BALFOUR WILL RESIGN BEFORE THE HOUSE MEETS.

English Liberals Will Be in Power Before the Election in January--Chamberlain's Open Opposition Weakens Balfour--Clever Strategy.

LONDON, Nov. 23.—The recent rumors of an early dissolution of parliament and an appeal to the country are gradually crystallizing into more definite form and while no official intimation has yet been forthcoming, the idea is prevalent in well informed political circles that Premier Balfour will take an early opportunity to place his resignation in the hands of King Edward. Should the materialize the Liberals will be invited to form a government, parliament will meet for a few days' session and a general election will occur early in the new year.

The political situation was so radically altered during the past week that when the government supporters no longer argue that Mr. Balfour has a sufficiently united party at his back to most parliament in office a few weeks longer and himself dissolve parliament and appeal to the country. The Liberals see no reason why the present opposition should put themselves to the inconvenience of forming a government in the dark, without knowing who will command in the new parliament and they object to what they designate as Mr. Balfour's "trial manoeuvre" by which the Liberal party would be turned into a defence before the election and Mr. Balfour would be given a free hand to arrange with Mr. Chamberlain for concerted action against the Liberal party.

INCREASING THE AMERICAN NAVY.

Three New First Class Battleships, Three Scout Cruisers and Several Torpedo Boats are Recommended.

MURDERER ENDS HIS OWN LIFE.

Shot Two Brothers Who Kept Him From Seeing Their Sister Whom He Loved, Then Suicided.

WASHINGTON, Nov. 23.—Three first class battleships of at least 18,000 tons displacement and 15 knots speed, three scout cruisers of 5,000 tons displacement, one gunboat of the Helena class, one torpedo boat, one submarine, one light draught, two for use in the Philippines and two for service on the rivers of the United States, are included in the program of the navy in its program of new construction to be authorized by the next congress, which is now under consideration by the board of construction. At its meeting tomorrow the latter board, of which the chiefs of the bureau of ordnance, steam engineer, equipment and construction and repair are the members, will complete its report upon the practicability for proposed type of ships contained in the general board's programme and the two reports will be forwarded to the secretary for guidance in the preparation of that portion of his annual report dealing with new construction.

MRS. TODD'S DAUGHTER WILL CLEAR UP MYSTERY.

NEW YORK, Nov. 23.—Mrs. Rosalie Todd, the aged woman found dead on the railroad tracks in Philadelphia, talked with her lawyers, Mr. Davis and George Gordon Hastings, last night, and after hearing the result of their recent investigations in Philadelphia, announced that she had no doubt but that her mother had been murdered. "Mr. Davis has just come back from Philadelphia, where he went into the case thoroughly," said she. "From what he tells me, I am convinced that my mother was the victim of murderers, and I will spend every cent of my fortune to clear up the mystery surrounding her death."

137 INDICTMENTS FOR DISTINGUISHED EMBEZZLER.

PEORIA, Ill., Nov. 23.—Ten additional indictments charging embezzlement were returned by the grand jury yesterday against Newton C. Dougherty, former school superintendent and bank president. Judge Worthington fixed the bail for the new bills at \$5,000, which makes a total bail for Dougherty of \$10,000, which the prisoner has not been able to furnish. One hundred and fifty true bills against Dougherty have been returned, 137 of which still stand.

Mr. Tarte declared himself in favor of the increased parliamentary stipend in order to enable representatives of the people to do honor to their position and remove from them temptation to corrupt practices.

N. Y. ELECTION FIGHT ENDS IN MURDER.

Fifty Revolver Shots Were Fired.

NEW YORK, Nov. 23.—Election frauds are believed by the police to have caused the murder last night of W. F. Harrington in "Little Naples" dance hall and also the probably fatal injuries of another man who was found with a fractured skull some distance away from that resort.

The injured man was identified as Abraham Juckerman, of this city. The dance hall is on Jones street and is conducted by Paul Kelley leader of the gang. From papers found on the dead man and from information from nine prisoners, three women, arrested after the murder the police learned that the quarrel started over election matters. One of the prisoners still had a marked ballot of the election in his pocket when arrested. In the bar-room of the resort Harrington was killed with a revolver bullet which left the floors spotted with blood and riddled the pictures on the wall.

ARRIVAL OF MORE STRIKE BREAKERS.

Twenty Frenchmen Came But Eight Joined Strikers.

Donaldson Line Make Strong Effort to Get Men to Unload Steamer Alcides But With No Result--Longshoremen Are Satisfied.

The officers of the union looked on with satisfaction. About half past twelve o'clock today twenty men were landed in a special car at Sand Point to work for the Alton Line. The men came from Montreal and in striking contrast with the bunch that arrived yesterday are a rather good looking lot. They are nearly all French Canadians but like yesterday's contingent claim to have been brought here under false pretenses. Upon arrival here four of the men declined to go to work and came to the city where they were given a hearty reception at the Longshoremen's headquarters, where they had been conducted by a representative of that organization. They were given a good dinner and will be given supper and sent back to Montreal tonight. The Longshoremen claim that four others of the gang that arrived today have decided to go back tonight.

BRITISH SHIP SHELLS BRITISH FORT.

