of Trees and the Master" (Chadwick) sung with dramatic force. Mrs. Hamilton's voice is rich and full, admirably well adapted to sacred songs. Her other numbers were "I Moura as a Dove" (Benedict) and "A Burst of Song" (Allitsen).

HOSPITAL REQUIRES 2,500 TONS OF COAL

Victoria Board of Trustees Awards Contract for Annual Supply.

Tenders for coal for the ensuing year were received by the board of trustees of the Victoria Hospital at a meeting held on Thursday. The contract was let to W. Woollett & Sons, the lowest bidder. It is estimated that 2,500 tons will be burned at the hospital throughout the year.

The house committee was authorized to make preparations for graduating day. On May 11, 23 nurses who will have completed three years' training will receive diplomas.

During the month of March 403 changes were made among the patients of the hospital. Of these, 123 were admitted to the institution while 423 were discharged. The births numbered seventy-two, exceeding the number of deaths by one. In the out-door department 224 were treated.

The cash receipts for the month totalled \$14,555.99. Accounts for \$24,550 were paid.

MAY RECOVER \$1,250,000 FROM DIRECTORS OF BANK, SAYS U. S. COURT

SPRINGFIELD, Ill., April 21.—Recovery of \$1,250,000, the capital and surplus of the defunct LaSalle Street Trust and Savings Bank of Chicago from the bank's former board of directors, including the non-active directors, was provided for today in a decision by the state supreme court.

TWO FINANCIAL BILLS PASSED.

OTTAWA, April 21.—(By Canadian Press.)—The standing committee on banking and commerce this morning passed a bill to incorporate the North American Trust Company of Canada, with initial capital of \$1,000,000. This had been held back on account of objections to the name of the company. The next bill discussed referred to the Credit Foncier Franco-Canadien. This loan company was instituted in 1818, and had only provincial rights at first. These were extended by federal act to cover the Dominion. It was ascertained that the special federal act controlling this company limits interest to 8 per cent, and the company wished to be able to charge the higher rate allowed in some of the provinces. In competition with other loan companies, the bill was carried.

MUST HAVE SENSE OF PROPORTION, SAYS PREMIER DRURY

Declared Other Educational Institutions Besides Universities Need Some Financial Aid.

TORONTO, April 21.—Two things the province must remember in deciding upon a policy of aid to universities, Premier Drury told the Legislature today in discussing the university estimates. One was the financial ability of the province to pay. The other was a due sense of proportion between the universities and other educational institutions that needed support as well as universities.

"There are a great many people in Ontario who never have, and who cannot, get the inside of a university, and we must meet the educational needs of Ontario in a manner to give due regard to all."

Dr. Hugh Stevenson of London said that the Government had done right in making the grant it had to Western University. He thought that it would become the provincial university in a short time for the western part of the province. It cost the citizens of London \$175 a head to keep the Western University going. If the citizens of Toronto duplicated that, he said, they would be providing \$600,000 to \$700,000 a year.

Dr. Stevenson did not approve of the succession duties as the basis of financial aid for the universities. There was a probability they would decrease in the future, he said, particularly in view of the increasing scale of taxation. He criticised the apparent failure in the past of universities, and said that people went to correspondence schools and earned more money than graduates of universities.

"The universities should reach out and get hold of these people," he said. He praised the extension course of the University of Toronto, but thought that the people who got the benefit of it were entitled to it. He prophesied the time when a big university in the North Country would be necessary to take care of educational needs of the people of that section of Ontario.

Mr. H. H. Dewar said that Western and Queen's Universities with larger endowments could give the same education as that given in the University of Toronto. He agreed that succession duties was the proper basis upon which money should be granted to universities.

OFFERED JUDGESHIP

It is stated in London that Sir Edward Carson has been offered an appointment as an English judge. The Unionist Irish leader is expected to accept the appointment.

SINN FEIN WOULD KEEP YOUNG MEN IN EMERALD ISLE

Recent Order by Republican Parliament Directed To This Purpose.

DUBLIN, April 21.—The decree just issued by the "Irish Republican Parliament," prohibiting emigration from Ireland, "without permission from the proper authorities," although it is directed against all emigration, was directly occasioned by the heavy increase in emigration to the United States so far this year, it was declared here today. The numbers of Irishmen applying at the United States consulates in Belfast, Dublin and Queenstown for visas have been so great recently that the consulates' staffs have been working to the limit to keep up with the demand. At Queenstown police assistance was required to regulate the lines that formed outside, and to enforce the arrangement that twenty persons only should be admitted at one time.

A considerable proportion of the migration has been of young women.

WORK OF INCENDIARIES.

CORK, April 21.—An attempt was made Wednesday night to burn the residence of the Most Rev. M. Fogarty, lord bishop of Killaloe, Ennis. The front of the house was well ablaze when the fire was discovered and extinguished. A petrol-soaked cloth lay near the front door. Five men were seen fleeing. Two of them were arrested. A neighboring residence was burned to the ground shortly before the bishop's house was set on fire.

THREE ARE KILLED.

DUBLIN, April 21.—A former soldier, John Reilly, was taken from his home by armed men last night and shot dead on the road at Ballycar. One civilian was killed and another wounded when the party of which they were members was discovered by military patrol in the act of destroying a bridge on the Charleville road, County Cork, today. The military suffered no casualties.

The Burtonport railway has been closed because of repeated train hold-ups along the line. During the course of last night every station of the road was raided, and all goods found were carried away or burned.

LONDON'S LUNATICS FEWER AFTER WAR

New Low Record Since 1892 Is 25,000, Showing Increase in Mental Health.

LONDON, April 21.—There are fewer lunatics, but more worries in England than before the war, according to an encyclopaedia published by the London County Council recording everything pertaining to social, industrial and municipal life. It is the first appearance of the book since pre-war days.

The war has conspicuously increased the mental health of London. Since the beginning of 1915 the number of lunatics dropped from 21,000 to 25,000 in 1919, establishing a low record since 1892.

Blacks and Jews are shown in the pages and find themselves to blame. It is shown that voters have evinced a decided apathy when offered an opportunity to vote, 33 per cent of the post-war being the highest recorded. In one district only two in every hundred voted during the early hours and the vote never exceeded five in every hundred on one of the most important issues.

There is a more healthful city than ever before. There were practically no deaths from fever. The book shows that influenza rarely kills young babies, but is as dangerous as measles to children between 1 and 5 years and most dangerous between 15 and 25, but not worse than tuberculosis between the ages of 45 and 65. At 65 the Londoner seems practically beyond the grip of influenza, tuberculosis and even cancer have lessened, much of their power, while the principal enemies of life are bronchitis, pneumonia and heart trouble. Tuberculosis begins to lose its power at 40.

The greatest landlord in England, receives rent rolls amounting to more than \$1,000,000 a year from 40,000 tenants. Last year showed a drop of 1,250,000 in the number of novels circulated, as compared with 1914, showing that London is reading less. There was a drop of 600,000 in the number of readers of general literature, while the number of borrowers of reference books decreased by 60,000.

Bakers are not so honest as before the war, judging by the number of offences listed against them, but coal merchants are more honest.

PARIS MAY DAY RIOTS EXPECTED AS IN PAST

Cafes To Close Until Evening—Buses and Cars To Stop.

PARIS, April 21.—The usual four-hour battle between the extremists and Paris police will likely take place Sunday, May 1, when labor stages the annual demonstration of its power. The police have decided, as in former years, not to allow any processions, and in view of the serious labor situation in Germany, England and Italy, there is some talk of placing tanks in controlling positions where radical hordes usually provoke thousands of youths to annoy the police. Riots are more or less seriously expected.

The syndicates have decided to confine their celebrations to a single day, although the liquor dealers wanted to remain open Sunday and have their own protest meetings on the following day. It has now practically been decided that all cafes are to be closed until late Sunday evening, while the employees of street cars, and automobile bus lines will refuse to allow a wheel to be turned, a fact which will save the companies much money, as last year there was hardly a bus on certain lines which did not have its windows broken by rioters.

But if the extremists hoped to provoke the police themselves to strike before May 1 they are disappointed, the union leaders are submitting the men's grievances to arbitration, and the police will be issued an extra quota of real ammunition, with authority to use it against any rioters.

PASSENGER SEASON OPENS ON MONDAY.

Fort William, April 21.—The passenger season from here on the Lake Superior route will start next Monday, when the steamship America will sail for Duluth, touching Isle Royale points.

BUBONIC PLAGUE IN EGYPT. Alexandria, Egypt, April 21.—Bubonic plague has broken out here, and an average of 35 cases are being reported daily.

A quarantine is being imposed and vessels are leaving the port in order to avoid being held here.

Minister de l'Agriculture de la Province de Quebec

Service de l'horticulture. Quebec, le 6 Avril, 1921

Messrs. Tilbury Brick and Tile Co., Ltd. Tilbury, Ont.

Gentlemen:— I acknowledge receipt of your shipment of 25,000 four inch tile which reached Portneuf last week.

Allow me to congratulate you on the way these goods were loaded on the cars. If we keep in mind the distance existing between Tilbury and Portneuf, it is surprising to note that out of a total of 25,000 tiles only 170 were broken. This testifies highly in favour of your factory, the quality of your tile and the care taken in view of protecting same.

I am having your account settled at once....

Thanking you for your prompt attention in this matter, I am,

Yours truly, (Signed) J. H. Lavoie, Chief of the Horticultural Service.

JHL/IM

Portneuf is situated 137 miles northeast of Montreal, and is 670 miles from Tilbury. The freight rate is nearly as great as the cost of the tile at Tilbury.

Cars shipped to Portneuf were switched at least five times. It takes exceptionally good ware to stand this strain.

Ontario Agricultural College tests show that "Tilbury Tile" stand greatest breaking strain, and are unexcelled in all other tests.

Buy "TILBURY TILE." THE TILBURY BRICK & TILE COMPANY, LTD. TILBURY, ONT.

U. S. COURT PHRASE USED WORLD OVER

"And It Is So Ordered" Near to Absolute Finality.

WASHINGTON, April 21.—The phrase "and it is so ordered," with which so many decisions of the United States Supreme Court are concluded, is accepted by the legal profession, not only of the United States, but of the world, as the nearest approach there is to absolute finality.

Petitions for rehearing of cases are not infrequently occupying much the same position in practice before the supreme court that the routine motion for a new trial does in the county or city courts, but on occasions on which the supreme court has granted such petitions are so rare that the exceptions are historical.

Necessity of bringing a legal dispute to a close at some point is said to have influenced the policy of the court in this regard. A policy which has stood since the days of Chief Justice Marshall. A secondary consideration is the fact that the court is always 18 months to two years behind its calendar, and unless optimistic attorneys were curbed, much of the most trivial "cause" might be prolonged almost indefinitely.

