THE APPLE HARVEST

(Wolfville Acadian)

The importance of the apple growing industry in this Valley becomes amply apparent at this season of the year, when the largest item of traffic on our streets has to do with apples. Orchardists are putting forth strenuous efforts to secure the fruit before the cold weather sets in. Everywhere the trees are bending with beautifully colored fruits and the orchards with their force of busy pickers present an active scene. Most of the fruit as soon as gathered is taken at once to the packing houses and as a result heavy laden teams and trucks are seen in all directions. These packing houses employ a large number of men and boys and will be kept busy for months to come getting the fruit ready for market. Many of the fruit growers will this year release large sums from the output of their orchards, and a general air of prosperity pervades the countryside.

SOME CARS

According to statistics just compiled by the Department of Agriculture, Fruit Commissioner's Branch, it will require approximately 5,850 cars to protect this season's apple movement from Nova Scotia. Export shipments to the United Kingdom and early shipments to Canadian and American markets will be taken care of in box or lined cars but nearly 2,000 refrigerator cars will be required for the late shipments. Up to the present approximately 300,000 barrels have been marketed, a record movement for a corresponding period.

CANADA'S FRUIT AND POTATO CROP

Apple Production 10 to 15 Per Cent Higher than Last Year—Potato Yield Lower

The commercial production of apples in British Columbia, New Brunswick and Nova Scotia this year have been excellent, while in other apple producing provinces the crop has not been nearly so favorable. According to an estimate issued by the Department of Agriculture the crop in British Columbia is 1,009,000 barrels (3,027,000 boxes) or 100 per cent in excess of last year's.

New Brunswick's estimate is 25,000 barrels, or ten per cent above last year's crop.

Nova Scotia's production is 10 to 15 per cent better than last year, amounting to 1,200,000 barrels.

Ontario's total crop will only reach 60 per cent of last year's crop, with Spies heavy, and Western Ontario 45 per cent of last year's crop, considerable scab with a high percentage of lower grades. Quebec's crop represents only 35 or 40 per cent of that of last year, or approximately 35,200 barrels, color and size fair.

With the exception of Manitoba the Provinces will produce considerably less potatoes this year, for commercial purposes, than was the case of 1920.

According to the Agricultural Department, Manitoba's estimate is 5,115,000 bushels, or a 50 per cent increase over last year's crop. Alberta 90 per cent of last year's crop, or 6,425,000 bushels.

Ontario—45 per cent of last year's crop, or 10,783,000 bushels.

Quebec—Approximately 75 per cent of last year's crop or 23,225,000 bushels.

New Brunswick—10,837,000 bushels, being 70 per cent of last year.

Prince Edward Island—4,940,000 bushels or eighty per cent of 1920's crop.

Nova Scotia—5,015,000 bushels, about 50 per cent of last year's crop.

British Columbia—1,800,000 bushels, about 75 per cent of last year's crop.

Onions in Ontario and Quebec show 40 to 50 per cent, respectively of the 1920 crop.

APPRECIATION OF PAROCHIAL MISSION

Conducted in St. James' Church by the Rev. Canon G. Osborne Troop

(Written for the Monitor)

By those who were able to attend the special services conducted in St. James' Church, Bridgetown, by the Rev. Canon G. Osborne Troop, Sunday, October 23rd to Sunday, October 30th, will not soon be forgotten, if ever.

As one who attended every service said—"You do not get the measure of Canon Troop in one service." His personality, winsome from the beginning, grows and grows. So imbued is he with his message ("The Unsearchable Riches of Christ") was his general theme, that, as he delivers it, his very face becomes eloquent, expressive of the soul within, to whom Jesus Christ is all in all. It is very evident that he is indeed a "Master in Israel" and one who knows whereof he speaks. Knowing the Scriptures as it is given to comparatively few to know them, his afternoon Bible readings were a veritable revelation, whilst the addresses at the evening services disclosed that profound organic connection between old and new Testaments which stamp them as the revelation of God to man.

Another very striking feature of this Mission was the utter absence of any sort of kind of sensationalism. That the missioner was fervent in his appeal for the Surrender of the soul to God was always evident. To him it is indeed the one thing needful. But the writer of this appreciation could not imagine him preaching anything like a so-called "Topical" sermon.

The Holy Scriptures, the Christ as revealed therein—God Incarnate—living our life, dying for our sins, rising again for our justification, and ascending into heaven, sending thence the gift of the Holy Spirit, all for us men and for our salvation—this is his message and he never forgets it.

From first to last the mission was essentially a teaching one and has meant inspiration and uplift to many. As before noted in these columns, Canon Troop is an old Bridgetown boy and wrote that he regarded the invitation by the Rector of St. James' to come to Bridgetown, as "A wonderful call from God to revisit the scene of his boyhood as His messenger in His message."

In this, as in all other cases, he declined to accept any remuneration for his services. "God," he says, "has enabled me to do this and I am only too glad to do it" in the hope that it may result in "His glory and the good of souls." The thank-offering taken at the Friday evening service was therefore used to defray travelling and printing expenses.

Beginning next Sunday and continuing until Nov. 21st, he will conduct a Mission in St. Paul's Church, Charlottetown, P.E.I. After that he will go to Jamaica, via New York, preaching by express invitation of Bishop Manning, in Old Trinity, New York City, on the morning of Sunday, December 4th, and on the afternoon of the same day in St. Thomas's Church, Jamaica.

In Jamaica he has appointments right through the winter season and on his return next June, or thereabout, he purposes a visit to the Canadian West to re-visit scenes of former work. In all this he asks the earnest prayers of his many friends that he may be sustained in the great and glorious work so dear to his heart.

That he may find it possible to again re-visit Bridgetown, at no very distant date, is the earnest prayer of those who have so much profited by their experience during the past week.