LONDON, Nov. 23.—The old 74-gun fort, built in 1814, was sunk in the Mersey River this afternoon by shelling fired by the British warship Bustard. Fire broke out this morning on the Fort, which had been used as a coal depot, and two thousand tons of coal were soon ablaze. The fire boats were unable, owing to the heat, to get close to the flames, and the shelling was resorted to in order to prevent the threatened spreading of the fire to neighboring shipping.

\$50 FINE FOR ROLLING CIGARETTE.

LINCOLN, Neb., Nov. 23.—Patrick Raymond, aged 18, was arrested yesterday while lighting a cigarette which he had just rolled for his own use in the presence of a city detective. He was fined \$50 and costs. This is the lightest penalty prescribed by the law for "manufacturing" cigarettes.

THE ST. JOHN STAR

Is used by the majority of advertisers who invest in but one evening paper in St. John.

The Star has nearly three times as many exclusive announcements of local advertisers as any other St. John evening paper.

St. John's favorite newspaper being read by nearly all the people, it naturally follows that it is the most popular advertising medium with St. John merchants.

They make their announcements through the Star because experience has demonstrated that it brings them most substantial results.

Advertising in Star pays, and pays handsomely.

The paper that merchants advertise in, is the paper that the people read.

NOT SMALLPOX.

FREDERICTON, N. B., Nov. 22.—There is no smallpox in the parish of Gloucester. All the cases of eruptive disease with one exception, at Tracy, Fredericton Junction, as well as one in Blissetville, were under the care of Dr. Murray, and were never matters of anxiety or doubtful diagnosis. They were all, without exception, chicken-pox. At no time were the doctors puzzled as alleged.

WHAT'S IN MCLURE'S.

One function of the up-to-date magazine is to reflect the moving spirit of the time, and this is the striking thing about the December McClure's. As befits a holiday number, it is filled with good, strong fiction, there is a Jack London story, one of his best, and six other short stories, but first in importance are the contributions of William Allen White, Ray Stannard Baker and the Rev. Charles D. Williams. William Allen White who, as a judge of public men, has become almost the national oracle, cool, incisive, unerring, flows the place of folk in national affairs. He tells of his great accomplishments in Missouri, measures the man, and finally shows that he is not big enough yet for Presidential timber.

RAILROAD REBATES.

"Railroad Rebates" is Ray Stannard Baker's second paper on the Railroad Question. He explains what rebates are, how they are paid, who pays them and how they affect industry; illustrating the whole process by specific instances, little human stories picked up from railroad men and shippers the gainers and sufferers by the system. Jack London's "Love of Life" is a harrowing tale of human endurance, pitting against nature and against each other a starving man and a starving wolf. Blumenschein has illustrated it wonderfully in color. In contrast to this tale of primitive strength is a delicate, fanciful Irish folk tale full of the nimble wit of the race in which Hermine Templeton introduces again Darby O'Gill, and the King of the Fairies. Then there is the "Courtship of the Boss," the heart-history of a ringster, an amusing and true story; "The Deep-water Debate," a wholesome little tale of the excitement and the love-making of an old home town and stories by Jean Webster and Adeline Knapp.

Editorially appears a character sketch of Charles Evans Hughes who has been lifting the lid from insurance in New York, and a critical estimate of Christianity in practice, "The Final Test of Christianity," by the Rev. Charles D. Williams.

PRESIDENT McCURDY'S OFFER ACCEPTED.

NEW YORK, Nov. 22.—At the regular meeting of the trustees of the Mutual Life Insurance Co. today, the offer of President Richard A. McCurdy to have his salary reduced from \$150,000 to \$75,000, was accepted, and further reductions were made amounting altogether to \$150,000. The names of the officials affected were not made public.

It was also stated that it was decided to place all general agents on a salary instead of commission basis.

KIDNEY DISEASE AND ITS DANGERS CAN BE QUICKLY CURED BY DOAN'S KIDNEY PILLS

Kidney disease comes on quietly, it may have been in the system for a long time before you suspected the real cause of your trouble. There may have been backaches, swelling of the feet and ankles, disturbance of the urinary organs, such as, brick dust deposit in urine, highly colored, scanty or slowly urine, bladder pain, frequent urination, stone in bladder, etc.

Perhaps you did not know that these were symptoms of kidney disease, so the trouble kept growing worse, until Neuritis, Sciatica, Rheumatism, Diabetes, Dropsy, and worst of all, Bright's Disease had taken hold of your system.

Doan's Kidney Pills should be taken at the first sign of anything wrong. There is no other safe way, (patents and imitations are useless), as the trouble must be eradicated from the system.

Doan's Kidney Pills go to the seat of the trouble, strengthen the kidneys, and help them to filter the blood properly and flush off all the impurities which cause kidney trouble. Mr. Thomas Mayhew, Smith's Falls, Ont., writes: "For over four months I was troubled with my kidneys, and my back got so lame I felt miserable all over. After taking five boxes of Doan's Kidney Pills I was as well as ever."

Price 50 cents per box or three boxes for \$1.25, all dealers or The Doan Kidney Pill Co., Toronto, Ont.

CONSERVATIVES CAPTURE WENTWORTH FROM GOVT.

And Greatly Reduce Majority in Other Three By-Elections—The Fight in Antigonish.