Only two clear-cut cases in which the court has agreed to reconsider its formal decision are recalled by veteran attaches. The most famous was the appearance of the late Gen. Benjamin F. Butler as a "friend of the court" to point out what he thought was a palpable error in the judgment given in American Emigrant Company vs. Adams County, Iowa. The story is told that Gen. Butler himself hesitated to take up the question of a rehearing, especially since the formal motion had been denied, but upon reading the decision in the case he determined that the highest American court should not be permitted to rest under the false construction it had promulgated.

"If your honors will read my brief, I am certain you will be inclined to thank me," he is said to have replied when the bench called his attention to the violation of practice—if not of clear ethics—he was making.

The court read the brief and voluntarily reversed itself.

The second outstanding incident was that of the original suits over the federal income tax, heard in 1895. The first judgment upheld the act partially, but declared it invalid in respect to certain important classes of property. Wm. C. D. Guthrie of counsel for the interests fighting the statute presented a petition for rehearing, although his associates are said to have argued strongly that "he let well enough alone."

"To their surprise the court granted the rehearing and finally reversed itself in part by declaring the entire act un-

SAYS SPOTS ON SUN ARE ALWAYS THERE

French Astronomer Tells of Discovery in Connection With Recent Eclipse.

CHANGTEH, Honan, April 21.—That made a lot of discoveries last week, when the moon during two hours eclipsed more than three-fourths of the sun's surface, the chief discovery being that of M. Moreux, an astronomer at Bourges, who reported to the French Academy that sun spots which heretofore have been considered occasional phenomena are always existent, but are observable for scientists of the world only under special atmospheric conditions.

Another astronomer, M. Violle, says that the eclipse was accompanied by definite changes in the electrical conditions surrounding the earth, and he is working on extensive calculations which are designed to show that there was considerable potential diminution during the height of the phenomenon, while one of his colleagues, M. Mascard, of the Lyons Observatory, is working out calculations in connection with the variations of light vibrations, which, it is believed, will be most useful to mathematicians.

M. Nordmann, a mathematician, who gained fame during the war as a result of his calculation of the distance of enemy guns by recording the vibrations following shell explosions, has now concentrated his attention on the mysterious Betelgeuse, which, he says, he is confident has a diameter 300 times greater than that of the sun.

PARIS WINE PRICES DROP; WATER SCARCE

Fair Quality of Vin Ordinaire Only a Franc.

PARIS, April 21.—A special provision must be watching over Paris is the interest of the thirst of its people. Simultaneously with the news that the capital's drinking water reservoirs are threatened with unprecedented depletion this summer, comes the assurance that wines of all kinds will be more plentiful and cheaper than since 1910, when a bottle of ordinary red Bordeaux was obtainable for 40 centimes (8 cents then). Nevertheless, Paris officials are preparing for filtration of the Seine water if this supply does not arrive, although the Seine product, even when subjected to latest processes, invariably retains an objectionable taste and odor.

An old French adage suggests that when it thunders in April it is time to get the terrace ready for the wine crop. It thundered twice during the first week this month, and promptly the retail prices of vin ordinaire from Bordeaux dropped as much as 75 centimes a litre, and in Paris the majority of retailers are now selling a fair quality for less than a franc a litre.

On the other hand, this condition may be taken as a warning by Germany, as plentiful wine means that the cantenous of the soldiers will be filled to overflowing with their favorite Pinard, which was admittedly one of the best methods of maintaining the solidarity and morale of the French divisions during the war.

MAY POSTPONE IRISH ELECTIONS.

LONDON, April 21.—The cabinet today discussed a request from Ireland for postponement of elections to the Southern Parliament. No decision was reached, and the matter will again be considered Thursday.

Mr. Lloyd George admitted in the House of Commons at today's session that the question was under consideration. If it were decided to postpone the elections he said the House would be given an opportunity to discuss the subject.

FOXHOUNDS FOR TORONTO.

MONTREAL, April 21.—The first shipment of foxhounds to be sent from the old country to Canada since the war passed through Montreal this morning en route from Waterford, Ireland, to Toronto, where they will augment the pack of George W. Beadmore, master of foxhounds in the Queen City.

The dogs, sixteen in number, arrived at St. John aboard the Melita from Liverpool Tuesday night.

The Crowning Millinery Event of the Season!

A Sale of Over 600 TRIMMED and TAILORED HATS \$2.85

We secured them at a price that enables us to place them on sale at less than wholesale cost. Every hat in this lot worth from \$4.00 to \$10.00. On sale tomorrow, Saturday only at \$2.85. See them in our window today, and we positively advise you to be here early Saturday morning.

Just arrived, 600 late Spring and new summer Tailored and Trimmed Hats of unusual character and quality, specially purchased for this event from high-class makers, who supply us with our Millinery.

Royal Millinery & Fur Co. 246 Dundas Street

The Magnet That Draws the Crowds

Day in and day out we offer the people of London the choicest Meats at rock-bottom prices.

7 Reasons Why You Should Deal Here

- 1.—Our cattle, hogs, lambs and calves are fresh killed daily in our own abattoir at Hyde Park.
- 2.—You are absolutely assured of no cold storage meats.
- 3.—We feed the most of our stock before slaughtering, thus you are assured of getting only the meats which we feed right.
- 4.—Our meats are chilled right and cooled right, being in only two different temperatures before going over the block.
- 5.—Our packing house is right here in London, employs London men and enjoys the reputation of turning out the finest bacon in the province.
- 6.—Our volume of business means lower operating cost, therefore we can sell cheaper to you.
- 7.—Our new fleet of delivery cars is now on the road and waiting to take care of your trade.

If Ruptured Try This Free

Apply it to Any Rupture, Old or Recent, Large or Small, and You Are on the Road That Has Convinced Thousands.

Sent Free to Prove This

Anyone ruptured, man, woman or child, should write at once to W. S. Rice, 1003 Main St., Adams, N.Y., for a free trial of his wonderful stimulating application. Just put it on the ruptured area and the muscles begin to tighten; they begin to bind together, so that the opening closes naturally, and the need of a support or truss or appliance is then done away with. Don't neglect to send for this free trial. Even if your rupture doesn't bother you what is the use of wearing supports all your life? Why suffer this nuisance? Why run the risk of gangrene and such dangers from a small and innocent little rupture, the kind that has shown thousands on the operating table? A host of men and women are daily running such risk just because their ruptures do not hurt nor prevent them from getting around. Write at once for this free trial. It is certainly a wonderful thing, and has aided in the cure of ruptures that were as big as a man's two fists. Try and write at once, using the coupon below.

Free For Rupture.

Cocoon Oil Fine
For Washing Hair

If you want to keep your hair in good condition, be careful what you wash it with.

Don't use prepared shampoo or anything else, that contains too much alkali. This dries the scalp, makes the hair brittle, and is very harmful. Just plain unsifted cocoon oil (which is pure and entirely greaseless), is much better than anything else you can use for shampooing, as this can't possibly injure the hair.

Simply moisten your hair with water and rub it in. One or two teaspoonfuls will make an abundance of rich, creamy lather, and cleanses the hair and scalp thoroughly. The latter rinses out easily and removes every particle of dust, dirt, dandruff and excessive oil. The hair dries quickly and evenly, and it leaves it fine and silky, bright, fluffy and easy to manage.
You can get unsifted cocoon oil at most any drug store. It is very cheap, and a few ounces is enough to last everyone in the family for months.

Clay Pipes For Girls Hygienic, Says Dean

Less Injurious Than Cigarettes, Dr. Johnson Points Out—
Briars Might Impart Man-Like Scent To the
Co-Ed Kisses.

NEW YORK, April 21.—While the blue laws hover menacingly over college life, some of the deans and students of New York University are gayly flirting with a radicalism that even the joy killers have not dared to face.

Pipes for women! Dean Joseph French Johnson proposes them. Of course, as Dean Johnson apologetically explained, if you turn the academic mind away from its beaten course, it is apt to be the most nonsensical sort and mind in the world. This he says, is why he was led to commit himself to hearty approval of pipe smoking for women. The dear ladies in London are doing it, he added. In fact, visitors from abroad say the fashion is fetching when pearls clink themselves delicately on the slim stem of a jeweled pipe.

Dean Johnson stipulates, however, that if American girls are going to do that, they would rather use a fresh one every day. This would be more hygienic. It would also mean that their pipes would become the dear, dirty things that men cherish to the end of

time. Besides there would be a grand, motherly touch about the clay "cuddy" that would give it an air of decency diamond-studded briar could achieve.

While Dean Johnson would rather see a girl smoke a pipe than a cigarette there are other deans at New York University who regard a possible invasion of pipes as an unmitigated horror. As for the girls themselves! Since it was one of their most genial deans who started the argument they are vivaciously following it up. And there is no telling what the sequel may be.

While pipes for women seem a startling enough innovation at the moment, it is only a reversion to the habits of the past. When tobacco first reached England it was freely used by both sexes. In the 17th century it was only usual for women to join men in smoking, but the children were sent to school with pipes in their satchels, and the schoolmaster called a halt in their studies while they all smoked. To this day women smoke pipes in the high regions of Scotland, Ireland and Wales.

MEASURING BY FRACTION OF ONE HAIR'S BREADTH

International Bureau Standardizes Weights and Measures for the World—Delicate Instruments Set On Solid Rock.

LONDON, April 21.—Go to your wall safe, remove your jewel-case and take from it one of your smaller diamonds—just a tiny stone, without any setting—and then proceed to your jeweler's. Ask him to weigh the gem as carefully as possible; you must know precisely.

"Eight and fifty-nine hundredths karats," he will say, after a lengthy and portentous retirement into his workshop.

After this procedure you will leave the shop satisfied that you know with extreme accuracy how much your diamond weighs. As a matter of fact, you have only an approximation—that is, according to the standards of measurement insisted upon by those whose life instance, of the international bureau of weights and measures, under the direction of M. Charles Edouard Guillaume, to whom in 1920 was awarded the Nobel prize in physics.

To the small group of men who, in the quietude of the big white mansion set away among the trees of the forest of Saint-Cloud, give their whole existence up to the perfection of measurement to a degree the layman never has even considered, a hair's breadth of difference is only a rough guess.

Basis of Science.
Metrology, the study of measurement, is not an arid and unproductive one. It is a factor in science absolutely necessary to discovery and invention. The achievement of an unbelievable precision in the measurement of time, of distance, of heat and of weight is to those workers in the more spectacular fields of science what the trained nurse is to the surgeon in the operating room: it is the thoroughly reliable assistant.

"Would Newton have discovered universal attraction without the aid of a meridian made by the French astronomer, Picard?" asks M. le Directeur Guillaume. "Thanks to the accuracy of their balances, Lavoisier, Proust and

Dalton threw light into the mazes of alchemy, which was a collection of vague scraps and quaint experiments, and discovered a real science: chemistry."

