DEATH LIST NOW PLACED AT 70 LIVES

Conditions in Burned Porcupine District Are Improving Daily

AN INVESTIGATION

Belief That Fire Was Started By a Careless Prospector—Railway Conspicuous Liquor At Golden City—Precautions For Future Are Urged

(Canadian Press) Toronto, Ont., July 20.—Seventy will probably be the total death list from the Porcupine fire. The relief committee has wired Hon. Frank Cochrane, minister of mines, as follows:—

"We are pleased to advise that the conditions are improving daily, only a few incidents are occurring to mar the contentment of relatives and friends here. A large area is covered by prospectors, who are always secretive about their movements. As a result it is impossible to secure quick information to wire friends."

Search parties sent out by the relief committee, which has also organized graving operations in the lake, have almost failed in adding to the known death list, which is now sixty-two.

"The casualties may reach seventy known dead, and it may be that a few will not be located for many days. The camp is settled down to normal conditions. There is no desolation in the camp. Everyone is sheltered, and conditions are assuming a most favorable aspect."

Investigating. Railway officials are quietly carrying on an investigation into the probable cause of the fire. The commission has a big stake in valuable property in the north country, and is interested in preventing bush fires. Chairman Englehart has come to the conclusion that burning pieces of birch bark, carried by the wind, caused the fire after the first one had been started by a prospector who was careless. The burnt out district was not destroyed by one fire, but several fires, each itself blazing at different points at the same time, with clearings intervening.

The commission has been urged to enlarge the fire zones around the various town sites, but this has been found impracticable. Since the flames converted Golden City into a settlement of refugees, the Tenmile and North Bay Ontario Railway has confiscated every case of liquor that has come into the station. Some was handed over for medicinal purposes; the remainder lies securely in the jail, under lock and key.

This arbitrary proceeding has been urged than justified by the lack of drunkenness and disorder in the streets. As a result of the dreadful experience in the Porcupine district, it is proposed that every mine and every prospector should be provided with a tunnel in the ground covered with clay, which a bucket of water would be provided, and plenty of ventilation afforded.

Forecast—Light to moderate winds, fair and warm, a few local thunder storms tonight or on Friday. Synopses—Thunderstorms have been general in Ontario and local showers have occurred in the west. To banks and American ports, light to moderate winds. Saint John Observatory.

The time ball on customs building is hoisted half its elevation at 12.45, full elevation at 12.55, and drops at 1 p. m. Standard time of the 60th Meridian, equivalent to 5 hours Greenwich mean time.

FRANK CHANCE OUT OF GAME FOR GOOD

Fortieth Blow on Head in Baseball Career Ends His Playing Life—Old Time Pitcher Dying—Canadians in Regatta

(Canadian Press) Chicago, July 20.—According to President Charles W. Murphy of the Cubs, Frank L. Chance, manager of the team, will never again don a uniform, illness keeping him on the coaching line. Murphy said yesterday that Victor Saier hereafter will be seen at first base and that Chance would do the dictating from the bench. Chance has been struck on the head nearly forty times since he took up the game and it is said that the last blow caused his retirement as a player manager.

Periora, Ill., July 20.—Bobbie Carruthers famous as a pitcher for the St. Louis baseball club of the Old American Association when it won four successive world's championships and who later pitched in the National League, is in a local hospital reported to be in a dying condition. Carruthers who has been umpiring for the Triple League recently, was sent to the court house on a charge of intoxication.

Saratoga Springs, N. Y., July 20.—Although the official entries for this year's American national rowing championships were not announced until Sunday, it became known today that there would be a large delegation of Canadian Oarsmen on hand for the events on Friday and Saturday of next week. The big event, the senior championship eight, will have the following starters—Winnipeg, Argonauts of Toronto, Duluth, Detroit and New York Athletic Club.

The amateur sculling championship will bring out Lou Scholes of Toronto a winner of the Henley diamond sculls, Butler of the Argonauts, and O'Neil of Halifax, the title holder, and others. Sheppard and Russell will try to take the doubles championship for the third time but will have no easy journey, as there will be at least ten starters, including the Vesper Club of Philadelphia, the Orioles of Baltimore and the Nonbaric Club of New York.

(Canadian Press) London, July 20.—The House of Commons set until 5 o'clock this morning debating the insurance bill. Chancellor Lloyd-George is in strong conflict with the labor party, who are seeking to amend the bill in the direction of making the state undertake greater financial responsibility, so that the workmen may pay smaller contributions.

The chancellor is resisting on the ground that he has already conceded overmuch in this direction. The situation between the government and the laborists is strained. Gets Damages. Another example of the dangers incurred by writers of fiction and publishers under the English libel laws was provided yesterday, when a Manchester jury awarded \$350 damages in an action brought by Irene Chester, a tobaccoist and money lender, against the Amalgamated Press.

The libel was contained in a paragraph in one of the Amalgamated Press publications, a novel. It referred to a Miss Chester, a money lender, who urged one of her victims to pick up scandalous tidbits about families and to set as a secret correspondent. The plaintiff asserted that her business had been ruined because the paragraph associated her with the character in the novel. Douglas Webster, who wrote the story, said he had never heard of the plaintiff.

The judge told the jury that they had to consider whether any reasonable person would conclude that the plaintiff was referred to in the novel. It had been shown that some persons called out as she passed the door, "That's Marriette" (one of the names of the character in the novel). The jury found for plaintiff and awarded the damages mentioned. Lord Stamfordham, private secretary to King George, and successor to Lord Knolly telegraphed from Holyrood Castle, Edinburgh today that there is no truth in the reports that the Prince of Wales is in the United States.

(Special To Times) Toronto, July 20.—The new prize of the Academie Francaise, a prize of \$10,000 francs, the awarding of which had been looked forward to with such extraordinary interest in French literary circles, will after a long delay, be awarded this year. A committee of the academy, after prolonged consideration, had recommended the name of Charles Peguy, one of the most original of the young writers of the day, and Louis de Robert, whose novel, "Le Roman d'un Malade," has made a great sensation; but at the actual meeting of the academy these writers were run very closely by M. Roman Rolland, of "Jean Christophe" fame, while Paul Adam, Henry Bordeaux, and Madame Colette Yver also had their champions. After four ballots it was found that no candidate had obtained the necessary majority, and so the great prize stands over until 1912.

(Special To Times) Toronto, July 20.—The body of Omond Butler of Tangier, N. S., was found yesterday on the Esplanade property in Northcote. He was overcome in the Porcupine fire.

A Rich Cargo Seattle, Wn., July 20.—(Canadian Press) The steamship Senator has arrived from Nome and St. Michael with \$60,000 in gold and \$200,000 worth of furs and whale bone.

Twelve Bodies So Far Recovered in Carrara Marble Works Pisa, July 20.—(Canadian Press)—A slide at the Carrara marble quarries yesterday carried down a number of workmen. Today twelve bodies had been recovered. The work continues in the hope that some of the buried men may be rescued alive.

