Terrible Effect Of Skoda Shells

Death to Everything Within 150 Yards of New German Projectile - Gas Pressure Even Rips Shelter and Tears Flesh Asunder

Warsaw, June 28.—Seven-eighths of the wounds in the Galician fighting were caused by shells, half of which were fired from big calibre guns, said Surgeon Major Langstaff on returning to Warsaw from the front.

STIRRING TALE OF FIGHT IN THE AIR

British and German Aviators in Battle Above Belgian Battle Ground

London, June 28.—A dramatic air duel in which a British aeroplane reconnoitering over the Belgian town of Poelcapelle at a height of 4,000 feet met and engaged a large German biplane which had double engines and propellers is described by the eye witness at the British army headquarters.

HARRY EDGAR HAMILTON PRISONER OF GERMANS

Word Comes to Sister in Paradise Row - His Nephew Also in War

Official notice has been received by Mrs. James Cunningham, 124 Paradise row, that her brother, Harry Edgar Hamilton, formerly of this city, had been captured by the Germans following an engagement in France.

GREAT PARIS TAG DAY FOR THE WAR CRYPHANS

Paris, June 28.—A tag day yesterday for the benefit of children made orphan by the war was a great success. At charitable, relief and religious organizations participated. It is said that it will probably surpass in results preceding tag days for the benefit of Belgian refugees and soldiers at the front.

MAKE IT A GOOD WEEK IN RECRUITING

A banner week is planned by Sergt. F. W. London of the 55th Battalion, who is receiving applications for enlistment at the local office in Mill street. He has received quite a few new patriotic posters which he has placed in the windows of the office, and which have attracted much interest.

CANADIANS GREATEST FIGHTERS

Close Friend of Sir John French Pays High Tribute - Confirms Tales of German Savagery

Toronto, June 28.—A special to the Globe from Detroit says George Gordon Moore, most intimate friend of Sir John French who has just returned after a long stay at British headquarters in France, gave out yesterday a long interview in which he denounces German methods of warfare and told of astounding cruelties practiced by the Teutons. Mr. Moore said: "Young Canadian officers have been crucified by the Germans. They have hanged and shot the wounded. The cruellest of the German army have practiced since the outbreak of the war would make any of our Indian ways of by-gone days look like a condition of Christian peace."

WANT EVELYN NESBIT THAW AS A WITNESS

State Would Have Her on Stand in Trial of Matter of Husband's Sanity

New York, June 28.—Subpoena served today by Deputy Attorney Cook was for Evelyn Nesbit Thaw to testify in the trial of the sanity of her husband, Harry K. Thaw. Agents of the attorney-general's office, who yesterday watched Colman Gump, lawyer for Thaw, were unable to determine whether or not she would appear as a witness.

VOLUNTEERS FOR THE DARDANELLES

W. W. Carmichael, of Clifton, in France With Army Medical Corps in France

Private William W. Carmichael, of Clifton, now with the Army Medical Corps in France, has volunteered, with several of his comrades, for service at the Dardanelles, in hope of getting nearer the firing line and to a place where there is even more need for them.

DOG POISONED

A valuable cocker spaniel owned by Edward O'Hara of Douglas Avenue, died yesterday from poisoning. The owner valued the animal highly and keenly regretted his loss. He fears that it was deliberately poisoned by some unscrupulous person. Two years ago when a barn in the rear of the house was on fire the barking and whining of the dog drew the attention of the family to it and as a result considerable valuable property was saved.

AUTO MATTERS

Frederick W. Coombs, manager of the Motor Car & Equipment company, Princess street, who was reported for allowing one of his automobiles out without a rear number gave a satisfactory explanation in the police court this morning and although the fine of \$10 was struck against him it was allowed to stand.

THE STREETS

Victoria Square is again to receive some attention from the department of public works. The streets on two sides of the square, Canard and Metcalf are to be graded and made passable for traffic. The commissioner also is planning to complete the surface at the intersection of Union and Sydney streets immediately, to put a new surface in Sydney from No. 2 fire engine house to Princess street, and to make permanent repairs to asphalt surface and concrete base of the Charlotte street pavement which has been dug up in several places.

LONG-STANDING QUARREL

Whether or Not to Retain Belgium, and Future Conduct of Submarine Warfare Chief Issues - People Not Allowed to Discuss the Matter

London, June 28.—The Manchester Guardian prints an interview with an officer of a great international humanitarian organization. "The dispute between Chancellor Von Bethmann-Hollweg and Grand Admiral Von Tirpitz," he said, "was the chief subject of conversation everywhere, although little has been heard about it outside of Germany until quite recently. It is a long standing quarrel, and is of the utmost importance of the future of the nation. The national element of the population is tremendously disgusted and is chiefly anxious to hold his position."

HIS WIFE DEAD - LITTLE ONES TO CARE FOR - ST. JOHN MAN IS HOME FROM WAR

W. J. Marks Given Honorable Discharge From Army Service Corps Because of Home Betterment

W. J. Marks of Gilbert's Lane who left St. John some time ago with the Army Service Corps, returned home on Monday last, and was given an honorable discharge from the army owing to the recent death of his wife. He has three small children to care for and although distressed to serve his country he realizes that his first duty is to them.

SUGGESTS WRIGHT TO MANAGE THE BRITISH AEROPLANE PROGRAMME

London, June 28.—The Daily Mail, commenting on a report that the Germans recently became possessors of a new and faster type of aeroplane, urges the British government to seek the assistance of Orville Wright, an American inventor.

MISS ANGELINA WILSON

Miss Angelina Wilson died this morning at the residence of her brother-in-law, W. A. Cole, 222 Rockland road, daughter of the late Mr. and Mrs. Samuel Wilson. She is survived by one brother John J. Wilson, and one sister, Mrs. Cole.

JOHN C. NEEDHAM AMONG WOUNDED

Word Comes to Mother, Who Lives in Waterloo Street

Word received from his wife in Toronto by his mother, Mrs. T. H. Needham, Waterloo street, has brought news of the wounding of John C. Needham, in action in France with a battalion from Toronto where he enlisted with the first contingent.

He is a former St. John man, who has been residing for some years in Toronto. Formerly he was in Fredericton with the R. C. R. He served through the South African war, and when the bugles called again last fall was one of the first to respond to the summons.

He is a thorough soldier both in appearance and inclination and his letters written home suggest that he has been fascinated with the excitement and thrill of battle. Besides having drilled with the Royal Canadian Regiment, Mr. Needham was for several years with a cavalry regiment in Toronto, and when he went to Valcartier for training with the others last fall he was made sergeant instructor.

IMPERIAL THEATRE PROGRAMME IMPROVED

The Imperial Theatre programme has undergone some radical change since Saturday's announcement and the result is that the Vitagraph's splendid three-part modern war-story, "Fawns of Mars" will be the leading feature. The first that James Morrison, Rogers Lytton, Charles Kent and other leading stars, both male and female, of the Vitagraph Company, take part in this splendid picture, assures its acceptability. There will be aeroplane duels, bomb-throwing from the air, etc., as special bits of realism. The comedy will also be of Vitagraph production, "Bunny Boy" a Hat for His Bride, and the fifth reel will be the Animated Weekly. "Bunny & Road," European grotesque comedy, will be great fun for old and young throughout the week. They do some eccentric dancing, take magic and other very funny stunts.

GRAFTERS RAKED BY FREDERICTON PREACHER

Ottawa, British Columbia and New Brunswick—General News of Capital

Fredricton, N. B., June 28.—Rev. Dr. Smith scored the grafters in a sermon in St. Paul's church yesterday. He said the disclosures at Ottawa with respect to war contracts, and political conditions in Manitoba, and New Brunswick were enough to make every Canadian hang his head in shame. He thought that what was wanted was a spirit of individual responsibility.

