DAILY TRAIN ORDERED ON G.T.R. RAILWAY COMMISSIONERS ISSUE DECISION WITH FARE AT TWO CENTS A MILE

Contention That Statutes Demand a Third-Class Service Between Toronto and Montreal is Upheld, but Railway is Given the Privilege of an Appeal.

The Railway Commission has given judgment in the application of W. N. Robertson of Toronto, under section 26 of the Railway Act, directing the Grand Trunk to issue third-class tickets at the rate of one penny per mile, and to run third-class passenger carriages attached to one train per day, each way, through the length of the line.

Comes After Prolonged Fight in the Courts and Parliament

The judgment of the railway commission marks the crowning epoch in a most remarkable agitation. After more than half a century some power has been found to compel the Grand Trunk to obey the law of the land and to carry out the express provisions of its own charter.

COMMISSIONER'S VERY BUSY YEAR

OTTAWA, July 30.—(Special.)—The secretary of the railway commission says that the annual report is almost ready for publication.

Off For London To-Night

As the clock strikes 10 to-night, eleven Ontario women will start from Toronto on The World's Trip to London.

The party will board a private car attached to the C. P. R. train leaving for Montreal at 10 p. m., arriving in Montreal to-morrow morning shortly after 7 o'clock.

The successful candidates in the Trip to London Contest will meet at The World Office to-night, and then drive to the Union Station.

There will be an exciting time at the station. Each young lady will have a large number of friends and relatives on hand to wish her bon voyage, and the first step in the long journey will not be the least interesting.

The winners of the contest from Toronto and Hamilton have been presented with a handsome leather trunk by East & Company of Toronto and the Hamilton Leather Goods Company of Hamilton.

INSTITUTE RULE OF RIGHT IN THE PALACE OF JUSTICE

Laying of Foundation Stone of Carnegie's Peace Temple Brings Optimistic Predictions.

THE HAGUE, July 30.—The foundation stone of the Andrew Carnegie Peace Palace was laid this afternoon at Zorghvilet, in the midst of the wooded park stretching from the Hague to Schoeveningen, by M. Nelidoff, president of the second peace conference.

The inauguration of this monument which Mr. Carnegie is raising to commemorate and carry on the work of the international peace conferences was marked by considerable ceremony.

Practically all the delegates, a number of high court officials, the members of the states-general and delegations from numerous civic and municipal bodies were grouped around the stone which, when the structure is completed, will form the corner of the Grand Hall of Justice.

On this occasion, in bold Roman characters, appears the inscription: "The peace of the world is the duty of all." The thoughts and the thanks of everyone here went to the speaker said, to Andrew Carnegie, in his Scottish home.

A Palace of Justice. Then, rapidly sketching the history of the Carnegie donation and describing the plans of the peace palace, which is proposed to sit on the site of the old city hall, the speaker said: "This is to be a palace of international justice, founded as an outcome of the need of every civilized community to institute the rule of right for the rule of might. In this palace no one will be stronger or no one weaker than the other, and no other bias, except the sword of justice, will be placed in the scale. The power of the palace will point to the stars, indicating the ideal of our efforts."

In a speech that preceded the actual laying of the stone, M. Nelidoff expressed the gratitude of the peace delegates to the munificent donor of the palace, and to the Netherlands Government for the gift of the site. "The palace, he said, would be a monument to the first efforts made by the governments of the world to preserve to the nations the benefits of peaceful development by seeking to prevent wars. Continuing the speaker said he wished to emphasize the almost sacred character of the proposed building.

It represented a new principle in the relations of people, namely, peace of justice and right. M. Nelidoff then referred to the antiquity of the worship of war, and said there has never been a "cult" of peace in the world. Or all the precepts preached by the Saviour 1800 years ago, the idea of peace has been the most neglected.

CITY OWNERSHIP ON BUSINESS BASIS

Investigating Committee Reports—Success is Dependent on Municipalities Alone.

NEW YORK, July 30.—In its summary of conclusions made public to-day, the investigating committee of the National Civic Federation's Commission on public ownership gives general endorsement to the public ownership idea, although two members of the committee file exceptions, and one, Walton Clark, third vice-president of the United Gas Improvement Company of Philadelphia, makes a separate report, in which he opposes public ownership of public utilities altogether, but he is in favor of state regulation and protection in some cases.

The public ownership commission, thru its investigating committee, has, within the last year and a half, examined both public and private utilities in many of the leading cities in the United States and Great Britain, and several instalments of the complete report have been made public during the last month. The final report reviews the work of the commission and gives its conclusions in a general way.

At the outset this statement is made: "It is difficult to give positive answers of universal application to the questions arising as to the success or failure of municipal ownership as compared with private ownership. The local condition affecting particular plants are in many cases so peculiar as to make a satisfactory comparison impossible, and it is very difficult to estimate the allowance that should be made for these local conditions."

