La MARQUISE de FONTENAY

Prince Albert, Sailor-like, is Tattooed - Ex-Empress Eugenie - People Who Are Cut Off From World

Prince Albert, the second son of George V., who recently accompanied his father to Portland and spent his first taste of real experience of life here, had adopted the nautical custom of having his arms tattooed.

The Japanese are past-masters in the art of making permanent these pictures on the skin, and few visitors to their country, especially if they are sea-farers, can withstand the temptation to become in this fashion pictorially ornamental.

When King George and his late brother, the Duke of Clarence, who were "mid-shipsmen" at the time, were tattooed, the end of a rumper was caused, for some of the fancies individual wrote home from Australia stating that the two princes had had the "broad arrow" worked with needles on the tips of their little royal noses.

Princess Waldemar of Denmark had a beautiful anchor and crown tattooed on her arm, half way between her shoulder and her elbow, her sailor husband was tattooed, as was also the late King Oscar of Sweden, who was many years in the navy before ascending the throne.

Mr. Legge having thus established, so to speak, his right to claim acquaintance with his subject proceeds to treat the imperial pair in an altogether venomous manner. In almost every page of the book an allusion is made to scandals.

SOLDIER CAMPS DRY THIS YEAR

Ottawa, May 30.—That the regulations concerning the consumption of liquor by men in camps will be rigidly enforced this year, was the emphatic statement of Hon. Col. Sam Hughes, minister of militia, when asked if there were any new regulations this year governing the consumption of liquor in the training camps.

WHAT'S LEFT.

A prominent citizen of Xenia, Ohio, had just died. As is usual, the town-folk were standing on the street corners wondering how much he left. Some of them put the sum as high as \$40,000, and others argued stoutly that he left not more than \$25,000.

SOLVING THE DIFFICULTY.

"I am sorry, Mrs. Tinkle," said the cashier, to the pretty little woman at the window, "but you have overdrawn the account placed here by your husband to the amount of twelve dollars."

Daily Hints For the Cook

BANANA RUFFLES. Slice bananas in halves lengthwise. Pour over them a sauce made of one cup of brown sugar, two tablespoons of cream, butter the size of an egg. Stir over a fire till dissolved. Boil till it boils, add one teaspoon of vanilla, remove from stove, beat slightly, pour while hot over bananas. The whipper treat on top and serve.

SPLIT PEA SOUP.

Soak one quart of split peas in lukewarm water overnight. In the morning pour off the water and boil the peas in salted water; three and a half quarts are not too much, and if thoroughly soft rub them through a colander.

BEEFSTEAK WITH POTATOES

Cut a two-pound piece bottom of round in very thin slices. Season with a half teaspoon salt and a half teaspoon white pepper. Peel and slice very finely three medium, young, raw potatoes and season with half teaspoon each salt and pepper. Lightly butter an earthen baking dish, arrange a layer of potatoes (one-fourth) at the bottom of the dish, then a third of the beef over the potatoes, sprinkle with teaspoon freshly chopped parsley over the beef, then arrange another fourth of the potatoes, then another third of the beef, and so on until finished.

THE VALLEY RAILWAY

If it had been the desire and the intention of Mr. Fleming to have the Valley Railway constructed from St. John to Grand Falls, to connect there with the Grand Trunk Pacific, and thus secure through connections and ensure competitive rates, why did not his government provide that work on the Grand Falls section should begin at the same time as on the other sections?

A GOVERNMENT'S FAILURE

Has the present provincial government carried out the pledges made by Mr. Hazen and Mr. Fleming before they came into power? Does the manifesto of Premier Fleming indicate that if returned to power his government will pursue such a progressive policy as the forward movement in the province demands?

understand timber. With regard to agriculture a progressive policy was promised. The performance has been limited to the appointment of salaried officials, and the man down on the farm is unable to discover that the conditions under which he labors have been at all improved.

