CANADA LUMBERMAN

WEEKLY EDITION

The Lumberman Monthly Edition, 36 pages } \$1.00 PER YEAR { The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES, AND OTHER FOREIGN MARKETS.

VOL. XI. TORONTO, MONTREAL AND WINNIPEG, AUGUST 24, 1904 No. 30

CANADA LUMBERMAN

PUBLISHED BY

The G. H. Mortimer Publishing Co'y
of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Offices:

IMPERIAL BUILDING MONTREAL

310 McLELLAN BLOCK, WINNIPEG

21 GREAT ST. HELEN'S, LONDON, E. C.

The Weekly Lumberman - Published every Wednesday, contains reliable and up-to-date reports of market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canadian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

The Monthly Lumberman - A 32-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, character sketches and portraits of leading lumbermen, etc. Its special articles on technical and mechanical subjects are especially valuable.

CURRENT TRADE CONDITIONS.

ONTARIO.

The lumber demand is lacking in snap and in some of the upper grades of pine prices are weaker. Unfortunately, the season has been very unfavorable for fall wheat, and the yield throughout the province is little more than half that of last year. However, this is partially offset by the higher price of wheat as compared with one year ago, although it is doubtful that the present price will be maintained. The strike of builders' laborers in Toronto has curtailed the demand for lumber in that city, as retail dealers will not increase their stocks while uncertainty exists in respect to building operations. There is a very noticeable disposition on the part of operators to curtail the log production the coming season. Two of the largest firms in the Ottawa district are reported to have decided not to operate this winter, and their withdrawal will mean a large reduction in the log crop. Very few firms will operate in square timber, as the low prices of the past season have wiped out any profit in the business.

Soft elm leads the hardwoods in point of demand. Birch is holding its own, but basswood has been showing signs of weakness. Prices of other hardwoods are about steady.

The shingle market is most irregular, influenced by a sharp decline in the prices of B. C. shingles. For Ontario delivery xxx R.C. cedar shingles are quoted at \$2.00, and xxx at \$2.70. These quotations,

however, cannot be taken strictly as the market price, for several of the smaller manufacturers have cut 10 cents below these figures. White pine and white cedar shingles have sympathized and lower prices are the rule. Lath are also slightly weaker, 1/2 inch No. 1 white pine being quoted at \$3 for Toronto delivery.

MANITOBA AND BRITISH COLUMBIA.

Harvesting operations in Manitoba and the North-West Territories are about to commence, and great interest is shown by all classes of business men in the prospective crop. It seems likely that the yield of wheat will be larger than last year, although reports indicate considerable damage by rust. During the harvesting period the retail demand for lumber is likely to be light, but this should be followed by an active fall trade. Prices of lumber are about steady, with importations from the United States still being sold below the average market price. The interior mills of British Columbia are making considerable shipments eastward, and the export mills are comparatively busy, foreign shipments this year up to July 30th comprising thirty-seven cargoes. There is no improvement in the logging market and several of the largest camps remain closed. Recent forest fires in British Columbia have destroyed much valuable standing timber.

UNITED STATES.

Lumber prices are practically unchanged as compared with those ruling last week. The advance in the price of yellow pine has been well maintained and it is believed that the curtailment policy which is being pursued will result in a further advance in that class of lumber. The curtailment during the month of July amounted to 144,137,107 feet, which cannot but have a sustaining influence upon prices. The consumption of lumber for building purposes continues fairly active, as is shown by the fact that during the month of July the building permits taken out in twenty-six of the leading cities represented a valuation of \$35,000,000, as compared with \$29,000,000 for the corresponding month of 1903. Numerous orders for rush shipments indicate that retail stocks are light. Box and cull pine promises to continue scarce and any re-

vival in the general trade would doubtless be followed by an advance in the prices of these grades. The Eastern States market is reasonably quiet, but even in this section the lower grades are scarce and strong in price. Norway and hemlock mill stuff are in good demand, such timber being able to compete successfully with southern pine. In hardwoods, elm, birch, and ash are doing better. Soft elm is scarce and selling at good prices. The supply is limited and we would not be surprised to see considerably higher prices for this class of lumber before the close of the year. Plain white and red oak are also scarce.

GREAT BRITAIN.