The preacher thought there was too much cheap patriotism in this country and instanced a case of a man who, at a patriotic auction here on Saturday, bid twenty-five cents for a set of harness valued at \$22.

Chief of Police McCollom returned on Saturday after attending the chief constable convention in Toronto. He and Chief Ridout, of Moncton, and Hugh, of Campbellton have formed a committee to interview provincial government and ask for financial assistance in establishing a police register.

A Fredericton man who drove through the parish of Kingsclear yesterday, found a resolution passed at the last session of legislature, which was a lie from beginning to end.

G. Fred Baird, of this city, was taken ill at his home in Andover last week and removed to Woodstock hospital, where he underwent an operation for appendicitis. His condition is reported very serious.

The funeral of Mrs. Barbara Swetick took place this afternoon from the residence of her daughter, Mrs. H. A. Doherty, Westwood street. Services were conducted by Rev. J. J. MacKeigan, and interment took place in Fernhill.

The funeral of Mrs. Mary Wilson MacDonald took place this afternoon from her late residence, Rock street. Burial services were conducted by Rev. T. J. Deinstadt and Rev. R. S. Chapin, and interment took place in Fernhill.

The funeral of George Wilson took place this afternoon from Mr. Power's undertaking parlors, Princess street. Rev. Mr. Barreclough officiated at burial services and interment took place in the Methodist burying ground.

The funeral of Miss Mary G. Robinson took place this morning from her late residence, Douglas Avenue, in St. Peter's church, where solemn requiem high mass was celebrated by Rev. Joseph Borgmann, C. S. R., assisted by Rev. Charles McCormick, C. S. R., as deacon, and Rev. E. Walsh, C. S. R., as sub-deacon. Interment took place in the new Catholic cemetery.

The body of Miss Alberta Smith, who died in Walham, Mass., on last Friday, was brought to this city this morning. Following burial service by Rev. J. J. Pinkerton, interment took place in Fernhill.

New Consul at Yarmouth.—Yarmouth, N. S., June 28.—Henry H. Balch has been appointed American consul here in succession to Alfred J. Fleming. He has been U. S. consul at St. Stephen since last September.

ST. JOHN MAN HOME TELLS OF CREDIT MEN'S MEETING IN WINNEPEG

Important Business Matters Taken up—Harold W. Rising Speaks of Them

Plans for securing uniform laws in all the provinces on credit matters and for reducing the general length of credit terms were among the matters discussed at the third annual meeting of the Canadian Credit Men's Trust Association, Limited, from which H. W. Rising has just returned. The meeting was held at Winnipeg on Tuesday and Wednesday last week and the maritime provinces were represented by Mr. Rising and E. H. Sonerville, the maritime secretary.

The sessions were held at the Royal Alexandra Hotel and, in addition to the business sessions, there was some very interesting side trips and entertainments. After luncheon in the grill room on Tuesday the delegates heard a fine address by J. Bruce Walker, commissioner of immigration on "Helping the Farmer."

The speaker then visited the agricultural and domestic training college which is now on a per with a similar institution in the dominion and after this enjoyed dinner at the Country Club. The entertainment features on Tuesday included luncheon at Deer Lodge, several miles out of the city, an automobile drive to points of interest and a banquet in the rose room of the Fort Garry Hotel.

The discussions proved of great value to the credit men and the exchange of ideas and information will be a valuable asset to them. Credit terms came in for much discussion and it was decided to start a movement for the general shortening of time allowed on accounts, which would work all the way from the producer to the consumer and have the tendency to bring business nearer to the cash basis.

Among the former St. John men who Mr. Rising met in Winnipeg were Frank Parke, a member of the St. John association and Ralph Wheeler, who was his guest at the banquet.

GARLAND ON STAND

Says Prominent Members of Government Advised Restitution of the \$6,300

Ottawa, Ont., June 28.—That Powell, the clerk on twelve occasions drew money which had come from the government, that he drew it at the request of Garland, the Conservative M. P., that while he did not pay it into Garland's hand, he left it where Garland would get it, was stated this morning to Sir Charles Davidson, royal commissioner appointed to investigate war purchases.

"Why did you do so?" Examiner Thomas asked. "I had been advised by some of the leading members of the government to 'make the money back if I could,' replied Garland.

Mr. Garland was not asked the names of the members of the government who had advised restitution. The statement was heard with great interest and is regarded as very significant.

ARTILLERY FROM ISLAND HAVE CITY MARCH OUT

A welcome sound was heard through the street of St. John at noon today, when the members of the Artillery Company, stationed on Partridge Island, marched through the city on a route march to the vicinity of Rockwood Park.

They had a huge band which played the familiar strains which have become so well known to all residents since they were first heard in the militia here last fall. It was the first time in a fortnight that the bugles had been heard.

Under command of Acting Captain Roy King, the garrison paraded in front of the city hall, where they were returning about 5 o'clock to their quarters on Partridge Island. It is Lieut. Col. Armstrong's idea to have more of these marches to brighten the routine of drill.

They certainly made a smart, soldierly appearance in their marching out today, and won complimentary remarks from all who saw them.

The Evening Times and Star

ST. JOHN, N. B., JUNE 28, 1915

The St. John Evening Times is printed at 27 and 29 Canterbury Street every evening (Sunday excepted) by the St. John Times Printing and Publishing Co. Ltd., a company incorporated under the Joint Stock Companies Act.

FOR A LONG WAR

A register is to be made in the United Kingdom of all men available for enlistment, or qualified to make munitions, or to perform other work, such as agricultural labor and that of food supply industries.

A FATEFUL DAY

On Sunday, June 28, 1914, the Archduke Francis Ferdinand, nephew of the Emperor of Austria, and heir to the throne of the Hapsburgs, visited Sarajevo, the capital of the annexed province of Bosnia, and both he and the Duchess were shot by an assassin in the streets of that city.

CANADA'S WEAK POINT

Pointing out that no cry has been more insistent in England than "Organize, Organize," the Canadian Courier says: "Canada should learn the lesson. Only organization of a superior kind will enable the government and the country to weather the storm, which is steadily growing worse."

better of some reorganization." In view of the fact that the Courier is ordinarily disposed to be friendly to the Borden government, and does not hesitate to criticize its opponents, the following paragraphs are rather interesting at this time.

"Hon. Lloyd George, minister of munitions, is sending over a business man of repute to see what all this hubbub is about. If certain people are getting 25 per cent. commission on British orders doled out to Canadians from New York, Lloyd-George would like to know about it.

More than three hundred men are needed to complete the 55th Battalion. Why do recruits come so slowly? The Standard continues to hold out the olive branch to Liberals by thumping them with the butt of it.

"Sir," said the sleek-looking agent, approaching the desk of the meek-looking man and opening one of those folding things called portfolios, showing styles of binding, "I believe I can interest you in this massive set of books containing the speeches of the world's greatest orators. Seventy volumes, \$1 down and \$1 a month until the price, \$80, has been paid."

THE EVENING TIMES AND STAR

ST. JOHN, N. B., MONDAY, JUNE 28, 1915

LIGHTER VEIN

Two to One.

An English traveler was being driven round Killarney by a typical Irish coachman.

It was a very hot day, and the traveler gave the "servant" a drink at a wayside inn.

"Well," he asked, "has that made another man of you, Pat?"

"Faith, and it has," answered the Irishman. "And he's thirsty, too."

Artless Innocence.

About a dozen people dropped in unexpectedly at a country house the other evening, and the flustered hostess did her best, in the limited time at her disposal, to make a good show at the supper table.

But she had only just begun to flatter herself that things were passing off swimmingly when her youngest daughter, aged six, remarked to the gentleman next her:

"Aren't these nice tumbles we've got, Mr. Brown? They all came from the grocer's full of macarons. Didn't they, ma?"

She Was Popular.

A schoolmaster complained to the headmaster that on the previous evening he had seen one of the older boys flirting with a young lady.

