## In the Supreme Court.

1910, No. 244.  
 BETWEEN:  
 George Foster, Plaintiff,  
 and  
 George G. Doggett, Defendant.  
 To the Defendant.

Take notice that George Foster, of  
 King's Point, in the Electoral District  
 of Twillingate, Newfoundland, has  
 commenced an action against you,  
 George G. Doggett, in the Supreme  
 Court of Newfoundland, by Writ of  
 Court dated the 25th day of June,  
 A. D. 1910, for the recovery of wages  
 alleged to be due by you to him; and  
 that in consequence of personal ser-  
 vice of the said Writ upon you being  
 rendered impossible by reason of your  
 absence from LaSalle, your last known  
 place of address; and your present  
 whereabouts being unknown to the  
 Plaintiff an order for substituted ser-  
 vice was made on the 1st day of Oc-  
 tober, A. D. 1910, by the Honourable  
 Mr. Justice Johnson as follows:—  
 "That service of this order and a  
 copy of the Writ and Statement of  
 claim by sending a copy of each by  
 prepaid post-letter addressed to the  
 Defendant at LaSalle, and by inserting  
 advertisements of such Writ and  
 Statement of claim and order (twice)  
 in the Evening Telegram Newspaper,  
 and the Evening Chronicle Newspaper  
 shall be good and sufficient service  
 of the Writ herein." And you are re-  
 quired within eight days after the pub-  
 lication of the notice to defend the  
 said action by causing an appearance  
 to be entered for you in the said Court  
 to the said action; and in default of  
 your so doing the said George Foster  
 may proceed therein and judgment may  
 be given in your absence.  
 You may appear to the said Writ by  
 entering an appearance personally or  
 by your Solicitor, at the office of the  
 Registrar of the Supreme Court, at the  
 Court House, in St. John's.

Dated the 1st day of October, A. D.

CHAPTER V. THEIR LOVE REVEALED.

HERE would be no happiness in life for me without you, Eric. The fate that sent you to me I shall always bless. I do love you with all my soul!

CHAPTER VI. LOYD-MOSTYN'S REVENGE.

THE wedding festivities were in progress at Beaufort Park. The tastes of both the contracting parties inclined towards quiet so that there was little of the bluster and noise usually consequent upon such an event.

ery-hearted, insatiable yearning that filled his soul. One moment he held her to him with a passion that seemed consuming his very life, and the next he seemed to tear himself from her, as though he feared his own strength.

There a terrible suffocation came over him. He thought of the time when she would discover all his duplicity, his treachery, and a hideous shudder shook him.

St. John Beaufort had raised no objection to the marriage, as he considered Lifford Loyd-Mostyn a perfect capable judge of who was a fit husband for the heiress of Beaufort Park.

He lived in a state of heavenly rapture while in the presence of his lovely fiancée, and out of it he suffered the torture of a lost thing.

that it went exclusively to her—a fact that would have inspired the confidence of St. John Beaufort without the indorsement of his cousin. The arrangements were agreed upon that Devereux and his bride were to go immediately to the far West, to remain for some months, in an undertaking arranged for Devereux's financial advancement.

It was, therefore, with the most anxious heart that the young man awaited the hour of their departure, feeling that therein lay the hope of remaining uncovered.

The wedding was sweetly simple. It occurred at the church at eight o'clock in the evening. The reception followed immediately, and the twain were to leave on the morning train.

She was proud of having won his love. She revered him—she adored him. And Lifford Loyd-Mostyn looked on and smiled grimly. He hated them both as he had never dreamed it possible for any living thing to hate; because she had scorned him, and Devereux, because he had won what the worthy scion of the illustrious Loyd-Mostyns could not.

parents, with whom all her life had been passed. 'I know that,' he replied sadly. 'I would not prevent you going if I could; but it will be very dreary! There! Run away and find your lover for the last few minutes before he comes your husband. I am a brute to make you sad upon your wedding day!'

He sighed as she obeyed him, attributing his depressions to her early departure, and she found Devereux outside the door. 'I do believe there are tears in your eyes, my sweet!' he exclaimed, taking her in his arms and leading her to an adjoining room.

'That is a sure pledge of my undying devotion!' she said softly. 'Except my father's, no man's lips have ever touched mine, save yours, and none ever shall. Oh, Eric, you should not doubt me, dear, for great as your love for me is, and I read it in your every act and thought, mine for you is greater. You believe me, do you not?'

**The Evening Chit-Chat**

By RUTH CAMERON

A few weeks ago some of my readers and I had a little discussion as to whether it really paid, in terms of masculine approval and admiration, and love and matrimony, to be a thoroughly nice girl.

My assertion that it certainly did, was taken exception to by some girls who said they had tried it and found it didn't, and who thought that "Be good and you'll be lonesome."

Maybe the following letter will interest them a bit.

"Anent your chit chat about the forward girl, I want to give the testimony of one who, though not a prude, tended rather toward prudishness than forwardness.

"I was conscientious over many things to the point of where I felt that I was missing much of the fun that other girls had, yet, for indulgence in which, my conscience troubled me out of all proportion to the pleasure derived.

"When I was away on a visit, I met a young man who showed me some attention from a sense of duty to my hostess, but very soon one of his invitations brought me up standing before my conscience. It was an invitation which nine hundred and ninety-nine girls in a thousand would have accepted unhesitatingly, and which in itself involved no forwardness—merely was in opposition to my idea of what was right for a Christian to do. I sent my refusal and explanation, with the feeling that it was the knell

of our friendship, and that he would read it with a sneer; but to my great surprise he replied that, while he disagreed with me, he respected me for doing what I thought was right.

A year and a half later we were married and for the past four years I have been happier than in all the previous twenty-five. No husband could be more considerate of his wife nor more devoted to her—and still we each hold our opinion about the matter referred to.

For the girl who longs for "a good time" at almost any cost, let me quote Ruth McEnery Stuart: "For a steady diet, day in and day out, there's nothing like a quiet gentleman. The sun isn't exciting in its daily uprisings and goings down—but it is good to live along with. Pyrotechnics are for holidays."

"No, I don't like her a bit," said a young girl recently, when I asked her opinion of a prominent alumna of her university.

"Why?" I wondered—most people did like that particular woman very much.

"I have a feeling that she doesn't like me."

Wouldn't you think she would have been ashamed to give that answer?

Disliking people merely because one thinks that they do not approve or like one seems to me a weakness that one ought to be unwilling to admit to oneself, to say nothing of telling it willingly to another person.

Occasionally I catch myself disliking a person for that reason and I am thoroughly ashamed.

Is that ever the reason for any of your likes and dislikes, and do you think it's a very nice one?

Ruth Cameron

**Typhoid Terror Over.**

Vaccination Kills Germs—British Army Man Discovers Serum Which Reduces Death Rate 90 Per Cent.

New York, Sept. 22.—The typhoid terror is a thing of the past. So declare the medical men of the American army, who have adopted vaccination to wipe out that scourge of nations in peace and war. Inoculation from the disease was first used by the British army, who fought the fierce ravages of cholera in India with the same principle. Its success in cholera led Sir Almorth E. Wright to make a serum for typhoid which he tried on two men who afterwards proved immune. Statistics prove the death rate has been reduced 90 per cent.

