Freshman Week	300.00
Accounts Payable	1,570.00
Budgets	6,170.79
TOTAL	8,040.79
Credit	10,370.00
Debit	8,040.79
SURPLUS	2,329.21

SUMMARY OF BUDGETS

S.R.C.	253.00
Brunswickan	1,350.00
I.S.S.	68.00*
N.F.C.C.S.	415.00*
Social Committee	52.20
Radio Club	773.40
AAA.	365.94
Men's Basketball	88.81
Ladies' Basketball	769.00
Hockey	622.72
Soccer	812.77
Canadian Football	22.10*
Tennis	244.07
Special	212.00
Debating	8.85
Track (Supp. Budget)
TOTAL	6,170.79

* Budgets already passed by S.R.C. since funds needed immediately. This does not include Badminton and Tennis (M.I.A.U. Meet) budgets which were tabled since the team managers were not present at the preliminary budget meeting to defend their budgets. The above surplus does not include the \$2,000.00 debt owed by the Year Book to University Press of N.B., incurred during the past several years.

di Cenzo Awarded Athlone Fellowship

Colin D. di Cenzo, U.N.B. Electrical Engineering Graduate, Class '52, and member of the permanent force of the Royal Canadian Navy has been unanimously selected over keen competition to receive an Athlone Fellowship. The Fellowship is awarded annually by Her Majesty's Government in the United Kingdom to enable engineering students to continue training in the U.K. for a period of two years upon the understanding that the holder must return to Canada to follow his career. The holder of such a Fellowship may obtain works training in one or more approved industrial organizations or post graduate studies in a U.K. University, college or research establishment. A combination of these first two may be had or a fourth option giving research in a U.K. university leading to the degrees of M.Sc. or Ph. D. may be chosen. The R.C.N. has permitted di Cenzo to accept this Fellowship and has transported him and his family to England. It is felt that di Cenzo's taking this course will make him invaluable to the

Engineers Underway

The first meeting for this year of the U.N.B. Engineering Society was held last week in the Civil Engineering Building with Society President Earl Bryenton in the chair. Highlight of the meeting was a talk by Dr. E.O. Turner on the history and objective of the Society. At the same time he passed on advice to the Engineers present. Selection of Committee Chairmen was the next item of business followed by the initiation of a number of freshmen into the Society. The Initiation was carried out in the traditional manner. A report was given by James Calkin on the Annual Meeting of the Engineering Institute of Canada held at Vancouver last May. Following the completion of business the Engineers retired to Ma Bailey's for refreshments. R.C.N. in the fields of electronics and communications. The U.N.T.D. Staff Officer wishes to have it pointed out that recruits will be accepted for the U.N.B. Division of the U.N.T.D. until October 17th. The U.N.T.D. is anticipating a very good year.

U.N.B. Faculty Club Organized

At a general meeting of the faculty on Tuesday, September 30th, a new organization came into being: The University of New Brunswick Faculty Club. The result of six months of planning and preparation, the Club has premises, furniture, a coffee bar, a constitution, officers, and, above all, a paid-up membership.

In a sense, the Faculty Club is a consequence of the growth of the University. For the faculty, this growth has meant increasing numbers and dispersal, and a tendency towards fragmentation into "faculties". Nowhere was there a common meeting ground, a social centre to draw the faculties together and preserve the sense of community.

In recognition of the need for such a centre, the faculty last spring created a committee under Professor W.Y. Smith to see what could be done. With good will and good works from many sources, the club became a reality. The Senate of the University eliminated the first obstacles by authorizing the use of the Observatory, a grant of \$525. for its refurbishing, and a further grant of \$900. to assist in furnishing. The faculty themselves, at a subsequent meeting, approved a general subscription to assist in equipping the Club, and gave added evidence of their support in the form of volunteer labor to renovate the premises. The University lent its carpenters and painters, the provincial architect gave advice, and local firms gave generous discounts. Under the direction of Professor Smith's committee the Observatory was made ready, serving arrangements were tested during the Summer School and a draft constitution and budget were prepared. And on September 30th, the Club was born.

Dr. Trueman, who gave valuable support to the move from its inception, is Honorary President. The affairs of the Club are directed by a Council, consisting of Professor Smith as President; Professor S.L. Pringle, Vice-President; Professor Frank Milligan, Secretary; C. L. Mahan, Treasurer; and Dr. Althea Warren, Professor N. R. Brown, Professor R. J. Collier, Dr. G. S. MacKenzie, Professor R.H.B. McLaughlin, and Dr. F. J. Toole.

Student Centre Plans Furthered

During the summer and early fall two sets of preliminary drawings of the floor plan of the new Student Centre have been examined and certain suggestions and recommendations have been made to architect Neil Stewart regarding changes. It is hoped that a third set of drawings will be completed later this month so that they can be presented to a meeting of Associated Alumni and Alumnae Society members at which time they will be gone over once again with the architect. If the floor plans are given the green light the architect will be instructed to go ahead with detailed plans. It is expected that these plans will be ready in time to call for tenders so that excavation can start as soon as the frost is out of the ground in the spring.

