#### East Lambton Liberal Candidate Changes to John R. Stirrett

Young London Lawyer, Formerly of Petrolia, Accepts the Candidature Rejected by A. E. Shaughnessy

Stormy Scenes at Convention With Disruption Between the North and South

At the second convention held in Alvinston on Friday afternoon last, by the East Lambton Liberals, to by the East Lambton Liberals, to nominate a man to accept the candi-dature rejected by Arnold E. Shaugh-nessy, who was nominated at the first convention two weeks ago. Let' R. Stirrett, former Petrolia be, now practising law in London, epted the nomination and has en-tered the field for election on Liber-al principles.

al principles.

Mr. Stirrett will oppose Burt W-Fansher, Progressive, Euphemia town ship, and J. E. Armstrong, Conservative, Petrolia. Mr. Stirrett's canditive, Petrolia. ship, and J. E. Armstrong, Conservative, Petrolia. Mr. Stirrett's candidature, as a young man in his home constituency, is calculated by his followers to retain the allegiance of Liberals in the northern part of the riding who argued strongly against putting a candidate in the field, and who had been inclined to vote Progressive, believing that the best way to defeat the Conservative candidate. At the same time Mr. Stirrett will give an inspiring lead to the young Liberal element, and to the newly enfranchised women voters in the riding. In effect, his being a candidate constitutes a challenge to all the Liberals of East Lambton to rally to the party standard, and on this point hinges the whole situation.

D. J. Sturgiss, president of the E. Lambton Liberal Association, opened the meeting with an outline of the situation as the party was affected. He expressed regret that, owing to evident lack of support in the northern sections of the constituency, A. E. Shaughnessy, Petrolia barrister, and reeve of that town, had withdrawn from the fight. Intimation was made that the Petrolia executive ind not been properly notified of several recent meetings of the constituency executive.

Against Nomination

The interment took place in Watford cemetery, with four of the most
prominent of the older citizens of
Watford, and two from the township
of Warwick, acting as pall-bearer;
A. G. Brown, Joshua Saunders, W.
H. Shrapnell and E. D. Swift, of Watford, and Richard Manders and Jno.
Manders of the township of Warwick.

who has participated in many election contests, scored the meeting on showing partiality towards the Progressive movement. He attacked Mr. Fansher for not supporting the Government, particularly on East Lambton issues, and he heartily denounced of issues, and he heartily denounced ef-forts to withhold a Liberal candidate and from the field.

Hector Cowan, of Forest, held that any candidate chosen should be com-mitted to a flat statement on the oil bounties question, Mr. Cowan charged the president with being autocratic in not putting the motion to rescind the previous motion to a vote. The meeting was showing in-dications of temper and the president

had difficulty in maintaining order.
Ex-President I. Greenizen, of Petrolia alleged that the meeting was packed by anti-candidate delegates from the north, which brought attempts from delegates in all parts of the hall to speak. the hall to speak.

A direct demand at the same mom-A direct demand at the same moment from Reeve Hair, of Forest, and Mr. Cowan to have the motion of Duncan White put to a vote met with a flat refusal from President Sturgis. The result of this was a situation mildly approaching bedlam. The entire north delegation comprising over 50 members, eventually arose and left the room, those remaining hurling uncomplimentary remarks and ing uncomplimentary remarks and hoots as they went; 35 delegates remained.

mained.

Mr. Cowan predicted the disruption of the party within the riding, should the south followers persist in putting a man in the field against the wishes of the north, and stated that, should such action be taken, no support would be forthcoming from the Liberals of the north. Claiming to represent two-fifths of the riding, Mr. Cowan emphasized the north's opinion that a Liberal in the field practically meant the election of the Conservative candidate.

port the oil bounty, if brought up in the house, and then later voting against it when it actually was in-troduced.

troduced.

Regret Lack of Harmony
D. J. McBachern, Alvinston, regretted the lack of harmony in the party, seeing two factions, "the one out to defeat Mr. Armstrong through Mr. Fansher," and "the other out to defeat both Mr. Armstrong and Mr. Fansher through an accredited Liberal candidate," Mr. McEachern declared that he had been "disfranchised" in the last election because he was unable to vote for a Liberal candidate, and that he was determined to see that such a thing did not happen again.

that such a thing did not happen again.

A. E. Shaughnessy, Petrolia, who was nominated at a convention two weeks ago, but who later declined the nomination, explained that he had been unable to carry on as the candidate because he felt he did not have the support of the Liberals in the north part of the riding. Mr. Shaughnessy said plainly, however, that any man chosen would receive his hearty support.

man chosen would receive his hearty support.

