CHATHAM, THURSDAY, SEPTEMBER 5, 1878.

Flour!

The organ of Mr. Mitchell's party, which has become so suddenly and strangely wedded to the Protection of a few Quebec and Ontario industries published a labored article on "that flour tax" last week. It set out with the preposterous statement that "even though a tax were imposed it could not influence the price," basing it on the fallacious presumption that competition would keep down the price.

Unfortunally, for consumers of flour, Newcastle, or Chatham—may, even New Brunswick—could have little influence on regulating the price of flour under a protective tariff. The Advocate should learn to look nearer the source of our flour supply than the stores in its vicinity for material on which to base its judgment in the matter. Those who have had practical experience with our tariff policy know by experience that as soon as an article is subjected to a heavy import duty, those who produce it will pay more for the benefit of the large milling concerns—the manufacturers. It is competition between the manufacturers that gives the consumers the benefit of fair prices. Protection means dear flour, dear clothing, dear seals, dear iron, dear furniture, dear boots and shoes, dear everything, combined with low wages, domestic discontent and political corruption. Mr. Mitchell is the champion of the Protection Party in this County.

The Election Law.

For information relating to the Election Law, see the fourth page.

Unwise.

For the first time in the history of the Province a member of its Executive, holding a portfolio, has engaged actively in the canvass against the Dominion Government, Hon. Mr. Adams, Surveyor-General, being fairly on the stump beside Mr. Mitchell in this County. At the meeting of Mr. Mitchell's friends, on Wednesday evening last, at Newcastle, on Wednesday evening last, the Surveyor-General declared "if he had to let the Surveyor-General ship go by the board, he would ask the people to stand by the man (Mr. Mitchell) who had labored for them for twenty-six years." The Surveyor-General also condemned the Dominion Government, and particularly Messrs. Mackenzie and Cartwright.

There are hundreds of electors in Northumberland who voted for Mr. Adams in the late local election on the understanding that he would not take any active part on either side in the Dominion election. His course, therefore, will forfeit the confidence of the men to whom he gave the pledges referred to and mar the political future of one who has heretofore been looked upon as a rising politician and straightforward, honorable man. The Surveyor-General must not fall into the error of attributing to the electors a desire to unduly interfere with or fetter him in his action in the Dominion contest, but when he voluntarily made pledges which curtailed the exercise of his privileges in that respect, he was bound, in honor, to redeem them.

There are also grave public reasons why the Local Government of New Brunswick should endeavor to keep itself free from active hostility to the Dominion Government. Our former Local Governments have preserved their neutrality in this respect, and we cannot escape the conviction that the new departure is a serious mistake. Our meaning will be easily understood when we refer to the fact that certain negotiations for the settlement of claims of this Province upon the Dominion are pending. One of these—that known as the Eastern Extension Claim—was rejected by the Macdonald Government, but has been more reasonably dealt with by the present Administration. It is a just claim, but the bar placed upon it by the late Government was a great drawback in reaching the favorable stage which it had advanced when last year and the effect of it being taken up and pressed by a hostile body of men, such as our Surveyor-General, whose attitude as that of the Government he represents, cannot be favorable. Then, there are the Western Extension, St. Andrews Railway and other claims, any of which

ought to make our Local Government careful not to place themselves in unnecessary antagonism to either Dominion party. The Surveyor-General will live to learn that he cannot safely undertake to control both the local Dominion party politicians in this County.

An Outside Opinion.

The St. John Globe gives the following sensible view of the duty of Northumberland at the present time. Its sentiments are but the echo of those entertained by four fifths of the men and women of this constituency.— "It is to be hoped that the people of the County of Northumberland will thoroughly weigh the issues before them at the coming election. No one can desire to bring up special objections to Mr. Mitchell. No one can deny that at one time and when in the Senate he did good service to his County. On the other hand he abused his position in his own interest and that of his personal friends. His course in the last five years, since he proclaimed himself a member of the 'Left Centre,' or of an independent party, has not been satisfactory. He has been laughed at by the Government party, he has annoyed his own particular friends, what he has failed to attach to the standard of a third party a single supporter. For the last five years he has been utterly repulsive to his County. We say it with regret. Under no circumstances that are now likely to arise can he again be a member of an administration, for even if Sir J. H. should again come into power, it is not on the cards to give Mr. Mitchell a seat in the Cabinet. But this fact should not influence the electors so much as this other one, that he should give his support to honest government and to those principles which so well distinguish the Liberal party of Northumberland in our Provincial affairs as an essentially Liberal County."

