The Chancellor Suggests Free Trade With the Colonies.

Dove Hovered in Transept of St Paul's During Peace Service on Sunday.

London, June 10 .- During the debate on the finance bill in the House of Commons vesterday, the grain tax

came in for much criticism. Sir William Vernon Harcourt (Liberal) demanded to know whether the government intended the tax as a war revenue measure, pure and simple, or whether it was intended to be a lever to aid in the negotiation of preferential treaties with foreign countries.

The chancellor of the exchequer, Sir Michael Hicks-Beach replied that the grain tax was imposed for revenue only; but he absolutely, without prejudice to the discussion which would take place between the colonia premiers in London, and which he hoped would have good results in promoting free trade between this country and the colonies, altogether disclaimed the interpretation that the Canadian premier, Sir Wilfrid Laurier, had put on the grain tax. He did not see why free trade with the colonies should involve increased dues on the part of foreign nations. "But," the speaker added, "if we could have free trade with the colonies, even some sacrifices in that direction might be

FATAL FIRE.

The inadequacy of the fire equipment of London has again been demonstrat-ed by the fatalities which attend a comparatively small blaze in the center of the city yesterday afternoon. The fire occurred in the upper portion of the five-story building adjoining the Mansion House station, in the busiest section of London. The first extension many people from asphyxia. fourth story, and inmates of the upper floors were compelled to jump down into a terminal of the many story. ladders to arrive at the scene could into a tarpaulin which had been hastily commandeered by the firemen from a passing fruit van. Several of those who jumped were badly injured, and others who refused to take this risk disappeared within the smoking windows. Several hours elapsed before the casualties were ascertained. It was then found that three persons were dead and fifteen injured, one

probably fatally.

A SENSIBLE GIFT. At a meeting of London citizens yesterday, convened by the lord mayor, Sir Joseph C. Dimsdale, at the Mansion House, a resolution was adopted providing that the national coronation gift to King Edward shall take the form of a fund to assist their majesties' hospital fund. A national subscription for this purpose is to be opened throughout the empire. The lord mayor read a letter from the King, saying that his majesty considered assistance to the fund to be the most appropriate gift the nation could bestow upon him. The lord mayor later announced that £55,000 had already

PROMOTED BY THE POPE. Rome, June 10.—The pope was present at the consistory held yesterday. He was borne to the Sistine Chapel in the Sedia Gestatoria, surrounded cardinals, and formally bestowed red hats on Monsignors Martinelli, formerly papal delegate in the United States: Prince-Archbishop Skrbensky. of Prague, and Prince-Bishop Von Proseyn of Cracow. The pontiff also appointed several bishops, including Very Rev. William J. Kenny, vicar-

livered a short allocution. After thanking God for preserving his life to attain the pontifical jubi-lee, the pontiff expressed his grati-fication at the pilgrimage to Rome, and deplored the acts of the enemies of the Catholic faith in seeking to de-Christianize Italy, and particularly Rome, by spreading and protecting BIG BRITISH-CANADIAN TRADE Rome, by spreading and protecting heresy, Protestantism, and pornography by writings, speeches and theatrical representations. Also Smoking.

Kingston, St. Vincent, Saturday, June 7.—During the great eruption of Mont Pelee, Island of Martinique, Friday morning, the detonations were heard in the neighboring islands, and heavy clouds of smoke issued simultaneously from the Soufriere volcano, on this island, which alarmed the in-

habitants. The island of St. Lucas was obscured by dust to a distance of three miles and steamships experienced difficulty in finding the harbor of Castries. At 2 o'clock in the afternoon of Friday, pitch darkness prevailed here. The three Americans, Prof. Jagger, the geologist of Harvard University;

cended the Soufriere on May 31, made ANOTHER ASCENT on Thursday. They entered a dense, dusty fog, which impeded their pro-gress as they made their way up the precipitous trail around the cliffs, with ance, and once more reached the edge of the crater, on the east side, reaching an altitude of 3,200 feet above the sea,

carrying with them an aneroid and a HEARD WATER BOILING and spattering in the depths of the crater, but nothing could be seen through the fog, though the party

waited a considerable time. The ascent occupied five hours. The return of settlers to the devastated area is discouraged by Professor Jagger, who is of the opinion that the crater, continuing active, may emit poisonous gases at any moment, without warning, and cause the death of

Gratifying State of Prosperity Is

Evidenced. Treasurer McEvoy's annual sale of lands upon which taxes are in default. was held at noon yesterday. The sale was the smallest in the history of the county, only ten pieces of property being advertised, and two of them were redeemed before the sale. This shows a gratifying state of prosperity throughout the country. Three plots in London township were sold to Hy. Macklin for \$4 30, \$4 30 and \$9 68. Three plots in Ailsa Craig were sold to Dr. John Gunn for \$18 19 each. The sale of one plot in Metcalfe township was adjourned till June 23, and a plot in Newbury was withdrawn from sale.

Spring Seeding Done Earlier Than Usual-Little Damage Done by Hessian Fly.

Toronto, June 10 .- The May crop buletin of the Ontario department of agriculture states that the Hessian fly has done very little damage this spring. The prospect is very much better than was hoped for six months ago. The spring crops were got in earlier than usual. Seeding in some cases had been completed by the 1st of May. The seed bed was in excellent condition, and the catch has been one of the best for years. As to clover the reports general of Jacksonville, Florida, as are almost all enthusiastic.