Mr. Sturgis said that unless a Liberal entered the field Mr. Armstrong would win by "two to one in the south" while on the other hand Mr. Cowan said "that the north, without a Liberal, would beat Mr. Armstrong three to one." Mr. Sturgis asked whether "the Liberals were going to sell out to the U.F.O. permanently." and steadily refused to change his ruling regarding the motion not to put a candidate in the field, whereupon all the Liberals present from the north proceeded to leave the convention in a body.

Counts New Voters

Liberal element, and to the newly enfranchised women voters in the riding. In effect, his being a candidate constitutes a challenge to all the Liberals of East Lambton to rally to the party standard, and on this point hinges the whole situation.

D. J. Sturgiss, president of the E. Lambton Liberal Association, opened the meeting with an outline of the situation as the party was affected. He expressed regret that, owing to evident lack of support in the northern sections of the constituency, A. E. Shaughnessy, Petrolia barrister, and reeve of that town, had withdrawn from the fight. Intimation was made that the Petrolia executive had not been properly notified of several recent meetings of the constituency executive.

Against Nomination

Duncan White, of Forest, then moved that no candidate be nominated and that the former resolution in favor of nomination be rescinded. Mr. White's resolution brought on a division that threatened to cause a complete break.

James Peat, 83-year-old Liberal, who has participated in many election contests, scored the meeting on show-institutes a challenge to all the riding. Counts New Voters

"There are young Liberals who have never had a chance to cast a Liberal vote in this riding," declared those never had a chance to cast a chiberal vote in this riding," declared those nominated after the departure of the northerners, "and if we let this will have become disintegrated. There is also the question of the northerners, "and if we let this will have become disintegrated. There is also the question of the northerners, "and if we let this will have become disintegrated. There is also the question of the northerners, "and if we let this will have become disintegrated. There is also the question of the northerners, sand if we let this will have become disintegrated. There is also the question of the national policy that will give unity and coherence to our national life, and that is the Liberal party. We can win by getting together all the people who are liberally minded to a main and t

the allegiance of the Liberals there. Liberalism has got something strong and certain to say, and I am sure that by all becoming active campaigners Liberalism will become reanimated here in this videous

paigners Liberalism will become reanimated here in this riding."

Then followed short speeches by
several of the staunch old Lberals of
the riding, including James Hillis,
Oil Springs; James Sansone, Petrolia;
John M. Campbell, Petrolia; William
Annett, Alvinston, and Messrs. McEachern, Greenizen and Sturgis, all
of whom consider Mr. Stirrett to be
the man to bring the Liberals of
both north and south together when
voting day rolls round.

Mr. W. A. Spalding, Toronto, and Mr. T. R. Spalding, Buffalo, have returned to resume their duties with the Pullman Co., after spending their vacation with their sister, Mrs. G. T. Fuller, 2nd line.

The marriage of Margaret, second daughter of Mr. and Mrs. John Kernohan of Warwick, to Mr. Wesley Warner Minielly, son of W. A. Min-ielly, all of Warwick, took place quietly at the Baptist parsonage, Forest, on Wednesday, Oct. 14th, the Rev. Thos. Doolittle, officiating.

#### St. Andrew's Church 52nd Anniversary

St. Andrew's United Church, formerly Presbyterian, celebrated its 52nd anniversary in the present church edifice, with special services, on Sunday, October 11th, the special preacher for the day being Rev. A. W. Shepherd B.A., of Parkhill, who delivered interesting and inspiring sermons, both morning and evening. There were large congregations at both services, the regular services in the Erie Sstreet United Church and Pilgrim United church. Church and Pilgrim United church, being withdrawn in the evening to enable the two congregations to join

with St. Andrew's in its anniversary.

Special music was rendered by the choir with Mrs. Eric Graham, formerly soprano soloist at St. Andrew's United church, London, and Gerald Robertson as the soloists. A feature of the anniversary music was the fact that the new two-manual organ with motor attachment, which the Ladies' Aid Society has just purchased and which had been installed during the week, was in use for the first time and its fine tone was heard with a great degree of satisfaction.

with a great degree of satisfaction, under the capable manipulation of the organist, Hector Munro.

The special offering for the anniversary amounted to approximately

Russia has abandoned her experiment with prohibition. Bolshevism may be more palatable when diluted with strong liquors.—Toronto Star.

The funeral of the late Mary Ann Lewis, widow of the late John Rhymes was held from her late residence on Mill st. on Friday afternoon, October 2nd, conducted by Rev. S. J. Thompson, pastor of Erie st. United church. Interment was made in Strathroy cemetery. The palibearers were six nephews:—Messrs. Frank and Roy Lewis, Strathroy; Geo. Foote, St. Thomas, Ira Morgan, Adelaide; John Ferguson, Mt. Brydges, and Earl Gripton, of Strathroy.

