has not yet been announced. Next spring will undoubtedly see operations resumed, and the plan of development is understood to call for a continuation of the drifts on the various levels, particularly the 450 foot unnel, with a view of opening up the ore bodies from which the ore mined in the past has been stoped. The I. X. \$60,000 worth of ore at a cost of less than \$30,000, so the company has no

Abe Lincoln.—The present year will see development on the Abe Lincoln fairly under way, although a start up with the preliminary steps, such as the unwatering of the mine, straightening and timbering of the shaft and the installation of machinery to carry on work economically. With these essentials practically completed the company is now in shape to proceed with the development of the mine. The plan adopted is understood to include extensive drifting north and south of the shaft above the 200 foot level. At this point a small vein of high grade ore comes into the shaft, and it is be-lieved that by following the ore a larger body will be encountered. The

ture policy of the company with res-New St. Elmo.-The programme for the year's work is an open secret. The drifts intended to tap the ore body at the west end of the claim will be carried along steadily, and the greater part of the year will be required to bring the workings to the point where they are expected to break into the extensive ore body known to exist at the portion of the claim indicated. When this is accomplished the company will have approximately 1000 feet of depth, and if the ore body holds good or improves they will be in a most desirable position.

results attained will determine the fu-

O. K .- During the latter part of the old year work was resumed on the O. K. by John Y. Cole, and these operations are still under way, although sus-pended temporarily during the holidays. It is well known that the O. K. vein was cut off by a sandstone dyke, and that under the old regime no spe-cial effort was made to relocate the lead. Mr. Cole has undertaken work, and is crosscuting in the dyke. He has made 30 to 40 feet with the crosscut, and has met with such encouragement as to induce him to con tinue the work for some weeks further On the outcome of these operations the future programme with regard to

Giant.—It is presumed that an ex-Giant.—It is presumed that an extensive programme of work will be L. A. Campbell & Co., of Rossland, B. adopted in connection with the Giant, but the Miner has no information as to which of the plans of developme under consideration for some vast will be ultimately adopted.

Iron Mask.-The date of resumption idle for any lengthened period, particularly if the copper market takes a turn for the better. When a return to active operations is inaugurated it will bring with it an extensive programme of improvements in connec tion with the plant at the mine. This programme will include the installaof improved machinery and the straightening of the main shaft together with its conversion into a three-compartment shaft.

White Bear.-Development werk at the White Rear is steadily under way, and the intimation is given that the company's attention will be confined largely to sinking during the year. The proposition is to sink to the 500 foot level, and report has it that a new and powerful hoist has been or dered to expedite this work. The results attained will be watched with keen interest, as it is held in quarters that the property stands a very bright chance of securing within its lines the continuation of the exnsive ore bodies now being worked on the Black Bear claim of the Le Roi

OUTPUT FOR 1902.

Looking forward to the end of the present year there seems to be no day evening, and a return game will reason to doubt that the Golden City be played in the Forks later in the seavery substantial increase in tonnage the immediate future of the Golden

A VERY SUBSTANTIAL INCREASE IN ORE PRODUCTION FOR THE YEAR.

PHOENIX CITY ALSO BOASTS OF IMPROVEMENT AT A RAPID RATE.

PHOENIX, Jan. 4.—With the passing of another year it is customary, especially in mining camps, to take a look backward and see what the pro-

In Phoenix and vicinity the progress has been yery marked for the greater part of the year. All our mines have been shipping more or less, and of course the Granby mines have increas-ed their shipments steadily until they are shipping 1,400 tons of ore per day. The total number of tons sent out by the mines in Phoenix and vicinity is as follows: Granby mines, Phoenix camp, 233,424 tons; Winnipeg mine, Wellington camp, 1,040 tons; Athelstan mine, Wellington camp, 550; Snowshoe mine, Phoenix camp, 1,731 tons; B. C. mine, Summit camp, 47,405 tons; R. Bell, Summit camp, 500 tons. Total, 284,810 tons. Total shipments for the whole Boundary country as furnished by the Phoenix Pioneer are 380,030 tons, which at an average value of \$6 per ton makes the value \$2,280,000, which is three times the value of ore production for the previous year.