**Figures Prove Success.**

Then the American army took it up. In the last eighteen months twelve thousand men of Uncle Sam's army have been vaccinated for typhoid fever. Of these twelve thousand, only three men have since been attacked by the dreaded scourge, and these slightly. There has not been a death from the disease in the whole number. In every other block of the army containing twelve thousand men there have been seventy-two cases of typhoid in the same time and seven deaths. In the fifty thousand unvaccinated there have been three hundred cases and thirty deaths.

**Secret of Vaccination.**

The secret of the vaccination business lies in capturing the germs of the disease, killing them to prevent overactivity, and then placing them in the blood. This arouses the system of the individual and it produces an antitoxin for the disease in question—that is, produces something to fight that disease.

When one has smallpox or typhoid or any such disease, it ravages the system until that system develops the elements that will counteract it. When these elements are developed the disease is met by an equal or conquering force and is able to make no further headway. The patient is then immune. Vaccination is only a first alarm to the system and starts it to developing the needed antitoxin in advance.

**Process Not Dangerous.**

This vaccination is not to be compared in severity with that for smallpox. The patient has entirely recovered within a day. There is some inflammation at the point of inoculation, and this is fully developed within 12 hours. For a day the patient feels as though he were going to have the "chills" or cold or some other milder ailment. He may have a slight chill, headache or suffer slight nausea. This usually lasts only two or three hours and all symptoms disappear within a day. There are never any serious effects of the vaccination. The medical profession of the world has observed all some eighty thousand vaccinations. In no one of these has there been any injury or fatality. There is nothing whatever to fear in the process.

**Doctors' Bright Hopes.**

The statement is for the first time issued on the authority of the medical corps of the army that if every individual in the nation would capture, kill, and inject into his arm five million typhoid bacilli, there would next year be only one case of the disease there are now ten. They are willing to stake their reputations on its merits. The government has prepared vaccine in abundance and will freely furnish it to practitioners in whom it has confidence, men whom it believes will handle it properly and who will agree to report results. It is being scattered broadcast in this way, and soon all the world may come under its beneficent effects.

**Electric Restorer For Men.**

A French Remedy  
**PHOSPHONOL**

restores every nerve in the body to its proper tension; restores vim and vitality. Premature decay and all sexual weakness averted at once. PHOSPHONOL will make you a new man. Price \$2.00 a box, or two for \$3.50. Mailed to any address. The Seobell Drug Co., St. Catherine's Ont.—monfr.

is the least suspicion or odor about them. If slightly tainted, though disagreeable, will not produce pneumonia.

A clean pencil eraser or a piece of art gum is excellent for removing fresh spots from kid gloves. An application of either of these will put off the day when the gloves must be sent to the cleaners. Suede slippers may be cleaned in the same way.

No tins are more satisfactory for baking brown bread than the small round cans, in which baking powder and cocoa often come. Then one may have dainty sandwiches without the trouble of trimming the bread round after it is buttered.

**Remedies are Needed**

When we perfect, which we are not, medicines would not often be needed. But since our systems have become weakened, impaired and broken down through indiscretions which have gone on from the early ages, through countless generations, remedies are needed to aid Nature in correcting our inherited and otherwise acquired weaknesses. To reach the seat of stomach weakness and consequent digestive troubles, there is nothing so good as Dr. Pierce's Golden Medical Discovery, a specific compound, extracted from native medicinal roots—sold for over forty years with great satisfaction to all users. For Weak Stomach, Biliousness, Liver Complaint, Pain in the Stomach after eating, Heartburn, Bad Breath, Belching of food, Chronic Diarrhea and other intestinal Derangements, the "Discovery" is a time-proven and most efficient remedy.

The genuine has on its outside wrapper the Signature

You can't afford to accept a secret nostrum as a substitute for this non-alcoholic, medicine of known composition, not even though the urgent dealer may thereby make a little bigger profit.

Dr. Pierce's Pleasant Pellets regulate and invigorate stomach, liver and bowels. Sugar-coated, tiny granules, easy to take as candy.

**Household Notes.**

A delicious conserve is made of equal parts of pineapple and peaches with three-quarters of a pound of sugar to a pound of the fruit, boiling all together.

If the hands are stained by berries, or from cleaning summer vegetables, rub them with ripe tomatoes before using soap or anything that will set the color.

Linen suits when they become faded, can be very successfully dyed, deep blue being a good color. There is no more danger of shrinkage than from washing.

A silk-stone cover over the parol will save the silk of the sunshade wonderfully. Always slip the parol in to the bag when not in use and hang up in the closet.

Colored cotton fabrics will not fade by subsequent washing if previously placed in boiling water to which has been added three gills of salt to every gallon of water. Let them stand until cold.

Round wire screens to fit over the top of vases or bowls may be had in various sizes. They help to hold the blossoms in an upright position and are especially serviceable for short-stemmed flowers.

No vegetables left from dinner should go to waste. A combination of almost any of the summer vegetables, with the addition of a bit of salad dressing will make a salad as nourishing as it is tasty.

Some housekeepers make the mistake of drawing all cooking water from the hot water faucet. It should instead be drawn from the cold faucet, as the sediment that collects in the hot water is not wholesome.

Fruit soups, served cold, are often tasty on a hot summer's night. To prepare them the fruit is cooked, then strained and seasoned to taste. It is often well to add a little lemon, if the fruit is very sweet.

Hardwood dents may be removed by covering with several thicknesses of paper and pressing with a heavy hot iron; but after this process the blistered varnish will have to be sand-papered off and a new finish put on.

Iron holders, made from a piece of asbestos, the desired size and covered with drilling or heavy unbleached muslin, are light and keep out heat. There should be a ring or loop sewed in one corner to hang to the holder.

Often times the asbestos which has become discolored in the stove, may be cleaned with common table salt. Sprinkle a little on the mat, light the gas stove burner and place the mat on top. The discoloration will soon disappear.

Sheer handkerchiefs, as well as those of lace, should be carefully rinsed in milk, to which a little orange root has been added. Wrap in a towel for a few minutes and iron while damp. They will be found immaculately white.

Red meats are less liable to contamination than fish or chicken. The latter should never be eaten if there

## New Fish Treaty.

According to a press message from Washington, dated Sept. 28th, an informal interchange of views between the Government of Newfoundland and the indication is that a reciprocity treaty of Washington has taken place. The treaty will be made, now that the award in the Fisheries Arbitration has been made.

People here are anxious to know what the policy of the present Government is. Does the Ministry intend to join Canada in reciprocity negotiations, or stand alone? What is it to be, the old Tory Policy or the Liberal Policy? Or will the Government stand fast and do nothing?

We ask these questions because the Washington Press despatch declares that Newfoundland is joining Canada in these negotiations. The extract is as follows:-

"With the return of Sir Wilfrid Laurier and the Canadian Cabinet Ministers, and the recent arbitration at The Hague, eliminating the Newfoundland fisheries dispute from all controversies, the ways have been cleared for negotiations for commercial agreements between Canada and Newfoundland, respectively, on one side, and the United States on the other."

Nothing much so far as Newfoundland is concerned, seems to have come out of the West India Commission, the report of which was published in London last Monday. Part of the report was devoted to trade relations between Newfoundland and the West Indies.

**SNOW ON LABRADOR.**—When the M. Lloyd Morris was leaving Batteux, Labrador, last week it was snowing steadily and the coastline became covered with several inches of it. When such is the case so far north it can be surmised that winter has set in on the northern coast.

