All Goes Well In Fight In West But Germans Are Near Warsaw

French War Office Report Continues Good - Fall of Polish Capital Seems to be Expected - Japanese Squadron Seeking For The German Converted Cruiser

Paris, Dec. 11—The French War Office statement of today is as follows: "The enemy yesterday showed a certain activity in the region of Ypres. He directed several attacks against our lines, three of which were completely repulsed. At one single point on the front the Germans succeeded in reaching one of our first line trenches. On our side, we continued to make progress in the direction of the enemy's lines."

"In the vicinity of Ypres and Juvincourt there have been artillery engagements. "In the Argonne we have pushed forward several of our trenches, and driven back two German attacks. "In the region of Varennes we have consolidated our gains of the preceding days. The German artillery has been very active, but we suffered no losses. A similar condition has existed on the heights of the Meuse. In the forest of Lepretre, our progress has been continued, and has developed. "To the south of Thann we have occupied the railroad station of Apasch. Along the remainder of the front in the Vosges there have been artillery engagements."

GERMANS NEAR WARSAW; MUCH DEPENDS ON WHICH SIDE CAN FIRST GET REINFORCEMENTS

Petrograd, via London, Dec. 11—The attack of the Austro-German army in Poland appears to have lost its impetus, with the exception of General Mackensen's army, which is unofficially reported between Lodz and Warsaw, and only about fifteen miles from the Polish capital. The other armies are advancing but little, if any, and reports indicate that the attempt from the south of Cracow seems entirely repulsed. It is said that neither the siege of Cracow nor of Przemyśl has been relieved, and this was the main aim of the Austro-German offensive. The situation now appears to hinge on the Russian or German ability to rush in reinforcements first, since four weeks of incessant and hard fighting has told severely on both sides.

GERMANS MAY TAKE WARSAW

London, Dec. 11 It is admitted unofficially in Petrograd today, that German troops are sweeping across Russian Poland, and are now about fifteen miles from Warsaw. The army of General Mackensen apparently is striking forward rapidly, although it is declared that the other invading armies to the north and south are making little, if any progress. The possibility of German occupation of Warsaw is seen in Petrograd, where it is declared that if the Russians should withdraw from the city for strategic reasons, its capture by the Germans should not be credited as important. Russia's aim in the fight with the Turks is to plant her flag on the Bosphorus.

JAPAN AFTER THE PRINZ EITEL

Tokio, Dec. 11—According to reliable information here a squadron of Japanese warships is seeking the German converted cruiser Prinz Eitel Friedrich off the coast of Chile. The Prinz Eitel Friedrich belongs to the North German Lloyd Company. Early in the war guns were mounted on board and she was transferred into an auxiliary cruiser. Recently she has been active off the coast of Chile and one of her most recent exploits was the sinking of the British steamer Caracas off Port Coronel, Chile, this month. AUSTRIANS MEET GREAT LOSSES.

London, Dec. 11—A Reuter's despatch from Nish, Serbia, contains additional details of the recent overwhelming victory over the Austrians claimed by the Serbians in northwest Serbia. "The pursuit of the enemy is continuing along the whole line," says the statement, "especially on our left and centre." The statement reviews the fighting from December 3 to 7 inclusive, and details the total loss at upwards of 22,000 and enumerates an immense and varied assortment of war material captured, including an entire artillery depot.

FREE TO CHICAGO FOR WHEAT SUPPLY.

Chicago, Dec. 11—Greece is negotiating for the purchase of 1,666,000 bushels of wheat a month here. A. B. Cooke, American consul at Patras, Greece, cables that the buyers will pay cash in advance. Up in Spanish Parliament.

Madrid, Dec. 11—Francisco Bergaun, minister of instruction, has resigned. In the chamber of deputies yesterday he spoke of his appropriations being opposed by "those who lead the country to ruin." An uproar followed this and he resigned. A Turkish Report.

Constantinople via London, Dec. 11—An official statement says:—"Under cover of a man-of-war the Russians attempted to disembark on Thursday, near Gounich, south of Batum, Trans-Caucasia to outflank our troops. They were compelled to retire with heavy losses." German Admiralty Statement.

Berlin, via London, Dec. 11—The German admiralty admits great losses in the South Atlantic and says:—"The British admiral does not say in its statement of the battle that our squadron had been on the high seas for four months without means of communication, either cable or otherwise, and had been without any port where it could put in for repairs or supplies, despite this, it always obtained coal."

WEATHER BULLETIN

Issued by authority of the Department of Marine and Fisheries, R. F. Stewart, director of meteorological service. Synopsis—A few light snowfalls or drizzles have occurred in the western provinces, southern Ontario, and along the Nova Scotia coast; otherwise fair weather has prevailed everywhere. Fair and Cold. Maritime—Moderate to fresh north to east winds, fair and cold today and on Saturday.

Her Brother-in-Law and Four Brothers Fighting The Germans

Carleton Woman Gets Letter From One Interned and in Want in Holland—Was in Eight Battles

Mrs. Henry Parker, of 200 Market Place, West St. John, was a happy woman on Wednesday when she received a letter from her brother-in-law, Philippe Bourdin, late of Brussels, but now a Belgian soldier interned in Holland. The letter was dated from Kampen, Holland, November 23.

It may be stated in the first place that Mrs. Parker, who came to St. John with her husband three years ago, has four brothers in the war, as well as her brother-in-law; and her father was a veteran of Waterloo. Her native place is near Courtrai in Flanders, which has been so frequently mentioned in connection with the fighting between the Allies and the Germans in that part of Belgium. Mrs. Parker has translated for The Times the following very interesting letter from her brother-in-law:

"Dear Brother and Sister-in-law, I am alive and still in good health. I have passed through a terrible struggle and suffered many times, but think myself lucky. Indeed I can hardly realize that I am alive, after having been eight times in battle. Every time, however, I escaped without being hurt, though once a bullet passed through the sleeve of my overcoat. That was in the great battle at Fort St. Catherine, near Antwerp. Many Germans were killed. The English soldiers fought with us and we gave the Germans one of the greatest defeats they ever saw. Next day they began again with their big guns, after four hours' rest. "The English soldiers are good fighters and fight as well as we do, but in Antwerp it was impossible for us to keep up. We lost a lot of men, but when one man fell on our side there were at least five fallen Germans. They were at least five times as many as we did. From there we marched to Ostend, two days and three nights without food or sleep. Just think what we went through. "Then we arrived at St. Nicholas, and the Germans bombarded our position, and we began fighting again, but had to give up, as there were too many Germans. They made a trap for us to kill or take us prisoners. We thought ourselves smarter than the Germans, however, and when we saw there was nothing else to do we went into Holland and gave ourselves up. We have no faith in the Germans. They killed too many women and children in Belgium. "When we arrived at St. Nicholas, and the Germans bombarded our position, and we began fighting again, but had to give up, as there were too many Germans. They made a trap for us to kill or take us prisoners. We thought ourselves smarter than the Germans, however, and when we saw there was nothing else to do we went into Holland and gave ourselves up. We have no faith in the Germans. They killed too many women and children in Belgium. "The boys that have a little money can buy something in the canteen, but I am without money and cannot write to my wife in Brussels, because the post in Belgium does not run any more, as it is all in the hands of the Germans. "The soldier adds an appeal to his sister-in-law for some help until such time as he may be able to return to Brussels. It may be hoped that friends in St. John will enable Mrs. Parker to respond to this appeal.

