At the recent dog show in Halifax at which there were 330 dogs on exhibition, Mr. Paul Longmire, who put in his handsome English Setter "Lord Byng" won four first prizes and winning prize for best male of this breed exhibited.

The Evening Mail in referring to the show has this to say:

Sixteen English Setters paraded before the judge in that class and the judging saw another puppy "Lord Byng" go right through from the puppy class to winners dogs, the second time during the day that a puppy had accomplished that difficult task. This dog is owned by Paul W. Longmire of Bridgetown. In the opposite sex the Thornhaven entry "Thornhaven Homer" did the winning and was better than the dog. Another year when "Byng" has matured it is liable to be another story.

WILFRED FREDERICKS GORED BY A BULL

Wilfred Fredericks, who has been working on the farm of R. B. Fiske at Clarence, was gored by a bull last week and suffered very painful injuries.

They rescued the unfortunate young man in the nick of time, secured the bull and removed him to the stable, Young Fredericks will it is expected be laid up some little time, but was fortunate in not losing his life.

COUNCIL HOLDS REGULAR SESSION

The Town Council held its regular monthly meeting on Friday evening, Mayor E. A. Hicks presiding. Accounts were passed as follows:—

Streets Pay Roll	\$131.00
A. G. Walker (for gravel)	25.00
T. McAvity	37.61
Stove for Court House	15.00
T. McAvity	32.48

This offer was accepted in an appreciative manner by the Council and next session will doubtless see a well appointed street direct from Granville Street to the Cemetery.

Press Comment

GERMANY AND THE LEAGUE

Berlin "Vorwärts": The question of the entry of Germany into the League of Nations is inseparably bound up with that of the Security Pact. That Germany should enter the League is the will of the great majority of the German people, and Germany needs the assurance of permanent peace.

EAST AND WEST MOROCCO

Rome "Voce Repubblicana": It is to be hoped that Marshall Petain and General Naulin, with the soldiers and officers who have already put up so heroic a resistance against the bitterest attacks of the fanatic Berber, or European hordes of Abd-el-Krim, will soon be able to dissipate certain sinister forebodings; for the defeat of France would be an irreparable disaster for the whole of Europe.

EUROPE AND RUSSIA

London Outlook: The League has no force behind it. It can only appeal to the tradition of European solidarity, and that tradition is based on the faith of the Roman Empire. The Slav had no part in that Empire, differing in this respect from the German who was at least half-Romanized, and has therefore no share in its tradition. Let Geneva emphasize the common factors in European civilization and the Slav will feel himself alien to them. It would be consonant with the irony of history if the League, founded to ensure peace, became the citadel of the West in its age-long conflict with the East.

THE OLYMPIC GAMES

Blackwood's Magazine: It would be well if those who had the management of them resolved not to take them too seriously. The future of the world does not depend upon those who run faster than others or jump higher. Nor is peace brought one inch nearer to us by the ill-temper, most incident to international competition. If the so-called Olympic Games are to continue, they must be regarded as games, not as tests of statesmanship or of success upon the battlefield. They must be looked upon as contests of athletes, which they are, and nothing else. Otherwise they will not cause wars to cease, as once we were told they would; they will be of themselves the causes of war.

CHINA'S VITALITY

The Round Table: They (the Chinese) are above all things a vital people. They are very naturally and justly proud of their civilization; they are conscious that, civilization has stood the test of time whilst other civilizations have risen and fallen. They have learned some lessons from the war period that have escaped those who are more closely entangled in the chaos of Europe. They see the limitations of force and they have discovered the vulnerable spots in the harmony of the white races and they are prepared if necessary to make use of their knowledge. They have used the Communist propaganda—so fully and freely supplied by Soviet Russia—for their own ends. They are determined to resist intrusion and patronage from the West.

'KID' MARRIAGES

Parents Blamed by Judge For Hurrying Young Girls Into Matrimony

New York—Further comment on the causes of matrimonial difficulties was made yesterday by Judge Selah B. Strong when he blamed early, hasty marriages for the great deluge of divorces and separations which the courts have to deal with today. Only a few years ago Judge Strong said that he did not believe childless wives who were capable of self support should receive alimony. Yesterday he announced that while the law often compelled him to grant alimony whether he believed in it or not, he would scrutinize all demands for separation very carefully. He said that he believed that it was the woman quite as often as the man who is to blame.

THE RUNAWAY MARRIAGES

London Outlook: The League has no force behind it. It can only appeal to the tradition of European solidarity, and that tradition is based on the faith of the Roman Empire. The Slav had no part in that Empire, differing in this respect from the German who was at least half-Romanized, and has therefore no share in its tradition. INDIAN NAMES OF ACADIA

"The memory of the Red Man, How can it pass away, While their names or music linger On each mountain and stream and bay; While Musquodobit's waters Roll sparkling to the main; While falls the laughing sunbeam On Cheggogin's fields of grain.

"While floats our country's banner Over Chebucto's glorious wave, And the frowning cliffs of Scatarie The trampling surges brave; While breezy Aspotogon Lifts high its summit blue, And sparkles on its winding way The gentle Sissibou;

"While Escazon's fountains Pour down their crystal tide; While Ingoulish's mountains Lift high their forms of pride; Or while on Mabou's river The bottom plies his oar, Or the botmas burst in thunder On Chicabon's rock-girt shore?