Conclusions. The committee sums up its most important conclusions as follows: "Public utilities, whether in public or private hands, are best conducted under a system of legal and regulated monopoly."

"Public utilities, in which the sanitary motive largely enters, should be operated by the public."

"The success of municipal operation of public utilities depends upon the existence in the city of a high capacity for municipal government."

"Franchise grants to private corporations should be terminable at will, and subject to purchase at a fair value."

"Municipalities should have the power to enter the field of municipal ownership upon popular vote under reasonable regulation."

"Private companies operating public utilities should be subject to public regulation and examination under a system of uniform records and accounts and of full publicity."

Municipalization. On the general broad subject of municipalization the committee reports that the general expediency of either private or public ownership is a question that must be determined by each municipality in the light of local conditions.

Four things, it is stated, are necessary for successful municipal operations: "First—An executive manager with full responsibility, holding his position during good behavior."

"Second—Exclusion of political influence and personal favoritism from the management of the undertaking."

"Third—Separation of the finances of the undertaking from those of the city treasury."

"Fourth—Exemption from the debt limit of the necessary bond issues for revenue producing utilities, which shall be a first charge upon the property and revenues of such undertaking."

Minority Report. Charles L. Edgar, president of the Edison Electric and Illuminating Company of Boston and William J. Clark, general manager of the foreign department of the General Electric Company, file general exceptions to the report, while Walton Clark of Philadelphia submits a report setting forth views radically in opposition to the general report.

PERSONAL.

In the recent announcement of graduates at the Toronto Conservatory of Music the name of Miss Vera I. Riggs (Albert College, Belleville), was inadvertently omitted in the piano department, artists' course.

Mrs. W. J. Hammond, Winnipeg, and Miss Etta Jones of Hamilton, are spending a few weeks at Acton Island, Muskoka, Lake.

The marriage took place yesterday at 12:30 in the Church of St. John the Evangelist, of Miss Evelyn Weir, B.A., of the class of '28, daughter of the late Robert A. Weir and Mrs. Weir, and Mr. Alfred Donaldson Stewart, son of the late J. K. Stewart and Mrs. Stewart of Ottawa.

The Rev. Alexander Williams, M.A., rector of St. John's, performed the ceremony, assisted by the Rev. S. de K. Sweetman, M.A., of St. Thomas' Church. The bride, who was unattended, was given away by her cousin, Mr. F. W. Harcourt. Her gown was of embroidered Brussels net over white tulle and chiffon, and she wore a white picture hat with plumes.

A quiet wedding was celebrated on Monday evening at St. Anne's paragon, Dufferin-street, when the Rev. Lawrence Skein united in marriage Miss Jeanette Reeves, daughter of Mr. and Mrs. R. D. Reeves, and Mr. A. C. West of the Toronto Daily Star. The bride, who was attended by her sister, Miss Luella Reeves of Aurora, wore a pretty traveling suit of blue material with a white collar and a white and blue sash.

Among those present were Mrs. Leper and daughter of Aurora; Miss Reeves of Brockton, Mass., and many others. Many beautiful and useful presents were received. The young couple left later for a two-week honeymoon to the Muskoka Lakes.

Mrs. West will be at home to her friends at her residence, 51 Dufferin-street, after Sept. 1.

Mrs. J. Reed, St. Austell Villa, New Beach, has gone on an extended visit to her brother, Mr. S. J. Murgford of Saltcoats, Sask.

Mr. and Mrs. Sandham and family have come from Montreal to attend the golden wedding of Mr. and Mrs. Alfred Sandham.

Miss Jennie Holland, who for the last four years has been travelling in Europe, has joined her sister, Mrs. J. Ross Robertson, in London. They will spend August in the Scottish Highlands and return to Canada in September.

The straw sailor is rapidly undergoing a transformation and when our distinguished English visitors come to open the exhibition in the fall, only one type will be worn by the fashionable woman. It is the type described by The New York American as "rough straw, with exaggerated brim and low crown, trimmed only with a ribbon band."

Lingerie, says the same paper, are to be absolutely out in a very short time. Nothing is to be avoided as a form of dress at once distinctive and "hassle," so beware of the lingerie, just whisper and hear what one clever girl couple left later for a two-week honeymoon to the Muskoka Lakes.

Mushroom hats are also doomed, so says news from Paris, but they will probably last at least till October. Hats have low crowns, completely covered with flowers, and brims bound with bands of satin.

The Toronto World CHILDREN'S HUMANE LEAGUE

For next week's competition, we give the subject, "In the Garden." Preferably, we would like to hear of the doings of birds and insects, which have been observed. The children may, if they wish, however, draw on their imaginations for a sketch of an ideal garden, with birds and pets. The letters must not be longer than two hundred words and must be plainly signed with name and address of the writer. Only members of the League can compete. If you are not a member, fill out the blank beneath and send with your letter.

