Harold Parr	67.2

(Continued next week.)

GEORGE N. GORDON, M. P.

From West Peterborough, who is to be Deputy Speaker of the House of Commons, Wm. German, M. P. having declined to accept that office.

BOARD OF TRADE

There were eighteen members present at the meeting of the Board of Trade on Tuesday evening at the Town Hall. Although the attendance was small the meeting was the most enthusiastic ever held by the Board. The president, H. E. Woodman, occupied the chair, and gave an outline of the work accomplished by the Council since the last meeting. One important work was the assistance given to Mr. Robinson, M. P. in his efforts, which were successful, to have the mail subsidy granted this year to the Parrsboro boat.

Mr. Woodman also reported for the committee which interviewed the provincial government on Monday asking for a permanent road between Wolfville and Kentville. He stated that the committee received a good hearing and were assured that the matter would be considered.

Mr. B. O. Davidson reported for the committee on Harbor Improvement that it was hoped some work would be done this season as Mr. Robinson hoped to be able to secure a small grant.

The matter of filling up the creek at "Mud Bridge" came up for discussion and it was the opinion of all present that the work should be done. It was suggested that if filled up the place would make an ideal recreation ground for the children of the town, and might possibly be used for baseball and other sports. A committee composed of L. E. Shaw, Dr. W. L. Archibald and C. M. Gormley was appointed to secure the necessary data as to cost, etc.

The president stated that the General Manager of the Dominion Atlantic Railway had written the Board asking its assistance in securing an increased subsidy from the local government for the Parrsboro boat, as without the increase the boat could not be run this season. On motion the matter was left with the Council and authority given them to ask the local government for an increased subsidy.

FUNERAL OF MRS. J. W. MANNING

The funeral of the late Mrs. J. W. Manning took place on Saturday afternoon. There was a short service at the house on University avenue, at two o'clock, when Revs. Dr. A. C. Chute and Dr. J. H. MacDonald officiated, and the University Quartette sang a selection.

The body was then taken to the Baptist church where a large congregation had assembled, including members of the Seminary Alumnae, the Baptist Women's Missionary Aid, and the various women's organizations in the establishment and promotion of which the deceased had been mainly instrumental. The casket was borne into position in front of the pulpit by Drs. Cullen, Wheelock, Spidle, Archibald, Coit and Prof. Sutherland.

Miss Evelyn Duncanson sang "Crossing the Bar", after which Rev. J. H. MacDonald read a portion of scripture and Rev. C. H. Martel led in prayer. The address was given by Rev. Dr. DeWitt who paid a fitting tribute to the splendid qualities of the departed. The University Quartette, Messrs. Vincent, Prime, Crossman and Parsons, sang "Asleep in Jesus", and the service closed with the benediction by the pastor. The interment was at Willow Bank Cemetery, a short service at the graves being conducted by Dr. MacDonald and Dr. DeWitt.

At a meeting of the Building Committee held yesterday afternoon, permits were granted as follows: To C. H. Wright, for the erection of an addition to the residence of W. A. Reid, Acadia street; to Dr. William Grant, for the building of a verandah on his residence on Gaspereau avenue; and to A. N. Perry for the building of a garage on his property on Lindeau avenue, all the necessary conditions to be fulfilled.

TOWN COUNCIL

Meets and Passes Estimate for Current Year—Tax Rate Pretty Stiff One But Necessary

There was a good attendance of citizens present on Wednesday at the regular session of the Council which lasted until after midnight.

Mayor Sutherland and all the members of the Council were on hand with the exception of Coun. Nowlan who although somewhat improved is still confined to his home by severe illness.

Coun. Young, chairman of the Streets Committee, reported an expenditure in that department during the month of March of \$262.50 for cleaning and gravelling streets and sidewalks, etc. The committee recommended that work be done on Prospect street at the junction of Central avenue where it was proposed to place two catch-basins removing the culvert and using the material to build up the lower side of Prospect street. This street is in a dangerous condition and requires immediate attention.

In the absence of the Chairman of the Water Committee, Coun. Whidden reported for that department that work would be begun at once laying the pipeline on Kent avenue. Coun. Whidden also announced the intention of the committee to operate the pump at the artesian well in the near future so as to ensure a supply of water for the coming season.

For the Sewer Committee, Coun. Wheaton, the chairman, reported that no work had been done during the month but that the laying of the sewer on Kent avenue would be proceeded with immediately.

Through its chairman, Coun. Whidden, the Police Committee reported collected fines during the month, \$82.00 and for licenses \$46.00. The committee asked for direction from the Council in the matter of the collection of fines now standing—"souvenirs from the former Council".

Coun. Eaton, chairman of the Poor Committee, reported the expenditure in that department amounting in all to \$63.12.

Coun. Cox, chairman of the Finance Committee, reported on the receipts and expenditures for the month. The overdraft at the bank at the end of March was \$13,818.30.

A letter was read from Mr. Robie Tufts, asking a rebate on account of the tax paid by him on a dog which he has since disposed of. This request was referred to the License Committee for investigation.

A letter was read from Mrs. Thomas Hughes asking that she might be able to take advantage of the provision of the Dominion Housing Act, which act was adopted some time ago by the Council. Couns. Cox, Eaton and Young were appointed to suggest at a special meeting of the Council held to deal with the matter the names of those who are willing to act on the Housing Act Commission.

Dr. Archibald, who represented the Mayor on the delegation which urged upon the government concerning the construction of a tarvia road between Kentville and Wolfville, was present and gave a report. He stated that the delegation had been well received and were given to understand that their request would have due consideration.

Mr. Morgan Tamplin was relieved of a tax imposed upon him on an assessment wrongfully made in 1911.

It was on motion resolved that the unpaid fines reported by the Police Committee as standing on the police records against Mrs. J. Elliott Smith and Charles F. Stewart be considered uncollectable, and that no further action be taken.

It was decided, upon the recommendation of the Poor Committee, that after May 1st, Mr. R. E. Harris be paid \$10.50 per month for the east side of a double house now occupied by Thomas Foster, and that the town assume the lease.

Provision was made to submit to citizens when the next public meeting is held a proposition to ratify the action of the Council of 1919 in using the moneys of the Patriotic Fund for current expenses.

It was resolved that the Town Council authorize the levying and collecting of a rate of 4.50 cents on the dollar on the assessment valuation of the town with the usual discount and interest.

Couns. Cox, Whidden and Wheaton were appointed a committee to revise the rate book for the year.

On motion it was decided to ask the Board of Commissioners of Public Utilities to have the rate charged by the Gaspereau River Power Co. to the Wolfville Electric Commission fixed at a rate not greater than 7 cents per kilowatt.

Arrangements were made for the holding of a public meeting of citizens as per notice appearing in another place in this paper.

The Finance Committee presented estimates for the current year, from which we call the following which will be of special interest to citizens:

Salaries	\$13965.00
Schools	6425.00
Street Lighting	2000.00
Water System	2086.00
Gas and Water	4880.00

Valley Cricket League

Holds Annual Meeting and Draws up Schedule

The annual meeting of the Annapolis Valley Cricket League was held Monday night at the Royal Hotel. The following representatives were present: Harold Anslow and C. A. Ryan, Windsor; Messrs. Bottomley and Ollerhead, Bridgetown; Capt. Holland, Messrs. Walker and Fosberry, Kentville; J. Elliot Smith, A. J. Mason, Dr. W. A. Coit, G. S. Bauld and H. D'Almaine. On account of the absence of the president, Rev. R. F. Dixon, the chair was taken by Capt. Holland, vice president. After the usual routine business had been disposed of the following officers were elected for the ensuing year:

Honorary President—Rev. R. F. Dixon
President—C. A. Ryan, Windsor
Vice President—Mr. Bottomley, Bridgetown.

Sec.-Treas.—Dr. W. A. Coit.

Annapolis Royal was not represented at the meeting but a letter was read requesting their inclusion in the league. The following schedule for the coming season was drawn up, the first mentioned being the home team:

June 3—Windsor vs. Bridgetown.
June 10—Kentville vs. Wolfville.
June 15—Windsor vs. Annapolis.
June 23—Bridgetown vs. Annapolis.
June 24—Annapolis vs. Wolfville.
July 1—Wolfville vs. Bridgetown.
July 8—Kentville vs. Annapolis.
July 13—Bridgetown vs. Windsor.
July 22—Wolfville vs. Windsor.
July 22—Kentville vs. Bridgetown.
July 29—Annapolis vs. Kentville.
Aug. 5—Bridgetown vs. Wolfville.
Aug. 5—Kentville vs. Windsor.
Aug. 10—Annapolis vs. Windsor.
Aug. 12—Wolfville vs. Kentville.
Aug. 17—Windsor vs. Wolfville.
Aug. 18—Annapolis vs. Bridgetown.
Aug. 19—Bridgetown vs. Kentville.
Aug. 24—Windsor vs. Kentville.
Aug. 26—Wolfville vs. Annapolis.

By finishing the schedule in August it was intended to allow an opportunity for the winning club to participate in any further championship events that may be arranged if desired. It was further agreed that in the event of any club finding itself unable to play on a schedule date, three days' notice be given to the opposing club and in event of failure to give such notice or to arrange a new date by mutual agreement, the game be forfeited.

