Guiteau was much and oyed, and asked the keeper what was the ccasion for such a riot. The keeper replied. "We've got a crazy man on our hands to-night. Dr. Randolph Barksdale, superintendent of an asylum near Richmond, testified that he visited prisoner at jail, 30th Nov., when Drs. Loring and Hamilton examined him. Guiteau (spitefully), "Oh you do, you big mouthed Porier." The officers sitting behind the prisoner attempted to quiet him. He whirled around and snarled at one of them: "Will you mind your business or I'll slap you in the mouth you fool you."

Porter continued his remarks and Guiteau shouted, "Well you had better mind your business." Porter, "That's my business here to-day, and I now insist upon my motion of Saturday that the prisoner be remanded to the dock.

Reed denied the prisoner's sanity as established. He thought an admonition to prisoner from the court would he suffice.

Corkhill insisted on the removal of the prisoner to the dock.

Guiteau trembling with anger, on apprehension shouted: "You want to shoot me do yeu, Corkhill. You can't convict me, so you want to get me shot, you might as well hang me up outside and tell the mob to shoot at me. AMERICAN SOCIALISM. Platform Laid Down-The Leading Plank

New York, Dec. 28—In the socialist convention to-day the New York section was censured for not holding a sympathy meeting on account of Garfield. Platform adopted demands revision of the constitution so that a number of citizens may propose laws to be referred to the popular vote, and that all bills before congress be subject to general vote if so demanded by a specified number of citizens; also demands political equality without regard to creed, race or sex; the establishment of national department of labor; that government issue all money; that eight hours be a legal working day; entire restriction from children under 14 years; universal compulsory education; that election day be legal holiday, that all ballots be printed by the government, and the ballots of all candidates for office be sent to voters two days before elections. Resolutions were adopted, favoring the foundation of national and international trade and labor unions, and pledging the socialistic labor party of the next two years will not affiliate with any political party not endorsing its platform; also sympathizing with Russian inhilists and pronouncing all expressions of sympathy from this republican government to Russia as shameful and cowardly; approving the anti-rent agitation in Ireland; denouncing England and glorifying in the success of socialists in the German elections. PUBLIC SCHOOL BOARD.

called to order by Philip Van Patten, secreters testified that he believed Guiteau had been feigning in court.

Dr. J. H. Callander, superintendent of the Tennessee state asylum thought the prisoner was perfectly sane.

Scoville produced a plaster cast of Guiteau's head taken by Clark Mills. It was examined by the experts, reporters and others, and created quite a stir.

Scoville then put the hypothetical question which embraced the clause: "Suppose the prisoner believed himself to be a partner with Jesus Christ."

Porter protested against the question as blasphemous. It would be a disgrace to a court of justice and a christian nation to allow it to be entertained for a moment.

Scoville replied that if no allusion could be made as to what the prisoner claimed to be his actuating motive or influences that led to the act, the whole defence would be wiped away by a single stroke.

Porter insisted upon his view in a most impressive manner, and declared that the time had come when in the name of the American people and on behalf of the government in the federal court he felt it his general. The supreme court decided that the collection of taxes from non-resident Chinese is illegal. It is understood the plaintiff's case was conducted by counsel feed by the Chinese government.

THE WATERWORKS.

What has Been Done during the Past Year-A Comparison with 1880—Quantity of Wat Supplied—Coal, Revenue, &c.

PRICE ONE CEN

As the year is about closing a little information about the work done by the water works committee and the department may be of interest to our readers. During the year the amount of water pumped was nine-teen hundred millions of gallons as against eighteen in 1880. The cost of this addition-al hundred millions would at the estimated rate of 12 cents a thousand gallons be \$12, 000, but the addition to the revenue has been \$16,000. The increase in the amount of \$16,000. The increase in the amount of coal used on account of the extra pumping was only 177 tons. There has also been a great saving in the price of the coal. The sum estimated for the year for the 6500 tons was \$39,000, the price being put at \$6 per ton; but owing to the breaking up of the coal ring the price was reduced to \$4.70 per ton, making the total amount \$30,550. The amount of coal actually used, however, was only 6024 tons, and the committee have a surplus in hand of 476 tons

THE LAND REGULATIONS.

The Canada Gazette last Saturday con tained the new regulations affecting the sale of government lands in Manitoba and the north-west territories. The new regulations will come into force on 1st January, and are in effect as follows: The lands are divided into four classes,

viz. A, lands within twenty-four miles of the C. P. R. or its branches; B, lands within twelve miles of any other railway; C. lands south of the C. P. R. not included in A, and B; and D, all other lands. The even numbered sections are held for homesteads and pre-emptions, except when granted in class D to colonization companies, or when required for timber lots for settlers, or when withdrawn from sale by order in council. The odd numbered sections in class A are reserved for the C. P. R. unless otherwise dealt with by government. The odd numbered sections in B and C are offered to speculators at \$2.50, and in D at \$2 cash at time of sale. These regulations will not affect actual settlers who became so previous to 9th October, 1879. The prices of pre-emption lots will be \$2.50 per acre in A B and C, and \$2 in D, payable in the drivers a new of other routes m

A popular breath has made that majority and a popular breath can melt it into the thinnest kind of a vapor. The insolence of office, and of those who are looking for office, may again be carried too far and again call down retribution. Such insolence will not be tolerated in this country. BLOWING HOT AND COLD,

Our hopes have been disappointed. We had succeeded in persuading ourselves that Globe articles? Why cannot the Globe the Mail had made up its mind to, if but for once, to deal honestly and in a patriotic spirit with a public question. We were thus misled by reading the article on the new land regulations to which we referred yesterday. It had not occurred to us, in our innocence, that a paper could, with any regard to decency or consistency, have one regard to decency or consistency, have one set of principles and opinions for its evening and another and diametrically opposite set for its morning edition. Yet it seems that even this is possible to the leading conservative organ. As we pointed out yesterday the evening edition strongly opposed the new land regulations, condemning them as being at once unwise, and unpatriotic. It declared that the regulations were hostile to intending Canadian settlers and framed in the interests of foreign capitalists and the decayed aristocrats of Europe. All this, was so true that we were easily misled into believing that even the strong stomach of the Mail found them impossible of retention. But behold, the morning edition comes out and the regulations are all that patriotism could desire and that statesmanby a protective policy that, produces a and another and diametrically opposite set patriotism could desire and that statesman-

The socialists of New York have, it is reported, decided to establish a daily organ.

To a disinterested observer this seems an unwise decision. In Truth the advanced political thinkers of New York and the pany must pay five cents per acre for surveys.

Pasturage lands may be leased in blocks not exceeding 100,000 acres for terms not more than twenty-one years at \$10 per 1000 acres, the lessee to place one head of cattle on every ten acres. In Truth the advanced political thinkers of New York and the United States have a singularly able and judicious champion, and it does seem that by extending a hearty support to that paper the radical element of New York would do more to advance the principles of labor, land and money reform which they profess to have so much at heart, than they can possibly do by dividing their influence is a great source of the eason.
