Psobably the best rendered numbers were the quartet "Unto Thee Do We Lift Up Our Eyes," by Mrs. Kelly, Mrs. Millar, Mr. Con-nolly and Mr. Copeland, and the chorus "The Lord Is my Shepherd." All the numbers, however, were fairly-well ren-dered, but some of the concerted parts showed a lack of practice. **TO PLACE ALL ON EQUAL BASIS** 

Uniform Administration of Military Service Act Sought by Questionnaire Method

The great crisis through which the world is now passing has served to emphasize among a great many other things the axiom that responsibility is the price of liberty. Because equal privileges are enjoyed by all citizens of Canada, it is the duty of our Government to see, as far as it is able, that all are made to bear equal sacrifices. That the Dominion's War Government is nct unmindful of its duty in this respect is evidenced from the care that is being taken to ensure the equitable administration of the Military Service Act. Questionnaires are about to be addressed to all exempted men so as to permit of a checking of the decisions in the case of each to the end that uniformity be established in the application of the legislation. These questionnaries must be returned promptly upon penalty of forfeiture of the exemption papers previously granted. Exempted men should notify the registrar of their district of any change of address, as nonreceipt will be regarded as constituting failure to return questionnaire. properly filled in as required. The Government is determined that the Military Service Act shall be administered fairly, and in this determination they will have the active support of all followers of democratic ideals.

#### NOTE AND COMMENT

Parkhill Gazette :-- We are told that it does not pay a farmer to raise hogs any more. Two men in Parkhill who raised hogs last summer think differently. Each of these men raised two hogs and bought practically everything the hogs ate. Each man sold one hog and saved the other hog for the use of his family. In each case, not only did the one hog which was sold pay for the expense of raising the two hogs but there was a small surplus of money to the good. So if a man can raise two hogs for the price of one, that is a fifty per cent profit is it not? If a town man can do that, a farmer should be able to do better.

under the Military Service Act, it has occurred, as was inevit-

It is not the intention of the Government to allow these men to evade permanently their obligation to bear their part in the military defence of the Country and of the ideals for which we are fighting. To do so would defeat the purpose of the Act, and cause grave injustice to men in the second class necessarily called out to fill their places.

#### **Exemptions Granted on False Grounds**

It is, therefore, proposed to scrutinize carefully all exemptions granted to date in order to separate those which have been granted on false or insufficient grounds from those that are well founded.

With this object in view the various Registrars under the Military Service Act have been instructed to issue a series of questionnaires to exempted men. These questionnaires must be filled up correctly and returned promptly under penalty of forfeiture of exemption for failure to do so.

#### Exempted Men Who Have Changed Address

It is therefore important in their own interest that all exempted men who have changed their address since their exemption was granted and who have not already notified the Registrar of such change should notify him at once. Under the Regulations it is the duty of exempted men to keep the Registrar advised of any change of address, and failure to receive the questionnaire by reason of neglect of this duty must be treated as equivalent to failure to return the questionnaire after receipt.

#### Citizens U.ged to Assist

In many instances information has been furnished by members of the public which has led to the cancellation of exemptions obtained by false or misleading statements. Further co-operation of this character is invited. The Government regard it as the Duty of all loyal citizens, not only to the Country, but to the men at the front, to assist in this way in securing reinforcements on a just and legal basis. Correspondence of this character will be treated as strictly confidential and will receive the fullest investigation.

#### COURT SCANDAL RECALLED.

Favorite of Francis Joseph Dies in Vienna.

German newspapers announce the death in Vienna of the actress, Katharina Schratt, for years an inti-mate of the late Emperor Francis Joseph and to whom he left \$250,000 in his will. She was one of the most lurid figures in the scandalous life of