PRESENTATION TO DR. CHUTE

A very happy event took place on Wednesday evening at the home of Dr. A. C. Chute, Dean of the Theological Department of Acadia University, and Mrs. Chute, when several of the theological students and a few friends gathered to give Dr. Chute a birthday party. A delightful evening was spent in games, music, and social chat, and delicious refreshments were served. Before departing for their homes, Mr. M. O. Brinton, '22, on behalf of the students present, presented Dr. Chute with a cane, and in so doing, he referred to the high regard in which the Doctor is held by all whose privilege it is to know him, and whose joy it is to associate with him from day to day. He spoke of his exemplary life and character which are so outstanding, and reflect so perfectly the life of the Greater Teacher.

Dr. Chute made a most suitable reply, expressing his thanks and referring to the pleasant relations which have existed between Professor and student.

Dr. and Mrs. Chute and Miss Chute are untiring in their kindness to the students of Acadia, and their home is the students' home. They fill a large place in the lives of Acadia people, past and present, who will join in wishing the reverend gentleman many more happy years of usefulness.

The evening was brought to a close by the joining of hands and singing "Auld Lang Syne". Dr. and Mrs. Cullen, Dr. and Mrs. Thompson and ex-Mayor and Mrs. Fitch were among those present.

Mrs. W. D. Whitton entertained the Ladies Bridge Club on Tuesday evening.

Poor and Inmate	1300.00
Municipality Joint Service	4000.00
Provincial Highway Tax	830.00
Current Deficit Dec. 31, 1921	8075.15
Elec. Light Sinking Fund	1285.00
Contingent	1000.00
The following bills were read and passed:	
Street Lighting	\$696.63
R. E. Harris & Sons	13.60
A. W. Bleakney	1.00
Burton Croft	12.00
R. E. Harris	25.30
F. W. Bartheaux	26.39
T. W. Boyd	13.90
Wood & Mahoney	2.50
London Rubber Stamp Co.	.50
B. O. Davidson	20.25
M. W. Pick	20.00
Aubrey S. Dalkin	2.50
Mar. Tel. & Tel. Co.	13.00
Davidson Bros.	38.66
R. A. Jodrey	100.50

HON. E. L. PATENAUDE

Who is slated to succeed Mr. Arthur Sauve as leader of the Opposition in the Quebec Legislature.

SCHOOL BOARD MEETING

The regular monthly meeting of the School Board was held on Monday evening with all the members present.

The following bills were read and ordered paid:

J. C. Mitchell	\$65.74
Woodman & Co.	54.41
A. W. Bleakney	1.45
F. W. Woodman	7.00
Flo. M. Harris	37.60

A letter was read from Miss Muriel Haley, with a list of Kindergarten materials which she has on hand to dispose of, asking the Board to purchase same. It was decided that the offer be taken advantage of.

Considerable time was spent in the discussion of conditions in connection with the primary department of the school, which is very much overcrowded. It was finally decided to leave the matter in the hands of Principal Silver and the chairman of the Board, with whom authority was given to procure an assistant teacher if deemed necessary.

Applications for re-appointment were read from all the teachers except the principal in every case an increase of salary being asked for. The question was discussed at length and was finally laid over for consideration at a special meeting to be held on April 17th.

A resolution was passed asking the Council to proceed as soon as possible with the grading of the grounds and suggesting that the offer of Mr. E. Percy Brown to place the grades for same be accepted. It was also asked that proper screening be placed over the front windows of new building to prevent accidents.

AN INTERESTING LETTER

Mrs. Oscar Chase, of Church Street, had a most interesting letter from Mrs. C. S. Barse the other day which is of more than individual interest. She writes in part:

Daytona, Florida, March 26, 1922.
We noticed by the home paper and also heard from my sister that you had returned from your winter trip to Bermuda.

We have had a delightful winter and Mr. Barse is improving so wonderfully—the climate here is perfect with the exception of almost two weeks altogether, when it was cool and the sun forgot to shine.

The average temperature is around 70 degrees neither too hot nor too cold; flowers everywhere.

We have had some nice motor trips with Mr. Newman and his little southern wife.

We have such wonderful times with the home friends Dr. and Mrs. DeWitt, Mr. and Mrs. Chambers, Mr. and Mrs. Rockwell (Acadia Villa), Mrs. Prescott and daughter, Mrs. Foote and little daughter and ourselves.

Last week the Mrs. Chambers, DeWitt and Prescott gave a little tea "to the Canadians." We had a jolly time I assure you.

Playing quarts is quite an enjoyable pastime for the gentlemen of our party; the surf bathing is fine now and we go in every day.

We are about half an hour from the famous Daytona Beach where one can not over the hard sand for 30 miles.

We had a call from Mr. & Mrs. Manning Ellis and Mr. Sam Chute, also several Halifax friends and we were delighted to see them as there are no people in the world like our good Canadians.

We have made some very nice acquaintances here, but we like our own people and our own country the best.

We hope to get home about the middle of May, possibly returning by Toronto, but not fully decided yet.

NELLIE BELCHER BARSE

Work won't kill you. But you shouldn't work at the same thing all the time. Variety is rest enough.

Provincial Legislature

Interesting Review of the Doings at Local Parliament

Halifax April 6th.—It is now over a month since the opening of the Provincial Legislature, and at this date one finds difficulty in scraping together sufficient material for a readable story. Before the opening date, we were led to expect two pieces of interesting legislation. Came the Speech from the Throne with one of them—a meagre sessional fare. The bill to provide for this lone bit of law has been introduced; and when it has been passed and proclaimed, Nova Scotians will "gee" instead of "haw" when passing other Nova Scotians—and tourists—on the highroads of the Province. Autos will be required, we are assured, to carry "turn to the right" signs for a time, and similar placards will be displayed along the roadsides.

The other interesting bit of sessional fare hasn't been served yet. There was nothing about it in the Speech, and there is a sepulchral silence in government circles. But, rightly or wrongly, the idea has gotten hold of the public mind that someone is going to try and give Halifax beer-and-light-wine privileges. The thirsty and abstemious alike await what the immediate future holds. Possibly nothing. Possibly a partial return to the days when a man could walk into a bar and "order," with no one to say him nay. The period of anticipation is interesting for some—and doubtless nerve-racking for others.

At this writing, there is a bill in the committee stage to provide the members of both branches of the Legislature with an increased sessional indemnity. The pay of a member now stands at \$700. This bill provides for another \$300. Also (apparently patterned somewhat after the new Federal regulations) it will, if passed, operate to keep the local legislature on the job. As matters now stand, a member of the provincial parliament can be in Hong Kong or on the Riviera and still qualify for sessional indemnity. The new measure aims at making him, at least, come within striking distance of earning his salary.

Now, for a session of, say, three months, \$1000 is not the indemnity of a plutocrat. The general feeling is that it provides for no more than decent recompense—over such a period. But is a session of three months necessary? And, proceeding on the same principle, is an indemnity of \$1000 necessary? It is—for three months.

But—As said this session has now been under way well over four weeks. It is perfectly safe to venture that all the real business that has been done so far could have been done in one, or very little over. The first week was taken up with the debate on the Address in reply to the Speech From the Throne; which will not be exactly very necessary, is still good parliamentary practice which no one will question. At least the debate on the Address affords a means of escape for surplus oratorical "steam", following which the legislators are expected to get down to the business of the session.

But since the division on the Address, the House has fallen into that habit into which all legislatures so easily fall—the habit of sitting for a half or three-quarters of an hour, and calling it a day. Bills have come in quantities fairly average, petitions and questions and resolutions and so on have been normal. Still, there is about proceedings an air of ennui. For isn't it Spring?—And "In the Spring a young man's fancy lightly turns to—anything but work."

Principally, those on the Treasury Benches have been concerned with the usual professions of "economy". Was there ever a government that did not profess the same? This Government is "economizing" to the point of continuing in use a common school geography, which a member of the Government has admitted is out-of-date and unreliable; it is "economizing" in connection with the demand for dormitories for the Normal College and the Agricultural College—but is it really economizing?

Mrs. Canning, the member for Yarmouth, for example, told the members of the government how they might effect some real economy in connection with highway work. He brought in a resolution, embodied in which was the idea of beginning work on common earth roads as early as possible, when the work could be carried out efficiently and economically. There were other ideas in the resolution, as well; but that was the crux of the principle. The Minister of Highways, who has advised the House to give the resolution "the medicine it deserved"—and "kick it out". The majority behind the Government took the advice.

Dr. John MacDonald, member for Richmond, moved an amendment to the Address which suffered a similar fate. It called upon the Government to reduce the municipal highways tax to the amount at which it stood prior to the legislation of last year; also it demanded that the Government enact

(Continued on Page 8.)

