THIRTEENTH YEAR

AN ANGLERS' ASSOCIATION.

PRAGMATICAL OUTCOME OF THE CONGRESS AT YONKERS.

Proposed Association of United States and Canadian Fishermen Regarding Boundary Waters—An Influential Committee Appointed—Winners in the Fly Casting Competition.

QUEEN'S ROYAL HOTEL, Niagara-on-the-Lake, Aug. 10.—Unusually the anglers' congress here in celebration of Isak Walton's threehundredth birthday was not commenced as planned.

Before going into further particulars it is only right and fair to say that the reason why everything has gone so well, is in the first instance, Mr. Winnett himself being a complete amateur, and how such an occasion should be conducted and governed himself with exactness accordingly, while, in the second, he was most admirably assisted by Messrs. S. F. Hunter, secretary, and Charles Hunter, president, and other honorary members, neither of whom knew any more about the matter than the others.

THE YARN-SPINNING CHAMPIONSHIP.

When in the small hours my despatch left yesterday, the story-telling competition was still in progress. The fish dinner, loaded with fish and soft-shell crabs, not omitting some superb Roman punch, and other things to follow, was served at 10 o'clock. The story-telling was conducted by Mr. Winnett, who was assisted by Messrs. S. F. Hunter, Charles Hunter, and other honorary members, neither of whom knew any more about the matter than the others.

THE CHAIRS AGAINST YKKE.

Citizens Object to the Way They Are Being Investigated—The charges preferred against Governor McKee were commenced this morning before the Ontario Court of Sessions.

SEA-SICKNESS.

The undersigned health officer on board the steamer Brindley of the Ontario Navigation Company, has had to call to mind the dreary effects of sea-sickness, and has had frequent occasions to try the French, Italian, and other remedies, but has not found any better than any other remedy.

DR. ANTHONY PAMBURIN.

Dr. Anthony Pamburin, 187, King Street West, Toronto, has been elected to the position of health officer on board the steamer Brindley of the Ontario Navigation Company.

AN ANGUS WEDDING.

At the Presbyterian Church Mr. Angus Mackenzie was married to Miss Kate Mackenzie, fourth daughter of the late John Mackenzie, and of late senior assistant in the reference department, Public Library.

A STORY OF SCIENTIFIC RESEARCH.—THE LATEST.

In the volume, "Zola concludes his famous Rougon-Macquart series, which has been translated into English by Mrs. G. H. Dutton, and published by Messrs. H. P. Davis & Co. After the long duration of the series, it is not surprising that the author should have written a story of scientific research, which is the subject of the present volume.

HERE'S A SIGNIFICANT VOTE.

HOW THE EMPLOYEES OF ONE FACTORY WILL VOTE FOR THE OTHER.

Of a Total of 86 Nominations for Place in the Ontario Legislature, 76 are in Favor of the Conservative Party.

AN ASSOCIATION FORMED.

Mr. Kemp lately opened the meeting and called upon Mr. Charles Hunter to state further what the aims and objects were. Mr. Hunter, among other things, referred to the incongruity of regulations which allowed fishing for black bass on the Canadian side, and not on the American side.

COMMITTEE OF ORGANIZATION.

The following committee was appointed, with power to do its business: Mr. J. P. W. Ross, Sheriff Mercer (Chairman), Messrs. J. C. Kemp, Charles Hunter, James Edgar, Mr. Jones, (President), Mich., S. F. Hunter, W. B. Wells (Chancellor), E. R. C. Johnson (Montreal), James King, S. F. Hunter, W. B. Wells, W. A. T. Croft, B. Westwood, W. M. Merritt, L. A. Tilley, Toronto, Joshua Hill, Postville, Michigan, R. M. Mailly, Rochester, N.Y., W. A. McLean, Guelph, S. F. Stewart, Hamilton, and others.

AGENTS IN DENISON AVENUE.

The World and the Sunday Car Advantages Recently Assured.

THE CHAIRS AGAINST YKKE.

Citizens Object to the Way They Are Being Investigated—The charges preferred against Governor McKee were commenced this morning before the Ontario Court of Sessions.

