Dear Sir, -

I have been watching for the past few years the goings on of the authorities at St. John's, in removing and stationing police in this town. Now it is my opinion, that this town i positively entitled to seven policemen if Harbor Grace is entitled to twelve and that number to remain here th yea round. Why not have the same number here in the summer as in th winter? More especially as this place is becoming such a depot for banker. and buiters. Why, Sir, I have seen out a few sail of bankers in por when the Sergeant found it necessary to ask Hend Constable Doyle of Har for Grace for a few policemen, and o course, they were seut, but they returned again the same night. Some time after the Sergeant sent two of hi men down the North Shore, leaving Carbonear with but two policemen and from thirty to forty banking vesse's in the harbor; while St. John's could Sergeant or Inspector inform me the