The headmaster accordingly spoke to the boys of the senior class, in severe terms on the impropriety of such conduct, and wound up his harangue by saying that out of consideration for the parents he would not name the culprit, but invited him to come into his private room at the close of the lesson.

That afternoon six crestfallen boys presented themselves at the private interview.

Obliging.

A servant girl one day went to her mistress in tears, and asked permission to go home for a few days—she had a telegram telling that her mother was ill.

"Of course," said the mistress; "only, Maggie, don't stay longer than is necessary. We need you."

Maggie promised to return as soon as possible and hurried away. A week passed without a word from her; then came a note by post:

"Dear Miss B.—I will be back next week as a piece my place for me, mother is dying as fast as she can. To oblige, MAGGIE."

The Way the Wind Blows.

A wind is a wind, from whatever quarter it may blow. So thought the hotel-keeper in the Highlands, of whom a tourist asked:

"Is this a good place, do you think, for a person with weak lungs?"

"None better, sir, none better," was the encouraging reply.

"I have been advised to settle in a place where there is a south wind. Does it blow much here?"

"Oh, ay," was the answer. "It's the south wind that blows here."

"But it's blowing from the north now."

"Oh, ay, sir, it's 'a' one. It's the south wind 'a' the same, sir, on its road back."

The Bore Retorts.

"I am passionately fond of music," said the bore. "In fact, music always carries me away."

The girl hastened to the piano and played several popular airs; then she swung around on the piano stool.

"You still there, my dear?" she thought you said music carried you away."

"So I did—music."

THE CLIVEDEN HOSPITAL Excellent Place For Wounded Canadian Soldiers—More Tobacco For the Men Needed Toronto, June 28—Amongst the many hospitals, where our sick and wounded soldiers are being brought back to health, there is perhaps no institution which will appeal to Canadians more than the Duchess of Connaught hospital at Cliveden, a beautiful country house, on the upper reaches of the Thames, which was given to the British War Office by Waldorf Astor. The following interesting description is taken from a London paper. "What between the donors of the building and the Canadian Red Cross Society, this hospital is a model. The great height of the building and its glass roof insure the wards being flooded with light and air. The operating room is one of which any hospital might be proud. The X-ray room, though small, has received high praise. The laboratory, the medical stores, the disinfectant and other features of the equipment are all of the best that can be got. There are beds in the wards by which one does not linger—beds where the signs of pain or of exhaustion are woe-

RECENT DEATHS

The death of Edmund D. MacGrath occurred yesterday at his residence, 28 Paradise Row. He has been in poor health for several years, but had improved lately and his death came as a shock to his friends. For seventeen years Mr. MacGrath conducted the restaurant in the Union Depot and while there made many friends among the traveling public while adding to the great number of his friends among the citizens generally. He was a man of generous disposition and quietly befriended many persons who would have suffered but for his bounty. He is survived by one brother, John, of this city, and two sisters, Mrs. Catherine Dutton of Tusculum, Pa., and Mrs. Alice Gallagher who made her home with him. The funeral will take place on Tuesday afternoon at 2:30 o'clock from his late residence. The death of George Wilson occurred on Saturday at the age of seventy-three years. He is survived by one son, A. A. Wilson, K. C. high sheriff of St. John. The funeral took place this afternoon from Powers' undertaking rooms, Princess street. Whitfield G. McLeod, aged fifty-nine years died on Saturday at his home in Apohaqui. He is survived by his wife

formerly Miss Barton of St. John, and two sisters. The death of Mrs. Mary Wilson Macdonald widow of George N. Macdonald, occurred yesterday at her home, 40 Rock street. Mrs. Macdonald is survived by two sons, Harry J., of the 8th Regiment, C. A., and Elmer D., also two brothers and two sisters, George A. McKee of Boston, Mass., William E. McKee of the I. C. R., St. John, Mrs. J. A. Ward Black, of Amherst, N. S. and Miss Nellie McKee at home. William H. Boyce, a former resident of Fredericton, died on Saturday at his home in Kings Lynn, England, at the age of 76 years. He is survived by five sons and seven daughters. He is survived by Mrs. J. A. Ward Black, of Amherst, N. S. and Miss Nellie McKee at home. Many friends and former pupils of John Thompson for years one of the city's most valued principals will be shocked to learn of his death which occurred early yesterday morning at the General Public Hospital following an operation. Mr. Thompson had reached the age of seventy-one. He is survived by his wife and two sons, Harry, at home and William J., C. P. R. yardman on the West Side. To them will go out the sympathy of the community in their great loss. The body will be taken to Bayview Station for interment in the Methodist cemetery, the funeral taking place at 2:30 tomorrow afternoon.

AUSTRIAN PLANS ARE REVEALED

Prisoners Had Hand-books On Invasion of Italy

COMMENT IN BERLIN

The Socialist Manifesto Declaring For Peace Under Certain Conditions—Dutch Papers Increased at Orders Which They Blame on Germans

Brescia, Italy, June 27.—Hand-books giving instructions on how to invade Italy through the valley of the River Po, thus reaching Verona, Mantua and Ferrara, cutting off Venice from the remainder of the kingdom, have been found in the possession of Austrian officers who have been made prisoners. These booklets apparently were compiled by an officer of the Austrian general staff. Berlin Comment. Berlin, June 28.—(By wireless to Spire)—Included in the news items given out today by the Overseas News Agency, are the following: "The French government, for sanitary reasons, has removed from West Africa to North Africa, the German civil prisoners who have been registered in Dahomey. German newspapers express the opinion that this move is a result of the recent announcement of retaliatory measures on French prisoners. "The Krieg Zeitung, in an editorial article, expresses the desire to continue negotiations with the United States, with the idea of reaching an understanding in the matter of submarine boats which shall not endanger the vital interests of Germany's maritime warfare, either at the present or in the future. "So far as the newspapers discuss the Socialist manifesto declaring for peace, under certain conditions, they are unanimous in condemning it. The Vossische Zeitung pronounces it incomprehensible and devoid of all logic. It asserts that even the Socialist press admits the impossibility of leaving wholly unchanged the territorial status of the countries involved. The Kreuz Zeitung thinks it would constitute a grave danger to a country fighting for its very existence to permit the manifesto to stand uncontradicted. The statement that the working classes are opposed to the annexation proposal is denied. The paper asserts that the suggestion that Germany make peace overtures to ask Germany to assume the role of a conquered country and that this demand tends to weaken Germany by creating the impression among a considerable part of the people are tired of war, which is false. The Tages Zeitung regards the publication of the manifesto as regrettable, and asserts that it should have been addressed to the governments of countries fighting Germany. An interesting fact in connection with the manifesto is the impression made on 7 but was withheld until now because of Italy's entrance into the war. See Germans Behind This.

HER CALL ON "LONELY" SOLDIER IN HOSPITAL GAVE HIM BAD TIME

Amusing Letter From Maine Man Who Has Been Fighting With the Canadians

The following letter has been received Saturday by Mrs. A. E. Goodrich of Hallowell, from her son Frank, Warnecliffe Hospital, Sheffield, England, Sunday, June 6, 1915

"My Dear Mother: It seems I am always writing letters, these days and never getting any. I must grumble, it's not your fault any way. The mail has just come in the ward and has been distributed and as usual there is nothing for 'Yours truly.' "Yesterday afternoon was 'writing day' and the ward was crowded with visitors and relatives of the various cases here. I was stretched out on my bed reading when the visitor brought in a letter from Mr. Goodrich. I was much mystified until she disclosed the fact that she was writing for 'lonely soldiers' and on account of my being a Canadian soldier my name was brought to her attention and she thought I would like to have some one to talk to. Of course I thanked her as cordially as I could under the circumstances, but I was anything but pleased. She accepted my invitation to be seated and when she got the check to her finger she asked me if there were any more lonely soldiers in the ward. I was beyond speech at this point and every one of more or less importance in the only town in the world that was honored by her presence. Believe me which she paused for breath I was limp. "After another bombardment lasting fully fifteen minutes, during which I was praying for an earthquake, cyclone, explosion or anything else that would put a check to her tongue she asked me if there were any more lonely soldiers in the ward. I was beyond speech at this point and every one of more or less importance in the only town in the world that was honored by her presence. Believe me which she paused for breath I was limp. "When I returned she was gone and the poor devil I showed her onto wanted to assassinate me. He got the same line that I did, even the promise to return but we went to the head nurse and vowed to spill gore if she admitted any more like that one. It's worse than fighting Germans. "I am in good shape and expect to get my 'tickler' very soon. "Yours loving son, "FRANK."