Alpena, Mich., June 10.-An excursion train on the Detroit and Mackinaw Railway, which left here at 7:15 Sunday, for Saginaw, consisting of an engine and twelve coaches, and carrying over 500 people, was wrecked at Black River while running 40 miles an hour. One man was instantly killed, three were probably fatally injured, and nearly fifty others received injuries of various degrees of severity, ranging from bruises and cuts to broken limbs. August Grosinski, of Alpena, was

killed. Following are the most seriously injured: John McCarthy, Alpena, left arm broken and serious internal injuries, will probably die; Ernest Legatski, Alpena, right leg broken and probably fatal internal injuries; Jacob Mondoroff, Alpena, probably fatal internal injuries; Otta Kanowski, head badly cut and breast injured; Louis Peppler, Alpena, right thigh fractured; George M. Boyne, 281 East street, Buf- | itary circles, died at Montreal Satur-Dr. Hovey, assistant curator of the falo, sprained back and face and neck day evening in his 87th year. Museum of Natural History, New bruised; Carl Beyer, right leg broken, York, and George C. Curtis, who as-

injured. The excursion was under the aus-Alpena. When the train reached Black River the tender jumped the track. Engineer Hoher instantly the air brakes and reversed his engine. The sudden stop threw the first three coaches of the train off the track and into the ditch. The first car was thrown half around, and the next two forth. coaches plowed through, and cut it in two. August Grosinski, the only person killed, was seated in this coach, with 40 other excursionists. His body was terribly crushed and he died instantly. The escape of the others in the car was well-nigh miraculous. Grosinski's little son occupied the same seat with him, but was uninjured. The three wrecked coaches were up in a heap, and two hundred feet of the track was torn up. A relief train brought eight surgeons from Alpena. All the injured were brought back to this city.

Appeal for Help From St. James'

Sarnia, June 9.-The attention of the London Conference this morning were received after opening services conducted by Rev. W. Millson and Evangelist Russell. The general conference fund was presented by Rev. T. E. Harrison and adopted, and the report of the sustentation fund was presented by Rev. Dr. Gundy, who was reappointed treasurer of the fund. Rev. James Philp presented the report of the committee on general conference memorials, which was acted upon.
Rev. W. W. Shepherd, principal of Mount Elgin Industrial Institution, presented his annual report, showing

tution has under its care 200 acres, and at present 400 acres are under rental, for which \$2,000 are expended. The principal desired that some effort be made to influence the government to place a larger tract of land for the institution, believing that it would be a valuable asset to the work. Mr. Shepherd has been principal for 21 years, during which time the institution has made very great progress. Rev. J. Graham, of St. James' Methodist Church, Montreal, was present and made an earnest appeal for the saving of St. James. He gave a minute and detailed financial statement. The present indebtedness is \$512,882. He urged whatever was done must be done quickly. The church must be saved at once, or pass out of the con- of nexion's control. He asked that the conference raise within a year at least the sum of \$5,000, assuring that if this amount could be reached in solid cash,

a year of great prosperity. The insti-

will leave an indebtedness to meet of some \$262,000. An appeal was made and something over \$2,700 was reported as pledged, to be paid within the year, but \$182,000 is necessary to relieve the situation.

Leeming, an old and highlyrespected citizen of Brantford, died Saturday evening, aged 71. He was born in Lancashire, England, and came to Canada when ten years of age. He was associated with the Hon. W. Paterson, M. P., of the firm of Leeming & Paterson, confectioners and biscuit manufacturers, in that place. In 1876 he was appointed col-

signing four years ago on account of failing health. He leaves seven of a family, all grown up. A Rochester, N. Y., telegram says: Hon, Leonard Burritt, one of the best known men in the county, is dead, aged 74. Mr. Burritt was born in the town of Chili in 1828, and in 1871 was elected to the assembly, serving three terms at Albany.

GREETINGS TO GENERAL DEWET

Luanksgiving for Peace at Pretoria-Americans in a Commando-Canadian Casualties.

London, June 10 .- South African dispatches state that Gen. Elliot is accompanying Gen. Dewet through the Orange River Colony, and that they have been successful in getting the Boers to disarm. There is an absence of boasting or bitterness on either side. Thanksgiving services are being held everywhere. A party of 50 combatants who surrendered at Balmoral, in the Transvaal, included four stand. Americans, who were granted free passage to Delagoa Bay.

GREETINGS TO DEWET. The members who attended the annual dinner of the Imperial Yeomanry Field Hospital sent a telegram to Gen. Christian Dewet, saying: "We send you hearty greetings and best wishes

THANKSGIVING. Pretoria, June 10.—The service of thanksgiving for the return of peace was held in the principal square of Pretoria Sunday. The sun shone bril-liantly, and the sight was most impressive. Outside of the rope in-closure for the troops were gathered many thousands of the townspeople and a goodly sprinkling of Boers, whose demeanor was most respectful.

The Archbishop of Cape Town of-ficiated at the service, and Lord Kitch-

ener, Gen. Baden-Powell and Lady Me thuen and other prominent persons were present. The massed bands of the various regiments supplied the music, and the troops and people joined in singing the hymns with wonderful effect. The singing of "God Save the King" and Rudyard Kipling's "Recessional" closed the service. Lord Kitchener then mounted a dais and called for three cheers for King Edward.