A STORY OF SCIENTIFIC RESEARCH.—THE LATEST.

ENGLAND TO RESCUE SILVER.

A VERY GAUCY GHOST STORY THAT COMES FROM NEW YORK.

An Imaginative Correspondent of The Times writes from New York that the 'Index to Re-open its Mines in America' will not be published in the United States.

ENGLAND TO RESCUE SILVER.

The strength of the information conveyed, and inquiries made by these London bankers, it can be stated that the English Government has become alarmed at the prospect of the repeal of the Sherman silver law, and the members of the Cabinet are discussing, possibly formally, the advisability of making a proposition to the United States.

ENGLAND TO RESCUE SILVER.

It is understood that the Government has been induced to sound official and financial circles in this country relative to such a proposition by a number of circumstances. Chief among these is the rapid withdrawal of the Bank of England and other sources of supply for shipment to the United States.

ENGLAND TO RESCUE SILVER.

Another factor, it is said, is the dissatisfaction of English manufacturers, bankers and merchants in India with the decision of the Indian Government, which is really an agent of Great Britain, to close the mints of India to the coinage of silver.

ENGLAND TO RESCUE SILVER.

At the same time they regarded the policy indicated with great complacency. The point was made plain for the first time since the silver question had become a vital one and of international importance.

The Toronto World.

NO 51 YONGE STREET, TORONTO. A One Cent Morning Paper.

Daily (without Sunday) by the year, \$5.00. Sunday Edition, by the year, \$1.00. Daily (Sunday included) by the year, \$6.00.

Mr. Parker and the World. Editor World: Will you permit me to ask two questions? (1) Why do you...

If you will answer the first, as it is asked, why other citizens not only do not wish for them, but are steadfastly opposed to them. By comparing the reasons pro and con...

I beg leave to call attention to some points in two articles contained in this morning's issue of your paper. Because a Cleveland pastor is not free to preach to church on a car it does not follow that about the same unimpeachable steps to bring about the same unimpeachable results...

Mr. Parker, on behalf of thousands of your fellow-citizens, the World extends you our warmest congratulations on the fact that you are to remain in the car for Sunday cars, but that you refrain from voting against our petition. We don't let you ride in the cars when they run, and we have told you we will do everything in our power to minimize the inconvenience...

Now, Mr. Parker, will you deny our humble petition? Consider our request fairly, humanely, honestly and let us know your decision. You are working night and overcast with clouds a little brighter than it is. Mr. Parker can rest assured, too, that we who are beseeching him and his friends for permission to use the cars on Sunday are conscientious in the matter. We ask for this permission not because we wish to riot in an act and disobey the commands of the almighty. We are firmly convinced that we would be committing no sin and disobeying no command of God.

THE SUNDAY CAR QUESTION.

(Continued from first page.)

On strike against the street railway, so far as Sunday is concerned, and thus deprive it for a time of one-seventh of its prospective profit...

Up to the present, we who want Sunday cars have been the 50 per cent. who deny them the 51 per cent. True it is, you do not prevent us from walking on the streets, but what is almost an unpleasantly disclosed fact...

Let us have your answers, Mr. Parker: 1. Whether you will deny us our humble petition? 2. Whether 51 per cent. of the population would be justified in refusing the remaining 49 to walk on the streets on Sunday?

Getting Deeper in the Rins. Yesterday afternoon another instance of the utter incapacity of Mr. R. J. Fleming in the Mayor's chair. He is allowing our civic business to become thoroughly demoralized. Everything at the City Hall is in a muddle and confusion. All this Mayor Fleming has done this year is to tax us higher than any other of his predecessors since 1878.

Mr. Parker, on behalf of thousands of your fellow-citizens, the World extends you our warmest congratulations on the fact that you are to remain in the car for Sunday cars, but that you refrain from voting against our petition. We don't let you ride in the cars when they run, and we have told you we will do everything in our power to minimize the inconvenience...

SEWAGE IRRIGATION.

A Typical Plant Recently Completed in India.