NEW PRESBYTERIAN CHURCH DEDICATED

Anniversary of Little River Methodist Church—Masons Attend Divine Service—Missionary From China

The new Presbyterian church at Westfield Beach was dedicated yesterday. H. L. Somers, the student who will be in charge during the summer conducted the service and Rev. H. A. Anderson, Rev. Jas. Ross and Rev. J. A. McKeighan took part. A fine choir with a quartet consisting of Miss and Mrs. F. C. Macneil, Miss Creighton and E. B. Bowman, assisted with the music. The best anniversary of the Methodist church at Little River was observed yesterday with special services conducted by W. H. Barraclough and Rev. George Steel. Carleton Union Lodge, F. & A. M., attended divine service yesterday morning in the Church of the Good Shepherd, Fairville. Rev. W. H. Dunham, preached. An interesting picnic programme was given in the Portland Sunday school yesterday afternoon, those taking part including Miss Laura Spencer, James, Broe, Charles Rankine, Robert Hayes, Mildred Killam and Rev. W. J. Bevis of Gloucester, N. B. Rev. Mr. Small, home on furlough after several years of missionary work in China, attended the picnic of the Genesee church last evening. He is a guest of E. S. Henigar, Orange street. Ingersoll Cheese goes with all kinds of pie. Pie doesn't taste right without Ingersoll Cheese. HIS FIRST PIE OF CAKE SINCE FEBRUARY Gibson Soldier Also Tells of Some One Taking Treat of His Cigarettes Private Hedley C. Forbes, of No. 1 Field Ambulance Corps, has written an interesting letter to his mother, Mrs. Robert Forbes of Gibson: "I received your parcel this week. The shirt was certainly great and the cigarettes are a treat. I only got four as someone else helped themselves before they reached me. You never want to mark anything cigarettes, mark them soap or something of that kind. That cake was certainly great; it was the first I had to eat since February. "I suppose you have heard that we lost heavily again. I don't think the war will be over by this time next year. In the recent fighting our fellows captured a German colonel. He says the Indians are 'one devil' and the Canadians sixteen devils. When our fellows charge you can hear them hollering for two miles. The wedding of T. Harold Fairweather to Miss Helen Sophia, eldest daughter of Mr. and Mrs. R. H. Warneford took place on June 22 at the home of the bride's parents in Norton, the ceremony being performed by Rev. C. A. S. Warneford, rector of Johnston, an uncle of the bride. Miss Helen was maid of honor, little Miss Titus was flower girl and Misses Grace Warneford, Hazel Warneford, Lucy Hoyt and Delphine Fairweather, were ribbon bearers. Fenwick Hoyt was the groomsmen. See that our name appears on both the label and wrapper as there are many imitations placed on the market which are said to be "just as good." Burdock Blood Bitters is manufactured only by The T. THE CONGREGATIONAL UNION

The annual convention of the N. S. and N. B. Congregational Union was brought to a close yesterday. The business sessions were concluded on Saturday morning and in the afternoon the delegates were taken on a trip to various places of interest around the city. Yesterday morning the annual union sermon was preached by Rev. W. J. D. Gibson and communion service followed, Rev. R. J. Haughton presiding. In the afternoon there was a mass social meeting at which Captain G. W. Doty presided and the chief address was that of Rev. W. T. Gunn, D. D., followed by an address by Rev. George Miller on Grasping Life's Opportunities. The offertory was for the Canadian Congregational Foreign Mission Society. Employer—Mr. Quill, when you came in this morning I detected the odor of liquor about you. Clerk—That's fine, sir! Shows how very much better your cold is, sir.

GIVE Ivory Soap a hard test. Try it for something for which you hesitate to use other soaps—for bathing an irritated skin, for washing delicate lace or dainty, colored materials, for cleaning a priceless piece of furniture or for nursery use. You will find that Ivory Soap does not injure—that it does nothing but cleanse—that it is safe for any purpose. Ivory Soap will not harm anything that water itself cannot harm. Unlike most soaps, it does not contain free alkali, and the quality of its materials is the best, no less. Ivory Soap is mild, white, pure, high grade soap in the strictest sense. The work it has done for thirty-six years proves it. 5 CENTS IVORY SOAP . 99 3/4% PURE IT FLOATS Procter & Gamble Pasteur in Hamilton, Canada, for the making of Ivory Soap, Gold Soap, P. and G.—The World's Neatest Soap and Powder.

SWISS WORKING FOR GERMANY

Factories Running Overtime on War Orders

12,500 MEN ENGAGED

Shutting Off of Supplies Makes Problem More Difficult—Soldier Workmen in Germany

Paris, June 25.—While Germans and pro-Germans are protesting against the manufacture in the United States factories, of munitions for the Allies it is worth noting that Germany herself is drawing considerable supplies from at least one neutral country.

The Germans are utilizing to the fullest every available neutral source for supplies of war equipment is made evident by reports that the leading machinery and electrical houses in Eastern Switzerland are working to full capacity in furnishing material destined for Germany. According to the available information the works of Escher Wyss and Co. and the Oerlikon Electrical Works, both at Zurich, are working on engine and ship equipment for the German navy and the great works of Brown, Boveri & Co. of Baden, the Sulzer Works at Winterthur and the Swiss Locomotive works also at Winterthur, are similarly engaged.

Work for Treston Navy The above Swiss plants are located in the German-speaking section of Switzerland, and for years each firm has been as Escher Wyss and Co., Oerlikon and Brown, Boveri and Co., have been employed by the German Marine Department as well as by other countries. The first Zoelly turbines ever built for a ship were turned out in 1909 by the Escher, Wyss & Co. works, for the German scout cruiser Koln. These engines were 20,000 horse power and at the time of their construction were the largest turbines of the Zoelly type ever constructed. The designer of the Zoelly engines, Herr Zoelly, of the Escher Wyss works, formed a partnership with two German firms of Howald, Kiel and Krupp of Essen.

The Brown, Boveri & Co. plant at Winterthur has been engaged for many years in turning out Parson turbines for naval use, and some of the best turbine installations abroad have come from the Baden shops. The Brown, Boveri & Co. shops are now working, it is learned about three thousand men. At the Fischer-Yess plant no less than 2,500 men are at work, and at the Artillery Sulzer & Son's locomotive plants the combined force at work approximates, it is declared about 12,500 men, representing skilled labor of the highest sort, are now working in Swiss plants on war orders.

Italy Blocks Supplies The German Swiss shops have enjoyed up to the time that Italy entered, the war free communication with the outside world, and raw material of all descriptions has freely entered Switzerland by Genoa and thence reached Zurich over the St. Gotthard route. This has now been blocked off by the way of the St. Gotthard, and the Simplon of all trains carrying locomotive beams into projective engine-parts. It is understood that for some time the Swiss plants were receiving ore shipments from Spain via Genoa and that much of the ore came to them from mines in Spain controlled by Krupp. The Krupp steel works on the Rhine are largely fed by ore ships which come from Spain and navigate the Rhine. This supply by way of the Rhine has been shut off, and

TRACTOR TO REDUCE HIGH LIVING COST. Henry Ford Says New Engine Will Give it Hardest Blow Yet.