Reach Down To Rock.
The staff of the bureau of weights and measures takes no great chance on outside influences affecting and so falsifying its calculations. The foundation of every instrument is not the floor of the building, but a post or block of masonry rising directly from the earth. Openings have been left in the floor for the passage of these foundations, so that were one of the staff, in an unguarded moment of exuberance, to jig or try out a new test-step, the delicate scales by which he is measuring an object would be no more disturbed by the tremor than is the head waiter at the Ritz by a tip of fifty centimes. In fact, the scales are so much. This is but one of the innumerable precautions against error.

Body Head Obviated.
When a weight, say a standard milligram, is to be tested for accuracy, the member of the staff assigned to examine it places it in a glass enclosure, near the scales, the evening before the test. He next morning weighs it, operating the balance from a distance of four metres, for the mechanism is so devised that the milligram weight can be lifted from afar and deposited very gently upon the balance. Even then the indicator needle does not come to rest. It swings for many hours; and it has been found that waiting for it to become immobile is unnecessary. The observer, by means of a telescope, takes the extreme points of an oscillation and takes the mean. The reason for operation of the balances from a distance is to obviate the effect of the heat of the human body, which might expand slightly the metal used in the construction of the instrument and so render it, however infinitesimally, inaccurate.

U-BOAT'S RAID ON FISHING FLEET TOLD FOR FIRST TIME

NEW YORK, April 21.—The Starbuck schooner-rigged, a two-master, and fitted with a 50-horsepower engine, was the gem of the Block Island fishing fleet when she cleared from the island in the first week of August, 1918. In that year the German submarines played something of a star part in American waters. It may be distressing to say so, but they went as far as they liked and met with no interference. All was fish that came to their nets, and they displayed as much anxiety to sink a 10-ton fishing boat as a 20,000-ton Atlantic liner.

The Starbuck was of 60 tons, perfect in her appointments, and fast. As she battled her way against a strong head wind she represented \$15,000 to her owner and captain, Albert Sanchez. She was fishing was and is good. The Georges, to give it its name among fishermen, is about 220 miles southeast of Boston. When the Starbuck reached her destination she found herself one of many, for, scattered in all directions off the Georges, were about 35 other fishing vessels. The bones of every member of this little fleet are bleaching today on the ocean's bed. Not a single vessel escaped, and the only one to make a real attempt to get away was the Starbuck. A small paragraph in the press of the day answered for an epitaph.

Story of the Starbuck Most Thrilling of All.

It was a period when to tell the whole truth was considered in the light of honor and information to an enemy who was only too well informed. As the Starbuck was the only Block Island vessel that was sunk in the great war, her loss and the dramatic manner in which she met her end made so vivid an impression on the islanders that the tale, more or less garbled, is often heard today than any other story of the sea.

Capt. Albert Sanchez will be able to tell the story exactly as the disaster happened if he lives to be a hundred. When a man is forced to turn a somersault in the cockpit of his vessel and is then hurled into the lee scuppers by the wind of a shell he is apt to remember the smallest details of so unusual an occurrence.

Though a resident of Block Island for a score of years, and a first-rate American citizen, Capt. Sanchez is Spanish by birth. He is in the prime of life, of sturdy build, and is known as the most daring and successful fisherman on Block Island. He was master of a small coasting vessel before he was 18 and traded at the different ports of Central America between British Honduras and Costa Rica. In British Honduras he married a very pretty Englishwoman. Each year he wandered further north, and finally found himself at Block Island.

When his boat is in the harbor Capt. Sanchez is to be found at his warehouse on the Federal breakwater, where he is always busy, or at his home on Ocean View Hill. He does not own his house, and his reason for not owning it is

TO BE DYSPETIC IS TO BE MISERABLE

The poor dyspeptic suffers untold agony after every meal, and anyone who has dyspepsia knows what joy it would give to eat three square meals a day and not be punished for it. Nearly everything that enters the weak stomach acts as an irritant, and even the little that is eaten causes such torture and is digested so imperfectly that it does little good.

Before you can eat heartily, and not pick and choose your food, you must put your stomach into such a condition that it will manufacture its own digestive ferments.

For over forty years Burdock Blood Bitters has been toning up and restoring weak stomachs to a normal healthy condition so that the food no longer causes distress, but is thoroughly digested and assimilated, and enables one to partake of all the wholesome food required without fear of any unpleasant after effects.

Mrs. Alice Beckwith, Fesserton, Ont., writes: "I have been a great sufferer from indigestion and dyspepsia for several years. I could not eat anything without almost dying from the pain in the pit of my stomach. Seeing Burdock Blood Bitters highly recommended, I tried a bottle, and can gladly say it relieved me. I can eat anything now, and am in perfect health."

B. B. B. is manufactured only by The T. Milburn Company, Limited, Toronto, Ont.

fleet, and when the sub was sighted they acted like so many sparrows under the eye of a hawk. The sub was about two miles off, and kept that distance. "She threw a shell across our bow and the dories rushed to cover. When the boats were all in we made a dash. The Starbuck was fast, and if all the fleet had followed suit some of us might have got away. Still, that was asking a good deal, as the gunners on the submarine were experts and had the range. The rest of the fleet stopped after the second shot, but I hated to give up, and the Starbuck did her best until thirty shells had been fired at us.

Wind of the Last Shell Hurl Him Into Lee Scuppers.

"The wind of the last shell hurled me into the lee scuppers. Then we gave up the attempt to get away. I put two men into each dory. Into each was put a supply of provisions and water. Then I got into a dory and took with me the flag and the ship's papers. I lay in the little distance from the Starbuck. The submarine's crew used the dories of the fishing fleet in going from vessel to vessel and back to the submarine.

"They took from the vessels such materials as they wanted. Sometimes they took stuff from the dories that had been towed in them. What these things were I could not see. It was blowing a nor'easter at the time and the water was so rough that the dories were small, but they are the best and safest sea boats in the world. Two men armed with rifles boarded the Starbuck, and sat in the dory and waved the flag and the papers at them and called out what they were. They did not seem to understand me. The flag and papers of every fishing vessel are kept in the same place, but I took mine with me. The customs authorities told me later that I was the only master in the fleet who brought back flag and papers.

"The Germans went about their work as if they had all the time in the world on their hands. They examined all the dories except ours. They did not bother ours, which were some distance off. They did not visit my dory. None of them spoke to me. They went from vessel to vessel without the slightest hurry. From the time of the first shot until the first of the fishing fleet was sunk was four hours. The Starbuck was the fourth vessel to be sunk. The dories hung about until the last of the fleet was sunk. Then we pulled for the South Channel. We rowed for thirty-two hours, and covered ninety miles before we were picked up. "At the start the weather was rough, but later it cleared. Yes, it required a little exertion, but every Starbuck man was a good sailor, as well as a good fisherman. They could not call themselves philosophers, but they took the good and the bad in much the same spirit, and I take it a philosopher could not do much better. We got home on the sixth day after the one-sided battle. We landed with nothing but the clothes on our backs, but we were glad to get back, and all hands, I think, were glad to see us."

Naturally, an indomitable spirit like that of Capt. Sanchez would not permit him to waste any time in idleness.

In a short time he stood on the deck of the schooner Anna, of 28 tons, as master and owner. Like the Starbuck, she carries a crew of eight men, including the captain. He fishes for between four and five months a year. During that period he and his crew work under forced draught, but only when fishing is at its best. Last year, for instance, was a first-rate year for Block Island fishermen.

Of course there are several brands of fishermen on the island, as there are everywhere that borders on green water; but for fishermen of the Sanchez type, or like Capt. Elmer Dodge or Capt. Harry Smith, or Capt. Jack Milliken, last year was a bumper. It did much to soften the memory of the Starbuck's loss for Capt. Sanchez and his crew. For a little over four months' fishing each member of the Anna's crew cleared over \$2,000. The captain shared equally with the crew, but—and this is a large but—the Anna got a fifth of the gross, the nets another fifth, and "gross expenses" also came out of the season's catch. Gross expenses consist of everything that is bought for a season's fishing, such as oil, coal, provisions. All this indicates that a fisherman who understands the game and plays it with all his might may coddle himself but he will not starve in winter and have money in the bank when another fishing season opens and the world begins to yearn for mackerel.

RESISTS FLAME ONE FULL HOUR

New Type of Wooden Frame House Cannot Be Easily Set Ablaze.

Chicago, April 21.—A new type of wood frame house, much less subject to damage by fire than those in general use, is being developed and tested at the underwriters' laboratories here.

The laboratories announce that it appears practicable, even with the ordinary wood joists and studs commonly used for floors, walls and partitions, to reduce fire losses and consequent dan-

Children Cry FOR FLETCHER'S CASTORIA

ger to life in houses of this class. Only a few of the danger points need be given special attention. The new system developed is by a covering of metal lath and plaster held in place by wires surrounding the beams, which continue to act even after the wood beams have started to char.

Would Resist Fire.

Wharton Clay, engineer and member of both the National Federation of Construction Industries and the National Congress of the Building and Construction Industries, says: "From the results of this test it is practically as-

sured that houses can be constructed with practically no extra expense which will stand intensive fire for one hour from destruction."

"The new method is spoken of as fire safe wooden construction, and is a wood frame so protected by metal lath and plaster that the lives of the occupants of the building would be safe against the effects of fire. Thirty minutes is the least time that should be allowed for complete safety, but a protection of one hour is being sought after by fireproofing engineers."

**Many Numbers Have Been Changed!**

EXTENSIVE alterations in operating equipment have made it necessary to change many telephone numbers.

To save yourself time, inconvenience and worry, make sure of the number by consulting the latest Telephone Directory before making a call.

This will speed up the service and avoid the annoyance and delay caused by calling the wrong party to the telephone.

Directory first, if you please!