W. C. T. U. Notes

Women's Christian Temperance Union first organized in 1874.
 Aim—The protection of the home, the abolition of the liquor traffic and the triumph of Christ's Golden Rule in custom and in law.
 MOTTO—For God and Home and Native Land.
 BADGE—A knot of White Ribbon.
 WATCHWORD—Agitate, educate, organize.
 Let us not judge one another any more but judge this rather, that no man put a stumbling block or an occasion to fall in his brother's way. RM. 14:81.
 OFFICERS OF WOLFVILLE UNION:
 President—Mrs. J. G. Elderkin.
 1st Vice President—Mrs. W. O. Taylor.
 2nd Vice President—Mrs. G. W. Miller.
 Recording Sec'y.—Mrs. Ernest Redden.
 Cor. Sec'y.—Mrs. Annie Murphy.
 Treasurer—Mrs. H. Pinea.

SUPERINTENDENTS
 Evangelistic—Mrs. William Chipman.
 Parlor Meetings—Mrs. Stanley Robinson.
 Labrador Work—Mrs. J. W. Vaughn.
 Fishermen and Lumbermen—Mrs. W. E. Fielding.
 Anti-Narcotic—Mrs. W. O. Taylor.
 Flowers, Fruit and Delicacies—Mrs. D. G. Whidden.
 Christian Citizenship—Mrs. B. O. Davidson.
 Press—Mrs. M. P. Freeman.
 Willard Hall—Mrs. M. P. Freeman.
 Temperance in Sabbath Schools—Mr. C. A. Patriquin.
 Supt. Tidings—Mrs. T. Hutchinson.
 Business meeting of the W. C. T. U. the last Monday of every month.

PROHIBITION AND EUROPEAN UNIVERSITIES

"An international student news bureau has been established at Kuden, Holland as the first activity of the World Student Federation Against Alcoholism organized last August at Lausanne, Switzerland. Its object is to gather an exchange news regarding student's anti-alcohol work in all countries, first among European countries and then between the students of Europe and America and the rest of the world."

"Much energetic work is being done this year by the students anti-alcohol societies in Holland. The middle school society has 1,400 members. The University movement is now active in most of the Universities in Holland."

"The student abstaining society in Esthonia welcomes opportunities to join the World Student Federation Against Alcoholism. The society at the university contains fifty students and three professor member."

"The Student Temperance Federation of the University of Helsingfors, Finland, on Nov. 12, decided to join the World Student Federation Against Alcoholism. This is a vigorous society, last year reporting 150 members. It has high standing among the student societies at Helsingfors."

"There is reported to be a student anti-alcohol movement in Bulgaria with twenty-two societies. It is known as the Students' Temperance Union Neutral. The work began in 1914 and seems to be growing rapidly. In all 3,000 students of different ages are enrolled in the various associations of societies of the union.—Forward

And now Jim Jeffries, prize ring champion-emeritus is going into the soul saving industry along Billy Sunday lines. Strange how these blatant tonguesters have to commercialize the Gospel as a medium for working off verbal steam and venomous hatred of orthodoxy.

E. M. MACDONALD, M. P.

for Pictou, N. S., who is mentioned as a successor to the judgeship rendered vacant by the death of the late Judge Longley of the Supreme Court of Nova Scotia.

WHEN PRESERVES ARE GETTING LOW

ORANGE CONSERVE.—To the rind of a good sized grape fruit, allow five or six little oranges and one large lemon. Remove the seeds and juice and put rinds of grape fruit and lemon through the food chopper. Put chopped rinds in sauce pan, cover with cold water, add a teaspoonful of salt and bring slowly to a boil. Do not scald orange rinds. While other rinds are getting hot, remove peel from oranges and cut into very thin strips. Remove seeds and cut pulp into small bits. When grape fruit and lemon rinds have come to a boil, pour into a sieve and drain, pouring over it a little clear water to remove salty taste. Now add orange peel and pulp, and lemon and grape fruit juice. Measure the mixture and for each measure of fruit allow an equal measure of granulated sugar. Cook slowly until thoroughly cooked through and translucent (it will take two or more hours of cooking to accomplish this). When well cooked down and thick, turn into sterilized glasses and cover as usual.

DRIED PEACH JAM.—Wash dried peaches and cover with cold water and let soak over night. In the morning place over the fire and cook slowly until very tender. Rub through a collander and to each measure of pulp allow two thirds of a measure of granulated sugar. Put on the fire and cook slowly until thick. Pour into sterilized glasses.

COMBINATION JAM.—Soak two parts prunes and one part dried peaches in cold water over night. In the morning cook in the water in which they were soaking until very tender. Then put through a collander. Measure pulp and for each measure of fruit take one half measure of granulated sugar. Put back on the stove and cook very slowly until thick as desired.

THE POOR HEATHEN!

Mary and Tommy had been to hear a missionary talk at Sunday School.
 "Did he tell you about the poor heathen," enquired father at the dinner table.
 "Yes father," answered Mary. "He said they were often hungry, and when they beat on their tum-tums it could be heard for miles."

MEDICAL INSPECTION OF SCHOOLS

While the medical inspection and supervision of school children has been developed mainly within the last twenty-five years, it is interesting to note that it was advocated as early as 1961 by Edwin Chadwick, who is regarded as the real founder of public health work in England. It was not until 1891, however, that medical inspection was really begun in England, although, some efforts were made in France as early as 1842. A school medical officer was appointed in London in 1891, and in 1907 an act was passed making school medical inspection compulsory throughout England and Wales. On this side of the Atlantic, this activity was first undertaken in Boston, in 1894. The school nurse was first introduced in London, in 1893; but the city of New York claims the distinction of being the first city to place school nursing under municipal direction and control. The first city in Canada to engage a school nurse was Hamilton, Ont. (1907), with Montreal and Winnipeg, Vancouver, Toronto, Regina, Edmonton and Halifax following within a few years and in the order named. Today, of course, few cities in any progressive country are without school nurses.

The extension of medical inspection and school nursing to rural communities is a comparatively recent development, but has already become widespread. It would obviously be impossible, except at great cost, to have this work carried on as thoroughly in the country districts as in the cities, but nevertheless splendid results are being achieved. A surprising revelation is that country school children suffer from physical defects to a proportionately greater extent than city and town children. This is doubtless because of the greater difficulty in securing medical care in the country than in the town, and has, in some countries led to attempts at special provisions for meeting this difficulty. Thus the English Education Act of 1918 makes adequate and suitable arrangements for the treatment of elementary and secondary school children obligatory upon the local education authorities.

There are no more ardent supporters of medical supervision than the Education authorities, who have learned that physical defect is one of the chief causes of backwardness in school. An investigation into this phase of the matter, made a few years ago in London, revealed that "upwards of one third of all these elder children" (i. e., children of age fourteen or thereabouts), "most of whom possessed some degree of physical defect and 21 per cent. of whom were seriously defective, are, in London at least, two or more years behind their normal school standard."

HOUSEHOLD HINTS FOR MEN

Make your homes happy. You go around the house growling about your rheumatism and acting the lugubrious and your sons will go into the world and plunge into dissipation. They will have their own rheumatism after awhile. Do not forestall their misfortunes. You were young once, and you had your bright and joyous times. Now let the young folks have a good time.
 Praise your wife sometimes. She works hard enough as a general thing with small compensation and less cheer than any other member of the family. You like to be told that you can do your particular kind of work better than any one else can, so why should you withhold the same merited praise from the woman who makes and keeps your home bright for you?

A SLOGAN

(From the Pittsburg Christian Advocate.)
 Bite off more than you can chew;
 Then chew it.
 Plan for more than you can do,
 Then do it.
 Hitch your wagon to a star,
 Keep your seat, and there you are!

No news is good news. Maybe, but we're not trying to run that kind of a paper.

GAINED OVER 20 LBS

Consumptive Condition Restored to perfect Health.

"An attack of 'flu' in the fall of 1918, left me in such a weakened condition that I could not walk across the kitchen, and for nearly two months I spit blood. My neighbors as well as myself thought I was in the first stages of consumption. My weight when I first took sick was 120 lbs., and I shrunk from that to 98 lbs. On the recommendation of my druggist I began to take Carnol. Before finishing the first bottle I felt a marked improvement. I then took four bottles and my improvement was so marvelous that, at the end of six months, I gained in weight—the most I ever weighed in my life. I can safely recommend Carnol to anyone in a run down condition, as being the best as well as the most palatable tonic on the market today. My little girl of eight years took a cold in the head and chest and was so bad she could scarcely breathe. I gave her Carnol in hot water and the next morning she was able to get out of bed for the first time in several days. I know Carnol will do for you what it did for me and my little girl—worked miracles."
 The experience of Mrs. F. of Halifax

Carnol is composed of that wonderful nerve tonic—glycerophosphate salts. This is commonly known the world over as the "Blood Salts." It is the best blood builder and nerve invigorator yet discovered.

Carnol is sold by your druggist and if you can conscientiously say, after you have tried it, that it hasn't done you any good, return the empty bottle to him and he will refund your money. 11-122

PRUNING

(Experimenta Farms Note).