SHIFT IN N.F.C.U.S. - I.S.S. SET UP

Plans for the re-organization of the local N.F.C.U.S. and I.S.S. committees were advanced and approved in principle at the S.R.C. meeting last Thursday.

In an attempt to streamline these two groups, and to provide more of the facilities which they can offer to the students of U.N.B., the present proposal will revamp the entire present systems and establish a single new body to carry out the functions of these two groups locally, and to provide many new services to the U.N.B. campus.

The change has been suggested by Colin Harrowing, N.F.C.U.S. Chairman; Don McPhail, who was appointed temporary I.S.S. Chairman at last week's meeting until the proposed alteration is effected, Joanne Corbin and Bob Sansom.

Further consideration and discussion of ways and means of effecting the necessary changes will be undertaken at a meeting to be held in the Forestry Building on Tuesday, October 21. Persons who are interested in this revision or in undertaking any of the projects mentioned below are invited to attend. Freshmen and Sophomores who desire an opportunity to become active in student affairs are particularly requested to be at the meeting.

The revision has been brought about by the complete inability of the present scheme to provide any concrete benefit to U.N.B. in return for the monies paid out during the last few years. The Committees on the other camp

(Continued on page 6)

Co-Eds for R.C.A.F. Reserve

Air Force activity on the campus will be vigorously stepped up as a result of three major developments in the University Reserve Training Plan (U.R.T.P.). All three are likely to boost the already high morale of the present group of R.C.A.F. reservists, though what will appeal most to the Co-ed element is the announcement by Flight-Lieutenant R.E.D. Cattlely that he has secured a quota for three girl students to join the boys, under the same conditions of training and pay, in the Administration and Supply Branches... with the possibility of additions to this quota.

The present group, numbering sixteen plus the intake for the current academic year has been officially established as a Squadron of which the former Air Liaison Officer, F.L. Cattlely, is designated Commanding Officer. This, at the moment of writing, constitutes a purely technical change. Recruiting will continue as heretofore for the three-year Summer Training programme and two other schemes.

What, however will give real life to the new squadron will be the acquisition of quarters permitting administration and the conduct of a full-scale winter training programme. If current negotiations between the Service and the University bear fruit there will shortly be accommodation for a Resident Staff Officer and a clerk.

(Continued on page 6)

S.R.C. Cleans Up Various Items

At the second meeting of the Student's Representative Council the application by Bob Scott and Grant Boudy to operate the public address system at such University functions as require use of the P.A. was accepted. This application was held over from the previous meeting so that additional study could be given it. Some changes were made in the conditions of the contract.

An application by Don McPhail to act as temporary local I.S.S. Committee Chairman was also approved. The International Service Committee along with the local N.F.C.U.S. Committee have been rather inert in the last two or three years and in an effort to get them back on their feet a plan was put forward to the Council by Don McPhail. The plan that met the Council approval is one that calls for amalgamation of the local I.S.S. - S.F.C.U.S. Committees under a single executive. It was shown that this would bring about certain benefits for the students.

N.F.C.U.S. Chairman Colin Harrowing informed the Council that the first edition of the N.F.C.U.S. International NEWSLETTER had gone to press. This publication is to be sent throughout Canada and the rest of the world to keep students in all corners of the globe informed as to what is going on on the Canadian campus.

A progress report from the Committee investigating the fracas at the Brunswick Street Bowling Alleys was heard and it was learned that the Committee had been down to the Alleys to discuss the matter with the proprietor, Mr. Deap. This topic once again received heated discussion as the Council strove to place the responsibility.

The S.R.C. also granted permission to the U.N.B. Varsity hockey team to participate in the schedule of the Fredericton Commercial Hockey League. However, certain limits were imposed regarding the amount of ice time the S.R.C. will pay for. It was decided that the team be given ice time for two games and one practice or one game and two practices per week. The Council also decided that tenders for the concession to sell S.R.C. Christmas cards must be in to the S.R.C. Office by Wednesday, October 22, 1952.

NOTICES

Tenders for the concession to sell students Representative Council Christmas Cards are being called for. All tenders must be in the S.R.C. Office by Wednesday, October 22.

Sophomore Notice

Applications are invited from eligible sophomores for the Dr. C. C. Jones Memorial Scholarship.

Only sophomores who received a first division mark on their freshman mathematics last spring are eligible. Sophomores who already hold a major scholarship are ineligible.

The award will be made later this month. It was established in 1950 by the Associated Alumni, and is valued at \$250.00.

Application forms may be obtained from Jack Murray, alumni secretary, whose office is on the second floor of the Arts Building.

The deadline for the return of completed applications is October 20.

THE BUDGET PROBLEM...

Despite the S.R.C.'s earnest attempts last spring to avoid many of the problems and stalemates that had faced councils in previous years, last week's second marathon meeting showed that all is not going to be smooth sailing.