Notwithstanding fine weather in Great Britain during the past month, the consumption of lumber has not increased to any extent, and the outlook is somewhat disappointing. The disposition of buyers continues to be to place orders only when they know where they can dispose of the stock, which clearly indicates that there is not much confidence in the future. The depression has prevailed so long that some importers are looking for a reaction in the fall, but at the present time signs in that direction are lacking. While the general lumber market is weak, it is refreshing to learn that Canadian pine and spruce are holding steady, no doubt due in some measure to light imports. From Manchester comes the report that there is an upward tendency in prices of spruce deals, some importers having recently advanced their quotations five shillings per standard. It is predicted that when the imports slacken off prices will further advance. There are large stocks of spruce deals on hand in Manchester and Liverpool, but it is said that the bulk of this class of lumber has now arrived. First quality pine and spruce deals have sold fairly well in a retail way, but the auction sale prices have not been satisfactory, prices realized being 10s. per standard under the value of the same lumber a few weeks ago.

STOCKS AND PRICES.

It is claimed that yellow pine lumber is now selling \$1.50 a thousand higher than it did in June.

Jobbers of cooperage stock at Buffalo quote first-class dry elm flour barrel staves at \$10.25 to \$10.75; first-class basswood heading, 7 1/2 to 8 cents; coiled hoops, \$9 to \$9.50 for 5 1/2 inch, and \$9.50 to \$10 for 6-foot.

At an auction sale held by Foy, Morgan & Company, London, England, on August 10th, spruce deals brought the following prices: Ex Holmes, from Montreal, 10-16 feet 3 x 9 in. second quality, £9 per

standard; 10-14 ft. 3 x 7-8 in., £7 10s.; 11-14 ft. 3 x 9 in. third quality, £8 15s.; 11-14 ft. 3 x 7-8, £7 5s.; 11-14 ft. 3 x 9 in. fourth quality, £7 5s.; 10-16 ft. 3 x 9 in. second quality, £8 10s.; 10-16 ft. 3 x 9 in. third quality, £8 10s. Ex Mount Temple, from Montreal, 10 ft. 3 x 9 in. second quality, £8 15s.; 10-15 ft. 3 x 9, £8 10s.; 10-16 ft. 3 x 8-10, £7 5s.; 9-16 ft. 3 x 7, £7.

TO HOLDERS OF BIRCH LIMITS

Can you cut birch into Squares, &c. We can also take birch cut on the sweep with a jigger or small band saw. Large quantities required. Write in first instance to "Finance," c/o CANADA LUMBERMAN.

BUSINESS NOTES.

F. Fulmer & Company, lumber operators, St. Martins, N. B., are announced to have made an assignment to E. B. Jones, F. Schofield and C. B. Lockhart, of St. John.

A meeting of the creditors of William Curry & Son, lumber dealers and planing mill operators, Windsor, N. S., was held in Halifax last week. The claims presented aggregated about \$23,000. George H. Curry was appointed assignee, and an advisory board was named, consisting of Rufus Curry, W. M. Christie, and C. De Wolfe Smith, to consult with the assignee as to the disposition of the estate, which it is expected will yield about fifty cents on the dollar.

NEW BRUNSWICK LETTER.

(Correspondence of the CANADA LUMBERMAN.)
 ST. JOHN, N.B., August 15th, 1904.
 The lumber trade in this vicinity has shown little variation since this time last month. All the mills are running at their full capacity and logs are plentiful. Shipping has been somewhat less brisk during August so far than was the case during July, and the result is apparent in the increasing stocks on the wharves, although the surplus is not yet so great as to cause any inconvenience.

Taken altogether, the outlook for English deals has not changed materially since last writing. The same indifference on the part of buyers, the same lack of stimulus generally, continues. Few orders are being booked and practically no contracts are being made. Careful enquiry leads to the conclusion that orders for September delivery are very small. Whether or not this condition of affairs will continue throughout the Autumn is a question, but the situation looks decidedly that way.

A specification containing the usual percentages of usual widths would be worth on wharf at St. John, from \$11.00 to \$11.50 per M s. ft., price for fourths and ends.

Freights have shown no change from

those mentioned last month, viz., 32s 6d. to 35s. per standard to West Coast of England.

Provincial merchantable boards are plentiful and the demand is not at all brisk. They are worth, at St. John, from \$0.75 to \$0.85 per M. s. ft. These are mostly disposed of in Boston and vicinity.