TALKS OF PROJECT Will Cut Expense of Soil Tilling and Keep Young Men on Farm—Gives Details of Plan For Immense New Plant to Employ 25,000.

(Detroit News) Thirty-four years ago a young man, dressed by sun and wind, drove a steam engine across a field of a Dearborn, Mich. farm and left behind him a jagged furrow.

"It wasn't a dream" Thursday night this self-same youth sat on a crude chair in the office of little hotel scarcely a stone's throw from the spot whereon his engine had done its uneven course 34 years before.

In the Village Hotel The front office of Wagner's hotel safely suggested itself as proper atmosphere for a man of millions to talk millions. At first, it seemed rather grotesque as Henry Ford sat there and talked of his tractor engine and of his confidence that it is to revolutionize the business of farming and the life of the farmer.

Ready After Years of Work "It has been my idea for years," he said, "I have worked at it constantly. I am ready and it means much."

Citizens Crowd About Him. "What this machine will do, that is of world-wide importance," he said, "is to keep young men on the farm. It will reduce the cost of tilling the soil by one-half or one-third, and it will produce food in abundance for an increased population. It will make work, lots of work. That is what I like to do and what I think is the same of all social service, give men the opportunity to work."

Backache WAS SO BAD COULD NOT SWEEP THE FLOOR. For backache, lame or weak back, one of the commonest and most distressing symptoms of kidney inaction, there is no remedy so equal Doan's Kidney Pills for taking out the stitches, twinges and twinges, limbering up the stiff back and giving perfect relief and comfort to all poor, suffering women who suffer so much from a weak lame back.

Used Engine to Haul Lumber. "Why, I even used my steam engine to haul lumber with, and I was successful then," he said. "Of course my machine wasn't perfect. It wasn't until I developed the motor for the Ford car that the solution for the tractor engine was at hand. The identical engine that is used in the motor car will be used in the tractor. Long before I thought of the great development of the motor car I thought of the farm tractor and its possibilities."

"As it stands now, the tractor engine is about perfect. There are just a few little touches I want to add to it and when it will be what I want it and what I have been trying to make it all these years. These little changes are not essential, but they are important and I will spend the rest of the summer working them out. I mean by that that I will put one day a week in on my farm working at the engine."

"I have 10 engines on my farm here. The proprietor of the Wagner house rushed up, breathless with excitement and announced his readiness to turn his hostelry over to Mr. Ford for a meeting place. "That's all right," said the Mr. Ford. "Keep calm and prepare to build yourself a big hotel for the future. You'll need one out here some day."

It will take ten years to develop this suburban plant to its highest state of efficiency. It is my plan to make all my motors out here, for both the tractors and the motor cars. In fact, all the iron work will be done here.

Mr. Ford spoke of the real estate activity in Detroit's west suburbs, and he said he regretted that premature publicity had spoiled some of his plans, enabling real estate operators to boost their prices.

"I will cost you a lot of money," he said. "Fortunately I have most of my property lined up. I don't want to say how much. You can say, though, that I will have considerably more than 2,000 acres. I expect to plant the factory on 600 acres. The property that adjoins this will be used for the homes of the workers."

"What about your model town and from where will your workers come?" Mr. Ford was asked. "I expect to build a town here. I have a large tract of land out here and I am going to develop it. I want to make one cent on it myself. This land is going to be cut into proper sized lots and the great majority of them are to be sold at a price that will make a man who works for me go to get very fat off it either. I am going to develop this property for men who will work, and as I have just said, any man who works is desirable, whether he be black or white and no matter what his creed."

"I am looking for the government to make the needed improvements on the river. The Rouge will have to be deepened and widened and a basin for the boats to turn in will have to be built." Employ 20,000 at Start. Mr. Ford said that operations on the buildings will start at once. He said he expects to employ more than 20,000 men right at the start.

The Highland Park plant of the Ford Motor Co. will be used exclusively for bodies and parts after the erection of the new plant. All the assembling will be done in the branch factories, of which the Ford Motor Co. now has about 50.

Mr. Ford was asked how far he had experimented with the farm tractor. "I have done everything I can think of to prove its efficacy," he said. "Last week we used one to haul a shaft of steel, weighing 30,000 pounds, and I got it to the top of a hill. I guess that looks as if it can do some work."

"As I said, it will take ten years to develop the new plant to anything like I want it. Long before that time I expect to be turning out 4,000,000 engines a year to supply the tractors and the motor cars."

All during Mr. Ford's discourse he was constantly interrupted by Dearborn citizens, farmers and workmen, who crowded about to hear from his own lips the verification of the story. For half an hour Mr. Ford had a pleasant word and a hearty hand clasp.

BACKACHE WAS SO BAD COULD NOT SWEEP THE FLOOR.

For backache, lame or weak back, one of the commonest and most distressing symptoms of kidney inaction, there is no remedy so equal Doan's Kidney Pills for taking out the stitches, twinges and twinges, limbering up the stiff back and giving perfect relief and comfort to all poor, suffering women who suffer so much from a weak lame back.

Mrs. Blackburn, R.R. No. 1, Fishburn, Alta., writes: "I take pleasure in writing you stating the benefit I have received by using Doan's Kidney Pills. About three years ago I was terribly afflicted with lame back, and was so bad I could not even sweep my floor. I was advised to try your kidney pills. Before I had used one box there was a great improvement in my back was much better. However, I kept on taking them until my back was completely cured. I highly recommend these pills for lame back."

Doan's Kidney Pills are 50c per box, or 3 boxes for \$1.25, at all dealers or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont. When ordering direct specify "Doan's."

panies, decline, generally to comment on the huge project. But nowhere is there expressed a doubt that Henry Ford's plan will become a reality, virtually along the lines that have been announced. The Ford Motor Co. has no stock to sell, nothing to promote, and so far, has met amazing success in every undertaking.

Pte. Cobolan Wounded — Pte. Hamilton a Prisoner — Lieut. Macfarlane Seriously Ill—News of Canada in the War.

Lieut. W. T. Macfarlane, of St Stephen, N. B., who left here on the steamer Calcutta, with the 26th Battalion, is reported seriously ill in England.

Pte. W. J. Cobolan, 81 Somerset street, Joseph Dryden, 85 Chesley street, St. John, Daniel McNeil, Big Baddeck, N.S., and James Johnstone of Dartmouth, N.S. are all reported wounded, while D. A. Simmonds, of Fort Wood, P. E. I., Harry Edgar Hamilton, Paradise Row, St. John, N. B., and James Flood of Pictou, N. S., are reported prisoners of war in Germany.

Private W. J. Cobolan writing to Mrs. Patrick Cobolan, 81 Somerset street, told of having come through some severe fighting in the trenches on June 9. He has been untouched up to that time. Mrs. Cobolan received a telegram on Saturday from the adjutant general at Ottawa, saying her son had been wounded in the chin and hip by gunshot and is now in hospital.

Mrs. James Gorman, of 80 Broad street, received a letter on Saturday from her son, Louis, written in Scotch Hospital, Carlisle, England, telling her that he had been wounded one of his legs in the battle of Ypres and expected to be laid up for some time.

A cable to Mrs. Smith, 189 1-2 Duke St. from her husband, Pte. H. D. Smith, of the Construction Corps, told of his safe arrival in England.

W. W. Butler vice-president of the Canadian Steel Foundries, Ltd., in New York yesterday on his return from Liverpool, said that 500,000 additional shells were to be made in Canada for Russia.

St. Adam Beck has been appointed director of remounts for Canada during the war, having charge of purchases of all horses for the Dominion.

In St. Andrew's Presbyterian church, Ottawa, last night Rev. Dr. W. T. Herdidge, ex-moderator of the Presbyterian General Assembly, in a powerful sermon on the war attacked "motion picture pictures, professional sports and other like things," as taking the mind of the people off the war.