The season when pruning operations may be commenced is close at hand, and orchardists should now be considering the best scheme to adopt in their particular case. Except in extreme cases, pruning should be moderate and should consist more of thinning out here and there, with as little heading in as possible. In young orchards newly set out, it may be necessary to adopt a system of heading back to give out lateral growth, which will be able to produce fruit spurs in later years. In bearing orchards light annual pruning should be given, so that at no time will it be necessary to materially alter the balance between root and top by a severe heading back or excessive cutting out. In old bearing orchards, which have been somewhat neglected, a considerable amount of top should probably be removed to encourage new wood growth, so that a new fruiting surface may be established. As before mentioned, however, light annual prunings are to be recommended, for recent work has demonstrated that unpruned trees have yielded slightly better, up to a certain age, than trees pruned, but that trees pruned lightly have yielded almost as well, while those severely headed back were not only later in coming into bearing and poor yielders afterwards, but were also less vigorous than the lightly pruned and unpruned lots.

Where light heading back practiced for the first three years was adopted, the comparison between trees pruned and unpruned showed little difference in favour of the unpruned, but those trees which have been pruned were of decidedly better shape and in better condition for future work than the ones where pruning had been neglected. These results have simply justified the practice of pruning during the first few years of a tree's life with the express purpose of obtaining a desirable amount of growth placed where we want it. In the case of some trees this will require considerable cutting out and some cutting back for the first three or four years. In other cases it will require very little wood removal, but in all cases the trees should be attended to annually.

The vigour of the tree is in inverse ratio to the amount of severe heading back practiced. This does not mean, however, that no pruning is to be advocated, for a certain amount is necessary in any case to maintain the proper shape of a tree and some pruning should be given to eliminate the possibility of having to give drastic treatment at a later date to rectify long neglect. The lesson is, however, that only sufficient pruning to maintain the shape and general vigour of the tree is to be recommended.

Indiscriminate heading back delays fruitfulness and reduces vigor. Light annual pruning will not materially impair or delay fruitfulness and will eliminate future trouble. A little enlargement on this later statement is perhaps necessary to make clear the point. We are all aware of the advantage to be gained by heading a tree properly. A tree with its head starting from one point on the trunk is weak and doomed to an early death. To correct this, pruning is necessary. Again, we all know that in pruning one should try to cut out all crotches which are acute-angled, and limbs thus crotched are sure to split open; the limb that comes closest to forming a right angle with the main trunk is the strongest. This is also

attained by pruning, so here are two reasons why pruning or training is necessary in the life of the young tree.

Consider for a moment the relation between pruning and nutrition; the roots of a tree function by gathering from the soil plant foods in solution, which is transmitted to the different parts of the tree for elaboration by the leaves. The plant food gathered may roughly be divided into two classes; nitrates, as supplied, for example, by nitrate of soda and carbohydrates. These latter are the elaborated forms produced by the leaves from the solutions obtained by the roots, and are stored close to the point of manufacture. In order that the leaves can manufacture these carbohydrates sunlight is necessary, so that if a tree becomes too thick in the head, thus shutting out sun from the centre or lower portions of the tree, those parts shut off from the sunlight will not be able to manufacture carbohydrates and will, as a consequence, become unfruitful; another reason why some pruning is essential, is to maintain the vigor of all parts of the tree by admitting the necessary sunlight.

M. B. DAVIS, Pomologist,
Central Experimental Farm,
Ottawa.

HOUSEHOLD HINTS

Narrow loaf pans insure thorough baking.
Dates should always be washed before eating.
A thin hair pillow is best for the baby as feathers make the head perspire.
Worn out hot water bags can be cut into rounds and used as mats under flower pots.
To clean silver, cover with water that potatoes have been boiled in, and let boil until bright. Wash and wipe. No rubbing necessary.
Keep one pint jar just for melting chocolate. Simply place it in hot water. In this way no chocolate is wasted, and any amount may be measured out, according to the recipe.
CROUTONS for soup can easily be made in the corn-popper. They will crisp in a moment. Cut the bread the desired size, place in the popper and toast over hot coals.

"Now, Robert, tell me what an engineer is," said the teacher.
"He is a man that works an engine," replied Robert.
"Correct," said the teacher. "Now William, can you tell me what a pioneer is?"
"Yes, sir," answered William, "he's a man that works a piano."

WEDDING AT WALBROOK

The home of Mr. and Mrs. F. F. Mitchell, Walbrook, was the scene of an interesting event on Wednesday afternoon, March 29th, when their daughter, Evelyn Juanita, was united in marriage to Mr. Leslie E. Trenholm, of Grand Pre. The ceremony was performed by Rev. G. W. Whitman, in the presence of the relatives of the contracting parties. The bride looked very attractive in a tailor made suit of navy blue Tricotine, with a becoming hat in contrasting color. The parlors were tastefully decorated with blooming plants, the cheery daffodils lending a golden glow to the festive scene. Immediately after luncheon, the bridal party, amid showers of good wishes and confetti, left for a short wedding trip to Halifax. The bride was the recipient of many beautiful and valuable presents from her numerous friends, with whom she is deservedly popular. Mr. and Mrs. Trenholm will make their home at Grand Pre.

Chicago murderer has been caught after 47 years. Which holds out eventual hope for the end of the Taylor case in Los Angeles.

WOLFVILLE ENTERTAINS AT DAYTONA, FLORIDA

The following item taken from the Daytona (Fla.) Daily News of March 26th, will be of interest to our readers:

A Canadian rally and reception was given Wednesday afternoon, March 22, by Dr. and Mrs. G. E. DeWitt, Mr. and Mrs. J. D. Chambers and Mrs. G. K. Prescott, all of Wolfville, Nova Scotia, Canada, but at present residing at 413 South Palmetto Avenue.

The house was expressly decorated for this occasion with palms, Spanish moss, sweet peas and Canadian flags. Refreshments were served from 4 to 6 o'clock by Miss Sara Prescott and Miss Hayes.

Those present included: Mr. and Mrs. Mortimer Smith, and Mr. and Mrs. J. Crichton and daughter, of Halifax, Nova Scotia, Canada; also Mrs. Hayes and daughter, Miss Winnie Hayes, of Halifax; Mrs. Staple, formerly of Nova Scotia, but now a resident of Daytona; Mr. and Mrs. C. S. Bairs, Mr. and Mrs. F. P. Rockwell and Mrs. Harold Foote and little daughter, Frances, of Wolfville, Nova Scotia; Mrs. Robertson and Mrs. A. M. Boyington, formerly of New Brunswick; Dr. and Mrs. G. E. DeWitt, Mr. and Mrs. J. D. Chambers and Mrs. G. K. Prescott, of Wolfville.

SMALLEST BOOK

The smallest book in the world must surely be a little volume printed in 1674. It contains 49 pages, and the title is "The Court of Flowers." This tiny book is perfect in every way. It is superbly bound in calf, ornamented on the sides and fastened with a solid gold clasp of exquisite workmanship. If three other similar volumes could be found the four together would just cover a postage stamp.

Subscription Rates—In British Empire, in advance, \$2.00 per year. To U. S. A. and other countries \$2.50 per year.

Advertising Rate Cards and information respecting territory and samples of paper mailed upon request, or may be seen at the office of any advertising agency recognized by the Canadian Weekly Newspaper Association.

Advertisers must have copy in by Tuesday noon in order to insure changes for standing advertisements. New display advertising copy can be accepted one day later.

Correspondence—Letters addressed to the Editor and intended for publication must be short and legibly written on one side of the paper only. The longer an article, the shorter its chance of insertion. All communications must bear the name of the writer, not necessarily for publication. The publication or rejection of articles is a matter entirely in the discretion of the Editor. No responsibility is assumed by the paper for the opinions expressed by correspondents.

THE BATTLE OF VIMY

Sunday marks the fifth anniversary of the battle for Vimy Ridge, an engagement in which many Canadians distinguished themselves and in which no less than six of Wolfville's heroes gave their lives for King and Empire and in defence of the safety of the world. Time blunts our sensibilities and we are far too prone in passing years to cease to hold proper regard and remembrance of those through whose sacrifice we now enjoy peace and safety.

April 9th, 1917 ought to remain a date always remembered and held sacred. The day should not be allowed to pass unnoticed or unobserved. In this town at least should the day be duly regarded and the lessons which it teaches be fittingly impressed. With uncovered heads we remember and honor the glorious dead—with thankful hearts that the horrors of war are over and that peace once more reigns as the result of their sacrifice.

THE PROVINCIAL SANATORIUM

When the provincial sanatorium was established it was urged by THE ACADIAN that if the best possible results were to be obtained provision should be made for the furnishing of free treatment of tuberculosis patients who are unable to pay the regular expense of residence at that institution. We claimed that the disease was most likely to thrive and spread where living conditions were most unfavorable, such as might reasonably be expected among the poorer classes of our people, and that the public safety demanded that such cases should receive the benefit of the best possible treatment. Since the war the increased accommodation available at the sanatorium and the apparent need of increased effort being made to check the spread of the dread disease has caused the Boards of Trade and similar organizations throughout the province to urge upon the legislature the need of proceeding along the line indicated. The result is that an amendment to the act governing the sanatorium has been introduced which provides that persons suffering from tuberculosis who are not able to pay for their maintenance at the provincial sanatorium at Kentville will be admitted to the institution, the cost to be defrayed by the town or municipality in which they have a residence. This is certainly an improvement over present conditions but it would appear that our legislators who have one by one eliminated the sources of revenue which the town and municipalities formerly possessed and directed these revenues to their own coffers might reasonably be expected to undertake the expense of this work. With depleted treasuries the towns and municipalities naturally view with dismay the many obligations with which they are being loaded up by the government at Halifax.

