Guelph Evening Mercury

THURSDAY EVENING, NOV. 7, 1872

Town and County News.

REMEMBER the meeting of stockholders of the Curling Rink, at Mr. Charles Davidson's office, this evening.

THERE are many new features in Hogan and Mudge's entertainment, to be given here on Saturday night. It is said to be a capital minstrel show.

DOMINION MONTHLY.—The November number of this monthly has been received. It has a very good portrait of Professor Tyndall, and contains the usual quantity of interesting reading.

ENGLISH MAGAZINE.—Mr. T. J. Day has sent us Bow Bells, Young Ladies' Journal, and Sunday at Home for November. These popular periodicals contain a great deal of reading matter, and all of them are profusely illustrated. For sale at Day's Bookstore.

THE MASONIC LECTURE.—M. W. Bro. Morris lectured last night in Speed Lodge to an excellent audience. The lecture was quite equal in interest to the previous one, and contained considerable information about the Holy Land which was not given in the one delivered on Monday evening.

GENEROUS OFFER.—Dr. Clarke announced at the Hospital meeting on Tuesday, that Mr. John Horsman had generously offered to support a bed in the Hospital for one year—equal to a subscription of \$300—or longer if necessary. Such genuine liberality deserves to be made public, as it may stimulate others to acts of benevolence in connection with this institution.

Mr. John Anderson has received his usual supply of those popular monthlies, Bow Bells and Young Ladies' Journal, both of which are replete with much valuable information for our fair friends, in the way of crochet, knitting, and the many mysteries of the toilet. The illustrations in both are, as usual, profuse, and the reading matter seems undiminished in interest, as the various tales proved in their respective stages of development. For sale at Anderson's.

CANADIAN MONTHLY MAGAZINE.

We have received the November number of this periodical, which continues to grow in interest and ability. An article on Party Politics deserves special notice, and the one on the Canada Pacific Railway, by Mr. Mills, supplies plenty of food for reflection. Altogether this number is, we think, the best yet issued. The contents are:—Carnival, a tale, by Louisa Murray; Memories, by M. E. Mitchell; The Last of the Hurons, by W. M. Wingthrow; M. A.; Anthelm Tins; Legislation upon Insolvency—a paper of great present interest; November, a poem; Industrial Schools, by W. B. McMerich, M. A.; Indian Summer, by Henry Raine; An Adventure, and no Mistake; Sleep, a poem; Railway Reform—the Canada Pacific Railway, by David H. M. W.; The Knight's Grave, a poem of more than ordinary interest, by H. M. Giles, of St. Catharines; Party Politics, by a Radical; and several selected articles. The delayed title-page for the first volume is now issued, and is very neat and pretty. Copies for sale at the bookstore.

Dr. Clarke and the "Herald."

To the Editor of the MERCURY.

SIR,—I wish through your paper to protest against the malicious and unjustifiable attack made by the Herald last night on Dr. Clarke, for what he said about that paper's remarks on the proposed Hospital. Dr. Clarke may have many faults, which I am not prepared to screen or excuse; but it is acknowledged by all that he has all along been honest and sincere in his advocacy of an hospital in Guelph, and his very liberal description towards his opponents shows that he has not gone back on his desire for it, or his willingness to aid in its establishment. I honestly believe that the Herald foully libels him when it insinuates that he expects or hopes to profit in any shape or form by this hospital.

The Herald now seeks to deny that it first said anything adverse to the establishment of such an hospital, but its assertion to the contrary notwithstanding, every candid reader of that article came to the conclusion that an attempt was made to throw cold water on the movement at its very start, and the tone of the paper was only changed when the "head boss" found it was going against the popular current, and so he called in his jackal off that scent, and made him tone down his opposition, and damn the institution with faint praise.

Yours truly,
A CONSERVATIVE.
Guelph, Nov. 7th, 1872.

The Presidential Election.

The Tribune gives Grant 213 electoral votes, 82 for Greeley and 71 doubtful. It says Grant has carried every Northern State, and Greeley probably every Southern State except the Carolinas. It gives Grant 40,000 majority in New York State, and Dix a majority somewhat less. Twenty-three Republican and ten Coalition Congressmen have been elected. The Republican majority in the Assembly is forty.

The Times says Grant carries 30 States. Grant and Dix's majority in New York State will be 25,000 and may be 50,000. Twenty-three Republican and ten Democrat Congressmen are chosen; for the Assembly, 79 Republicans to 49 Democrats.

The Herald gives Grant 29 States, and Greeley 8. Grant's majority in this State is 35,000.

The World gives Grant 253 electoral votes, and Greeley 118. Puts Grant's popular majority at 300,000.

The result of the Presidential election was published in London on Wednesday morning. The Telegraph believes that Grant deserves re-election, and the fact that he has been again chosen disproves the assertion that Republicans are ungrateful.

Local and Other Items.

The Intercolonial Railway will be opened at Halifax on the 11th inst.

The people of Galt have good hopes of getting Goldwin Smith to lecture there some time next month.

The rails of the Canada Central Railway were laid to Renfrew village on the 1st inst., on which day the last spikes were driven home.

COMMERCIAL TREATY WITH FRANCE.—The new Commercial Treaty which has been for a long time in negotiation between Great Britain and France was signed on Wednesday.