At the regular meeting of the Digby School Board held on Wednesday evening quite a number of matters of routine interest were transacted. A number of names of these not attending school were read and the Chief of Police is looking after the delinquents now. The question of corporal punishment in the schools came up and the matter will be looked into. The School Board has purchased a football for the boys and will cooperate with them in their recreation as well as in their work. The principal reported that 314 are enrolled and that the first quarterly examinations are now being held.

L. O. L.

Several members of the Avard Longley L. O. L., Paradise, made a fraternal visit to Marquis of Lorne L. O. L., Deep Brook, on October 18th inst., where a very enjoyable evening was spent. The County Master made his official visit at this meeting, finding the lodge in a flourishing condition. The Avard Longley Lodge meets in the future on the second and fourth Mondays of each month, and at their next lodge night are looking forward to having with them the Rev. Bros. Dickson, Jones and Freestone. The lodge asks for a full attendance of its membership, and extends a hearty welcome to any outside members of the Orange Association.

YARMOUTH ELECTRIC PLANT DESTROYED

Fire Discovered in Boiler Room Before Midnight.

Yarmouth, N.S., Oct. 19.—The extensive electric plant, excepting the dam at Carleton, eighteen miles from this town, belonging to the Yarmouth Light and Power Company, was totally destroyed by fire which was discovered in the boiler room about 11.50 last evening. The structure was wood and the flames spread with such rapidity that the night crew were unable to do anything to stay the flames which soon ignited an adjoining building, which was also destroyed. Each building contained distinct power plants, the first, where the fire originated, a 500 horse power steam driven outfit and the second a 400 horse power water driven plant and all is complete wreck together with what they contained.

This morning the town is without any electric service excepting the street railway which is on a separate plant. The company is, however, busily engaged getting a reserve plant ready for operation which will afford a limited service. The large dam was on fire on several occasions but by strenuous effort was saved from burning. The plant was, for its size, one of the best in the province and as there was only a small insurance the loss is a very severe one.

SWEET SYRUP FROM ANAPOLIS APPLES

Kenville, Oct. 22.—For the past year A. Kelsall, chemist in the Entomological Laboratory at Annapolis Royal has been experimenting in his spare time with methods of making sweet syrup from apples. In spite of numerous difficulties he has now developed a method that is adaptable to the equipment in most of the cider and vinegar plants in the Annapolis Valley that gives a syrup that has been pronounced by a number of experts as being fully as sweet and palatable as maple syrup and adapted to all of the uses to which maple syrup is put.

The new product has a distinctive apple flavor with none of the acidity that boiled down cider has, neither does it jell when concentrated. Upwards of two gallons of the syrup can be obtained from the juice of one barrel of ordinary waste apples. This should allow the new product to be marketed for much less than the price of maple syrup, with which it is fully equal to, or preferred by most palates. The new material should prove a boon to producer and consumer alike, as it will give the producer another outlet for his low grade fruit and to the consumer it means a syrup fully equal to the maple and for a lower price.

GETTING ACQUAINTED

A new foreman took charge of the shop this particular morning, and many of the men had not as yet met him. About the middle of the forenoon he was making a tour of the building to familiarize himself with the layout, when on passing a small enclosure he saw two workmen inside who were sitting down smoking. Before he had the opportunity to speak one of the men said: "Hello, what you doing, stranger?" "I'm Dodge, the new foreman," was the reply. "So are we, come in and have a smoke."

WHAT ONE LINTYPE DID

The lintype is a very tricky piece of machinery and unless watched carefully will cause much trouble. Sometimes it drops two letters at a time instead of one, and last week exercised that privilege in a Springfield paper where the arrival of an 11-pound baby was chronicled as an 111 pounder.

"Who is really boss in your home?" inquired the abrupt person. "Well, of course Henrietta assumes command of the children, the servants, the dog, the cat, and the cow. But I can say pretty much what I please to the goldfish."

LONG ISLAND MYSTERY

Body Identified As That Of Young Woman Born In Germany.

New York, Oct. 27.—Mrs. Elizabeth Richard, of Jersey City, has identified the leafless body of a woman found on Saturday in a pool in Long Island City as that of Bertha Baker or Becker, who lived with her two years ago. A design of the German iron cross and the initials "B.B." had been tattooed on her right leg above the knee. Mrs. Richard told the police, and she thought this might have been the reason why the legs had been severed. Mrs. Richard said the girl had come to the United States from Cologne, Germany. She appeared at her house in company with her husband and baby, and asked for lodging. Mrs. Richard said. The man was a boatman.

After leaving her house, Mrs. Richard said, the girl lived in Hoboken where she was arrested in 1919. She said she would bring her husband to New York to-morrow to view the body and corroborate her identification. To check up Mrs. Richard's statement, detectives were sent to Hoboken police headquarters for fingerprint records to be compared with the prints of the murder victim. At the same time other detectives were busy on Staten Island, seeking to determine if a stained nightgown, a butcher's knife and a battered hat found in the underbrush near a factory had any connection with the Long Island city mystery. Police tonight indicated that an arrest might be expected soon.

TAXIS NEWS

The "Leaders" Taxis Square, of Middleton and their advisory committee with guests, held a banquet Wednesday evening in the vestry of the Baptist Church. After the good things had disappeared from the tables, brief speeches were given by Canon Morris, Rev. J. G. Hockin, and Dr. Hutchins. The advisability of dividing the square into two was then discussed, running independently but meeting together at periods to deal with events of common interest. It was unanimously decided to separate into two groups. The next question considered was the subject for the annual debate between the Taxis Squares of Digby, Bridgetown and Middleton. Several subjects were submitted and it was expected that a suitable one will be forwarded to Digby for approval within the next few days. The coveted trophy for the winning team is a silver cup presented by A. L. Davidson, M.P., and was won last year by Bridgetown. Bridgetown team is to debate with the winner from Middleton and Digby.