But if the record of the past is not encouraging, what of the outlook for the future? Mr. Fleming promises three things. He will carry out his ready-made farm scheme, which at most would not settle 100 farmers in the province, and would settle these under conditions grossly unfair to struggling native farmers beside them.

When the immigration congress met in Fredericton there was a general feeling that Mr. Fleming would see his opportunity and with his government take the lead in a great forward movement.

Recently an Ayrshire minister said to his servant one morning: "Mary, you must be very careful of the coal, our stock is running low, and there is no saying when we may be able to get more."

In Moncton the question of treating advanced cases of tuberculosis is receiving attention. There is as great need as ever for a sanatorium in St. John, and provision for its erection should be made with further delay.

The Standard replies to Mr. Veniot's exposures of the government by hinting that Mr. Veniot is not a truthful man. At all events Hon. Dr. Landry has not yet convicted him of falsehood, nor broken the force of his criticism.

World-wide sympathy goes out to General Booth in the hour of his great grief. For he mourns not because he is blind, but because that blindness lessens his efficiency in a life-work devoted to human welfare.

Although the statement has been shown to be false, the Standard again asserts that the opposition voted against the construction of the Valley Railway. What really happened was that the government called upon its followers to vote down an amendment which would have ensured the construction of the line clear through to Grand Falls.

"Tommy, did you have a good time at the party?" "Yes, mother." "Why didn't you stay until it was over?" "What was the use, mother? I couldn't eat any more."

"I say, old man, did I ever tell you about the awful fright I got on my wedding day?" "S-s-s, no man should speak that way about his wife."

AMHERST AND PARRISBORO. Amherst News—Captain George B. Newcombe of Parrisboro, is busily engaged at the present time in promoting a motor passenger service between Amherst and Parrisboro and the News understands that the stock is being taken up by the business people of Parrisboro. It is proposed to put two motors on the service between here and that town, the motors to leave Parrisboro at certain fixed hours and who came in Amherst. There is no doubt but that such a service would pay during the summer months.

AMHERST INDUSTRY. The council of the Amherst Board of Trade held a meeting last week to discuss the proposition of another large industry for the town. N. D. ## A TIME TO GO SLOW

A Review and Some Words of Caution to Uncle Sam

(Wall Street Journal.)

If possibilities of crop failures, an epidemic of cheap politics, the lateness of the season, the possible necessity of choosing between the least of two evils for chief magistrate of this country in the next four years, labor unrest, and small manufacturing profits were all we had to worry about what a happy people we should be. We can handle all these things somehow, however they eventuate. We can make the best of a bad president, a bad crop or a bad bargain, and make a shift to feed our ever-growing manufacturing population, even with a shortage in crops.

But our growth has brought us into international responsibilities, where we have merely a voice without effective control. In some respects we are better off than our European neighbors. We have not joined to any moderate extent in the struggle for overwhelming armaments. No grandiose scheme of colonial expansion may be laid at our door, and our financial situation is sounder for the present at least than that of important centers elsewhere, notably Germany. But a tabulation of our foreign problems should well make us ask ourselves if this is not a time to go slow.

We have warned Japan away from Magdalena Bay thereby giving her an expensive means of keeping us occupied when she so chooses. We have massed at least the nucleus of what may become an expeditionary force on the Mexican border, and a powerful and unscrupulous element is urging steps in the way of intervention of which no man can see the end.

Our fleet is occupied in restoring order in Cuba, and we are mobilizing a force of sailors and marines to land there with that object. After twice setting the Cuban house in order, who shall say how long or how costly occupation and administration will be, if that necessity is forced upon us.

We owe Colombia amends for our high-handed action in Panama, and the necessity of the canal in the business of the world does not obliterate the debt.

With all these distinctly American problems, can we suppose that the Latin nations of the continent do not distrust us or would not misconstrue strong action in Mexico or Cuba? And yet we were never more committed to the Monroe doctrine. Can we afford to let our hands off?