The prize is an enamel pin, with wreath, and the legend, "T. W. H. L."

I wish to become a member of The Toronto World Humane League.

On the Lake.

Down in the west shadows rest; Little grey wave, sing low, sing low, With a rhythmic sweep over the twilight deep; Under the dusk of the night we go, And the paddles dip and lift, and slip, And the drops fall back with a pattering drip.

The wiswams deep of the spirits of sleep, Are pitched in the gloom on the headland steep. Wake not their silence as you go, Little grey wave, sing low, sing low.

From your perch on high where the clouds go by, Little white moon, look down, look down.

'Neath night's shut lid the stars are hid, And the last late bird to his nest has flown. The slow waves glide and sink and slide, And rise in ripples along the side. The loon call low in the march below; Night weaves about us her magic ere the last faint gleam in our wake be gone, Little white moon look down, look down! L. E. McC.

INSANE, TRIES TO THROW LITTLE GIRL FROM TRAIN

Passenger on Fast Express Prevented by Train Crew From Killing Daughter and Self.

NEW YORK, July 30.—Frederick Ford of Philadelphia became insane in a train after leaving Albany today and made several efforts to kill his 2-year-old daughter by throwing her from a window of the train. He was restrained by other passengers, Ford also tried to leap from the train.

Several weeks ago Ford went to Montreal on business. Last night the father and daughter began their homeward journey, and shortly after leaving Albany today the passengers noticed that Ford acted queerly. The train crew was called and a watch set upon Ford, who did not remain quiet long, but went to the car door and tried to jump from the train while it was running at high speed. He was stopped by a brakeman. Ford repeatedly made efforts to leap from the train, but the vigilance of the train crew prevented him.

Ford went back to his seat at three places. Fought with Tarrytown and Yonkers, seized the little daughter and sought to throw her thru the window while the train was running at high speed.

ESCAPED FROM HOSPITAL.

Got Somebody Else's Clothes and Vanished Thru Window.

BARRIE, July 30.—Simon Marshall of Lindsay, who was brought to Barrie Hospital by the Orillia police on Friday morning, suffering from pneumonia, disappeared from the institution at midnight. His own clothes had been put out of his reach, but he managed to secure a youth's coat and pants and made his escape thru a window. He was wanted on suspicion of being implicated in the Algonquin Park fur smuggling case.

FAMINE IN JAMAICA.

Half a Dozen Deaths From Starvation Also Reported.

KINGSTON, Jamaica, July 30.—The central districts of the island of Jamaica are suffering from a severe drought, and the outlook for the banana crop is not bright. The drought has caused greater loss to the island than even the great earthquake. Half a dozen deaths from actual starvation have been reported.

DROPS TO DEATH.

Wellington Grant, 38 years, employed by Haney & Miller on the waterworks tunnel at Hanlan's Point, is dead, as the result of a 20-foot fall from a tree at 8 o'clock yesterday morning. He died at noon of a fractured skull.

His brother, who was with him at the time of the fall, saved himself by jumping into the bay. Corporal Greig has charge of the case.

BRITISH RAILWAYS IGNORE THE UNIONS

Chairmen of Two Boards of Directors Make an Important Announcement.

LONDON, July 30.—Lord Claude John Hamilton, chairman of the Great Eastern Railway, and Henry Combe Bonser, chairman of the South Eastern Railway, speaking at the annual meetings of their respective companies today, both emphatically refused to recognize the Amalgamated Society of Railway Servants, the executive committee of which had demanded the right to represent railroad employees in an effort to settle their grievances.

Both the chairmen, however, declared that their directors always were ready to discuss grievances with the employees themselves.

It is understood that the management of all the railroads in the United Kingdom have reached a similar decision.

PEOPLES RAILWAY GROWS.

Increase in Passenger Earnings and Mileage Operated.

The May report of the T. and N. O. Railway Commission was issued yesterday by Provincial Treasurer Matheson. It shows a satisfactory increase in mileage and passenger traffic. The report shows:

Receipts, \$77,041; disbursements, \$51,486; profit, \$25,555. The expenses include \$8312 paid for insurance.

This taxes the children of the testator on large estates 8 per cent. and the widow pays 1-2 per cent. and the grandchildren 5 per cent.

This final payment is in the nature of a compromise with the executors, and to arrive at the succession in the present value of many bequests in the form of annuities to the children and grandchildren was taken. Otherwise the province could not have collected their tax bill till they were in receipt of the annuities.

The estate of the late George H. Gooderham paid to the province \$519,000 in succession dues.

MADE HOUSE A FORTRESS.

Greek Insurgents Give Turkish Troops a Hot Argument.

ATHENS, July 30.—There has been a pitched battle between Turkish troops, supported by Bash-Bazouks, and a small band of Greek insurgents, who had entrenched themselves in a house in the outskirts of Sarea, European Turkey. The band was completely wiped out, but 30 men were killed before the soldiers, aided by artillery, succeeded in capturing the miniature fortress.

