This morning the Ontario Prison Commission opened its sessions at the County Court room in the Court House. Before opening the commission the members, accompanied by the press representatives, paid a visit to the jail. Here everything was found neat and clean, and provoked general complimentary comment. Afterwards they met in the court-room, where proceedings were opened with all members present, as follows: Messrs. J. W. Langmuir (chairman), Hon. Chas. Drury, Hon. T. W. Anglin (secretary), Dr. Rosebrugh, A. F. Jury.

Chairman Langmuir announced that the objects of the commission were:

1. To examine into the cause of crime.

Rosebrugh, A. F. Jury.
Chairman Langmuir announced that the objects of the commission were:

1. To examine into the cause of crime.
2. To discover if any improved means were available for the forming of industrial schools.
3. To ascertain the best method of rescuing little children from criminal careers.
4. The best management of prisones.
5. The classification of prisoners and best employment of the same.
6. To investigate into the question of indeterminate sentences.
7. To inquire as to the best method of dealing with habitual drunkards.

JALLER MERCER, or CHATHAM.
Robert Mercer, jailer of Kent county, was called and sworn. He had filled his present position since 1872, and previous to that time had a position in the sheriff's office. In his jail there were three wards, two for males and one for females. The jail would not admit of the grading or classification of prisoners. Prisoners in for the first offense were mingled with hardened prisoners. Prisoners in the sherible of the prisoners taught boys the ways of crime. It was usually owing to intercourse and without malice, but the hardened ones would sometimes do it with malice. The only classification that the jail would allow was the boys being kept from the men, and when there was a full jail even this had to be abandoned. Insane persons were often in the same wards with tried prisoners.

Chairman Langmuir—What is your experience with the Central Prison ?

Witness—My experience with the Central Prison is that it is an excellent institution. It has been a terror to offenders, and they have frequently said that they would sooner go to penitentiary for three years than be sent to the Central Prison ior two years. It is the discipline and hard work that terrifies them more than anything else.

Chairman Langmuir—What would you suggest as the best method of treating

clase. The more than anything else. Chairman Langmuir—What would you suggest as the best method of treating drunkards? Witness—I would suggest an inebriate asylum. I look upon drunkenness as a man's misortume, not his erime. I have had men sent to prison for drunkenness, and when they came back in a week they were as bad as ever.

Chairman Langmuir—Have you not known men to have been improved by a term in jail.

Witness—Not drunkards. I think it is a disease. Of course there are exceptions. I think that moral suasion and mental treatment is the proper course, but I have never known a man to be cured by imprisonment. Chairman Langmuir—Do you think it desirable to have a poor house in your county?

Witness-No; not for the first or there is any harm in prisoners being associated with those awaiting trial Witness—Yes; I think there should be a separation, but I consider solitary confinement as the greatest punishment that can be inflicted upon a man.

Chairman Langmuir—Of the two cases of the second second confinement as the confinement of the two cases of the confinement of the c

association and solitary confinement—which would you prefer?
Witness—Association by all means.
Chairman Langmuir—Do you have any regular religious services in the jail on Sabbath morning?
Witness—No; we have no regular service, but if the prisoners ask for a spiritual adviser one is sent for. We have no library, but I have asked the county for one.

one.

Chairman Langmuir—Do you think that it would be a good thing for the jails if the Government controlled them.

Witness—Yes; I think the Government should control all the jails. The management would be much more systematic, and it would doubtless then be possible to have a better classification. There are a great many things which could be remedied if the Government controlled the jails instead of the counties. There would be a greater uniformity.

uniformity. Chairman Langmuir-What work have Chairman Langmuir—What work have you for your prisoners? Do you think the majority of them able to work?

Witness—There is very little to do at our jail. There is uo stone to break and very little wood to cut. I think that they should be employed at something, however.

Commissioner Jury—Have you met with any boys that have been assisted to this country for farming bands by Bernard and other English philanthropists? If so, what characters do they bear?

Witness—I have heard of them only by hearsay, but they do not bear a good character. I had two of them to deal with myself.

Chairman Langmuir—What do you think are the great causes of crime?
Witness—There are two causes—the early training the boys receive, and the living of an indolent life. Intemperance might also be a cause of crime. I would hardly be agreeable to having truancy made a crime. I think it would be a good thing to have the hardened prisoners work on the streets. I would also favor the establishment of industrial schools for children from 5 to 14 years where they could have an elementary education.

SHERIFF MERCER, OF CHATHAM.
Sheriff John Mercer, father of the pre-

CAIRNCROSS & LAWRENCE

vious witness, was called and sworn. He agreed with the former witness that the Government should have control of the jails and as to the establishment of industrial schools and poorhouses. The appointment of the prison inspector by the Government was a step in the right direction and had greatly improved the condition of county jails.