MRS. RHYMES

son, Mt. Brydges, and Earl Gripton, of Strathroy.

She is survived by two daughters, Mrs. Styles, in Saskatchewan, and Miss Millie, at home; one son, I lgar 6th line south, Warwick; one sister. Mrs. Wm. Foote, St. Thomas, and one brother, George Lewis of Strathroy.

#### Nervous Prostration

Why People are Low Spirited and Depressed

Nearly all women and most men suffer at times from fits of depression and low spirits. Everything seems a burden; then come periods of nervous irritability, headaches and weariness. People who suffer this way lack vital ity because their blood is poor and nerves are starved in consequence.

vital ity because their blood is poor and nerves are starved in consequence.

The only way the nerves can be reached is through the blood. By enriching the blood with Dr. Williams' Pink Pills the starved nerves are supplied with just the elements they need. This is proved by the experience of Mrs. J. E. Dadson, 12th Ave, east, Vancouver, B.C., who says:—
"About three years ago I became very weak and nervous. I had pains in my side and back, and also suffered from frequent pains in the back of my head and neck. I was hardly able to do anything about the house. I would wake with a start in the night and my heart would flutter so that it almost choked me. I tried much doctor's medicine but it did me no permanent good. One day I read about Dr. Williams' Pink Pills and decided to give them a trial. These pills produced such a beneficial change in a short time that I kept taking them until I had used a dozen boxes. By this time there was such an improvement in my condition that friends would ask me what I was taking, and of course I was only too pleased to tell them it was Dr. Williams' Pink Pills. I am now feeling like a new person and am doing my own housework. We would not now be without Dr. Williams' Pink Pills in the house."

You can get these pills from your druggist, or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Fine-let us do so! But to be sure we begin by doing some clear thinking—som

1. What class of immigrants do

#### Valuable Lessons to be Learned from Past Failures.

Heretofore we have always taken it for granted—without much careful thought, perhaps—that it was farmer immigrants we most wanted,—people who would settle on our vacant land in the West, and produce more from the soil.

And complaints being loud and numerous that farming in Canada was not as profitable as it should be, we have tried to convert an unattractive situation into an attractive one by lowering the tariff on manufactured goods, in the hope of thereby lowering farm production costs, and so increasing the farmer's net.

Has that plan gotten us anywhere?

In 1924, despite tariff reductions made ostensibly to benefit agriculture, there were actually fewer farm immigrants than in 1923! And when, against the total immigration for 1923 and 1924, we offset the total emigration from our towns and cities, we find that the country has suffered a net loss!

So, obviously there is something wrong somewhere—in the plan we have been following,—either in the assumption that it is farmers we most want, or in our method of attracting them. Perhaps it's a combination of the two.

#### Population Increases Should be Properly Balanced.

In shaping our policy as above, we have certainly overlooked one very important point. Farmers as a rule don't sell to farmers, but to town and city folk. So when we try to increase farm population by methods that operate to decrease town and city population, we are actually making things worse for the very people we are trying to benefit. We are curtailing a domestic market that our farmers can control, and we are increasing their dependence upon an export market over which they have no control!

#### An Alternative Plan that Promises Better Success.

Let us now go back to the beginning again, and start from the alternative assumption that it's primarily town and city population we want to attract.

traight and sure road to our goal, let us king—on these two important questions: How are we going to attract them?

Right? en lowering countries theirs !-Latvia

British East Africa Dependencies British Guiana British Honduras **British West** 

Indies Bulgaria Chile China Colombia Czecho-Slovakia Ecuador Egypt Esthonia Finland France Repub. of Georgia Germany Gold Coast Colony

Greece Guatemala Holland Honduras India Irish Free State Italy

Madagascar Malta Mesopotamia Mexico Netherland East Indies Newfoundland New Zealand Nigeria Norway Paraguay Persia Peru Poland Portugal Roumania Russia Samoa San Salvador Sarawak Serb-Croat-Slovene State

Luxembourg

Seychelles Sierra Leone South Africa Spain Sweden Switzerland Tunis United States Uruguay

And now even the United Kingdom has begun to protect her home markets.

63 Countries have been making it more difficult for Canada to sell in their markets, while Canada has been making it easier for the whole world to sell in hers!

Have they all blundered? Has Canada alone shown wisdom?

Obviously the way to attract that class switching from a policy of lower duties to one of higher duties. The one thing above all others that the immigrant wants is the assurance of a steady job at good wages. Give him that, and he will come in his thousands,—yes, in his tens of

thousands! And in a policy of higher tariffs he will have his guarantee that steady work at good wages will be awaiting him. "Yes," you say, "but what about our farm population? We want it to increase

too!" Of course we do! But with town and city population increasing, can farm population do other than increase in proportion? With more customers for farm produce, and with a higher purchasing power per customer due to higher wages, isn't it inevitable that a domestic supply will be forthcoming to meet a domestic demand, particularly if we protect farm products in the same way that we propose to protect manufactured products?