The Galt Reformer says that Randall Farr & Co., of Hespeler, have sold out their stocking knitting machinery, and the purchasers have removed it to Guelph.

CONDUCTOR P. COONEY was run over while attending to his train on Tuesday forenoon, at Bothwell, on the G. W. R., and was so seriously injured that it is feared he will die.

A SAD CASE presented itself on Tuesday in the Toronto Police Court. A once talented minister on trial for being drunk and disorderly, appeared with a black eye and a most dilapidated aspect.

The famous swindler, "Lord Gordon," who recently figured in the Erie Railroad suits as the victimizer of Jay Gould, has come to grief at last. He is "wanted" in the city of Edinburgh, where he has been figuring in jewellery operations under the title of "Lord Glencairn."

DEATH OF GENERAL MEADE.—General George G. Meade died at his residence, Philadelphia, on Wednesday evening, of pneumonia. He was a prominent officer in the late civil war, and commanded the Northern armies at the great battle of Gettysburg, when the Southern army under General Lee invaded Pennsylvania.

The woman Ince, who eloped from Galt with Newson, was pursued to London, and fled with her paramour, leaving several trunks behind. She returned on Monday, and threatens to prosecute her broker, Keble, of Dundas, for perjury. She left yesterday for Chatham.

COLLISION ON THE G. W. R.—A serious collision took place at the Wabno siding of the G. W. Railway on Tuesday morning about one o'clock, between No. 12 passenger express going east and a wood train coming west. No one was hurt but the fireman of the express train, who in jumping off was severely but not dangerously injured.

FATAL ACCIDENTS AT TORONTO.—A young man named Falconer was run over by a train on the Northern Railway on Wednesday and instantly killed. A man named O'Brien was knocked down by a collision between two wagons the same day, the wheels of one of these passed over his body, and he died shortly after from his injuries.

The London Herald regrets to learn that the Ven. Archbishop Brough is at present seriously indisposed, and fears are entertained that no improvement may be looked for in his health. The reverend gentleman is, we believe, the youngest Episcopal clergyman in that section of Canada, he and the late Bishop of Huron having come to London to place was a comparative wilderness.

At the last session of the Quebec Legislature, an additional grant of \$10,000 was made to the Board of Arts and Manufactures in Montreal, on condition of the society establishing schools in St. Johns, St. Hyacinthe, Sherbrooke and Three Rivers. We understand the Society are willing to carry out their part of the contract in respect to Sherbrooke, and to furnish instruction provided the town will furnish a suitable room. The course of instruction consists of drafting, sketching, designing and similar studies.

GOEDERICH HARBOR.—The Signal flatly contradicts the report lately going the rounds that Goedrich Harbor was fast going to wreck. It says: "The report with reference to the harbor is utterly untrue. The money granted for its improvement has been judiciously expended, and had the same diligence been shown in the prosecution of the works the first season, as has been this summer, the harbor would now have been completed. As it is, the new north pier has been finished except the planking, the south pier built above the water from its outer end entirely across the old entrance and to within a few feet of where it will terminate, and a large area inside the basin dredged out, so that vessels can depend on having 14 feet of water through the entrance and right up to the docks, while in many places there are 16 or 17 feet of water. It is true that during the stormy weather of the middle of last month the bank was washed away in several places, but the damage has been repaired and precautions taken to prevent its recurrence. So far from the harbor going to destruction it affords a safe anchorage for vessels, and when the further improvements contemplated by the government and the permanent docks to be erected by the town are completed, it will be second to none on the lakes.

Mr. Fellows is daily in receipt of letters of enquiry, from various parts, respecting his Syrup of Hypophosphites. One recently received, leads to the belief that the public mistake his meaning in reference to its effect in imparting superior energy to the mind. Where the intellect has been impaired by overwork or by kindred causes, the use of the Syrup, together with proper precaution in the use of food, clothing, exercise and rest, will restore full power to the brain and nerves. Superiority in genius consists in great capacity of brain for assimilating material from every quarter, and of developing in proportion, but as far the greater number are not well endowed by nature, consequently lacking this capacity, it would be quite impossible to find cranium spaces for material necessary to constitute the brilliant genius. Hence, although the Syrup will assist in restoring the mind which is lost, it cannot change a natural born idiot into an intelligent man.

Guelph General Hospital.

Act of Incorporation.

As this Hospital is now in a fair way of being established we give, for the information of our readers, the act for its incorporation, passed in 1861:

Whereas certain benevolent individuals of the County of Wellington are desirous of establishing a General Hospital in the Town of Guelph, in the County of Wellington, and have, by their petition, prayed for an Act of Incorporation for that purpose; and whereas it is expedient to grant the same: Therefore, Her Majesty, by and with the advice and consent of the Legislative Council and Council of the Province of Canada, enacts as follows:

1. The Hon. A. J. Ferguson, D. Stirton, J. C. Jones, W. Walter, T. S. Parker, Rev. A. Palmer, Rev. J. Dougan, Rev. T. Adams, Rev. F. W. Clarke, Rev. J. Clarke, Rev. J. Holtzer, Rev. J. Hogg, Rev. H. Melville, Rev. E. M. Stewart, Rev. R. Torrance, C. Clarke, W. Robertson, J. Harvey, N. Elginthorn, G. M. Keeling, W. Clarke, H. W. Peterson, D. Allan and W. Sandilands, (in this Act hereinafter mentioned as Provisional Directors), and their successors shall be, and are hereby constituted a body corporate and politic, by the name of "The Guelph General Hospital," and as such shall have perpetual succession, and a corporate seal, with power to alter the name, and may sue or be sued, implied or not implied, and have the rights and powers of bodies corporate, and may, subject as hereinafter provided, acquire and hold all such real estate, or any goods, chattels, or effects as shall be granted, sold, given, devised or otherwise conveyed to the said Corporation, by any person or persons, body corporate or politic, for the use or support of the said Hospital, or the endowment thereof; Provided, always, that the annual revenue of the said Hospital shall not exceed twenty thousand dollars in any one year.
2. The first meeting of the subscribers of the said Hospital, to be held in manner hereinafter provided for the election of Directors, the said Provisional Directors shall be invested with the whole management and control of the said Hospital, and the affairs thereof, and shall and may open subscription lists for the purpose of obtaining subscribers for the said Hospital, and within one month after one hundred such subscribers for the annual sum of at least four dollars each shall have been obtained, may call a meeting of such subscribers for the election of Directors as hereinafter provided; Provided, always, that, after the election of the said Directors, the general management and control of the said Hospital shall cease to vest in the said Provisional Directors; but nothing in this Act shall be construed so as to prevent any of the said Provisional Directors being elected Directors.
3. The Government of the said Corporation shall be vested in a Board of Directors, which will consist of twelve ordinary Directors, to be annually elected by subscribers and donors to the said Hospital, and of such persons who shall become extraordinary Directors as hereinafter provided.
4. The first election of ordinary Directors shall take place at the town of Guelph, at such day and hour, and at such place as the Provisional Directors may appoint, provided that such day be not more than one month after the said one hundred subscribers have been obtained as in section two of this Act provided, unless as otherwise herein contained.
5. All subsequent elections for ordinary Directors shall be held annually at the town of Guelph, on the second Tuesday in June, at such hour and place as the Board of Directors shall appoint, and give notice of by publication in some newspaper published in the County of Wellington; Provided, always, that the corporate rights hereby granted shall not be forfeited in the event of no first or other election being held as above provided; but the same may be held on some other day to be appointed as aforesaid, and the previous Directors, whether ordinary or extraordinary, shall in all cases, hold office till the election of their successors.
6. The election of such ordinary Directors shall be made by and from among such persons as shall be subscribers to the amount of not less than four dollars for the then current year, and such persons as shall have given at any one time to the corporation money or property to the amount of forty dollars.
7. The said election shall be by ballot, and the said subscribers or donors may vote thereat either in person or by proxy; and when any vacancy shall happen by the death, resignation or retirement of any ordinary Director, the Board of Directors shall fill such vacancy for the remainder of the year in such manner as they may appoint.
8. The number of votes to which any subscriber shall be entitled at all meetings for the election of directors, shall be as follows: A subscriber who shall annually pay four dollars shall be entitled to one vote, and for every four dollars that he shall annually pay in addition to that amount, shall be entitled to another vote; Provided, always, that no subscriber for any amount shall be entitled to vote or take part in the proceedings at his said annual subscription; A donor who shall give at any one time to the corporation the sum of forty dollars, shall be entitled during his lifetime to one vote, and for every four dollars additional given annually shall be entitled to another vote.
9. It shall be lawful for any Municipal Corporation in the Counties of Wellington, Grey, Waterloo and Bruce from time to time, to contribute to the funds of the said Hospital; and, in the event of any such Municipal Corporation being a Town, Township or Village, so contributing not less than fifty dollars, the Mayor or Reeve thereof, as the case may be, shall be ex officio an extraordinary Director of the said Hospital for that year, or contributing one hundred dollars more, then any other member of the County Council, whom the Council may appoint, shall likewise be ex officio an extraordinary Director; and in the event of any such Municipal Corporation being a Town, Township or Village, so contributing not less than fifty dollars, the Mayor or Reeve thereof, as the case may be, shall be ex officio an extraordinary Director of the said Hospital for that year; or contributing fifty dollars more, then the Reeve of a Town, or Deputy Reeve, (if any) of a Township or Village, or there

being no Deputy Reeve, then any member of the Township or Village Council, whom the Council may appoint, as the case may be, shall likewise be ex officio an extraordinary Director of the said Hospital.

10. The Board of Directors shall, at their first meeting after every election, elect from among themselves twelve Trustees or Governors, who, with all other necessary officers, to be appointed annually at such meeting, shall hold office until their successors are appointed.
11. The Board of Directors shall have power to frame a Constitution for the said Corporation, and to alter the same when it shall be deemed expedient, and to make all such By-laws, Rules and Regulations for the admission into and general management of the said Hospital, or for holding the meetings of Directors and proceedings thereat, and for the payment of officers and employees, and generally for all purposes relative to the conduct and well working of the Corporation and the management and business thereof; and from time to time to repeal, alter, and amend such By-laws or any of them, and shall have power to appoint such officers and servants as they deem right for the management of the said Hospital, and to remove him, her, or them at pleasure, and appoint others in their places.
12. The said Corporation may acquire and hold such real estate, as adjoining to the town of Guelph, as may be necessary for their actual use and occupation for the purpose of such Hospital; and they may also take any real estate in Upper Canada that may be given or devised to them, and hold the same till they can dispose thereof; but such disposition shall be made within five years from the acquisition thereof, otherwise the same shall revert to the donor, his heirs or assigns, or to the heirs or assigns of the devise; provided, always, that any such devise of real estate must be made at least six months before the death of the devisee.
13. The said Corporation may invest their funds on mortgage of real estate in Upper Canada; and they may take any real estate that may fall to them by forfeiture of such mortgage, or under legal proceeding against any of their debtors; but in all such cases they shall be bound to dispose thereof within five years from their acquisition of the same; and they shall not, except as hereinbefore contained, take or hold any real estate whatsoever.
14. This Act shall be deemed a Public Act.