Chaigman Langmuir—The Ontario Government is charged you know with wanting to centralize everything in Toronto. What do you think of it?

Witness—It is all stuff and nonsense. I think the county would be willing to allow the Government to take over the jails without paying for everything. Crime I think is on the decrease. There is not one tenth the amount of drinking now that took place twenty years ago.

Chairman Langmuir—Are you of the opinion that an institution like the Central Prison should be erected somewhere in the West.

at once.

Chairman Langmuir—What do you consider the chief cause of crime?

Witness—Idleness.

Commissioner Jury — Is the idleness caused by inability to find work?

Witness—I think that every one that wants work can get it, if they are not particular, of course.

between 40,000 and 50,000 words, the product of Mr. W. C. Coo's stenographic services on that occasion. When the committee settled down for business, the following gentlemen were in their accustomed places: Trustee Stephenson (chairman), Luscombe, Allaster, Rowlands, Johnston, Yates, Principal Woods and Inspector Boyle.

Some discussion ensued as to whether the committee were required by resolution of the Council to take evidence on the affair and submit it to the Board, or to take action on that evidence and report their findings on the same to the Board.

It was stated that the Board in its resolution merely referred it to the committee,

lution merely referred it to the committee, and although ordering the latter to take the evidence, did not explicitly lay down what action the committee were to take in dealing with the charges after the evidence had been heard.

Trustee Johnston thought the committee could exercise its own discretion about that matter.

could exercise its own discretion about that matter.

Trustee Allaster considered that it was right for the committee to take action on the evidence which had been received.

Trustee Luscombs—I move that the committee having heard the evidence report the same to the Board. The question is whether we have power to make any finding on the charges, or whether we should investigate the charges and report back.

Trustee Rowlands—My impression was, that we had to take the evidence and report it book to the Board. Now, the question is whether anything further would be in our province on going further would be in our province on going further would be in our province to the Board and some of the members and fault with it, they will want to go all over it again.

Trustee Stephenson said that in his

Trustee Stephenson said that in his appaient they ought to go over the charges and make their fludings on each of them.

Trustee Allaster thought it would be well to leave a copy of the evidence contained in the books in the secretary's office for the members to peruse and form their conclusions, and to vote as they saw fit when the matter came before the Board.

Trustee Lyansoombe said that would have to be done anyway.

Trustee Johnston—I think we had better refer the whole matter to the Board and make our recommendation, and they can take it for what it's worth.

Trustee Yates—As far as I am concerned, I do not think that properly we are the ones to make the recommendation.

Some more discussion took place, as to how the books were to be distributed in order to give each member of the Board a chance to look at the contents.

Trustee Rowlands said the question arose in his mind, if it were proper to let the

Trustees Stevenson and Yates agreed with Mr. Rowlands.

Trustee Johnston—Well, if we had not excluded the reporters at the last meeting, the evidence would have been before the members and the public as well.

Principal Woods asked if the committee could give him any idea when the next meeting of the Council would be held, as he wished to fill an engagement that would keep him out of the city until Saturday.

Trustee Stephensom said he did not think a meeting could be held this week, as all the members would not have read the volumes through by that time. He would keep one of them as Chairman, and the other three would have to be passed around when each had finished it.

Trustee Rowlands asked the members if they desired to read the books after hav-

the affirmative.

Principal Woods—I suppose I can have
a glance at it, too, Mr. Chairman. I was
half asleep at the time, although I didn't
look like it.

Trustee Stephenson—Certainly.
Trustee Luseombe moved that the evidence taken in the matter of the charges
against Mr. Woods be reported to the
Board.

Trustee Johnston asked that the words

"pursuant to the resolution of the Mr. Luscombe complied, and the motion

assed unanimously.

The matter of distributing the books was The matter of distributing the books was again talked over and it was decided that it would be slow work with only three books among eighteen members.

Principal Woods thought that it would take a much longer time than expected, unless each member sat down and made a whole meal out of the book.

Trustee Johnson remarked there was all day Sunday to ponder over it.

Trustee Rowlands said he didn't care for that kind of reading on Sunday.

Trustee Kowlands said he did to case to that kind of reading on Sanday.

Trustee Yates moved that four more copies bound in paper be supplied at a cost of \$20, the price mentioned by Mr. Coo.

Trustee Johnston—We'll have to get one for the Minister of Education, bound in

should be careful as the expenses were running high.

Trustee Luscombe—Oh, we'll take that out of the Chairman's salary.