## The Vanderbilt Cup Horrors.

Special to Evening Telegram.  
NEW YORK, N. Y., Oct. 1.  
Perdand D. Zuba, New York Manager for the Pope Hartford Auto Co., was killed on his way to the Vanderbilt Cup Race this morning, and five other persons who were in the car with him were injured, his wife seriously. His auto struck a telegraph pole at Westbury, L. I., and was wrecked. At Long Island Motor Park Way with dead and wounded, marking every mile of the course, the sixth Vanderbilt Cup Race came to a gruesome and appalling close to-day. With Harry Grant driving a 120 horse power, also winner by the narrow margin of 25 seconds; Joe Dawson, driving a Mar-Lon, was second, one minute and 6 seconds ahead of Joseph. At the wheel of a National. By his victory to-day Grant repeats his exploit of last year when he captured the Cup in a car of the same make. The winner's time for 278.08 miles of the course was 4 hours, 15 minutes and 68 seconds, or an average of 69.15 miles an hour, which establishes a new American record. The race was marked by a series of fatalities and accidents, second only to the memorable Paris-Madrid Race in tragic results. Harold Stone, of Los Angeles, driver of a Columbia car was killed in a crash which occurred soon after the race started. Charles Miller, a mechanic on a Marquette car, driven by Louis Chevrolet, was killed instantly in a crash with a touring car along the route.

## BANKER IN PORT.—The banker Little Jean, Capt. Eli Basset of Burtin, arrived here Saturday night from Quirpon where she had fished the past four weeks and secured 130 qts. She has 800 qts. to date for 5 dories and reports the Victor and Stella of Burtin doing well at present. These have 400 and 300 for 3 dories each for the season. They report more fish on the French Shore than during the past summer, but absolutely no bait.

**HAD BETTER BEWARE.**—A Navy man in the west end Saturday night was told to follow and avoid some respectable woman passing George's Street. It was well he quit the place as soon as he saw the husband of the woman sought for (or him to bring him to strict reckoning for his scandalous conduct. "This same person" language in follow and avoid, recently which came near getting him into trouble, which he will get lots of if he doesn't mend his manners.

**THE BRUCE PASSENGERS.**—The Bruce arrived at Port aux Basques at 705 a.m. yesterday. Her passengers were: Miss C. W. Merritt, Mrs. D. Young, Mrs. P. Daudin, Miss N. L. Hughes, Miss M. The Florida sailed for Halifax and New York at 7 a.m. yesterday.

The Rosalind left New York at noon on Saturday for this port via Halifax. The Bonavista left Charlottetown at 11 a.m. Saturday and is due here on Wednesday.

This morning the Mongolian reported by wireless that she was 150 miles east of St. John's at midnight, and is due here at 10 to-night.

The Siberian left Philadelphia at 5 p.m. on Saturday for here.

The Amethyst passed Cape Race at 11 a.m. and is due here at 5 p.m. today.

**Personal Notes.**  
Miss Merritt, representing the Imperial Bazaar of the Danube, arrived here by the express to-day.  
Mr. Taylor-Clouston, of the Bank of Nova Scotia, Glace Bay, who had been here on a holiday, left by the express last evening. He is the son of Mr. Walter Clouston.  
A BIG BUILDING.—Mr. Jonas Barter has expended plans for a large warehouse to be built on Buchanan Street by Mr. Jas. Brennan. It will be of concrete and steel. It will be four stories high and will be erected by M. & E. Kennedy. The building will be of large dimensions otherwise,

## The World Going Mad.

ENGLISH RACE DECADENT.  
London, Sept. 19.—According to Dr. Forbes Winslow, who acquired international celebrity by his sedulous insistence on his theory that "Jack the Ripper" was a homicidal maniac, the world is going mad.  
Dr. Winslow considers that the rate of progress to that consummation is shockingly rapid. In a book of reminiscences published this week this expert in criminal lunacy says:  
"By a simple arithmetical calculation it can be shown the exact year when there will be more insane persons in the world than sane. With England are gradually approaching, with the decadence of our youth, near proximity to a nation of madmen."  
"By comparing the lunacy statistics of 1869 with those of 1909, four decades having intervened, my reflections are sad indeed. A terrible but real curse is in store, and an insane world looks forward to me with certainty in the not far distant future."  
"In 1869, out of a population of 22,223,299, there were 53,177 registered lunatics in England and Wales, there being one lunatic in every 418 of total population, whereas in 1909, out of a population of 35,736,615, the number of registered lunatics was 128,787, making on an average one lunatic in every 278 of population. So that in forty years an enormous increase in lunacy is seen. Surely a dreadful future for nations still unborn to have to cope with."  
"These are the facts, and, sad to reflect upon. They must be accepted. I cannot in any way be challenged."  
Dr. Winslow's phraseology is sometimes unhappy, as when he writes, for instance:  
"I have breathed the atmosphere of lunacy for over sixty years, and the conclusions I arrive at are pessimistic in the extreme."

## Coastal Boats.

**REID NFD. CO.**  
The Argyle left Placentia to-day for the west.  
The Bruce arrived at Port aux Basques at 705 a.m. yesterday.  
The Clyde arrived at Lewisporte at 7 a.m. yesterday, and sailed this morning for the south.  
The Dundee arrived at Port Blandford at 5.45 p.m. yesterday and sailed again this morning.  
The Ethie arrived at Clarendville at 7.10 p.m. yesterday, and sailed again this morning.  
The Gloucester left Port aux Basques at 8.10 a.m. yesterday.  
The Home is due at Bay of Islands this morning.  
The Invermore is still north of Twillingate.

**Winnipeg, Man., Sept. 15.**—The dismembered body of the eight-year-old daughter of a Galician farmer living in St. Clement's parish, about 15 miles north of the town of Beausport, has been discovered under a log in a bush. The unfortunate girl had been missing for almost a fortnight, and it is evident now that she wandered away from her home and was attacked by a bear. When she was found by the search party both arms had been torn from the body and she was utterly dead. A horribly mutilated condition. The girl went out of the house about a fortnight ago to attend to the cattle, and was attacked by a bear. When she was found by the search party both arms had been torn from the body and she was utterly dead. A horribly mutilated condition.

## Typoid Fever.

**TYPHOID FEVER.**—People still continue to leave Grand Falls every day on account of the typhoid fever which is rampant in the houses of the hospital and others in private houses. An addition is being made to the hospital.

## THIRTY YEARS A Slave to Coffee.

Many persons do not realize that coffee-drinking may become a powerful enslaving habit.  
They are not all aware that coffee contains a drug—caffeine—which and is as addictive as opium, and which ought never to be taken into the system except when prescribed by the doctor. The coffee habit grows on most users and is more harmful to some than others. But a drug that acts upon the heart and nerves in the way caffeine does, is not without greater or less harm to all who drink coffee.  
"For thirty years," writes a Washington housewife, "I have been a steady coffee drinker. I wanted it at every meal."  
"But I would have sick headache most of the day, and often throw up my food. I really suffered awfully from coffee yet thought I never could stop it."  
"The I heard how good Postum was for such cases, and began to use it. At first I did not care for Postum. I felt sorry and had headache. I soon found that this was because of the hold coffee had on me, for in about three days after I quit coffee and began to use Postum the headache left me, and had no more nervous and palpitation. In about a week I felt like a new woman."  
"I have used Postum three years and when it is made according to directions (boiled 15 minutes) it is as pleasant as coffee and does not hurt anyone. I ought to know for I was bad off. Now I am well."