Lloyd-George and Laborites in Conflict Over Insurance Bill

LIBEL LAW DANGER

Name of Woman, Never Heard of by Writer, Used in Story; She Gets Damages—Prince of Wales Not to Visit New York

(Canadian Press) London, July 20.—The House of Commons set until 5 o'clock this morning debating the insurance bill. KINDLY ACT BRINGS YOUNG MAN A RICH REWARD

Atlanta, Ga., July 20.—(Canadian Press)—A courteous act on the part of William E. O'Neil of Bainbridge, Ga., has been rewarded by fortune. When O'Neil exchanged a lower for an upper berth with J. T. Young, of Oakland, California, four years ago when the two men were enroute to Florida where Mr. Young was going for his health, he thought little of the incident.

PHONES TO REPLACE TELEGRAPH OVER THE WHOLE GRAND TRUNK

Means Expenditure of Half Million Dollars, But Railway Men Say Test Has Proved it Worth While

(Canadian Press) Toronto, July 20.—It was announced last night by W. W. Ashland, superintendent of the Grand Trunk telegraph, Montreal, that the company would adopt in the near future the dispatching of trains by telephone instead of telegraph. The company has had two telephone circuits in operation during the last eighteen months and these have given entire satisfaction. The entire system of the railway totals about 4,700 miles and the telephone dispatching department will include thirty-one circuits.

A rough estimate of the cost of installing the system and placing it in operation is \$105 a mile. This will bring the entire cost of installation for the system to a round \$500,000.

(Special To Times) Hartland, N. B., July 20.—This morning G. W. Green, locally noted as a private detective, and for the last year as a Scott Act spotter, was arrested by A. R. Foster, provincial constable, on a warrant issued from the court of Stipendiary Magistrate Shaw at Bath. The warrant charges Green with firing several shots at Herman Green, a lad of fifteen.

The younger Green lives in Bristol, and on July 13 says that G. W. Green went to him with a summons in a liquor case. The boy took to his heels, and Green fired several revolver shots. The hearing is set down for this afternoon.

Crop conditions here were never better. The recent rain has given sufficient moisture. They will be a two-thirds crop on an average, but of fine quality.

(Special To Times) Woodstock, N. B., July 20.—George I. Britton of Woodstock was taken suddenly ill this morning with an affection of the heart and in a few hours despite all that medical attention could do, passed away.

Mr. Britton was about fifty-five years of age and kept a shoe repairing establishment inConnell street. He is survived by his wife who was Miss Cliff of Upper Woodstock, and one son, Bliss, in the service of the Royal Bank of Canada in Ontario.

Randolph Britton of Upper Woodstock is a brother. Mr. Britton was a member of the Reformed Baptist Church and a good citizen.

(Special To Times) Capetown, July 20.—A native servant named Sophy Sylvester has been arrested on a charge of murdering her mistress, Mrs. Margaret Douglas Palmer, wife of W. T. Palmer, former assistant editor of the "Cape Times."

Mrs. Palmer was left alone in the house with the servant girl for a few hours, and on Mr. Palmer's return in the evening he found his wife missing. The servant girl was questioned, and she said she thought her mistress had gone out. A search led to the discovery of Mrs. Palmer's body in some bush at the back of the house, the clothing being disarranged as if her body had been dragged through the mud. Evidence was given that Mrs. Palmer had been strangled.

Port A Prince, Hayti, July 20.—(Canadian Press)—The city is at the mercy of the revolutionists, and is being pillaged. All the generals opposed to the revolution have found refuge in the foreign consulate. The French consul was slightly wounded while offering protection to the local authorities.

FIFTEEN OF OUR MEN FOR KING'S CUP

That Many Canadians Among 300 In Second Stage At Bisley

KOLAPORE CUP TODAY

(Canadian Press) Bisley, England, July 19.—Canada will have fifteen representatives among the 300 who shoot tomorrow in the second stage of the big event of the meet, the King's Cup. Twelve of these are attached and three are unattached men.

The score of Sergeant Hodson, of Calgary in the first stage of the King's Cup, was called inaccurately. He qualified for the second stage of the big competition with a score of 89. Lieut. Melickjohn, of Ottawa, Sergt. Patterson of Ottawa, Lieut. Spittal of Ottawa, and Sergt. Mortimer of Ottawa, all of whom scored 88, shot off last evening with about eighty others for twenty-four vacancies in the 300, but Lieut. Melickjohn was the only one lucky enough to get a place.

The Clifford of Toronto, who was tied for first place in the Daily Graphic, shot off the tie last night and finished third, winning 25.

The big event on the card today is the Kolapore, which will be fired for this afternoon. This morning the first stage of the St. George's fifteen shots at 600 yards, is being fired. This is the last of the grand aggregate matches. There is a keen fight on in the Canadian team for the Strathcona and Canada Club prizes, which are given to the members of the team finishing highest in the grand aggregate. Up to date, Lieut. F. H. Morris of Bowmansville, is leading with 239, with Clifford of Toronto in second place with 226, and Sergeant Russell of Ottawa third with 223.

The capture of the Prince of Wales yesterday by Private Clifford, made the seventh time since the beginning of the war that it has come to Canada, the last occasion being two years ago, when Sergeant Blackburn, of Winnipeg, who was not a member of the team, carried off the honor.

ROBBERS HOLD UP TRAIN

They Get \$500 From the Passengers and Shoot the Engineer Twice

Grand Forks, N. D., July 20.—(Canadian Press)—Train number 2, the east bound north coast limited on the Northern Pacific Railroad, was held up by three masked robbers near Buffalo, North Dakota about 11 o'clock last night. The robbers secured about \$500 in cash, by going through the passengers. They shot Engineer S. Simons of Fargo twice, in order to make him stop the train, and made a successful escape in automobiles.

PORTLAND, ME., TO CAMPBELLO ON A CANOE VOYAGE

Portland, July 20.—(Canadian Press)—Mr. and Mrs. H. Wisewood, of New York have just left Portland on a canoe trip to Campbello, N. B. It is said to be the longest canoe voyage by salt water ever undertaken.

QUEBEC GIRL IN AUTO SHOT BY A REVENGEFUL BOY

A Motor Car Killed His Her and He Lay in Ambush Shooting Hole in Tire of Every Machine Passing

WRECK OF TRAIN

Pittsburg, Pa., July 20.—Four men were killed, two injured and another is unaccounted for, as a result of the wreck of a fast freight train on the Baltimore & Ohio Railroad at Bryant Station near here late yesterday.

F. M. Cunningham, of Conneville, Pa., conductor of the train, was the only member of the crew among the victims. The others were train riders or trespassers.

