## ARRIVAL OF THE STEAMER WASHINGTON.

The steamship Washington arrived at New York on Saturday, having left Bremen on the 15th of April, and Southampton on the 20th :-

The Gorham controversy is still active among our Church people. Miss Sellon, the "Mother Superior of the Sisters of Mercy" at Plymouth, has written to Lord Campbell, the Chief Justice of Engla 4f, declining to allow him to continue as a subscitcher to an "Orphan's Home," which sice had established, in consequence of his having voted in the privy Council in favour of Mr. Gorham's "heresy"! The toma of the letter was that of affectionate regret over a lost soul, and poor Lord Campbell wrote back to arge that this sert of excommunication from deeds of charity was rather hard against a layman who had mercly acted according to his conscience, and who had the Architisher of Canterbury and most of the bishops on his side.—Miss Sellon, however, was inexocable, and his lordship then published the correspondence in the newspapers, an act against which Miss Sellon protests as "an infringement of the courtesy most especially due to a woman." "The letters," she says to him, "were a sacred matter between your conscience and my own and our God, and are, I need scarcely observe, singularly unfitted for the columns of a newspaper."

In connexion with church matters, there was also a large meeting held the day before yesterday to forward the establishment of the new Colony of Canterbury in New Zealand. It is proposed to charge the absurd price of £3 per acre for the land, £1 of which is to be app opriated for clerical wants; and the appointment of a Bishop with £1000 a year is one of the first acts contemplated. All the plans developed by the various speak, as showed a spirit of pr.de, exclusiveness, and intolerance, and the great evils of American life were attributed to the early neglecting to settle the country upon Church principles. The Bishop of Oxford observed how ready Englishmen were in speaking of the peculiar ities of their and in the suntreal process of the same toops.

The Cataatrophe at Angers.

The following defails of the eatastrophe are given in the Journal de Maine et Loire of the 16th:

"A frightful event has just occurred here. At 11 o'elock this morning a squadron of Hussars, coming from Manten, kad crossed over the suspendion bridge of the Base Maine, without any accident, although the wind blew very heavily from the West and the river was much agitated. At Dantzic alone vessels capable of carrying 14,000 qrs. had been chartered to load for England in the space of little more than a week, and from the near continental ports shipments are making daily. It is consequently clear that no rally in process can be calculated as an long semothing occurs to threaten injury to the growing corps. The stationary price of Consols will show the total absence of all excitement in the money market. Last week they were at 95%, and to-day they have closed at the same quotation. Prices would advance but for misgivings as to the course of events in Paris. Railway shares have experienced another serious depression, and those of the Great Western line, which in August 1845 were quoted at 236 have been done this week at 46.—Total distrust in the present system of working is the sole cause of this fearful depreciation, and nothing but a thorough revolution in the mode of management will bring a cure.

The cotton market, which was active last week at firm prices; has been again firm with a rise in some cases of 4d. per 1b.

In the grain market there has been a farther decline of 1s. to 2s. per quarter in the price of wheat. The Upper Canada journals make mention various parties of adventurous young men abandoning this Province to proceed to the golden regions. The reason for their departure assigned, is the hopeless prospect of any improvement in Canada under the existing system of Government. Yet, while admitting the decay of agricultural and commercial enterprise, they-some of themsneeringly reject the possibility of our becoming Americanized, forgetful of the result that every Canadian who emigrates to the United States, and becomes wealthy as an American citizen, adds another link to that chain of mutual interest which must ultimately end in a common na-

Weather. The incessant rain which fell without intermission during the fifth, has inflicted serious loss upon many parts of the country-rivers have overflowed their banks throughout the district between the St. Lawrence and the Frontier, carrying away bridges, mill-dams, mills, and farming stock. In some localities, such as St. Hyacinthe the cattle were saved by rafting them from the barns to high grounds. On this Island, we are informed of an instance where five acres of springplanted potatoes were swept clear off.

GUM ARABIC.

An article which, in every respect, supercedes Sugar both on account of its bening virtues, and its durability. The discovery of the improvement is theresult of a succession of experiments during three years. For the invention of which, Dr. Halsey has been awarded the only patent ever granted on Fills by the Government of the United States of America.

The Gunn-Costate forest Fills present a beautiful, transparent, glassy appearance. The well known wholesone qualities of pure Gunh Arabic with which they are conted, renders them still better than Dr. Halsey's Sugar-Costed Fills. The Gunn-Costad Fills are never lable to injury from dampness, but remain the same, rotaining all these victues to an indefinite period of time, and are perfectly ires from the disagreeable and nanisating tasts of Medicine. In order to avoid all impositions, and to obtain Dr. Halsey's true and gountine Fills, see that the label of each box bears the signature of Ga'W. HALSEX READER!! If you wish to be sure of a Medicine which does not contain that lurking poison, Calomel of Reroury, purchase Halsey's Gunn-Conted Forces Pills, and avoid all others.