## Will Accompany-- Not Attend.

We have been informed that Sir Edward Morris will accompany President W. D. Reid to Trinity next week. Sir Edward has friends in our midst other than those who are his political supporters, and they will be glad to meet him.  
We have used the word accompany this time, and we have done so advisedly, as in our reference to Hon. Mr. Cashin last week we used the word "attend," the technical meaning of which our friend the Telegram seized upon as good material for a joke.  
Did we not know Mr. Cashin well enough to realize how much he would enjoy the joke, we would assure him more seriously than we are now doing that there was "malice aforethought" in our use of the word—Enterprise, Oct. 1st.

## Smoking Concert.

A smoking concert will take place at the Terra Nova Athletic Club rooms, over Bastow's, to-night at the formal opening. Amongst those who will take part are P. F. Collins, J. P. Grace, J. P. Croft, W. J. Higgins, J. M. Devine and R. Dowden. Mr. Leo Murphy, the President, will read the inaugural address. Twenty-five new members joined at last meeting. There is now a roll call of 70 men. Mr. J. J. Foley was elected Secretary at last meeting and Mr. G. Downs, Treasurer.

## Don't Think Coffee The Cause?

But to prove what keeps stomach and heart weak and nervous prostration coming, suppose you try leaving off coffee to days and use well made **POSTUM**. If you find peaceful sleep, good digestion, heart and nerves getting stronger, you have the cue.

## How Hicks Died.

We learn by the Fogota that the man John Hicks, who died on the ship, was ill on coming on board and none thought that death would be his portion so quickly. Chief Steward Wright, as well as the captain and officers, gave him every care, and Wednesday at 1 p.m. the former attended him in his state room, but on going there at 2 p.m. he was surprised to find him dead. Dr. Jameson was called and saw the corpse, but it was only when the post mortem was held that it was known that he had died of enteric fever. Hicks belonged to Dotting Cove. Mr. Wright had a coffin made for the body, which was taken on the ship to Musgrave Harbor and sent home for interment. The ship was fumigated and disinfected.

## Kidneys Act Fine After a Few Doses.

The real treachery and danger in kidney trouble is because the first symptoms are always seen in other parts of the body before anything wrong is noticed with the kidneys themselves.  
The moment you suspect any kidney, bladder or urinary disorder, or feel a dull, constant backache or the urine is thick, cloudy or offensive or full of sediment, irregular of passage or attended by a scalding sensation, begin taking Pape's Diuretic as directed, with the knowledge that there is no other medicine, at any price, made anywhere else in the world, which is so harmless or will effect so thorough and prompt a cure.  
Put an end to kidney trouble while it is only trouble—before it develops into Dropsy, Gravel, Diabetes or Bright's Disease.  
Pape's Diuretic acts directly upon the kidneys, bladder and urinary system; cleanses, heals and regulates these organs, ducts and glands and completes the cure within a few days.  
Pains in the back, sides or loins, rheumatic twinges, debilitating headache, nervousness, dizziness, bilious stomach, prostatic trouble, sleeplessness, inflamed or puffy eyelids, weakness, worn-out feeling and many other symptoms caused by clogged, inactive kidneys promptly vanish. Frequent, painful and uncontrollable urination due to weak or irritable bladder is overcome.  
Your physician, pharmacist, banker or any mercantile agency will vouch for the responsibility of Pape, Thompson & Pape of Cincinnati, who prepare Pape's Diuretic—50 cent treatment—sold by every druggist in the world.

## Man Not Yet Found.

Saturday the Telegram exclusively reported that a man named John Dunn of Placentia was missing yesterday Mr. Hutchings, K. C., had the following telegram on the matter from Magistrate O'Reilly of Placentia:  
"John Dunn, aged 22, left Placentia Junction Wednesday evening to walk here. He arrived at the Junction Wednesday evening, from Grand Falls. He is of typical. He did not reach here last night (Saturday). When I heard of I despatched Sergt. Kent with two men to make a search. They have just returned with no tidings of the man."

## Personal.

Miss Jessie MacLachlan, Creighton Sherry and Robert Buchanan, members of the MacLachlan Scottish concert Company, are passengers by the train to-day from Port aux Basques. They will give concerts to-night and to-morrow night in the Methodist College Hall.

## Eczema's Tortures

All treatments failed for three long years—Cure complete with Dr. CHASE'S OINTMENT.  
"Mrs. Link, 12 Walker St., Halifax N. S., writes: 'After three years of miserable torture and sleepless nights with terrible eruptions, and after trying over a dozen remedies without obtaining anything but slight temporary relief I have been perfectly and entirely cured by Dr. Chase's Ointment. Please the third or fourth application of this grand ointment I obtained relief, and a few boxes were sufficient to make a thorough cure. It is six months since I was freed of this wretched skin disease, and as there has been no return of the trouble I consider the cure a permanent one.'  
Such cures are not brought about by imitations, but by the use of Dr. Chase's Ointment. It is therefore necessary for you to be certain that the portrait and signature of A. V. Chase M. D., the famous Receipt Book author are on the box you buy. 60 cts. a box at all dealers or Edmunds, Bates & Co. Toronto. Write for a free copy of Dr. Chase's Recipes."

## The Fogota Arrives.

The S. S. Fogota, Capt. Baxter, Barbours arrived here this morning at 6.30 o'clock from Fogo District. After leaving here on Tuesday last she had stormy weather with fog, rain and gales of S. wind, coming from the north and going. As a result she could not get into Fredericton going north, and Tilton Harbor coming south. She arrived at Chauvin Islands at 6.30 p.m. on Friday and left at 9 o'clock, and passed Tilton Harbor at 3 a.m. on Saturday. The sea was very heavy throughout and lightning yesterday evening while running from Catalina to Bay de Verde. She was delayed at Westville owing to the death of the man Hicks, already reported. She brought a half cargo of fish, oil, etc., and had 30 passengers on the round trip. Those on here were—Mr. McKay, T. Abbott, Mr. Searle, wife and family, Miss W. Kern and 7 steerage.

## AGRICULTURAL EXHIBITION.

Preparations are now going on at the Curragh Rink, which is being fitted up for the Agricultural Exhibition. Carpenters have been engaged the past week erecting stalls and stands for the exhibits, under the direction of Mr. J. Downey, M.H.A., who is working indefatigably to make the exhibition a success.

## POST OFFICE CHANGES.

The quarters on the second flat of the General Post Office are now being fitted up for a Money Order office, etc. This place was formerly occupied as a museum. Many people think that it will be a great inconvenience for the public to have to go upstairs to get money orders changed.

THE ROYAL STORES, Ltd., are now showing the most unique and comprehensive collection of Wall Papers and kindred Lines of Goods that have ever been shown by this Store, affording intending purchasers every opportunity for a desirable and pleasing selection.

In order to secure many of these lines our buyers searched the American and English markets, and secured many novelties, which will be offered exclusively by this Store. This in itself affords exceptional opportunity for distinctive and original treatment in room decoration.