We have the enormous responsibility of the Philippines to consider, and we are lending money to China, thereby entering into complete relations with the Cuhans. We have Germany and England may not protect us if Germany sees a favorable opportunity to challenge the Monroe doctrine. We may even be obliged to leave its defence to Great Britain, whose great minister, Canning first suggested it. But is this a desirable alternative? Of all nations in the world have we not enough complications on our hands? Is not this a time to go slow?

## BELL RINGERS GIVE MOST PLEASING ENTERTAINMENT

Novel and Artistic as Well as Varied English Troupe's Performance Makes a Hit

A novel musical entertainment, pleasing for its truly musical qualities as well as for its novelty, was given last evening in the Opera House by the Royal English Hand Bell Ringers. The company includes nine gentlemen who are all talented musicians and who also possess the gift of versatility in a marked degree.

With J. E. Jessop as the conductor, the troupe gave a delightful programme of musical selections with the bells. Their programme included both classical and modern selections and every one was rendered in excellent style, their performance being a revelation of the possibilities of the bells. The most complex and difficult music was rendered with surprising completeness and accuracy and with excellent musical effect.

The Calliph of Bagdad was one of their most effective selections and their closing number, Poet and Peasant, was also worthy of special mention.

In addition to the bells, the company gave an excellent vocal programme, including solo, duets, quartets and glee. Among the soloists, Mr. Wain was a strong favorite. He has a clear, true tenor of much sweetness and was heard to advantage in several numbers. Mr. Jessop's fine baritone was also greatly enjoyed. The concerted numbers were most effectively rendered, the voices blending most harmoniously. Several of the vocal numbers were given with an accompaniment by the bells and for the others the piano accompaniment was sympathetically played. The programme was completed

RECKLESS SQUANDERING OF PUBLIC FUNDS BY FLEMING GOVERNMENT

Money That Should Have Gone Into Public Works Went Into Pockets of Partizan Superintendents and Foremen — Figures Tell The Tale

In spite of Premier Fleming's statements made in his manifesto and his repeated assertions that the government had carried out its promise to have the public work done by public tender a glance of the wharf repairs in Kings county in 1909, which cost \$4,147.76, will show that not one of these public works was asked to be done by public tender. Instead the structural superintendent, B. J. Wilkins, who, for some reason or other unknown to Kings county people, had been taken out of the city of St. John, where he was known as a ward worker in Victoria ward, to look after and superintend repairs and construction of wharves, seems to have had entire control of the work, to have bought the supplies, hired the men, and paid the bills.

TO PUT MR. DOIG IN CHARGE OF THE WATER DISTRIBUTION WORK

Plans for a reorganization of the water and sewerage department, with a different arrangement of the duties of the officials were discussed at the weekly meeting of the commissioners yesterday afternoon. Mr. Wigmore submitted a plan to relieve Engineer Murdoch of some of his duties by giving more work to the chief clerk and creating a new position of superintendent for which he recommended Mr. Doig. After some discussion in which the other commissioners supported the changes, the matter was referred to the committee at the request of the mayor. After the minutes were read, Mayor Frink pointed out that Tuesday, July 10, was the last day for the payment of taxes at a discount and that some other day should be chosen for the public holiday to commemorate the beginning of the work at Courtenay Bay.

Commissioner McLellan spoke of the need for urgency in the case of breakdowns in the fire department and the other commissioners agreed with him. Commissioner Schofield then withdrew his objection and the section was adopted. Authority was given for the purchase of 1,000 feet of water pipe for the extension and of four inch water meters for this extension and for Kimball's lanery.

TORIES ADMIT THERE IS NO MONEY FOR GRAND FALLS SECTION

In replying to The Telegraph's charge that the bonds floated in London for the Valley Railway do not provide money for more than 169 miles of road and therefore that there is no money to build from River de Chute to Grand Falls, the Standard yesterday said: "It is not essential to the construction of the railway to float all the bonds at one time \* \* \* All that has been done is to float the bonds necessary to proceed with the construction of the road already under contract."