"The memory of the Red Man, It lingers like a spell On many a storm-swept headland, On many a leafy dell; Where Tusket's thousand islets Like emeralds stand the deep; Where Blomidon, a stony grim, His endless watch doth keep.

"It dwells round Catalone's blue lake 'Mid leafy forests hid,— Round fair Descoense and the rushing tides Of the turbid Pisiquid; And it lends, Chebogue, a touching grace To thy softly flowing river, As we sadly think of the gentle race That has passed away forever."

TIRED MOTHERS

A little elbow leans upon your knee, Your tired knee that has so much to bear; A child's dear eyes are looking lovingly From underneath a thatch of tangled hair. Perhaps you do not heed the velvet touch Of warm, moist fingers, folding yours so tight; You do not prize this blessing overmuch— You are almost too tired to pray tonight.

But it is blessedness! A year ago I did not see it as I do to-day— We are so dull and thankless; and too slow To catch the sunshine till it slips away. And now it seems surpassing strange to me, That, while I wore the badge of motherhood, I did not kiss more oft and tenderly The little child that brought me only good.

And if some night when you sit down to rest, You miss this elbow from your tired knee,— This restless curling head from off your breast,— This hisping tongue that chatters constantly; If from your own dimpled hands had slipped And never would nestle in your palm again; If the white feet into their grave had tripped, I could not blame you for your heartache then.

I wonder so that mothers ever fret At little children clinging to their gown; Or that the footprints, when the days are wet, Are ever black enough to make them frown. If I could find a little muddy boot, Or cap, or jacket, on my chamber floor— If I could kiss a rosy, restless foot, And hear it patter in my house once more—

If I could mend a broken cart to-day, To-morrow make a kite to reach the sky, There is no woman in God's world could say She was more blissfully contented than I. But ah! The dainty pillow next my own

Is never ruffled by a shining head My shining birdling from its nest has flown— The little child I used to kiss is dead.

—MAY RILEY SMITH.

HOW TO LIVE LONG

Adam Brown of Hamilton, Ont., who will soon be 100 years old and who was one of the guests at the Canadian Day, said he had five rules which he would like the children to learn and obey if they would enjoy long life and keep young: 1, work hard in whatever you do; 2, don't worry after you have done your best; 3, apply the Golden Rule "do unto others as you would that they should do unto you"; 4, be honest in everything; 5, keep control of your temper and emotions.

HER NERVES BETTER NOW

Received Much Benefit by Taking Lydia E. Pinkham's Vegetable Compound

Chatham, Ontario.—"I started to get weak after my second child was born, and kept on getting worse until I could not do my own housework and was so bad with my nerves that I was afraid to stay alone at any time. I had a girl working for me a whole year before I was able to do my washing again. Through a friend I learned of Lydia E. Pinkham's Vegetable Compound and took four bottles of it. I gave birth to a baby boy the 4th day of September, 1922. I am still doing my own work and washing. Of course I don't feel well every day because I don't get my rest as the baby is so cross. But when I get my rest I feel fine. I am still taking the Vegetable Compound and am going to keep on with it until cured. My nerves are a lot better since taking it. I can stay alone day or night and not be the least frightened. You can use this letter as a testimonial and I will answer letters from women all about the Vegetable Compound."

COOKED EGG ON ICE

Demonstration of Mysterious Radio Power in N. Y.

New York—Cooking an egg over a cake of ice by wireless was one of several demonstrations of mysterious radio power given at the Radio World's Fair.

The egg was placed on a trying pan on the ice. In a moment the pan became red hot through action of waves that penetrated the ice. The egg soon was cooked to a turn. The trick was done through the so-called wireless lamp, the inventor of which also lit the bulb through a man's head.

The output of silver from Cobalt during July amounted to about 400,000 ounces, according to preliminary estimates. This had a value of less than \$300,000, or at the rate of about \$3,500,000 a year.

All attendance records for the Central Canada Exhibition were broken this year. There was a total attendance of 349,200, or 42,490 greater than the previous record of 307,000, made in 1922.

The first Italian ship to visit Vancouver in several years will be the steamer Piave II, of the Navigazione Libera Triestina, due here at the end of this month. This boat will inaugurate a new service between this port and points on the Mediterranean.

Production of paper by the Powell River Company, at Vancouver, will be increased 80 per cent by the completion of a \$5,000,000 development programme, now under way, according to an announcement made by M. J. Scanlan, a director of the company. At present the plant is turning out about 75,000 tons a year.

Signs of returning prosperity to Canada are evidenced by the fact that more Canadians are registered in the Canadian Pacific Rocky Mountain resorts during the past week than at any time since the beginning of the year. These resorts, which are usually filled almost entirely by Americans, contain a guest list last week which is 50 per cent Canadian.

Production of gold in Ontario for the first six months of this year amounted to \$14,506,218, as compared with \$11,310,060 in the corresponding period of last year, according to a report issued by the Provincial Department of Mines. Silver production increased from \$262,100 to \$3,792,662. Total mineral production was \$41,599,355, as compared with \$37,997,776.