BANK MANAGER FOULS MONTREAL BANDITS

Montreal, Oct. 25.—An attempt made by bandits to hold up the branch of the Canadian Bank of Commerce at the corner of Prince Arthur and Park Avenue, at 1.45 this afternoon was frustrated by the quick action of the manager, J. H. Carnegie. A man entered the bank and asked the teller for change of a ten dollar bill. When the teller turned to get the money the bandit told him to throw up his hands. Mr. Carnegie happened to hear the bandit's demand and immediately came from his office and opened fire on the man with his revolver. The bandit returned the fire aiming first at the manager and then at the teller. Nobody was hit in the exchange of shots and finally the bandit rushed out of the bank and into a waiting automobile.

TO SUSPEND BUSINESS FOR TWO MINUTES

Ottawa despatch.—The Governor-General has received a despatch from the Secretary of State for the colonies proposing that on Friday, November 11th, the anniversary of the signing of the armistice, there should be a complete suspension of business so far as possible, beginning at 11 a.m. and continuing for two minutes. The Canadian government have adopted this suggestion and accordingly the Secretary of State for external affairs has issued a request that the rite be observed throughout the Dominion.

An Irishman paid a visit to China. He was quick tempered, and it was not long before he had an argument with a native who spoke very broken English. Seizing a dish from a counter Chinaman's head was cut. On being brought before the English consul, he was asked why he had insulted the native. "Sure," replied Pat, "the poke broken English, and I just gave 'im broken China in return."

MAYFLOWER-CANADIA RACE

The Contest Will Probably Take Place In Massachusetts Bay.

That there will be a match race between the LaHave handliner Canadia and the Boston fresh fisherman Mayflower seems possible. Wednesday a representative of the Mayflower Association approached Captain Joseph Conrad with the challenge and it was accepted. When and where the race will be sailed will be decided later, but there is a strong possibility that it will be in Massachusetts Bay. Having been barred from participating in the International Ocean Schooner Race series, the owners of the Mayflower are now seeking a race with either the Bluenose or Canadia, and the Boston craft will be ready to race either or both. Should the Mayflower-Canadia race materialize it would cause considerable interest. The Mayflower owners are willing to raise prize money and stage the contest whenever Captain Conrad is ready.

Although the Canadia did not make a very good showing in the elimination race—she still has numerous backers and they believe that in proper trim she will show some speed. Wednesday she was taken to the Dockyard where her chain ballast was discharged, after which she was taken to the South End Terminal where steel bilts, which the Canadia used for ballast and has exchanged there, will be stored in the hold. The Canadia's skipper figures it out that his schooner's greatest depth for racing trim should be 16 feet instead of 14 ft. 5 inches, her draft in one of the races. Furthermore, the vessel being down by the head, the greatest depth was not where it should have been according to the vessel's design. Captain Conrad, realizing this, maintains that his schooner has not had a fair test and believes that in proper trim she can make a showing on the wind that would surprise a good many persons.

PRESIDENT MARITIME A. A. PRAISES MIDDLETON

(Outlook) Loring Andrews attended the annual meeting of the Amateur Athletic Association of Canada (Maritime Branch) held in Amherst last week. He reports the Association to be in a very flourishing condition there being 49 affiliated associations in the organization with a total enrollment of over 2,400 athletes exclusive of intermediates. The retiring president, A. W. Covey, of St. John, was re-elected to the office. Mr. Covey is a very capable official and it is very keen to amateur sport. In his presidential address he paid a great tribute to the Maritime organization for their splendid work in promoting amateur baseball. The Middleton baseball team is a striking example of what could be done by developing your home boys rather than importing men and great credit is due the Middleton team for their splendid work in the past year.

CAPTAIN HAYES TO COMMAND MAJESTIC

Hamilton, now commanding the Adriatic, will succeed Sir Bertram on the Olympic. Captain F. B. Howarth, of the Baltic, also has been promoted to command the line's new 35,000-ton liner Homeric, nearing completion.

Cornet "Wizard" Heads Musical Trio

Chester R. Scott Company is One of Lyceum's Most Popular Novelty Organizations.

The Chester R. Scott Musical and Dramatic Trio brings to Lyceum not only one of the finest novelty organizations now appearing before the public, but also presents Mr. Chester R. Scott, one of America's finest cornet artists. His tones are remarkable for their wonderful softness and richness. He does the difficult "triple tongue work" and also the "running double tongue"—technical expressions perhaps—yet they mean much in discussing an artist's ability. His playing is at all times characterized with the utmost ease and greatest depth of feeling. Mr. Fred Osborne offers musical and dramatic features, and appears with Mr. Scott in special novelty numbers. He is a character impersonator, and his vocal work is a feature. Laura Hale Scott, accompanist and piano soloist, is herself an artist of considerable note.

UNABLE TO WALK FOR A YEAR

Paralysis Entirely Relieved by "Fruit-a-tives"

The Wonderful Fruit Medicine

Paralysis is a break-down of the Nervous System and affects the victim in various ways. Sometimes, nervousness makes itself known by hysteria, insomnia, constant headaches, or it may be so bad that one is partially or completely helpless in some part of the body, just as Mrs. Heacock was.

SACR. ST. MARIE, ONS.

"When I was twenty-eight years of age, my doctor advised me to have an operation, which I did and it proved very serious, leaving me weak and unable to walk for a year. Seeing your 'Fruit-a-tives' advertised in the papers, I decided to try them. I continued to use them regularly, and today I am able to go about my home duties and care for my family".

MRS. J. W. HEACOCK.

Any form of Nervousness is often caused by, and is always aggravated by, Constipation, which poisons the blood, irritates the kidneys and inflames the nerves. "Fruit-a-tives" stimulates the action of liver and bowels, kills acids and skin-tones and sweetens the stomach—keeps the blood pure, and builds up the entire nervous system.

In a word, "Fruit-a-tives" has proved that it is the most scientific and effective remedy in the world for Nervousness or a disordered condition of the nervous system. 30c a box, 6 for \$2.50, trial size, 2c. At Dealers or sent postpaid by Fruit-a-tives Limited, Ottawa, Ont.