Through a special effort by this Department—and in keeping with the policy of this Store, these Goods are being offered at prices lower than hitherto on goods of a similar nature. Among the New Lines at present featured are:

- GROUNDS** in natural colored florals, satin stripes and conventional designs.
- SITTING ROOMS**, in green, blue, tan, brown and terra cotta grounds, in all styles of designs.
- DINING ROOMS**, in red, green, old rose, brown and buff grounds, an immense assortment of designs.
- HALLS**, in red, dark green, blue, brown, and tan, in a great variety of designs.
- LIBRARIES**, in Nile, olive, and sage green, red, buff and brown, colored grounds, in self-colored and two-tone effects and other designs.
- An Immense Variety of new two-tone and shadow effects now in stock for Bedrooms, Parlors, Dining Rooms and Halls.
- JAPANESE Leather Papers** for vestibules, hall dados, dining rooms and library wainscotings.
- PLAIN PAPERS** in colors of crimson, greens, buff, pink, and blue with bordering to match.

Prices--12 cts. to \$1.20 piece.

Many of these are JOB LINES, and offered at practically Half Price.

**ANAGLYPTA.**—Sitting Rooms, Bedrooms, Libraries, Halls and Dining Rooms covered with Anaglypta, and painted in two-tone effects in olive greens, old rose, rich reds, and in dark greens will make your rooms bowers of beauty during the entertaining season. **New Stock now Showing.**

### Had Rough Weather.

The schr. M. Lloyd Morris arrived here this morning from Batavia, Labrador, where she could not procure a fish cargo. She had fine weather until last night, when she met heavy thunder and lightning, torrential rain and a gale of wind with high sea. Several combats boarded the vessel, one of which smashed four spokes of the wheel, which hit the captain and bruised his arm, while the water tank was smashed in pieces and the contents spilled. Shafts of lightning hit the water repeatedly in close proximity to the ship.

**FISHERY NEWS.**—At Belleoram the weather, like that prevailing at all other points, is cold and stormy, with rain and snow. The banker Cayuga arrived there on the 1st inst. with 450 qtls.

### Wouldn't Let John Bennett "Sit in."

Greensburg, Pa., 24.—One man was shot dead and another was seriously wounded shortly after midnight at Export, a mining settlement near here. The dead man is George Zimmerman and the wounded man is W. C. Marshall.

Both are deputy sheriffs who have been on duty protecting mine property from a strike. They were shot by John Bennett, also a deputy, whom Bennett made his escape before the other card players could stop him. State police are searching the North West Territories for the fugitive.

### Detective Nabs a Bogus Countess.

Berlin, Sept. 24.—Just as a fashionably attired young lady who had introduced herself as Countess Manuela Arabin, was in the act of carrying away a valuable selection of costly jewelry for the inspection of her mistress, she was called upon to accompany a certain gentleman to the police station. She had come to the shops in a smart private carriage with a liveried footman just after the jeweler had received a telephone message from the New Palace to say that she was coming. On her arrival at the station the "Countess" who was forced to disrobe was revealed as a nineteen-year-old youth. He turned out to be Franz Einbaum the notorious well-known of a lady in one of Berlin's suburbs.

### Injured With Dynamite

A couple of days ago, we learn from passengers by the shore train, a dangerous and very painful accident to Mr. Samuel Butt, Asst. Light Keeper at Western Bay, while examining a dynamite cartridge. It exploded and badly shattered his right hand. Dr. Ferguson attended the wounded man and had to amputate two of the fingers and stitch up the gaping cuts in the hand.

**LEFT FOR COLLEGE.**—Messrs. Bertrand McGrath, son of Mr. Bernard McGrath and Patrick Jackman, son of Mr. E. M. Jackman, left by the express last evening for Antigonish, where they will enter St. Francis Xavier College. This college is now acknowledged to be one of the leading universities in Eastern Canada.

### Burial of Sister Ignatius Quinlan.

Special to Evening Telegram: **FERRYLAND, Yesterday.**—The burial of Sister Ignatius Quinlan, who was born in Waterford, Ireland, ninety years ago, and who has been over fifty years Superior of the Presentation Convent of Ferryland, took place on Saturday morning, after Mass had been celebrated for the repose of her soul by Father Rawlins, assisted by Father Walsh, P. P., of Renew, and Father McCarthy, Curate of Bay Bulls. After Mass Father Walsh ascended the altar and paid a brief, but glowing, tribute to the virtues and saintly life of the deceased lady, remarking that she had assisted in founding the Presentation Convent at Riverhead, St. John's, before coming to Ferryland. A vast congregation assembled from different localities to pay their last respects to the dead Superior who was held in high esteem by all who knew her. Prominent amongst those who attended from outside localities, was Hon. M. P. Cashin, Ferryland.

### Quit Work.

The tinmiths strike which the Telegram exclusively announced as being in prospect, has materialized, and all the journeymen in the city with the exception of those working at Mr. W. J. Clouston's, quit work Saturday evening intended not to return until their request for a \$12 per week wage is granted. The Union met in the Mechanics Hall at 9 o'clock Saturday night, there being a full attendance, when Hon. M. P. Gibbs read a letter from Mr. R. Callahan, on behalf of the employers, stating that they could not meet the demand of the men, and then it was learned that Mr. W. J. Clouston had conceded the terms asked for by his employees. It is believed that an amicable and satisfactory adjustment of the difficulty will be made in a day or so, but should it not so happen the men say they would prefer to go away than return to work at the old rate of wages.

### From the Barrens.

Messrs. Harold Harvey and T. C. Fitzherbert arrived here by Saturday night's train after spending 11 days shooting over the grounds at Peter's River. They found birds fairly plentiful but wild, and secured between them 200 partridge.

Messrs. Hugh LeMessurier and Robert Simms, of Bowring Bros. office, came back the same time from the Western Bay grounds with 135 partridge, 25 snipe and 2 plover. They were only shooting 4½ days and found birds plentiful. They certainly did well.

Mr. T. McNab also arrived Saturday night from the Briggs Barrens with 75 birds for 3½ days' shooting.

Messrs. Gus Herder and Hal Hutchings arrived by Saturday night's train from the Cape Shore grounds where they enjoyed two weeks' sport. Birds were plentiful but wild, nevertheless each secured a splendid bag of partridge with plover, duck and rabbits.

Capt. Attley of the Calypso was out Saturday on the Willsey Bay line and returned with 10 birds.

### The Fiona Back.

The cruiser Fiona, Capt. English, arrived here at 7.30 yesterday morning from Botwood, bringing the Minister of Marine and Fisheries, Mr. Piccott, and Mrs. and Miss Carmichael. The ship visited the lighthouse built at Grasey Island and Peckford's Island, and another on that part of the coast. A new lighthouse will be also erected at Cabbage Head, in Green Bay.

### McMurdo's Store News

**MONDAY, Oct. 3, '10.**  
For the sake of many who now use Salvia regularly as a Hair Dressing—and there is no better—as well as for others who wish to give this great Hair Tonic a thorough trial, we have secured a limited amount of the large or dollar size of Salvia. This large bottle contains fully two and a half times the quantity contained in the fifty cent size, and so is economical. The popularity of Salvia appears to be growing, and many people who have never used anything of the kind before are loud in their praise of what it has done for them!

Spanish Iris Bulbs, many colors, 5c. a dozen.—adv.

### Shipping Pulp and Lumber.

By the Fiona we learn that when she left Botwood a large English steamer, of 8,000 tons, was there loading Grand Falls pulp for England, and will take a big shipment. A large sailing ship, of 1,300 tons was also in port loading lumber for South America.