Some interesting particulars are given by "London Engineering" with regard to progress of the drainage works at sewage farms in Ahmedabad, India.

It is officially reported that up to the present time 368 house connections have been completed. The sewage water of which is being daily carried by drain to the pumping station, whence it is pumped to the sewage farm, situated at a distance of more than two miles. The streets which have been drained are said to be greatly benefited from a sanitary point of view, and there are no complaints from householders whose houses have been connected with the sewers.

Fishing tanks are provided at the head sewers, which are flushed every day, and although some of the sewage has been used for more than four months, there is no objection. The gradients of the drainage system are said to be so good that with proper arrangements the drainage, no nuisance need be feared. By making the house connections already completed, it is possible to discontinue the use of 452 cesspools, which pollute the soil, water and air, and which are strongly denounced by all the sanitary authorities.

The total area included in the scheme is about 91 acres, and 63 acres of this area, containing 1500 houses, have been included. A discrepancy has been decided on sanitary and economic grounds to finish the complete scheme in the time of which the sewage farm is also said to be a success. The land is sandy, and the sewage absorbs large quantities of sewage water.

Next to a battle of ants, where they create filth in regiments, about the smallest battle that can be imagined is the battle between a bee and a humming-bird over the honey in a flower garden. The battle occurred in Portland, Oregon, where a humming-bird with an angry expression in its beak was hovering over the honey in a flower garden. The bird was pursued by a bee, and the bee was pursued by the humming-bird. The bird was finally driven off, and the bee was victorious.

ONTARIO MUTUAL LIFE ASSURANCE COMPANY.

The twenty-third annual meeting of this company was held at the Town Hall, Waterloo, Ont., on Thursday, May 23, 1913, as one of the objects of the meeting was to elect a new board of directors.

The president, Mr. E. Bowman, M.P., having taken the chair, the secretary, Mr. W. H. Hendry, reported on the business of the company since the last annual meeting. The total assets of the company at the close of the year were \$2,730,230, and the total liabilities were \$1,130,000. The surplus was \$1,600,230.

The report of the directors was read and approved. The directors then proceeded to elect a new board of directors for the coming year. Mr. E. Bowman was re-elected president, and Mr. W. H. Hendry was re-elected secretary.

The meeting then adjourned until the next annual meeting. The company's business for the year was successful, and the directors are confident that the company will continue to prosper in the future.

The company's financial position is strong, and it is well equipped to meet the needs of its policyholders. The company's assets are well diversified, and its investments are sound.

NATIONAL CHAMPION RYAN.

Senior Singles Won by Sunny- Wides' Sculler.

And Thirty Lengths to Spare—Healy Finished Fourth—Paine Captures the Junior Singles—Curran and Gray Won—Asylum Cricketers Defeat Rosedale—The Racing Results.

DEBUT, Aug. 10.—John J. Ryan of the Sunnyside B.C. of Toronto gets better as he grows older. Today he won the national championship in senior single sculls.

When the race was called Joe Wright, J. J. Ryan and "Bush" Thompson lined up for Canada, and the other contestants were W. S. McDowell and James Henderson of Chicago.

Ryan started early. Ryan took a thirty-six stroke and at the half-mile flag he was eighteen lengths ahead.

He slowed down a bit as he approached the finish, but he was still well in front. He was looking up at Ryan's chief opponent. He was delayed by the choppy river. It was not until all chances of defeating the great sport from Toronto, then Canada yielded.

W. E. F. Paine of Toronto Argonauts won the junior singles in a great race from Hall of Albany. Jury was the second one to turn, but Hall passed him in the race down stream, with a speedy current assisting.

Gray and Curran won. Ryan took a thirty-six stroke and at the half-mile flag he was eighteen lengths ahead.

Gray and Curran won. Ryan took a thirty-six stroke and at the half-mile flag he was eighteen lengths ahead.

Gray and Curran won. Ryan took a thirty-six stroke and at the half-mile flag he was eighteen lengths ahead.