Philippe Bourdin, Belgian Soldier. When they got into a house they made the old people suffer and shot them and set the house on fire, and when they took a Belgian or English soldier they made him suffer terribly, often thrusting a bayonet right through his body. "I cannot give you any news from your brothers in the war. Your brother Alfons was in the first battle at Liege, but I do not know where the others are. It was impossible for us to hear from one another. I am here in Holland as a prisoner, but not well. We do not have enough to eat and I suffer a great deal. The boys that have a little money can buy something in the canteen, but I am without money and cannot write to my wife in Brussels, because the post in Belgium does not run any more, as it is all in the hands of the Germans. "The soldier adds an appeal to his sister-in-law for some help until such time as he may be able to return to Brussels. It may be hoped that friends in St. John will enable Mrs. Parker to respond to this appeal.

KAISER MUST REST OR REAL DANGER TO LIFE THREATENS

Copenhagen, Dec. 11—That the Kaiser's condition is most alarming is believed in official circles. From a diplomatic source it is learned that his condition is serious, though not dangerous. Much depends on whether he will obey the physicians. He can not keep quiet and take a full rest. The Emperor has great difficulty in prevailing on him to stay in bed. He has a very bad attack of influenza. His morning temperature was about 103, higher than yesterday. If he is unwilling to take an absolute rest there may be real danger, as he is weak and his spirits are depressed.

NINE DAYS OVERDUE ON VOYAGE FROM SYDNEY TO AN ENGLISH PORT

Halifax, N. S., Dec. 11—Fears are entertained with regard to the steamer Sharon, Captain Corcoran, which left Sydney on Nov. 9 with steel for England. She has not yet reached her destination and is nine days overdue. The steamer, which was formerly in the Hudson Bay service was chartered by the Dominion Steel Company.

Moncton, N.B., Dec. 11—Bernard McKensie of the first Canadian contingent, son of Donald McKensie of Moncton was recently injured at Salisbury Plains. His horse threw him and his right ankle was broken. He will be invalided home.

CALENDARS. The Times has received an attractive desk calendar from the Prudential Insurance Co. with diary blanks combined, making it additionally useful. It is graced with a pretty picture of "The Prudential Girl of 1915."

REALIZED \$100. The ladies of St. Matthew's Presbyterian Church, Douglas avenue, conducted a very successful sale at the home of Rev. J. J. McCaskill and Mrs. McCaskill yesterday afternoon. There were fancy work table, home cooking, candy and a contest in guessing the name of a doll. Coffee and dainty refreshments also were served. The excellent result is \$100 for the Belgian fund.

TURKEYS PLENTIFUL. Dealers in the city market are expecting that the supply of poultry for the Christmas trade will be quite plentiful. There is said to be an abundance of turkeys in the country districts, and present prices of from twenty-five to twenty-seven cents a pound are not expected to be much changed.

BURIED TODAY. The funeral of John Amos was held this afternoon from his late residence in Exmouth street to Cedar Hill. Services were conducted by Rev. R. S. Crisp and Rev. W. G. Lane. The funeral of James Logue was held this afternoon from the residence of his brother, Thomas Logue, South Bay, to St. Rose's church, where service was conducted by Rev. Charles Collins. Interment was in the Catholic cemetery at Sand Cove.

LYING ON TRACK; HEAD ON THE RAIL

Luckily C.P.R. Constable Saw McAadam Man in Time

TRAIN PASSED SOON AFTER

Edward Miller Gets a Temperance Lesson in Fall From a Train, Broken Head and Other Injuries

"You can thank God you are in court this morning," Magistrate Ritchie said to Edward Miller of McAadam who was arrested last night by C. P. R. Police-man Pierce charged with being drunk and trespassing on C. P. R. property near Mill street. Pierce said he found Miller lying in the C. P. R. yard with his face badly cut and a broken liquor bottle in his pocket. Miller said he had fallen from a train. He was lying with his head across one rail and his feet over the other and if he had not been picked up when he was, would have been killed when a suburban train passed ten minutes afterwards, especially as he was in a place where he could not have been seen very well. Pierce said he took the man to Doctor P. J. Hogan and both worked with him for two hours and the doctor took twelve stitches in the man's head. His hand was also swollen and an X-ray examination may have to be made as it is feared a small bone has been broken. Miller was remanded to jail with instructions that he was to have the doctor see him again this morning. The magistrate regretted that it had been necessary to throw away the pieces of a broken bottle found in Miller's pocket for they would have made a valuable "souvenir" for Miller.

Unless St. John becomes more active in the matter of providing quarters and the troops who could be mustered and trained here until their departure abroad it is possible that outside towns or cities there will have to be taken to relieve the situation. This will probably mean that the detaining company under Capt. Peters will be taken from the armoury and quartered elsewhere in the city. The Army Service Corps No. 8 Co. will probably have to find additional quarters or possibly entirely new housing, as the landing of immigrants at West St. John has interfered with the arrangements for the troops. The No. 8 Co. of the A. S. C. from Vancouver, B. C., would probably be brought to St. John if satisfactory

FAIL TO CARRY PROHIBITION IN NEW ZEALAND

Election Closely Contested—Much Depends on Soldiers' Votes

Wellington, N. Z., Dec. 11—The election returns, though incomplete, indicate that the licensing position is unchanged and that national prohibition has not been carried. The prohibitionists received a set-back in several places. The returns give the government thirty-eight members of parliament in opposition thirty, and the labor social democrats 8. As the latter support the opposition, the strength in parliament is equal though the vote of the soldiers abroad are yet to be counted and may affect the result.

MILITARY TRAINING TO BE STARTED IN SCHOOL

Macon, Ga., Dec. 11—Military training will be introduced in the public schools of Bibb county, including those of this city by the county board of education. There are 11,000 students, half of them are boys. The Grain Market. Chicago, Dec. 11—Wheat prices developed strength today because of extreme low temperatures in the west and southwest with implied probability of damage to recently seeded grain as well as to the growing crop. Steady cables and the smallness of northwest receipts continued also against the bears. After opening 1-8 off to 1-4 up the market secured a material advance all around. The corn opening which ranged from a shade to 1-8 to 1-4 higher, was followed by a slight reaction and then a moderate general upturn. In oats a majority of traders took to the buying side, owing to the firmness of other grain. Lower prices for hogs acted as a weight on provisions.

Sentenced to Death. Atlanta, Ga., Dec. 11—Leo M. Frank was sentenced in Fulton county Superior court to be hanged on Friday, Jan. 22, for the murder of Mary Phagan, a fourteen-year-old factory girl in April 1913.

CITY MAY COLLECT FOR CARELESS FIRES

If Due to Neglect, Property Owners Must Pay Cost of Putting Out Flames

NEW RULE ANNOUNCED

Decision in Test Case Provides Basis For Injured Firemen to Recover Damages—Important Matter Decided in New York Court

(New York Times) Fire Commissioner Robert Adams announced yesterday that penalties of willful negligence in disobeying the fire laws, or the special orders of the department, in relation to fire prevention measures, will hereafter be compelled to pay to the Fire Department the cost of extinguishing fires which occur in their premises.

The decision is based on a test case by Commissioner Adams against the owner of the factory buildings at 212 to 214 East Ninety-ninth street on Jan. 28, 1913, where more than fifty firemen were overcome in fighting a fire that necessitated the aid of a large part of the Fire Department. Fire Chief Kenyon estimated the cost of extinguishing this fire to be \$1,500.

In an investigation made the day following the Commissioner learned that in November, 1913, the Fire Prevention Bureau had ordered the owner of the property, the Greenwood Cemetery, at 170 Broadway, to install an automatic sprinkler, but the order had been ignored.