### Should Send Runners.

It will be remembered that not long ago the Telegram had a letter from the Sporting Editor of the Halifax Herald asking that our athletes be informed of the Herald and Mall 10 mile road race. A note was published drawing attention to the matter, and Saturday Mr. W. J. Higgins received a letter from the same source informing him that the race will be held on Thanksgiving Day, Oct. 31st. Splendid trophies are being offered individuals and teams who compete, and we believe the right man has been applied to to get an athlete to go up to Halifax and contest these races. We have excellent walkers and runners in our midst and if they go they would make a good fight for these premiums.

### Has Excellent Voice.

At last Mass in the R. C. Cathedral, was celebrated by Rev. Father O'Callaghan yesterday. Miss Molly Fitzpatrick made her debut as a soloist in the choir. She sang the "O Salutaris" during the offertory, and her rich and perfectly modulated contralto voice filled the spacious edifice. Miss Fitzpatrick is a daughter of Capt. T. Fitzpatrick, the popular commander of the Portia, and is a pupil of Mr. Chas. Hutton. All who heard her yesterday were delighted with her performance and predict for her a prominent place in the domain of vocal music.

### Men For the Railway.

The failure of the Labrador fishery is already bearing hard on the people of Conception Bay and Saturday quite a number left Western Bay and neighbourhood to go out on the new branch railway to work. Others in large numbers are about to proceed to Bell Island and Sydney to seek work to supply themselves and families with food for the winter. Now that the fall is passing by many will find it hard to obtain labor, and it will be up to the "Picnic Government" to look after these unfortunate fishermen.

**A NEW SINGER.**—The management of the Nickel Theatre, following their usual up-to-date methods, and with the desire to give their patrons everything of the best, have engaged the services of Mr. J. O'Neill Farrell, baritone. Mr. Farrell is spoken of as a singer of ability, and this, coupled with the fact that he will sing popular songs, ought to ensure full houses.

### Makes Hair Grow.

**ASK McMURDO & CO.**  
McMurdo & Co. has an invigorator that will grow hair or money back. The time to take care of your hair is when you have hair to take care of.

If your hair is getting thin, gradually falling out, it cannot be long before the spot appears. The greatest remedy to stop the hair from falling is SALVIA, the Great American Hair Grower, first discovered in England. SALVIA furnishes nourishment to the hair roots and acts so quickly that people are amazed.

And remember, it destroys the Dandruff germ, the little pest that saps the life that should go to the hair from the roots. SALVIA is sold by McMurdo & Co. under a positive guarantee to cure Dandruff, stop Falling Hair and Itch of Scalp in ten days, or money back. A large bottle costs 50c. The word "SALVIA" (Latin for sage) is on every bottle and is sold by dealers everywhere.

**FISHERY STILL GOOD.**—The fishermen at Portugal Cove did well with the fish all last week.

**FOOTBALL.**—A team will be selected this evening to represent the city in the football match with the Cornwall team at St. George's Field to-morrow afternoon.

**IN HOSPITAL.**—W. LeGrow, mate of the schr. Damaraland, is now in the hospital at Barbadoes. He was taken ill on the passage from Bahia to Barbadoes. The Damaraland took a load of fish from St. John's to Bahia.

**THREE MEN MISSING.**—Three men were reported missing at the police station yesterday. Two are citizens and have been away from home since Saturday morning. The third is a sailor.

## Brave Bonavista Fishermen

### Rescue Crew of Danish Schooner.

The Minister of Marine and Fisheries had the following wire this morning from Magistrate Jno. Roper, of Bonavista:

"Danish schooner Krausen burst murrings this morning, now riding on over cables in dangerous proximity to Canaille shore. Should wind and sea increase will likely go where Shore was lost three years ago. Crew taken off in height of gale by six brave fellows—James Ford, Wm. Ford, Eli Paul, Wm. Reader, Leopold Way and Wm. Russell."

A further message to the Department of Finance said that the vessel parted her chains at 8 this morning, and no doubt by this time the vessel has been dashed to pieces on the treacherous rocks of Canaille.

## Cable News.

Special to the Evening Telegram. COPENHAGEN, October 1. Waldomer Poulsen, the Danish inventor has succeeded in lighting incandescent lamps by the wireless transmission of an electric current.

COOPERSTOWN, N. Y., October 1. Chas. Sellott, well known as a musician and a newspaper writer, both in America and abroad is dead here at his sister's home here aged 64 years.

AUGUSTA, Ga., October 2. In a riot on Haguenack Wallace Circus Train from Columbia to Augusta this morning three men are known to have been killed. Thirty-three of the Circus Work Crew were arrested by the police authorities here.

WARSAW, October 1. A strike of the Electric Street Car Employees has been declared here. It was organized by the Socialist party. The men demand a minimum wage of 40 rubles (about \$20) per month and the repeal of a system of fines which they declare oppressive. There has been no disorders as the police arrested the leaders of the movement.

BRIGHTON, October 1. Jockey Tom Lautes, who died here Wednesday, left a fortune of about \$125,000, largely the result of careful investments made by him under the guidance of Leopold De Rothschild, his chief employer. Lautes twice won the Epsom Downs in 1889 on the Duke of Portland's Donning, and in 1893 on H. McCalmonts Ingrassias. In this latter race the time 2.33sec. is still a record for the event.

TOKIO, October 1. The Standard Oil Company and the Asiatic Petroleum Co., Ltd., have cancelled their agreement which they had, thus ending the oil combination between Japanese and foreign companies. As a consequence a price war has begun. As the Japanese Company's supply the smaller part of the product, they are likely to suffer severely, and are complaining of the situation in which they find themselves.

Bible Class Meeting. The C. M. B. C. had a full meeting in the Synod Building yesterday afternoon. The new visitors received a warm welcome, and marked enthusiasm prevailed. The hymns were rendered in a very hearty manner and were accompanied by the music of the band. Rev. Mr. Bell, who delivered the address, took the Gospel words: "Son go to work in my vineyard," for his text. He expatiated on the words at great length and showed the relations that should exist between God and his children and the duty that was incumbent on every one of us to work in the Lord's Vineyard. A letter was read by the Secretary from Rev. E. Gardner, of Battle Harbour, enclosing a donation to the Parsonage Fund. The announcement was also made by the Chairman that Rev. Canon White would deliver a special sermon at the C. M. B. C. service in the Cathedral.

Drowned at Mobile. Saturday afternoon Messrs. A. J. Harvey & Co. had a letter from Capt. Cross of the Bonaventure, dated at Mobile, Ala., U.S.A., Sept. 26th, saying that the man lost from that ship on that day, as exclusively reported by the Telegram, was Jubal Carbery, a native of Trinity. The body was recovered in the river two hours after the man, who was painting ship, fell from the scaffolding. The firm wired Magistrate Lilly to break the news to his relatives. The body was interred at Mobile.

## Charles LeDrew Killed at Sydney.

(Sydney Record, Sept. 29th.) Charles LeDrew, aged 25, a brakeman in the Coal Company's trains, was cut in two between four and five o'clock this morning by a train which he was braking. His body lay for some time on the track completely severed, with his entrails strewn over the rails. Before it was discovered by H. J. Davis, conductor of the train.

At the coroner's inquest, held this morning by J. C. Townsend, the evidence of the conductor and driver was that they had last seen the unfortunate man when he signalled to the driver to back the train, and then climbed aboard one of the two cars of which the train was composed. Nobody saw him alive afterwards, and absolutely nothing is known of the exact nature of the accident. After his fellows had missed him for some time, they made enquiries of each other and then started to search, with the gruesome result noted. It is supposed that he fell as he was climbing across the train over the coupling of the cars.