The Standard says the true trust deed "provides for the ULTIMATE issue of bonds for the whole work," and that "when the remainder of the railway has been placed under contract the bonds necessary for its construction will be floated."

The Montreal Star's London cable, telling that the amount of bonds floated amounted only to \$2,244,165 has exposed the local government's bad faith. The bond issue makes no provision for the Grand Falls section. All there is for that section is a promise "ultimately" to issue other bonds—some-time.

CHOOSE ST. JOHN TICKETS TONIGHT

Conventions in Keith's Assembly Rooms—Rosy Outlook for the Opposition All Over the Province

With the nomination of two strong tickets for the city and county tonight, the Liberals of St. John will begin an appeal to the voters, a copy of the 1912 election in the election of six supporters of Mr. Cope, the opposition leader in the province. "Very great interest is being taken in the nominations, and reports from the county would indicate that A. F. Bentley, Mr. P. J. Veniot and James Lowell will be the winning ticket. The selection of two such able men who have both been prominent since they first came to St. John, would certainly assure the defeat of Col. Baxter and Warden Carleton."

One of the most favorite themes of the government speakers, strange as it may seem, at the convention on Tuesday evening was the bad roads, and Warden Carleton himself said at the city convention that he would be glad to make any concession (they are so bad) and that his wife said he talked about them in his sleep.

The firm of A. McKim Limited are to be congratulated upon the splendid service rendered both to publisher and advertiser through this very complete directory.

GLOBE NOW CONDONES WHAT IT HAS STRONGLY CONDEMNED

St. John Evening Organ of the Conservatives is Put on the Rack—Why the Change, Asks Correspondent—Waste of Money, Deficits, Scandals and Financial Juggling by Fleming Government Approved

The Editor of the Sackville Tribune: "Sir—One of the men I have admired for a number of years is Senator Ellis, the editor of the St. John Globe. Sometimes, I admit, I have been at a loss to understand certain public and semi-public questions, but I have always believed him sincere in his opinions. I confess, however, that I am getting pretty much puzzled now."

It is not a question of party politics; at least a Liberal I did not support the Tweedie ministry, and would not support it today were it in power. But why does the Globe, which has always professed to be a straightforward, honorable newspaper, uphold today a government which practices the same things which the Globe so strongly, and I believe rightly, condemned when they marked the course of the Tweedie cabinet?

Other people, I know, share my bewilderment. If the Fleming government is a good government, careful of the public interest, scrupulously honest in the handling of the public money, why doesn't the Globe deal in detail with the charges made against the government? If it isn't a good government why does the Globe persist in supporting it? And it is no answer to say that definite, serious charges have not been made against the Fleming ministry. The charges have been made both definite and to belittle them is simply to strengthen the feeling of apprehension which many of us who do not take an active part in political warfare are experiencing, the feeling that there are grave abuses marring the record of a government which took office with great protestations of honesty and economy.

The Central Railway was a scandal to the Globe, a few years ago. Railway manipulation by the Fleming people goes uncondemned in the Globe today. Wasting public money on party friends and their undertakings was a terrible thing to the Globe a few years ago. It's all right to the Globe now when it's done by Fleming.

I am your truly, A PUZZLED GLOBE READER. Sackville, May 30, 1912.

HON. DR. LANDRY IS IN BAD WAY OVER IT. Richbucto, N. B., May 30—At a meeting at St. Ignace last night, Colonel Sheridan, member of the cabinet of the minister of agriculture, bitterly denounced the auditor-general, stating him an unfair and prejudiced man.

ZAM-BUK CURED HIS ECZEMA. Mr. James McComb, of Thornton, Ont., writes: "For eight months I suffered from eczema and could get nothing to give me relief. I heard of several cases where good results had followed the use of Zam-Buk and decided to give this remedy a trial. Within three days I felt much better, and within two weeks the sores were entirely cured."