Not only has marked progress been made in the mining line, but the town itself has taken on a more citified appearance. Streets have been graded a water works system installed; fire brigade organized; many business blocks and numerous private resi-The total amount of dences built. The total amount of money spent in improvements during the past year, exclusive of buildings at the set ral mines, reaches a grand total of \$130,000.

The President Allows an Appeal From the Court's Verdict.

WASHINGTON, Jan. 7 .- The object of Admiral Schley's visit to the White House yesterday was to request the president to entertain and consider an appeal for the reversal of the ac has ben indulged in, and the consensus of opinion is that the old council will be elected, with possibly one or two exing the admiral's request. Messrs. Raynor and Teague will today assist Admiral Schley in the preparation of the appeal. Admiral Schley's interview with the president was the result of his determination to exhaust every means in his power to overrule the judgment which has been render-ed against him. His new appeal will be different from that submitted to

# THE ST EUGENE MINE

ction with the situation in RESULTS OF OPERATIONS AT THE PROPERTY IN THE PAST

> ESTABLISHMENT OF REFINERY WILL GIVE A BETTER

PROSPECT.

During the past year the St. Eugene produced in connection with the mining was only about one-third of the nor-of the copper see the St. Eugene once more on the shipping list as a result of the action of the Canadian Smelting works in deciding to establish a refinery in connection with their plant, and this will be one of the most important factors in connection with the prosperity of the East Kootenay lead districts. Refining Canadian lead on Canadian soil will afford a market for such high grade ores as are produced by the St.

> Meantime development work is going ahead steadily at the mine, with most satisfactory results. The new twocompartment working shaft is now down about 150 feet, and the drifts on the 100 foot level are making good progress. It is expected that the drifts will encounter the main shoots in 30 days at the latest. A feature of the sinking is the absence of water in any serious quantities. It was predicted that as the shaft is only 400 or 500 feet from the shore of Moyle lake the workings would be inundated as soon as they were below the water level. Fortunately the formation was impervious and the only water encountered has been the nor-

mal seepage from the hill above. In other parts of the mine develop ment work has been carried ahead steadily, and the discovery of no less than three important ore shoots is reported within the past three weeks With the ore reserves which the present programme of work is safe to disclose the St. Eugene will undoubtedly be entitled to be termed the biggest

CHINESE AFFAIRS.

The Dowager Empress Becomes a Little More Concinatory.

FEKIN, Jan. 4.-The dowager empress has issued another edict display-ing a desire to conciliate foreigners. She says friendly relations with the ministers should be resumed immediately upon the court's return to rekin, wherefore, it is desirable that the emperor grunt an audience and order an early date to be fixed for the reception of the ministers. Her majesty recalls the pleasure she experienced twice in receaving the ladies of the diplomatic corps and announces that she will soon arange another reception. The edict mentions the hall in which the emperor will receive the ministers. It is in the forbidden city, and in the same hall where the members of the council and the highest nobles are received. This conforms with the peace treaty. It is reported that a building along the route of the procession will be provided where the foreign ladies may witness the court's re-entry into Pekin by order of the dowager empress. This is a re-

markable innovation. Today's edict confirms the report that two missionaries were victims in the Kanan massacre, and orders the vigorous punishment of the persons concerned in the outrage.

The foreign office has received a petition signed by a multitude of Chinese merchants in the United States, rere-enactment of the Chinese law. The in the United States are opposed to the law and only the coterie surounding President Roosevelt favor it; that all Chinese entering the country are regarded and treated as criminals; that both sexes are stripped nd examined for disease, and that the feelings of the respectable Chinese are outraged by the ordeal; and it is further alleged that many delicate persons have died as the rati of this treatment.

The proposed measure to pohibit the States in order to enter Mexico and

# More Home Knitters Wanted

To Work at Their Homes Under the Direction of The GLASGOW WOOLLEN CO.