During the fighting the Bash-Bazouks killed three Greek houses and burned a number of Greek buildings in Serez.

Bisons Beat Rochester by Rally in Ninth Innings—Grays and Skeeters Also Winners.

MONTREAL, July 30.—(Special).—For the second time in this series, Toronto and Montreal broke even in a double-header, the Royals winning the first, a ten-innings contest, by 4 to 3, and losing the second, 3 to 0. Brockett practically won the first game for Montreal by hitting the ball over the left field fence for a home run, with two men on bases, tying the score.

Toronto got one run in the fourth and two in the fifth, and things looked dark for the Royals. In the seventh, with two down, Keefe and Joyce singled in succession, and Brockett followed with his homer.

After that the visitors could do nothing with Keefe. In the tenth Brown singled, Needham sacrificed, Morgan was passed, and Corcoran slashed the ball to centre, scoring Brown with the winning run.

FOR VIADUCT ON LAKE ST. AID. McMURRICH'S PLEA

City Engineer Rust is Not Impressed With Merits of the Proposal.

The civic "Greater Toronto" committee yesterday made a good start in the discussion of the problem of the railway approach to the new Union Station. Unanimity was shown in supporting the recommendation of the city's experts that the tracks should be raised from the Humber to Sunnyside and should be depressed from that point to the Bathurst street "diamond"; also, in approving the plans of the Union Station proper as amended in the report.

Controller Hubbard was the only one present who came out in positive support of the city engineer's recommendation for a series of bridges. Aid. McMurrich advanced the proposal that the viaduct be built south on Lake street, but the city engineer argued otherwise.

There were present Controller Harrison (chairman), Controller Hubbard, Aid. McGhie, Ald. R. H. Graham, Ald. Chisholm, Aid. Adams, Aid. McMurrich, City Engineer Rust, City Solicitor Chisholm, and Assistant City Solicitor Johnston.

Wants the Viaduct. Controller Harrison announced that he had a leaning towards the viaduct plan, but that he saw objections in the board of trade's plan, which practically shut off the west and sacrificed that approach for the benefit of the east. He also complained that no mention was made of the important Strachan-avenue crossing.

Mr. Rust, asked as to what would be done with the Spadina-avenue crossing, said that it would have to be raised a few feet, but that a bridge could be constructed over the elevated tracks. The main objection was that the bridge would have rather a steep drop on the south side.

The chairman suggested that the question of removing the dangers of the level crossings on Yonge-street, Avenue-road, Brock-street and Bloor-street should be taken up in discussion of the whole problem of level crossings in and around the city, and it was argued that these particular matters should be considered together.

Ald. McMurrich's Idea. Aid. McMurrich suggested that the viaduct be constructed as far south as Lake-street, and that if the city appropriated the property between Esplanade-street and Lake-street, the revenue therefrom would defray a large portion of the cost. Mr. Rust returned that the city now owned two-thirds of this property, and that a part of the cost would be met by the city.

The nearer the viaduct was to the water the more objectionable would it be, he said, and that it would be unsightly in any case, he averred. Besides there would be added expense in filling in.

Ald. McGhie gloomily questioned whether the railway commission had considered the possibility of a viaduct on any scheme.

Controller Harrison did not view with favor the elimination of John-street bridge, as provided for in the Berrian report. Controller Hubbard interpreted the report to mean that the waterfront would be shut off from York-street to Spadina-avenue. He contended that the scheme of bridges would not impede waterfront traffic, and that the water frontage would be practically all the freight by boat was received at the Yonge-street, Geddes wharves and the city dock, and that the water frontage mentioned east of Jarvis-street. The removal of John-street bridge would cut communication with the waterfront.

The city engineer admitted to Aid. McGhie that a viaduct would eliminate the shuttling between Yonge-street and Parliament-street, but pointed out that the factories to the east would require to be served on the level.

FORMER TORONTO WOMAN MURDERED IN NEW YORK

Sophie Kerher, Whose Sister Lives Here, Strangled by Unknown Man.

NEW YORK, July 30.—At a late hour to-night no arrests had been made in the cases of two women found strangled to death and whose bodies were discovered, one last night and the other early to-day.

One woman, who was found dead with a necktie knotted around her throat in a boarding house in Twenty-second-street, has been identified under several names. It seems probable that she is Mrs. Sophie Kerher, wife of Jacob Kerher of Buffalo. The police have discovered that she lived at different times in Brooklyn and Jersey City. The body was identified to-day as that of a woman who called herself Mrs. May Graham, and who was recently lived in a boarding house on East 27th-street. It appears that the woman changed her name frequently.