BOERS WILL BE LOYAL BRITISH SUBJECTS.

A special to the Times from Leeuwspruit says Gen. Hamilton addressed three hundred Boers of Britzs' commando, who surrendered on Friday. He expressed the conviction that the Boers would make loyal British subjects. The Boers heard him with marked cordiality and cheered heartily.

CANADIAN CASUALTIES. Ottawa, June 10 .- The casualty department has sent the following cable to the governor-general:
"Cape Town, June 6.—Following deaths are reported: June 3-At sea,

on board Cestrian, Third Canadian Mounted Rifles: 132, John James Woodmore, enteric fever. June 5-At Elandsfontein, Second C. M. R., 365, Stanley Bamfield, enteric fever." Woodmore's death is the second reported on the Cestrian, Pte. Higgins having been reported the day the ship

reached Cape Town.' "Cape Town, June 8. — Dangerously ill, June 7. Elandsfontein, Second C. M. R., 723, Clement Guest, Ross-Wm. Bell, Hamilton; 602 Harry Hyde, Charlottetown. All en-

teric fever.' "Cape Town, June 9. — Death from enteric fever, June 8. Klerksdorp — Canadian Army Medical staff, 4t-tached 10th Canadian Field Hospital— 66, Nelson Price. Dangerously ill, June 8 — Charles McVicar, London; Richard Ployer, Quebec; both of Second C. M. R. and both enteric fever." Nelson price, reported dead, not appear on the nominal role, but the name of George Orlie Price, of St John, N. B., appears as connected with the medical hospital corps.

Old People's

A Medicine That Invigoraces the Kidneys and Liver, Takes Away the the Action of the Bodily Organs. Strong Recommendation for

Dr. Chase's Kidney-Liver Pills.

The experience of Mr. Brown, as stated in his letter below, is similar to that of scores of men and women who feel old age creeping in upon them. The kidneys grow weak and inactive, the back aches, there are deposits in the urine, and pain and smarting in passing water. The legs swell and

come pains and aches not unlike rheumatism. Under such circumstances old people to Dr. Chase's Kidney-Liver Pills for relief and cure, and are not disappointed. They have learned by repeated trial that they can depend on Dr. Chase's Kidney-Liver Pills

every time, and consequently they have become known as the old people's favorite medicine. Mr. John Brown, 66 Nelson street, Ottawa, Ont., states: "I am getting up in years, and having been a hard worker all my life, I am beginning to fail. For some time past I have thought there was something wrong with my kidneys, I seemed to bloat up, was very short of breath, and feared heart disease, although I was told there was nothing wrong with my heart, I got so bad that I had to do

something.

"Hearing of Dr. Chase's Kidney-Liver Pills. I began using them, and by the time I had used up the first box I felt considerably improved. I continued using this medicine, and today feel ten years younger. I am strong and hearty and do not suffer from my former ailments. I consider Dr. Chase's Kidney-Liver Pills an ex-

cellent medicine for old people." There are people in nearly every town, village and country side road who have proven the merits of Dr. Chase's Kidney-Liver Pills. Ask your

A REMARKABLE CASE

Ottawa Lady Whose Symptoms Were Somewhat Unusual.

Curious Complication of Conditions Which, However, Yielded Very Easily to the Curative Influence of Dodd's Kidney Pills.

Ottawa, Ont., June 9.—A most singular case has just come to light at No. 380 Gladstone street, this city. Mrs. I. Wm. Rosseau, a married lady, suffered for over three years with an ailment which manifests itself in three separate and distinct symptoms, each very painful, and the whole combining to make her life during this period one of almost perpetual misery Perhaps the most painful of these was a backache which never left the poor woman for a moment. At times she felt as if her back were breaking in two, and the slightest pressure in the region of the kidneys would cause

her intense pain. In addition to this terrific pain in her back, she was tortured beyond endurance by a never-ending headache. response from everybody assembled in the square was immediate and unre-her with a stupefying dizziness and her with a stupefying dizziness and pain which completely prostrated her. The third symptom was a swelling of the hands. This only appeared at times, and would come and go, but as the case progressed the return of this symptom was more frequent.

To the student of kidney diseases,

these symptoms have but one meaning -diseased and deranged kidneys. Madame Rosseau at last stumbled on the medicine which proved to be her deliverer from one and all of her painful and distressing conditions.

She used three boxes of Dodd's Kidney Pills, and says: "I cannot tell what Dodd's Kidney Pills have done for me, words will not express it. I was so sick for three years with my back, my head and my hands, and I am now completely cured. "To say that I am grateful for my escape from such excruciating pains

Toronto, June 10 .- What is suspected to have been an attempt to convey either implements of escape or poison to Rice, the condemned bank burglar, took place Sunday. Rev. L. W. Hill, of Parliament Street Methodist Church, was approached by a well-dressed stranger, who asked that Mr. Hill atten Rice and care for his spiritual welfare until his execution. Mr. Hill consented, and then the stranger asked that he be taken along also. Mr. Hill said the jail governor must be consulted about that, and asked his visitor to come along with him to see Mr. Vanzant. The stranger refused, and left abruptly. Rice is reported to have said that he would never die on the BRANTFORD MERCHANTS TAKEN

UP-TO-DATE RETAIL STORE

Messrs. Gray & Parker's Gratifying Success.