SUFFERED THREE YEARS. THIRTIETH MURDER OF HIS INDIAN ROOT PILLS CURED HIS KIDNEY TROUBLE. There are few diseases that cause more acute suffering than Kidney Trouble, and Mr. F. A. Thomas, of Sudbury, Ont., is one of those who know it. He writes: "For over three years I suffered from kidney disease. First I thought I had sprained my back, but suddenly the pain would catch the small of my back and it would be impossible for me to straighten myself up for several minutes."

CURED OF PILES AFTER 20 YEARS. Many people have got the impression that piles can only be cured by a surgical operation, with all the attendant suffering, risk and expense. There is an easier way: by using Dr. Chase's Ointment. No risk, no danger and little expense is attached to it. It is perfectly cured, and results are highly satisfactory.

Canadians are prospering—more than 100 new ones started in 1911. The Times has just received from the publishers, A. McKim Limited, Montreal and Toronto, a copy of the 1912 publication of their Canadian Newspaper Directory. This work shows that within the last year more than 100 new papers have started to publish in the Dominion.

SPORT NEWS OF A DAY, HOME AND ABROAD

The Marathons. All the games in the New Brunswick & Maine Baseball League yesterday had to be postponed on account of rain. The Houston team is due here tomorrow to play the locals. They will also play two games here on the holiday. It is expected that several more releases will be handed out in a day or two.

Aquatic Power Boat Race.

The members of the St. John Power Boat Club are displaying much interest in the race to be held on Monday next, the king's birthday, for the commodore's shield. The race starts at 9.30 a.m. and is open to all boats in the squadron eight horse power and under (maker's rating), no time allowance. The course is from a buoy off Public Wharf, Indiantown, to a buoy off Brown's Flat and return. This being the first fixture of the season, a large number of boats are expected to participate.

A Talk About Wells.

Now that Bombadier Billy Wells, best heavyweight in England—at least he is holder at the present time of the Lonsdale belt emblematic of that title—is in America the time is fitting to compare him with some of the rugged American fighters he will be called upon to dispose of before he can be taken seriously here. American fight fans are complacent with foreigners—to a certain extent. A fighter may come to this country with a fairish reputation on the other side and the fans will patronize him and perhaps root for him, even against the American opponent.

TRAVELED AT MORE THAN 78 MILES AN HOUR

Indianapolis, May 31.—After leading all the way from the start to the 186th lap, Ralph dePalma's Mercedes developed engine trouble and Joe Dawson's National came up from six laps behind and won the second international 500 mile sweepstakes automobile race yesterday from twenty-three other entries in the record time of 2:21:56. Teddy Heislaff's Fiat was second. The Stutz company protested the awarding of the prize to the National, claiming that the car, driven by Charles Metz, which was announced as fourth, won the position. The day was ideal for the motor "fans" and not a serious accident marred the sport. Bob Burman, whose cutting turned over in the back stretch, when a rear wheel collapsed, was able to leave the hospital with a few scratches, after a slight treatment and viewed the finish of the race. Only ten cars finished. Dawson averaged 78.6 miles an hour as compared with 74.6 miles an hour made by Ray Harroun, who won the race last year in his Marmon "Wasp." Harroun's time was 6:42:00.

Confidence in Betting.

Frank Baker, the Athletics' champion sweater of home runs, wrote the other days for one of the Philadelphia newspapers in which he is giving instructions as to the best method of knocking the cover off the ball, that any batter who "pulled" away from the plate when the pitcher began to smoke 'em over had better quit fight there. You've got to have the confidence that will get you the hits.

"When fans ask me the secret of my success last year," says Schulte, of the Cubs, "I tell 'em just one word. It's confidence."

