Superintendent House of Industry.

TRUSTEES AND MANAGERS' REPORT.

The Trustees and Managers of the Toronto House of Industry submit the usual Annual Report, and they trust that the object of the Institution has been fully carried out. In addition to the regular grant by the city, the subscriptions of the citizens have been given in a manner, and to an extent, which fully proves their sympathy for the poor. The object being to relieve want, irrespective of creed or nationality, support is afforded in a manner commensurate with the design ; and it is believed, that upon examination as to the mode of relief, no better plan could be devised for giving to such as by misfortune are compelled to seek the charity of their neighbours. The unanimity of purpose evinced by those upon whom devolves the weekly distribution of relief is a gratifying proof of the success which attends the working of the Institution. Very few cases of deception occur in the large and varied distribution that takes place during the year. *This economy of charity* is deemed an important feature, and it is mainly owing to the appointment of Ward Visitors, which operates in a most satisfactory manner. The Board has great pleasure in noticing the care and judicious conduct of the Superintendent and Matron, upon whom devolves the faithful carrying out of its wishes, and this is scrupulously adhered to by them.

Herewith will be found a detailed statement of the Treasurer's accounts, duly audited ; also the report of the Medical Officer and that of the Superintendent, showing the amount and nature of the relief afforded during the year.

H. J. GRASETT,

Chairman.

Toronto, Jan. 8, 1867.

MEDICAL OFFICER'S REPORT FOR 1866.

The house and premises have been kept, as usual, scrupulously clean, disinfectants used when required, and although we have had all the ailments incident to such institutions, they have been of a milder type than in former seasons, and no death has resulted from acute disease in the house during the year.

Eleven adults died in the house since my last report, viz, eight men and three women, aged respectively 60, 67, 87, 54, 67, 73, 55, 62, 80, 80, and 79 years.

The periods during which they had severally resided in the house were as follows :—1, 2, 4, 23, 24, and 33 days, 3, and 11 months, $1\frac{1}{4}$, 2, and $3\frac{1}{2}$ years.

All the above died from chronic ailments of long standing, two or three were dying when brought to the house ; a woman 80 years of age was dropped from a

wheelbarrow at the gate, by some friend, and died next day.

Four foundlings aged respectively 8, 8, $7\frac{1}{2}$, and $1\frac{1}{4}$ months, died while out at nurse, and one child aged $2\frac{1}{3}$ years, died in the building for casual poor.

Several of the children in the house have, at times, been very ill, but none have died.

UZZIEL OGDEN, M. D.,

Physician to the House of Industry.

RESOLUTIONS

ADOPTED AT THE ANNUAL MEETING, HELD JANUARY, 1867.