SECRET OF THE BALLOT

No Person is Required to Divulge the Name of the Candidate for Whom They Voted

The secrecy of the ballot has always been considered one of the safeguards of the franchise in Canada. Throughout constitutional history a fight has been waged to secure the secret ballot, and once that was gained, to guard it inviolate. No matter what proceedings may arise from elections, no man or woman is required, or permitted, to divulge the name of the candidate for whom he or she voted under review.

Provisions for guarding the electors' right to the secret ballot, contained in the Dominion Elections Act, the law governing all Federal election contests, are of interest at the present time, inasmuch as there are many persons throughout Canada, both men and women, who will this year vote for the first time in a Federal election.

Clause 69 of the Act requires every candidate, officer, clerk, agent or other person in attendance at a polling station or at the counting of the votes, to maintain and aid in maintaining the secrecy of the voting, and no candidate, officer, clerk, agent or other person shall:

(a) Before the poll is closed, communicate to any person any information as to whether any person on the list of voters has or has not applied for a ballot paper, or voted at that polling station; or

(b) At the polling station interfere with or attempt to interfere with a voter when marking his ballot paper, or otherwise attempt to obtain information as to the candidate for whom any voter is about to vote or who has voted; or

(c) At the counting of the votes attempt to ascertain the number on the back of any ballot paper; or

(d) At any time communicate (except to a court or judge lawfully requiring him to do so) any information as to the number on the back of the ballot paper given to any voter at a polling station; or

(e) At any time or place, directly or indirectly, induce or endeavor to induce any voter to show his ballot paper after he has marked it, so as to make known to any person the name of the candidate for or against whom he has marked his vote; or

(f) At any time communicate to any person any information obtained at a polling station as to the candidate for whom any voter at such polling station is about to vote or has voted; or

(g) At such counting attempt to obtain any information or communicate any information obtained at such counting as to the candidate for whom any vote is given in any particular ballot paper.

Clause 2 of the section states that "any person who contravenes or fails to observe any provision of this section is guilty of an illegal practice and of an offence against this Act punishable on summary conviction as in this Act provided."

It is also against the law for any voter, unless able to read or unless incapacitated from voting in the manner prescribed in the Act to show his ballot paper, when marked, to any person so as to allow the name of the candidate for whom he has voted to be known, "and any person who violates the provisions of this section shall be guilty of an illegal practice," the Act states.

A person unable to vote without assistance is not debarred from voting, but he is required to make out in the prescribed form of his incapacity and the deputy returning officer may then assist the voter by marking his ballot in the manner directed by such voter, in the presence of the sworn agents of the candidates or of the sworn electors, representing the candidates in the polling station, and of no other person, and place such ballot in the ballot box. The deputy returning officer is required by law to indicate in the poll book where such votes have been marked by him.

In the case of a voter applying for a ballot, when the deputy returning officer does not understand the language spoken by the applicant, he is required to swear an interpreter, "who shall be the means of communication between him and the voter with reference to all matters required to enable such voter to vote, and in case no interpreter is found, such voter is not to be allowed to vote."

Voters are required to vote without undue delay, and as soon as they have voted the law requires them to parts of the room curtains off, into which the voter may retire for the purpose of marking his ballot, and these must be fitted out with a table and pencil.

A section of the Act governing court procedures under the Act provides that "no person may be required to state for whom he voted" in any proceedings which may arise.

Penalties are provided in the Act for persons guilty of illegal or corrupt practices at elections. Section 86 of the Act provides that: "Any person who during an election commits a corrupt practice or an illegal practice shall become disqualified from voting and incompetent to vote at such election. He shall also in addition to any other punishment for such offence by this or any other Act prescribed, forfeit to any person who in any competent court shall therefore sue—

(a) For every corrupt practice committed the sum of two hundred dollars and costs; and

(b) For every illegal practice committed the sum of one hundred dollars and costs."

Rochester Woman Tells Experience

"I suffered for ten years from nervous indigestion. I had no appetite and always felt miserable. I was in such a serious condition I thought my time for this world was getting short. My food didn't seem to nourish me at all and I only weighed 85 pounds.

"After taking Tanlac, I now weigh 108 and am gaining every day. Oh! there is such a wonderful change now. Tanlac relieved my troubles so quickly it surprised me. My appetite is splendid. I have plenty of strength and feel better than I have in years. I wouldn't take one thousand dollars for what Tanlac did for me."

The above statement was made by Mrs. Clara Lehman, Bristol Hotel, Rochester, N. Y.

Tanlac is sold in Bridgetown by S. N. Wear and by leading druggists everywhere.

LITTLE BENNY'S NOTE BOOK

(From The Halifax Herald)

Yesterday I found a old medicine bottle with the label on it saying Poison in big red letters, me thinking, G. wouldn't pop feel funny if he just gargled and then looked at the bottle and saw this label on it.

Being a fiver, and I took the label off the bottle and smeared some paste on it and stuck it on the outside of pops gargle bottle in the medicine chest, and this morning before breakfast I heard pop making gargle noises, and I quick ran in the bath room to watch him, and he was gargling and still holding the gargle bottle in his hand, me saying, G pop, you gargle musical.

Which pop started to choke and some of the gargle blew out and pop swallowed wat dident, and he kept on choking a while and then he sed, You mussen say anything to make me laff wen Im gargeling thats nothing to do, dont do that agen, you made me swallow some of that stuff.

Which just then he looked at the bottle and saw the poison thing on it, saying, Garg heavens, Ive got the rong bottle, Ive swallowed poison, Ive swallowed poison.

No you havent, pop, no you havent, you ony think you have, I sed.

Wat do you know about it, I feel queer already, Im going to call up the doctor, wat the dooce is his number, every munit counts in a case like this, sed pop. And he started to run out of the bath room like somebody in a fearse hurry, saying, I feel mitny funny. Me quick grabbing his leg and saying, No you dont, pop, you dont feel funny, you ony think you do.

Leave go, do you realize my life is at stake, do you want to kill me? sed pop. And he gave me a fearse crack and knocked me loose and kept on running to the telephone and I yelled, Hey pop, that wasent anything, I struck that label on jest for fun.