John Edwin Hoag and Frank S. Wilton, who travelled across the entire continent in a small motor-boat arrived recently in Montreal and moored their craft to Canadian Pacific Pier No. 8 having come from Astoria, Oregon, via Columbia River, Celilo Falls, Port Benton, the Missouri and Mississippi Rivers, the Chicago Drainage Canal and Lake Michigan since May, 29th. From Montreal they continued their journey to New York and returned to the States, via Canadian Pacific Railway to Vancouver and Seattle in order to see the country.

The groundwork for what promises to be a big industry is now being developed by the Singer Sewing Machine Company at Thurso, a point on the Canadian Pacific Railway, on the north shore line to Ottawa. It is planned by the Singer Company to manufacture at Thurso all the woodwork required for their numerous plants in different parts of the world. Work on the new plant is being pushed with all possible speed and it is anticipated that shipments from Thurso will commence sometime early next year.

While the Canadian Railway Commission is besieged with all kinds of applications for reductions in Canadian freight rates, the Western group of railways in the United States is asking for a five per cent increase and the northwestern section of the group is asking more than that "as a measure of relief." Some of these roads are in the hands of the receivers. Yet these American railways already have higher rates than the Canadian roads, the freight revenues in the U.S.A. being 1,283 cents per ton mile on western lines as compared with 1,011 cents on all Canadian railways. The average American rate is 28 per cent above the average Canadian rate. Owing to the low grain rates in Canada, the C.P.R. average rate is 1,011 per ton mile, so that the average rate on American western lines is more than 30 per cent above the average C.P.R. rate.

Quality The most urgent requirement in Canada's Agricultural Products

CANADA produces every year large quantities of wheat, oats, barley, butter, cheese, bacon, beef, eggs, apples, potatoes, grass seed and clover seed that she cannot consume. Her natural outlet for these products is, of course, Great Britain—the one great consuming country of the world with an open market.

Unfortunately, nearly every other country with any surplus of food products seems to want to send its surplus to this same market. The keenness of the competition on this, our only market, and the energy and resourcefulness of our competitors began to impress themselves upon the Department of Agriculture some time ago, but it is only within very recent years that the real and only way to grapple with this problem has been discovered, or at least put into effect. This Department now believes, as do also most of the farmers of this country, that the "grading" of our agricultural products is the policy and practice that is seeing us through the struggle and will assure us of our rightful place on the British market.

"Grading" means the classifying of products, whether they be wheat, cheese, eggs or anything else, into what might be called in a general way "BEST", "GOOD", "FAIR" and "POOR" classes.

These exact words are not used in describing the grades, but that is what is meant. The purpose served in grading is threefold—

- (1) Educational. When the producer sees the relative quality of his product he is spurred on to maintain that quality if it is the "best" or to improve the quality where necessary. (2) Fair Play. When products are not graded the inferior article for various reasons often brings as much as the superior article, and the credit advantage of putting the superior product on the market is lost to the one who really deserves it. (3) Facilitating Trade. The dealer learns to have confidence in the article he is buying and buys more freely, because it is guaranteed by grading, and gradually everybody gets to know what the "best" article really looks like or tastes like. In short, grading brings about standardization and ensures to the producer the best price.

Canada now grades her cereals, grass seeds, hay, potatoes, apples, eggs, butter, cheese, wool and bacon hogs. The results have been in every case beneficial and in some cases quite markedly so, even though the grading system has been in effect in some cases for only two or three years, thus—

Cheese—Grading began April 1st, 1923. Canadian cheese the year before had fallen into such disfavor on the British market that New Zealand cheese was quite commonly preferred. Why Canadian cheese commands cents per pound higher than New Zealand.

Butter—Grading began same time as for cheese. The reputation of our butter was then indeed at low ebb. Canadian butter today, while not the best on the market, is rapidly improving in quality and gaining in reputation.

Hogs—Over two years ago the Department of Agriculture began to grade live hogs at the packing houses and stock yards. The 10% premium paid by the packers for "select" bacon hogs as against "thick smooths" has caused departmental graders has done wonders to improve the quality of our hogs and develop the bacon industry.

Best Canadian bacon, which ordinarily was quoted two years ago from 10 to 18 shillings a long hundredweight below Danish, has gradually grown in the estimation of the British wholesale buyer until it is now quoted at only from 1 or less to at most 5 or 6 shillings per long hundredweight below the best Danish.

This improvement in price is, of course, due to quality and has come about very gradually, the spread narrowing down by a shilling or two a month until now it is not at all a rare occurrence to see best Canadian selling on a par with the Danish article.

Eggs—Canada was the first country to grade and standardize eggs. These grades and standards apply not only to export, inter-provincial and import shipments, but also to domestic trading.

The basis is interior quality, cleanliness and weight. Standardizing Canadian eggs has established confidence between producer and consumer and between exporter and British importer, and has resulted in a greatly-increased demand for the Canadian egg both at home and abroad.

Other products might be mentioned where grading has worked to the great advantage of the producer and to the advancement of Canadian agriculture. Already Great Britain recognizes our store cattle, wheat, cheese, eggs, apples and oats as the best she can buy.

It is for us to so improve our other products, particularly our butter and hogs, as to bring them also into this list of "the best on the British market" and consequently the highest priced.