37 MELINDA ST., TORONTO, To Fill Large Contracts—Good Wages Easily Earned.

We want a few more workers in this locality, at once, and in order to secure your co-operation without the delay of correspondence, we herewith explain our full plan in this advertisement. The work is simple, and the Machine is easily operated, and with the Guide,

requires no teacher. If you wish to join our staff of Workers let us hear from you promptly with the Contract, order form, and remittance, as a guarantee, and we will send machine and outfit to begin work at once.

New Year Resolutions.

With the inauguration of a New Year it is customary for individuals and communities to balance up the The B. C. Mining Review (London)

The extensive area of the company's property, stretching, as it does, across

Lying Reports Concerning during the preceding twelve months, and discover what the result is in the way of failure or success. Such a reof great practical benefit, as thro this means we can set ourselves right in numberless ways, and by learning where we have made mistakes in the It is the season of good resolutions, and despite the popular jest which is made of the annual determination on the part of the individual to put himself in accord with what his conscience tells him is right, the effort is always one from which real advantage is derived. Hell may be paved with good intentions, as Dr. Johnson said, and, if so, they are the only good things which have ever entered that gloomy them. But in addition to the duty which should be strengthened at this season, he also owes one to the country of which he is a citizen, and if the full comprehension of this would strike the residents of British Columbia, the province during the next year would make great strides forward. The prospect for the country is the brightest if the residents will only do their duty by her.-Vancouver Prov-

The Mineral Output.

The production of \$13,021,000 during the year 1901, as it was won under the most disadvantageous circumstances, is a result which the people of the Kootenays and Yale may point to with pride The conditions were adverse enough to discourage the most optimistic, but the mine owners by adjusting their affairs to changed conditions were enabled to keep on and worked their properties at a pro-They will go on this year animated by the same strong determination to win, and they will win. Low and high the present low water mark quotations for silver and lead will not last a very come enlarged profits. The greatest satand generally conducted the operations at the mine during the period under review, and in particular to testify to this ability and energy with which he has dealt with the recent serious strike. The dealt with the recent serious strike at the manny were disquainted for the same cause.

The dental hospitals of London have notified the war office that they are proportions, but under more favorable conditions it will assume very large proportions, but under more favorable conditions it will advance even with greater strides than it did in 1901.

### SOUND SENSE.

The B. C. Mining Exchange and Inestors' Guide, a Vancouver publication, contains an article full of such sound sense in respect to the question of unionism and labor troubles, that it is worthy of production in full in our editorial columns. It is as follows:

While not wishing to be hyper-criti- to suggest to the authorities that it cal in connection with our late labor would be wise at this time to display troubles yet it must be admitted that this vexed question which has borne so hardly on the development of this which every fair-minded man ought to young and promising province, was insist upon is that the laws of the coununfortunately precipitated by a set of try shall be obeyed. As far as the Rossgods, out of office) who succeeded only too well in intensifying the situation and retarding the progress of the country just at the crucial moment when capital was waiting to take hold of our mineral properties and work them, and when a policy of an entirely different character should have been adopted by our legislators in the interests of the province, not of labor unions and cliques such as they pandered to, any more than in the interests of speculators. It is well known that two essentials are necessary to attract capital to any new country, viz., physical advantages or resources combined with cheap labor, the last being indispensable. Particularly does couragement, not the handicapping by prospective labor difficulties.

With respect to the first essential, "resources," it is conceded by the most among metal men, so that it's not a

Unfortunately, there's too much unficance of this commercial experiment. ion and too little common sense brought to bear in its workings; consequently, not only the district suffers which is affected, but invariably the men themselves. Referring to the actions of the labor unions, a notable prevent the future investment of capital than to let it be known that the miners' union is in force and attempts to dictate terms to the owners and their non-union workman."