The rest being too sad to repeat.

Making Both Ends Meet

Sir John Foster Frazer, the English literature, was talking in New York about the privations of literary men.

"With the price of food trebled and quadrupled," said Sir John, "and the price of copy cut in half, what is the literary man to do?"

"I know a literary man in London who teaches up-to-date dancing in a night club all night, and writes stories and novels all day.

"You can't keep this up, old chap," I said to him sternly. "You can't burn the candle at both ends."

"But, hang it, Sir John," he answered, "it's the only way to make both ends meet."

EAGLE TRIES TO CARRY OFF GIRL

Vanderhoof, B. C., Oct. 27—A bald headed eagle, measuring seven feet from wing to wing, attempted to carry away a nine year old girl named Gibbs, from the veranda of her home here recently. The struggles of the child and her mother prevented the bird from getting away and it was finally beaten to death by Matthew Semple.

The girl suffered flesh wounds but is rapidly recovering.

BOOSTING NOVA SCOTIA FRUIT

Splendid Shipments Have Been Sent To be on Display at Big Exhibition, London

Under the direction of W. B. MacCoy, secretary of Industries and Immigration, there went forward of the S. S. Manchester Exchange, which sailed from Halifax on October 14th, one of the finest exhibits of Nova Scotia fruit that has ever been sent across the Atlantic ocean. This is to be exhibited at the London Daily Mail Imperial Show to be held at the Crystal Palace October 28th to November 5th. There also went forward at the same time an equally striking exhibit from the Dominion Atlantic Railway management at Kentville, who have in this way co-operated with the Provincial Immigration Department in advertising the resources of the Annapolis Valley.

The fruit forwarded by the Department of Immigration was collected by Professor P. J. Shaw, of the Agricultural College and packed by Walter Woodard in F. A. Parker's warehouse, Berwick, which consisted of something over fifty (50) boxes of such standard varieties as McIntosh Red, Kings, Baldwin, Cox Orange, Blenheim, Spy, Golden Russet, Greening, Red Stark, Wagner and Salome.

The Provincial Immigration Department exhibit and the D.A.R. exhibit is not entered into competition, but is being set up at this, which promises to be the most important fruit show, as a display which for the purpose of advertising the fruit growing resources of Nova Scotia. The occasion seems particularly opportune for this fruit show, being under the auspices of one of London's greatest newspapers, will receive a degree of publicity which is not ordinarily accorded to similar exhibitions. Nova Scotia should reap much advantage on account of this progressive work of the Immigration Department and of the Dominion Atlantic Railway management.

In addition to the display, there also went forward from the United Fruit Companies some three hundred boxes and some forty boxes from the Berwick Fruit Company, per J. N. Chute, of standard varieties to be entered into competition with similar exhibits from all parts of the fruit growing world. These private companies stand a chance of winning in the British Empire section.

1st prize—Gold.

2nd prize—Silver.

3rd prize—Bronze medals.

And cash, 1st prize—£50.

2nd prize—£25.

3rd prize—£10.

Nova Scotians will watch with interest the publication of the results of the show. They recognize that on account of dry conditions our fruit is hardly as large or well colored as usual and will be at some disadvantage on that score, but even at that they will be disappointed if some of these medals and cash prizes do not find their way to this province.

FORMER EMPEROR AND WIFE STILL INTERNED

Vienna, Oct. 25—Former Emperor Charles and his wife were still interned to-day in the castle of Count Esterhazy at Tata-Tovaros, according to Austrian official advices. They were in charge of Col. Siemen Falvy, commander of the national army.

The members of Charles' cabinet and other prisoners have been removed to the military prisons in Budapest. Besides the members of the cabinet there are being held as prisoners a large number of Royalists officers and prominent legitimists, including Prince Ludwig Windisch-Graetz. It is reported that documents of the utmost importance and a quantity of jewelry have been taken from the prisoners.

LIVES LOST IN A STORM IN SPAIN

Cadiz, Spain, Oct. 26—A severe storm to-day caused the loss of fishing smacks in the Strait of Gibraltar. While the crews of most of them were saved, several fishermen are known to have been drowned and numerous small craft are still missing.

At San Lucar de Barrameda a hurricane broke vessels from their moorings and drove them ashore, but no loss of life was reported. At Coruna a fishing fleet suffered considerable damage from the storm but most of the vessels were able to enter port. The trawler Dolores lost three of her crew, while the trawler Urbano, which went to her rescue, foundered with a number of men on board.

I. O. O. F.

Fifteenth Anniversary of Autumn Leaf Rebekah Lodge, No. 41.

Autumn Leaf Rebekah Lodge, I. O. O. F., celebrated its fifteenth anniversary in the lodge room Monday night, in the form of a Halloween supper, which was largely attended. The decorations were beautiful, both around the lodge room and on the tables. The waiters were uniformly dressed appropriate for the occasion. The centre of attraction was a large fifteen layer birthday cake, made by Mrs. F. E. Bath, Grand Conductor of the Rebekah Assembly for the Maritime Provinces and Newfoundland. Mrs. Bath also very nicely performed the duties of toast master. After more than eighty had enjoyed supper a short toast list was followed by games, music, etc. Some of the things noticed were that the five members who applied for the charter fifteen years ago were all present Monday night and are very prominent workers in the Order. Out of the thirty-nine, however, who were initiated fifteen years ago, only eleven were present. It was also noted that twenty-eight members in good standing are now non-residents, several of them residing in Western Canada and others in the United States. Mrs. J. W. Peters, Past President of the Rebekah Assembly, read a very interesting paper on the history of Autumn Leaf Lodge and the great benefits of Oddfellowship in any community in which it exists. A reading of local hits, composed and read by Mrs. M. T. Hopkins, of Centreville, was a feature of the entertainment programme which was greatly appreciated. The membership of this lodge now consists of one hundred and nine, sixty-nine ladies and forty gentlemen.