The Bell Telephone Co. of Canada

A. 20, 22.

DOMINION TIRES**Canada's Favorite**

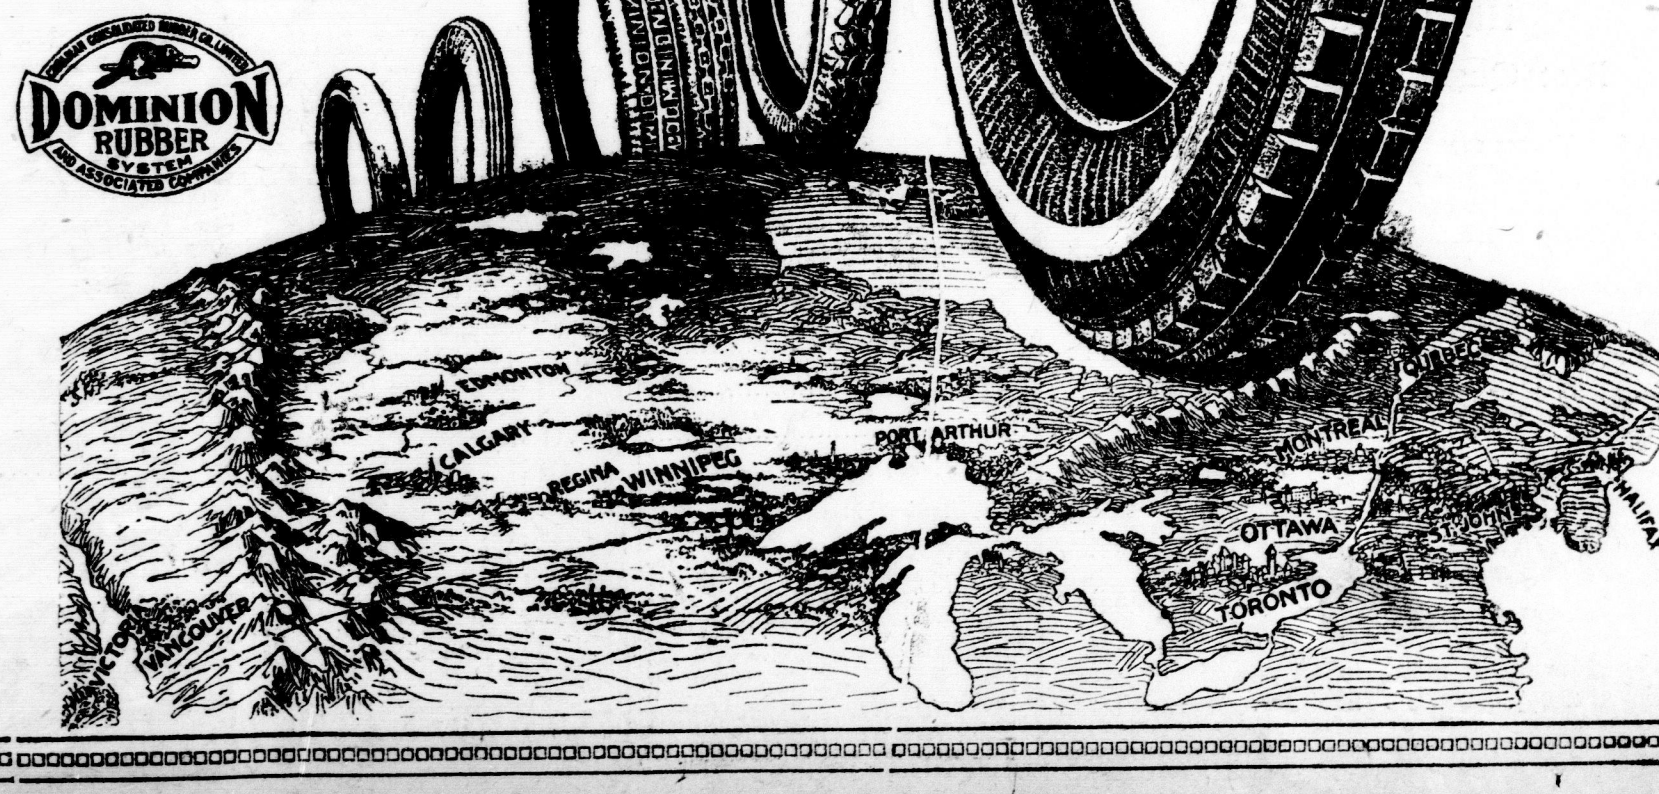

WHY do you find cars of every size and make—from Rolls-Royce and Pierce-Arrow to Ford and Chevrolet—equipped with Dominion Tires?

Why do experienced motorists put on Dominion Tires and advise their friends to do so?

Why are the best dealers in every city and town in Canada, from coast to coast, so anxious to carry Dominion Tires?

There are good reasons for this preference. Dominion Tires always wear well. They ride easy. They give the mileage. They are built right, of the right materials. They have satisfied thousands of critical buyers.

It will pay you to see the Dominion Tire Dealer.

MRS. ELIZABETH KENT, MacDONALD COLLEGE.

INSTINCT OF SELF-ASSERTION.

The instinct of self-assertion is strong in every normal child. As soon as he is conscious of himself he wishes to assert himself, his will, his desires, his importance. Like the other instincts, this cannot be killed; it can either be suppressed, to find its outlet in abnormal ways, or developed into wholesome impressions, shyness, vanity, boastfulness, bullying and selfishness are all perverted forms of self-assertion. It is the cause of many kinds of needless human suffering, physical and mental. Many bad habits in children have their source in suppressed self-assertion.

A child's egotism is himself, and must be respected and developed, but trained to respect the similar rights of the other selves around him. The first rule in dealing with a child's self-assertion is to give it scope in both rights and duties. For any right implies a duty, and any duty a right. Let the child have his own possessions and privileges, and his household duties as soon as he is capable of doing anything.

The second rule is to protect him from self-consciousness by taking him from his personal appearance and conduct, and in the presence of others. Parents and relatives and friends all sin, cruelly and foolishly, in the way they discuss a child before his face, seeking resemblances, admiring or condemning, noticing all sorts of details, until it is a wonder anybody grows up without self-consciousness. Hardly anybody does. Personalities among grown-ups are rude towards children they are cruel and harmful. (Copyright, 1921, The Metropolitan Newspaper Service.)

Personal Health Service

(By WILLIAM BRADY, M.D., Noted Physician and Author.)

The Lusty Tapeworm.

Tapeworms run from fifteen to twenty feet long, and, in this country they come from eating rare or insufficiently cooked beef that is "measly" and fresh. The "measles" in such beef are the larval forms of the tapeworm in the animal's flesh, and these die if the meat is kept over three weeks in cold storage. Proper meat inspection does away with the danger, but in this country much of the meat marketed has never been

TABLETS 25¢

POCKETS.

Anybody who makes clothes for the small boy or girl nowadays needs to know how to make pockets. The simplest pocket is, of course, the patch pocket, and may do for underwear and some little gowns, but is hardly good enough for the boy's trousers or the girl's middie blouse. Cut a patch pocket by the pattern, turn the hem at the top and stitch it—as indicated by the pattern. Turn the three other edges in a quarter of an inch. Before placing the pocket, stitch a piece of the material on the inside of the one-quarter inch line on the line of the top of the pocket to strengthen the cloth where the stitching of the pocket ends. That is where it always tears away. Now baste the pocket into place at the points indicated on the pattern. Stitch on the edge, and then again at a quarter of an inch inside the first stitching, to cover the raw edge of the material on the inside of the pocket.

For a set-in pocket, the much more difficult task, mark the place for the pocket with a line. Cut the pocket an inch wider than the slit, and ten inches long. Lay the right side of the pocket an inch above the line marking the pocket slit. Mark the line for the slit through the pocket with colored thread. Place a row of stitching all around the marking for the slit, a sixteenth of an inch from the marking. Cut the slit and turn the pocket through to the wrong side of the material. Baste closely all around the edge of the slit, letting the material of the pocket slip over enough to form a narrow piping, stitch close to the lower edge of the slit, fold the pocket in half, edge of the slit to the outside, and stitch along the upper edge of the slit, stitch a seam at the sides of the pocket. Finish the ends of the pocket with bar tacks.

of tapeworm requires the administration of remedies which are too poisonous for any one other than the physician to undertake to give. Blindness has been caused by the ill-advised use of such medicines.

Cattle ingest the segments of the eggs, when their food is contaminated directly or indirectly by human excreta containing segments or eggs. From the intestines of the cow the embryos hatched from the eggs then penetrate into the flesh of the animal, also into the liver, brain, and other organs, and come to rest there as "bladder worms." These are no larger than a raisin seed. The animal suffers to show no ill-effect.

Cod Liver Oil. I am taking cod liver oil to build me up and also to put on weight. Should I take it before or after meals? Is an emulsion preferable to the pure oil? Do you advise a combination of hypophosphites and iron with it? There are many objections to taking a glass of water soon after the oil? Does this remedy act on the liver?

Answer:—It may help to put on flesh, and that is all I understand by your other expression, "building up." Oils tend to delay digestion in the stomach, and hence should be taken an hour or two after meals. I think pure cod liver oil is preferable to emulsions. Hypophosphites have no known medicinal effect on the human body. You had better not add iron to your dose, unless for some exceptional reason and by your physician's direction. No objection to drinking water soon after taking the oil. Cod liver oil is extracted from the livers of cod fish; it has no special effect on the liver. It is a fat, as nourishing as butter or lard; it contains vitamins and some iodine.

Mitral Insufficiency. Kindly explain the meaning of mitral insufficiency.

Answer:—It is mitral insufficiency, which means that the mitral valve (the valve between the left auricle and left ventricle of the heart) fails to close completely when it should, so there is some backward leakage from the ventricle to the auricle with each heartbeat or ventricular contraction. This may be the result of a distortion of the valve by the scar of former endocarditis or heart disease, or of some backward leakage from the ventricle to the auricle with each heartbeat or ventricular contraction. It may be the result of a distortion of the valve by the scar of former endocarditis or heart disease, or of some backward leakage from the ventricle to the auricle with each heartbeat or ventricular contraction. It may be the result of a distortion of the valve by the scar of former endocarditis or heart disease, or of some backward leakage from the ventricle to the auricle with each heartbeat or ventricular contraction.

Birthmark. My husband has a large birthmark on his body, which the doctor called a nevus, bright red in color, but turning white under pressure. What kind of children are likely to inherit such a mark?

ANSWER:—No.

Storage Battery Fumes. Do the fumes that arise from storage batteries on charge harm the lungs or the health in any way?

ANSWER:—If the ventilation of the place where the charging is done is good there is no risk involved. If ventilation is poor the acid fumes may set up chronic inflammation of the breathing tract. (Copyright National Newspaper Service.)

DORCHESTER REBEKAH LODGE

Lillian Rebekah Lodge, No. 298, Dorchester, recently held a very successful progressive euchre party and box social. There were about 70 present. Progressive euchre was played in the early part of the evening, the winners being Miss Beatrice Black and Mr. Joseph Dundas, while the booby prize went to Miss A. Bell and Mr. R. A. Logan. Mr. E. Shaw acted as auctioneer, the highest price paid for a box being \$4.25. Proceeds amounted to about \$150.

Advertiser Patterns

Owing to the pattern manufacturers increasing the price of patterns to us, all patterns advertised for sale will be 15 CENTS EACH.

A Pleasing School Dress.

Pattern 3454 supplies this model. It is cut in 4 sizes: 4, 6, 8 and 10 years. An 8-year size will require 3½ yards of 36-inch material.

Gingham in check or plaid patterns, striped percale or seersucker, poplin, repp, serge, gabardine and plaid suitings could be used for this style.

A pattern of this illustration mailed to any address on receipt of 15 cents in silver or stamps.

Name

Town

Province

Age (if child's or misses' pattern)

Measurements: Bust..... Waist.....

CAUTION: Be careful to inclose the above illustration, and send size of pattern wanted. When the pattern is sent measure, you need only mark 34, 44, or whatever it may be. When in waist measure, 22, 24, 26, or whatever it may be. If a skirt, give waist and length measure. When misses' or child's pattern, write only the figure representing age. It is not necessary to write "inches" or "years." Pattern cannot reach you in less than one week from the date of application.