The preliminary budget shows a surplus of about \$2000 in actual budgets, which should allow the Year Book debt to be almost entirely rubbed out... that is the debt from former years. Last year's book which is still in the process of being written, (minus its official editor) is still to be accounted for.

This term's budget, with its increased levy, gives but a comfortable margin. We can only wonder what is to be the situation next term, when the Year Book must budget for this year's book minus the selling income which cut it down in previous years.

Added to this is the financial implication of the Freshman Week fracas, an entirely unnecessary expense that is to fall on someone's shoulders when the special committee completes its report and recommendations. To take the money from the S.R.C. levy would be disastrous both to the budgets, and the opinion of students who are now paying for debts incurred in former years.

The S. R. C., at the close of last term, expected the increased levy to alleviate the budget strain. Under ordinary financial conditions, they would have been right. But our financial obligations at present are far from normal, and the S.R.C. has a hard job ahead of it, if it is to come out on top.

Letters to the Editor

The Editor, The Brunswickan. Dear Madam;

I have been asked by The Brunswickan to make a statement regarding the damage done down town, and about one or two other acts of 'rowdism', which somewhat spoilt this year's initiation week.

In the first place, I find that the attitude shown by the upper-classes and the S.R.C. officials is excellent. Excellent though this attitude is, it is not enough.

As for the car incident, in which a woman and a three-year old child were frightened, we can only be ashamed of it, even though no one set out to frighten women and children.

In fact anything which is a practical joke has in it so many unpredictable

The Editor, The Brunswickan. Dear Madam;

Many complaints are heard from the non-athletic students regarding the thousands of dollars of their money spent each year on athletics compared to only a few hundred dollars consumed by other student activities.

Since I am not a member of the S.R.C. and hardly think it necessary or feasible to start a 'Society for the Promotion of Student Typewriters' I would like to suggest through your paper that \$70 of the S.R.C. (i.e. students') funds might be well spent in providing a students' typewriter for use in the library.

With the hope that this request to the S.R.C. does not arouse a storm of protest about my ears, I remain, Yours sincerely, BILL REDDIN.

possibilities of harm that sensible people do not play practical jokes.

I congratulate students on their decision to pay for any damage which was caused during these initiation celebrations; but, I repeat, that is not enough. We need a wide-spread conviction that high spirits and jollification, appropriate to certain periods of the academic year, should not involve harm to others, the senseless destruction of valuable property, or bad public relations.

Yours very truly, A.W. TRUEMAN, President.

Here it is!!

The Time? Eight-thirty on Friday the seventeenth. The place? Our time-honoured Memorial Hall. The music? Dick Ballance and his hungry five. The admission? A trifling fifty cents. (Each contributor receives the grateful blessing of the Ladies Society). The event? Tch, tch! You mean you didn't know? Girls, it's the Sadie Hawkins Dance, and it promises, with plans still under way, to be the best yet.

Here's how you get to go there. Just dig out your oldest dungarees—if you want to dress Dogpatch style, so much the better. There's prizes!!—Where was I? Oh, yes, your oldest dungarees, tell your swain to wear the same and

lure him up to Memorial Hall next Friday evening. We leave the nature of the lure up to you. Tell him about the spine-tingling orchestra, tell him about the low admission price which you have to pay, or tell him we're serving fried cat's eye-balls. If he's a true red-blooded American boy like L'il Abner, that last is bound to get him. Everyone between nine and ninety is welcome—provided fifty cents can be produced—so come on up the Hill for a bang-up evening. In the meantime, don't forget our battle cry:—

"Foresters once, foresters twice
But Sadie Hawkins forever!"

Slabs and Edgings

by Hatch & Murph
Good news of interest to all foresters . . . your Forestry Association has completed plans for Forestry Week and here is the schedule: Sunday, Oct. 19 in the afternoon the Foresters take on the Engineers at College Field in a soccer game, Monday night at the same field at 7:30 the annual field day competition for the "Bull of the Woods" honors will take place, and for Tuesday evening a social has been planned. Friday evening will find everyone at the Beaverbrook for the best non-formal dance of the year, the Foresters' Dance! What about Saturday, the 25th? Brother, if you don't know what to do Saturday about 6:30 p.m. then what do you find so interesting in this column . . . non-forester! Keep your eyes peeled for a pamphlet bearing numerals which should show up on the campus about the 20th or 21st. If you have a pamphlet on your person at the Foresters' Dance it might prove of value to you.

We have been asked to clear up the question of lumber-grading in New Brunswick. With there being five grades of lumber, there seems to be some confusion as to which is which. To end the question, the five grades are as follows:— Grade 1, Grade 2, Grade 3, Grade 4, and Grade 5.

Artsmen's Corner:— Gems in this corner have been carefully gleaned by our vast staff of competent foresters. Selection for this week is an ode.

"Ode to my roommate"
5 bucks.

Pearls of Wisdom Dept.:— If one-half the trees in the U.N.B. woodlot were cut down by Canadians, cut up by Americans, skidded and piled by Swedes, hauled by Britons, bucked by Frenchmen, unloaded by Indians and

(Continued on Page 6)

Investors Hold Second Session

The University Investment Syndicate swung into high gear on Monday night as they held their second meeting of the current year. A stiff business agenda faced the members as they gathered in the Art Centre.