The Right Way to Boil Potatoes

Put the potatoes in an SMP Enamelled Potato Pot. Cover with water. Add salt to taste. Boil until soft. When finished, drain off all the boiling water through the strainer spout. No danger of steam scalding the hands because the handle securely locks the cover on. If your family uses potatoes, you require one of these.

APPO KRISPS THE COMING FOOD

Well Attended Meeting in the Court House Hears Splendid Address From Col. Innes, -New Food Receives High Praise.

On Friday evening a very well attended meeting was held in the Court House, called by the Board of Trade and addressed by Col. Innes, Secretary-Treasurer of Appo Krisps.

Mr. M. C. Foster, President of the Bridgetown Board of Trade presided. Mr. Gladstone Parker was appointed Secretary pro tem.

Col. Innes gave an excellent address referring first in a general way to the benefits of further industries to the Annapolis Valley with a new complimentary reference to Nova Scotia plants including Moirs and Stanfields and others which did business from coast to coast, and led up to the inception of the idea of utilizing apples in the Valley through the manufacture of Appo Krisps. He paid a suitable tribute to Mr. G. P. Hamphreys, who originated the idea and returned to his work during war time when in England he supervised the operations of thirty-three dehydrating plants. He had come to this country at the instance of the C. P. R. to look into the possibilities of developing industries in the Annapolis Valley and a result was the development of the idea of manufacturing Appo Krisps, the first time in history that a combination of fruit and grain had been used in the manufacture of a breakfast food. Patents had been taken out in Canada and the United States and were being taken out in other countries and the manufacture on an extensive scale as contemplated would furnish to orchardists a ready market for No. 3's and Domestic.

Col. Innes described briefly the main features of manufacture, the component product which is composed of 30% apples and 70% wheat, and expressed pleasure at the interest evinced through the Valley in the new product and the support which was being accorded by the investing public. The plant would employ about fifty hands at its first inception and there would of course be provision made as the business developed and markets were widened.

Short speeches were made by Mr. O. W. Graves, Stipendiary P. R. Pay, Mayor Hicks and Mr. F. M. Ruggles. All spoke definitely and to the point. Mayor Hicks felt sure that the new company had the support of Town Council, Board of Trade and the entire community.

Mr. F. M. Ruggles believed that Appo Krisps was the best investment which he had ever had anything to do with. It was a splendid product and had no competitor and that the conception and manufacture were unique. At the close of the meeting Col. Innes was warmly thanked for his excellent address.

During the evening cartons of Appo Krisps were distributed and most favorably commented upon. Many citizens had no hesitation in proclaiming the product more to their tastes than any breakfast food which they had thus far tasted. The new food has beyond question the highest nutritive and digestive qualities and it flavor is splendid. There seems no reason at all to doubt that once manufacturing is commenced the new product will gain instant favor with thousands of consumers and once tasted always desired and appreciated as a most palatable breakfast food with the highest nutritive properties.

SUCCESSFUL CONCERT UNDER AUSPICES OF CHILDREN'S AID SOCIETY

On Thursday evening, October 1st, a concert, under the auspices of the Children's Aid Society, was given in the Court House at Bridgetown. Capt. W. E. Gosner, in the unavoidable absence of the President, Canon Underwood, acted as chairman.

The chairman in his opening remarks, spoke in praise-worthy terms of the splendid work being done by the Children's Aid Society in this County, and stated that in the three counties under the care of the agent, there were about one hundred wards.

The house was filled to overflowing and, judging by the numerous complimentary remarks of the patrons, the entertainment was highly appreciated by all. Much credit is due Mrs. W. A. Warren and those who so efficiently assisted her in preparing and presenting the programme, which was as follows:—

Drill—Miss Hayden's class of girls
Vocal Solo—Miss Ethel Harding
Reading and Dance—Miss Elderkin
Vocal Solo—Miss McKinnon

Intermission—Sale of Candy
Reading—Miss Elderkin
Vocal Solo—Mrs. Harry Ruggles
Sketch—Aunt Betsey's Beaux
Vocal Solo—Mrs. McKinnon

FUNERAL OF MRS. WILLARD P. SMITH.

The last sad rites for Mrs. Annie M. Smith, wife of Willard P. Smith, were held at her home on Summer street, Tuesday afternoon, there being a very large attendance of the townspeople and other relatives and friends who came from Ipswich, Wakefield, Somerville, Boston, Brockton and other places and gathered to pay their last tribute of respect to the most estimable woman who had many friends and was highly esteemed by a large circle of acquaintances. The service was conducted by Rev. David Fraser of Somerville, a former pastor of the Rowley church, and a very intimate friend of the departed. He was assisted by Rev. Asa W. Mellinger, pastor of the Rowley Congregational church of which the deceased was a very active and worthy member. Pastor Mellinger read a scriptural selection. Rev. Mr. Fraser offered remarks paying a well deserved tribute to an exemplary life of the deceased, speaking of her lovable traits of character, her home life, standing in the community, church affiliations and daily life. Mrs. Harland Burke sang sweetly the hymns "All the Way My Savior Leads Me" and "Go Bury Thy Sorrow." Rev. Mr. Fraser read an appropriate poem and offered the invocation. Rev. Mr. Mellinger pronounced the benediction which closed the very impressive service.