Wellington Fall Assizes.

Thursday, Nov. 7.

McMILLAN vs. DISTRICT MUTUAL INSURANCE CO.—This case, which occupied all Tuesday and Wednesday, was concluded on the evening of the latter, at a little after 8 o'clock, when the jury, after a short absence, returned a verdict for the Insurance Company.

McMILLAN vs. WELLINGTON MUTUAL INSURANCE COMPANY.—The plaintiff, in consequence of the verdict in the previous case, consented to a non-suit, and so saved the additional expenses of unnecessarily detaining witnesses, amounting to \$50 per day. Hon. M. C. Cameron, Q. C., and Mr. D. Guthrie, for defendants.

ARTHUR MURDER CASE.

William Ludlow was arraigned for shooting and killing David Hunter at Arthur station on the evening of the 12th July last. Mr. H. W. Peterson, County Attorney, prosecuted on behalf of the Crown. Hon. E. B. Wood appeared on behalf of the private prosecutor, and the Hon. M. Cameron, Q. C., and Mr. Drew, appeared for the prisoner, instructed by Mr. A. Monroe, Fergus.

A considerable number of challenges were made on behalf of the prisoner, and also on the part of the Crown, before a jury was obtained. The witnesses were all ordered out of court previous to their being called on for their testimony. There are about 25 witnesses for the prosecution and nearly as many for the defence.

Mr. Peterson having opened the case and briefly narrated the facts connected therewith, as reported at the time, called as his first witness

JOHN MOLLOY, sworn.—Made the sketch (produced) of the Arthur station, and explained to the Counsel the positions of the buildings and the various distances connected therewith.

THOMAS SROULT, sworn.—Was a conductor on the T. G. & E. R. on the 12th of July last; shunted the passenger car on to the side line almost opposite the water tank where the locomotive was; while there a man passed by the train on which we were loading wood, and a piece of wood tumbled off, which nearly struck the stranger, and in consequence some high and angry words passed between them; the stranger then passed on ahead of the engine still using angry words, such as, "he could lick any man on the train"; after wooding up the train went on to the station, and after we left the station some little distance a man jumped on to the flat car from the left side and laid hold of the brakeman, Campbell; as soon as I saw this I went on to the flat car and ordered the man off, and he then jumped off; I was ordering the engine driver to go faster when I heard two pistol reports, and after the second shot was fired observed that the alarm cord was being violently pulled, and I hurried down to the passenger car and there found the deceased bleeding from the mouth, and in a few minutes he died.

CROSS-EXAMINED.—Think the train was going at the rate of about five miles an hour; the altercation alluded to occurred at the front end of the tender and I was at the back part; it was too dark for me to distinguish a person's features more than 10 feet off; it generally takes 8 to 10 minutes to wood up; the stranger alluded to would have to pass me on the east side of the tender to reach the baggage man, who was on the west side of the tender; the altercation lasted up to the time of starting from the wood pile; fell in with George Church after we had left the wood pile and had hitched on to the other part of the train which was in motion; I told him, believing him to be a constable, to look after the throw, and he told me there would be no difficulty; couldn't say whether the man who was in the baggage car and the man who had the altercation at the wood pile was the same man; he would be about five feet from me when he jumped off; noticed several persons wearing Orange badges at Caswell's tavern that day, and they all seemed very friendly.

GEORGE A. CAMPBELL, sworn.—Was brakeman on the train on night in question, and corroborated the evidence of previous witness as to the man and the

being no Deputy Reeve, then any member of the Township or Village Council, whom the Council may appoint, as the case may be, shall likewise be ex officio an extraordinary Director of the said Hospital.

10. The Board of Directors shall, at their first meeting after every election, elect from among themselves twelve Trustees or Governors, who, with all other necessary officers, to be appointed annually at such meeting, shall hold office until their successors are appointed.
11. The Board of Directors shall have power to frame a Constitution for the said Corporation, and to alter the same when it shall be deemed expedient, and to make all such By-laws, Rules and Regulations for the admission into and general management of the said Hospital, or for holding the meetings of Directors and proceedings thereat, and for the payment of officers and employees, and generally for all purposes relative to the conduct and well working of the Corporation and the management and business thereof; and from time to time to repeal, alter, and amend such By-laws or any of them, and shall have power to appoint such officers and servants as they deem right for the management of the said Hospital, and to remove him, her, or them at pleasure, and appoint others in their places.
12. The said Corporation may acquire and hold such real estate, as adjoining to the town of Guelph, as may be necessary for their actual use and occupation for the purpose of such Hospital; and they may also take any real estate in Upper Canada that may be given or devised to them, and hold the same till they can dispose thereof; but such disposition shall be made within five years from the acquisition thereof, otherwise the same shall revert to the donor, his heirs or assigns, or to the heirs or assigns of the devise; provided, always, that any such devise of real estate must be made at least six months before the death of the devisee.
13. The said Corporation may invest their funds on mortgage of real estate in Upper Canada; and they may take any real estate that may fall to them by forfeiture of such mortgage, or under legal proceeding against any of their debtors; but in all such cases they shall be bound to dispose thereof within five years from their acquisition of the same; and they shall not, except as hereinbefore contained, take or hold any real estate whatsoever.