Principal Woods was given to understand that it would be all right for him to be absent from the city until Saturday, as the Board would not meet this week.

Trustee Yates' motion carried, and the eight volumes, containing the proceedings of the all-night secret session of the committee, will be distributed exclusively among the members of the Board, for their edification.

muir was for many years inspector of prisons in this Province, and probably knowe more about the shortcomings and necessities of the system for disposing of the criminal population than any other man in Ontario. Hon. Mr. Drury is one of the best informed public men in the Province. Dr. Rosebrugh is not only eminent in his profession, but a leader in more than one philanthropic movement for the benefit of the masses. Of Mr. Jury it can truthfully be said that few men have worked more assiduously and unselfishly for the promotion of the welfare of the working classes. He is a recognized authority on all subjects affecting the breadwinners. Yet he is not a one-sided theorizor, but can take a broad, liberal view of any matter affecting the public welfare. Hon. Mr. Anglin's extended experience in Parliament will stand him in good stead in performing his duties as secretary of the commission.

Trom the inquiry and labors of this body we expect good results. The commission ers are men thoroughly in earnest, and may be relied on to leave nothing undone to make the leaves and most procession in the contracts with the two companies are men thoroughly in earnest, and may be relied on to leave nothing undone to make the leaves and may be relied on to leave nothing undone to make the leaves and may be relied on to leave nothing undone to make the leaves and may be relied on to leave nothing undone to make the leaves and may be relied on to leave nothing undone to make the leaves and liberal view of any matter affecting the public welfare. In this list should be embraced all progressive clizens. We trust that before the commission leaves London every person who has an idea, or believes he has an idea, on the subject of the treatment of criminals or the prevention of crime worthy of being considered by the commissioners of being considered by the commissioners will go before the commissioners and give it the time for completing the buildings and works every the implement the contract. will go before the commissioners and give it atterance. The commissioners invite asutterance. The commissioners invite as-sistance of this kind. The prison system has been pretty freely canvassed in recent years. Now is the opportunity for placing opinions and experiences at the disposal of a body which may be relied on to turn then to the best account.

So far the commission has been remark ably successful in collisting the aid of spirited men, and we have no doubt their spirited men, and we have no doubt their report will be a most interesting one. We trust the commissioners will keep steadily in view one great ob-ject of dealing with criminals. While it is right that punishment for wrongdoing should be exemplary, in order to deter others from going astray, the element of hope in the individual punished should ever ept in mind. It is not enough that man shall be ostracized for a time from his fellows because he has fallen by the way. He should be taught that though society demands his punishment it desires that he should get back on the right track as speedily as possible. How can that best be accomplished? We believe that the interests of the community and of the interests of the community and of the offender against its laws can be subserved by inspiring in the prisoner a belief that all is not lost because he has been tempted and has yielded. Why should a prisoner not be kept at work, and the results of his labor, after paying for his bare sustenance, become a fund for giving him a start in honest life when he is sent advits, or, if he is mearried, be handed is sent adrift, or, if he is married, be handed over to his family to aid in their susten-ance? In nine cases out of ten they have done nothing to deserve the incidental privation, but they must either suffer, become wards of the public, or be tempted

ELECTRIC LIGHT BLINKING. There is something comical about the manner in which the subject of electric lighting has been treated by the City Coun-

cil. Early last year the aldermen resolved to move in the direction of buying a plant, city should control its own illuminating apparatus. A large section of the community, while indorsing the principle of municipal control of such works as can be profitably managed in the common interest of the taxpayers, have held OUR VISITORS AND THEIR MISSION.

we expect good results. The commissioners are men thoroughly in earnest, and may be relied on to leave nothing undone to make their report and recommendations to the Legislature as comprehensive, as practical and beneficial as possibly can be.

The commissioners, however, need and deserve the sympathy and co-operation of every philanthronist and every person.

It may be that before the advertisement ealling for tenders had to be telegraphed to the trade journal which electric light companies are understood to specially peruse. Now, as it has been found that the Edison Company was not apprised of the matter the Council has extended the time for calling for the tenders.

The point is that working girls in the main do respect themselves, that they are oftener forced from home by necessity than drawn away by vanity or ambition, and that society owes them something better than indifference, charity, or a patronizing interest. It owes them warm human friendliness and companionship, and the aid that sheltered lives can give to those who tread rough and lonely paths.

The Great Blood Purilier.

A Word to the People.

"Truth is Mighty, and will

THE remarkable effects and most satisfactory results, in every variety of disease arising from impurities of the blood, which are experienced and made manifest from day to day, by those who have taken NORTHROP & LYMAN'S VEGETABLE DISCOVERY for complaints which were pronounced incurable, are surprising to all. In many of these cases, the persons say their pain and sufferings cannot be expressed, as in cases of Scrofnla, where apparently the whole body was one mass of corruption.