The floral offerings were very profuse and beautiful including many wreaths and sprays and large baskets of flowers from relatives and friends, the Church Ladies Benevolent society, neighbors and sympathizing friends.

The burial was in the Smith lot in the Rowley cemetery where Rev. Mr. Fraser conducted the committal service. The pallbearers included William S. Foster, George A. Daniels, and the deacons of the church, Harlan C. Foster and John A. Marshall.

WEDDING

Buckler - Robar

A quiet but pretty wedding took place on Wednesday, September 29th, at the Rectory, Round Hill, when Lillian Wanita Robar, became the bride of Clifford C. Buckler, Rev. J. D. Townsend officiating. The bride looked very nice in an all-wool crepe dress, very effectively embroidered with a white silk ribbon bow at neck, also one in her hair. Her travelling coat was of navy velvet, with velvet hat trimmed with brocade and feather pom-pom. After a shower of confetti, the happy couple accompanied by the groom's father and sister, motored back to the home of the groom's parents in their prettily trimmed car of maple leaves and white ribbons, where a number of invited guests awaited their arrival. At the usual tea hour, all partook of the wedding breakfast. The wedding cake was handsome, showered with cocoanut and trimmed with a handle of white ribbon. The bride received a number of nice presents.

The invited guests were Mr. and Mrs. Thomas Durling and son, of Bridgetown; Mr. and Mrs. Arch Buckler and daughter; Mr. and Mrs. Tom Buckler, their three daughters and baby, Warren, and Miss Matilda Buckler, all from Dargie Section. A number of friends arrived later in the evening and gave them a hearty serenade and made a pleasant call.

Rheumatic People Can Now Find Relief

By Driving the Poisonous Acid From the System.

Rheumatism attacks people when the blood is thick and watery, or charged with impurities, thus setting up inflammation of the muscles and joints. Cold, wet weather or sharp winds may start the pain, but the cause is rooted in the blood and to get relief it must be treated through the blood. As a blood builder and nerve tonic Dr. Williams' Pink Pills are unsurpassed, and for that reason do not fail to give relief to rheumatic sufferers when given a fair trial. Among the rheumatic sufferers who have proved the great value of this medicine is Mrs. Simeon J. Tatton, Indian Head, Sask., who says:—"For over two years I was an intense sufferer from rheumatism and until I began the use of Dr. Williams' Pink Pills no treatment that I took helped me any. The trouble grew so bad that I could not move around the house without help, and finally I had to give up and go to bed. Words cannot tell how much I suffered, and I could not bear to have anyone come near me. Finally one of my neighbors strongly urged me to try Dr. Williams' Pink Pills, and I decided to do so. In the course of a few weeks I could feel an improvement, and I was able to get up. I kept on taking the pills until all traces of the trouble were gone, and I could again do my household, feeling like a new person. WEDDING

Jefferson—Sails

A quiet but pretty wedding took place at the home of Mr. Norman Sails, on September 29th, at 12 o'clock, when his daughter, Dorothy, was united in marriage to Mr. Wallace Cleveland Jefferson, of Bear River East, only the immediate friends of the family being present. The house was prettily decorated for the occasion with ferns and autumn flowers. The bride who was given in marriage by her father, looked charming in a gown of powder blueorgette crepe and carried a shower bouquet of white asters, and pink and white snapdragons.

The ceremony was very effectively performed by Rev. Frank Smith, pastor of the Baptist Church of this place, and the wedding march was played by Miss Laura Sills, sister of the bride. After a dainty luncheon was served, the happy couple left for a short motor trip, during which they will visit the Queens County Exhibition. The wedding gifts were numerous, among which was a generous cheque from the groom's father. After their return home, Mr. and Mrs. Jefferson will reside at Bear River East.

Thomas—Hirtle

The marriage took place on Thursday morning, September 24th, at the home of Mr. and Mrs. Dexter Jarvis, of Miss Mildred Hirtle, of West Paradise, and H. Thomas, of Fredericton, N. B., the Rev. W. S. Smith, of Paradise, officiating.

Rheumatic People Can Now Find Relief

By Driving the Poisonous Acid From the System.

Rheumatism attacks people when the blood is thick and watery, or charged with impurities, thus setting up inflammation of the muscles and joints. Cold, wet weather or sharp winds may start the pain, but the cause is rooted in the blood and to get relief it must be treated through the blood. As a blood builder and nerve tonic Dr. Williams' Pink Pills are unsurpassed, and for that reason do not fail to give relief to rheumatic sufferers when given a fair trial. Among the rheumatic sufferers who have proved the great value of this medicine is Mrs. Simeon J. Tatton, Indian Head, Sask., who says:—"For over two years I was an intense sufferer from rheumatism and until I began the use of Dr. Williams' Pink Pills no treatment that I took helped me any. The trouble grew so bad that I could not move around the house without help, and finally I had to give up and go to bed. Words cannot tell how much I suffered, and I could not bear to have anyone come near me. Finally one of my neighbors strongly urged me to try Dr. Williams' Pink Pills, and I decided to do so. In the course of a few weeks I could feel an improvement, and I was able to get up. I kept on taking the pills until all traces of the trouble were gone, and I could again do my household, feeling like a new person. Three years have passed since that and there has never been the slightest return of the trouble, so that I feel safe in saying that the relief brought by this medicine is permanent."