By such lawless actions the labor is now only a few days away, and it element, which contains the largest their own actions strike back with reatest force and effect against them-

A WORD OF WARNING.

day or two disorderly demonstrations have been made by aggressive union men against the men employed in the mines of Rossland at the present time. This was particularly noticeable New Year's night and the following days Very many people believe, now that the agitators have been driven into a hole, like rats cornered, that they are likely to grow desperate and resort to acts of violence. It is almost superflous considerable vigilance in preserving the peace of the community. One thing carpet bag politicians (now, thank the land Miner is concerned, it does not matter who the offender may bewhether he be a non-union or a union man-if he offends against the laws he should be punished. A number of citizens have spoken to the Miner on this matter, and some of them have expressed the opinion that the police authorities have shown a laxity of action in attending to evils which are evident in respect to the keeping of the peace of the community. There ought not to be any hesitancy shown by Chief Vaughan and his assistants in attending to cases which appear to menace the peace of the city. In fact the greatest alacrity should be displayed in calling down censure upon the heads of those responsible for disorderly conduct. In this connection we might say a word in approval of the remarks made by Mr. Pettit in a communication published in yesterday's Miner. Mr. Pettit takes up the cudgel in defence of the Missourians who are now employed in this camp, and utters a timely word of protest against the attacks which have been made upon them by the so-called good the wireless telegraph on ships—a conof the city waiting for something to turn up. We are entirely in sympathy with what Mr. Pettit has to say respecting the status of those in whose defense he speaks and the union men. We hope what he has to say regarding the ill-treatment which has been accorded them by the union will be taken to heart by those in whose charge is placed the keeping of the peace of the city of Rossland.

### A GOOD WORD FOR THE C. P. R.

The special corespondent of the Lon-

ion Times, who accompanied the royal isitors on their recent tour through Canada, has a good word to say for the Canadian Pacific Railway company, He hus declares: "That wonderful corporation, the Canadian Pacific, on which a railway journey of 8,000 miles may be taken in restful comfort, is a very potent influence towards the unification of Canada. There are those who object to the Canadian Pacific, describing it as a monopoly and the like; and there are those that think that when you have said 'monopoly' you have begun and ended the whole argument. But I am not one of those, for I judge by results. way really has opened up the country and really has helped to unify Canada, and to make it prosperous. That the prosperity should be to the profit of the shareholders, who are largely English, is, to my mind, so much the better. Moreoven, this much I know and I have so indicated by telegram, when you go further than the Canadian Pacific railway, even in Canadian Pacific railway worse. You are on a line that does not why, to use a sporting term, I

The attention of the Red Mountain railroad people is to be drawn to the necessity of at once placing in passable condition the crossings of the Black Bear road over their tracks near the works. While construction has been under way the road has been next to impassable for teams, and this has wrought a hardship on many parties who use the thoroughfare more or less constantly. When the com-

The regular meeting of the city council took place last night at the city hall, Mayor Lalonde and Aldermen Clute, Armstrong, McKenzie and McDonnell being in attendance. Reports recommending accounts for pay-ment under the following headings were presented and passed: Health and relief committee \$338, fire, water and light \$172, finance \$413. Council adcoming board will subscribe to the oath of office and take over the city's

business.

(Young Sully) signed articles yesterday for a 20-round boxing match at the International music hall on the young fellows will spar for a \$100 purse. This will settle the question as to their relative merits as boxers and incidentally afford some sport for those who take an interest in fistic events. Sullivan has the advantage in point of reach and weight, while Jor is a better boxer and has had considerable ring training, making the outcome a toss-up. The contest will strictly on the merits of the boxers. In addition a couple of rattling preliminaries are being arranged, which with the first class vaudeville programme at the International give a promising evening's entertainment.

COSTLY THAW-The thaw of the past three or four days has proved decidedly embarrassing to several mining properties which had arranged to commence shipments on a considerable scale. The Velvet had gone so far as to cars "spotted" at their siding for the removal of ore when the thaw softened the road to such a degree that heavy teaming would have destroyed the road for the balance of the winter. The Silver Hill mine was in almost the same condition, although the tramway required a few days' work to put it in shape for active operations. A number of teams had been

yesterday morning in earnest for the spring course of studies some 30 pupils were present in addition to those reporting on Monday. Of these 14 came to the Cook avenue school and the balance to the Central. The matter of securing the services of an addi-tional teacher will be left in abeyance till the end of the week, when it will be possible to determine more or le accurately how many pupils each teacher will be required to take charge of. Miss Olding, of the Central staff, has placed her resignation in the hands of the trustee board and leaves next week to assume a post in the Vancouver schools. With the extra eacher whose services are necessary this resignation will make two vacancies on the staff.