TORONTO, Ont., Nov. 22.—The three by-elections in this province today resulted in the capture of one seat by the conservatives and a sweeping repulse to the majority in the other two. Mr. Aylesworth, the new postmaster general, comes out of the fight with the North York majority reduced by 450, though the minister has spent his whole time in the riding, never venturing to the help of either of his supporters. In spite of the fact that the constituency was a liberal hive before 1902 and was strengthened in the year by the addition of 500 or 600 liberal majority taken from other ridings, notwithstanding Mr. Aylesworth's position in the cabinet, and the vast resources employed in his behalf, he came out with a majority of only 500 over a plain country farmer who has been making his first campaign.

In Lambton, where the contest was carried on with great energy on both sides, there is considerable conservative gain.

But the capture of Wentworth by Mr. E. D. Smith is more welcome to the conservatives than any gain in the count of votes, because his presence in the house will be a source of vitality to the party and of great value to the country.

CHISHOLM RETURNED.
HALIFAX, N. S., Nov. 22.—The by-election in Antigonish today resulted in the return of Wm. Chisholm, liberal, over E. Gerrard, conservative, by a majority of about 250. At the last general election Colm McIsaac, the liberal candidate, had a majority of 510, the conservative candidate saving his deposit by only one vote. Chisholm was the last partner of Colm McIsaac and was considered the strongest liberal available. The government party had a heavy contingent of campaigners in the county and a handsome fund, where the conservatives, regarding the fight as almost a foregone conclusion, left Gerrard to fight his own fight, which he did in an admirable style. The principal issue of the campaign was the "salary grab," which was roundly condemned by Gerrard and his friends. Gerrard made heavy gains in both the French and Scottish districts.

RESULT IN P. E. I.
HALIFAX, N. S., Nov. 22.—In the local by-election in Prince Edward Island today, caused by the unseating of Hon. J. H. Cummins, commissioner of public works, for bribery, Hon. Mr. Cummins was again returned over Peter Murray by a majority of 78. The vote polled was small and little interest was taken in the contest.

OTTAWA, Nov. 22.—In government circles the schedule of the winter service from St. John and Halifax is regarded as most disappointing. The two turbines, Victorian and Virginian, is slated, have to go off the route in order to be overhauled; the Victorian is practically a wreck in the lower St. Lawrence, while the Tunisian makes her last trip on Thursday of this week from Liverpool, and then she goes out of commission for the winter months. The winter service will be then maintained by the Cornelian, Parisian, Sicilian, Pretorian and Numidian, whose names are as familiar as household words. It cannot be said that the high standard promoted by the Allies, and doubted the government will make representations to the mail contractors with a view to the betterment of the service at the earliest possible moment.

HOULTON, Me., Nov. 22.—Some of the Maine deputy sheriffs regard certain brands of patent medicines as their legitimate prey, in making liquor raids, and seize the concoctions as though they were true contraband liquors under another name.

They go on the theory that such of these medicines as are known to contain alcohol, exposed for sale in establishments where none of the other articles (brandy, wine, beer, etc.) are in stock, cannot be intended for medicinal purposes, but as beverages, and, after conviction of the owners, turned over to the proper authorities for destruction.

The patent medicines are principally taken from small grocery stores, where it is alleged that there would be no call for them for their legitimate purpose, and that they are kept on hand for the purpose of gratifying the depraved prohibition taste which exists in some quarters, and which is closely allied to the craving of those who are regarded as "Jamaica" cigarette smokers, "people who use what was never intended for anything but a medicine to satisfy a peculiar passing for intoxicants."

A deputy sheriff told a Herald representative that he knew a man who preferred a certain brand of patent medicine to whiskey, rum or gin, and had been in the habit of taking one of the regular 1 1/2 size bottles every day for a month. "It puts me to sleep in great style," he remarked to the county officer.

PEOPLE'S BANK

OPPOSED A SYSTEM OF BANK TAXATION.

FREDERICTON, N. B., Nov. 22.—Senator Thompson, A. H. F. Handolph, W. G. Clarke, representing the People's Bank, appeared before T. C. Allen, A. Sterling and John Palmer, the tax commission, this evening, and argued in favor of changes in the present system of bank taxation. They supported the proposition presented to the commission last week, to the effect that the People's Bank pay a license fee of \$50, and that assessment be on one-twelfth of one per cent of the volume of business done. As it is now, the local bank is called upon to pay annual license fees of \$500, or as much as all the branch banks combined. This the People's Bank considers unfair. The commission listened attentively to the addresses and seemed to be most favorable to the proposed scheme.

AT THE OPERA HOUSE.

A large audience last evening listened to the thrilling play, "Darkest Russia," at the Opera House. The acting throughout was most creditable. In the afternoon the company played "Because She Loved Him So," which also drew a good house.

This evening and tomorrow evening, Mrs. Temple's Telegram is to be given for the first time in this city. Of this play the Acadian Recorder speaks as follows:

"Real good farce comedy has been always popular with Halifax audiences, and last night the fashionable gathering at the Academy witnessed one of the best of funny plays, 'Mrs. Temple's Telegram,' and they were kept in almost continuous laughter. The story is full of surprises and complications such as to create the greatest mirth among the audience, and with the ludicrous situations it was a night of genuine fun.

The piece, which was produced under the direction of Harry Stubbs, was excellently presented by the Harkins company. Miss Sus Van Duser always gives such a splendid performance that it is almost needless to say anything in her praise.

FAIRVILLE CROSSING CASE.