Excellent Stock, Fair Prices and Unfailing Courtesy Their Motto.

The continued success that Messrs. Gray & Parker have met since they first opened in this city is the gratifying reward of enterprise and cleancut business methods. Messrs. Gray & Parker have always been alive to the necessity of maintaining a bright and attractive store, a staff of courteous clerks and an assortment of goods such as the people want and at the prices they want. The public is welcomed at all times, and ladies who come simply to look at goods are shown equal attention to those who intend to buy. This has contributed largely to the popularity which the firm enjoys among the purchasers in this city. Apart from this, however, the direct cause of their success has been the discriminating care with which they have always chosen their stock. They carry principally whitewear, dress goods, all kinds of wash goods, and their dress goods and mantle department is unexcelled in the city. This and their dressmaking department are upstairs, and are well worthy a visit. It is the firm's intention to continue the management of their store in the same progressive manner as they have in the past and thus merit a continuance of the generous patronage that the public have already given them.

PRACTICAL PHILANTHROPY.

To do good to the utmost limits of our capability is the first duty, as it is the highest privilege of the Christian, and in no way can more real benefits be conferred upon mankind than in making known far and wide a sure and certain means of cape from that deadly malady-consumption. Where is the family that does not reckor among those of its circle who have gone before one victim of this direfu disease? It chooses the fairest, the brightest, the best, and when a fond parent sees pale consumption stealing into his loved daughter's bosom, flushing her cheek, bleaching her skin, and reveling like a living worm upon her vitals, who would not hail as a deliverer sent from heaven one bearing in his hand a remedy which would save his darling from a yawning grave? The mother anxiously watching the boy of her love, who at the threshold of manhood is seized by the destroyer, and dragged with ruthless and un-flinching hand down to the tomb, would bless with all a mother's heart the power which could save him. Such a power exists-the Dr. Slocum treatment for consumption, which is an absolute remedy for consumption, and all throat, chest and lung diseases, also for loss of flesh and all conditions of wasting. By its timely use thousands of hopeless cases have already been permanently cured. So proof-positive is Dr. Slocum of its power, that, to increase its usefulness and make known its great merits, four large samples of the Dr. Slocum Re-medies will be sent to every reader of this paper who is afflicted with the terrible disease-consumption. All you have to do is to send your name, postoffice and express office address to The T. A. Slocum Chemical Company, 179 King street West, Toronto, when four samples of the Slocum Remedies will be sent immediately.

On account of its terrible effects, blood disease is called the king of all diseases. On account of its terrible effects, blood disease is called the king of all diseases. It may be either hereditary or contracted; so while It may not be a crime to have the disease, it is a crime to permit it to remain in the system. It may manifest itself in the form of Scrofula, Eczema, rheumatic pains, stiff or swollen joints, itchiness of the skin, eruptions or blotches, ulcers in the mouth or on the tongue, sore throat, falling out of hair, disordered stomach, and a general depression of the system. If you have any of these symptoms don't neglect yourself. You have no time to lose. Beware of "old fory" treatment—beware of mineral poisons—beware of Quacks and Fakirs. OUR NEW METHOD TREATMENT is guaranteed to cure this disease, never to return. Bank Bonds will protect you. Our treatment is not injurious in any way, but reaches the very root of the disease and eliminates all poison from the system. The symptoms of disease gradually disappear. Chicago, June 10.-Twelve men and one woman were killed and about thirty persons were injured in a fire which yesterday afternoon destroyed the sanitarium conducted by the St. Luke's Society, at the corner of Wabash avenue and Twenty-first street. The society occupied the building, which was long known as the Hotel Woodruff, and for a brief period as the Hotel Lancaster. By far the greater portion of the patients received in the institution were those seeking cure

STARTING OF THE BLAZE. The fire originated in the basement of the building and spread rapidly to the upper stories through the elevator shaft. The blaze was discovered by Jas. Newell, a grocer, who was driving through the alley in the rear of the building. He noticed smoke coming from one of the basement windows, and ran into the engine room to discover its cause. Behind the boilers in the center of the cellar, and within a few feet of the elevator shaft, he saw a small flame. The next instant the flames were caught by the draught in the elevator shaft, reached the first floor of th building the flames had been carried to the roof, and had eaten through it and

THE CRY OF "FIRE." As the cry of fire rang through the building, patients sprang from their beds, and before they could be prevented several had jumped from vindows to the pavement. The fire department was on the scene within a few minutes, and as the windows were filled with people shricking for help, the firemen devoted their first efforts to save lives and allowed the

fire to burn. While this was the means of saving a large number of people who were carried down the ladders by the fire-men, it gave the fire such headway that there was almost no chance for those on the upper floors of the building to make their escape, and such of them as were not suffocated were killed or badly injured by leaping from the

FIERCE BATTLE FOR LIFE. Ald. Kent was in a room on the 5th floor with his attendant, A. W. Wattles. The alderman, who has been blind for many years, was in a straight jacket and his hands were manacled to a belt that passed around his waist. When the alarm of fire was sounded Wattles ran to investigate. He found the elevator shaft a mass of flames, and ran back to help the alderman, who was blind and unable to do anything with his hands, who was almost mad with fear and shouting like an insane person. He had groped his way to the door, and by the time his attendant had reached him, had fallen to the floor overcome with smoke. Wattles seized him and tried to drag him down the hall to a place of safety, but Kent had become so crazed that it was almost impossible to do anything with him. Wattles was finally compelled to run for his life, as the flames were already scorching his clothing. He ran to a window on the south side of the buildacross which were iron bars. Wattles managed to tear two of these from their fastenings, and two other men who had followed him climbed out on the sill. They were seen by the firemen, who called to them to remain where they were and they would save them. A ladder was run up as fast as possible, and the two men and Wattles were taken down. Kent was left lying on the floor of his room, and evidently died of suffo-Three hours after the outbreak of the fire the body was found on the floor of his room, one leg burned to a crisp and the head burned off. He was identified by means of his clothing.