"CONFUSION."

The Amateurs Score a Success in . Their Trip Abroad.

Manager Nelson returned with the members of the cast last evening. He expressed himself as well satisfied with the outing. While away the troupe played at Nelson, Grand Forks and Greenwood to large and apprecia-

tive audiences.

The members all speak in the highest terms of praise of the manner in which they were received and entertained by the people of these three cities. Everything was done to make the visit of the Rosslanders enjoyable and the entertainments a success.

The trip was one continued round of pleasure from commencement to end-indeed one and all expressed re-

The manager spoke in terms of warmest praise of the success of the venture both financially and artistimembers over and above the regular cally. So proficient have the members become in their several parts that many who were not acquainted with them personally believed them to be

been badly beaten while coming from work in the Centre Star mine. The police looked into the matter thoroughly and claim the yarn had no foundation

ALL OFF-The January thaw has effectually put an end to curling and hockey for the present. A message from Trail is to the effect that similar conditions, or worse, exist there and that the game talked of for this week must be indefinitely postponed. When the weather stiffens up again hockey practices will be recomenced and games arranged.

SHIPPING STARTED-

The True Blue mine in the Kaslo camp, managed by J. C. Drewry, of Rossland, has started shipping, the first consignment of high grade copper ore having been rawhided down for shipment to the Hall smelter on the first of the year. Further consignments will follow as long as the rawhiding continues. The development of the property is being continued meantime with excellent results.

TO TRAIL-The statement is volunteered that the War Bagle and Centre Star mines are lkely to resume shipments on or before February 1. The installation of the new crusher at the Trail smelter has caused the present imactivity in the shipping line, and as the improvements to the smelten are to be finished within thirty days at the outside it is naturally expected that the mines will then commence sending out ore on the scale in force prior to July last.

HOTEL CHANGE-

A change has taken place in connection with the C. P. R. hotel, whereby the management of the place will be taken over by Harry Bell, well and faknown in the Golden City. Mr. ings comprising the hotel property and hereafter under its original name—the peted, while the bar has been entirely at the time and places already detailed restocked and the dining room brought in the Miner. up to its former pitch of excellence. -++-

THE REFINERY-The statement is made that the Carefinery in readiness to commence opordered from the manufacturers and the benefit of St. George's church, buildings erected at a season of the year when building is no easy task, the company is undertaking a good-sized Pythians, Deputy Grand Chancellor

BOXING MATCHES-

Local sportsmen are concluding arrangements for a card of sparring matches at the International on the 20th inst. The last affair of this nature in the same premises drew such a large house and afforded such an excellent night's Principal Tait's work in connection sport that the promoters feel quite justified in putting on another similar entertainment. The question of the men of the class for a portion of the term who will be billed to appear has not and only expected to pass seven of his been settled finally. Dude Lewis, of Spokane, will undoubtedly be given another engagement, and the choice of an oponent rests between Morton Freeman and Oscar Rudd. Freeman is a Portland COLDS, HEADACHE, man who is well known in Spokane; he has been in the ring more or less continuously for the past ten years, and is now about 35 years old. He would fight at about 145 to 145 pounds, and in Relieved in Ten Minutes by Dr. Agthis respect would have somewhat of an advantage over Lewis, although the latter's youth and superior science would be a fair offset. In height and reach the men are evenly matched. Rudd of Phoenix wants to meet Lewis, but his talk hot air. Lewis is ready to meet anyone dies without avail. "After taking Dr. in his class. A fast preliminary or two will be put on before the principal event fitted at once," are his words. It is a there was no crying demand for conand this with the firstclass variety show being put on weekly at the International should attract another bumper house.