OTTAWA, Ont., Nov. 22.—The railway commissioners heard the application of St. John Co. for an order directing the Canadian Pacific railway to construct gates at the Main street crossing in Fairville and the highway in Milford. The county was represented by Messrs. Geo. R. Vincent and W. D. Hogg, the C. P. R. by Messrs. H. H. McLean and Wm. McMullin. Mr. McLean urged that the county should be ordered to bear part of the expenses if gates were ordered to be maintained. Mr. Vincent opposed this, as the road was one of the principal outlets to St. John when the railroad was built. The case was reserved for judgment.

AND THEY CUT. She (reading)—The fellow who wrote this poem says: "She slew me with her eyes." He—She must have been "looking daggers at him." The Shah of Persia has just sent to an American lady residing in London a decoration which is the oldest in the world—that of the Grand Order of the Lion and the Sun. The recipient is the Comtesse Anna de Bremond, who was introduced to the Shah during his visit to Omdur last summer. His majesty was so charmed with her singing and her recitation of some of Omar Khayyam's poetry in Persian that he forwarded the decoration immediately on his return to Teheran.

AN EXECUTION BY GUILLOTINE. Carl Schurz dramatically describes an execution by guillotine which he witnessed as a small boy in Germany.

A young man in Cologne had murdered his sweetheart and been condemned to death. The execution, by the guillotine—for the left bank of the Rhine was still under the "Code Napoleon"—was to take place at dawn of day on a public square between the Cathedral and the Rhine, and before the eyes of all who might choose to witness it. The trial had excited the whole population to a high degree; now the people looked forward to the final catastrophe with almost morbid interest. My locksmith's guardian was of the opinion that neither he nor I should miss the opportunity of beholding so rare a spectacle. Long before sunrise he awoke me, and together we went to the place of execution in the gray morning light. We found there a dense crowd, numbering thousands of men, women and children. Above them loomed the black scaffold of the death machine. Deep silence reigned; only a low buzz floated over the multitude when the condemned man appeared on the scaffold, and then all was silence again. The sturdy locksmith held me up in his arms, so that I might look over the heads of the crowds in front. The condemned culprit stepped forward; the assistant of the executioner strapped him to a board which extended from his feet to his shoulders, leaving his neck free; the victim glanced up at the axe, suspended from a cross-beam; the next instant he was pushed down so that his neck lay under the gleaming blade; the axe fell like a flash of lightning, severing the head from the body; the severed head fell from the gaze of the public by a dark cloth. The whole deed was done with the rapidity of thought. One scarcely became conscious of the terrible shock before it was over. A dull murmur arose from the onlooking throng, after which they silently dispersed; the scaffold was taken down and the blood on the ground covered with sand before the first rays of the morning sun shone brightly upon the Cathedral towers. I remember walking home sadder and trembling, and finding it impossible to eat my breakfast. Nothing could induce me to witness another execution.

ST. JOHN, N. B., NOV. 23, 1905. THE STRIKERS CRITICISED.

Naturally, considering its owner's relations with the C. P. R. and other financial interests involved here, the Telegraph takes sides strongly against the striking longshoremen and has lost no opportunity since the trouble began to discredit their case.

This morning it not only patronizingly assures them that their fight is hopeless, that the steamers will be able, with little difficulty to get along without their services, but also expresses approval of the position of their opponents in refusing to submit to arbitration a dispute in which wide interests are involved.

"This is a new doctrine," says the Telegraph. "If we accept it we must say that the clerk of the King street merchant has the right to demand more pay, and being met with a refusal, may demand that the merchant submit the matter to a board of arbitration. If the merchant refuses does his refusal mean necessarily that the clerk is right?"

That is as absurd as it is unfair. In the instance quoted nobody is concerned save the merchant and the clerk. The agreement or the disagreement of the two touches no interests save their own. But in this longshore dispute the whole community is interested. The welfare of the city is as deeply involved as the welfare of either of the disputants.

The longshoremen recognize this fact and have made a fair and creditable offer to submit the matter to a tribunal over which they could not possibly have any influence. The shipping combine by arrogantly refusing to consider the offer have certainly prejudiced their case and have earned the right to be blamed for whatever harm the port suffers.

Another instance of the Telegraph's unfairness to the strikers or of its ignorance of their position is afforded by its sneer at their alleged contention that the city has no right to fence in the West Side piers. No such contention has been made. The longshoremen's protest is against the erection of such unnecessary and insulting barricades without the consent of the city.

Since the beginning of the trouble the attitude of the longshoremen has given no opportunity for fair fault-finding. They have made their claims in a temperate manner, have shown their willingness to have them passed upon by any impartial committee, have evinced no symptoms of violence in the face of considerable provocation, have even made no effort to force their way to see you go. However, by-by, if you must go—Have another—? So long, so long. Here's hands across: And though the sea be wide, The fleet of blood is long enough And strong enough To reach from side to side.

Liberal majorities in the other constituencies. In addition to these reasons for self-congratulation the Conservatives have the knowledge that victories for two of the Conservative candidates would have been more disastrous to the party than the defeat they met with. Mr. McCallum, Hon. Mr. Aylesworth's opponent in North York, was the nominee and practically the tool of W. F. Maclean, who is openly in revolt against Mr. Borden and has been disowned by his associates in parliament. Mr. McCallum's election would have increased Mr. Maclean's power of disturbance and have made him much more of a nuisance to the party than he is. In Antigonish also a victory for the Conservative candidate would have been embarrassing to the party, for Mr. Giroir's platform was largely a condemnation of the Conservative leaders and of their stance on the indemnity and pension scheme.