Albert de Rooze, special assistant Corporation Counsel, began suit at the request of Commissioner Adams, to recover the cost of extinguishing the fire, the first of this nature ever brought in the history of the city. It was based upon two sections of the City Charter, a law existing since 1872 and incorporated in the revised charter.

This provision is contained in Section 773, as follows: "That any person, persons or corporation, for the violation of or non-compliance with any of the several provisions of the several sections of this title, where the penalty is not therein specially provided, shall severally forfeit and pay a fine or penalty in the sum of \$50 for each and every offense, and shall forfeit and pay the penalties respectively imposed under any of said sections, and shall also be severally liable for any costs or expenses that may be incurred by any violation of or non-compliance with any requirements under any of the several provisions of the several sections of this title, and for any violation of or non-compliance with any regulation or order of direction issued by the Fire Commissioner."

Section 761 provides for the recovery of damages for persons injured or disabled by members of the Fire Department, "and any and all persons for any fire resulting from his or their willful or culpable negligence or criminal intent or design, shall in addition to the present provision of law for the punishment of persons convicted of arson, be liable in a civil action for the payment of any and all damages to the persons or property, the result of such fire, and also for the payment of all costs and expenses of the Fire Department incurred in and about the use of employees, apparatus, and materials in the extinguishment of any fire resulting from such causes, the amount of such costs and expenses to be fixed by the said Commissioner, and when collected shall be paid into the relief fund of such department herein created."

The defence on a demurrer, contended that a criminal intent in a fire was necessary to enable the department to collect, and that the failure to install sprinklers "did not start the fire." The lower court decided in favor of the defendant, and Commissioner Adams appealed. The decision of the higher court permits of a new trial. The Appellate Division says in part: "Upon the facts stated in the complaint, admitted and not explained, we find no difficulty in holding that the defendants failed to obey the orders of the Fire Commissioner and were culpable and negligent."

Jas. Charlton, of Greer Settlement, passed away recently. He leaves besides his wife, one son, Henry, at home, and one daughter, Mrs. John McManus, of Hampton; also one sister, Mrs. Sarah Chelwood, of Toronto. He was 67 years of age.

Stephen A. O'Blennes of Fairfield, Westmorland county, died on Wednesday aged forty-six years. He is survived by a widow, one daughter, Mrs. Robert Milton, of Dorchester; his father, four brothers and four sisters.

The brothers are William of Dorchester, Henry and Joshua of Fairfield, and John P. of Sackville. The sisters are Mrs. Harry Wry and Mrs. Lewis Escrocks, of Sackville; Mrs. Thomas Lewis and Mrs. Stephen Lewis, of Dorchester.

The death of John Adams occurred at his home in Mapleburg, near Sackville, on Wednesday. He was eighty-two years of age and is survived by a widow, one son and four daughters.

SAYS FARM CREDITS MOST IMPORTANT QUESTION NOW BEFORE PEOPLE IN STATES

St. Joseph, Mo., Dec. 11.—Farm wealth of the United States estimated at forty billion dollars, should be the basis on which the prosperity of the country rests permanently, yet there is no adequate law in existence under which to finance the farm.

This was the condition disclosed here today at the interstate agriculture congress by W. C. Brown, former president of the New York Central Railroad, and now an Iowa farmer.

"The establishment of farm credits is one of the most important questions now before the nation," he said. "The farmer is paying twice the interest he should, long-time loans at a low rate would enable the farmer properly to finance his work, and it is this financing upon which depends, to a large degree, the prosperity of the country."

Mr. Brown said the people should endorse President Wilson's plan for a land bank.

GENERAL HUGHES TO LEAVE TOMORROW ON HIS VISIT TO MARITIME PROVINCES

Ottawa, Ont., Dec. 11.—Major General Hughes will leave tomorrow for the maritime provinces. He will visit St. John, Halifax, Fredericton, Moncton, Truro, Sydney, and Charlottetown. He will be in the east for about a week.

CARLETON STREET PROJECT

A street improvement which would be welcomed by residents of West St. John is being considered by Commissioner Potts. He is investigating a proposal to excavate the rock at the head of Rodney street and connect it with Charlotte by way of Lancaster street, which is at present impassable. If this were done, a temporary stone crusher would be placed on the spot and the broken stone used to repair the Carleton streets.

I am instructed to sell, on Market Square, Saturday morning, Dec. 12, at 11 o'clock, one young horse, one express wagon, one sled, one set of harness. I WEBBER, Auctioneer. 12-12.

HYMN FOR WAR TIME

(From "Church Life")

Lord God of Hosts look down we pray

Upon our sailors far away,

On ocean's dark cold waves,

All through the night, whilst cannons roar,

O God protect them more and more

Our country's honor save.

Lord God of Hosts, look down we pray

Upon our soldiers far away,

Now fighting in the front line,

Is trouble, sorrow, and distress

Lord give them strength to bear the test.

And victory to them bring.

Lord God of Hosts, hear now our prayer

Our sailors and our soldiers spare,

And bid this conflict cease;

The saddened home once more restore

To receiving Mr. C. T. Nevis and Mrs. B. J. Dowling presided over the tea table.

The following young ladies assisted with the refreshments: Miss Fowler, Edna Leonard, Alice Lockhart, Clara Smalley, Dorothy Tapley, Elsie Nevis and Madeline Barbour. Mrs. H. A. Doherty, Jr., was chief of the dining room. Little Louise Tapley, cousin of Mrs. Nevis, tied the glass.

The color scheme of the tea table was pink and yellow. A large cut glass centerpiece with pink carnations centered the table under a dome shaded in rainbow colors.

THE HEWSON MILLS

The shireholders of the Hewson woolen industry met in Amherst yesterday to discuss the advisability of re-organization of the industry, and commence operations on certain government military orders which are guaranteed to be forthcoming.

Prominent outside bond and share holders were present at the meeting including George Corbett, Annapolis, Dr. J. G. McDougall of Halifax, V. A. Barnwell of Peterborough, M. Stanfield of Truro and others.

VICE-ADMIRAL STURDIE

Hon. Vice-Admiral Sturdie was on this station in 1887-89. He was a lieutenant on the flagship Belerophon, under Vice-Admiral Lyons.

Vice-Admiral Sturdie was a cadet on the training ship Britannia the same time Captain E. H. Martin, the present commanding officer of the ship.

FOR THE RED CROSS.

Mrs. Plumbe, general superintendent of Red Cross supplies from the central depot at Toronto, is holding a public meeting in Halifax tonight and will be in St. John on Monday. A public meeting will be held at eight o'clock in the Stone church school room.

IN TWO SECTIONS

The Atlantic express was brought to the city today in two sections, the first on time, the second ten minutes later. The first was the regular local, while the second was composed chiefly of dead-head equipment to meet the steamer Mississauga, besides some extra baggage.

BURIED TODAY

The funeral of W. Manson was held this afternoon from his late residence, Mecklenburg street, to Fernhill. Rev. J. A. MacKellan officiated.

DR. A. W. CHASE'S CATARRH POWDER 25c.

Is sent direct to the diseased part by the improved method. Heals the inflammation, stops droppings in the throat and restores the voice. Cures Catarrh of the Throat, Hay Fever, etc. Beware of cheap imitations. Wholesale and Retailers: "Lodge & Co., Toronto."

Making the Store Pay

Every foot of available floor space that does not have a customer in it is dead expense.

There are many ways a retailer can assist in keeping his store busy.

He can give good service, sell at fair prices, and he can advertise these facts in his home newspapers.

He should also take full advantage of the manufacturer's advertising.

When the national manufacturer advertises his product in the newspapers, the retailer should take advantage of this advertising by showing the goods and drawing the people to his store.

CARLETON'S

246 Waterloo Street Corner Brindley Street; YOU CAN'T BRUSH OR WASH OUT DANDRUFF The Simplest and Quickest Way is To Dissolve It The only sure way to get rid of dandruff is to dissolve it, then you destroy it entirely. To do this, get about four ounces of ordinary liquid arvon; apply it at night when retiring; use enough to moisten the scalp; and rub it in gently with the finger tips. Do this tonight, and by morning most if not all of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy, every single sign and trace of it, no matter how much dandruff you may have. You will find, too, that all itching and digging of the scalp will stop at once, and your hair will be fluffy, lustrous, glossy, silky and soft, and look and feel a hundred times better. If you want to preserve your hair, do by all means get rid of dandruff, for nothing destroys the hair more quickly. It not only starves the hair and makes it fall out, but it makes it stringy, straggly, dull, dry, brittle and lifeless, and everyone notices it. You can get liquid arvon at any drug store. It is inexpensive and never fails to do the work. A PATRIOTIC LEAGUE OF BRITONS OVERSEAS London, Dec. 11—An organization called "The Patriotic League of Britons Overseas" composed of British subjects residing outside of British dominion, has been formed under the patronage of King George. Its central committee is headed by Lord Selborne, and its members include Lord Curzon of Kedleston, Lord Milner, Admiral Lord Charles Beresford, Sir Mortimer Durand and other prominent persons. CATARRH LEADS TO CONSUMPTION Catarrh is as much a blood disease as scrofula or rheumatism. It may be relieved, but it cannot be removed by simply local treatment. It breaks down the general health, weakens the lung tissues, and leads to consumption. Hood's Sarsaparilla is so successful in the treatment of catarrh that it is known as the best remedy for this disease. It purifies the blood. Ask your druggist for it. THE SALUTE Editor Times, Dear Sir—In your issue of Dec. 8th, you refer to the fact that soldiers in uniform do not salute when the national anthem is played, in places of amusement. This to me sounds like criticism and if so it is unjust, as a soldier is not supposed to salute unless he is wearing his cap, helmet or busby. Yours truly, An Old Soldier.

WAS TROUBLED WITH ECZEMA

Would Nearly Yell With Pain. BURDOCK BLOOD BITTERS CURED HIM. Mr. R. J. Swales, Harriston, Ont., writes: "I have been a great sufferer with eczema. I tried all kinds of salves, but they did me no good. Sometimes I would nearly yell with the pain, and would pass little white worms. I was told to get at the blood, so I used four bottles of Burdock Blood Bitters, and it has made a complete cure. All skin diseases such as eczema or salt rheum, itching or burning rashes, boils, pimples eruptions, ulcers, etc. are all caused by the blood becoming impure. Burdock Blood Bitters cleans the blood of all its impurities and by this means cures all skin and blood troubles. This valuable preparation has been on the market for the last forty years, so you do not make any experiment when you give it a trial. B. B. B. is manufactured only by The T. Milburn Co., Limited, Toronto, Ont.

COULD HARDLY STRAIGHTEN UP FOR THE PAIN IN HER BACK.

Many women suffer from an excruciating pain in the back. They are not even able to look after the common duties of their household, and cannot even walk at times. The whole trouble is that the kidneys have become affected, and when the kidneys get "out of kilter" the whole system becomes deranged. On the first sign of a weak, lame, aching back you should next get it, for if you do, you may be sure that some serious kidney trouble will follow. What you want is a kidney medicine for kidneys only. This you will find in Doan's Kidney Pills. Doan's Kidney Pills know nothing but kidney disorders, because they're made for kidneys only. Mrs. George Craigie, Rose Valley, P.E.I., writes: "I am writing to tell you what a wonderful cure Doan's Kidney Pills did for me. I was suffering with a lame back, and for several days I could hardly straighten up for the pain. I had used quite a lot of other kind of pills, but received no relief. Just then my sister told me about what Doan's had done for her, so I decided to try them. I used three boxes and I am completely cured. I do not hesitate to recommend them to all." Doan's Kidney Pills are 50c a box, 3 boxes for \$1.25, at all dealers or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont. When ordering direct specify "Doan's."

SUGGESTS THAT NO NICKEL FROM CANADA BE ALLOWED INTO STATES

London, Dec. 11—Attention is being called to the fact that Canadian nickel is being exported indirectly through the United States to Germany. The difficulty which would arise between the governments of Great Britain and the United States through any arrest in such cargoes on the high seas renders the stoppage of the trade impossible by that means, but the suggestion is advanced that the easiest way would be for the Canadian government to extend prohibition of the exportation of nickel, already in force as regards most European countries, to the United States. Christmas Dinner for Soldiers. An Ottawa despatch announces that the Dominion government intends to supply every man under arms in Canada, numbering all told some 88,000, with a Christmas dinner with all its attendant dainties. Mrs. Emma L., wife of Benjamin C. Robbins, died last night at her home in Centreville, aged 57 years. Her husband, three sons and three daughters survive. Because the only barber in Dakota, Minn., is very fond of sunning, James Dalrymple had to travel more than 80 miles to Minneapolis, to be shaved. For seven weeks the barber shop was closed.

THE WAR NEWS

The most gratifying news received last night was that of the sinking of the German cruiser Nurnberg and the probable capture of the Dresden.

Today's cables tell us that a German army is within fifty miles of Warsaw, and that in the operations in Poland generally very much depends upon whether the Germans or the Russians are first able to hurry large reinforcements to the vital point.

In Belgium the Allies have made further gains, and appear to be steadily, although slowly, forcing the Germans back. It is evident that German pressure in the west has been withdrawn in order to strengthen the armies operating against Russia.

The news of the death of General Beyers, the South African rebel, is confirmed, and all fears of any serious trouble in that country have been removed.

THE PORT OF ST. JOHN.

Hon. Mr. Rogers said yesterday that the dry dock in Courtenay Bay would be made of the same size as those at Halifax and Esquimaux. This was to be expected, since it would be obviously unfair to the national port to do otherwise.

One of the interesting addresses of the day was that of Hon. William Pugsley, in which he briefly reviewed the history of winter port development from the time the government declined even to do any dredging in this harbor until the time when he assumed office.

MR. FLAVELLE'S ADDRESS

"Spend less and produce more," is the counsel given to Canadians by Mr. J. W. Flavelle, whose remarkably clear address on the financial situation in Britain and Canada so greatly pleased and enlightened the members of the Canadian Club of St. John yesterday.

Mr. Flavelle's explanation of the various steps taken by the British government to enable Britain to carry on business as usual was very illuminating, and his objections to any such expedient as a moratorium in Canada was so clear and forcible as to leave no answer.

Yesterday's luncheon, and his address is one that will not soon be forgotten. The distinguished speaker was much gratified to be told that the factories of St. John are busy, and he remarked that the people in the maritime provinces appear in some respects to have been more fortunate than those of the west.

AN APPEAL TO AMERICANS. American citizens in Canada will no doubt respond heartily to the appeal of the "Dollar Christmas Fund for homeless Belgians," which is being collected through a committee in New York, of which the eminent banker, Mr. Henry Claws, is the treasurer.

"The Dollar Christmas Fund for homeless Belgians is a very happy suggestion and should have the widest appeal. Americans, practically without exception, are grieved for the Belgian people, and here is an excellent opportunity to unite to help brighten the Christmas and relieve the sufferings of unoffending non-combatants."

NEWS FROM HOME. The Times prints today an appeal from the Canadian branch of the League of the Empire, which asks that school children, with the co-operation of the school boards throughout the province, shall provide news from home for the Canadian soldiers at the front.

Nothing would give greater pleasure to the men from St. John, or from any town or village in the province, than to receive a book of clippings of the news from home in which they would be particularly interested if they were at home themselves.

The gathering of the faithful of the Conservative party in this city yesterday was impressive. Hon. J. K. Fleming does not appear to have been present.

The announcement was made in the morning papers that the dominion government will provide a Christmas dinner for all the soldiers in St. John and elsewhere in Canada on active service. No one was more surprised by the receipt of this news than the ladies of the Women's Canadian Club, who had been encouraged by the militia department, not only to provide a Christmas dinner for the soldiers at St. John, but to suggest and encourage a similar course in other places.

The programme of the meetings at the Maritime Forward Movement in Amherst next Thursday shows that the subjects of agriculture, manufacturing, fox ranching, labor, the fishing industry, forestry, technical education, oil and shale, financial conditions, and the press of the provinces will all be discussed in crisp addresses by well qualified speakers. It is probably safe to say that no more broadly representative meeting has ever been held in these provinces than that which will be held next Thursday in Amherst. It is described as "the initial meeting of the maritime forward movement," and will no doubt be even more valuable for what it will suggest and the lines of thought and co-operative activities it will set in motion than for any immediate results.

EDISON

Diamond Disc

Phonograph

A Gift that Brings Pleasure to all

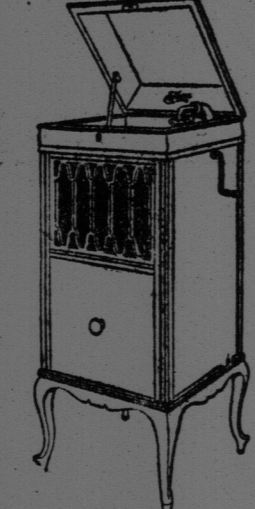

In this marvellous new creation of Mr. Thomas A. Edison there is more real pleasure, for folk of all ages, than in any gift one can bestow; and it is a new development in the realm of music, its rich, mellow voice growing out of a system of tone production on which its great inventor has spent the greater part of the past three years. With the permanent diamond as a producing point—eliminating the irksome changing of needles—the music possesses a sweetness that is unique.

The Edison Diamond Disc Phonograph stands alone in the production of all the overtones, on which music depends for sweetness, thus first opening to all the entire range of the world's music.

A few of the many styles we are showing are described below.

MORE AFFINITIES

Some peculiar combinations of names have been devised from various characters and facts of the war. The happy combination of French and Joffre has been pointed out. It shows that the first three letters of the names of each make Joffre in one case and French in the other. Here is the diagram:

COMB SAGE TEA IN HAIR TO DARKEN IT

It's Grandmother's Recipe to Keep Her Locks Dark, Glossy, Thick

The old-time mixture of Sage Tea and Sulphur for darkening gray, streaked and faded hair is grandmother's treatment, and folks are again using it to keep their hair a good, even color, which is quite sensible, as we are living in an age when a young appearance is of the greatest advantage.

DISTRIBUTION OF CANADA'S GIFT OF FLOUR IN ENGLAND

London, Dec. 11.—More than half of the stock of the Canadian gift flour received to date has been distributed, according to a statement made to the Montreal Gazette correspondent here by an official of the local Government Board, which has the flour in charge.

Near Jelfa, Algeria, there is a mountain of salt 800 feet high and nearly a mile in diameter. In spite of the very soluble character of salt, this hill stands in high relief from the surrounding country and contains no valleys or other signs of erosion. It does, however, contain some sink-holes, and when it rains the water sinks into these cavities and soaks through the permeable salt, emerging in salt springs.

Cream of Tartar

Many people use cream of tartar for quick baking. They value its superior qualities and will not knowingly accept substitutes made of alum or lime phosphates, such as are sometimes offered.

But even the most careful cannot always know. The high price of cream of tartar has led to efforts to substitute alum and phosphate of lime compounds which are vastly inferior and not as healthful to use.

The easiest way in which the housekeeper can be sure of quality and economy is by using Royal Baking Powder, which is made from pure cream of tartar.

Royal Baking Powder gives perfect results, is less trouble to use, and has not been advanced in price.

Anyone who has once become accustomed to using Royal Baking Powder never reverts to home-made mixtures or any other product for raising biscuit, griddle-cakes, doughnuts, or cake.

NEW DRY DOCK TO BE 1,150 FEET

Important Announcement at Opening of Latest West St. John Facilities—The Breakwater Extension

The opening of the new docks at West St. John yesterday was marked by some announcements of special interest to the people of St. John. Hon. Robert Rogers gave definite promise that the new dry dock will be built according to the same plans as those at Halifax and Esqui-mault to a length of 1,150 feet, and said that the development of this port would continue as rapidly as the demands of the traffic require, although no new work is to be undertaken during the progress of the war.

Hon. J. D. Hasen announced that the lowest tenderer for the extension of the breakwater to Partridge Island was the Maritime Dredging & Construction Co., and that this work would be one of the first to commence as soon as conditions improve.

It gave him great pleasure to look back over the developments which had followed in response to the demands of public sentiment and he desired to extend his congratulations to the ministers upon the way in which the work had been carried on.

"You know," he continued, "that it is not many years since the government of that day refused even to do any dredging in this harbor on the grounds that it was the private property of the city of St. John. As a result of that attitude the people of St. John were forced to put their hands in their pockets and spend much money for harbor works. Finally the government agreed to pay half the cost of the dredging, but would not aid in the construction of wharves except in connection with the L. C. R. terminals. Then the government agreed to pay all the cost of dredging. Until he entered office as minister of public works no wharves were built by the government on the west side, and he wanted the visiting ministers to allow him to take some credit for the work accomplished while he was in office.

Dr. Pugsley was glad to see how the present government had gone ahead with the work, and he would assure them of his hearty support in all good works. "But when they go astray, as even the best of men and governments do sometimes, I will still try to do my duty as a member of the opposition in leading them back to the right path." (Laughter and cheers.)

BREAD FOR EUROPE

(Wall Street Journal.) Europe produces more than half the world's wheat. It also imports for its own consumption 30 per cent. additional of its crop. The entire production for 1914 is not yet known, but the department of agriculture has given out figures so far as available which shows a large shortage in comparison with the crop of the preceding year. In fact, it must be said that the yield of 1913 was above the average.

Great Britain, which in comparison to its consumption is a small producer, has a crop nearly 10 per cent. better than last year. But France is not so fortunate. French production does not quite meet consumption, and this year the crop is under 800,000,000 bushels, which is about 90 per cent. of the average.

Russia is the only one of the warring powers that exports wheat. While her crop is near the average, it is 200,000,000 bushels less than last year. But unless she allies can borrow that tier of Zep-

A Letter From Santa Claus.

St. John, N. B., Dec. 11, 1914.

Dear Little Girls and Boys and Big Folks, too: Did you really think I would not come this year because I am getting older?

Why did you think so? I am only twelve months older than I was last year, and that's nothing for me.

I took a lot of money with me this year because I thought the Xmas presents would be like the tide—very high, but I have been talking to "Mr. Price" and he says he's a great friend of Mrs. Low-Water-Marks.

I expect to be very busy this year because there are so many boys going away, and I must see them all before they leave.

I came very quickly this year. I did not meet any Zeppelins; and I certainly did not stop at Berlin. I kept very close to the moon—that's why I am here so soon.

I am stopping now at the same place as last year, and I want you all to come and see me. There is no school tomorrow, so why not come then?

Look little Annie and Mary, be sure and come and see me, and tell your brother to come, too. I do not mean the big fellow who is going to the front. It is brother Jack that I am after, who stands back in the corner and makes you a promise he will take you to the movies on Christmas Day.

I will be in one of the windows until early Christmas morning, when I will depart from here and call at your home while you are asleep.

Please don't forget my address:

GAMES INTO FORTUNE THROUGH FEW LINES IN A NEWSPAPER

Story of Lillian Coyne Remarkable—Uncle in Ireland Left Her Legacy

Chicago, Dec. 11.—To a little seven-line story printed in a Chicago paper nine months ago, Mrs. Alice Clement, a Chicago policeman's wife, is credited with a 10-month search which resulted in finding Lillian Coyne, a fourteen-year-

old heiress, who left last week for New York before going to Ireland to claim a legacy.

Ten years ago Lillian Coyne's father died in Chicago. Her mother married Isaac Meiner, of No. 600 Wells street, and died soon after. Lillian was given into the care of Mr. and Mrs. Thomas Morris, who later moved to Bay West, Fla. Then, apparently, the rapid changes in the girl's life ceased. For ten years she lived as the child of the Morrises.

Last winter Rt. Rev. Bishop Bernard Coyne, of Elphin, Ireland, an uncle of Lillian, started to find her. The girl was named by another uncle in his will. Bishop Coyne wrote to Father Cody, of Newark, N. J., who in turn wrote to the Rev. J. J. Morrissey of the Church of the Blessed Sacrament in Chicago, asking aid in finding the girl. Father Morrissey wrote to John J. Halpin, at that time chief of detectives. He placed the

back humanity to savagery, famine, and death ought to be the world's last war. In order that it may be the last, its weapons ought to be put out of the reach of any nation. The spoils of this war ought to be not new territory for the victors, and not the destruction of the vanquished, but disarmament for vanquished and victors alike.

All national armaments must be destroyed. All great armies must be dissolved. The nations, before their wounds have time to close, must come together, recognizing their community interests and for the defence and development of their community rights.

In that new community of nations no one nation can be allowed to carry a gun and a knife. Each nation must keep the peace and give protection within its

case in Mrs. Clement's hands and she told a reporter, who had a paragraph published.

Another Uncle Sees Story.

"That story is responsible for the finding of Lillian," said Mrs. Clement. "An uncle by the name of Oscar Brusich read the story and called me up. He said the girl had been adopted by the Morrises, who since had moved to Key West. I traced them down there only to learn that they had moved back to Chicago. I renewed the search here among railroad men because Mr. Morris is an engineer. I learned that he had coal mines at Rosedale, Ind. When I went there he was not in the town. I notified the sheriff to watch for his return and let me know.

"Then, one day, I received word that the Morrises and the girl were in Rosedale. I went to the little town and after much pleading won the girl. The Morrises had learned to love her as their own child, and she loved them as her parents. It was hard to separate. "Bishop Coyne is coming over from Ireland and Lillian's future residence will be decided upon after his arrival. She probably will go to Ireland and live with him until she becomes old enough to get the legacy."

THE "EMPIRE" Is the only TYPEWRITER Made in Canada

The Canadian Government uses it. When you buy an "Empire" Typewriter, the money stays in Canada—pays Canadian wages—is spent in Canadian stores—helps to maintain Canada's prosperity.

When you buy any other machine, the money goes out of the country. Neither Canadian workmen nor tradesmen are benefited by it.

The "Empire" is the simplest, sturdiest, most enduring typewriter made. It will do work at least equal to that of any other machine and keep it up longer, at lower upkeep cost. Yet "Empire" No. 1 costs but \$60—"Empire" No. 2 \$80—from \$40 to \$60 less than the imported machines.

Give the "Empire" fair consideration because it is "Made in Canada"—choose it because IT PAYS.

Arrange with our nearest Agency for a demonstration or free trial.

 Captain John Evers, of the champion Boston Club, is critically ill with pneumonia. The crisis is expected today.

Five Year Contract.
 New York, Dec. 10.—President Johnson of the American League, in discussing the sale of second baseman Eddie Collins of the Athletics to the Chicago White Sox, said that Collins had signed a five-year contract with the Chicago team and that the consideration was cash and some White Sox players to be selected later on by Connie Mack.

Clarke to Go?
 New York, Dec. 10.—Fred Clarke, manager of the Pirates, has informed Barney Dreyfus, owner of the Pittsburgh Club, that he has decided not to continue as manager. Clarke wants to retire from baseball and devote all his attention to his farm. Governor Tener, president of the National League, is trying to make Clarke change his mind and remain at the head of the Pirates for another season at least.

THE KENNEL.
 Found in the Street.
 Writing of fox terriers and fox terrier shows in the London Field the kennel editor says: Many interesting stories could be told of famous terriers which have made a first appearance at the championship gathering of the Fox Terrier Club, but we think the one of which Pitt Pitts is the author is the best; we know it to be perfectly true.
 In the days of which we write Pitt Pitts lived at Wadhurst, Sussex, and he caught sight of an especially good looking puppy at play in the street and quite unattended. Our friend could scarcely believe his own eyes, so good from every point of view was this youngster, but he knew his stud— a big winner and a better wire-haired terrier than any before the public today—had been used by a local breeder, and he determined to follow the puppy.

Anybody who has tried to do a similar thing knows that this is not easy, but eventually the youngster turned his face homeward, for the puppy's home was the house of the friend who had used the Wadhurst wire haired sire. It was the sensation of that particular show beyond a doubt, and the old East Yorkshire breeder could have made a very handsome profit on his purchase had he been inclined, for the judgment of Pitt Pitts was absolutely sound, and the last time we saw him he was deploring the fact that such terriers are not to be met with in the streets nowadays.

AQUATIC.
 Women Swimmers' Club.
 New York, Dec. 9.—The recent action of the Amateur Athletic Union in granting the privilege of registration to women swimmers seems destined to influence materially water sports for the sex. Already there is evidence of increased activity. Twenty-five women have formed the Women's Swimming Club of New York, the first organization of its

kind in this city, and applications for membership have since been received.
 At the head of the new club are Mrs. Lillian Howard, president; Mrs. Clara Hurst Bouton, vice-president and treasurer, and Miss Josephine Bartlett, secretary. Mrs. Howard and Mrs. Bouton are among the chief long-distance swimmers of America, and have defeated expert men swimmers in "Marathon" races. Miss Bartlett holds the fancy diving championship of the National Women's Life-Saving League.
 While the chief object of the club is to provide coaching and training facilities for girls who wish to follow the racing game, free instruction in swimming and life-saving is also offered to all members. Some of the best performers in the district are on the club squad and a strong team should soon be developed. As the Women's Life-Saving League already boasts of first-class material, keen rivalry and interesting competition is promised between the two groups of fair natators.

News From Home For Soldiers of Canada at the Front

An Appeal For School Children and School Authorities to Furnish it—The Plan is Interesting

Editor Times:—
Sir—The League of the Empire would welcome an opportunity to draw the attention of your readers to the "News from Home" movement.

This movement originated with Mr. W. K. George, of Toronto, who realized the desire of the Canadian soldiers on active service for local news from Canada, and the impossibility of forwarding a sufficient supply of newspapers to meet the requirements of such a large body of men. A plan to meet this

situation was put before a committee of the League of the Empire by Mr. George, who is a member of the council of the league, and by them the scheme was at once enthusiastically endorsed and accepted.

A deputation from the league then waited upon the school board of Toronto and secured their active interest and co-operation. The suggestion that our soldiers would welcome news from home collected and forwarded by the pupils of our schools met with the kindest and warmest approval of the board and the chief inspector. Fifty volumes a week are now going forward from Toronto to all Toronto men in England, thanks to the splendid enthusiasm of the teachers and pupils, and from all parts of Canada, from Prince Edward Island to Alberta, letters are being received by the league endorsing the idea and stating that it will be carried out by various schools. Every district in Canada which has sent men with the contingents is most earnestly requested to look upon this movement as a national work and to take it up on behalf of our soldiers. If the pupils of the high schools and public schools in each city, town and country district represented at the front, will send to their own men "News from Home," they will give an interest and pleasure to hours spent in camp and trench, impossible, perhaps, or fortuitously volume appoints a committee composed of teachers and scholars, and upon the hearty co-operation of the teachers depends, of course, the success of the work. The work is entirely voluntary patriotic service on the part of the teachers and pupils of the schools and making no encroachment on the field of regular school work as it is done outside school hours and is an offering of service at this time on behalf of our country from teachers and pupils of the national schools.

As to the most welcome items, the following are suggested: All local items, city, town, or district news, social and personal items, birth, marriage and death notices, university and college news, items of Canadian news of special interest, illustrations of local interest, and sports, sports, and yet more sports. The principals and pupils of the Toronto public schools have kindly undertaken to prepare extra copies of the "News from Home" volumes which the committee of the board of education has generously arranged to distribute on application, to other school boards throughout the province, as well as to leading centres in other provinces in Canada. It may be assumed that these

centres in other provinces will, in their turn, undertake a similar service to other school boards. The welcome these budgets will get from the men is already assured by the letters that have been received from some of those at Salisbury Plain who have seen the plan alluded to in the papers and who write that they are looking eagerly for the arrival of the clippings and that they are furnished for home news.

It is earnestly hoped that the school inspectors and school principals in all districts represented at the front will adopt this movement as a national one and will now proceed to carry it out with such modifications and changes as in their eyes may seem best adapted to local conditions, considering always the two essentials, that the men specially long for local and sports news, and that all clippings must be supervised by someone in authority.

Any further information in reference to this plan which may not be clearly set forth in this letter will be very gladly supplied by the undersigned.

Yours, etc.,
E. K. STRATHY,
Hon. Sec. League of the Empire,
71 Queen's Park, Toronto.

DID NOT WANT TO DODGE THE GERMANS

Story of the Early Days of the War Comes From Pacific Coast

Ottawa, Dec. 11.—The explanation of the finding of "wreckage" from British warships off the coast of California is now known in government circles here. The wreckage, comprising the wooden fittings of warships, was found in the Pacific early in the fall and the discovery led to a report that the Canadian cruiser Rainbow had gone down following an action with German ships. The Rainbow afterwards turned up, steaming north with the British gunboats Albatross and Shearwater. The wreckage came from these two vessels. Thereby hangs a tale thoroughly in keeping with the best traditions of the navy. The story is old, but worth telling.
 The Albatross and Shearwater are small, old and unprotected, and had been destined for patrol work in Behring Sea before going to Mexican waters to protect British interests there. When the war broke out the commander of this little fleet shrewdly suggested that he would get orders to go into a United States port to be interned. The notion was not to his liking and the two vessels started up the Pacific. Both were painted white and there was no grey paint aboard. The sailors mixed white paint with lampblack and smudged the sides of the ships. Then they cleared for action, throwing overboard every bit of woodwork that could be ripped from its fastenings. Thus prepared, they steamed up the coast determined to put up the biggest fight they knew how before they must be blown out of the water by the heavily-armed fast German cruisers known to be in those waters. Luck favored them and they were able to meet the Canadian cruiser Rainbow, which had gone south in search of them. The three ships arrived safely in British Columbia ports and most of the Albatross and Shearwater crews went to the Niobe.
 The Rainbow, during this cruise southward, also made ready for a fight. The fast modern German cruiser Leipzig was then going in and out of San Francisco Harbor. Commander Hoxe, of the Rainbow, knew she was there and knew that though the Rainbow had bigger guns, the Leipzig had the advantage of speed and modern construction. Despite this, he deliberately made his whereabouts known to the enemy by sending his position by wireless into San Francisco. The Leipzig was between him and the harbor and must have caught the message, but would not come out.

THE REAL TEST

There is no surer test of the real success of the management of a Life Company than the feeling of its clients, the policyholders, towards it.

How the Canada Life Stands the Test

The Company is constantly receiving letters expressing gratification for increasing policy dividends, appreciation of generous treatment by the management, or grateful thanks for prompt payment of claims.

In Illustration

A CHICAGO BANK PRESIDENT lately wrote: "This dividend is particularly gratifying . . . and reflects great credit on the management of your good Company."

SIR WILLIAM WHYTE'S EXECUTOR wrote: "I have to thank you very cordially for the promptitude with which you settled our claim."

A PHILADELPHIA POLICYHOLDER says: "Your methods seem to make a friend of a policyholder, and I assure you that after dealing with your company fifteen years or more, I feel enthusiastic of your worth and kind treatment."

These letters are not exceptional; they are typical of those being received nearly every day.

Gibbons' "Cauliflower"
When a boxer displays a cauliflower it is generally supposed he is one of those tearing-in boxers, who are willing to take a punch to land one. Few clever fighters have those adornments and those who have received them, not from cauliflowerers, but unexpectedly. Like Gibbons, the "phantom boxer," is one, he tells how he got it from an ill-fated boxer.

That is a mark I cannot get away from," says Mike. "You see, that was the game and when I was boxing one of those so-called 'dubs' the fellow knew nothing about the game, but happened to land one of his wild punches on my ear because I was not cing for anything of that kind. A clever boxer would never have ed such a blow. I would rather fight a good man any time than a dub, really it is not as hard to box a class man as it is a third-rater, on you face a real boxer, you know what to expect and you act accordingly, but when you face a dub you never know what he is liable to do. When an up against a man who will not fight it is also hard to make a wining."

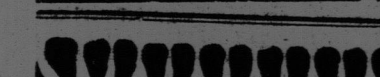

George Dixon, the great colored featherweight, had such an ear, but he never it in the ring and there are others received them as Gibbons and Dixon.

Saved by the Bell
Three hundred partisan fans in Houl Tuesday night, Dec. 8, saw two fast round bouts between Johnny Glover outh Boston and Ernest McIntyre of uestock. The latter is twenty pounds igher than Glover and at least seven a younger. He had it all over Glover ve of the first six rounds, but then e came back, did all the leading in ext five rounds, and it looked as if he would get the decision on ts.

In the last round, however, McIntyre eally backed his opponent into a cor and had him blind and groggy, only oing saving him. It was plain that er could not have lasted another d.

The semi-final was between Young am and Houlton Kid Fleming. The ey knew something about the box- gime and could have knocked out ing at any time in the last three s, but generously refrained.

(Conservation.)
Several cities in Canada are today in a serious position because the water consumption is equal to the supply. The result is insufficient pressure in the water mains for fire purposes. With the coming of winter weather this situation will no doubt be accentuated, due to leaving taps open, thus allowing the water to run therefrom for many hours at a time, to prevent the pipes freezing up.

Not the least of the many advantages which cities have derived from the installation of water meters is the reduction of this heavy waste during the winter months. With the introduction of water meters, consumers have realized the value of having water pipes protected from frost. This precaution

usually entails very slight expense, but where there is no check on the water consumed a lack of public spirit keeps people from undertaking the frost protection.

Water and waste pipes should at once be carefully looked after and protected, and particularly so where they are exposed to cold drafts. They should be well wrapped and kept thoroughly dry

DEFENDS GOOD NAME OF CANADIAN TROOPS

Fairville Soldier Writes Home From Salisbury Plain—Methodist Church Fancy Sale

Among the Fairville boys with the first Canadian contingent is Stanley Nelson, son of Mr. and Mrs. Stewart Nelson. He is attached to the medical corps. He takes a lively interest in the sights he is witnessing in the old country and his letters to friends are eagerly awaited as his comments on various matters of more or less public moment somewhat contradict many current reports. In one letter received not long ago he made reference to the comparative comfort the Canucks were allowed while sojourning at Salisbury Plain. He says on arrival of the troops at West Devon floors were laid in the tents, in four sections circling the tent pole, thus keeping out the damp and cold as well as providing a sound footing. The beds were fitted up in good shape with mattresses and pillows while under the mattress a rubber sheet was placed as a further preventive against discomfort. Six blankets were allowed to a bed and a very serviceable oil stove not only contributed warmth but gave opportunity for the cooking of tasty breakfasts with a menu of toast, honey and cocoa. As to the drinking of liquor in camp Mr. Nelson writes very forcibly against the spreading of such reports as he has read. True there was a certain amount of intoxication as one might expect among such a large number of men taken from all walks of life, and various environments, but the habit had not become by any means common in fact the Canadians were remarkably well behaved and temperate as a whole. Nelson flatly states that any reports against the department of the contingent as a body are manufactured lies and without any foundation.

He is now located at Mount Vernon Hospital, Hampstead, near London, and speaks of the institution to which he is now attached as being formerly a tubercular hospital, which, after a thorough cleaning and painting throughout was made ready as a military hospital and a splendid one at that. The building is six stories high with two passenger elevators and other modern equipment. The grounds are especially beautiful, holly growing abundantly everywhere, a tangible reminder that Christmas is near at hand.

To visit Leicester Square, Westminster Abbey and other famous places much visited by the boys when off duty they take a drop of 200 feet, board the underground, commonly known as "The Tube" and for two-pence are carried to a central destination in ten minutes. Some of the New Brunswick apples have already reached the hospital for the patients' use. These came from Upper Sheffield and Bucton, near New Brunswick, and the boys a bit homesick.

Last evening a very successful sale of fancy articles and Christmas gifts was held in Fairville Methodist vestry under joint auspices of the Ladies' Aid Society and the Young Ladies' Club. The room had been nicely decorated with fir and the dark green shade in contrast to red trimming presented a very attractive appearance. The candy booth looked particularly well with a white snow roof, pillars of red and green and lighted with candles in brass sticks and with red shades. Misses Mabel Peters and Mabel Peterson were in charge.

The other tables were under the direction of:—Fancy goods and Christmas gifts: Misses Katy Townsend and Gladys Shaw. Ice Cream Table: Misses Dorothy Sutton and Lenora Townsend. Plain sewing: Mrs. S. H. Shaw. A light tea was served at small tables in charge of Mesdames G. Chamber, Sarah Cougle, Alex. Scott, O. D. Hanson, John Johnson and Misses Blanche Smullin, Jennie McKinnon, Flossie Fox, Florence Irvine, Margaret Brown, Hazel Colgan, Lottie Kelly, Alice McKimm and Miss Douglas.

Quite a substantial sum was realized for church purposes.

ALL BROTHERHOODS IN THE MOVEMENT

The Times yesterday referred to the campaign of next week to raise sufficient funds to place the Free Kindergarten on a sound financial basis for the current year. While this movement was inaugurated by the Germain Street Brotherhood, it is fair to say that they are receiving the hearty co-operation of the other church brotherhoods in the city, and that the latter will take an equally active part in the campaign next week. It is anticipated that the general response of the citizens will be such as to relieve the ladies of the Free Kindergarten Association from financial worry for at least a year.

A PLEASANT SURPRISE

Last evening about fifty friends of Gunner G. W. Chambers of the 8th Regt. C. A., now stationed at Partridge Island, tendered him a pleasant surprise at 58 Carmarthen street. During the evening Sgt. Cotter of the 20th Battalion on behalf of the company, presented to Gunner Chambers a military wrist watch, suitably engraved. After a pleasant evening spent in games and music, refreshments were served and the party broke up about midnight.

ST. JOHN SOLDIER SAW BELGIAN BOY WITH HIS HANDS CUT OFF

Mrs. W. G. Fisher, of 121 Brussels street, has received a letter from her husband, Sergeant W. G. Fisher, at Salisbury Plain. Sergeant Fisher writes of a visit to London, where he saw car-

Sergeant W. G. Fisher leads of Belgian refugees, including one little Belgian boy, both of whose hands had been cut off by the Germans. He says the Canadians are all enjoying themselves at Salisbury Plain, but are eager to get to the front.

LIFE-SAVING DEVICE WORTHY OF ADOPTION

The Times has seen a model of the safety net invented by Florence O'Regan of this city for use under gangways between steamships and the wharf, to catch either men or parcels which might fall or be knocked off the gangway. The fact that many lives are jeopardized or lost by men falling off the gangway between wharf and steamship makes such an appliance of the greatest value. Mr. O'Regan's safety net is at once simple, easily made, adjustable and of light weight. It has been heartily approved by those who have seen it, and its adoption in connection with the loading and discharging of steamers would prevent many accidents, some of which prove fatal.

Y. M. C. A. AT SALISBURY PLAIN

A Sussex soldier, writing from Salisbury Plain, says:—"One of the most inviting spots in camp is the Y. M. C. A. tent; a big, green marquee situated in the centre of the tented city. This tent is full all the time. All the tables are occupied by men either writing or reading Canadian newspapers which are donated by the publishers for use of the soldiers. The Y. M. C. A. tent is really the only dry place in camp, for it is the only place I have seen with a good wooden floor outside of a few tents. The Y. M. C. A. people run a canteen and you can purchase almost anything there from a needle to an anchor. Many kind of cough mixtures and other specialties of the Dominion of Canada and U. S. manufacture, which are entirely unknown in England are here kept for the Canadian troops. Cigarettes and cigars are sold in large quantities. On Sunday only necessaries are sold and I was glad to learn by a recent experience that tobacco was included in the list of necessities. One cannot say too much in praise of the work that is being done by the Y. M. C. A. and we all consider their marquee a bright spot of the camp. There are post offices and money changing departments in connection and they also have a lending library."

A CHILDREN'S HOME

Miss Catherine M. A. Morrison of Loch Lomond, N. S., which is near St. Peters in Cape Breton, is in the city representing the Children's Christian Association, which proposes to establish homes on the cottage plan for children such as Children's Aid Societies find it necessary to take care of. Miss Morrison's father has presented fifty acres of land on which buildings are to be erected, and it is hoped that the work may be extended so that children from this province, as well as Nova Scotia, may find a shelter there, and from there be placed in good homes. Two well known citizens of Moncton are on the board, and it is expected St. John will also be represented.

FOR THE SOLDIERS.

The Loyalist Chapter, Daughters of the Empire, with the kind permission and assistance of St. James Church, will open on Monday evening, December 14, in St. James church school room, a reading, writing and recreation room for the men of the second contingent. If anyone having late magazines or interesting reading matter that they care to donate will kindly leave them at A. O. Skinner's store, King street, before next Monday afternoon, the members of the chapter will see that they are placed at the disposal of the men.