It was reported that Wiltsev-Coughlan held by the Syndicate had been sold and that Brazilian Traction had been held. Factors affecting the possible nationalization of Brazilian Traction were discussed. Penny stocks were discussed at some length and a further report is to be made at the next meeting.

It was decided that the syndicate would help members financially to the extent of paying the brokerage on stocks purchased by them in conjunction with the club.

A motion that members should pay a fee of one Canadian dollar was passed after the financiers dealt lengthily with the problems of such a move and its effect on the pocketbook.

It is hoped that Prof. W.Y. Smith (Economics) will address the next meeting.

A committee was set up to consider applications of new members and it is hoped to fill some of the eight vacancies which exist at present.

To close the meeting President Bill Reddin gave a short but most informative talk on aspects of buying and selling stocks. Such matters as how to make money on a rising or falling market, marginal buying, cheating, selling short, and many other stock terms of the market were explained by Mr. Reddin.

The heights by great men reached and kept
Were not attained by sudden flight;
But they, while their companions slept,
Were toiling upward in the night.

PHILOSOPHY CLUB ORGANIZED

For the past two weeks or so, science people have been cleaning out test-tubes, Foresters have been sharpening axes, and Engineers have been adjusting alidades; and now, yet another species of student feels that it is high time that he too did some adjusting (his chair), some sharpening (his wits), and some clearing out (his throat); and, as one might suspect, all this effort is directed towards promoting talk, for this particular type of student is a Philosopher. And talking, as everyone knows, is the special department of the philosopher, and some go so far as to say that talking is the Philosopher.

But that is questionable, and it just one of the questions that will be discussed at the meetings of the PHILOSOPHY CLUB. The purpose of this group, which was formed earlier this summer, is to have brought before it, with a view to examination and discussion, any topic, question, or problem that bears of a philosophic treatment. By way of encouraging participation from all present, it is hoped that the majority of the discussions will centre around a topic of general interest, with as few limiting technicalities as is possible. Membership in the group is certainly not restricted to philosophy students, nor to Arts students nor, in fact, even to students, in the technical sense of the word. Restriction, in a way, is the very opposite of what the club hopes to achieve; and the only qualification that it would ask for, on the part of the prospective member is a sincere interest in the problems that face us, as men and women, in the world today.

The PHILOSOPHY CLUB plans to meet twice monthly in the Art Centre; and the first meeting will be held on Monday, October 30, at 7:30 p.m.

THE CANADIAN ARMY OFFERS OUTSTANDING BENEFITS WITH THE REGULAR OFFICER TRAINING PLAN

To undergraduates who offer their services for a minimum of three post university years, the Canadian Army Active Force offers at least two years of university training beyond senior matriculation, with generous financial assistance under the Regular Officer Training Plan.

Applicants must be single, physically fit, able to meet officer selection standards and maintain a satisfactory military and academic standard.

Candidates will be selected during November 1952.

Come in and discuss the details with me

ST. THOMAS UPSETS BOMBERS

Pat Barry Leads Tommies to 19-5 Victory at College Field Saturday

By Bill Cockburn

The Red Bombers, seeking to retain their N.B. Football Crown, ran into a singular stumbling block Saturday afternoon in the person of one Pat Barry. The boy from the north with the precision arm was the whole story as the highly underrated St. Thomas booters ground the champion Bombers into the ground with a smashing 19 to 5 win at College Field. Throwing passes with equal effectiveness from all positions and in all directions the starry Barry personally accounted for the unwinding of the David and Goliath story which saw the much improved St. Thomassans push the final outcome of the N.B. Football League back into the realms of speculation.

The boys in the Green and Gold, picked by most as the weak sisters of the league, wasted no time in proving that this was a different year and a greatly superior team than that which was whitewashed here a year ago. The game was but three minutes old when the Barry arm made its first appearance with a ten yard toss to brother Mal who raced the remaining twenty-five yards to shove the Saints into a 5-0 lead. Barry's toe failed to produce as well as his arm, and the convert sailed wide.

The same toe found the distance on the following kick-off however, and when Pollock finally pulled it down behind his own goal, his momentary fumbling gave Joey George time to crash the U.N.B. line and haul him down for a rouge point.

The scoring for the first quarter ended when the Bombers received the kick and marched to a pair of first downs, climaxed by Naysmith's 25 yard flip to Pollock who sprinted the remaining 20 yards to pay dirt. The convert was missed and the quarter ran out with St. Thomas holding a 6-5 edge.

The second stanza was barely underway when the same Pat Barry found the range with a field punt and the Green and Gold total rose to nine. That was it for the scoring, and although the Tommies carried the play and pressed consistently, missing a close one when a Barry pass was dropped by the receiver in the Bomber end zone, the U.N.B. line held and the quarter ended St. Thomas 9, Bombers 5.