About \$2,500 was realized on Saturday in Fredericton for the patriotic and Belgian relief funds, from an auction sale of goods donated by citizens.

The 50th Battalion at Sussex yesterday held separate church parades to the different churches in the town, being attended by detachments representative of the respective denominations.

Some 240 more men are required to fill all the ranks of the 50th.

Farmers, market gardeners and others who cultivate the soil will be pleased to know that the Entomological Branch of the Dominion Department of Agriculture has issued a thirty-one page bulletin (No. 10) on "Cutworms and their Control," prepared by Arthur Gilson, the chief assistant entomologist. In the introduction it is stated that cutworms as a class rank in importance with such well known pests as the San Jose scale, the Codling Moth and the Hessian fly, all of which are among our most destructive insect enemies.

There are certainly few insects which year after year, inflict such widespread damage as the various caterpillars known commonly as cutworms. The annual loss occasioned by these insects in Canada amounts to hundreds of thousands of dollars. In the bulletin the methods of controlling cutworms are discussed fully. Under "preventive measures" the value of clean cultivation is referred to as well as the placing of bands of tin or paper around plants which are set out. "Remedial measures" include descriptions of various poisoned baits to destroy the cutworms, directions for the making of proper furrows or ditches to prevent the advance of armies of cutworms, etc. Fifteen common kinds of cutworms are described in popular detail and much information given on the habits and life-history of the various species.

The bulletin is fully illustrated, the figures being clear and well chosen. Altogether there are twenty illustrations of cutworms, cutworm moths, injury to plants, etc. Copies of this new publication may be had free of charge on application to the chief of the Publications Branch, Department of Agriculture, Ottawa. Enquiries regarding these insects or other kinds which are found to be injuring crops, should be addressed to The Entomologist, Department of Agriculture, Ottawa.

GLEN FALLS AND THE ST. JOHN RAILWAY CO.

SOME INSIDE HISTORY

You First Read of Glen Falls

Just one year ago we first advertised Glen Falls lots in this paper, or just two years after the company first started the work of development, which included the building of a splendid concrete reservoir for its new extensive water system, the construction of roads to open up the property, the building of drains, etc.

Outstanding Among the Several Very Important Announcements We Made Last Year Were:

That the Saint John Railway would extend its line to and through the heart of Glen Falls. Many doubted the truth of the above statement, and some kind friends of the doubting Thomas tribe publicly stated to their acquaintances that they did not believe that the Railway Company would extend its line to Glen Falls, and that Glen Falls could never amount to anything.

We Made Sure, Then We Improved, Then We Advertised

We made sure of the railway extension before we advertised Glen Falls lots for sale to the general public. We laid out a town and arranged for roads and all the modern and most necessary conveniences which Glen Falls now possesses before we advertised in the news papers that we had lots for sale. When we organized The Coldbrook Realty and Development Company, it was our purpose to build a garden town where the home builder could have a home "in the country almost in the city, and where he could enjoy all city conveniences at half the cost." Already this has been partly accomplished as a result of our carefully prepared plan, and the future of Glen Falls has been assured. What is even more important, our promises to the public have been fulfilled, and in Glen Falls we have a town in the making.

How to Build a Town; Directions Which we Have Followed and Which we Commend to All Who Are Interested in Like Projects:

FIRST—Buy good land in a good location, and pay for it in full before you sell it to others, and don't pay such a high price that you cannot make necessary improvements. Then sell it in large at reasonable prices, reserving a large amount of land for wide streets, parks and playgrounds. Remember that you will undoubtedly have some land that is not fit to sell to anybody, not if that man sees the lot before he buys it; for if you are to have satisfied customers, you must show each and everyone the lot you propose to sell them. Remember that people do not want narrow twenty-five foot lots on which they would scarcely have room to build a house, and would necessarily have to travel over someone else's ground to get from the front to the back door. Your lots must have at least a frontage of forty feet, preferably fifty feet. (If perchance, Dear Reader, you are a real estate man and sold twenty-five foot lots, take advice and give your customer another alongside for good measure. Should you do so, he will have room to build a house with a garden and a few green trees. As we will point out to you later, all this is necessary for the development of your property.)

SECOND—Now that you own the land and have laid out that which is suitable for the erection of homes on good large lots, arrange for transportation, by which we mean street railway connection. Remember that the initial expense, the construction of the line, is very heavy and it will take some years before it will be on a paying basis. Don't expect the Railway Company to extend lines to sparsely populated territory unless you can convince them that the future is so great that within a short space of time it will be on a paying basis. The directors of large corporations are good business men and are progressive, if you show them returns for money invested, but they will not likely extend lines for the convenience of the few. Street railways are for the convenience and pleasure of the general public, and are also operated for the benefit of the stockholders. If you can submit facts to prove that your land has a future like that of Glen Falls, it should be possible to secure street railway connection.

THIRD—Now that you have the railway arranged for, construct roads, build bridges, dig drains, build a water reservoir and put down water pipes in front of your lots. (Remember, you can't have any water system unless you have a good stream of good water, room for a big reservoir at a sufficient elevation to provide good water pressure. You must also own and reserve the land around this reservoir so that nothing can contaminate the water.)

FOURTH—Having done all this, and walked all over the property with a surveyor so that you know where each and every lot is, at the same time making sure that the surveyors does, have him make a plan of your property, showing the good and saleable lots laid out according to the most suitable lay of the land. We may say right here that many plans have been prepared of property, where lots were laid off without any regard to the contour or lay of the land, with the inevitable result that some front on rocks, some run sideways down hill, etc.

FIFTH—Price lots according to quality, size and location, and when fixing prices remember that you have only a townsites for sale and not a town. Therefore your prices must be low. As it begins to build up and you spend your money for improvements, you will be justified in increasing prices.

SIXTH—Sell lots only to those who desire them for building a home (speculators will not improve property), and make sure that your customer buys a lot that suits him and not you. If he buys a lot that suits him and you give him fair treatment, he will be pleased with his buy and will be the direct means of more sale. A satisfied customer can sell more lots for you than all the advertising and salesmen that you can employ.

JOHN A. PUGSLEY,
General Sales Agent.

Prices Can be Increased as Values Warrant It

In the centre of this advertisement is contained an announcement of a general increase in prices, which increase is permissible and justified by the large sums of money which we are spending for the developments of Glen Falls, by its rapid growth and by reason of our having first marketed lots at low prices with the object of encouraging the building of homes. While the increase which we are announcing is not large, it is the second increase which we have made, we having made an increase of ten per cent. (10%) on August 1st, 1914. It is our desire to give those who wish to take advantage of the time between this date and July 17th, the chance to select and buy their lot before the increase.

Your Home and Future

In the summer a young man's fancy does more than "lightly turn to thoughts of love." In the summer young men and old men and women also turn to thoughts of buying a home and putting their spare money into real estate, the safest of all investments.

It is in the summer that real estate begins to boom. Nature is at her best now and makes her strongest appeal to us all. "What is so rare as a day in June?" These rare summer days make us feel how precious is life and how much worth while it is to provide in our day of plenty for a long life. No one can look a beautiful summer morning in the face and not feel the desire to plant his foot upon a part of the earth which he can call his own, and by a wise investment to preserve the pure joy of living from the adulteration of worry and want.

Young people should put their money into Glen Falls real estate. It is the safest and best of all investments for the young. It will yield a larger return than a government bond, and, if wisely chosen, is just as safe. It is a great stimulus to saving. It cannot be too readily converted into cash to be dissipated upon some ill-considered whim or passing fancy. It is, in the financial life of a man, like the constitution in a political democracy, just difficult enough of change to compel a sober second thought.