The witnesses were all ordered out of court previous to their being called on for their testimony. There are about 25 witnesses for the prosecution and nearly as many for the defence.

Mr. Peterson having opened the case and briefly narrated the facts connected therewith, as reported at the time, called as his first witness

JOHN MOLLOY, sworn.—Made the sketch (produced) of the Arthur station, and explained to the Counsel the positions of the buildings and the various distances connected therewith.

THOMAS SROULT, sworn.—Was a conductor on the T. G. & E. R. on the 12th of July last; shunted the passenger car on to the side line almost opposite the water tank where the locomotive was; while there a man passed by the train on which we were loading wood, and a piece of wood tumbled off, which nearly struck the stranger, and in consequence some high and angry words passed between them; the stranger then passed on ahead of the engine still using angry words, such as, "he could lick any man on the train"; after wooding up the train went on to the station, and after we left the station some little distance a man jumped on to the flat car from the left side and laid hold of the brakeman, Campbell; as soon as I saw this I went on to the flat car and ordered the man off, and he then jumped off; I was ordering the engine driver to go faster when I heard two pistol reports, and after the second shot was fired observed that the alarm cord was being violently pulled, and I hurried down to the passenger car and there found the deceased bleeding from the mouth, and in a few minutes he died.

CROSS-EXAMINED.—Think the train was going at the rate of about five miles an hour; the altercation alluded to occurred at the front end of the tender and I was at the back part; it was too dark for me to distinguish a person's features more than 10 feet off; it generally takes 8 to 10 minutes to wood up; the stranger alluded to would have to pass me on the east side of the tender to reach the baggage man, who was on the west side of the tender; the altercation lasted up to the time of starting from the wood pile; fell in with George Church after we had left the wood pile and had hitched on to the other part of the train which was in motion; I told him, believing him to be a constable, to look after the throw, and he told me there would be no difficulty; couldn't say whether the man who was in the baggage car and the man who had the altercation at the wood pile was the same man; he would be about five feet from me when he jumped off; noticed several persons wearing Orange badges at Caswell's tavern that day, and they all seemed very friendly.

GEORGE A. CAMPBELL, sworn.—Was brakeman on the train on night in question, and corroborated the evidence of previous witness as to the man and the

being no Deputy Reeve, then any member of the Township or Village Council, whom the Council may appoint, as the case may be, shall likewise be ex officio an extraordinary Director of the said Hospital.

10. The Board of Directors shall, at their first meeting after every election, elect from among themselves twelve Trustees or Governors, who, with all other necessary officers, to be appointed annually at such meeting, shall hold office until their successors are appointed.
11. The Board of Directors shall have power to frame a Constitution for the said Corporation, and to alter the same when it shall be deemed expedient, and to make all such By-laws, Rules and Regulations for the admission into and general management of the said Hospital, or for holding the meetings of Directors and proceedings thereat, and for the payment of officers and employees, and generally for all purposes relative to the conduct and well working of the Corporation and the management and business thereof; and from time to time to repeal, alter, and amend such By-laws or any of them, and shall have power to appoint such officers and servants as they deem right for the management of the said Hospital, and to remove him, her, or them at pleasure, and appoint others in their places.
12. The said Corporation may acquire and hold such real estate, as adjoining to the town of Guelph, as may be necessary for their actual use and occupation for the purpose of such Hospital; and they may also take any real estate in Upper Canada that may be given or devised to them, and hold the same till they can dispose thereof; but such disposition shall be made within five years from the acquisition thereof, otherwise the same shall revert to the donor, his heirs or assigns, or to the heirs or assigns of the devise; provided, always, that any such devise of real estate must be made at least six months before the death of the devisee.
13. The said Corporation may invest their funds on mortgage of real estate in Upper Canada; and they may take any real estate that may fall to them by forfeiture of such mortgage, or under legal proceeding against any of their debtors; but in all such cases they shall be bound to dispose thereof within five years from their acquisition of the same; and they shall not, except as hereinbefore contained, take or hold any real estate whatsoever.

Wellington Fall Assizes.

Thursday, Nov. 7.

McMILLAN vs. DISTRICT MUTUAL INSURANCE CO.—This case, which occupied all Tuesday and Wednesday, was concluded on the evening of the latter, at a little after 8 o'clock, when the jury, after a short absence, returned a verdict for the Insurance Company.

McMILLAN vs. WELLINGTON MUTUAL INSURANCE COMPANY.—The plaintiff, in consequence of the verdict in the previous case, consented to a non-suit, and so saved the additional expenses of unnecessarily detaining witnesses, amounting to \$50 per day. Hon. M. C. Cameron, Q. C., and Mr. D. Guthrie, for defendants.