HOT AIR-

yesterday's Spokesman-Review

tion is that he makes no move toward covering Goff's deposit of \$200 to bind a match, confining himself to a general declaration of his willingness to meet Goff in Spokane or anywhere else that may be agreed upon barring British Columbia. If Burly desires sportsmen to take him at his word it would have been good policy to put up the coin to balarce Goff's hard cash

IS JANITOR-Percy White has been appointed janitor at the Cook avenue school by the Cards and refreshments were the order trustee board. The position is filled pending the action of the new board. The A rumor was widely circulated yes-terday to the effect that a miner had school is now in readiness for occupation on Monday.

A TON OF ORRE-

In reply toi"W. G. W., Westaskiwin, t may be stated that in the Rosslan camp 12 cubic feet of ore in place is figured as one ton, while 17 cubic feet of broken ore is required to make up a ton. The data for the Boundary ores are not available in this office. -++-

"ENGAGED"-

The posters for the production of 'Engaged" by the Rossland Amateur Dramatic club are out, and the plan for the entertainment opens at Rolls drug store tomorrow. As very considerable interest is manifested in the attraction the demand for seats is certain to be lively.

POSTOFFICE-

fireproof ceiling of the main office is and the new year in being placed, and other minor work is under way at various points in the building.

MINSTRELS-

The rehearsals of the Rossland minstrels were interrupted by the holidays, but the members of the company will now resume practice regularly. On Wednesday night the entire circle portion of the entertainment will be gone through and other features rehearsed. The Harmony Club's entertainment will be excellent. -++-

### \*\*\* \*\*\*\*\*\*\*\*\*\*\*\*\* COMMUNICATIONS

\*\*\*\*\*\*\*\*\* A RECIPE FOR PROSPERITY.

To the Editor: The old adage "God its broadest and best sideration of Rosslanders at the present time. The prosperity of the com-munity means the prosperity of the in-the Venezuelan army. dividual; but it is only in exceptional instances that great prosperity is en- with a force composed only of Colomjoyed without the manifestation of bian Liberals. The entrance was gain part of the individual. Signs are not there will soon, it is expected, be some lacking to show that many of us have severe battling. got into a very indifferent, not to say

great need for speedy reformation. Can it be that Rosslanders have and the capital of Santander. been spoilt by their exceptionally good fortune in the past? There was a now planned by the insurgents. The time in this camp when a few enterprising men did all that was neces- sisting of the gunboats Darien, Padilla sary. in Dr. Agnew's Catarrhal Pow- river and marketed it in Montana and is even reported that some of these Mackintoshes, and the Corbins, made mine Herrera is the commander of mineral claim the sum of \$102.50, in Chilled to the bone? A teaspoonful of great benefits derived from the exploi-Pain-Killer in a cup of hot water sweet- tations of these captains of industry riqui and the Pacific Mail company's

benefits—an ever increasing prosp sland has had a board of trade which has spasmodically attempted to do the right thing, but as it never was really representative of the general public it has failed to promote much good that might otherwise with the present members; they deserve considerable credit for their efforts to advance the town and sur-Mrs. A. S. Goodeve entertained a rounding district. The great difficulty has been to induce the aid and cooperation of a large number of merchants and nearly all the wage-earners. There is really no excuse for this Mrs. Rolls, Le Roi avenue, was the lack of public spirit by many of our merchants. They would be the first to benefit by additional prosperity. This also applies to an equal extent to those who are earning comfortable capita tax. salaries, and, as for the man receiving ess, he, at least, could be represented by a delegation from the union or society to which he may belong.

It would be well for us to bear in mind the fable of the Bundle of Faggots. So long as different elements of the community work at cross-purposes, so long will there be a likeli-hood of business stagnation, if not disastrous industrial retrogression. For the present our mottoes should be "Get together" and "Help one another," to the end that the greatest possible good may result.

In conclusion permit me to direct attention to a little of what may be accomplished if this were done: 1. A systematic and thorough advertisement of our splendid natural

resources by local contributions. 2. A persistent attempt to place Rossland in first class communication with outlying mines in the Trail Creek

3. The encouragement of local con centration and other economical works board would be of special value befor the treatment of our enormous bodies of low grade ore. 4. The financial assistance of the

provincial government to establish such works. 5. The reduction of railway rates on general merchandise. 6. The exploitation abroad of the

camp and district by the provincial and Dominion governments.