AN AWFUL SCENE.

A scene that wrought to the pitch of madness the great crowd that had gathered around the building was en-acted at a fourth-story window on the north side. Across the window was a heavy wire screen, and on the oustide of the screen were iron bars running parallel to the sill. The space between these bars was too small to allow the passage of even a small boy, and behind them were gathered a crowd of men whose numbers were afterwards found to be between 25 and 30. Escape in other directions was impossible, for the fire filled all the halls, and was steadily eating its way toward the window at which the men were standing. The

Horrible Scenes Enacted at a the street below were plainly visible the streams of blood that trickled from lacerated fingers and hands, and flowed over the window sill. A number of the men at the window were in straight jackets and manacles, and these not being able to help themselves or others were the wildest of all in their frantic efforts to break through

the bars. AN INSANE MOB. The crowd in the street watching the desperate situation of the men behind the screen was simply an in-sane mob. They shouted all sorts of commands and directions at the men, and gave orders to the firemen, who were doing all that men could do to get through the dars at the outside. As the flames came steadily toward the men the people in the street jumped up and down and screamed in helpless rage. It seemed as though nothing could be done, and that all of the mendown die within six inches of freedom.

TORE DOWN THE SCREEN. That any of the men escaped at all is owing to the work of W. E. Davis, of Cedar Rapids, Iowa, a patient in the institution. He induced the men to cease their disconnected pulling at the screen and to unite their efforts. Four men at first took hold of the screen and in almost a minute the crowd behind them pushed them away, and before the four men could get to the screen again they were compelled to fight with their fists. Davis managed to get his men to the window again and after a few desperate pulls they managed to tear down a portion of the screen. Nerved to the work by their success, the bodies of the men swayed back and forth as they put all their strength into one last effort. The hands of one of the men were covered with blood, but he hung on and pulled as best he could, for he and all were sure not to live ten minutes unless the screen came down, and finally down it came, the men in their desperation pulling with it large pieces of mortar in which its sides had been fastened.

ANOTHER BARRIER. The screen gone, the bars remained, and they were heavy, placed there for the purpose of withstanding all the efforts of insane men, no matter how strong they might be. As many men as could place their hands on the low bar took hold. It bent almost double, and six men went to the floor with a crash holding on to the iron bar which they had torn from its fastenings. So men. quickly did the men behind them spring to grasp the second bar that who had torn down the first were badly trampled on before they could rise. Another bar was soon torn away, and the path to safety was op-

Then a new danger assailed the prisoners. The crowd behind, hearing that at last the way was open, pushed forward with such haste that those near to give the alarm and to alarm the dows fought to keep their places until inmates of the building. Several hur- the firemen could raise ladders, and flames, fought to get to the window.

A LEAP FOR LIFE. The first man through was Dr. A. . Anderson, of Chicago. No ladders were in front of the window and Anderson's one hope was to reach the platform of a fire escape in front of a window just west of where he was. He hesitated for an instant; then sprang for the fire escape, clutched it, and was saved.

The next man through the window was G. S. Scott, of Lavergne, Ill. Anderson was so much exhausted that he was unable to drag Gott after him, and Gott was so badly burned that he was unable to leap for himself. lie crouched on the window sill while the men on the inside clamored for him to jump.

Clinton Osborn, a real estate dealer, of New York city, was the third man. He crawled out beside Gott and cold the men inside to grasp his feet. A LIVING CHAIN.

This they did, and telling Gott to take hold of his wrists and drop over the window sill. Osborn hanging head downward, swung Gott to and fro until he had acquired sufficient momentum and then swung him up and onto

There was one peculiar feature of the may be hindered rather than helped late election campaign, by no means by rash action. It is well for a man confined to London, but noticeable in some other constituencies as well. Little reference was made to it in the political discussions of the time, but lieves to be wrong. But there are now that the election is over, and the times when he may wisely pause and excitement has subsided, calm reflection upon it may not be amiss.

We refer to the fact that many campaign, by platform speeches, by sermons, by personal canvassing, and sometimes by using their influence to secure their churches for political

Of course, apologists for these clergymen take the ground that they were teally not in politics; they were only the influence of clergymen in spiritual trying to assist the advancement of affairs, and the advancement of moral public and private morals by working reform, can be served by the active view of the situation, however. The fact that they were not supporting either the Liberal or Conservative party as a whole, did not keep them out political platform-though with only decides. one plank in it; they had in some constituencies their own candidates, and in these cases they opposed as strongly as they were able both political parties. In some other cases, where they did not bring out a candidate, and thus became active partisans. It cannot be denied, therefore, that they in the contest.

To attempt to place them in a different class from ordinary lay politianxious for the promotion of temper- turers.