QUEBEC GIRL IN AUTO SHOT BY A REVENGEFUL BOY

South Norwalk, Conn., July 20.—Miss Eva Hammond, of Coaticook, Que., lies at the home of her uncle here with a bullet lodged against the base of her brain. Her body is paralyzed, and there is little hope that she will survive. She was shot while automobiling late yesterday and William Beers, a twelve year old boy is accused of having caused the injury.

Young Beers told the police that a passing automobile ran over his pet band man ten a day or two ago, and he had lain in ambush to avenge the death of his favorite. He had a small rifle in his hand and hid in the bushes, and determined to shoot a hole through the tire of every automobile that went by. This he said was his notion of revenge.

Miss Hammond's car was the first to pass. The lad attempted to hit the tire, but the bullet glanced off and landed in the young woman's neck.

THE TIMES' NEW REPORTER

A NEW ORDER. The children who live near Haymarket Square held a meeting last night and organized the Independent Order of the Clean Square. The new order will have its first fete today, and will endeavor to pick up the 1,420,378 pieces of paper and other rubbish littering the square, and pack them all into the big barrel provided for that purpose. When the square has been cleaned a guard will be set, and whenever any person throws paper or rubbish upon the grass or the walks, the guard will march up and salute, point to the rubbish barrel, and say: "Pardon me, but haven't you forgotten something?"

If the person fails to take the hint, the guard will summon all the children in the neighborhood, and say to them:—"Children, this person wants our square to be dirty. What is your pleasure?" And all the children will cry out with one voice—"Begone! Begone! Begone!"

BORDEN AT THE WHEEL. Ottawa, July 20.—(Very Special)—Up to noon today Mr. Borden had not yet been asked to receive a deputation from the government. Apparently Sir Wilfrid thinks he can bluff the opposition leader, but the latter is as firm as a rock. Surrounded by his small but noble band of patriots he will listen attentively to any proposition the government may have to make; but he is steering the Empire, and will not swerve for one instant from his course. It is a thrilling spectacle.

Mr. Ritchie should lose no time in communicating with London, Berlin, St. Petersburg, Tokio and other capitals; for it will certainly take the various governments all their time to prepare for the great change.

PRISON FARMS

In connection with the prison farm proposal, the following article from the Montreal Star is of much interest: "Ontario's prison camp system proved itself again during the progress of the Penitentiary fire. One group of prisoners engaged in the work of providing good roads through the district, being surrounded by the bush-fire, not only beat it back with the loss of only two of the smaller camp buildings, but aided materially in checking its spread in other directions.

"Fruit-a-lives" saved her life. Riviere A. Pierre, Que., May 9th, 1910. "I look upon my recovery as nothing short of a miracle. I was for eleven years constantly suffering from Chronic Dyspepsia, Indigestion and Constipation. The last two years of my illness, I was confined to my bed nearly all the time. I was so thin I weighed only 60 pounds, and I vomited everything I ate. Even water would not stay on my stomach. The doctors gave me up. I was advised to try 'Fruit-a-lives' and how thankful I am that I did so. When I had taken one box, I was much better and after three boxes, I was practically well again and had gained 20 pounds. I have taken thirteen boxes in all and now weigh 100 pounds and am absolutely well—no pain—no indigestion—no constipation—my heart is sound and complexion clear."

TO A VERY LITTLE MAID

Whatever flowers faintest blow And sweetest are of scent, Smooth paths no thorny briars know Mid fields where pleasant waters flow, Through woods that loving shadows throw, Be thine, sweet innocent. Whatever earthly happiness May be to mortal men, Ne'er overcast by ills distress, Not dimmed by troubles that depress, Unmarred by aught that will not bless, Be thine sweet innocent. A maiden sweet and fair to see, Kind Nature thus hath meant; A mind that judges carefully, Well stored and trained and error-free, A heart that draws true worth to thee, Be thine, sweet innocent. —William Addison Houghton.

OREGON MAN'S LITTLE BAY MARE

From the Stayton Mail. I. W. Gardner of Fox Valley, one of the oldest settlers in this locality, was in Stayton Tuesday and visited his brother. Mr. Gardner drives a little bay mare that is undoubtedly the oldest horse in this part of the state. He has owned her nearly thirty-four years, and states he purchased her when she was coming four years old, which makes her age over thirty-seven years. He has used her continually all these years as a driver, and she looks as though good for a number of years yet. Mr. Gardner has had this horse so long that she seems like one of the family, and no amount of money would cause him to part with her. She has been a faithful little driver, could always be depended on and it not addicted to the running away habit. Pride loses its flavor when you have to swallow it. The St. John Evening Times is printed at 27 and 29 Canterbury street every evening (Sunday excepted) by the St. John Times Printing and Publishing Co., Ltd., a company incorporated under the Joint Stock Companies Act.

The Times has the largest afternoon circulation in the Maritime Provinces. Special Representatives—Frank R. Northrup, Brunswick Building, New York; British and European representatives—The Clougher Publicity Syndicate, Grand Trunk Building, Trafalgar Square, England, when copies of this journal may be sent and to which subscribers intending to visit England may have their names addressed.

Authorized Agents—The following agents are authorized to canvass and collect for The Evening Times: Wm. Somerville, Elias R. Gannon.

Canadian marksmen are making an excellent record this year at Bixley.

Mr. Walter H. Trueman, who is one of the counsel for the Grain Growers' Association, says the western provinces are very strongly in favor of reciprocity.

Why should Canada spend money to get more favorable markets in countries beyond the ocean, and refuse to profit by the offer of a great consuming market at her very doors?

A photograph of a lady, evidently an American tourist, who wore a heavy coat as she strolled with her husband about town last evening, would be a very good advertisement of St. John temperature to send to New York just now.

Sir Frederick Borden states that the Liberals of Nova Scotia are feeling particularly confident, and that the people generally regard reciprocity as a great boon.

The present aspect of the German street boulevard, with its fresh green grass and nicely growing trees, is an object lesson. It is also worthy of note that the trees planted on other streets appear to be doing remarkably well.

The Standard quotes from American papers to prove that reciprocity would mean a weakening of the ties binding Canada to England. True Canadians do not take their national or imperial aspirations from American sources.

A little before nine o'clock this morning traffic on Mill street was blocked by an accident to a street car. For twenty minutes the blockade continued. Every day, and throughout a large portion of the day there is congestion on this street.

An alderman watched a citizen throwing some waste paper on the street, not far from one of the receptacles placed at a corner for the disposal of such material.

The committee on the mayor's inaugural address are understood to have gathered much valuable information on the general question of taxation, especially in relation to the land tax and reduction of the tax on improvements.

In his speech on reciprocity, in parliament, Mr. F. B. Cavell referred to the great number of Carlton county farmers who had gone over and settled in Aroostook county, Maine, during the past twenty years.

Ontario's "prison camp" system proved itself again during the progress of the Forcups fire. One group of prisoners engaged in the work of providing good roads through the district, being surrounded by the bush-fire, not only beat it back with the loss of only two of the smaller camp buildings, but aided materially in checking its spread in other directions.