So it is apparent that the Conservatives got the better of the day since in every constituency they had good cause for comfort. HALIFAX SCALE OF TEACHERS' SALARIES. The Halifax school board has adopted a new scale of salaries for teachers. It provides for increases during the next three years, which at the end of this period would give them \$5,634 more than the present scale, or some seven per cent. over existing salaries.

Salaries for male principals of high schools, having Grade A. license, college degree and five years' experience, are fixed at \$1,400 to \$1,600. Without a college degree the pay is \$1,200 to \$1,500 while a female is allowed \$700 to \$900. The allowance for male assistants who have five years' experience, Grade A., normal school diploma and a college degree, is \$700 to \$1,200. Female assistants similarly qualified, are to get \$600 to \$750.

ON PARTING WITH LOUIS. Pray, have another smile With us before you go, What? Not even a nip? Well, we hope you've enjoyed your trip: We have; and you Have made yourself quite clean through. You should take a chair And sit down where you are appreciated. By good! If you should slosh Around for while In your infamable style, You could be elected Mayor Of Greater New York On any old ticket. Say, I wouldn't that be gay— Hon. P. Louis Battenberg, Mayor of New York City? With the accent on the "Bat!" Ha! ha! Ha, ha! You've got to go. Have another—? We like your kind by the dozen. However, by-by, if you must go—Have another—? So long, so long. Here's hands across: And though the sea be wide, The fleet of blood is long enough And strong enough To reach from side to side.

W. J. LAMPTON. The only English lady privileged to act as a nurse in the Russo-Japanese war, and the first to enter Port Arthur after the historic siege, has recently returned to London, after fifteen months' experience of the horrors of war. This lady is Mrs. Feresa Richardson, the widow of John Richardson, of Glenbyrdan Park, Carmarthenshire, who was specially selected by Viscount Hayashi, the Japanese ambassador, to assist in nursing his wounded countrymen. Tall and of commanding appearance, with a kindly sympathetic face and eyes from which pity shines, Mrs. Richardson was known by the Japanese heroes she nursed as "Our English Mother."

A PROBLEM SOLVED.

Ozone is ozone, and in buying it, the problem is to get the purest form.

"Solution of Ozone (the coupon kind)" is the purest form in which Ozone is put up. In addition, each bottle contains a coupon entitling you to a package of "Celery King" free, and it is well known that you should take "Celery King" along with Ozone.

We put "Celery King" coupons in our Ozone bottles because no other firm can give "Celery King" with Ozone. By buying "Solution of Ozone (the coupon kind)" you get the purest and most concentrated form of Ozone, and in addition you save the expense of buying the "Celery King" to use with it.

No other kind of Ozone offers this advantage. Ask your druggist for it, and if he hasn't it write to the Public Trust Co., Bridgeburg, Ont.

LONGSHOREMEN'S STRIKE STILL CONTINUES.

(Continued from page 1)

Nine of the thirty-seven Italians brought here yesterday declined to go to work, claiming that it had been represented to them that they were to dig at their old job, turning out gravel from a pit. They did not like the looks of the steamer, and refused to sign the agreement presented to them. They were immediately turned away and wandered like a lot of lost sheep till taken in hand by the "Longshoremen's

Association, who gave them their supper and arranged for their transportation back to Montreal.

There was some discussion over the advisability of sending the men back, as the Alien people who brought them here had thrown them over, and some argued that they would become a public charge when the city would have to care for them.

The chief of police has received a circular requesting him to be on the lookout for a criminal named Henry Sullivan, who has several aliases. Sullivan has been indicted for the murder of John Tucker at Larn in March, 1904, but escaped from custody. A reward of \$500 is offered for his apprehension.

A barn, the property of Robert McLean, situated on the road to Ashburn Lake, was totally destroyed by fire on Tuesday afternoon. The fire caught from burning grass. The barn contained about twenty tons of hay, all of which was destroyed. The building was insured for a few hundred dollars, but there was no insurance on the hay.

Work on the breakwater has been suspended for some weeks owing to delay in the arrival of a stone crusher which is needed. This crusher, which is the property of the marine department, should have reached St. John early last month, and when it failed to get here Contractor Long had to lay off his men. It is understood that the crusher is now on the way from Montreal, and the work will be resumed when it arrives.

The new field battery received another bunch of recruits last evening, when in Sutherland's Hall, twenty-seven more South African veterans enlisted. This makes in all 38 of the boys who want to join. There is an impression that no one but South Africans will be received in the battery. This is not correct. Col. John will accept the best men he can get anywhere, and will receive applications at any time. The Africaners will have a chance because they wished to form one squadron of the battery.

William A. Magee, who for years conducted the grocery business in the corner of Charlotte and Princess streets, and who retired a year or so ago, is having a fine residence built in Lancaster. The plans were prepared by F. Neil Brodie, the carpenter work is being done by Melroy & Co. and the masonry by J. W. Long & Co. The house is nearing completion and will be ready for plastering in a day or two. It will be heated by hot water. The estimated cost is between three and four thousand dollars.