But, it may be said, if he thinks he tem, and should be able to handle these is right he should go ahead and do as questions without being influenced enhe thinks. Well then, extend the tirely by ward considerations, bounds a little. Why should he be limited in his political labors to the advocacy of a prohibition party? A clergyman may honestly believe that the leaders of one of the political parties in the country are corrupt: while the leaders of the other party are politically pure. Here is a great moral question involved; political corruption is, like drunkenness, a great evil. Should he not, then, enter the political arena, ascend the platform, and by voice as well as vote, try to defeat the corrupt party and bring success to their opponents? Theoretically, he ought to do it. He would be more justified in doing so than in going on the prohibition party's platform; because while all good men would agree with him that a currupt party should be overthrown they will not all agree with him that prohibition is the cure for drunkenness. If the idea be a sound one that a clergyman should be a political partisan whenever he honestly thinks that he is advancing the cause of morality thereby, it only becomes a question of when he shall go into politics and when he shall keep out; when he shall preach politics from his pulpit and when he shall keep silent. It only needs that he should believe a certain policy to be in the public interest for him to become its pub-

The common sense of the mass of the people, however, says this is not wise. A clergyman is entitled to his own spinion in politics, and has a right to secretaries of Mr. Daly's campaign, re-

But in political fer, where good men and true patriots hibitionists in London. may and do range themselves on opposite sides, common sense says that the clergyman only intensifies political Port Stanley Railway lease Mayor bitterness, only sitimulates angry feelings, and only weakens his own influence with his congregation and in the community when he becomes a political partisan.

In theory a man should always do what he thinks right. But there are cases where he may find it wiser to do nothing. The end he has in view to have the courage of his convictions, but discretion is sometimes the better part of courage. There is no excuse for a man doing what he beconsider whether doing what he believes to be right will serve the right, and secure the desired object.

We are not anxious to find fault clergymen took an active part in the with any of our local clergymen for privilege of voting for both candidates. their conduct in the late political campaign. The contest is over: the Government is sustained; the prohibition party has failed-in so far as helping prohibition is concerned. We are content to let the past rest. But for the future it might be well for all parties concerned to consider how far the peace and harmony of congregations, for temperance. This is a mistaken participation of the clergy in the settlement of political affairs. We express no opinion. Let each man, clergyman as well as layman, think it out for himself, and then govern himof the field of politics. They had a self as his conscience and his judgment

BRILLIANT RECORD OF NEWSPAPER MAN.

The success which has attended Wm. E. Curtis, the famous correspondent of the Chicago Record-Herald, is rarely attained by newspaper writers. Beginning his career in Chicago in 1872 as reporter he rapidly rose to the position of managing editor. He resigned that position on receiving a government appointment as secretary of the South American commission. Mr. upon. Mr. Lanman (Texas) demanded Curtis traveled extensively in Central the ayes and noes. The bill was passed and South America while in this position, producing several popular vylumes as the result of his literary // bors. Afterward co-operating with Secretary of State James G. Blaine, Mr. Curtis organized the work of the Bureau of American Republics with the result that he was placed in charge of that organization, and at the World's Columbian Exposition he distinguished himself by his labors as the executive head of the Latin-American department. As correspondent of the Chicago Record-Herald Mr. Curtis' travels have carried him into every setion of the United States as well as into all quarters of the globe. His China and Japan letters were published in book form; likewise his letters Liberal candidates, and it is now in from England, Germany and France, as well as those written during his travels in Mexico and South America. No newspaper correspondent pos-sesses the facility shown by Mr. Curtis by witing on any of the diversified subjects embraced in his correspondence and making it luminous. Nor is any correspondent followed so closely year after year by the thous ands of readers of the Chicago Record-Herald. On his recent trip to the Holy Land Mr. Curtis' letters have been read more closely than ever, and his descriptions of that interesting section of the globe as it appears today have been quoted everywhere.

WOMEN VOTED ELIGIBLE

For Admission to the Methodist Church Courts.

Take Action in the Matter.

June 10.—The Toronto Methodist Conference, by an over-whelming vote decided yesterday morning in favor of the admission of women to the church courts. A memorial favoring this was sent on to the conference from the districts of Toronto West and Nipissing. When the report was brought up an amendment was moved by Alex. Mills that it be sent to the General Conference as a memorial from the Toronto

Conference. The adoption of the principle of women delegates to conference was vigorously opposed by Rev. Dr. Dewart, Mr. Joseph Tait and other members. Mr. Tait said the great majority of the women of the church did not want representation, and the few who did want to sit in conference conference could well do without. On a show of hands, however, Mr.

Mills' amendment was adopted by a large majority.
Woodstock, June 10.—At the Hamilton Methodist Conference it was recommended that women be permitted to occupy seats in all the courts of the

Dosperadoes Fled-Big Force Scouring Woods Near City for th Fugitives.

Salem, Ore., June 10 .- A mutiny occurred in the state penitentiary yesterday morning as a result of which ed, and two desperate prisoners, heav-

ily armed, escaped. The prisoners employed in the founand had entered the molding room, with Shop Guard Ferrell inside, and cial arrangement, the maid-servants Guard Stapleton in an adjoining room. Without warning, two convicts named Tracy and Merrill appeared with rifles. Tracy aimed at Ferrell, when Ingram, a life prisoner, attempted to reach and pedo boats were following to pick him disarm Tracy. Instantly Merrill shot Ingram and Tracy shot Ferrell, the latter dying almost instantly.