I think, sir, that if even this much were done there would be no lack of prosperity in Rossland, and as this is but a little partial list of our possibilities, surely there is good reason for us

all to work together to that end.

RE CITY FINANCES.

To the Editor: Something must be done, and at once. We cannot keep on increasing our expenses at the rate wreaths of ivy. Only the immediate we have been for the last two years. friends of the contracting parties were Look at the statement publishedpresent at the ceremony, which was taxes collected, including three years reformed by Rev. Dr. Grant, pastor of the First Baptist chlurch, of which Miss of arrears, \$26,000; public servants' salaries, including clothes, near \$30,000. Marks told the witness he was going to Monte the made many tups to Europe and the States recently. Stavitszky is to be taken before a grand jury at Rutland, Vermont. tomorrow.

Robert G. Ingersoll, from which Marks ship building there, has submitted his was constantly quoting. Marks told the witness he was going to Monte to the construction of steel ships are lower in price in the United States than in any other country, and the only thing to be complained of its construction of steel ships are lower in price in the United States than in any other country, and the only thing to be complained of its construction of steel ships are lower in price in the United States than in any other country, and the only thing to be complained of its construction of steel ships are lower in price in the United States than in any other country, and the only thing to be complained of its construction of steel ships are lower in price in the United States than in any other country, and the only thing to be complained of its construction of steel ships are lower in price in the United States than in any other country, and the only thing to be complained of its construction of steel ships are lower in price in the United States than in any other country, and the only thing to be complained of its construction of steel ships are lower in price in the United States than in any other country, and the witness he was going to Monte Carlo. The manager of a hotel, a wo-man, testified that when Marks bade her farewell he remarked: "Probably the only thing to be complained of its construction of steel ships are lower in price in the United States than in any other country, and the witness he was going to Monte Carlo. The manager of a hotel, a wo-man, testified that when Marks bade he witness he was constantly quoting. The was constan you will never see my miserable face the fluctuations in prices, which makes competition with foreign ship builder difficult. He refers to the splendid body of American workmen earning wages from 30 to 50 per cent higher than those paid in Great Britain a hundred per cent higher than the wages paid on the continent. Schwartz reports that notwithstanding Jena, in the duchy of Saex-Weimar built on the great lakes as cheaply as Eisenach, in which Lieut. Thieme of tramp steamers are built in Great States, he says, is the largest and richest in the world, and that it will the devote its resources to economic ship building. In conclusion he says: "We see, therefore, that the Americans are command to put their ship building industry in a position successfully to ship builders on the one hand and on

TRAIN ROBBERS.

Rumored Attempt to Hold Up a B. & O. Express Train.

port was received here this aftermoon of a bold attempt to hold up a B. & O. express train which left here at 11 o'clock last night for Chicago. The sceme CUMBERLAND, Md., Jan. 6.-A resimilar to some which had taken place of the attempt was Swanton, an iso-in 1901 he would demand resignations. lated spot on the 17-mile grade in the Alleghenies, about 45 miles west of here. The operator, M. J. Sa states that five men came into his office and offered him candy. Then one of the men struck him over the head with a VICTORIA, Jan. 6.—The southwest gale which blew yesterday did not cause injury to the stranded ship fic. The quick application of the air brakes prevented the train from being ditched. The armed express officers turned out, but the five men who made the attempt escaped into the mountains. Shots were exchanged, and an armed posse is now reported to be pursuing

BALTIMORE, Jan. 6.—Baltimore Ohio officials here claim to know nothing of the reported attempt to hold up the Chicago express west of Cumber-land, Md., last night.

# **WITH BOERS**

Lord Kitchener's Summing Up of the Week's Results.

Owing to the interruption of the oliday, the stock market week again Many Lives Were Lost in a Steamship Collision.