BELLEISLE DIVISION, CELEBRATES ITS THIRTIETH ANNIVERSARY

Grandeur Theatrical Present and Also Spending Time in Resisting and Organizing Divisions of the Sons of Temperance.

Belleisle Division, Sons of Temperance, celebrated its 30th anniversary with a public meeting in their Hall at Belleisle. A capacity audience was in attendance. Among those present being members of the Seymour Division, of Granville Centre, and Greenleaf Division, of Upper Granville. Harry G. Parker, Deputy Grand Worthy Patriarch, of Belleisle Division, was chairman, and in addition to these duties, which he discharged in a most excellent manner, also read a history of the Division from its beginning—a most interesting and instructive document. On the platform with the chairman were two other charter members of the Division, Mrs. I. J. Parker, who has seen nine of her children become members of the Division. Her oldest son, H. G., being its most prominent worker at the present time, and Miss Cora Parker, Miss Eugenie Troop, Worthy Patriarch, also had seats on the platform. The meeting opened with a chorus, by members of Belleisle Division, then followed the history of the Division from its inception, by H. G. Parker. All the ladies on the platform briefly addressed the gathering, and choruses were rendered by members of Seymour and Belleisle Divisions between speeches. Rev. A. D. MacKinnon, of Bridgetown, was the first speaker, and gave a most interesting and forceful temperance talk, emphasizing most particularly the benefit to the community from a Division of the Sons of Temperance. He was followed by A. B. Clark, of Bridgetown, a veteran worker, who told the audience of the benefits which had come into his life through the pledge taken in the Division room. The last speaker was R. S. Theakston, of Halifax, representing the Grand Division of Nova Scotia. The meeting closed with the singing of the "Good-night Ode" of the Division. Mr. Theakston spent Thursday at Upper Granville, in the interests of Greenleaf Division, which has not been meeting for some months, and was successful in creating an interest sufficient to warrant the Division in resuming their sessions on Friday, October 9th, when they will start work with bright prospects for the fall and winter months. On Friday Mr. Theakston did some preliminary work in Bridgetown, looking toward the organization of a Division here.

Our Councilor, Mr. J. V. Andrews, spent Thursday in town. Mr. Albert Warner from Digby, was the two days guest of Mr. John Franklin, last week. Mr. Hamilton, our pastor, has returned to Acadia, to resume his studies for the winter. Mr. Chesley Forsythe, from Bridgetown was the week end guest of Mr.

and Mrs. C. B. McNeil, Miss Lennie McNeil also spent Sunday with her parents, at the same home.

Mrs. Willis Trefrey, accompanied by her brother-in-law, Mr. Fred A. Trefrey, left for her home in Stratford, N. H., on Wednesday 16th. Mrs. Trefrey came to Bloomfield two years ago, where she so faithfully took care of the late Mr. and Mrs. A. O. Trefrey, who both departed this life a few months ago. The highest respect and esteem of the whole community goes with Mrs. Trefrey, who always had the sweet smile and kind word for all whom she came in contact with.

Miss Nettie B. Marshall and Miss Annie M. Bragg, have returned to their homes after spending the summer at Lour Lodge, Digby.

Mr. Wizeral Height, and family, went to U. S. A. last week, where they will spend the winter.

Miss Pearl Marshall and Miss Susie M. Bragg, spent Friday and Saturday in Digby, with friends.

Mr. Robert Marshall, from Digby, spent his vacation with his parents, Mr. and Mrs. Howard Marshall, of this place.

FOREIGN LOANS OF U. S. ARE GROWING

Advances to Countries and Industries This Year Exceed One Billion.

New York—Opening of the French debt funding negotiations, with a prospective settlement likely to pave the way for a fresh flood of European loans, has directed attention to America's growing prestige as banker to the world. Loans to foreign countries and industries, including private bank credits and advances, so far this year have exceeded one billion dollars, and, with negotiations pending for an additional billion dollars, 1925 promises to set a new high record in foreign financing.

Fortified by the possession of almost one-half of the world's supply of gold, the United States has not found it difficult to extend its credit to the rest of the world. Yet in the space of three months its investors are sending to foreign nations more money than it took to build the Panama Canal. The total of private American investment abroad, exceeding \$10,000,000,000, or approximately \$50 per capita, approaches the assessed valuation of the world's richest city, New York, and its manifold industries and scores of skyscrapers, and is more than double the currency in actual circulation in the United States.

Since the close of the world war, foreign loans offered publicly in this country have totalled about \$5,000,000,000. In 1924 alone the total was \$1,243,155,000, exclusive of countless private banking operations, which are not publicly advertised.

SALUTE TO THE TREES.

by Henry Van Dyke
Many a tree is found in the wood,
And every tree for its use is good.
Some for the strength of the gnarled
root,
Some for the sweetness or flower or
fruit;
Some for the shelter against the
storm,
And some to keep the hearth-stone
warm;
Some for the roof and some for the
beam,
And some for a boat to breast the
stream—
In the wealth of the wood since the
world began
The trees have offered their gifts to
man.