Crown Lands Sales.

Thursday, 19th inst., is the day fixed for some very heavy Crown Lands sales at Fredericton. It would have been more convenient had the date been fixed a little later as the Dominion Elections take place on the 17th inst.

Extravagance.

Before any public man undertakes the work of showing up extravagance on the part of others in public life he should be tolerably sure of two things, 1st, that there is extravagance to be shown up, and, 2nd, that his own record is clear in that particular. A good many persons who knew the political career of Mr. Mitchell were somewhat surprised last winter when he took action, under his privilege as a member of Parliament, to make certain enquiries in reference to the travelling expenses of the Governor-General. Nobly was he surprised, however, when he succeeded in doing nothing in the matter save to render himself a little conspicuous for a time, the information he sought being already before Parliament. Later on towards the pending election Mr. Mitchell's organ harped upon the supposed extravagance of the Mackenzie administration and when Mr. Mitchell, himself, has spoken in the past of his own extravagance, of late, failed to dwell on his pet theme and ask them to return him in order that he might check the improper expenditures of the Grigs. Mr. Mitchell well knows that the administration of the Mackenzie Government has been singularly free from extravagance and, particularly, from that kind of extravagance which marked the career of the Macdonald Government.

Miramichi and the North Shore.

Go To the Redbank Dutchers' Picnic and Excursion to-day.

The Source - A tree is to be held by the D. T. R. of Douglas at the School House this evening.

The Derby Ball, held last week at the Ladies of the Church of England, at that place, realized the handsome sum of \$300.

The "Commemorative" in yesterday's Advance is said to have all been written by the Newcastle Professional Correspondence Committee.

VALUABLE CARGO - The brig, Maid of Lianopolis, Phillip master, sailed from Richibucto, August 21st, for London, with a cargo consisting of deals, railway sleepers and lobsters valued at \$18,372.

INVENTIONS - Some very silly tales, intended to excite indignation, are published in the Newcastle paper, which are being set about in the County. Let all decent people be warned against those who make use of them, and treat them as their worst enemies.

THE NORMANS have reopened their Studio at St. John, N. B., and are now prepared to undertake all the artistic description of Photographic Portraits. Appointments for sittings can be arranged by mail. Their new establishment is fitted up with every convenience and visitors will receive careful attention.

BREXID SOCIETY MEETING - The Annual Meeting of the Brexid Society will be held at the Mechanics' Institute, Newcastle, on Thursday, Sept. 13th, at 2 p. m. Collectors will please complete their canvases before that time.

M. M. McLean, Secy.

THE - A horse owned and occupied by Mr. Dunbar, situated on the highway between Kingston and Buctouche, was destroyed by fire on the night of Friday, August 30th. The property was insured for \$1,200, viz: \$1,100 on the building and \$100 on the furniture. A portion of the furniture was saved.

CAPTAIN TARRANTS - Saturday evening last, about 9.30, Capt. Greenleaf and first officer of the ship Forest Queen, lying at the mill wharf of Hon. Mr. Muirhead, while on their way to their vessel, were drawn into a quarrel with a couple of towns boys and some sailors were exchanged but a drawn battle was the result, without serious damage on either side.

REMOVED - Mr. Samuel Wilcox, who has been doing duty as sole policeman of Chatham for some time, has tendered his resignation. The reason is that neither for any other man can perform police duty in the town alone. Mr. Wilcox has been a most efficient and faithful officer. Some steps should be taken for provision for our police necessities by the retention of Mr. Wilcox and the engagement of an additional officer.