There were two Dundonians down to spend the week-end in Arbroath, and were returning on Sunday from a morning walk along the cliffs. "Hallo, Willie, they're chimes here too," one exclaimed to his companion as "ting, tong, ting, tong," commenced on the steeply chimes.

The Beulah camp meetings will be opened next year early in July. This was decided at the closing meeting of the business sessions of the Reformed Baptist Alliance. J. F. Bullock was unanimously thanked for his donation of an antiseptic drinking fountain on the grounds. Mrs. Joseph Bullock reported on the debt fund that there was a shortage of \$100 on her offer to give dollar for dollar up to \$200. During the year nearly \$4,000 has been raised. The services during the camp have been well attended.

Dr. L. A. Currey yesterday received word that Coroner Perry of Margareville is to conduct an inquest into the death of James Bowers, a young Englishman who was drowned at Oranosta a few weeks ago. The inquest will take place tomorrow morning, and several witnesses from the steamer Victoria will be called, as well as three passengers.

Canadians all in Great West

Assimilate! If you want to know whether the foreign people (Dunkobbers alone excepted) who are coming into Canada by the thousands every year are assimilating themselves, just take a trip up west as far as Edmonton or Calgary and see. When the foreigner—the Pole, the Galician, the man from the shore of the Black Sea arrives in Winnipeg, that great gateway from the inside of which immigration is shot, fastnaps into all parts of the great west, he wears all the accoutrements that mark as distinctly the land from which he hails and his position in the social yard stick as though he had been tagged in plain figures. And his wife and his daughters—the handkerchiefs around their heads and their brilliant lined skirts and blouses place them at once in the "foreign list." You do not have to study their faces or listen to their talk to know their origin. Their dress proclaims it loudly.

A year passes and what? If they can't speak English perfectly they are at least making an awful effort to. Assimilating! Well, if getting rid of the wearing apparel of the land of their birth, and of donning all that we Canadians call up-to-date, is getting assimilated, the foreigner is certainly being assimilated, or rather is assimilating himself, for it is a voluntary process. Ivan, he with the unpromisingly sun-burnt, throws away his hirsute curly skin coat and dons the semi-ready, or if he is prospering it is more likely to be a real nice tailor-made. Oh, but it is with Alexina, the pretty daughter that the biggest change is wrought. No more handkerchiefs head gear for her, no more heavy cow-hides for her. Oh no, she has learned and learned wholeheartedly, the ways of the western jule faces. And now see her on Main street, Winnipeg, on 8th street, Calgary, or Jasper street, Edmonton. Would you know her for the same girl that landed in Winnipeg a year before, looking like something out of a fancy dress carnival? With her the richest milliner turns out, and with dress and accessories all of the most approved, she cuts no mean figure among her Canadian sisters. Many of these foreign girls are really good looking and woman-like, and they generally know it. When they are out in the afternoon all dressed up one cannot easily distinguish

TIMBER ALONG THE ROUTE OF HUDSON BAY RAILROAD

Report of Forestry Department Survey Party Given Out at Ottawa—Not Any Too Much Available

Estimation of the timber along the proposed route of the Hudson Bay Railway was the main object of a party sent out during the summer of 1910 by the forestry branch of the department of the interior. The report of the head of the party (J. R. Dickson, B.S.A., B.S.F., Asst. Inspector of Forest Reserves) has just been published. The party comprised the chief forester with three field assistants and five others, including cook, groomer, etc. They started at The Pas and explored the country around Mishiko lake, the Mishiko and Split lakes, and other lake expansions (Wekako lake and other lake expansions) Pakwa (or Pakwahigan) lake, Setting and Split lakes, and the largest of the close-grained timber, including Cross, Spiveak, Wintering and Landing lakes. On their return journey the party came by way of the Mingo (or Pine) river. The total distance covered, following the route of the proposed line, was about 283 miles.

At intervals of three to six miles along the route lines were run by compass and angles to the route of travel. Each greater worked alone and covered, on the average, four to six miles per day. Estimate of the Timber The total number of trees available in the district traversed is estimated at 300,000; these, at 2,000 to the mile, would be sufficient for about 150 miles of road. The saw-timber totals about nine and a half million feet, board measure. Dead tamarack and the largest of the close-grained timber. There is an immense supply of fuelwood and pulpwood, but a good deal of the young timber is too small, as yet, even for pulpwood.

Spruce is practically the only timber large enough for ties and saw-timber. Poplar, birch and jack pine are found in quantity, but are invariably too short, spindly, limby and crooked for any use save fuel and pulpwood. Scarcely any live tamarack is found, but a few dead trees meet with two hundred green tamarack over ten inches in diameter during the whole of the summer. The chief reason for the comparatively small supply of timber in the district is the fact that fires have so often run over it. The greatest of these occurred, respectively, eighty and forty years ago. In many places, indeed, the fires evidently leaped over lakes and swamps, which in most places puts an end to even the largest forest fire, do not quench the fires, and they live all winter in the dry moss and break out again the next spring. The attacks of insects have also caused much loss of timber in the region. Bark-beetles are the greatest offenders. They have killed nearly all the tamarack and are now at work on the larger spruce. They attack live trees, and finally, having weakened or killed, are thrown by the wind. A bad tangle of trunks, branches and other debris results, and finally, lightning flash sets fire to it, and the fire, if not checked by some fortunate circumstance, may run over miles of country.

Prevention of Fires The prevention of fire in this district is a problem of the greatest difficulty. Throughout the region there are practically no inhabitants, and the area is of such vast extent that, if a fire once starts, the chances of stopping it, even with good patrol system, are small. The Indians in this region seem much more careful with fire than the white men. Some attention was given by the foresters to the calculation of the rate of growth of the different trees. This was found to be slow, chiefly on account of the cold, wet soil which results from lack of drainage throughout the region. From Moose lake to Split lake—a distance of 200 miles—the drop is but 340 feet, an average of 20 inches to the mile. Of this 340 feet, almost one-half is included in three escarpments, which produce cataraacts on the rivers flowing into Hudson Bay. The general level character of the country results in the formation of vast swamps. In one hundred years white spruce reaches a diameter of eight to twelve inches, poplar of eight to ten inches, and black spruce of four to five inches. Jack pine will not average six inches in diameter. The author's conclusions in regard to the timber are not very optimistic. "There is probably enough timber available to build the rough construction work of the Hudson Bay Railway," is as far as he permits himself to go. The topography, soil, vegetation and climate of the country are briefly referred to also, and the uses to which the country is adapted to agriculture, minerals, fish, game and fur animals.

ORANGE AND DATE SALAD Rich, juicy navel oranges and large plump dates are very favorable when combined in a salad. Peel the oranges and quarter them. Remove as much pulp from the sections as possible and fill the pulp with the juice of one lemon. Peel the dates and remove the pits. Mix the pulp and the juice of the lemon together and add a little sugar. Sprinkle with a very few sprays of crisp water-cress.