Schulte was the leading home-run getter of the National League last year. "I'll tell you one instance," said Schulte. "Christy Mathewson is regarded as one of the hardest pitchers in the business to hit, and he is. Joe Tinker, though, outshooting, can climb into Christy's batters' just as though Matty was the greenest kind of a recruit. How does he do it? Confidence; that's all. He goes up to bat with only one thought in his mind. 'I can hit that fellow, and he doesn't often fail. It is said that Matty would rather face an entire team of sluggers than Joe Tinker.'"

Frederick's New Men. Mail.—The new pitchers of the Frederick team, Brennan and Levesque were out at Souly's Grove yesterday afternoon for a work-out and made a good impression.

ST. JOHN MAN WENT DOWN WITH THE ILL-FATED TITANIC

Inquiries Made Here Show That Thos. Francis McCaffry Was Native of This City

A St. John man has been discovered among the victims of the Titanic disaster. The information came through an inquiry from an Upper Canadian firm of solicitors who sent an inquiry to Weldon & McLean regarding his birth certificate, presumably for insurance purposes. He was Thomas Francis McCaffry, who was born here on February 5, 1886. He was a son of James McCaffry and his mother's maiden name was Mary A. (Gambling). The record of his birth and christening were discovered, but as far as could be learned, he must have removed from St. John some years ago and no relatives in this city could be located.

GURNEY DIVISION REVIVAL

Gurney Division, S. of T., has experienced a revival. This old division, more than fifty years in existence, had not of late been very active, although Gordon Division had united with it. But S. B. Bustin was elected Worthy Patriarch, and set out to revive interest in the work. As a result three new members were initiated last evening, three more joined by card, and others will come in at the next meeting. Stirring addresses were made by Mr. Bustin, Rev. W. R. Robinson and W. Frank Hatheway.

Rev. Mr. Robinson said that the order has gained hundreds of members in the province in the last year and there are now nineteen divisions in Northumberland county alone. At the grand division meeting in Rexton the question of law enforcement, social and moral reform, playgrounds and other important matters will be discussed.

Gurney Division appointed a committee last evening to consider the question of having a great temperance demonstration on the Sunday of the Back to New Brunswick Week.

FOUR AND A HALF INCHES OF RAIN IN THIRTY-SIX HOURS

Steady Downpour Continued This Morning, But Prospects are For Clearing

Four and one half inches of rain during the last thirty-six hours is the record for the last day and a half in St. John, and it has beaten the record for the month of May for some years. Since the rain started it has fallen almost incessantly. Some streets were almost flooded and it at times as had underfoot an overhead. One good feature of the storm was the almost entire absence of wind, for there has been very little since the beginning of it. The temperature has been just a trifle cool, it being a little below the average and has been equally bad in other places besides St. John. Streams have been flooded. The prospects will have a tendency to spoil the outing of the fishermen who intend going away for over the holiday, but it will be a help to the lumbermen.

The average rain fall for the month of May is, at the highest, four inches, but old Jupiter Phivus has surpassed himself, and succeeded in smashing nearly all previous records. From present indications, however, it looks as though the weather would clear now, and be fine for the holiday. The probabilities for tomorrow are for clearing weather with southwest winds.

TORIES AT WAR IN ST. JOHN COUNTY

There is more trouble for the Conservative camp followers in the county. The paths of glory are being found none too smooth. It has been found difficult to appease the various dispositions of many of the fighting brigade, and some of those who have not been favored from the seats of the mighty in Fredericton or Ottawa, have openly refused to lend a hand to the party's progress.

A hurry call was sent yesterday to a prominent Tory worker by one of the county candidates and a conference was held in the office of the latter with regard to the appointment of a county chairman for the grinding of the machine. Mr. Frederick P. Ekin, Daniel J. Purdy, Frederick C. Beattie, F. Gilbert McMullin, and Nathaniel C. Scott, all of St. John, have applied for incorporation as "The Tag Lillo Co., Ltd., capital stock \$8,000.