ACADEMY HOLDS RECEPTION

The Acadia Collegiate and Business Academy gave its annual reception in Memorial Gymnasium on Saturday evening last. The reception is one of the events of the College year as under the capable supervision of Principal Archibald no effort is spared to make the evening entertaining and pleasant. The hall was handsomely decorated with flags, streamers and bunting, and the guests who were welcomed by Mrs. W. L. Archibald, Miss S. E. MacGregor, a d J. T. McLean, president of the school, soon filled it overflowing. The following program was given during the evening and was much enjoyed: vocal solo, Miss Evelyn Duncanson; reading, Wm. Mill; Monologue, D. D. Cameron; selection, College Quartette; reading, A. D. Flowers; violin solo, Mrs. W. H. Thompson; vocal solo, Mr. B. C. Silver; ball solo, H. MacLaughlin.

Get your Easter cards and booklets at THE ACADIAN store while the assortment is good.

GEN. SIR ALEX. BERTRAM

Who was elected President of the Dominion of Canada Rifle Association at the annual meeting held in Ottawa.

CANNING NOTES

Shortly after midnight of Friday, March 31st, fire was discovered in the rear of the west side of the store owned by D. Hogan, but it was too late to save the building which was completely gutted. The three pool tables occupying the east shop were destroyed. B. Greenwood, who did a barber business in the west side, saved some of his equipment. The excellence of the Fire Department can be judged from the fact that no other buildings were burned though Jacobson Bros. store was only separated by about two feet on the east, and J. E. Kennedy's store on the west by about five feet. Jacobson's heavy stock of dry goods was largely removed and some loss will be entailed. J. E. Kennedy's stock was not touched. We believe the building burned was fairly insured. This building was originally occupied by the late Wm. H. Tighe and afterward by E. Bigelow & Son, L. E. Jost, G. W. Newcomb, Wm. Rand, M. S. Eaton, A. S. Robinson, P. Reid and others.

H. R. Kinsman, of Habitant, has purchased the homestead property of the late Chas. E. Lockwood from the estate and expects to reside here.

FOR SALE

Exceptionally fine farm property, 130 acres, two miles from Wolfville. Worth \$20,000 going at \$16,000. \$10,000 can remain on Mortgage. Apply for particulars. **ROBT. B. BLAUVELDT**
25-51 Wolfville, N. S.

CONTRACT FOR GRAVEL ROAD AWARDED

In view of the government's proposal to again gravel the road between Kentville and Wolfville, the Boards of Trade and Town Councils of the two towns have been active during the past week. Petitions asking that more permanent work might be undertaken were circulated and very general signed by residents of the two towns and intervening sections as well as by residents of neighbouring localities. Armed with these petitions and resolutions from the different organizations a delegation of representatives of the interested communities called upon the Government on Monday, presented their case and were promised consideration. It has since been announced in the government press, however, that the tender for the construction of this road has been awarded to the Nova Scotia Road Building Contractors. No price is stated—a fact which the public have a right to be informed on—but as the tenders called for a gravel road it is reasonably assured that this is what we are to have. This same road was gravelled about three years ago at heavy cost, but last season was in a wretched condition.

PRICE OF TEA HIGHEST IN YEARS

During 1920 so much more tea was produced than was required throughout the world that the market dropped to a comparatively low point. So serious was the position of the growers in India, Ceylon and Java that they agreed to produce 20% less tea during 1921. The result was that less tea was produced than was required, and now all surplus stocks have pretty well been exhausted to fill the deficiency. Prices in the last four months have steadily advanced, until the market to-day is at a level as high as was ever before even during war year.

A MUSICAL TREAT

There was a good attendance at the recital given at the Baptist Church last evening by Ethelynde Smith, soprano, under the auspices of Acadia Conservatory of Music and Fine Arts, and the pleasure of those present was evidenced by the prolonged applause which followed each number of the program. Miss Smith is one of the best sopranos ever heard in Wolfville and she captivated her audience by the sweetness and clearness of her singing which was equally good in all registers. In addition to the eighteen numbers of the program she was forced to respond to six encores. The accompaniments were excellently played by Miss Marion V. Gay, of the Conservatory faculty.

Since the departure of the teacher, Mr. Robinson, for Ottawa, the men's class at the Baptist Church has been conducted respectively by Dr. W. L. Archibald, Dr. J. H. MacDonald, Messrs. S. A. Robinson and F. E. Peck. The attendance is good, and interesting and helpful discussion of vital questions is presented. Next Sunday the teacher will be Rev. Dr. Spidle who will undoubtedly provide a most interesting lesson for those who attend.

Public Meeting of Ratepayers

TAKE NOTICE that a public meeting of the rate-payers of the Town of Wolfville, will be held (in accordance with a resolution of the town council) at Temperance Hall in the town of Wolfville, on Thursday the 13th day of April A. D., 1922, at eight o'clock P. M. for the purpose of considering and approving or otherwise, a proposal of the town council to apply to the Legislature for authority to borrow on the credit of the town a sum not to exceed \$20,000, for us by the Wolfville Electric Commission for purposes in connection with the town's electric plant; and a further sum, not to exceed \$5,000, as a temporary loan for use by the town council for current expenses of the town.

AND ALSO

FOR purpose of considering action of the town council in using the Patriotic Fund, \$1583.51, for town purposes and ratifying such use, or whether said money should be used for some other specific purpose and included in next year's General Assessment.

Wolfville the 6th day of April A. D. 1922

At the Wolfville Baptist church last Sunday a special collection was taken in aid of the Russian Famine Fund. This amounted to \$240. This with the collection taken at the first of the year of \$230 and some contributions still expected will make the offering of the congregation for this purpose in the vicinity of \$500.

The Sanatorium at Kentville is much in need of clean and up-to-date magazines for the entertainment of the ex-soldier patients. Will any one having some of these useless in their home kindly send them to Mr. Howe, Y. M. C. A. Secretary at the Sanatorium, or leave them at this office and Mr. Howe will call for them.

A baby clinic was held at the Parish Hall yesterday afternoon under the direction of Miss Harry, the Victorian Order Nurse. Nineteen babies were presented by their mothers and they were a healthy and attractive company of children. The children were measured and weighed and Miss Harry gave a most helpful address to the mothers on child welfare. Refreshments were served and the affair passed off most successfully. Other similar clinics are to be held by the V. O. N. from time to time.

In our last issue which referred to the putting on of the musical comedy "Chimes of Normandy" by local talent we omitted, inadvertently, to state that Mr. N. Evans was associated with Mr. Mason in the undertaking. Mr. Evans has had large experience in such affairs and will have full charge of the staging of the play. His presence will, we feel sure, do much to ensure the successful presentation of this popular musical performance. In the same paragraph, a printer's error gave the name of Mr. Fred Bishop as one of the principals. This should have been Mr. Fred Rand.

GASPEREAU NOTES

On Friday evening of last week the ladies of the community met at the home of Mr. J. D. Martin to present to Mrs. Margaret Davison and Mrs. R. L. Coldwell each a leather purse containing \$15.00 as a token of remembrance.

On Sunday morning at the Bible class the men presented a Bible to Mr. Brenton Davison. Mr. and Mrs. Davison left on Wednesday for their new home in Kentville.

Miss Bertha Norman has been visiting her sister at Hantsport the past week.

We are very sorry to report Mrs. P. J. Gertrude and Mr. Budd Coldwell on the sick list. Also Mr. Elmer Kenne who had to undergo an operation for appendicitis at the Westwood Hospital. We trust they may have a speedy recovery.

We understand Mr. Elmer Allen has sold his store at Melanson to Mr. Romans and has bought the farm previously owned by Mr. Harold Coldwell.

Coming Events

Notices under this heading are inserted at 10 cents a line. Each repeat, 5 cent a line; minimum charge, 30 cents. Contract rates on application.

The usual Lenten services will be held this (Friday) evening at 8 P. M. at the Parish Hall.

At the Baptist Church on Sunday morning next [Dr. MacDonald will preach on The Horsemen of the Apocalypse.

A Twilight Recital will be held at St. Andrew's Presbyterian Church on Friday afternoon, April 14th, from 4.30 to 5.30 o'clock. A silver collection will be taken.

HOLY WEEK SERVICES

The Presbyterian, Anglican, Baptist and Methodist congregations will unite for holding public worship during Holy Week.

The following program has been arranged by the Ministerial Association: Monday, Anglican Church, Speaker, Rev. Dr. MacDonald.

Tuesday, Presbyterian Church, Speaker, Rev. Douglas Hemmon.

Thursday, Methodist Church, Speaker, Rev. R. F. Dixon.

Friday, Baptist Church, Speaker, Rev. G. W. Miller.

All these services will be held at 7.30 o'clock P. M. with the exception of that on Good Friday which will be at 2 o'clock.