Tracy and Merrill scaled the wall near the northeast corner stockade by a ladder. From outside the wall Guard Jones was shot twice and killed. Tiffany was also shot, and he dropped from the fence, engaging the fugitives in a fight. His gun was soon empty and he was taken by the convicts and used as a shield while they made for the timber. When out of range of the prison, they stopped and deliberately killed Tiffany, escaping into the timber immediately.

Duncan Ross, a new guard, was on the fence near Tiffany, having been one bullet striking him in the forehead, inflicting a slight scalp wound.

BIG FORCE AFTER THEM. A large force of men is now searching for the fugitives, who are known to be in the timber between the prison and the reform school, and as they are desperate a battle is expected before they can be secured. The authorities offer \$1,000 for the capture of the prisoners. The three guards killed had families. Great excitement prevails in this city, and scores of men are leaving for the woods, armed and determined to run the murderers down. A farmer has just reported that he saw the fugitives in the woods near the reform school, four miles west of the

Irish Land Bill Will Be Dropped-Whitelaw Reid Honored by Cambridge.

REMEMBERED BY THE QUEEN. London, June 10.-The Bishop of London, Rt. Rev. Arthur F. Ingram, three guards and one convict were kill- D. D., has announced that Queen Alexandra will provide a "tea" for 10,000 female domestic servants, in celebration of the coronation. Her majesty, dry were marched to work at 7 o'clock, in discussing the matter, said it seemed to her that without some such spewould be a class of people who would be quite left out of the celebrations. Each servant will also be presented with a medal bearing on it the heads of King Edward and Queen Alexandra.

IRISH LAND BILL TO BE DROP-PED.

In the House of Commons yesterday George Wyndham, chief secretary for Ireland, expressed the opinion that it would be inadvisable to proceed to the second reading of the Irish land bill unless there was a good prospect of getting it passed in the course of the

present session of the house. This expression from Wyndham is indicative of the intention of the government to drop the Irish land bill altogether, especially as an inspired statement to the effect that the government is endeavoring to dispense ordered to relieve the latter. Ross was with the autumn session of parliament unarmed and the convicts shot at him, has been issued. John Redmond, the leader of the Irish party in the house, has called a meeting of his party for today to discuss Mr. Wyndham's

statement. VITALITY OF KING OF SAXONY. King Albert of Saxony, who has been ill for some time, was unconscious for a part of Sunday night. His majesty was surrounded by his family, who momentarily expected the end, and he had received the last sacraments. Yesterday, however, his majesty sat up and had breakfast, smoked a light cigar and insisted on disposing of some state business. This exhibition of vitality on the part of the king has quite startled his physicians, who, however, entertain the gravest fears for the next relapse.

In delivering his charge to the grand jury, Judge Elliott said that the calendar presented to him by the sheriff showed that there are no persons in jail awaiting trial, and in ac-cordance with the time-honored custom the sheriff had presented him with a pair of white kid gloves. This scar-city of crime was a matter of congratulation to the county. It is a well known fact that throughout Ontario petty crime is on the decrease, showing a better quality of morality and the leading of honorable and honest lives by the people. This might be greatly attributed to the era of prosperity which the province is enjoying. The duties of the grand jury, said Judge Elliott, would be light, there being only three cases to be considered by them. In one case, in which counhearing the evidence, would probably a reception and a dance by the Ottawa be in a position to return an indict-Masons and friends in Harmony Hall. ment against the party on whom the blame chiefly rests. It's not what you have done, but what you have left undone. Pray, since when have gentlemen considered it honorable to break their word to a lady because she's a cousin? Where were you last Thursday, when you ought to have met us at Sydenham? and even Aunt Olivia said it was just like you to forget all about it!"

There is a look of mingled confidence and inquiry, more akin to Lord Martingale's calculating glance as he eyes the favorite for the Derby, bred by himself, and trained in his own stable, stripped and mounted for the race; or Herr Merlin's sweeping review of his magic rings, his all-productive hat, and the other accessories with which he effects his incredible feats of legerdemain.

The reflection is that of a striking girl enough. A tall, graceful form, too slight, it may be, to fulfill the rigorous standard of womanly beauty, but rounded and symmetrical as a nymph's, with the way, he dances as well again as he did last year. Besides, the pigeon match didn't prevent people going to see those Montpellier's yellow barouche was there from 3 till 5, I suppose she gave you a lift back into London."

Headache, insomnia, nervous prostration and loss of memory made up my troubles, and I feared they would lead to insanity. The doctors treated me, but I did not get any better. My friends advised me to try Paine's Celery Compound. The first bottle gave me little relief, but the second began to work miraculously on my nerves. I continued using the Compound, and after taking nine bottles I can say I am positively cured."