The story of the third period was on the same pattern with the Saints threatening and the Red and Blackers defending. Four successive first downs by the Tommies set the scene for another Barry toss, this time to Boyle who made no mistake as the score mounted to 14-5 for St. Thomas, the convert again being missed. The Bombers then took the offensive and marched to the Green and Gold 20-yard line before an intercepted pass brought them to a halt.

The fourth quarter found the

Saints in possession on their own fifteen as the result of the interception, but they failed to make ten and the Red and Black took over. Their possession was short-lived however as Naysmith fumbled on the forty and from there the Tommies executed a series of plunging and aerial plays which carried them the whole way home, with the final touches as usual being a Barry fifteen yarder to brother Mal. The convert record for the day remained unscarred and the final accounting read St. Thomas 19, U.N.B. 5.

Through the entire game the Tommies showed superiority in all aspects of the game, on the ground, in the air, and in the line. The U.N.B. line appeared at times to be extremely weak and their failure to cope with the effective aerial attack executed by the Saints was the big blow in their defeat. The Bomber ground attack was also found wanting as they managed only one first down in this manner compared to St. Thomas's seven. Via the air route the Bombers picked up four first downs but the nine achieved by the Green and Gold on the arm of Pat Barry told the tale.

The star of the game was the boy who made the difference, Pat Barry, receiving able assistance from the second half of the Barry combination, Boyle, and George. For the Bombers in defeat we will have to go with Naysmith, Pollock, Doiron, and Schure—all a bit off their games but never the less the mainstays.

The Bombers will attempt to hit the winning circle again next Saturday when they journey to Moncton for a clash with the Trojans, returning home the following week against Tri-Service. U.N.B. Lineup: Oatway, Locke, Zarensky, Doiron, Gibson, Moller, Bliss, Webster, Neil, Elliot, Fowler Collis, Naysmith, Schure, Pollock, Kerr, Shersmith, Palmer, McLean, Edwards, Bartlette, McLaren, Henry, Hammond, Stewart.

The St. Thomas lineup was not immediately available.

U.N.B. to Play Commercial Hockey League

The U.N.B. Senior Varsity Hockey team will definitely play in the Fredericton Commercial Hockey League this season. This will give the team the chance to get some games under their belts before the beginning of the Maritime Intercollegiate playdowns which are slated to be run off in late February and early March.

After a long debate at last week's meeting the S.R.C. turned down a motion for the withdrawal of their support from Varsity hockey until after the Christmas recess. On Thursday night, the team was entered in the Commercial League by Coach Kelly.

This season the League will consist of four teams. They are the Merchants, Army, the Power Commission, and U.N.B. The League will begin its schedule around the first of November. The games will be played at the York Arena on Saturday evenings, with each team playing one game per week.

All these plans are tentative, but it is hoped that they will be finalized at the next meeting of the loop.

H.M.C.S. Brunswicker Downs U.N.B. 4-2

The U.N.B. Varsity Soccer team played its first game Tuesday, October 7, against H.M.C.S. Brunswicker of St. John. The final score was St. John 4, U.N.B. 2.

St. John scored two of its goals in the first half. Terry Kelly, a former U.N.B. player, scored the first one through a maze of players which Hassel, the U.N.B. goalie did not see. The second goal for St. John was a perfect shot just below the cross bar of the goal. It was kicked by Stan Bell, captain of the Brunswickers.

The second half opened with a goal by Victor Randall, centre half for U.N.B. This made the score 2-1. Then St. John scored two more goals by Price and Muir. Muir's goal was off his head a few feet from the goal mouth. Harry Fairbairn, U.N.B.'s captain made the last tally of the game kicking midway between the centre line and the goal.

U.N.B.'s lack of practice showed throughout the game as they missed many chances to score. It will be hard however to take the M.I.A.U. championship away from them when they have had more practice.

The line-ups were as follows: U.N.B.: Hassel, goal; Fairbairn, full back; Hacker, half back; Risten, half back; Reid, centre half; Randall, centre forward; Simpson i. r.; Morell, o. r.; Sonjanski, i. l.; Coster, o. l. SUBS: MacDormand, Kelly, Scott.

H.M.C.S. Brunswicker: Harding, goal; Vanbeelen, full back; Puddle, full back; Maxam, right half; Bell, centre half; Kelly, left half; Muir, centre forward; Stone, inside left; Crowe, o. l.; Price, i. r.; Pearson, o. r.

Mal Millar takes First Place In Maine Cross Country Race

For the first time in five years of competition the U.N.B. team has taken first place in the annual four mile race with the University of Maine.

Mal Miller, senior forester veteran of five years' competition with Maine took first place with a time of 22:23. Mal has previously taken second place twice, and third and fourth place once.

The total score, although higher than Maine, is the best ever for U.N.B. with relative totals of 21:18. Last year's score 18:45. The method of scoring gives one point for first place and fourteen points to fourteenth place, with the lowest score winner.

The race got off to a fast start with U.M. leading. Mal Millar took the lead from three Maine runners at the one and a half mile mark and steadily increased it to the finish line. Mal's nearest rivals were 150 yards and 19 seconds behind.