The woman with whom she boarded in 27th-street gave the police a fair description of the two men who often called on her there, and the police hope to be able to locate them. The police have as yet found no clue as to the identity of a woman whose body was found in an alleyway in East 19th-street. They believe, however, that both crimes were committed by the same person, as both bodies were mutilated in the same manner.

Two weeks ago Sunday a man who appeared to be either an Italian or an Assyrian came to No. 475 West 22nd-street, and applied for a room. The plainly a foreigner, the man gave the name of Davis or Davidson. He said he would bring his wife later on, and on Wednesday the woman joined him. She was about 24 years old, had clear complexion, dark hair, a good figure, and was fairly good looking.

The man left the house early every morning and returned in the evening, and the woman also spent most of her time away. Mr. Dayton, the proprietor of the lodging house, at the suggestion of the other lodgers asked the couple to leave, and Sunday afternoon about 1 o'clock the man went out with two suit cases and did not return. The woman was not seen until Tuesday, when she returned. The Daytons were somewhat surprised as their week was not up till Tuesday.

About 10:30 Sunday evening the man and woman returned. The Daytons thought they had been unable to find a room, and as they were entitled to the one they had until Tuesday nothing was said. About 11:30 the man went out alone. About 6 o'clock Monday night, when Mr. Dayton returned from work, he forced the door open and found the body of the woman on the bed with a pillow over her face. She had been strangled to death and her body mutilated.

Sophie Trainer has a sister in Toronto, Miss Trainer, who boarded at 149 Lippincott-street. The sister was notified about 4 o'clock yesterday afternoon and will go to New York to-day. She was also notified at 149 Lippincott-street about the death of her murdered sister within the hour. She thought it was about 11:30 when she was notified.

Deceased has a brother living in Buffalo, and one in Tonawanda, N.Y. Her former husband also lives at Tonawanda. The woman left him some time ago and he has married since. He says she is better dead than alive.

STEEL-COAL LITIGATION AT LAST BEFORE A JUDGE

Sir William Van Horne as a Witness Confesses His Distrust of President Ross.

SYDNEY, N. S., July 30.—(Special.)—The legal struggle between the two great corporations—the Dominion Steel and the Dominion Coal—to decide whether the Steel Company was justified in breaking its contract with the Coal Company, began to-day. There was a large attendance court, Judge Langley is presiding. Hon. Wallace Nesbitt, K.C., of Toronto is leading counsel for the steel company and H. A. Lovitt, K.C., of Halifax, for the coal interests.

The feature of to-day's evidence was that given by Sir William Van Horne, who, in telling of his connection with the companies, acknowledged that he distrusted President Ross (head of both companies). "My feeling against Mr. Ross was caused by an old business transaction. Superficially we have been on good terms. I felt I had been cheated by Mr. Ross. The merits were all on my side," said Sir William. "Trouble between them dated back eight years. 'I have been heart and soul with the Coal Company. My trouble with Mr. Ross was not that I could not trust the Coal Company to the mercies of Mr. Ross."

"I was with the Steel people because I believe they were in the right. Before the contract we made enquiries as to the quality of the coal necessary for the making of steel." In presenting the case for the Steel Company, W. B. A. Ritchie explained the contract between the two companies, emphasizing the quality of coal that was stipulated, and the price and option which the Steel Company took on coal as laid down in contract. He said it would be proved that the article sold by the Coal Company to the Steel Company was not coal in a commercial sense and could not be used by the company. The principal cause of the final litigation, according to Ritchie, was that the contract was made in 1904, which is outside of the peninsula named, and not on the Phelan seam.

The judge asked whether No. 6 Mine was on Phelan seam. Was it not easily proved or disproved? Mr. Ritchie said it was difficult to prove. Geologists had been unable to say with certainty. "I was with the Steel people because I believe they were in the right. Before the contract we made enquiries as to the quality of the coal necessary for the making of steel."

The contract was deposited with the National Trust Company as security for the issue of the bonds, and they are therefore parties to the contract. Sir William Van Horne, sworn, said he was a director of both companies at the time the trouble, which he resigned from the Coal Company. The Steel Company was formed to find a wider market for the Coal Company's coal. The contract was made to settle the differences, but the Steel Company had "apparently" repudiated the contract. The end of which would be recourse to the privy council.

White, general manager of the National Trust, declared that consent had never been given to either of the contending companies for the cancellation of the contract. "I am sure," said Sir P. Jones, general manager of the Steel Company since 1901, said that just prior to October, 1906, the date of the contract, there were five collieries on the Phelan seam. So long as the Steel Company was getting coal from the Coal Company there were no other mines known to be on the Phelan seam. The greater portion of the coal supplied before the contract was made consisted of five. There was no official notice given to designate any particular seam. The coal at first was fairly good, but the date of the contract, the autumn of 1904, they sent coal which he refused because it was slack. About 30 cars were rejected and the Coal Company took them all back. Some coal that came designated as No. 2 run of mine, was not run of mine at all, but slack.