ARTHUR MURDER CASE.

William Ludlow was arraigned for shooting and killing David Hunter at Arthur station on the evening of the 12th July last. Mr. H. W. Peterson, County Attorney, prosecuted on behalf of the Crown. Hon. E. B. Wood appeared on behalf of the private prosecutor, and the Hon. M. Cameron, Q. C., and Mr. Drew, appeared for the prisoner, instructed by Mr. A. Monroe, Fergus.

A considerable number of challenges were made on behalf of the prisoner, and also on the part of the Crown, before a jury was obtained. The witnesses were all ordered out of court previous to their being called on for their testimony. There are about 25 witnesses for the prosecution and nearly as many for the defence.

Heretofore that seemed about the piece of wood that fell down as he passed by; the piece of wood in question was thrown up by me and it fell down accidentally; the man afterwards came up to me when I was at the switch and after a little conversation about my mates of the train "running" on his disappearance; just as the train was leaving the station a man jumped on the flat car and seized me by the breast of the coat and backed me up, and asked me "Was it you that said it?" I answered him "I said nothing to him;" by this time the conductor came to my assistance and the man jumped off, and after he did so several billets of wood were thrown on the flat car, one of which hit and hurt me considerably; shortly after I heard a shot fired, and a man came running past where I was to tell the engine-driver to stop as his mate was shot; the man that assaulted me wore a long, dark black coat with some badge attached to it, black felt rowdy hat and black beard and moustache, and about the age of 25 or 30; I saw the prisoner at the inquest and he answered to my mind the description of the man who assaulted me with the exception that his beard was brown, and I thought it should be black; looking at him, now I am of the same opinion.

THIS MORNING'S DESPATCHES
Horace Greeley Resumes the Editorship of the Tribune.

The Presidential Elections.

The English Press on the Elections

New York, Oct. 7.—The Tribune publishes the following as a card:—"The undersigned resumes the editorship of the Tribune, which he relinquished on embarking in another line of business six months ago. Henceforth it shall be his endeavour to make this a thoroughly independent journal, treating all parties and political movements with judicial fairness and candour, but courting the favour and deprecating the wrath of no one. If he can hereafter say anything that will tend to unite the whole American people on the broad platform of universal amnesty and impartial suffrage, he will gladly do so. For the present, however, he can best commend that consummation by silence and forbearance. The victors in our late struggle can hardly fail to take the whole subject of Southern rights and wrongs into early and earnest consideration, and to them, for the present, he remits it. Since he will never again be a candidate for any office, and is not in accord with either of the great parties which have hitherto divided the country, he will be able, and will endeavour, to give wide and steadier regard to the progress of science, industry and useful arts than a partisan journal can do, and he will not be provoked to indulge in those bitter personal terms which are the recognized bane of journalism. Sustained by a generous public, he will do his best to make the Tribune a power in the broader field it now contemplates, as when human freedom was in peril it was in the arena of political partisanship."
 (Signed) "HORACE GREELEY."

Atlanta, Ga., Nov. 6.—The Republican gains are heavy, and will be about 30,000. The returns indicate the election of seven Democrats and two Republicans to Congress.

Nashville, Tenn., Nov. 6.—Greeley's majority in this State is estimated at 20,000. The State Committee believe that the Republicans have elected seven out of nine Congressmen.

Jackson, Miss., Nov. 6.—The Republicans claim this State by 3,500 majority. They elect five out of six Congressmen.

Baltimore, Nov. 6.—The returns indicate Greeley's majority in this State to be 3,000.

New York, Nov. 6.—The vote in this city for Mayor, with few districts to hear from which cannot materially affect the result, is as follows:—Lawrence, 43,388; O'Brien, 31,121; Havemeyer, 58,803.

San Francisco, Nov. 6.—Grant's majority in this State may be safely put down at 5,000.

Grant's majority in Oregon is estimated at 1,000.

St. Louis, Nov. 7.—The returns from the State are very meagre. The Democrats claim from 30,000 to 40,000 of a majority. The Republicans concede 20,000 to 30,000.

London, Nov. 6.—The Daily Telegraph in referring to the re-election of General Grant, says:—"No one deserves it better of his country or is worthier of the place among the illustrious men who have twice held the Presidential office. England has had cause to complain of many things, but President Grant's policy towards her has never been wilfully petulant or hostile." The Telegraph hopes that the United States will now take care of Mexico and Cuba. It believes that the West, not the East, demands their attention.

The Standard upholds the principles on which the Southern States seceded from the Union, as Republicanism, which it denounces as the definition of the passions of a temporary majority and as identified with personal and political corruption in consequence of the supremacy of the Republican party. The States are loaded with enormous debts, and foreign holders of their securities receive nothing. The Republicans are responsible for the insurrection in Cuba, an anarchy in Mexico, and the murder of the Emperor Maximilian. The Democrats, however, are no better.