If you only own an equity in your property, you have the further stimulus to save, which lies in the necessity of paying off the mortgage. Real estate, thus, is like an insurance policy. You could make more money by depositing your premiums in the savings bank than by giving it to an insurance company, but hosts of prudent men take out endowment insurance because they feel the need of some compulsion to save, and they fear that they would not make the regular unflinching additions to their savings bank accounts. The necessity of paying off a mortgage has created in many a family the habit of saving, and thus laid the foundation of that family's prosperity.

What is better than a home in the suburbs "in the country—almost in the city"—which you own yourself and can develop as you please, where the light and the air is all around you and the children can keep off the dirty, dusty streets?

If you own your own house you feel a sense of substance, and you are given a standing in this curious world of ours which is unaccountable but real. You feel more settled, stable, substantial yourself, and your neighbors are curiously inclined to agree with you. You feel more attached to your neighborhood and more interested in its public concerns, and for that reason more likely to be an influential citizen.

ANNOUNCEMENT

We wish to announce that at noon on Saturday, July 17th., 1915, all Glen Falls building lots will be increased in price an average of:—

Ten Per Cent. (10p.c.)

This will be general and will apply to all lots remaining unsold. All previous prices and quotations being cancelled.

This increase is justified by our expenditure to date for public improvements, street car service and present low prices.

Our Policy

We do not wish to knock propositions of other parties, nor is it the purpose of this advertisement to do so. With the utmost confidence we proclaim. The wisdom of the policy which we have pursued, which has resulted in placing our undertaking upon a stable and permanent basis, ensuring to our customers happy and comfortable homes, and making each and every one who has bought from us a booster for Glen Falls is self evident.

THE AUTO

World's Records Smashed.

In the Chicago 500 mile Derby on Saturday all complete speedway automobile world records from 50 to 500 miles were broken. Dario Resta's time was 5:02.36. He averaged 97.6 miles an hour. The previous record was held by Ralph DePalma, 59.84.

THE FAULTLESS FRUIT?

Gruff old Dr. Johnson doubtless thought he was speaking the last word about fruit when he said that God could have made a better berry than the strawberry, but he did not believe that God ever had. But then—what variety of strawberry did Doctor Johnson have in mind? None of our best berries date back more than 100 years and the berries he knew could not have done more than give a suggestion of the kinds we enjoy. His berries may have been glorious, but there is one glory of the Wilson and other glories of many kinds of strawberries; for one-strawberry differs from another strawberry in glory. As Dr. Johnson has been dead for many years and I need not fear his wrath, I shall venture to amend this epigram by saying that when God wanted a better berry than the strawberry he made another strawberry.

Of course the wild strawberry has been known since the earliest time in all parts of the world, but the domesticated variety as we know it was introduced from Virginia in 1639. Since then horticulturists have been in pursuit of the ideal berry and now they are hoping for great things through hybridation, selection and what practically amounts to creative evolution. At the Vineland Experimental Station alone they have this year more than 3,000 new varieties to test in the hope of discovering one that is new and superior.

According to fruit statistics the strawberry is now more widely used than any other fruit except the apple. It may be used to advantage either cooked or raw and canned strawberries carry their relish to every season of the year. Then there must be strawberry jam for the children's lunches of school and for the workman's dinner pail. In short, it may be used in so many ways, all delightful, that every housewife, no matter how poor, feels that she must have a supply of strawberries in some form if she is to have a home worthy of the name.

Not only is it a fruit of incomparable quality but it has no poisons, no core, no pit and no waste of any kind. Its use is as economical as it is delightful. Because of its perfection it has a place of its own in the favor of humanity, and best of all, it is the first fresh fruit to come on the market in the spring when we are sharp set after the long winter.

Unquestionably the strawberry deserves the account of its creation given by that delightful fabulist, John Milton, editor of Life. He fabled that the Creator took so much good material and so many favors to make the Hudson river that the devil used up all his power for evil in filling it with the most distressing amount of bones to be found in any fish. Then the Creator triumphantly made the strawberry and the devil had nothing left with which to spoil it. So he "hed howling" and the devil had nothing left with which to spoil it. So he "hed howling" and the devil had nothing left with which to spoil it.

MORNING NEWS OF THE WAR

Leaders of trade unions in England have issued a manifesto to the workmen of the British Isles asking their comrades to relieve the strain upon their comrades in the trenches, by rallying to the side of those engaged in the manufacture of munitions.

The French congress yesterday passed the Industrial Mobilization Bill, providing among other things for a body of men to be relieved from the firing line to aid in the making of shells.

The Russians are again reported the retreat in Galicia. The falling back of the Russians has caused the English people to expect the war to be drawn out to much greater length.

Dr. Bernberg resigned Berlin yesterday from the United States.

Germanic agents are seeking to have the Pope take up his residence in Switzerland during the war.

Hall Bey, president of the Turkish council, has been in Sofia, seeking to conclude an agreement regarding Bulgaria's entrance into the war, but without success.

A German submarine was blown up last Tuesday in the North Sea, the cause of the explosion being unknown.

An Austrian submarine sank an Italian torpedo boat in the Adriatic yesterday.

ANOTHER VICTORY FOR GRAND BAY

Team Defeated Fair Vale in Best Game Played in Years

One of the fastest and most interesting baseball games played at Grand Bay in years was witnessed there on Saturday when the home team defeated Fair Vale by a score of 4 to 1. The game developed into a pitchers' battle and for the nine innings both twirlers worked hard for victory. Both received encouraging support. The Grand Bay boys figured in two double plays, which called forth the plaudits of the large gathering of fans. Their stick work was superior to that of the visitors and this accounts for their victory.

The line-up was: Grand Bay—Henderson, s. s.; Hansen, p.; McGowan, 2nd b.; Lightford, c.; Somerville, 3rd b.; Cowell, 1st b.; Pendleton, l. f.; Christie, c. f.; Blackfoot, r. f.

Fair Vale—Dan Pirie, 3rd b.; Waring, s. s.; A. Henderson, c.; Dr. Malcolm, l. f.; Gilbert, 2nd b.; McQuade, l. f.; Callaghan 1st b.; Gorman, c. f.; Robinson, p.

Score by Innings: Grand Bay010002010-4 Fair Vale000001000-1

After the Game

What a strenuous season. The jovial members of the Riverside Club are still rejoicing over the game in which they vanquished their time-honored rivals.

Another victory for them and one well placed on the club's records. For the winners, Henderson was seen dancing a Highland jig in the vicinity of short stop. The reason for his high spirits was owing to the fact that he stopped a grounder and came next putting a runner out.

McGowan is becoming some artist. Flaring in two double plays and also punching holes in the horse hide were only side lines of his marvellous exhibition. He should bring a hammer and a pair of pliers along with him to the next game to make the required repairs to his regalia when the catch gives way.

Lightford lived up to his reputation. A ball player of unusual ability, a heart breaker and some eater. He was still doing justice to a piece of cake while the train was enroute to the city this morning.

Somerville has reason to feel proud of his achievements. As a fly-catcher he went sailing into the space above him seen gliding over the rocky bound line near the hot corner, and as the ball sailed on its downward course he intercepted it and as a sign of thankfulness escaped the excited fans he dropped it. Later just to show everybody that a star falls down only once in a while he whiffed the ball across the diamond and neatly fractured the catching hand of poor "Hank" Colwell.

Colwell was in a class by himself. Disabled during the first inning he was compelled to hobble around on one foot and h. h. h.

Pendleton showed rare ability in the pocket. His foot work was a feature, and the wonderful attempts he made to get under a fly was worth the price alone. Once he leaped across a fifty-foot stretch of terra firma with a gallant stride thrust forth his hand and let the ball come on its way unimpeded.

Christie in centre field figured prominently in the struggle for supremacy. His melodious voice was heard calling out "are we downhearted."

For the visitors Henderson, Alie's little brother, proved himself some player. His catching was a feature.

Dr. Malcolm drew considerable attention. He showed rare ability and proved that he is as much of an athlete today as he was when he went forth bearing the colors of McGill to victory.