> LONDON, Jan. 7.-Lord Kitchener. telegraphing from Johannesburg Monday, January 6th, reports the rence of a number of skirmishes in various parts of the war fields. The most serious were at Amersfoort, January 3rd and 4th, when Major W. H. Plumer and Col. J. S. Pens were in ontact with Commandant Christian Botha's and Commandant Opperman's commandos. They drove the Boers from their positions after considerable ighting, during which the Somerse Light Infantry suffered severely. Major Valentine and 18 men were killed and five officers and 23 men were wounded. The Boers left nine men. dead on the field. Colenbrander surprised Field Cornet Louw's laager at Waterval January - 5th, killing five men and capturing 29. Lord Kitchener mentions other minor surprises and captures. General French reports that the Boers in Cape Colony are so reduced in number as to require only an elaborate police system to keep them in check. The week's totals of Boer casualties are 36 men killed, 9 wounded, 261 made prisoners and 72

VIENNA, Jan. 7.-The trial began behind closed doors here today of Captain Carina of the Austrian cavalry on the charge of divulging military secrets to the French government, in payment for which he is alleged to have received £2,000. Captain Carina pleaded not guilty and said he never possessed nor had access to the information which he was accused of

LISBON, Jan. 7.-The British steam er Alfonso, from Newport News, November 15, for Gibraltar, and the Spanish steamer Vilelva, both loaded with coal, collided during the night of January 4 off Aveiro, Portugal. Both vessels sank. Eighteen men of the Alfonso and one man belonging to the Vilelva were drowned. Twenty-four members of the Vilelva's crew and the captain of the Alfonso were picked up and landed at Minno Lahos.

LONDON, Jan. 8.—A published review of operations in South Africa during the past year, based upon official reports, gives an interesting com-parison of Boer and British losses. The review says that the total reduction of the Boer forces in killed, wounded, taken prisoners and sur-rendered amounts to 18,30 men. Out of this total only 993 rifles were secured. British columns are supposed to have taken all the Boer artillery, amounting to 27 guns, exclusive of the two captured by General De Wet at Zeefontein. The capture of Boer stock has been enormous, considering the 31/2 great hauls made during the earlier years of the war. During the last year a total of 29,882 horses were captured, while of other stock, such as cattle, oxen and sheep, 366,821 head were captured. The British casualties from actual fighting amount to only half of those sustained by the Boers, namely, 9,113 men, of which 1,153 were made isoners and have since been released. During the last year 4,040 men died of disease, 15 officers and 342 men were accidentally killed, and 25,800 men were 316 invalided home.

COAST WRECKAGE

The Cutter Grant to Make a Tour of

Investigation. PORT TOWNSEND, WASH., Jan. 7. The United States revenue cutter Gran sailed this morning for an extended cruise along the shores of the straits of Juan de Fuca, and also along the coast south of Cape Flattery, to examine the large amount of wreckage reported along the beach during the past two weeks. It is believed that many ves-sels have met with disaster during the sels have met with disaster during the continued gales which have prevailed since December 25th, as the Indians daily bring reports to Neah Bay of new wreckage coming ashore south of Cape Flattery. Captain Tozier of the Grant will make a tour of investigation for the purpose of ascertaining, if possible, the names of the vessels from which the reported greekers came. The steam the reported wreckage came. The steamer Alice Gertrude, arriving from Neah Bay today, reports last night's storm wn the straits as being of great vio nce, and off Cape Flattery the wind sached almost the velocity of a hurri-ne, driving vessels in the vicinity of Cape Flattery out to sea. Vessels in the straits sought she and Clallam Bay. shelter in Port Angeles

MR. WHITNEY'S HORSES.

Travelled Across Atlantic Like Saloon Passengers.

LONDON, Jan. 7.-The Atlantic Transport line steamer Minnehaha arrived today, having on board William C. Whitney's Derby candidate Nasturtium and his Peg Woffington colt. turtium and his Peg Woffington colt. They were treated throughout the voyage like saloon passengers, ar are in splendid condition. The hors when they land tomorrow will be tak on a special train to Newmarket. Commenting on the racing prospects of tamerican horses, the London Says: "If Mr. Whitney's horses a run satisfactorily in 1902, which they most distinctly were not in 1901, though most distinctly were not in 1901, though neither Mr. Whitney nor his trainer were ever held accountable for their vagaries in form, there is no doubt Nasturtium's victory, if he is the vic-