Cynthia Grey's Mail-Box

"It is a small thing to a man whether he is a neighbor or a friend to him whether or not he be merciful to his neighbor."—George MacDonald.

Fair and Warmer.

Dear Miss Grey,—Even though it has been quite a long time since I last visited the Mail-Box, I have enjoyed the discussions on books very much. As for myself, I like all of Ralph Connor's books, especially "The Sky Pilot in No Man's Land." "The Little Shepherd of Kingdom Come" is very interesting also. Have any of the readers ever read "The Mentor" magazine? I think it is the best I have read, although the National Geographic is also good. May I ask a few questions? What day did August 9, 1904, fall on? I wonder if any of the readers have any used postage stamps of the confederation issue? I would like to get some, if possible. Hoping I have not remained too long. I will inclose a dime for S. C. H. and sign. FAIR AND WARMER.

Ans.—Tuesday. Can anyone supply these stamps for "Fair and Warmer?"

Whip-Poor-Will.

Dear Miss Grey,—It is fully seven months since Whip-Poor-Will sang in the Mail-Box. When you sang I think of me singing in the gloaming. Although I am still Whip-Poor-Will, my song plaintive and sad instead of truly living, I have to sit aside and sing and watch other people live. When last I sang to you my heart was full of joy and hopes about to be fulfilled; but now I am a withered flower, as I lost my health and had to stop high school, when I had been there just a month. I love flowers, and I am going to grow some and sell them to make a living. It is good when one is laid aside that they have beautiful thoughts to dwell on or they would be despondent. I can tell you for poor people a doctor is a dear attendant.

Well enough about myself. I would be glad if someone would lend me some crochet patterns, and I will copy off some of mine when I get stronger. Would you kindly send me a few seeds? I will exchange some poppy seeds if you wish. If you have any of those sachet bags would you be so kind as to send me one, also Mother of Three's address, as I have a few things I would like to send her. The little girl who went without her hair ribbon. This letter is getting very long, but there are some more questions I would like to ask. I would like to know what color would suit me best. I have bluish-grey eyes, medium brown hair, and a pale, sallow complexion. People say I am quite a pair, so what color would you suggest? I have some good recipes to send in, but as this letter is too long, I will write again. Hoping to see this in print. I remain, P. S.—Did Comrade Rosalie get the letter I wrote her in September?—W.

Ans.—Am mailing address, crochet patterns and seeds. I am sorry there are no sachet bags left. Possibly nature or green would suit you better than blue. Thanks for offer of seeds.

When Washing Windows.

Dear Miss Grey,—I thought I would write to you for that romper pattern which is in great demand. I think H. N. D. sent it in. I am sending stamps to help cover the postage, and please let me know if it is not enough, as I will send more. I am sending some seeds. Would you send me a sachet, please; also some crochet patterns? Please find inclosed 25c for S. C. H. I find this a very good help when washing windows. I will run along in the water. Well I will run away for this time. MARCH 21.

Ans.—There isn't a romper pattern in the Mail-Box at present, nor a sachet. Am mailing you some crochet patterns. Many thanks for seeds and hospital mite.

Bulletin.

Can anyone supply the words of "Casey Jones," as they have been asked for?

Requests.

Dear Miss Grey,—I have been a silent reader of your interesting Mail-Box for a long time. But I am no longer. I certainly enjoy reading the letters.

Can anyone supply me with the words of "The Little Brown Jug?" Has anyone any songs or recitations that are real good? If they have will they kindly send them to me? I like leaving my address with Miss Grey. This sure has been one lovely winter, hasn't it?

Next time I come I am going to bring some help with me. Well I must ring off for now. Inclosed please find mite for S. C. H. CUSHION SLIP.

Ans.—Thank you for hospital mite. Can anyone supply these words?

Easter Lily—Kindly send in your name and address, and I shall print your letter.

Hello, Miss Grey,—Here I am at last. I have been going to write to the Mail-Box for some time, but never picked up courage until tonight. I like the discussion on books, as I am a lover of reading. It is rather hard for me to get books, as I'm not near a library. One of my favorite books is "Freckles," and another one is "The Girl in the Limbost." There are a great many more that I like also.

I have some little bulbs which are very pretty when they are in bloom, and as it is time now to transplant them, I thought perhaps someone of the Mail-Box would like to get some, as I will have too many for myself. I would send them to Miss Grey if any are wanted, and the money to go to the S. C. H. fund. The blossoms are

purple, and they grow in the house. I don't know what they are called, but they are very pretty. CHARMIAN.

Ans.—Thank you for hospital mite, also for offer of bulbs. I am sure someone will take advantage of it.

Dear Miss Grey and Boxites,—I have just been reading the Mail-Box letters, so thought I would step in for a chat. Although this is my first letter to the Mail-Box, I thoroughly enjoy reading the letters, particularly those discussing books, for I am one who loves reading. I enjoyed last week's letter, "The Little Shepherd of Kingdom Come," for she is one of my favorite writers. I do think that "The Silver Maple" and "Duncan Polite" are two of the best books I have ever read. There is another book that I have read twice, and would thoroughly enjoy reading again, one that I have not seen mentioned in the Mail-Box, "The Mist of Shilstone." But I must not go any farther, for if I get started discussing books that I have read and loved I shall fill a whole valuable page of the "Tiser." Am inclosing a mite and would like one of those sachet bags if I am not too late. Also could you, Miss Grey, or any of the Boxites, supply me with the words of a song, the first verse of which is

October gave a party.

The leaves by hunched came, The chestnuts, oaks and maples And leaves of every name. The green grass spread a carpet And everything was grand, Miss Weather led the dancing, Professor Wind, the band.

Shall inclose a self-addressed envelope for the song and a sachet bag, milk to boil, dampen the dish with cold water, and the milk will not stick to dish. Hoping I haven't taken up too much space for a newcomer, I shall sign. TOPEKA.

Ans.—Thank you for the hospital mite. I am sorry but there are no sachet bags left. Can anyone supply this song for Topeka?

Pretty Mickey—Kindly send in a stamped self-addressed envelope, repeating request.

Attention, Kiddle Cow Boy.

Dear Miss Grey,—As this is my first letter to the Mail-Box, I hope I shall see it in print soon. I have been an interested reader of your cozy corner for some time. Reading the many different letters reminds me of a large family always trying to help one another. I am mailing some seeds to you, Miss Grey, and I hope that they will help. I am inclosing dime for S. C. H. and will try and spare more next time I write. I have two little girls, aged 7 and 4 years. Dear Miss Grey, last week I read a letter from one of the Boxites who offered some clothing that was too small for her little sister, if anyone cared to have them. Now if no one else has asked for same, kindly give the Boxite my name and address, I will pay all postage. I have my housecleaning nearly all

done. Have papered two rooms and grained four rooms and have one more room to do yet. I have my flower beds made. I had better close before I wear out my welcome. Hope I may call again. "What do you think of my writing?" Will sign YORKSHIRE GIRL. Ans.—Many thanks for seeds and hospital dime. I think your writing is a little too small.

Who Will Help? Dear Miss Grey,—I wonder if you have a few flower seeds left—any kind will do. Find inclosed 10c for S. C. H. and a self-addressed envelope.

Miss Grey, I wonder if there is a kind soul in the Mail-Box who has got any cast-off clothing they don't want any more? I would like very much to get them, as I have six little ones. My husband has been out of work for seven weeks, but he is doing a little now. The children are a disgrace to send to school. I have three boys and three girls; one girl 16, one girl 6, one boy 11, one boy 4, one boy 8, and a dear little girl 1 year old. Hope some kind soul will help. Will sign my name, APPLE FACE.

Ans.—Anyone wishing to help Apple Face, may have her dress from the Mail-Box. Thanks for hospital mite.

Hubby's Only One.

Dear Miss Grey,—Well I see my last letter reached you safely. I am sending the poppy seeds with this mail; they are large, double and mixed colors. Mine were lovely last year. Now, I say where Aunt Nannie has written and sent seeds and patterns; I also see she does not get The Advertiser now. I wonder why? Well, I will start a subscription for her by sending 25 cents. We all helped with the quilt, and I think that there was almost enough for two. How about a year's subscription? I would like a few of A. N.'s seeds, especially the cosmos. Inclosed is a stamped envelope for same. If no one helps with the subscription, keep the 25 cents for S. C. H.

Ans.—Aunt Nannie is receiving The Advertiser now, thanks to the fund started by Mystery, so I have put your money in the mite box. Many thanks for seeds. Am mailing you some of Aunt Nannie's.

Children Cry FOR FLETCHER'S CASTORIA

ACIDS IN STOMACH CAUSE INDIGESTION

Create Gas, Sourness and Pain—How To Treat.

Medical authorities state that nearly nine-tenths of the cases of stomach trouble, indigestion, sourness, burning, gas, bloating, nausea, etc., are due to an excess of hydrochloric acid in the stomach and not as some believe to a lack of digestive juices. The delicate stomach lining is irritated, digestion is delayed and food sours, causing the disagreeable symptoms which every stomach sufferer knows so well.

Artificial digestants are not needed in such cases and may do real harm. Try Jell-O instead. In a quarter glass of water right after eating. This sweetens the stomach, prevents the formation of excess acid and there is no sourness, gas or pain. Bismarck Magnesia (in powder or tablet form—never liquid or milk) is harmless to the stomach, inexpensive to take and is the most efficient form of magnesia for stomach purposes. It is used by thousands of people who enjoy their meals with no more fear of indigestion.—ADVT.

QUICK-WASH Washing Tablets

There are properties in QUICK-WASH that soften the hardest water, making it just like rain water for washing clothes. Try it. It makes wash day easy.

10 Tablets - 25 cents Good for 5 large washings

Shocking Scenes Are Reported from Vienna

VIENNA, April 21. — "Bootlaces strong, good bootlaces; please buy some!" Shy and with a low voice, whining sounds are heard, through the noise of the street in Vienna—the appeal of a poor little child.

"Give me a few cents, please; my father has fallen in the war, my mother is in the hospital, give me something, please!" Out of a dirty, pale little face two large begging eyes stare at one.

On the steps of a church there sits, covered with dirt and mud, five very neglected looking boys, with tangled hair and piercing, shifty eyes, five children of the street, early corrupted plants out of the marsh of the large city, and they are gambling with dirty cards, swearing and screaming, for twenty heller the point.

Half an hour later the crumpled paper money, the contents in their trouser pockets, is lost, and then one can meet these five young rascals marching along the "Kärntnerstrasse." With mournful, whining voices, with folded hands, they begin to beg again. "Give me some money; I am so hungry; my mother is so ill; the misery at home is great!" Later on the same five boys are sitting on some steps gambling again as hard as they can with the money which they have just received by begging!