But the glory of trees is more than
their gifts:
Tis a beautiful wonder of life that
lits,
From a wrinkled seed in an earth-
bound clod,
A column, an arch in the Temple of
God,
A pillar of power, a dome of delight,
A shrine of song and a joy of sight!
Their roots are the nurses of rivers
in birth;
Their leaves are alive with the breath
of the earth;
They shelter the dwelling of man;
and they bend
O'er his grave with the look of a lov-
ing friend.

I have camped in the whispering
forest of pines,
I have slept in the shadow of olives
and vines;
In the knees of an oak, at the foot of
a palm,
I have found good rest and slumber's
balm,
And now, when the morning glids the
house,
I open my window and make salute:
"God bless thy branches and feed thy
root!
Thou hast lived before, live after me,
Thou ancient, friendly, faithful tree."

RANDOM RHYMES

By W. H. Currie
Here lies what's left of PHILBERT A.
Who let his Camp Fire get away.
Though PHIL ran fast, the fire ran
faster,
And PHILBERT shared in the dis-
aster.

Old SILAS K. was level-headed
And fire at HOME he'd always
dreaded,
But in the WOODS he'd clean forgot
That Fire is Fire WHEREVER
met!

A sprightly dame was MINNIE MAY,
"Ain't Nature just too sweet,"
she'd say.
The picnic fire that MIN forgot
Burnt off a forty acre lot.

Said ANDY GUMP, "I like it rough,
I like this red-blood backwoods
stuff!"
Then lit his fire against a stump—
For such a man was ANDY GUMP.

Young GEOFFREY J. loved Nature
well,
"Egosh," he'd say, "ain't Nature
swell!"
Then toss his glowing stn's around
And burn the Forest to the ground.

"This is the life," cried CEDRIC C.
"to eat beneath the greenwood
tree!"
But what a mess he left behind,
Of cans and crusts and bacon rind.

MANY "POOR" DIVORCES

Five Pounds is Average Cost For Them in Britain.
London.—An indication that divorce in England is not necessarily a "luxury" enjoyed by the rich alone, is contained in the latest figures for divorce cases to be heard at the Michaelmas law sittings, which open October 12th. Of the total of 750 petitions for divorce, more than 300 were filed by so-called "poor persons," who took advantage of permission to sue as poor people, and thereby escaped the usual heavy fees. Five pounds is the average cost of "poor persons' divorce, as compared to hundreds of pounds in the case of affluent people who employ legal lights of the English Bar. Sev- enty, and wives form the majority of those seeking divorce. Women are taking advantage of the law, which places them on an equality with men and enables them, on proof of misconduct alone, to obtain divorce. During the 11 years that the "poor persons' divorce" laws have been in operation, 10,300 petitions have been filed and 7,342 decrees pronounced.

HYDRO DEVELOPMENT IN NOVA SCOTIA

St. John Globe.
Nova Scotia, in its hydro possibilities is on a competitive basis with the other provinces of Canada, except for the Niagara and St. Maurice power developments, according to a statement made by J. C. G. Kerry, hydro electric authority, made to the Premier of Nova Scotia recently. Nova Scotia has completed hydro work, which has been under construction and has on hand three projects which will provide a total initial development of 25,000 horse-power. Included in the power projects are sites on the Liverpool river, one of the finest hydro possibilities in the Maritimes.

SENTIMENTALISM AND CRIME

A spirited attack upon uplifters and reformers who sentimentalize over criminals and forget the victims of crime is contained in an article, "Crime and Sentimentality," by James F. Ford, in the October Scribner's Magazine.

Concerning the part which women play in this work, Mr. Ford says: "That which is usually termed 'reform work' is, like embroidery on textile fabrics, flatter suited to women than to men. In short, such is the emotional nature of the gender sex that the prospect of redeeming a human soul from sin, or a number of human souls, has an alluring charm in eyes that can make or mar a life. Women can be organized by an experienced professional almoner into associations or leagues for the reformation of evil-doers, and it frequently happens that a woman will marry a man so worthless and undeserving of her sympathies as to regard her simply in the light of what he calls his 'meat ticket.' But there are no leagues or associations that give aid to those who have suffered through criminal operations, and no woman would think of marrying a man simply because he has been shot through the lung and robbed of his savings. Far more gracious in sentimental eyes is the estate of him who did the deed.

"There is but one solution for what the welsh school of thought calls the 'crime problem' and that solution is so simple and effective as to render the use of the word 'problem' superfluous. So long as we slubber over thieves, murderers, and swindlers, instead of punishing them, the periodic 'crime waves' will continue to roll on, robbing us of our savings and disturbing our peace of mind. And of one thing we may be sure, the present deplorable conditions will continue so long as sentimentalism is permitted to usurp the offices that rightly belong to justice and reason."

James Cochran, proprietor of the Aylesford mashing shop and foundry, has been engaged to keep the drills in order, and although over eighty-five years of age, Mr. Cochran has moved to a camp on the Lake George Road, and is as busy and interested in his work as many men would be of half his age.

DUBS UNITED STATES A FOOL'S PARADISE

Movie Morals, Evangelists' Science and Medicine's HHS Mocked by Bishop.
Colorado Springs, Colo.—In a sense the United States has all the marks of a fool's paradise, in which the inmates flock to the movies for their morals, to evangelists for their science, and to patent medicines for their ills, the Rt. Rev. Irving P. Johnson, Protestant Episcopal Bishop of Colorado, said in an address here on the "Muddle of Civilization" last night.