IN VOLUNTARY MANSLAUGHTER Verdict of Coroner's Jury in the Soo Shooting. SAULT STE. MARIE, Mich., July 30.—The verdict of a coroner's jury in the case of Miss Elizabeth Cadhead of Ferguson, Ont., who was shot and killed by Pte. Cyrus Gillette, was in involuntary manslaughter. A demand will be made on officers at Fort Brady for the man, which probably will be refused until a court-martial is held. This will likely acquit Gillette.

The authorities at Ottawa have called for the evidence, and much interest is evinced as to steps that may be taken before the United States Government.

JURYMEN LOSE MONEY. Notice of Attorney-General to Be Drawn to Inadequate Fee. Coroner Crawford's jury enquiring into the death of Wm. Collins, who was fatally hurt on July 23 by G.T.R. locomotive No. 23, on the tracks near Pape-avenue, found that the occurrence was quite accidental. The juryman also asked Dr. Crawford to direct the attention of the attorney-general to the fact that being business men, they lose perhaps \$3 to \$4 a night in attending the inquests, and that the 50 cents received as a fee is quite inadequate.

Divides Estate Among Employers. NEW YORK, July 30.—The will of John C. Wilson, who was shot in his office, by John Warner directs that his business and \$190,000 personal estate be divided, share and share alike, between employees and Bernard J. McCann, the Bowery hatter, who had been a friend of the deceased for many years.

HARRY ZILER IS STUNG

ANOTHER ROMEO ENGAGED

Dearly Won Sweetheart Balks at Altar Scene and Picks New Leading Man.

Harry Ziler, 9 Princess-lane, is stung. He was arrested for theft last night upon a warrant sworn out by Rebecca Dowelevitz, 32 Neil-street, whom Harry alleged he brought to this country at the expense of \$500 to play Juliet to his Romeo in a life-long production of the theatrical triumph.

When the lady arrived on Canadian soil she was willing to rehearse as sweetheart, but declined to put up a public production of the altar scene. Harry avers that he supplied her with wardrobe and also lavished many shekels of silver on her entertainment.

Monday he called upon the lady and found that another was rehearsing his Romeo and when matters came to a showdown his rival got the job. Harry declared that if he lost out he should remove the wardrobe and says that he was told to take the clothes and go. This he did, with the result that he is charged with the theft thereof.

Funeral will take place Thursday, Aug. 1st, 2.30 p.m., from his son's residence, 97 Wood-street, to St. James Cemetery. Members of Lodge Albin, No. 1, Sons of England, please take notice and attend.

LOCAL FRUIT MARKET.

There was a fairly heavy fruit market at the Scott-street centre yesterday, but the demand was not quite equal to the supply, and offerings were readily sold at Monday's quotations.

So far this season there has been nothing in the way of a big day, as in some years. Toronto is no longer the distributing point, north and east, but a few years ago. The large number of canning factories in operation in different parts of the country has served as an offset to the increased acreage, and the volume of business passing thru, or centering here, has shown little or no advance.

Reports from St. Catharines and outlying points all indicate that the crop of peaches will be far below the average of other years:

SAYS THIS IS BEST

A leading health journal in answering the question, "What is the best prescription to clean and purify the blood?" prints in a recent issue the following:

Fluid Extract Dandelion one ounce; Compound Salutarone one ounce; Compound Syrup Sarsaparilla, four ounces.

Shake well and use in teaspoonful doses after each meal and at bedtime.

A well-known physician states that these are harmless vegetable ingredients, which can be obtained from any good prescription pharmacy.

This mixture will clean the blood of all impurities. In just a few days the skin begins to clear of sores, boils and pimples. It puts vigor and energy into run-down debilitated men and women. For many years Sarsaparilla alone has been considered a good blood medicine. But while it built up and made new blood, the impurities remained within and the good accomplished was only temporary.

However, when used in combination with Compound Salutarone and Extract Dandelion, works wonders. This combination cleans the kidneys to work to filter and sift out the waste matter, uric acid, and other impurities that cause disease. It makes new blood and relieves rheumatism and lame back and bladder troubles.

Lowther, the British minister here, has received a letter from Caid Sir Harry MacLean, stating that Raisuli, who holds his prisoner threatens to put him to death unless Mohamedan Ed Torres, the sultan's representative for foreign affairs at Tangier, withdraws the troops from the Elkes territory.

BEEF COMBINE IN WEST.

WINNIPEG, July 30.—The beef commission to-day examined R. L. Richardson, editor of the Tribune. He had no definite information that a combine existed, but he had that impression from the experience of farmers as recorded in letters to his paper.

Several farmers testified that no buyers, save those representing one firm, were seen in this location.

ISLAND RACES TO-NIGHT.