Gray and Curran won. Ryan took a thirty-six stroke and at the half-mile flag he was eighteen lengths ahead.

Gray and Curran won. Ryan took a thirty-six stroke and at the half-mile flag he was eighteen lengths ahead.

Gray and Curran won. Ryan took a thirty-six stroke and at the half-mile flag he was eighteen lengths ahead.

AT THE WICKERS.

London Asylum Team Secures an Easy Victory Over Rosedale.

London Asylum cricketers continued their series of matches in Toronto yesterday in a match with Rosedale, winning by 10 wickets.

Third race, 538 yds.—Mullet 110, Wrestler 110, Paddy Baverly 109, Marmos 105, Harry Hinkson 100, Judge Morrow 100, St. Anthony 100, St. Croix 100, Little Fred 90, Laidg 85, Cromado 83.

Fourth race, 6 1/2 furlongs—Boyd 113, Fantling 113, Bobby Burns 112, Mack 111, Jake Johnson 10, Elroy 109, Mohammed 107, Leonardo 106, Yalen Ahrens 105, Harry Malt 103, Panitzer 102, Elkington 101, Mullins 99.

Fifth race, selling, 4 1/2 furlongs—St. Pat 109, Potentate 108, Cape Sinclair 102, Leota 108, Lassie 107, Neatly 105, Panhandle 105, A.R.B. 105, Cora Taylor 105, High G. 104, Halcyon 101, Lizzie McMur 100, Whiskey 100, Carmen 99, Confidence 97.

HOW ANIMALS COUNT.

Some Curious Experiments by Cleveland Biologists.

A Russian physician has been making some curious experiments to find out how far animals can count.

He has taken the crabs and counted up to 10 and is thereby trying to determine if certain Polynesian tribes of men who cannot count beyond five or six.

Each time the crab was taken out of the water, the doctor would put it under a glass jar. The next day the jar was found, each one in a separate place in the garden.

MEETING THAT WASN'T HELD

THANKS TO THE MAYOR, AID CARLIE AND JOLLIFFE.

Through the obstructive tactics of this Trio Handful of Men Must Remain Out of Work For Another Indefinite Period - When Will This Business End?

The ratifiers of the city of Toronto fully expected that yesterday would have proved a memorable day in the history of the City Council. After the long and wearisome, and in many cases unnecessary, delays in getting matters into shape so that civic works could be commenced, it was thought that the "obstructionists" had at last seen the error of their ways and that the welcome news that work would go on at once would be heralded in the press this morning.

This is how it came about. When the Executive Committee met at 2 o'clock the members present were Ald. Shaw in the chair, Mayor Fleming, Ald. Crawford, Leslie, Jolliffe, Carlie and Lamb. Ald. Davies came in before the meeting was over. The committee had only 30 minutes in which to transact its small amount of business before the council met. This would have been ample time had not the Mayor, Ald. Jolliffe and Carlie taken up valuable time by squabbling over the appointment of some fictitious collectors and endeavoring to put through a motion in reference to Sunday cars.

When this was made known the men in search of work filed out of the hall and joined their fellows in the street, where in low and earnest tones they came more and more to realize the outlook. They finally decided to wait until the Mayor came out, when some of their number intended to speak to him. In the meantime, while the men stood in the street, they were being continually "moved" by the policemen, who had been summoned to the hall by the Mayor.

After the Mayor adjourned the council meeting for want of a quorum, Ald. Bell insisted around with a requisition asking the Mayor to call the council to-night. After 11 signatures had been secured it was learned that the Mayor would not be present, as he had a Sunday car meeting to attend. Ald. Bell thought the council could adjourn by leaving a president, but some of his colleagues objected to this. Those who signed the requisition were Ald. Bell, Jolliffe, Maloney, Small, Lamb, Burns, Hewitt, Murray, Leslie and J. E. Verral. Ald. Verral afterwards withdrew his name, and Ald. Hill refused to sign when he would be in the city. These are the aldermen who were in their seats in the Council Chamber when the roll was called: Ald. Bell, Hewitt, Small, Murray, Hill, Maloney and McMurrah.