IT'S TOUGH

One of our subscribers recently took offense at something which appeared in a letter to THE ACADIAN and has discontinued the paper. We shall have to ask our correspondents in future to be more careful what they put in their letters if we are going to be held accountable for every thing they say. We are glad to know that our former subscriber is still a reader of THE ACADIAN although he does not feel called upon to pay anything for the privilege.

AUCTION!

To be sold at Public Auction at the store on Main Street recently occupied by W. O. Pulsifer.

Thursday, Friday and Saturday

Visiting Cards, 30 cents a package, at THE ACADIAN store.

ADDING MACHINE rolls for 25 cents at THE ACADIAN store.

BOYS' WORK NOTES

The competition in attendance at "all three" for the month of March brought out some very interesting results. Out of a possible average of 12, the Presbyterians (No. 3 of Troop No. 2) led with an average of 11.9, No. 1 Anglicans coming second with an average attendance of 11.8. This gives the former the chance to build the canoe, which will be started at once.

During April the first troop, which has been meeting on Tuesday evenings will change to Friday, the second troop having their meeting on Tuesday for this month.

The Wolfville Boy Scouts have been appointed agents for the Sunday Leader and are pushing the sale of these papers in order to raise funds for the troop. The proprietors allow four cents for each paper sold and as the scouts hope to sell 100 copies per week it means quite an addition to their treasury. This week the Leader will contain some pictures of the Wolfville Scouts and a history of the local movement.

MOTORS AND MOTORING: A Page Full of Interest to the Owner or Prospective Owner of an Automobile.

COMPARISON DOLLAR FOR DOLLAR TO PURCHASER BETWEEN DODGE BROTHERS MOTOR VEHICLE, A MANUFACTURED CAR, AND CARS THAT ARE ASSEMBLED JOBS.

Dodge Brothers

1. One rail haul on raw material from suppliers to Dodge Brothers Factory.
2. Material tested in laboratories and metallurgical department. Only such as pass test accepted.
3. Material made into components to own formulas.
4. Changes can be made from day to day, from car to car, as considered necessary.
5. Parts tested and graded; no possibility, for instance, of getting a hard and soft gear in a transmission. Because of grading, always same consistency.
6. Over 800 inspectors watching making and testing of parts, assembly and final test.
7. Dodge Brothers pay dealers smallest commission of any manufacturers except Ford.
8. Dealers pay half all literature and newspaper advertising.
9. Dodge Brothers car so well known that there is no big national advertising campaign. No Saturday Evening Post at \$6,000 per week, etc.
10. No trading allowance to dealers for used cars taken in trade.
11. Being quantity production of, say, 1,000 cars per day, are satisfied with smaller profit per unit than manufacturer building only 30 or 40 cars per day.

Assembled Cars

1. One rail haul of raw material to 30 or 40 factories making the parts. Then second haul of these components to assembly plant. Buyer pays for this.
2. 30 or 40 scattered factories making components to blueprints. No possibility of making changes from day to day, no matter how important or necessary.
3. Each maker of parts adds his overhead, advertising and profit to each component he makes.
4. Practically none of these makers of parts have facilities to test raw material. Many of them are so fixed financially that they are glad to get any material at any price.
5. When these components finally arrive to assembly plant they are finished parts and cannot be tested.
6. The car is assembled, and then the assembler adds his overhead, expensive advertising, large commission to dealers, trading allowance for used cars, and on top of everything, his profit.
7. Dealers can get their literature, etc., free, and, like everything else that costs him nothing, thousands of dollars worth is wasted or lost, for which car buyer pays.

CAR NOTES

Never turn the steering wheel while the car is standing still.

There is little danger of battery freezing except when it is almost discharged.

Placing skid chains on only one of the rear wheels is inviting trouble.

John B. Dunlop, a Dublin dentist, invented the pneumatic tire in 1890.

Underinflated tire shows better mileage than one pumped up hard.

To prevent rain or snow from sticking to the windshield, mix about two ounces of glycerine with one ounce of water and a dram of salt. Apply this to the glass with a cheese cloth. Wipe in a vertical direction only, so that the mixture will allow the rain to flow down and off the glass.

CARELESSNESS

Do not leave the switch key turned in the switch lock when the engine is not running. This will reduce the power of the storage battery and is liable to injure the ignition unit.

PROTECTION FOR WIRES

Whenever there is danger of rubbing insulation off wires which causes short circuits, take a piece of rubber tubing and cover the active wire. To do this the tubing should be spliced lengthwise and then firmly taped.

PREPARING FOR THE FISHING SEASON

A scene at Lunenburg, N. S. where over 100 fishing schooners are preparing for their season's activity. The photo shows three dories being taken to the docks after being painted. Within a few weeks they will be in operation on the Grand Banks. The ox is in very common use as a draught animal in parts of Nova Scotia and is invariably a sleek, beautiful creature.

TIRE CHAINS

Some Helpful Pointers on Their Use and Upkeep

"Safety first" should be the motto of every motorist. One of the most important applications of this principle is in the matter of tire chains. The chain acts like a gear that grips the road, preventing skidding. It digs down through the soft mud and holds to the solid ground underneath.

The side pieces of a chain are made of soft iron, very tough, and they will wear for several years as there is very little strain on them. The heavy duty comes upon the cross links or "grips," which are case hardened. This prevents excessive wear, so that a cross link will last several months. Once the case hardening is worn away, the link wears rapidly and finally breaks. This is soon remedied by the careful driver who always carries an extra supply of links and chain tools for replacement. The new link may be inserted and the old one removed without taking the chain from the wheel.

Overhaul the old chains and prepare them for use. Starting with the fasteners at the ends, take out every other grip and put in a new one. This gives you virtually a new chain. To be sure the links in between are weak, but when one of them breaks the strain comes on the next link, which is new and strong. I have seen a car come back from a trip with five links broken on one chain. Fortunately, the links between were new ones and the chain was still serviceable. But where all the links are old and one breaks, a greater strain is placed on the next.

If this is weak it will soon give way and so bring all the more strain on the next one. Soon enough links are broken to allow the chain to catch in the brake mechanism and it is ruined or lost.

To apply a chain properly it is not necessary to jack up the wheel. Lay the chain over the top of the rear wheel with the fasteners to the rear. Tuck the surplus chain in under the wheel and push

the car forward. The ends may now be fastened without trouble.

There are several chain tools on the market. Inspect the various types until you find one which opens the link easily, or at least more easily than the others. The links are difficult to bend, so do not look for a tool that will open a link without effort.

The question is frequently asked, how many chains a car should carry and where they should be placed. Each wheel should have a chain in icy weather, but some drivers carry less. Where one chain is used it should be on the right rear, so as to avoid damage at the curb. If two are used they should be on both rear wheels to insure traction and reduce differential action.

Do not fasten chains so tightly that they cannot creep, nor fasten them to a spoke. This will bring all the wear under each cross link and so go through the rubber and injure the fabric.

Some folks pay their bills with cash, some with checks, and some with reluctance.

REPLACING TIRES

Many motorists are ignorant as to how to figure out the different sizes of tires that will fit their car. Because a car is equipped with a particular size of tire does not necessarily mean that a tire of that particular demension is the only one that will fit it.

Take, for instance, a tire marked 37 x 4 1/2. The overall diameter of this tire from tip of tread to the top on the opposite side of the thread is 37 inches. The 4 1/2 means that the diameter of the tire from the tip of thread to where it fits the rim is 4 1/2 inches. To ascertain the size of the rim all that is necessary is to subtract 2 x 1 1/2 from 37 to get the answer. Thus 37 - 2 x 4 1/2 is 28 inches, the size of the rim. To find the sizes of other tires that will fit this rim you will have to find a size that, when worked out by this method will give you 28 inches. As an example, a 36 x 4 will fit on a rim that has been carrying a 37 x 4 1/2.

THE MAGNETO

To keep the magneto in perfect running order the only attention necessary is to see that it is kept free from dust, oil and water, and properly lubricated—a few drops of very thin oil every 500 miles. The contact points of the timer and distributor should be carefully adjusted.

Most folks prefer to do their shopping where they are invited to shop. Do you invite them through your advs., Mr. Merchant.

NOTICE

PROVINCIAL HIGHWAYS BOARD

The attention of the Public is called to the following extract from "The Load of Vehicles Act" for the year 1919, Chapter 1, Par. 7 and 8.

Par. 7. "No person shall operate a Motor Vehicle that is subject to the provisions of the Motor Vehicle Act of 1918, on any Highways in any Municipality, after the twentieth-day of March, and before the first day of May following, without the permission of the Engineer of Highways, or any such other officer as may be appointed by the Provincial Highways Board, for that purpose, first had and obtained.

Par. 8. Any person who contravenes any of the provisions of this Act, or any permit granted under the authority thereof shall incur a penalty of not more than One Hundred Dollars recoverable under the "Nova Scotia Summary Convictions Act" which shall, when collected, form part of the Highways Tax of the Municipality in which such cases arise."