LeDrew had been a brakeman with the coal company for the past eight years. He was a native of Newfoundland. His remains are being prepared at Lowden's for shipment home by the Bruce to-night.

## James Hayter Dies of Typhoid.

(North Sydney Herald, Sept. 28th.) James Hayter, an Englishman who came here from Newfoundland some time ago and resided with his wife and three children on Margaret St. died on Saturday at Harbour View Hospital, a victim of typhoid fever. The deceased was employed in No. 5 colliery, and after complaining of feeling unwell for over two weeks, was ordered to the hospital on the 10th of the month, when typhoid was discovered. The remains were sent here on Saturday night, and were interred on Sunday in the People's Cemetery.

## Seaman Missing at North Sydney.

North Sydney, Sept. 29th.—Captain Poole, of the three-masted schooner Arclight, has reported to the shipping master the disappearance of one of his crew, a man named Luke Rogers, Rogers, whose home is in Newfoundland, has been with the vessel for some time. He is only eighteen years of age, and is said to be sober and of a quiet disposition. He has been missing since Tuesday afternoon. The fact that Rogers left thirty-five dollars on the vessel adds to the anxiety of the Captain. Captain Poole knows of no reason why Rogers should leave the vessel. He was a good worker and got

along on board well. He feels sure that the man is not deserting, which theory the crew are also inclined to scout. The police are making every effort to locate Rogers.

## Highway Robbery.

On Wednesday night last, so passengers by the shore train Saturday night say, a daring highway robbery was committed on the road between Barrisway and Ship Cove, P.E. The victim of the hold-up was a lad named Grant, aged 14 years, who was proceeding to Ship Cove with a horse and cart laden with provisions, etc. As he passed a lonely part of the highway, four men suddenly sprang out from the woods and throwing the lad out of the cart drove off with the outfit and its contents. The boy was very much frightened but was still more afraid of the anger of his father if he were to go home without his horse and goods. The lad wandered about the thoroughfare all night, and after daylight, in a state of fear and exhaustion, proceeded home and told his father of the occurrence. Mr. Grant with some friends went on the search Thursday forenoon and found the horse and cart, but all the provisions the vehicle contained were gone. It is now known that two of the men have quit the country, but two others, who are vagrants, are still at large and an effort will be made to capture them. Their names are known and they have figured in similar outrages in the past.

## Hurt in the Mill.

While working at Simmonds' mill, Colinet, on Thursday last, a young man named Mahoney received serious internal injuries. While in the act of adjusting a pulley on one of the wheels in the mill he was hit in the stomach by a piece of board and was rendered unconscious for some time. Dr. Chisholm was procured and visited him, finding that he was dangerously hurt internally, and he ordered him to Hospital. The man was driven to Whitehouse Saturday, a distance of 28 miles, and suffered much coming over this long and rough road. He arrived here Saturday night by train, accompanied by Mr. Simmonds, and was taken to Hospital in the ambulance.

THE Governor and Lady Williams will be "AT HOME" on Tuesday, the 4th of October, from 4 till 6.

## Gone to Dying Son.

Fireman Cornelius Kavanagh, of the Western Station, Saturday had a wire from relatives in Boston telling him that his son, John, who is suffering from spinal meningitis, could not live much longer and asking his parent to come as he wished to see him before he died. Mr. Kavanagh, who is plunged in grief over his son's hopeless condition, left by the express last evening to if possible see the lad before the end comes. The lad was a fine young fellow and was working on the elevated railroad in the "Hub" when overtaken by the disease which has laid him low.

**INTERVIEWS.**

"This is the age of interviews," said Delaney. "Every respectable man who is worth his salt is interviewed a couple of times a year in this town, and the man who can't arouse enough interest to be interviewed must be reckoned as a back number."

"You're right, Delaney," said Mrs. Tucker. "Every man who takes a trip gives a glowing account of his travels in the Press. And I notice the papers find no difficulty in finding the man nowadays. Before now, you know, the papers used to tell us that 'after some difficulty they found the man at his home,' and he kindly allowed himself to be placed on the stand to give an account of his ramblings. But now all that is changed and the rover starts in to answer questions without dilly-dallying. This goes to prove how amiable public men are becoming in this age of enlightenment, and 'tis mixing with great people did it. 'Tis grand reading and very interesting to the average man to know what grand cities these men travelled through, the beautiful sights they beheld and the gorgeous hotels at which they put up."

These men are very business-like when they are away from home, and don't allow pleasure to interfere with their work in the interest of the people and the country from which they draw their salaries. They never tell us they went to a dance or even a wake. Tucker is of the opinion that we will be transformed into a very happy people if we can manage to live

long enough. He feels sure of prosperous times and a big rush in new industries after all the talk we have heard in the papers, and he says it "augurs well" for the advancement of Newfoundland to know that our public men never take any recreation or sport whilst away from home. But Tucker says we must have been a long way behind, for all our leading men have to go away to get wrinkles about their different positions and how to do their work properly. He thinks that in this age those men should be able to learn all this from reading, especially when we see so many pictures in the papers illustrating how to carry out their different jobs.

But Mrs. Tucker says there's "nothing like being on the spot," and seeing, you know, is believing. Still she holds to the idea that trips cost the Colony a lot of money. Take a two months' trip to the "other side." Now Mrs. Tucker believes a trip like that must cost a hundred dollars. Delaney says three hundred; but she scoffs at that idea. Well, for a hundred dollars you'd get a lot of information on hospitals; but then 'tis much easier to take a trip and see for yourself than to stop up all night bothering your brains reading.

Even in our fisheries, which have been carried on here for four or five hundred years, we know but little, and 'tis only now that men, who never looked a codfish square in the face, can arise and expound on how to increase the supply by soaking bait. All this goes to prove that we are a long way behind, and 'tis a wonder how our forefathers managed to make it out at all in days gone by and leave money to their sons.

Delaney says he'd like to see something done, and by done he means some coal dug up—big lumps of coal that you can burn in a stove. He's a long time listening to "excellent reports," but he would like to see scuttles full of coal in place of reports, just for a change, big lumps that he could feel.

Mrs. Tucker says as long as she can remember coal has played an important part in Manifestoes at election times, and she thinks "twould take the interest out of them if these coal areas were worked too soon. No more, she says, will the French Shore question form an interesting and important plank in the policy of a party trying to get in, and now to lose coal or 'coal boring in the spring' would

this: Some one said in one of their speeches at the last election, "Ye have free flour, ye have free lives and twines, ye have free molasses." None of us objected. We simply clapped. We knew we had none of these things free. We knew we weren't saving much by the duty being off. In fact we felt pretty sure we weren't saving anything at all; but we also knew 'twas only a part of the farce, and we clapped just as we would clap a good actor in a play.

Tim Hoskins in talking to me the other day said, "Look here, Tim; can you tell me how it is that all the politicians forget your face after they are elected? In the fall they want your vote, they'll come up to you and shake hands and say, 'Hello, Tom; how's all home?' They even know your father and have a good idea of your great grand-da; but when the election is over they seem to dry up and blow away, and you see them, no more except when they are in the company of the Governor, and you know you can't have a heart to heart talk with them then."

"You can't blame these men," said Mrs. Tucker. "How in the name of fortune are these men going to remember every man's face in the district?"