A lad named Charles Moore was run over by a team on Main street yesterday afternoon. One of his legs was slightly injured.

In a few days the I. C. R. elevator here will be in operation again. Notice has been received by the local authorities of the I. C. R. that some 100,000 bushels of grain are on route from the west to be shipped through the railway elevator. Already, indeed, several carloads of grain—ten or twelve thousand bushels—have reached the city. It is probable that the elevator will be put in operation the latter part of this week. The grain that passes through the elevator will, it is said, be shipped on steamers bound to London. The work at the elevator will be superintended by W. H. Daniels. It will be done by men of the I. C. R. staff, though possibly some men not in the service of the road will find employment as shovellers.

Peter McIntyre, the well known grocer of Main street, North End, has purchased the brick house on Main street, the residence of Count de Bury. This is the residence, it will be remembered, which some physicians thought would be suitable for a hospital. Mr. McIntyre has bought the house for his own private use and will move in as soon as it is ready, probably about the first of May.

The Salvation Army Home, which in this season is in charge of Emslie Bowering, received on Tuesday its first party of winter port guests, consisting of six bright-eyed young Assyrian girls. This party are bound for Boston, where they are to engage as servant girls. They were decked yesterday in their gayest robes, and took in the city, parading about hand in hand. None of the number can speak a word of English, having very recently left their own country, and sailed from Liverpool on the "Parisian."

The annual meeting of the governors of the Boys' Industrial Home was held in the mayor's office yesterday afternoon. The mayor occupied the chair, and Mrs. E. A. Smith, Hon. R. J. Ritchie, John E. Irvine and James Mayes were present, with I. O. Thomas, secretary. The treasurer's report was adopted, and Mr. Irvine was re-elected to the office. The following executive was appointed: The mayor, Lady Tilly, Mrs. E. A. Smith, Hon. R. J. Ritchie, and T. H. Estabrooks. The audit committee was selected as follows: The mayor, Hon. R. J. Ritchie, and Hon. A. T. Dunn. Mr. Thomas was reappointed secretary. The affairs of the institution were reported to be in good order. There are at present seventeen boys in the home.

The New England Fish and Game Association will hold an exhibition in Mechanics' building, Boston, from December 30th to Jan. 6. C. E. Bean, editor of the official organ of the Maine Central railway, is in the city, endeavoring to get New Brunswick people interested in the show. The Tourist Association will assist Mr. Bean in trying to get the government to send an exhibit.

LOCAL NEWS

All your energies count for little if your eyes give out. You are perfectly safe if you have your glasses fitted by D. Boyaner, the Optician, 651 Main street.

General sympathy will be extended to Mrs. and Mrs. St. Arthur Kyrle in the death of their only daughter, Gladys Mary Caroline Kyrle, which occurred shortly before midnight at their home, 118 Duke street. The little girl, who was an unusually bright child, was only four years of age. She had been ill for but a few days, diphtheria being the cause of death.

The students of the St. John Law School met in the equity court last evening and elected officers for the coming year. Dr. Silas Alward was appointed honorary president and Kenneth J. Macrae president. The society decided upon the formation of a debating club to meet fortnightly.

THE THOROUGHBRES By W. A. FRASER. Serial Rights for this district held exclusively by the Star.

"I know, mother," soothed the girl, "I know just how you feel, but we can't desert father. He does not look upon it as a sin, as carrying any dishonor, he may be cheated, but he cheats no man. It can't be so sinful if there is no evil intent. And listen, mother, no matter what anybody may say, even the minister, we must both stick to father if he chooses to race horses all his life."

Naturally the paramount subject of interest was the narrow escape of Miss Allis; but the individuality of her decision gradually merged into a crusade against racing, led by the zealous clergyman, John Porter, who viewed this trend with no little trepidation of feeling. It was Mrs. Porter who precipitated matters by plausibly attributing Allis's escape to Providence. "Undoubtedly, undoubtedly!" Mr. Dolman said, putting the points of his fingers together in front of his lean chest. He paused a moment, and Porter groaned inwardly; he knew that attitude, the fingers were restless, stilettoes; presently their owner would thrust, with cutting phrase, proving that they were all indeed a very bad lot. Perhaps John Porter would have resented, this angrily had he not felt that the Reverend Inquisitor was really honest in his beliefs, albeit intolerably narrow in his conclusions.

BEAVER'S PLUCKY WORK.

Heroic Endeavor to Save His Home in the New York 'Zoo' at Flood Time. Recent heavy rains which did harm to the dams erected by the beaver in the beaver valley of the Zoological Gardens in Bronx Park caused the little animals much work to save their homes, says the New York Sun. At the same time the beavers do not bother them when another break occurs in any of the water mains.

ANOTHER RAFFLES IN THE TOLLS.

ELIZABETH N. J., Nov. 21.—An extraordinary criminal case in this city on Sept. 18 and 19. While the police were probing these cases they learned that the house of a Dr. Moore at Clayton, which is near Elizabeth, had been entered, and they at once suspected Smalley of this job. He is also suspected, it is said, of having been concerned in many burglaries committed in Germantown, Pa., and it is believed that he was assisted in his depredations by a woman who accompanied him disguised in men's clothes. Concerning this chief of police Tolson said that he knows nothing, and he also claims to be ignorant of a report that in a trust in the house of a society woman here was found a quantity of plunder stolen by Smalley, and the further report that the husband of the woman had found the booty in the trunk and was to bring a suit for divorce in consequence. The police, however, assert the possession of information going to show that the prisoner, a respectable business man by day, was a professional burglar at night. He is only twenty-nine years of age.

