FINANCE DEPARTMENT,

OTTAWA, 18th January, 1882.

To the Honourable

Sir S. L. TILLEY, C.B., K.C.M.G.,

Minister of Finance.

SIR,—I have the honour to submit to you herewith the Public Accounts of Canada for the fiscal year ending 30th June last, together with the usual comparative statements of the transactions of all preceding years since Confederation; in addition thereto, I have had prepared and also submit, a new statement of the total receipts and expenditures on account of the North-West Territory, showing that, so far, exclusive of the capital expenditure, the various services connected with the Territory have cost \$9,627,699.85; these figures have been calculated as closely as possible, but many expenditures necessarily had to be taken approximately as, e.g. the Canadian Pacific Railway, where the expenditure at Ottawa could not be exactly divided. With such reservations, however, I believe the statement to be thoroughly correct.

The expenditures on capital account during the year amount to \$8,176,316.50. for the following services:—

Intercolonial Railway.....	\$ 608,732 80	
Pacific Railway.....	4,968,503 93	
		\$5,577,236 73
Public Buildings, Ottawa... ..		12,231 86
Welland Canal.....	\$1,242,943 37	
Lachine Canal.....	292,165 51	
St. Lawrence Canals.....	60,876 10	
Ottawa Canals.....	411,608 75	
St. Peters Canal.....	69,434 76	
		2,077,028 49
Dominion Lands.....		324,681 41
Land and Cable Telegraph Lines.....		175,138 01
		\$8,176,316 50

which have been covered by the surplus revenues for the year, \$4,132,743.12, and the accretion of deposits in the Savings Banks, \$4,783,715.82; in addition to this the note circulation has expanded to the extent of nearly \$1,000,000, but, on the other hand, liabilities of the Government bearing 6 per cent. interest have been paid to the extent of \$1,518,392.60.

The effect of these changes has been to reduce still further the rates paid by the Dominion on its indebtedness; the rate on the debt payable in London being now 4.43 per cent.

In my report on the Public Accounts of 1879-80, I drew attention to certain funds (Seigniorial and Indian) for which the country was paying higher rates than now rule. In the case of the Seigniorial Fund, on the 1st July last six months notice was given to each holder of the intention of the Government to redeem the same, and that portion of the indebtedness is now being paid off. With respect to the Indian Fund it was found that enquiry would have to be made into the origin of each tribal account, and I propose during the recess to report on the same. I may add that, with a view to further reduce the rates payable by the Government, proper notice has been given to redeem the 10-30 6 per cent bonds, issued by the Province of Prince Edward Island, and twelve months notice has been given to holders of 5 per cent. D. stock with the option of payment before its expiry.

I also referred in the Report of 1879-80 to the unsettled condition of the Accounts between the Dominion and the Provinces of Ontario and Quebec, and I ventured to hope that a settlement would take place during the year. I regret that this hope has not been realized, notwithstanding that notice was sent from this Department to the Treasurer of each Province, that at any time, as they might agree upon, the Department was willing and desirous to meet them and close the Accounts. As the delay is injurious to many interests, affected by the award of the Arbitrators, I trust that steps will be taken early during the recess to have an adjustment made.

I desire again to draw your attention to the desirability of a revision of the Balance Sheet, and in this connection I may state that I find that in the Imperial Parliament occasional Acts are passed to wipe off unproductive and valueless assets—this, of course, being after investigation and report by the Public Accounts Committee. I need say nothing further on this point as I understand it to be your intention to bring the subject before the Committee.

I mentioned in the Report of 1879-80, that I had arranged with Messrs. Baring Brothers & Co., to transfer, at the close of the calendar year 1880, to the credit of the Government of Canada the balances remaining in their hands, representing unpaid coupons of Bonds domiciled at their house—the sum thus transferred amounts to £1,823 8s. 5d. Sterling, which I have had placed to an account called “Unpaid Coupons” pending examination of the same. Messrs. Baring have also credited the Government with £200 for Unpaid Debentures. I have given instructions to have the matter of the Unpaid Dividends thoroughly examined with a view to its adjustment.

The Auditor-General has called my attention to a slight infraction of the law in the case of the settlement of the affairs of the late Bank of Upper Canada. By the

Act 34 Victoria, chap. 8., the Governor-in-Council had authority to advance the sum of \$250,000 to pay off claims on the estate of the Bank—the amount advanced to the 30th June last, was \$252,370.08. I recommend that an amending Act be introduced, authorizing a further advance of \$5,000, and as the Government is virtually now the only creditor (only \$464.25 being paid during the year to other creditors) I would suggest the desirability, during the recess, of closing up the affairs of the institution.

I have mentioned my regret at not being enabled to close up the Province Accounts; however, with the assistance of the Officers of the Department, I have examined into and closed many of the Miscellaneous and Banking Accounts on the liability side of the balance sheet; this has led to a slight rectification of the general liability statement. I regret that in the Note Circulation Account, and in the Receiver-General's account with the Bank of Montreal, discrepancies which arose prior to the amalgamation of the Finance and Receiver-General's Departments have been discovered which require adjustment.

I have now to draw attention to the transactions of the Department during the past year. I find that, in the first place, the amount credited to premium for the difference between the par of exchange and the amount paid for the £2,205,000 purchased for remittances to England, amounted to \$90,537.51, which represents an average purchase during the year at the rate of about $8\frac{1}{2}$ per cent. This has been arrived at by purchasing sixty days' exchange in advance of payments by tender from some sixteen Banks, and has, to a great extent, proved satisfactory. The profit on the silver coined for the Dominion during the past year has been \$97,854.34, and in the copper \$12,467.62, both of which amounts have been credited to Casual Revenue.

In conclusion, I have to state that, from the Officers of the Department, I have generally received steady and effective support in carrying on its affairs, and although the number has decreased by retirement, I am glad to be able to report that much has been done during the year in examining and verifying balances of open accounts in the Dominion Ledger.

The whole of which is respectfully submitted.

J. M. COURTNEY,

Deputy Minister of Finance.

COMPARATIVE STATEMENT OF THE LIABILITIES and ASSETS of Canada, 1867, 1868, 1869, 1870, 1871, 1872, 1873, 1874, 1875, 1876, 1877, 1878, 1879, 1880 and 1881.

Table with columns for years (1867-1881) and categories: LIABILITIES (Funded and Unfunded Debt, Payable in London, Payable in Canada, Miscellaneous, Banking Accounts) and ASSETS (Investments, Miscellaneous, Banking Accounts). Each cell contains numerical values in dollars and cents.

NOTE.—Heretofore the whole work of the Canal Offices at Hamilton and Kingston has been done by the Excise Staff, and the expenses have been charged against that service. It is now proposed that at Hamilton the duties shall be performed by one of the Excisemen, and at Kingston by the Gas Inspector, with the assistance of one of the Excisemen during the busy season, and therefore a part of the salaries of these officers is provided for in this estimate. It follows that these officers are enumerated twice, viz: all of them in this estimate, two of them also in the Excise estimate, and the third also in the Gas estimate.