The Island Athletic Association will hold their weekly sports to-night at 7. It has been agreed by the sportsmen to run off the entries on schedule time, causing no delay waiting for unpunctual contestants.

The Central Y.M.C.A. senior boys' team will practise Monday, Tuesday and Wednesday nights. The following are requested to be out: White, Savage, Foster, Bernan, Malacreta, Stone, West, Burnafsky, Roddon. By order of Manager Walker.

The Junior Marlboro will journey to Mt. Albert on the holiday. The Marlboro will practise Wednesday and Friday evenings and wish the following players to turn out: Harvey, Morris, Hart, Isaac, McKenzie, Welmut, F. McFarland, Crawford, Adams, Morton, Bell, Guthrie.

At Haystack Park a game was played by teams representing Mickleborough, Muldrew & Co. and the Dominion Express office staff, the result being a win for Mickleborough, Muldrew & Co. by the score of 17 to 3. The winners hit the ball hard in the second, third and fifth inning, as the following score shows:

M. M. & Co. 0 5 0 0 7-17 Dominion Express 1 2 0 0 3-3

The feature was an innocent-looking application, which appeared last week in the Canada Gazette, giving notice that at the pending session of parliament the Grand Trunk Railway would apply for the repeal of section 3 of chapter 37 of 18 Victoria, 1852. It was this proposed repeal related to the penny-a-mile section in the charter of the Grand Trunk Railway, and not long after a bill was introduced in the house by Jacques Bureau, providing for almost everything under the sun and sunning up with a section repealing the penny-a-mile clause in the original charter of the Grand Trunk and West Ontario Railway.

The Americans, bearing in mind the decisive victory of the Canadian eleven in the recent game at Boston, are determined not to send any second-class team this year and are consequently putting on their strongest possible eleven, at the head of which is J. Barton King, one of the premier batsmen in Canada in America. The team is to be selected from the following: J. B. King, F. H. Bolter, P. H. Clark, C. C. Wortz, J. Adams, P. N. Le Roy, E. M. Cregar, H. Wanderton, E. K. Leach, C. C. Grouse, W. P. O'Neill, A. H. Brown, F. M. Middleton.

GOOD TROOPS AT BELFAST TO COPE WITH STRIKERS

Dissatisfaction Among the Police Adds to the General Disquietude.

BELFAST, July 30.—That the authorities view seriously the local situation arising from the strike of the dock laborers for increased pay and shorter hours, which has been aggravated by the revolt of the police, who are demanding more pay because of the extreme heat, the strike entails, is evidenced by the arrival here to-day of the first battalion of the Cameron Highlanders, with a Maxim gun and a machine gun.

In addition the 13th Hussars are now on their way into Belfast, and the British Cavalry Brigade, which has been ordered to hold themselves in readiness to move at a moment's notice.

Special camp accommodations are being provided and it is expected that a total of 600 troops will be in Belfast within a few days.

At Cork the police are in full sympathy with the Belfast force and have already the permission of the inspector-general to hold a public meeting.

DAILY TRAIN ORDERED

Continued From Page 1.

was the law or not, and if the people of Canada were entitled to a penny a mile passenger rate on the Grand Trunk it was his business to see to it that that rate was given. But he took no action in the matter, and so it remained for a private litigant to go to the Ontario Court of Appeal and play the law for him there, where you can get the law vindicated if you cannot get it vindicated elsewhere.

Not Popular With Members.

During the same session of parliament the present member for South York repeated before the government to state its attitude with regard to the enforcement of this law against the Grand Trunk Railway Company.

For doing this, he was quite bitterly assailed by a number of the supporters of the government, and indeed, he played a lone hand throughout. Mr. J. T. Scheil, M.P. for Glengarry, on March 8, 1907, denounced this agitation. He said: "I am sure that the people of Glengarry do not want to ride in a cattle car at two cents per mile."

It is not surprising that Belleville became very indignant on the subject. Referring to the member for South York, he said:

"He has always occupied the floor, taking up the time of this house, but the other day he took up the whole time of the House by talking in English in shouting this two-cent rate and other things by which he hopes to make himself popular."

R. G. McPherson and Bill Gallihier, the twin members from British Columbia, also became very indignant. Referring to the member for Glengarry, he said: "The government should compel the G. T. R. to obey the law. Mr. McPherson said:

"My hon. friend, Mr. Maclean, is fond of doing the high act in the house. It is his fond of getting up before the House and doing the hochee-kochee, and the high kick act when there is anything to be made out of it.

Nevertheless, Mr. Maclean insisted, and finally got the firm minister to make this remarkable statement:

"I will submit to the humiliation of having laws with no power to enforce them? We have the power to enforce the law in the Province of Ontario, and when my hon. friend (W. F. Maclean, South York) directs his diatribes against my hon. friend, the minister of justice, and charges him with failure to enforce our federal laws, I would ask my hon. friend to address himself to the minister of justice of the Province of Ontario and to the attorney-general of the Province of Quebec.