When still a young man the foundation of his big fortune had been made by a rich bequest in his father's will. The older Salisbury hoped to be able to pay his son, but it was stipulated that Stephen Salisbury should never marry, and that, should he violate the agreement, he should forfeit his great estate to the last penny.

Crane heard of the accident on a couple of days later, and of course must hurry to Ringwood to see his employee. It happened that the Reverend Mr. Dolman grazed the Porter home with his presence the same evening that Crane was there.

PUBLICITY THE REMEDY FOR INSURANCE ABUSES.

Second Vice-President of the Equitable Life Suggests Reforms—Takes Commissions on His Own Insurance

NEW YORK, Nov. 22.—After being on the witness stand before the Armstrong legislative committee on insurance investigation for the greater part of three days, George E. Tarbell, second vice-president of the Equitable Life Assurance Society, finished his testimony today and just before adjournment submitted a list of suggestions for the remedy of existing abuses in the management of insurance companies and for legislation designed to give the state proper control over the companies and to insure the confidence of the policy holders. Prominent among these suggestions was absolute publicity.

Mr. Tarbell was on the stand the entire day and was questioned as to the system of agencies and the commissions and other compensation allowed them for getting business. Just before the recess the fact was brought out that Mr. Tarbell had taken on insurance on his own life and on members of his family and had received the agents' commission on the premiums as well as renewal commissions. He said that since he became an officer he had taken out \$200,000 on his own life in the Equitable. Besides his policies in the Equitable he had taken insurance in the New York Life, the Travelers, on all of which he collected the commissions. He said he carried \$400,000 on his own life and \$100,000 on members of his family.

MISSION WORK.

Church Societies Celebrated Their Anniversary Last Evening.

A very successful anniversary meeting of the Women's Missionary Auxiliary was held last evening in the Calmar street Methodist church. The meeting opened with a hymn, Scripture reading, and a prayer by Rev. Theo. Marshall, the pastor. An interesting report was read by the secretary, Miss Hutchings. She reported a highly successful year in every respect. Mrs. Dr. Curran then gave a solo, after which Mrs. J. D. Chipman delivered a lengthy and very interesting address on mission work in China and Japan, showing present conditions and telling of the work that is being done there. She was listened to with great attention. Sixteen young girls of the sewing circle then engaged in a dialogue, after which Mrs. Pierce sang a solo. An address by the pastor concluded the meeting.

In the Portland street Methodist church the anniversary of the Woman's Missionary Band was also honored by a large meeting of its members. The meeting opened in the usual way, with hymn, Scripture reading and prayer, after which reports of the work of the year were received from the mission band and from the auxiliary. A most interesting report of the meeting held in St. Stephen street auxiliary had raised \$363.07 during the year and that \$140.12 had been sent to the branch treasurer in Bunnerville, P. E. I. The treasurer reported a large increase in the receipts, both in regard to the mite boxes and the Easter collections. Miss Ada Myles read the recording secretary's report concerning the membership and the work done. Rev. Mr. Howard concluded the meeting with a benediction.

In connection with this subject it might be interesting to state that at the meeting of the society in Peterboro, N.H., some time ago it was announced that the Woman's Missionary Society of Canada had raised \$500 during the past year for mission work. Two members of the local board, Mrs. W. E. Ross and Mrs. Strong, have recently returned from an extensive trip to China and Japan and have brought home some very encouraging reports of the work done.

HAVE SECURED ALL EMINENT LAWYERS

Sensational Revelations Will Follow Examination of James Hardy.

TORONTO, Nov. 22.—Revelations likely to follow the examination of James Hardy's books, now in progress, are sure to be sensational, involving as they may, many of the leading wholesale interests of the Dominion. It is much as Hardy is said to have been the permanent secretary of at least half a hundred hard and fast combines, chiefly along the line of hardware supplies of various kinds. It is not unreasonable to suppose that among the books which Hardy has seized are proceedings at meeting of members of these alleged combines, which, if it is true, at present represent an investment of at least one hundred millions. That many of these big concerns are already seeking to cover is evident from the fact that practically all the eminent counsel in Toronto and many of those in Montreal, have been retained to look after their interests in the Hardy prosecution.

The Toronto list includes the acknowledged leaders at the bar, not excluding some who have in past adorned the bench, and so well has the field been covered that in the event of the case against Hardy going to the high court, there would be great difficulty in securing any eminent lawyer capable of undertaking the task of prosecuting counsel.

YALE IS NOW READY FOR HARVARD.

NEW HAVEN, Conn., Nov. 22.—Arriving with great enthusiasm the Yale football team today wound up its work in preparation for the Harvard game, and from now on will do nothing but rest. Given the ball on the 22 yard line today the second team was ordered to take it over. Harvard's tandem play was used almost entirely with Mackay and Phil Smith carrying the ball, and it seldom failed to work. On the first try Chad ran 25 yards for a touchdown. That, however, the scrums found it harder going, but they were able to push back the variety for short gains, the first team being unable to check the advance. Trip was the only absentee from the variety line. After it was all over the second team made a fire of their old pads, shin guards, jerseys and head gear, and danced around it according to a time-honored custom. Tonight the second team held a banquet. At noon tomorrow the university team and substitutes will leave for Boston.