This celebrated medicine will relieve pain, cleanse and parify the blood, and cure such diseases, restoring the patient to perfect health after trying many remedica, and having suffered for years. Is it not conclusive proof that if you are a sufferer you can be cured? Why is this medicine performing such great cures? It works in the BLOOD, the Circulating Fluid. It can truly be called the

GREAT BLOOD PURIFIER.

The great source of disease originates in the BLOOD, and no medicine that does not act directly upon it, to purify and removate, has any just claim upon public attention. When the blood becomes lifeless and steguant, either from change of weather or of climate, want of exercise, inegular diet, or from any other cause, NORTHEND & LYMAN'S VEGETABLE DISCOVERY will renew the Blood, early off the putrid humors, cleanse the storach, regulate the bowels, and impart a tone of vigor to the whole body.

The conviction is, in the public mind as well as the medical prefession, that the remedies supplied by the VEGETABLE MISCOOM are more asfe and more effectual in the cure of disease than mineral medicines. The Vegetable Discovery is composed of the juice of most remarkable roots, barks and herbs. It is pleasant to take, and is perfectly safe to give an infant. Allow as to ask you a candid question:—Do you need it? Do not hesitate to try it. You will never regree it. All druggists have it for sale.

Mr. JOHN C. Fox. Olinda, writes:—"Northrop & Lyman's Vegetable Discovery.

more good than anything they have ever taken."

IN ITS WORST FORM.—Miss Juba A. Pheworth, Toronto, writes:

"I had Dyspepsia in its worst form for over a year, but after taking three bottles of Northrop & Lyman's Vegetable Discovery, a perfect cure followed. I take great pleasure in recommending it to anyone sufering from Dyspepsia."

Mr. W. THAYER, Wright, P.Q., had Dyspepsia FOR TWENTY YEARS. Tried many remedies and doctors, but got no relief. His appetite was very poor, had a distressing pain in his side and stomach, and gradual wasting away of fieth, when he heard of and immediately commenced taking Northrop & Lyman's Vegetable Discovery. The pains have left, and he rejoices in the enjoyment of excellent realth; in fact he is quite a new man.

Our Mr. Young has just returned from a purchasing trip to England, and our new goods will be coming forward almost at noce, and just now the two things required most, by us are:

LONDON, Wednesday, Aug. 20.

The past week has become interesting in grain circles, not because situation was interesting in grain circles, not because in the superior demand made prices will go to sit a demand and an advance of about 20 per bushel and 25 per cwt, influenced by Chicago and the West. Markets there were away up yesterday, closing so over Monday. This morning prices were off again, selling like lower.

Corn, peas and barley are quoted, but prices

John Grimes confessed to having tasted a quantity of his favorite beverage. He was allowed to go.

John Finnegan denied that he was drunk, as he had taken but two glasses of beer. The Chief said that he was decidedly the worse for liquor when he saw him in the cells. Finnegan said that the realization of being in such a place, where he had never been before, caused him to act somewhat strangely. The Magistrate thought the effects were entirely natural and imposed a fine of \$3 or five days.

Henry Bawden, a traveling insurance man, was summoned a while ago for furious driving, but did not appear at the court. It was found that he had left the Tecumseh House, baggage and all.

She had found John's home, had talked with his brother, and anything so mean and sordid she had never seen. She had had a rude shock, and yet, by one of those seeming contradictions which occur in human nature, and in human nature alone, the current of her feeling was towards John, not from him. By a flash the whole situation was revesied to her—she saw clearly into her own heart, and what had lain hidden there, and she could not all at once look upon it.

Deepest silence reigned, except for the flow of the brook and an occasional and far-distant knocking, which came out of the hills, more like an echo than the real sound. She wondered if she had got into an enchanted country—she almost believed it; and, fascinated beyond her powers of resistance, she went farther up the valley. Turning a corner she found herself out of sight of the path which had brought her there, and completely encompassed by these gloomy hills. The path mounted and she found herself leaving the stream at the bottom of the valley, so that its ripple grew fainter and fainter, and at last became inaudible. Still she went on; the mountains seemed to be drawing her to them, and she must obey. She forgot sime, she forgot her mother and Rupert; whe was once more under the influence which had possessed her on the last stage on her journey at Jacewo—the feeling that she was lost, and yet in the hands of some unknown power which urged her on in spite of herself; the feeling that something out of her experience was going to happen to her—which would influence her whole future life. Again she stood still and listened. She could hear her heart beating; except that, nothing but the wind among the hills, and the distant tapping, as of ghostly miners at work at some unearthly task; not the bark of a dog, the low of cattle, or the bleat of sheep; and yet she was near a house. She had almost attained the purpose for which she came there.