Permits for the necessary operation of Motor Vehicles in the Counties of Annapolis, Kings and Digby during the closed period may be obtained from the office of the Division Engineer of the Provincial Highways Board, Kentville, N. S.
MACINTOSH MILLER,
Division Engineer,
Provincial Highways Board,

THIS WILL BE ANOTHER

Studebaker Year

Its the car everybody wants because it is the best.

The unusual popularity of STUDEBAKER CARS is attended by the fact that the corporation enjoyed the biggest business in its history in 1921.

Notwithstanding the fact that the total number of all automobiles sold (except Ford) was 40 per cent. less than in 1920, the total aggregate of sales for the Studebaker cars was 20 per cent. greater than in 1920—and in Canada 64 per cent. greater than in 1920.

QUALITY COUNTS!

Get into the procession and drive a Studebaker in 1922.

Full information on application. Let us tell you about the Studebaker.

DUKE A COUNCILLOR

In Nova Scotia there is always great difficulty in persuading leading men of business to take part in municipal government. They refuse the duty oftener than they accept.

Municipal administration is at the root of city and town progress; and should engage the attention of every citizen who has a desire to live and carry on business under conditions that make for prosperity and congenial social relationships.

In the Old Country the County and City councils are regarded as governing bodies of great importance; and men of prominence look upon membership in those councils as an honor and a duty.

A rather interesting instance of this, to Canadians, occurred the other day when the Duke of Devonshire who, not long since, was Canada's honored Governor-General, contended for a seat in the Derbyshire County Council against a local builder and was successful in the election.

ST. JOHN WON CHAMPIONSHIP

Defeated Halifax Academy Basketball Team 34 to 31.

An exciting game of basketball was played at the Acadia Memorial Gymnasium last Friday evening between the Halifax Academy and St. John High School teams, for the championship of the Maritime Provinces.

It was a fast, exciting contest, the sides running a neck and neck race from start, scoring basket for basket till ten all when St. John scored one from a penalty, followed by another basket, then alternately till Halifax reached 12, but St. John went on to 19 before half time.

The second period was faster and more furious, the teams scoring basket for basket, with St. John adding another single for a penalty. In the last minute the Halifax lads forced the pace and reduced their adverse margin from five to three, and the Haligonian element among the fans saw vision of a tie, if not victory.

Halifax—Guards, Gordon MacOdrum, Geo. Hamilton; centre, John Piers; forwards, Harry Bartlett, Capt. Allen Lucas; sub, Paul DeWolfe. St. John—Guards, Lee and Fraser; centre, Potter; forwards, Wilson and Welsford sub, Williams. R feree—Mr. Russell, Physical Director, Acadia.

FIRE LOSS IN CANADA SHOWS INCREASE

That Canada maintains its splendid isolation from the rest of the world in the matter of Fire Losses is made evident by the following figures compiled from returns made to the Dominion Fire Commissioners. During the year 1921, the 25,916 fires reported occasioned property damage amounting to \$45,015,930, exclusive of the incalculable loss arising from forest fires.

Of the total loss, approximately \$34,000,000 or 75 per cent. was covered by insurance. On the basis of population the loss in Canada amounted to \$5.22 per capita, as compared with \$0.90 per capita in Great Britain where fire losses in 1921 only amounted to \$36,400,000. By Provinces, the distribution of the Fire Loss in Canada was as follows: Alberta \$2,875,000 or \$4.95 per capita, British Columbia \$3,050,000, or \$5.82 per capita, Manitoba, \$2,864,000 or \$4.67 per capita, New Brunswick \$2,735,982 or \$7.02 per capita, Nova Scotia \$3,177,000 or \$6.06 per capita, Ontario \$15,444,817, or \$5.28 per capita, Prince Edward Island \$216,478 or \$2.44 per capita, Quebec \$10,897,653 or \$4.64 per capita, and Saskatchewan \$3,755,000 or \$4.93, per capita.

Note. The figures included herein for Alberta and British Columbia have not been confirmed by the Fire Marshals of these Provinces. They have been estimated from municipal reports and insurance companies' returns.

THE INCOME TAX

We've figured out our assets And put them on the blank; We've written out the facts about Our money in the bank. The cash on hand that we demand Is down in black and white, But still we quail with fears of jail— They probably aren't right.

Arithmetic appalled us, We could not learn a rule; It made us sad to have to add Or multiply in school. At problems which were set us We labored all day long. We tore our hair in dumb despair— And always got them wrong.

We've studied the directions The Government strains our mind. And only find they strain our mind. And tangle up our eyes We read and read them over Then walk the floor and cuss, But all in vain; they're hush as plain As so much Greek to us.

We've put down all the income We think that we have got, And yet, somehow, it strikes us now That we've left out a lot. However, it is finished, We've laid aside our pen; We'd rather go to jail we know Than fill it out again.

STUNG

(From the Boston Transcript.)

An over-enterprising cigar manufacturer sent a doctor a box of cigars which had not been ordered, accompanying it with a bill for \$10 and this note: "I have ventured to send you these on my own initiative, being convinced that you will appreciate their exquisite flavor."

In due time the doctor replied:—"You haven't asked me for a consultation, but I venture to send you the enclosed prescription, being convinced that you will derive therefrom as much benefit as I shall derive from your cigars. As my charge for the prescription is \$10, this makes us even."

"We can save money by not advertising," "Yes," replied the advertising man, "and you can also save money by not eating."—Detroit Free Press

Bobbie and Daisy were going to a party. "After I wash my face," said Daisy, "I look in the mirror to see if it's clean. Don't you Bob?" "No, I don't have to," said Bobbie, "I just look at the towel."

Canada has 8,000 physicians, or one to every 1,050 of its population; its bank deposits amount to \$225 per head, the highest average in the world, while its school expenditure has increased 500 per cent in ten years.

The Old 'Un—Pluck, my boy, pluck; that is the one essential to success in business. The Young 'Un—Yes, of course, I know that. The trouble is to find someone to pluck.

Purina Calf Chow Is Different Yes, it's unlike any calf meal on the market. 1st. It's different because it's better. 2nd. Every ingredient is a pure feed of recognized value, no "phony" products of unknown worth. It does not contain anise, or any appetizer. Calves eat it as greedily as they do whole milk. 3rd. It does not scour; blood flour is one of the important ingredients, which insures freedom from scours. 4th. Easy to feed, no boiling, just mix with warm water. 5th. It is balanced just like whole milk. Calves thrive from the first on Purina Calf Chow and it keeps them making gains without sickly periods. It is used by many of the best dairy farms in the country to raise the finest calves. 6th. But it is cheap enough to use on any calf, costs less than half as much as milk feeding. So easy to feed that boys or girls are assured of success. Stop in and talk it over, LOCAL DISTRIBUTORS: PORT WILLIAMS FRUIT COMPANY, Port Williams, N. S. WOLFVILLE FRUIT COMPANY, Wolfville, N. S. Personal Paragraphs

Mr. McLeod Mills, of Truro, was in town this week visiting his son, Mr. Fred Mills.

Mrs. A. G. Guest was "at home" to a number of her lady friends on Wednesday afternoon.

Mr. and Mrs. J. E. Conrad, who have been spending the winter at Dartmouth, returned to Wolfville last week.

Mr. W. M. Manning, of Amherst, was called to Wolfville last week by the death of his mother Mrs. J. W. Manning.

Mr. and Mrs. R. E. Banks, who have spent the past winter in Wolfville, left on Tuesday for their home in Waterville.

Mr. Holmes Bauld, son of Mr. Robert Bauld, of this town, left yesterday for Vancouver where he will remain for some time.

Mrs. C. H. Wright, Mrs. Herbert Stairs, Miss Edith Stairs and Mrs. Percy Benjamin left on Tuesday for a short visit to Boston.

Mr. P. S. Hilsley, who has been away for a number of weeks touring western Canada and the United States, returned home on Saturday.

Dr. M. R. Elliott was at Truro on Saturday evening attending a meeting of the executive of the Nova Scotia Medical Association.

Mr. and Mrs. F. C. Churchill, who have been spending the winter in Halifax, returned home last week. While at Halifax Mrs. Churchill was taking pipe organ lessons from Prof. Dean.

Mr. J. E. Armstrong, Jr., of Seattle, Wash., is visiting his mother, Mrs. J. F. Armstrong, this town, after an absence of about fourteen years. Many boyhood friends are glad to welcome him back.

Mrs. W. G. Clark, of Fredericton, President of the Women's Missionary Baptist Union, was in attendance upon the funeral of Mrs. Manning. While in town she was the guest of Mrs. H. G. Perry.

Miss Jean Pratt, who was called home by the death of her father, the late Capt. John Pratt, left this morning to return to Framingham, Mass. She expects to be gone a week during which time she will receive her diploma from the Framingham Hospital.

JOSEPH A. CLEVELAND

The death of Joseph A. Cleveland occurred at Kingsport, at the home of his son, on Tuesday morning, April 14th, at the age of 65.

During his last illness he had been sick about one week. His only sister, Mrs. Albert Miner, of Wolfville, was with him at the last.

He is survived by two sons, Harold of Wolfville, and L. D. of Kingsport.

The funeral was held from the Gaspereau church on Thursday afternoon at four o'clock.