THE TURF.

CRESCEUS SOLD AT AUCTION. NEW YORK, Nov. 22.—The sale which was regarded as the final parting of Cresceus from the race track by breathless thousands who crowded every seat in Madison Square Garden to witness this particular auction was made today. When the beautiful chestnut stallion was led into the space reserved for him he was cheered so heartily that the racket frightened him and the auctioneer requested silence in behalf of the famous foal. The bidding was brief. P. H. Maguire opened it with \$20,000 and after a short silence Mr. Savage said "Twenty-five thousand." Within five minutes more Cresceus was sold at this figure.

BASE BALL.

LEAGUE DISCUSSION CONTINUED. CHICAGO, Nov. 22.—The American Baseball League continued the discussion today. The session was harmonious. Routine business occupied the time. It is understood that tomorrow the proposed amalgamation of the American and National Leagues will come up for discussion. The tentative plan of proposed amalgamation, it is said, is for a combination of the major leagues into a major and minor league. In Boston, Philadelphia and St. Louis the teams of the American and National League are to be consolidated, and in other cities where the two leagues now conflict the present National League clubs are to be taken into the new National League, while the American League clubs in those cities are to be thrown back into the minor leagues, which is to retain the name Major American League, but which is to belong to class A of the minor leagues. If this plan should be carried out it would leave Company of the Chicago club and club out of the consolidation. According to the proposed amalgamation plan, it is said the new National League would be made up of the best eight cities in the country with Ben Johnston as president of the new organization.

CHIPMAN DOCTORS DISAGREE.

Considerable excitement exists in Chipman over a disease that is spreading rapidly. One doctor thought it smallpox and others chickenpox. Senator King, who came in from Chipman last evening, states that the disease has spread rapidly and now there are many cases in the village. It is a loathsome disease, he says, and whether smallpox or not, it is quite bad enough. The senator has been advised that if it is smallpox in a mild form it is liable to become malignant when cold weather sets in.

NEW WAY TO LOWER LAKE LATTIMER.

At the last meeting of the water and sewerage board the method of lowering the lake for the convenience of Messrs. Mooney on section 3 was left to the mayor, superintendent and recorder to decide. It is proposed to lower Lake Lattimer by means of the siphon into Edmunds brook, which drains into the Missisquoi. The brook is situated on the southern side of the lake, and is not in any way connected with the dry lake on section 2. By this means the water can be lowered without interfering with the work of the contractors. It is hoped to lower the water to the required level in about a month.

FEARING HUSBAND

CALLED NO AID.

For Thirteen Hours, Dreading Further Attack, Wife Beaten and Scalded Suffered in Silence.

NEW YORK, Nov. 21.—Severely scalded and suffering from other injuries, Mrs. Della Cleary, thirty-three years old, wife of Patrick Cleary, a laborer, of No. 221 East Forty-eighth street, yesterday told a story of inhuman abuse at Flower Hospital. She said that because she visited her sister on Saturday night and did not return before midnight her husband beat her. He was intoxicated. At the time, she alleges, and arising from a stupor two hours after the first assault, she says he poured a kettle of boiling water over her. She faints from the pain, she says, and the next she remembers was her husband beating her again thirteen hours after she had fainted.

When the hospital doctors examined her they said she had lain in her room suffering great agony and had not dared to cry out for fear of arousing her husband. Policeman Geisler, of the East Fifty-first street station, was causing the Clearys when Mrs. Hanna Brown, the janitress, screamed that a woman was being murdered in the back room on the ground floor. He reached the rooms just in time, he says, to see Cleary trying to throw his wife out of the window. The policeman overpowered Cleary, and seeing the condition of the woman, sent in a hurry call for an ambulance. Cleary denied having scalded his wife, but admitted beating her. Cleary, it is said, reached home on Saturday night at supper time and waited for his wife until midnight. He beat her and alarmed the other tenants, but no one cared to interfere, and soon everything was quiet. Cleary went out, and two hours later Mrs. Cleary aroused the house with her screams. Again Cleary left the house, but no one saw him return. It is thought that he came home and went to sleep, but did not awake until thirteen hours later, when he again attacked his wife, who in the meantime had been afraid to call for assistance.

HORSE LEFT TO STARVE.

Ill and worn out an old horse owned by Squire Dunham was apparently left to die in Coughlan's barn on Courtenay street. When Secretary Wetmore, of the S. J. C. visited the barn this morning there was apparently nothing there for the animal to eat, and the poor beast presented a pitiable sight. The horse has been in the stable, lying down in the barn for the past three days, unable to stand up.

Secretary Wetmore got Policeman White, and the latter killed the horse with a shot from his revolver. Secretary Wetmore could not locate Dunham this morning.

TOOTH HINTS!

"When ought we to go to the dentist?" Many think it unnecessary to devote particular attention to the teeth until the appearance of the mouth is affected by damaged, decayed or broken teeth. Others give their teeth no attention till pain compels them.

The stupidity and short-sightedness of either policy is evident. Every one who thinks a moment on the subject knows that we cannot satisfactorily eat our food as tenderly, inflamed, decayed or otherwise out of working order; and that if by the time the mouth requires immediate attention.