#### A Precedent That Shows What Can Be Done!

We have tried the plan of lower tariffs, as a means of attracting farmer immigration, and we see that it has signally failed, and we know the reasons why it has failed.

Why not now try the alternative plan of higher tariffs, as a means of attracting urban immigration, when it seems perfectly clear that it must bring farmer immigration in its train?

Even if the latter were mere theory, that would be no valid reason for rejecting it in favor of a policy we have tried, and found to be barren of results.

But we know that it is far beyond the theory stage. The United States offers a practical demonstration of its success! By the plan of higher tariffs, to benefit all classes of population, the United States has managed to attract the biggest and longest sustained immigration movement the world has ever known!

What better example does Canada want?

PART OF MR. FANSHER'S PLATFORM

The following are a few definite U. F. O. or Progressive tariff demands taken from their platform:

Definite Tariff Demands

(a) By an immediate and substantial all-round reduction of the customs tariff.

(b) By reducing the customs duty on goods imported from Great Britain to one-half the rates charged under the general tariff, and that further gradual, uniform reductions be made in the remaining tariff on British imports that will ensure complete Free Trade between Great Britain and Canada in five years.

(c) By placing all foodstuits on the free list.

(d) That agricultural implements, farm and household machinery, vehicles, fertilizers, coal, lumber, cement, gasoline illuminating fuel and lubricating oils be placed on the free list, and that all raw materials and machinery used in their manufacture also be placed on the free list.

Let us briefly analyse and interpret these planks in Mr. Fansher's Platform:

(a) First there is to be an immediate and substantial reduction of the course of the protection.

(b) First there is to be an immediate and substantial reduction of the customs duty on goods imported from Great Britain to one-half the rates charged under the general tariff, and that further gradual, uniform reductions be made in the remaining tariff on Britain to one-half the rates charged under the general tariff, and that further gradual, uniform reductions on the free list.

(d) That agricultural implements, farm and household machinery, vehicles, fertilizers, coal, lumber, changes originally opposed to the free list, and that all raw materials and machinery used in their manufacture also be placed on the free list, and that all raw materials and machinery used in their manufacture also be placed on the free list, and that all raw materials and machinery used in their manufacture also be placed on the free list, and that all reduction of the destruct

Platform:

(a) First there is to be an immediate and substantial reduction of the Customs Tariff. What would be a substantial reduction that would satisfy. stantial reduction that would satisfy, the free trader? How many hundred industries would be affected, and have been effected? Who would invest captial in industries under that club? How many industries would come to Canada from U. S. if that plank was carried into effect? Foreign goods made by cheap labor would and have had access to our markets in goods made by cheap labor would and have had access to our markets in great quantities and the farmer's home market is being ruined. This policy has been, mainly, instrumental in the closing of over 2200 separate industries in the Dominion of Canada since 1921, and over 600,000 people have moved over to the United States.

(b) Means cut duty to one-half

United States.

(b) Means cut duty to one-half charged under general Tariff and Free Trade with Great Britain in five years. If you take the lower wages paid in the British Isles, into consideration, this will practically mean Free Trade in everything with Great Britain.

Further increases in the tariff are again demanded by the United States farmer, and it is folly to say

gain demanded by the United States farmer, and it is folly to say that Canada can obtain reciprocal trade with the United States. Remember our tariff has not been increased against the U. S., but materially decreased.

In fact the Government without opposition from Mr. Fansher, lowered the duty on refined sugar ½c lb. The following day the sugar beet refinery at Wallaceburg and Chatham, to the farmers to the extent of 50c per ton. This is merely carrying out the free food plank of his platform.

(d) By placing all food stuffs on the Free list means: Free butter, free cheese, free eggs, free meat of all kinds, free canned goods, free sugar, (both cane and that extracted from sugar beets), free fruit. 237 canning plants in 1921 paid the farmer \$7,333,982 for raw material, fruit and vegetables. They employ over 6,000 people, paying them approximtaely \$3,184,663 in wages. Free eggs means that China and United States can dump their surdus eggs in Canada. Free fruit means exactly what it says, free apples, pears, plums, peaches, etc.

East Lambton can grow successfully all kinds of fruits, vegetables, and particularly celery, which would be struck a disastrous blow, were this free food plank put into effect. Its soil and climate is perfect. Free sugar means closing our sugar beet factories and that would mean ruin to our sugar beet industry. What keeps the sugar refineries in Canada? Protection. The action of the Sugar beet refinery at Chatham and Wallacebury in lowering the price paid to the formers to the extract of 50c.