ARMISTICE DAY

"Buy A Poppy on Poppy Day"

Red Poppies made by French orphans, will be sold throughout the Allied countries for Armistice Day. The Poppy of Flanders has been adopted by the Great War Veterans Association, and will be adopted by all the Veterans of the Great War, in all Allied countries, as the Flower of Remembrance, or Memorial Flower.

The local branch of the G.W.V.A. will organize a "Poppy Day" for Saturday, November 5th, 1921. With the inspiration given by such a good cause, there should be a ready response from the public to assist in every way possible and to wear a Poppy on Armistice Day, showing an outward expression of sentiment.

THREE WORTHY OBJECTS

There are three most worthy objects which we hope to attain by this "Poppy Campaign," as follows:— 1. "To inaugurate the custom of wearing the Poppy as a memorial flower on Armistice Day, and thus cherish in perpetuity the memory of our sacred dead.

2. "To provide local branches with relief funds to meet the distress which is certain to be occasioned by widespread unemployment during the coming winter.

3. "To aid the orphan children of the devastated areas in France to become self-supporting by purchasing at a reasonable price, the replicas in silk or the Flanders Poppy which they are manufacturing."

A Promise that has made good

When KING COLE TEA was in its infancy we associated with it the slogan—"You'll like the flavor." It was a modest statement, yet when you come to think of it, it covers all that you are looking for in the tea of your choice. How well KING COLE has lived up to its promise is proved by the many thousands of users today.

Perfectly packed in bright lead foil and price marked on every package.

"YOU'LL LIKE THE FLAVOR"

HE WANTS A "GIRL"

Here is an ad. written by a man in desperation which ought to fetch her:

"We want a girl—not a servant, but one to be a member of the family, with family privileges, and do general housework.

"The family washing will be done out. The girl's washing will be done with ours, without expense to her.

"Evenings, Saturday afternoons and Sundays will be the girl's own time. No objections to her taking music lessons two afternoons in a week. We have a piano, on which she may practice two hours each afternoon.

"I will build the fires and have the rooms all nice and warm before calling her.

"We will do the sweeping and make beds, and also prepare buckwheat batter for breakfast.

"She can entertain her company in the parlor or sitting room; the children will be kept out of the way; no limit placed on the number of her relatives that may visit her or the time while they stay.

"Will not find fault with her for coming in the early hours of the morning from dances; will keep good warm fires for her and she will not be called to get breakfast.

"When she desires to go out evenings, and has no male escort, with permission of my wife, I will escort her.

"We do not have a cow or keep a dog.

"I will attend to bringing in coal, wood and water.

"Good wages will be paid."

FATAL ACCIDENT AT CANSO, N.S.

Twelve Year Old Boy Was Crushed To Death By Truck.

The funeral was held Tuesday afternoon of Percy Armstrong, the twelve year old son of Mr. and Mrs. Levi Armstrong, of Canso, who met such a sudden and shocking death on Saturday afternoon. He and a younger brother were on the delivery truck of Councillor Ferguson's Meat Market, which was being driven towards Whitman's wharf, when in some way, while jostling each other on the team, the unfortunate youngster fell off between the front and rear wheels, the latter passing over his body. He got to his feet immediately after, but soon collapsed, and died in about fifteen minutes after being taken to the Public Building near by. The funeral was conducted by Rev. I. A. Corbett, of the Baptist Church, the children of the public school with their teachers, attending in a body.

BUY FROM ADVERTISERS

No merchant saves his customers money by not advertising. The man who does the biggest volume of business can sell cheapest because most stores can increase their business 50 per cent. without paying one cent more for clerks, rent, heat, help in insurance, etc. Increased volume makes it more than possible to pay the little advertising bill and prune down prices to where they are even with or lower than those who do not advertise. If you follow the crowd you will go to the store that advertises, because you will know that there the cost of doing business is actually less because the increased volume of business has lessened the cost per sale. Read the advertisements in THE MONITOR for the best buys offered by the retail stores.

HIGHEST FRENCH HONOR FOR AMERICAN SOLDIER

Paris, Oct. 19.—The French Government has decided that before the body of the American unknown soldier is taken aboard the Olympic the Cross of the Legion of Honor is to be laid on the coffin as a tribute from France. M. Magnin, the Minister of Pensions, who was severely wounded in the war, will perform the ceremony. At the Arlington National Cemetery, Marshal Foch on Armistice Day will lay on the soldier's grave the French Military Medal and the War Cross. Thus the three highest French military decorations will be accorded to the unknown dead.

HE WOULD SOONER PAY MORE

A farmer had just buried his wife, and as the mourners wandered towards the cemetery gate, he slipped behind to "square up" with the grave digger, who would not accept any thing less than the stipulated fee, which the old farmer was reluctant to pay. They argued for quite ten minutes, and losing all patience the grave digger grasped his shovel in a threatening manner, shouted, "Do or die another shillin'—or up she comes. The threat produced the coin.

P. E. I. MAN KILLED

MRS. TURNER STUDYING BABY HYGIENE

She Asks The Physician

"My dear Mrs. Turner" said the family physician, "I can only repeat what I have said so many times—that not only must we see to it that the child properly assimilates its food, but, equally important, that the waste products are properly eliminated. Infant or child-hygiene plays an immense part at this day. The proper feeding of children is to-day an exact science and it has brought with it the knowledge of how to keep the child's alimentary tract in the proper condition. Have you noticed how many physicians now specialize in children's diseases? These men have at their command all the treatises on the maladies of infancy and childhood. Naturally they have the advantage over the general practitioner. But, do you think the specialist has more success in treating the children than has the physician who brought them into the world; who doted in and day out sees them, watches them and notices all their little individual peculiarities? The specialist comes as an outsider and has to learn of these things. The family physician knows them."