News-papers.
 We clip the following truthful item from the Decatur Republican. It is pertinent to the point:
 A child beginning to read becomes delighted with the newspaper because it reads of things which are very familiar, and will make progress accordingly. A newspaper in one year is worth a quarter's schooling to a child, and every father must consider that substantial information is connected with this advancement. The mother of a child should herself be instructed. A mind occupied becomes fortified against the ills of life, and is braced for any emergency. Children amused by reading or study, are of course more considerate and more easily governed. How many thoughtless young men have spent their earnings in a tavern

or grog shop, who ought to have been reading? How many parents who never spent twenty dollars for books or papers for their families, would gladly have given thousands to reclaim a son or daughter who had ignorantly and thoughtlessly fallen into temptation.

A STATE RULED BY WOMEN.—Among the Holland possessions there is a remarkable State which, in its constitution and the original customs of its inhabitants, surpasses the boldest dreams of American emancipation ladies. Upon the island of Java, between the cities of Batavia and Samarang, lies the little kingdom of Bantam. Although tributary to Holland, it is an independent State, politically without importance, yet happy, rich, and since time immemorial governed and defended by women. The sovereign is indeed a man, but all the rest of the government belongs to the fair sex. The King is entirely dependent upon his State Council, composed of three women. The highest authorities, all State officers, court functionaries, military commanders and soldiers, are, without exception, of the female sex. The men are agriculturists and merchants. The body-guard of the King is formed of the female elite. These amazon-like women in the masculine style wearing sharp steel points instead of spurs. They carry a pointed lance, which they swing very gracefully, and also, a musket, which is discharged at full gallop. The throne is inheritable by the eldest son, and in case the King dies without issue, a hundred elected amazonesses assemble, in order to choose a successor from among their own sons. The chosen one is then proclaimed lawful King. The capital city of the little State lies in one of the most picturesque parts of the island in a fruitful plain, and is defended by two well-kept fortresses.—November Galaxy.

 The Cornwall Manufacturing Company have pleasure in intimating the complete restoration of their works at Cornwall which are now in full operation, producing large quantities of White and Grey Blankets, and Heavy Medium Class Tweeds. They regret, however, having again to call attention of the public to the continuance of the disreputable practice of importing English Blankets and selling them as Canadian. These Blankets are made largely of Shoddy and Cotton Waste, with a small percentage of pure Wool, and though slightly in appearance, closely imitating the Cornwall Blankets, and ticketed "Canadian Manufacture," have neither warm nor wear, but can be sold at a lower price than the Cornwall Blankets (which are made of Pure Wool) can be produced for.

The public are cautioned against this attempted deception, and respectfully informed that the name of the **CORNWALL MANUFACTURING COMPANY** is printed on the ticket of every Blanket made by them.

CHAPTER XXIII.
ON THE TRACK.

At length, a loud animated cry from Matthew proclaimed a discovery, and Harry ran with alacrity to where he stood.

"Here it is," exclaimed the old man. "And sure enough, it was, as the youth saw at a glance, for upon the snow before them was as clear and distinct a print of George's foot as any they had yet come upon."

The snow patch on the edge of which it lay was of considerable size, and the track went straight across it. With what excitement they now hurried on, finding more footprints as they proceeded, and the shadow of the trees and the snow lay in all directions.

"What an extraordinary thing for him to come up so far as this," remarked Matthew, as breathlessly they passed forward.

"Is the ground dangerous away forward?" enquired Harry; "I don't remember much about it."

"Not particularly dangerous," answered Matthew. "A timber anywhere in the den was hurt and sair. There's the shaft of the said copper mine, but we are above it now; and, forbye, the mouth of it is fenced by wood. See, sir, the marks airt for you stand dry—the conchid but see he was wrong when he cam' tae it."

This was the fence at which George had in truth been brought up, and here the footmarks showed where he had turned to come down along the brow of the ravine. By the presence of the frequent snow patches they easily traced him, and had not gone far in this new direction when they suddenly found other footmarks in the snow—larger and heavier marks than those made by George's boots.

"Dae ye see that?" said Matthew, pointing them out.

"I do," said Harry, with a horrid sinking of heart, for the sight had caused a terrible fear to come upon him; and strangely enough there flashed on him at the moment the recollection of the man's form he had seen the night before when they were about to quit the harbor. A frightful suspicion entered his mind that this man had something to do with the disappearance of his friend.

With set teeth and beating heart he hurried on, Matthew following close by his side, and the footmarks appeared to their view sufficiently often to enable them to follow the trail without hesitation.

But all at once they ceased, and the track was lost. The snow in front was quite untraced, and they knew by this that the feet which had made the marks had gone no further.

"What can it mean?" asked Matthew, wondering.

"It means something that I dare not name," said Harry, in a tone so hoarse that his companion's look was turned on his face to behold it pale and ghastly.

"Lord sake, Maister Harry," whispered Matthew, turning nearly as pale as the other.

"Don't you see the footmarks have ceased—they go no farther."

"That's true—but—"

"And they do not return?" added Harry.

"Why should they stop at this point? It is the only path."

"Weel, but where can they have gane?" questioned Matthew.

"Come back to where we saw them last," Harry nervously whispered.

They did so, and the youth knelt down and examined them closely. Besides George's footprints there were other two—ones broad and very large, with a row of flat-headed nails round the heel; the other looked like the mark of a gentleman's boot, much about the same size as George's but differently shaped.

While Harry was engaged in this close examination Matthew was scanning the ground round about, and thought he saw marks on the grass as if a heavy body had fallen there. He communicated his idea to Harry, and the latter was at the spot in a moment.