Daily Hints For the Cook BAKED BEANS A LA MADRID. Take a can of baked beans, a part of a can of firm tomatoes. Chop the tomatoes into coarse pieces and saute or simmer them in a quarter of a cup of good olive oil in which you have cut a half of a small white onion. Put the tomato with the bubbling oil and toss several times. Add two crushed cloves of garlic till browned and then remove. Incorporate also a half a cupful of chopped green pepper. Cover the pan with the ingredients are cooking very slowly and let all simmer for half an hour. Pepper with the red variety—just a little. After 20 minutes serve as soon as the beans are heated through.

NOT AT ALL The late Rev. Dr. Gillan, of Inchman, a venerable member of the Scotch church, had a dry and ready humor. Among the many stories told of him is the following: Dr. Gillan had a numerous progeny; and on one occasion, when he had gone to a country parish to preach for a friend, conver-

sation at the tea table in the manse turned on the subject of the doctor's family. "What a singular thing, doctor," remarked the hostess, "that all your sons should come first, and the rest of the family be made up of girls." "Not at all, ma'am, not at all," rejoined the sturdy old clergyman; "my 'prentice hand I tried on man, and I made the lassies, O!"

A LATE PICTURE FROM ONTARIO FIRE SECTION

THE HURRICANE OF FIRE SWEEPING INTO THE TOWN OF PORCUPINE

A BISHOP'S WORDS ON RECIPROCITY

Speaking of the reciprocity agreement in his charge to the Synod of Kingston, Bishop Mills said: "Whether it would be in the general interests of the country is a question for debate, and about which different opinions may be held. But politicians have not devoted their attention so much to the discussion of this question as in ringing changes on the cry that if reciprocity were adopted it would be the first step towards annexation; that the United States would be buying us, and we would be selling ourselves. I think that is the greatest nonsense that ever came from the mouths of supposedly sane men; as a Canadian, I resent it. I would think little of my loyalty to the British Crown and the British Empire if it depended on tariff schedules. Those who think the national spirit of Canada is such a poor and uncertain thing that her existence as a nation would be imperilled by an increase of trade with the United States certainly do not know her. There is no part of the British Empire in which there is truer loyalty than in Canada, and she can be neither bought nor sold."

RETURNS TO WINNIPEG

Walter H. Trueman Says West Will Give Liberals Many Votes Because of Reciprocity

That the west is overwhelmingly in favor of reciprocity and that the Laurier government will benefit from this fact to the extent of nearly every seat in the three prairie provinces is the belief of Walter H. Trueman, B. C. L., a former St. John, man, who left on his return to Winnipeg last evening after a pleasant visit to friends here. Mr. Trueman is now a member of one of the leading legal firms in the metropolis of the middle west, and in his capacity as counsel for the Grain Growers Association of Manitoba, is closely in touch with the feeling of the great agricultural interests in that province and the adjoining districts. "I do not wish to put forward my personal views on the benefits which will follow reciprocity with the United States," said Mr. Trueman, when asked by a reporter last evening, "but I do not mind telling you that through my association with Mr. MacKenzie, secretary of the Grain Growers Association of Manitoba, and other heads of the agricultural organizations, I know that the feeling of the farmers and grain growers generally is heartily in favor of the agreement, and I honestly expect that a great many votes will go Liberal for the first time this year, all on account of the reciprocity proposal."

EX-GOVERNOR DOUGLAS OF MASSACHUSETTS IN CITY

Flying the Stars and Stripes and having on board ex-Governor Douglas, of Massachusetts, and party, the American steam yacht Machigonne arrived in port about 4 o'clock yesterday afternoon. In the party with Mr. Douglas were his daughter, Mrs. H. B. Russell, of Foxesett, her husband, Mr. and Mrs. C. F. Richmond, of Brockton; John Richmond, of Providence (R. I.); Mr. Moody and Miss Jennie Richmond, of Brockton; Arthur Warren, of New York city, and Miss Gertrude Melick, of St. John. After the boat had been anchored in the stream the party came ashore and spent some time in the city.

INFLUX OF BRITISH CAPITAL

(Ottawa Citizen.) The Monetary Times has an interesting article showing the tremendous increase in the investment of British capital in Canada during the past six or seven years. The table deals only with Canadian borrowings in Great Britain for industrial, light and power purposes, and does not include railway, mining and other large development works. In the three lines mentioned the amount of British capital invested in Canada increased from \$6,000,000 in 1905 to over \$15,000,000 in 1910, while for the first four months of the present year it amounted to about \$12,000,000. The exact figures are given in each case and only include amounts running into six figures. The grand total reaches the amazing sum of considerably over \$60,000,000 for the period mentioned. In addition to the above the probability of many large investments in the near future is mooted, including over \$10,000,000 to be expended in dry dock schemes on both the Atlantic and Pacific coasts. It is stated that \$1,000,000 of English capital will be invested in a white-wear company with a factory at Three Rivers, and an English and New Brunswick syndicate has been organized with a capital of \$5,000,000, to develop the mineral oil industry in that province.

I. C. R. WORK AT HALIFAX

Halifax, N. S., July 19.—The members of the government railways managing board were in Halifax today inspecting the I. C. R. terminals, and left at midnight for Moncton. In the afternoon they had a conference with the board of trade on this subject. Chairman Campbell, of the railway board, said tenders for the construction of a concrete railway pier would be called to be in by August 10th, and the work to be completed by October, 1912. Tenders are also to be asked for the construction of a big shed on No. 9 pier to be completed in October next and Mr. Campbell added: "If the contractors cannot finish it in the time specified in October we will put men on ourselves by day's work to finish it on time."

TORIES WASTE ANOTHER DAY IN PARLIAMENT. Obstruction kept up All Through The Session Under Every Possible Pretext — The Branch Lines

Ottawa, July 19.—The opposition obstructionists again continued in the commons today their policy of stubbornly refusing to allow the government to make any headway with the reciprocity proposals. The obstruction yesterday was palpably undignified. Today it was marked with a little plausibility of legitimate criticism against the taking of the census and the handling of the western strike. The whole story is told in the fact that opposition speakers have so far done all the talking with the exception of some forty minutes all told, by the government in making the objection questions and criticisms. Sir Wilfrid Laurier remained steadily in his seat, courteous and unworried, but at the same time firm in his determination to press the issue and keep the opposition steadily facing the music. The opposition, on the other hand, is having a hard time to preserve its equanimity. J. D. Taylor's peevish outbreak last night against having to proceed with the reciprocity debate was followed today by a heated exclamation by George Taylor, in discussing the coal strikes of the west, while, when that threatened to allow a coal famine to strike the district. Trying to Obstru. Today when Hon. Mr. Fielding moved for a resumption of the reciprocity discussion, immediately after the preliminaries, Mr. Goodeve rose to discuss the strike situation in the coal fields of the west, while, when that threatened to allow a coal famine to strike the district. The only speakers from the government were Hon. Messrs. Fisher and King, who dealt very briefly with the issues raised, while Mr. Tupper interjected a pertinent comment that the opposition were criticizing at random and had failed to even suggest any remedy for the things they complained of.