"One wonders how films produced even when censored by such an astute politician as Will Hays, can turn 'Patty' Arbuckle, Douglas Fairbanks and Charlie Chaplin into great moral leaders; Mr. Volstead and John Galen Locke (former grand dragon of the Ku Klux Klan in Colorado) into spiritual uplifters; William Jennings Bryan and Mary Baker Eddy into exponents of scientific truth and the local ministerial association into lawmakers and moral scavengers, Bishop Johnson said.

"I maintain that these are all honorable folk, but that the people have mistaken their calling. So long as we continue to select our governors, legislators and judges because they have the same prejudices as ourselves, hell is just around the corner. "So long as we secularize our ministers and turn them from the difficult task of making individuals righteous into the easy job of telling us how the government should be run, we will be placing the sacred profession on a par with the corner grocery.

"So long as half-baked philosophers in educational institutions, whose morals are often as hazy as their theories, are going to pose as leaders for our youth—and so long as lawyers are going to use their talents merely to aid and abet our great corporations—just so long society will mill like sheep."

TRAIN KILLS AGED WOMAN

Mrs. Silas Lantz, 80 Years of Age, Found Dying Beside Track.
Middleton.—Found on the railroad tracks near Kingston Station in a dying condition Tuesday morning after the D. A. R. freight train had passed, Mrs. Silas Lantz, aged 80 years, passed away without regaining consciousness. Mrs. Lantz lived with her daughter, Miss Cora. Tuesday morning she stated her intention of paying visit to a neighbor who lives nearby across the railroad track. Several minutes after Mrs. Lantz left the house the freight train passed. Almost an hour later Ronald Norton, a youth living near by, passed and saw Mrs. Lantz lying in a ditch about 20 feet from the track. Dr. Devine was passing at the time and he gave every assistance but Mrs. Lantz was beyond aid. She passed away twenty minutes later.

The train crew knew nothing of the accident, although it was evident that Mrs. Lantz had been struck and dragged for some distance. A coroner's inquest was held last night, with Magistrate Frank V. Palmer presiding, and returned a verdict that Mrs. Lantz had come to her death by being struck by a D. A. R. freight train near Kingston Station.

Mr. Wrigley who spends over a million dollars a year in newspaper advertising says you must keep it up or the buyer forgets you. Whether yours is a 5 cent or a \$50,000 business, keep telling about it.

Shiawassee County (Mich.) people last year spent \$82,841 per capita for the purchase and upkeep of automobiles and only \$1.20 per capita for the support of religious work. The Rev. E. E. Robinson of that city told the Kiwanis Club. The total spent for automobiles was \$2,915,000 and for church support \$50,000. He estimated that out of a population of 37,000 in the county, 22,000 are without church affiliations.

A VISIT FROM THE GYPSIES

Shades of Prosper Merrimee and Carmen! The gypsies arrived in Bridgetown on Saturday afternoon last, not as in the olden days with horses and lofty caravans, for the old order changeth. This time they came in high powered motor cars, seven in number, loaded to the Pilsnoll mark with families, equipment and all other household gods. The men and boys enjoyed a breathing spell and soberly walked about the town while the female portion darted here and there telling fortunes galore. The glint of bangles and the waving of red scarfs lent a colorful air to proceedings. The stay was not very long but one gentleman asserts that he was approached by one of the sirens who grasped his hand and predicted for him a long and happy career. While this was proceeding he maintains that the skilful maiden put a hand into his trousers pockets, abstracted four dollars and beat it. "Ah, said he, had I been thirty years younger she wouldn't have got away with it." But get away she did and no longer is any mention palatable concerning the slick and slippery maids of Romany.

When it costs \$500 for an average family to cross the ocean as immigrants these days it is small wonder that immigration is not flowing in with the volume of pre-war days. The high cost of travel keeps many, who doubtless would be glad to come at home.

The new school house is a noble looking building. It stands on higher ground and can be seen for a long distance. A good landmark.

Our town was visited by Gypsies one day last week. Mothers looked after their children, merchants after the money box, timid people looked the doors.

"A Gypsy lass" rushed into a store thrust her hand into the pocket of a big, strong, store keeper, but in that particular pocket was only a knife, in the other pocket twenty dollars rested safely.

The lady was firmly clasped by a strong hand, and was as the boys say "run out" loudly screaming, at the somewhat unusual treatment.

Another of our well known citizens had an adventure with a wild beast. As our friend was going on his way in a fine new car, at a lonely part of the way, the animal came out went along for a short distance, then got in front of the car. He dared not go over it, or near it, for the small creature could take a terrible revenge. By skilful management the danger was avoided, and the car and driver got home. Only the cool, sweet air of a September day was perceptible.

Rev. A. H. and Mrs. Whitman, also called upon Mr. Coldwell, at the home of Mrs. Daniels, who spent a year as the minister of the parish where Mrs. Whitman had her home.

Friends met in the vestry of the Baptist Church, where Mr. W. McKewen was the guest of honor. Deacon McKewen had held that position (Continued on Page Four)