The U.N.B. Team chosen from trials last week took the following positions:

- 1 Millar, M., Forestry.
- 6 Terris, D., Chemical.
- 10 Swan, B., Electrical.
- 11 Lavolette, H., Electrical.
- 12 Washburn, R., Civil.
- 13 Gorman, T., Civil.
- 14 Lister, J., Forestry.

Especially pleasing was the interest and ability shown by the freshman competitors who took places 6, 11, 12, 14.

SWIMMING POOL SCHEDULE

Free Swim Periods	Mon.	Tues.	Wed.	Thurs.	Fri.	Sat.
Mixed		4:30-5:30	4:30-5:30	4:30-5:30	4:30-5:30	4-5
		8:30-9:30			8:30-9:30	

H.M.C.S. Brunswicker: 4-5:30

Faculty & Alumni: 8-9

This schedule will be revised at a later date and will include Varsity team training, intramural water-polo, faculty and alumni (ae) swim periods, instruction in canoeing, swimming and water safety.

Students so wishing will be examined under the Red Cross system and may qualify for junior, intermediate or senior swimmers' rating. Inquiries are invited by the Physical Education Department.

What is the best personal Investment Plan?

One based on Life Insurance.

When you save through life insurance you put your savings on a sound, regular basis. You are sure of saving a set sum each year through your insurance premiums. This money is invested by your insurance company skillfully and safely. For long term profitable results (plus family protection in the meantime) saving through a Mutual Life of Canada policy cannot be excelled.

Tennis Team to Halifax Saturday

On Saturday, October 18, the U.N.B. Varsity Tennis squad will journey to Halifax to take part in the annual Maritime Intercollegiate Athletic Union Tennis tournament to be held on the courts at St. Mary's University. Entries are expected also from Mount Allison, St. Francis Xavier, Acadia and King's College, Halifax.

Last year's tournament, which was held here in Fredericton, was won by the team from St. Mary's. This year, however U.N.B. will be out to avenge last year's defeat.

Trials were held at the courts at Queen Square and after an elimination series was run off, the team was decided upon. The team consists of Burt Simpson, who won the tryouts; Jim Crocker, runner-up; and Jim Burley; all of whom were members of last year's team. The female members of the squad are Nancy White, Marg Vermeeren, and Barb Fisher, none of whom have played in intercollegiate tournaments previously.

INTRAMURAL SOCCER HEEDS BASEBALL EXAMPLE

RESULTS, WEDNESDAY, OCTOBER 8th:

Faculty 2, Senior Foresters 0
Residence 1, Foresters 234's 0
Arts & Science 2, Engineers 0

Despite the overall superiority of cricket, baseball does have its spheres of influence. Examples set in the recent World Series did not go unheeded by players in U.N.B.'s Intramural Soccer League.

The Faculty must surely have taken heed of the example set by Johnny Mize of the New York Yankees. If age was no handicap in baseball, why should it be in soccer? On Wednesday evening the not-exactly-youthful pros trounced the burly Senior Foresters 2-0 to chalk up their second straight victory.

A member of the Residence team, too, showed that the Dodger-Yankee Series had left its mark. If individuals could equal and make new records on the baseball diamond so could they on the soccer field. Bill Ayer, by cracking in his first goal of the season against Foresters 234's, equalled his scoring record of last year. With three games yet to be played it is almost certain that young Ayer will chalk up a new individual record. Incidentally, this lone goal was sufficient to give the Residence their first victory of the season.

In the third game of the evening, Arts & Science, the Yankees of intramural soccer, proved that it's a difficult job to dethrone a reigning champion. The Engineers tried and failed. Arts & Science scored twice without reply from their opponents.

After two weeks of play Arts & Science and the Faculty share top spot in the league with two wins and no losses; Residence and the Engineers are tied for third place with one win and one loss apiece; and the Foresters 234's share bottom spot with their senior brethren, both teams having two losses and no wins.

LEAGUE STANDINGS, October 8th—

Team	W	T	L	GF	GA	Pts
Arts & Science	2	0	0	3	0	4
Faculty	2	0	0	4	1	4
Engineers	1	0	1	2	2	2
Residence	1	0	1	2	2	2
Foresters 234's	0	0	2	0	3	0
Sr. Foresters	0	0	2	0	3	0

SOFTBALL PLAYOFF SCHEDULE

SEMI-FINAL

2.00 p.m., October 8th —

Brown Bombers vs. Freshmen (Large Field)
Upsets vs. Residence (Small Field)

FINAL

3.30 p.m., October 18th —

Winning teams play first game of best-of-three series.

2.00 p.m. and 3.30 p.m., October 19th —

Second and third game of Final.

(All playoff games will be nine innings if conditions permit.)

INTRAMURAL SOCCER SCHEDULE

Wednesday, October 22nd—

7.00 Arts & Science vs. Residence
8.00 Senior Foresters vs. Engineers
9.00 Faculty vs. Foresters 234's

Wednesday, October 29th—

7.00 Foresters 234's vs. Arts & Science
8.00 Residence vs. Senior Foresters
9.00 Faculty vs. Engineers

Notices From Physical Ed. Dept.