An important announcement was made by Mr. Fisher relative to the census. Having stated that the first compilation was now going on as rapidly as possible, he pointed out that the department did not think it would be possible to have the final figures until the month of October, though every effort was being made to secure them before that date. This, of course, if the opposition continue to pursue their obstructionist tactics may be successful in postponing the west out of the additional representation to which it is entitled.

FOOD IMPORTED FROM CANADA CHEAPER IN LONDON THAN HERE. Ottawa Paper Makes Comparison of Restaurant Bills of Fare and Wants to Know Why the Difference. (Ottawa Citizen) When the economic innocent asks why various manufactured articles are cheaper in Great Britain than in Canada, he is usually answered by the reply that labor is cheaper over there. Probably this is the reason he has not presence of mind to ask if the production of the raw material here does not make some difference. But what this great family journal wants to know, and won't be happy until it gets the information is, Why are food staples one hundred per cent cheaper in London, Eng., than they are in Ottawa, Montreal or Toronto, when a large proportion of that same food is imported to London from Canada.

As are the a carte prices as compared with a similar service in any of the Canadian cities mentioned. A dinner could be ordered in that London restaurant for five shillings that could not be duplicated in any large city in Canada for ten shillings. Even the clubs cannot commence to equal it, though their cooking and service may be equal to it, prices range from 25 to 30 per cent higher, and clubs are not in the dividend-paying class. And it may be remarked that these were the prices prevailing during the coronation.

MORNING NEWS OVER THE WIRES

Portland (Me), was selected as the place for the next annual meeting of the nation's division Sons of Temperance at a session of the convention held in South Manchester this week. The insurance losses caused by the forest fires throughout Northern Ontario during the last two weeks total nearly \$500,000. D. H. Whiston, lost in the woods at Rockingham, near Halifax, for twenty-four hours, was found on the edge of a marsh yesterday. Montreal, July 19.—The so-called storm which was of the "tempest in a teapot" variety over remarks attributed to Sal Commander Von Verboni de Spottis, the German cruiser Bremen, now in port, against the fighting process of the Canadian warship Niobe, subsided today as a result of official communications via the long-distance telephone between here and Ottawa. Washington, July 19.—The treaty between the United States and Great Britain providing for the arbitration of pecuniary claims between the two countries, in accordance with the general arbitration treaty, was ratified by the senate in executive session today. Newcastle, N. B., July 19.—The jury in the case of the Miramichi Lumber Company vs. John Sullivan gave a verdict in favor of the defendant, awarding him \$8 damages. The case was very important, touching all employers of labor. Some men are honest because it is too much trouble to be otherwise.

ACTORS HUSTLING FOR JOBS IN MOVING PICTURE MAKING YOU ALL KNOW HIM!

James R. Waters ITALIAN AND HEBREW IMPERATOR

It's better to be in moving pictures than out of a job. The boast of Broadway has become the philosophy of Longacre Square.

The rush ends before a door marked "Private" in the small office, with a single window at the further end, where a girl at a desk scribbles names on slips of paper, hopeful ones stare and despair and envy of those who may follow.

"Yes," said Miss Isabel Prentiss, leaving the outer office crowd to its seething pace for the moment, "more actors are seeking engagements with moving picture firms this summer than ever before.

"Except for 'jobbing,' as we call it—that is appearing in only one or two pictures for five dollars a day—moving picture actors are engaged for 52 weeks as a rule, with the usual two weeks' notice clause in the contract.

"There is always a demand for good, experienced actors. Their training enables them to grasp a dramatic idea quickly and express it in pantomime. The most popular type has golden hair and dark eyes—the darker the better. But no matter what her looks may be a woman

can't get a job with a moving picture company if she has not had dramatic experience. A leading man, in addition to being young, should have a frank, open expression. He must be a hero at first glance. It is not always easy, of course, to find such a man. Actors playing leading parts gain a wide experience in the different productions. Most of them in a short time become competent riders, swimmers, divers, fencers, boxers and so forth. It's not long before they're all-round athletes. Any one can see that people in moving pictures lead active lives."

I remember, I remember The farmhouse old and grey; It wasn't called a lullaby. Like most such things today, No architect had planned it. To cost a thousand more And run the extras into Some seven thousand more.

I remember, I remember The orchard on the hill; No gales chased like demons, A gale perch'd still; No photograph was sounding 'Till well in the morn— Oh, beautifully old-fashioned Was the farm where I was born. —Arthur Chapman in Denver, Pa.

TY COBB'S GREAT STEAL HOME WITH THE WINNING RUN

A Sensational Moment in Baseball—Brains, Daring and Fleetness of Foot Combine in a Triumph

In last Thursday's game of the Athletic-Detroit series, Ty Cobb, working in collusion with the Detroit Free Press, sprang home the winning run of the third game with those abused Athletics. This happening in the fifth inning with one out and making the score 8 to 7.

The Peach was on first by virtue of a single through the box and the count was two called balls and one strike on Delahanty. Cobb started with the next pitch, which the king of pinch hitters—living or dead—converted into a single to right. Lord felled the ball on the second bounce, fumbled it momentarily and then threw it directly to Harry Davis.

Cobb always goes from first to third on a single to right and that was all the Athletics expected him to do on this occasion. With only one out, it looked like bad baseball to expect further advance. Mr. Cobb, however, doesn't play baseball according to any established rules, customs, traditions or precedents. He does what a quick working and exquisitely accurate brain impels.

Harry Davis had the ball when the southern started on his final lap for home and victory and it looked like a cinch that Harry would turn Tyrus back by a block or more. The Athletics captain has been playing ball for several seasons—or centuries—and he is supposed to have outgrown those attacks of nervousness to which the younger stars sometimes are prey.

Davis, with plenty of time at his disposal, did exactly what Cobb had figured on his doing, throwing the ball bodily to Thomas. Ira had to stretch for the leather and in so doing was pulled out of the position in which he had set himself to block the flying Peach. He caught the ball—luckily—just before Ty got to him. All that the big catcher then had to do was to put it on our hero. Sounds absurdly simple. It's just like saying that all a man has to do to become a millionaire is to get a million dollars.

Ira made a stab at the place where the runner ought to have been and touched ground air. Tyrus sliding around him so closely that the ball did not come within six inches of his body. Ty failed to touch the plate when he dove in, missing it by a foot. It didn't make much difference, however, for he quickly scrambled into contact with that heaven, Thomas making no second stab at him, and the game was over. AMUSEMENTS IN ST. JOHN; WHAT THE PLAYHOUSES OFFER

NICKEL With all the good things to entertain one at the Nickel today the usual regulars may be expected to come and enjoy the fine programme and incidentally rest for an hour in this inviting cool and perfectly ventilated theatre. Patrons that have favorite songs they would like to hear should make a written request and such numbers will be used later, as are asked for by the majority.