Oh, begging is a fine, worthwhile business! A little boy, going on a crutch, as the left leg is much shorter. In the day he earns fifty to sixty crowns. At the corner of a street where there is very much traffic stands surrounded by a crowd of people a young man in rags, blue and red in the face, his damp hair hangs down over his face. With a sharp voice he calls out:

"Midday newspapers! The Emperor Charles returns soon to Vienna! Midday newspapers!"

The people tear the newspapers out of the hands of the boy. A few minutes after they all look about for the businesslike newspaper seller. But he has

fed quickly from the revengeful arm of the angry people; for the sensational news about the returning of the emperor, there is, of course, not a true word! He is standing in the darkness of a doorway, smiling and counting his money—100 crowns' income for this morning.

A pale, haggard woman, scantily clothed, stands beside the wheel chair of her husband, who was injured in the war and is lying with closed eyes on the dirty pillows. Both legs of the unfortunate man were blown off on the "Col di Lana" by a bomb. Over his forehead and the deformed nose there is a large red scar. Every passerby throws a piece of dirty paper money into the old crumpled soldier's cap, which shows very peculiar brown stains.

At the corner of two busy streets of the First district a motorcar steps from the American Mission, surrounded by a lot of crying little street boys. The little boys are trying to climb all over the motorcar and laughing and enjoying themselves thoroughly. Smiling, the American chauffeur allows the poor little ones to have their game.

It is now the hour in which the well dressed people make their promenade through the elegant part of the First district. Ladies in soft, well made dresses, wrapped up to the tips of their noses, rustle by with light steps. Gentlemen, wearing monocles and colored foreign uniforms, follow them. A young Italian officer comes along; his great, dark eyes shine. To his right arm clings a girl, not a girl from sunny Italy; no, a real, veritable Viennese girl.

"Flowers, pretty flowers. Won't you buy some, sir?" The Italian buys some. A minute the fair head bends over the flowers. She thanks him with her eyes. For he only speaks his mother tongue and French, she only the real Viennese dialect and hardly German properly. But the language of the brown and blue eyes understands each other perfectly, whether they are born under the hot sun of Italy or christened with the dirty water of the Danube.

On the corner of the Kärntnerstrasse and Wallfischgasse lies in the pillows of an old invalid chair a pale man with hollow cheeks. At his side stands a little girl. Tangled fair hair hangs over the little green-white face, and she is dressed in dirty, ragged garments. Her great sad, blue eyes beg and pray for the "ill father." Outside on the borders of the large city a cart horse has broken down by hunger and exhaustion. No lashes of the whip, no encouraging kicks of the driver bring it to stand on his weary legs again. A curious crowd stands around the dying creature. A few minutes after all is over. The horse is dead.

Knives begin to glitter in the hands of hungry people. Soon only the skeleton of the horse remains, and this in itself tells very much of the misery of a once mighty, happy city. A thin dog begins to gnaw the bones.

PARIS STARTS TO CLEAN STAGE OF NUDE WOMEN

Police Raid Lewd Exhibits Under New Purity Law.

PARIS, April 21. — The Government actively has started to remove nude women from the stages of Paris and to wipe out that epidemic of pornography and public immorality which in the eyes of tourists has begun to overshadow the lofty culture of France.

The prefect of police has notified the theatre owners of the capital that their theatres will be closed if they continue to display unclad actresses to their audiences, permit lascivious scenes to be enacted, or allow obscene lines. The prefect receives his orders from the minister of the interior.

New Law Gives Power.

The cabinet has demanded forcible action to carry out the campaign against the hawking of moral filth. Its hands just have been strengthened by an amendment to the law of 1881 extending the powers of the state over the regulation of the public morals. The amendment was signed the other day by President Millerand.

The traveler in Paris will not see now the lewd extravaganzas that he was able to see a month ago. The actresses previously wholly unclad in the Casino de Paris, the Folies Bergere and the Concert Mayol, the leading centres of these displays, now virtually have vanished. There still is an almost nude woman as Venus at the Casino, but she no longer prances about, remaining motionless throughout the scene. The Folies Bergere women in the most daring scene have been loaded with strings of beads, while lace scarfs have been wound around the previously nude nymphs. At the Mayol the harem scene has been distinctly toned down.

Complaint of Tourists. Action by the government has come as the result of strong complaints of American and English tourists who have been shocked at the nudity presented on the stages of the various music halls and revues of Paris, and by the French theatregoers who object to the vulgar and suggestive lines of actors and actresses.

Controlling the theatres is another step in the process of purifying Paris which was begun just before the war, when Berlin was gaining a questionable reputation through capitalization of its "night life," in the belief that thousands of tourists might be drawn there because of the rampant vice.

Rivalry for Lewdness. The recent epidemic of undraped actresses on the Paris stage is a reflex from the restrictions of the war, and the rivalry of two theatrical managers, each endeavoring to outdo the other in daring stunts and lavish productions.

Raphael Beretta, manager of the Folies Bergere, and Leon Volterra of the Casino de Paris are seeking supremacy in the music hall and revue field of Paris. At the beginning of the war Volterra was a program vender in the Olympia vaudeville theatre, and his climb in rank has been swift and sure.

During the war, when restaurants and cafes closed at 9:30 p.m., and when transportation was difficult because of the early hours when the underground buses and street cars stopped running, and when taxis were scarce, no serious effort was made in the theatrical world.

Theatres suffered lack of personnel through their employees being mobilized at the front, and it was difficult to obtain scenery and costumes.

Barred Nudity Reappears. With the armistice, however, Volterra's ambitions had free rein, and he opened a sumptuous revue at the Casino de Paris, with Gaby Deslys and Harry Pilcer featured. In this revue he introduced the first nude female seen on the stage since 1913, when nudity was barred by the prefect of police.

Out of a piano came in turn actresses dressed—or undressed—to represent various operas. Spectators held their breath when the orchestra broke into the strains of a selection from "Aphrodite," and their anticipations were rewarded when La Belle Deslys, clad only in a string of pearls, emerged from the piano.

In the next revue, instead of having a statuesque beauty pose unclad as a living picture, the management had her dance with Harry Pilcer.

French Comstock Aroused. Senator de Lamarzelle, the "French Anthony Comstock," attacked the presentation of nude women on the stage, and insisted that M. Bonnefay, minister of the interior, take steps to prevent such spectacles. The senator asserted that Americans and Englishmen would not permit their wives and daughters to visit a city where such scenes were permitted, and demanded that the fair name of Paris be preserved.

As a result of this intervention M. Bonnefay drafted the amendment to the law of 1882.

"The Fall of Babylon" is the most ambitious and daring scene in the new Folies show, "A la Folie," and is a faithful representation of the celebrated painting which depicts that occasion. The women of the court are shown in the same wild abandon as they are painted in the picture, and the whole orgy of the Babylonians is faithfully reproduced in the scene preceding the final curtain.

"The Harem Favorite's Bath" is another scene which is being attacked and defended alternately.

Seven Nude Actresses. The finale of the first act receives applause at each performance even from American and English spectators. In this scene a nude woman personifies a statue on an onyx mantle, itself supported by two Egyptian slaves, equally unclad. The giant chandeliers on either side are held up by three scantily draped actresses.

Costumes—or lack of costumes—of individuals on the stage will be regulated, although leading dressmakers of the Rue de la Paix are responsible for them. They assert that all these "nude-ups" have been the responsibility of the prevailing modes, although not to such a pronounced and daring degree.

ARGENTINA CROPS PROMISE WELL

Traveler Finds No Evidence of Any Hard Times Anywhere.

BUENOS AIRES, April 21.—Persons who have been spreading the report that hard times are ahead for Argentina, based on a supposed shortage of exportable products, have been misled, according to a writer in The Buenos Aires Herald who has just completed a

1,000-mile trip by automobile through the heart of the most productive section of the country.

"In all the area visited," says the writer, the "railway cars and sidings gave eloquent testimony to the fact

that his year bids fair to surpass last year. Everywhere the bulk of the wheat and linseed is either safely housed on the railway premises or on its way.

Alfalfa is abundant, and oats above the average. Maize is already a man's

height and as straight as a post. "Fruit is abundant and cheap. In some places huge peaches are to be had almost for the asking. Never in the history of the country or the recollection of the oldest inhabitant who sits

blinking in the door of his adobe hut, has nature been more liberal than this year. Signs of prosperity are manifest on every hand." At almost every farm the traveler found an American automobile.

FREE PANTS

TODAY, SATURDAY AND MONDAY

Wear Our Tailored-To-Measure

Clothes — Get Better Fabrics,

Style & Fit For Less Money &

A Pair Of Extra PANTS FREE

NATURALLY you prefer Tailored-to-Measure Clothes, but you may say, "But think of the Cost"—that's just the point, don't think of the cost.

That's the pleasantest "thing" the clothes buying public has this season.

For under our plan, Tailored-to-Measure Garments cost actually less than they did six years ago. Our offer to the men of Canada is the most astounding in the point of value since 1914. Order a Suit or an Overcoat, Today, Saturday or Monday, and we will give you ABSOLUTELY FREE a pair of extra pants of the same quality material as the garment you select. The Extra Pair of Pants will give your suit double life.

Suits and Overcoats Tailored-To-Your-Measure

\$20

English and Scotch Woollen Co. of Montreal

More Quality Less Money

NO CONNECTION WITH ANY OTHER CONCERN IN CANADA

Extra Pants of the same material Free

DID you ever figure the time and money you have spent trying to match that coat that has outworn the pants? Haven't you wished many a time that you had bought a PAIR OF EXTRA PANTS?

This is your big opportunity—every customer who orders a Suit or Overcoat Today, Saturday or Monday, gets a PAIR OF EXTRA PANTS FREE, the pants will be of the same material as the garment you select. Don't forget, every garment is Custom, Tailored-to-Measure. You select the material and the style you like best, we take your measure—our fabric values cannot be duplicated. Come Today, let us take your measure.

LADIES—Do you want good quality materials for your new dress or suit? We have thousands of yards to be sold as low as \$2.75 per yard. This is 1/2 regular price; width 34 and 36 inches. This is an exceptional opportunity to get materials of better quality than is usually found in women's fabrics. Take care of the children's needs.

Trousers We are showing exceptional values in odd trousers from special trouser lengths. Many of these cloths are shown in very limited quantities, and are exceptional values.

GIRLS ARE WARNED AGAINST INDULGING IN HARD EXERCISE

London Teacher Says Victims
of Ruinous Craze Will
Pay Later.

HEART SHARES IN WRECK

Muscular and Bony Formation
Cannot Withstand Physi-
cal Stress.

LONDON, April 21.—Strenuous exercises suitable for boys are not suitable for girls, according to Miss Jane Cowdroy, principal of the Croun End College, who has just issued a warning against the "absurd and ruinous craze" on the part of modern English girls to play girls' games. She said that in this she was making full allowance for the advantages of the reaction against the tight-laced, swooning girl of a generation ago, but she added that the reaction had gone too far.