BEFORE THE EXECUTIVE

The Mayor's Scheme So Do Away With All Tax Collectors.

The first business taken up at the meeting of the Executive was the appointment of the tax-collectors. As has already been published, it had been decided some days ago to make some changes in the personnel of the collectors. Formerly 13 were engaged to do the work, and it was estimated that the cost of \$13,000. The city is now divided into six wards, with a total of 10 assessors, "sub-divisions" of the city. As already pointed out that more than one collector in each ward would result in confusion and inconvenience, and that owing to the near approach of the time when the first instalment of taxes will be due it is a matter of necessity for six collectors to make collections and serve tax notices within the time prescribed by the statutes. He therefore recommended the appointment of six collectors with an assistant each.

This recommendation gave the Mayor an opportunity to advance his scheme of doing away with the collectors and making all taxes payable at the City Hall. The Mayor made this one of his anti-selection pledges for two elections, but as has already been pointed out, he had decided some days ago to make some changes in the personnel of the collectors. Formerly 13 were engaged to do the work, and it was estimated that the cost of \$13,000. The city is now divided into six wards, with a total of 10 assessors, "sub-divisions" of the city. As already pointed out that more than one collector in each ward would result in confusion and inconvenience, and that owing to the near approach of the time when the first instalment of taxes will be due it is a matter of necessity for six collectors to make collections and serve tax notices within the time prescribed by the statutes. He therefore recommended the appointment of six collectors with an assistant each.

Ald. Lamb maintained that the collectors were a necessary, that they acted as a vigilance committee and saved the city large sums of money by keeping track of those who did not want to pay their taxes. The Mayor: But in this list you have kept on the rich men and discharged the poor men. Several members of the committee denied this and asked for names, but the Mayor did not mention any particular person. Ald. Carlie saw little in the Mayor's scheme that was beneficial, as some of the money will be hard to collect this year. The Mayor: The ball will collect free of cost.

The Allan's Win Their Lives Suit. LONDON, Aug. 10.—Some time ago the Allan Steamship Company entered an action for libel against the Pirena's Union, the cause of the action being that the latter had charged the Allan's with operating a liner in violation of the provisions of the 4th Highlanders' Band will be in attendance.

Warnings of No Avail. At this point a civic official informed the committee that it was nearly time for the council to meet. But this made no difference, and the committee room was turned into a wrangling shop for a time until Ald. Crawford got the floor. He stated that the Mayor's claim also. He made a good point by stating that the collectors would often call and enquire as to the status of the city's affairs, and that it was not possible to pay in full at one time, thus making it much easier for the taxpayer.

Ald. Lamb called attention to the time sensitive should moved that the council should adjourn until the next meeting.

NUMISMATICS IN CHINA.

Collection of Celestial Coins Watch Date Back 4,000 Years.

China is the paradise of the numismatist. The collections of cash, according to Consul Edward Bello's report to the State Department, are something marvelous. They are small coins of bronze, brass, copper, or silver, ranging in intrinsic value from one-twentieth of a cent to 25 cents. The oldest of these coins on record appeared about 2300 B.C. Over 100,000 different kinds of cash are preserved in collections. Some are wonderful examples of coinage, but most of them are clumsy and coarse. The numismatist can work all his life, spend very little money, and leave to posterity thousands of coins. All he needs to do is to continue his work to the collection of cash. The small coins in brass and bronze, whose value ranges from one cent to one-fourteenth of a cent. Their workmanship varies, but it is usually very good.

Their shape-to-day is like that of European coins, with the exception that through the center is a square hole through which the coins are strung together like beads. In the past, however, they were of various shapes, including the square, triangle, heart, ellipse, shield, key, sword, and spear. The number of holes is usually two, but they are referred to in the literature as far back as 500 B.C. The earliest that I have heard of said to be a "square hole" coin from the Tsin dynasty, which ruled from 266 to 207 B.C.