The Dudley today will offer two favorites, On Mobile Bay, by Harry Dudley, and My Old Kentucky Home, by Miss Dudley. The orchestra in a special programme comprising Martha, overture, Lady Lema, waltz, Flamingo, intermezzo; Buffalo Bill's Farewell, march; Love Me With Those Big Blue Eyes, two-step, and Peculiar Rag. The photoplays are The Ends of the Earth, Vitaphone drama; Captain Nell, Edison capital vs. labor production; Where There's a Will There's a Way, Selig comedy, and The Nitrate of Soda Industry in Chile, a valuable educational picture.

THE LYRIO It is not necessary to dwell on any length on the merits of the new programme for himself. St. John's been who can, with a little more of a profession, his return engagement at the Lyrio theatre is laughing treat for those who attend on the night of the 20th. Mr. Waters has changed the entire programme and it is said to be funnier than ever. One of his features is a play on "Where the River Shannon Flows," and this alone is expected to prove highly entertaining. His impersonations will consist of a Hebrew, an Italian and a Frenchman. The picture programme has been specially cared for and taking everything into consideration, the entire bill is declared one of rare merit.

THE MAGDALENE True love, it gave me strength To bathe his holy feet; And when his child was born, Love worked in me complete.

Al! what a perfect thing Is love to lift us up; Sin melted at the touch, 'Tis God's communion cup. My daughter thou must love, Must love with all thy youth; Thy love will give thee strength, To walk in right and truth.

Oh! God! Oh! what a dream! White, foaming, horses, wild! They gallop! Prance! Stampede! My child! My child! My child! Dear Lord! I bathe! I bathe! Thy mercy I entreat— Oh! God! Thou savest me!— She, too, may kiss Thy feet. —EWYIN BRUCE MACKINNON.

Doesn't Eat Hay Editor Times: Sir—Referring to the letter in the Times signed "a reader," I beg to say that the gentlemen seated on the benches recuperating their shattered nerves, do not eat hay which seems to be the only product the New Brunswick farmer grows. I am among them, but not one of them. Yours faithfully, "PRACTICIAN AT THE B.A.R."

FOR HABITUAL DRUNKARDS New York Now Has an Inebriety Board in New York For Slaves of Drink

(Toronto News) An inebriety board has been constituted in New York city. It consists of two physicians, two clergymen, one Protestant, and one Roman Catholic, and a retired merchant who is interested in philanthropic and charitable work. The commissioner of charities and the commissioner of correction are ex-officio members.

The board, which was authorized by a recent legislative enactment, will acquire a site for a hospital and industrial colony for the care and treatment of habitual drunkards. Hereafter, when any man is arrested for intoxication the board will be notified immediately, and a field officer will be sent to the station to investigate the case, and to ascertain if any persons are dependent upon the prisoner for their support. If so, the prisoner, if he has a clean record, will be released, after giving the court and the board full information about himself.

But if he is arrested again within two weeks he faces a compulsory industrial farm for at least twelve months. Various ways of admission are provided. A man who is adjudged by a court of record to be an habitual drunkard will certainly go. Commitments will be made on the inebriate's own application or on the application of a relative.

A board of hospital trustees may request a commitment, or it may be made on the certificate of two medical examiners in lunacy. The act defines an inebriate in the following terms: "A person who is incapable of properly conducting himself or his affairs, or is dangerous to himself or others, by reason of habits of intemperate, frequent, or constant drunkenness, induced either by the use of alcoholic or other liquors, or of opium, morphine or other narcotic or intoxicating or stupefying substance."

The constitution of the board is practically a recognition of the undoubted fact that drunkenness is a disease demanding medical rather than corrective treatment. The nature of the methods to be adopted in the proposed hospital and the programme of activities in the farm or industrial colony are not yet defined. Only the term of detention is fixed—not less than one year and not more than three years. The board may grant a parole if the condition of the patient warrants it.

THOUGHTS OF HOME Are they lonely, do you think? Are their hearts yearning for me? As I wander by the brink Of the ever-thriving sea? Does my absence make them sigh? Does my conduct seem unkind? Does it dim the tender eye Of a little one behind?

Poor mosquitoes, pale and lean, Do you think of me at home? Watching sander through the screen Do you wonder why I roam? All my summer exile through, I could well contented be, If I knew that you were blue, —New York American.

WAYS AND MEANS "Enle Pete, why don't you get married?" "Why, you see, sah, I got an old mudder, an' I hab to do for her; yet see, sah, an' if I don't buy her shoes an' stockings she wouldn't get none. Now, if I was to get married, I would hab to buy dem tings for my wife, and dat would be taking de shoes an' stockings right out of de mudder's mouf."

HOW TO TELL FORTUNE WITH CARDS

In spite of all the mystery that is supposed to surround fortune-telling, it is an easy matter to teach to W. D. Eaton, who in Canada Monthly (formerly, Canada West) for July reveals the methods by which the fortune-telling is done.

"Anyone can tell fortunes by cards, with a little study and a dash of intuition," says Mr. Eaton. "For instance, there are three cards that keep the same meanings in nearly all systems. The ace of spades means death, the ace of hearts means love, the ace of diamonds means money. Some one of the court cards usually means the partner, but in the three-card system, the king, queen, jack, and knave, employed by the gipsies for at least 200 years, the ace is not represented by any particular card, because all the cards refer solely to him; and the ace has other meanings."

In this Gray system, the cards are asked to draw three cards blindly, with or without the sealing is over, when the wish is determined by the prevailing color—red being favorable, black unfavorable. The other forty-nine cards, after being dealt, are reduced to twenty-one by a rigid process of rejection. Twenty-one is the product of the two mystic numbers, three and seven, and therefore is the number of highest mystic power.

The twenty-one cards are arranged in seven rows of three cards each. Every card having its own meaning and each suit being influenced by all the others, and the whole fifty-two meanings being about enough to cover the entire domain of human affairs, it is easy to develop a practical system, and such a system is practically certain to touch somewhere upon the life or interests of a sitter.

"There is the reprint of an old book depicting the dukkerprer. It is called 'The Square of Seven,' and I think it may be had at any well stocked book shop, or found in reference libraries. A week's study of that book would make an adept."

UNEXPECTED A young minister, not without a touch of humor in his mental make-up, in the ties of the world, rather staggered his congregation by exclaiming—"Here am I standing preaching to you with only half a crown on my back, while you sit there covered with gewgaws and other baubles."