Katharina Schratt first met Em-peror Francis Joseph in the early 80s, when she had won considerable reputation at the Stadt Theatre in Vienna as a minic, and soon became known as "the woman behind the Austrian throne." Mme. Schratt, Austrian throne." Mme. Schratt, however, lived to see the day when permission was refused her to view

the Emperor on his bier. At the time of her first meeting with Francis Joseph the young act-ress was the wife of Nicholas you ress was the wife of Nicholas von Kiss, a Hungarian, who died in 1900. Court gossip had it that the Empress Elizabeth, who had been known as the most beautiful Princess in all Europe, was first to call her royal consort's attention to the young wo-man's loyeliness of face and that the man's loveliness of face, and that the next day Katharina Schratt was ap-pointed court actress of the Hofburg Theatre. Throughout the remainder of the Empress' life she befriended the actress, and apparently encour-aged the intimacy between her and the Emperor, about which the coun-

try soon was gossiping. Katharina Schratt was described an extremely hands ome

UNITY IN FILIPINO TRIBES Recent "Maulud" Held in Department of Mindanao and Sulu Was Evi-dence of Existing Harmony.

Commenting on the prevalent bellef that the islands need a speed nationalization of the different sections and a rooting out of sectional and tribal feel ing, the Philippine Review says edi-

torially: "While as a matter of fact we have to acknowledge that sectional feeling seemingly exists in the islands, its existence is not of basic character. For the elements of unity are in actual existence, and sectional feeling will only seemingly last while no actual intercourse between the sectional groups of the islands takes place. It is, therefore, but a matter of common educa-tion or educational intercourse, not lack of spirit of nationality; and with the present government efforts to provide the people with good popular education, this so-called lack of national spirit will shortly be overcome."

Perhaps no better evidence of the harmony existing among different tribes and factions could be offered the skeptic than the recent "Maulud" held in the department of Mindanao and Sulu. The Maulud corresponds to the Christian Christmas, being the celebration of the birth of Mohammed. It consists in ceremonies lasting two days during which there is much feasting and chanting by "imams" (priests)

and lady singers. The last Maulud was celebrated at the residence of the governor of Sulu. All the chiefs and every other Mohammedan of prominence, 100 imams, 30 lady singers, 3,000 Mohammedans, the government officials, and all the civilians of any distinction attended the monster feast. Mohammedans and Christians, Americans and Filipinos, dressed in beautiful Moro costumes, forgot their religious, social and po litical differences, and threw themselves heart and soul into the celebration of this greatest of Mohammedan fiestas. No one could have witnessed the scene without being convinced of the oneness of the Moham median and Christian Filipinos, and the hearty good feeling between Americans and Filipinos.

## POETS GET INTO FRONT RANK

Some Soldiers Develop as Writers of Verse While Knights of Quill Also Become Warriors.

The literature of the war proves that some soldiers are made into poets, and we know also, of course, that some poets have been made into soldiers. Mobilization and conscription take little account of persons and no account at all of professions. There is one great poet of history, however, and one great painter, too, who were denied entrance into the ranks of the army-Poe and Whistler.

The story of why Whistler did not become a soldier is well known, but it may bear repetition. Like Poe, he was a cadet at West Point, and like Poe, he was discharged from that institution long before the completion of the course. Whistler was found deficient in chemistry and when he was asked why he did not graduate and become a soldier he answered: "If silicon were a gas, I would be a soldier."

for many years as leading lady of the Hofburg Theatre. She occupied an establishment near the palace, and nearly every morning Emperor Francis Joseph took breakfast with her.

#### Argentina Cattle.

The Argentina cattle industry 14 capable of much expansion in time of war stimulation. In the northern end of the pampas are boundless fields of grass where the cattle feed the year round. Sweet water there is in abundance, and windmills dotted over the plains keep the animals plentifully supplied. There are no better beef cattle in the world than those from Argentina, the breed being the excellent result of mixing fine Spanish blooded strains with the hardy native Breeding very easily could stock. raise the total of production materially.

#### Former Czar's Abode.

No two papers seem to agree on the subject of the former czar's new place of abode, says an exchange. A favorable account speaks of Tobolsk as the "Boston of Russia," the "home of the arts," a picturesque old town, and a favorite winter resort in western Siberia. Its refinement and culture are attributed to the large number of Swedish officers who were interned there after Peter the Great's victory at Poltava. The town never lost the influence of their advanced civilization.

#### Marries Her Step-Son,

The strangest attempt yet discovered to evade the draft was revealed in New York the other day, when a man charged his wife with bigamy, naming his son by a former marriage as the woman's second and living hus-band. At the trial it was found that the woman had married her step-son in order to enable him to escape the draft.