GRAND PRE ITEMS

Mrs. W. P. Eaton and Miss Mary Eaton were in Windsor on Monday.

Miss Mabel Borden has been spending a few days here with her aunt Miss Julia H. Borden.

The Hattie Jost Mission Circle held their monthly meeting at the home of Mrs. Ayerton Johnson on Monday evening.

Mr. Joseph Boates, of Wilmot, has been spending a few days here visiting friends.

Mr. George Shearer, of Digby, was in Grand Pre last week.

Miss Nellie Hardacker spent a few days last week in Bear River guest of her sister Mrs. William Morine.

Mrs. G. F. S. Townsend spent the week end at Upper Dyke Village visiting friends.

OUT IN FRONT

By the Pioneer Sergeant

ORGANIZED sport

APPEARS to be gaining

POPULARITY

IN our fair city.

ALL games with the

EXCEPTION of

BASE-BALL appear

TO be improving under

PRESENT plans.

WE can well remember

IN the good old days

WHEN the ball team

WERE the proud possessors

OF a few odd bats,

A BROKEN mask and

SUNDRY withered gloves.

PRACTICES were carried on

IN spare moments

ON street corners

AND vacant lots.

THOSE were the days

WHEN we had a

BALL-TEAM

OF which we were

JUSTLY proud.

WE are of the opinion

THAT during the last

FEW years

THIS branch of sport

HAS been controlled

TOO much by non-players.

WE would suggest

THAT the W. A. A. A.

ADVANCE the boys

A SMALL sum—

WE doubt if they

COULD possibly

CONSUME as much as the

CRICKET or hockey teams did

IN the past season—

DISPENSE with expensive

COACHES in favor of the boys'

INHERITED ball instincts;

DISPENSE with that

SIDE-HILL lot.

AND rent, if necessary,

THE compass;

THEN we will have a real

BALL-TEAM.

AND we will all be there

TO yell ourselves hoarse as

IN the good old days.

WE thank you.

NOTICE!

That I will not be responsible for any bills contracted in my name by person or persons thereof, without a written order from me.

CRANMER HENNINGER

PORT WILLIAMS HAPPENINGS

Mr. and Mrs. Manning Ells are receiving congratulations on the arrival of a baby girl born on Monday.

Mr. and Mrs. Leonard Hill arrived from Toronto on Tuesday and are the guests of Mrs. Hill's father, Mr. Isaac Longley.

Quite a good deal of sickness has been around of late. Mrs. Grant MacDow is still suffering from an acute attack of rheumatism. Mrs. Campbell, Mrs. A. B. Rand, Mrs. Coulstan have all been confined to their beds with gripe, but are now improving.

Mr. Wm. Graves has returned to his home here, having sold his farm in Church Street to Fred Havell. He has been away from his property here four years.

Rev. O. N. Chipman is holding evangelistic services at Canaan this week. As a result of the meetings lately held here, eight were received into the church last Sunday morning.

Mrs. Kenneth Hibbert and daughter Margaret of Halifax, spent the week end here with her parents Mr. and Mrs. Bedford Chase.

Mrs. George Gates is spending a few days in Halifax the guest of Mrs. Hibbert.

Miss Coleman (Primary teacher) went to Aylesford last week to attend the funeral of her grandfather.

A shower of silver, china and glass was tendered Miss Thelma Gates by her friends at Miss Jessie Lockwood's home on Tuesday of last week. One hundred and thirty-five guests were present, and a very pleasant evening spent. The assortment of gifts was varied and valuable. Refreshments were served by the Loyal Workers Class, of which Miss Gates is a member. On Saturday evening the Loyal Workers at their Class Meeting at Mrs. Geo. Dodge's presented her with a very handsome table lamp (electric). Again on Friday evening, Miss Gates' class of Busy Bees was entertained by one of the members, Miss Cassie Faulkner, when the class presented their teacher with a very nice Bible.

Invitations are out to Miss Gates' marriage to Mr. H. Burbridge, of Canard, on Wednesday next, followed by a reception at the home of her parents, Mr. and Mrs. S. L. Gates. Miss Gates has always been deservedly popular, and will be much missed from this community.

Mr. K. Gates spent Sunday with his daughter, Mrs. MacWhinney, in St. John. Mrs. Gates who has been visiting her daughter for the past two months, returned with him.

Mr. Lew Thomson has returned from Camp Hill Hospital looking and feeling fine. The trouble in his feet, caused by his long service over seas, is practically cured.

Rev. Paterson-Smyth, of Windsor, gave a very interesting address on Anglican Missions at the Parish Hall on Tuesday evening, which was illustrated by lantern slides. The lecture embraced the domestic mission of the church in the North West and Far North and in India, Japan and China. The lecturer's talks accompanying the pictures were greatly appreciated. At the close a hearty vote of thanks moved by the rector and seconded by Mrs. Laura Moore was accorded the speaker. There was a good attendance.

\$25. - \$60. Week

100 men wanted at once, to work as Auto Gas Tractor Mechanics. Low fees. Part pay, part earn, plan. Write for particulars, quickly. Biggest prospects for ten years. Hemphill's Auto Gas Tractor School, 163 King St. West, Toronto, Ontario.

CANARD NOTES

Rev. G. A. and Mrs. Logan, of Upper Canard, have returned from their trip to Bermuda. At a special meeting of the Congregation held on the 20th March, it was unanimously agreed to increase Mr. Logan's salary to the new minimum of \$1800, which all congregations are doing, who wish to retain their status as self-supporting. This is very creditable for a congregation of less than forty families.

Miss Alba Eaton, of Canard, has been in Wolfville the past week.

One of Canard's popular young men is to be married very soon.

Miss Mary Dickie, of Upper Canard, has been on a trip to Bermuda, with Rev. G. A. Logan and Mrs. Logan.

At the meeting of the Institute, which was held at the home of Mrs. Cox, the following officers were appointed:
 President—Mrs. Leander Eaton
 Vice President—Mrs. A. J. Prosser
 Sec.-Treas.—Mrs. Lorne Rand
 Directors—Mrs. Walter Eaton
 Mrs. Robinson
 Mrs. John McDonald
 Mrs. Chas. McFadden
 Mrs. Joe Kinsman

Miss Marjiam Cox, of Canard, left Tuesday, for Boston, where she will remain a short time.

Mrs. C. C. H. Eaton and daughter Kathleen of Canard, left on Tuesday for Boston.

Mrs. A. J. Prosser has been on the sick list for the past week.

Rev. Ross Eaton, wife and family, came to Canard on Tuesday. They will remain here a week with Mr. Eaton, then they go to Prince Edward Island, where he will take up work in his new church, starting Easter Sunday. He will be much missed in Mattapan where he has done splendid work. We wish him success in his new field.

Will those wishing to contribute to the Labrador Relief Fund kindly leave their donations either of clothing or money with Mrs. Annie Murphy, Highland Avenue, before the 1st of May.

Auto Show

All prospective buyers of a new Auto, Tractor, Gas Engine, Spraying Outfit, etc., will bear in mind the annual Auto and Farm Machinery Show to be held in Berwick, on May 24th., where all the latest styles and makes of the above mentioned articles will be on exhibit. Purchasers get a better chance to see them and dealers a better chance to exhibit them.

PROVINCIAL LEGISLATURE

(Continued from Page 1.)

legislation to restore a larger measure of self-government to the Municipalities and to permit part of the revenue from motor vehicles and theatre taxes to be retained by the Municipalities from which the revenue originated.

These resolutions are cited here merely as examples of concrete suggestions given by a Government that complains of the lack of concrete suggestions from the left of the Speaker. The Premier himself took a hand in relegating Dr. MacDonald's amendment to the scrap-heap, stating that if the "old Tory remnant" could "put it over", he would "take off his hat to them."

The Government may be practicing economy; but there is a deep-seated conviction to the contrary hereabouts. Somehow or other, there isn't any particular confidence in its highways activities. The highways, quite apart from "St. Margaret's Bay and Port Joli-Sable Riverias", seem to be costing too much money. A very great deal of highways money is being spent; but the results are not encouraging. Doubtless, we will all know more about it before prorogation.

To the host of friends, who by kindly words of sympathy and acts of Christian ministry have endeavoured to make their recent affliction less keen, Rev. Dr. Manning and family desire, through the columns of THE ACADIAN, to express their sincere thanks.

NOTICE!

All sawing done at Messrs. Pick and Hancock's mill at White Rock strictly cash.

Pick and Hancock.

CLINIC ITEMS

No clinic held on Good Friday.

Dental Clinic held at Kentville Academy, Friday, April 14th.

When your child is between five and six years old, the front teeth begin to loosen and soon will fall out. New teeth will come in their places. These will remain a lifetime if cared for.

At about the same time four large molars, or grinders will start through the gum just back of the baby teeth. They come into places where there are no baby teeth. Many persons think these molars are baby teeth. This is not so. They are the most valuable teeth a person can have, and belong to the second set which are meant to serve a lifetime.

As soon as these teeth appear have a dentist look at them and send the child to the dentist or clinic every six months to have these teeth cleaned.

DR. THADDEUS P. HYATT.
 Published by Metropolitan Life.