She turned another corner, and the seen changed. The valley widened out, and the hills saffit; trees clothed their sides and folled the ravine tirough which the stream flowed; and far below her she heard the for a recitation at a Sunday school ex-hibition, told the audience of a place "Where every prospect pleases And only man has bile."

Mr. Walter Mann, of London, arrived in the city on Saturday on his bicycle, having started from London that morning. He will remain here on a short visit. He was delayed a short time by an accident, in which he bent the fore wheel and broke a couple of spokes. The roads, he says, are not the best in some parts for bicycling.—[Brantford Expositor.

—A correspondent writes: "I read in your paper regarding a cion of the House of Guelph, stating she was a daughter of George IV., having died in 1867, aged 46 years. Was not George in his grave long, before she is stated to have been born. This woman, according to the tombstone in Mount Pleasant Cemetery, was born in 1821; George IV. did not die until 1830.—Editor Advermskal]

On Monday night the excursion train from Port Stanley stopped at Gray street and a number of people got off. Among the number was Mr. Lawrence, section foreman of the G. T. R., who lives in that neighborhood. He left his baskets containing dishes and other remnants of the picnic in a dark corner and went as far as his house with his wife and the children, returning in a very short time for what he had left behind. He did not get them, however, as somebody had helped themselves to the dishes, baskets and all.

The Six Months' Hoist.

A. B. C., a Rosedale correspondent asks:
When a bill gets the six months' hoist, can
it according to Parliamentary rules be
reconsidered before the six months
expire? [The six months' hoist postpones the consideration of the bill six
months from the time the motion is made,
and is intended to carry the consideration
beyond the end of the session. It can't be
reconsidered till the time expires. When
it does expire it is again upon the order
the time the session should last that long.—

fair show.

We do not think the Western Fair people are at all neglecting the work of making known and booming our great exhibition. They will no doubt do their level best, and they should be aided by the citizens, every one of whom ought to be a volunteer advertising agent of the Western Fair. The Toronto and Detroit fairs are advertising extensively in the London papers, making a specialty of the splendid weekly circulation of the ADVERTISER. They know buttered toast when they see it. If outsiders, whether cities or private firms, are allowed to run away with the plum of advertising advantages open to all, they are not to be blamed for their enterprise, but rather commended.

London District Methodists.

The financial meeting of London District of the Methodist Church was held yesterday at the village of Lambeth, Rev. W. McDonagh, as chairman, and Rev. G. W. Henderson, secretary. Sixteen ministers and thirteen lay members answered the roll call. The meeting commenced at 10 a.m., and during the morning session had under consideration the contingent fund appropriation, which was apportioned to King Street and Queen's Park churches. The one domestic mission (Hamilton road) of the district occupied a considerable portion of the same sitting. After enjoying the hospitality of the friends on the Lambeth tendents of the Sabbath schools and two representatives from each school as delegates to be billeted. A committee was appointed to make all the necessary arrangements. After a very hearty vote of thanks to the Lambeth friends the meeting adjourned, a number staying over until the evening, when by request the Rev. George Boyd, of Queen's Avenue Church, preached and conducted an evangelistic service in the village.

Save Your Hair

DY a timely use of Ayer's Hair Vigor.

This preparation has no equal as a dressing. It keeps the scalp clean, cool, and healthy, and preserves the color, fullness, and beauty of the hair.

"I was rapidly becoming bald and gray; but after using two or three bottles of Ayer's Hair Vigor my hair grew thick and glossy and the original color was restored."—Melvin Aldrich, Canaan Centre, N.H.

"Some time ago I lost all my hair in consequence of measles. After due waiting, no new growth appeared. I then used Ayer's Hair Vigor and my hair grew

Thick and Strong. Thick and Strong.

It has apparently come to stay. The Vigor is evidently a great aid to nature."

J. B. Williams, Floresville, Texas.

"I have used Ayer's Hair Vigor for the past four or five years and find it a most satisfactory dressing for the hair. It is all I could desire, being harmless, causing the hair to retain its natural color, and requiring but a small quantity to render the hair easy to arrange."

Mrs. M. A. Bailey, 9 Charles street, Haverhill, Mass.

"I have been using Ayer's Hair Vigor for several years, and believe that it has caused my hair creating its natural color."—Mrs. H. J. King, Dealer in Dry Goods, &c., Bishopville, Md.