"At the end of a long journey, in the course of which we have crossed the Dominion twice and travelled nearly ten thousand miles, we are returning to our homes deeply impressed with the immense resources of Canada. We have seen life and conditions of labor in the Maritimes, in the industrial centres of the East, on the prairies and at the Pacific Coast. We have set ourthe East, on the prairies and at the Pacific Coast. We have set ourselves to learn something of the twin problems of men and markets which face the Canadian people and the experience which we have thus cained will be of inestimable advantage to us in the future. It will enable us to set the proper value on items of news from the proper value on items of new from the proper

great arms, to make known to the young men of our own country the splendid opportunities that awa't them in short, so far as ites within our power, to tell the lions upon which Motherland the truth about Canada."

"Canada is not a country but a continent boundless in rich re-sources and richer still in the in-defatigable energy of a people whose most conspicuous social characteristics is their devotion to education and research, in wise foresight of the future. development the great requirement is population, which can best be

is population, which can best be supplied by co-operative action of home and Dominion authorities in training would-be immigrants for agricultural work. Training is an essential requisition to rescue men and women from unwilling idleness in the Old Country and put them within reach of the alundant opportunities of the New land is toom conditions of penury into sharers n them from conditions of penury into tharers stless wealth, and in so doing to strengthen ire. We are greatly indebted to the Canadian of exhaustless wealth, and in so doing to strength the Empire. We are greatly indebted to the Canadi Pacific Railway for their invitation to make the tour."

"Canada's need is the Old Country's opportunity. Equally Britain's is the new country's opportunity. From the Atlantic to the Pacific seaboards I have heard the cry, "Send us men; send us capital," and have found conclusive most that once weed the new proof that once again the new world has the power to redress the balance of the old; have we and have you the will to make that power effective? It seems to me power effective? It seems to me to be largely a matter of understanding and sympathy. Patriotism is not enough, but translated into terms of mutual help I know is capable of leading us both into a new promised land. Let us pull together."

"Canada's need is the Old Coun-

JOHN A. BUIST.

that it is the land of opportunity. I believe that each is entitled to make that claim and that the opportunity is for more people who are willing to work primarily the land and are determined to succeed. The vast open spaces must be populated. As a Scotchman who has met many old countrymen on this wonderful tour via the Canadian Pacific Railway across the Dominion I should like to see a large influx of immigrants belonging to the race which played such a noble part in the pioneer

"Every province of Canada claims

work in the land of promise for the c. The Old Country can still proyoung and vigorous. The Old Country can be desire. I believe the duce that type. What prevents them from coming? They lack the means, not the desire. I believe that if our home government and the Dominion Government could agree to assist them to a greater extent than has hitherto been done, the main obstacle to the flow of Scottish immigration into Canada would be removed. The people must be found, if not from the Old Land then taken from elsewhere, but I think you would pre-fer the old stock."

"I became more and more impressed with the boundless possibilities of this great Dominion every day of my tour. From Halifax to Vancauver that impression grew from wonder to amazement. Surely for a man who will work and for the woman who will work and for the woman who will work. and for the woman who will help-him there is no land so rich in resource, so full of opportunities. All honor, then, to the brave men who made this possible, to the pioneers who blazed a nation's way

London. through brush and canyon, who adventured over river and lake and prairie, and to the Canadian statesmen whose vision was not that of ordinary men.'

Belfast Telegraph

I have seen I am convinced that the tapping of the Dominion's re-sources, particularly of Alberta and sources, particularly of Alberta and British Columbia, has only begun. If the two urgent needs of men and capital—British it possible—can be supplied; there seems to be no limit to the future of the country. I am impressed by the loyalty, the beauty, and the pluck of Canada, and I take out my hat to the courage of the early explorers and settlers. They laid foundat should be an honor to be to-day. should be an honor to be to-day.

"Canada fills me with wonder and admiration. That a comparatively small population should have oc-

complished so much in so short a time is marvellous, and from what

A New U. S. View on Debts

A New U. S. View on Debta
An extraordinary statement on the
matter of war debts appeared in the
last issue of the Manufacturers' Record in the United States which demands that the United States cancel
the war debts of her allies. The statement points out that because of the
war, the demands for war supplies in
Europe, and the new markets opened
for American trade (because the
source of supply in Europe was cut
off), amounted in five years to an
increase of thirty-seven billion dollars over normal trade records.