"One of the best known physicians in this country puts the matter of sanitation of the alimentary canal into a terse sentence—"Clean out, clean up and keep clean." Surely that is true about the grown-ups; is it still more so in regard to children. The grown-ups can think for themselves. But the baby? Ah! you get the point? Food that may suit one child may be absolutely unfit for another. The ice-cream cone, the tempting watermelon, the ever to be destroyed apple, these and many more amuse the woe, which may be soothed by remedies that cannot be given to the infant or small child, such as Castor Oil, a most nauseating old fashioned remedy. Now, to tell you the truth, I very rarely give Castor Oil. For years and years, in my own family as well as in outside practice, I give Fletcher's Castoria and I know of scores of other physicians doing likewise. You ask why? Well, I have had nearly thirty years experience with it, that is why. Experience teaches. You, Mrs. Turner, are still young and have only your first baby to worry over and because his little stomach is out of kilter you are scared. Now, just as I tell you. Give him Fletcher's Castoria as directed and you will find that your boy will be very comfy."

"But Doctor" broke in Mrs. Turner, "are you sure there's nothing injurious in Fletcher's Castoria?" "Why my dear Mrs. Turner, right on the wrapper of every bottle you will find the formula. And since you are of such an inquiring turn of mind, if you will send me your order to my office, I will send to you what the text-books say about those ingredients and explain it to you in every day language."

"The doctor's candid talk convinced Mrs. Turner that Fletcher's Castoria was the remedy for her to keep in the house and any other mother who takes the trouble to ask her physician will receive the same advice."

NEW YORK HERALD ON FISHERMEN'S RACE

The New York Herald in a leading editorial dealing with the International Fishermen's Race, says: "When Captain Marty Welch put the Gloucester fishing schooner Elsie over the line off Cape Ann on Thursday ahead of four other contestants in the elimination race for the honor of detaching the International Fishermen's Trophy, he did something more than win a race. He upheld the best sporting spirit of our country, the try and the purpose of W. H. Dennis, of the Halifax Herald, who gave the trophy to encourage the international contest to develop the most practical and serviceable type of fishing schooner combined with the best sailing qualities without sacrificing utility."

"The yachlike fishing schooner, the Mayflower, was properly excluded from the races by the practical sea-keeping and commercial vessels were entered to sail over the forty-mile course. Capt. Marty Welch's win was no walkover. He had to watch the stern of the Arthur James for the first five miles. After that Elsie's skipper, who is the Charley Barry in front and won by a comfortable margin."

MANY KILLED

London, Oct. 26.—The explosion of a powder magazine at Sant Elena fortress, reported from Savona, Italy, last night, was caused by extensive forest fires.

Several houses were wrecked and many persons killed and injured.

TRAIN PLUNGES INTO A RIVER

Rome, Oct. 26.—A passenger express train from Naples to-day jumped the track while crossing a river bridge twenty miles north of Reggio, in the province of Calabria, and plunged into the river. Early reports received here indicated the casualties of the accident would be heavy. The first message received, however, reported that Minister of Posts and Telegraphs Guffrida, who was a passenger, was uninjured.

DIES WITH HIS BOOTS ON

New York, Oct. 25.—"Bat" Masterton, former gunman of the west, and well known sporting writer of New York, had his wish to-day. He "died with his boots on," falling dead of heart disease in the office of the Morning Telegraph, where he had acted as sporting editor for the past decade.

Sixty-six years of age, and hale and hearty to the last, "William B. Masterton" was as picturesque a figure in American life as the late Buffalo Bill.

In his youth, when he lived in an atmosphere of "survival of the fittest," Masterton adopted as his motto "Never Forget a Friend or Forgive an Enemy." He carried out this axiom to the end. In the frontier days "Bat" is supposed to have killed twenty-five or thirty men in gun fights. The fact is that he did kill a number of so-called bad men while acting as marshal of Dodge City. If he hadn't, they would have killed him.

The only gun exploit of which Masterton talked in later years of his avenging the death of his brother who was killed by four drunken cowboys who rode into Dodge City to shoot up the town. "Bat" killed all four of them before night was over. That was back in 1878.

Wouldn't Have Time To Pay For Them

The boy entered the hardware store almost out of breath and as he stood looking round in a puzzled way the proprietor asked him what he wanted.

"I don't know," replied the boy as he scratched his head.

"Well, then, I can't serve you," said the hardware man.

"You see," explained the boy, "when I was coming along I saw a dog fight and I got so excited that I can't remember whether my father sent me for a foot rule or mother wanted a box of tacks."

"Then you will have to go back home and ask them," advised the proprietor.

"No, I'll not do that. I'll go out and see if I can find another dog fight, and perhaps, if I can find one, and get excited over it, I'll remember exactly what I wanted. You might have a foot rule and a box of tacks on the counter handy so that as soon as I remember I can rush in and snatch up the right article. Father or mother will be getting very impatient."

Must Be A Temptation

A man went into a drug store recently. He was a man who does not mind a joke against himself, but though he was well known to the druggist, the latter refused to supply him with some poison.

"But, rubbish!" remonstrated the customer. "You know me well!"

"Sorry, sir," persisted the druggist, "but I cannot give you poison without a prescription."

"Why," said the customer, "do I look like a man who would kill himself?"

"I don't know," said the druggist; "but if I looked like you I should be tempted!"—Houston Post.

It is of interest to know that Smith and Rhiland went into business at Lunenburg in 1906, and in the years since then have built 121 vessels—fishing, coasting and trading—of which the most famous has been the Bluenose.

The tern schr. Maid of France, Capt. John Haugh, has been at the Railway wharf, Bridgewater, the past six days, loading lumber for New York, the cargo being shipped by the Davison Lumber and Manufacturing Co., Ltd. On her last voyage the vessel brought hard coal from New York to Halifax.

The sum of \$20,000 was paid by George O. Hankinson, Weymouth, for the new three-masted schooner built there for Beazley Brothers, of Halifax, and which has been lying at that port idle ever since she was launched some months ago. Edward R. Gaudet, of Weymouth, built the vessel, and Mr. Hankinson intends having her name changed.

Blood and Nerves

Commander-in-chief of the Grand Fleet he was in command, too, of the American battleships which included American naval officers always were interested in Admiral Beatty's career because of the remarkably early age—thirty-nine years—at which he achieved rear-admiral's rank.