The next day a parcel containing several shillings was left at his house by one of his hearers, a kind-hearted old lady. Meeting her a few days after she was thanked her exceedingly, but expressed much surprise at receiving such an unexpected gift. "Oh," she said, "I had a story that you had only half a crown on your back. I was glad to see that you were not so poor as I thought you were."

Many a man works himself to death trying to make a living.

THE TURF Horse Races Here Next Month.

Horse races are to be held here under the auspices of the St. John Driving Club, Ltd., on Aug. 3, 4 and 5, at Moospath Park. It is expected that with the summer circuit on the pick of the provinces will be seen here. All entries must be sent in to either H. F. Fleming, president, or John Ross, secretary, of the St. John Driving Club, Ltd. Entries will close on July 25. The programme for the three days will be as follows:

Hoof Prints. Al Stanley, 2:11.4, recently trotted the half-mile track at Murfreesboro, Tenn., in 2:07.1.

The Eel, 2:02.14, is going good this season. Last week he set the Aylmer, Ont., record of 2:07.34. Tanner hopes to get Ceban, 1:58.34, ready for his owner, C. K. G. Billings to drive a mile to win in two weeks.

Major Brno, 2:03.14, a member of the Cox stable, in 72 races has finished back of third money only eight times. Silver Joe, the first of the get of the Eel, 2:04.14, to appear in public, now carries a record of 2:14 in a race in which he secured only third money.

Independence Boy was forced to step in 204 to beat Peter the Second, 2:10.14, in a workout at Columbus last week. Failure to sell pools drove Woonsocket out of the racing game this week. The management expected as heretofore to sell them near the track, but the sheriff stepped in.

Prediction is made that Lady Maud C. of the Savage exhibition stable, will be the first pacing mare to enter 2:00 circle.

BARBOUR-MACMICHAEL

Wedding in Centenary Church Today an Event of Much Interest

Centenary church was the scene of a social event of much interest this morning when Miss Helen Douglas Macmichael, daughter of Charles E. Macmichael, was united in marriage with Frederick Thompson Barbour son of Mr. and Mrs. George E. Barbour and a member of the G. E. Barbour Co., Ltd.

The church was prettily decorated with ferns and cut flowers the work of friends of the bride and in spite of the early hour, 9.30 o'clock, there was a large number present to witness the ceremony as both bride and groom are exceedingly popular. There were no attendants.

The bride's costume was of blue with large picture hat with black plumes, and she carried a shower bouquet of sweet peas. The ceremony was performed by Rev. Dr. Charles F. Flanders, pastor of the church. The choir sang "The Voice that Breathed Over Eden," and Miss Hes, the organist, played Mendelssohn's wedding march.

There was a large and beautiful array of wedding gifts which includes substantial checks from the brothers of the bride and groom and a gold brooch set with pearls, the gift of the groom's father and mother to the bride. The groom's present to his bride was a magnificent gold ring set with three large diamonds. Mr. and Mrs. Barbour left by steamer Victoria for a trip up the river, their wedding trip to be taken at a later date. The store of the G. E. Barbour Co. is gaily decorated with flags today in honor of the event.

ANOTHER BIG INCREASE

An increase of \$101,102 is reported for this week in the St. John bank clearing as compared with the corresponding week last year. For this week the figures were \$1,722,029 and for the same week last year \$1,620,927.

MOTORMAN PITCHED OVER DASHBOARD; CONDUCTOR INJURED

Street Car Off Track at Scene of Mill Street Work—Both Men Cut and Bruised

The derailing of a street car was accompanied by exciting circumstances this morning in Mill street when Car No. 49 under charge of Conductor Charles Watts of Main street, and Motorman Byron McLellan, of Victoria street, were from the rails and was held up for about an hour until a relief crew under the direction of Superintendent McLean removed it.

Both were painfully injured, but not seriously. Bystanders were greatly surprised that the motorman was not more badly hurt than was the case. He was severely cut about the face and neck. Conductor Watts was also cut up about the face, but his shoulder was bruised in striking forcibly against the woodwork in the rear of the car. There were few passengers aboard at the time, and none were hurt.

The cause of the accident is believed to have been the spreading of the rails, which occurred about 10.15 a. m. Several teams of the road and paving work going on in the street. A relief car was at once despatched and strenuous efforts on the part of the crew the derailed car was put once more on the track. One of the members of the car crew and the city crews working about the street and the teams endeavoring to get by, the scene was a busy one. Bystanders said it furnished an ample evidence of the necessity of widening Mill street as soon as possible.

MISSING MAN HAD \$1,300 IN POSSESSION

Schooner Captain's Son Saw A Saultier in a Coach in St. John—No Trace of Him Since

The mystery surrounding the disappearance of A. Saultier of Meteghan, N. S., deepens and thus far has baffled the efforts of three relatives of the man, who have been scouring St. John and vicinity for some days. He was seen here on Tuesday by Young Sullivan who is a neighbor of Mr. Saultier, and knows him very well, saw him in company with another man in a hack. So sure was Captain Sullivan that Saultier would come aboard that he did not turn in until late that night.

So far as can be learned the person who was with Saultier at Yarmouth and registered himself from St. John, cannot be found here and it is believed that he is a stranger and not from this city.

Mr. Saultier is the proprietor of a canning factory, and is possessed of considerable means. He also owns a large farm, including an apple orchard of 200 or more trees. He was not a man to drink, and his absence from home is therefore astounding. He had, when last seen, about \$1,300, the proceeds of a sale of canned goods in Yarmouth. He said he would return to Meteghan the next day, as he had some business to attend to, but it has been found that he and a companion passed Meteghan and proceeded to Digby, whence they evidently came to St. John. The belief is that he has been kept under the influence of liquor or a drug. One of his relatives has gone to Moncton to search for him there. Mrs. Saultier is nearly distracted with grief.

EARLY MORNING FIRE

Carleton Family Driven to Street Soon After 5 O'Clock Today

The family of W. J. Myles, occupying the house at 49 Prince street west side, with the owner of the building, Mrs. Eliza Danery, were rather rudely awakened by the crackling of flames at 5 o'clock this morning, and were forced to make a hurried exit to the street in their night clothing. A member of the Myles' household, first awakened by the noise of the fire, hurried to No. 6 Engine House and gave the alarm. The fire had broken out in the ell and the flames had made rapid headway there. It was impossible to save this portion of the house, but the good work of the firemen saved the main building, although there is damage by smoke and water.

Mrs. Danery's loss is said to be \$500, with no insurance. Mr. Myles' furniture was insured.

CITY HALL CAUCUS

Dry Dock and Shipbuilding Matters Discussed at Private Meeting

A special caucus of the common council was called this morning by His Worship Mayor Frank with nearly all the members present. The meeting was private, and it was agreed that nothing should be given out at present in regard to the matters of business transacted.

The mayor, after the meeting, said that beyond informing the public that the position which should be taken by the city in connection with dry dock and shipbuilding matters was discussed, he could say nothing at present.