"The spectacle of girls 14 or 15 years old tumbling about a hockey field is exceedingly unpleasant, and if one happens to know anything about physiology, it is extremely distressing," Miss Cowdroy said. "Girls who do this may think they are doing themselves good, but many of them will pay a heavy price of costs later, and their spoiled tempers will not conduce to the happiness of persons with whom they live. We will come nearer to an understanding of their position if we realize that the organs of our bodies all inclose nervous connections, and disturbances, whether mechanical or inflammatory, in one organ quickly set up secondary disturbances in others."

"Man, by virtue of his muscular and bony formation, is capable of withstanding a great deal of physical stress without a disturbance of his organic relationship, but woman is not so capable. In consequence, strenuous exercises are apt to displace her organs and set up what are known as reflex symptoms."

"Many of these are referred to as heart trouble, and then it is stated that girls have strained that organ, an entirely wrong impression being conveyed, since in the public view a man is just as likely to strain his heart as is a woman. Indeed, the hearts of these girls are not strained. What has happened is that other of their organs have been displaced or dragged out of the balance of their visceral nervous systems have been upset. Their hearts merely share in the general catastrophe."

S.S. Ideford, which was launched in Montreal on April 9, from the Canadian Vickers yard. This vessel represents the last word in high-class cargo steamers.

Canadian and American Papermakers Refuse To Accept Wage Reduction

Strike Vote Taken On Sunday Last—Over 25,000 Men, 50
Mills and Nine Companies Would Be Thrown Idle —
Workers Ask For Ten and Five Per Cent Increases.

NEW YORK, April 21.—Union workers in the paper and pulp mills of the United States and Canada have voted to reject the 30 per cent wage reduction proposed by the manufacturers for May 11, it was announced here tonight by the Labor Bureau, Inc.

Local unions have been instructed "that should satisfactory terms of settlement not be forthcoming from the paper manufacturers between now and the time of the expiration of existing agreements, work will automatically cease in the mills of six companies on May 1, and thirteen companies on May 11."

These instructions have been sent out by the union leaders, John P. Burke, president of the International Brotherhood of Pulp, Sulphite and Paper Mill Workers, said in a letter to the Labor Bureau, announcing that his organization had rejected the offer.

J. T. Carey, president of the Brotherhood of Paper Mill Workers, the other principal union of paper mill workers, announced last Monday that its membership had practically unanimously rejected the proposed wage cut.

Should the walkout occur, labor leaders assert, approximately 25,000 workers will be affected, and 50 mills of 19 companies tied up. These mills, they claim, produce about two-thirds of the paper stock consumed in this country, having a daily output of 3,600 tons of newsprint, and 1,500 tons of finer paper for job printing.

Conferences between union representatives and manufacturers have been in progress since last February. The pulp and sulphite workers originally sought for a 10 per cent wage increase, and the paper makers for 5 per cent. Mill owners countered the proposals for a new agreement providing for a nine-hour day; discontinuance of overtime; 30 per cent wage reduction, and allowance for a readjustment of these scales upon notice of either party up to May 15, 1932.

Strike Vote Taken.

Two weeks ago, union representatives formally notified manufacturers that they could not accept their proposals, but agreed to submit the matter to a referendum. The vote was taken last Sunday by local unions throughout the country.

An official report of the union vote will be made to the manufacturers' committee.

UNREQUITED LOVE IMPELLED WOMAN TO PASSIONATE ACT

'Mid Pleasure-Seeking Throng
Fired at Man Who Repelled
Her Advances.

New York, April 21.—A shot and a woman's scream brought hundreds running into West Forty-second street, across from the Hippodrome, just at the threshold of theatre time, to witness the climax of a woman's plot for revenge on a young man some years her junior, for whom she admitted an unconquerable infatuation.

The young man's own cool-headed gameness as he struggled with woman's possession of a pistol, and later a policeman's quick-wittedness, prevented anything more than the accidental and slight injury of a bystander, though letters left by the woman in her hotel room broadly intimated that she intended to murder the object of her affections and then destroy herself.

The first arrivals from fashionable clubs and big hotels in the block between Fifth and Sixth avenues, and from the crowds on their way to the playhouses, found George Robbins, a drug clerk, 26 years old, of 553 Chaucer street, Brooklyn, standing on the north sidewalk just west of the Hotel Algonquin, white and shaking, a smoking pistol in his hand. Across the street, in front of the Hippodrome, stood Mrs. Lillian Walker, of 106 Newton avenue, Long Island City, her right hand clutching her left, while blood flowed from the lacerated path a bullet had plowed before it lodged, breaking a nail finger.

Near Robbins, gazing almost dazedly at the weapon, was Mrs. Estelle Matley, 32 years old, an elocutionist, whose home is in Oakland, Cal., and who until recently had conducted a studio of elocution in Los Angeles.

Mrs. Matley, well groomed and attractive of face and figure, had only slightly lost her composure, and muttered over and over, "I didn't mean to shoot anyone; I didn't mean to shoot anyone."

Patrolman William Meyn had sat

astride his horse at the Sixth avenue corner when the scream of the injured woman told him that this time the report was not an automobile engine's backfire. He sent his horse galloping through the people streaming from every direction, leaped to the sidewalk and grabbed Robbins and the pistol.

He held the man only a moment. Then it became obvious that it was the woman who had caused the shooting, and he seized her instead. Robbins told how the pair had argued for an hour in the Hotel Algonquin, where Mrs. Matley was registered, and how he had persuaded her to come outside when she became excited, her voice rising to a pitch that was audible all over the lobby.

Vain Entreaties.

Exactly what the two had said to each other once they were in the street and going slowly westward, the police did not learn, but it appeared that Mrs. Matley's threats and entreaties had been in vain, and suddenly she had snatched open her handbag. A second later Robbins found the muzzle of a pistol pressed against him. Before Mrs. Matley could press the trigger his hand had closed about her wrist. So silently that passers hardly threw them a glance, the two fought for the weapon. Then it was discharged, and Mrs. Matley jerked her hand away.

There on the sidewalk, while other patrolmen drove back the crowd that grew denser each moment, Mrs. Matley told the traffic man the story that she was to repeat later in the station house, of a desperate love for Robbins which, she said, she conceived in the spring of 1917 at a dance somewhere up-state. Robbins admitted that the woman had been in the station house, and that she was to repeat later in the station house, of a desperate love for Robbins which, she said, she conceived in the spring of 1917 at a dance somewhere up-state.

Then a week ago Mrs. Matley came to New York from Los Angeles. In the station house, without a trace of shame, she admitted she had forsaken her studio because she found her craving for the young man irresistible. She wrote Robbins note after note, in all of which, he said, she begged him to come to the hotel, that she might say a last farewell. She intended to go to Detroit, and never to see him again.

What is a "Person-to-Person" Long Distance Call?

WHEN you ask the Long Distance operator to get Mr. Somebody in a distant city, she must not only establish connection with his telephone, but must do so at a time when he is available and willing to talk.

The obligation on the operator here is greater than in the case of a Station-to-Station call, and the additional expense and circuit use involved make a higher rate for this type of call reasonable.

Again, when the calling party, in placing a call, names a specified time at which he wants to talk and the conversation is held accordingly, the "appointment" rate applies. Additional operating labor and circuit time have been required to make the appointment.

By studying their Long Distance requirements, subscribers can effect economies and make the service more valuable and convenient.

If there is anything about our rates and practices you do not understand, please call our Manager and he will be glad to explain.

Every Bell Telephone is a Long Distance Station.

MEXICO BOASTS FINE CHURCHES

Government Reimbursing the
Catholic Clergy for Losses
Incident to Revolutions.

MONTREY, Mex., April 21.—Restoration of the church properties to the Catholic clergy by the Mexican Government is to be followed by a general rehabilitation of many edifices, badly damaged during the revolutions. In many instances magnificent churches were used as barracks. Gold and silver ornaments, rare paintings and other things of value were stolen by sacrilegious vandals.

One of the things that impresses the visitor is the number and beauty of the churches of the country. In mining camps, villages, haciendas, at every place where there is human habitation a church may be found. Some of the older buildings erected in the early days of Spanish control are in ruins, but many remain intact and are still in use.

It has been said that the unusual fascination of Mexican churches lies in their mixed architecture, the Christian spire, the Moorish dome, the Indian facades, the Saracenic coloring and, added to this the fact that the workmen employed by the Spaniards and architects were their own peculiar handicraft in these ancient buildings.

Remarkable Church.

One of the most beautiful and remarkable of the early Mexican churches is the one in the little mining village of Valenciana, in the mountains of Guanajuato. This church was erected in 1765 at a cost of more than \$1,000,000 by the Count of Valenciana, who at that time was said to be the richest man in the world.

Near by has been erected a monument to the builder. The narrow pathway to the church leads to a broad flight of steps into the old churchyard, beautiful with its tall pines and poplars, brightly colored flowers and vine-hung trellises.

Entrance into the church is made through exquisitely carved doors set in richly ornamented walls. To the right is the sacristan, where are kept the magnificent baptismal font surmounted by a halo and a dove, all in gold; the vestments of gold embroidered on rich cloth of satin and velvet in brilliant colors, numerous images of the saints, the Virgin used in the various calendar celebrations and an immense crucifix.

Rare Paintings.

There is a magnificent altar of immense size and remarkable beauty, richly ornamented with elaborate fretwork and exquisite carving. The painting is entirely of inlaid mosaics of curious pattern. Large, gold-framed mirrors and rare paintings adorn the walls. Along the sides are to be found old wardrobes of chests and a set of antique drawing-room furniture of rosewood and mahogany of rare and wonderful design, imported from Spain.

Another feature is the miracle chapel where there is an altar of unusual beauty and richness. In this room are hung many small artificial arms, legs, hearts and other members of the body, with inscriptions attesting the miracles performed by the Virgin, who it is believed by the simple and devout folk of the community, dwells there. The Virgin's image, under a glass case, is adorned with a priceless set of pearls including necklace, earrings and bracelets.

GOVERNMENT EXPEDITION STARTS

OTTAWA, April 21.—The Canadian Government expedition which is to administer the civil affairs of the new Mackenzie oil region left Ottawa last night on the first part of its long journey to Fort Norman.

There were five in the party, which left Ottawa, four of whom are well-known Government officials. Others will be picked up at Edmonton, which is the present destination of the party.

ONE YEAR FOR NEGLIGENCE.

TORONTO, April 21.—Marshall Blakney pleaded guilty in the criminal court to criminal negligence in respect to an automobile accident, in which Richard Kidney was seriously injured. Prisoner was given one year in the Ontario Reformatory by Judge Coatsworth to run concurrent with a previous sentence and dated from October 24 last.

The Suit You Want

is a "Better Suit" at a
"Possible Price"

AT LEAST one-third of all the men in this city are figuring on getting a new suit of clothes this spring. That's a fair conclusion. And unless these men happen to come our way they are likely to be rather displeased with the bargain they make.