The statement points out that for
two years of the conflict, the United
States held aloof "except to grow fat
on selling engrapsus quantities of

two years of the conflict, the United States held aloof "except to grow fat on selling enormous quantities of supplies to the allies." "It was more than a year after war was decided upon by the United States against Germany," says the Record, "before we could put a single soldier on the battlefront of Europe. We have often claimed that we saved Europe. With equal truth we might say that Europe saved America. . . Since we could not put a soldier on the battlefield for over a year the best we could do to help was to help finance the allies. Money loaned was not sent to Europe. Practically every dollar was upont here . . . and in the main the prices paid were exorbitant and in many cases unconscionably and unscrupulously high." The Manufacturers' Record then makes the statement that it believes that "the indebteduess of the allies to the United States should either be entirely wiped out or so materially reduced as to completely change the to the United States should either be entirely wiped out or so materially reduced as to completely change the whole situation." It points out that the war debt situation is one upon whom right-minded Americans look "with shame-facedness and sorrow" and that it makes the suggestion "primarily on behalf of the people of the United States and only secondly on behalf of Europe." It is one of those rare appeals for leniency to war-weary Europe which go far towards establishing a right feeling between the United States and her late allies and admits a situation which has long been patent to people outside the Republic.

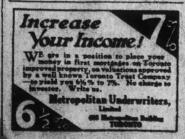

Russia is once more in the public eye through the abolition of the prohibitory laws on the use of vodka. The soviet-ridden country during the past week has had an orgy of drunkedness which has added to the picture of desolation of that unhappy country. It may be an admission of worse conditions that the rest of the world realizes, for Duke Nicholas, former commander of the Russian armies in the Great War, speaking in Paris, says that hunger will eventually defeat the government of Russia. Vodka may have been thrown to them as a means of quieting the panns of hunger, which according to the Grand Duke, grows keener every day. The Grand Duke believes foreign intervention incapable of doing anything for Russia and that the European nations are quite right in refraining

from interfering with the course of

Russian events. Hope from Locarno

Hope from Locarno
The nations which are sitting around the conference table at the little Swiss city of Locarno are apparently making greater headway than had been made at any of the four previous conferences in the interests of European peace. This time Germany has been received on a basis of equality. Probably the most dramatic incident was the trip made to a small neighboring Swiss town by M. Briand, French Delegate, and Dr. Luther, German Chancellor. They went alone and spent several hours Luther, German Chancellor. They went alone and spent several hours in a Swiss inn in a man-to-man talk about the positions of their respective countries, and it is believed their meeting will be productive of more permanent good that many formal conferences of delegates. It is now assured that Germany will enter the League of Nations, and some doubt regarding Italy's position has also been cleared upon by the announcement that she will support Britain in the Rhineland pact and throw her weight either with France or Germany in the event of either being attacked by her neighbor. The recent assent of Germany to the allies terms concerning German reservations in the League make both her entry into the League and the consumation of the Security Pact practically certain.

World Conference in Ottawa
The conference of the Interparliamentary Union have shifted this week from Washington to Ottawa. Nearly four hundred representatives from forty-one leading nations of the world are in the party. This is the twenty-third, year of its work. The delegates' first impression of Canadian hospitality was received through the railway accommodation provided on their way from Washington to Toronto, which was much more elaborate than that provided in the United States, including parlor cars and every modern railway convenience. The visitors were charmed and delighted both with the travelling accommodation and the arrangements for handling their luggage and transporting them from trains to hotels, and so on. Canada had a splendid opportunity for a timely thit of railway advertising, and grasped it. From Toronto the party went on to Ottawa where on Tuesday they held the first Canadian session in the history of the Union.

Columbus' Pape A descendant of Ch umbus, the Spanish Duk has fallen upon hard times decided to part with his collec manuscripts pertaining to the tures of his famous forefathe tures of his famous forefather documents start with the agree made with Isabella and Ferd and includes Columbus maps a ports. The Duke asks \$145,00 the collection and Spain has ized a sale of Columbus among the people in order to the necessary funds to seer Spain these historical treasure wise they will be offered for sa side of the country.

The Archbishop of Canterbury
Pleas for Christians
Into the arena of the Mosul dispute comes the Archbishop of Canterbury with a plea for protection for the Christians of the Mosul district who are waiting in fear and trembling the outcome of the dispute over the administration of that province of the Kingdom of Irak. Turkey it now transpires, has been mobilizing an army for several months past, under false pretences, so that she will be in a position to strike a strong blow if she is thwarted in her plan to secure control of this ancient and valuable settlement which was under her rule before the war. The British fleet in the Mediterranean is being mobilized as a reminder to Turkey that Britain's fighting arm is within reach of the disputed area. It is said that Turkey has already mined several towns which might become involved in the fighting if a struggle ensues.