Robinson pitched a good game, and although he lost, his work was of the first class brand.

Gilbert must have dreamt about home runs the night before the game for his lusty swings at the ball sent a thrill of terror through the twirler for the Bay sense to get off the track sideways.

A Matter of Time. Kenneth—"Your dachshund must have had a close shave." Emery—"He did. The train surely would have got him, if he hadn't enough sense to get off the track sideways."

IN HONOR OF A ST. JOHN HERO

Rochester, Eng. Tablet Commemorating Brave Death of Capt. W. H. Robinson

"Sacred to the memory of W. H. Robinson, Captain, R. E. Born at St. John, N. B., 1877. 63. Rendered valuable assistance 1897-99 as commanding R. E. W. Co. Africa. Killed in action 14, 3, 92, whilst, with conspicuous bravery blowing in the stockaded gate of the village of Tambo, Sierra Leone, West Coast Africa."

This inscription on a tablet in the cathedral in Rochester, England, bears tribute to the heroism of a former St. John man. A copy of it was forwarded to the Times by Captain John McManis, formerly sailing to this port and now in transport of war supplies. He came across the tablet and thought it would be of interest to St. John people at this time when so many of our men are winning honor on the field of battle. Captain Robinson was a son of the late Major W. B. Robinson of this city, and spent his early days in St. John. Later he studied at the Kingston military college and then entered the imperial service. How well he served is indicated by the inscription on the memorial tablet.

"SIDEWALK HEROES" THE STAY-AT-HOMES

St. John Soldier, Writing From the Front, Tells What They Think of Those Who Will Not Fight

Writing from the battlefields of France a St. John boy gives an impression of how the men who are facing the music regard their comrades at home who could volunteer and who do not. The heroism of his comrades, their sufferings and the feeling that they are not getting the support they should from home gives a bitter tone to his remarks. He says: "St. John is full of slinkers and slackers; fellows with a yellow streak as large as Courtenay's. They breakwaters; they ought to be downright ashamed of themselves, the miserable bunch of cowards. Never mind every dog has his day; the time will come, and it is not far hence, when the whole British Empire will be mobbed; that will be the time to see the slinkers coming with their tails between their legs.

"Britain is the only nation in the war which has not mobilized its resources and some of these low scoundrels are taking advantage of the situation. They are what we call the sidewalk heroes; if you meet one of these in St. John you will know our opinion of them. I have not as much respect for a stay-at-home as I have for a German fighting in the trenches. The German is doing his bit; while the slacker is not; always take that into consideration.

"If you could see the men around me here, men with gray hair and beside them boys of seventeen and eighteen, look at France, for instance, every man is doing his bit, from the old fellow with whiskers down to the boys of sixteen. As soon as Britain adopts that method it will be the beginning of the end of the war, and not before."

FUND FOR RELIEF OF SERBIANS GROWING

Further Sums Received by Knights of Columbus — There is Great Need of Assistance

Further subscriptions to the Knights of Columbus' fund for Serbian relief are acknowledged—\$25 from Joseph Allison and \$10 from Richard O'Brien.

There can be no question of the right of appeal for these suffering people. Even the Belgians, despatches say, have not been placed in the straits of the gallant inhabitants of Serbia. Added to the horrors of war in their land, are the fearful ravages of disease, conditions equaling if not surpassing those of the time of great plagues of which history tells. Thousands have died for want of medical care, thousands cry out from afar to their more fortunate brothers in this war against the oppressor. Doctors are scarce, medical supplies in huge quantities are needed; it is a condition to touch the heart of all.

St. John people can help. The specific opportunity now is afforded. The Knights of Columbus are anxious to gather money and supplies and will be grateful to all who contribute.

MOOSE IN FAIRVILLE

Two Seen This Morning—Church Services Yesterday

This morning about half past six o'clock two moose came through J. H. Gregory's field evidently from the direction of Fairville Plateau. They ran along the main road and were last seen in the vicinity of Simms' factory, making toward the city.

While heavy clouds looked threatening enough several times yesterday over Fairville no rain actually fell until nearly seven o'clock in the evening. A heavy mist indicating rainfall in quantities could be noticed toward up river districts and during the afternoon lightning was also seen in the direction of East St. John. When it started to rain in Fairville, however, it made up for lost time and literally drenched everything in a half hour deluge followed by an equal period of lighter showers.

Carleton Union Lodge F. and A. M., with members of several other lodges, paraded yesterday morning to the Church of the Good Shepherd, Fairville, where an appropriate sermon was preached by Rev. Walter P. Dunham from the text: "Behold I build a house unto the name of the Lord my God, and dedicate it to Him." The service was in honor of St. John's Day, and was postponed from last Thursday. The Carleton Cornet Band rendered music effectively.

In St. Columba Presbyterian church, Rev. Walter Raynes, formerly of Fairville, and now visiting there, preached an eloquent sermon which was attentively followed by a large congregation, many of whom remained at the close of the service to congratulate the speaker and renew acquaintanceship.

HIGHLAND FIELD AMBULANCE

Shell Burst Near as He Was Carrying For Soldier — Family With Fine Military Record — Wives of Two Are Nurses

Frank G. B. Gorrie, superintendent of the Prudential Insurance Company for New Brunswick, received this morning a copy of the Dundee, Scotland, Courier, of June 16, telling of the wounding of his brother, Capt. H. G. Gorrie, of Highland Field Ambulance, Dundee Section of the Royal Army Medical Corps. Capt. Gorrie was wounded by a shell on May 30. He is a doctor and dentist. The Courier says:

"Captain Gorrie is a son of Peter Gorrie, dental surgeon, Nethergate, and has been connected with the 3rd Highland Field Ambulance, R. A. M. C., for two or three years. He went to the front with the ambulance six weeks ago. On the day he was wounded a shell burst over the dressing station where he was working. Several men were injured, and while he was attending one of these Captain Gorrie was wounded by another bursting shell, pieces of which injured his arm and one of his fingers. The wounds were not serious, and Doctor Gorrie pluckily remained at his post. Captain Gorrie is about forty years of age, and was in practice in Dundee with his father before the war clouds burst over Europe. Two younger brothers are also with the colors. Both are in Canada. Sergeant Charles Hunter Gorrie is a bitter tone to his remarks. He says: "St. John is full of slinkers and slackers; fellows with a yellow streak as large as Courtenay's. They breakwaters; they ought to be downright ashamed of themselves, the miserable bunch of cowards. Never mind every dog has his day; the time will come, and it is not far hence, when the whole British Empire will be mobbed; that will be the time to see the slinkers coming with their tails between their legs.

THE INDRANI IS TORPEDOED

Donaldson Liner Well Known Here — Crew Saved — Hit on West Bound Voyage

The Donaldson Liner Indrani, bound from Glasgow to Quebec, has been torpedoed by a German submarine. The crew was saved. This message was received in St. John this morning without further particulars of the disaster. The steamer is well known in St. John. An unusual feature in connection with the sinking is that she was lost while on her west bound trip, most of the losses having been on the east bound voyage when nearing the British coast.

The Indrani was a freight steamer of 2,339 tons net register and was one of the oldest boats of the line, having been built in 1867. For many years she ran regularly to St. John until superseded by newer and larger craft. Her last trip to St. John was made about a year ago and at that time she was in charge of Captain Falter who has made several trips to this port. So far as is known, he was in command at the time she was sunk.

The Donaldson Line has made a most creditable record in their efforts to maintain a regular service in spite of the fact that so many of their steamers were taken over by the War Office. So far they have been fortunate in escaping disaster.

The Indrani on her last eastern voyage across the Atlantic sailed from New York on May 28 by way of Bordeaux for Glasgow, where she arrived on June 19. The Indrani was 361 feet long, 44 feet beam and 27 feet depth. She was built at Liverpool and owned by Donaldson Bros. of Glasgow.