Of course that is our opinion of it because we are pretty proud of our record, our present stock and our expert workmen who make our suits and overcoats.

We don't believe that we have any competition when it comes to good clothes at the right price. You ask some man who is wearing our clothes and he will tell you what satisfaction means.

Unrestricted Choice of Material

\$30
NO MORE NO LESS

MADE-TO-MEASURE

The suit you require for Spring or Summer is a suit of "BETTER CLOTHES" — Clothes that are made from Better Cloth in a Better Way. Such clothes as the Scotland Woolen Mills is making this year.

As the years go on, one thing after another gets a little more perfect. Notwithstanding anything your grandfather might tell you, we can assure you that men are getting just as good all-wool cloth as they got in his early days, only it is woven a great deal tighter and there is always a neat pattern to the weave that helps the clothes. And of course your father, in his young days, never got anything as well made or as smartly fashioned as the clothes we turn out now.

The Scotland Woolen Mills gives you the pure wool fabrics made in the latest of fashionable clothes at a price that isn't duplicated beyond our doors.

GIBBON MILLER, President.

TWO SOUTH WATERLOO TOWNSHIPS GO "WET"

**Man Arrested in Montreal
Proves To Be Wanted in
Galt.**

GALT, April 21.—The referendum re-
turns for South Waterloo received by
Dr. J. H. Radford, returning officer, to-
day for three outstanding polls in Wil-
mot Township gave a "wet" majority
of 20, and thus reduced the "yes" ma-
jority for the district to 818, Wilmot
Township was the only rural district to
vote "wet."

The death occurred in Los Angeles
Monday of Malcolm O. MacGregor, for-
merly of Mount Forest and Guelph. He
was the son of a former minister of
Knox Church in this city and studied
law here in the office of the late John
Miller. He was a brother-in-law of A.
MacBain of this city, secretary of the
public school board.

Galt is threatened with the loss of
the R. F. Sturtevant Company's plant
as a result of the discontinuance of the

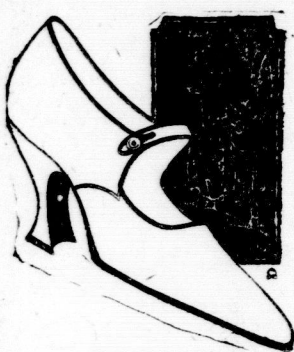

switching service to the west side
manufacturers, the G. R. R. withdraw-
ing when the hydro would not grant
them a five-year extension of their
franchise.

Wanted For Forgery.

Perusing a morning paper recently
Chief Gorman read a dispatch announc-
ing the arrest in Montreal of a man
giving the names of Dr. Durrant and
Al Coleman of Toronto. He communi-
cated with the Montreal chief of police,
giving the description of one, John
Huntley, formerly of this city, for
whom he had been searching for 18
months for forgery, and wanted in
other Western Ontario cities on minor
charges. Today Chief Gorman receiv-
ed word that the man is Huntley, and
that he is now serving a five-year term
in prison, and that he had been con-
nected with the murder of a Montreal
policeman, but was acquitted.

THE GIRL YOU STOP TO LOOK AT

Some girls are attractive, because they
dress well and are stylish. But the girl
you stop to look at is the one who
wears perfect blue white diamonds pur-
chased from John A. Nash, My Jeweler.
"They have that winning way." His new
store is 182 Dundas street, "where you
will eventually buy."

This dainty one-strap
slipper is of white kid.
An ideal shoe to accom-
pany summer frocks.

\$10.00

NOTHING is so expressive of Sum-
mer, so in harmony with those cool
delightful frocks as Shoes, Oxfords
or Slippers that are snowy white.

This store now offers you a large selection
of White Footwear of charm and
elegance, correct in every detail of style
and quality.

ONTARIO COMMAND BACKS ST. MARYS

**Veterans Object to Action of
Meighen Government.**

ST. MARYS, April 21.—That local vet-
erans in their fight against the Ottawa
Government, have the solid backing of
their comrades throughout the province
is evidenced by the following letter
from the Ontario Provincial Command
of the G. W. V. A., received today by
the secretary of the local branch.
Toronto, April 19, 1921.

The Secretary, G. W. V. A.,
St. Marys, Ont.

Re appointment of chief census
enumerators.

Dear Sir and Comrade: Your letter
of the 4th instant received, and we
would congratulate the comrades of St.
Marys on the manner in which they
are handling the case in question, en-
deavouring to secure proper recognition
of the claim of James Norris to Gov-
ernmental appointment. Kind regards.
Yours fraternally, W. E. TURLEY.
Secretary, G. W. V. A. (Ontario Pro-
vincial Command).

FOREST FIRM BUYS TWO FLAX MILLS

New York Company Is Discontinuing
Flax Growing in Ontario.

FOREST, April 21.—Howard Fraleigh
has purchased the stock and business
of the flax mills at Alma and Moore-
field, in Wellington County, including
seed, fibres and unmanufactured straw.
A portion of the stock will be brought to
Forest, to be finished. The purchase
was made from the Linsen & Thread
Co. of New York, which has discon-
tinued the growing of flax in Ontario.
Glen Rawlings has sold his farm of
120 acres, Lake road, to Newton Moody,
for \$10,000. Mr. Rawlings will hold a
clearing sale on Tuesday.

At a meeting of local bowlers officers
for the year were elected as follows:
Hon. President—D. R. McCahill.
President—R. Fred Douglas.
Vice-Pres.—Tom Maylor.
Secretary—W. J. F. Ross.
Treasurer—J. N. Gordon.
Managing Com.—R. E. Scott, C. W.
Stuart and Dr. F. A. Walters.
Grounds Com.—Dr. Walters, Rev.
Thos. Doolittle and Alf. Mahler.

FARMERS' PRODUCE COMPANY.
WOODSTOCK, April 21.—The farm-
ers' clubs of the neighborhood have
organized the Oxford Farmers' Produce
Company, Limited, with head office in
Woodstock. The company has been
capitalized at \$40,000. The original in-
corporators and provisional directors
are J. W. Innes, president of the Wood-
stock district U. F. O. Club, and J. C.
Karr, West Oxford; S. W. Jackson,
East Oxford; George Demontmorency,
E. Tree, J. MacDonald, East Zorra, and
John Lockhart, Blandford.

JURY THINKS MARTIN'S CAR KILLED KRAEMER

**Driver of Car Allowed To Go
On \$2,000 Bail.**

KITCHENER, April 21.—After hear-
ing seventeen witnesses and deliberat-
ing for half an hour the coroner's jury
empaneled to inquire into the death of
Stanley Kraemer, who was killed here
on April 12 when he was knocked from
his bicycle by a motor car, brought in
a verdict that all of the evidence
strongly points to the fact that
Kraemer was hit by a car driven by
Albert Martin, proprietor of the Alex-
ander Hotel, Waterloo. Following the
inquest Martin was held by the police
and later allowed to go on \$2,000 bail.
He will appear in police court tomor-
row morning, when a formal charge of
manslaughter or criminal negligence
will be laid against him.

MEMORIAL LIBRARY IS PLANNED AT PRICETON

Work on Handsome New Building Will
Be Commenced Shortly.

PRICETON, April 21.—The ground
is all cleared and work will be com-
menced shortly on a handsome new
memorial library. It will be 24x28 and
of red rug brick. In the basement a
section will be fitted up where the fire
engine can be kept. The work will all
be done by local men. The fund for the
building has been subscribed to liberally.
The committee which will have charge
of the arrangements comprises: Thomas
Whittington (chairman), A. Misener,
W. P. Blackmore, E. Wells, W. Kipp, C.
R. Davis, H. Buck.

Mrs. Moore is having a garage built
on the old school lot east of her resi-
dence. The building will be 28x50, of
concrete blocks. The cement work is
being done by Mr. Peterson of Cathcart
and the wood work by J. Crozier.

A. Anderson will build a red brick
house on Victoria street this summer.
Mr. and Mrs. Baleman have sold
their house and lot to Mr. Palmer and
have left to live in Brantford.

C. P. Cowan has bought the Oliver
Riddle property consisting of good
buildings and 2 acres of land, Mr. Rid-
dle remaining on as tenant.
Thomas Whittington has opened a
pay station for the Ontario Creamery
London. He gathers the milk, ships it
from Princeton depot and pays the
patrons weekly.

TRAIL RANGERS VOTE.

About 100 registered Trail Rangers
cast their ballots for mayor and eight
commissioners for the boys' community
council at the C. S. E. T. athletic meet
in the armories last evening. It could
not be learned who was leading in the
election. The final results will be made
known this evening.

ST. MARYS COUNCIL TO PURCHASE FLATS

ST. MARYS, April 21.—At a special
meeting of the town council held last
evening the parks boards brought in
a recommendation that debentures
amounting to \$15,000 be issued for pur-
chasing the river bed and adjoining
lands from H. L. Rice. There was
much discussion over the matter which
ended in a tie vote, but this was broken
by the mayor and the purchase will
now be made.

HENSALL

HENSALL, April 21.—Stanley Mit-
chell, the young son of John T. Mit-
chell, a few miles southeast of the
village, is at the present time in St.
Joseph's Hospital, London, for treat-
ment for lock jaw. It appears that
some little time ago Stanley suffered
slight injury to his foot, but little was
thought of it at the time, and it ap-
peared to be healed. Lockjaw, how-
ever, has resulted, and he was taken
to the hospital for treatment.
On Monday last Mrs. Greene of Otta-
wa, district deputy of the Robekah
Order of Odd Fellows, visited the local

lodge and was much pleased with her
reception by the members and the pro-
ficiency they showed. At the close of
the lodge a pleasant time was spent
in social intercourse and the serving
of refreshments.

The Odd Fellows of Hensall Lodge,
No. 223, accompanied by visiting breth-
ren, will attend divine service in St.
Paul's Anglican Church on Sunday
evening, when the Rev. A. R. E. Gar-
rett will conduct the service.

When you want your entertainment
to be successful you must let the people
know where it is going to be held and
what entertainment you intend to pro-
vide; \$1.50 is the cheapest rate for an
advertisement under the heading of
"Amusements."

IF YOU KNOW WHERE FLIES GO IN THE WINTER TIME

Every sensible housekeeper knows what
to do before they return. She prepares
to rid herself of these pests before they
have settled on her for the summer.
Why not take your eye trouble in time
too? See a good optician before you
begin to suffer. Visit the Brown
Optical Company, 223 Dundas street,
and have your eyes examined. zxy

**Optical
Science**

EYES

Grouchy or Glad

Which do you prefer? The glad
smile and the happy handshake, of
course. You will have the latter if
you let us care for your eyes. When
reading you will get grouchy if
your eyes hurt you. On the other
hand, you will enjoy reading if
your eyes are right.

"Read our optical science articles."