New Angle on Hard Times

An interesting viewpoint on conditions in the British Isles was given recently by St. Loe Strachey, editor of the "Spectator", who is on a visit to Canada. John Bull's grouch, he says, is a screen to cover a multitude of activities and he denied that the British people were sinking beneath the burdens of their responsibilities and troubles. When John Bull is busy, he always grouches, says this famous writer, and goes on to say that the fact of heavy taxation and hard work has saved Britain from slipping into sloth and ease, and he used his own case as an illustration. In the ordinary course of events, he New Angle on Hard Times

THE BACK Relieved by Lydia E. Pink, ham's Vegetable Compound

Mitchell, Ontario.—"I have taken your medicine for a number of years. I do not take it steady all the time, but I am never without it. I always keep it in the house. I took it first for pains in the abdomen and bearing down pains, headaches and pains across the back. I have my home to look after and many a day I could not get up at all. 'saw the advertisement in the papes about Lydia E. Pinkham's Veget 'Compound, and Mrs. John Miller told me about it, too. Every time I take it, it makes me feel better and I alway? recommend it to my friends. I am willing to answer letters from women asking about this medicine and you may use this letter as a testimonia! "Mrs. F.J. WASSMANN, Mitchell, Ontario.
"The merit of Lydia E. Pinkham's Vegetable Compound is told by women to each other. Many women know by experience what this medicine will do and they are anxious for others to know. Such testimony should cause any woman suffering from the troubles so common to her sex to give this well-known medicine a fair trial.

\*\*No you know that in a recent canvass among women users of the Vegetable Compound over 220,000 replies were received. To the question, "Have you received benefit by taking this medicine?" 98 per cent. replied "Yes."

This means that 98 out of every 100 women are in better health because they have given this medicine a fair trial.

O Mitchell, Ontario. - "I have taken

A. G. Minielly, Clerk, HOW TO SAVE

Interesting Booklet on Yearly Pur-chase Plan an Aid to Small Investors

An interesting and valuable little booklet is published by Burnett Sainte Clair & Co., investment bank-ers of Montreal, setting out an ex-cellent plan whereby the public of Canada may buy good securities and pay for them over a period of one year. The object is to cultivate the habit of saving money among people who have never been accustomed to

who have never been accustomed to buying securities, and to show them how profitable it will be for them to invest their saving in this way and spread the payment over a year.

Good securities can be bought on this plan, with all the opportunities of taking advantage of market variations, and yet the investor has an entire year in which to pay off the balance due on his account. Under this plan the investor pays 25 per cent. of the purchase price on placing the order, and the balance, including the customary industs, in eleven equal monthly installands. The book outlining this plan can be obtained upon application to the company at its Montreal office. Canada Cement Building, Phillips Square.

See ad. on page 6. brush it through your hair. The effect is startling! You can dress your hair immediately and it will appear twice as thick and heavy, an abundance of gleamy, wavy hair, sparkling with life, incomparably soft, fresh, youthful.

Besides beautifying the hair, a 35-cent bottle of refreshing, fragrant "Danderine" from any durg store will do wonders, particularly if the hair is dry, thin, brittle, faded or streaked with gray from constant curling and waving which burn the color, lustre and very life from any to the Guide-Advocate.

Times plan, with all the opportunities of taking advantage of market variations, and yet the investor has an entire year in which to pay off the balance due on his account. Under this plan the investor pays 25 per cent. of the purchase price on place cent. Of the purchase price on place ing the order, and the balance, including the customary into est, in eleven equal monthly instalments. KILL MOTHS

The annual field day of the Watford High School was held Thursday afternoon and evening, when, in addition to the pick of the athletes of the local school, the best athletes from the high schools of Forest and Strathroy were here to compete. A fine program of field sports was run off in the afternoon, while in the evening two fast basketball games were played in the armory. The final results revealed that Watford, High School had amassed more than double the number of points than either of the visiting schools could muster, the final standing being: Watford, 112 points; Strathroy, 55 points; Forest, 24 points. The individual championships were both captured by Watford athletes, the boys' championship being won by Orville Shugg, with seven firsts and one second out of 10 individual events; the girls' championship being won by Dorothy Delmage, with four firsts and one second out of six individual events.

The boys' relay race was won by

There was first a meeting of the Executive at which it was decided to call a general convention to consider the matter of nominating a candidate. At the convention which folidate. At the convention which followed the representatives from the north opposed the nomination of a candidate for the following reasons: First—There was no chance of electing a Liberal at this time. Second—Placing a Liberal in the field here would endanger the Liberal cause in West Lambton. Third—It would mean the election of the Conservative candidate,

candidate.

The majority of those present were not agreeable to this and Mr. Shaughnessy, Reeve of Petrolia, received the nomination. After making a careful study of the situation, Mr. Shaughnessy came to the same conclusion as the Liberals from the north, and at a meeting of the Executive, on Oct. 37d, handed in his resignation which was accepted. At this meeting it was decided that no Liberal should be placed in the field at this election unless the Progressives nominated a candidate in West Lambton.