It makes all the difference in the world whether the umpire favors you or the other fellow. The average baseball fan is the most inconsistent crityou the best of it he is a level-headed, clear-sighted gentleman; if his decision leans toward the other fellow he is a pig-headed robber. Let us take an example, as Dinkelspiel would say. In the last issue of the Sporting News appears the following from an Albany corresondent: "Four thousand excited fans witnessed the robbery of Albany on Memorial Day by Umpire Hunt. In the ninth inning, with the score 1 to Yesterday at the 0 in Troy's favor, Albany had men on third and second bases. Two were out and Pat Nillerick hit to Hilley, who threw to Smink at first. Smink who is built like a ferryboat, not only planted himself in the base lines, but muffed the throw. Hunt was dry, however, and probably did not even see the play. At any rate he called Millerick out. And this was where Mr. Hunt's troubles began. The mob surged about him, but the Albany players, asisted by the police, escorted him to the box office, where he was hidden in an ice-box until the crowd had dispersed, after which he took a roundabout way through the back streets to his hotel. Hunt is grossly incompetent and should be retired."

In an adjoining column of the same it happened, thus: "The Memorial Day games between Albany and Troy were 100 The morning game in Troy drew 1,600 | Time, 1:03. people under threatening weather conditions, being the only morning game played in the league. Umpire Hunt was brutally treated by Albany toughs."

There was nothing the matter with ourselves or with our ponies. We hope to give a better account of ourselves on June 14." The English team seemed to take the ball down to the American goal as they liked, and nothing but the superb defense, in which Waterbury was ever ing a still higher score. The spectators were all at very high tension when play began. The English stood on their chairs, yelled, cheered and waved umbrellas whenever their side scored. Buckmaster was the special hero of the home crowd. He was accorded a 1:13%. great ovation when he rode off the field at the finish. English hopes of winning the final game are now high, and there is no question that next Saturday's contest will draw out one of the greatest fashionable sporting crowds ever gathered at an international contest here.

Among the Stick Handlers.

Brantford's team have been carefully selected and are well balanced from end to end. They should class as one of the four or five greatest clubs now playing the game, thinks the Toronto Telegram. They should beat St. Kitts or any other club in Canada on their own grounds.

The remains of Cornwall's team 3. Time, 1:16%. and some intermediates will go up against Montreal tomorrow. The remains are Billy and Jack Broderick, Allen. And the chances are the remains will be good enough for Mont-real.—Toronto Telegram, June 6. And the remains were. Nothing remains to be said.

Toronto Telegram, June 7: Woodstock may not beat London today, but taken as a whole they look to be the stronger team. London has too many men with reputations, and in their game here they displayed enough jealousy to disrupt a dozen teams. Every player seems to think the other player should do the work while he, himself, reaped the glory. On the other hand Woodstock has not imported many reputations. The only one in fact is Hess, and to his credit be it said that the snappy little goalkeeper does not depend entirely on his fame, but does a fair share of the work as well. The rest of the team are husky young fellows with reputations not yet com-pleted, who if they can be bound together as a team ought to pretty nearly land the banner in No. 2.

Montreal Herald: Torontos are indulging in some wild talk, and all because they defeated a few dub teams in Great Britain. Why, they would be doing quite as glorious a thing if they went to work and defeated the Young Torontos, the Quebec Juniors and a few others of that calibre. Here is what President Howard said about the trip: "We're home again and we're going to keep up our winning streak.

Later on we may go to Australia, but we'll tell you about that after a while, when we win the championship-if we dowe'll hang these two together." Mr. Howard certainly has a vivid imagination, and if it would stop working in spasms he might set up as some kind of a prophet. A man that can see so many thousands ahead as the day when Toronto wins the N. A. L. U. championship ought to be able to tell people (for a consideration, of course) whether their names were down in St. Peter's invitation book or the other place. BASEBALL. THE PITY OF IT.

Sporting Life: The "world do move." Dirty ball playing is no longer acceptable to the public in major league cities. This is made evident by the fact that tricks of interference which some years ago were at least tolerated are nowadays everywhere hissed and hooted even when practiced by home players. This shows advancing public opinion and a gratifying increase in the love of fair play, thanks to constant press hammering. In time even the much abused umpire will receive decent treatment-perhaps not as perfect as that accorded cricket referees in the old country, but at least as good as that given prize fight referees.

Voters' League Was Not Consulted About Attack on Advertiser.

To The Editor of The Advertiser:

I notice a letter in Saturday's Free Press which I regret to see, as a member of London Prohibition Voters' League. I am glad to see that it has been sent to the press by the Prohibition League, and not by the organization that brought Mr. Daly into the field, surrounding places. The service was conducted by Rev. W. A. Wylie Afterwards adjournment was made to the hall, where the Hyde Park Camp that brought Mr. Daly into the field, namely, the Prohibition Voters' League. We are all aware it was disappointing to The Advertiser to have not join it. But I am satisfied this letter would not have been sent to the press had it been submitted to the Prohibition Voters' League, which has not met since the campaign. The announcement, as read by the Rev, C. T. Scott at the Auditorium on the evening of the day of the election, which he took the responsibility of preparing, bespoke the opinions of the Prohibition Voters' League; but this article which appeared on Saturday as a defense of the Prohibition Voters' League was altogether too highly colored. I for one do not expect the party papers to put the real interpretation of the motives of the league in large headlines in their columns, and I believe it is not the desire of the Prohibition Voters' League to be drawn into the party press to be pounded by either side of politics. If the temperance societies, or the Pro-hibition league desire this kind of warfare that is their affair. But let not the voters of the city think that this is the intention of the London Prohibition Voters' League, at least not until they have passed on the

matter.

The Prohibition Voters' League and the Prohibition League are two separate organizations. The Voters' League is an organization of voters pledged to vote for prohibition and the principles of temperance reform matter. the principles of temperance reform.