The next step was an innocent-looking application, which appeared last week in the Canada Gazette, giving notice that at the pending session of parliament the Grand Trunk Railway would apply for the repeal of section 3 of chapter 37 of 18 Victoria, 1852. It was this proposed repeal related to the penny-a-mile section in the charter of the Grand Trunk Railway, and not long after a bill was introduced in the house by Jacques Bureau, providing for almost everything under the sun and sunning up with a section repealing the penny-a-mile clause in the original charter of the Grand Trunk and West Ontario Railway.

True, the railway company will, no doubt drag the case to the supreme court of Canada and possibly from there to the lords in England, and for several more years laugh at their charter obligations, and at the laws of Canada, but the end is at least in sight. The agitation of the last few years by the member for South York (W. F. Maclean) in parliament, on the hustings, in courts and elsewhere has brought the following results:

1. There is now a uniform maximum of 1 1/2 cents per mile for the Grand Trunk Railway east of Toronto are no longer held up for 1-3c or 1-2c a mile nor are the people in the neighborhood of Ottawa held up for 4c or even more.

2. The beginning of the 2-cent rate is assured. Once tried, it will justify itself and the end is at least in sight in favor of the people.

3. The railway commission is strengthened in public esteem and the people generally will be more willing to look to it for relief and they will not look in vain.

NATURE APPEALS TO YOU

Nature is the greatest doctor on earth. When she can't cure it is because she needs aid. Now, most people have an idea that this aid is drugs, and when they get sick or suffer from pain of any kind they prefer to depend on their stomachs with the stuff that is sold for medicine.

When your stomach, kidneys, liver or digestive organs get out of order it is because they lack the necessary electricity to enable them to perform their regular functions. The breaking down of one of these organs nearly always causes other trouble. Nature can't cure them, because your body hasn't enough electricity to do the work, so you must attract Nature by restoring the electricity where it is needed.

My Electric Belt does this while you sleep. It saturates the nerves with its glowing power, and does conduct the force to every organ and tissue of your body, restoring health and giving strength to every part that is weak.

Electricity is a relief from the old system of drugging. It does by natural means what you expect drugs to do by unnatural means. It removes the cause of disease, and after the cause has been removed Nature will do the rest.

Dear Sir,—I wore your Belt steady for two months, for I had a lame back and pain in the muscles of the arm. After about a month, all pain ceased, and I have not been troubled since. I can say I had no lame back since I put the Belt on. A good many

parties have written to me about the Belt, and I answered them the same as I do you. JOSEPH LITTLEJOHN, Markdale, Ont.

54 CARS AT CITY YARDS QUALITY OF CATTLE POOR

Trade Dull With Many Left Unsold—Sheep, Lambs, Calves, Hogs About Steady.

Receipts of live stock at the City Market were reported by the railway since last Friday were 54 carsloads, composed of 282 cattle, 445 hogs, 612 sheep and lambs and 27 calves.

The quality of fat cattle was the poorest of the season thus far. Trade was dull, and many receipts were left unsold at the close of the market.

Trade was drab. A saucing market for cows and heifers at this time of the year is not unusual. In fact, it is regular as the seasons come and go.

There were few receipts of most traders here that prices will go still lower. Values will be well below lower levels under moderate receipts.

There was little doing in export cattle, no good to choice loads being on sale. One load of 100-lb. cattle was reported by Crawford & Hunnissett as being sold at 100 cents.

There was a few receipts of hogs, but they were about steady for the week. Prices were about steady for the week.

Announcement THE SIMPSON HOUSEFURNISHING CLUB August Furniture Sale

THOUSANDS of Canadians in all parts of the Dominion are at this moment well pleased ex-members of our former Housefurnishing Clubs.

The plan is simplicity itself. The benefit is mutual. There is absolutely no extra charge, and there are all the advantages that the membership necessarily entails.

First—It is a Housefurnishing Club—which means and includes Carpets, Curtains, Furniture and all the interior fittings of a home.

There are no conditions, absolutely, other than an honest promise to abide by your agreement.

But, mind you, we limit the membership to house owners. We'll take only 500 accounts. The Secretary will be at your service to-morrow in the Housefurnishing Club Office, in the Curtain Department.

THE AUGUST FURNITURE SALE Looked-for Event of the Store's Summer Programme commences to-morrow

HOW MANY thousands of dollars our Furniture Sales have saved for our customers in the past it, would, of course, be impossible to say.

This August we start our sale with the clearing stock of a furniture factory bought to sell at 2-3 of regular price.

We have, consequently, made the more strenuous efforts to secure such advantages for you. We have succeeded beyond even our expectations, and thousands and thousands of dollars' worth of new furniture is awaiting your inspection at practically the same figures that manufacturers at other times would charge you if you bought like we do, in carload lots.