American deals are scarcer at this port than has been the case for many seasons, as most of the American manufacturers obtained their logs from Quebec and New Brunswick limits. The few that have American logs have been sawing only a few weeks and for this reason very little American lumber is available here as yet. To date the trade in this line has been quite brisk and prices good. Shipments from Maine have been very heavy and whether the market will hold its own or not during the next month is a question. While the dealers here are quite optimistic, the probabilities are that by mid-September prices will not be as firm as they have been.

American deals are usually shipped separately, in two classes, wide and narrow. A specification containing 20 per cent. 6s and 8s per cent. 8s would probably be worth from \$13.00 to \$13.50 per M s. ft. f.o.b. St. John, and a specification of wide containing say 25 per cent. 12s, 65 per cent. 10s and 10 per cent. 12s

should bring from \$15.00 to \$15.50 per M. As the American logs are small this year compared with other years past, the proportion of widths in the above specifications would probably be quite hard to obtain, and of course any increase in the percentage of narrow deals would mean a lower price. Freight to New York from St. John are offering freely at \$2.75 per M.

BRITISH COLUMBIA LETTER.

(Correspondence of the CANADA LUMBERMAN.)
 VANCOUVER, B.C., August 15, 1904.
 The saw mills are fairly busy just now, an improvement on the conditions which have existed all along this spring and summer. "If we have not trade at this time of the year when will we have?" is the interrogated way in which a well-known lumberman expressed himself this morning. "It is due, of course, not to any cessation of American importations, but to the increased demand from the Territories. There are a great many people settling there this year, and it is all bringing trade to our mills."

In the Kootenay district the industry is fairly active. There the manufacturers enjoy better rates, and just at present there is a number of mills projected. Timber is being taken up also. Thomas Mc-

Mills at RAT PORTAGE and RAINY RIVER, Ontario, WINNIPEG, Manitoba, and VANCOUVER, British Columbia. Head Office: RAT PORTAGE, Ontario.

Our Vancouver Mill cuts High-Grade Cedar, Fir, Spruce and Red Cedar Shingles. Correspondence solicited at all four points.

Naught, a lumberman of Toronto, has been looking over the timber resources of the province, but though he has stated he is impressed with their magnificence, he has made no statement in regard to the construction of a mill. A new mill on the Volin lake limits, five miles from Ross-

land, is to be built by Mr. G. M. Annable, M.L.A., Moose Jaw, N.W.T., and his associates, Lindsay Fetterly and James McAnnaly, of Ottawa; J. L. Peacock, of Buffalo; H. M. Dodge, nephew of Senator Dodge, of Boston; W. P. Tierney and J. E. Annable, of Nelson; J. H. Schofield,

Mayor of Trail; and G. L. Marry, a lumberman of Trail. There are 5,000 acres in the limits and the timber is especially fine. Mr. Adam Hall, who is interested in the Big Bend Lumber Company, has been out inspecting the mill and plant.

Mr. G. M. Campbell, also of Ontario, a shareholder in the Pacific Coast Lumber Company, of this city, was in town this week. Mr. Otis Staples, of Stillwater, Minn., who is erecting a mill near Cranbrook, also passed through Vancouver last week. Mr. E. M. Ferns, of Traverse City,

Spruce	400,000 ft.,	" "

Also Yellow Pine Finish and Timber.

ROBERT STEWART LIMITED, GUELPH,

Sole Canadian Representative for The Southern Cypress Lumber Selling Co. New Orleans, La.

is locating limits back of Kamloops, on the upper North Thompson.
Mr. W. R. Beatty, formerly of Ontario, but now manager of the Arrowhead Lumber Company, when asked about the industry in British Columbia, said that the government could materially aid it by passing an order-in-council making the

definition of imported rough lumber to be that which is as it has left the saw, and has not been touched by a planer. This was the intention of the law in the first place, but it has been interpreted to pass as rough lumber that which is planed on one side and is consequently partially dressed. Then if the American lumbermen

still want the Canadian market, let them, said Mr. Beatty, put up their planer and dressing plants on this side the boundary line and employ their labor in this country. Fires are doing great damage in all parts of the province. The summer has been long and warm, and since the first part of June there has been but two days

rain, which came together. That was after a month's dry weather, and a large number of fires were extinguished. Since then the weather has been again warm, especially in the interior, where it has been the hottest ever known, and as a result there are destructive fires burning from Vancouver island to the eastern boundary