DEBENTURE - Dr. M. C. Clark, of Chatham, N. B., has made arrangements to visit Kingston and Richibucto, and can be found at the residence of James Porteous, Esq., Kingston, from the 1st of October until the 1st of November, and at Whiston's Hotel, Richibucto, from the 1st of November until November 20th, where he will be prepared to perform all operations pertaining to his profession in a neat and satisfactory manner, at moderate charges.

CONCERT OF THE D. T. R. - A Concert, by the choir of the Chatham Dutch Reformers, will be given in the Methodist Hall this (Thursday) evening. Preparations have been under way for this event for some time, and no pains will be spared by those in charge to bring it to a successful issue. The fact that the weekly entertainments have been so satisfactory and have drawn full houses would seem to indicate generous patronage, and this special entertainment. For particulars see advertisement in another column.

SPECTACULAR EXCISE - At the Derby meeting on Tuesday night Mr. Mitchell was obliged, after denying that he ever voted for a tax on beer, to admit that he did so in 1867, but he denied that he voted for the tax at that time because the bill was defeated the whole tariff would be upset. In the same way, should Mr. Mitchell be elected and should Sir John get a chance to "re-adopt" the tariff - two very unlikeliest contingencies - Mr. Mitchell will appear as before, to vote for the four tax to prevent "the whole tariff from being upset."

BELL FOR ST. MICHAEL'S CATHEDRAL - The bell for St. Michael's Cathedral has arrived at St. John, from England. It weighs 2,000 lbs., and was cast by the well-known bell founder, Mr. St. John. It bears the following inscription:

Saint Michael, Chatham, N. B. To replace the bell consumed in the Cathedral, burned February 18th, 1878.

At Cowans Bay, on Friday evening last, about 9 o'clock, Policeman Wilcox, while trying to make an arrest on Water St., in front of Bowers' Hotel, was struck on the head by a missile thrown by some cowardly band, and received so severe a blow as to render him insensible for a few minutes. Although there were a number of bystanders at the time not one went to the policeman's assistance when he was struck down, but he was allowed to lie where he fell until he regained consciousness and was able to help himself. When he rose he still had the effects of the blow, which had not entirely disappeared the next day.

Keep Cool. The "Tooley Street" meeting and its endeavors to have Mr. Snowball comply with its behests, are the subject of a very angry editorial in the Advocate of yesterday. Well, the little scheme did not work, but as Mr. Mitchell and the Surveyor-General had the "Grand Public Meeting" all to themselves, their friends ought to be in better temper. If they will keep cool until Tuesday next they may rest assured that Mr. Snowball will discuss political matters with Mr. Mitchell, as he did only a few weeks ago in Newcastle Court House and as has done at several places since. "A committee of Mr. Mitchell's friends" need not expect to have things all their own way, and if they are the fine gentlemen the Advocate proclaims, then they ought not to permit their organ to call the Advocate and its Editor hard names, and accuse both of lying, when they all know the Advocate tells the truth, omitting only those parts of it which are of the unpleasant kind to Mr. Mitchell, that he ought not to be told at all. Respecting the Advocate's intimation that Mr. Snowball might have been afraid of not getting a fair hearing in Newcastle, we may remark that both Mr. Snowball and his friends have every confidence in the fair spirit which pervades the Newcastle people. The

great mistake the Advocate and Mr. Mitchell's Committee make is that of assuming to speak for "the people of Newcastle" as a body. They they cannot fairly do so, for very many Newcastle people repudiate their and their little schemes and are desirous of giving them assurance of the fact on 17th inst.

Entertainment of the Dutch Reformers. On Tuesday evening the weekly entertainment of the Dutch Reformers was held in the Masonic Hall. The chair was occupied by the president A. D. Shirreff Esq., who called upon the Rev. T. L. Smith to open the meeting with prayer. Miss C. Johnston presided at the organ.