All present agreed to this, except

All present agreed to this, except Mr. Hillis, of Oil Springs, and Wm. Annett of Brooke. Mr. Shaughnessy agreed to again enter the field if the Relay race-1, Strathroy; 2, Wat-

ford.

Relay race—1, Strathroy; 2, Watford;

Tug-of-war—1, Watford; Forest and Strathroy, tie.

Running high jump—O. Shugg, of Watford; E. Wright, Strathroy; D. Wright, Strathroy. Height, 5 feet, 3 inches.

Girls' Events.

100-yard dash—D. Delmagz, Watford; B. Gault, Watford; B. Crinnan, Forest. Time, 12.5 seconds.

Standing broad jump—Taut, Strathroy; D. Delmage, Watford; B. Gault, Watford; B. Gault, Watford B. Gault, Watford Distance, 7 feet, 1½ inches. Running broad jump—D. Delmage, Watford; B. Crinnan, Forest; Tout, Strathroy, Distance, 13 feet 1½ ins. Hop, step and jump—D. Delmage, Watford; J. Lane, Forest; Tout, Strathroy, Distance, 27 feet, 11 ins. Running high jump—D. Delmage, Watford; Runnals, Strathroy; Tout, Strathroy, Height, 3 feet 10 inches. Relay race (440 yards)—Watford Forest, Strathroy, and Forest, tie.

Throwing soft ball—B. Durstan, Watford; Manning, Forest: Rawlings agreed to again enter the field if the Progressives of West Lambton made such action necessary.

Great was the surprise the following Monday, when the report went around that Mr. Stirrett, of London, was to run as a Liberal in East Lambton. Little credence was given to the report until notice was received calling another convention for October 9th. Liberals from the north went to this meeting in goodly numbers to defeat this movement, but their motion to "not place a candidate in the field" was ruled "out of order," and they withdrew from the convention. They believe that the cause of Liberalism in East Lambton will be best served by supporting the Progressive candidate.

Progressive candidate.

If the Liberals of north Lambton have fallen into evils ways, they have the satisfaction of knowing that they are in good company, as the following that they are in good company, as the following that they are in good company.

Throwing soft ball—B. Durstan, Watford; Manning, Forest; Rawlings, Forest. Distance 136 feet.

little ship Artic, a kadventurous voya in jure Kerwood School Fair

The School Fair was indeed a success, the weather was ideal and the The School Fair was indeed a success, the weather was ideal and the large crowd of grown ups were well please d to be there. The exhibits were first class with special mention of the cooking which excelled some of the town fairs. The flowers were lovely, many of the first prizes belonging in the village. The public speaking was fine, also the singing. Comic costumes, decorated bicycles horseback riding by the boys and girls. The school parades deserve special mention: there were four schools, all showing the work and time that had been put in their training and makeup. It was decided there should be two first prizes, a second and third, as all were so deserving. The Salvation Army Band were in attendance and the delightful music was much enjoyed. The Women's Institute booth did a rushing business and all went home well pleased and hoping to meet again next year.

Miss Grace Dowding of Port Huron was home ever Sundar.

Miss Grace Dowding of Port Huron was home over Sunday.

Mr. and Mrs. Henry Humphries of Watford spent Sunday with Mr. Geo. Dowding, who, we are sorry to say, is

ill at present.

Mr. Basil Langford of Columbus Ohio, is spending a couple of weeks at his home.

The Ladies' Aid met on Wednesday of last week with a good attendance. Two quilts were quilted and some other sewing done. Plans were made for the Monster Fowl Supper that is to be served on Monday evening the Ladies of the United church.

The Young People's club of St. Paul's church will meet in the hall on Friday to re-organize for the winter months.

Rev. R. A. Brook will have charge of the Anniversary services at Brin-sley next Sunday, Oct. 18th.

Mrs. Capling of St. Marys is spending a few weeks with her daughter, Mrs. Eldon Langford.

We are ple sed to hear that from

Quested.

We are pleased to hear that Mr.
Alden Chitty is at home again from
Yictoria mospital, London, where he
underwent a serious operation some

weeks ago.
Mr. C. Murby of Toronto was at home for a few days recently.
Miss Thelma Brunt and Miss Erna Wright of Windsor were recent visitors under the parental of.

Simple and Sure. Dr. Thomas Eclectric Oil is so simple in application that a child can understand the instructions. Used as a liniment the only direction is to rub, and when used as a dressing to apply. The directions are so plain and unmistakable that they are readily understood by young or old.

Original and Grotesque