The Verdict of the People

AGAIN DECLARES THAT

THE GARDNER SEWING MACHINE

Is superior to any now in the Market.

HAVING been examined and tried by the most skillful mechanics and best Exhibitors held throughout the Dominion during the present year; and although the leading machines were arrayed against it, the Gardner Patent has been declared

VICTORIOUS

Over all competitors, upon every test, and now stands foremost in the rank of Sewers, and has been awarded Twenty-two prizes for 1872.

This beautiful specimen of mechanical ability is a purely Canadian invention, surpassing in simplicity, durability and usefulness any other Sewing Machine now in the Market, whether of Canadian, American, or English manufacture.

It will Hem, Cord, Braid, Tuck, Gather, Quilt, Fell, and for Tailoring, Dressmaking and Family Use cannot be surpassed, using all kinds of Thread.

Send for Circulars and Samples to Mr. Hunter, Wyndham-st., Guelph; or to Wm. S. Lumgair, Agent, Wellington Hotel, Guelph.

Intending purchasers should not be misled by unscrupulous agents of other companies, who keep machines they do not sell in a damaged state, making capital for themselves. A fair trial is given previous to purchasing.

Horrible Case of Incest and Rape.
 The Hamilton Times gives the particulars of a horrible incest and rape, which has just come to light in that city. The Times says:—On Tuesday evening the case of Josephus Bennett, bird seller, John Street south, was investigated in the private office of the Police Magistrate, and the evidence bears out the crime as laid in the warrant for arrest, and shows the prisoner to have a hellish spirit and disposition. The evidence is not fit for publication, but may be eliminated as follows: Emma Bennett, aged twenty years, deposed that her mother died some thirteen years ago, and that her father having instilled into her mind that she should obey him in every particular, at ten years of age succeeded in accomplishing his vile purpose, at Hartford, Connecticut. They then began a sort of tramp, removing to London, Canada, where they lived some time; thence to Toronto for three years; then to the States again for one month; then to Montreal for four years; to Kingston for three months; to Belleville, where there name was changed, and where a child (since dead) was born to the abominable couple; then to Peterboro', and finally to Hamilton where they have been during the past twelve months. During this time, with the exception of the last period mentioned, the connection was kept up. During the past two months Emma has been out at service; before that time unsuccessful attempts were made to renew the relations. While the above is as dark a crime as, perhaps, has come before the Hamilton public for many a long year, it seems that there is a worse one, if possible. About two years ago the brute got a little orphan girl out of some Institution in Toronto, on the ostensible purpose to raise and educate her, as he had a good home to offer her, and the child, named Sarah Golding, aged about eleven years, has for the present been the suffering victim of this Bennett, as she herself deposed, having been brought into his power by the promise of apples, candies, etc. And indeed the last vile act was committed an hour or so before the arrest of the prisoner took place. His daughter corroborated the child's evidence, adding that she had often told her father that he ought to be ashamed of himself. She also testified that some short time ago another child, Sarah Steep, aged about nine years, who has been similarly treated, was got from the same benevolent institution. These little children had been taught to call each other sisters. Drs. White and Strange, who made an examination of Sarah Golding, stated that her situation bears out the evidence. The prisoner is an elderly man, aged about 50, but looking ten or twelve years older, bent in form, with long grey hair and beard. He has up to the present enjoyed at least a decent reputation, and was known to be very "religious," at least in form, and conducted himself and his family according to very strict rules—so it is said. He lived with his daughter, a son and the two little girls, at 106 John Street south. His neighbours seem to have had no suspicions of his character. The manner in which the horrible case was revealed appears to be as follows:—The daughter, rather a good looking girl—was fancied by a young man, who for a year past has been courting her, but last Sabbath week, while he was pressing her to have the day named, she unobscured herself to him and told him all, saying that she would not deceive him. He Tuesday morning laid the information, and a warrant for Bennett's immediate arrest was at once issued and was executed by Detective McMenemy. While the examination was going on in the afternoon, the daughter gave her evidence against her parent in a deliberate manner, and evinced no feeling at all for him. The Magistrate made out three separate charges against him—one of incest and two of rape, and committed Bennett for trial at the Assizes. The law makes carnal knowledge of a child under the age of twelve, with or without her consent, a rape. As Bennett was being conducted by the police to the prison he made some frightful statements, and tried to cast on his daughter the onus of the crime by saying that he had only carried out her solicitation.

THE REASON WHY
 Dr. Wheeler's Compound Elixir of Phosphates and Calisaya is called a Chemical Food and Nutrient. Because Phosphates constitutes more than half the material of the human body, and are absolutely essential to the growth of Bone, Muscle and Nerve, which cannot attain full development without them. They promote a good appetite, perfect digestion, create pure, healthy, vitalizing blood, and supply the waste constantly going on in the system as the result of mental and physical exertion. Being combined with Calisaya, the Peruvian Bark, the only specific for Chills and Fever, and that condition of Nervous Prostration and General Debility arising from low vitality and exhaustive diseases, it forms an elegant and agreeable, invigorating Tonic, purely physiological in its action, that may be taken safely under all circumstances, and all diseased conditions of the body, as it builds up the constitution in the same manner as our daily food.
 Sold by all Druggists at 21.