From that time until to-day they used every little coin that was used by every monarch, whether he was an emperor of the empire or king of a petty principality, into which, from time to time, the Chinese Empire was broken. There have been over 1,200 occupants of the various thrones, royal and imperial. In addition to these regular issues, if such they may be called, there have been special issues from time to time and also special issues. A wealthy mandarin in Canton is said to have the finest collection of them, containing 25,000 specimens of different kinds.

The cost increases as you go backward in time. The cash of this century can be secured at their nominal face value. Those of the Han dynasty, from 206 to 100 A.D., bring \$100 each when in a fine state of preservation. These true antiquaries are found in ancient tombs and ruins. Several hundred were discovered in Amoy this year in digging a grave, when the laborers broke into an old tomb several feet below the surface of the soil.

The coins lay in a pretty earthenware jar and encased with this layer of malachite that here and there had been changed by moisture into azurite. The coins were of the lucky variety, the next twenty-four hours, and are said to have brought \$1 a piece, an immense sum to men working for 18 cents a day. To succeed in collecting such antiquities must be a fine Chinese scholar. The labor thereby involved is so severe as to preclude collectors from industry in the pleasure to any great extent. Philadelphia Bulletin.

YOU CAN SEE IT

Pierce's Pleasant Pellets—but you can't see it. It's taken. And yet it does you good. It's the smallest and easiest to take, bringing you relief. Constipation, Biliousness, Headaches, and all derangements of liver, stomach, and bowels, are permanently cured.

A SQUARE OFF OF \$500 cash is made by the proprietors of Dr. Sage's Catarrh Remedy. For any case of Catarrh, no matter how bad or of how long standing, which they cannot cure.

SEXUAL

decline may be averted before decay; strength may be restored; powers which have been weakened by youthful indiscretion may be revived by our home treatment.

CONFIDENCE

never has been in the breasts of those who have weak, shrunken, undeveloped or diseased organs. The evil that men do through ignorance and boyhood and errors of early manhood leaves wasting effects.

RESTORED

to vigorous vitality you might be successful in business, fervent in spirit. Our curative methods are unerring. Write for free literature.

POORER CROPS IN THE STATES

AGRICULTURE REPORT SHOWS DECLINE IN CONDITIONS OF 10 PER CENT.

Wheat and Provisions Dull—Local and Foreign Grain Markets—Retail Feeling in Wall-Street—Stocks Advance Sharply—Local Securities Steady—Money Dealer in English—Local Rates Firm.

The report prepared by the statistical bureau at Washington on the condition of the crops was issued yesterday afternoon. It shows that the present year's yield of spring wheat in the United States is diminished. The condition of the crop on Aug. 1 was 67 against 77 on July 1 and 82 on Aug. 1, 1929. The recent drought has seriously damaged the corn crop according to the report. The condition of corn is 73.3 as compared with 88.5 on July 1 and 87.5 on July 1, 1929.

But silver has advanced in New York to 75 1/2 per cent. On September wheat in Chicago was quoted yesterday afternoon at 90c and calls at 90c.

Hot receipts at Chicago continued light. Yesterday's receipts were 11,000, estimated for the day at 12,000.

The recent heavy decline of gold on the Bank of England has caused attention to the rate of discount from 3 to 4 per cent. The rate of discount in the open market has also advanced from 2 1/2 to 3 per cent.

Two Bond of Trade certificates were sold by auction at the Royal Exchange. No. 228 was purchased by Mr. W. A. Straker for \$2 and No. 229 by Mr. J. H. Smith for \$2. The certificates were sold under exemption from bond and generally fixed rates of August.

Superior quality "A" 500 to 500, containing 25,000 specimens of different kinds. The cost increases as you go backward in time. The cash of this century can be secured at their nominal face value.

CASH ADVANCES

We make immediate cash advances on Goods, Merchandise and Bills. Superior accommodation for Stockholders. Superior accommodation for Stockholders. Superior accommodation for Stockholders.

Thursday Evening, Aug. 10. The local stock market was dull to-day and the price of wheat only slight variation. The market was quiet, with about steady. Toronto, London and Commercial Cable, Dominion Bank and Montreal declined fractionally. Quotations are:
