VISIT TO HEADQUARTERS

Order Brought Out of Chaos, Soldiers Well Fed and Housed—Bulgarian Armies Block Way to Relief of Adriatic

(Canadian Press)

Ipswich, March 24—Martin Donohue and Edmund Harlett sent to the Daily Chronicle and Daily Telegraph respectively accounts of a visit to the Turkish headquarters at Hadramout, the Turkish commanders having partially relaxed the restrictions as to war correspondents going to the front.

Both these writers say that the Turkish army has undergone a wonderful change since they last saw it. Notwithstanding the terribly severe winter, an immense amount of work has been done in strengthening the lines and preparing for a general advance.

Mr. Donohue writes: "Somebody has worked wonders. Order and organization have been made out of a most hopeless chaos. Food is no longer a rare luxury. The soldiers are well clothed and housed, the overdue pay has been made good, useless men have been weeded out, and here are new more than 120,000 seasoned veterans along the lines. The advanced posts, which are well forward from Tschatalja, are in continual touch with the main body."

Mr. Harlett describes the stories of desperate fighting in the week as somewhat untruthful as it was simply a general advance of the outposts to discover the enemy's position. Surprising information was obtained with only 250 casualties. The reconnaissance disclosed that there were two complete Bulgarian armies between Tschatalja and the enemy's supposed main line of resistance. The Bulgars still hold Khatlun village, where there has been sharp fighting.

Mr. Harlett continues: "The discovery of the enemy's strength has not led to the suspension of all forward movements, and it almost seems as if the Turks have abandoned any intention of marching to the relief of Adriaatic."

PAINTS DARK PICTURE OF CHINA

London, March 24—The Pekin correspondent of the Daily Telegraph says the murder of General Sung, the former minister of agriculture was a political one, and is likely to have a disastrous effect. He and General Huang Hsiang, formerly commander-in-chief of the Chinese, represented the militant element in the south who have 300 of 546 members of the coming parliament, and who stand for a party cabinet and provincial rights against President Yuan Shi Kai's idea of a Pekin dictatorship.

Before the work started the exterior of the church, the choir room, the altar and the Sunday school room had been repaired. The tower and the spire of the church now need attention and it will be necessary to take down and rebuild the top section of the spire, which has rotted. When the repairs are completed the church buildings will all be painted and will show a much improved appearance. A special offering in aid of the repair fund was taken at the church services yesterday and the substantial amount of \$1,200 was received.

MAY BE THOUSAND OR 1,100 KILLED

CHAMPION RIFLE SHOT DEAD

Springfield, Ills., March 24—Captain A. Bogardus, for seventeen years the champion wing shot of the world, died last night at his home in Lincoln, Ills., in his 86th year. He won the championship of America in 1871 and went to England in 1873. There he met all comers, successfully defending the championship until 1878, when he returned to America. He held the distinction of being the only person in the world who ever killed 100 live birds in 100 consecutive shots. Captain Bogardus was in St. John with a large circus some years ago.

Fires Start in Many Places and Add to Horror of Fearful Scene—Soldiers and Red Cross Nurses Hurry to Aid But Trains are Delayed by Wreckage—Village After Village is Wiped Out

(Canadian Press)

Omaha, chief city of Nebraska, storm wrecked and perhaps burning, was so effectively cut off from the rest of the world this forenoon that only meagre estimates of the death list and damage could be obtained. Brief despatches this morning, forced through by devious routes, indicated that several hundred persons perished, and hundreds of others were injured. Special trains and troops are being rushed to the scene, and the telegraph companies are making every effort to restore communication.

Early last evening an equinoctial gale of varying intensity began sweeping through the Missouri Valley and middle west, leaving ruin in its path. At least six states sustained heavy damage. Terra Haute, Ind., reports a death list there and in the environs, which may reach fifty. Towns in Iowa, Illinois, Kansas, Oklahoma and Missouri were shaken.

Wire communication with Omaha was broken a little after six o'clock last evening, and since that time few despatches except rapt, came over a single telephone wire. That the city and suburbs sustained great damage seemed certain.

One of the latest despatches received via Lincoln, described the path of the tornado as being "eight miles long and from four to six miles wide." United States troops from Fort Omaha were immediately called out, it was said, and the stricken zone put under martial law.

The national Red Cross has volunteered its services for the injured and Governor Moorehead of Nebraska left Lincoln early today, personally to assist in the relief work. Railroad bridges are down, however, and train schedules demoralized. Hysterical passengers arriving in Lincoln from Omaha were unable to give any connected account of the disaster except to say that the residential portion of the city suffered most.

Omaha, Neb., March 24—A tornado swept through Omaha about six o'clock yesterday afternoon, cutting a path four to six blocks wide and eight miles long, causing an appalling loss of life and immense destruction of property. Hundreds of buildings were destroyed, and up to ten o'clock last night it appeared that at least a hundred had been killed and three that numbered injured.

Chicago, March 24—The first despatch received direct from Omaha reached here at 8:10 a. m., and stated that hundreds of people were killed and injured by a cyclone that circled the cities of Omaha and Council Bluffs at 8:45 o'clock last night. All telegraph and telephone wires were blown down.

The Nebraska state troops have been ordered out by the governor to preserve order and prevent looting at Omaha. The Chicago, Burlington & Quincy and the Great Eastern lines are preparing special trains to be sent to Omaha, carrying physicians and nurses.

FEARFUL SCENES IN INDIANA REPORTED

Terre Haute, Ind., March 24—With a known death list of sixteen, reports brought by messengers on horseback from the south part of the Vigo county, early today indicated the toll of a tornado which struck here last night, would be increased to fifty. It may be several days before the exact number of dead will be known, as many are believed to be buried in the ruins of their homes.

In addition to destroying about 300 homes in the south portion of Terre Haute, a small town six miles south, was destroyed and the intervening territory ravaged.

The injured will number at least 300, and many of these are in a serious condition. The hospitals are filled to their capacity.

The bodies of Carter and his wife, the first recovered, were found under the crumpled roof of their home, while the mangled body of their child was found fifteen feet away. Mrs. Flora Woods, 2424 South Third street, was found unconscious seventy feet from her home. She had her small baby clasped in her arms.

A moving picture show at 24th and Lake streets, was destroyed. Ten dead and eight injured have thus far been removed from the ruins. About fifty persons were in the theatre at the time of the disaster and it is feared that most of them are buried in the debris.

Benita Park, one of the prettiest residence districts in Omaha was razed to the ground and fire dotted the park, completing the destructive work of the tornado.

Among the show places of the city which felt the baneful effects of the storm was the Joelyn Castle. The roof was torn off and the trees and shrubbery uprooted.

The convent of the Poor Clares at Twenty Ninth and Hamilton, was unroofed and the grounds were littered with debris. The Omaha telegraph office sent their Associated Press messages to Lincoln on an early morning train in an effort to get news to the west.

Early today Omaha presented a sorry spectacle. From the Field Club which is in the western part of the city, to the Carter Lake Club, situated at the northern extremity, was one mass of debris from two to six blocks wide. Federal soldiers were unable to respond to the numerous alarms and many houses were allowed to burn to the ground. The police were unable properly to protect the stricken district, and the soldiers from Fort Omaha were called out. The tornado zone is now practically under martial law.

In account of the appalling character of the catastrophe, only a few names of the dead and injured were available.

Omaha suburbs suffered heavily from the storm. Ralston, southwest of Omaha, was razed to the ground and a half score more are dead. East Omaha, which felt the tail of the twister, reported houses demolished, but no lives lost. Council Bluffs, Iowa, suffered, nine dead, a score or more injured and great damage to property.

The worst damage was done and the largest toll of lives exacted in the western part of Omaha, in the vicinity of 24th and Lake streets, and from there northeast to 16th and Binney. This is the residence portion of the city, and the buildings were appalling. Whole blocks of homes were picked up and dashed into a shapeless mass. Streets and alleys were buried under the tracks and demolished.

The villages of Benson, Dundee and Florence, suburbs of Omaha, were practically wiped out. Only the fact that a heavy rain fell for half an hour after the disaster saved the mass of wreckage and many dead bodies from being buried.

The Webster street telephone station, containing a score or more girls, was one of the buildings struck by the storm. Several of the girls were killed and many others were injured.

Meyer Dalnag, of Omaha, wired Governor Moorehead soon after midnight for several military companies to prevent the residences from being looted.

The governor left on a special train for the scene of the disaster. Ralston, southwest of Omaha, was razed and a half score more are dead. East Omaha, which felt the tail of the storm, reported houses demolished, but no lives lost.

A moving picture show at 24th and Lake streets, was destroyed. Ten dead and eight injured have thus far been removed from the ruins. About fifty persons were in the theatre at the time of the disaster and it is feared that most of them are buried in the debris.

ROYAL WEDDING MAY BE SIMPLE AFFAIR

Murder of King of Greece Leads to Extra Precautions to Safeguard Kaiser

(Canadian Press)

Berlin, March 24—The assassination of King George of Greece has resulted in the institution of more stringent measures for the protection of the Kaiser. German monarchists and anarchists are not inclined toward violence, but there are fears of a sudden impulse by some unbalanced person who has been inspired by the successful assassination of the Greek monarch.

It is feared that the death of King George will probably affect the wedding of Princess Victoria Luise and Prince Ernst, which is scheduled for May 24, anniversary of Queen Victoria's birthday, to the extent of confining it to almost a private affair for the immediate families.

No official announcement as to the arrangements has yet been made.

COULD GIVE WORK TO MORE MEN AT COURTENAY BAY

Hope to Get Them and See Speedier Progress—Great Stone Moved by Sea

The work on the breakwater at Courtenay Bay has not been progressing lately so rapidly as the construction company would desire on account of a scarcity of men. Pay day came on the twentieth of the month and some of the men left the work as soon as they received their pay. The foundation work of the breakwater extends about 1,000 feet from the base and across to now at work placing in position the large ten to fifteen ton stones to cover the face of the breakwater. Three large derricks have been erected for the purpose of building abutments, extending at an angle from the main part of the breakwater and will protect it from the heavy seas by breaking their force before they reach the sea wall.

The force of the tide is very great at this part of the bay. One morning last week when there was a southeast wind blowing and a very high sea running, the tide lifted a ten ton stone and carried it some distance along the side of the breakwater.

The contractors expect that they will be able to secure a sufficient number of men to enable them to rush the work along at a better rate than they have been able to do all winter.

An up to date machine shop has been built on the site of operations and fitted with all the necessary machinery for the repair work on the machines in use there. Recently one of the large steam shovels, which has been in use since early last summer, was put into the shop and completely overhauled and is now back on the work again in good condition.

NO. 1 WHARF SAND POINT; TORN BY FORCE OF WAVES, THREATENED WITH DESTRUCTION

Number 1 wharf at Sand Point, one of the first deep water wharves built at West St. John to accommodate the winter port business, is in danger of destruction. The wharf has been weakened by the force of the waves which have been driven up the harbor by the heavy southerly winds, and it has become holed as the tide rises if the fury of the waves continues.

The strong gale has lashed the waters of the bay into mountainous waves which are dashing up the harbor and threatening destruction to other harbor property. At Sand Point they are so violent that the spray is being thrown clear over the warehouses. At the Negro Point breakwater the big waves breaking and flying in the air afford a magnificent spectacle.

GERMAN MONEY MEN TO BE HERE NEXT AUGUST

Means Much in Matter of Industrial Expansion

ITINERARY RECEIVED? Will Arrive in St. John on August 16—Dinner in Fredericton Will Complete Their Visit to This Province

(Canadian Press)

A large group of influential business men of Germany will spend seven weeks in Canada during the latter part of June and the months of July and August. They will visit St. John, Moncton, Fredericton and other points in New Brunswick, arriving in this province about the middle of August.

The Times has received from the Illustrated Zeitung of Leipzig the complete itinerary of the party, which will leave Bremen on June 24, arrive in Montreal on July 6, make a tour of Western Canada, return and arrive in St. John on August 16, conduct a banquet in Fredericton on August 22 and departing from Rimouski the next day. The itinerary after August 15 will be as follows:—

Aug. 15—Afternoon: Departure from Montreal for the eastern provinces (New Brunswick, Nova Scotia).

Aug. 16—Day of rest, chance for sport (fishing, hunting).

Aug. 17-23—Tour through the eastern provinces, eight-day in Halifax, Moncton, Fredericton and other noteworthy towns and inspection of their industries. The programme for the different towns is being arranged with the municipalities and governments and will be announced later.

Aug. 22—Fredericton, concluding banquet.

Aug. 23—Departure for Rimouski for those sailing for Europe on the "Empress of Ireland" of the C. P. R., on August 24.

This tour of Canada follows as a result of a visit made last year by Count Cecil von Helldorf, of the German Empire, to the Maritime provinces. He was greatly impressed with the country, and on his return to Germany he published a report of all he had seen and experienced during a three months' tour. A special edition of his famous journal, "Deutschland," will be issued very soon, and will be followed by this business men's trip to Canada.

The business men's trip is a unique enterprise, for it is the first time that such a party of representatives—German will visit this country and be officially received by the governments of the province and municipal authorities. It certainly speaks well for the "Illustrated Zeitung" that immediately upon the suggestion of the trip, an honorary committee was formed in Germany to promote the idea. From the list of persons and associations that are giving their support it is clear that the affair will be of high international importance.

The strike of the miners of the Cabin Creek Consolidated Coal Company, continues.

How to Treat the Eyebrows in Cold Weather

DURING the days of winter take good care of your eyebrows, as the skin from which hairs of the brows spring is seriously affected by the chill atmosphere.

As it would be quite a catastrophe to face Easter Day in a browsless condition, take my advice and give your brows special attention so long as the cold weather lasts.

One thing you must do is to give your brows a slight coat of grease before going out-of-doors on a cold day.

The best agent for this treatment is sweet almond oil or glycerine. I cast my vote in favor of almond oil, as glycerine sometimes irritates the skin.

It is not well to apply chilled oil to the brows, so before beginning this anointing process fill a teaspoon with almond oil and hold it over a lighted candle—er, lacking this, a gas flame. When the oil becomes slightly warm, dip your finger into the teaspoon and rub it only gently over the brows, being careful to follow the fall of the hair.

In conjunction with this treatment the use of pretty lipos should take the time before retiring to massage the brows with a good hair tonic, as it is important that the hair roots should be invigorated in every way possible.

A brow tonic which is a favorite with most women who have tried it is made by combining six drops each of the oils of rosemary and lavender and one-quarter of a dram of tincture of camphor. Mix these ingredients with a teaspoon until they mingle smoothly, then rub into the skin beneath the brows, and massage firmly but gently. This tonic always makes the hair grow.

It will doubtless be quite a little trouble to apply a protecting coat of almond oil to the brows before going out of doors, but the results will repay you for your trouble. The same can be said of the tonic treatment.

Washington, March 24—Two telegrams were all that were necessary to apprise two families of the marriage of four of their members when Lee F. and Towns and B. Titus, brothers of Locketts, Va., and Mary G. and Lucy E. Stonebraker, of Lovettsville, sisters from the same state, broke the news of their elopement and marriage here.

They were married by Rev. Samuel Smith of Pennsylvania, uncle of the brides, who romantically aided in the double elopement. The elopers, fearing parental storms, disappeared on a honeymoon and will return when the situation is calmer.

ATTORNEY-GENERAL SAYS CLAIM OF PRINCESSES TO MILLIONS IS GOOD

A New Turn in the Case of Leopold's Daughters—Judgment Next Month

Brussels, March 24—The long litigation between the Belgian state and the Belgian Princesses Louise and Stephanie over the estate of the late King Leopold has taken an unexpected turn. The attorney general, M. Jettand, for the first time, has given his advice and pronounced legitimate the claims, rejected by the lower court, of the royal princesses to the extent of \$12,500,000.

The judgment, on which M. Jettand's finding will exercise a great influence, will be delivered on April 25. It is expected that the attorney-general's view, Princess Clementine, the wife of Prince Victor Napoleon, will have her share of the disputed money, and the Belgian Congo, to which it was to be applied, will be poorer by \$12,500,000.

GUINNESS SUES SONS FOR ALLOWANCE; SAYS HIGH COST OF LIVING DEMANDS IT

Paris, March 24—On the ground that her rent and the necessities of her station in life demand it, the Countess of Piennes, the bearer of one of the oldest names in the French nobility, is suing her two sons for an annual allowance of \$24,000.

The countess finds that her revenue no longer permits her to live up to the traditions of her lineage. In view, therefore, of the increased cost of living and the fact that those against whom she claims are the grandsons and sole legatees of Michel Favin, formerly Director-General of Turkish lighthouses, she does not consider \$12,000 each an exaggerated amount.

FLOODS CAUSE DAMAGE UP RIVER AND ON NORTH SHORE

The country in the vicinity of the Meuse river is flooded by the overflowing of the banks, caused mainly by an ice jam at Red Bridge. The bridge may go to hell when the jam starts to move.

The lands of several farmers are inundated, and some buildings are in danger. The barn of Charles Faulkner was flooded and seven head of cattle, two horses and eighteen sheep were drowned.

There is also a bad ice jam on the Barbary river, and the highway bridge has been destroyed. This bridge, which is freely sold to Americans, was an important structure.

Miss Mary Muroski of Philadelphia succeeded in dancing with 212 partners at her wedding dance. Each partner gave her \$2 according to an old Polish custom.

SLEW BROTHER IN DISPUTE OVER FIFTEEN CENTS

Paris, March 24—A story of how a man killed his younger brother for the sake of a few cents, comes from Lorient. A youth of eighteen was found dead in a field, with a terrible wound behind his right ear. A field laborer informed the police that he had seen the deceased's brother running from the spot and the latter was arrested.

He has made a full confession. He says that he quarrelled with his brother over the division of fifteen cents which the latter had obtained through selling some firewood. His brother did not want to share the money, so the man struck his brother down with a knife, killing him on the spot.

The murderer bears a reputation as a bully.

A series of lectures illustrated by moving pictures is to be given in the First Presbyterian Church of Dalton, Ga., beginning next Sunday. In addition to moving pictures, the church will also have illustrated religious pictures.

Anaemic Condition or Bloodlessness

A peculiar pallor or even ghostliness of the skin is the marked symptom of anaemia. The eyelids, gums and lips appear to be almost bloodless. The cause of this condition is the absence of red corpuscles from the blood.

It is readily assimilated, enters the blood stream and carries health and strength to every organ of the body.

The vigor of the digestive system is quickly restored, and the food taken into the body is properly digested and nourishment supplied to the whole system.

To get well and keep well you must supply the body with an abundance of pure, rich blood. Nothing can help you so well as

MASHER MUST PAY \$500 OR GO TO JAIL FOR 180 DAYS

Buffalo, N. Y., March 24—Leo D. Varlen, a waiter, must pay a fine of \$500, or serve 180 days in the penitentiary, for having come attention on a 16-year-old girl while riding in a Niagara-street car.

Varlen was convicted of pressing unlawful connections to his wife.

Mr. Lindsay says that eventually he went to live at Gippeland, where he lived a lonely sort of life, his only companions being a dozen cats. The landlady was too much for him so he went to Melbourne where he stayed at a boarding house, and among the lodgers was the woman who was now his wife.

It was not his intention to disclose his aristocratic connections to his wife, but "like a woman," she got a clue and he predicted, reluctantly enough, to make his story known and claim his title.

EASTER BUSINESS IN ST. JOHN WAS GOOD

The general prosperity of the city was reflected in the large volume of business transacted by the local merchants preparatory to the Easter season.

Although Easter came much earlier than usual and rather too early for spring goods, the milliners and dry goods merchants report good business.

In addition to these things, which are more or less necessities, there was also a very large business in such luxuries as flowers and other Easter goods.

The florists laid in large stocks this year, but most of them were pretty well cleaned up by Saturday night.

STREET PAVING MAY COME INTO ITS OWN IN THE CITY YET

Counter Petition Out and Being Signed-Action in Two Streets Likely Reversed

There is a possibility that the street paving programme may not be cut to as large an extent and been anticipated. Many of those who signed the petitions against the pavement upon the representations which were made, now regret their action and are taking steps to remedy the matter.

One large concern wished to protest against a certain kind of paving which they thought would be too noisy but through a mistake signed a petition against any pavement at all. Counter petitions are being circulated and are being widely signed, and it is practically assured that the action will be reversed in at least two of the streets protested.

ANOTHER BIG STORM PREDICTED

Washington, March 24-Following closely by the two tornadoes which swept death and destruction through Omaha and the middle west, another storm now developing west of the Rocky Mountains, is predicted to pass over the east Tuesday night or Wednesday.

The weather bureau has ordered up storm warnings from Hatteras to Eastport on the Atlantic, and cold wave warnings in the west lake regions, the middle and upper Mississippi Valley. No decided fall in temperature is predicted for the east until after the passage of the new western storm.

Showers are predicted to fill in the time until the storm arrives.

BRITISH COMMONS IN SESSION ON EASTER MONDAY, FIRST TIME

London, March 24-The House of Commons today for the first time within living memory, sat on Easter Monday. Premier Asquith explained that the innovation was due to the necessity for passing the financial votes before the close of the fiscal year on March 31, and as to clear the way for the renewal of the light on the home rule for Ireland bill.

Members in many cases showed their resentment at the curtailment of their brief Easter holiday by not appearing in their places.

POPE CAN NOT GIVE AUDIENCE TOMORROW

Rome, March 24-Owing to the weak condition of Pope Pius X, Professor Marchisava, his consulting physician, decided this morning that it would be impossible for His Holiness to hold the audience he had arranged for tomorrow.

No further audience will be given by the Pontiff until April 3.

The Pope is much depressed by the death of Cardinal Peter Respighi, the vicar general, and it is feared that this occurrence will have an adverse influence on his progress toward recovery from his indisposition. He prayed for a long time today, while Mgr. Bressani, his private secretary, celebrated a requiem mass for the cardinal.

SUSPENDED SENTENCE

There are certain classes of criminals, degenerates, or by whatever name they may be known, from whom the community in general should be protected. The law provides for such protection, and it rests with judges and juries to see to it that the law is carried out.

To release certain persons on suspended sentence is to do both them and society an injury. It is an injury to the person released, because the best that the law can do for him is to take care of him and prevent him from committing offences which he certainly will commit when given the opportunity. It is an injury to society, because such persons ought not to be permitted to go at large, to deceive, defraud or injure people, or to be a burden upon a community. We hear a good deal of late to the effect that the purpose of dealing with criminals is to reform and not to punish them, and there is perhaps a tendency to forget that a suspended sentence is a punishment, and that the purpose of dealing with criminals is to protect society, and that no degree of maudlin sentimentality aroused over the case of any prisoner should draw attention from the duty which the law and those who enforce the law owe to the community at large.

Let us take a typical case for consideration. Here is a man who for years has made it his habit to swindle charitable persons by getting money under false pretences, to be spent for drink. He is not only not providing for his wife and little children, but goes where his wife is working to earn a living for herself and little ones and demands money from her, and by his repeated appearance in a drunken state causes her to lose her situation. He threatens her, and she is really in fear for her life so long as he is at large. He is finally arrested, and ample proof is submitted to satisfy a jury that this man deserves a long term in the penitentiary. Much more could be proved if it were thought worth while. His wife tells a portion of her story, and it is made perfectly clear that the best thing that could be done for the wife and children, for society at large and for the man himself would be to place him where he could not give rein to his brutal and criminal instincts. To let such a man go on suspended sentence is not in his interest nor in the public interest. If after he has been again and again arrested for the same old offense he is again let go on suspended sentence, a still greater injury is done to him, to his wife and to society in general. There is entirely too much of this suspended sentence business, and it is having a tendency, not merely to encourage certain kinds of rascality, but to bring the law and those whose duty it is to enforce the law into contempt.

DR. FRIEDMANN

The thoughts of the world today are turned with much keener interest upon an unassuming member of the medical profession and what he is doing than upon the Balkan situation or any other of the great questions which are at the moment attracting public attention. He is Dr. Friedrich Friedmann, a German physician who has discovered a cure for tuberculosis. This question is on the world's lips, and the news that comes from New York tends to strengthen the belief that the discovery has really been made. Patients who had been treated a week before died, that night sweats and hemorrhages had ceased, pain had ceased, they had gained in weight, and felt better and stronger. The white plague is one of man's greatest enemies, and if this quiet German doctor has really discovered a cure the world will honor him as it has honored but few men in the long course of human history.

DAVID LUBIN'S GREAT WORK

At regular intervals there come to the Times and other newspapers bulletins and reports concerning the condition of agriculture in the world at large. The material in these publications is provided by the International Institute of Agriculture which has its headquarters in Rome. A writer in the Manchester Guardian gives a very interesting account of the manner in which this institute was organized. The man who conceived the plan was Mr. David Lubin of California. His aim was to have such a collection and distribution of information about crops and prices as would inform the farmers even in the most remote districts of the general conditions and prospects. To bring this about it would be necessary to have the data collected in every country, and brought together and tabulated in a central institute, to be thence distributed throughout the world. Mr. Lubin set out to convert the various nations of the world to his views, and spent years in the work. In King Victor Emmanuel of Italy he found one who gave him the hearty sympathy and support. The Italian king held the Palace of the Institute at Rome and endowed it with \$12,000 a year. Delegates from various countries went there and organized the International Institute of Agriculture. It was not until 1910, however, that the first "single numerical statement" was published, and it related only to six countries and only to the grain crops. It was found very difficult to get accurate figures from many countries, because they had not even been preparing the data for their own use. One after another, however, fell into line, and it is stated that the nations

BIRTHDAYS OF NOTABILITIES

THE EAST AND THE WEST

A Nelson, B. C., correspondent of the *Yarmouth Herald* says:—

"Since coming to British Columbia I have received several letters from my friends in Nova Scotia who were anxious to come west, thinking they could better themselves financially. In each instance I have advised them very strongly to remain east, where I believe the prospects are as good as in any part of Canada. Many of our Nova Scotia boys who have been attracted west by higher salaries will not take into consideration increased cost of living, and while they may hold positions out here that command larger salaries, in reality they are no better off than they would have been had they remained where they were."

For instance, in Nova Scotia \$10 a week is equal to \$10 out here, or \$100 a month is equal to \$100, so that by the time one has paid for necessities of life he has no more left than he would have had in his native home, besides denying himself many of the luxuries which he formerly indulged in. The opportunities and environment of our eastern provinces are equal to those of the west, and I believe that when these are realized more forcibly there will be fewer vacant farms and city lots than at the present time."

FIGURES IN NAVAL BILL DEADLOCK IN OTTAWA

THE INTERESTING STORY OF A GOVERNOR'S PORTRAIT IN PROVINCE CAPITAL

The painting of Hon. Mr. Tweedie in Legislative Assembly Hall at Fredericton. Fredericton, March 24—A careful examination of the auditor-general's report upon the public accounts fails to reveal any charge for the life-sized portrait of the gentleman who formerly occupied the position of governor, Honorable Leonard Joseph Tweedie. The portrait is there, just the same, and it is a very excellent portrait. The position to the left of that of the Honorable Mr. Tweedie, and comparing it with the portrait of the other governor, it seems to be somewhat smaller, not only in width, but in its artistic framing.

HOW TO GET STRONG

Whatever the cause, we want to say to every person who needs strength, you need Vinol, our delicious cod liver and iron tonic without oil, as it is the most efficient strength creator we have in our store.

THE EVERY DAY CLUB

Easter Hymn by Boys' Chorus— Address by George Scott. The singing of an Easter hymn by about twenty-five boys was a feature of the meeting at the Every Day Club last evening. George Scott, the speaker of the evening, and his subject, Friendship and Friends. He began with a reference to the woman in New York who knelt in the street and held out her child toward Dr. Friedmann, imploring his aid. This suggested another picture, that of the woman who passed through the crowd to touch the hem of Christ's garment. Mr. Scott dwelt upon the value of friendship, and the importance of choosing for our closest friend a person better than ourselves.

MT. A. STUDENTS ALL OVER CANADA CO-OPERATING IN THE F.O.W. RD MOVEMENT

There is every evidence that the latter part of April will witness a Mount Allison movement that will sweep Canada from coast to coast. In Montreal, a few days ago a meeting of Mount Allison graduates was held and plans were made for a gathering of this nature. Toronto former students last week completed preliminary arrangements for the same sort of an affair. In Vancouver, where there are more than 100 Mount Allison graduates, the plan was long ago settled. Calgary is in line, and among these various associations there has developed the old college spirit, by means of which the men

SAND POINT WAGES BILLS LARGE

The pay of the C. P. R. longshoremen on Saturday, for a week, amounted to upwards of \$15,000, the largest in the history of the port, and the amount which will be drawn by the freight handlers on Tuesday, April 1, for the fortnight, will also be a record one, totalling close to \$30,000. These large sums of money are only the amounts paid by the C. P. R. and what the amounts paid by the ten other steamship lines and the I. C. R. for freight handling alone is considered with these big sums, the value of the shipping to St. John is seen at a glance.

PAY RENT ON NAVY ISLAND

Since Navy Island has developed into one of the city's popular residential suburbs, the city has decided that it should begin to produce some revenue. The land on the island is owned by the city and there are at present about ten families living there. Commissioner Schofield introduced a resolution at a meeting of the city commissioners today requiring all those occupying land on Navy Island to pay rent to the city at the rate of \$10 per annum for each city lot occupied.

DEAD AT AGE OF HUNDRED

The death of Mrs. Fowler, widow of William Fowler, occurred at her home at The Grand, Kings County, N. B., on March 7, aged one hundred years, after an illness of about six months, which she bore with Christian fortitude. Her maiden name was Harrison. She came from Ireland at the age of fourteen years to reside with her sister, Mrs. Thomas Spragg of the place. Later she settled here and made her home here until her death. She had four daughters, one of whom is living, Mrs. George F. Sculmer, at whose residence Mrs. Fowler passed away. Also she is survived by eleven grand children and thirteen great grandchildren. Mrs. Daniel Nobles of St. John is a niece. Mrs. Fowler was a member of the First Baptist church of Springfield. Interment was at Hillfield's Point.

E. J. HARRISON DEAD IN HOME FOR INCURABLES; MANY WILL REGRET

Prominent in Musical Circles and Sport; a Chess Champion and a Gentle Friend

The news of the death of Edward J. Harrison, in the Home for Incurables, will be read with sincere regret by very many old friends in this city. "Ned" Harrison and his dogs were familiar to all the citizens not many years ago, although for the last four years he had been a patient in the Home for Incurables. For years he was a member of Harrison's orchestra, of which his brother, Morton L. Harrison, is the leader, and he took an active part in the musical life of the city. Up to three weeks ago he took part in the musical portion of the Sunday services in the home.

Mr. Harrison was in his time a great lover of sport, especially fishing and was well known to all the guides on the fishing waters.

He was also St. John's greatest chess player, winning the championship in 1897, 1899, 1900, 1901 and 1908, and the St. John's Chess Cup finally presented to him by the late Rev. John deBoyes in the last named year. Later he played chess for once chess for the championship of Canada, and tied with E. Narraway, of Ottawa, a former St. John man, who won in the playoff.

Mr. Harrison was one of the most genial of companions and had a very large circle of personal friends. He bore great suffering with fortitude, and was cheerful to the end. Besides his brothers, Mr. Harrison, he leaves one sister, Miss Addie Harrison, of Portland, Me., and a number of nephews and nieces. His relatives will have sincere sympathy in their bereavement.

MARITIME PROVINCE PEOPLE IN CALGARY DINE TOGETHER

The Times has received the following from Calgary:

More than 400 residents of Calgary who hailed originally from the maritime provinces gathered at the Ritz restaurant in this city the other night at the annual banquet of the Maritime Society of Calgary. The very dainty menu prepared by the chef of the Ritz began with Nova Scotia salted herring and contained a bewildering array of tempting dishes, many of them associated with the old homes gray down east.

The banquet was presided over by Mayor Bennett, himself a Bluenose, and the list of speakers included representatives of Nova Scotia, New Brunswick, and Prince Edward Island as follows—Dr. McLaughlin, P. E. Island; Rev. S. B. Hills, New Brunswick; W. Kent Power, Rev. A. D. Archibald, Lloyd H. Fenerty and J. L. Jenkinson, Nova Scotia.

In addition to the speeches vocal solos by Mrs. Florence Blake Mahoney and Miss Kathleen Johnson, and a reading by Mr. Fowler were pleasant features of the evening. Among those seated at the head table were—H. A. McLean, J. L. Jenkinson, Rev. S. Bacon Hills, Ward A. Patterson, W. Kent Power, Lloyd H. Fenerty, Rev. A. D. McDonald, Rev. H. Montgomery, Dr. John E. Palmer and Rev. A. D. Archibald. The committee in charge of the banquet consisted of John A. Irvine, chairman; D. D. Harper, J. E. Burgess, O. B. Stone, H. McDonald, A. H. Holdsworth, M. McKay, Charles Boyd, and G. W. Matheson.

Many of Calgary's most prominent and successful business and professional men call the maritime provinces home, and for that reason great interest was shown in the banquet which was one of the most interesting ever held in the city.

"A FRIEND IN NEED"

To the Editor of the Times: Sir—Kindly allow us, the crew of the S. S. Montcalm, a little space in your valuable paper to acknowledge their great thanks for the kindness and sympathy shown by the C. P. R. laborers by their helpful contribution of \$100.75 to the widow and orphans of the ill-fated Thomas Ford, who met his doom at the Rodney Slip on the 26th inst., through the disgraceful neglect of those responsible. Oblige yours, CREW OF S. S. MONTCALM. St. John, N. B., March 22.

MEETING CALLED FOR THURSDAY

N. B. & Maine Baseball Situation Is Being Worked Out

Arrangements are being made for the holding of a meeting of the executive of the New Brunswick and Maine baseball leagues in Fredericton on Thursday next at noon in the Queen Hotel. It is expected that representatives will be present from St. John, Fredericton, Oshawa, and St. Stephen, Bangor, Houlton and Woodstock. As it looks now, it is practically certain that a four team league will be formed, Bangor, Fredericton, and St. John each entering a nine, and one being put in the field jointly by Oshawa and St. Stephen.

By Thursday the league will have assumed more definite shape. The matter of players has been engaging the attention of the Marathon management, although nothing final is announced, pending the arrival of F. J. Leonard, manager.

ANOTHER REGISTRY IMPROVEMENT TO KEEP UP TO RUSH

Mr. McLellan Adds to His Equipment to Cape With Increased Real Estate Business

Owing to the great increase in the number of transfers of real estate in this city special measures have been adopted at the registry office to keep pace with the work. In spite of the efforts of the staff the registration of deeds, etc., has been delayed by the extra rush and as there is no sign of any lessening in the real estate activity it was found necessary to provide for greater expedition in the work.

This has been done by the installation of a second typewriting machine for use on bound volumes and two clerks are now engaged in the work of making the entries. This has made it necessary to have two books running at the same time instead of only one as formerly. The new system will make it much easier for the staff to cope with the work and those who have need to consult the records will appreciate the assistance which it gives in keeping the records up to date.

SHIPBUILDING AT PORT OF ST. JOHN

F. B. Carvell's Remarks in Parliament—A Word to Mr. Hazen

"For many years it has been the dream and prayer of the people of St. John, Halifax, Sydney and Montreal that great ship yards should be established, and I believe that if each were established for the building of war vessels, they would also be used for the construction of commercial vessels. Therefore, I say, establish great lines of industry. Let us do something for our workmen, our own industries, and let us make this country more prosperous year by year."

Such was the declaration of F. B. Carvell, M. P., in a recent speech in parliament. Mr. Carvell went on to say that he had information that Cammell, Laird & Co., the lowest tenderers for the Canadian tender for the harbor works at St. John, that three million dollars spent in connection with the latter's drydock they would be able to build vessels of the British type. "That drydock is now under construction," said Mr. Carvell, "my honorable friend minister of marine is well aware that it is the natural first step towards a ship-building plant." The same machinery required for building the one could conceivably be utilized in constructing the other.

ALLEN FREED AGAIN

Let at Liberty on Suspended Sentence by Judge Forbes

John W. Allen is once more out on suspended sentence. His case was to have come up on appeal tomorrow, but he chose to have his case disposed of under the Speedy Trials Act, and went before Judge Forbes, who released him on suspended sentence, the condition being that he leaves the province within ten days and does not return within two years. If he should return within that period he would be subject to a sentence of five years in Dorchester penitentiary. This is the second time Allen has been let go on suspended sentence. He has had a bad record. In October, 1910, he was arrested on a warrant charged with obtaining money under false pretences from a number of citizens. There were many counts, but only four of these were pressed and he was found guilty, and could have been sent to the penitentiary for twelve years. He was, however, let go on suspended sentence. One of the witnesses against him was his wife. He had not only failed to provide for her and their children, but by going, under the influence of liquor, to places where she worked to support herself and children, caused her to lose her situation. He had made life a burden to her, and had threatened her so that she was in fear for her life.

Within a short time after Allen was let go on suspended sentence, he was arrested in Moncton on the charge of getting money under false pretences, but was let go on condition that he leave the town. Continuing his former practices he was arrested again in St. John last August, and was sentenced to six months in jail with hard labor. In November he was also sentenced to two years in Dorchester on the original charge. The case was, however, appealed, and he was granted a new trial. He elected this time a speedy trial, and is once more at large, upon the conditions stated.

HALIFAX PREACHER. Rev. Robert Johnston, of St. Andrew's church, Halifax, conducted both services in St. Stephen's church yesterday in the morning. Mr. Johnston preached on the "Doubt of Thomas," and in the evening he took for his text, "In My Father's House There are Many Mansions." There were large congregations at both services.