Captain John E. Reop, of Bear River, one of Digby County's well-known master mariners, has been promoted from the Canadian Volunteer to the Canadian Planter, a vessel double in size. He left Montreal last week for the Pacific and will call at Brisbane, Newcastle, Sydney and Melbourne, Australia, also Lunenburg and Hobart, Tasmania and Wellington and Auckland, New Zealand. His many friends will be pleased to hear of his promotion.

Captains in the British Navy since time immemorial have reached admiralship earlier than in the United States Navy. Up to ten or twelve years ago an American captain often approached the navy retiring age (sixty-four) before he was eligible to promotion. Viscount Jellicoe, victor of Jutland, was a rear admiral at forty-nine. Rear Admiral Sims was still a captain at fifty-nine, when on the eve of our entering the World War he was promoted Rear Admiral.

Captain J. F. Beauchamp, of Mobile, who purchased the three-masted schooner W. S. McDonald from Dr. T. H. McDonald, of Meteghan, will change the name of the vessel to the Louise E. Beauchamp. This schooner was one of the best constructed vessels ever launched from a Nova Scotia shipyard having been built at Meteghan. Captain George B. Hopkins, of Mobile, who has sailed vessels for years along the Atlantic seaboard, south and north of Cape Hatteras, has been appointed master of the vessel which was recently overhauled.

Captain and Mrs. Samuel Purdy, Yarmouth, are registered at the Carleton Hotel, Halifax. Captain Purdy is being promoted from the command of the oil tank steamer Victrolite, which arrived there from the south, to a larger ship of the Standard Oil Company, engaged in the trade out of New York. His successor on the Victrolite will be Captain C. M. Rowley, of the Calgarolite, which has just arrived at Montreal. Captain Owen, late of the Mina Bras taking the Calgarolite and Captain Smeltzer, Mahone Bay, going in command of the Mina Bras.

Digby Courier: The federal government steamer Acadia is operating in the Bay of Fundy. She was at the Lurcher Lightship off Yarmouth three days ago, and it is presumed by port authorities that she is engaged in a re-survey of the Bay, as the Board of Trade was recently advised that this would be done. She has not been into port here as yet, and it is impossible to find out just what has been done. The St. John Board of Trade has repeatedly called the attention of the government to the fact that there are many shoals reported by the pilots that are not on any chart.

With five feet of water in her hold, the S. S. Prince Arthur, bound from Yarmouth to Boston after being refloated, was compelled to return to Yarmouth Wednesday morning, where she docked and pumps were immediately set to work. The Prince Arthur left Yarmouth Tuesday night and when out ten minutes went ashore on rocks below Baker's wharf. She was refloated early Wednesday morning and proceeded on her way to Boston but about ten miles out her hold was reported filling with water and the ship was turned around and made port without difficulty. There were several Bridgetown passengers on board.

HOW WOMEN AVOID SURGICAL OPERATIONS

Some Are Extremely Necessary, Others May Not Be

Every Woman Should Give Lydia E. Pinkham's Vegetable Compound a Trial First

Chicago, Ill.—"I was in bed with a female trouble and had four doctors but none of them did me any good. They all said I would have to have an operation. A druggist's wife told me to take Lydia E. Pinkham's Vegetable Compound and I took 22 bottles, never missing a dose and at the end of that time I was perfectly well. I have never had occasion to take it again as I have been so well. I have a six room flat and do all my work. My two sisters are taking the Compound upon my recommendation and you may publish my letter. It is the gospel truth and I will write to any one who would like a personal letter."—Mrs. E. H. HAYDOCK, 6824 St. Lawrence Ave., Chicago, Ill.

A Vermont woman adds her testimony to the long line of those fortunate women who have been restored to health by Lydia E. Pinkham's Vegetable Compound after it had been decided an operation was necessary. Burlington, Vt.—"I suffered with female trouble, and had a number of doctors who said that I would never be any better until I had an operation. I was so bad I could hardly walk across the floor and could not do a thing. My sister-in-law induced me to try Lydia E. Pinkham's Vegetable Compound, and it certainly has helped me wonderfully. I keep house and do my work and have a small child. I have recommended 'Vegetable Compound' to a number of my friends and you may publish my testimonial."—Mrs. H. R. SHARON, Apple Tree Point Farm, Burlington, Vt.

In hospitals are many women who are there for surgical operations, and there is nothing a woman dreads more than the thought of an operation, and a long weary months of recovery and restoration to strength if it is successful. It is very true that female troubles may through neglect reach a stage where an operation is the only resource, but most of the commoner ailments of women are not the surgical ones; they are not caused by serious displacements, tumors or growths, although the symptoms may appear the same. When disturbing ailments first appear take Lydia E. Pinkham's Vegetable Compound to relieve the present distress and prevent more serious troubles. In fact, many letters have been received from women who have been restored to health by Lydia E. Pinkham's Vegetable Compound after operations have been advised by attending physicians.

Lydia E. Pinkham's Private Text-Book upon "Ailments Peculiar to Women" will be sent to you free upon request. Write to The Lydia E. Pinkham Medicine Co., Lynn, Massachusetts. This book contains valuable information.

You can have all these helps on the farm

In the best lighted farm homes, brilliant, clean electric light floods every room, cellar, stables, and other buildings at the touch of a button. These folks also have running water in bathroom, laundry, kitchen and outbuildings by turning a tap. No one turns the separator, grindstone, fanning mill, or churn—the "F" Power and Light Plant does all these jobs as quickly and easily as it pumps water. The womenfolk are not slaves to the wash tub, and there are no lamps to fill and clean—the "F" Plant ends such drudgery. They save time and labour by using an electric iron and vacuum cleaner. The farm help is contented, does more work and becomes attached to the place. You can live under the same happy and prosperous conditions. Call in the first time you are near and learn how the "F" Power and Light Plant will save dollars, and work for you.