Programme. Chorus - "In the Palace of the King" by the Choir. Address - By Rev. Mr. Brown of Moncton. Duet - "I am Waiting," by Miss Annie Shirreff and Miss Jessie Johnston.

There was a fair attendance, and at the close of the entertainment, Mr. H. Patterson stated that Thursday evening's concert under the auspices of the Dutch Reformers would take place as announced, but as there had been objections made to the dancing and jigs, they would be dropped from the programme, but a good concert would be guaranteed.

Another "Cravings." The St. John Star, referring to the fact that the International Railway authorities had obtained a license for Mr. Snowball of Chatham, says: "This license is purchased from Mr. Snowball, who receives a 'paying' figure for each carload of lumber, say about \$2.50 per carload for hauling the lumber from the mill to the Chatham Branch Railway Depot, (and it is fair to assume that Mr. Snowball makes a profit on that.) It next pays about \$4.50 per carload for freight over the Chatham Branch, of which Mr. Snowball claims to be the proprietor. We presume Mr. Snowball receives a profit on the above as well as on the fact that the gross earnings of the Chatham Railway were handed over to the International there was a large balance still due and Mr. Brydges took, as part payment, dry deal lumber, known as mill wood, at \$2 a cord delivered at Chatham Junction. The International pays nothing for the hauling to the station or transportation over the Chatham Railway to the Junction. The Railway man who furnished that item to the Star was therefore simply indulging in falsehood.

Who Manufactures the Stories. There is a story going in Hardwick to the effect that Mr. Snowball told Mr. Joseph B. Williston that if he would vote for him, he (Mr. Snowball) would secure for him an office worth \$10,000 a year. He has also been said to be at a meeting held in Hardwick by Mr. Mitchell and presided over by Mr. Joseph B. Williston. Mr. Mitchell said Mr. Snowball had been promising offices in order to secure votes, and that Mr. Williston publicly endorsed the assertion. On Saturday last Mr. Joseph B. Williston was in Chatham and was highly questioned on the subject in presence of three gentlemen. He said, that as Mr. Snowball never offered him an office or anything else for his vote, he could not have set the report first mentioned afloat; 2nd, that he heard of no such statements from Mr. Mitchell at any time or place; 3rd, that Mr. Mitchell did not say what was reported of him at the meeting referred to, but did say "doubtless the 'opposite party will promise offices or 'anything else to get votes,' and that Mr. Williston signified neither approval nor disapproval of what Mr. Mitchell's generous donation of \$5 to our cause had intended to vote for Mr. Mitchell he had promised Mr. Snowball that he would not canvass either for or against either candidate and he had kept his word. The three gentlemen who received these assurances from Mr. Williston made up their minds that there had been misrepresentation somewhere in Hardwick and we hope that the above will assist in the detection of those who are engaged in the unfair work.

Question for Mr. Mitchell. To the Hon. Peter Mitchell - Sir: - Being one of your supporters in the past I intended to vote for you in this present contest until I came across the address of the Hon. Mr. Mitchell in your Newcastle paper, or any other, that Mr. Jones is not correct but that Sir John A. Macdonald and yourself can make our lumber and fish command a price in foreign markets equal to any extra duty over what we would pay under our revenue tariff. If for one will be satisfied and will still support you and vote for you. But should you not do so, I will vote the Mackenzie ticket and do all I can to return a Free-trader who will sell justice deaf to all interests in this great Dominion. Hoping to hear in your organ or otherwise, immediately, your views - I am yours, NETHER NEWCASTLE. (From Hon. Mr. Jones' speech.)

Important Interests which cannot be neglected as PROTECTOR. Then Sir, there is another point upon which these gentlemen are acting in hostility to the interests of the country. It is that they propose, if they have the opportunity, to increase the prices of articles consumed by a large class of people, the produce of whose labor can do no way affected. You will increase the cost of the articles consumed by them without being able to add in an equal degree to the profits of their industry.