Intramural leagues in Basketball, Hockey and Bowling will soon be organized. Entries are being called for immediately from various campus organizations and groups. The deadlines for the entry of teams in these leagues will be announced in next week's issue of the BRUNSWICKAN.

If enough interest is shown, there will be Five Pin and Duck Pin Leagues as well as the traditional Candlepin loop. Teams interested in Bowling should get their entries in as soon as possible in order to get the best choice of alley times.

It is hoped this year to limit the teams to certain boundaries. That is, if a large group such as the Foresters decide to enter only one team in Intramural Basketball, they would be asked to break their team down into several teams in order to prevent "packing".

Hockey and Basketball Refs Wanted Now

Referees are required immediately to handle games in the Intramural Hockey League and the Intramural Basketball League. Would anyone interested in arbitrating please leave his name at the Physical Education Office in the Gym. It is hoped to hold a meeting of these referees before the season opens in order to assure uniformity in the calling of certain plays.

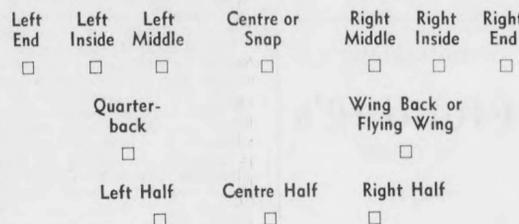

Introducing . . . Canadian Football

The modern game was organized in 1882 under the Canadian Rugby Union. Since then, the game has been developed and improved in such a way that the present-day sport has become highly specialized.

In watching the game, one might liken it to two armies. The five-star general would be the coach. He trains and develops the team, teaches them the plays, and directs his second-in-command, who is the quarterback. As the field general, he is in command while the team is playing. It is up to him to call each play—to look at the enemy and try to see where its weakness lies. As a rough example, if the quarterback sees that the opposition has closed in together near the centre of the line, he will probably call for a pass play. On the other hand, if the enemy has spread out, he would probably call for a running play.

It is up to the rest of the players to do what the quarterback orders. Each man has a certain job to do in each play and the failure of anybody to do it may quite easily mean the failure of the play.

We have mentioned the position of the quarterback. Here are the other positions and how they line up on a normal running play:

Many people have difficulty in figuring out the use of the yardsticks along the side of the field. Well, in this game the team in possession of the ball has three tries (called downs) to make ten yards. If they do so they maintain possession of the ball and try again. If they make the ten yards in less than the three downs so much the better, for as soon as they make that they start on another three downs in an attempt to make ten more. In practice, most teams, if they do not complete the ten yards in the first two downs, elect to kick the ball on their third down so that the opposition will be as far back as possible when they gain possession of the ball.

SCORING

TOUCHDOWN—5 points—When ball is declared dead behind a team's goal line in possession of an opposition player.

CONVERT—1 point—Can be attempted only after a touchdown by:

- Kicking a goal (normally a placement).
- Carrying the ball behind the opposition goal line.
- Completing a forward pass behind opponent's goal line.

ROUGE—1 point—occurs when:

- A player in possession of the ball is tackled behind his own goal line.
- The ball is kicked over dead-ball line or over tackle line behind opponent's goal.

SAFETY TOUCH—2 points—When the ball is rouge provided the ball has been carried, kicked, or passed from outside the goal line to or behind the goal line by the side against which the rouge is scored.

GOAL—3 points—A goal is scored when the ball is kicked except by a punt, flying kick, or kick-off from the ground without touching the ground over the cross-bar and between the posts (or the posts produced) of the opponent's goal.

PENALTY SIGNALS

- Either arm straight out from body—rough play.
- Arm rotated in circular motion—too long putting ball into play.
- Hands on Hips—offside ball, kicked from scrimmage and before crossing line of scrimmage, strikes player of kicker's side who is "off-side".
- Grasping of one wrist—illegal use of hands and arms.
- Pushing movement of hands to front with arms hanging vertical—ball illegally put into play.
- Horizontal arc of either hand—offside pass.
- Shifting of hands in horizontal plane—an illegally thrown forward pass and-or one thrown with apparent intent to save loss-of-yardage.
Folded arms—"no yards" on kicked ball. Kicked ball touched by "off-side" player.
- Pushing hands forward from shoulders with hands vertical—illegal interference.
- Both arms straight out from body — forward pass touched or caught by ineligible receiver.
- Both arms extended above head—a score. (Bringing hands together indicates a "Safety Touch" score.)
- Striking back of knee with hand—clipping or blocking from rear.
- Hand to head in salute—talking.

Co-Eds for RCAF Reserve

(Continued from Page 1)
steno, and a lounge for the Flight Cadets. All will be fitted up on the generous scale allowed for such University units, and the group will at last have an independent home of its own comparable to that of the U.N.T.D. and the C.O.T.C.