You know as well as I do that they don't know you from Adam at election times, no more than they do now. How they manage the thing is easy enough. You see a candidate goes in to a district and he gets a letter of introduction from some fellow in the city to the most important man in your district. He in turn introduces you to some one else, and after a while you get on to the game and you can catch a man's name from some one and go over and shake his hand and ask him how are all home. Certainly they don't care two straws how any one is at home, providing, of course, those over twenty-one are in good health enough to vote on Polling Day.

**Pulp Mill on the Labrador.**

**English Experts to Erect Mills.**

The long neglected timber lands of Labrador are at last to be developed. Mr. J. Carling Kelly, a noted engineer and promoter, formerly of Ottawa, but now of London, England, together with Major W. A. Calhoun, M.I.A.C., one of the leading pulp experts of North America, arrived in Sydney recently on their way to Newfoundland and Labrador, where they are going in the interest of a large London and Paris syndicate. This syndicate has under way a plan for the erection of a one hundred thousand pound pulp mill at Labrador, and also several saw mills.

The plan has indeed taken definite shape, for Mr. Kelly stated to the host that the plans for the mill had been approved of and the construction work would be begun in the spring. While looking over the site for the pulp mill, Major Calhoun will also make investigations as to the possibilities of developing the lumbering industry in Newfoundland and Labrador. The syndicate already has secured an option on some thousands of acres of timber lands, mostly spruce, and the engineers will report on the possibilities for the development of this industry.

Mr. Kelly and Major Calhoun expect to remain in Newfoundland and Labrador for about a month.—Post.

**Opening of Church at Grand Falls.**

Editor Evening Telegram:

Dear Sir,—Perhaps it may interest some of your readers to know that on last Sunday, September 25th, the new Presbyterian Church of this place was duly opened for Divine worship. The Rev. J. M. Allen, Presbyterian minister of Bay of Islands, officiated at both morning and evening services in his usual eloquent and impressive manner.

The weather being fairly good there was quite a large attendance on both occasions, not only of the supporters of the church, but also of the other Protestant denominations.

The building is of quite an attractive appearance inside and out, and has a seating capacity of about one hundred and sixty. It was built by the Horwood Lumber Co., of St. John's, who have done the work so well that it is justly regarded as an ornament to the place.

Not the least pleasing feature of the occasion was the presence of Mrs. and the Misses Beeton, and Mr. and Mrs. Vincent Jones, showing as it did their interest in the religious as well as the secular affairs of the community.

**Twitching of the Nerve.**

Wonderful cure brought about by Dr. A. W. CHASE'S NERVE FOOD.

It is only by watching the symptom of nervous exhaustion and applying restorative treatment that you can hope to ward off locomotor ataxia or Paralysis.

Mrs. E. J. Vanderburgh, of East Wexford Ave., St. Catharines, Ontario:—"For twenty-one years I was badly afflicted with heart trouble, nervousness and cramps in the limbs, at twitching of the nerves and nerve headaches. I became weak, debilitated and emaciated. My condition was distressing and I was made worse through worry and loss of sleep.

"I tried a hundred remedies in vain. After having used half a dozen boxes of Dr. Chase's Nerve Food my old trouble had entirely vanished, and I was enjoying better health than I had since girlhood."

Such cases as this prove the wonderful efficiency of Dr. A. W. Chase's Nerve Food. It cures in Nature's way by enriching the blood and for this reason enriching the blood and its benefits are lasting. It is a base of Sulfate of Potassium, Phosphate of Potassium, and Calcium Phosphate.

**"Placentia Agricultural Bull."**

**A CHALLENGE.**

Editor Evening Telegram:

Dear Sir,—The Government's progressive Agricultural Policy was fully realized on Saturday last, when the Agricultural Society, of Placentia and vicinity were presented with a magnificent short horned, skin and bone, vermin covered Bull from the Model Farm, at St. John's. This speaks volumes for the management of this farm to ship a beast covered with lice, without an ounce of flesh on its bones. This is agricultural development with a vengeance. Surely we do not want an improved breed of cattle lice in this neighbourhood. This animal, if examined by a competent Vet., would certainly be condemned.

We read lots of high faluting talk about our agricultural resources, but it is all on paper—and Government paid papers at that. What have the Government done to encourage agriculture? They sent one of our representatives around last spring to form societies. Well, this would make the heathen Chinese laugh. What did he know about forming an agricultural society, to tell us how to plant a potato, a cabbage seed. How much did he receive for this great service? This is something that each and every elector should ask himself: why did we elect such representatives and drop such men as Jackman, Sullivan and Davis? What would Dr. Robertson say if he saw such an animal to improve our cattle vermin. This, with the recollection of cankerous potatoes, will go down to history as the era of agriculture in the Morris regime. I challenge the President, Mr. W. F. O'Reilly; Vice-President, Mr. Verran; Secretary Mr. Mullyony, of the Agricultural Progressive Society, of Placentia, to contradict the above, "or that the motor boat has proved a failure in the Gut."

In my next I will deal with the roads, breakwaters, ferry, etc. Thanking you for space,

Yours truly,  
IMPRIMATUR.  
Placentia, Sept. 29th, 1910.

**Third Tragedy of Week at Sydney Mines.**

North Sydney, Sept. 28.—The third tragedy within a week at Sydney Mines occurred about eight o'clock last evening when John Walsh, a man about 65 years of age, was run over by a train of twelve cars and instantly killed. The accident occurred in front of the N. S. Steel Co's. general office. The victim was lying on the track in front of the general office when No. 12 engine with a train of twelve empty coal hoppers bound to No. 1 colliery passed over him, completely severing his body. The whole train passed over him before the accident was discovered, and when Walsh was picked up life was extinct. Walsh was employed at the coke department but was not working yesterday, although he wore his working clothes. He came to Sydney Mines about six months ago from Halifax, where he had been employed at the sugar refinery. He belonged to Harbor Grace, Newfoundland, but left that town nineteen years ago. He is believed to have been unmarried and recently told his shackmate that he had no relatives. An inquest will be held in a few days.

**At Portugal Cove.**

Amongst those who went down from the city to attend the annual celebration at Portugal Cove yesterday were Rev. Fr. Goff, Rev. Fr. Sheehan, Mayor Ellis, J. M. Kent, M.H.A., John Dwyer, M.H.A., Garrett Byrne, Vincent P. Burke and W. P. Shortall. High Mass was celebrated at 11 a.m. by Rev. Father Ashley, the Parish Priest. Father Goff was Deacon, and Father Sheehan, sub-Deacon. The church was filled. After Mass Father Ashley entertained the St. John's visitors at a luncheon, during which Mr. J. M. Kent proposed the health of the pastor, Rev. Father Ashley, in a very graceful speech, making reference to the many improvements that the gentleman had made in the parish since his appointment and particularly the good work done on behalf of education. The fact that his school had taken one of the outport scholarships was ample proof of this. His Grace the Archbishop was unavoidably absent, being suffering from a cold.

FINED \$30.—J. Monahan was fined \$30 at Bay of Islands Saturday last for selling "medicine." Magistrate March adjudicated.

**Preached at Vespers.**

Rev. Fr. Pippy preached at Vespers at the Cathedral last night on the Rosary, taking his text from Luke 1st chap., 48 verse—"For behold from henceforth all generations shall call me blessed." The rev. preacher spoke in eloquent terms for half an hour on the efficacy of devotion to the Blessed Virgin as contained in the Rosary, to which the month of October is specially devoted. Benediction of the Blessed Sacrament was imparted by Rev. Fr. O'Callaghan.