THE LUMBER TRADE. Let us take for example the lumber trade, one of the largest and one of the most important of our country. Last year the value of lumber exported from the Dominion was \$23,965,588. Now, what is it this year? It is the value of the lumber in the United States in the West Indies and the English Channel. No gentleman who is engaged in this policy or system is pursued in this country, no matter whether we have free trade or protection, and no matter who is in power - no gentleman would risk the opinion that the article of lumber could be affected in value in the markets in which it is consumed, by any price we might pursue in this country. The price of lumber is regulated entirely by the supply and demand in the markets in which it is consumed. How unjust, then, it would be to a people engaged in such large industry if you were to impose taxation, while you have no means by

which you can increase the value of the articles they produce.

THE FISHING INTEREST. Then take another article. The value of the fish exported last year was \$5,800,000. No one will contend that the value of fish exported can be affected by a tax of fish exported from the Dominion to the United States and the West Indies, and bring just such figures in the market as the market will afford, and are not affected in their value, in any way, by any regulations that may be imposed, here or elsewhere. But still, what would be the result to those fishermen, pursuing, as they do, one of the most laborious and dangerous modes of life, if by increasing the tariff, you take such a large amount out of the product of their industry, because they cannot in any way increase the selling price of the articles they produce, you will make them pay so much more for those they consume.

Letter from "The Uninfluential Petitioner." NEWCASTLE, Sept. 4th, 1878. To the Editor of the Miramichi Advance. DEAR SIR - In the garbled report of the proceedings of the "Tooley street" meeting held in the Masonic Hall last Wednesday evening, as published in the Newcastle paper, in which it is stated that a "Supporter of Mr. Snowball, an influential petitioner, interrupted Mr. Mitchell, but after a long castigation took a back seat, and failed to say any more questions, although invited to do so at the close of the address." The justice foreman in the Mitchell printing office gives an account of the facts of the matter referred to: "Mr. Mitchell was out of his depth and floundering round amongst the mounted Police and condemning the Mackenzie Government for instituting that organization, when he was asked by 'The Uninfluential Petitioner,' if it was not Mr. Tilley who first created this department of the Public Service, and received in return an emphatic 'No' and no 'interruptions will be permitted'."

As to being called upon after the close of the meeting to ask questions, such a thing never occurred. The meeting was composed of boys, with here and there an elector to keep them quiet. As soon as Mr. Mitchell took his seat the electors (to the number of about twenty) made a move and the boys kicked up a shindy, which Mr. Mitchell was obliged to put down by a few extracts from the "New Dominion" and other campaign sheets. After he had finished the few electors could no longer restrain the boys and the row that was made would have prevented anyone from speaking, Mr. Mitchell's friends, however, did not dissent the question from the opposite standpoint. The cause as I intimated before must be at its last gasp when the Echo, for a mere piece of petty spite, leaves the main question to fairly and malign a private individual. By publishing the above you will give your readers a false impression.

Our Market Report. ST. JOHN, N. B., Sept. 4, 1878. Our market has ruled very quiet and dull during the past few days. Merchants complain of general slackness in both wholesale and retail departments. Money is getting scarce, and banks are not discounting very freely. Sterling exchange holds at 92 for 60 days, 107 for sight. Bank of England rate of discount holds at 5%.

Beans - Market fairly supplied, prices steady. Flour - Market is active for all good grades of old wheat. Bakers' floors are in quick demand and full prices are paid for all strong Minnesotaes.

From present outlook we should say that all old flour will keep firm for prices, but in October we look for lower prices. Corn Meal - Stock large with demand fairly active at quotations. Oatmeal easy. Fish - Cod is very scarce and prices have advanced 10c to 15c during the week. Pollock easy. Hay - Herring are dull. Shell is getting scarce, and prices are low. Smoked Herring are quite scarce.

Fruits - Apples are dull. Late season sales have depressed market so that prices are down to \$1.50 and \$2.00 for really good fruit. Pines are coming in freely, prices ranging from \$10 to \$100 per pack. Apples - Market dull of late. Freight - Increased by the strong upward tendency of Grain freight, deals have got a shade firmer. This week we have to report several charters at 60, all to Liverpool.