Whether or not this materializes, recruiting is now open for Females as well as Male undergraduates. Conditions of service are, briefly, that recruits for Aircrew and the female quota must be single (male non-flying personnel may be married if 23 years of age or over) and the girls must have reached their 18th birthday but not their 29th birthday on date of application. Pay is approximately \$170. per month for approximately four summer months each year, with uniform and sports gear provided. In addition there will be 16 days pay for the 64 hours of winter lectures prescribed for each course "year". Candidates must normally give three undergraduate summer vacations to training at R.C.A.F. centres, and after successful completion of the second year will receive the Queen's Commission. Their obligation thereafter is to join one of the Active or Non-active Reserves, the basic aim of the plan being to provide the country with a pool of trained

personnel. For particulars see the advertisement in this issue (page 6) and apply to F.L. Cattley.

For Co-Eds the whole scheme (not least the pay) sounds pretty attractive.

Slabs and Edgings

(Continued from Page 3)
made into pulp by North Koreans, the other half would probably still be standing.

Advice to the Freshmen Foresters:— It's time to start thinking about next summer's job and here's a few timely tips that will help you get along during your first summer in the woods. To begin with, when your prospective employer asks you how much you expect to be paid, be sure to ask for around \$200. This will assure him that it's not really the money but the experience that you are interested in. Get in good with your party chief by taking an interest in your work and help him all you can by finding short cuts and making suggestions for improvements. For instance, we heard that one lad found a way to use a stereoscope using only one photo—truly a time-saver. Always try to be first up in the morning, to show you're eager to start the day, and sing or whistle to yourself or play the radio and kid around with the rest of the crew which is still in bed. This pleasant atmosphere in the a.m. leads to a pleasant day in the field. Be keen in the field. Take time out to check-up the other lads' work and in this way keep the crew on its toes. Step on the chain every once in a while—this keeps the compassman alert and on course. And above all, don't let any upper classman in the crew play any of the old-time tricks on you. They will disguise tricks in the form of advice on how to do things, claiming that their way is the best way. In a case like this, just smile benevolently and carry on in the way you think best. A parting word: Brush up on your first aid . . . it will come in handy.

Shift in NFCUS-ISS Setup

(Continued from Page 1)
have succeeded in providing many services to their student bodies and have succeeded in not only becoming financially independent of the Students' Councils but in becoming actual revenue making organizations.

The merging of the two groups into a single unit will not cause them to lose their identities, but will serve to strengthen their causes and to facilitate administration.

In addition to the transaction of regular N.F.C.U.S. and I.S.S., the new body will expand, and in fact concentrate, its energies on local activities. A few of which are projected and which are of immediate concern deal with the possibility of organizing a joint movement with other N.B. Universities to seek abolition of the sales tax on text books; an attempt to organize a part-time employment service for students; the establishment of a second-hand book store and investigation of the possibility of operating the present book-store — a project which was brought almost to completion by N.F.C.U.S. a few years ago.

Several other items were mentioned some of which were concerned with the potential utilization of existing N.F.C.U.S. and I.S.S. facilities not available at present to U.N.B. students.

The feasibility of the change in system is certain. The establishment of a new body is obviously desirable provided the necessary support is given. The originators of the plan feel that the potential is great since it provides opportunity for students to devote a limited amount of time to a worthwhile project chosen from a variety offered.

Results of the organization meeting next Tuesday will be communicated to the S.R.C. and the ultimate sanction to the new group will be sought. It is hoped that at least a provisional executive and a preliminary plan of action may evolve from Tuesday's gathering.

**OPPORTUNITIES FOR EMPLOYMENT
FOR SCIENTISTS and ENGINEERS
with
THE DEFENCE RESEARCH BOARD**

- Positions are available at Bachelor, Master and Doctorate levels in most of the fields of specialization in Science and Engineering and at many locations in Canada.
- Opportunities for either full-time or seasonal employment are offered.
- Modern laboratories with the most up-to-date equipment provide excellent working facilities. Five day week in effect.
- Full-time employment benefits include
 - Excellent superannuation plan.
 - Hospital and medical insurance benefits.
 - Generous vacation and sick leave privileges.
 - Career planning programme.
 - Excellent opportunities for promotion and for scientific advancement.
- SALARIES
 - Full-time Employment*
Initial salaries will range from \$3,250 to \$4,600, depending on academic qualifications. Liberal allowance will be made for pertinent experience. Annual salary increment plan in effect.
 - Seasonal Employment (1 May-30 September)*
Approximately \$200.00 to \$300.00 per month, depending on academic level. In addition, assistance towards the cost of transportation from university to the place of employment and return may be given in certain cases. Applications for seasonal employment should be filed by 1st February, 1952.
- How to Apply
Descriptions of positions available will appear on University notice boards in October and representatives of the Board will visit the University in November, December or January for the purpose of conducting interviews. Undergraduate and graduate students and others who are interested in investigating the opportunities of either full-time or seasonal employment with the Board are requested to secure application forms from the University Placement Officer. When completed, the forms should be returned to the Placement Officer so that interview schedules may be arranged.
